Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

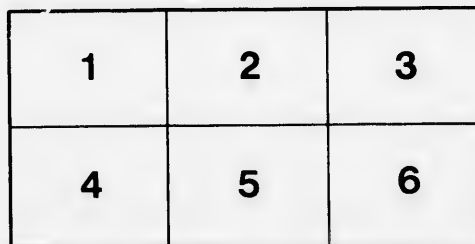

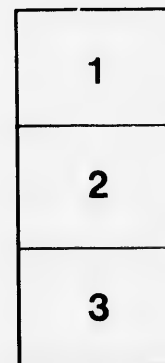

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol $\longrightarrow$ (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole $\longrightarrow$ signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PICTORIAL JUBILEE NUMBER, PREPARED AND PRINTED AT THE
OFFICE OF THE SENTINEL-REVIEW.

WOODSTOCK, ONTARIO, CANADA. MAY, 1897.

HER MAJESTY, QUEEN VICTORIA.

It is to say that there is no Country more loyal to its Monarch than is the self-governing colony of Canada to the Queen of the day. It is the day, on which day in each year a special observance is made in Canada, the anniversary of the day that has braved a thousand years. In British North America there is no flag like the Old Union Jack that has braved a thousand years. As practical evidence of the strong feelings of love Canada has for Great Britain and the Empire, the Parliament of the Dominion of Canada has granted preferential trade to the mother Country. From this day forth, with a louder shout of joy, we go up to the fair of the day will be one for rejoicing. All will unite in the grand celebration of the day. God Save the Queen.

J. S. MACKAY, TREASURER

One of the pioneer and best teachers in music during the 1940's at the conservatory of Moscow, Dr. W. G. Kozlov, the noted musicologist and music fact collector, Mr. Kozlov came to the U.S. on a temporary assignment to the U.S. State Dept. to study the American music scene. He had a very strong knowledge of the American scene and he had a strong knowledge of the Russian scene. He had a very strong knowledge of the American scene and he had a very strong knowledge of the Russian scene.

For the purpose of this study, the sample was drawn from a population of 100,000 households in the metropolitan area of Mexico City. The sample was selected using a two-stage sampling method. First, 100 primary sampling units (PSUs) were randomly selected from the list of all PSUs in the metropolitan area. Then, within each PSU, a random sample of households was selected. The final sample size was 10,000 households. The response rate was 85%.

I once found a Kibari. For \$100, I got a wealth of a trial and a legal, legit to pass up a lot of self to be better than my previous goods for the measured simplicity of the

The Thomas Organ and Piano Company is the best established musical instrument manufacturer in Western Ontario, having over 20 years experience, all of them in Woodstock. The making of pianos was started last year and the firm today has one of the best equipped factories in Canada. The reputation of the Thomas instruments in the past will be more than sustained in the future. The high civilization of the instrument here classifies one of the finest and best in an organization of the high one and the quality of everything that goes into the work.

The World Bank Business College is a growing institution, so much so that two more colleges have been engaged to commence studies in the near future. Its Principal, Mr. H. M. Kenney, has endeavored to make it one of the first colleges in the Dominion in thorough business, in short and training, and has gained his point in much less time than was expected. To day the school is recognized over all Ontario, as one of the few which turn out really thoroughly trained practical office help. It has two courses of instruction, Business and Shorthand.

hats, fancy gloves, and patent leather boots. London tailors say they have never made a few extra fine coats. In England the trend in dress has led to a decline of special materials, elastic, soft and without gentleness. JOHN WHITE & CO.

The largest dry goods and clothing establishment of Western Canada. The business was established in 1881 in a store then situated on the corner of 4th and Dundas streets. From that time the firm has been in the trade and which gradually increased until the premises were on two occasions greatly enlarged. Mr. John White built the centre store (an interior view of which is given on the third page) which the firm now occupy in 1908. It was then occupied by the finest dry goods store in the Province. Later the firm added two other stores, the one to the east for men's ordered and ready-made clothing and men's furnishings on the ground floor and carpets and window shades and window blinds department on the second floor. The store west of the centre building referred to is filled

YOU'RE NOT HERE YET

In the world-broad field of battle

You will not be in it, boys

If you do not daily rattle

Round an I make a leap or nose

While we make this suggestion we respectfully ask you to visit around and see our bright merchandise, fresh and crisp as a new tank suit, and show offer at moderate prices. We are no old stores in this goods. Ours are the latest colors and styles, and you'll not be in it if you wear anything else. Our ever increasing business is the best evidence of the goods we sell. See the great range of bicycle shoes at prices from \$1 to \$2.50. We're always in it with high goods and prices. Write shoe store, next to Goldbacks.

W. A. KARN, DRUGGIST

This cut represents the interior of one of the finest furnished and best equipped drug stores in Western Canada. The proprietor, W. A. Karn, is one of the pioneer chemists of the town of Woodstock, and is a member of the council of the Ontario College of Pharmacy. He is not only a druggist of wide experience himself, but one of the few retail drug men in the Province who employs a graduate clerk to assist him in the dispensary and behind the counter in order that his customers may at all times rely upon securing the advice and services of experienced and competent men. Mr. Karn has not only a hand-embroidered chemist's shop, but has it well supplied with one of the largest and best assorted stocks of drugs, chemicals, patent medicines and druggists' sundries to be found in Western Canada. His dispensary above all things is his pride, having it fully supplied with the latest medicines from every portion of the globe. He, in consequence, enjoys very largely the patronage of the physicians of this locality. His place of business is central in 423 Dundas street.

HARTLEY BROS., STOVES, ETC.

The Messrs. Whitney Bros. of 423 Dundas St. carry a large stock of stoves, portable kitchening goods, etc. They are agents for Hartley's famous stoves and furnaces. These now range the Famous Avenue in 4 and below is not only a variety but one of the finest working ranges made. The new Famous Model for wood is a perfect baker and very handsome in appearance, with steel oven and thermometer in oven door. Interested purchasers should see these stoves. They also handle a full line of summer stoves, several different styles of gas, gasoline and oil stoves. The Blue Flame is something new and much admired by the ladies. Refrigerators, washing machines and wringers great labor savers. In the plumbing room you will find roll top porcelain baths, the Booth steel and

Why do the people of Canada and the United States speak English? It is because John and Sebastian Cabot discovered North America 400 years ago June 14 next. Columbus did not discover North America, Central and South America were the only parts of the continent upon which he set foot; on that account they were claimed by Spain, and Spanish is their language. But Cabot discovered North America, and on that account this part of the new world was claimed by the English, who later sent colonies to settle it.
