R. E. ARMSTRONG HAS RETIRED FROM CONTEST

Dr. Frink and Mr. Anglin Decline Requests

SEVERAL SPEAK

Statements By Dr. White and Mr. Anglin; Dr. Barton Tells Platform

DEFINITE ANNOUNCEMENTS BY DR. WHITE

Walter W. White would be a candidate for Mayor, and that Commissioner James H. Frink and W. Arthur I. Anglin would not be candidates for the mayoralty were the features of the civic campaign today on the eve of Monday's nomination day proceedings, together with the announcement of R. E. Armstrong's retirement from the mayoralty contest.

MR. ANGLIN DECLINES

In an interview last evening Arthur I. Anglin, who had been asked to be a candidate for the mayoralty, said that in his judgment it was practically hopeless for one member of the city council to bring about any reform in the civic administration.

R. E. ARMSTRONG HAS RETIRED FROM CONTEST

Continued from Page 1

that he was withdrawing from the field since Dr. White had announced his intention of entering the contest.

NOW THREE CANDIDATES

The entry of Dr. White into the field makes it a three-cornered contest to date. The nomination papers of A. M. Rowan were filed some days ago and the nomination papers of Dr. J. H. Barton were filed this morning with the common council.

Those in the field for the two commissions are the present commissioners, R. W. Wilmore and H. H. Bullock, John B. Jones, Alexander Corbet, George Carvill and R. J. Logan.

DR. BARTON'S PLATFORM

During the last few weeks there has been considerable comment over the lack of definite statements of policy by the majority candidates. Yesterday in the course of an interview with a representative of the Times-Star, Dr. J. H. Barton set forth the main planks in his platform as follows:

1. Law and order. Enforcement of all laws.
2. Continuation of the tax exemption on repairs and improvements to buildings.
3. Economy in all departments until the existing business depression clears up.
4. Study of taxation reduction and collection problems.
5. Sympathetic co-operation with the merchants and manufacturers so that they may give employment to our people. Appointment of a committee to go after the advantages of an export city.
6. Co-operation with the Board of Trade or any other body of citizens who will work for the development of our port and the trade of our port.
7. Continued presentation of our problems before the governments at Ottawa and London.
8. Encouragement of tourist travel.

A profusion of flowers beautified the city market for the Easter Sunday morning. In the market were seen a variety of tulips, carnations, daisies, roses and other kinds. The provision market was well stocked, there being the usual heavy Easter demand for eggs, which retained for about a week a dozen. A large quantity of spring onions took advantage of the spring weather to do their marketing on Tuesday morning, and the building was crowded most of the time.

DEATHS NUMBER 15 There were 15 deaths in the city for the week ending today, under the following causes: Old age, infanthood, influenza, pneumonia, myocardia, heart failure, carcinoma of uterus, carcinoma of colon, carcinoma of uterus, cancer of abdominal cavity, cerebral hemorrhage, internal hemorrhage, pulmonary tuberculosis, laceration of testis and broncho pneumonia.

AT THE CATHEDRAL Special Services Friday and Saturday—Three Hours at St. Peter's Church

Very large congregations attended the three Good Friday services in the Cathedral yesterday in the Mass of the Pre Sanctified, in the morning; Public Way of the Cross, in the afternoon and Vespers, in the evening. In the latter Rev. Joseph Floyd preached.

Father Floyd spoke of three tragedies in the Lord's passion—the agony in the garden, the sentencing of our Saviour to death and the crucifixion and made a deep impression on his hearers.

This morning another large congregation gathered for the Holy Saturday services—the blessing of the Easter waxy paschal candle, etc., and mass. At St. Peter's the Three Hours agony service was held in the afternoon with Fathers Cleary, Kearney and Costello preaching.

Story Telling in Two City Centres Mrs. W. Edmond Raymond was the story teller at the Army this morning and the 30 children present thoughtfully enjoyed her visit. In addition to entertaining them with a story, Raymond presented an Easter egg to each child. His says many words on her trip to Prince Rupert and a story of a poor little dog winning the championship for the best dog in Canada, and spoke of Easter. Boy Scouts were on duty at "Story Telling Hour" were Jack Manning, Fred Logan, Murray Corbett, Gerald Pinnock, Percy Mott and Ernest Whitaker.

Mrs. Harold Lawrence conducted the story-telling hour at the Public Library today, with 35 children present. Mrs. Lawrence told of the Indian totem poles and about Lord Allenby.

"SAFETY FIRST" MAN W. H. Trott, organizing secretary of the C. N. R. safety first divisional branch in this railway area, left today for the East. He says many words on the need of safety first. His words are being put out to reduce the number of pedestrian and vehicular accidents in the trail of the train. Special effort will be put forth for the safety of the mill street crossing. The new electric bell at the Mill street crossing will be in use on the new devices, Mr. Trott says.

BACK FROM FLORIDA Frank Jones, son of John B. Jones, arrived home today from Florida, where he has been on his honeymoon. He also crossed down Cuba for a few weeks. Mr. Jones thinks the bottom has fallen in the Florida boom, but the momentum is still in building activities and residential planning. When he left for home his money averaged 80 in the shade daily.

FERRY FIGURES The ferry figures for March show a falling off in the number of passengers and teams carried but a net increase in revenue, as compared with March 1925, of \$100. The figures are: Passengers, 1926, 191,091, revenue \$8,802.71; 1925, 189,025, revenue \$8,194.93; decrease in passengers, 2,066; decrease in revenue, \$1,231.08; 1926, 11,483, revenue \$1,148.11; decrease in teams, 939; decrease in revenue, \$82.98.

PHONE ISSUE The \$150,000 of stock recently offered by the New Brunswick Telephone Co. has all been absorbed by the present stockholders. It was said this morning. The stockholders had the first call on the stock in the proportion of one share of the new issue to each twenty shares they held and had until April 1 to buy their options.

SON IS ILL W. Rupert Turnbull, Roxbury, left yesterday for Kingston, Ontario, called by the illness of his son Donald Turnbull, who is a cadet at Kingston Military College. Mr. Turnbull has been suffering from pleurisy, and complications have developed, which may necessitate an operation. Many friends here will hope for an early improvement in his condition.

TO BE SENT HOME Charles Currie, charged with vagrancy, appeared before Magistrate Henderson this morning in the police court and, after hearing of conditions under which the man was living in an old black, the magistrate ordered he be sent back to his native city, Fredericton, this afternoon. When arrested he had \$18 in his possession.

TWO TODAY Two drunks appeared before Magistrate Henderson in the police court this morning. One pleaded guilty and was fined \$8. The other pleaded not guilty, and after evidence had been given by Policeman Phinney a similar sentence was imposed.

AWAY TO WASHINGTON H. A. Powell, K. C., left at noon yesterday for Washington, D. C., where a session of the International Joint Waterways Commission will be held. It is expected that the proposed development in Passamaquoddy Bay will be among the subjects considered.

SERVICE ENLARGED The sub post office, No. 5, located in Louis Green's cigar store, 87 Charlotte street, postmaster Harry Green, has now been authorized to issue money orders.

TROUBLE FEARED AFTER BREAK IN COAL PARLEY

Miners Refuse To Consider Proposal of Owners BOTH ARE BITTER Workmen's Leader Declares Operators' Plans Are Declaration of War

By HERBERT BAILEY British United Press. LONDON, April 3.—Britain is faced today with a grave crisis which has its roots in the coal trade. The seriousness of the situation was admitted generally this morning, following the proposals which the mine owners have made to the miners and which the latter refuse to consider. It is certain that Premier Baldwin will have to take a very firm hand with both parties to the dispute if he means to force a settlement and save the country from a paralysis of trade and perhaps something worse. COOK HITS TROUBLE A. J. Cook, the fiery leader of the miners, says that the proposals of the owners for district scales instead of national rates of wages would mean the making of agreements in certain areas involving wage reductions, and possibly the abolition of customs which it has taken the men and their organization years to build up. "It is quite clear," says Mr. Cook that they are using their present position to declare war on the mining community. I would like to say in the clearest, plainest and calmest way that I can possibly employ that a serious crisis has been brought about by this attitude of the owners. Unfortunately both sides have developed a certain bitterness during the last few weeks, which makes calm consideration of the report of the royal commission a most difficult matter.

SCARLET FEVER IS NOW UNDER CONTROL Disease Virtually Conquered By Chicago Doctor's Discovery, Claim

Canadian Press. ALBANY, N. Y., April 3.—Dr. Wm. H. Park, director of the vaccine laboratory of the city of New York, told physicians attending a joint meeting of bacteriologists and pathologists yesterday that a discovery of the germ of scarlet fever, and development of a cure by Dr. George Dick, of Chicago, assisted by his wife, Dr. Gladys H. Dick, had virtually conquered the disease in the last two years. TO STANDARDIZE METHODS Dr. Park said in this city of six million people, he expected only about 75 deaths from scarlet fever to be recorded this year. Steps were taken by Dr. Park to organize a group of laboratories that will co-operate to standardize the Dick methods of preparing and testing scarlet fever antitoxin. One of the doctors discussing the serum estimated in one year in New York it saved more lives than most physicians do in a life time.

2 DAUGHTERS HERE Mrs. M. E. MacFarlane Also Leaves Son in Moncton, and Other Children

The death of Mrs. Mary E. MacFarlane of 70 Dorchester street, this city, occurred at the home of her daughter, Mrs. Frank Dixon, of Somerville, Mass., on March 29. She leaves to mourn the loss of a kind and loving mother, three daughters—Mrs. Frank Dixon of Somerville, and Francis and Helen of Saint John; six sons—Robert of Moncton, William of Sackatoon, Jack of Newwood, Mass., James of Saint John, Raymond of Jamaica Plains, Mass., and Edward of New York; also two sisters—Miss Sufie Brooks, of Dorchester, Mass., and Mrs. Emma Coleman of Boston, and four brothers—James W. and George W. Brooks, of the Boston police force; Joseph, of Lynn, Mass., and John in the western states.

"I'll be hanged if I do," said the thug, as he mockingly pulled the trigger during a hold-up.

University of British Columbia Not To Play American Rugby

VANCOUVER, B. C., April 3.—American rugby cannot be established as a major sport at the University of British Columbia until it is incorporated in the constitution and this requires a three-fourths majority vote of the students. President L. S. Klunk announced yesterday. Adoption of the American code was favored by a bare majority of the students when a plebiscite was taken recently.

GIRL EXUDES BLOOD FOR FOURTH TIME

Good Friday Manifestation Called Supernatural by People COSENZA, Italy, April 2.—The phenomenon of a girl exuding blood from every pore and receiving stigmata on her hands and knees on Good Friday was renewed this year for the fourth consecutive time at Montalto Uffugo, near Cosenza. The girl is Elena Aiello, 29 years old and unmarried. While several physicians marvelled at the manifestation, the girl fell into a state of ecstasy lasting three hours, during which she bled from every part of her body, particularly from the forehead. The bleeding attained its height while a religious procession passed Elena's house. As fast as a physician attempted to dry the blood from the girl's face she would be fully covered with it again. At the same time her hands and knees showed the impression of the stigmata, which are supposed to resemble the wounds of Christ. The physicians who saw the happening testified that the bleeding was a real skin hemorrhage. They said that the girl appeared to be under an exceptionally psycho-pathological influence during Lent and that following this period she had always returned to a perfectly normal condition. Physicians are inclined to believe that the strange case is entirely the result of the psycho-pathological influence, but Italian residents of this section insist that it is a supernatural manifestation.

J. W. SMITH SAYS COST OF COMPENSATION BOARD HIGH

Kings' Legislator Blames Difficulties in Lumber Industry on Commission to Recompense Employees and Censures Salaries Paid

HEALTH DEPARTMENT UNDER FIRE

Doucet Declares Budget Proposals Fail to Coincide With Conservative Pre-Election Pledges; New Brunswick House Adjourns for Easter recess

BY JOHN J. DUNLOP Staff Correspondent of The Times-Star. FREDERICTON, N. B., April 1.—Criticism of the cost of administering the Workmen's Compensation Board and the Health Department and a declaration that the financial problems of the province would never be solved by a system of Government control of liquor featured a highly interesting address on the budget debate in the House this afternoon by J. William Smith, Government member for Kings.

Mr. Smith blamed the high costs of administration of the Workmen's Compensation Board for the poor condition of the lumber industry. The act, he declared, was a splendid thing, but it cost all out of proportion to the value received. Three men on the board received salaries totalling \$11,500, while the office staff expenses amounted to \$24,047 last year. He gave details of the administration costs totalling \$62,149 in 1924. He claimed it was an outrage for this expense to be saddled on the industries of the province and advocated reduction in costs.

Mr. Smith was followed by J. Andre Doucet, Opposition member for Gloucester, who asserted the budget proposals did not live up to the pledge given by the Conservatives at the last election to practice economy. Mr. Doucet was unable to finish in time and he will continue the debate when the House resumes on Wednesday of next week after the Easter recess.

Mr. Smith's consideration of the affairs of the province held close attention and his happy knack of scoring telling points while extracting much humor out of the argument aroused laughter time and again.

QUEEN HOTEL DEAL HIT. In attacking the Queen Hotel transaction he recalled that the province paid \$85,000 for the liquor commission, filled it up with booze and then told the people of the province they were ready for prohibition. This sally caused laughter.

Mr. Smith pictured the evils of drink. He said the people of the province must get away from the idea that they could make money out of liquor, for every dollar made out of this traffic must be put in other directions a thousandfold. Much has been said of government control, and Quebec had been held up as a model in this regard. Had those paid the details that he asked and he proceeded to answer his question by quoting from the financial statement of the province as given by Hon. Jacob Njoyt that Quebec had increased its debt by \$5,000,000 in the last year, despite increased revenue from liquor.

Government control, he declared, would not solve the financial problems of the country.

ACCUSES VENIOT. Mr. Smith accused Hon. Mr. Veniot of introducing the racial and religious cry on the floors of the House and declared it was a bad issue to raise. He expressed the opinion that the former Premier had already shown himself a much better critic than administrator and that the reason the people faced direct taxation was because of the extravagance of the Foster-Veniot administration.

Mr. Smith condemned the rising costs in connection with the administering of the government departments and singled out the 11th Act and the Workmen's Compensation Board for censure in this regard.

SAINTE JOHN DEATH RATE. The member for Kings quoted figures to show that while in 1922 the death rate in the city and county of Saint John was 88 per 100,000, the rate in 1924 was 245.9 or an increase of 209 per cent. Did this show value for money spent on health, he asked Kings county, he declared, had a death rate of 9 per 100,000 before the introduction of the Health Act, but since then it had jumped to 14. This declaration provoked much laughter.

Mr. Smith rapped pasteurized milk and quoted from the handbook of the Health Bureau of New York, to support his argument that raw milk was a much better food.

No pasteurization plant could equal

IF HAIR IS DRY - BLAME CONSTANT CURLING, WAVING

Girls just must curl and wave bobbed hair to appear their prettiest. But constant curling and waving burn and dry the hair, vitality and very life from the hair. To offset these bad effects, just get a six-cent bottle of delightful, refreshing "Danderine" at any drug store or toilet counter and just see for yourself how quickly it revives dry, brittle, lifeless and falling hair. "Danderine" is a dependable tonic and will do wonders for any girl's hair. It nourishes, stimulates and strengthens each single hair, bringing back that youthful gleam, glint and vigorous luxuriance. Falling hair stops just as if by magic. "Danderine" and dandruff disappears. "Danderine" is pleasant and easy to use.

PROF. JOHN M. LLOYD PASSES SUDDENLY IN HIS STUDIO HERE

Noted Instructor Stricken Just After Last Day's Lesson Given

STRICKEN with a sudden seizure, John Mulvey Lloyd, noted musician of this city, died in his studio, 15 Charlotte street, at 4:45 afternoon at 45, shortly after he had given the last lesson for the day. He only breathed for about ten minutes after the attack seized him. He had been in poor health a short while ago but was believed to have fully recovered and had resumed the instruction of his pupils.

His death will be a great shock to the music lovers of the community and the wide circle of friends, and his death leaves a gap that will not readily be filled.

He possessed remarkable talent, being not only a brilliant musician, a palatable and most successful teacher but a gifted artist and fluent linguist also. He spoke French, German or Italian as readily as he spoke English. He was unassuming yet possessed of a fine poise. He had been trained under the best teachers of his day, studying in Italy, Boston and New York, and was at one time the tenor soloist of the Boston Symphony Orchestra. His wife, formerly Miss Corri Winifred Carvell, is also a gifted musician and their two daughters, Miss Rhona Lloyd and Mrs. Harry Voltaire, have both attained to wide recognition as artists of the first order.

BORN IN EDINBURGH. Professor John Mulvey Lloyd was born in Edinburgh, Scotland, 62 years ago and came to America with his parents when a young man. The family resided in Providence, R. I., and his father, believing that his sons should be trained in two professions, John Mulvey Lloyd not only studied music but studied art also and when 19 years of age he was awarded the Rhode Island scholarship for the School of Design.

His musical aptitude and the remarkable qualities of his voice were early recognized. He became the protégé of Dr. Jules Jordan and was a fellow student of the famous Derzki brothers. He studied with Gedeoni Oliveri, of Milan, Italy, and he also studied under Hoffman in New York. He was at one time the highest paid tenor singer in the United States. He was leading tenor for the Boston Opera House, and he was also tenor soloist of the Boston Symphony Orchestra. He taught music at the Old Boston Conservatory of Music.

About 24 years ago, having been very seriously ill, he came to New Brunswick and resided at his wife's former home in Hampton. He later opened a studio in Saint John and pupils flocked to him. He had as many as 75 pupils receiving instruction at one time. His wide experience as a professional singer was added a faculty for appreciating and discovering musical talent in his pupils and inspiring in them the professional temperament.

Although an exacting taskmaster in training his pupils, he gave them such encouragement as developed the best in them. He taught both vocal and instrumental music and he spoke fluently German, French and Italian.

AMONG HIS PUPILS. Among his pupils besides his two daughters, there were Misses Kay, Estelle Fox, DeWitt Cairns and Camille Paradis, of Montreal, and one of the most promising but for the last few months has been laid aside by illness. Scores of other pupils have made a name for themselves as vocalists or instrumentalists were his pupils and received their first inspiration for professional work from him. His daughter, Arline, Mrs. Voltaire.

One of the greatest strength givers and producers of good healthy flesh in the world is Cod Liver Extract—it's full of vitamins. "Thank goodness" that now, when a woman is weak and laggard and doesn't weigh what she ought to, she knows where to go for help as all druggists are now selling McCoy's Cod Liver Extract Tablets, sugar coated, and as easy to take as candy. And it's a mighty good thing for skinny, rundown men and women to know that they can get the real Cod Liver vitamins in condensed form, that they can easily carry with them wherever they travel. Men and women, weak, thin and nervous, are urged to put on weight and get back their health and strength with these wonderful tablets. One woman gained 15 pounds in five weeks and that's going fast enough for anyone. Only 60 cents for 30 tablets, and if they don't put five pounds of flesh on any thin person in 30 days—why, money back and no quibbling about it either. But be sure and get McCoy's, the original and genuine. Wessons two stores, Ross Drug Co., Van Hawk and Son, and druggists everywhere are selling lots of them.

BABY'S HEALTH IN THE SPRING

Can Best be Guarded With Baby's OWN TABLETS. The Spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheated, badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent colds, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

ELECTION OFFICIAL GETS 5-YEAR TERM

EDMONTON, Alta., April 1.—Five years in the penitentiary with hard labor was the sentence imposed on P. A. "Baldy" Robb, Peace River deputy returning officer, this afternoon. He had been found guilty of offences under the Dominion Election Act in connection with the federal polling last October. Robb, who acted as a deputy returning officer at the Brule Mines poll, in the Peace River constituency, during the last general election, was found guilty by a jury this morning after 70 minutes' deliberation. He was charged with three offences under the Dominion Election Act.

BATHURST CO. GIVES OUT MORE DETAILS

MONTREAL, April 7.—Behind the request for legislation authorizing the expenditure of \$1,750,000 for the further development of water power on the Nipisiquit, as announced by the Bathurst Company, Limited, Bathurst, N. B., lies a plan which will result in the expenditure of about \$5,000,000 in the enlargement of the company's plant at Bathurst, according to further details given today by the company.

These plans call for the addition of a new paper mill with a total output of 300 tons, as compared with 60 tons a day as at present. Added to the old groundwood pulp mill, capable of turning out 110 tons of pulp a day will be another similar unit with a capacity of 200 tons a day.

It is anticipated that the new additions to the company's plant will take about two years to complete. In the meantime, however, the company plans adding a second unit in the present paper mill immediately, which will raise its capacity from 60 tons to 120 tons a day.

SPRINGHILL PRESSES FOR NEW ROAD WORK SPRINGHILL, April 2.—The Board of Trade of Springhill is pressing the highways department of Nova Scotia for improvements to a number of the provincial highways leading into Springhill. Some time ago a conference was held with the minister and assurance was given that the demands of the board would be carefully considered. With the approach of the opening of traffic the board has renewed its efforts for road improvement.

Unselfish Love, the Home We Have Worked For, True Friends, the Devotion of Children, These We Can All Enjoy— But Freedom From Family Questions and Naggings is Luxury Almost Beyond Reach.

WHAT are luxuries?

When we speak of people enjoying the luxuries of life, we mean that they have fine homes, gorgeous clothes, strings of pearls, high-powered motorgars and that they fare sumptuously every day.

We always think of luxuries in terms of money and feel that it is something that only the rich can possess, yet in reality the greatest luxuries in the world have no price tag on them and are equally within reach of the poor and the wealthy.

There is love, for example, and all the tender human relationships, which are luxuries far oftener enjoyed by the poor than the rich. Money seems, somehow, to clutter up the heart action, and there are very few millionaires who ever know the bliss of either loving or being loved.

MR. CROesus is filled with suspicions of the motives of any woman who marries him. The poor little rich girl regards every man who comes near her as a fortune-hunter, and so neither one ever knows the luxury of the trust in perfect faith and trust in the devotion of wife or husband and knowing that he or she is loved for himself or herself alone.

The real luxury of parenthood belongs also to the poor. Big men of affairs, whose every hour has a thousand important calls upon it, whose every thought is absorbed in working out the plans for great enterprises; women who are leaders in society never even get acquainted with their children.

AS SOON as they are born they are turned over to trained nurses and to governesses and tutors, and then sent off to school. And between the youngsters and their fathers and mothers there is only a tradition of love, and the purity of his life, gentle and super-intellectual who makes no boasts of any supernatural power.

Friendship is another luxury on which the poor have a practical monopoly. The rich soon grow cynical and hard because their trust is betrayed so often. So many of the hands that are lifted out of the gutter of friendship have itching palms; so much professed love is only greed; so much affection has to be paid for in hearts to any one. It is only the poor, from whom no one has anything to gain except the joy of companionship, who can know the luxury—and it is the greatest and most satisfying one on earth—of having a real friend and real comradship.

LOVE, children, home, friends, these are all luxuries equally within the reach of the poor man and the rich man. And there are certain other luxuries which most of us would enjoy more than we would matched pearls or villas in Newport or imitation Spanish houses in Palm Beach or private cars or yachts. And these we might just as well live in as not, if we could induce our families to look upon them as luxuries in which they should indulge us.

For example, just think what a luxury it would be to be able to get up and do the thing you want to when you want to do it, without having to answer endless questions about it and having to combat a thousand objections.

SO GREATLY do we all esteem this liberty that it reconciles husbands and wives to the loss of their spouses and sons and daughters to the death of their parents. It is curious and pathetic to see how widows and widowers, no matter how they have loved their departed mates, manifest the spirit of children let out of school when their fathers pass on. They suddenly become young again and run hither and thither roving in the ardent joy of having personal liberty for the first time in years.

And it is this desire to have the luxury of a little personal liberty that makes children leave home as soon as they possibly can and go to live among strangers, who will not interfere with them at every turn and nag them about everything they do.

What a luxury it would be to be able to eat what one liked without being told how bad it was for one's stomach or how many calories it contained! To be able to sit up half the night and read an absorbing novel without some one knocking at one's door and warning one how bad it was for one's eyes to read in bed! To have one's hair bobbed or not, as one chose, and to buy the clothes that fire one's fancy without having one's taste criticized or being asked the price! To get one's letters without having them Sherlock Holmesed by the family! To be able to take a walk at night because one happened to feel like doing so without being put through the inquisition as to one's motives!

IN SHORT, what a luxury it would be to have one's family grant one a little independence. But these are among the unattainable luxuries that most of us will never enjoy. DOROTHY DIX, Copyright by Public Ledger.

Is this your BIRTHDAY? APRIL 3—You will secure the greatest degree of happiness if you marry young, and preferably a person born in December. You will early in life form regular habits. Your perseverance and steadiness will bring you success where impulsive action would bring failure. You should have a great number of good friends. Beware of jealousy. Your birth-stone is a diamond which means innocence. Your flower is a daisy. Your lucky colors are red and yellow.

APRIL 4—Do not brood over misfortune, for you are resourceful and capable of successful accomplishment if you desire. You will be fortunate in love, and will travel far. Cultivate hope. Your birth-stone is a diamond, which means innocence. Your flower is a daisy. Your lucky colors are red and yellow.

New "Messiah" Coming To United States

By HORTENSE SAUNDERS. FROM Burke's penance and the New York social register are being recruited the clientele who will welcome to the western world J. Krishnamurti, known in the east as the second Messiah.

He is a young Hindu of highest Brahmin caste who since his twelfth year has been in training for spiritual leadership. He will go to England in June and come to America in August. Numbered in his English followers are Muriel, Countess De La Warr, and her son, Sir Edwin Lynn Lutyns and Lady Emil Lutyns, granddaughter of Bulwer Lytton, and George Lansbury, an eminent M. P.

His American friends are among the socially elect and include Mrs. J. Thelus Munds, one of the most prominent hostesses of New York and Newport; Mrs. Edgar Salts, Mrs. Pliny Fisk, Claude Bragdon, James Montgomery Flagg and Craig Biddle, Jr. "When the world needs a new teacher to reawaken faith and restore spirituality and tolerance, this leader must come to the world and work through the body of a human being," explains Mrs. Fisk.

"Thus when we call Krishnamurti a second Christ we mean he is such a highly sensitive spiritual type who is worthy of being used as the medium, as Christ was, for God's teachings.

The disciples, she says, are the scientists and thinkers of the country. He is on very friendly terms with George Bernard Shaw.

For generations his family has eaten no meat and abstained from alcoholic beverages. "He has," Mrs. Fisk went on, "in every way preserved the purity of his body for his master's use."

"At the age of 12, it became apparent to the theosophists of India that he had a precocious mind and exceptional insight," when he wrote "At the Feet of the Master" and they segregated him from the world and have trained and groomed him for spiritual leadership.

Two centuries ago, the Lorrards started the first snuff factory in America in what is now the Bronx—the ancient factory still stands a landmark. New times, new fads. Snuff went out of vogue and the Lorrards went into business as a hat store.

They became famous, too, for fine horses. Many years ago a horse-loving Lorrard built up the famous Ranocosa stable. They now belong to Harry Sinclair, the oil magnate.

FROM night-childhood comes word that a song now being widely sung in the belt where the lights turn long and bright is entitled: "When a Kid Found a Cane From the East Side Found a Society Boy." Which seems to indicate that a couple of clever youngsters have "scooped" Irving Berlin on his own romance.

All that remains now is for someone to name a clear after the Mackey-Berlin romance and the cycle will have been completely run.

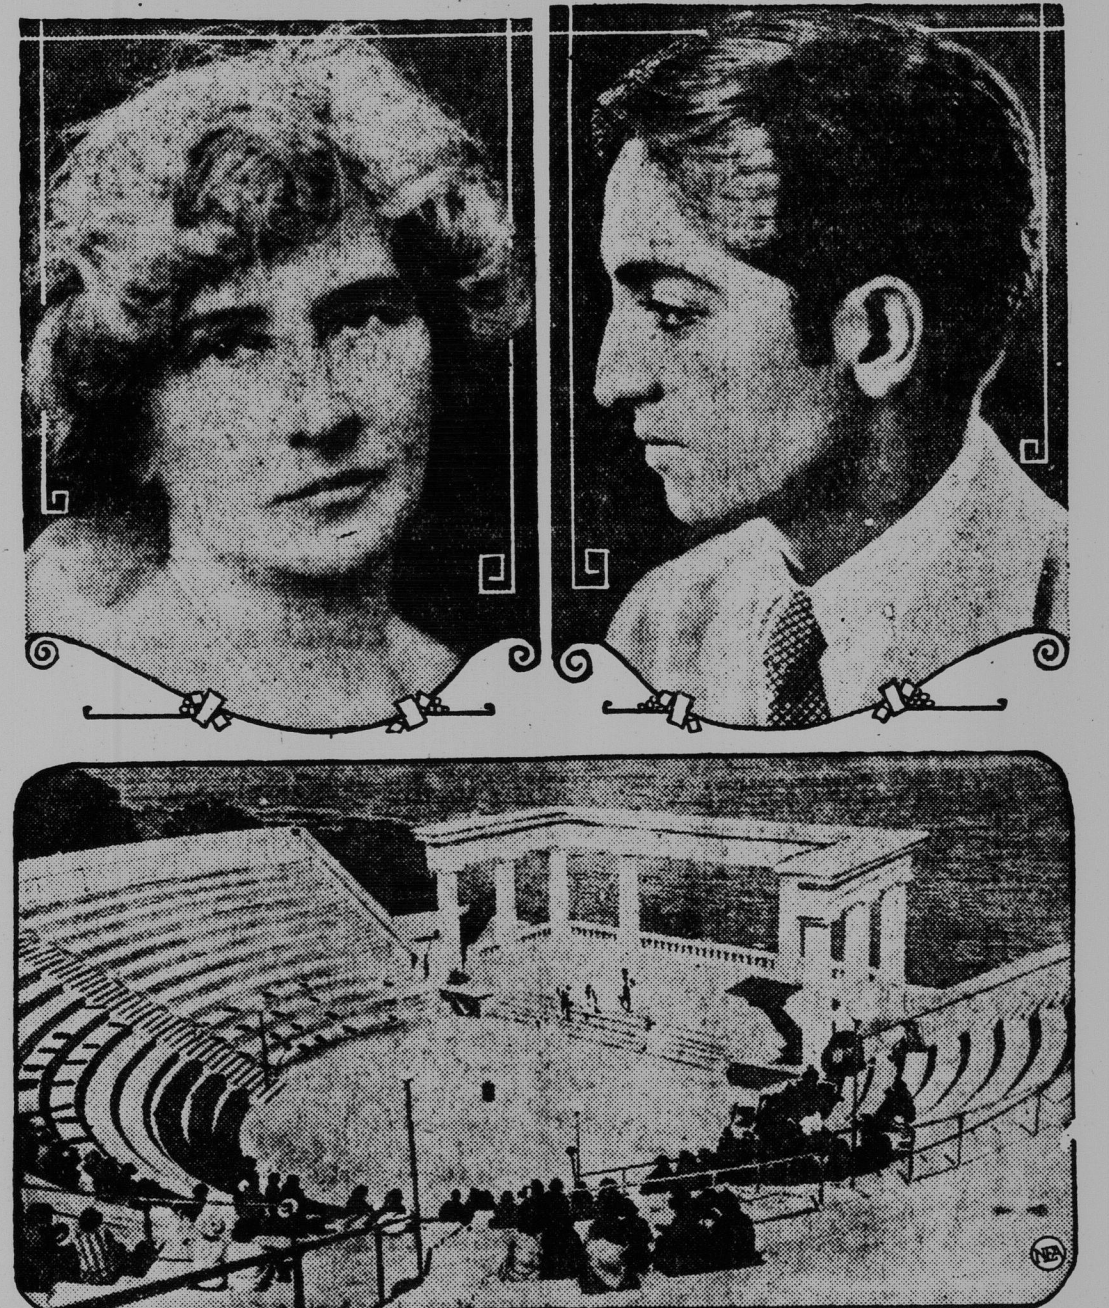

SPEAKING of night clubs, a young man of my acquaintance was trying to tabulate a percentage of his costs. "Now take this overcoat I am wearing," he commented. "It cost me \$40, or something like that. The cost of checking it in the cafes and night clubs is, up to date, about \$75. Which means that I could have bought a better coat for what it cost me to hang this one up!"

I dried my tears and walked away.

THE night club business, days ago he was saying, is not getting better. For many months the prospectors of the gold-mining fields—the there one might call them, with reference to the location—have been tapping a rich vein in visiting purses. The general impression is that they overworked their claims. "Hold-up" prices have been asked, and "forcers" and New Yorkers alike are patronizing only a few of the more "notable" cabarets and dance resorts. Money is tighter, says Broadway.

The westerners seem to be most persistent in this gold business. Sophie Tucker, who launched her career in the "coon show" days of San Francisco, is the latest to invade night-clubdom and Texas Gagner has found it necessary to open a second club.

Above, left, Mrs. Pliny Fisk. Right, Krishnamurti. Below is the Star Amphitheatre in Sydney, Australia, in preparation for the coming of the new Messiah to this country.

One has only to consider the late war, understand the industrial and social machinery of the age, and look at the harassed, worn faces of our people to realize we are in danger of losing our souls," Mrs. Fisk says. Krishnamurti will come to this country with Dr. Annie Besant, internationally known as a leader in theosophy. He professes no creeds nor religions. He intends merely to reinterpret the teachings of Christ and bring religion back as a factor in our lives. As he outlined his campaign last year in Adyar, India, he said: "I come for those who want sympathy, who want happiness, who are longing to be released, who are longing to find happiness in all things. I come to reform and not to tear down. I do not want to destroy, but to build."

BEHIND THE SCREEN

IN-NEW YORK SEE-SAWING UP and DOWN BROADWAY

HAPPENED to notice an old large watchman at one of the East River piers taking a pinch of snuff. How many fans of the grand old custom remain, I wonder? An incident I recalled when I noticed Mrs. Fisk, who met Krishnamurti in London some years ago, describes him as a decidedly spiritual young man of about 30, known for his good looks, and the purity of his life, gentle and super-intellectual who makes no boasts of any supernatural power.

He became famous, too, for fine horses. Many years ago a horse-loving Lorrard built up the famous Ranocosa stable. They now belong to Harry Sinclair, the oil magnate.

MENU MINT Breakfast Orange and Bananas Sliced Corn Flakes Toast Coffee Luncheon Prime Whip Tea Dinner Baked Apple with Sausage Oriental Salad Baked Potatoes Lemon Pie

ENTREE Salad—Cook one cup of rice in salted water until tender, then drain and season with one-half teaspoon of salt, scant teaspoon of paprika and one-half teaspoon of scraped onion. When cold place around edge of a platter, fill center with a medley of vegetables (carrots, cauliflower and peas) and add a tossed salad dressing. A splendid dish for a hot night's supper.

Baked Apple with Sausage—Core, rub apples and place a sausage in each cavity. Bake until apple is tender.

Maple Pudding—Two cups hot milk, one-third cup granulated tapioca, one cup maple syrup, one-half teaspoon salt, one egg, two-thirds cup English walnut meats. Cook the milk, tapioca, maple syrup and salt in upper part of double boiler. After it has cooked for 15 minutes add the beaten egg yolk. Cook for three minutes, then remove from the fire, add the flavoring and the stiffly beaten egg whites and the chopped nut meats. Serve cold with or without cream. Nut meats may be used to garnish the pudding after it is served.

Maple Nut Brittle—One cup maple sugar, one cup light corn syrup, two half cup water, one cup nut meats, two tablespoons butter, speck salt. Crack the nuts, break the nut meats into small pieces and set in an oven until they arrive and slightly brown. Put the sugar, syrup, water over a fire and cook until the sugar is dissolved. When the temperature of 275 degrees is reached add the butter and nut meats and continue cooking until the temperature reaches 290 degrees. Pour thin sheets into a greased baking dish and in a half minute, take candy in the hands, and lift it from the slab pull until it is in thin sheets, break off pieces of the size if it is impossible to stretch the center.

ADVENTURES of the TWINS by OLIVE ROBERTS BARTON

MARKY LEARNS A LESSON. Marky Muskrat, or I should say Murfy Muskrats, since he had changed his name, went down the path that led from Scrub-Up Land to the Land-Where-Spring-Was-Coming. No one would have known him—not even his own mother—with his blue body, pink tail, yellow head, red legs and green and black feet. Yes, that's what had happened to him in Scrub-Up Land. Poor Rubabub had not to blame. It was entirely Marky's own idea. At last he reached the little secret bush that marked the place where Scrub-Up Land ended and the Spring Country began. It looked a lot like the same old meadow, and the same old woods and the same old hollow and the same old pond. But now it was getting so green that it really couldn't be quite just the same place. No, Marky, I mean Murfy, was sure it wasn't. Much had happened in the short time he had been in Scrub-Up Land, not only to him but to the country itself. The pussy willows were out, and the grass was green. Clover was out in thick patches and all sorts of early plants were growing near the pond. There was a lot of skunk cabbage with its pretty swirls of green. "It'll bet you that old crow is around somewhere," thought Marky uneasily. "He always flies over the meadow about this time of year. I'll have to look out. And that greedy owl, no one could see me and I was sure that's what I get for being unhappy, chicken, and Reddy Fox, too. Oh, well, I've always kept out of their way. I don't need to be afraid now. Besides they'll not know who I am!" Suddenly he heard a sound that made him shiver. It was a faint flapping of wings that came nearer and nearer. To Be Continued.

PHYSICIANS HOPING TO GET ANTI-TOXIN FOR TUBERCULOSIS

Ehrlich Immunity Theory Must Be Discarded, Say Two Groups of Scientists; Under-Feeding of Cancer Patients Suggested

ALBANY, N. Y., April 2.—Modern science must cast away the Ehrlich theory of immunity from diseases upon which great advances in the development of serums and anti-toxins have been made in the last 25 years.

The hope was expressed that working with the new ideas as a basis it might be possible to develop anti-toxins for tuberculosis and other diseases.

Dr. A. P. Locke, of St. Luke's Hospital, said his investigations indicated that protective substances in the blood actually encased the particles of poison given off by the germs.

Before the meeting of the American Association for Cancer Research, which met here yesterday, Dr. K. Sugita, of Memorial Hospital, New York, told of experiments which showed that underfed rats, operated upon for cancer, lived about 35 days longer than fully fed rats.

BRITAIN WILL SHARE IN STEPS LEADING TO DISARMAMENT

Lord Cecil Will Be Ready to Urge Definite Plan at Geneva

LONDON, April 1.—The British Government will participate wholeheartedly in any international steps leading to general measures of disarmament and Lord Cecil will go to Geneva prepared to urge some definite scheme.

This was made clear in the House of Commons today by Geoffrey Lockyer-Lampson, parliamentary Under Secretary for the Home Office.

"What we have to do, if we can, is to exert the demon of international suspicion," said Mr. Lockyer-Lampson. "Lord Cecil will certainly go to Geneva prepared to organize some definite scheme of military disarmament."

Pointing out that the British navy, army and air force had been reduced, he declared vulnerable trade routes must be protected and nothing must be done to endanger them, but the Government was very anxious to co-operate in any general scheme for the limitation of arms and their forces.

"I can assure the House," he said, "that the Government will not be behindhand in the international efforts now taking place to secure the peace of the world."

The British case at Geneva, he added, would be in the capable hands of Lord Cecil, and he anticipated that something substantial would emerge from the preparatory disarmament commission, which he termed "one more milestone on the long difficult road to universal peace."

Dr. M. Case Meets Old Friends On Trip

Dr. Mayer Case has returned to the city after six weeks absence in Montreal, Chicago and New York.

While in Chicago Dr. Case attended the clinics in the Presbyterian Cook County and Wesley Hospitals and witnessed many surgical demonstrations by the professors of Chicago University.

In New York he had occasion to inspect the New Jamaica Hospital, a thoroughly modern institution, A-1 in every detail. The superintendent in this hospital is a graduate from St. Bartholemew's, London, and there were two nurses from Saint John and one from Yarmouth, N. S.

While in Chicago Dr. Case was entertained by John D. Parly, Jr., son of W. H. Parly, local shipping master. Mr. Parly has a charming home at Highland Park, and has enjoyed unusual success in the business and financial affairs of that great city.

In New York Dr. Case met his old desk mate at the Gaetano Grammar School in the late 80's, W. C. Reed. Mr. Reed has been associated with James D. Leary for many years and is considered one of the soundest business and financial men in New York. Mr. Reed is also identified with social reforms and was president of the Jamaica Hospital board for five years.

In spite of business demands, Mr. Reed is most hospitable to his old friends at his splendid home and is ever ready to show them the sights of New York.

Dr. Case is at his office again.

NEW MONKEY PLAY SCORES SUCCESS ON BUDAPEST STAGE

Is Burlesque Suggesting Man's Inferiority to These Animals

BUDAPEST, April 2.—A new monkey play has been produced in Budapest with great success. The play is a burlesque ironically suggesting the inferiority of human beings to monkeys in their natural state and is by Ferenc Hertzog, the foremost novelist and playwright of Hungary, who recently celebrated his fortieth year of authorship.

The scene of the play is a jungle swept by a wind of modernism which causes the monkeys to cut off their tails and assume human habits and speech. Miss Rakitakijuhai, the monkey heroine, has even transformed herself into the semblance of a human being, with the aid of Parisian cosmetics, and goes off to the sports club at the edge of the jungle to play tennis. There she meets Tommy, a smart young human, who is so enamored with the thought of her dot (the jungle) that she proposes to her in spite of her somewhat occasional inarticulate screams.

PREFERS TO BE MONKEY

An evening party is arranged to take place in the home of Hommy's mother. The leading members of the monkey tribe are invited to assist at the betrothal ceremony and the signing over of the jungle, which Tommy proposes to turn into a limited company. Miss Rakitakijuhai and the monkeys arrive by the window and Tommy's relations only overcome their disgust by thinking of the fortune which is to be theirs. But Vauno, the monkey chief (and the only monkey who retained his tail) refuses to sign the document. He declares that the monkeys do not desire the society of human beings, and that to be a monkey is preferable at all times. This act contains pungent criticisms on human life and ideals and ends with the defeat of the human family and the departure of the monkeys by the window through which they came.

MONKEYS ON GUARD

Miss Rakitakijuhai is forbidden to hold any communication with human beings and the monkeys are on their guard. Tommy decides to bring an action against them for breach of contract; he is determined to have the jungle if not the bride. He goes with his relations and the consul to pay a call on the tribe. But the monkeys are against them; they have stuck on their discarded tails, and receive Tommy and Co. on all fours, uttering

REPORT ON MINTO COAL PROBE READY

MONCTON, April 3.—Geo. Stone, a member of the Royal Commission that enquired into the coal industry at Minto, returned yesterday afternoon from Fredericton, where he had been attending a meeting of the commission. R. Reid, Woodstock; George A. Stone, Moncton, and Luke Morrison, Fredericton.

NEW PRO. FOR GOLF CLUB IN MONCTON

Former Scotch Official Seemed to Act in Place of Law Brown

MONCTON, April 3.—The Board of Directors of the Riverdale Golf Club, held a meeting in the City Hall on Thursday evening. The matter of the employment of a pro to take the place of Lew Brown, who lately resigned to accept a similar post at Little Rock, Arkansas, was discussed, and it was decided to get in touch with Holyoke Golf Club, Liverpool, England, and formerly of St. Andrew's, Scotland. It is expected that Mr. Williams will arrive here in the near future and before the opening of the links will conduct a winter golf school here.

Another question discussed by the directors was the installation of gas and lighting at the clubhouse, and it is expected that satisfactory arrangements will be made for such installations as soon as weather conditions make such undertaking possible.

Other matters of a general routine nature were also discussed. Alderman Budd A. Taylor, president of the club, presided.

SNOWFALL THIS YEAR, 118 INCHES

The three and one-tenth inches of snow that came in the storm of yesterday which surprised the citizens, succeeded in bringing this season's snowfall to about 118 inches, or just two inches short of 40 feet. D. L. Hutchinson of the Meteorological Observatory in Douglas avenue, said last night.

So heavy a snowfall is very unusual, although three years ago similarly abnormal conditions prevailed. The wind was from the east and northeast and attained a velocity of 10 miles an hour. By night time it had slackened to about 10 miles an hour but still held the northeast quarter. Temperatures yesterday varied from 32 degrees to 30 degrees.

While Saint John did not experience a high wind, Point Lepreau was favored with a gale that was blowing at the rate of 32 miles an hour in the afternoon, but had slackened off at night.

Mr. Hutchinson's records showed that March, 1925, had been four degrees colder than the average month of March. The highest temperature was 14.5 degrees on March 25 and the lowest was two below zero on March 15. The mean temperature was 24.1 degrees. The rainfall of the month amounted to 2.20 inches and the snowfall to 26.5, making a total precipitation of 4.85 inches, which is about normal.

ESTEEMED SHEDIAC COUPLE CELEBRATE 52ND ANNIVERSARY

Dr. James Peters Hanington Was Once in Business in Saint John

ORIGINAL TRUSTEE OF MISSION CHURCH

Married in Trinity by Ven. Archdeacon Brigstock in 1874

SHEDIAC, April 2—Dr. James Peters Hanington and Mrs. Hanington, of Montreal and Shediac, recently observed the 52nd anniversary of their wedding. Dr. Hanington is a native of Shediac Cape, a son of the late Hon. Daniel Hanington, former president of the Legislative Council, and brother of the late Hon. Daniel L. Hanington, of Dorchester, justice of the supreme court and at one time premier of the province.

IN BUSINESS IN SAINT JOHN. Dr. Hanington years ago was in partnership in Saint John with an older brother, the late Thomas B. Hanington, as proprietor medicine drug-gists. He is the last surviving original trustee of the Mission church of St. John Baptist, Paradise row, Saint John, of which his son-in-law, Rev. Father John Vernon Young, is priest-in-charge.

MARRIED IN TRINITY. Dr. and Mrs. Hanington were married in old Trinity church, Saint John, in 1874. Mrs. Hanington was formerly Miss Gertrude Davidson, of Saint John. They have a summer home at Shediac Cape. Although Dr. Hanington is about 80 years of age he was sufficiently active and vigorous last fall to come to Shediac on a hunting trip. Mrs. J. S. Covert, of Moncton, formerly of Grand Manan, is a sister of Dr. Hanington, and Major Charles Hanington, of Ottawa, formerly of Shediac, is a brother. Several nephews and nieces reside in Saint John.

WOODSTOCK APPEAL FOR BETTER ROAD

Petition Will Ask Province to Complete End of Houltou Route

WOODSTOCK, April 2—The Woodstock Board of Health, in raising the agitation to have the Canadian section of the Woodstock-Houltou road made a suitable, permanent connecting link between the highways systems of this province and the State of Maine. Memorials are being circulated and have already been largely signed, and will be presented to the Provincial Government. Two years ago assurances were given by the then government of the province that if the Maine end of the road were constructed, a New Brunswick road would put its portion of the road in suitable shape, too.

MAINE UNDERTAKES WORK. The State of Maine Highway Commission, as a result of this understanding, the memorial points out, have about completed their portion of the work, which is macadamized and finished with tar, whereas the Canadian end is "an extremely rough ridge, narrow, poorly crowned road, which becomes gutted and rutted under wet conditions."

AROOSTOOK TUBERS SELL AT \$8.50 BBL.

Western Receivers' Demand Excites Market; Carload Shipments Increase

CARIBOU, Me., April 2—The Aroostook potato market was considerably excited today with western receivers calling for shipments at top prices and buyers bidding for what stock was offered. Sales were reported at \$8 and some lots as high as \$8.25 and \$8.50 a barrel (cash) for Green Mountains. Owners of stock are holding back expecting still higher prices. Shipments, which have been reduced, are increasing to about 150 carloads a day. Experts figure that there are not many more than 5,000 carloads of potatoes now left in Aroostook of all kinds.

450 FARMERS MEET

Record Attendance at U. of M. Agriculture College Assembly at Orono

ORONO, Maine, April 2—The 20th annual farmers' week at the University of Maine College of Agriculture closed today. During the week 450 people, a record enrollment, heard many of the lectures given on farm topics by 90 experts and specialists, in three and sometimes four simultaneous group sessions, including the home economics department for the women. Annual meetings of agricultural, stock breeding, homological and farm bureau associations were held. Many of the lectures and the speeches by Governor Brewster and others at the annual banquet last night were broadcasted from the university station for the first time.

Trout Season Is Now Open; Salmon Also

THE trout fishing season in New Brunswick opened on Thursday, April 1, and extends until Sept. 30. The salmon fishing season also opened on April 1 and continues to Sept. 15. Except in the Restigouche River, where the open season is from April 1 to Aug. 15. Non-resident anglers must have a license to fish. The fee is \$10 for permit to fish trout; \$25 for salmon license. It is illegal to fish in lakes, through the ice.

WOMEN'S CANADIAN CLUB ELECT SLATE

St. Stephen Organization Shows Good Progress During Last Year

ST. STEPHEN, April 2—The annual meeting of the Women's Canadian Club was held in the Town Council chambers this week, the president, Mrs. H. Archibald, in the chair. Miss Lois Wry gave a vocal solo, her sister, Miss Beattie, accompanying her. Following this, Miss Elizabeth Dow gave a piano solo. The president gave a splendid report showing a year of good work accomplished and a live club well organized in all its departments. The secretary's report and the treasurer's report were most satisfactory, the treasurer showing a splendid balance on hand. Reports from the different committees were gratifying.

SLATE OF OFFICERS. Following the reports the election of officers for the coming year was as follows: President, Miss Ella Veazey; first vice-president, Mrs. E. V. Sullivan; second vice-president, Mrs. J. J. Armstrong; secretary, Miss C. Hall-stone; assistant secretary, Miss Winnifred Runt; treasurer, Miss Emma Robinson; executive committee, Mrs. E. H. Archibald, Mrs. Evans Hill, Mrs. A. E. Veazey, Miss Beattie Veazey, Mrs. Henry Eaton, Mrs. Frank Nicholson, Mrs. Patrick Casey, Mrs. Charles Huestis, Mrs. A. A. Lalin and Mrs. W. L. Grimmer.

A social hour followed. Miss Marion Murray and Miss Alma Sullivan were the hostesses for the evening. Mrs. Harold Haley, Mrs. E. V. Sullivan, Mrs. M. D. Graville, Miss Nellie Hanley and Miss Helen McBride served.

BISHOP OF LONDON TO TOUR MARITIMES

Will Visit Dominion During Coming Summer, Preach in Many Dioceses

SHEDIAC, April 2—It is announced that Rt. Rev. and Rt. Hon. Arthur Foley Winnington Ingram, D.D., LL.D., D.C.L., Lord Bishop of London, and one of the world's foremost preachers will visit eastern Canada during the coming summer while on a tour of a large part of the world, including all of Canada, the United States, the Far East and India.

TO LAY CORNER-STONE. He will spend a long vacation in Canada, preaching, however, in many dioceses. He will lay the corner-stone of the new cathedral at Victoria and will occupy the pulpit of Rt. Rev. Dr. Charles D. Schofield, Bishop of Columbia, formerly of Saint John and Fredericton. The Bishop of London is a colubine and has long been an outstanding figure in the Catholic school of thought in the Anglican Church.

MANY CASES OF FLU IN SUSSEX SCHOOLS

SUSSEX, April 2—An epidemic of flu or la grippe, so called, has struck Sussex, and as a consequence there is much sickness, particularly among the school children. This week the absences from school averaged daily, in the different grades, over a hundred. Principal Fraser has been confined to his home since Tuesday morning. The schools closed on Thursday for the Easter holidays, and will reopen on Wednesday morning of next week.

TRAVELERS STALLED BY STANLEY THAW

STANLEY, April 2—On account of the sudden thaw last week, several travelers on the Fredericton-Stanley road were obliged to abandon their sleighs and leave their horses at nearby barns, where they still remain. Even since the roads have again frozen that particular road is too dangerous to have the horses removed. One of the men reports that on the same date, March 29th, sixteen years ago he drove from Fredericton on wheels. Mrs. John Hossack has successfully undergone a surgical operation at her home in Cross Creek. Dr. Folkins was the operating surgeon.

S. W. J. BEST DIES

OTTAWA, April 2—S. W. J. Best, one of Ottawa's prominent business men, died here early this morning, aged 74. He was connected with the Massey Manufacturing Company for a number of years in Orino, Durham county. He came to Ottawa as manager of the Massey-Harris Company in 1896. After retiring from the implement business he became president of the Ottawa Real Estate Board and was one of the organizers of the present Ottawa Real Estate Board of which he was vice-president. Taxicabs are appearing in large cities of Russia, but horse-drawn cabs still are popular.

WORLD MEETING OF POULTRY KEEPERS AT OTTAWA, JULY 27

Third World's Congress to Include Members From Canada and U. S.

BRITISH EXPERT TO PRESIDE AT MEET

Will Furnish New Ideas on Production, Distribution, Consumption

OTTAWA, April 2—Poultrymen of the United States and Canada are already making preparations to make the Third World's Poultry Congress a big success. The Congress is to be held from July 27 to August 4 in 1927, and is the first to be held in America. It will be the most thorough-going attempt ever made to get together in one place the best thought on every phase of poultry production.

BRITISH EXPERT. The president of the congress is Edward Brown, of London, England, for many years the best known authority on poultry in Great Britain. Those who attend the congress, which is held every three years, bring together all new ideas on production, distribution and consumption of poultry products. Manufacturers exhibit the newest appliances and utensils and an attempt is made by those interested in the industry to give consumers the best information regarding the wisest use of poultry products. The meeting will be under the auspices of the International Association of Poultry Investigators.

VETS WANT BAN ON U.S. PAPER TO STAY

Protest Entry of "Liberty" and Hear of Changes in Myer's History

Many important matters were under discussion at the meeting of the executive of the Saint John branch of the G. W. V. A. last night, when J. G. Dryden, president, was in the chair. With reference to the objections taken to Myer's history by G. W. V. A. branches, it was reported that the publishers had undertaken to have a special section compiled and added to the present text. The new section will deal more acceptably with the part of Canada and the British Empire in the Great War and will be written by a Canadian historian. It was also reported that the ban on the entry of the magazine Liberty into Canada has been removed and that Dr. Murray McLaren, C. M. G., M. P., had been communicated with and requested to take up the matter with the federal customs department in order to have the ban removed. Heavy approval was expressed at the action of the board of trustees of the centennial fund in setting aside a small portion of the fund to be used for immediate relief work. The main portion of the fund, it was understood, was being reserved for disposal at a later date, when some more satisfactory designation had been arrived at. The various branches of the G. W. V. A. are co-operating with the trustees of the fund by furnishing information concerning cases.

REPORTS MUCH ACTIVITY. The committee in charge of the fair to be held in the association hall in the near future reported satisfactory progress with the arrangements. The various other committee reports indicated a very healthy activity within the branch. The resolution of the Moncton branch with reference to the appointment of overseas nurses, where district nurses are being selected to work under the Provincial Government, was approved by the meeting.

W. F. NAPIER HEADS DRIVING, BOOM CO.

Annual Meeting of Restigouche Organiz'n; W. F. Richards Elected M'gr

CAMPBELLTON, March 31—At the annual meeting of the Restigouche Log Driving and Boom Company held in the company's office yesterday afternoon it was decided to drive the river this year with the company's own employees rather than letting it out by contract as in previous years. The shareholders of the different lumber companies with the exception of L. A. Lockett, of the Dalhousie Lumber Company, who is confined to his home by illness, were present. The accounts as shown by the auditor for the past year were passed and the officers of the previous year re-elected as follows: President—W. F. Napier, Manager—W. F. Richards, Secretary—Treasurer—M. A. Kelly, Auditors—A. F. Carr and D. Smith, Official Scaler—R. B. McBeath.

One of Oldest Pensioners Of Gov't In New Brunswick

Charles White, Former Caisie Cape Light Keeper, Hale at 84 Years

SHEDIAC, April 2—One of the oldest of the government's superannuated employes in New Brunswick is Charles White, of Caisie Cape (Shediac Point), Kent county. Mr. White is 84 years of age, but still rugged, strong and vigorous. In good weather he drives alone to Shediac, 10 miles, once or twice a week. Mr. White was for many years keeper of the revolving light at Caisie Cape, which is visible in clear weather 25 miles. The light is the only one of its power on the mainland between Richibucto and Cape Tormentine.

SAVED MANY LIVES. He has had severe experiences on the bleak, sandy cape during the late fall months when northeasterly gales, with heavy rain or snow, sweep down from the Gulf of St. Lawrence. He has saved numerous boaters to get ashore in tempestuous weather and has been the means of saving many lives in years gone by. He is an expert in a sail boat. SON OF FIRST SETTLER. Mr. White was born in Shediac, the son of one of the first settlers of what is now the town. He has numerous relatives here, in Moncton and elsewhere.

SUSSEX CHOIR IN SPLENDID RECITAL

Stainer's Crucifixion Given Before Large Audience in United Baptist

SUSSEX, April 2—A very fine rendering of Stainer's sacred cantata, "The Crucifixion" was given here tonight by the choir in the United Baptist church. The chorus work was remarkably well balanced and the rendition of unusual merit. Tenor solo parts were taken by H. W. Black, baritone solos by H. W. Wallace and bass parts by A. S. Black. The choir was directed by J. D. McKenna with Mrs. Edith Evine presiding at the organ.

There was an appreciative and unusually large audience present.

FREIGHT CAR DERAILED

MONCTON, April 2—A derailed freight car at Vimy Sliding, near Sackville, delayed the arrival here this afternoon of the Ocean Limited Express from Halifax for Montreal by this afternoon. The car was re-railled by the train crew.

SERIOUS CHARGE AT CAMPBELLTON

Magistrate Adjoins Investigation of Infant's Death

CAMPBELLTON, April 2—The case against Madame Deschene, of the parish of St. Quentin, which has occupied the attention of the police magistrate, has been adjourned until Wednesday, April 7, for the purpose of securing witnesses for the defence. The infant, who was placed in the charge of Madame Deschene when less than a day old, is the child of an unmarried mother and the action was brought by the mother's parents against Madame Deschene, who is the mother of the alleged father of the child. She is charged with doing bodily harm with a view to murder and the prosecution occupied practically all day yesterday.

MADE ASSOCIATE OF DIVINITY

SPRINGHILL, April 2—Rev. Baxter J. Warr, of Wesley United church, Springhill, has been granted a certificate of Associate of Divinity by Wesleyan College, Montreal. The honor is extended for the merit of a thesis on testament studies. Rev. Mr. Warr graduated from Wesleyan College in 1916, from which he enlisted in the ranks of the Newfoundland overseas military force.

Cow Licks Fertilizer And Dies

SUSSEX, April 2—A valuable cow owned by Martin J. Ryan, Smith Creek, gained access, a few days ago, to a shed in which was stored his fertilizer chemicals for spring use. The animal licked a soda and it being of a salty nature, she consumed a portion of it with the result that she was poisoned and died from the effects.

SCHR. AT YARMOUTH FROM RUM ROW

YARMOUTH, April 2—The S. K. Pierre, Miquelon, three-masted schooner from rum row, off Boston. The vessel has part cargo of alcohol and malt. The "Beatrice" is one of the five schooners reported by yesterday's Boston papers as being off that port. The others were the Nova Scotia schooners "Im Alone," "George and Earl," "Alcala" and "Pishovon." The last named was formerly the schooner "Canada," built a few years ago at Sheburne, N.S., as a contestant in the international races for fishing schooners.

BOOKS IN CUSTOMS PROBE ESCAPE FIRE

Are in Safe of Destroyed Rock Island Plant, Says Message to Boivin

OTTAWA, April 2—A long distance message received by Hon. George Boivin, minister of customs and excise, from Rock Island, stated that the books of the Bebe Giebo Company were in the concern's safe when the fire destroyed the plant yesterday afternoon and that they had since been examined by the auditors for the investigating committee for the probe and were quite intact.

Mr. Lyman House, manager of the company, stated that the factory was a new building and loss caused by the fire amounted to \$60,000. There was \$30,000 insurance on the building. The fire was purely accidental, it was stated.

The auditors had gone through the books and documents of the company two weeks ago, and what information was required for the committee at Ottawa had already been obtained.

Ceiling Falls On Balcony and Mad Rush For Outside Ensues
SOME ARE INJURED IN ATTEMPT TO FLEE
Plaster Shows On Crowd of 500; Many Receive Scalp Wounds

WINNIPEG, April 2—Six persons, including four women, are in hospital today, and 24 others are at their homes nursing injuries received when part of the ceiling, beneath the balcony of Staland Theatre collapsed, precipitating a shower of plaster upon the audience last night.

While a holiday crowd of 800 were watching a motion picture play, the ceiling collapsed without warning, blocking the main exit from the theatre. Police reserves, firemen and ambulances were hurriedly called and in a short time the theatre was cleared.

HUNDREDS RUSH FOR DOORS
Forgetting the emergency exits, hundreds rushed for the front door of the theatre and in a short time members of the audience were fighting to get to the outside, while many frantic relatives fought for admittance.

LINER MAINTAINS SPEED OF 29 KNOTS FOR HOUR IN RACE

Passes Previous Record in Fight Against Heavy Wind and Waves

FOUR SHIPS HURRY TO AID OF LALEHAM

Steamer Abandoned and Set on Fire After Men Are Taken Off

NEW YORK, April 2.—The manner in which men of the sea rally to the aid of their comrades when wind and waves batter a ship to pieces was stirringly revealed when the Cunard liner Mauretania reached port today. It's log showed that when the freighter Laleham called for help on March 31, four ships turned from their courses and none gave up the race until the tanker Shirvan had taken off all 37 of the Laleham's crew and the ill-fated ship had been set afire.

During this race for life messages of cheer were constantly sent to the foundering vessel. Such great speed was made that the Mauretania broke all official records among passenger liners when for a whole hour she maintained a speed of 29 knots.

The previous record was made by the same liner several years ago when she maintained a speed of 27.04 knots for an hour. But that was in fair weather and in her race to the Laleham she was fighting against a heavy sea. It was 10:30 o'clock Wednesday afternoon when a wireless from the Laleham was sent down to Captain Rostron of the Mauretania advising that the freighter was in distress and giving her position. Captain Rostron immediately wirelessed "coming, your assistance, full speed." Distance 100 miles. Speed 21-22 knots. Expect to arrive 1 a.m. He ordered the great ship swung off its course to head for its disabled little comrade of the deep, had state rooms prepared for the men he hoped to save and broth made to feed them.

OTHERS JOIN THE RACE

The Mauretania learned an hour and a half later through an intercepted message that the tanker Shirvan, the George Washington of the United States line and unnamed freighter had also joined the race. The indications were that the Shirvan would be first on the scene by several hours but the others all pushed on so that no chance of a rescue might be lost.

The Laleham sent out another call, saying "please do utmost to arrive before dark," and then the Laleham spoke across the water to the Shirvan asking her if she would stand by when she arrived until the Mauretania got there. The answer from the Shirvan was, "believe me in eight nine miles away. Do you wish to abandon ship and for me to take you off?"

CONDITION GETS ACUTE

This was 5:30 o'clock. The condition of the Laleham had by this time evidently become acute as they almost immediately told the Shirvan "we will abandon ship at once."

The Mauretania wirelessed the Laleham that its crew was abandoning to the Shirvan but added "please come aboard, we will be glad to assist." "We will proceed as long as we can be of assistance," the Mauretania responded and continued to steam on.

At 7:30 o'clock the Mauretania wirelessed the Shirvan that the crew was abandoning to the Shirvan but added "please come aboard, we will be glad to assist." "We will proceed as long as we can be of assistance," the Mauretania responded and continued to steam on.

receiving from moment to moment the record of the rescue. In the first boat from the Shirvan 19 men were taken off the Laleham and the sinking bulk was set after it became a menace to navigation. While she burned the remaining 18 men stood in the glare and waited their turn. In two other boats they were saved. Then the Shirvan announced that it was proceeding to Palmport and no more aid was needed. The three other ships turned back into their scheduled paths. "One man making a good job of it was enough," Captain Rostron said today. "I did not want to seem to butt in on the rescue."

CANADIAN'S WORK IS PLAYED IN PARIS

Musical Composition of Champagne, Montreal Man, Succeeds

PARIS, April 2.—"Hercules and Omphale" the musical work of Claude Adolphe Champagne, the well-known French-Canadian composer, was successfully rendered last night by the Orchestra of the Conservatory. Its reception was highly complimentary to Mr. Champagne.

This was the first time the composition of a Canadian had been accepted by the Conservatory orchestra. Although last year, Rodolphe Mathieu, of Montreal, had his composition played by the equally famous Orchestra Lamoureux.

Mr. Champagne is a Montrealer who studied here under Guillemet, the teacher, the organist of the St. James' Roman Catholic Cathedral. He is at present attached to the Canadian Archives in Paris. He was in Montreal last September with his wife, a Belgian lady.

NEW YORK, April 3.—John King, former national Republican committee man from Connecticut, and who managed the campaign in that state for Theodore Roosevelt, when he ran on the Moose ticket, was indicted yesterday for perjury in swearing to his 1921 income tax returns. He was charged with swearing to a gross income of \$35,000, and a net income of only \$200, whereas testimony before a grand jury indicated he should have paid \$40,000 tax. The government charged that he should have declared an income of over \$100,000.

Headaches

Come from Constipation

Most headaches are due to poisons formed in the waste matter and absorbed by the blood. Slowly but surely these poisons undermine your health. Get rid of constipation and your headaches will disappear.

Constipation is dangerous for anybody. Nujol is safe for everybody. It does not affect the stomach and is not absorbed by the body. Medical authorities approve Nujol because it is so safe, so gentle and so natural in its action.

Nujol makes up for a deficiency of natural lubricant in the intestines. It softens the waste matter and thus permits thorough and regular bowel movements without gripping.

Nujol can be taken for any length of time without ill effects. Unlike laxatives, it does not form a habit and can be discontinued at any time.

LORD DEWAR TALKS ON SCOTS' HUMOR

Says Caledonians Possess Sense in Greater Degree Than Englishmen

LONDON, April 2.—"The natural conceit of Scotsmen is responsible for the general belief that they possess no sense of humor," Lord Dewar said at the dinner of the Royal Automobile Club the other night.

"The Scot loves to hear a story against himself. It appeals to his natural conceit. And in order to hear a laugh at a story about himself he gets into the habit of telling them."

Lord Dewar was explaining the reasons for his devotion to the art of the epigram.

"Scots have a sense of humor," he said, "a greater sense of humor than Englishmen."

"I make epigrams because life is so much brighter with their help. No, they do not need to be practised in one's bath, the best things one says are always said without forethought. There's a funny side to everything, if you only look for it."

The pessimist is a man who is all ways grumbling because he can't find enough gloom. But if you delay as tragically six months it turns into a comedy.

"One can make an epigram about everything. One has but to explore for the humorous side of things. But explore carefully; many a man sets out to leave footprints on the sands of time and only succeeds in leaving fingerprints in Scotland Yard."

"The great thing is to be quick in the uptake—like an evening paper that starts publishing in the morning. Humor does not interfere with business; it helps it!"

BRITISH HOUSE SITS THROUGHOUT NIGHT

Members Eat Breakfasts Hastily and Resume Session

LONDON, April 1.—The House of Commons drowsily convened today after an all-night session, which established an all-time record at least, that both the French and British parliaments sat through the night simultaneously engaged in debating finances.

Members wearily returned to the Commons a few minutes before 11 a.m. after hasty breakfasts in the Commons' restaurant, where the sleepy M. P.'s were served the traditional ham, eggs and deviled marrow-bones, always provided to assuage the discomfort of all-night sittings.

A battalion of waiters and cooks were hurriedly summoned shortly after dawn, when the Commons committee realized that a record number of M. P.'s had remained throughout the night. Usually not more than 30 sit through the dark hours, but right up to the recess at 9:30 a.m., there were never less than 100 members present.

GREAT ILLITERACY CRUSADE PLANNED THROUGHOUT U. S.

5,000,000 Adults in Republic Have Missed School, is Estimate

CONDITIONS TERMED NATIONAL DISGRACE

New York City Alone Has Enough Non-Educated For Town Like Denver

WASHINGTON, April 2.—The Federal census takers of 1930 would be unable to discover any illiterates in the United States, if the National Illiteracy Crusade, just organized here, had its way. Captain William Allen White, the Kansas editor, the crusade plans to co-ordinate the activities of several organizations that have been seeking to stamp out illiteracy.

Mr. Cora Wilson Stewart, national director of the group, who is in charge of the newly-opened headquarters here, and who has been active in educational work in the south, disclosed these findings:

ILLITERATES IN CITIES.
There are 10,000 who cannot read or write in the city of Washington. Philadelphia has nearly 60,000 illiterates.

New York City has enough to make a city the size of Denver. Pennsylvania has enough to populate two states the size of Wyoming.

Ohio has more native born white illiterates than has the state of Mississippi.

There are many counties in the United States where 25 to 30 per cent. of the people are unable to read or write and some counties where 40 to 50 per cent. are illiterate.

5,000,000 SCHOOLLESS.
Five million men and women in this country have completely missed school. The lead pencil business would be increased \$3,000,000 annually, by the wiping out of illiteracy.

More can be done during the next five years in eliminating illiteracy than has been done in any 50 years before, said Mrs. Stewart. "Many states and communities are now waging a war against illiteracy, and they are determined to win."

The Federal census takers of 1930 shall not find one in their neighborhood who cannot read or write. They feel that illiteracy is a disgrace.

SCHOOLS REQUIRE AID.

The slow processes of the public and private schools cannot cope unaided with illiteracy. These schools have done their best but 5,000,000 men and women in the United States have missed them, and must now be campaigned into schools. Our program is to put the light into every section of the United States. We will help where existing organizations or the school authorities are attacking adult illiteracy and where the campaign has not penetrated, we shall aid the local and state forces to organize. We shall also organize work in the prisons and in addition make a "vigorous campaign among the Indians."

CANADA BARS MORE U. S. PUBLICATIONS

Young Fish Reported to Be Perfectly Healthy, According To Sir Thos. Gratton Esmond

Successful Process Carried Out in Zoological Gardens—Overseas Allotments From Canada Have Produced Good Results, is Word Received Here

OVERSEAS shipments of salmon and trout eggs going from Canada across the Atlantic and across the Pacific, and coming to Canada from Scotland, have been made with most remarkable success this year, it was said yesterday by J. Catt, Maritime inspector of fisheries for the Federal Department of Marine and Fisheries.

A shipment of 25,000 landlocked salmon eggs obtained from Chamcook Lake salmon in Charlotte county and incubated at the Saint John hatchery until sufficiently developed to ensure safe transportation, was sent to Dublin, Sir Thomas Gratton Esmond having interested himself in the matter and arranged for the eggs being secured.

LETTER FROM SIR THOMAS

Mr. Catt has recently received from Sir Thomas the following letter: "With reference to your landlocked salmon ova, you will be glad to hear that they have safely reached Dublin. They arrived on March 2 and were immediately transferred to the hatchery in the zoological gardens. The loss in transport was very small. The number of dead eggs hardly exceeded one per cent. Yesterday I took occasion to visit the zoological gardens and saw the eggs now in process of hatching out. You will be pleased to hear they are hatching out most satisfactorily. It was one of the most complete hatching out I have ever seen and the alevins (the young fish) appeared to be perfectly healthy."

"Altogether the experiment promises to be most successful and I shall keep in touch with you as regards future developments. The eggs were magnificently packed, hence the perfect transport."

IMPROVED METHODS USED.
The use of improved methods has been responsible for the successful transport of the salmon eggs, it was said yesterday by Mr. Catt. The eggs are placed in insulated boxes which are kept at a temperature of 35 to 40 degrees and placed in a special room on the ship. Fresh water is poured into the boxes each day.

The percentage of dead eggs in the Dublin shipment is considered remarkably small, even for present day methods.

from these lakes each year. When they were received in Japan and opened up they proved to be in the best condition of any shipment yet received.

Recently, Mr. Catt said, the department had received 20,000 brown trout eggs from a pure strain of selected brood fish. These eggs were obtained in Scotland and are now being hatched at the Saint John hatchery to form a nucleus of the brood stock of this species held here.

The eggs are of the best possible quality and are far larger than those usually produced by this species. In size they compare with the largest salmon eggs. Mr. Catt said that these eggs should make very fine fish.

It is the practice in the big commercial hatcheries in Scotland and England to select the older fish as those which will produce the best stock and older fish yield larger eggs. The resultant stock has been proved to be more valuable than that from the smaller ova of very young fish.

GOOD YIELD
The lakes in which the speckled trout were planted have yielded well and the Marine and Fisheries Department is now obtaining large quantities of eggs.

BUSY TIME HERE
Now is one of the busiest times at the Saint John hatcheries, as the trout eggs are in process of hatching and the salmon will be hatching later. With the exception of the rainbow trout, which spawns in the spring, the fish eggs are all obtained in the fall and they have been incubated throughout the winter months.

The stock in the Saint John hatcheries, apart from the adult fish, consists of the following eggs: Speckled trout, 816,000; Loch Leven trout, 72,000; brown trout, 275,000; salmon trout, a hybrid variety obtained from brown trout females fertilized from Atlantic salmon males, 1,000; Atlantic salmon, 1,211,000, and landlocked salmon, 1,211,000, and landlocked salmon, 1,211,000, and landlocked salmon, 1,211,000.

HE DEFIES CONSTIPATION!

J. H. Nichols of Winnipeg ready to carry ALL-BRAN in his baggage to Britain, if necessary.

When a Canadian going abroad is ready to carry in his baggage a sufficient supply of Kellogg's ALL-BRAN to cover his needs during his journey, he is indeed an enthusiastic booster for that product. Yet that is what was contemplated by Mr. J. H. Nichols, of Winnipeg, who wrote to ask if ALL-BRAN could be secured in Liverpool. If not, he would carry his stock with him.

His letter stated that if he had to choose between One Million Dollars and ALL-BRAN he would choose the latter. He would rather be "much" rather than "million."

Mr. Nichols realized that Kellogg's ALL-BRAN is the original ALL-BRAN—and a necessity in the permanent relief of constipation.

Kellogg's ALL-BRAN is guaranteed to bring relief in the most chronic case of constipation—permanent relief, if eaten regularly. Only ALL-BRAN can bring such 100 percent results. Eat at least two tablespoons daily in chronic cases, use it with every meal. If relief does not follow, your money will be refunded.

GERMANY TO TAKE ENORMOUS WEALTH OF HOHENZOLLERNS

Will Leave Family Private Property, But Retain Public Holdings

BERLIN, April 2.—The House of Hohenzollern is astounded at the unexpected turn of the expatriation question. Dr. Luther, the German Chancellor, persuaded his Democratic colleagues in the Government to turn their backs on the Socialist referendum and agree to a compromise, which while leaving the Hohenzollerns in possession of their private property, will strip them of the enormous wealth which they had hoped to regain from the Republic.

Under the new arrangement the property of the Hohenzollerns and the other ruling houses will be divided into three categories. The first includes property that was acquired by the former rulers by virtue of their official position. That is to revert to the State.

Ask Your Wife to pass on this Studebaker Big Six Sedan
—now \$3180.00
Delivered in Saint John Fully Equipped.

Studebaker Big Six is the fastest-selling high-powered car in the world

YOU will appreciate the Big Six Sedan because it has all the power, speed, stamina and long life that a man could desire in a motor car.

Your wife and her friends will be delighted with the individuality of the Big Six—the sheer richness of genuine mohair—the refinements that exacting women love—the luxurious comfort.

Sixteen months ago, the Big Six Sedan sold at \$4,315, but since then, One-Profits savings have been passed on to purchasers in three price reductions. As a result the 7-passenger Sedan now sells at \$3,645, the 5-passenger at \$3,450, and the Big Six is outstanding every other car in the world of equal or greater rated horsepower.

Studebaker's unique facilities
Few motor car "manufacturers" have foundries, forges, etc., to make their own engines—yet one-fifth of the cost of an automobile is in the engine. Even fewer build their own bodies—yet one-third the cost of a car is in the body.

Not only does Studebaker make all bodies and all engines used in Studebaker cars, but also all clutches, gear sets, springs, differentials, steering gears, brakes, axles, gray-iron castings and drop forgings. Only Ford in the low-price field and Studebaker in the fine-car field enjoy the benefits of such complete manufacturing facilities.

One-Profits value
These facilities enable Studebaker to manufacture quality cars on a One-Profits basis. They enable Studebaker to eliminate the profits of outside parts and body makers. Many major savings are thus effected and passed on to the ultimate buyers of Studebaker cars in the form of higher quality at a lower price.

Unit-Built construction
Studebaker facilities result, too, in Unit-Built construction—in cars designed, engineered and built as units. The hundreds of parts used in a Studebaker car function together as a unit, resulting in longer life, greater riding comfort and higher resale value. Scores of thousands of miles of excess transportation thus are built into Studebaker cars.

Always kept up-to-date
Because all phases of manufacture are directly under Studebaker control, Studebaker cars are constantly kept up-to-date. We add improvements regardless of the calendar—we do not save them up for spectacular annual announcements which make cars artificially obsolete. Resale values are thus stabilized.

Studebaker Big Six Sedan For Five Passengers

DISCOVERY OF SILVER ORE SAID TO BE MADE FEW MILES FROM CITY

Harold A. Murphy Finds Deposit on Family Lands Near Coldbrook—Geological Survey Sends Favorable Report on Specimens Submitted to Ottawa

AN IMPORTANT discovery of high grade silver ore has been made near Coldbrook and steps are being taken to investigate the extent of the deposit. The discovery was made about a month ago by Harold A. Murphy.

Mr. Murphy declined to state the exact location of his find but said that it was on land belonging to the family. He made no announcement of the discovery until yesterday when word arrived from Ottawa that samples of the ore had been assayed and found to be of excellent quality.

Mr. Murphy was out for a snowshoe tramp about the first of March and was passing through a rocky, unworked section, when he saw the sun's rays reflected from a rocky shelf. He investigated and found a yellowish white gleaming substance which he thought at first was iron pyrites or "fool's gold."

He knocked off a large chunk with a small axe, which he carried in his belt, and found the inside of the rock fragment to be a mass of glittering particles. The ore was a wide seam of considerable extent. Of just what proportions the deposit is has not yet been determined.

Mr. Murphy secured some dynamite and blew out the small opening he had formed and found that the metal-bearing ore was a wide seam of considerable extent. Of just what proportions the deposit is has not yet been determined.

At his suggestion a piece of the ore to six inches in diameter, was sent to the Geological Survey of the Department of Lands and Mines at Ottawa, where it was analyzed and assayed.

The report of the department has been received from W. H. Collins, director of the geological survey, and states that the ore is rich in native silver, with which are associated smaller portions of sulphate of copper and iron and a little calcite.

WHAT REPORT SAYS. The report states that if the ore is of considerable quantity the find is one of commercial importance and that even if the deposit is small it is important as indicative that there may be larger deposits in the vicinity. The department requested to be notified of developments. A larger and richer specimen has since been sent to Ottawa.

Dr. MacIntosh, speaking of the locality in which the discovery was made, said that its characteristics were identical with regions where large silver deposits existed.

TO INVESTIGATE FULLY. Mr. Murphy is taking steps to secure a mining license and will investigate the extent of the seam fully. If his propositions warrant, steps will be taken for its commercial development.

FREIGHT INDEX IS REPORTED LOWER

Shipping Freight For February Shows Decrease of 8.12 Per Cent.

The index number of shipping freights for February, prepared by the Chamber of Shipping, shows, at 22.98, a decrease of 8.12 per cent, compared with January, and of 20.13 per cent as compared with the corresponding figure 12 months ago.

The present decline follows a decrease of 2.20 per cent over the figure for January. With the exception of July last, when the minimum value for 1925 was recorded, the index number for February is 8.75 per cent lower than that for February of last year.

RUSSIA'S WOMAN BANDIT CAPTURED

Is Murderess and Robber of Many; Escapes Firing Squad

SVERDLOVSK, Ekaterinburg, April 2.—Catherine Planovsky, Russia's only woman bandit, has a record of having murdered and robbed dozens of victims, again in the toils. The public prosecutor alleges that her exploits have covered a long period of years.

In 1921 "Catherine the Terrible," as she is known, was sentenced to death at Chita for murder and was taken from prison to be shot. When the firing squad discharged their rifles the woman fell to the ground and feigned death.

OTTAWA, April 2.—Mrs. James Cowan, pioneer of Carleton county, today celebrated her hundredth birthday.

Mrs. Cowan is one of Canada's pioneer English stock and still remains a wonderfully keen mind. Asked if she believed in the old adage "early to bed and early to rise makes a girl healthy, well and wise," Mrs. Cowan stated that she could not say that she did, as she had never practiced it.

Mrs. Cowan is fond of hymns and the Bible, a book she says that never grows old. Rising every morning at 6 o'clock, she is still active at housework.

QUEEN OF NORWAY ARRIVES IN LONDON

Met at Station by King George Who Waited 40 Minutes For Train

LONDON, April 2.—Queen Maud of Norway came to London last night to visit her sister, Princess Victoria. She was accompanied by her son, Crown Prince Olaf. King George waited forty minutes in the big crowd at the King's Cross Station for the train Queen Maud was traveling on, which was delayed on the trip from Newcastle.

No preparations had been made at the station for the coming of King George and Queen Maud. The police started to clear a space on the crowded platform for The King. The monarch, however, would not allow the crowds to be interfered with. The people recognized King George, and when they learned the purpose of his presence at the station kept a sympathetic silence.

20 KILLED, 150 HURT IN CALCUTTA FIGHT

Estimated Losses When Hindu Sect and Moslems Meet Near Mosque

LONDON, April 2.—A furious fight took place in Calcutta, India, today between Hindu sect and Moslems, and according to one estimate, 20 persons were killed and 150 injured.

The Calcutta correspondent of the Exchange Telegraph Company says that the riot began with the approach of a mosque in the northern part of the city of a procession with music, led by the Arya Samaj sect of Hindus, enemies of the Moslems.

Fighting developed when the Moslems tried to bar the way, the trouble soon spreading to the mosque. Deputy Police Commissioner Bartley and a European, Sergeant Davis, who went to the commissioner's assistance, were slightly hurt.

The correspondent says that the scene of the fighting tonight had the appearance of a deserted city. Police patrolled the streets and all the shops remained closed.

Are Employes in Income Tax Branch and Raises Are Retroactive

OTTAWA, April 2.—Approximately 800 employes of the income tax branch of the Department of Customs and Excise will benefit by increases in salary totalling \$80,000, which have been authorized.

The increases, for which funds were voted last session, have been made retroactive to April 1, 1925.

All the increases are to be given to those whose present salaries are less than \$2,400.

BUST OF CAPT. FRIED

Work Was Done by Boston Sculptors on the Ocean

LONDON, March 31.—Mrs. Edna Spencer, a Boston sculptress, has completed what is believed to be the first piece of sculpture ever made on the ocean liner—a bust of Captain Fried.

The bust, which is made of bronze, was started during the crossing, succeeding that on which the Roosevelt's crew rescued the steamer Antioch in the Atlantic.

Although Captain Fried was able to sit for the portrait only one or two moments, Mrs. Spencer achieved a remarkable likeness. The bust will be cast in bronze and, following its exhibition at the spring salon in Paris, will be presented to Captain Fried.

A water color by Charles Dixon commemorating the Roosevelt's exploit is on exhibition here at the Royal Institute, which is attracting much attention, and is attracting much attention.

SCHAEFER EXTENDS LEAD OVER HOPPE

Wins Block 300 to 35 in Four Innings in Billiard Contest

NEW YORK, April 2.—Jake Schaefer increased his lead over the champion, Willie Hoppe, in their 3,000-point, walk line billiard life match by winning tonight's block 300 to 35, running out in four innings.

With only two blocks to be played tomorrow, it appears that Hoppe has lost his last crown, and once upon a time he held them all. Schaefer ran 145 at the start of tonight's block, while Hoppe could make only one in the same inning. The champion's high run was 24.

Pair Clash in Mountain Recess of California With Gun and Rifle

SANTA MONICA, Cal., April 2.—A strange duel was staged today in Topanga Canyon, where two men, both past middle age, faced each other with shot gun and rifle, one dying and the other receiving probably a mortal wound.

Arthur Wenzel, real estate man of some means, who came here from New York some time ago, was killed, and R. K. Roselle, owner of a natural passageway from the beach of the San Fernando Valley, was seriously wounded.

The shooting followed a visit to the canyon early today of Wenzel and his son, Howard, in search of Mrs. Wenzel.

1,000 ON ROLL OF N. B. TEACHERS' ASSOCIATION

Annual Meeting Held In Moncton; Salary Schedule Is Revised

VOCATION TEACHERS SEEK PENSION PLAN

Biennial Session To Meet At Fredericton In June, Decided Upon

MONCTON, April 2—The annual meeting of the executive of the New Brunswick Teachers' Association was held here today with Dr. George J. Oulton presiding. Reports submitted show nearly 1,000 fully paid-up members, liv-

ing status of these from graded schools. Motions advocating inclusion of vocational teachers within terms of pension act and for the inclusion of school garden grants in the amount of salary on which pension is to be calculated were adopted. A vigorous publicity campaign to complete enrollment of rural teachers was planned.

Conditions in the various counties and cities were reported upon and the salary schedule revised, a few changes being made to balance it.

BIENNIAL SESSION IN JUNE

It was decided to hold the biennial session of the association in Fredericton at the time of the Provincial Teachers' Institute at the end of June, when revisions of the constitution and also affiliation with the Canadian Teachers' Federation will be proposed and discussed.

Recent amendments passed to the Teachers' Pension Act were accepted. It was resolved to recommend to the biennial meeting that retired teachers having been members be retained as honorary members. The constitution will be revised to provide for a salary schedule for vocational teachers.

SUSSEX MATTER

Mr. Freese, school secretary, Sussex, was heard relative to salaries of Sussex teachers and Dr. Oulton, the secretary, and Principal Harrington were appointed a committee to meet the Sussex trustees in the matter on April 17.

THOSE PRESENT

Members in attendance today were: Dr. George J. Oulton, president; Charles D. Dickson, vice-president; Principal Barker, Moncton; C. E. Wetmore, secretary, Hallowell; Alonzo H. Siles, Riverside; Miss Agnes Ferguson, Richibucto; G. Hugh Harrison, Chatham; H. P. G. Bridges, Campbellton; Harry F. Gilmore, Edmundston; R. Stirling Wood, McAdam; H. H. Sturt, Fredericton Junction; Otto V. Miller, Fredericton; L. S. Baldwin, St. George; I. Newton Fanjoy, Fairville; Joseph Harrington, Saint John; A. D. Josiah, Sackville.

I. N. Fanjoy and O. V. Miller were selected auditors. The executive will meet in Fredericton on June 28. A message of condolence was ordered sent relatives of the late Miss Fraser, vice-president, deceased since last meeting.

Death Sentences Passed on Czarist Officers By Court in Russia

KHARKOV, Russia, April 3—Two former Czarist officers named Biriherovskiy and Sholinsky, who fought in the armies of General Denikine, were sentenced to death charged with having beaten to death 60 peasants with rifle rods, during the Denikine campaign in South Russia, in 1919-20. Two former Czarist police officers accused of having tortured and hanged Red soldiers and peasants also were condemned to death.

TURKEY PREPARES

Fifty-one Per Cent. of Budget Reserved For National Defense

CONSTANTINOPLE, April 3—Fifty-one per cent., or approximately \$700,000, of Turkey's budget for 1926 will be spent on national defence. The greatest activity is being displayed in this arm of the republic's public service. Guns, ammunition and aeroplanes are being imported and everything is being done to put the country's defences in a high state of preparation.

Discussing the state of the army, Redjeb Bey, Minister of War, said: "Our army is working continually, and is on a full campaign footing. From points of view the present Turkish army represents the strongest arm of the country."

OFFICIAL JAILED

Deputy Returning Officer Gets Five Years Prison Term For Irregularities

OTTAWA, Ont., April 3—D. M. Kennedy, Progressive member of the House of Commons, has no present intention of resigning in response to the remarks of Mr. Justice Walsh in Edmonton Thursday, at the trial of Deputy Returning Officer P. A. Robb, who was sentenced to five years in the penitentiary for irregularities at the

last federal election. In a special interview to the Ottawa Citizen last night Mr. Kennedy denies any intention to resign.

Judge Walsh intimated in his charge to the jury that the Conservative candidate had been deprived of his seat through these irregularities and Conservative members in Ottawa claim that Mr. Kennedy has no moral right to the seat.

OTHER CONSIDERATIONS.

Mr. Kennedy pointed out that there are other aspects of the election in Peace River constituency, which were not involved in the Robb trial which only referred to irregularities at the Brule poll. Mr. Kennedy stated that the failure to open three polls in Ronan, Padstow and Salm, disfranchised 275 voters in a district known to be 90 per cent. in his favor.

PHANTOM CAR SEEN APPEAR AND FADE ON ROAD IN BRITAIN

Solicitor Tells About Losing Sight of Auto as He Drew Aboard

WIFE ALSO NOTICES MYSTERY VEHICLE

LONDON, April 2—A phantom motor-car has been seen in the "Dead Man's Land," a lonely stretch of the Great West Road, near Brentford, and then slowly to fade away and vanish.

It was at this spot, only a month ago, that a motorist reported that he had been stopped on the road on a dark, rainy night by a ghostly white object, which floated towards him through the air.

SCENE OF BATTLE.

"Dead Man's Land," was the scene of the Battle of Brentford, and the bodies of the slain were buried here. On either side of the road are a plague pit and the red barn, in which Maria Martin was murdered.

The appearance of the phantom motor-car was described by a distinguished solicitor, who declares that he is no psychic, and that the account of the adventure is best given in his own words:

"I had reached Maidenhead on my way back to London after a day's motoring," he said, "when I was delayed by a small breakdown of my car. At 6 o'clock in the evening when it was already dark, I left by the Great West Road."

"When I had gone about a mile past Hounslow, down the New Road, I saw in front of me a dark object which I took at first to be a break down. As I drew nearer, however, I saw that it was a small motor-car, moving towards London along the side of the road close to the curb."

"It was travelling at about 25 miles an hour, and I was going a little faster. When I got close to it I saw that the car was swerving slightly and sounded my horn three times. As I drew abreast I entirely lost sight of the car. My wife, who was beside me, also saw the mystery car, and when it vanished she exclaimed with astonishment, 'It has gone!'"

"She told me that she had seen the phantom car fade slowly away to nothing like an image on the screen."

"At the moment of the car's disappearance, I looked around and nowhere, either in front of me or behind, was it to be seen."

"It occurred to me afterwards that it might possibly have turned suddenly down a side road; but this, I think, would have been impossible owing to the speed at which it was travelling."

MAGNESIA BEST FOR YOUR INDIGESTION

Warns Against Doping Stomach With Artificial Digestants

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion, have now discontinued disagreeable diets, patent food and the use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead, following the advice so often given in these columns, take a teaspoonful or two of Bismarck Magnesia in a little water after meals with the result that their stomach no longer troubles them, they are able to eat as they please and they enjoy much better health. Those who use Bismarck Magnesia never dread the approach of meal time because they know this wonderful anti-acid and food corrector, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or discomfort, try this plan yourself, but be certain to get pure Bismarck Magnesia especially prepared for stomach use.

"Boiling Over" means nothing to SPEEDIRON

IN the days of old-fashioned "open" elements, boiling over was a serious matter. Liquids dripping over the sides of the cooking pot and into the exposed wires and grooves frequently caused coils to burn out—a source of much inconvenience and expense.

NOW all that is changed. McClary's wonderful, new Speediron element enables you to cook with your mind at complete ease because you know nothing can injure the element. Your preserves, your soups, your kettle—they may boil over a dozen or a hundred times without doing the slightest damage. The coils in McClary's Speediron are protected by a smooth, cast-iron surface—a surface so durable that hard knocks, falling pots, leaks and drips cannot possibly harm it.

Lasts as Long as the Range Itself

That's the amazing thing about McClary's Speediron. It lasts for years and years. And you have a range that cooks at great speed and saves current. The contact heat principle on which the Speediron operates eliminates waste by radiation—the heat goes into the pot, not into the kitchen. This means increased speed and exceptional economy.

Will You Have an Indian Summer?

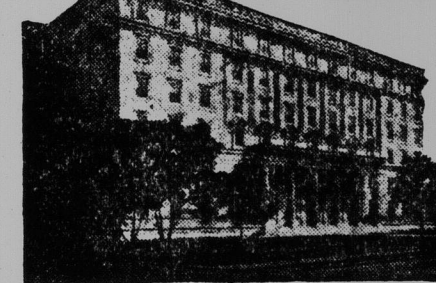

At 60 or 65 you will be entering upon the "Indian Summer" of life.

Whether you wish it or not you will be compelled to let go as younger men will be crowding for your place. Will you have laid by sufficient at that age to provide for your needs? Will you be able to have a "little cottage in the country," to read, write, golf, travel or fish?

There is no surer way of providing for this than by a Manufacturers Life Endowment Policy.

You can begin now to save towards the time when you must retire. Fill out the coupon and we will send you all the facts.

STOCK PRICES GO UPWARD IN WALL STREET

Reports of Merger Negotiations Stimulates Buying of Oil Shares

TRADING LIGHT AT MONTREAL OPENING

Brompton, Laurentide and Brazilian Traction Are Inactive Issues

Canadian Press
NEW YORK, April 3—Stock prices pointed upward at the opening of today's market. Buying of the oil was stimulated by reports of merger negotiations between the Texas Company and the California Petroleum Company, but the initial gains were largely fractional.

IN MONTREAL
MONTREAL, April 3—Trading was light with few price changes at the opening of the Montreal Stock Exchange this morning, the least inactive stocks being Brompton, up one at 34; Laurentide, up one at 55; and Brazilian, up a half at 83 1/2.

Other price changes were Bell Telephone ex-dividend, a small lot of which sold at 12 1/2, down 2 1/2; British Empire Steel first preferred, up one at 28; Twin City, up one at 71; and Canada Cement down a quarter at 104 1/2. Bank of Nova Scotia and National Breweries appeared unchanged at 25 and 25 1/2 respectively.

Current Events

NEW YORK, April 3—Phillips Petroleum Corp. reported a record profit for the first quarter of 1926.

Major Thomas E. Powers came down from Fredericton at 10 p.m. and has returned from the South.

Brokers' Opinions

NEW YORK, April 3—"It is true that the market strength in the next few days there will undoubtedly be selling for stocks which have been brought in by the decline, but against this we think there is going to be a general realization of the sound trade and business conditions which exist throughout the country."

Household—While we believe the rally will last for better than a 10 day period, stocks that have been weakly held should be sold on any further broad advance.

We expect reactions in the immediate future will meet with strong enough buying to maintain the general trend toward higher levels between now and the middle of April.

Psychology—Further strength in the market will cause more short covering and the upward move may go much further before we witness another reaction.

Are Now Making Attempt On World's Biggest Salvage Feat

Battle Cruiser Hindenburg to Be Raised by New Method; Pumping Out Water; Believe Vessel Will Then Rise to Surface Automatically

LONDON (By Mail)—Scapa Flow will be the scene this summer of the biggest salvage feat ever attempted, when the battle-cruiser Hindenburg—sunk in the scuttling of the German fleet six years ago—is to be refloated.

Twenty-one of the smaller vessels have been raised already by means of floating docks and wires; but the Hindenburg, which has a displacement of 27,000 tons, is too unwieldy. The water, therefore, is to be pumped out of her, so that she may automatically rise to the surface.

"She lies on an even keel," said Mr. Cox, of Messrs. Cox and Danks, Ltd., the contractors, "with practically only her super-structure showing. Our main difficulty will be to stop up all the port-holes and the eight sea-cocks under the engine-room, by the opening of which she was sunk, and thus prevent the inflowing of the water.

"Steel patches or concrete will be placed over the holes, and when this is completed she will be pumped out from the top. There will be 40 pumps operating, and we expect that, going at full pressure, they will empty her in 12 hours, having removed from 50,000 to 60,000 tons of water.

"We calculate that the whole operation will occupy about six months. The four floating docks were moved into position round the Hindenburg on March 1, and will serve as working platforms for the divers and men engaged in the task.

"Twelve divers will be constantly at work, and they have already made a preliminary survey of the hull, which is lying in sand and shingle, covered with barnacles and thick seaweed.

"Part of their task will be to tunnel under the wreck in order to facilitate the patching of the sea-cocks, which are 24 inches in diameter. They will use shovels, and have compressed air scrapers for cleaning the ship's bottom."

If this operation is successful the firm anticipates that it will be possible to raise the remaining big ships by the same means at the rate of two a summer; but with the exception of the Hindenburg, which remained upright owing to the comparative shallowness of the water, the others are tilted over The Hindenburg will be beached and broken up into scrap.

5 Days' Trial on any Used Car

No more guesswork—all risk is eliminated under the Studebaker Used Car Pledge

UNDER our "Studebaker Pledge," we give you 5 days' trial on any used car. 5 days in which to drive it—to have your friends examine it—to put it through any test you wish. And then, if you're not 100% satisfied, bring it back and apply the money paid as a credit on the purchase of any other car in stock—new or used.

We Give You Facts

This proves we are ready to back up every word we tell you about any of our used cars. Our policy is to give you the facts—plain facts, without any coloring. We tell you the age, mileage, mechanical condition. If a car is suitable only for a mechanic, we say so. Each car is offered for what it is worth—and the 5 days' trial enables you to check up.

The price on every used car we offer is plainly marked—and we keep to that price. Our rule is "one price—the marked price—the same price to all."

Certified Studebaker Used Cars

We offer a 30 days' guarantee to replace defective parts and make free adjustments on all Studebaker Certified Used Cars. This is possible because of the tremendous reserve mileage built into every Studebaker. And every Certified Studebaker has been thoroughly reconditioned.

Come in and look over our display of used cars. We have a splendid selection—many unusual bargains.

Remember: Five Days' Trial to insure satisfaction.

This is only a partial list of some of the exceptional used car values we offer

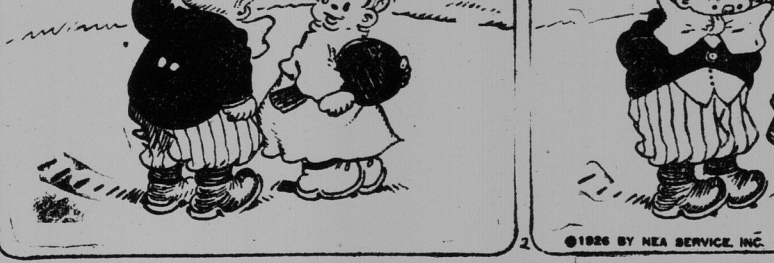

Ford 1924 Touring, good running condition, paint good; completely overhauled, ready for the road—\$350.	McLaughlin Touring Master Six 1923, excellent condition, newly painted, upholstery good, 5 good tires; a real opportunity—\$650.	Studebaker Special Six 1923 Touring, mechanically sound, six good tires; a real buy at \$775.
Dodge Touring, good condition, 5 good tires, a car that is well worth its price—\$475.	Chevrolet 1924 Sedan, early model; tires good, thoroughly overhauled and in good running order, equipped with automatic wipers, rear view mirror, bumper, chains, spare tire. Ready for the road, \$75.	Chevrolet 1923 Superior Touring, newly painted, good tires, thoroughly re-conditioned and in first class shape. Splendid appearance; a real snap at \$485.

WILL BE FIFTY YEARS MARRIED ON NEXT MONDAY Mr. and Mrs. J. S. Flaglor Observe Golden Wedding Anniversary

BOTH PROMINENT IN LIFE OF CITY Former Postmaster and Wife Active in Church and Community Circles

Mr. and Mrs. James S. Flaglor, 225 Princess street, will on next Monday April 5, celebrate their golden wedding anniversary.

THE WEDDING PARTY Mr. and Mrs. Flaglor were united in marriage by the Rev. Howard Sprague in Germain street Methodist church the year before the great St. John fire.

POSTAL LIFE Few Saint John married couples have fitted into the routine of active citizenship usefully or with more grace than Mr. and Mrs. Flaglor.

IN CHRISTIAN CHURCH Soon after their marriage, Mr. and Mrs. Flaglor identified themselves with the Episcopal church for the community.

MRS. FLAGLOR Mrs. Flaglor, a lady of culture and executive ability has been a member of the Women's Missionary Society of Coburg street church and of the Women's United Society of the city at large for many years.

MR. FLAGLOR Mr. Flaglor, besides his postal duties, has led an active life among his fellow-citizens, sharing public activities and adding his quota to many worthwhile efforts.

HAPPY AND WELL Both bride and groom of 1876 are healthy and happy, though Mrs. Flaglor suffered a very serious illness a few years ago.

Crossing Still On Kennebecasis Ice Word reached the city today that this morning the ice was two feet thick in the Kennebecasis river at Ferry's Point and that people were still crossing on the ice bridge.

I sot in a house here today an' heard a feller in a newspaper office holler out the noos up to noos. I heard a hull lot o' music by an orchestra—then a gal singin'—then a gal tellin' stories to a hull lot o' other things. Then I heard a Scotch preacher givin' a noon sermon to men— I tell you he didn't make no bones about tellin' them there hard-billed fellers what he thought. When he got that wanted to git back into the fold an' then them that he'd been in it but wanted to—anybody else that felt the promp'in' o' the spirit —to stand up, while another feller prayin' for 'em all. I judge by the ad voice he hed when he ast the brother to pray that they wasn't any great amount received last month was \$31,818.41 and for March of 1925 it was \$31,951.41.
