CANADA ALONE.

It would be interesting if such papers as the Toronto Globe, which are carrying their resentment over the Alaskan award to the point of hinting at separation from the empire, would explain how Canada would have been better off if she had been allowed to settle that dispute with the United States without help or interference from Britain.

As matters stood before the tribunal met, there was a wide divergence between the American claim and ours. But the United States obstinately refused to permit the arbitration of the matter by a commission which in any possible way could decide against them. They would not listen to the suggestion of a tribunal composed of an equal number from either side with an impartial umpire. The only settlement they would agree to was such as could be arranged at a conference of three Americans and three British. If Canada had been independent she must have agreed to this or let matters stand as they were, with the United States practically in possession of all the disputed territory. And if they did agree, the result must inevitably have been a dead-lock, when nothing would have been left to Canada but to allow the Americans to remain in possession or to attempt to expel them by force of arms. Galling as the alternative would have been, would we have dared, unaided, to fight the States for that strip of land?

It is very probable that the decision of the recent commission was prompted more by diplomacy than by justice and that Canada was deprived of certain rights as an alternative to risking ill-feeling between the United States and Great Britain by the continuance of the existing dispute. Justly angry as Canadians are, they must admit that the result would have been the same or even more unfavorable eventually had Canada been acting as an independent country. And they should be able to appreciate somewhat the feelings of statesmen responsible for the whole empire when they prefer sacrificing one section to risking disaster for the whole.

This talk of separation from the empire, except by those who are prepared to accept annexation, is but irresponsible vaporing. Canada has only two alternatives and of them she will certainly choose to remain where she is. It would be a queer kind of revenge upon Britain for giving a small strip of our territory to the United States if we handed over the rest of the country with the strip.

GOLF CLUB TEA.

And Presentation of Prizes a Most Pleasant Function.

The last Golf Club tea of the season was held yesterday afternoon at the links and the affair was one of the most enjoyable ever held at the club's pretty pavilion. The tea practically marked the close of the local season, although a number of the players are sure to use the links for some weeks yet and the most enthusiastic of the players are not adverse to having a game on Christmas day, provided there is no snow.

The tea yesterday was in charge of Mrs. M. B. Edwards, Mrs. Flood, Mrs. E. H. McLean and Miss Givins. The chief interest of the day centered in the presentation of the prizes which were won in the various competitions during the season.

The ladies' prizes were presented by Mrs. John H. Thomson and the gentlemen's, owing to the absence of the president, by Mrs. C. J. Coster.

The winners were:
Relly cup—Miss Muriel Robertson.

MAY QUEEN SOLD.

The popular river steamer May Queen has been sold by Capt. Chas. W. Brennan to Messrs. Harvey and Gage, of Gagetown; William Gray of Millford, opposite Indian Point, and J. P. Yeamans of Newcastle, Grand Lake, Queens Co., who will continue her on the Grand Lake service.

Capt. Brennan's retirement will remove from the river service one of the most familiar figures in the history of steamboating on the main river as well as the Grand Lake.

The May Queen was built by John Retallick of Carleton and she was launched in 1889. Capt. Brennan took charge for Messrs. Hatheway & Small, and has been her navigator ever since.

Capt. Brennan will spend the remainder of his days in a retired sort of way, though it would be idle to suppose he will entirely blot out associations of his past fifty years up and down the noble St. John. Mr. Brennan the younger is to enter upon a new venture, the hotel business, and in partnership with his brother will conduct the enlarged and modernized Alexandra, on Carleton's historic heights, having implicit faith in the future of that section of the city when the winter port business is established beyond doubt, the unexcelled seaside qualities of the Bay Shore are found out and the street railway cuts down long distances between crowded parts of the city and its westerly extremity.

Coughs, colds, bronchitis, and other throat ailments are quickly relieved by Oxonolene Tablets, ten cents per box. All druggists.

TAMMANY ON TOP.

The Tiger Carried New York by Over Seventy Thousand Plurality.

NEW YORK, Nov. 3.—After a remarkable campaign, in which there was united against him nearly all of the newspapers and practically every clergyman in the city, George B. McClellan, son of the Civil War general, was today elected third mayor of Greater New York over Seth Low, fusion candidate, the present mayor, by a large plurality of about 10,000. Edward M. Grout was elected comptroller, and Charles V. Fornes president of the board of aldermen. These two men were originally on the fusion ticket and were endorsed by Tammany, whereupon the fusionists took their names from the Low ballots and nominated other candidates. In spite of this defection, however, McClellan, Grout and Fornes carried Kings county.

A surprise was the low vote for Wm. S. Devery, former chief of police, who ran on an independent ticket, which was given practically no support. This result shows a tremendous change of public sentiment since Mayor Low's election two years ago, when he won by 51,832. At that time he carried all the boroughs but Queens, and his plurality in Manhattan and the Bronx being 5,683, in Brooklyn 26,767, and in Richmond 783. In Queens, Shepard (democrat) had a plurality of 561. Today McClellan carried Manhattan and the Bronx by about 58,000, a gain of 63,000; Brooklyn by 6,000, a gain of 51,000, and Queens by about 5,000, a gain of more than 4,000. This makes a total net gain for McClellan of about 103,000, as compared with Shepard's vote of two years ago.

Low carried only one borough, Richmond, by about 800 votes. The result was known early, and at 3:15 Mayor Low sent a telegram of congratulation to Col. McClellan. Col. McClellan, who is at present a member of congress, made the following statement:

"I am deeply grateful to my fellow citizens for their confidence in me. I renew the promise which I made before the election. This victory should encourage and unite all democrats for the presidential contest in 1904."

Chas. F. Murphy, the leader of Tammany Hall, said: "The figures speak for themselves and the people have spoken. Of course we are pleased at the result. It bears out the figures we gave. If the election had been a week further off the chances are that Devery would have polled a larger vote than Low. The campaign was one of the most interesting in the history of New York city."

From the fall of darkness till long after midnight the Tenderloin scene of noisy revel. The vigorous hum which commenced as the first few bulletins appeared soon grew into the most tremendous human demonstration of delicious joy that the Tenderloin of the city itself has ever seen.

PHILADELPHIA, Nov. 4.—Republican State Chairman Penrose gave out a statement at 1 a. m., claiming that his party has carried the state by 200,000.

RECENT FUNERALS.

The funeral of W. J. Rutledge took place yesterday afternoon at 2:30 o'clock from his late residence, 288 Pitt street. Rev. Dr. Fotheringham and Rev. C. W. Hamilton, were the officiating clergymen. The remains were interred in Fernhill cemetery.

Grand Requiem High Mass was celebrated in St. Peter's church Monday morning upon the arrival of the body of Mrs. Mary Collins from her late residence, Main street. Rev. Jas. Woods, C. S. R., was celebrant. Rev. William White, deacon. Rev. J. Borgman, C. S. R., sub-deacon and Rev. Edgar Scully, C. S. R., master of ceremonies. Relatives bore the pall and burial was in the old Catholic cemetery.

CONGREGATIONAL REUNION.

A congregational reunion was held in the school room and parlors of Centennial church last evening. Rev. G. M. Campbell presided and made an address at the opening. A short musical programme was rendered, consisting of solos by Miss Cochran, Mr. Ritchie and Mr. Appleby, and a violin solo by Morton L. Harrison. The congregation filled the rooms, and a very social evening was spent. A committee of young ladies and young gentlemen served refreshments during the evening.

The congregational Thanksgiving service will be held this evening, beginning at 8 o'clock.

MOOSE SHOT BY LADIES.

Peter Campbell, taxidermist, received yesterday morning from Newcastle two large moose heads to mount. The heads are good specimens, one measuring 50 inches across the antlers and the other 40 inches. They were shot by Miss Hutchison, daughter of Edward Hutchison, and a lady visitor from Toronto about two weeks ago. The animals were found on Mr. Hutchison's own lands. Mr. Campbell is also mounting a fine caribou head obtained in the northern woods. The animal was shot by Frank Williams of the C. P. R., who presented the head to Rev. R. J. Coughlan, who is having it mounted.

TEAMSTERS AGAIN.

The teamsters held their regular meeting last evening and transacted routine business. It is intended in the near future to hold a lottery, when five prizes will be drawn as follows: 1st, storm blanket; 2nd, ton of hard coal; 3rd, set of dishes; 4th, barrel of flour; 5th, pair of rubber boots. On the evening of the drawing a smoker will be held. Ticket holders will be given free admission. A strong committee has the affair in hand and success is assured.

ALCOHOL AND DRUG ADDICTIONS. THE HUTTON-DIXON ANTIDOTE FOR A HIGH-CLASS PHYSICAL HOME TREATMENT.

This treatment has been publicly endorsed before the Congress of Bishops, and at Father Matthews' anniversary also by Clergymen from their pulpits, influential public journals, and by officials of Temperance Societies of all denominations in nearly every quarter of the globe. Among the distinguished persons who have investigated the Hutton-Dixon treatment, and who have pledged their names to be used as patrons, are THE DOWAGER DUCHESS OF DEVONSHIRE, THE COUNTESS OF DENBIGH, THE LADY EDWARD TALBOT, THE LADY PRADDER, THE MARQUIS OF BUTE AND OTHER PROMINENT PEOPLE.

The Hutton-Dixon Antidote quickly and permanently removes all desire or need for alcoholic drink or drugs of any kind, even in the most advanced cases. It is warranted to be purely vegetable, free from narcotics and absolutely harmless. Can be carried in the pocket and taken privately, thus dispensing with the publicity, loss of time and expense of an institute treatment. There are no depressing effects from the use of this medicine. On the contrary, the system, debilitated from the excessive use of intoxicants or drugs, is thoroughly built up and the patient restored to the same condition, mentally and physically, as before the habit was acquired. No hypodermic injections used. The treatment has been thoroughly tested and the results vouched for by the following well known clergymen:

Rev. J. A. Foydler, Rev. M. Martineau, Rev. M. Gauchier, Rev. Father Galwey, Rev. Father Strubbe, Rev. Father McAllen, Rev. M. Taylor, Rev. Joseph Egger, Rev. A. M. Coventry, Rev. Father St. Pierre, Rev. Father Quinlan, Rev. Father Gault, Rev. B. J. Fitzgerald, Rev. Father Kelly, Rev. Jas. H. Hixon.

I. C. R. CONDUCTORS

And Brakemen Expect a Favorable Answer to Their Demands.

MONCTON, Nov. 2.—

The conference between General Manager Pottinger and the grievance committee of conductors and brakemen of the Intercolonial was continued today, most of the time being taken up in going over different schedules and presenting reasons why the increase of fifty cents per day should be granted. The general manager seemed much impressed with the case advanced by the conductors and that they will receive all or practically all they ask for. They base this confidence largely on the fact that their claim as being paid less than men similarly employed on other company roads in Canada was unanswerable, while the general manager was obliged to admit that they gave equally as efficient service and that the cost of living is not materially different. Representatives of the men will remain here tomorrow awaiting Mr. Pottinger's answer.

The general manager's private car went north tonight for the accommodation of Finance Minister Fielding, who contemplates a trip to New York. The new Roman Catholic church at Melrose, parish of Botsford, will be blessed and dedicated on Wednesday, 11th inst.

DOCTORS REPORTED.

John B. Jones Takes Action Against
Physicians For Not Reporting
Births.

Registrar of births, John B. Jones, has reported the following physicians for disregarding the law relating to the registration of births: Thomas Walker, T. D. Walker, H. G. Addy, G. A. B. Addy, M. MacLaren, Chas. Holden, D. B. Berryman, A. F. Emery, J. A. McIntyre, J. W. Daniel, James Christie, S. Skinner, B. S. Price, B. F. Broderick and A. A. Lewin. These physicians have been served with notices to appear in the police court this afternoon. The trouble seems to be that the physicians did not report to the registrar when registering births. Some of the medical men claim that the law does not require them to report to the registrar, and that the registrar will find himself somewhat astray when it comes to interpreting the law. It appears, however, that many of the physicians are unaware that the act of 1887, regarding the registration of births, has been amended so as to require them to make personal returns within five days after each birth. This amendment was obtained by the registrar himself, in 1894. Mr. Jones says that if the physicians are allowed their own way in registering births the record will be practically a dead letter from a statistical point of view.

THE RED BOOK FOR NOVEMBER.

The November Red Book has just come to hand. As usual, it is full of bright interesting stories, and is embellished with many beautiful gravures and other illustrations. The cover design is a portrait of Miss Maude Fealy, painted from life by Gustave C. Widney. The photographic art studies are splendid specimens of American beauty. As for the stories, there are fourteen of them and they range all the way from grave to gay and deal with subjects of all kinds, from the material things of this world to problems of religious phenomena and the re-incarnation of souls. But all are alike absorbingly interesting with a human element in each that holds one irresistibly until the end is reached. The humorous stories are sparkling and fresh, impressing one with a sense of gaiety, which one seldom gets from reading the alleged comic literature of the present day.

NATURAL HISTORY SOCIETY.

The November meeting of the Natural History Society was held last evening, Senator Billa presiding. J. D. Lewis was elected a member. Among recent donations received were a collection of pipes from S. W. Kain, New Brunswick, Wm. McIntosh, and a cast of fossil prints from Dr. G. F. Matthews. W. H. Moon, of Scotch lake, reported the discovery of the Thecla Acadica, a butterfly new to this country. Dr. G. F. Matthews read a paper on fossil footprints, and Dr. G. U. Hay read portions of a paper prepared by Prof. Ganong on the physiographic history of the Oromocto and Keswick rivers.

DIED LAST NIGHT.

Mrs. Margaret Clarke, a well known resident of Gilbert's Lane, and widow of John Clarke, died very suddenly last night about 11.30. She kept a small store near her residence, in which she was engaged up till 11 o'clock. About that hour she was suddenly taken ill and had to be helped into the house, where she died soon after. Deceased leaves one son, who is employed in the water works department. The funeral takes place this afternoon at three o'clock.

A TIP FOR ST. JOHN.

At a meeting of the Digby town council, held last Thursday night, it was decided to adopt the Curfew law. The bell was rung at 9 o'clock. Saturday night and the small boys made themselves scarce. It looks as if the police-men would have but little trouble in enforcing the law.

The compulsory school law is being strictly enforced this week and will continue to receive the special attention of the chief of police.

NO EXCITEMENT THIS YEAR.

There is a feeling of regret among some of the railroad and steamboat men that the government has seen fit to give Chris. Nichols a job in the depot, for it is feared that during the winter he will not get as much as usual with the immigrants. For this reason the officials will miss the interesting encounters between Chris. and John the Greek, which in former seasons made life bearable.

APPLE INSPECTION.

City Dealers Protest Against Fraud
of Apple Growers — Closer
Scrutiny of Fruit Demanded.

For some time there has been considerable complaint among citizens and fruit dealers regarding the inspection of apples offered for sale on the local market. It often happens that barrels of Nova Scotia apples which have been purchased as first class, turn out to be rather poor second class, and are falsely marked. The apples on the top of the barrels are good enough, but lower down in the barrels they are of poor quality and have not been honestly packed. In these cases when private persons set foot on a barrel of apples, but usually the thing goes no further. With dealers it is different, for as they buy in large lots the loss on these amounts to considerable.

A day or two ago E. A. Goodwin bargained for a portion of a shipment of apples which had been marked XXX, or first grade. Later, upon looking at the apples, he found that they were only second grade. They had been falsely marked, but had passed all right on the market. The markings on the barrels were changed and the apples finally purchased as seconds. Back in October a conviction was obtained by the inspector, but the schooner Temple Bar for selling falsely marked apples. This conviction aroused unfavorable comment in Nova Scotia, and J. F. Estabrook & Son, who handled the apples, had a letter from a dealer in Bridgetown, in which it is stated that such actions on the part of the inspector will tend to keep away from St. John thousands of dollars worth of apples which might otherwise come here.

This is what the dealers want. They do not desire any decrease in shipments but would be pleased if the fruit which does come could be depended upon to be as represented, and at the present time this is not the case. The dealers claim that for a proper system of inspection every barrel or at the very least one barrel of every lot should be examined.

Mr. Gandy, the local inspector, explains to the Star that his duties are chiefly in connection with the marketing of apples, and that he is not in a position to require that the name and address of the packer, the variety and grade of the apples shall be marked. Mr. Gandy sees that these four things are found on every barrel, but here for him to require that the name and address of the packer, the variety and grade of the apples shall be marked. Mr. Gandy sees that these four things are found on every barrel, but here for him to require that the name and address of the packer, the variety and grade of the apples shall be marked.

In reply to this the dealers say that under section 8 and 7 of the act Mr. Gandy should examine the markings on the barrels, and if the sections forbid false marking and fraud in packing, and section 8 provides the penalty for such offences. The present practice, they say, is to let the fruit should be inspected. It is all very well to say that action can be taken if the apples are not as represented, but this will not work. Often barrels of apples are sent to country customers and in such cases if complaints were made it would be necessary for the inspector to go all over the province. The dealers want the apples examined and believe that if decided steps were taken a stop would soon be put to the present false packing and false marking.

It is related that when Artemas Ward lectured on Africa he had a map of that country on the stage. After talking for an hour and a half on every imaginable subject other than Africa, he pointed to the map and advised his audience that if they went home and studied it for twenty minutes they would know far more about the country than he did.

Rev. Peter McQueen's lecture last evening was about the same as Ward's. As a portrayal of Count Tolstoi it was a farce, but as an evening's entertainment it was most interesting. Mr. McQueen dealt chiefly with St. Petersburg, Moscow, and the Trans-Siberian Railway, going aside at times to mention the Russian policy regarding Sweden, India and China. He worked in some references to the Philippines, home life in England and the slumps of New York, excusing these vagaries for the reason that Tolstoi had asked him about such places.

The pictures, of which a great many were shown, were excellent, but the manipulator was often slow, and carrying out the Artemas Ward idea "the moonlight was not onto his job." However, the pictures were really good.

Mr. McQueen is a gifted speaker, a man of unusually wide and varied experiences, and entertained his audience for nearly two hours. Had his lecture been on Russia it would have been satisfactory, but in so far as Tolstoi was concerned those who went came away none the wiser. His remarks on this personage were brief, and aside from the point. The only definite fact, so far as could be learned, was that Tolstoi is possessed of childlike innocence. But the palaces and churches of St. Petersburg and Moscow are magnificent.

The lecture was the first in the Church of England Institute course.

Rev. J. A. Richardson presided.

NEW FIRE ALARM.

Wires All Up—Rest of System Will Be Shortly Installed.

The stringing of the wire for the new fire alarm system was completed yesterday afternoon, and it is thought that the work of installing the patent switchboard, storage battery and other improved appliances, in use in fire departments in the leading cities of the United States, will soon be begun by the Gamewell Co. of Boston.

The work of stringing the new wire was commenced on the 21st of September last, and together more than twenty-two miles of insulated copper wire were used. Superintendent of Fire Alarm Leonard is pleased with the job, and says that the quickness and thoroughness with which it was done creditably won him the praise of Webb and his crew of efficient linemen. All the connections have been made and the current from the old gravity battery in No. 3 engine house is at this moment running through the new wire.

FOOTBALL.

Arrangements have been completed for a football match with the St. Joseph's College team on Friday next, at 2.30, on the Shamrock grounds. The college team is a strong one, but St. John feels confident after her victory over Mt. Allison last week. At any rate a good game is certain. On Saturday afternoon at three o'clock St. John will face the University of New Brunswick team on the Shamrock grounds, and hope to be as successful as they were last Saturday. Football is certainly looking up here, two senior matches in one week with outside teams is something we have not had for years, and the public should turn out and give the boys their support. A full practice is called for tomorrow afternoon on the Shamrock grounds.
