WHY STATE UNIVERSITIES DO NOT SHARE CARNEGIE FUND

President Pritchett Explains Why State Paid Teachers Are Not Granted Carnegie Retiring Allowances.

NEW YORK, April 8.—In response to members of the National Association of State Universities, Maurice Humeon, acting professor of the University of Toronto, and Professor Henry T. Eddy, dean of the graduate school, University of Minnesota, urging that the benefits of the Carnegie foundation be extended to the universities of the states and provinces, President Henry S. Pritchett, in a memorandum submitted with a bulletin just issued on the subject by the Carnegie foundation for the advancement of teaching, gives reasons why the universities should not share in the benefits of the foundation.

He says that while it is clear that the teachers of the state universities have, as teachers, quite as good a claim to a retiring allowance as any other, and that, while it is just as desirable that they should have the benefit of such a system, yet it should not be through a private fund, but through an allowance established by the states themselves.

It is doubtful, he says, whether the establishment of a private agency, even though it be national in its scope, offering the states the retiring allowance for teachers, would not greatly weaken the sense of responsibility of the states for educational support. The real problem of a state university, he says, is that of obtaining the confidence and the appreciation of the whole people of the state.

With this accomplished, he thinks, all things are possible, including retiring allowances. He says that the states have not yet failed to respond to any real demand of the time for higher education and he believes that those who govern the state universities may appeal with certainty to the patriotism and intelligence of their people in this cause as in others which preceded it.

The Carnegie system, he explains, is to develop a system of return allowances in the higher universities in such a manner as best to serve the interests of the general body of teachers.

COLD STORAGE PLANT FOR THE WEST SIDE

The sub-committee of the board of works, which was appointed to look into the matter of a site for a cold storage warehouse on the west side, met this morning and accompanied by R. J. Graham, of Belleville, Ont., who is representing the Dominion Lands and Cold Storage Co., they visited the west side to try and determine the most suitable site. The site occupied at present by the Union Ice Company was inspected but the feeling seems to be that this would not be suitable as the dry dock or future development of the winter port business.

Automobile Turned Into Battleship.

This ingenious decoration of an automobile was seen at a recent gymkhana in the car, which was a Gardner-Serpellet, was turned into a perfect model of M. S. Terrible, and it was a startling picture as it sailed along the road.

PREDICTS DISASTER

United States Engineer Says Pittsburg May be Overwhelmed by Flood as Was Johnstown.

PITTSBURG, April 8.—J. W. Arras, of the United States Engineer Corps, who has charge of building the dams in the Ohio and Allegheny rivers, in this vicinity, has submitted a report to the government, in which he says Pittsburg, like Johnstown, is in danger of devastation some day by a flood which will cause the loss of thousands of lives and destroy millions of dollars worth of property. Mr. Arras reports that when the catastrophe comes it will be just as little warning as did the one in the Conemaugh Valley.

Laurier Saw For Himself

Sir Wilfrid Kept Waiting at Halifax Until Mails Arrived Over the I. C. R.

MONTREAL, Que., April 8.—(Special)—The Empress of Britain which sailed from St. John with her excellency Lady Grey, the premier, Sir Wilfrid Laurier and Lady Laurier, and ministers for the colonial conference on Friday night reached Halifax at noon on Saturday. The steamer should have left Halifax about six p. m., but did not sail until ten o'clock, it being detained awaiting the arrival of the Canadian mails which left Montreal by the I. C. R. at noon on Friday. It seems to be that as much attention is not given to the handling of the British mails eastbound as westbound. We hear occasionally of the mails being run by special train from Halifax to Montreal in from twenty to twenty-two hours, but in this case it took over thirty-two hours from Montreal to Halifax by the ordinary passenger train. It would have been much better to have allowed the steamer and mails to go direct from St. John, rather than delay them by a trip by sea to Halifax and then by a belated passenger train. The distinguished passengers with the other hundreds on board could scarcely have enjoyed the long wait. Surely Canada can afford a fast eastbound mail as well as a fast westbound mail.

The St. John local union of Christian Endeavor intend holding a mass meeting of all the Christian Endeavor societies in the German street Baptist church to be celebrated at 9 o'clock by Rev. Father Borgman, C.S.R. Interment was made in the new Catholic cemetery.

MINISTERS' MEETINGS

The Presbyterian ministers met this morning in regular monthly meeting and four the Sunday previous. Rev. W. W. McMaster reported baptizing 13 yesterday. The weekly meeting of the Methodist ministers was held this morning. Rev. Mr. Combs presiding. After the usual business had been transacted Rev. Prof. Watson of the theological faculty at Mt. Allison gave an address on "The Educational work of the Institutions." Rev. Mr. Watson supplied in Queen Square Methodist church yesterday.

THAT SMALLPOX CASE

Another case of smallpox was discovered late last night at 97 Brussels street. The patient is James Logue, fifty years of age. He was removed to the isolation hospital about 8:30 o'clock this morning. The house was placed in quarantine last night. There are twelve residents in the apartments occupied by Logue; George Brooks and Henry Kinsdale being boarders.

MONTREAL STOCKS

MONTREAL, April 8.—The stock market was only fairly strong today. Some profit-taking, which set in towards the close of last week, was again in evidence, but not in sufficient volume to weaken the market to a striking extent. As soon as this feature has been disposed of the tone will likely strengthen. Trading fell off to a considerable extent. The only issues which figured prominently were Lake of Woods Mining at 77, Dominion Iron, 21; MacKay preferred, 70; Dominion Iron bonds, 75 3/4; Detroit, 75 3/4; Montreal Power, 92.

THE TIMES NEW REPORTER

BETTER GO ARMED.

Extraordinary precautions have been taken by the civic authorities in the hope to prevent a panic and riot tomorrow when the rush of nominations for the city council begins. Excitement is at fever heat and grave disorders are feared. There is a rumor that an attempt will be made by an organized gang to forcibly prevent the filing of several hundred nominations, and thus obstruct many of the electors out of their right to vote for the man of their choice. It is possible that the militia may be called out, as nine colonels were seen in conference on Prince William street this morning, while seven others were said to be in the vicinity. Never in the history of the city has there been such universal excitement over a civic election.

THE WEATHER.

Director Hutchinson, in reply to an enquiry by the Times new reporter this morning, admitted reluctantly that this is a fine day, but he stoutly maintained that it was not the fault of the weather department. He hinted that there might be quite another story to tell tomorrow. Those who are acquainted with the re-

sources of the weather man will be disposed to take note of the implied threat. This is an unhealthy season for ordinary weather prophets.

The rumor that the Sunbury and Queens county people will not let the ice run out of the river unless the Fredericton sewage question is decided in their favor is confirmed by a wireless message from Otisbag this morning.

When an aged resident of St. George was told this morning that great improvements were to be made this year on the Shore Line railway, he observed that it was always a pleasure for a man of his years to greet an old friend. He remembered to have first heard this announcement when he was a very small boy.

BOTH SIDES REST IN HAWK CASE --- EVIDENCE IS ALL IN

JUDGE FITZGERALD HANDING A COPY OF THE COMMISSION'S REPORT TO THE DEFENSE.

NEW YORK, April 8.—At the opening of the Thaw trial District Attorney Jerome said he could only ask the court formally to confirm the report of the commission in lunacy. Justice Fitzgerald, overruled the motion and ordered the trial to proceed. Dr. Allan McCabe Hamilton was called as a witness. District Attorney Jerome objected to Dr. Hamilton testifying in a rebuttal, saying it was a re-opening of the entire case. He was sustained. Dr. Hamilton was excused without a question being put. The defence has rested its case and the state also. Court took a recess until 2 o'clock when Mr. Delmas will begin his summing up address.

FREDERICTON SEWERAGE BILL PASSES ITS SECOND READING

FREDERICTON, N. B., April 8.—Premier Pugsley said that if Fredericton was given the right to discharge sewage into the St. John River that night ought not to be permanent. He intimated that if the bill should pass the government would make an appropriation to test for water in the sewer parishes of the country by boring artesian wells. Mr. Hassen suggested that the bill be allowed to stand over for a year to allow tests to be made and intimated that he would make a motion to that effect when the bill is up for its third reading. On motion of the premier the third reading was fixed for tomorrow morning at eleven o'clock.

PROBATE COURT

Hearing in the matter of an application in the estate of the late P. G. Jordan was continued in the probate court this morning. The evidence of James Jordan was taken, and adjournment was made in order to ascertain as to an heir whom it was alleged was dead.

THE EVERY DAY CLUB

A treat is in store for the Every Day Club this evening, when Fred Carman will show and explain a fine series of views of the Yukon. Mr. Farren will operate the light. Mr. Carman has been in the Yukon country and the talk and pictures will be very interesting.

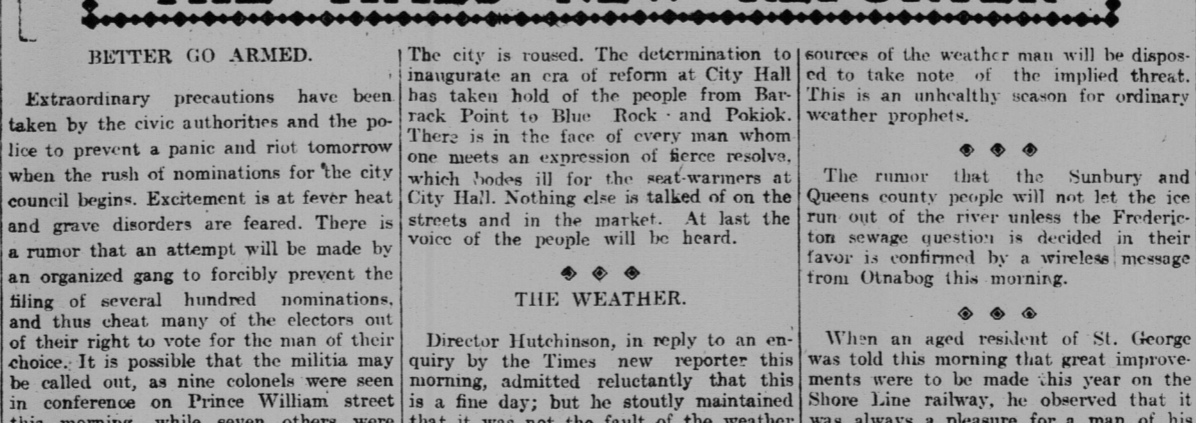

Mrs. Johanna O'Brien

Mrs. Johanna O'Brien, widow of the late James O'Brien of Fredericton died early this morning at the home of her daughter, Mrs. P. Connelly, Baker street, north end. She was in the 83rd year of her age and besides Mrs. Connelly, is survived by a second daughter, Mrs. C. Doherty, of Portland, Me., and one son, Daniel Connelly of Fredericton. The body will be taken to Fredericton this evening and on arrival will be taken to her son's residence from whence the funeral will be held on Wednesday.

HAD A NARROW ESCAPE

HAMILTON, Ont., April 8.—(Special)—Rev. Dr. Nelson, pastor of Knox Presbyterian church, was poisoned on Saturday morning through taking some tablets which he had purchased from a druggist for a cold. He was in a critical condition for a time, but is thought to be out of danger now.

ENTRANCE HALL IN THE NEW YORK RESIDENCE OF THE LATE STANFORD WHITE

NEW YORK, April 6.—The former home of the late Stanford White was thronged with members of fashionable society at the first day's sale of the art objects contained therein. Persons whose names are almost a household word in this city were eager purchasers, and excellent prices were obtained.

BRAVE FIREMEN BURIED BY A FALLING BUILDING

NEW YORK, April 8.—Fire early today practically destroyed the car barn and power house of the Metropolitan Street Railway Company, extending from 145th to 149th streets and from Lenox Ave to Seventh Avenue. During the course of the fire one fireman was killed and three others probably fatally injured. The financial loss is heavy.

BANK LOOTED BY MANAGER

CHICAGO, April 8.—In the trial of former Judge Smith before Judge Pinckney in the criminal court, Clarence S. Darro, testified that the Bank of America was "looted" by F. E. Creelman and Abner Smith within ten days from the date the institution was opened for business. David S. Lamsden, trustee of the estate of the defunct F. E. Creelman Lumber and Mill Co. proceeded Mr. Darro on the stand. The state sought to show by Lamsden that Creelman's financial condition had been such that Creelman could not meet the obligations contracted in connection with the Bank of America. Lamsden testified that the total amount of claims filed against the Creelman estate was \$1,250,000 and that the estate would be unable to pay more than six per cent on the claims filed. He also stated that there were claims aggregating \$300,000 which had been eliminated for various reasons. Creelman is said to owe the Bank of America \$140,000.

NEWS FROM P. E. ISLAND

CHARLOTTETOWN, P. E. I., April 8.—(Special)—Thomas McQuaid, aged 52, a boot and shoe dealer of Charlottetown was found dead at the house of Michael Power Saturday. He left his own home, saying he could sleep, and wanted to get a smoke. He went to Powers', roused him up, later Powers found his companion dead. The coroner's jury returned a verdict of death from natural causes. A doctor testified that it might be caused by apoplexy, epilepsy or alcoholic poisoning. McQuaid had some liquor in him when he called at Powers'.

ATTEMPTED SUICIDE

MAHONEY BAY, N. S., April 8.—Hilbert Erast, a middle aged man, on the Block House, went temporarily insane and attempted suicide this morning by taking Paris green. Afterwards he went into the nearby woods to hang himself, but when he tried to climb the tree to put a rope around the limb, the limb broke and he fell, and before he could climb again he was seen. Doctors were called and after six hours work brought the man around, but chances of his recovery are small.

NEW YORK, April 8.—Prices of stocks moved irregularly on light dealings on the opening transactions today. Fractional losses were in the majority, a decline of 1 1/2 in Northern Pacific marking the only full figure in the movement on that side.

NEWS OF THE WORLD AS TOLD IN SHORT METRE

Former President Jose Lizandro Barriles of Guatemala, was assassinated in Mexico City last night by a young Guatemalan named Cabrera, 18 years old. The correspondent of the London morning Post, at Shanghai says that trouble is threatened at Tai Yuen, in the province of Shanxi. A large portion of the population being of the opinion that the Roman Catholic natives are supporting what is known as the Pekin syndicate. Fights between Christians and non-Christians are frequent. The government has telegraphed the foreign office for advice. A woman prisoner hanged herself in the St. Peter and St. Paul fortress at St. Petersburg yesterday. She was arrested last November for belonging to the

Maximist group and taking part in the plan for the robbery on October 27 of the cashier of the custom house while he was proceeding in a carriage from the treasury with a sum of money estimated at \$250,000 to \$300,000 and in which \$185,000 was secured.

Fire practically gutted the building occupied by the Lagna Tea, Coffee and Spice Company and the Union Pacific Tea Co. at Washington and Light Streets, New York on Saturday. The loss is \$300,000.

President Roosevelt is receiving a great many letters regarding the combination it is asserted has been formed to defeat him in the coming presidential campaign. Much secrecy is being observed, but friends close to the president say the disclosures have caused a stir.

Society Throgs First Day's Sale of Stanford White Art Treasures.

NEW YORK, April 6.—The former home of the late Stanford White was thronged with members of fashionable society at the first day's sale of the art objects contained therein. Persons whose names are almost a household word in this city were eager purchasers, and excellent prices were obtained.

Union Clothing Company.

The Viper of Milan.

A ROMANCE OF LOMBARDY. BY MARJORIE BOWEN.

(Continued.) Conrad sighed as he smoothed the ruffles at his wrist to think that it might not be the latest mode. He felt far from civilization, though only twice seven miles outside Milan, and secretly regretted that Valentine Visconti had ever dazzled him into the imprudence of losing her brother's favor and with it the joys of a splendid court. Still he had exquisite leathers shoes with points a yard long, caught up and fastened by a chain to his knee; also a cap, garnished with a ruby and a curving feather, and taking it from Vittore, he stepped out to begin his espionage of Carrara.

"Vittore, follow me," he said. "I have it in mind to see this black-browed duke gets into no mischief. Also," he continued, "it is in my mind to find Vincenzo. Della Scala was severe this noon. I fear the boy has gone to practice sword-play."

The camp was quiet and tranquil. It struck Carrara that many of the Carrara's men were engaged with their horses and in packing the wagons; but carried on so openly, in broad daylight, it aroused no suspicion on the part of the easy Von Schlemberg, who made toward Carrara's tent singing gaily. The air was heavy, the sky black about the horizon.

"There will be a storm tonight, Vittore. Let me see, art thou afraid of thunder?" and as he spoke, the Count passed without ceremony into Carrara's tent. The duke was there, but not expecting Carrara, and as he raised his eyes at his sudden entrance, his look would have struck any save the light-hearted fop as strained and anxious; but the German had personally no doubt of Carrara, and the Duke's ready smile deceived him utterly.

"So your men move to-night, my lord?" he said. "The Prince never mentioned it to me." "It was a final resolve," answered Carrara. "I have my orders here," and he tapped a parchment beside him. "Ah!" Conrad never even took the parchment up, but glanced through the opening of the tent at the threatening

Though with his own eyes he had seen Gian Visconti bound between the soldiers, he could not rest for his impatience to see him again; and he had confirmed before any other eyes should recognize this rare prize. Tonight Carrara's army was to desert to Milan. That had been already arranged with Visconti's disguised messenger. It should still desert, but Visconti was now a prisoner, his life in Carrara's hands—there must be slightly other terms between them.

"The storm nears: how hot, good St. Hubert, how hot!" And Conrad tossed the damp curls back from his forehead. The entrance of his tent was swung open to admit what little air there might be, showing to the soldiers without Conrad and Vincenzo bending over a game of chess; on a table near were flasks of wine and elegant glasses; along the floor Vittore lay, half in a heavy sleep.

The tent was lit by jeweled lamps, and by their dull light Vincenzo's beauty shone with an almost unearthly brilliancy. He was clothed in white, his thick black hair falling upon his shoulders. Evidently Mastino's reproach was already forgotten. He leaned forward with flushed cheeks and parted lips, eager and intent on a victory at chess; war and the price of it far from his thoughts.

"Hark!" said Conrad. "Thunder!" A low rumble filled the tent, d'Este took no heed. "I take thy knight," he said, "it ruins thee."

THE DEBUTANTE in the enthusiasm of her first season is apt to over-tax her strength and blight the budding beauty of her womanhood. The prudent use of Wilson's Invalids' Port quickly offsets the ill effects of the rush of gaiety, the irregular hours and wearing social strain. It induces sound sleep—makes rich, pure blood—brings back the youthful freshness to pallid cheeks—gives old and young the soft grace of perfect health. All Druggists.

Daily Fashion Hint for Times Readers.

POLKA DOTS AGAIN ON THE ROSTER. The much favored combination of marine blue and white, which promises to be a feature of the summer season, is well set forth in this calico costume of sat-in-striped chiffon, closely covered with a muslin white polka dot. The skirt, mounted over a chiffon-draped white silk drop, is pleated into the waistband so that the upper part of the skirt shows only the satin stripes of the material. Three bouffes of the chiffon on the cross and carrying two of the satin stripes are applied between the knees and the hem, and these are finished with fine pleatings of the satin stripes. This same use of the material is noticed in the dainty blouse in which the blue chiffon is draped over a silk body lining, covered with white chiffon for drapery and white Irish crochet lace, this latter forming the chemise effect. Scallops of the lace peep from beneath the edges of the pleated chiffon, describing the empire waistline, and the sleeves, a succession of chiffon pleatings, puffs and lace appliques, show a Japanese tendency, the upper part being cut in one with the bodice. Worn with this fetching costume is a quaint Neapolitan poke hat, with trimmings of black moire ribbon and ostrich feathers.

LABORERS FOR MINES

C. P. R. Will Supply Dominion Coal Company With Men from England.

(Montreal Witness.) According to information received in the city this morning from Sydney, it is understood that the Dominion Coal Company is entering upon a contract with the Canadian Pacific Railway Company for the importation of labor from the United Kingdom. The Coal Company is to pay a stated sum per capita for the labor brought out and landed in Glee Bay. The immigrants are to be of a superior class and adapted for the company's work at Cape Breton. The first batch is expected to arrive shortly.

Although negotiations to this end have been going on for some considerable time and long before the trouble now pending was thought of, it is believed that this contract will have a determining influence upon the settlement of the labor problem now looming up at the mines.

At the office of the Coal Company on St. James street, a representative of the "Witness" was informed this afternoon that the officials at Sydney expected no trouble whatever in connection with the reported strike in one of the mines. The company had accepted the opportunity to do some work in the mine affected by the strike; and, notwithstanding the fact that the men are anxious to return to work, the company will take its own

MERITED ENDORSEMENT.

Vin Mariani has been extolled by the literature, rendered into exquisite verse by poets of eminence, sung about in glorified hymns by the world's greatest musical composers; it has been painted, sculptured, engraved, illuminated, beset with jewels, decorated and made the veritable embodiment of all that is classic and beautiful. And all this, too, by artists of such renown as to be above exception of other influence than an impromptu obeisance in recognition of unusual merit. It has been praised by kings, princes and potentates of high degree, and even been blessed by the Pope. More than the praise of princes, greater than blessings, emblems and sentimental honors, is the unsolicited endorsement of more than eight thousand practicing physicians, each of whom found

VIN MARIANI!

so serviceable to patients in time of direst need, that warring ethical custom their appreciation of so unique a remedy was spontaneously given. For overworked body, for overworked brain, take

VIN MARIANI ALL DRUGGISTS. EVERYWHERE.

PREFERENCE WITH THE WEST INDIES

Resolutions From Toronto, Montreal, Halifax and St. John Boards of Trade Asking for It Presented to Laurier.

Halifax, N. S., April 7.—Sir Wilfrid Laurier, on the eve of his sailing by the steamship Empress of Britain, to be present at the colonial conference in London, was handed a memorandum by the Halifax board of trade, expressing their opinion as to the attitude the prime minister should assume on the subject of the tariff relations of Canada and the West Indies. The memorandum was presented to Sir Wilfrid under cover and he of course made no reply. It was in effect as follows: The Right Honorable Sir Wilfrid Laurier, K. C. M. G.: Sir: The boards of trade of Montreal, Toronto, St. John and Halifax in February last organized a delegation to the West Indies to discuss trade matters generally, and to ascertain in what respects the business between Canada and the West Indies is capable of being more fully developed. The gentlemen who went as representatives of the above boards have returned and report a very cordial decision on the part of the merchants in the West Indies to give us as large a share of their business as is possible. Our delegates, in the course of the various discussions which took place, took the opportunity to suggest that inasmuch as Canada had granted to British goods lower rates of duty than those charged to foreign, the British West Indies might adopt the same way, as the application of our British preference had increased our imports from Great Britain and her colonies. This idea was on the whole favorably received, though some doubt was expressed that the home government might not approve of the principle. It is felt that if Canadian goods were granted a preference in the British West Indies, it would be of very great advantage to this country and would enable a large trade to be done in agricultural products such as flour, oats, peas, etc., which are now sent there

GROWING OLD WHILE YET YOUNG

What a number of women there are who feel that these words exactly suit their case.

There are thousands of females all over our land, broken down in health and dragging out a miserable existence, overburdened with disease peculiar to their sex, apparently growing old while yet young. From early morn till late at night they have been on the go year after year, attending to the household duties. It is any wonder then that sooner or later they should suffer from a general collapse? Palpitation of the heart, nervous prostration, smothering and sinking spells, weakness, dizziness, sleeplessness and many other troubles follow. What a woman wants is something to build up the system and for this purpose you cannot equal

MILBURN'S HEART AND NERVE PILLS

Mrs. W. J. Russell, Vauxy, Ont., writes: "At one time I suffered greatly from my heart and nerves, and the shortness of breath was so bad I could scarcely do my housework. A friend of mine advised me to try Milburn's Heart and Nerve Pills which I did and I only took them for a short time before I was better. The price of Milburn's Heart and Nerve Pills is 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont."

DEEPLY INTERESTED IN COPPER METAL SITUATION

Wall Street Does Not Know What to Make of Contradictory Reports—Peculiar Condition of the Market—Can High Price Hold.

(N. Y. Journal of Commerce.) Wall Street is deeply interested in the copper metal situation. Reports are so contradictory. One set of interests represents the market as unprecedentedly strong, with no maximum price in sight, and cables are printed purporting to report sales at over 25c; elsewhere definite statements are made that it is possible to buy the metal appreciably below 25c. The handling of over 65 per cent of America's output of copper is controlled by a coterie who can manipulate the market almost at will—for a time. The truth is hard to get at. Yet so far as could be ascertained by diligent enquiry yesterday the break in London is not wholly without significance. The amount of business that has been actually put through in this country at the quotations recently in Vogue has been extremely limited. In discussing this matter Bruce McKeown, the local representative of Hayden, Stone & Co., stated that he could not see how copper metal could be maintained at the present prices now quoted, in view of the falling off in general trade. "It would be curious," he went on to say, "if the reaction in industry which every one is beginning to experience did not make itself felt in the copper trade. For what brought about the abnormal advance in the price of the metal? Was it not an unbounded prosperity? It must follow then that a waning of that prosperity will entail a falling off in the demand, and as a corollary, in the value of copper. In fact, it is already possible to hit a big order below current market quotations. Ever since the price has been quoted above 20c, every well-to-do man has more or less affected by manipulation. It seems unnatural for copper to sell at 25c a pound, but even at 20c copper mining companies can do very well. I do not regard 18c or 20c an unreasonable price for the metal, even though it is admitted that it can be pro-

THE THEATRES

At the Opera House

Tonight will mark the inaugural of the spring season of the Lyceum Stock Company in the Opera House. The Chantry Ball, which much has been heard during the past two weeks, will be the initial offering. The promises made by the management have secured theatre goers that St. John will have a real high class stock company whose policy will be to present the best plays at popular prices. And it is artistically decorated with blue and gold, a harmonious combination, which greatly enhances the beautiful scene. From 7:45 until 8:15 the orchestra, concealed behind an embankment of palms, will play selections and the lobby has been tastefully decorated with cut flowers, palms and ferns. The presentation will be under the stage direction of William J. Baumann, who has devoted three weeks to staging this splendid production and the cast to be seen in tonight's bill is:

Rev. John Van Buren... Frank Powell... Alec Robinson... Judge Peter Guernsey... Miss Grace Goodall... Mrs. Van Buren... Miss Annie Blake... Miss Margaret Lee... Miss Jennie Hollis... Miss Annie Blake... Miss Annie Blake...

This Week's Vaudeville In selecting the bill for the present week the management of the local vaudeville theatre have aimed at the highest standard of excellence and a number of attractive features will be presented.

St. John is fortunate in the opportunity of hearing Boston's premier dramatic baritone, Thomas E. Clifton. There will be a sketch of the hilarious play by Walsh and Thorne, entitled Our Country Neighbors, which gives Mr. Walsh many opportunities to display his rare gifts of creating comic situations. Dale and Delmont are described as a musical comedy during the third quarter of the year, there is small disposition to make important purchases beyond June, especially with the market in the present unsettled condition. Prices of late on electrolytic, however, are without essential change, but casting grades can be bought considerably under 25c.

BACHE & CO'S WEEKLY LETTER

NEW YORK, April 5.—A survey of the general situation made from stock market considerations, reveals a condition of great trade activity, not only in the United States but all over the world. Accompanying this, as in the United States, is a universal scarcity of money and abnormally high rates. In other words, the credit is already possible to hit a big order below current market quotations. Ever since the price has been quoted above 20c, every well-to-do man has more or less affected by manipulation. It seems unnatural for copper to sell at 25c a pound, but even at 20c copper mining companies can do very well. I do not regard 18c or 20c an unreasonable price for the metal, even though it is admitted that it can be pro-

ITEMS OF INTEREST

This is an exceptionally good value, and the keenest buyers should be on hand, all these suits being entirely new stock and made of the latest cut garments. Union Clothing Co., 26-28 Charlotte street, old Y. M. C. A. building. See ad. on page 2.

THE WEEK'S MARKET. The market has shown evidence of recuperative power this week. In place of feverish, unsettled dealings, the return of confidence with supporting orders in the market has characterized the trading. There are several contributory causes for the optimistic feeling prevalent, the most important of which is the ease in money, due to the efficient aid rendered by Secretary Cortelyou, under the provision of the Currency Act recently passed by congress. He has authorized to be placed in the National banks government receipts received from customs. At the same time, he has anticipated redemption of the government 4s to the extent of 25 millions. The secretary of the treasury assistance is so timely that since the first of April, when the large disbursements of banks and trust companies on account of the completed and interest payment had been diverted, call only time money rates show a sharp decline, with the banks constantly accumulating large cash reserves.

IS THE ADVANCE TEMPORARY? At the moment the market is showing much volatility. With the conditions throughout the world as heretofore indicated, if the prospects as outlined materialize it is not reasonable to suppose that the advance will continue indefinitely.

REASONS FOR SHORTAGE. The growth of industrial activity throughout the world, with the accompanying increase in the value of material and labor, as well as the increase in trade demand for credit and accommodations, have reduced the situation to a point where the supply of money metal is not sufficient. In addition to this, during the last decade at least half dozen nations have newly adopted the gold standard, making necessary an accumulation of gold, which is tightly held and constantly increased. The question now is, is the monetary stringency arising from a scarcity of money metal temporary, or must we look for a continuation of stringent conditions about it. This authority says: "The bear market is over; I am sure of it. Yesterday was the second time the old bear has made a vicious drive without any success. I believe that fundamentally the easing of money rates and the improvement in investment securities have turned the tide." From which it will be gathered that as usual there are two sides to the market.

A TREAT IN RUGS. Absolutely genuine Oriental antiques in hand-woven rugs, the fruit of rude looms in Persia, Turkey, Afghanistan and China, are on sale and exhibition in M. R. A.'s carpet department, German street, and are attracting wide attention, particularly among those who see art and rare beauty in Eastern textiles. The advertisement today refers but passing to the lovely floor coverings, extending an invitation for all to see them.

The biggest attraction of its kind that has ever been seen in St. John, will appear at the Queen's Holloway week of April 15th in Prof. A. P. Demers, the world's champion fancy and trick roller skater, and the winner of every international championship since 1884. Giving an exhibition, as he does, of over 400 novel and difficult feats, it is small wonder that the \$5,000 which he offers to anyone who can defeat him on the "little wheels" still remains unclaimed. A number of Prof. Demers' feats are so difficult that they have heretofore been pronounced impossible, by roller skaters, but Prof. Demers proves that they can be done and done easily and gracefully.

Next Thursday, April 11th, is the date of the big concert in Exmouth street S. S. room. Watch the papers for names of those who will take part. The Y. M. A. intend making this one of their best entertainments. It there if you can. Thursday, April 11, is the date.

IMMIGRANTS FROM BRITAIN

Canadian Churchman Welcomes the Fact That So Many Are From the Home Land.

(Canadian Churchman.) We have recently learned, and the news has given us the deepest satisfaction, that the immigration this year into the Dominion, which is already estimated at 200,000, will be preponderantly British. It is a matter for thankfulness, that the crisis for filling up the Northwest with hordes of Slavs and Southern Europeans, which possessed our authorities, a few years ago, has apparently passed, and that renewed attention is to be devoted to the encouragement of the immigration of members of the dominant Anglo-Saxon race. Two or three years ago we were importing European settlers, alien to us in speech, blood, religion, social and political ideals, at a rate that had led to revolution in present conditions within the country of a single generation, and to the encouragement of the immigration of members of the dominant Anglo-Saxon race. Two or three years ago we were importing European settlers, alien to us in speech, blood, religion, social and political ideals, at a rate that had led to revolution in present conditions within the country of a single generation, and to the encouragement of the immigration of members of the dominant Anglo-Saxon race.

KAISER'S DAUGHTER IS STAGE STRUCK

Little Princess Victoria Louise Has an Ambition to Act.

BERLIN, April 8.—Princess Victoria Louise, the 14-year-old daughter of the Kaiser, is stage-struck. She has been fixed with the ambition to act and especially to take part in the private theatricals that are given in the Imperial Palace on the Kaiser's birthday. After seeing the Australian child-actors, Wanda Radford, perform, the princess was eager to follow her example. The princess is a determined little person and usually gets what she wants from her indulgent father, so he has consented to let her take lessons in the dramatic art from Wanda Radford. The princess is enthusiastically studying elocution and gesture from the youthful professor, and next year will take a more prominent part than a merely "thinking" one in the private theatricals of the imperial family.

IT GIVES THEM JOY

(New Glasgow Chronicle.) The annual military boom is at its height, and the good ladies are in a dilemma over the most appropriate headdress. All the new shapes seem so naïve that decision is difficult. This appears to be the only dissipative our better halves are addicted to, and it is delightful to see them revel in it.

IN MEMORIAM

In loving memory of Francis Roden, died April 3, 1906.

MILL OWNERS ARE ANXIOUS

Some of the Mills Have Only Limited Supply of Logs—Waiting for River Opening. The mill owners are at present very anxious about the condition of the river as the ice is still thick and they all have only a limited supply of logs to last them until the ice runs out. The big Indianland mill owned by Steadson & Co. started this morning and has enough logs on hand to run for about two weeks. Randolph & Baker's mill will begin operations on Wednesday. The Times was informed this morning by men whose experiences have given them considerable knowledge on the opening of the mills, that the ice was still very solid and they did not anticipate getting at the booms before three weeks. If that be the case and the big mill has but enough logs to last it for two weeks it will have to close down when its present supply is exhausted. These men claim that the river will require two weeks of warm sunshine and rain to get the ice moving and it will be a few days after that when the booms can be gotten at. They state that the season is very bleakward.

DR. DRUMMOND Not Canada alone, but the English speaking world—that portion of it at least which admires literary genius—mourns the passing of Dr. William H. Drummond.

His was a charming personality, and he had the rare insight of the genuine poet and lover of his kind. It may be that Dr. Drummond's habitant was an idealized character, but he was very real, very human, and altogether interesting.

Dr. Drummond exploited a new field in poetry, and found his inspiration in the homes and lives of a simple people, who in the midst of the ambitious life of a new world, preserve the traditions of the old with even more fidelity than their contemporaries in the land of their fathers.

THE DRINKING HABIT A board of trade return shows that there has been a very notable decline in the drinking habits of the people of the United Kingdom since 1890. The report also contains some interesting comparisons, which are fully commented on by the London Globe.

Whatever hopeful developments tomorrow may reveal with regard to civic politics, will come in the nature of a surprise. Tomorrow is nomination day, and so far as the public knows there has been no concerted action to bring out strong candidates for the wards or for aldermen-at-large.

ROASTING A SENATOR As an example of polite sarcasm, the following reference by the New York Evening Post to that odorous politician, Senator T. F. Grady, must rank high.

THE AMENDE HONORABLE (New Glasgow Chronicle.) We made a mistake last issue in our list of Tories who are crying out to the Liberal Government, which they tried to defeat, for prohibition, in printing the name of "Mr. Moriarty" for that Secretary of the Prohibition Alliance, Mr. Mithall. We beg the pardon of both gentlemen.

 OPEN EVENINGS.

THE EVERY DAY CLUB
 The announcement that there would be
 a sacred concert in the Every Day Club
 hall last evening interested so many peo-
 ple that at 8:30 o'clock the room was
 crowded, and many persons were unable
 to gain admission. A fine programme was
 carried out.
 After two verses of a hymn by the audi-
 ence, there came a duet by Mrs. Worden
 and Mr. Titus, solos by Miss Hatheway,
 Mr. Cahoon, Mrs. Worden, Gordon Allan,
 Mr. Dixon and little Miss Morrison. Mrs.

Worden, Mr. Cairns and Mr. Dixon each
 sang twice.
 Miss Gunn played the accompaniment
 for the visiting singers. Mr. Sandford
 played a selection on the organ.
 There was no address last evening, fur-
 ther than that the chairman referred to
 the three months' work of the club, and
 replied to some street rumors and criti-
 cisms concerning the institution.
 Every man interested in the work of
 the club is requested to be at the hall
 this evening at 7:30 sharp.

FREDERICTON SEWERAGE
BILL TO COME UP AGAIN

Member Who Opposed It Has Given Notice of Re-consideration and It Will be Brought Before the Provincial House This Afternoon--This Time It Will Probably Pass.

Fredericton, N. B., April 7.—The Fredericton sewerage bill is to come up for reconsideration in the legislature tomorrow afternoon and there is every indication that it will pass by a majority. Hon. Mr. Robinson, who was paired Friday, gave notice yesterday that he would bring the matter up on Monday. It is understood that he will take the ground that the bill is still before the committee as the house by the speaker's casting vote, refused to consider the committee's report which was favorable to the bill.

Mr. Murray introduced a bill to vest the title of certain land in the trustees of the Presbyterian church of lower Napan, Northumberland county, and a bill to incorporate the Chatham Hebrew congregation.

The house went into committee on the bill to incorporate the Industrial DeRoseville and agreed to the same.

Also resumed the consideration of the bill relating to Presbyterian churches in the province of New Brunswick. Mr. Currie moved that the amendments to section six be withdrawn and the section stand as printed. He said that although it was the moderator's prerogative to preside at all congregational meetings he did not always avail himself of that privilege but that he should do so as part of the constitution of the Presbyterian church of Canada. The bill was before the Presbytery of St. John recently and approved by them.

Mr. Murray—I am strongly in favor of the amendments. As matters are at present the various Presbyteries throughout the province are working under various acts dating from as far back as 1817 and it frequently happens that it becomes necessary to hunt back a local history for instructions on various points which may crop up and the means of obtaining the information is not always immediately available. The reason for the promotion of this act is to obviate the necessity of all this research and it has been thought advisable to get a modern act which shall incorporate all the necessary directions and thus save the trouble of so much reference to the old act. The matter was considered by the Presbyteries and they got up a uniform act to apply to all churches alike. Now I say that this is a pastors bill and I want to say that I think the laymen should have a voice in the matter as well. It is often necessary to discuss matters relating to the minister and his affairs and it is undesirable in those cases that the pastor should be in the chair. There are usually other members present who are capable of occupying that position, at any rate in the new congregations. The honorable members for Kings county said this is a pastors bill. The congregation with its own committee and its own consent to come under any such act or be in anywise controlled by it. I think the act should be modified in such a way that it shall be the views of the laity as well as the pastor.

Mr. Currie—The honorable member calls this a pastors bill and I would remind him that the resolution approving of it that was passed at the meeting in St. John a day or two ago was moved and seconded by laymen.

The Hon. Mr. Pugsley—it seems to me that we ought to try and find some way out of this difficulty by leaving it in the opinion of such congregation to adopt such method as they shall please in the appointment of a chairman, and I therefore move that any congregation may at any annual meeting by by-law passed by a two-thirds vote of the members and adherent so qualified at an annual meeting. The debate was continued by Messrs. Morrison, Robertson, Hill and Copple and the attorney-general's amendment was then put to the committee and carried by 17 votes to 10. Progress was then reported, with leave to sit again.

Mr. Murray then gave notice that on further consideration of the bill, he would move the following section be added to the bill: In the event of the congregation of St. Paul's church (Presbyterian) Fredericton, passing a resolution pursuant to section 15 of this act, declaring a desire to become incorporated under and by virtue of this act, and becoming incorporated, then and in the event, and notwithstanding anything contained in sections 4 and 7 of this act or otherwise, the qualifications of trustees and electors of trustees of such congregation shall remain and be as they were at the time of the passing of such resolution, subject always to be changed, altered, added to or amended by by-law as provided for by section 17 of this act.

Mr. Morrison also gave notice that he would at the same time move as an amendment to section 18 the following clause: "Notwithstanding anything contained in sections 4 and 7 of this act, the qualifications of trustees and electors of trustees of churches already incorporated and declaring a desire to become incorporated under this act shall remain as they were at the time of passing the resolution declaring such desire, until the congregation shall have made by-laws defining or altering the same."

The Hon. Mr. Pugsley introduced a bill to provide for the purchase of certain lands from the N. B. Railway Company. He stated that an agreement had been entered into to purchase 50,000 acres of land in the northern part of the province for settlement at seventy-five cents an acre. Such lands to be sold to actual settlers at the same price and the cost of survey. The land would be divided into 100 acre lots and none but bona fide settlers would be allowed to purchase. The object of the bill was to give the government a title to these lands when bought and paid for.

Mr. Speaker gave his decision on the point raised by the Hon. Mr. Hill that any member might move for the return of the fees paid on a bill, but payment could not be made without the consent of the government.

Mr. Currie gave notice for Monday next of the following resolution: That bill No. 65, entitled a bill to give effect to the resolution of the legislative assembly with regard to the discharge of sewage of the city of Fredericton into the St. John river be placed on the order book for reference to the committee of the whole house forthwith for further consideration.

Mr. Hazen raised the point that there must be two clear days' notice.

Mr. Robinson—This does not require any notice of motion, but is merely for the purpose of giving the house notice that the matter will be brought up on Monday. If the ground that the bill is still before the house. If the speaker decides that the bill is still the property of the house and the committee and is still alive, the matter can be brought up without notice.

Mr. Hazen—The speaker can give his decision on Monday.

Mr. King, from the committee on corporations, reported against the Miramichi dam bill. The bill may be brought up again next session, provided proper plans are submitted and it is shown that it will

not interfere with the driving of logs on the Miramichi river.

The house adjourned till 11 o'clock Monday.

At the morning session the following bills were agreed to:

Bill to incorporate Fidelis Lodge, No. 157, I. O. G. T. Amended bill to incorporate Church Avenue Baptist church of Sussex. Amended bill to vest property and assets of Fredericton Boom Co. in the St. John River Log Driving Co. Progress was reported on the bill relating to the Bathurst Electric and Water Power Company.

Later in a sitting with Mr. Riddick in the chair the committee took up the bill relating to the St. John Railway Company. An amendment provides that the chief commissioner on the advice of the governor-in-council may permit the company to lay tracks upon the suspension bridge or any bridge built by the government to replace the structure and to run cars across the bridge on such terms as are deemed to be in the public interests. This amendment was passed. In its amended form the bill was agreed to.

In the course of the discussion Hon. Mr. Pugsley stated that the matter of repairs and improvements to the suspension bridge or the erection of a new bridge has been under careful consideration and that the government is prepared to make suitable for one line of car tracks. For \$75,000 it can be made so as to accommodate two lines of car tracks. A new steel bridge suitable for two lines could be put up at a cost of \$120,000. If the company paid to the government one-half cent out of every fare the sum thus secured would be sufficient to meet largely or wholly the interest on the cost of the bridge. It has been suggested, he said, that the car fare between the east and west sides of the harbor be raised to six cents. To adopt this suggestion, however, would practically be to make the bridge a toll bridge, which the premier said would seem to him to be unwise and unfair to the public.

Mr. Hazen raised the point that half a cent on each fare would be a small amount for the company to pay. The amendment was passed and the bill was agreed to.

Before adjournment the premier announced that the bill to increase teachers' salaries will be brought in on Monday. A bill in amendment of the liquor license act will also be brought in by the premier on Monday. Effect of one amendment, he said, will be to make easier of application provisions to bring into force local option and of a second amendment the effect will be to restrict further sale of liquor by druggists. An amendment to the workmen's compensation act will be made so as to make a judge of the supreme court arbitrator, his decision to be final; also an amendment to the election act. The judgment act will be read a third time on Monday.

A bill in amendment of the workmen's compensation act will also be introduced. This amendment will provide for arbitration of cases under the act by a supreme court judge, whose decision shall be final.

The justice act will come up for its third reading on Monday.

When the act to vest the property and assets of the Fredericton Boom Company in the St. John River Log Driving Company was under consideration, Mr. Hazen said that the bill had been fully discussed in the committee and all the clauses agreed to by the parties interested on both sides except the power of expropriation. The committee had given the same power with

relating to the Imperial Dry Dock Company was brought in by Mr. King. The purpose of the measure is to provide that when the company enters into a contract approved by the governor in council for the dock's construction first mortgage bonds and the first mortgage of the company shall have a legal standing.

Hon. Mr. Pugsley—I think it desirable that the power should be given, but as this is a public utility expense should be kept down and any scale of pay given for the directors should be by-laws, subject to the approval of the lieutenant governor in council.

Mr. Hazen—I think that is quite proper, but I hardly feel like pressing an amendment of this kind so assiduously. If it is necessary to grant such power it can be done by another bill which may be introduced later.

During the morning's sitting the bill

respect to arbitration as in the Coverdale bill. Mr. Fraser Gregory telegraphed him that he wanted a clause added to authorize the payment of directors as some of them would have to devote a great deal of time to the work.

Hon. Mr. Pugsley—I think it desirable that the power should be given, but as this is a public utility expense should be kept down and any scale of pay given for the directors should be by-laws, subject to the approval of the lieutenant governor in council.

Mr. Hazen—I think that is quite proper, but I hardly feel like pressing an amendment of this kind so assiduously. If it is necessary to grant such power it can be done by another bill which may be introduced later.

During the morning's sitting the bill

Rheumatic sufferers can have a free sample of Dr. Shoop's Rheumatic Remedy with book on Rheumatism by simply writing Dr. Shoop, Racine, Wis. This book will explain how Dr. Shoop's Rheumatic Remedy successfully drives Rheumatism out of the blood. This remedy is not a relief only. It aims to clear the blood entirely of Rheumatic poisons, and then Rheumatism must die a natural death. Sold by Druggists.

Members of the Hot Air Society.

OFFICERS OF WAH-HI SOCIETY

NEW YORK, April 6.—To the untimely death of the Wah Hi. It was formed on board the Oceanic, of the White Star line, while that vessel was in mid-ocean on her last completed journey, to this port.

On board the White Star liner was John R. Southworth, saloon passenger, who, after a brief illness, died of a heart-disease he became anecdotal and related the old story of Indian agents when the Indian Territory was still a territory. The substance was that the agents told the aborigines of what good times would be coming when the territory would be admitted as a state, and that the savage children of the plains would answer "Wah Hi." The English equivalent of this is "hot air," but the agents did not understand.

Some one then suggested that a Wah Hi club be formed on board and the idea was greeted with so much enthusiasm that twenty-eight of the saloon voyagers immediately became charter members.

From left to right in this picture are D. S. Chamberlain, grand president; J. R. Southworth, grand secretary, and D. G. McKee, grand pipe holder of the Wah Hi, or Hot Air Society.

"I'm Well
Because of Ligozone," is Now Said the World Over.

All the world over there are millions of people who know the power of Ligozone. They know it from actual experience—from the results they have felt—from the good it brought to them.

Five years ago people said that such results were impossible. Now, one says that, his own neighbors will answer, "I am well because of Ligozone." Please don't say to yourself that these things can't be done, when millions now better. Try the product and see, and we'll pay the cost of your test.

What Ligozone Is.

Ligozone is a tonic-germicide, the virtues of which are derived solely from oxide gases. No alcohol, no narcotic, nothing but gas enters into it. The process of making requires large apparatus, and consumes 14 days' time. The object is to so combine the gases with a liquid as to carry their virtues into the system.

The result is a germicide so certain that we publish with every bottle an offer of \$1,000 for a disease germ that Ligozone troubles as Rheumatism, Blood Poison, Kidney Disease and nerve weakness. Some destroy vital organs, as in Consumption. Some—like the germs of Catarrh—create inflammation; some cause indigestion. In one of these ways, nearly every serious ailment is a germ result.

Such conditions call for a germicide, not for common drugs. Ligozone does what other means cannot accomplish. And it

is wrong to cling to old ways when millions of people know a way that is better.

We Paid \$100,000

For the rights to Ligozone, after thousands of tests had been made with it, after its power had been demonstrated for more than two years in the most difficult germ diseases. Conditions which had resisted medicine for years yielded at once to it, and diseases considered incurable were cured.

That was five years ago. Since then millions of people in every part of the world have shared in the benefits of this invention. Nearly every hamlet, every neighborhood, has living examples of its power. Now we ask you to let it do for you what it did for them.

Germ Diseases.

Most of our sicknesses, in late years, been traced to germ attacks. Some germs—as in skin troubles—directly attack the tissues. Some create toxins, causing such troubles as Rheumatism, Blood Poison, Kidney Disease and nerve weakness. Some destroy vital organs, as in Consumption. Some—like the germs of Catarrh—create inflammation; some cause indigestion. In one of these ways, nearly every serious ailment is a germ result.

Such conditions call for a germicide, not for common drugs. Ligozone does what other means cannot accomplish. And it

CUT OUT THIS COUPON

Fill it out and mail it to The Ligozone Company, 626-64, Wabash Ave., Chicago.

I have never tried the new Ligozone, but if you will supply me a 50c. bottle free I will take it.

My disease is _____

Give full address—write plainly

We are now putting out an improved Ligozone, based on five years of experience. And even old users may accept the above offer, to learn how much better the new product is. Ligozone is guaranteed under the new Pure Food Law.

Buy your Ligozone at your drug store, or if you are in a hospital or nursing home, let your physician or hospital nurse let you know where to get it. Ligozone will be gladly supplied for a test.

WHO?

Who Does Printing Properly and Promptly?

The Telegraph Printery

YOUR stationery reflects the character of your business; you can ill afford to send shabby printing to your patrons.

LARGEST IN EASTERN CANADA

The Telegraph has the largest Print Shop in Eastern Canada, with facilities for producing all kinds of work from the wee baby card to the big circus poster.

PRICES ARE REASONABLE

Many users of printing imagine that because this plant is the largest and best that prices are excessive, when the reverse is the rule.

WORK DONE QUICKLY

Because this plant handles jobs easier and quicker is just the reason why it can do your work neater and cheaper than the ordinary printery.

NO JOB TOO SMALL

No matter how small your job, get our price before you place the order. Phone 31a

Beth McLeod was placed in Central station by Police Sergeant Baxter, on suspicion of stealing a horse, carriage, robe and whip, from Wm. H. White, late last night.

White, while on his way home dropped into a Main street restaurant to have a lunch at about 11.30 o'clock, leaving his horse and rig outside. Having regaled himself he returned to the street only to find that horse and rig were gone.

White, while on his way home dropped into a Main street restaurant to have a lunch at about 11.30 o'clock, leaving his horse and rig outside. Having regaled himself he returned to the street only to find that horse and rig were gone.

POLICE COURT

It Cost John Ryan \$20 to Play Carrie Nation in Doherty's Saloon.

John Ryan, charged with breaking a plate glass mirror in Doherty's liquor saloon, Brussels street, was in court this morning and pleaded guilty. The sum of \$20 the value of the broken mirror had been deposited for his appearance.

Ryan was fined \$20 which was covered by the amount of his deposit. His honor ordered the defendant to keep away from Doherty's in future and earlier in the proceedings said that where damages amounting to \$20 the prisoner could be sent to the penitentiary for two years.

Ryan was in court on a charge of assaulting his wife some time ago and the police say that his wife has gone to her people in Prince Edward Island.

Benjamin Fish, charged by his father, Benjamin C. Fish, with breaking the door of his house at 129 Victoria street was severely reprimanded and his case set aside for the present.

Mr. Fish Sr. swore that the prisoner had kicked the door, breaking both panels and hinges and that it would take about \$22 to replace the door. His daughters, he added had seen the offence committed.

"Will you swear they were your daughters?" queried the presentment. "Don't answer that," said the judge, addressing the witness. Then, turning to the prisoner, he said: "That's a nice question to ask your father."

The prisoner said the old man had been harboring his daughter and he wanted to see her.

"Well said his honor, "you could have seen her without breaking the door." "I couldn't get in," was the angry rejoinder.

Andrew Ferguson, charged with drunkenness, was fined \$4 per day. Richard Fitzgerald was fined \$8 or 30 days on a similar charge.

Wm. Shannon was profane and was fined \$8 or 20 days. Robert Everett, charged with drunkenness, forfeited an \$8 deposit.

PREMIER PUGSLEY

Editor Times: I think the citizens generally will concur in the view that Premier Pugsley should be persuaded to enter the larger arena of federal politics, as member for St. John. There has never been a time in the history of this port when the need of strong and influential representation at Ottawa was more keenly felt.

Pugsley to be chosen, the just claims of St. John would be pressed, and recognized, for he is of the class of public men from whom the members of cabinets are selected. It is therefore a matter for congratulation that a petition is being circulated and largely signed, asking Dr. Pugsley to permit himself to be put in nomination for the seat made vacant by the death of Doctor Stockton. Dr. Pugsley is today the ablest man in New Brunswick politics, and he should be one of the representatives of St. John at Ottawa, and eventually a member of the government.

Yours, PROGRESS. SACKVILLE SACKVILLE, April 6—George R. McLeod, barrister, had a narrow escape the other day, being knocked down by a runaway team. Fortunately he was not seriously injured.

Matthew A. Trenholm, music teacher at Timber River, was recently presented with an address and handsome chair by his music pupils.

The Misses Roberts returned yesterday to their home at Rothney after a month's visit in town, the guests of Rev. Dr. and Mrs. Stewart, York street.

Dr. Coleman of Moncton was in town yesterday. Mr. and Mrs. Luther Trenholm of Bayfield were pleasantly surprised recently by the arrival of a number of friends to celebrate their 25th wedding anniversary. A particularly pleasant evening was enjoyed and Mr. and Mrs. Trenholm were suitably remembered.

Miss Julia Town leaves on Monday for Newton hospital, Mass., to resume her studies for professional nurse, after a two weeks' vacation to her old home, Upper Sackville.

W. B. Harper leaves on Tuesday for Toronto to take a position on the Canadian Northwest survey.

EVIDENCES OF POISON An Englishman, claiming to have been only about a month in Canada, took violently ill on Union street, Saturday night, and was taken into Paddock's drug store, where he was attended to by Drs. H. G. and G. A. B. Ashby, who were hastily summoned, and pronounced the man to be suffering from strychnine poisoning. Chloroform was administered to quiet the spasms and he was taken to the hospital. To the police he gave the name of John McCarthy, but at the hospital he said he was John Renforth of Kent, England, and worked in McAvity's foundry.

MACAULAY BROS. & CO.

Something About Ladies' Coats

This Season the NOBBY SHORT COAT, 24 to 26 inches in Length, Has the Call,

Genuinely Antique Oriental Rugs

VERITABLY AN ART COLLECTION

The demand for Oriental rugs in this country increases rapidly. A few years ago they were little known outside a limited number of private collections and in museums, but each year is making them more of a factor in the art furnishings of this western division of the world, indeed the wide field for artistic research embodied in each rug—weave, dyes, design, history, symbolism and geographical interest—enhances their value many fold.

That family pedigree and tradition is frequently connected with a product of the rude looms of the Orient gives further vent to the imagination of the appreciative. Getting down to cold commercial calculating these importations are a household economy. They wear everlastingly, their sheen and lustre never dim, their colors are unfading—in every sense a home requisite of rare beauty a charm at all times.

Our Display Includes the Following Qualities and Designs

- MOUSSOUL RUGS ANTIQUE STRIPS SHIRAZ RUGS MECCA RUGS SILK RUGS DAGESTAN RUGS NAZEK RUGS CESARIAN MATS ZARIF, TURKEY RUGS
