Milk 12 Cents Retail Monday, Say 2 Dealers, At City Hall

FRANCE AND BRITAIN TO PUSH REDS

DEALERS CALL ON COUNCIL AND CUT IS ANNOUNCED

Advocate for St. John County Men Gets After Regulations.

NEW HEALTH BOARD

E. P. Raymond Scores Pasturization Enforcement at Meeting of Interest.

Beginning Monday morning, the citizens of St. John will be able to buy milk at 12 cents a quart, retail. This announcement was made this morning at a conference between the milk dealers and members of the Common Council by A. L. Stern, representing the Purity company, and F. J. Donegani, representing the Pacific Dairies. They said they would bring the price down to that figure. Mr. Donegani said it was not a price at which they could sell and make a profit, but as Mr. Stern had said they were willing to sell at that figure, his company would follow suit.

U. P. Raymond, who represented the milk producers of St. John county, made an impassioned attack on the compulsory pasturization regulation and advocated the appointment of a new Board of Health which would rescind this law, and stated if this were done the producers would sell to the consumer at 12 cents a quart. Mr. Stern also said that his company were prepared to offer the farmers of St. John the same price for their milk as was paid the Kings county farmers, and they would send trucks out to collect the milk.

Mayor Opens Meeting. The meeting was called to order by Mayor Potts who expressed his pleasure at seeing so many of the milk dealers present to discuss the matter of a reduction in the price of milk. He asked Mr. Raymond if he had anything to say for the St. John county producers, as he understood he was representing them. Mr. Raymond said he would prefer to hear some of the city men first.

His Worship then called on A. L. Stern, manager of the Purity Company. Mr. Stern said the matter under discussion was a very serious one and they would like to have the conference postponed until Tuesday when a meeting of the board of directors would be held to arrive at their stand in the matter. Commissioner Harding asked if the dealers had not some answer to the announcement of His Worship that milk had to be pasturized within 10 days or the council would act. His Worship said if something was not done, the council would go ahead with their plans. He then called on Charles Huggard.

Old-Time Prices. Mr. Huggard said he had been in the business for more than 50 years, and today there was no money in it, but by making a slave of himself he had managed to stay in business. The Mayor asked what Mr. Huggard had paid for milk when he sold it at six cents a quart. Mr. Huggard replied that he did not remember.

In answer to a question as to what he paid today, Mr. Huggard replied seven cents per quart. His Worship asked if the price paid the farmer when milk sold for six cents a quart was not 20 cents a can, but Mr. Huggard could not recall.

His Worship said they made money then and he could not see why they were not making it today at 15 cents a quart. Mr. Huggard said he was getting 15 cents for a very small part of the milk he handled.

Pasteurization Matter. Mr. Raymond, acting for the country producers, said that viewing the situation as it had existed since May 1 last he thought it would be a good thing if the Mayor did act, and he was authorized to say for the county men that, if the council would have the regulation compelling compulsory pasteurization abolished, they would at once bring the price down to 12 cents a quart. He contended that the City Council, holding as they did the balance of power in the municipal council, could appoint seven of the nine members of the Board of Health, and it was this body which had put this regulation into force, and have it repealed. He

Crossword Puzzle Is Sent by Radio

NEW YORK, Dec. 6.—United Press—A further distressing puzzle-wracked brains of the American public, the London Daily News, has sent by photo-radiogram a crossword puzzle direct from London. The diagram was transmitted by photo-radiogram Friday while the numbers in the crossword were sent by regular radiogram. The solution of the English puzzle will be transmitted Monday night.

MONT LAURIER HAS PROMINENT PEOPLE

Liner Brings News of Interest—British Cabinet Men May Come.

The palatial Canadian Pacific steamship Mont Laurier reached port this morning from Liverpool, carrying 1000 and 106 third class passengers, in addition to 1,500 tons of general cargo. Among her cabin passengers were prominent people, the majority of whom had been abroad on business and pleasure. Among them was Sir Michael Oppenheimer of London, England, who is en route to Los Angeles to spend a few months; Lieut.-Col. B. C. Hooper of Hamilton, Ont.; Joseph Dyk, a barrister of Winnipeg, who went to Poland as a special Canadian Government representative from the Department of Immigration; F. A. Starkey of Nelson, B. C., who is a commissioner to the Associated Boards of Trade in the Eastern British Columbia; Joe Lee of London, Eng., a famous "globe trotter"; C. A. Clark and wife of Montreal; A. H. Deane and wife of London, Eng.; C. Simpson and Dr. Montgomery of Glasgow, Scotland; Miss Lee Crowther of Toronto.

Ypres Rebuilt.

Colonel Hooper had been in London, France and Belgium, partly on business and partly on pleasure. He visited the cemeteries where the Canadian heroes are buried and found them in excellent condition. Good progress was also being made with the monuments. Reconstruction in Belgium, he said, was astounding. Ypres has been practically rebuilt along the lines of the pre-war days and if anything is better from an architectural standpoint. The magnificent cathedral, which was demolished, is being rebuilt. There is a marked determination, he said, on the part of the people to rehabilitate their city.

In France, he said, the progress was marked although the French people were striving hard to recover from the effects of the war. Living conditions were considerably cheaper with the exception of the hotels, whose business it was to cater to foreigners. Colonel Hooper said it was expected that by next spring there will be a great increase in trade with Germany.

May Visit Canada.

E. W. Grange of Ottawa, Reuter's correspondent for Canada, is returning to the capital with his wife. He had been in England and Scotland on a visit and while in the former he had luncheon with Colonel Amory, the new colonial secretary. He said he expects Colonel Amory and a couple of the cabinet ministers will visit Canada early next year. Speaking about conditions in England he said they are greatly improved. In Scotland there was considerable unemployment, especially in Glasgow.

House Robbed As DEAD IS MOURNED

Thief Enters House Where Woman is Dead and Steals Funeral Money.

NEW YORK, Dec. 6.—Police of Yonkers have been notified by Mary Skerneck, 14, that while her family and friends were holding a wake by the body of her mother in their home, in Yonkers, early in the morning a thief entered the house and stole a \$50 note.

\$800,000 LIQUORS ARE STOLEN FROM CHICAGO STORES

Hijackers Raid U. S. Army Warehouse and Take 20 Trucksloads.

WAS KEPT SECRET

Break Made Last Sunday, But News is Learned Only Last Night.

By Canadian Press. CHICAGO, Dec. 6.—A band of hijackers raided a \$800,000 hoard of fine liquors in a U. S. Army warehouse here, and stole rare whiskeys and wines of an estimated value of \$800,000, early last Sunday, according to Robert K. Levy, United States marshal. The robbery, discovered Monday, was kept a secret until last night, while federal agents questioned more than 80 soldiers and other government employees, some of whom were supposed to guard the store. Fifteen steel doors were cut away and padlocks and bolts smashed by cutters to give the impression, investigators say, that there had been no inside assistance.

Under 24-Hour Guard.

Deputy marshals maintain a week-day, business-hour guard, but were not on duty nights. The headquarters department of the army, to whom the warehouse belongs, was required to maintain a 24-hour watch of armed soldiers lower.

LABOR MEN CHIDE CANADA'S PREMIER

Resent Attitude Towards Organizer Whom They Say He Called "Tory."

TORONTO, Dec. 6.—In a strongly worded letter drawn up at a meeting here yesterday agents of the International Trade Union of the American Federation of Labor working in eastern Canada, told Prime Minister Mackenzie King that his attitude toward one of their number, John A. Flett of Hamilton, had been "beneath the dignity of his office."

Three Indicted For Murder of Cashier

DEBHAM, Mass., Dec. 6.—Among the 65 true bills returned by the Norfolk county grand jury were indictments of Alfred and Fred Bedard and James E. Carpenter, cashier of the National Bank of Wrentham, who was shot down as he rounded a barge at the alarm instead of handing over the money demanded by the alleged hold-up men.

Appeal For Poor Kiddies of City Should Meet With Generous Response

Of the many thousands who saw the announcement in The Times-Star regarding the opening of The Times-Star Empty Stocking Fund, it is safe to say that none heard it with more delighted interest than the thousand or more little kiddies who have been benefited by it in former years. The gladdest, happiest day of all the year is approaching swiftly and there are many homes in the city which can ill afford to please the little hearts with toys, candy and fruit. The spectacle of a little soul waking up on Christmas Day to find it just the same as other days of the year while others around, more fortunate than he, enjoy it to the full, is a moving one, indeed. What one of us is there who forgets the thrill of rapture that came in childhood days on Christmas morn'g?

MRS. BUZZI FREED

Common Law Wife is Acquitted of Murder of Frederick Schneider.

NEW YORK, Dec. 6.—Mrs. Anna Buzzi, twice placed on trial for the murder in 1923 of Frederick Schneider, wealthy Bronx contractor, whose common law wife she had been, was last night acquitted by a jury in Bronx Supreme Court.

Koretz Answers Prosecutor

Leo Koretz, who skipped out of Chicago a year ago with something like \$2,000,000 relatives and friends had given him in the Panama oil scheme, is back to face the music. He is seen here being questioned by State Attorney Robert E. Crowe, immediately following his return from Halifax, N. S., where he was apprehended. And Leo confessed his Bayano River plans were nothing but a fraud, and yesterday he entered the Illinois State Prison to start serving a term of from one to ten years.

BROKER AND WIFE ROBBED OF \$20,000 AS THEY ENTER HOME

NEW YORK, Dec. 6.—Three hold-up men early today approached Jacques P. Rosenberg, a broker, and Mrs. Rosenberg, as they were entering their Park Avenue home, and covering them with revolvers, robbed them of \$20,000 in money and jewels. Mr. Rosenberg resisted and was beaten. The robbers escaped.

Took All Day To Elect Officers

PORTLAND, Me., Dec. 6.—Election of officers for the coming year for the Portland Longshoremen's Benevolent Society, Local 861, L. I. A., took place one day this week and it took from 10 o'clock in the morning till night to make the selections. Michael McDonough was chosen president.

3 MORE DIVORCES

One Case Struck Off Docket—Four More Await Judgment.

FREDERICTON, Dec. 6.—Mr. Justice Crockett today ordered three decrees of divorce to issue. Another case was struck off the docket. Four cases, two defended and two undefended, still await judgment.

Injured Boy Coaster Is Likely to Recover

PORTLAND, Me., Dec. 6.—His life at first despaired of, John Connolly, 10, of 267 Congress street, was last night reported to have a good chance of recovery from a fractured skull and head cuts received in the first snow sliding accident of the season, Tuesday afternoon. He has recovered full consciousness and gives promise of speedy betterment in condition.

\$270,000 Realized At Old Glory Sale

NEW YORK, Dec. 6.—Consigners realized \$270,000 on sales at the 13th annual Old Glory auction of the last four days when 500 trotting horses went under the hammer. The highest price, \$15,000, was paid for Tilly Brooke, winner of every race in which she participated on the Grand Circuit last season.

BOYS STEAL AUTOS

Maine Lad Who Admits Theft of Two Cars is Bound Over.

BATH, Me., Dec. 6.—Charged with the larceny of a roadster and a touring car, Walter Millet, 15, of this city, arrested by the Portland police, was arraigned in the Municipal Court and pleaded guilty. He was bound over to the grand jury of the Supreme Court in the sum of \$1,500.

One Stall; Take Another.

PORTLAND, Me., Dec. 6.—After stealing a car owned by Daniel M. Mannix from his parking place, two Munjoy Hill boys abandoned it when it stalled and were sought for by another vehicle in which to continue their "joy ride." They chose a car owned by A. G. Gillespie, but were captured. The boys were turned over to their parents.

BELGIAN LIQUOR FINDS WAY ACROSS J. S. INTO QUEBEC

Is Conveyed Through New England States in Motor Trucks.

IS FAKE WHISKEY

Enormous Profit Said to be Harvest of Those Behind Scheme.

QUEBEC, Dec. 6.—Huge quantities of alcohol manufactured in Belgium, slightly colored to represent Scotch whiskey, put up in suitable containers, and packed with a view to withstanding a considerable amount of knocking about, have reached the United States during the past few weeks. The liquor has been landed at various points on the New England coast, transferred to the city of Boston, thence to Northern Vermont, and ultimately has been sent conveyed to different points in this province, after which the liquor would be distributed throughout Canada at enormous profit to men higher up.

These facts, which were gleaned here from a United States official, who has just returned from a trip to the eastern sections of the States throw a new light on the activities of a powerful smuggling organization which is said to have at its head a number of prominent Canadian and American financiers representing millions of dollars.

Six-day Bicycle Grind is Now Down to Eleven Pairs

NEW YORK, Dec. 6.—Two teams — McManis and VanKemp and Walther and Georgetti—continued to lead the six-day bicycle race in Madison Square Garden. The team of Greiner and Colburn, unable to stand the fast riding, was forced to quit the race at 6:30 o'clock, leaving it to the other two teams. The two leading teams had covered 2,316 miles and Joe Lopa at the 12th hour, compared with the record of 2,506 miles and four laps made by Cameron and Kayser in 1914.

Bans Tipping

MARY A. LINDSEY Managing director of the Grace Dodge Hotel, Washington, permits no tipping. The funny thing, according to Miss Lindsey, is that while it's easy enough to get hotel help to refuse tips, sometimes it's very difficult to persuade guests not to insist on having them accepted.

SAYS CANADA CAN GET 10,000 FAMILIES

Special Immigration Official Here Today Tells of Ukrainians.

Joseph Dyk of Winnipeg, a special Canadian official of the Department of Immigration, was a passenger on the Canadian Pacific steamship Montclair, which arrived here this morning from Liverpool.

Mr. Dyk visited more than 300 towns and villages and had interviews with more than 500 mayors, priests and many prominent Ukrainian laymen. He found that the Canadian Government would have no difficulty in getting thousands of families to migrate here because of lack of political stability and extraordinary high taxation.

He has proved it. Mr. Dyk, who is a Ukrainian himself, came to Canada 17 years ago as an immigrant and now is one of the prominent barristers in Winnipeg in addition to being a special representative of the Government.

DEALERS CALL ON COUNCIL AND CUT IS ANNOUNCED (Continued from page 1) objected to having to use pasteurized milk if he did not want to and voiced his objection to prohibition of milk or liquor as invading a man's personal rights. He charged that Dr. Roberts was very arbitrary in his acts and that Dr. Warwick with being almost vindictive, in so far as violators of the milk regulations were concerned. It was true that certified milk could be procured but that was 20 cents a quart and it was simply raw milk.

Mr. Donagan said the quality of milk produced in the County of St. John was not so good as that produced in Kings County, the former testing about 87 of butter fat and the latter from 89 to 4 per cent. J. F. Tilley, milk inspector, said the St. John public was getting a higher grade of milk today than any city in America.

Correct Appearance a Paying Investment

The relation of correct and neat wearing apparel to success in life cannot be over-emphasized. Dress alone is not a guarantee of success, but coupled with other attributes it brings success more easily and more quickly. Slovenliness is just as certain to retard progress, regardless of the inherent ability of the individual. We opened this week some overcoats that will give any man that comfortable feeling of being stylishly and correctly clad—in any company. Blue Ulsters; Blue Double Breasted—a Prince of Wales style; Grey Chesterfields, Velvet collar and extra cloth collar. Try on any of these—you'll be pleased with the tailoring, stylish drape, and fit.

Ten choices in the windows today. Thirty choices on the floor alone. You gain again in value for the price. Marcus' buy so many at one time they command their own price with the makers. And they are wise enough to pass their advantage on to the public so the public will learn where to shop best.

The Suite in above picture has backs and cushions of Silk Tapestry—colored like Cloth of Gold. Arched arms of Beaver Mohair plush. Three bow front and hand carved base. \$300. Have it put away for Christmas. The richness of Camo Mohair—like cut brocade—a study in Taupe with faint Rose—comes in a hand carved Walnut frame for but \$402. You may have Mohair Suite as low as \$174. A tapestry Suite with show wood frame as low as \$111. Clearly no prices come near Marcus'.

**Man Finds Marauders in  
Cellar; Puts Up Fight,  
Not Hands.**

CAMBRIDGE, Mass., Dec. 6.—When two burglars, one armed, confronted William Collins in the cellar of his home, he put one to flight, captured the other and turned him over to the police. When Collins descended to the cellar upon hearing a noise, one of the men pointed a revolver at his head, Collins threw up his arms long enough to bring an axe down on the head of the man with the pistol, felling him to

the floor. As he dived for the burglar's weapon the second intruder fled. As soon as his captives regained consciousness, Collins marched him to the nearest patrolman. The man was treated at a hospital for his injuries, which were not serious. At the police station, where he was charged with assault with a dangerous weapon, attempting to break and enter and illegally carrying a revolver, the man gave his name as Vincent Licardi of Somerville. He refused to divulge his companion's name. Collins said that he found the pair attempting to break through from his cellar into the basement of a hardware store next door.

**A Much-Heard-of Individual.**

A new moving picture advertised in "The Last Man on Earth," "Hurrah!" writes J. M. C. to the Boston Transcript. "We'll soon get a glimpse of that fellow some girls wouldn't marry if there were no other man on earth but."

YARMOUTH, N. S., Dec. 6.—Vital Quinn, of St. Pierre, Minn., fell overboard from the large French rum steamer, Pelagrin, tonight and was drowned in the harbor. The ship put into Yarmouth with the coal supply reduced to five tons. The vessel is reported by the New York Maritime Register as sailing from St. Pierre on Sept. 12 for Nahava and the ship now hauls for a cargo of 1,600 cases of liquor. Quinn was standing on the rail pre-

**NEW TRAIN SERVICE**

Effective Thursday, December 4th, new fast and special service will be inaugurated by the Canadian Pacific Railway between Montreal, Toronto and Winnipeg, both east and west-bound on a par with the Famous "Trans-Canada" operated by this Company during the summer months, the new service, however, making even faster time.

Train will leave Montreal at 6.15 p.m. daily, and Toronto at 9.00 p.m. daily, unloading at Sudbury, arriving at Fort William 11.00 p.m. Eastern time second day and Winnipeg at 9.00 a.m. morning of the third day.

This reduces the running time between Montreal and Winnipeg to 88 hours and forty-five minutes and between Toronto and Winnipeg to 86 hours and is of added convenience to the Travelling Public on account of its morning arrival in Winnipeg making the third day a complete one for the transaction of business in Canada's Western Metropolis. This means there is only one business day lost between Montreal and Winnipeg.

Returning from Winnipeg eastbound, equally attractive schedule is offered, leaving Winnipeg 7.00 p.m. arriving Toronto 8.35 a.m. third morning and Montreal at 1.30 p.m.

The consist of this train will have nothing to be desired in the way of highest class of service to the Travelling Public.

An excellent service is also offered on this train which provides parlor car between Montreal and Ottawa for local travel between these points.

These new trains will be numbered:

A radio concert broadcasted from the giant liner Leviathan, about 100 miles from New York out on the Atlantic was heard quite well in St. John last night by Don Masie.

**ZION TRAIL RANGERS.**  
The first anniversary of the Trail Rangers of Zion Methodist church was held last evening and took the form of a supper. After supper suitable games were played. Alfred Purdy is group leader, and under his direction good progress has been made. At the present time the boys are studying for badges, and Charles Lynch has won his running badge. Rev. George Orman, pastor of the church, was present last evening.

SETTING FIRE TO THE WASP'S NEST.

Sometimes the farmer becomes annoyed by finding too many wasps nests on his farm, particularly if they nest near the house.

The Herriot Government appears to be taking a leaf out of the farmer's book. Down through the ages wasps have attempted to follow the suggestion that everything be done decently and in order.

Statesmen who have no historic background usually do not go far. Sometimes they go fast, but they never seem to get their second wind. Often when they leave office, they leave the country in a trouble only; sometimes a little trouble, sometimes a ghostly inheritance which the nation may struggle blindly for a generation, and sometimes for more than one.

To return to Herriot, it is announced this morning by cable that he and his Cabinet have decided that the Comptroller-in-Chief—have planned France long enough. Herriot says Austen Chamberlain has agreed with him that the Bolsheviks must be dealt with sternly. France has had many Socialist Premiers, but they were not Anarchists, they were not Reds; in most instances at least, they made France, their own country, their first consideration. Mark Clemenceau—a duellist, a journalist—the correct term in Paris—an adventurer, a chaser of butterflies, a man with a tremendous imagination which still never frightens him, war Premier, the chief sponsor of Foch—Clemenceau is the type, or will be for this moment's illustration.

The French are the most conservative of all the nations, yet many who do not know their history, or who believe, as Henry Ford once said on the witness stand, that "history is the bunk," regard the French as not only volatile, but hysterical. It would be difficult to conjure up a greater or more serious error in analyzing foreign nations.

The French peasant is the backbone of the country. He is the most frugal man in the mass in the world today. If he will not buy French Government securities, the Government, he is wise or headlong, is paralyzed, because the power of the purse is the only instrument of possession which gives real authority to the central government in any land.

Herriot, who with Ramsay MacDonald, saved France and Britain from a clash which would have shaken the world, has said that the foreign agitators must be expelled, and in order to give force to his declaration, and so that the nation may believe that he is sincere, and so that he may command their immediate and hearty support, he is starting the first group of fifty Reds across the frontier today. He told the reporters last evening, who he was on his way to Rome with Austen Chamberlain:

"Mr. Chamberlain and I readily agreed to the necessity of putting down the Bolshevik activities. We are obliged to employ in France a large number of foreign workmen, and it is principally among them that the elements of disorder are recruited. We need, and we will have, a proper immigration policy."

This man Herriot starts well. He has built a slow fire over a wasp's nest. We must beware of too headlong admiration for him, because he has not yet been proved in a war. He has won one or two battles in a campaign, but he who wins the last battle is the man. Later we shall know whether Herriot combines the high qualities of a statesman and a soldier. Meantime, keep your eye on him.

SIR HENRY AND THE MARITIMES.

Under the above caption the Montreal Gazette dealt at length with the Maritime Province situation in an editorial which was reproduced on this page yesterday. Having placed the Gazette's editorial on this subject on the record here, it may be proper to give some portions of it to a measure of examination from what may perhaps be considered the Maritime viewpoint.

Having reviewed Sir Henry's recent tour of the Maritimes, the Gazette analyzes Sir Henry's proposal for a commission to take up the whole Maritime situation and deal with it practically, definitely and boldly, with the purpose of reaching, within a reasonable time, the second objective. In this connection the Gazette points out what it conceives to be certain inherent difficulties and obstacles. It says that the grievances of the Maritimes are not a new thing and are already well known. In a measure, that is true, but only partly true. "Grievances" is not the ultimate word here. The use of it tends to obscure the issue, for the Maritime Provinces, while they do complain, and have complained for a long time, and continuously, do not forget, and have never forgotten, that they must give as well

as take, and that no policy can be sound or can be consistently and courageously followed, unless those who formulated it have given evidence that they thought nationally as well as provincially. It may be said, as the Gazette says, that "Maritime opinions" are well known, but they are only partly known, and what is more important, the Maritime position is not understood by the other provinces of the Dominion, and cannot be understood until the truth has been brought-home to our fellow Canadians from the New Brunswick-Quebec-line to Vancouver Island. Moreover, we in the Maritime Provinces are not sufficiently well acquainted with the views and conditions of the people of the other provinces, and until we have the requisite knowledge of them, and they have the requisite knowledge of us, there can be no sound progress, and no lasting agreement looking to Canadian unity, in the right sense, and Canadian prestige, success and contentment.

The proposed commission should, as President Beatty of the C. P. R. through this newspaper suggested, include in its numbers well known and outstanding men from Quebec and Ontario. That original and forcible suggestion is obviously so vital that its acceptance by Sir Henry and the Maritime interests immediately concerned should be in no doubt. It is all very well to suggest difficulties—and there are plenty—but if we consider the difficulties merely, and if we believe, as the Gazette apparently does, that there is no satisfactory cure for our discontent, no cure which will be nationally acceptable, then we should abandon the commission and devote ourselves to the Maritimes alone, or the Maritimes first. We do not think the commission will fail, but we take nothing for granted; but this must be put on the record: In case the commission should fail—a contingency which should be faced squarely—then we in the Maritimes have both the courage and the resource to act independently, still exist, and still work out our destiny with the steadfast and tenacious quality which we have inherited from the people who lived in this province when the great forests still clothed it and who found here that liberty of action, that independence of existence, and that pride in local possession which are invaluable in the life of any people.

The London Morning Post, considering France's proposal to fund her debt to the United States, finds many objections. The Post, a notably outspoken journal, is critical of what it says is the American position. The United States, in the view of the Post, says that the inter-allied debts are just like any other international debts, and that France and all the other war debtors must pay in full. French and British public opinion, says the Post, considers this view unsound and morally wrong. And the Post continues:

"It savors too much of rigid Prussianism to be compatible with the sage traditions and genial mentality of the American people. The inter-allied debts, like any other international issue, have to be argued, submitted to reason and reconciled according to pressure of circumstances."

Had the Post been less gracious, it might have said, in so many words, that the money that Britain at the peak of the war danger borrowed from the United States, and more than that great sum, was loaned to Britain's Allies, in order that they might not collapse; that Britain will pay the United States to the last penny, even though it may never recover the money it loaned to weakening nations in Europe in order that the war might not be lost, and that the United States, among other civilized nations, might not be brought under the Prussian heel.

Charles Pond, whose get-rich-quick bubble burst and threw him into jail at Boston, faces deportation from the United States on a charge of illegal entry. Mrs. Pond says she will stay with him.—From yesterday's Times-Star.

Meaning, she sticks. Well, after all, Mrs. Pond is not, in her devotion, singular. Nor was Ruth, in her declaration, the first one. But, for the purpose of this writing, let Ruth serve—

For whither thou goest, I will go; And where thou lodgest, I will lodge; Thy people shall be my people, and thy God my God. —Ruth, I, xvi.

How new the old often seems; and sometimes how old the new!

Mr. A. P. Patterson, on a news page of The Times-Star to-day, has, at the request of this newspaper, given us a brief expression of his views with respect to Maritime betterment, particularly in regard to Maritime ports and the relation of the Federal Government

and the Canadian Government Railways to these ports. The viewpoint of Mr. Patterson is interesting, and what he says has certain penetrating quality. There is a bit of salt in it.

The price of milk on Monday, The Times-Star is informed this morning drops to twelve cents (12c) a quart. Score one for Mayor Potts!

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by A. Wayfarer."

Epiaphs—Franklin, Huxley and Stevenson. (F. H. Mason in Saturday Night.) When written or selected by those whose tombs they story, epiaphs usually tell us something of the lives and the hopes of those resting quietly beneath. Epiaphs of three men, each brilliant in his particular sphere of activity, are called to mind, though one of them, perhaps, in the strict meaning of the word cannot be called an epiaph, because for some unknown reason it was not inscribed on its writer's tomb.

Among Benjamin Franklin's papers, after his death, was found the following epiaph, which evidently was intended to story his tomb:—"The body of Benjamin Franklin, Printer; Like the cover of an old book, Its contents and its lettering and gilding, Lies here, food for worms. But the work shall not be lost, For it will, as he believed, appear once more." In a new and more elegant edition, Revised and corrected by The Author.

This evidently was written at a time when Franklin realized that his period of usefulness in this world was drawing to a close, but he confidently looked forward to a future in a more perfect condition, as well as a future for his work. The humbleness of the man, too, should be noted, for he styled himself "printer," rather than diplomat, writer, or statesman, to any of which he had no pretensions, or to any of which his craft, rather than his art.

Thomas H. Huxley, his biographer tells us, himself realized that his period of usefulness in this world was drawing to a close, but he confidently looked forward to a future in a more perfect condition, as well as a future for his work. The humbleness of the man, too, should be noted, for he styled himself "printer," rather than diplomat, writer, or statesman, to any of which he had no pretensions, or to any of which his craft, rather than his art.

Chicago's Anniversary. (From the Chicago Tribune.) Chicago is going to have a birthday. It is not so young as we thought we were. Two centuries and a half ago Thursday Chicago was born. No one suspected it at the time, so far as the records show, but it was Dec. 4, 1874, that Father Marquette put up the first building, and, showing his good judgment, he chose a site opposite the Tribune Tower, therein anticipating William Wright.

For the celebration of this long neglected event the Association of Commerce has arranged some ceremonies, and the records show, but it was Dec. 4, 1874, that Father Marquette put up the first building, and, showing his good judgment, he chose a site opposite the Tribune Tower, therein anticipating William Wright.

Under the wide and starry sky, Dig the grave and let me lie; Glad did I live, and glad did I die, And I laid me down with a will. This be the verse ye gave to me: Here I lie, where be ye to me? Home is the sailor, home from the sea, And the hunter home from the hill.

Should Make Good. Mrs. Bowie, a California widow, with eight stalwart sons, all bent so farming, faced with the possible disintegration of her family, has gone to Alberta to keep them with her. She has purchased three sections, or nearly 2,000 acres of fine farming land, where they will lead a community life. In the centre of the area a house will be erected for Mrs. Bowie and her five unmarried sons. Each of the three married sons will have his own house close at hand, and a house will be erected for each of the others as he marries. Thus the family will remain united, permitting an exchange of farm equipment and animals and tending toward the more economical operation of the land.

Pennsylvania has more than 1500 justices of the peace, who in the last two years have made a cost excellent living off the motorists on some technical violations of the motor act. They have constables who stand on the roadway and night, noting license numbers where the crank-handle hangs down over the license-plate, at corners where horn signals are to be blown and the like. When they get a whole batch of names, they send out notices. Instead of collecting fines they collect "costs" running from \$4.50 to \$5 each.

ALL READY FOR THE AEROPLANE CLUBS TO BE SUBSIDIZED

Marine Dept. Has Only a Few Minor Changes to Make.

The arrival of the winter season closes for the winter in the Marine and Fisheries Department in this district although these are mostly of a minor nature as the New Brunswick District is an all the year round one. The advent of the winter rush, therefore, does not see any additional being made in the Bay of Fundy as all the aids to navigation which make this waterway one of the best protected in the world are also in position during the summer months.

Overhaul Some Boats. Around New Year's navigation closes for the winter in the Channel, Minas Basin and the vicinity as well as in Digby and Annapolis Basin, and about 25 boats have to be taken up by the Government steamers on account of the ice conditions. Lights along this section of the coast are also out of commission during the closed season. These boats are brought to the marine wharf here and receive a general overhauling during the winter. The lights along the St. John and St. Croix rivers are also in this district and fog alarm stations in this district are also out of commission during the winter.

Government Ships. The work in the New Brunswick District is carried out by the C. G. S. Dollar and the C. G. S. Laurentian. The Dollar at present is undergoing a thorough overhauling in preparation for the winter and she will soon be ready for service again. The Laurentian has been busy lately visiting all the district and getting supplies to the station keepers. Extra supplies have to be left at some of the stations owing to the difficulty often experienced in reaching them in extremely bad weather.

We Do Not Seek Control of Hydro !!

The statement that this Company is seeking control of Hydro is only propaganda to induce the public to support the Hydro policy.

Since the Federal Light & Traction Company obtained control of this Company, no attempt has been made by us to obtain control of Hydro.

Our Board of Directors, which is vitally interested in the city's welfare, would not be a party to the passing of control of Hydro from the City to this Company.

The Federal Light & Traction Company offered to make an arrangement with the City for the distribution of Hydro, under which the City would have been protected against any change which might occur in the future.

And the cost of the erection of the second distribution system, with all its disadvantages, would have been saved.

And the users of electricity would have been assured of getting the maximum benefit of the Government Musquash Development.

As customers of this Company, you cannot be expected to pay the City's Hydro losses.

And, by giving your support to us you will be assisting in saving what remains of the benefit made possible by Hydro.

CHRISTMAS TREE TRADE IS LARGE

New Brunswick Supplies Demand in Parts of United States

For several weeks carloads of Christmas trees have passed through the city bound for the larger American city markets.

From some of the smaller country pieces along this line as many as 18 cars of Christmas trees have been shipped to Pennsylvania.

The average price paid to the owners of the land of which the trees were cut, was 10 cents for a bundle.

600 Trees to Car. It is estimated that each car contained from 600 to 700 trees.

Best Trees Taken. Cruising through the woods where some of the trees were secured, it was found that in almost every case the cutters took the choice young trees.

others they cut merely the tops off and left the disfigured lower parts standing. Very little spruce was taken as it has the more lasting qualities so necessary when it was considered that the trees cut towards the last of November would not be sold until Christmas week.

Inquiries were made as to the price which these trees would bring and it was learned that they sold on street corners in the large cities for from 60 cents each, when the supply was large, to \$3 and \$4 a bundle when there were not so many.

BRIDE AND GROOM, GUESTS OF HONOR Mrs. Luther Wright and Mrs. David Linton were joint conveners for a novelty shower held last night at the home of Mr. and Mrs. William Bunnell.

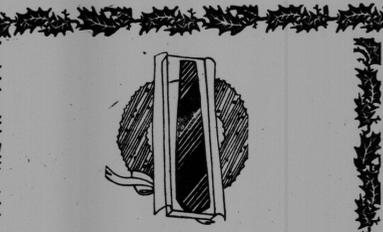

The bride untied the parcels and read the funny rhymes attached to the gifts which caused much amusement, and she heartily thanked the givers.

G. Ballantyne and J. Sargeant furnished violin selections and were accompanied on the piano by Mrs. Willard Bunnell.

Mrs. William Bunnell was assisted by Mrs. D. Linton, Mrs. S. Cougle, Mrs. L. Wright and Miss Pansy Bunnell in serving delicious refreshments after which all joined hands to sing "Auld Lang Syne," for which Mr. Sargeant and Mr. Ballantyne provided violin accompaniment.

have effect similar to that adopted by the British House some years ago, whereby measures passed three times by the Commons became independent of the Lords' veto. This plan, said Mr. Gordon, would be part of the Liberal policy in the next election and the

ctors should be urged by the King Government to endorse it. The speaker stated that the "automatic and arbitrary action" of the Senate in tampering with the bill which provided for a number of badly needed branch lines for the National Railways, and in vetoing the bill providing for distribution to veterans of the \$2,500,000 balance of the canteen fund supplied the final reason for the Government's action in seeking a mandate from the people to carry the plan into effect.

**DRASTIC CHANGES  
IN Y. M. C. A. AFFAIRS**

**New Plan Adopted at Recent Canadian Convention**

A. M. Gregg, general secretary of the St. John Y. M. C. A., returned recently from the convention of Young Men's Christian Associations of Canada, held in Preston. Mr. Gregg said yesterday that the meeting had effected drastic changes in the constitution. Previously the convention of associations had been the body in control of all the Y. M. C. A. work in Canada, and it had each year elected 75 men who formed the National Council of the Y. M. C. A. for Canada.

**Adopt New Plan**

Under the new plan the National Council was to consist of representatives elected annually by the local associations on the basis of one representative for every association with a voting membership of 400, and two representatives for those having from 400 to 1,200 voting members. Besides these elected representatives the National Council was to have 24 men elected "at large" at least 8 of whom were to be employed officers. This change, Mr. Gregg believed, would bring the national work in closer touch with the local work.

Drastic changes were also made in the statement of purpose of the association, revising it as agreed upon at the world's convention in Paris in 1888, in the basis of membership and in the basis of control. Under the new plan active membership is limited to members of an Evangelical Christian church or those who made personal declaration of faith.

**New President**

J. G. Lorrimer, of Preston, was elected president of the convention, and E. E. Barbour, of St. John, vice-president.

Many speakers of note addressed the gathering. Rev. George C. Pidgeon, D.D., of Bloor street Presbyterian church, Toronto, delivered the opening devotional address giving a marvelous presentation of the temptations of Jesus.

Henry Lightbody, general secretary of the National Council of Scotland, spoke of the Y. M. C. A. work in Scotland, pointing out many differences and telling how much the large and well equipped Y. M. C. A. buildings in Canada had impressed him.

Rev. C. W. Bishop, of Sheburne street Methodist church, Toronto, was another of the chief speakers.

**Demonstration Plants.**

D. A. Davis, senior international Y. M. C. A. secretary of Europe, who had been engaged in relief work for the stricken countries of Europe told of the hardships and difficulties of the people of those lands, and spoke of the application of Czechoslovakia for seven model Y. M. C. A. buildings. The application had been made to the international committee at New York. It had been granted and the government would erect the buildings necessary to make the demonstration of Y. M. C. A. work.

E. C. Carter, of Geneva, member of the world's committee of the Y. M. C. A., Mr. Gregg said, had spoken of the Y. M. C. A. as a great power in the solution of international prob-

**D. A. R. FREIGHT TRAIN IS ROBBED**

**Quantity of Goods Missing When Cars Are Examined at Digby**

DIGBY, Dec. 5.—A quantity of goods was found to be stolen today when the D. A. R. freight arrived in the local yard from Truro. The robbery was discovered when trainmen noticed that the seals on several cars which were billed here had been broken and on examination it was found that several packages were missing. A complaint was at once registered with the claim agent at Kentville, and Chief of Police Bent, of Digby, has been asked to investigate.

The cars were in good condition when the train left Windsor, and robbery was committed between that section and Digby. The railroad authorities suspect a couple of tramps who had beaten their way from Halifax towards Yarmouth, but who were put off at Windsor. Up to a late hour no arrests had been made.

"CARRIE JOY"

**Don't Wait Any Longer To Get in The Great "Carrie Joy" Game**

These dolls are going to be given ABSOLUTELY FREE OF CHARGE to little girls and any person who may wish to win ideal Christmas presents for "little sisters."

In a toy store "Carrie Joy" would cost you at least \$8, but The Telegraph-Journal won't sell her. She is to be given to anybody who secures five new six-months subscriptions in St. John or three new yearly subscriptions outside St. John. Forty-five little girls completed this task the first day. If these girls can win so easily so can you.

**Here Is How You Do It**

First of all you cut out the coupon at the bottom of this advertisement and then write your own name and address at the bottom.

The very next thing to do is get your first subscription. If your father is not already a subscriber, no doubt he will start the coupon for you. If your folks are already subscribers, then surely your aunt or your uncle will be number one to subscribe.

After you get number one the rest will come easy. It will take you less than a few hours or so if you keep on plugging until you have the required number of new subscriptions. Your neighbors will gladly help you. Just try and see.

See these dolls on display in the window of the Macaulay building, King street; in the Imperial Theatre window, or call at The Doll Room on the second floor of The Telegraph-Journal building, Canterbury street.

**Read This If You Do Not Live in St. John**

The Telegraph-Journal will give a beautiful "Carrie Joy" doll to every girl who sends in three NEW yearly mail subscriptions to The Telegraph-Journal at \$5.00 each.

Keep in mind that these must be new subscriptions—renewals subscriptions do not count—that they must be for a period of one year, and that it is necessary to collect \$5.00 from each of these subscribers.

Tell your neighbors and friends that they do not have to pay a cent more because you are getting a Mama Doll. They pay only the regular subscription price.

As soon as you have secured all three subscriptions mail them to The Telegraph-Journal and you will get a "Carrie Joy" doll by return mail.

**THE TELEGRAPH-JOURNAL**

In consideration of your offer to give a "CARRIE JOY" Mama doll to the girl whose name appears below, I agree to take THE TELEGRAPH-JOURNAL for at least six months, for which I agree to pay the regular carrier at the regular rate of eighteen cents per week. I am not at present a subscriber.

**Read This If You Live In St. John**

Remember you don't have to collect a cent. THE TELEGRAPH-JOURNAL carrier will take care of that. All you have to do is get the five new subscribers. Tell your neighbors and friends that they do not have to pay one penny more for THE TELEGRAPH-JOURNAL because you are getting a Mama Doll. They pay only the regular rate of eighteen cents a week—it will be easy. But, of course, you will have to go out and get them, since they will never come to you.

Make up your mind right now that you are going to get a Mama Doll and in less than a few hours' time you will have the FIVE TELEGRAPH-JOURNAL SUBSCRIPTIONS that will get you one FREE.

**MYSTERIOUS FLEET OF 15 CARS BAFFLES THE UPPER ST. JOHN**

**Alleged to Have Crossed Border and Headed For Quebec Ignoring Customs**

GRAND FALLS, N. B., Dec. 5.—Canadian customs officials in the vicinity of St. Leonard's are reported to be carrying on a search for a fleet of 15 automobiles from across the border, which entered the province one night last week without stopping at the border to report or to file the necessary papers.

Wild rumors regarding the reckless and furious driving of high-powered motor cars late at night are engaging the attention of the authorities, and it is said that everything possible is being done to trace several automobiles which crossed the line and have not been heard of or seen since.

**Headed for Quebec.**

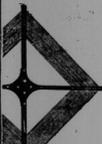

The authorities are said to have a complete list of the license numbers of the mysterious cars, which bore license plates of several states and headed for the Quebec border. It is said the automobiles were stolen in the United States and the accepted theory is that they were rushed across the border by a gang of smugglers and automobile thieves and driven to Quebec. If this theory is correct it is safe to assume that the automobiles will be well hidden on arriving at their destination and will be repaired and changed during the winter, so that when they again appear in public they will not be recognized as the same cars.

**Another Version.**

EDMUNDSTON, N. B., Dec. 5.—On last Friday an individual called on Mr. Roy, customs officer at St. Leonard's, 26 miles below Edmundston, and said he wanted permits for a 90 days' tour in Canada in 13 automobiles. Permits were made out in the usual way, and then the customs officer asked to see the cars. The applicant said the cars were at Van Buren and he left to get them but did not return. About the same time a man applied to the customs officer at Edmundston for a permit. He said his car was in a garage, but no car could be located. The officers went to Riviere du Loup to see if any cars such as mentioned had crossed the border but there was no record of such. The opinion among officials is that the cars were smuggled into Canada during the summer and probably stolen and that an attempt was being made to procure permits in order to dispose of them.

**De Forest-Crosley Value**

De Forest radios improve the tone and volume of a good set.

Ask any owner of a De Forest-Crosley Radiophone if he secured good value for his money. Ask him if he knows of any set selling for less than double the price that will equal the results he is getting. Ask him what his upkeep cost is. Then check up with any other sets you know and you'll find that De Forest-Crosley Radiophones represent the greatest dollar for dollar value on the radio market today.

**FIND VOCATIONAL SCHOOL ENROLMENT UNUSUALLY HEAVY**

**Carleton County Institution is Making Excellent Progress**

WOODSTOCK, N. B., Dec. 5.—That the Carleton county vocational school is truly serving the district in which it is located, both as an educational institution and as a community centre, is the impression one immediately forms in visiting that institution.

A visit paid to the vocational school a few days ago firmly convinced members of a delegation that the service rendered by the institution is indeed a great one which cannot fail but be reflected in the future by those so fortunate to receive the training which it affords.

**Heavy Enrollments.**

Last week the school catered to no less than 278 young people, including the pupils of the schools, who, from grade 8 up, attend Vocational school one day weekly to pursue a course of instruction in Manual Training and Domestic Science. In addition to the regular courses, Agriculture and Farm Mechanics, Home Making and Commercial, in which there are sixty students enrolled, there were two classes on First Aid being held, on a part time basis, under the auspices of the Canadian Pacific Railway.

**Short Courses.**

Three short courses, each of six weeks duration, given under the auspices of the New Brunswick Board for Vocational Education, are now in full swing. These courses include instruction in Automotive Electricity, Motor Mechanics and Acetylene Welding, and an enrolment of 96, the limited number accepted, comprises the attendance in these departments. The day of the visitation in question happened to be the occasion on which the Women's Institute holds its monthly meeting at the vocational school.

**Community Enterprise.**

As a consequence the delegation found the director of the school building holding forth the reading room, all other rooms, he explained, including two large rooms in the basement, being occupied. It could not be inferred that the school is overcrowded. This is not so. In several departments more students can be accommodated. The Carleton county vocational school, however, is using every available opportunity to function for the benefit of the young people of the community.

**Marked Success.**

With the energy and effort expended by the teaching staff, as well as that earnestness of purpose displayed by the Carleton Vocational Committee, coupled with the ever increasing interest and attendance by these young people to whom the school caters, nothing but success can mark the progress of this busy little institution.

**WOODSTOCK CASE MAY GO TO LONDON**

WOODSTOCK, N. B., Dec. 5.—Messrs. J. C. and R. P. Hartley received a cablegram today from their agents in London, England, that the Privy Council had granted leave to appeal in the case of the Town of Woodstock vs. the Bank of Nova Scotia. The application for leave to appeal was argued before the Privy Council by the Hon. Geoffrey Lawrence, on behalf of the town. It will be remembered that this case was over the question of the taxation of the bank on its personal property, and came before the Supreme Court of New Brunswick on two occasions, when the town was successful. On appeal to the Supreme Court of Canada the decision of the Supreme Court of New Brunswick was reversed by a divided court of three to two, and it was from this decision that the town made application to the Privy Council for leave to appeal.

**Her Friends Gave Her Up**

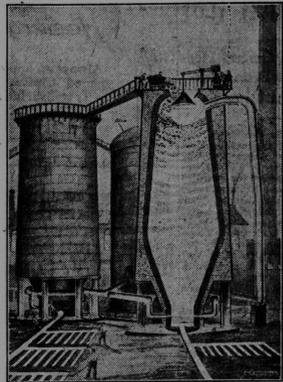

"I was badly run down after having 'flu, pneumonia and pleurisy," writes Mrs. Baxter

To have 'flu alone is surely bad enough, but to have 'flu with pneumonia and pleurisy is in most cases fatal. Even 'flu itself after it has run its course leaves the system in a weakened, depressed, nervous, run-down condition, but few are able to fight 'flu, pneumonia and pleurisy, and live to tell the tale. No wonder Mrs. Baxter was given up when she had 'flu, pneumonia and pleurisy. No wonder after having had these dreadful afflictions she was terribly run down. The mystery is how she ever survived. But we will let Mrs. Baxter tell you her story in her own way—"I want to tell you what Carnol has done for me and mine. I was badly run down after having 'flu, pneumonia and pleurisy. My sister advised me to try Carnol. She used it both for herself and her daughter and both were completely relieved. I have now taken five bottles of Carnol and can say I never enjoyed better health. My daughter is also taking it for a spring tonic. I advised a neighbour to give it to her little girl who has had bronchitis from birth and she is getting well. We all praise your wonderful medicine and only hope it will do as much for others as it has done for me and mine. A long life to Carnol.—Mrs. E. E. Baxter, R.R. No. 2, St. John County, New Brunswick.

Carnol is a wonderful tonic and gives marvellous results in all weakened and run down conditions, because its ingredients are the finest tissue, nerve and blood builders, and are known to every doctor in the medical profession, full particulars of which will be found in every circular accompanying a bottle of Carnol.

**The Fire That Melts Iron**

This diagram shows the beginning of iron and steel. The ore dug out of the earth is carried to the top of the great shaft and dumped into a huge furnace, where it lies in the greatest heat that man can produce by fire. The heat melts the iron out of the ore until it trickles like water and runs out into the grooves made in the sand.

**The COACH**  
As McLaughlin-Buick Builds It

THE Coach, as McLaughlin-Buick builds it, is a real closed car. See it and realize that McLaughlin-Buick has brought improvement to every single feature that previously has characterized "Coach" design.

The body is by Fisher. Wherever motor cars are discussed, the Fisher name stands for quality and durability. Take hold of the McLaughlin-Buick Coach anywhere and you'll find it substantially built.

The McLaughlin-Buick Coach comes on either of the two famous McLaughlin-Buick chassis—a Master Coach and a Special Coach. The quality is identical—the only differences are wheelbase, color and price.

The lines are smart and graceful, with no harsh right-angled corners.

The McLaughlin-Buick Coach is finished in Duco. Duco keeps its rich lustre, fadeless through weather, time or many miles. The body is larger. The rear seat accommodates three grown-ups in comfort. The doors are wider. Access to the rear seat is easy without the necessity of front seat occupants getting out of the car. The windows are opened by the most modern type of window lifter.

And this Coach is furnished and fitted with the luxuries of other closed cars. It has the new Fisher VV one-piece ventilating windshield, cowl lights, automatic windshield wiper, rear seat foot rest, rear vision mirror, dome light—everything! Four-wheel brakes are standard! The first Coach to have them! Before you decide whether to buy a Coach—before you decide what Coach to buy—see the Coach as only McLaughlin-Buick builds it!

CONFERENCE HELD IN A. M. E. CHURCH

Delegates and Pastor Present From Every Congregation

After a very interesting session the district conference of the A. M. E. church, which opened in St. Philip's church on Thursday evening, came to a close last night. Delegates and pastors from every church in the district were present. The presiding elder was Rev. C. M. Morgan, of Halifax, and in opening the session he reviewed the work of the year and outlined the aims of the conference. He complimented the pastors on the good they were doing under what Mr. Morgan knew to be very adverse circumstances. Several excellent papers were read on subjects related to church work and the education of the negro. Discussion of these papers brought out much valuable information relative to spiritual work among the colored people of the Maritime Provinces. On Thursday evening Rev. W. J. Davidson, of Yarmouth, was the speaker. "Taking Care of Our Burdened" being the subject of his address. Last evening, "A Faith Guide for Critics" was the subject ably dealt with by Rev. A. F. Skinner, of Woodstock.

King's Daughters Report Appeals From Those in Want

The appeals committee of the King's Daughters at the monthly meeting yesterday reported a very large number of appeals had been received during the month and conditions of poverty in the city appeared to be very serious. Mrs. Edith Stevens, president, was in the chair and other reports showed that the work of the order was going forward with success. Preparations were made for the travelling which Mrs. E. Atherton Smith will give next week in aid of the King's Daughters relief work funds. Standing committee reports were heard. The hospital committee told of the hospital visiting carried out during the month by members of the Good Cheer Circle. Mrs. Rotheray McLaughlin gave the report of the house committee and Mrs. Austen the report of the spiritual committee. Nominations for the officers of the Women's Council were made.

CANADA'S NATIONAL FISH DAY December 10th

Canadians Invited to Make It A BIG SUCCESS. ONE of Canada's greatest Natural Resources is her Fisheries. In fact, our Dominion has the most extensive fishing waters in the world. In recognition of the importance of our Fisheries, a Nationwide FISH DAY will be observed on December 10th. The Government—The Transportation Companies—Hotels and Restaurants—The Fishing Industry—the Merchants—are all co-operating to have extra large supplies of Canada's Sea and Lake Fish on hand for the big event. All Canadians are invited and requested to help make this day a big success. World's Finest Fish. There is no finer fish in the world than come from Canada's seas, lakes and rivers. And the variety is tremendous. You could eat a different variety every day for a month and then not be half through the list. Canada's Fish have all the superfine flavor, the firmness, the meatiness and invigorating heartfulness that distinguish fish caught in the cool, clear, sparkling waters of our Northern latitude. Nature has endowed Canada's Fish with wonderful health-giving qualities. They are exceedingly rich in protein—the most valuable of all food elements. They are richer in iodine than any other food. They are full of energy. Fish is a brain food and a body food. A Splendid Food. Fish is more easily digested than meat. For that reason it is a splendid food for office men and women—and for children. CANADIAN FISHERIES ASSOCIATION Montreal, P.Q. EAT FISH FOR HEALTH. Yet, it also supplies abundant energy for working men, outdoor workers and others doing heavy work. People of thirty-five years of age and upwards could wisely eat more fish and less of foods that tend to increase blood pressure. Doctors largely prescribe fish for people threatened with or recovering from pulmonary diseases, goitre, and other illnesses. The value of Fish is recognized by physicians and food authorities the world over. In view of Canada's predominant position as a fishing country, it is natural that Canadians should be large consumers of fish. Of late years the consumption of fish in this country has grown rapidly, due to better facilities for handling and marketing it. More Fish Eaten in Britain. Nevertheless, in Canada, the consumption of fish is only a trifle over 49 lbs. per year per person. In Great Britain it is 57 lbs. In Germany 75 lbs. In Japan it is 200 lbs. Canadians eat six times as much meat as Fish. It should be more nearly equal. Canadians could, with benefit to their health, eat a pound of fish per week per person. England does better than that. Make your start on FISH DAY. The more frequently you eat it the better you'll like it, and the more good it will do you. You can obtain good fish—fresh, smoked, salted and canned—practically anywhere and everywhere in Canada. Well equipped fish stores offer you Canada's Fish in fine condition. You can order it cleaned and filleted—all ready to cook—if desired. All together. Let's make Canada's FISH Day a big success.

COMMUNISTS WEAKENED

At the other end of the line stand the Communists, long since discredited among the workers of Germany. Such gains as they made in the May elections were largely of dissatisfaction. However, since then, the worker has staple money and more employment. He is not now so imbued with discontent as he was in the early days of 1924. Furthermore, the Communists have not had as plentiful supplies of money from the Moscow treasuries as has hitherto been the case.

MARITIME CASE ON CROW'S NEST RATES IS HEARD

R. E. Finn, M. P., of Halifax, Presents Argument For the East

Special to The Telegraph-Journal. OTTAWA, Dec. 5.—R. E. Finn, M. P. for Halifax, presented the case of the Maritime Provinces today in connection with the argument before the Privy Council.

This continued through the various phases which the act had gone through until July 1 of this year, when it again became effective.

Applied to Grain. This arbitrary action on the part of the C. P. R. equally applied to the rate on eastbound traffic on grain and flour from west of Fort William to Fort Arthur and Fort York.

is something new in all leading garages and service stations, giving "Maple Leaf" Non-freeze protection.

After you have had a mixture of "Maple Leaf" denatured Alcohol and water in your radiator for a while and you wish to know how strong the mixture is, just stop at any garage or service station displaying the "Maple Leaf" denatured Alcohol sign, and they will test the mixture with an "Alco-Meter" and tell you the exact Freezing Point.

THAT'S "ALCO-METER" SERVICE

Only mixtures of "Maple Leaf" denatured Alcohol and water can be tested in this way. The exact freezing resistance of other mixtures become unknown after a time, and expose your car to the risks of freezing.

A mixture of "Maple Leaf" denatured Alcohol and water gives better satisfaction at less cost.

Correct Winter Driving preparations when "Maple Leaf" denatured Alcohol is used, are as follows:

- Empty and flush the radiator cover or cardboard in front. Do not run car with radiator cover or cardboard in front. Allow a free flow of air to the fan at all times. Then with Maple Leaf Brand denatured Alcohol in your radiator—your car is completely protected.

CHAMBERLAIN AND HERRIOT DISPOSE OF MINOR ISSUES

Basis is Laid For More Friendly Discussion of Pending Problems

PARIS, Dec. 5.—The basis for the better discussion of big pending problems was laid today during a conference between Austen Chamberlain, the British Secretary of State for Foreign Affairs, and M. Herriot, the French Premier.

They avoided, however, any painful subjects, such as inter-allied debts, as far as could be learned tonight. It was the first meeting between the statesmen.

Mr. Herriot later, in seeing Mr. Chamberlain off for Rome to attend the sessions of the Council of the League of Nations in the Italian capital, arranged to continue the conversation on board the train when Mr. Chamberlain is returning to England.

Had Long Talk. Mr. Chamberlain's knowledge of the French language did away with the necessity of an interpreter, so that the statesmen had a long heart-to-heart talk.

The nature of their discussion naturally became known only through their reserved comments. Both, however, said they were highly pleased and announced that they had agreed on all business matters such as a decision for maintaining Embassies in Constantinople and the adoption of harmonious policies at the Rome meeting of the Council of the League.

Mr. Chamberlain, for his part, promised to support the appointment of a Frenchman as chairman of the League of Nations committee for investigation of German armaments.

Statement to Press.

Before leaving, the Foreign Minister wrote a six-line note for the press of the two countries which he addressed directly to the newspapers.

The statesmen were as follows: "We Ministers and politicians work our hardest to confirm and fortify the bonds of friendship which unite our two countries by the memories of common glory, common suffering and common interest. Lend us your power to aid. Do not emphasize the differences which may arise from time to time between the best of friends.

Let the British press make it its duty to explain the French viewpoint. Let the press of France, on its side, make it its motto to explain the British viewpoint to its compatriots. Make yourselves, on either side of the channel, defenders of that entente cordiale which must always unite France and Great Britain. You will thus help us effectively."

History of St. John River Dates to Pre-Loyalist Days

BY H. A. CODY.  
The St. John River has an interesting history, dating far back to pre-Loyalist days. There was the long and unwritten period of Indian rule, followed by the struggle for supremacy between the English and the French. Numerous places are pointed out today where stood rude settlements and where forts were erected.

Beauty

A Gleamy Mass of Hair  
35c "Danderine" does Wonders for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy— a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance.

While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of delightful, refreshing "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair becomes.

DECLARED VICE CONDITIONS HERE ARE VERY SERIOUS

Statements Made at St. John Social Hygiene Meeting.

REFORMS SUGGESTED  
Hon. Dr. Roberts Speaks of Establishment of Industrial Farm.

Statements which told of appalling conditions of vice in the city of St. John were made at a special meeting of the St. John Social Hygiene Council, hurriedly called yesterday afternoon when Mrs. C. Neville Rolfe, O. B. E., founder and first secretary of the British National Council for the Combating of Venereal Diseases, was in the city on her way from Moncton to Ottawa, where she is to confer with Hon. Mackenzie King today.

Hon. Dr. W. F. Roberts, Minister of Public Health, was the chairman of the meeting and Mrs. Rolfe, in making a plea for furthering social hygiene work here, especially urged care for the seaman. She said that the Canadian National Hygiene Council had received information that a woman had gone on board one of the ships in port here and had remained three days during which time she had infected nine of the seamen.

Dance Halls Here.  
Members present said that there were in St. John at least 15 dance halls in which women of evil reputation operated and that conditions in St. John as regards houses of ill repute would put to shame the red light districts of South America. There was criticism of the police in that one house, which had been complained of 16 times, was still open and it was said that when a house of ill repute was closed the owner simply moved to another part of the city and commenced operations once more. Undesirable sent out of the city were said to operate for a time in Moncton and when chased from that city to return to St. John.

No Protection.  
There was sharp criticism of the fact that there is no place where infected girls may be protected and cared for until they had been cured of the disease and made safe in the community. Mrs. Rolfe spoke of the success of the voluntary homes in England where these girls go of their own accord and while being sheltered and treated, received training in a wage earning occupation. Providing employment for

Mr. J. R. Johnson, R. R. No. 1, Oshawa, Ont., writes: "For years I was troubled with eczema, and had that terrible itching and burning sensation, and could find no relief for it, and after my second bottle I began to see a great difference, and I can now, advise anyone troubled as I was to use this wonderful remedy."

these girls afterwards was a special activity of the welfare agencies.

Segregation Suggested.  
Some members felt that there should be laws enacted to make compulsory the segregation of infected women to institutions. At present the Truro home for girls and the Good Shepherd home in St. John are the only institutions which accept infected girls.

The case of the men was spoken of also and it was said that one man who had infected two girls, one 12 years of age and another 17 years of age, had only served a short term in jail and was now at liberty.

May Establish Farm.  
Dr. Roberts said the matter of the establishment of an industrial farm where the infected could be received, had been considered and a project was now in embryo. Such a farm, he felt, would not only handle this problem but eventually meant a great reduction in the numbers of those who had to be cared for in jails and asylums.

He referred to the difficulty in making the ordinary citizen realize that after successful treatment those who had been V. D. cases could be as absolutely safe as those who had no infection. He said it was hoped to have another meeting of the Social Hygiene Council in a few days to appraise the situation on vigilance, legislation and other essential branches of the council's work. As Mrs. Rolfe had to leave to catch her train the meeting was adjourned at an early hour.

expenditures. Mr. Lewis, Mrs. Dishart and L. M. Farguhar were appointed to act with the finance committee. Dr. G. B. Peat and Stanley Webb, in making estimates to bring before the City Council.

Apparatus Secured.  
W. K. Haley reported for the equipment committee, of which the other members were Miss Heffer and Mr. Lewis, that the horse, masts, exerciser and other necessary articles had been procured and it was now necessary to have a good lantern to give the boys instructed to see about this and get the best lantern for the most reasonable price that would give satisfaction for the work.

Club Membership.  
Miss Heffer, general superintendent of the Club, reported an attendance of from 45 to 75 members, with 182 on the roll.

The basketball games were being entered into with enthusiasm. John

Froeham has given the club equipment for pool tables and Perry Laird, honorary president, was giving free instruction to the boys on the free night at the pool tables.

L. M. Farguhar reported having written to the Gyo Club, asking that two of its members unite with the Playgrounds Association, but no reply had yet been received.

Dr. Peat's wish for a Scout Troop to be formed was referred to Miss Heffer to consult with him as to the feasibility of the plan. The matter of the purchase of uniforms and of a suitable leader were the points that made the formation of the troop doubtful.

ARSON SUSPECTED  
AMHERST, N. S., Dec. 5.—James Fanning, a resident of Amherst Highlands, was arrested today by Police Officer Jefferson on information laid by S. S. Wright, Deputy Fire Marshal for Nova Scotia, charged with arson, suspicious circumstances being attached to the fire on November 9 that destroyed his residence. He carried \$800 in insurance on the property. Fanning appeared this afternoon before Stipendiary L. Magistrate MacKenzie in the Police Court, but was remanded until Monday.

Services in Church.  
Services in this church were held by the clergyman of Gagetown and Kingston, and at one time there was a large congregation. The river being the only highway of travel, people came from the parishes of Wickham and Hampstead. When roads were later opened and the settlement deserted, this church, known as St. Stephen's, was moved to the Wickham side of the river.

This heavy task was performed in the winter on the smooth ice. Sixteen oxen drew the building, and the church abandoned. Later it was torn down, and until recent years the timbers were piled up near the road. They may be there yet for all I know.

Women Assisted.  
Even the women were not idle, for it is reported that one woman, Mrs. Golding, if I mistake not, cooked a bushel of doughnuts for the workers when they were through. The church was hauled up on the mainland, some distance from the river, and here services were held for a number of years by the late Rev. D. W. Tackett, rector of Greenwich. During the great Saxby gale the spire was blown down and the church abandoned. Later it was torn down, and until recent years the timbers were piled up near the road. They may be there yet for all I know.

The Blizard House.  
The Blizard House, as seen in the picture, was a favorite resort for travellers on the river. The artist has chosen the occasion of the arrival of soldiers from Fredericton and St. John. We see them coming in their sleighs and no doubt a jolly and hilarious time was spent. This Blizard House was also moved to the Wickham side, but when or how I do not know. But it is of much interest to know that the building is still standing some distance above Wickham wharf and is easily seen from a passing steamer.

In the picture a small vessel is shown, covered with ice and snow. This could easily enter on the mainland, some distance from the river, and here services were held for a number of years by the late Rev. D. W. Tackett, rector of Greenwich. During the great Saxby gale the spire was blown down and the church abandoned. Later it was torn down, and until recent years the timbers were piled up near the road. They may be there yet for all I know.

Many Changes.  
What changes have taken place since the Loyalists first sought Long Island as their home in this province. Especially in the modes of travel is this observed. Where formerly the river was the only artery of travel, and then by means of the sail and the rowboat, steamers now move swiftly by the spot, trains glide along the shore, automobiles speed over a firm gravel road, and

MAY HAVE BITTER FIGHT AT MEETING

Expect Row at the Annual Gathering of Major League Magnates

By HENRY L. FARRELL (United Press Sports Editor)

NEW YORK, Dec. 6.—Renewal of sniping warfare in several old political feuds and the opening of hostilities in new sectors are expected here next week when the annual meetings of the major league club owners will put baseball back in print for several days.

The National and American League club owners are to have their annual family gatherings and then a joint meeting between the magnates of the two leagues with Commissioner Landis will complete the argument battle, massacre or whatever it is to be.

When Landis won a decisive decision over Ban Johnson, president of the American League during the winter meetings in Chicago last year, major league baseball seemed to have shaken off the political troubles that had caused petty bickerings since Landis was forced into the saddle and Johnson was tossed out on the turf.

The Giant scandal, last before the world's series, enabled Johnson to get back on his feet and pull out a couple of rods which he shot promiscuously in all directions for several days with most of the explosives directed at Landis and John McGraw.

Landis is not a "peace at any price" fellow by any means and Johnson said so many things about the gray-haired ex-jurist that the commissioner hardly will feel like passing them over, even if he believes and his supporters know that the charges against him came from a source that has not been responsible at all times in the past and that has been far from consistent in any time.

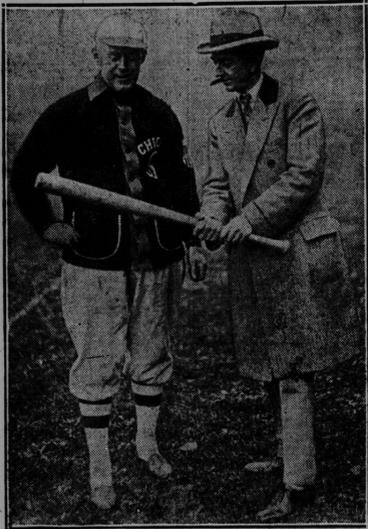

When Johnson was directing the assault against Landis during the series, he found a champion in the person of John McGraw and who led an open battle of words with Landis in the lobby of a Washington hotel.

McGraw is not the type to let Dreyfus get away with the verbal swings of his law without employing several dentists and it seems that the political troubles that have made a background out of the American League for five years may spread to the peaceful territory of the National League.

Dreyfus said several things about the connection of the Giants with things that have happened in the past that the National League club owners would do well to ask for more details. For the good name of the league, if for no other reason, the club owners should allow the charges of Dreyfus to die behind closed doors.

## BOSTON BRAVES LAND COAST STAR

Give \$50,000 and Two Pitchers to Get Jimmy Welsh.

HARTFORD, Conn., Dec. 6.—The first of what President Christy Mathewson hopes will prove to be a series of advantageous trades for the Boston Braves was pulled off recently when, after conferences which have endured for the better part of two days, the Boston club secured a budding star from the Coast league at an approximate expenditure of \$50,000. The newcomer to the Boston ranks is James D. Welsh, star outfielder of the pennant winning Seattle team last season, and rated by many critics as the best ball player of the year out there in the Coast organization. That President-Manager Bancroft and the rest of the Boston board of strategy are convinced that they have secured a real find is evident from the fact that in addition to handing over a considerable amount in cash for Welsh they have sent pitchers Sterling Stryker and Jim Yeargin to the Coast and besides this have agreed to hand over another player or an additional sum of money to the Seattle club before the 28th of April next. Three other Major League clubs have been after Welsh, yet the Braves finally managed to beat their rivals to it. The Seattle star's record is a most impressive one. Just 21 years of age, he has been but two seasons in professional ball, having been picked up by Seattle scouts in his home town of Oakland in the spring of 1923. Last year he batted for approximately 350 but he betwined the ball in 164 games for a total of 342 scoring 125 runs, and including 16 homers, 12 triples and 98 doubles in his accumulation of 205 base hits. Fast as Lightning. Welsh is said to be as fast as chain lightning, and Wade Kilmer, the manager who developed him said he is the smartest youngster he has ever drilled for fast company. In a team that has been remarkable for three seasons for its slowness, the speed of young Welsh is apt to be a tremendous asset. His

### Making Service Certain

Winter driving seems to demand a hardier breed of car than the mellow journeys of summer and autumn. Country roads are heavy and city streets are slippery but the lure of the open on a crisp, crackling, brilliant winter day is irresistible and so—out you go.

And if it is a Ford that carries you comfortably along the frozen roads, you can go without a worry. Should some minor adjustment or replacement become necessary you know that there is a Ford service station at the very first place you come to; that you will get quick, courteous service there at little cost; that the interruption in your journey will be but a matter of minutes.

And when the major service operations become necessary as they do with every car, the Ford owner again enjoys the distinct advantage of having quick low-priced authorized service immediately at his command.

## Getting Gertie's Garter

A REMARKABLE FARCE COMEDY WHICH KEPT NEW YORK ROARING FOR TWELVE MONTHS The combined abilities of America's two clever producers, "Avery Hopwood" who wrote "The Bat" and "Wilson Collinson" who is responsible for "Up in Mabel's Room" are discerned in this great comedy.

"Getting Gertie's Garter" is deliberately designed to make you howl with laughter, and it accomplishes its purpose. There is more fun crowded into it than in two average comedies. There is a pretty romance running through it, the sort of love story that everyone likes, but it is the exorbitantly funny situations, the dialogue that fairly drips laughter, that makes the play one that audiences remember for weeks.

## JOHNSON WAS THE LEADING PITCHER

Walter Johnson of the Senators, who received the trophy as the most valuable player to his team in the American League last season, not only had the highest percentage of victories among the league's regular pitchers, but he also led in effectiveness, allowing fewer runs per nine-inning, allowing fewer hits per nine-inning, and allowing fewer errors per nine-inning. These facts were revealed with the announcement of the official American League pitching averages for the past season. Johnson won 23 games and lost seven this year for a percentage of .767. His earned-run average was 2.72. An odd feature of the averages is the fact that the first three pitchers ranked according to games won and lost are also the first three as regards effectiveness. Herb Pennock finished second to Johnson in both lists, while Baumgartner of the Athletics was third. Pennock won 21 games and lost 9 for an average of .700, and he had a earned-run average of 2.93. Baumgartner scored 19 victories and was charged with six defeats for a mark of .754, while he had an earned-run average of 2.88. Johnson led in the number of batters struck out, having fanned 168. He showed his good control by giving but 77 bases on balls, but there were other pitchers who gave fewer passes per game.

A. P. PATERSON ON THE MARITIMES

Makes Suggestions Which May Interest Those Forming Maritime Commission.

A. P. Paterson was asked this morning by the Times-Star for a short statement of his views with respect to the proposed Maritime Commission, and in regard to the general campaign for Maritime betterment.

Mr. Paterson repeats that what he had to say—and he was expressing his own personal views only—could be said in no very great space. Continuing, he said:

A Bit of History. "To function properly, a commission would require considerable powers and financial resources, and it would seem that the Federal Government only in the position to appoint such a commission, but some four or five years ago the Federal Government turned down a request for such a commission, which was made jointly by the three Maritime Governments, backed up by the Maritime Commission, and the most representative delegation which ever went to Ottawa.

"If it is possible to have a commission appointed with the necessary qualifications, it would require considerable time to investigate the situation, and its findings would no doubt be valuable, but it is questionable as to its findings would be anything that is not already known to the management of the C. N. R.

"The confederation agreement is not sufficiently definite to compel the Federal Government to operate the Intercolonial Railway in the manner which the people of the Maritimes were led to believe it would be operated by the pre-Confederation pledges of the Canadian (Ontario and Quebec) delegates, and in so far as the Maritimes are concerned Confederation has been a commercial failure.

Injustice To Maritimes.

"The Maritimes are unable to profitably ship their products (with few exceptions) to the other provinces in the Dominion, and consider the utilization of Government-owned American railways and terminals for Canadian exports and imports, an injustice to the Maritimes.

"When the Grand Trunk Railway was operated by a company the Maritimes were told that, due to more efficient management, the Grand Trunk was responsible for such a large portion of Canadian traffic directed to American ports, and when the taking over of the Grand Trunk by the Government was under consideration it was stated that if the Grand Trunk came under control of the Government this would be over.

"If the Federal Government proposes to provide at Maritime ports the facilities requisite for handling the volume of traffic, export and import, which these ports should have under the all-Canadian transportation policy which the Government has promulgated in more than one place and on many occasions, it might then be in a position to 'match' the Canadian National Railway not to accept any traffic to or from Poland or any American port. Similarly, that would settle the Portland problem.

In Keeping With Pledges.

"While there may be some disadvantages to such a policy, and it would mean considerable direct loss to the C. N. R. system, it would be in keeping with the pledges of Ontario and Quebec made when they were striving to force the Maritimes into confederation against the will of the people of these provinces, and in line with the policy of the Macdonald Government when it passed an act prohibiting the granting of subsidies to railways to run in a southerly direction and tap the Canadian market, and the financial benefit to the Dominion as a whole and the advancing of national safety should more than offset any direct financial loss."

THORNE LODGE MEN IN MINTREL SHOW

Thorne Lodge, I. O. G. T., met in regular session last night, with Alfred G. Wad, C. T., in the chair. After the business was disposed of, the program was entertained. This is the second programme in a contest between the ladies and gentlemen of the lodge, and the latter won with a slight margin on points. The judges were Miss Elva Chapman, Miss S. Short and Mrs. M. Fiewell.

Mintrel Programme.

The programme was arranged as for a minstrel troupe, under the direction of John McEachern. R. A. Brown acted as inter-locutor, and the end men were: "Xema," T. D. Owens; "Pepp," Chas. McEachern; "Bones," J. H. McKenzie; "Buck," A. K. Trearlin, and "Nonsuch," John McEachern. The programme included: Chorus by the troupe, solo by "Pepp" song by "Bones," song by J. J. Fitzgerald, selection by jazz orchestra, end song by Buck, solo by W. W. Brown, male quartette by D. Stockford, Wm. H. Steen, M. Wade and Roy Stackhouse; end song by Xema, I. O. G. T. bowlers' selections by jazz orchestra, end song by Nonsuch, and closing chorus by the troupe. The second part was a sketch, "The Doctor's Assistant," T. D. Owens, D. Stockford, Wm. H. Steen and R. Stackhouse took part.

HAD DEBATE.

The members of Abbeek Camp of Trail Rangers, Ludlow street Baptist church, listened to an interesting debate last evening on: "Resolved, that the welfare is of more benefit to man than the telephone." Excellent and well presented arguments were given by both sides and the affirmative won by a close margin. The affirmative was upheld by Everett Campbell, Miller Brittain and Kenneth Black, the negative by Calvin Fraser, Chester Campbell and Delbert Black. The members were the judges and their verdict was sustained by the mentor, R. H. Fraser. During the evening the majority of the boys lived up to the 8 C's—clean speech, clean living and clean athletes. A basketball team is being organized. Chief Ranger Delbert Black presided. Nineteen boys were present.

MAKES RESTITUTION.

Stella McIntosh came before the magistrate yesterday afternoon and pleaded guilty to the charge of stealing a dress valued at \$20 from the store of M. Grosswener. She made restitution of the goods stolen and she was allowed to go.

SENT UP FOR TRIAL.

John Murphy Jr., charged with assaulting and robbing Frank Zelek of \$12.50, was sent up for trial this morning by Magistrate Henderson. One drunk was fined the usual \$8 or two months in jail in the police court this morning.

DEATHS NUMBER TEN.

The Board of Health recorded 10 deaths in St. John this week, from the following causes: Carcinoma, two; premature birth, two; apoplexy, uremia, mitral stenosis, aneurysm, cerebral hemorrhage and intestinal indigestion, one each.

REALIZED \$400.

The Queen Square church tea and sale yesterday afternoon realized \$400, which will be donated for church purposes. Mrs. E. S. Stephenson was general convenor and was assisted by an efficient staff. The event was one of the most successful of the season.

TRAFFIC MATTER.

E. A. Kev admitted today that he had driven past a street car at Market Square while passengers were alighting. He explained that he drove very slowly and the passengers were all going around the front of the car. The magistrate warned him that he was breaking the law but agreed to accept the explanation this time.

JIMMY COX IN ACTION HERE.

Boxing fans will be interested to learn that Jimmy Cox, known as "the pug" here, will be in action here in a bout here next week. He is said to be one of the most aggressive and rugged boxers in the welterweight ranks. He recently outpointed Paul Doyle, a "top-notch" among the welterweights, and he is expected to be a heavy favorite in his fight with Mickey Walker prior to his winning the title.

METAGAMA THIS AFTERNOON.

The Canadian Pacific steamship Metagama was expected to reach the island this afternoon at 4:30 o'clock and if conditions are favorable is to dock at Sand Point at 5 o'clock. She is from Glasgow and Belfast and has a cabin and 161 third class passengers. It was not known definitely early this afternoon whether or not the passengers would be sent forward to their destinations tonight or early tomorrow morning.

CASES SETTLED.

Two assault cases arising out of the seizure of a horse and a set of harness for rent were withdrawn by the plaintiffs when the affair was amicably settled out of court. The two cases were: Mrs. William McAvity, charged with assaulting Thomas H. Brown, and Campbell Isaac, charged with assaulting Alexander Wilcox. The trouble first arose over the rent of a barn which Isaac had lease to Brown. S. A. McMillan appeared for Brown while E. J. Henneberry represented Isaac and French.

HUNDRED YEARS AGO TODAY.

Looking back over files of the 1924 Courier, which was published here on Saturday by Henry French, Magistrate Henderson noticed a record of a special meeting which was held here just 100 years ago today. At this meeting they passed a resolution which was forwarded to Rev. Father French asking him to take charge of the work in the parish. This resolution was signed by Peter McNamara as chairman and Daniel O'Sullivan as secretary. They received Father French's reply on Dec. 10 accepting the charge.

SUCCESSFUL SALE.

Pope Barnes, Miss Jack, Mrs. Frank Robertson.

MARKET TAKES ON CHRISTMAS LOOK

A large supply of greening and holly added a Christmas touch to the country market this morning and it was a cheery looking spot despite the downpour of rain outside. Quite a large number were looking over the goods offered for sale and it would seem that the day of taking the basket and going to market for the Sunday dinner had come back again to St. John.

Poultry Plentiful.

Poultry of all kinds was plentiful and about the only article which was all scarce was the fresh egg. Turkeys have gone up a little in price and were selling at 40 to 45 cents a pound, chickens were quoted at 30 to 35 cents, and fowl 25 to 30 cents. Henny eggs were sold at 75 and 80 cents a dozen and butter was quoted at 40 to 45 cents a pound.

NEW BABES IN TOWN ARE 34 IN THE WEEK

The birth rate in St. John was high this week as 34 babies were recorded according to the statistics secured this morning at the Board of Health. The girls led, as the records showed 19 girls and 15 boys. Fourteen marriages were recorded during the week.

BEATTY OPENED ON JUNE 1 IS THE HOPE

Rates are Announced—St. John Has Good Chance on Contracts and Service.

The directors of the Admiral Beatty Hotel are planning on the formal opening about the first of June, 1925, according to George H. O'Neill, general manager of the United Hotels Company, following a high conference he had with the directors at noon today in the office of Barnhill, Sanford & Harrison. O'Neill says that the hotel was somewhat earlier than had first been expected but the rapid progress of construction work that had been made by the E. G. M. Cape Company advanced the work considerably for the remainder of the contract.

St. John Has Good Chance.

With respect to contracts for interior furnishings for the hotel, Mr. O'Neill made the important announcement that, other things being equal, the local tenders would get the preference. "Not a single dollar will be spent in the United States for our equipment, unless it is absolutely necessary," Mr. O'Neill said. Plans and specifications for the interior furnishings, including carpets, furniture, crockery, etc., will be ready soon and tenders will be invited next week. These contracts will run into several thousands of dollars. Local help will be employed as far as possible, Mr. O'Neill added. It would be necessary, of course, to secure the services of a general manager with considerable experience, an expert auditor, and housekeeper but so near as could be done, the remainder of the help would be employed from St. John. The new general manager, Mr. O'Neill expects, will arrive on the job in about March.

Builds Up Organization.

Mr. O'Neill is now working on the task of building up an organization for the Admiral Beatty and he promises to make a good job on it as he is keen to see the newest addition to the United Hotels chain a success right from the opening day. Frank A. Dudley, president of the company, will be here for the opening, Mr. O'Neill says, along with other high officials of the company. The conference today was presided over by Frank M. Ross and other directors present, in addition to Mr. O'Neill, were: C. F. Sanford, K. C. George McAvity, S. Allan Thomas, Thomas Bell, Frank P. Starr, Dr. G. A. B. Addy, R. Downing Paterson, and W. H. Harrison, K. A. A. further conference is being held this afternoon.

Room Rates.

The room rates for the Admiral Beatty, as announced this morning by Mr. O'Neill, will be found to be very attractive and will materially dispel an impression that the rates here would be high. The prices it was said would compare very favorably with other hotels in the Maritime Provinces, in fact, all over Canada. Here they are: 27 rooms, without bath ..... \$2.00 25 rooms, without bath ..... \$2.25 25 rooms, without bath ..... \$3.00 15 rooms, with bath ..... \$3.00 15 rooms, with bath ..... \$3.25 20 rooms, with bath ..... \$4.00 30 rooms, with bath ..... \$5.00 12 rooms, with bath ..... \$5.00 5 sample rooms without bath ..... \$4.00 1 sample room, with bath ..... \$4.25 7 sample rooms, with bath ..... \$5.00 4 room suite, with bath ..... \$7.00 Other Services.

Mr. O'Neill was busy this morning when local men interested him with respect to taxi service for the hotel, a barber shop and the laundry. Applications have been received for a first class haberdashery shop and a high others are invited. The general manager of the hotel, Mr. O'Neill, expects to complete these contracts before he leaves on his return trip to Montreal tomorrow afternoon.

ARE MARRIED IN DORCHESTER, MASS.

A very pretty wedding took place at 10 Monadnock street, Dorchester, Mass., recently, at the home of Mrs. Emma M. Evans, mother of the bride, who is Miss Myrtle Evans, formerly of St. John, was married to William Wadlington of St. John, popular band leader of the City Corner Band. The bride was attended by her sister, Miss Hazel Evans, and Raymond Eldridge of (Astoria) was groomsmen.

Rev. Geo. Brooks of Malden officiated at the wedding. Little Dorothy Evans, niece of the bride, acted as flower girl. She was attired in white silk and carried a basket of pink sweetheart roses. The bride wore a beautiful gown of white crepe and carried a bouquet of white roses. The bridesmaid was dressed in blue Canton crepe and carried a bouquet of pink roses. The wedding march was played by Phillip Morse of Framingham. Supper was served by caterers from Arlington Centre.

The bride has been employed in the main office of the Dennison Wig Co., where she made a host of friends. The groom is employed by a large firm of dealers in music at Jamaica Plain, Mass., as advertising manager. He also teaches music in Boston and also is a member of the Malden Club Band. Many beautiful gifts were received. Mr. and Mrs. Wadlington left for New York and the west on a honeymoon tour. They will reside in Dorchester, Mass.
