50 TO 60 INJURED WHEN PARK PIER COLLAPSED

Wharf at Montreal Pleasure Resort Was Packed With People When Whole Centre Caved In—No Deaths Reported, Worst Cases Being Broken Legs and Ribs.

MONTREAL, June 25.—Thru the collapse of a wharf at King Edward Park, a pleasure resort on Isle Gros Bois, 13 miles from here, between fifty and sixty people were injured and the wildest excitement caused thruout the city.

The disaster occurred at 7 o'clock when the wharf was packed with hundreds of pleasure seekers awaiting the ferry boat which would carry them back to Montreal.

The only warning was a crackling of strained timbers a few seconds before the whole centre of the wharf caved in. The people tried frantically to retreat, but so large was the crowd that escape was impossible and hundreds plunged downwards in the midst of shattered beams and planks.

The exact nature of the accident was then not known and every ambulance in the city was hastened to the city pier, while rumors of 30 and 40 killed were spread everywhere. At the park, meanwhile, cooler heads organized those who had escaped the cave-in and the victims were extricated from the debris, while petticoats and handkerchiefs were hurriedly torn into bandages to do duty until the doctors should arrive.

So far no deaths have been reported, the worst cases being broken legs and ribs. About twenty cases were removed to the hospitals, the others being sent home after the wounds had been dressed.

The park has just been opened for the season after a great deal of new construction work having been done. Over ten thousand people visited it on Sunday.

No official statement has been made by the proprietors of the park.

CRUSHED TO DEATH

Between Steamer and Side of Welland Canal Lock.

ST. CATHARINES, June 25.—(Special.)—Euzere Berliault, a young French-Canadian from Cedar, Soulanges County, Quebec, met his death early this morning at lock one, new canal, Port Dalhousie, when he was crushed to death between the concrete wall of the lock and the side of the steamer Keystrom, on which he was employed.

Between Steamer and Side of Welland Canal Lock.

ST. CATHARINES, June 25.—(Special.)—While returning home at 5.30 last evening a young boy named Walter Schumaker, 10 years old, who lives in South Township, was thrown out of the buggy in which he was driving and badly injured. The horse took fright at a passing automobile and galloped down the hill, dashing into the cutting at the canal bridge where Schumaker out. He was picked up and taken to the residence of Dr. Taylor, who found an arm broken, the wrist injured and the young lad otherwise badly shaken. After his injuries had been dressed the boy was taken to his home in Louth.

Wilson, Windermere, Muskoka; and Mrs. Sherlock Hubbard, St. Yorkville-avenue.

BRITAIN PAIN DOWN

Insists on More Precise Information About Moroccan Intentions.

PARIS, June 25.—A despatch to The Temps from Madrid says that the Spanish cabinet having replied vaguely to the request from Great Britain to explain her intentions in connection with the occupation of El-Araish and Alcazar, England has asked Spain to give a British Government more precise information concerning Spain's Moroccan program.

A reply to the second enquiry has not yet been received.

CONSECRATION OF BISHOP CLARK

Successor to Late Dr. Dumoulin, Bishop of Niagara, Installed at Hamilton With Imposing Ceremonial.

HAMILTON, June 24.—(Special.)—Venerable William Reid Clark, M.A., was consecrated Anglican Bishop of Niagara, in Christ's Church Cathedral here this morning. The ceremonies incident to the event were most impressive and were participated in by the Archbishop of Ottawa, the bishops of Huron, Ontario, Toronto and Algoma, Rev. Canon Abbott and a large number of the clergy of the diocese. The cathedral was well filled with spectators, but not crowded.

The consecration service began at 11 o'clock, when the Archbishop of Ottawa, the bishops, three chaplains and the clergy, all fully robed, entered the cathedral to the strains of the processional hymn. The communion service was administered by the Archbishop of Ottawa, and the presentation of the epistle by the Lord Bishop of Huron. The gospel was read by the Lord Bishop of Algoma.

The bishop-elect was presented to the Archbishop by the Bishop of Huron and the Bishop of Toronto, after which the chancellor of the diocese read the certificate of election and the certificate of the metropolitan. The Litany was chanted by the Rev. Canon Abbott and the choir, and the prescribed questions were then put to the bishop-elect by the archbishop.

While the anthem was being sung the bishop-elect retired to put on his full robes, and on his return the solemn ceremony of the consecration proper was performed. The officiating concluded the services, which consumed nearly two hours. The weather being cool, no discomfort was experienced by anyone in connection with the important event.

The installation service at 3 o'clock this afternoon was more brilliant than the morning service, but was completed in about half an hour. The Bishop of Niagara, preceded by the pastoral staff, was met at the west door of the cathedral by the metropolitan, the Dean of Niagara and the rector of Christ's Church, and all proceeded to the chancel while a psalm was being chanted. The bishop remained at the chancel steps while prayers were said, and while at the call of metropolitan the letters of consecration were read. The bishop then repeated the formal promises and obligations of his office, and while another psalm was being sung, forward the metropolitan and rector to the sanctuary. He was then conformed by the rector to the throne, where, after he was seated, he was formally enthroned by the metropolitan and given possession, authority and jurisdiction as Bishop of the Diocese of Niagara. Bishop Clark was elected to his present office on May 2, to succeed the late Bishop Du Moulin.

ANOTHER ROCK IN THE PATH OF THE PACT

Constitutionality of Bill Now Before the United States Senate May Be Attacked in the Courts if it is Passed by Less Than a Two-Thirds Vote.

NEW YORK, June 25.—The Washington correspondent of The Sun writes: "Among the interesting developments in the reciprocity situation is the statement that the constitutionality of the Canadian reciprocity bill will be attacked in the courts if it should pass by less than a two-thirds vote on the ground that it is in the nature of a treaty, which requires a two-thirds vote of the senate for ratification."

The Republican insurgents are now the only obstacles in the way of an agreement to vote on the reciprocity bill and the two tariff bills now before the senate. If the insurgents would consent to bring about the adjournment of congress before September 1.

The insurgents are still hopeful of making a combination with the Democrats by which they can amend the Canadian bill. The Democratic senators, it was learned to-day, will hold a conference next week, and it is now certain that a great majority of them will decide to support the Canadian reciprocity bill without amendment.

Against this proposal will be arrayed the only backing which probably will be given by the Democrats. Senator Bailey of Texas will be commander in chief of this small insurrection, and it looks as if only backing which will be given by Senator Simmons of New Carolina and Senator Thornton of Louisiana. Mr. Bailey wants to amend the reciprocity bill and also to kill it if possible.

Senator Jones of Washington is not making much headway with his plan for uniting the Republican regular and insurgents on a tariff revision program. The plan was introduced yesterday, but some of the regular Republicans promptly sat upon it, saying it is a foregone conclusion that any Republican proposal for a tariff revision program will be rejected by the house and that any attempt at revision after the plan proposed by Senator Jones will result in prolonging the session of congress and disturbing the business interests of the country. Senator Reed Smith of Utah voiced a similar opinion, the regulars against such a program.

Vote and Quit.

"I refuse to play politics with this question," said Senator Smoot. "I consider it positively wrong to enter upon an endless consideration of the tariff question at this time when there is no hope of any legislation resulting from it. I will limit my vote on everything that is pending and adjourn as speedily as possible. The business interests want peace. Just now merchants are planning their business for the coming season and with the tariff under consideration they would be in doubt as to an agreement for an early vote and that we should vote to bring an adjournment before September if possible. I believe that in course of time we will be able to do this."

Other democrats in the senate show no disposition to coalesce with the insurgents. They appear to be working to get an agreement for a little debate on everything that is pending and adjourn as speedily as possible. The business interests want peace. Just now merchants are planning their business for the coming season and with the tariff under consideration they would be in doubt as to an agreement for an early vote and that we should vote to bring an adjournment before September if possible. I believe that in course of time we will be able to do this."

Senator Cummins has already introduced his many amendments. Senator Bristow has put in a batch; so also has Senator Clapp, and most of the other insurgents will follow suit. It is expected that practically every one of the insurgents will talk on the tariff question and Senator La Follette will probably make one of his three day speeches.

Senator Penrose proposed a plan to-day for an agreement with the Democrats by which the senate should vote on Canadian reciprocity and agree to a date early in the regular session of congress for a vote on the tariff bills that are now before the senate and after that may yet adjourn. His proposal did not meet with a favorable response from the Democrats, who are insistent that a vote shall be had on the tariff bill before the adjournment of the extra session.

THE SASKATCHEWAN CROP.

REGINA, June 24.—Twenty thousand harvest hands will be required to handle the crop that Saskatchewan will reap this year, according to an estimate from an official source. This is greater by 50 per cent than the number required in 1910, when 13,647, in 1909, 12,500, and in 1908, 14,024.

BORDEN WELL SATISFIED WITH RESULT OF HIS TOUR

West Not So Favorable to Reciprocity As Had Been Thought —Farmers Oppose Pact.

LETHBRIDGE, Alta., June 25.—(Special.)—R. L. Borden spent Sunday morning here. In the morning he attended service at St. Augustine's Church and in the afternoon went for a short walk. The rest of the day was spent in his car recuperating after the efforts of the week. As the result of the rest his voice, while still hoarse, is greatly improved. Asked for an exposition of opinion upon his tour this far, Mr. Borden this evening made the following statement: "We are delighted in every way with the tour. Our reception has been most cordial and enthusiastic. The attendance at our meetings has been beyond expectations and everywhere there has been an intense desire to hear the reciprocity agreement discussed. I am convinced that the agreement filed in the west, much less favorable than has been supposed, and that western opinion is shaping itself against the treaty. The more it is discussed and the better it is understood, the less it is liked. This applies as well to the west and to the east."

Two meetings were held yesterday, one at Medicine Hat, the other at Lethbridge. At both places the opposition to the reciprocity pact was expressed by Wm. Turner, secretary of the Farmers branch of the United Farmers of Alberta, and by R. Macfadden of Hazelton, officer of the same branch.

Farmers Who Oppose Pact.

Mr. Turner argued that everyone had a right to his own opinion on the reciprocity pact and should not be bound hand and foot by memorials and resolutions sent out by the central organization. He presented a petition signed by forty representative farmers of the Hazelton and McBride Lake districts, objecting to the agreement on economic and national grounds.

A memorial from the United Farmers was read by J. Pream, secretary of the provincial organization, which followed along the lines of those presented by the Manitoba and Saskatchewan grain growers.

Mr. Borden, the Conservative member, declared he had not made up his mind on the question, but like the rest of the men of his district, he was anxious to hear both sides of the question.

At Lethbridge last night Mr. Borden made a fighting speech, in which he declared that reciprocity within the empire should be good enough for the Canadian farmers.

Celebration Paid.

BRANTFORD, June 25.—The receipts of the gala day celebration, which was held here on coronation day, under city council auspices, were \$272. After all expenses have been paid there will remain in the civic treasury a neat balance, which will be held for some other gala day.

SAYS FRENCH IN ONTARIO LIVE IN AN ARMED PEACE

Justice Not Given All Round in This Province, Declares Justice Constantineau.

MONTREAL, June 25.—The celebration of St. Jean Baptiste Day here terminated with the holding of a large banquet, at which prominent French-Canadians from all over Canada and the United States were present.

Many important subjects were brought up by the speakers. Mr. Justice Constantineau of Ontario drew a contrast between conditions prevailing in this province and in the Province of Ontario. Here the minority lived in peace with the majority, because justice was given all round. In Ontario, the French-Canadian minority lived in peace, a species of armed peace it was. In the great work of opposing assimilation all along the line, French-Canadians of Quebec should be the guiding star of their compatriots throughout all the provinces of the Dominion as well as in the United States.

Armand Lavergne, M.L.A., opened with an attack upon the policy of immigration now being pursued. This was threatening to swamp French-Canadians.

Oliver Asselin, in taking up the situation in Maine, declared that matters were critical there for French-Canadians. A bishop had closed a parochial school because the French was there taught, and a similar course had been taken in regard to a bilingual school. French-Canadians must needs resist such tactics, which were patently designed to efface their race.

L. P. Dupre of Beauport, Maine, one of the gentlemen who have fallen under the interdiction of Mr. Walden, was the next speaker.

Proceeding to give a review of the Maine situation he declared that the worst trouble was due to the fact that the clergy had seen fit to mix the services up in the national affairs of the people. Mr. M. O'Connell, once bishop of Portland, and now an archbishop of Boston, had once issued an announcement to his clergy to the effect that they should in future discontinue the use of French in the churches. (Cries of "shame, shame.") He declared that Mr. Walden had not a single French sympathizer, while even the English were wavering.

Henri Bourassa was then called upon. Mr. Bourassa launched himself into a review of the situation in Canada as far as French and English speaking Canadians were concerned. French-Canadians should encourage their own national institutions and occupy themselves with the welfare of their country. He declared that Mr. Walden had not a single French sympathizer, while even the English were wavering.

Canadian Athletes Win Inter-Empire Championship

Note and Comment

Surely the Leafs are over their slump. It begins to look that way with four wins in a row and only three defeats since those eleven. They wind up to-day in Providence, and before coming home July 1 play three in Baltimore, where McFerry may make a clean sweep at the opening.

There was considerable comment from some of the spectators on the way the officials handled the lacrosse game at the island on Saturday. On one occasion a Cornwall player threw his stick in the air and made a stop ball, but was in no way penalized for his act. Players were also allowed to run in the goal crease by both officials without being ruled out. Mr. St. Pere also permitted the players to hit the man carrying the puck on the arms, which is an infringement of the rules. While the officials were fair in every way, showing not the slightest partiality to either team, and Billy McFerry was completely mended for the prompt way in which he dealt out penalties, still the officials should see that their ideas on rule infringements are consistent. No criticism is offered on the officials, it being well to wait and see how the new idea works out.

St. Albans played their first game Saturday in the City Cricket League. The meeting with the champions at Providence was a very close one. The game was well played, but the batsmen were not in the best of luck. The bowlers were excellent, and the umpires were fair. The game was a very interesting one, and the spectators were well pleased with the result.

The performance of the athletes in London on Saturday is something that Canada should be proud of, and that the athletes in London should be proud of, and that the athletes in London should be proud of. The athletes in London should be proud of their performance, and the athletes in London should be proud of their performance.

Carl Morris, the white man's hope, and Jim Flynn have received offers from Philadelphia, New Orleans, Kansas City, Toledo, and other teams. Morris is a very good player, and Flynn is a very good player. They are both very good players, and they are both very good players.

LEAFS WON ON SUNDAY ANOTHER FROM GREYS

Jimmy Mullen May Be Out of Game For Eight Weeks Due to His Injury.

PROVIDENCE, June 25.—Toronto made it three straight from Providence Sunday afternoon by defeating the locals 6 to 4. The game was uninteresting and listlessly played, neither team exciting itself. Toronto mostly errors in the sixth and in the next session, save the Leafs an error. Tessaure pitched for Kelley's men, and was lucky to get away with the win. He was pulled, and Muelier stepped in. He was pulled, and Muelier stepped in. He was pulled, and Muelier stepped in.

The Leafs scored in the second on McDermott's double. Gillespie's out, at singles by Rock and Roneau, and Rock's base another in the fifth, and McDermott's walk and a wild pitch and Rock's single sent in the sixth, and Rock fumbled DeLahanty's drive. Jordan went out at first, but Rock made a mess of it. He was pulled, and Muelier stepped in. He was pulled, and Muelier stepped in.

AMENDMENTS WILL BE VETOED BY LEFT

President Says He Will Not Accept Reciprocity Bill If It Is Tampered With.

WASHINGTON, June 24.—It became known at the capitol to-day that Pres-

ident Taft, talking over the long-dis-

ance telephone from Providence last night, repeated to several senators his

determination to veto the Canadian reciprocity bill in case any amendment is added to it.

News despatches from Providence that the president undoubtedly would veto any tariff bills passed at this ses-

sion, are accepted by senators as accurately reflecting the president's attitude.

Senators accept the president's ultimatum on reciprocity as applicable to modifications which might be made at the instance of Republicans as well as Democrats, and say that it would have the effect of preventing any agreement on amendments for tariff changes.

Many senators received telegrams and letters announcing a purpose on the part of the farmers to test the constitutionality of the proposed tariff if it receives less than a two-thirds majority in the senate. This position is taken on the ground that as the bill carried into effect the provisions of a treaty, it should receive the vote in all respects necessary to render it effective. The friends of the measure do not concede the point, but they are claiming the two-thirds.

BUDDHISM IN JAPAN. In their commodious and comfortable hall in the new C. O. F. building, on College-street, members of the Theosophical Society last evening listened to an address by Mr. Shimese, of Takayama, Japan.

Mr. Shimese, dealing with the history of Buddhism in Japan, deprecated the opinion that Sakya Muni, the founder of Buddhism, was the originator of much interesting lore and philosophy found among the books and peoples of his religion, and traced them back to the ancient philosophies of the Vedantas of India.

A. E. S. Smythe also gave an address.

FRUIT MARKET. Saturday was a fairly big day on the wholesale market and strawberries, as on Friday, held high. Prices ranged from 20c to 25c and some brought 12c per box.

Quotations are given below: Apples, basket, \$2.00 to \$2.50; Beans, wax, 3.50; Cabbage (Virginia), crate, 3.50; Cucumbers, bothouse, bush, 1.50; Lemons (New Verdell), 4.50 to 5.00; Onions (Egyptian), sack, 2.50 to 2.75; Potatoes (late Virginia), 3.50 to 4.00; Peaches, 2.25 to 2.50; Strawberries, crate, 0.11 to 0.13; Tomatoes (bothouse), 1.00; Tomatoes (Florida), 2.25 to 3.50; Texas flats, a bush, crate, 1.50; Cherries, cooking, bush, 1.50; Eating cherries, 1.50; Green Apples, bush, 2.25 to 2.50; Onions, sack, 2.50; New potatoes, bush, 1.00.

Serene in the Ward. It was tranquil in the ward last night. The order of the police that the open air services of the Presbyterian mission to Jews be cancelled on Saturday and Sunday nights averted trouble.

What will happen next Saturday night is food for conjecture, as Rev. J. M. P. Scott, convener of the Jewish mission committee of the Presbyterian Church, announces that the meetings will be discontinued.

Decapitated by Train. HUBERT, Ont. June 25.—James F. Hubert, aged 20, was decapitated as he fell under a C.P.R. train here early this morning. An inquest will be held.

Parisians Here. Messieurs L. Cunnet and Charles Edouard of Paris, France, are at the King Edward.

HUSTLING FOR MEMBERS High Park District Ratepayers Start Level Campaign. The High Park District Ratepayers' Association will this evening launch a hustling membership campaign, which will wind up on Friday night with a lawn party on Howard Park bowling green. There are 20 captains organizing the campaign, which, it is hoped, will add some hundreds of members. The present strength is about 200.

The association did good work in fighting for a bridge at Sunnyside. Among other objects aimed at are the following: Thru car service on Roncesvalles-ave, and into High Park on Howard Park-ave. Discontinuing of all "Y-ing" at corners of Roncesvalles, King and Dundas-sts. Removal of all over-head wires and sustaining poles, so far as can be made possible. Extinction of tussack moth and the proper care of all trees and shrubs. Garbage disposal shall be efficient, healthful and less unsightly than present one. Uniform street line, and a more artistic building code supervision. More equitable adjustment of assessments. Removal of high board fences. Proper and more artistic attention to lawns and lawns. Supervised play grounds and tennis courts.

Still Coming. An immigrant train on the Grand Trunk Railway passed thru the city yesterday afternoon westward bound from Montreal. The train consisted of three coaches, containing 200 immigrants bound for Winnipeg, Calgary and Banff-Columbia.

Hustling Panama Canal. E. Herrera and family are on a visit here from Panama. They are at the Walker House. Mr. Herrera says the Americans are making wonderful progress with the Panama Canal.

M. MAYNE BE NEXT FRENCH PREMIER

Government's Foreign Policy Not Affected by Defeat of the Ministry.

PARIS, June 25.—No decision has yet been taken with reference to the formation of a new French cabinet immediately on his return from Rouen this morning, President Fallieres visited Premier Monis, who is still confined to his room as the result of injuries received at the aerodrome several weeks ago. M. Monis tendered to the president the resignation of the cabinet, in doing so he indicated that Joseph Caillaux, the minister of finance, in his opinion, was best fitted to succeed to the organization of a new ministry. During the day President Fallieres was customary under such circumstances, conferred with his advisers, the presidents of the chamber of deputies and senate, but the strictest reserve was maintained as to the result of the conference. It is generally understood that M. Caillaux will be summoned to the Elysees Palace tomorrow and invited to form a ministry.

It is pointed out in political circles that the defeat of the government on Friday on matter foreign to the foreign policy of the government in no way implies a change in the government's policy. M. Caillaux is considered on all sides best qualified to carry on the policy of the ministry, of which he was a member.

WOMAN'S NARROW ESCAPE Brakeman Swandick's Presence of Mind Saved a Life. When the G.T.R. race special pulled out of the Union Station on Saturday afternoon, a large number of belated passengers made a rush for it, among them two ladies. One of them grabbed the hand rail of one of the crowded platforms, managing to get one foot on the step when the train was going about twelve miles an hour. An unknown man, besides a severe head held her against the platform at full length so that her head was across the platform in front. The train gathering speed, she struck the platform right on the edge. The man who was assisting her scrambled over her, his knee catching her upturned shoulder and she started to roll over. Foot away from the rail on which the train was passing. Brakeman Swandick, with rare presence of mind, grabbed her arm with one hand and the bottom of her skirt with the other and pulled her back on the platform. The man who scrambled over her, ran on and caught the last car, missing his hat. He evidently thought the woman seriously injured and preferred running away to waiting to see the extent of the woman's injuries. She was, however, you shook the woman ruined her skirt and lost a valuable ring. They declined to give their names, saying they were visitors to the city. Too much credit can not be given Brakeman Swandick. To him undoubtedly she owes her life. Of the dozens around, he was the only one to do this.

SIX KILLED IN EXPLOSION Mississippi River Steambot's Boiler Bursts Below Memphis. MEMPHIS, June 25.—Five negroes were blown into the Mississippi River and drowned; a sixth so badly scalded that he died before reaching the hospital and twenty others were injured. About a dozen passengers and officers of the boat injured by a boiler explosion late Saturday on the Mississippi River. The accident occurred abreast of President's Island, six miles down the river from here. The packet burst into flames, but was saved from destruction by the captain by the ferry-boat Charles H. Organ, who ran his craft alongside the burning vessel, manned his pumps and extinguished the blaze.

COLORED LADS DROWNED Raft on Which Boys Were Paddling in Pond Capsized. LONDON, Ont. June 24.—Two colored lads, Thomas and Earl Fountain, aged 11 and 13 respectively, were drowned in a pond at the Grand Trunk culvert, about one mile east of the city this afternoon. A raft, on which the boys were paddling, capsized. Eddie Fountain, aged 11, who also was on the raft, was saved by heroic work on the part of Alexander Fulton, a boy of 16. While he was bravely trying to rescue the drowning boys several men stood nearby without offering to assist. Edward and Earl are the sons of Thomas Fountain of Pine Lawn, East London. Thomas Fountain, a cousin of the drowned boy, lives in Cleveland.

DROWNING AT QUEBEC Boat Got Caught in One of Sluices of Louise Dock. QUEBEC, June 25.—A young barge man, named Marticotte, lost his life on Saturday afternoon in the Louise Basin, by drowning. Deceased was in a boat, which was lying on the north side of the basin, to cross to this side. In doing so the boat got under one of the sluices, which carries the water from the Louise dock, and began to fill. Marticotte was thrown into the water, right under the sluice. He was unable to get under the sluice, and although a number of people saw him, they were unable to render him any assistance before he was drowned.

Archbishop Hamilton Preached. The Right Rev. Dr. Hamilton, Archbishop of Montreal, preached at a large congregation at last night's service in the Church of St. Mary Magdalene. His grace has been in the city in connection with his trip to the consecration of the bishop-elect of Niagara. At the close of last evening's service, Archbishop Hamilton confirmed an adult candidate, and expressed himself as pleased with the splendid church, the splendid music, and splendid service being held in the Church of St. Mary Magdalene.

FOUR-TION VICTIMS YEARLY TOLL OF FETISH

Returned Missionary Declares Cannibalism Still Exists on the Congo and Polygamy Flourishes.

The annual summer convention of the Christian and Missionary Alliance commenced yesterday in the Parkdale Tabernacle and will be held at this week, concluding on Sunday next. At the morning service at 10.30, Rev. A. E. Funk, foreign superintendent of the alliance and superintendent of the college at Nyack, New York, spoke of the importance of missionary effort, and in the afternoon Mrs. James Smith, Central China, spoke of the work being performed in that part of the orient.

At the evening service Rev. H. Campbell gave a description of work in the Congo, that portion of Africa, belonging to Belgium, where Mr. Campbell has been laboring for many years. Taking as his text Romans, ch. 2, v. 12, "as many as have sinned without law shall perish without law," the preacher spoke of fetishism, a primitive condition common to many primitive men, especially those living in the Congo, in which inanimate objects are regarded as imbued with life and power, and are held in high veneration. Mr. Campbell said that fetishism claimed no less than four million people annually, who were done to death by sacrifices, and in many cases poisoned. Many people thought that cannibalism in the Congo was now abolished, but the markets in the main waterways had been done away with, the eating of human flesh still existed. Not many years ago, 80,000 slaves were exported annually, but that had been stopped, slavery and forced labor were still rife, in spite of the protestations of the missionaries to the government of England and the United States. Mr. Campbell dwelt on the horrors of polygamy, which meant in the Congo the buying and selling of young girls, men, boys and women, who were sold for great work, but did not get rich thru speculation in stocks and shares, as in women, who were treated like cattle.

The preacher said there was a dreadful lack of money workers, and if anyone was not interested in mission work, he said he would like to know the reason, for there was a great work to be done in the dark parts of Africa and he urged his audience to help.

FIXING TEMPORARY INTAKE Rough Weather Caused Delay, But Work Has Been Started. At 3 o'clock Sunday afternoon, Waterworks Superintendent Randall started a gang of men to work at fixing the temporary intake to the shore end of the pipe. "The plant was out and at work just as soon as the lake calmed down this afternoon," said Mr. Randall last night. "The men are hard at work and will continue working all night, so we expect to have the pipe fixed by tomorrow morning."

Mr. Randall told The World that the strong easterly gale which has kept the lake so turbulent since Friday, abated, and the fixing of the temporary intake, and it was not till 3 p.m. Sunday that the lake waters had calmed sufficiently to let the work get started.

Acting Mayor Spence and several members of the city council were at the island last night to see how the work was progressing. Superintendent Randall also stated that the section of broken pipe removed by Cummings & Miller on Friday, was up on the dock Sunday morning. Now that the temporary intake is in position, a permanent supply of lake water to the city is assured.

NEW ATLANTIC LINE May Be Established With Providence, Rhode Island, as Port. PROVIDENCE, R.I., June 24.—The possible establishment of an ocean line between Providence, R.I., and European port was intimated at a conference here to-day between representatives of the Southern New England and the New England Steamship Companies. E. H. Fitzhugh, president of the new railway, and vice-president of the Grand Trunk, with Attorney John S. Murdock of the road, conferred with Mayor Fletcher and other city officials regarding the wharfage facilities the city would have to furnish for the completion of the new municipal docks at Field Point. While none of the company's plans were made known, it was understood that the vessels and that a transatlantic line was under consideration.

Mayor Fletcher declared that the Grand Trunk, being the first applicant for space, would have the use of both the municipal and state docks, which are under construction.

Hon. T. Mayne Daly Dies in Winnipeg Police Magistrate Was Minister of the Interior in Sir John Macdonald's Cabinet. WINNIPEG, June 24.—Hon. T. Mayne Daly, police magistrate, died at 5.15 this morning. He was on the bench yesterday and attended a late meeting of the police commission. His death was the result of the bursting of a blood vessel at 10.30 last night. Mr. Daly had a brilliant record in the municipal and provincial legislatures, and was minister of the interior in Sir John Thompson's Cabinet formed in 1887.

The late Mr. Daly was born in Stratford, Ont. in 1842, was educated at Upper Canada College and called to the bar in 1878. In 1881 he was elected to the Ontario Parliament as member for Brandon. He returned for Selkirk to the house of commons in 1887, and held his seat till 1888 when he declined re-election. He entered Sir John Thompson's Cabinet as minister of the interior, December 5, 1892. In the last federal election he was defeated by Sir John Thompson's opponent in Brandon, but was defeated by a narrow majority.

BUILDING DALE CHURCH HELD BACK BY CRITICS

Rev. J. D. Morrow Says Work Will Continue Despite Loss of Legacy.

In speaking to The World yesterday, Rev. J. D. Morrow, pastor of Dale Presbyterian Church, said, in reference to the decision of Judge Winchester, in the Dale estate case, that while he felt the disappointment keenly he would not mourn over brick and mortar, but continue his work among men and women.

Men had been redeemed from drunkards' homes; men, fresh from jail, attended his church, and he felt sure that as long as he had his congregation to assist him and stand by him he need not worry.

Mr. Morrow said the congregation felt heart-broken, as they had hoped to put the roof on the church this fall, and now nothing would be done until the accounts and cheques for the last 30 years had been examined.

"If some man who has a large vision of the down-town work," said Mr. Morrow, "would come to our assistance it would be another coronation, and I feel sure that God will raise up some man to give me my church. Some people's minds have been poisoned thru statements made about the wisdom of the building being placed where it is, and have spoiled the opportunity of getting a loan by the unpleasant things they have said. If encouraging things had been said instead of discouraging things, we would have built the church long ago."

Judge Winchester, in his judgment Saturday morning, found that the estate of the late Robert Dale is liable to James Dale, brother, for \$4000, plus interest since 1876. By the judgment, the legacy to the Dale Presbyterian Church, which would have amounted to \$12,900, will be lessened by over \$9000, as interest.

BOATHOUSE FIRE CAUSES 3 AND PERHAPS 4 DEATHS Men Received Their Injuries Trying to Rescue Girls, Two of Whom Perished. NANTUCKET, Mass., June 25.—Two young women, Helen Wilson of New York City, and Mildred de Haven of Brooklyn lost their lives in a fire which destroyed a boathouse owned by Wm. Barnes, Jr., the Republican boss of Albany, N.Y., last night. Ulysse Pahud, butler and valet, of the Barnes family, died some hours later, while Thos. Kerr of New York City was so badly injured that he may not recover, and Thurston W. Barnes, a son of the late Wm. Barnes, is badly burned. The men received their injuries trying to rescue the young women, who were members of a party of a dozen young men and women attending a dance on the boat. The fire started by the dropping of a cigarette on an oil mop used to oil the floors of the boathouse, which was one of the handsomest along the coast. The French valet, who was only 21 years old, acted heroically in trying to rescue the girls.

"I am glad to see that the girls were rescued," said Mr. Barnes, "but I am sorry that the valet and the boy were killed. The girls were rescued by the firemen, but the valet and the boy were killed by the firemen. The girls were rescued by the firemen, but the valet and the boy were killed by the firemen."

BIG INDUSTRIAL BOOM FOR CITY OF KINGSTON Canadian Locomotive Company Will Double Capacity of Plant—To Employ 1600 Hands. KINGSTON, June 24.—(Special.)—The City of Kingston is about to experience an industrial boom. The Canadian Locomotive Co., the oldest and most important of its industries, have just decided to double the capacity of their plant and expect in the near future to employ at least 1600 men. This is of the greatest importance to the city, as this company has been manufacturing locomotives since the year 1855.

It was, however, only in the last ten years that the company attained its present importance in the community. It was then taken over by the Hon. Wm. Hartly, and during the past few years has been unable to fill orders. During the past four years it has carried over \$300,000 per year. Mr. Hartly and a number of the former directors will continue to take an interest in the company, but in addition have associated with them a number of prominent British and Canadian capitalists. The directors consist of the following: Hon. Wm. Hartly and J. Whiting, K.C.; Kingston; Amelius Jarvis, Toronto; Robert Hobson, Hamilton; Warren Y. Soper, Ottawa; Jas. Redmond, Montreal, and F. Wallace, Pittsburg, Pa.

The enlargement of the Canadian Locomotive Company's plant is something new in Canadian industrial development. Recently the tendency has been to merge companies and infuse into the merged huge quantities of water. The Canadian Locomotive Co. are simply expanding a going concern and are taking over cash assets of over \$1,200,000. The new capitalization is based upon the appraisal made by the Canadian Appraisal Co., and the earnings have been certified to by Price, Waterhouse & Co., the well known chartered accountants. It is the intention of the new company to go on at once with the enlargement of their plant, the company being fortunately situated for enlargements, as they can be made on adjoining land at a minimum cost. The people of Kingston are naturally jubilant over the outlook.

Caught Germ-Laden Monk. NEW YORK, June 24.—One of the two monkeys that escaped yesterday from a hospital laboratory where they had been incubated with the germs of scarlet fever was caught to-day, but the other is still at large.

CANADA KNOCKING DOWN THE PROPS OF EMPIRE

Sir William Lyne of Australia Says Reciprocity Will Lead to Absorption by U. S.

In an interview in London, June 15, Sir William Lyne, who, as customs minister, introduced the Australian preference on British goods, and who was Mr. Deakin's colleague at the last imperial conference, sounded a grave warning against Canadian-American reciprocity.

"I feel convinced," said Sir William, "that a reciprocity agreement such as is proposed between Canada and the United States can only lead to the absorption of the dominion, and separation from the mother country, and that it would constitute the first step in the disintegration of the British Empire."

"Moreover, speaking with all possible deference, it appears to me that the Great Britain is partly to blame for the present state of affairs. "While I must disclaim any intention of criticizing the domestic policy of Canada," Sir William stated, "I cannot help realizing that imperial issues are involved in the existing situation. "Great Britain can only expand to-day thru the avenues of dominion emigration. She has in her dominions bulwarks of power which, if properly buttressed, will ultimately strengthen her position to an almost incalculable extent."

Canada's Offer. "Knock away one of those props, as is being done in Canada, and the effects must be seriously felt by the other dominions. "The I feel sure that the heart of the Australian people is distinctly loyal and beats for preferential treatment, such a reciprocity agreement, if consummated, will tend materially to discourage the Commonwealth in its efforts for imperial progress and consolidation."

"It is quite obvious that Canada will find it extremely difficult to attract reciprocity being eventually turned into absorption. "It may take ten years to effect this absorption, but Canada will assuredly be absorbed by the United States. "Four years ago, Canada in common with the other dominions, held out her hand to the mother country. The mother country refused to clasp that hand, and Sir Wilfrid Laurier has now extended it elsewhere. "I believe the present move will injuriously effect the consolidation of the entire British Empire."

"Australia is able to supply Great Britain with all the foodstuffs she may require, and yet to-day, thanks largely to the mother country's failure to meet its half-way, we strictly grow with only 5 per cent. And Canada, which also has great resources, only 10 per cent. "Wake Up, England!" "If only Great Britain would wake up to her responsibilities and opportunities! The same negative, shortsighted policy, the same apparent inability to grasp the situation, which conditions, seems in a minority of cases to characterize British commercial methods in Australia. "To clothe to the illustration, we want British machinery, and are willing to give it preference. But British manufacturers take the line that what is good enough for England is good enough for Australia, refuse to meet our requirements, and in consequence American machinery and up-to-date methods are sweeping the Commonwealth. "The dominions must protect their manufacturers, but we are none the less anxious to see the mother country preference."

Sir William is strongly opposed to the Declaration of London. "The declaration," he said, "as had for England, bad for Australia, bad for the empire. I cannot comprehend the present attitude of our delegates on this question. "They were opposed to it at the beginning of the conference," he said, "only to wind up by not voting."

CHICORA HAD MISHAP Cracked Cylinder Made Cancellation of Trip Necessary. When the steamer Chicora of the Niagara Navigation Company was about a mile out in the lake on a 10 o'clock trip Saturday morning, one of the engine cylinders cracked, causing a slight scum on board. Temporary repairs were done on the broken engine, and the boat was able to return to port under her own steam. When she reached the dock, the passengers were discharged, and the boat taken to the Poison Iron Works for repairs. A. H. Jeffrey of the Poison works said last night that as the engine had not been thoroughly overhauled as yet, the full extent of the trouble was not known. "The mishap was entirely unforeseen, and the passengers were protected by attention cheerfully. Interruptions of any kind to the carrying out of the company's schedule have been very infrequent, and the Chicora will not be put into commission again until a thorough test has been made. The veteran of the fleet, the Chicora's reputation for reliability has always been of the best."

LANCASTER TO FIGHT HIS FOURTH CAMPAIGN

Veteran Political Warrior Unanimous Choice of Lincoln Conservatives. ST. CATHARINES, Ont. June 24.—(Special.)—Enthusiasm reigned supreme at convention of Lincoln County Conservative Association held in Standard Hall to-day for nomination of candidate for the Dominion House in the coming Dominion elections. Upwards of 250 delegates were present from city and every part of county and when it is considered that this is an exceptionally busy time of year for fruit growers and farmers the attendance was simply marvelous.

The unanimous choice of the meeting as next candidate was the old stalwart E. A. Lancaster, K.C., M.P., who for the last twelve years has borne the standard in this county, defeating Hon. Senator William Gibson in 1900, after latter had held seat four years. Major Hiscott, ex-M.L.A., and Dr. E. Jessop, M.L.A., were also nominated, but withdrew their names.

Unanimous Choice. Mr. Lancaster was then unanimously elected candidate for the fourth election in Canada, and the effects must be seriously felt by the other dominions. "The I feel sure that the heart of the Australian people is distinctly loyal and beats for preferential treatment, such a reciprocity agreement, if consummated, will tend materially to discourage the Commonwealth in its efforts for imperial progress and consolidation."

W. J. HANCOCK KILLED BY AUTO ON KINGSTON-ROAD

In Trying to Avoid One Car He Was Struck by Another.

Stepping from before one automobile in front of another, William J. Hancock, real estate broker, 190 George-st., was killed at Trout's Hill, near Stop 23, on the Kingston-road at 10:30 Saturday morning.

Coroner D. A. F. Demary was brought from his home at 2 Lyall-st., where he was on his way to the coroner's inquest at 10:30 p.m. on Friday.

County Constable Robert Burns immediately summoned a jury of six men, including the coroner, to meet at 10:30 p.m. on Friday.

A new McLaughlin car was being brought from the company's factory at Oshawa to Toronto.

The man was struck about the legs and lifted clear off his feet and sliding back along the nose of the car.

He picked up Coroner Demary at his home and hurried him back to the scene. There he did what he could for the man who was dying when he arrived.

Hancock was making a business call in the locality and was walking to the stop to take a car to the city.

Henry, the McLaughlin chauffeur, who has been employed by the company for over two years, and has always been a careful driver, telephoned word of the accident to his company.

Hancock worked in the real estate office of Gray and Jardine, 100 George-st., and was a Methodist by religion.

He was unmarried, about forty years of age, and had boarded at 190 George-st. for the past four years.

His father died in Toronto two years ago, and his mother lives in Oshawa. S. H. and Mark Hancock, grocers, of Rochester, N.Y., are brothers, and a sister also lives there.

M. B. Cobbedick, the undertaker, succeeded in getting the dead man's mother on the phone at Oshawa, and notified her of the tragedy.

IN THE STOCK MARKETS

Financial London on the Outlook—Current Comment on Recent Movements on Wall Street.

The following summary of financial conditions is cabled by the special representative of The New York Evening Post.

LONDON, June 24.—At the end of the week, we find our financial outlook more perplexing than before.

White losses are general, it is interesting to note that they are very uniformly distributed, being shared in by roads in every part of the country.

In the following table are given the earnings of all United States roads reported in the weekly report for the two preceding months, together with the percentages of gain or loss compared with last year.

There is reason for good cheer as a result of the Union Pacific decision, even though it may be assumed that the government will appeal the case to the Supreme Court.

Other news of the day was not without material bearing on influence on the stock market.

Increased interest was shown in the local bank statement, this being the first week under the new arrangement by which it became possible to make fair comparison.

Fourteen secretaries of as many realty lumber companies in Chicago indicated co-operation in exchanging trade information.

According to Dun's, the trend of business is unquestionably for the better and the movement promises to exceed that of the crops approach nearer to harvest.

Wage committee of Amalgamated Association of Iron, Steel and Tin Workers and independent manufacturers have reached agreement on wage scale for another year.

Joseph says: Reciprocity will be the attractive magnet. President Taft says there is nothing in the treaty that will protect American industry.

More short covering and further recovery operations with specialization are indicated along conservative lines.

Wage committee of Amalgamated Association of Iron, Steel and Tin Workers and independent manufacturers have reached agreement on wage scale for another year.

Joseph says: Reciprocity will be the attractive magnet. President Taft says there is nothing in the treaty that will protect American industry.

Railroad Earnings Not Up to Last Year

First Half of June Shows Figures 2.6 Per Cent. Below a Year Ago.

Railroad gross earnings for the first two weeks in June, as reported to Dun's Agency, are in fairly well maintained volume, the total for all United States roads reporting to date amounting to \$15,043,885, a decrease as compared with the same roads last year of only 2.6 per cent.

Crop Advances. Crop advices from the northwest this morning are much more favorable.

Calgary wires: Rain has fallen in Alberta and northern part of Saskatchewan.

A Chicago despatch says: On the whole the climate conditions in the northwest are much improved for the spring crop.

Light rains in some sections during the past forty-eight hours, and temperatures lower and more favorable, according to early messages to-day.

The dry, hot spell appears to be broken, and it will be reasonable to expect better conditions for the balance of the season to harvest.

Liverpool Wheat Market. LIVERPOOL, June 24.—As a result of the American market yesterday opening here easy, 1/4 to 1/4 lower, and further decline 1/4 to 1/4.

During the early trading there was some disposition to support, owing to predictions of lighter weather's shipments.

Later, however, there was a realization on the part of American buyers that the market was over-bought, as American crop advices are weak, 1/4 to 1/4 lower than Wednesday.

Corn opened 1/4 lower and further decline 1/4 to 1/4 on the continued free European offers and lower offers of parcels.

ST. LAWRENCE MARKET. Receipts of farm produce were 100 bushels of grain, three bushels of hay, a few lots and loads of mixed produce in the north market, building, and a moderate delivery of the basket produce.

Oats—One hundred bushels sold at 43c per bushel.

Three hogs—Prices were quoted at 27 1/2 to 30, with a large choice light butcher's hogs at 31 to 32.

Beef—Bulk going at 12c to 22c per lb., also there were many special customers for the Farmer's Deal of the week, 200 lbs. of which had been sold at 22c per lb. to 30.

Next Saturday being the first of July, there will be no market. Farmers will be on hand on Friday with their produce. Buyers will please remember this notice, as they will not be able to buy their weekly supplies on Saturday.
