WHISKEY LADEN PLANE WRECKED

Montreal Newspaper Clue to Source of Supply.

Airship Smashed in Landing in New York State and Pilot Gets Away in Auto—Hundred Bottles Broken, 50 are Sound.

(Canadian Press) New York, May 16—An airplane laden with choice Scotch and Irish whiskey was wrecked when it attempted to land on a farm near Croton-on-the-Hudson, last night, revealing what is believed here to be an elaborate system for beating the Volstead law by smuggling intoxicants into this country from Canada.

The plane was a double seater Curtiss machine, and the passenger cockpit had been filled with bottled gin and tonics in gunny sacks. The only tangible clue as to the origin of the cargo was a copy of a Montreal newspaper issued yesterday.

Geo. J. McCall, a former deputy sheriff, was disturbed during the early evening by the antics of an airplane which would whirl along just a few feet above the chimney of his home. The pilot evidently was looking for a good place to land, but failing to find it, would swoop once more for a new survey of the country.

At last the driver decided to make a landing. He avoided fields near Mr. McCally's residence and chose a side hill for the end of his flight. One wing of the plane struck as the machine came to earth, and in an instant the machine was a wreck. Mr. McCall found an irate and limping man, who hurried toward an auto which apparently had been waiting for him. He climbed in, and was whisked away.

Captain Barber, Lieutenant Roberts and three privates of the state troopers stationed near Croton rushed to the scene. They found gathered about the damaged airplane a crowd of men whose emotions ranged from cheerful to ex-cuse me as they viewed the fragments of upwards of 100 quart bottles that had been smashed when the machine landed. Fifty bottles had not been broken.

ARREST MADE IN BAD CHECK CASE

Fred Whittaker Taken Today and Will Face Four Charges.

Fred Whittaker of Hanover street was arrested about noon today by Detective Middlecombe in connection with the alleged passing of bogus checks in the city. He will be brought before sitting Magistrate Heron tomorrow morning on four charges of passing worthless checks. It is alleged that he passed one for \$20.00 on Harold Bassen, one for \$34.75 on Louis Brager, one for \$17 on William Klein, and one for \$17.75 on George W. Folkins. These cases were reported to the detectives only three days ago.

FEARFUL DEATH OF N. S. FARMER

New Glasgow, N. S., May 16—(Canadian Press)—Daniel Melkie, 48 years of age, and married, a prosperous farmer living at McPherson's Mills, eight miles from here, died of his head with the discharge from a shotgun today, in a carriage house near his home. He had been ill for some time. A will disposing of considerable property all in favor of his wife, was made early in the present month. Besides his wife, there are five children.

AUTO ACCIDENT NEAR KINGSCLEAR

(Special to Times) Fredericton, N. B., May 16—David Clayton of Fredericton and Kelly of Kingsclear had a narrow escape from death when the car which Mr. Clayton was driving went through the railing of the "Haunted Bridge" near Kingsclear, some miles west of Fredericton on Monday morning. The car dropped forty feet, driving back the entire front of the car which, then turned over completely and rested on its wheels some ten feet farther on. Mr. Clayton still clung to the wheel when the car brought up. Kelly, who he had picked to give a lift, was beneath the car. The driver and owner of the car escaped with a scratched face but the other man had several ribs fractured.

The car was purchased by Mr. Clayton on Saturday and had been driven very little. He was on his return to Fredericton when the accident occurred.

STRENUOUS WORK PLANNED BY BELVEA

Rowing Six Times a Day on the Schuykill

Turf Wonder Cost His Owner \$8,000; May be Seen in Canada in Fall—Sister Doing Well on Bases—U. N. B. Sport.

(Canadian Press) Philadelphia, May 16—The strenuous training programme of rowing six times a day in order to fit himself for the American cup races to be held here, June 3, was announced today by Hilton Belyea of St. John. Owing to the raw weather in his native district, Belyea has been unable to get in the proper training. He has established himself here in quarters near the Schuykill course and said he would be on the river six times daily.

Morvich. New York, May 16—The conquering hero of the turf—Morvich—winner of the classic Kentucky Derby, was expected at his home track today. While Fred Burlew, the colt's trainer, would not express himself definitely as to his plans for the immediate future he indicated that Morvich may be pointed for the proposed \$50,000 race at Latonia later in the season.

Toronto, May 16—If the engagements of Morvich permit, Canadians will have a chance of seeing the three year old wonder horse in action at the end of the fall. Louis Block, of Owen Sound, brother of Ben Block, the owner of the racing mare, said he was planning to bring with him to the present and if there is a possible chance Morvich will come to Canada for the race or exhibition and the proceeds will be donated to charitable institutions.

"I know my brother will wager \$100,000 on Morvich that he defeats any horse in the world in a match race, and also that he has a standing offer of \$100,000 to sell his famous thoroughbred."

The history of Morvich is one of the most interesting in the annals of the turf. "For my brother never owned a horse in his life before purchasing the colt," said Block.

READY TO WELCOME GIANT MAJESTIC

On Last Lap of Maiden Voyage Today.

Largest Afloat and Probably the Speediest—Can Accommodate 4,100 Passengers—Eight Kitchens on the Huge Vessel.

(Canadian Press) New York, May 16—The Majestic world's largest ship, was rolling down from Nantucket to Sandy Hook this morning on the last lap of her maiden voyage across the Atlantic. Soon after daylight all arrangements had been made to give the new express of the sea a triumphant entry to the harbor.

The Majestic, which is of 56,000 tons displacement, is not only the largest, but probably the speediest passenger ship now afloat. She has a record of twenty-five knots an hour, and her engines are still still. When they get limbered up her officers believe she will get at least four more knots speed, and during her summer runs realize the trans-Atlantic record, now held by the Mauretania.

The Majestic, even as a German ship before the war, never made a passenger voyage. She was built in Germany as the Blumark, laid up in Hamburg during the war, and then sold to Britain for the reparations commission. She was converted into an oil burner, made more luxurious and named the Majestic.

Loaded as she was today on her maiden voyage, the Majestic weighed close to 64,000 tons. With the passengers, crew, oil, stores, baggage and mail, she becomes the heaviest steamship in the cross-Atlantic service.

The liner can accommodate 4,100 passengers—more than the largest hotel in New York can put up comfortably overnight. There are 124 state rooms, 472 of which are first class, most of them being at least as luxurious as the rooms aboard the top of French passenger liners. The second cabin are 212 state rooms, in the third, 561.

The smoke stacks and ventilators are built along the sides, connecting in air spaces from the top of the elevator shafts on the emergency boat decks. Thus the centre of the ship is given over to particularly fine floor, swimming pool and library, without obstructions.

There are eight kitchens and five special dining saloons. In the third class there is a purely orthodox "kitchen" kitchen, where such food can be procured, as a motor car from which the fatal shooting was done, has been identified as the driver, through bloody finger-prints on the auto door. Two men who rode with him were arrested when they applied for medical aid, the police said, one having a body wound and the other a bullet wound through the shoulder.

Miller himself confessed early today under constant questioning. Establishing methods by which the gangsters were directed from "higher up" as to the work to be done each night.

Through these alleged confessions and other information, according to the police and prosecutors, evidence has been obtained to connect the work of the bombers and killers with "Big Tim" Murphy, head of the gas workers' and sheet sweepers' unions, former member of the state assembly and congressional secretary "Con" Shea, of the theatrical janitors' union, and "Frenchy" Mader, president of the Chicago Building Trades Council.

These men, called by the police the "big three," with five others, were held without bail under murder indictments in connection with the death of Lyons and Clark. They have maintained innocence since their arrests a week ago.

The young mother of the baby, Ina Oldman, said that her mother had often threatened to kill the infant, but that she had never made any attempt to do so previously. The girl had bought the strychnine at a local drug store to poison her mother and her mother had taken the drug from a drawer in her room. An inquest has been opened.

It is believed that the woman, who is about forty-five years of age, is descended from a family which was killed in the Ontario hospital for the insane. The young mother of the baby, Ina Oldman, said that her mother had often threatened to kill the infant, but that she had never made any attempt to do so previously. The girl had bought the strychnine at a local drug store to poison her mother and her mother had taken the drug from a drawer in her room. An inquest has been opened.

It is expected that the setting of dates for the by-elections to fill vacancies in the provincial legislature from St. John and Kings counties, will be one of the matters taken up at the May meeting of the provincial government which will take place in Fredericton on Thursday evening. These vacancies were caused by resignations of Hon. J. B. M. Baxter and George B. Jones, both of whom were candidates at the last federal election.

Another matter which will receive attention will be the recommendation of the N. E. Electric Power Commission regarding the granting of a contract for the clearing of a right of way for the hydro commission line from St. John to Moncton and for the construction of the transmission line. The St. John members of the government will leave St. John on Thursday morning.

THE STILLMAN CASE. New York, May 16—(Canadian Press)—Upon a conference of lawyers for Mr. Stillman yesterday depends the final decision whether the will attempt further defense in the divorce proceedings before Referee Gleason in Poughkeepsie.

The hearings were postponed, following introduction of four love letters alleged to have been written by Mrs. Stillman to Fred Brewster, Indian guide correspondent.

POSTAL CHIEF OF CANADA RESIGNS

George Ross, Half Century in Department, to Retire on Substantial Pension.

(Canadian Press) Toronto, May 16—George Ross, general superintendent of postal services for Canada, has sent in his resignation, and it is said that the supplementary estimate will make provision for his retirement on a substantial pension.

It was said last night that the regulations of the department provide for a superannuation of \$3,000 a year, but that this amount might be increased to \$4,000 in the case of Mr. Ross. He has been with the department for half a century.

Mr. Ross, who was born in Scotland, came to Canada in 1872, and has since held various positions in the postal department. He was appointed general superintendent in 1911, and has since that time been in charge of the postal services of the country.

Mr. Ross is a member of the Royal Canadian Mounted Police, and has been awarded several medals and decorations for his services to the country. He is a well-known figure in the postal department, and is highly respected by his colleagues.

Mr. Ross is expected to retire on a substantial pension of \$4,000 a year. He is said to be in good health, and is looking forward to his retirement with interest.

CONFESIONS IN CHICAGO MURDERS

Police Say Evidence Against the "Big Three."

Slayers of Two Policemen Identified—Murphy, Shea and Mader Maintain Innocence, but Held Under Murder Indictments.

(Canadian Press) Chicago, May 16—Evidence distinctly connecting bomb-throwers and the slayers of two policemen with the "big three" Chicago labor leaders was claimed today by police and state attorneys who have worked indefatigably since Terence Lyons, acting lieutenant, and Thomas Clark, a patrolman, were shot down a week ago after two buildings had been dynamited in the so-called labor war.

Four men have been identified positively as the slayers of the policemen, and three of them have confessed, the police said, while John Miller, bartender, owner of a motor car from which the fatal shooting was done, has been identified as the driver, through bloody finger-prints on the auto door. Two men who rode with him were arrested when they applied for medical aid, the police said, one having a body wound and the other a bullet wound through the shoulder.

DOES NOT THINK U. S. HAS CLOSED THE DOOR

Surprise at Washington Announcement Following Mr. Child's Expression of Opinion—France May Not Go to Hague Unless Lines are Clear Cut.

(Canadian Press Cable) Genoa, May 16—Premier Lloyd George does not feel, it was indicated today, that the American refusal to participate in the commission to sit at the Hague on Russian affairs is his final word, as the document indicates great American interest in Russia's economic reconstruction and the reply is regarded as one forming a basis for further correspondence.

The surprise caused by the declaration was accentuated by reason of a statement the Italian press attributed to Mr. Child, quoting him as saying to Foreign Minister Schanzer that the U. S. would probably accept an invitation to the Hague on condition that the powers bind themselves not to conclude separate agreements with Russia while the Hague commission was sitting and that the decisions of the commission be referred to the respective governments for final action.

The opinion generally expressed was that the absence of the U. S. from the Hague might kill that meeting, as the refusal of the U. S. to participate at Genoa was the cry of many of the delegates the chief reason for the failure of the conference here to achieve definite results.

When announcement of the declaration of the Washington government was conveyed to the French delegation, it was met with disappointment by various members. Many Frenchmen, it was indicated, anticipate a gradual return to the development in Russian communism, believing that the conservative group in Russia is growing.

Paris, May 16—The declaration of the U. S. to participate at the Hague is attributed in official circles here to the anxiety of the memorandum setting out the agenda of the conference, which in French opinion may be interpreted as an attempt to permit the discussion of political questions. Unless conditions are laid down so as to avoid this danger, there is little likelihood, it was declared, that France will be represented at the Hague.

Mount Albert, Ont., May 16—Strychnine swallowed from the nipple of a milk bottle which had been dipped in the poison by Mrs. Arthur Oldman, wife of a prominent and well-to-do farmer, caused the death here yesterday of the fifteen-month old baby of Mrs. Oldman's daughter, a girl of about nineteen years of age.

Mrs. Oldman admitted her act, giving as her reason that the infant was a devil and that her patience had become exhausted.

It is believed that the woman, who is about forty-five years of age, is descended from a family which was killed in the Ontario hospital for the insane. WOMAN OF LEISURE TELLS ABOUT IT

(H. McA. Walker in New York Evening Post)

It's nice to be the Woman of Leisure—A charming, useless creature Who leads a life of ease— 'Tis told.

With a cook who's been in the family twenty years.

This morn' I awakened to her wailing— Her brother's death— I searched my best black frock and sent her to the other house of mourning.

Then prepared my husband's breakfast and my own.

And set my house in order.

Then hurried to a drive for funds for starving children.

Then hurried to a Charities Committee.

Then read a paper for the Better Babies Club.

Then made a baby bonnet for a charity bazaar.

Then made up a table at a benefit bridge.

Then ate a benefit luncheon.

Then hid me to a party for disabled service men.

Where I invited seven guests for Sunday dinner.

And my cook's brother hid died.

It takes the coldest sister many days to weather the grief and excitement of a funeral.

And I must sing in church on Sunday.

That the professional soprano may take a much-needed rest.

I gave a society reporter some news and pasted judgment upon some amateur paintings and sent the car for the children red saw that the baby's had his nap and that his milk was properly sterilized and attended a concert for the young and interviewed Johnnie's mathematics teacher and set sister at her practice and the others at their lessons and hastened to my massage.

Who was surprised to see me and surprised to learn that I was tired— for what had I to do?

And who reminded me that I was due at a Literary Tea.

And who desired me to patronize the Tea Room of a friend.

And to buy tickets for a sailors' benefit.

I did it all and hurried home— To be welcomed by a colored under-servant and a husband with headache.

I gave directions for the funeral of the cook's brother.

And dined the sick husband and broiled a steak and fed him.

After which he felt well enough to be amused for hours to sleep.

At last I crept to bed To lie awake and plan.

How to get through tomorrow.

There are times when I could ease with fortitude a cook who would, sometimes, take herself and her troubles off the place.

Or when I would change places, cheerfully, with a scrubwoman.

To be at rest.

But I'm a Woman of Leisure— A charming useless creature Fit for only a life of ease— 'Tis told.

REPORTS FROM LUMBER DRIVES

(Special to The Times.)

Frederickton, N. B., May 16.—The water in the main St. John River and tributaries is falling steadily. The Nashwaak is clear of lumber.

At the mouth of the Nashwaak the rafting operations of the Nashwaak Pulp and Paper Company are proceeding rapidly. The fifth raft for the pulp mill at Union Point, St. John, left at noon today. The first raft left on the 9th instant. To date, a total of 124,948 pieces or 4,284,000 feet have been put through the rafting grounds.

At Kennebecasis Island, the St. John River Log Driving Company still is rafting the product of the drift drive. It is expected to be completed in a few days. The corporation drive of the same company was at Little Bear Island on Saturday and at present is working among the islands below that point. The water is falling and as the rafting this year will be done at the Mitchell boom, Lincoln, the drive still has a long distance to go.

JOY IN SELF-EXPRESSION

If you have advanced ideas on any subject, do not expect popular applause. The people seldom approve the pioneer. You must get your joy not from the cheers of the populace, but from self-expression. If your ideas are really worth while and you have confidence in their value to the world, the approval of the multitude will be a matter of supreme indifference to you.—Tom some amount of heat.

IN WALL STREET

New York, May 16.—(10:30)—Independent stocks were again the central feature at the opening of today's stock market. Mixed gains and losses in the group indicated the conflicting views of professional traders. Lackawanna Steel opened at a gain of almost one point, but this was extended within the first fifteen minutes to 2-3/8 point. Crucible, which was under severe pressure in yesterday's final dealings, made an initial recovery of 1 1/4 points. Mittal and Republic Steels were fractionally better, but Bethlehem, Vanadium and U. S. Steel, closed. Moderate reactions were made by Studebaker, Baldwin, Mexican Petroleum, American Sugar and several of the shipping. Tobacco continued strong under lead of United Retail Stores.

Noon Report.

New York, May 16.—Lackawanna Steel extended its rise to 80 1/2, a new high for the current movement during the morning. Other independent stocks, especially Sloss-Sheridan, Crucible, Republic and Republic, were 1 to 1 1/2 points higher. Coppers added 1 to 2 points to yesterday's gains. High priced oils threw off their early heaviness on buying of Mexican Petroleum and General Asphalt. American Ice led the specialties at a six point rise and Davison Chemical, Industrial Alcohol, Columbia Graphophone preferred, Consolidated Gas, and Public Service of New Jersey were strong. National Biscuit, Pierce Arrow preferred and some of the minor oils lagged. Call money opened at 8 1/2 per cent.

Report at 1:30.

New York, May 16.—(1:30)—Announcement of the terms of the exchange of stocks in the Bethlehem-Lackawanna Steel merger caused heavy selling of both issues. Lackawanna fell 2-3/8 from its top price of the morning, while Bethlehem sold to a similar extent under yesterday's close. Reactions in other quarters were quite sharp. St. Paul, General Electric and Louisville scoring losses of a point each. Subsequently selected shares were bid up strongly, especially American Smelting and Texas Gulf Sulphur. Federal Mining and Smelting preferred, 2-3/8 point. A. C. Crutcher, which the quarterly dividend from one to 1-1/4 per cent.

A NIGHT WITH RADIO
Frank D. Thorne, who recently installed a radio phone at his summer home in Pender, achieved some results last evening. He listened to a Glee Club programme under auspices of the Y. M. C. A. in Newark, N. J., a classical music programme of sixty male voices in Pittsburgh, heard Pauline Jennings, a soprano, in Irish solo in Newark and caught a sending station in Pawamog, Conn., which is conducted by amateurs and heard a jazz band concert given by the policemen's club of that town.

DISCUSSED TRADE
G. T. Milne, His Majesty's senior trade commissioner for Canada and Newfoundland, who is in the city, spent most of this morning with the secretary of the board of trade. He discussed the situation in the city, with respect to imperial trade. Milne's mission is to get in touch with those firms requiring articles supplied from Great Britain and also place before them the opportunities afforded by trade with the mother country. Mr. Milne is on a tour of the Maritime Provinces and will proceed from St. John to the important centres in Nova Scotia.

GETS \$250 VERDICT BECAUSE APARTMENT WAS HEATLESS
New York, May 16.—A jury before Justice Cobhan, in the Bronx Supreme Court, yesterday returned a verdict for \$250 against a landlord for heatless apartment.

The owner did not deny that the apartment had been heatless, but set up his defense that the heating apparatus was defective.

LUNENBURG BANK FLEET SPRING CATCH
Lunenburg, N. S., May 16.—Surveys of the spring catch of the Lunenburg bank fleet shows a total of 48,775 fish, for which \$8 a quintal was paid by the dealers, or, in all, \$390,600. Seventy-three vessels landed so far. The price paid was the same at last year's level, at 45¢. Another catch and the total figures were larger this year.

The schooners are now on their second trip and report that prospects are not good for a large catch.

MONTREAL STOCK EXCHANGE
Montreal, May 16.—(12:30)—Brazilian Traction was the most active stock in the local market today with a turnover of more than 1,000 shares. The price of this issue gained a point over yesterday's level, at 45¢. Another stock to come to the front during the session was Lyall Construction which made new high level for the year at 42 1/2. Steamship issues attracted some attention and both the common and preferred of the Quebec Railway continued to change hands at almost top prices. A stock to make its appearance once more was Forging, the price of which was \$30 a share. This stock a few years ago sold more than 200 points above today's figure, and today's figure was recently being asked.

MARINE NOTES.
The schooner Charles & Vernon is expected to finish discharging her cargo of coal at the Consumers' Coal Company wharf today and will shift to Long Wharf to load lumber.

S. S. Wapland sails from Antilla, Cuba, on May 9, for St. John with a cargo of sugar. She is due in port about Saturday.

The Monmouth arrived in port this morning from New York and docked at the Refinery to complete cargo with re-exports for the United Kingdom.

The Capulin is due tonight from Baltimore to load sugar for the United Kingdom.

The schooner Muriel M. Young called from Sydney for this port yesterday.

The International Division of the Eastern Steamships Lines, Inc., will resume its service from Boston to this port on Monday, May 22, when the steamer Governor Dingley will come on the route. The service may be permanent now, as the company has steamer in view for the winter service, which would handle large freight consignments and about twenty-five passengers. This will depend upon the prospects for business. The present service will be suspended later to sailing from St. John on Wednesday and Saturday, the latter trip to be direct to Boston.

COMMITTEE ON GAME RESERVE

The committee appointed to take further steps towards the formation of an association for the protection of the proposed game reserve in the western end of St. John and the eastern end of Charlotte County has been called to meet tomorrow afternoon at 2:15 o'clock. The meeting will be held in the Board of Trade rooms. At the last meeting of those interested in the project, N. B. Debrisay was appointed convener of the committee, and I. B. Knight to name the additional members.

The committee will consider in detail the information which has been secured on the operation of such associations for forest and game protection elsewhere and will draft by-laws or regulations which will be submitted later to a general meeting of those interested. The committee list was not complete this morning but included T. H. Estabrooks, George E. Barbour, Leon Keith, H. J. Sheehan, J. G. Harrison, F. J. Shreve, George Birtwell, J. Firth Brittain, E. H. Barton, Ronald A. McAvity, K. J. MacRae, Charles A. Owens, C. F. Sanford, F. W. Coombs, C. B. Allan, J. D. Lewin, S. Irons, D. King Hasen, George E. Day, F. W. Damsel, D. J. Corr, J. From the Blue Bird Play

Paraphrasing the words of the spirit of Mother Love to the children, Tilly and Mytyl, "I have stopped growing old; each of your smiles makes me younger by a year; my beautiful dress is made of kisses and caresses and loving looks; Heaven is where you and I kiss each other. But read Maurice Maeterlinck's play itself; it's wonderful, like its namesake."

Automobile Thieving.
It has been suggested as a means of solving the stolen motor car question that the original purchaser's name be stamped in various parts of the car, such as the frame, body, etc., of course, being hidden from immediate view. If the car is sold to any other person the second name could be stamped beneath that of the original owner, and the date of sale placed alongside. This could be continued as often as the car is sold.

New Low Level.
Vienna, May 16.—The Austrian kroner made a new low level yesterday, when it fell to 10,000 to the dollar. At this level manufacturers and merchants bought freely, which augurs further depreciation of the currency.

SMALLPOX CASES.
Dr. J. A. Wade, district medical health officer, has returned to Fredericton from St. Jacques, Madawaska county, where smallpox introduced from the province of Quebec, broke out some weeks ago. He found that the number of cases had increased and that it was necessary to resort to some sixty vaccinations.

Dish Towels and Aprons
Let Them Soak Clean in Rinso.

THEY should be CLEAN, shouldn't they, all those kitchen things—aprons, towels, dusters, wash cloths etc.? But there are so many and you are so tired! Alright, let Rinso wash them. It will—every stain and speck of dirt will rise away after a good soaking in the cleansing Rinso suds. Rinso is the new modern method for the family wash—but use it properly—do not pour the Rinso direct from package to tub—make the Rinso solution first as per directions on the package. Then it guarantees wonderful results.

IF YOU USE A WASHING MACHINE
Soak your clothes in the Rinso suds as usual—for one hour, two hours, overnight, or as long as convenient, add more Rinso solution and work the machine. Rinse thoroughly and dry—you will have a clean, sweet, snow-white wash.

Tender Gums - A Warning

Beware of gum tenderness that warns of Pyorrhoea. Four out of five people over forty have Pyorrhoea—many under forty, also. Loosening teeth indicate Pyorrhoea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—infecting the joints or tonsils—or causing other ailments.

Forhan's positively prevents Pyorrhoea, if used in time and used consistently. As it hardens the gums the teeth become firmer.

Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.

If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

CANOEING TO BE POPULAR THIS SUMMER

Indications Point to Greater Use of Our Splendid Rivers, Especially Canoeing.

Nothing is so characteristic of the adventurous Canadian life as the canoe. Before the arrival of the great French explorer Jacques Cartier, there were living in this magnificent region the Hurons and the Iroquois, whose transportation was almost entirely by canoe. In these days, canoeing is mostly for pleasure, but the same good qualities are expected of your canoe, plus more attractive lines, safety and finish.

It is needless to say that if you are a real paddler you will appreciate the "Huron" canoe, made by the last descendants of the many Indian tribes of the American continent who are still existing in the Province of Quebec at Indian Lorette, and whose principal occupation is the making of the "genuine" "Huron" canoe, to which were added all modern improvements.

This canoe is made of selected cedar cut in the nearby forests and covered with the best canvas, and is entirely hand made by twelve Hurons of the Indian Reserve.

It is just the canoe for pleasure and sporting purposes. The 16 ft. canoe is most suitable for our local waters and the First Class Huron Canoe (the best quality they make) can be bought for \$69.75 in this size. Other grades and sizes in proportion.

Fred R. Garrett, of J. M. Roche & Co., Ltd., King street, is fortunate in having the sale of these staunch craft at very reasonable prices. Be sure and see the advance samples and get your order in early.

Paddle down the river with the "Huron," and take a kodak with you. 5-17

ELECTS OFFICERS

The following officers for the ensuing term were elected last evening at the semi-annual meeting of Local 272, International Longshoremen's Association of Seamen and Lumber Handlers—President, Hedley Currie; vice-president, Frederick Fowle; business agent, Robert McCann; secretary, Freland DeVenne; marshal, William McDevitt; janitor, John Armstrong.

The delegates for the I. L. A., St. John district council, were chosen as follows—

AMile More!

A large user of gasoline, (name on request), after a careful and extended test, told us that the mileage from his car was increased more than a mile per gallon by using Imperial Premier Gasoline exclusively.

BETTER THAN HARD COAL

Soft coal so free from soot that it does not make whiskers on stove covers or pipe and does not mat or clog when burning. It is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to get the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.

MISS MOWATT'S MISSION

When Miss Helen Mowatt of St. Andrews went to Toronto with samples of Charlotte county cottage craft-work she was given a notable reception by the Art Association of that city and the news-papers had much to say of the artistic beauty of the exhibit and what this cottage industry might mean to the people of rural neighborhoods as well as to lovers of industrial art.

This great experiment in Christian unity as do the prairie towns. But in towns ranging from 8,000 people to the barest hamlet railway siding these united churches are proving their worth and winning the hearts of the people.

THE LEAGUE AND THE HOLY LAND

Geneva, May 16.—Pressure from Zionists in all parts of the world has led the council of the League of Nations to reconsider its decision not to take up the Palestine mandate at its present session.

It is still regarded as highly improbable that any action looking to confirmation of the British mandate will be taken at this session, because of the opposition from French and Italian quarters. The Zionist representatives here are pressing for a decision and say a delay of another three months will mean just that much time lost in establishing the Jewish national home.

TOURISTS WELCOME; FAREWELL, COME AGAIN.

Saskatoon, through the efforts of its motor club, will probably shortly have signs erected on its main road entrances bearing a double message to the transient motorist. On the sides of the signs facing the incoming motorist a message of welcome and the address of the secretary of the local club will be placed. On the reverse sides, seen by the motorist as he leaves the city, will be painted the legend: "Farewell, come again." The Saskatoon club has made application for permission to erect signs with civic pride and community spirit will heed this warning." It has had its effect.

Politeness Pays.

The principal of a public school in Flatbush, N. J., has appealed to the boys to preserve the lawns. Instead of the usual threat, the following sign has been placed in a conspicuous place: "Ball playing not allowed. Young men with civic pride and community spirit will heed this warning." It has had its effect.

'FOOL'S PARADISE'
A WONDER-FILM

Paramount Presents Another
of De Mille's Master Pro-
ductions at the Imperial.

The Imperial opened the week yester-
day with a most remarkable Paramount
production entitled "Fool's Paradise."
The paradise in which the fool of the
story is supposed to have lived was
that of caring for a blind man under
an assumed name in hopes of winning
his love from a French dancer with
whom he had become infatuated during
his soldier experiences overseas. It was
a very elaborate nine-reel production and
demonstrated that the art of Cecil B.
De Mille, famous producer, is still in
process of expansion. This is a mag-
nificent picture and it may be maintained
that it is one of the best he has thus
far presented to an admiring public.

The theme, as handled by Beulah
Marie Dix and Sada Cowan, and sug-
gested by Leonard Merrick's notable
story, "The Laurels and the Lady," is
one of absorbing appeal while the pro-
duction in point of directing, setting and
acting is far above the average motion
picture. It is a succession of surprises,
dramatic moments that grow in intensity
as they follow each other on the screen,
and the character portrayals are gems
of mimetic art.

The story deals with the love of a re-
turned soldier for a French dancer who
loves an American girl in a Mexi-
can cantina whose love he spurns.
Through blindness which later comes to
him because of a silly act on the part
of the latter girl, he marries her in the
belief that she is the French girl. He
recovers his sight, annuls the marriage
and in his search for the French girl is
led to Siam, where she proves her
worthiness and forces him to seek his
former wife with whom he finds hap-
piness. Dorothy Dalton is the American
lancer, Mildred Harris the French girl,
and Conrad Nagel leading man. Import-
ant roles are in the capable hands of
Theodore Kosloff, John Davidson and
Vera Faye.

This same picture will be presented to
Imperial patrons today and tonight.
At the matinee there will be only one
show commencing at 2 and ending at
4. This will allow the Y. W. C. A.
athletic exhibition, as advertised. This
evening there will be two shows as usual
beginning at 7 and 9. Tomorrow the
programme will be entirely changed,
when Agnes Ayres and Theodora Kos-
loff will appear in Sir Gilbert Parker's
charming fiction, "The Lane That Has
No Turning." There will only one
matinee again on Wednesday to accom-
modate the second day of Y. W. C. A.
programme.

Showers of Diamonds and Pearls for
BRIDES
A Timely Suggestion for their Relatives and Friends

BLESS her heart! Give her a Dia-

Ware shower. Get together some
lovely afternoon tea days or so before
that happy day. Give her a wonderful
surprise. Imagine her delight when she
sees the sparkling collection of

SMP Diamond WARE
or Pearl

"A Face of Porcelain and A Heart of Steel"

Don't be satisfied to give her just a
kitchen shower. Give her a Diamond
shower or a Pearl shower so that she will
have a complete set of sanitary, long-
lasting, beautiful cooking utensils.

Every good hardware man sells either
Diamond Ware or Pearl Ware. See your
nearest dealer and arrange to have each
person give the bride something different.
One will give a kettle, another a double
boiler, another a dishpan, and so on.
Make your plans now. It is your oppor-
tunity to make the bride-to-be an even
happier girl.

DIAMOND Ware is the
most beautiful kitchen
ware you ever saw. Sky
blue and white outside with
a snowy white lining, and it
has three coats of special
enamel over a base of the
best open-hearth steel. Ser-
viceable as well as beau-
tiful.

Pearl Ware given ordinary
care, will outlast any ware
made. It is Pearl Grey in-
side and out, beautifully
mottled and very smooth.
It has two coats of special
SMP enamel on a base of
open-hearth steel.

Insist
on the
Shield
Trade Mark

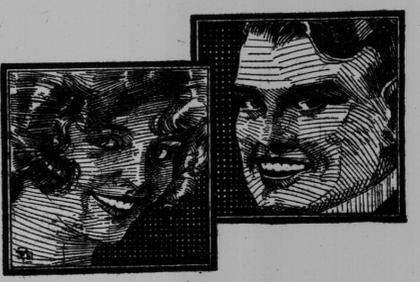

On every genuine Diamond
Ware or Pearl Ware
utensil you will find the
SMP shield trade-mark in
red, green and white. Look
for it. It is your protec-
tion against cheap, one-coat
grades of enameled ware.
And remember—a Diamond
Ware or Pearl Ware uten-
sil that last year cost \$1.50
can now be bought for 50
cents!

UNIQUE HAS A
GOOD ATTRACTION

"The Gutternips," a Universal special
attraction, which opened last night at the
Unique Theatre, offers Gladys Walton
in another typically girlish characteriza-
tion for which she is admirably fitted.
It is very flapperish little figure she por-
trays this time, but different from most
of those she has been seen in heretofore.
It is more human, more ordinary, more
easily found next door or across the
street.
The locale is New York's "Fish Chet-
ty," but the locale that holds the interest
more is the one of the story within the
story. The heroine, Masie, a shop girl
with a hankering for a sweetheart and
a nine-ninety-eight dress, and her chief
delight lies in reading the latest instal-
ment of a thrilling love tale in "Sloppy
Stories" and imagining herself one of its
characters—the milk maid, of course.
As an added attraction Clyde Cook in
"The Toreador" and "Fighting Back," a
good western, proved to be good sub-
jects.

LIGHTNING HITS
GASOLINE TANK;
\$500,000 FIRE
Byronne, N. J., May 15.—A bolt of
lightning struck a gasoline tank in the
yard of the Tidewater Oil Company,
starting a fire which was not controlled
for five hours, and which caused damage
estimated at \$500,000. Three tanks were
destroyed and a network of pipe lines
were burned out.
Plans for raising their quota for the
national memorial to the nurses who
saved their lives in the great war, were
considered at a meeting of the St. John
chapter of the Graduate Nurses Associa-
tion held yesterday afternoon. The
association will be asked to raise about
\$100. Nominations were handed in for
the officers of the provincial association.
BRANCH OF ROYAL BANK
IN THE WEST IS ROBBED
Vancouver, May 15.—The Grand View
branch of the Royal Bank was held up
by three armed men yesterday and
robbed of \$1,000 or \$1,200 in cash. The
men escaped.

UNKNOWINGLY—
You may be ruining your teeth

You cannot afford to risk harming YOUR teeth with
gritty, scouring matter. Neither can you afford to
use dentifrices that do not destroy the decay germs
or remove the coating in which they thrive.

For your teeth's sake use Minty's Tooth Paste. The
highest-priced tooth pastes cannot do more towards
preserving your teeth.

Minty's contains only ingredients
approved by dental authorities.

Minty's cleans your teeth without the aid of coarse
grit. Because it is highly mentholated and anti-
septic it destroys all the decay germs where your
tooth brush cannot reach. It keeps the mouth
healthy, the gums firm, the breath sweet and is an
acknowledged preventive of pyorrhea.

If you use more than half-an-inch you are wasting it
because Minty's is concentrated—more economical.
The large 25c. tube represents the greatest tooth
paste value obtainable.

PARISIENNES USE MA CHERIE!
Minty's MA CHERIE Face Powder is of the type preferred by the most fashionable of
Paris women. Pure, of course! So fine that it cannot be seen on the face, and the
odor is the rich, yet delicate, MA CHERIE Perfume. This powder is so adherent that
it stays on until you wash it off. Most good toilet goods counters carry the full
MA CHERIE series of toilet preparations. If your's doesn't—write us.

DUAL ATTRACTION
AT OPERA HOUSE

George Dale, tenor, direct from a
forty week engagement at the Strand
Theatre, New York, opened yesterday at
the Opera House to tremendous ovations
at each performance.

His voice is a real musical treat, being
clear and true and his selections, "Smile
Through Your Tears," by Hamblin, and
"The World is Waiting for the Sunrise,"
by Seltz, were particularly happy selec-
tions. He sings the songs with a well
balanced appreciation of their sentiment,
wonderful spirit and immediately con-
veys to the hearer the knowledge that
they are listening to a talented and ex-
cellent singer.

The photo-drama "While New York
Sleeps" proved melodramatic and thrill-
ing enough for anyone. The story is
divided into three parts. The first is
a pretty little love picture showing love
building its dream-dust future without
reckoning on the ashes of the past. The
second—little episode of the vampire
style where women put seductive mes-
sages in their garter, the third is

tragedy, showing that the civilization as
we know it is only a veneer and that a
man or woman's true self lies beneath
the surface.

A splendid cast including Mark Mac-
Dermott, Estelle Taylor, William Locke,
Harry Sothorn, and Earl Metcalfe, offer
a pleasing portrayal of the several char-
acters.

"While New York Sleeps" is a picture
that no devotee of the screen drama
would care to miss.
Mr. Dale will remain for two weeks.
The picture for Wednesday will be "Why
Announce Your Marriage," and on Friday
"Conceit."

COMMITTED FOR TRIAL
The case against Ralph Cowing,
charged with breaking and entering the
summer cottage of J. LeLachur and
stealing from there, was finished yester-
day afternoon. Detective Sergeant Pow-
er and Detective Biddecombe gave evi-
dence and the accused was sent up for
trial. Before Judge Armstrong he plead-
ed guilty and was remanded for sen-
tence.
Edward Dawson pleaded guilty yester-
day to having liquor in his beer shop
in Simonds street and was fined \$200
or three months in jail.
Howard J. Harrington pleaded guilty
yesterday afternoon to the charge of
bigamy before Judge Armstrong under
the speedy trials act and he was re-
manded for sentence.

ADVERTISING CONVENTION

Another Phase of the Notable Meeting to be Held in Milwaukee.

New York, May 16—During the last few months, according to an announcement made here in connection with arrangements for the annual convention of the Associated Advertising Clubs of the World, in Milwaukee, June 11 to 15, the National Vigilance Committee of the advertising clubs, which has in charge the great truth-in-advertising movement of that organization, has been fairly flooded with inquiries from business men who want to establish local protective work.

WOMEN! DYE THINGS NEW IN "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

PURITY FLOUR More Bread and Better Bread The Most Perfect Product of the World's Best Wheat Use It in all Your Baking

ing exaggerated statements," said H. J. Kenner, director of the vigilance work. "advertisers have found that the appeal of their advertising is being dulled. If some advertisers are allowed to fool people, that hurts all advertising. During the last few months, when sales have been somewhat harder to make than they were before, a growing number of business men have been unwise enough to attempt to resort to exaggeration. The greater reason for help in the organization of local work has resulted. At the Milwaukee convention in June, Mr. Kenner announced, special attention will be given to the problem of such work in the smaller cities where there are advertising clubs. Most of the larger business centres now have protection of this character, and thirty-five of them have the work in the hands of paid managers of better business bureaus and commissions who, with ample staffs, are devoting all their time. That successful work has been done in smaller cities has been proved through experience, and the committee will make an effort, at the convention, to get interested small city business men in touch with others from communities where such work is succeeding. In addition, there will be three half-day sessions devoted to vigilance work. The first of these will be in the nature of an open forum, and will be staged on Monday afternoon, June 12, as a part of the Milwaukee convention. Everyone interested in vigilance work, from the manufacturer to the small town merchant, is invited to attend this session. Two conferences will be held on the morning and afternoon of the following day, and while these meetings will not be closed, they will be designed especially for a discussion of the problems of better business bureaus and commissions, which are local vigilance committees under the direction of paid staffs. There are now thirty-five such bureaus and commissions, and several others are in immediate prospect.

We send to every home that asks a 10-Day Tube of Pepsodent. Send the coupon for your family's sake, then watch the delightful effects.

Beauty Without Grit Without any harm to the teeth

Don't try to whiten teeth with grit that scratches the enamel. That's harmful. Use a soft polishing agent—the Pepsodent agent. Then combat the dingy film twice daily in this new, effective way. That's what millions of people the world over are doing, largely by dental advice. Look about you and see the beautiful teeth that result.

They, with tartar, are the chief cause of pyorrhea. Stays on teeth Under old methods, much of that film remained on teeth. It made teeth cloudy. Night and day it threatened serious damage. That's why so many brushed teeth discolored and decay. Tooth troubles have been constantly increasing.

That is there to digest starch deposits on teeth before they ferment and form acids. It multiplies the alkalinity of the saliva. That is Nature's neutraliser for the acids that cause decay.

Clouded by film Teeth are clouded by a film. It clings to teeth, gets between the teeth and stays. Stains enter it, then the film, if left, forms the basis of decay coats. That's why teeth lose luster. Film is also the basis of tartar. Most tooth troubles are now traced to that film. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it.

Now dental science, after long research, has found two film combatants. Able authorities have proved their efficiency. Now leading dentists almost the world over are urging their daily use. A new-type tooth paste has been created, based on five modern requirements. The name is Pepsodent. These two great film combatants are embodied in it for daily application. Old ways wrong Pepsodent also aids Nature in two essential ways. It multiplies the starch digestant in the saliva.

We urge you to see and feel these effects, then judge how much they mean. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the amount of the viscous film. See how teeth whiten as the film-coats disappear. Watch these delightful effects for a few days and you will always want them. Cut out the coupon now.

NEW TARIFF WOULD PINCH HOUSEWIFE

Declare 15 to 20 Per Cent Increase May be Expected on Necessary Goods.

New York, May 16—The proposed McCumber tariff bill means an increase of from 15 to 20 per cent. in all retail prices of dry goods, according to an estimate made by the office of one of the largest dry goods stores in the city. That is, the goods sold over the counter by the yard, pair, or dozen are going up at this rate for the shopper, if the McCumber schedule goes into effect. "We don't prophesy," said an official of the firm who computed the retail ratio of increase today; "we know that there will be an increase of from 15 to 20 per cent. on all imported goods, and naturally on similar goods of American manufacture. No one can say whether the advance will stop there. In every probability it will not." Taking a few concrete instances from the price list of this store, for instance, will show the workings of the proposed ratio on some one of the articles of retail trade, which are selected at random to illustrate just what "15 to 20 per cent. increase" means for the shopper. A hemmed muslin sheet, 81 by 99 inches, now selling at \$1.55 retail, will automatically go up to \$1.76, and this additional 93 cents is matched by an increase of five cents in the price of a hemmed muslin pillow case, 42 by 36 inches, which is now sold for 28 cents, but will be advanced to 33 cents at the lowest estimate of advance. Both Sizes Affected. Or take that most useful and ordinary article of feminine summer apparel, the chambray strap-wrist glove, now sold for 95 cents, which will cost \$1.15 in the same grade, a direct increase of 20 cents for the same article. And not to confine the shopping to one sex, men's English wool golf hose now selling for \$1.95 will advance to \$1.95, and men's English woven wool underwear will rise from \$12 a suit to \$14.20. Children are not neglected, either, for the French embroidered nainsook baby's dress now selling for \$3.95 will cost \$4.70 under the new bill, while all French nainsook underwear will have a corresponding rise. What the increase of from 30 and 40 per cent. to 50 and 60 per cent. on linens, or a practical doubling of their duties, will mean at retail has been worked out by a store in the city dealing almost exclusively in linen. This store calls attention to the fact that practically no linen is manufactured in the United States; that is, that 98 per cent of the linen in use in this country comes from abroad, which prevents this increase from appearing as a measure designed to protect the American manufacturer. As an illustration of the linen increase at retail this store has quoted the prices on towels 18 1/2 inches now selling at \$6 a dozen which must be advanced to \$7.25 or \$7.50 a dozen under the schedules of the proposed tariff, while handkerchiefs which may be bought today for \$3.25 a dozen would have to sell for about \$4.50 a dozen. Or, if the shopper should take refuge in home manufacture, she will find on starting out to buy a sewing machine that, although now admitted free, the import duty is from 25 to 40 per cent. in the new bill, and that needles, pins,

vanced to \$7.25 or \$7.50 a dozen under the schedules of the proposed tariff, while handkerchiefs which may be bought today for \$3.25 a dozen would have to sell for about \$4.50 a dozen. Or, if the shopper should take refuge in home manufacture, she will find on starting out to buy a sewing machine that, although now admitted free, the import duty is from 25 to 40 per cent. in the new bill, and that needles, pins,

and scissors are increased about double in duties, which results of course in corresponding increases in retail prices, while the added duties on cotton cloth, both bleached and unbleached, will make homemade sheets and pillow cases advance in cost as well as the ready-made ones from the shops.

Signs of Summer There may be almost enough moisture in the air today to prevent a thirst from developing, but it will not be always thus. Soon the hot days will be on us and then, as we seek something to quench our thirst, handsome show cards in colors will bring to our attention the merits of sparkling, thirst killing, Havelock Dry Ginger Ale. There are thousands of such cards streaming out from our lithographing department at present. New Brunswick Representatives: L. D. COOKE, P. O. Box 114 St. John. Phone No. 1802. Tigers Win Again.
ew York, May 16.—Ty Cobb hurled
her recruit pitcher at the Yankees
the last game of the series and,
aching a heavy assault on Sam Jones,
battling Tigers made it three out of
r from the league leaders, and moved
into a tie for third place with Cleve-
d. Stoner held the Yanks to three
s and won easily, 6 to 1.
At the same time the Athletics com-
sted the downfall of St. Louis by
unding out a 18 to 4 triumph over
St. Louis Browns, who lost another
ance to go ahead of New York. Four
ners featured the game and brought
a total number of circuit clubs in the
ur games to sixteen.
Art Nehf had the better of Vic Ald-
e in a pitching duel, and the Giants
ad it two straight from the Cubs, 1
0, while St. Louis pummeled three
lity pitchers for twenty-three hits,
neters runs and a one-sided victory.
Walter Johnson won another for the
sters, beating Bagby of Cleveland, 3
2, in a mound battle. Collins blanked
icago White Sox, and the bean-eaters
e it three in a row, 2 to 0. Trainor's
er in the tenth game. Pittsburgh a 6

Woodring's Speed.
New York, May 16.—While sprint
corde and field marks have been con-
tently shattered in the last two years,
e quarter-mile record of 47 4-5 seconds,
e by the great Ted Meredith in 1916,
one of the few that have remained
eyond the reach of the present-day
uper-stars.
How long Meredith will remain as the
stest man of all times at 440 yards
ems to be up to the willingness of
llen Woodring of Syracuse University,
e Olympic 200 meters champion, to go
ut for it.
Not accepting Charley Paddock, the
acific coast flyer, Woodring has been
egarded as the fastest man in the world
oday at 220 yards, but owing to his
ather slight build he had not been con-
sidered a record-making possibility at a
quarter-mile until the Penn relay games
cently.

OVER THE WIRE**

George Bouchard, Liberal, professor at
the St. Anne Agricultural school, was
yesterday declared elected by acclama-
tion for the constituency of Kamouraska,
Quebec.
A fire, said to have started in an old
barn where boys were smoking cigars,
swept through the village of Lime-
stone, Maine, on Sunday afternoon, de-
stroying twenty buildings and causing
a loss estimated at nearly \$150,000. The
water supply gave out and calls for
miles distant, and to other towns. Two
women were badly burned and had a
narrow escape from death.
The supreme court of the United
States held in a decision handed down
yesterday that liquor while within the
boundaries of the United States en route
from one foreign port to another, can be
seized under the national prohibition
act. Under this decision liquor landed
at St. John in bond for delivery else-
where in Canada or out of it, would be
subject to seizure while passing through
the State of Maine, via the Canadian
Pacific Railroad.
Fire early yesterday morning destroyed
the blacksmith shop of the W. A.
Hickson estate, at Newcastle. Two
small sheds and the runway of a mill
were also damaged. The fire was of
unknown origin.
One million feet of pine lumber on
Bay du Vin Island, the property of T.
B. Williston, was destroyed by fire on
Indiana city.

numbering 1,000 pieces, will parade the
home stretch of the Indianapolis motor
speedway during the half hour innau-
gural preceding the tenth annual 500-
mile International Sweepstakes race on
Memorial Day, May 30.—The musicians
will be under the leadership of W. S.
Mitchell, director of the Indianapolis
Military Band, and the organization will
consist of nearly forty separate bands,
all of them responding to the wave of
Director Mitchell's baton. During the
parade around the speedway the band
will be preceded by a guard of marines,
and the colors of all the countries rep-
resented in the race will be carried, ac-
cording to the plans, by veterans of the
armies which defended those colors on
the field of battle. Most of the bands in
the major organization will come from
Indiana cities.

LOCAL NEWS

FAST TIME

Nagle & Wigmore received word this morning that the tern schooner, President, had arrived at New York, Conn., after a return trip to St. George, in the fast time of thirteen days. The schooner left New York in ballast on April 25 for St. George, where she took on a cargo of 800 tons of pulp and arrived back at New York on May 11, thus making the trip in thirteen days.

RIFLEMEN OUT TODAY

The first practice shoot of the season will be held this afternoon by the Military District No. 7, permanent rifle association on the rifle range back of the old Shamrock Grounds. It is expected that all the members of the association will turn out to see how their shooting is after the winter idleness. Rifles were much in evidence at breakfast this morning and were being overhauled in readiness for the practice.

"NIL" THE ONLY ONE

The sheet which was put before Sitting Magistrate Henderson in the police court this morning contained only one name that of the felon seen man "NIL". This is the third morning in a week that the sheet has been clear and the fourth morning in the same time that no drunks have been registered at the Central Station. Since last Tuesday there have been only eight drunks arrested, a fine record for a week. The police are still keeping their eyes open for any breach of the prohibition law. Their activities are believed to have caused the "dumping" of a large quantity of spirits, as well as the firing of one beer shop keeper.

COMRADES OF THE FIRE DEPARTMENT AT THE FUNERAL

The funeral of George T. Magee took place this morning from his late residence, 107 City road, to Holy Trinity church for high mass of requiem by Rt. Rev. J. J. Walsh, V. G. Interment was in the new Catholic cemetery. The funeral was attended by a very large number of friends. A detachment of firemen walked in body, preceding the hearse, and led by John Thornton, commissioner of public safety, and Chief Blake. As the funeral cortege passed by No. 4 engine house on City Road the fireman on duty stood at attention, with bared heads.

The spiritual and floral tributes were very numerous. Included in the many beautiful floral offerings were the following: Wreath of pink and cream roses, from No. 3 hook and ladder station, Fortin street; wreath of carnations, from Chief Blake; broken wheel of roses, from No. 4 engine house; wreath of roses, from St. Gregory & Son; wreath of crimson roses, from the Rothesay Club boys; cross of roses, from Nagle & Wigmore; wreath of roses, from Thomas Nagle; wreath from the employees of Donahue's Garage; crescent moon brooch and silver and tributes of wreaths and cut flowers from personal friends.

The funeral of Thomas R. Foster, who died in Vermont on Sunday, was held this afternoon, after the arrival of the body on the Boston train, from the depot to Cedar Hill. Rev. R. A. Armstrong conducted service.

The funeral of Mary Conway was held this afternoon from her parents' residence, 408 Main street, to the new Catholic cemetery.

PUBLIC WORKS DOINGS TODAY

The public works asphalt plant was got into operation today and a large crew of men were put to work repairing the bad spots in the surface of Charlotte street. A crew was also engaged in laying a street crossing in Paradise row at the corner of Harris street.

The work of installing a thirty-six inch concrete culvert and retaining wall in Somerset street, near the head waters of Newman brook was commenced this morning by a public works department gang.

Work was started yesterday by the Stephen Construction Company replacing a section of the surface of Douglas avenue which was found badly cracked after the winter frost had come out. This section is near the entrance to the Prospect Point road.

NEW FIRE ALARM

As a means of protecting the large amount of valuable plant that is stored in the vicinity of the city asphalt plant a new fire alarm box has been installed in that vicinity by the public works department. The number is 76.

Public works officials reported this morning that some automobiles had parked last night on the newly-sown plot which extends along the northern side of Queen square, and necessitated considerable extra work. It was in order to improve the appearance of this side of the square that the old rinder walk was done away with and the plot sowed in grass, and the officials have expressed the hope that motorists will use more care and not back their cars over it.

THE NEVINS CASE

The case of the contested will of Charles Nevins was resumed yesterday afternoon at 2.45 o'clock before Judge H. O. McParlane in probate court. Two witnesses were heard for the contestants and the examination of another started.

Richard P. Ratcliff was called to the stand and Horace A. McParlane was recalled. Charles R. Hazen, of Montreal, was recalled by the contestants of the will in rebuttal, and direct examination by Daniel Mullin, N. C. finished this morning. A little before recess the cross-examination of this witness was commenced and was to be continued this afternoon.

J. P. H. Teed appeared for Miss Susie Smith, beneficiary under the will; Daniel Mullin, K. C., for the contestants of the will, and C. F. Sanford for the executors of the will.

ST. JOHN MAY HAVE RADIUM INSTITUTION

Important Announcement by
Hon. Dr. W. F. Roberts on
Return from States.

Hon. Dr. W. F. Roberts, minister of health, returned home today after a visit to Boston and New York in connection with departmental and hospital matters. While there he secured valuable information and hopes to establish a radium institution in this city. In conversation with a representative of the Times, he said that at the present time there is no radium in the province and that any citizen desiring treatment must travel to upper Canada or United States cities and thus be forced to pay heavily for traveling expenses to say nothing of the cost of the treatment after arriving at destination. As a result of this treatment at the present time is beyond the reach of the poor owing to the prohibitory cost and people suffering from cancer, some forms of tuberculosis and other illness are unable to secure proper attention.

Hon. Dr. Roberts said he feels confident that his investigations will bear fruit and the project looks feasible for the establishment of a radium institution in this city.

In addition to this Hon. Dr. Roberts investigated social service work and health centres where special clinics are housed for various forms of treatment. The Rockefeller Foundation is lending financial assistance towards the establishment of these health centres. Dr. Roberts had nothing definite to give out on this as yet.

Since the establishment of the department of health in 1918, Dr. H. L. Abramson, a noted bacteriologist and pathologist, has been rendering invaluable aid and has one of the best laboratories in Canada. The hospital administration also have secured the services of one of the best radiographers available in the United States, and Dr. Roberts feels that if the radium institution established here wonderful step will have been made towards the general betterment of conditions and placing this province on a health standpoint second to none. People wishing cases diagnosed will be given an opportunity to see the services of these specialists and will not be forced to go elsewhere to receive treatment.

CITY HALL CALLS FOR FINES IN SPEEDING CASES

Three reports for alleged violations of the traffic laws were brought before Sitting Magistrate Henderson in the police court. Only one of the men showed up. He was John Hannah and the charge against him was that of exceeding the speed limit at the corner of Mill and Union streets, brought by Policeman Ginter, who said that he had turned the corner at the rate of fifteen miles an hour. The defendant said that he was probably breaking the law as his car was out of repair and he could not easily shift gears. The sitting magistrate said that he had been notified by city hall that the penalties mentioned in the by-laws must be enforced in all cases and that the magistrate should not use his discretion. If guilty, the communication said these should be fined. In this case a fine of \$10 was paid. The two who did not appear were William Sherwood, charged with speeding in Main street on May 11, and Harold Robertson, charged with speeding in Main street on May 12.

HIT BY CAR, CHILD HAS LEG BROKEN

Lawrence, five year-old son of J. Albert Anderson, 28 Sydney street, was injured in an automobile accident about 10 o'clock this morning in front of his home. The child was attempting to cross the street and ran off the sidewalk to the pavement before an automobile driven by R. Morrell could be stopped. In fact with the rear wheels locked by the brake the car skidded before it stopped, although it was not moving with much speed at the time. When the child saw his predicament he attempted to run back to the sidewalk and seemed to dash into the car which was heading for the curb to clear him. When picked up the little fellow had cuts over the eye and it was found one of his legs was fractured. Dr. Mayes Case, who saw the accident had the child sent to the hospital in the ambulance, the child's mother accompanying him to the institution.

The Sydney-Leinster-King Square junction is one of the trickiest corners in town, a fact the authorities recognize this fact by having a silent policeman at the corner. The chief danger lies in cars dashing in and out of the narrow Leinster street thoroughfare and the speeding on the upgrade past the Court House and also on the down-grade. It might be an added precaution to have the silent policeman bear a klaxon sign. This morning's accident appeared to be a case of a young child's bewilderment, as there was no rush of traffic at the time.

IS REMANDED IN AUTO CASE

Levi Albert Prosser, who was arrested yesterday, was brought before Sitting Magistrate Henderson in the police court this morning and the charge against him, that of bringing stolen property into Canada from the United States, was read. He was remanded to jail for a week. The authorities are undecided whether he will be tried here on this charge or returned to the United States to answer to a theft charge. It was thought at first that he might be deported but it was found that he is a Canadian and a native of New Brunswick so that he cannot be deported. He may, however, be given his trial in the States if circumstances seem to point to that being the better course.

It is alleged that the car in which Prosser arrived in St. John was stolen in New Haven, Connecticut, and that it had the owner's tag on it at the time Prosser was arrested. One of the front tires was badly damaged and the accused said he had driven for a considerable distance with it flat. The steering gear is also said to be in need of repairs, due, it is thought, to the heavy car, a Cole Eight, having been driven over bad roads.
