DR. BAIN, LIBRARIAN, DEAD
AFTER A QUARTER CENTURY'S
VALUABLE SERVICE TO CITY

To His Knowledge and Work Toronto Owes Possession of Great Collection of Books of National Interest and Information.

The death of James Bain, Jr., following so closely on that of his venerable father in his 92nd year, only a few days ago, removes one of the best-known and most quietly influential citizens of Ontario. He was seized by an acute malady of the liver only a few months ago, hope of his ultimate recovery being abandoned almost from the first. Dr. Bain was born in London, England, Aug. 2, 1816, and was therefore in his 92nd year. With his parents, who were both natives of Edinburgh, he came to Canada early in life and was educated at the Toronto Academy, the Jarvis-street grammar school and Toronto University. He obtained his first business training in his father's bookselling and stationery business, and later with James Campbell & Son. In 1870 for this firm he began to visit England as a buyer, and opened a branch establishment in London in 1874. This was continued till 1878, when he became a partner of John Nimmo & Co. and as Nimmo & Bain remained in business until 1882, when the firm dissolved. He then returned to Toronto and was for a short time manager of the Canada Publishing Co. In 1883 he was appointed first chief librarian of Toronto Public Library, which position he held till his death.

THE LATE DR. BAIN.

POLICE CAN CONFISCATE
TOBACCO ON CHILDREN

One of the Provisions Contained in Aylesworth's Anti-Cigarette Bill—Cannot Prohibit

OTTAWA, May 22.—(Special.)—In the house to-day Hon. Mr. Aylesworth introduced his bill "to restrain the use of tobacco by young persons." He explained that it was an attempt to meet a call that had been heard for legislation, but he could not pretend to hope to satisfy those who desired prohibition of the sale or manufacture of tobacco in a form supposed to be particularly deleterious. It was proposed to make it an offence to furnish or sell to any person under 16 years of age tobacco in any form for consumption, and a penalty of \$1 for second offence and \$4 for third offence may be imposed. Any police constable will be authorized to seize upon and summarily forfeit tobacco found on any girl or boy under 16 years of age. He said prohibitory legislation was on the statute books of some of the provinces, but there was room for doubt whether or not this legislation was ultra vires.

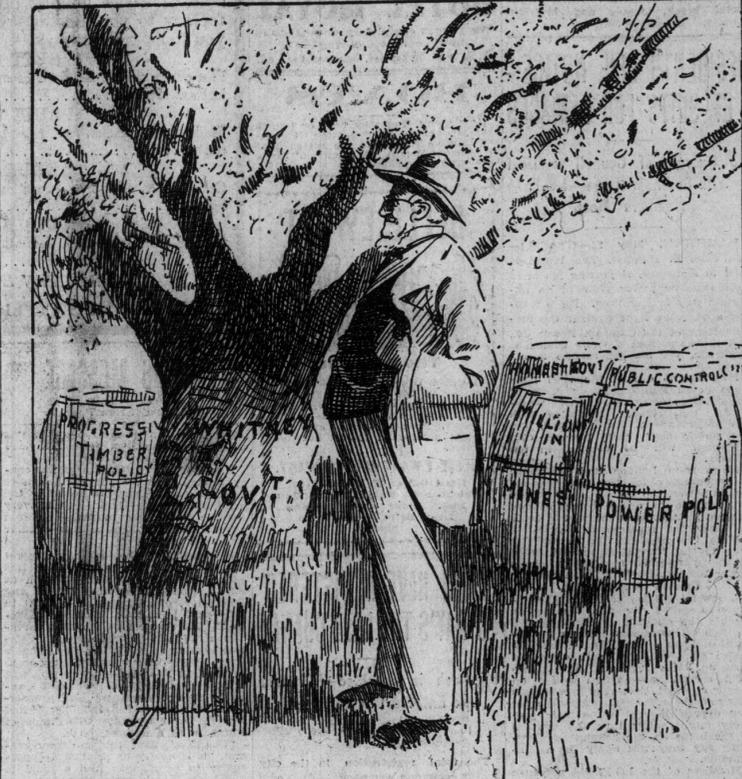

HUGHES DEFENDS
AND FOWLER
JIBES

Acrimonious Debate in Commons, in Which Cleavage in the Party is Made Clear.

OTTAWA, May 22.—(Special.)—This was an afternoon of Sam Hughes and George W. Fowler. Col. Sam warmly attacked his colleague, Col. Worthington, while Citizen Fowler "dressed down" the veteran Hughes. The government side sat back and watched the civil war proceed with evident enjoyment.

It was all over the Ross rifle, of which Col. Hughes is an ardent defender. He rose amid provoking silence. When R. L. Borden saw that the colonel was pausing for a little encouragement he gently tapped his desk, and then the government side burst into applause. "When the Conservatives went into opposition Sir Charles Tupper asked me to take charge of the militia affairs of the country, and when Mr. Borden succeeded to the leadership of the party he renewed that confidence, and his request has invariably been to probe to the bottom any expenditure of this department," declared the colonel. He (Hughes) accepted the chairmanship of the militia committee of the opposition on the understanding that this department should be removed, as far as possible, from the arena of politics. He hoped he might induce his leader to see the error of his way in allowing this matter to be thrown into politics. He thought he could make Col. Worthington "smile on the other side of his face," and he would challenge him to show that in the United States any politician would be base enough to make any capita out of a question of arming the militia.

THE PRIDE OF THE ORCHARD

OLD MAN ONTARIO: No, sir, a tree that has borne the fruit, and displays blossoms of promise like that tree, ain't agoin' to be cut down yet awhile.

BISHOP McEVAY OF LONDON
IS ARCHBISHOP OF TORONTO
ANNOUNCEMENT OFFICIAL

Archbishop O'Connor Retires Owing to Ill-Health—Ottawa Organ Hears That Several Bishops May Retire.

Official announcement of the appointment of the Rev. Dr. McEvay, R.C. Bishop of London, as Archbishop of Toronto was made at Hamilton yesterday by Bishop Dowling, ex-senior Bishop of the Ecclesiastical Province of Toronto. The announcement was not unexpected, as it was understood some weeks ago that Archbishop O'Connor had been in poor health for some time and that the resignation of the archbishop was a possibility.

THE NEW ARCHBISHOP.

Several May Retire. OTTAWA, May 22.—(Special.)—His Lordship Bishop McEvay of London, Ont., arrived here on Thursday morning and consulted with the apostolic delegate. He also paid a visit to the Archbishop of Ottawa, Bishop Duhamel. United Canada, the catholic organ, says: "The propaganda at Rome seems to have decided upon retiring several aged Canadian archbishops. In addition to Archbishop O'Connor of Toronto, this paper is informed that three other Ontario bishops will soon retire, including the chief pastors of Hamilton, Peterboro, Kingston and probably Ottawa."

TO CONFER TO-DAY. OTTAWA, May 22.—(Special.)—There will be a conference Saturday morning at 10 o'clock between Sir Wilfrid Laurier and R. L. Borden to discuss the Aylesworth bill. This conference was first called for Thursday, but had to be postponed by the premier owing to his unruly western members' objection.

ANOTHER SKULL FOUND. LA PORTE, Ind., May 22.—A human skull was found this afternoon in a cesspool on the Guttenberg farm. Search for the remainder of the body is now being made.

RACE TRACK STORY. Romance on the race track with the plot laid around the life of one of Canada's foremost stepchildren for the remainder of this week's Sunday World.

ANOTHER CONTRACT RATIFIED. ST. THOMAS, May 22.—(Special.)—At a special meeting of the city council at-night, it was decided to sign the contract for 1500 H.P., at \$2650.

TRIO MAY BE
BAD ACTORS

Those Art Vendors Arrested at Buffalo, and Chicago Operations May Have Been Their's.

Upon information furnished by Superintendent Welsh of the Canadian Detective Bureau, M. F. Terry, R. Lee Van Wermer and H. S. Levy, the three gentlemen art vendors who were "chased" from Toronto where they tried to put thru a deal with a wealthy Sherbourne-street resident, are in custody in Buffalo under suspicion of being about to perpetrate a fraud in that city.

The first two are also thought to be the men who some months ago secured \$20,000 in notes and cheques from Mrs. James A. Patten of Evanston, Ill., for whom the Chicago police are still on the hunt. In Chicago those who were arrested were a wealthy wife of another millionaire for \$60,000 in notes for which her husband later paid as a compromise \$10,000 for the return of the notes. They told of selling \$250,000 worth of rare books to J. Wesley Ladd of Portland, Ore. The men whole under arrest in Toronto spoke of this sale and gave an accurate description of Mr. Ladd, who is well known to Detective Welsh. The man is on his way from Chicago seeking to identify them as the Chicago "con" artists where the game was also rare books. The trio are known to have sold a St. Catharines man four pictures for \$500 for which purpose the St. Catharines man went to Niagara Falls, N. Y. He did not receive the pictures, but refused to prosecute. Terry is now identified as a well known confidence man and "phony" cheque worker.

STIRLING STILL LIBERAL

Sir Campbell-Bannerman's Former Seat Remains True. (Canadian Associated Press Cable.) LONDON, May 22.—The by-election for the Stirling district of burghs, consequent on the death of the late Sir Henry Campbell-Bannerman, resulted in the return of Arthur Ponsonby, the Liberal candidate, who polled 3373, against 2512 cast for William White-law, who stood in the Unionist interest. The government majority was thus 1362.

The Stirling group of burghs was represented by the late premier for the long period of 40 years, he having been first returned at the general election of 1868. His lowest majority was 100 in 1890, when he defeated the Conservative opponent by 880; at the previous election in 1885 it was 1123. In 1906 he was returned unopposed. Mr. Ponsonby is an Englishman and was a strong opponent of the Liberal party. Mr. White-law is a native and has been before the electors for the last six months preparing for next general election. The Liberal majority is above the normal.

KING'S MESSAGE
TO TORONTO
JUNJORS

Should Live as Well as Die for Empire, Says Earl Grey, Addressing School Children.

Thousands of people witnessed the brightest spectacle yesterday that has yet been provided in Toronto in celebration of Empire Day.

Over 2000 pupils from the various schools and collegiate institutes were in line, and all along the route to Queen's Park an admiring throng applauded the young patriots. Queen's Park was in its most inviting dress. The pupils assembled at the armories at 1:30 o'clock, each school corps coming in a body, and the whole furnishing an animated and brilliant spectacle as they "wound about and in and out," in taking up their positions in the line of march. When word was given by Lieut.-Col. J. T. Thompson, the cadet band struck into a martial air and the parade proceeded.

First came the flower bearers—six little girls of selected heights from each school, dressed in spotless white and bearing tiny stretchers heaped with brilliant floral tributes.

Then came the bands of the High School Cadets and the Industrial School. Next in line were the cadets looking proud and soldier-like, the high school corps in black rifle uniforms, and the public school companies in scarlet coats. Following these were hundreds of the younger boys armed with wooden guns. Each school was distinguished by a floral badge worn in the caps.

The route of march was down University-avenue, along Queen, up Yonge to Grosvenor-street, and thence west into Queen's Park, where they were reviewed as they marched past by His Excellency Earl Grey and General Cotton, who were mounted on the steps of the parliament buildings.

At the conclusion of the decorative ceremonies the cadets and school corps were lined up in front of the pavilion, where, despite the efforts of the authorities, who had roped off a large space, five thousand people crowded close to the ranks.

In the pavilion were His Excellency Earl Grey, with the countess and Lady Sybil Grey, Sir Harry Williams, Capt. Plofing, General Cotton, Edmund Bristol, M.P., Mayor Oliver and Mrs. Oliver, the chairman and members of the board of education with their wives; Mrs. Albert Nordheimer, and Mr. and Mrs. Ramsey of Scotland. Dr. Ogden, chairman of the board of education, introduced Earl Grey.

"Sons and daughters of Toronto, citizens of this British Empire, children of the King," began his excellency. "I wish to tell you how glad I am to see you here again. Among all the functions in which I, as governor-general, have to take part in the course of a year, there is none so dear to me as an Empire Day celebration."

This was the third occasion on which he had been present at a Toronto Empire Day celebration, and with each visit he experienced renewed and increased pleasure. He agreed entirely with the emperor of Austria that children were the loveliest things in the world. The older he grew the more he loved them. He trusted that the thousands who had gathered in Queen's Park to do honor to the memory of the departed great and to the empire would not the day without making new vows and resolutions that in the coming year they would not be willingly guilty of conduct in any way unworthy of a child of Toronto, of Canada and of the empire.

The brave and martial bearing of the cadets, the cheerful happy faces of the children evidenced that each and all of them would count it an honor to offer their lives, if necessary, for their country and King. His excellency hoped it would never be necessary to exact such a sacrifice, but he had a request to make of each individual from His Majesty the King.

Well! He wants each one of you to do something which is still more honorable and therefore still more honorable. He wants each and every one of you to resolve not only to die if necessary, but to live for your country. He wants you to attend to the advice which the minister of education has given you thru the school teachers of the province, and so to live as never to bring reproach by word or deed to the empire of which you are citizens, and to prepare yourselves by every means in your power to advance the welfare of your fellow citizens whether in peace or war, whatever may be their class, creed or color.

If they resolved at once to follow the advice of their King and their teachers they would become, when grown men and women, a strong, virtuous and noble people, whose influence would radiate in ever increasing strength from Toronto, and make itself felt as a force for righteousness, not only in every part of Canada, but even the outside limits of the Empire.

Congratulations for the Province. His excellency congratulated the people of Ontario on having originated the custom of Empire Day celebrations, which were now becoming a universal feature in the life of the people in every part of the British empire. The Whitney government came in for sincere congratulations for its wise and generous action in causing the Union

More About a Suburban Railway Service

The best argument yet advanced for a suburban railway service was the resolution passed by the Trades and Labor Council. It is, in effect, that a suburban service helps to remove the congestion of population in the centre of the city, and gives workmen a chance to have their own little houses either in the suburbs, or in any of the villages and towns within reach of the city. And also they declare that a suburban service tends to reduce rents in the city, a thing of prime importance to them all.

Because people in the city advocate a suburban railway service business men in some of the small towns think that the object of the movement is to take trade away from them. We don't believe that a suburban service has that effect, but that its effect is reciprocal and builds up the adjacent villages and towns as well as the city. But the reason the great bulk of the people of the city have for a suburban service is its beneficial effects in regard to city congestion, reduction in rents, and improved conditions that result from it for those whose life is one of daily toil.

For a moment we wish to go back to Mr. Hays' and Mr. McNicoll's statement that a suburban railway service does not pay. Did you ever meet a railway manager that ever admitted that any division of his traffic ever paid? Did you ever hear one of them say that they gave first-class passenger rates at a profit, or excursion rates at a profit, or that they sold return tickets at a profit, or that commutation tickets paid them, or that freight tolls on coal or grain paid them, or any one of the many classes into which traffic is divided. It is their trade and their duty to cry down every class of traffic, and to label it as unprofitable. But somehow, on the whole, the railway manages to pay its way and even to make fair profits. And railway business must be looked at as a whole and not in classes, and the duty involved on the railway, under its franchise, is to give a reasonable service to the community in every reasonable direction, and when it does this the whole must be taken altogether and not split into classes to see which is profitable and which is not profitable.

A city that furnishes the passenger travel and the freight business that these two great railways derive from Toronto should be given a suburban service the same as is given to every other city of Toronto on the North American continent. Mr. Hays and Mr. McNicoll will not for one minute be able to make their argument good before the Railway Commission, and it is, therefore, up to the city council and the representatives of the adjacent towns to get their facts together and to unite in presenting their case with a well-organized delegation, and the order will issue for a suburban service. It would be good grace on the part of Mr. Hays and Mr. McNicoll if they tried the service without this kind of compulsion; but it seems the rule in this country that to get anything from a railway you must first throw them down good and hard or into court before you can get anything from them.

BEST ROAD TO WOODBINE

Eastern Avenue in Fine Shape for Autos and Carriages.

Those who are driving or going by automobiles to Woodbine Park to-day will find the best road east of the Don, from the Don roadway, via Eastern-avenue, which has been placed in capital condition by the city authorities. It can also be reached via Wellington and Front-streets. East Queen-street has also undergone a wonderful change in the last two or three days, and is now in a good state for street car and vehicular traffic. His Excellency the Governor-General, Countess Grey, Lady Sybil Grey and her party will leave their homes at St. George-street at 1:45, and will drive to the race-course with an escort of mounted constables and Royal Canadian Dragoon.

The members' cars will leave the Queen's Hotel at 1:30 and 1:45. The band of the Royal Grenadiers will render the music.

"LIGHTS OUT" ON COLONEL HE SPEAKS IN THE DARK

ST. MARY'S, May 22.—(Special.)—Hon. Col. Matheson had the unusual experience of addressing one thousand electors in complete darkness for over ten minutes in the opera house to-night.

Hon. Nelson Monteith, Conservative nominee for this riding, also spoke. The meeting was most enthusiastic. Premier Whitney was expected to be present, but illness prevented him.

Hon. Nelson Monteith referred to Mr. Whitney as a man who had made good. The premier was a man of action, in marked contrast to the inactive predecessors.

Col. Matheson said Hon. A. G. MacKay had repeated in his campaign that the expenditure for agricultural purposes had been increased only seven or eight per cent. This was not true, and he had pointed it out clearly to the hon. member in the legislature.

He referred to cartoons in The Globe implying that the indebtedness of the province had been increased. "There has been no increase in the debt outside of the borrowing of three millions for the Temiskaming Railway," said Col. Matheson.

Dr. Steale, nominee for the house of commons, credited the Whitney Government with an excellent management of hospitals, asylums and sanitariums. George Nellie of East Middlesex spoke briefly. Dr. Sparks of St. Mary's occupied the chair.

HOW GREATEST OF GEMS WAS CUT FOR ROYAL GIFT

Louis Asscher of Amsterdam, Now Visiting in Toronto, Describes Event of Peculiar Interest.

Louis Asscher of the firm of Joseph Asscher & Co. of London, Amsterdam and Paris, to whom was entrusted the immensely important work of cutting the Cullinan diamond, the gift of the Transvaal to King Edward, arrived in the city yesterday.

Mr. Asscher, who is the guest of P. W. Ellis of P. W. Ellis & Co., manufacturers of jewelry, with whom he has had business relations for many years.

The Cullinan diamond, which weighed 3102 carats in the rough, is the largest gem in the world, the Excelsior diamond, weighing 973.34 karats in a crude state, having hitherto held the record.

The Cullinan diamond, which weighed 3102 carats in the rough, is the largest gem in the world, the Excelsior diamond, weighing 973.34 karats in a crude state, having hitherto held the record.

Mr. Asscher, who arrived in New York several days ago with his brother Joseph Asscher, who is head of the firm, was seen by The World last night at Mr. Ellis' residence, 35 Glen-road, and gave an interesting account of the process by which the diamond was cut into three sections, the largest of which is to be presented to the King.

It will weigh, when the process of polishing is completed, about 600 karats, and will be the largest finished gem in existence, since its nearest competitor is only about one-third its size.

Mr. Asscher did not care to estimate the value beyond saying that by reason of its size, perfect color and flawlessness, it will be easily the most valuable stone in existence. It is to be delivered about the end of February next, and the most elaborate precautions are being taken to ensure its safety.

The work of cleaning the diamond was of one of tremendous responsibility, and was undertaken by Joseph Asscher in the presence of a group of diamond experts. It was a breathless moment, as the task was begun, the tension being greatly increased by the uncertainty as to the manner in which the tried expedients would succeed with a diamond of such royal dimensions.

When it had been determined how best to go on, a special box, with sliding sides, was prepared and the diamond was imbedded in cement and placed on the top of a block, not unlike a large drumstick, and an incision about one-half of an inch in depth was made by another stick, in which was embedded a sharp cutting diamond, edge upward.

When the incision was made a specially constructed knife, made of steel, was used to cut and struck with terrific force with a thick piece of steel, cleaving the stone in twain.

Now that the stone has been cleft, Mr. Asscher said, the process of polishing is under way. Three men work in one room from 11 o'clock in the morning until 11 o'clock at night, and never leave for one instant during that period of time. These men are in a specially arranged room and no one else is permitted to enter it without the consent of some member of the firm, who thereupon accompanies the visitor.

The polishing of the diamonds has required the manufacture of special instruments. A special "dop," as it is called, has been made, weighing about 20 pounds and measuring about six inches across. The mill used is of cast iron and is 18 1/2 inches across, making 2400 revolutions a minute. The mill is lubricated with a preparation consisting of crushed diamond powder and oil, and necessarily a large quantity is utilized. As the "dop" is so heavy, it is impossible to take the big diamond from the mill with the big diamond as usual, and therefore a special instrument has been made for the purpose.

The mechanical device is so constructed that it works by foot power, and raises the diamond from the mill.

Conditions of Diamond Market. Mr. Asscher, speaking of a recently published article intimating that a cut rate diamond was in prospect, referred to Mr. Busch, sales manager of the Premier syndicate as having, while at Amsterdam in company with a representative of the De Beers syndicate, eight days ago, according to special advice, declared that no reduction whatever was contemplated.

One cannot avoid the bodily pain and discomfort caused by illness and injury, but we can provide against the momentary loss of ability.

Our policy is to insure against the momentary loss of ability, even in the most trifling cases. All the bills that most people pay are specified in the policy, and every chance of accident is ordinarily heir to an accident.

The premium is small. Write or call on our office, 1642, London Guarantee Building, corner Yonge and Richmond streets, Toronto.

BOY DROWNS IN HUMBER

Gordon Henderson, Aged 17, of Shaw Street Loses His Life While Swimming.

The first of this year's drowning accidents in the Humber River occurred about 1:45 yesterday afternoon, when Gordon Henderson, 17 years old, of 311 Shaw-street, lost his life while in bathing with two young companions, Albert Wilson of 150 Louise-street, city, and Albert Smart of 124 Law-street, West Toronto.

The drowning took place a short distance south of the Bloor-street bridge, and just below the old mill. The three boys started to swim across the river, and Henderson, who was not a good swimmer, got considerably out-distanced by his companions. Upon reaching the opposite bank, Wilson and Smart turned to see what progress Henderson had made, and saw that he was about the middle of the river and apparently in distress. Fatigued as they were after crossing, the two plunged in again and endeavored to reach their companion, but in vain.

Under the circumstances, it was only a matter of time before Henderson would have gained the bank by a desperate struggle, as he was almost completely exhausted, as he was managed, however, to recover the boy.

Under the circumstances, it was only a matter of time before Henderson would have gained the bank by a desperate struggle, as he was almost completely exhausted, as he was managed, however, to recover the boy.

INDIANA MAN KILLED
SIX, AUTHORITIES SAY

Brimmingstall is Name of Latest
Fiend from That State—List
of His Victims.

SOUTH BEND, Ind., May 22.—James Brimmingstall, aged 40, is under arrest at Dowagiac, Mich., 27 miles from South Bend, Ind., charged with six murders.

The police say he has already confessed to two. His arrest followed an attempt to murder his wife and several victims, one escaped and another was killed.

The police say he confessed to killing a man in Kansas whom he had a grudge against and was sentenced, ten years in the penitentiary. After his release he killed a companion and received a sentence of three years. He gave no names.

One of Brimmingstall's victims, according to the officers, is Man in Kansas (name not given), said to have been killed by Brimmingstall when the murderer was 13 years old.

Railroad man in Missouri (name unknown) killed seven years ago. Two men sleeping in a tent in Missouri (names unknown).

David Huff, Dowagiac, June, 1907. Smith Horton, Dowagiac, February, 1908.

Mrs. Brimmingstall, apparently distraught, appealed to prosecuting attorney T. J. Breenahan for protection. She said that "Jim" was going to kill her; she could not go to sleep for fear he would break into the house and murder her. She gave hints that led to the discovery that her husband has a criminal record.

David Huff, an aged citizen of Dowagiac, went to the Brimmingstall home to live a year and a half ago. He deeded them his property on their promise to support him for the remainder of his life. One night last June a scuffle was heard in an upper room of the house. Huff was found dead in bed with the bed clothing very much disturbed. Brimmingstall said that Huff had some sort of violent illness, colic or something like it, and accidentally choked himself to death with the bed clothing.

PRESENTATION OF PORTRAIT
Painting of the Duke of Connaught to Grace Masonic Hall.

An oil painting of the Duke of Connaught, grand master of the Grand Lodge of the Masonic Order in England, was presented to the Masonic Hall Trust, at the Zetland Lodge chambers in the Temple Building last night by Wor. Bro. John Ross Robertson. The painting is by E. Wylie Grier, and is a fine likeness. It is of large size.

Mr. Robertson made the presentation himself, and the representatives of the trust to receive it were: A. Davis, worshipful master, Roboham Lodge; K. J. Dunstan, past master, Ionic; J. Cavan, past master, Doric; J. Howard, past master, St. Andrew's; H. Leeson, secretary hall trust, and Bro. Thompson, past master, Ionic.

Among the prominent visitors other than the Hall Trust were: R. L. Gunn, acting grand secretary of the grand lodge in Canada; E. C. Davies, past master, Harmony; T. Smith, past grand junior deacon of Grand Lodge; A. E. Haggerty, junior deacon, Grand Lodge; O. J. Brown, past master Doric, and W. C. Hall, worshipful master of Zetland Lodge.

Bro. Jas. Lumbers and W. J. Kelly witnessed the presentation, which took place in the hall of the Zetland Lodge last night.

KILLED BY FALL OF CLAY.
Emerson Benns Meets Instant Death in Bell Bros' Brickyard.

By the cave-in of a clay bank at Bell Bros', Greenwood-avenue brickyard, Emerson James Benns, a laborer, living at 684 East Gerrard-street, was instantly killed.

Benns, who was working, was working loading clay into a cart at the foot of the bank. A third man was working at the top, 30 feet above. This had been recently blasted and the man above felt it giving away. He shouted to the men beneath but Benns, who was working between the cart and the bank, was unable to get away.

He was struck down by a huge piece of clay, weighing about 300 pounds. His skull was crushed and three ribs and his hip fractured.

The body was removed to Ingram's undertaking rooms. Coroner Pickering deciding that death was clearly accidental.

Decceased was 48 years of age. He leaves a widow and several children, one of whom is a freeman at the Bay-street station.

Freed of Forgery; Arrested for Theft
NEW YORK, May 22.—Ray S. Cogswell of Rochester was held in \$500 bail in police court here to-day on a charge of larceny. He had been arrested at Batavia yesterday on complaint of Herman Levy, a New York diamond dealer, who declared that he had delivered a diamond ring and chain valued at \$10,000 to young Cogswell on March 1, 1904, and that Cogswell had pawned it instead of the ring and chain to a jewelry firm in Rochester as arranged. Cogswell, at Batavia, was discharged on the forgery charges.

Peterboro, May 22.—(Special).—No appointment has yet been made for the position of chief of Peterboro fire department. The fire, water and light committee is dealing with the matter.

Warning Was Fatal.
SCHENECTADY, N.Y., May 22.—Calvin Milbank, an expert mechanic, accidentally came in contact with a switch in the testing department of the General Electric Company to-day and received a shock of over 13,000 volts. He died in a few minutes. He had been employed by the company fifteen years. As he passed the switch-board a fellow employe warned him of danger. Stepping closer to hear what his friend was saying he received the fatal shock. Milbank was 40 years old, and has a wife and four children.

"Hiawatha."
The Daily and Sunday World is now being delivered at this popular summer resort. By telephoning your order to Main 252 or leaving same at 53 Yonge-street you will receive The World before breakfast.

Travelers May Take Up Question of Hotel Safeguards.

A well known commercial traveler of this city called on The World yesterday in connection with the fire which destroyed the Queen's Hotel at Tilsonburg. He stated that the fire protection appliances in this hotel were very inadequate, and that the statement that there were ropes in each room was incorrect. He also stated that the fire scope was little better than useless, being in a very unkept condition.

Also not staying at the hotel at the time of the fire, he has stopped there a number of times and was well acquainted with the existing conditions. He is of opinion that the Commercial Travelers Association should take up the question of fire protection in all hotels through the country, and intends bringing the matter before the association at an early date. He says: "If anyone is interested in the fire equipment of hotels traveling men are, since they spend the greater part of their time in them."

DUNLOP CLAIM SUSTAINED
Latest Tire Litigation Results in Decision Favorable to the Original Patentees.

British Columbia papers report the successful issue of a suit brought by the Dunlop Tire and Rubber Goods Company against certain parties who were alleged to have infringed the Dunlop Company's patent pneumatic bicycle tire. This is the latest piece of litigation reported in this cause, and evidence in this case shows that the Dunlop tire is still not without its envious imitators. When it first appeared the Dunlop idea was widely copied and extensive litigation followed, in which the original patentees were sustained in every instance. The latest infringements in Canada were importing, and offering for sale, a tire that imitated the Dunlop in construction. The court ruled that the defendants in the case had offered for sale a tire that infringed the Dunlop patent and an injunction was forthwith granted.

The feature in pneumatic tire construction that marks a tire as a "Dunlop" is the inextensible retaining wires. No tire, having unstretchable wires embedded in its edges, around the narrowest part of its circumference, can be made, or offered for sale in Canada, by any other than the original patentees, the Dunlop Tire and Rubber Goods Company. The Dunlop idea in bicycle tire construction holds good also in automobile tires. It is applied to all forms of pneumatic tires.

The recent litigation in British Columbia followed the arrival there of Mr. John Westren, secretary-treasurer and general manager of the Dunlop Tire and Rubber Goods Company. In an interview, however, Mr. Westren denied that his visit to "the coast" was altogether prompted by patent infringements. The primary object of his visit was to inspect the company's branches in the west and to locate the Vancouver branch of the Dunlop Company in new premises.

CHIPPWEA RUNS SATURDAY.
The Niagara Navigation Company's steamer Chippewa will make the 2 p.m. trip out of Toronto Saturday; round trip 75 cents.

The Chippewa and Corona leave Toronto on the holiday at 4:30 a.m., 9 a.m. and 2 p.m., low rates prevailing to all points:

Niagara, Lewiston and Queenston	\$1.25
(afternoon)	1.00
Niagara Falls	2.00

Tickets and all information can be had from Webster & Co., ticket agents, corner King and Yonge-streets.

Will Depart Italian.
MONTREAL, May 22.—Edraro, the man who is held on a charge of 2nd degree murder, will probably be dismissed without trial. Madame Forget is anxious to leave for Europe next week, and will not return until the fall. On this account it is stated that the case against Edraro will be dismissed, and he will be deported.

GIVE IT FREE
To Men Until Cured
Not One Penny in Advance or on Deposit.

I wish you could know for yourself the wonderful effect of the galvanic current on weak and nervous men. I wish you could realize the health and happiness that will be yours when this wonderful force infuses every nerve and vein of your body as accomplished through my treatment. I have been curing thousands every year for forty years, and have proved that my method will cure any curable case. So positive am I of my power that I am prepared to take all the risk and give to any man suffering from Nervous Debility, Varicocele, Drains, Lack of Vigor, etc., or from Rheumatism, Lame Back, Kidney, Liver or Stomach Troubles, the use of my world-famed Dr. Sanden Electric Belt with Electric Suspensory, absolutely FREE UNTIL CURED. If I fail you don't pay me anything whatever. I leave you to be the judge and ask not one penny in advance or on deposit. I cannot do more than this to prove the value of my treatment, so if you will call or write I will at once arrange to give you a Belt suited to the requirements of your case, and you can pay me when cured. Many cases as low as \$5.00, or for cash full wholesale discount. You will also get the benefit of the inestimable advice my forty years' experience enables me to give my patients. This long continuous success has brought forth many imitators. Beware of them. You can try the original, the standard of the world, free until cured, then pay for it.

Call to-day and take a Belt along, or send for one by mail. I have two of the best book ever written on Electricity and its medical uses, and containing several hundred wonderful testimonials, which I also send free, sealed, by mail. Address:

THE EMPIRE OF SATAN
The Reign of Sin and Death to Be Followed by the Reign of Righteousness and Life—Why Evil is Permitted—Satan to Be Bound During the Millennial Reign of the Prince of Peace—"The Glory of the Lord Shall Be Revealed"—"And All Flesh Shall See it Together."

SPRINGFIELD, Mass., May 22.—Pastor C. T. Russell of Pittsburg, Pa., spoke twice here yesterday, to large and attentive audiences. The afternoon discourse at Court Square Theatre was on the Overthrow of Satan's empire. The large audience listened with intense interest to his new and old from the Scriptures. We report the discourse as follows:

Explain the matter how we will, but nature has not concealed that according to our own experiences and the records of history our race has for centuries been under a reign of sin and death unexplainable except in the light of the Bible, the divine revelation. The downward tendency with which we were born, and which were born in sin and shaped in iniquity, in vain have we endeavored to reconcile the present and past experiences of our race with the justice on the part of our Creator—except as we obtain light upon the situation from His word.

But nature has not concealed that should be the Almighty God, the Creator, is the King and ruler of earth; and it is charged with the sons of God saw the daughters of men that they were fair, and took unto themselves wives of such as they would: and they bore unto them sons and daughters, superior in some respects to the fallen, Adamic stock.

Powers to Angels.
To comprehend this situation it is necessary to remember that the angels in harmony with God were granted powers of materialization, as illustrated in the case of those who appeared to Abraham. We read that Abraham supposed that to be men, and that they did eat and talk with him, and the subsequently he ascertained that the one was the Lord, and the other his angels, who, the spirit beings, had for the time and purpose assumed human bodies and human feelings, thus interacting between the angels and humanity was not only authorized, but contrary to the Divine will and arrangement. It was a recognized reference to the apostles Peter and Jude, who spoke of the transgressors as those angels who kept not their first estate, or naturally towards hospitals beings and to indulge in sin.

(2) This condition of things was permitted for probationary purposes of the 1656 years preceding the flood, long enough, we may be sure, to furnish a test of the loyalty of every member of the angelic host. It was by those who would might commit sin with impunity; apparently God, who shall be bound for a thousand years, and that instead of the Lord's whole earth; and that instead of God's footstep being in a cursed or unfit condition He will make the place of His feet glorious, and the angels will be waiting for that day, the glorious "times of restitution of all things which God hath spoken by the mouth of all His holy prophets since the world began." (Acts iii, 21), we ask, Why does God permit sin and its train to continue, and become corrupt? Having the power to bind and to destroy Satan, the prince of this world, why has He not done so long ago? Why is it that He has allowed us to pray, "Thy Kingdom come, thy will be done on earth as it is done in Heaven, and did not rather establish the reign of His Son, who would be it? Why did He not prevent even the beginning of the reign of sin and death? These are great questions, and they are answerable only from the one standpoint—the divine revelation, the Word of God. The angelic host, however, Satan was a great and holy angel of a very high order. Before he fell from his honorable station, he was known as Lucifer, the bright and morning star, as a "covering cherub" (Isa. xlviii, 14), his rank, nature or plane of being was that of the highest order of angels.

He is referred to as a gorgeous prince among the holy ones called the "morning stars." (Job xxxviii, 7), the angelic host, however, Satan was a great and holy angel of a very high order. Before he fell from his honorable station, he was known as Lucifer, the bright and morning star, as a "covering cherub" (Isa. xlviii, 14), his rank, nature or plane of being was that of the highest order of angels.

He is referred to as a gorgeous prince among the holy ones called the "morning stars." (Job xxxviii, 7), the angelic host, however, Satan was a great and holy angel of a very high order. Before he fell from his honorable station, he was known as Lucifer, the bright and morning star, as a "covering cherub" (Isa. xlviii, 14), his rank, nature or plane of being was that of the highest order of angels.

A Murderer From the Beginning.
Hearken to our Lord's description of Satan, the prince of this world, and the father of lies, and you will obtain his great power, his great influence among mankind. Our Lord has declared that he was a murderer from the beginning, and he is still a murderer from the beginning. (John viii, 44), and again declares of him that he is the father of lies, the father of all unbelief. Following this clue we turn back to see in what respect Satan was the first great liar and murderer. To our astonishment the record in Genesis is explicit. After God had informed our first parents that disobedience to His command respecting the tree of knowledge would bring a death penalty, that of the serpent, the devil and Satan contradicted God, declaring that this would not be true. He lied, and there became the father of lies. God's words were, "In the day thou eatest thereof thou shalt die." Satan's words were, "Thou shalt not surely die. The lines were strictly drawn. To help along his lie and thus to deceive our first parents, he suggested to them in their ignorance, and to keep them in their servitude thru that ignorance. Thus mother Eve was beguiled, and she ate of the forbidden fruit. The Almighty as ignoble and selfish, and conspiring against the interests of his creatures, and threatening them with death, which the old serpent had assured her God was unable to inflict. (3 Cor. xi, 3). Alas! Thru that lie the father of lies the death sentence came upon Father Adam and Mother Eve and their entire race!

Satan has been consistent in his course from first to last; starting out with a lie, he has maintained that lie ever since; and it has been at the foundation of all of our misconceptions of God, of His Word, and of His great plan of salvation. Satan's message on the subject has been believed by all the heathen world, and has been enforced by the various teachings propagated thru the demon hosts, who have worked in various ways thru sorcery, magic, witchcraft, wizards, etc., for the propagation of the error.

Can we hope for the conversion of the world suddenly? Will we soon see the renounce Satan and his works and become followers of righteousness? It is in our course, for the hope along this line. The past century has been the most vigorous known in history in the matter of Christianity against heathendom; yet there are twice as many heathen to-day as there were a century ago.

The Scriptures show that at the

Tenders for Coal, 1908

Sealed tenders, addressed to the Provincial Secretary, Parliament Buildings, Toronto, marked "Tenders for Coal," will be received up to noon on Saturday, May 23rd, for the delivery of coal in the sheds of the following provincial institutions, viz.: Toronto, London, Kingston, Hamilton, Mimico, Brockville, Cobourg, Orillia, Pennington, Woodstock Hospitals for Insane; also the Central Prison and Mercer Reformatory.

Specifications of the qualities and quantities of coal required, and forms of application, may be obtained on application to the Department, or from the Bursars of the respective institutions.

Tenders are to specify the mine of origin and the quality of respective kinds of coal, and to furnish evidence on delivery that the coal is of origin specified, fresh mined and up to the standard of trade grades.

Deliveries subject to satisfaction of Officers of Department of the Provincial Secretary, and to furnish evidence on delivery, not exceeding 20 per cent., up to the 15th July, 1909.

Tenders will be received for the whole quantity specified, or for the quantities required in each institution. An accepted cheque for \$500, payable to the order of the Provincial Secretary, must be furnished by each tenderer, and two sufficient authentic copies of the cheque, with due fulfillment of each contract. The lowest or any tender not necessarily accepted.

Newspapers inserting this advertisement without written authority from the Department will not be paid for. Provincial Secretary, Parliament Buildings, Toronto, May 11th, 1908.

TENDERS
HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO.

Tenders will be received until Tuesday, May 26th, 1908, for the construction of (a) STEEL TRANSMISSION TOWERS; (b) TRANSMISSION CABLES; (c) ELECTRICITY COMPLETE, OF TRANSMISSION SYSTEMS according to plans and specifications to be seen at the commission's office, Continental Life Building, Toronto.

A charter bank for five per cent. on the amount of the contract, and a cheque for the cost of the work in each tender, must accompany the bid. The lowest or any tender not necessarily accepted.

Tenders must be sealed and addressed: Hon. Adam Beck, Chairman Hydro-Electricity Power Commission, Toronto, Ont.

SELF CURE NO FICTION! MARVEL UPON MARVEL! NO SUFFERER NEED NO DESPAIR.

but you must get it into the deep ditch of quackery, may safely, speedily and economically cure himself without the knowledge of a second party. By the use of the NEW FRENCH REMEDY

THE THERAPION

A complete revolution has been wrought in this treatment of medical cases, which those who have been restored to health and happiness who have been previously treated by merely dragging out a miserable existence.

THERAPION No. 1—The Sovereign Remedy for all diseases, supererogatory injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2—The Sovereign Remedy for primary and secondary syphilis, eruptions, ulcers, pains and swelling of the joints, and all those complaints which mercury and arsenic are popularly but erroneously supposed to cure. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3—The Sovereign Remedy for debility, nervousness, impaired vitality, loss of appetite, indigestion, flatulence, business or pleasure, love of solitude, blushing, indigestion, pains in the back and head, and all disorders resulting from disipation, early excesses, etc., which the faculty so persistently ignores, because so insistent to cure or even relieve.

THERAPION is sold by principal Chemists and Druggists throughout the world. Price in England 1/3 per packet. In order, state which of the three numbers required, and observe that the word "THERAPION" appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

POLITICS AND FARMERS.
Both groups of politicians are anxiously impressing farmers now with what their respective sides have done for agriculture. In this wordy warfare there is little concern by the man behind the plow. He is chiefly concerned with the way his burdens are increased and his comforts are lessened. He is a judge for himself, and he is right. He is to be bulldozed by any set of politicians. He wants many things righted and is thankful for it. He has got. Let these same politicians get busy with doing things during the four years of power.

DRYDEN'S SHORTHORNS.
An exceptional opportunity will be offered to breeders of Shorthorn cattle, on both sides of the line, on June 5 next, when the Maple Shade Farm, Brooklin, the property of the Hon. John Dryden & Son, will dispose of some of its choicest breeding stock. The Maple Shade herd was established 48 years ago and has been adding to its strength each year. Those breeders who have been at the farm, who have seen the produce, or who have heard the Hon. John Dryden, late minister of agriculture, on how the herd was first established, or how the ideals of breeding were always a little bit higher than ordinary, will be sure to recommend the quality that Maple Shade produces.

The farm is situated in the heart of Whitby Township on an fair stretch of land, as the Canadian sun ever shone on. Here on the beautiful farmstead in leafy June will be sold forty females and two bulls, importations from the world-famed Scotch herd of the late Amos Cruickshank, the herd which has made a reputation for excellence and high-class character of individuality second to none on this continent. And while the herd for nearly half a century has been in active competition with the best that could be brought against them, and in nearly every case returning with added laurels of honor, it is safe to say that never before were so many high-class animals found together in this great herd, and these are the ones that on June 5 will be sold by auction without reserve, as every animal offered will certainly be sold to the highest bidder. Nearly all the females are one and two-year-old heifers, and all old enough will either be safe in calf or have calves at foot, representing in blood lines such fashionable tribes as the Besse, Brawith Bud, Village, Lavender, Orange Blossom, Rosebud, Duchess of Gloster, Lady Eden, Nonpareil, Miss Ramsden and "Tooth Thistles," a number of them being Toronto winners. The two bulls to be sold are high-class animals, put up to date in every detail, and show this wet spell will likely be followed with the usual dry periods.

A telephone meeting was held last week at James Horrop's, Balham. It was decided to run the new line thru to Claremont. This line when completed will carry six wires and will be up-to-date in every detail, and shows good enterprise on the part of Ontario County farmers.

One chicken fancier, who raises incubator chicks, says that he had the best success hatching in the cellar. The moisture he believes is best circulated thru the air to the eggs.

Merchants in the small towns and villages say that the automobile is one of their worst enemies for trade. The farmers' wives are nervous all the time they are in shopping and they do not come as often as they would were they not alarmed.

Bluff seems to be the way many business men run their business. They go on the assumption that money is everything and the possession of it warrants any means to accomplish their ends.

Messrs. Smith & Richardson, Columbus, Ont., the well-known importers, report that they have just closed the sale of Baron Orr, imp., the fine two-year-old Clydesdale stallion, a winner at the recent horse show in Toronto, to Mr. Neil Bell, Stayner, Ont., at a very satisfactory price. This is the tenth stallion this firm has sold within the last ten days. It speaks well for the Clydesdale business.

THE DAVIES CO., LIMITED
24 QUEEN ST. W., TORONTO

The Farmstead.
Remember Dryden's sale.
Rain has fallen nearly every day for the last two weeks.
Grain is growing fast and yet plenty is yet to be sown.
Meadows promise great hay crop returns this year.

Is it not a fallacy to say that joint disease in colts comes from infection after birth?
Donlands Farm has 18 acres of as pretty fall wheat as grows out of doors.
Carrot seed will keep for twenty years and germinate after that time, says Selah Orvis, an aged resident of Pickering Township.

Belvoir Farm Shorthorns should be well kept in mind. Belvoir and Maple Shade are names to conjure with.
R. J. Mackie of Oshawa, the well-known Hereford breeder, says that Gowenlock's stock was in excellent shape for the sale and Herefords were certainly in favor.

The Louisiana Experiment Station, Baton Rouge, has not found blackstrap molasses as satisfactory a feed in calf-raising as in feeding adult animals.

The word "Baron" has been copyrighted by the firm of Montgomerys in Scotland. The Clydesdale Society of Great Britain has granted four such now. This action makes it impossible for other breeders to use the word in the names.

BUY LAND IN WESTERN CANADA NOW
We hold the exclusive agency for large blocks of rich, specially selected Canadian Pacific Railway lands in Western Canada.

Our Fourth Cheap Excursion
Leaves Toronto TUESDAY, MAY 26th, Fare to Calgary and return, \$40.50
TERMS remarkably easy, or may be bought on half CROP PAYMENTS

One year's crop frequently pays for the land. This is an opportunity to secure the best bargains in farm lands obtainable anywhere, on terms not offered by any other Company. We will run additional excursions on the following dates: June 9 and 23, July 7 and 21, Aug. 4 and 18, Sept. 1, 15 and 29. Write at once for particulars, or call on F. W. HODSON, Manager Land Department, Union Trust Company, Limited, 174 Bay St., TORONTO, ONTARIO.

The KEMP Manure Spreader
YOU ROB YOURSELF EVERY YEAR YOU DON'T OWN A KEMP MANURE SPREADER.
Growing corn, wheat and oats feed on the soil. If it is not replenished with food elements it will starve. In time it will become exhausted—a worn-out farm. No one wants such a farm, or need own one. The manure pile contains the food elements your soil is hungry for. And the KEMP will spread the manure to best advantage.

The W. I. KEMP CO., Ltd., Stratford, Ont.
Sectional view of a portion of the rear end of Kemp Spreader. Notice heavy steel pin chain and strong gears used to transmit power from rear axle to beater. The chain and gears are only in motion when spreader is in operation. Also notice the large 24-inch drop-beater, which gets under the manure and lifts it out of the box, instead of shoving it back in. This beater makes KEMP run easy.
This Gear Cannot Go Wrong

REGISTER YOUR CLYDESDALES
To be eligible for registration, a graded Clydesdale filly must have four crosses by Clydesdale sires recorded in Canada. Stallions require five crosses. It will save trouble and expense to attend to this matter early. For application forms, etc., apply to Accountant, National Live Stock Records, Ottawa.

JOHN DRYDEN & SON'S SALE
OF
SCOTCH SHORT - HORNS
Brooklin, Ontario, June 5

42 HEAD of richly-bred Scotch cattle that have been selected with care to present an offering that would appeal to buyers of good things as well as those who appreciate strength of pedigree. Such tribes as Duchess of Gloster, Victoria, Clipper, Lavender, Brawith Bud, Nonpareil, Miss Ramsden, Bessie and others. There will be strong matrons of known producing worth, show heifers of fine form; in all, a creditable lot of cattle. 5 BULLS are listed, including some that are of show-yard mold and right for high-class herd service. All cattle offered will be recorded in the American Herd Book.

This is YOUR OPPORTUNITY to Secure CHOICE STOCK. GET THE CATALOG. It will be mailed to all who write for it mentioning The Toronto World. Col. Geo. P. Bellows and Geo. Jackson, Auctioneers.

DAIRY STOCK FOR SALE.
Four Ayrshire bull calves, three of them six months old and nearly ready for service. One sired by Hillhouse Fitz of St. Anne's, a son of Howie's Fizzaway, one of the most successful bulls imported of late years, whose dam was the deep-milking Bluebell I. of Hillhouse. The other three are sired by Carrick Lad of Montebello, of the famous Glencairn III. (imp.), and Baron of Maple Grove (imp.), strains.

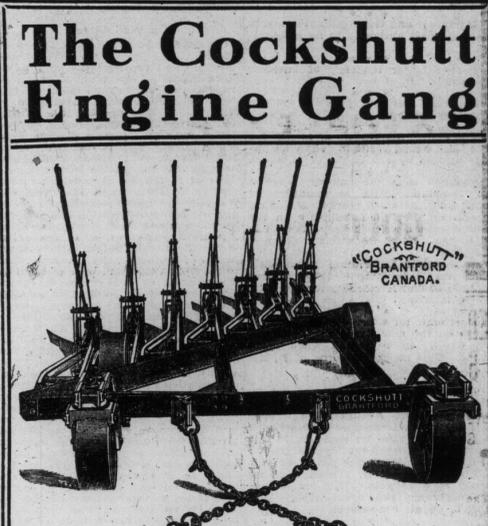

DAIRY AND STOCK FARM FOR SALE
172 acres, about 3 miles from city limits, sandy loam, underdrained, branch Don River and spring creek of pure water through farm, well shaded, suitable for trout ponds, golf grounds, etc., 30-acre orchard on full bearing, buildings fair state of repair. Apply to James W. Severs, City Hall, Toronto Gen. Trusts Corporation

Cockshutt Engine Gang, with frame on wheels, 7-furrow size.

THE Cockshutt Engine Gang has now for two seasons successfully stood the hardest tests in all the difficulties of traction plowing. It has received the enthusiastic endorsement of every experienced traction plowman, practically all of whom have given up the plows they were using and bought the Cockshutt.

The frame, 7-furrow, as illustrated, is large enough and already prepared for an eighth plow to be added at any time. The above style is also made in ten and twelve furrow sizes.

Individual bottom to each lever instead of gangs of two. The advantage of individual action is very apparent and very important. Don't try a costly experiment. Buy what you know is successful.

For all information about Steam Plowing write **COCKSHUTT PLOW CO., LIMITED** BRANTFORD, ONTARIO.

Canada Permanent Mortgage Corporation

TORONTO STREET, TORONTO.

WALL ST. IRREGULAR BUT WITHOUT STRENGTH

Rallies at New York Are Short-Lived—Local Holders Hopeful of the Future.

World Office, Friday Evening, May 22. Dealings were tame at the Toronto Stock Exchange to-day. Sentiment was not altogether one-sided, but the market was largely governed by the limiting buying power. Speculative shares were both inactive and weak, with the exception of Winnipeg Railway, hold-ers of which appear to be hypnotized when they cannot be induced to realize at such a price as 18. The only strong aggressive issue was Canada Fer-riam, which advanced three points and held the rise. It is believed that the next dividend on this stock will be increased, and the present buying is on this account. The Wall-street market was too irregular to make definite local sentiment, and it was partially on this account that domestic specu-lators were practically left alone. The small net earnings on Mexicans appar-ently did not influence holders, as the price of the shares held at about yesterday's figures. The best that could be said of the Toronto market to-day was that business was exceed-ingly dull and that holders are hope-ful that buyers at higher prices will eventuate at a future date.

Wall Street Pointers.

The American Smelting Co. to-day advanced the price of pig-lead ten cents to \$4.35 a hundred pounds.

Tennessee Coal and Iron Rail Mill will resume operations June 15.

Rogers, Brown & Co. say orders for 200,000 of northern and southern pig-iron have been placed in Pittsburgh.

Light demand for stocks in loan crowd.

Harriman and Gould alliance rumors said on good authority to be unfounded.

Rather better tendency of business continues.

Smelters may not pass or reduce common dividend.

The known movements of money for the week ended yesterday show an ap-arent loss by the banks of \$4,997,000.

Shotwell says the recovery showed the complete control the manipulators have over the stock market. Makes no prediction, but talks bullishly on the Gould stocks, also he says there has been no Gould-Rockefeller alliance, but that the rise in Missouri Rockefel-ers has been due to William Rockefeller, who has accumulated 150,000 shares around 30 and is marking it up on the short interest.

Harriman authorized resumption of work on the New Union Pacific stock, on which work ceased when the same. This means spending of \$1,000,000.

Joseph says: As we said would be the case, steel manufacturers will sus-tain schedules. Amalgamated Copper will get better. Leaven is buying. Smel-ter better take care of P. P. for quick trucks; the subsidy bill again looks good. Remember what we said about Ontario silver. This low-priced stock is a bargain. Hill issues and Pennsylvania are commended. Buy B.R.T. on all concessions.

Extension of the recovery is likely. We would not follow it up, however, preferring to buy for turns on heavy-ness and taking profits on sweets. The market has apparently resolved itself into a trading affair temporarily and the policy suggested will give the best results until the manipulative hand shows a more decided trend. The low priced stocks may be strong to facili-tate temporary or silver. The market in the high priced list. News from the steel meeting shows a maintenance of prices, and it is evident that no large burst in the market is acquir-ing the summer, or a cut would have been made. The business of the Steel Cor-poration is reported fair and slowly improving. Daily operations who are alert will probably be able to make moderate turns on the short as well as the long side in this trading mar-ket.—Financial News.

NEW YORK, May 22.—We looked for the reaction which came about in the second hour today, the bear trad-ers really have a more effective argu-ment than has been placed in their hands in a long time in the action which the government brought this morning against the New York, New Haven and Hartford Railroad. This action was brought under the Sherman anti-trust law and asserts that this road is exercising a monopoly of the land transportation facilities througout the New England States. According to the petition the road has acquired con-trol of 500 out of the 600 miles of elec-tric railway in Rhode Island and even a greater mileage in Massachusetts. These electric railways have no com-petitors with the New Haven, ac-cording to the government, prior to their acquisition, and the government seeks to take now from their control,

which would mean that a receiver would be appointed for them if the government wins, and to wind up their affairs and sell them, unless the New Haven itself should dispose of them. There has been a good deal of talk lately to the effect that the New Ha-ven intended to get rid of this prop-erty, and this talk probably had the present government suit in view. The government also claims that three per-cent of 35 per cent. of the stock the New Haven controls the Boston and asks that the court should issue such orders as would prevent it from ex-ercising this control. The New Haven suit affects in principle, at least, a great many of the railroads, principal among which is the New York Central. During the past few years railroads in different thickly populated sections of the country have felt the increasing effect of the extension of the electric railway system. In many sections the railroads have taken the bull by the horns and bought outright these com-peting lines. New York Central has done a great deal of this, as have the Delaware and Hudson and other im-portant systems and if the government can make its case hold in the present suit there is no reason why it should not proceed against various other com-panies.—Town Topics.

On Wall Street.

Charles Head & Co. to R. R. Bonding. Much uncertainty and irregularity characterized the dealings in to-day's stock market, a speculative contest of considerable proportions being in evi-dence without material advantage to either side. The opening was strong and active and the gain of one or two points over last night's closing were shown during the first half hour in the active issues, with Union Pacific and Reading maintaining the leadership and the rest of the list sympathizing to a greater or less extent. The rapid ad-vance invited heavy resistance, how-ever, and the bull manipulation halted while the more urgent demand from the short interest appeared to have been sat-isfied in the opening bulge. After a short period of hesitation the traders turned to the selling side, and were assisted by the heavy bearish operations, which were credited to an out-side speculator who has become prom-inent during the past year. Reactions of one to three points ensued, and a moderate amount of liquidation was in-duced, but the bulk of the selling was apparently for short account, and the supply of stocks on the decline was comparatively small. Covering of shorts again caused a rally, but the frequent changes in the tendency of the mar-ket fused trading sentiment that the room was disposed to quit, and the market became very dull after mid-day, but the undertone continued strong. The rejection of the subsidy bill by the Senate at Washington caused a sharp break in Pacific Mail, and the break-ing of the government suit against the New Haven Railroad was used as a bear argument by the traders, and these items there was no news of importance. After the delivery hour the bear con-tingent again took the aggressive, forc-ing prices down to the previous low levels and catching some stop orders. The closing was weak and unsettled.

Spader & Perkins to J. G. Besty; To-day's market showed many char-acteristics of some recent seasons, the early trading being on strong lines, with fair advance in favorite issues, followed by realizing pressure and a softer tone, from which a recovery fol-lowed. The banks appear to have lost about \$5,000,000 in cash, which is very moderate in view of large payments being made to the government and gold exports earlier in the week and on Thursday.

Ennis & Stoppard wired to J. L. Mitchell. The market covered a fairly wide range of fluctuations in leading stocks, rallying vigorously on appearance of buying orders from strong interests, but with general tendency toward lower levels. An abnormal amount of the business was in Union Pacific and Reading. London took 5000 on balance. There has been a succession of million share days, during which there has un-doubtedly been considerable lightening of the bull position. Re-affirming of steel prices was considered a favorable development, but some interests do not appear to have favored the decision reached. The iron market has appar-ently turned the corner, and cotton goods is pretty well liquidated. Sugar prices were lower to-day for the re-fined product. A great revival of busi-ness must come during the next twelve months, and this should be discounted in due course.

We look for continued irregularity to-morrow, but we regard the leading issues, especially Reading and the Har-

LARGE HOLDERS INCLINED TO SELL.

World Office, Friday Evening, May 22.

Canada Permanent advanced three points to-day on buying, evidently impressed with the statement made at the last annual meeting of the company that an increase in dividend was quite possible. This was the only buoyant feature of the Toronto market to-day. Trading in other issues was at about steady prices. The statement of the Mexican Light & Power Company, showing current earnings of only 1.4 per cent. on the common stock, was of no great importance here, as most of these shares are held in Montreal. Speculative stocks are less difficult to procure than has hitherto been the case, and the assumption among brokers is, that insiders are beginning to fill orders as they now appear.

WEEKLY LETTER.

Toronto, May 23rd, 1908. The statement in our last weekly letter in Cobalt was that we felt to be optimistic...

COBALT--Little Nipissing Promises To Be the Next Shipper--COBALT

SIGNS OF DISSIPATION OF CROWN RESERVE FLURRY

Stocks Sell Down on Small Realizing--Little Nipissing and Other Issues Are Firm.

World Office, Friday Evening, May 22. The flurry in Crown Reserve petered out to-day, when actual holders of the stock attempted to take advantage of what is considered to be a fictitious price.

Early Dividend Payers. Little Nipissing will be an immediate shipper and an early dividend-payer, if the directors can be persuaded to do so.

The Little Nipissing has secured power from the Big Nipissing to operate a shipper on the main vein, where a new vein, running parallel to the main vein, has been uncovered and is being worked.

Over 400 bags of rich ore are sacked, and the dump is full of high-grade ore that will be sacked at once.

Robert Tighe of Larder City writes that Messrs. Wakefield and Patterson, directors of the Harris Maxwell Gold Mine, have just returned from Larder City, where they have a large gang of miners at work.

The government is evidently alive to the exigencies of the situation, as on their way in they met a staff surveying for the spur line projected from Larder City to the Harris Maxwell mine.

Following are the weekly shipments from Cobalt camp, and those from Jan. 1 to date:

Table with columns: Shipper, Week-end, Since Jan. 1, Ore in lbs.

COBALT ORE SHIPMENTS.

The total shipments for the week were 85,230 pounds, or 47 tons. The total shipments from Jan. 1 to date are 12,294,448 pounds, or 614,722 tons.

COBALT CENTRAL

The Company's concentrating plant, which has been in operation since the month of December, is earning an average of about \$2000 per day working on half capacity (50 tons a day) on the low-grade ore taken out during development.
