AYLESWORTH TURNS DOWN WHITNEY GOVERNMENT

When Asked to Disallow Certain Recent Acts He Declines; on the Ground That They are Too Ridiculous to Bother About.

OTTAWA, Ont., May 1.—Although the Dominion Government had decided not to allow the several acts passed by the Ontario legislature in the session of 1902 which have been called into question, the fact of non-allowance is due rather to the desire of the minister of justice and his colleagues to interfere as little as possible with provincial rights in the matter of legislative jurisdiction rather than to the legislative wisdom of the Whitney government.

In a minute of council passed this week recommending to his excellency non-interference in case of the provincial statutes respecting the legality of the mining statute in the Cobalt Lake and Game Act, and the Act amending the Marriage Act, the minister of justice, who is the minister of justice, has indicated the Whitney government has over-riden constitutional rights and ordinary justice.

In the matter of the "Big Sick Legislation" put through by Premier Whitney and his colleagues, Hon. Aylesworth, and designed to keep railway and other public utility corporations from seeking federal charters, the minister of justice points out that the bill is unconstitutional and that any attempt to act under its provisions would never be made and that the bill would be promptly set at naught by the courts, no further notice of it need be taken.

Visit Sweden at the Nickel Today That Sweden is a far more beautiful country than most people on this side of the Atlantic imagine will be unmistakably evidenced at the Nickel today. The waterfalls and torrents are most impressive, grand in their uncontrollable power and numerous pools, brooks, etc., prove what a paradise it is for anglers. This picture is brand new, dated April 27th. A recollection of the American civil war is revived in a pictorial film—1,000 feet long—entitled A Famous Escape, being a pictorial enactment of the renowned escape through a hand-dug tunnel of numerous Northern soldiers from Libby prison. The struggles of the half-starved men to gain their liberty tell a tale of great suffering that will be interesting because of its historical worth.

At the Sign of the Big Five The amateur performance at the Princess last evening was one of the best ever put on at this popular house. There were over ten contestants. In the minds of competent judges the prizes were awarded to Duplessis and Welsh. Miss Hazel Casseely and Miss M. Ellis, the vocal numbers by Miss Ethel Alchorn and Miss Casseely were very well received. Dipp and Welsh have a fine act that with a little working out is bound to be an excellent comedy, particularly in the statue work, while Welsh is one of the best clog dancers the "Old Country" ever gave birth to. For today a varied bill has been arranged.

The male population from 15 years and upward having been ordered away for portage or for gathering rubber. FRENCH CRUISER CONDEMNED. Vessel of 11,000 Tons to be Converted Into a Hulk.

PARIS, April 30—It is announced that the large armored cruiser Jeanne d'Arc, of the northern squadron, will not form part of the squadron which will escort President Fallieres to England. The examination of this vessel in dock has shown that she has suffered much more severely than was thought from her repairs in Moroccan waters, and from the boiler explosion which occurred on board.

The Jeanne d'Arc will have her guns removed and will be struck off the effective list of the fleet. She is to be turned into a hulk.

Another cruiser will replace her in the presidential escort.

The Jeanne d'Arc is an armored cruiser of 11,000 tons. She was built at Toulon at a cost of \$4,732,335, and was completed so recently at 1903.

SUICIDE ENDS HIS WOE. Man Fills Flute With Sulphuric Acid and Drinks It.

PARIS, April 30—Jules Bernas, a flute player in a music hall in the Faubourg St. Denis, chose a novel method of suicide yesterday because one of the "stars," a singer, would not reciprocate his love.

The flute player sent her affectionate letters, and when she returned them he showed the most profound melancholy. Yesterday afternoon he went to her flat and declared his affection.

Unfortunately, the singer received his declaration with laughter, whereupon the disappointed flutist returned to his lodging and prepared to die.

He dressed himself in evening clothes, and the other lodgers heard him playing various doleful melodies on his flute. Then he filled the instrument with sulphuric acid, which he drank with the result that he died within an hour.

On the table St. Bernas left a note, which read: "Marie, I love you; as I have lived by my flute, so shall I die."

LOST \$5,000 WORTH OF JEWELRY; WILL GET IT IN ST. JOHN

MONTRIEAL, April 30—James Madon, a porter at the Windsor street station of the Canadian Pacific, this morning picked up a bag containing \$5,000 worth of jewelry in the baggage room of the station. Later in the day it was identified as the property of a Mr. and Mrs. Burroughs, from England, who arrived in the city on Tuesday morning en route from the Orient.

They missed the jewelry while here, but diligent search failed to find it, and they left for St. John, N. B., last evening. The jewelry was sent on to them this evening, and they will receive it before their steamer sails.

FOUR THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (INC.) at St. John, New Brunswick, every afternoon (except Sunday) at \$5.00 a year.

Every little while someone gets up to protest against the expenditure of enormous sums of money and navies and the waste of energy on the part of inventors in devising new ways of killing people.

Midnight came and still the bore remained. "Do you like music?" asked the beautiful girl, just to break the monotony.

Refus chose once endeavored to make a witness give an illustration of an all-mindfulness. "What," said the witness cautiously, "I should say that a man who thought he'd left his watch to him, and took it out of his pocket to see if he had time to go home to get it—I should say that that fellow was a little absent-minded."

H. G. Pike, President of the National Humanitarian Alliance, said recently in New York in an address upon humanity: "Humanity abolishes that cruelty, often thoughtless, which keeps current speeches such as one I overheard a boy of ten make to a boy of eight."

Hotel Clerk—What's the reason that you're going to leave us, Miss de Sweet? Are you dissatisfied with the service here?

Miss de Sweet—Oh, not at all; but the stationery at the Smith House has such a beautiful crest on it and locks so much more genteel than yours that I've taken rooms there.

GIRL DISROBED BY A BOLT OF LIGHTNING

Burned, Stripped of Clothing and Shoes, Victim Jokes About It

LANCASTER, Pa., May 1—To have her body entirely denuded of clothing, her shoes stripped from her feet, all the hair singed from one side of her head, her body seared along the entire right side by a bolt of lightning, and yet to live to joke over the matter as if it were no unusual occurrence—all this happened today to Jennie Martin, the 15-year-old daughter of Abraham Martin, a farmer, residing near Bird-in-Hand.

At the time she was playing a harmonica, and with the instrument in her hand she started for the barn. Just as she reached the building a bolt of lightning struck one end of the structure, completely demolishing it. The bolt struck her on the right side of her head. The harmonica which she held was cut in two.

CHOICE OXFORDS FOR WOMEN

Our claims for superiority in Women's Oxfords and "Ties" are not based alone on the fact that they are correct in the matter of shape, style and leathers—but that they are built to fit. That they will not slip or slide at the heel, will not cut and rub the ankle joint, as most Oxfords do. That they are built on correct principles, to our order. \$1.00 up to \$4.00

Saturday Buyers

will be interested in our fine display of **Men's Spring Clothing**. The prospects of a fine Sunday should lead many men here for fashionable Ready-for-Service garments. A few hints will afford an idea of the extent of the stock and variety of qualities and prices:

Toppers

the stylish, handy, short overcoat for young men. Light and medium colors, \$10 and \$12 to \$20. A choice black vicuna, \$13.50.

Chesterfields

the ever correct knee-length overcoats—black cheviot, silk front, \$12; greys and blacks, \$12 to \$25—the latter silk lined throughout.

Showerproofs

Rain or shine coats. Protection against showers and good form cool days and evenings. Specials at \$12; other qualities up to \$24.

Mackintoshes

absolutely rainproof, \$10 and \$15; rubber coats, \$8, button to neck with military collar. Don't confound these two lines with the old time burlesque coats—you would hardly notice the weight of these. New lines of rubber coats to arrive next week.

Spring Suits

Browns, olives, greys and mixed effects; \$12 to \$25. Those at \$15, \$18 and \$20 meet special favor with customers. There's a dash and swing to every suit that will make a man glad he's inside of it. We complete them to your measure.

Blue and Black Suits

Our special serge suit, blue and black at \$18 is unequalled value. Does not shine and easily kept clean. It turns out so well that men come back for it, and send their friends. Other staple suits are blue and black chevots at \$19 and a fine black vicuna at \$22. A new line of \$15 blue and black suits expected next week.

Spring Trousers

We carry a wide range of qualities to suit all requirements, \$2.50 to \$7.50. Men who want in a hurry as good a pair as they can get to order, will find them here ready to complete in an hour or two. Dark grey working trousers, \$2.50—solid value.

Fancy Vests

washable. A man's wardrobe is not complete these days without a colored wash vest. Suppose you wear one and be in style? We sell so many we are able to price them at small profit. \$1.00, \$1.25, \$1.50 to \$4.

Prince Albert Coat & Vest

Black vicuna, D. B. frock coat and vest, special quality silk facing, correct material and style, \$20.

"I attended a King's Birthday party in the corner of the court with his face as Fanjore Castle," writes Mr. Kola to the wall for three hours. In the same district where this took place natives must take off their shoes when entering a government office, and are not allowed the use of a chair unless they can show a special authorization entitling them thereto.

IMMIGRATION AND EMIGRATION

Giving round figures for the purpose of easy comparison, 80,000 people went back to Europe from Atlantic ports in the year 1908, while 560,000 went back in the year 1907. An even more significant comparison is to be found by taking the last three months of the two calendar years. In October, November, and December of 1908, 121,000 passengers returned to Europe, while 284,000 returned in the corresponding months of 1907. Still more interesting perhaps are the figures for the opening weeks of the present year as compared with those of last year. We have obtained statistics for the ten opening weeks including January, February, and nearly half of March. During these weeks, to give the exact figures compiled by the steamship companies, the arrivals from Europe were 471, and the departure from America for Europe were 131,740. We are, of course, confining our comparison to third-class passengers. The figures for the opening ten weeks of 1907 were almost exactly reversed—that is to say, 138,652 arrived from Europe, and 45,842 took the return voyage. The steamship companies thus carried about the same number of passengers, but last year three-fourths of the steerage travel was from Europe to America, while for the corresponding period this year three-fourths of the travel has been from America to Europe. There is today no great movement based so precisely upon accurate information as the movement in the labor market. European workers do not come here unless there is a definite demand for their services, and millions of letters go back and forth attesting or retarding the movement, according to conditions. There is of course a normal return migration that has to do with the seasons of the year and certain kinds of employment. But beyond that normal movement, changes in the ratios are to be regarded as a sort of barometer indicating the condition of industry and trade in the United States.

A WOMAN'S DARING VENTURE.

"To arranging an elopement with hire of four motor-cars, \$6,000." To the average reader the price may seem somewhat high. The clients, however, of the particular elopement agent from one of whose bills this item is taken usually possessed such an abundance of this world's goods that the price of bringing about a realization of love's young dream was merely a matter of detail.

HER SPECIALTY.

Her specialty was Miss. Helresses' elopements were Miss. Helresses' specialty. Her charge for driving a pair of runaway lovers, say to Belgium, was \$2,000, and for this sum she supplied three automobiles. One acted as a pilot and went ahead to get paper settled at the frontier custom house, the second covered the fugitives, while the third settled any difficulties that might have sprung up on the road. Sometimes a fourth car was used to throw the pursuers off the track, or to act as a relief car if one broke down.

LOSS OF FAIRY.

But, alas! Jeannette and Jacques now mourn the loss of their kind fairy: for Miss. Helresses' the originator of the automobile elopement agency, died in Paris a short time ago, and her estate has recently been declared bankrupt. It is a sad sequel to the delightful romances in which Miss. Helresses' figured.

HER SPECIALTY.

She was a most charming woman, about thirty six years of age, with curly brown hair and a pair of laughing eyes. At one time Miss. Helresses' was an actress, but afterwards established an automobile garage in Paris. And then, being tired of doing things that everybody else had done, she conceived the daring idea of an automobile elopement agency. At first it was a splendid success. In a very short time Miss. Helresses' arranged six elopements, and her clients were so grateful that she was asked to stand as godmother to the first baby of one couple, who named the child Bob in happy remembrance of the runaway match, while another couple sent her picture postcards at all the places they visited during their honeymoon.

CLEVER RUSE.

On one occasion Miss. Helresses' arranged an elopement from Pau to Cherbourg, the couple intending to catch there the German liner. In order to throw the pursuers off the scent, another car, containing two muffled figures made up to resemble the elopement pair, made its way towards the Swiss frontier. The ruse was successful. The liner was well out of French waters when the car shot over the frontier and the rogue lovers took off their mufflers and laughed in the faces of those who had given them chase. It was a remarkable climax to probably the most exciting elopement of modern times.

Cured of Colds and Croup by Chamberlain's Cough Remedy.

Geo. C. Bowden, of Little Rock, Ark., has used Chamberlain's Cough Remedy in his family for many years, and is seldom without it in the house. He says: "Chamberlain's Cough Remedy has proved a great relief to our boys in their throat and lung troubles. A few doses of it will ward off a threatened attack of croup, and a bad cold is quickly cured by its use. I take pleasure in recommending this remedy to all who are afflicted by this preparation, the fact that it can always be depended upon, is pleasant to take and contains no opium, chloroform or other objectionable drug, has made it a favorite with the parents of young children. When you have a cough or cold, try it and see for yourself what an excellent medicine it is. Price, 25 cents. Large size, 50 cents."

MURDERED BY A CLOWN.

Man Slabs Mother-in-Law and Cuts Her Husband's Throat. PARIS, April 30.—A man named Linaas of Toulouse, and a friend, both dressed for a carnival as clowns, called on an old couple named Naudy, the father and mother of Mmes. Linaas yesterday. Mmes. Linaas had left her husband some days before and returned to her parents' home. The husband, on learning that she was out, drew a long knife from the pocket of his costume, stabbed his mother-in-law to the heart, cut his father-in-law's throat, and with his companion, rushed into the street, where he was arrested. The other clown got away and threw himself into the river, but he was rescued by a policeman and imprisoned.

BABIES TO BE CAPTURED.

Soldiers to Adopt Kidnapping to Stamp Out Cannibalism. LISBON, April 30.—France and Portugal have agreed to co-operate in their possessions in Guinea for the extermination of cannibals. During the recent campaign, which resulted in the victory of the Portuguese troops, some of the natives devoured the bodies of those tribesmen who fell in battle. It has not yet been discovered whether any Europeans were eaten. Instructions have been given to the Portuguese punitive expedition to capture all the children belonging to the cannibals, and to hand them over to more civilized tribes.

CALLS RESURRECTION A PRETTY FAIRY TALE

ST. PAUL, Minn., April 1.—Because he will not recall his publicly-voiced belief that the story of the resurrection of Christ is only a beautiful fairy tale, and because he insists that the theory of the miraculous conception must be viewed in relation to the divine rather than the human life of Christ, the Rev. of science are the ministers and officers of state who stand around the throne and who enjoy not only the authority but the fashion and prestige which radiate from a court. The distinctive features of modern physical science is its close scrutiny of nature and nothing but facts. What is comparatively novel during the last century and a half is the stricter and more systematic examination we bestow upon facts. The aim of these efforts and processes is of course, only the old aim. What novelty there is lies not in the aim but in the scrupulous care to observe, no more and no less, than the facts themselves.

FERRY EMPLOYEES IN UNIFORMS TOMORROW

Committee Today Discussed Minor Matters in Connection With the Service.

The ferry committee met this morning at 11 o'clock. Ald. Baxter presided and there were present: Ald. Holder, Bullock, Spruel, McGowan, Frink, with Superintendent Glasgow and the Common Clerk.

In reply to the chairman Ald. McGowan stated that the new signalling apparatus being installed at the West Side ferry entrance would be completed in a short time.

An increase of \$10 per month was asked by the officers on the ferry service. The matter was referred to the Common Council for consideration.

A communication from Northrup & Co. complained that their team had been stopped and not permitted to go upon the ferry on Saturday last, although there was sufficient room on the boat for the team. The matter was referred to the superintendent.

The chairman said that one of the dock hands on the ferry service is very negligent in duty and should be discharged. He thought that almost anyone could do the work better. This matter was also referred to the superintendent.

Superintendent Glasgow asked that the wharf on the northern side of the Carleton ferry be fixed up so that the ferries could more easily obtain an entrance. Ald. Frink moved that the matter be referred to the Board of Works with instructions that the engineer consult with the superintendent. The motion was carried.

Ald. McGowan said that the ferry wharf on this side of the harbor needed repair very badly. In a general discussion that followed Ald. Baskin expressed the opinion that a bridge should be built across to Navy Island.

Ald. McGowan moved that a committee be appointed to inquire into the matter of extending the East Side ferry wharf. The motion was carried and Ald. Bullock, Frink and McGowan were appointed.

Ald. Bullock asked why the employees of the ferry did not wear the new uniforms ordered for them. The superintendent stated that the uniforms had been in his office since last fall, but the men did not wear them on account of the wet and dirty weather. He said, however, that he would give the men the uniforms tomorrow.

On motion of Ald. Bullock the meeting then adjourned.

LIQUOR DEALERS WILL GET THREE MONTHS EXTENSION

Mr. Hazen Says the Commissioners are Within the Law in Granting This Concession.

Following the decision of the Superior Court which necessitated a reduction in the number of liquor licenses issued in St. John, Inspector Jones, at the request of the commissioners, wrote to Premier Hazen asking if, in his opinion, they could grant the usual three months extensions to those dealers whose names would necessarily be dropped from the list. Pending a reply, the commissioners met, and refused licenses to eleven of those formerly in business. They also passed a resolution to the effect that if Mr. Hazen believed it to be within the law, three months should be granted to those cut off in order that they might dispose of their stocks.

Inspector Jones today received a brief reply from Mr. Hazen. The latter said that he believed the commissioners would be within the law in granting the extensions. Under these circumstances Mr. Jones will follow the resolution passed by the commissioners, and the latter will not likely hold another meeting.

A question also arose with regard to two dealers who applied for and were granted new premises, J. C. Doherty, 27 Charlotte street, who wanted to go to Church St., and J. J. Connor, 9 Sydney street, who wanted a license for 29 Waterloo street. The extensions will also be granted these men. The others who will profit by Mr. Hazen's decision are—

DISAGREEABLE WEATHER FOR FIRST OF MAY MOVERS

Yesterday's weather forecast of wind and rain for moving day brought dismay to the hearts of scores of householders who knew that this morning they had to "get up an' git." Day dawned in the most disagreeable manner, a stiff breeze interrupted at intervals by heavy showers which rained the unfortunate and damaged unprotected furniture. At nine o'clock and for an hour thereafter the sun timidly tried to do its best, but met with only faint success, for the leaden sky came on again with more rain, and much discomfort and inconvenience was endured. The unpleasant weather has continued, making moving a difficult problem for many.

All day yesterday, and practically all last night furniture vans could be seen going through the streets until one wondered how men and horses could keep it up for so long. By day-break the activity was greater, and judgment from the number of teams to be seen the movers are just as numerous as in other years.
