# THE MILLION DOLLAR MYSTERY

By Harold MacGrath

## \$10,000 for 100 Words

IT'S here---the event the entire country has been waiting for---the most costly, most remarkable motion picture production ever brought out---**The Million Dollar Mystery**, nine miles of film involving love, romance and adventure. Today marks the start of this thrilling photo-story by Harold MacGrath, famous author of "Kathlyn." The Unique will present to you, starting today, two-reel installments of this soul-stirring drama once each week. Each installment will be filled with thrills---new thrills. Each scene will reveal sensations never before attempted. As the story progresses, week by week, a startling mystery will be unraveled. And \$10,000.00 in cash will be paid for the best 100 word solution of this mystery.

Think of it! \$10,000 for 100 words. \$100 a word! Simply see this remarkable series of motion pictures---read the story by Harold MacGrath in *The St. John Standard*---and write your solution of the mystery. A clue to the mystery will be given in every installment. Anybody is eligible to compete for the \$10,000.00. It is only necessary to see the pictures and to read the story in order to write your solution. Complete information will be furnished by the theatre exhibiting the *Million Dollar Mystery*. Go today or tonight---see the first installment of this stupendous, mystic production---and get full information about the \$10,000.00-for-a-100-words offer.

The *Million Dollar Mystery* will bring to light the mysterious ceremonies of the Black Hundred---a band of Russian Millionaires bound by secret oaths to carry out their fiendish designs. It will reveal the innermost secrets of this internationally known society. You will see in these amazing films how the dextrous hand of Harold MacGrath has woven love and hatred into every scene. You will witness the experiences of Florence Gray, the millionaire heiress, whose fortune the plotters are attempting to obtain. You will be thrilled by startling surprises---the fall of a balloon in mid-ocean, the death-defying portrayal of a railroad wreck, the breath-taking escapes of the heroine from the clutches of the villains. In these wonderful motion-pictures you will see, for the first time, scenes of the ocean-bottom's mysterious life and vegetation---pictures taken under water at tremendous expense. In the *Million Dollar Mystery* you will find all the film favorites---an all-star Thanhouser cast including Florence LeBadie, Marguerite Snow, Lila Chester, James Cruze, Sidney Bracy, Alfred Norton and Frank Farrington. The enacting of this entire story has been supervised by Lloyd Lonergan, famous director of the Thanhouser Film Corporation.

The *Million Dollar Mystery* is, by far, the most elaborate film production ever staged. No expense has been spared to make this series of motion pictures the most entertaining and instructing photo play every presented. Many of the better theatres will show this stupendous attraction. In *St. John the Unique Theatre* is showing the first two-reel installment of the *Million Dollar Mystery* today and tonight. Hurry round to the *Unique Theatre*---see the performance---and get full details of the sensational offer of \$10,000.00 for 100 words.

This is a most beautiful and artistic design with graceful lines and harmonious detail that make it one of the most pleasing but inexpensive designs. There are many places where this house could be built for less, mostly in the West where wood is cheap or in the South.

A pretty side porch, opens into a light hall with a simple Colonial staircase. To the right is the living room with a fire place and good style mantle, and back of it separated by sliding doors is the dining room with a pretty bay window. At the back of the hall is a little den or sewing room which connects with the kitchen—a convenience where no servant is kept or where the housewife wishes to overlook the work. There is a good pantry between dining room and kitchen, and a large kitchen closet as well as a pot and broom closet. The kitchen is of convenient size, light and airy. The cellar stairs are accessible also from the outside with an entrance at grade.

On the second floor are three bedrooms and large closets as well as a linen closet. There is only a loft above.

### To Banish Wrinkles and Freshen Up Quickly

After a strenuous day outdoors, when winds, heat and exhaustion have combined to take away one's freshness and caused the skin to wrinkle and sag—or after a tedious or fearful day indoors—one often has urgent need for some quick rejuvenation. Maybe there's a party on for the evening, or some other social event. How in the world can one make herself presentable, looking as she does? It's quite easy.

Just get an ounce of powdered saxolite and a half pint which basin at the nearest drug store, mix the two and bathe the face in the solution for two or three minutes. Then look into your mirror and behold the wonderful transformation! Wrinkles have vanished, hooded eyes and sunken cheeks are restored and "faded up" marks of fatigue have flown, and you look so much brighter and younger you can hardly believe your eyes. No one need hesitate to try this, the witch hand and magic blend of perfume, balsam.

PLENTY OF ICE.

One would think that the warm weather of late would have melted all the icebergs on the eastern coast, but such is not the case, as many of the steamers arriving at Boston and New York the past week report seeing them in plenty, some of the boats being obliged to change their course and travel miles out of their way to avoid them. One steamer bound from New York for Philadelphia reports seeing 57 bergs last week off Cape Race. A dense fog prevailed at the time and the steamer for 24 hours was in the greatest danger, being almost surrounded with ice and having hard work in getting clear.

## SERVIA DEFIES WAR

Refuses to Accept Humiliating Ultimatum With Demands for Expiation

RUSSIA MAY TAKE A HAND AND INVOLVE OT

Diplomatic Relations Between Russia and Austria Minister Left Behind Back Serbia's Defiance—Crisis

London, July 25.—The darkest war cloud which has appeared on the European horizon since Germany sent warships to Agadir in 1911 has arisen within 48 hours. The Serbian government has refused to comply with Austria's demands for the exploitation of the Sarajevo murders for which Austria holds anti-Austrian conspirators in Serbia responsible, and for guarantees of future good behavior, of the most humiliating kind ever asked of an independent nation. Ten minutes before six o'clock tonight when the Austrian-Hungarian ultimatum expired, the Serbian premier handed to the Austrian minister of Belgrade Serbia's reply. The minister immediately severed diplomatic relations and started for home. The contents of the note have not been revealed, but the Serbian legation in London understands that it accepted some of Austria's conditions and rejected others. Apparently Austria was resolved to have the whole bill paid or nothing.

The vital question to Europe is whether Russia will come to the rescue of her little Slav brother, leading to the involvement of the other powers and making of the war a dread struggle of Slav against Teuton for European supremacy.

Reports from St. Petersburg say that the Russian army is mobilizing, but it is to be remembered that Russia mobilized several corps when Austria annexed Bosnia and the German Emperor stopping to the side of his ally, as was said, "in shining armor," put a veto on Russian intervention. Austria and Serbia are both mobilizing.

The Serbians have decided not to attempt to defend Belgrade, the garrison having already been withdrawn, according to Vienna reports, and the front from Belgrade to Kraguevatz, a strong strategic point sixty miles to the south. Serbia's refusal to humiliate itself to the extent of its big neighbor has dictated its not unexpected. The Serbs have been in a proud frame of mind since their success in the late Balkan war, and the government which yielded to such demands as Austria's could not last, even the dynasty would be imperilled. Serbia's little ally, Montenegro seems determined to cast it lot with its cousin in war.

A Thorn in Austria's Side.

Serbian partisans abroad advance the theory that Austria has made up her mind to dispose of her neighbor which has long been a thorn in her side and has chosen to do this by the nations of the Triple Entente are handicapped by home troubles.

Great Britain with a threatened civil war in Ulster, Russia with the sharpest strike and France with a political upheaval to strike a decisive blow.

England shows no enthusiasm over becoming embroiled in a war which might prove a great calamity to her interests. As far as opinion can be gathered amid the paralysis which overcomes all British political activities over Sunday, sentiment here sends towards Austria. This is based on the belief that Serbian intrigues for undermining Austria by stirring up national pride in an open war; no nation could tolerate them, and the present exuberant state of Serbian national pride only the sharpest and most peremptory measures could have any effect.

One result of the sudden threat of international complications is to thrust Ireland from the centre of the stage. It may even force the British factions to a compromise, which even the king could not accomplish and a general election under the present circumstances appears out of the question. It is doubtful if even the government's bitterest enemies would want a change in the cabinet and the upheaval of a fierce political campaign while the nation needs to keep a cool head and free hands for the protection of its European position.

Russian Army Mobilizing.

St. Petersburg, July 25.—The mobilization of the Russian army will proceed immediately. The Emperor has fully approved the decision of his ministers to this effect.

## MINISTER OF TRADE WITH AUSTRALIA HAS FALLEN OFF

Hon. Mr. Cochrane Spent Sunday at Railway Centre—On Inspection Tour of Government Roads.

Special to The Standard, Ottawa, July 25.—The Canadian trade commissioner at Melbourne reports that according to official statistics the Canadian-Australian trade fell off last year from 1,138,000 pounds to 1,134,000 pounds. Canada taking 165,193 from Australia, a slight increase, and Australia taking 968,826 pounds from Canada, a decrease of 11,000 pounds. These figures, however, are believed to be below the mark because it has been found that some Canadian products such as apples have been registered as from the United States.

The most noticeable increases in Australian imports from Canada last year were in vehicles, particularly motor cars and parts, of 34,900 pounds; rubber manufactures, 12,900 pounds; agricultural implements, 19,000 pounds; rubber footwear, 5,500 pounds, besides smaller increases in oatmeal, hops, oils, manufacture of wood, machinery and engine. The decreases have been chiefly in fish, fruit, metal manufactures, timber, printing paper and drugs.

Canada took from Australia 9,955 pounds worth of butter or double that of last year, before the war, 81,000 pounds, increase 36,000 pounds; hides and skins 32,000 pounds, decrease of 45,000 pounds.

A ship from St. John, N. B., to Melbourne carried 402 motor cars for Australia and New Zealand. Another steamer now en route carries 428 motor cars.

Halifax, N. S., July 26.—The death occurred today at her residence, Belmont, Halifax, of Mrs. C. H. Cahhan, wife of C. H. Cahhan, K. C. The prominent Halifax Herald financier, Mrs. Cahhan had not been in good health for some time, and on Saturday an operation was performed from which she died early this afternoon. Mrs. Cahhan was prominent in social circles in both Halifax and Montreal. The deceased was twice married and besides her husband, there survives her, four sons and two daughters.

## RIOT IN DUBLIN--Soldiers Fire into Crowd and Kill Four; Several Wounded

### TROOPS OPEN FIRE IN DUBLIN; FOUR KILLED

**TWO SERIOUS ACCIDENTS AT P. E. ISLAND**  
Horse Bolts on Bridge, Occupants of Carriage Thrown Into River—Youth Injured by Rifle Explosion.

Charlottetown, P. E. I., July 25.—There were two accidents on the island last night in which the parties concerned had close calls. Harry Davison and his wife of Lot 40 while returning home from a party had to drive over a bridge across the Morell river. The horse shied, crashed through a temporary railing put up when the bridge was being repaired and all went over into the water twelve feet deep. Davison and his wife were saved with considerable difficulty. The horse was drowned.

**FIRE BREAKS OUT IN GROUNDED "MOVIE" HOUSE**  
Oshawa, Ont., July 25.—The Grand Theatre here, which during the summer months, is used as a picture house, was last night the scene of an outbreak of fire, over 450 people being in the building. The operator was changing his films in the booth when the blue fuse of lighting the film in his hand. A number of the St. John's Ambulance Corps men were inside the building and assisted in putting the people out by the north exits. There was no panic.

**OPENING UP NEW RESIDENTIAL SECTION IN FREDERICTON**  
District Known as "White Chapel" Almost a Thing of the Past.

Special to The Standard, Fredericton, N. B., July 25.—A new block lamping machine and brick attachment arrived here yesterday for the Concrete Builders Limited and is being installed at their plant at Gibson. The block machine is capable of producing 500 concrete blocks per day, the brick attachment 10,000 bricks per day. The plant has been over taxed by orders received and it was found necessary to install this machinery.

**ELECTRICAL STORM HITS FREDERICTON**  
Heavy Downpour of Rain and Sharp Lightning—Farmers May Lose—Trade With the States Good.

Fredericton, July 25.—One of the worst electrical storms in years passed over Fredericton in two sections on Saturday night—the first early in the evening, the second part of the storm occurring after midnight. There was a tremendous downpour of rain which has caused farmers, who are in the midst of haying, some worry and perhaps considerable loss, but the lightning did no damage in the city, although the flashes were unusually bright.

**ULSTERMEN PARADE IN BELFAST**  
Belfast, July 25.—A parade of two full regiments of Ulster volunteers numbering several thousand men was held here tonight. All the men carried rifles and their equipment included several machine guns, which were strongly guarded. The marchers traversed the principal streets of the city and their demonstration, the boldest exhibition of Orange strength attempted to date, in the home rule struggle, aroused great enthusiasm.

**FOUR FATALITIES FOR WEEK-END IN TORONTO**  
Toronto, July 26.—Four fatalities marked the close of last week in Toronto. Samuel Brook, a newboy, 167 Huron street, was killed early yesterday evening by an automobile driven by Abraham Orpen, Jr., of 174 Carlton street. He was crossing the road opposite the Westminster apartments on Jarvis street, when a woman beckoned to him and he started to cross the street. He stopped to pull out a paper and was struck. Orpen was arrested but later released on \$5,000 bail.

William Allison, 153 Jones avenue, while suffering from stomach trouble, asked his wife for some medicine. She brought a small bottle from the box in the pantry, but by mistake he swallowed some carbolic acid and died in a short time.

**Attempt to Capture Arms Landed for Nationalist Volunteers Starts Trouble.**

Dublin, July 26.—Three men and one woman are dead and more than sixty persons are injured as the result of a battalion of the King's Own Scottish Borderers firing into a mob in the streets of Dublin this afternoon. Seven of the wounded are expected to succumb to their injuries.

**Volunteers Used Rifles as Clubs.**  
In the affray several revolver shots were fired by volunteers and a corporal and a private were wounded. The volunteers also used their rifles as clubs.

**FLYING BOAT AMERICA.** Hammondport, N. Y., July 25.—Announcement was made today that the flying boat of the Wanamaker Flying Boat "America" had been postponed until October. It was seen this morning that even working day and night the "America" could not be made ready to ship from New York to Newfoundland on Aug. 1 as had been planned.

In the two flights made yesterday one in the morning and one in the evening—the flying boat suffered mishaps. In the morning part of the copper covering of one of the propellers flew from one of her wings. The propellers

were removed and taken to the factory, where they were repaired. In the night flight a water pipe leading to the carburetor loosened from vibration. In this flight but two motors were used and the force of the air turned the tractor screw attached to the third motor.

Postpone Police Enquiry The enquiry into the charges preferred against Chief Clark by the city council has been again postponed till Wednesday. The postponement was made at the instance of Mr. Chandler of Moncton who was appointed commissioner to conduct the enquiry, as he is engaged in law business at Rich-

## RESULTS OF MOOSEPATH HORSE RACES

Olsen D. again a winner in the Class A mixed trot and pace. Margaret Chimes captures the Class B mixed trot and pace. The third meeting of the Park Matinee Driving Club was held Saturday afternoon at Moosepath Park and two good cards were on the programme both classes being mixed trot and pace. Olsen D. took the Class A trot and pace in straight heats with Iowa Parole second and Billy Miller third. Best time being 1:13. The Class B trot and pace having more entries than the former, furnished some good horse racing this also being taken in straight heats by Margaret Chimes with the West Side station, Ed. C. second and Nelda R. third, Shamrock fourth and Lou Rex all fifth. The best time made in this class being 1:15.

### BROCKTON WON AGAIN.

There was a fair attendance at the Marathon around Saturday afternoon when the Brockton Blues played and defeated a picked team called the All Stars. The score was 13 to 5 and the visitors played by far the best baseball. Hanson, Lawlor and Thompson were used in the box for the locals. The Brockton team left for Moncton yesterday and will play the railway town team this afternoon.

## COMMISSION MAY GO IN TWO SECTIONS

Ottawa, July 26.—A suggestion which may be adopted in order to prevent the upsetting of the whole pre-arranged programme for the Dominion's Roy, at Commission owing to their being delayed several days on the steamer Albatross, it will probably be that the commission divide into two sections for the first few days or a week. In this way they could cover all the important appointments for the first part of the trip and then they could re-unite and carry out the remainder of the programme as arranged. Otherwise a great deal of work would be involved in changing the dates for meetings and for special trains and boats, and the men whose evidence on trade and other matters is desired would all have to be advised of the change.

## MAY YET BE CHANGE OF RAISING EMPRESS

Montreal, July 26.—The report that the sunken Empress of Ireland is slowly rising herself from the bed of the river where she lies, off Father Point, is exciting keen interest in marine circles here again in the problem of raising her. At the time of the disaster it was frequently said that the liner could be brought to the surface again if she was resting on her keel instead of her side. If on the keel it would be possible to seal the wound in her side, and close the decks to permit of her being pumped full of air to raise her for towing inshore. While on her side such operations were impossible. Now she has righted herself, partly at least, so interest in her raising is revived. The problem, however, is one for the underwriters to decide, as the ship is in their hands now.

## SENATOR M'MILLAN DIED LAST NIGHT

Alexandria, Ont., July 26.—Hon. Donald M'Millan, senator of the Dominion of Canada, died here at 8:30 o'clock tonight after a short illness. He was in his eightieth year. He was called to the senate by Lord Lansdowne in 1884. He was a Conservative in politics.

William Ennis, of Boston, varnish merchant, is at the Dufferin Hotel.

**FOX INDUSTRY NEVER  
A HEALTHIER CONDITION**

**Great Activity Noticeable in all Departments of Fur  
Farming—Influence of Outside Foxes—Many  
Visitors to Prince Edward Island.**

Charlottetown, P. E. I., July 25—One  
of our most prominent fur men in  
speaking of the industry says:  
"The closing days of July show great  
activity in all departments of fur  
farming. There is a marked increase  
of interest in evidence in comparison  
with the corresponding period of 1913.  
At that time considerable agitation and  
apprehension was felt over the impor-  
tation of foxes into the island, but that  
importation has not proved seri-  
ous in evidence from the fact that the  
industry has never been in a healthier  
condition than it is at present. The  
influx of outside foxes has tended to  
keep the industry within bounds and  
prevent the excessive capitalization of  
companies owning local foxes. In-  
vestors are eager to become share-  
holders in companies and many to  
whom the higher priced and higher  
capitalized companies did not appeal  
bought shares in companies ranching  
patches, crosses and the lower priced  
silver blacks."

These investors, in a great many  
cases, are receiving excellent returns.  
Had these foreign foxes been prevent-  
ed from coming in as some of the fur  
men wished, they would have been  
ranching elsewhere, and the capital  
would have followed them. The fur  
men are now in a position to know the  
good propositions. We will use our  
best judgment in advising you. We  
claim to know the larger Ranches.  
We can get you the right goods. We  
claim to know Fox values. Companies  
for this fall, cash with application. For  
next fall, 10 to 20 h.c. down, balance  
before October. WE GIVE RELIABLE  
INFORMATION. WE ARE ALWAYS AT  
YOUR SERVICE.

Mink Farming  
Mink farming has been brought to a  
high state of perfection by Mr. Wal-  
dron of Tyne Valley. He has devoted  
most of his time and attention to it  
and the returns this year from his  
ranch will be \$3,000.  
Several large ranches are adding  
type over to their stock. The  
mink is a tender animal to rear, the  
wild mink especially when in captivity,  
owing to its suttial tendencies. On  
the other hand the ranch-bred mink  
can be reared successfully with com-  
paratively little effort.

A Healthier Tone  
Reverting again to the fox industry,  
our informant said: There seems to be  
a healthier tone to this industry  
than at any previous period. Options  
are moving freely at good prices. There  
is a good demand for single foxes,  
male and female, from parties who  
wish to mate up. The 1914 pups are  
practically beyond the danger point,  
and those alive at this date can be  
counted on to pay dividends this fall.  
Stories of exceptional good luck are

The conservation of fur-bearing ani-  
mals having its headquarters centered  
in P. E. Island, has meant much to the  
province. Agriculture and other indus-  
tries have been given a new impetus  
notwithstanding that we have been  
rated as the richest agricultural com-  
munity in Canada even previous to the  
introduction of fur farming.  
P. E. Island is probably the only  
spot in North America that has not  
during the past year felt the pinch of  
the money stringency and the known  
slack times. In fact the island pro-  
vince has never known a more prosper-  
ous time in its history. With the con-  
federated celebration taking place in  
August of this year in Charlottetown,  
the province of P. E. Island no doubt  
will be assured of a prominent position  
on the map of Canada in future.

**CONSERVATION OF FUR-  
BEARING ANIMALS ON  
PRINCE EDWARD ISLAND**

By John O. Hyndham  
Director of the John Agnew Fur  
Farms, Ltd.  
(The Silver Black Fox)  
A few years ago when attention was  
first called to the necessity of steps  
being taken to conserve the natural re-  
sources of Canada, the movement did  
not seem to concern the people of  
Prince Edward Island. It was not until  
this province did not seem to have any  
special resources, except perhaps our  
fisheries, and these were already un-  
der protection of the fisheries depart-  
ment of Canada. In recent years,  
however, a new industry known as fur-  
farming has suddenly looked over the  
horizon; first to be looked upon by  
most people with suspicion as a mere  
fad of promoters "to get rich quick."  
Not until quite lately has it dawned on  
the general public the importance of  
the world of the conservation of fur-  
bearing animals which has been so  
successfully demonstrated on P. E.  
Island by rearing in captivity certain  
species of the fur-bearing animals, such  
as the silver fox, mink, muskrat, karakul,  
sheep, etc.  
That the industry is considered of  
great importance is evidenced by the  
attention that has been given it by the  
Conservation Commission at Ottawa,  
and by the governments of the United  
States, Russia and other foreign coun-  
tries.  
That the price of furs has increased  
tremendously during the past few years  
or more while the supply from the  
wilds continued to decrease can-  
not be disputed, as statistics secured  
from the leading markets of the world  
by the Conservation Commission of  
Canada fully prove. P. E. Island has  
in the course of the past few years  
covered that while in the first place,  
"Conservation" meant little or nothing  
to her, it means today, comparatively  
speaking more than to any other pro-  
vince of the dominion. For the conser-  
vation of the fur-bearing animals has  
attracted world-wide attention and  
the shares of the Silver Fox Compa-  
nies of P. E. Island are held in prac-  
tically every country of the world. Many  
people who are not familiar with the  
facts and figures of the fur markets of  
the world, look upon the industry  
still as a sort of get rich quick and  
hard to make some think otherwise  
even when they are told the facts.  
High capitalization, no doubt, appears  
against the industry as an investment  
and when pure bred foxes (breeders)  
are quoted at \$25,000 to \$30,000 a pair  
and young foxes at \$15,000 a pair,  
strangers stand aghast. While the ar-  
ticle is not written to defend the cap-  
italization of foxes, it may be well to  
ascertain the cause of it, if possible.  
With millions of horses in the world  
today, we still hear of a special fine  
breed of horse bringing \$5,000, \$10,000  
and as high as \$50,000. With the mil-  
lions, perhaps billions of hens in the  
world, one hen in recent years has  
brought as high as \$10,000. The same  
may be said of cattle and other ani-  
mals. Take the karakul sheep. Ord-  
inary sheep may be worth five dollars  
or ten dollars, a karakul ram or ewe  
will bring one thousand to fifteen hun-  
dred dollars. There is always a de-  
mand for a high grade animal that will  
produce something superior. In the  
case of the silver foxes of P. E. Island  
we had, the 31st of December 1913, ac-  
cording to the government report, only  
1,600 in captivity in our island ran-  
ches. The best of these animals are  
descended from animals whose pelts  
have brought the highest price on the  
London market, as much as £500 ster-  
ling being paid for one pelt. In some  
years the world's markets absorb over  
a million fox pelts, reds, patches and  
silvers. If the world can absorb that  
many pelts now, what will be in ten  
and twenty years time, and remember  
the supply from the wilds is fast dim-  
inishing.  
For the reason of climate and soil  
conditions P. E. Island produces the  
highest quality silver fox known in the  
commercial world. The many companies  
forming at home and abroad will make  
demand on P. E. Island for many years  
to come for high quality foxes to cross  
with those of other countries in order  
to improve their breeds. As the cross

November, 1913. They placed them in  
a ranch in Souris, and this year were  
rewarded with an increase of six pups.  
For every dollar placed in the com-  
pany, they will receive three dollars  
in dividends and their old foxes have  
increased in value to nearly 500 per  
cent.  
Sixty companies canvassed as to  
probable dividends have reported, and  
the average is about fifty per cent.  
This is really phenomenal.  
Last week we had a large number of  
visitors from abroad, they drifted here  
on the strength of the wonderful tales  
told regarding this great money-mak-  
ing enterprise. They are daily visiting  
the different exchanges seeking infor-  
mation and literature. They are also  
investing money and taking away with  
them splendid impressions of our mag-  
nificent country.  
Fox value is becoming extremely  
scarce owing to the demands made up-  
on our local hardware merchants for  
a supply in building the numerous ran-  
ches under construction. One ranch  
alone, that of the Canada Atlantic  
Company, containing eighty pens, will  
require \$4,000 worth of wire.  
Stock in 1915 companies is moving  
very satisfactorily. It must be remem-  
bered that this is the best season of the  
year when investments are made most  
freely, and promoters who can have  
sixty-five to seventy-five per cent. of  
stock in companies subscribed by Sep-  
tember 1st would be doing remarkably  
well. It was found, last year, that  
stock sold readily in September, Octo-  
ber and November. People are then  
throughout holidaying, have settled down  
to business routine and are really in  
an investing mood.  
Mount Edward Road near Charlot-  
teton promises to be one long series  
of fox ranching and a few more are  
being constructed and a few more are  
talked of.

Several large ranches are adding  
type over to their stock. The  
mink is a tender animal to rear, the  
wild mink especially when in captivity,  
owing to its suttial tendencies. On  
the other hand the ranch-bred mink  
can be reared successfully with com-  
paratively little effort.

A Healthier Tone  
Reverting again to the fox industry,  
our informant said: There seems to be  
a healthier tone to this industry  
than at any previous period. Options  
are moving freely at good prices. There  
is a good demand for single foxes,  
male and female, from parties who  
wish to mate up. The 1914 pups are  
practically beyond the danger point,  
and those alive at this date can be  
counted on to pay dividends this fall.  
Stories of exceptional good luck are  
being told. One company in Dundas

**GOOD ADVICE  
 FOR FARMERS  
 IN PROVINCE**

N. Curtis, of Ottawa, here  
 to make Agricultural sur-  
 vey of province for Con-  
 servation Commission.

N. Curtis, of Ottawa, who is at-  
 tached to the agricultural section of  
 the dominion conservation commission  
 in the city and will make an agricul-  
 tural survey of the province of New  
 Brunswick. The object of the survey  
 is to secure general information re-  
 garding agricultural conditions, the pos-  
 sibilities of improving them, and the  
 special needs of farmers in different  
 districts. Such information when col-  
 lected will enable the conservation com-  
 mission to give advice to the govern-  
 ment in regard to what ought to be  
 done in different parts of the country  
 to stimulate agriculture. Mr. Curtis  
 has been four weeks in Nova Scotia  
 making a survey of the agricultural  
 districts there. Other experts are at  
 work in the other provinces.

"The farmer has a great chance in  
 Nova Scotia, and I should say it would  
 be the same in New Brunswick," said  
 Mr. Curtis. "Down here in the east the  
 farmers don't appear to care much  
 about developing their opportunities.  
 This should be a fine country for  
 stock raising. There is an unusual  
 amount of rough pasture land where  
 cattle and sheep can be kept in sum-  
 mer. Some farmers with over one  
 hundred acres of pasture land do not  
 keep a single sheep. That is wrong.  
 One acre of land will afford pasture  
 for ten sheep. If a farmer had some  
 good ewes he could raise a lot of  
 lambs to sell in the fall at little ex-  
 pense.

"The farmers here should not ex-  
 port hay. That business should be  
 left to provinces farther west, where  
 they have large acres of land suitable  
 for raising hay. They should raise  
 cattle and sheep and feed all the hay  
 they can raise to their stock. If you  
 take hay off the land and put nothing  
 back, it is not going to be long before  
 it is hard to make a farm pay down  
 here.

"The opportunities for mixed farm-  
 ing appear to me to be excellent, but  
 I have seen few farms conducted on  
 modern scientific lines, adapted to the  
 conditions you have here.

"On the Nova Scotia farms you see  
 comparatively few young people. They  
 have gone west of the mountains. But  
 I am satisfied that if they stayed at  
 home and tackled farming on proper  
 lines they would be better off than in  
 the states."

**TRADES AND

 Alien Labor Law.

Montreal, July 26.—The formal call  
 for the annual convention of the  
 Trades and Labor Congress of Can-  
 ada, to be held in St. John, N. B., be-  
 ginning September 21, has just been  
 issued by the officers. Particular at-  
 tention is called to the change in pol-  
 icy in regard to resolutions. Those  
 must be in at least ten days before  
 the convention meets, otherwise a two  
 thirds majority vote of the conven-  
 tion will be necessary to accept them.  
 The repeal of the present alien labor  
 law will be one of the items to be  
 considered by the delegates. Amend-  
 ment to the industrial disputes invest-  
 igation act will also be up for con-  
 sideration. Delegates will be in at-  
 tendance from all sections of Canada and  
 the meeting is expected to be the larg-  
 est and most important in the history  
 of the organization. It is expected that  
 the organized workers of Montreal will  
 be represented by at least thirty dele-  
 gates. Toronto and Hamilton will send  
 strong delegations.

**SGT. DEWAR THE  
 WINNER OF  
 KING'S PRIZE**

His score 21 points below  
 that of Pte. Hawkins,  
 who brought trophy to  
 Canada last year.

Bisley Camp, July 25.—Sergeant J.  
 L. Dewar, of Royal Scots, won the  
 King's prize, the main event of the  
 whole meet here today. Dewar and  
 Private Fulton of the Queen's West-  
 minsters were tied for first place with  
 399 shots a piece but on the shoot-off  
 the Royal Scots won from his oppo-  
 nent badly. Dewar has shown spec-  
 tacular form all through the meet and  
 his victory over Fulton was all that  
 could be expected of him.

In the King's prize at 900 yards  
 range, the Canadians scored as fol-  
 lows: Stoddart, 55; Martin, 50; Noble,  
 50; Laman, 43; McLean, 43; Brooks,  
 28.

The score of the winner is 21 points  
 below that of Private Hawkins of To-  
 ronto, who took home to Canada the  
 coveted trophy last year. Dewar's tally  
 is the lowest winning total since  
 the score of Lt. Johnson in 1902, when  
 a gale of wind blew down the targets  
 and made conditions totally unfavor-  
 able for shooting. Conditions were  
 also very bad today, and the boards  
 were liberally besprinkled with mis-  
 ses.

Eloquent testimony to the trouble-  
 some conditions is shown when Ful-  
 ton for instance dropped ten points in  
 the first three shots. This year's gold  
 medalist is thirty-seven years of age  
 and has been in the territorials for a  
 period of 15 years.

Piper Scott of the Royal Highland-  
 ers, was sixth; Private Skilton, Lon-  
 don Rifles, seventh; Lt. Millner, South  
 Staffordshire, eighth; Sergt. Wood,  
 sixth London, ninth; Col. Ward, India,  
 tenth; Hubbard, Australia, eleventh;  
 Private Acton, twelfth, each won ten  
 points.

Stoddart was thirty-third; Noble,  
 forty-ninth; McLean, fifty-third;  
 Brooks, sixty-fifth; Martin, seventy-  
 sixth; Laman, eighty-sixth, each win-

 —Above the average.**

An entire change of programme  
 will be made by Mack's Musical  
 Revue at the Opera House, com-  
 mencing today, nothing being repeat-  
 ed from last week's show. Some of the  
 big novelties are "The Lawn Party,"  
 in which the company's male quartette  
 is introduced; the musical feature  
 in the "Candle Light" with special  
 effects; the comedy one-act play,  
 "Caught With the Goods"; another big  
 Tango number; a novelty electrical  
 feature, "In the Heart of the Rose"  
 with a big chorus and a "Cabaret sur-  
 prise; the musical skit, "At the Sea  
 Shore," with some new comedy  
 scenes by the three comedians; the  
 famous Bathing Girl number; a nov-  
 elty Suffragette number by the full  
 chorus; a special musical selection  
 by the Revue Trio; altogether making  
 a full two hour show that is decidedly  
 above the average. The company  
 gives a matinee every day at 2:30;  
 night performance start at 8:15.

 called for this week. It was decided  
 some time ago not to erect a new  
 building on the old site, but to con-  
 vert the Home into a hotel, and either  
 sell or lease the Prince William street  
 site. The plans and specifications of  
 the work were prepared by Major Miller  
 of Toronto, the Army's architect,  
 and call, among other things, for a  
 new wing. It is hoped to have the  
 hotel ready for occupation in the fall.  
 The house, No. 215 Pitt street, which  
 contains about 16 rooms, and is now  
 occupied by Major L. E. Taylor and  
 Staff-Captain Thomas Coombs, will  
 be altered and added to, with a view  
 to making it suitable for use in place of

### A Mixed Armful

Princess Edward Island Lady with Kittens and Black Fox Pups Playing happily together.

### Story of The Silver Black Fox

By J. E. B. McCready, Charlottetown, P. E. I.

(The Silver Black Fox)

The fur-farming industry in Prince Edward Island may be said to have sprung out of the ground. It was a natural outgrowth of the market value of silver fox pelts. The red fox and the silver fox were native to the island, and their pelts had been found offered to the fur trade. The sole idea in the minds of the pioneer fox breeders seems to have been to domesticate the silver fox and to make money by the sale of its fur.

But "they builded better than they knew." At first the difficulties and disappointments far outnumbered and outweighed the small rewards. They had everything to learn while they wrought in secret. The captive foxes died or escaped, or would not breed, or perchance they had young, but the litters died or were destroyed, or, shortly after birth. One by one the difficulties were overcome. The modern ranch of posts and wires was evolved. It was learned that the fox was monogamous, each having a single mate, and that foxes cannot be bred together like a herd of sheep, but that each family must have its separate pen and sleeping den. There were twenty years of experimenting before the business of producing silver fox pelts became considerably profitable, as it did eventually.

The sale of living foxes for breeding purposes was an afterthought. It grew

out of the fact that the pioneers were making large returns from the sale of silver fox pelts, and others desired to share in like profits by rearing foxes and selling their pelts. At first the sale of breeders was made at prices only a little in advance of the probable pelt value, but as the demand soon far exceeded the supply, prices rose from year to year. This was a natural and inevitable result.

Down to 1912 the business of fox breeding was conducted as a private enterprise by individuals or partnerships, but now it is being organized on a more modern basis.

D. J. BONNELL  
Director of the Fur Farmers' Bureau and Exchange Ltd., Charlottetown, an organization which has underwritten the entire issue of Fur Producers Ltd.

are now firmly maintained. There is every indication at present that all the young silver foxes of this year will find a ready market at as high prices as ever before. The silver fox pelts will be sold this year from the island ranches.

The fox breeding industry is remarkable in many ways. It sprang out of the ground and has obtained a marvelous development within the last few years. It has been greatly profitable, and is almost entirely financed by the people of the island, who number fewer than one hundred thousand souls.

A thrifty, saving and conservative community they were, verse speculation and content with the gains won from their small but well tilted farms. Their savings were kept in the bank at three per cent interest. This money since invested in foxes has brought them from twenty-five to 200 per cent. In many cases the profits have been reinvested in fox shares. There are many thousands of resident shareholders in the numerous fox companies, and scores of islanders abroad have also shared in the profits.

For obvious reasons the banks have not encouraged the fox industry, and a number of the financial journals have been harshly critical of it. Here in Prince Edward Island our prudent investors at first held aloof from it, but most of these have become convinced and have taken shares, only regretting that they had not done so earlier. Large profits earned from year to year for a number of years carry conviction to the minds of all.

The general result of the development of fox farming has been quite revolutionary. People who were once regarded as poor and unprosperous, and during a time of commercial depression elsewhere, money has been and is being plentiful in Prince Edward Island than ever before. Trade has been excellent and the people prosperous. Every house and office in our towns and villages is well supplied and the demand exceeds the supply.

As was to have been expected the promoter and the speculator have, in Prince Edward Island, had a more moderate capitalization per pair of foxes. And it is to be observed that thousands of the best people, financially, are now in the fox business, and in respect to communities, are interested as directors or shareholders in the many fox companies. No great interest in foxes has developed so rapidly and proved so lucrative has been more honestly managed. The fox business has been singularly free from litigation. No fox company has failed or had its capital impaired. Fox companies have no bonded indebtedness or other liability except capital. All shares are now in good standing. The worst that a shareholder has hitherto had to fear has been a small dividend or none, behind which is the hope, "better luck next year."

A good feature of the fox breeding business is that it adapts itself so easily and naturally to the conditions of ordinary farm life. The ranch occupies a place in the grove or the wood lot not needed for tillage or pasture. Foxes are housed and cared for at a tenth part of the cost in proportion to their value, when compared with other farm animals. No farmer who has a fox ranch needs to keep fewer horses, cattle, sheep or swine, than he would otherwise.

The people of Prince Edward Island naturally pride themselves on having created a great and a great enterprise, and of having made their island province famous thereby as the headquarters of what must be hereafter a notable world industry. Our fox breeders have the best foxes, coupled with invaluable skill and experience of years in their care and management. As for the future, the business of fur-farming in Prince Edward Island is broadening out along many lines. We have now in captivity and are successfully breeding, beaver, raccoon, mink, muskrat, Russian sable, fisher, skunk and Karakul sheep, the latter producing the celebrated and beautiful Persian lamb fur. The Persian lamb industry bids fair to have a development here and throughout Canada second only to that of the silver fox.

As for the future, the business generally, it is assured by the ever increasing demand for furs, by the rapidly diminishing supply of all the more valuable furs, and from the wild and by the constant advance in prices.

### DINNIS RANCH STILL ATTRACTS MANY VISITORS

A sketch of the activities on this renowned Fur Farm—Foxes all in healthy condition.

The chief point of interest for the thousands of tourists who visit Charlottetown is the Dinns farm. It is situated about ten minutes drive from the city on an eminence overlooking the harbor and consists of one hundred and sixty acres of land. It is chiefly of interest because the Fox ranch which occupies ten acres of

(three years ago) in sufficient evidence of the unhealthfulness of the ranch and surroundings. The ranch has an enviable history of success. Last year seven per cent of the island's increase of young foxes were born in this ranch. This year Mr. Dinns has so far seen fifty-eight young foxes. It is not much wonder that he is called the "Wizard Rancher." This is the best report received from any ranch so far. As Mr. Dinns is invariably successful in bringing all viable puppies to maturity—having never lost a young fox from worms, it may safely be assumed that the ranch will again hold the premier position in the province in regard to the number of

John R. Dinns playing with a fortune.

woodland on the highest point of this farm is the largest in the province, and its owner has the reputation of being the most successful of all fox breeders up to the present time.

Situated as it is on a wooded hill-top it is ideally located for a fox home. The natural drainage of the ground is perfect, so that there is no danger of spring freshets so fatal to young foxes. The air is always pure and fresh, for the winds which sweep the hill-top carry away all harmful and disagreeable odors and tumble the chilling fogs into the valley below. The fact that Mr. Dinns has never had a single case of sickness among his animals since he acquired the present ranch

foxes. Mr. Dinns claims to have a specific for the worm pest. He says that Dr. Higgins hit the nail squarely on the head when he pointed out the danger of dosing all young foxes for worms. As there is high mortality among young foxes Mr. Dinns' remedy is a valuable breeding secret, and it has been suggested that the Fox Breeders' Association take steps to acquire it.

The Average Prospective Dividends for 65 companies in Prince Edward Island this year is over 50 p. c. Are you in line for your share?

Can you point to a single industry that has recorded such phenomenal earnings in a period of over 20 years as the Prince Edward Island Silver Black Fox Industry?

While FUR PRODUCERS LIMITED offers excellent possibilities for good dividends at the same time with its proposed policy the capitalization is reduced each year and the holdings of each investor doubled and tripled in value, so that it will pay good dividends on a pelt basis.

It is a business proposition with business methods—on a business basis.

### Why FUR PRODUCERS LTD. is Best

It has one hundred foxes of the highest pedigree pure Prince Edward Island stock, so that high production is assured. It has expert ranchers with excellent records making high production doubly certain. It has the lowest ranching arrangement of any company in existence; it has a modern, well equipped ranch with every equipment for protection and convenience; it has a five foot "dead line" between each pen so that the spread of disease is practically impossible. To sum up the whole proposition FUR PRODUCERS LTD. lacks nothing that will make it the "king pin" of high producing and big dividend paying companies.

If you wish to share in the big earnings of this company fill in and mail the above coupon to D. J. Bonnell at the Dufferin Hotel, St. John, or either of the following:

### A Demonstration Ranch

BY A. H. CHAPMAN.

(The Silver Black Fox.)

The idea is new, and should prove a success.

One is interested in foxes, mink, martin, fisher or skunk; where may he go at practically all seasons of the year and see these animals living under proper conditions as to home and attention?

The average ranch knows the average amount about the raising of fur-bearing animals. It is doing it all in its own way, albeit with success. The chances are it does not include all the animals one wishes to see, nor does it wish, nor can it afford to open its doors to visitors, except now and then.

Somewhere in a business as large as this one will certainly grow to be, there must be found a ranch in which the assembled knowledge of the best ways and means of maintaining fur-bearers in captivity will be found. It will be readily accessible, and a model in location, equipment, management, and care—especially that big word, "care."

Just now there is taking form this very idea. The place is Moncton, N. B., or rather two miles from its centre. This is more and more a meeting place of men interested in this newest trade, whether in Nova Scotia, New Brunswick, P. E. Island, Maine, or Quebec. Everybody can easily see the importance of this idea.

This fall before the snow flies, the demonstration sales and boarding ranch of the Canadian Traders Ltd., will be inaugurated. As far as possible this ranch will meet all the requirements set forth, and will be

above all a DEMONSTRATION RANCH. The desire being to have it so attractive and so clear an object lesson that it will help fur farming in general.

On the principal of "try it on the spot" there will be as much of experimenting as some low priced animals will stand. Records will be carefully kept. Animals and records, the experience gained, and theories tried out—all these, or any of them,—will be open to all who are interested.

The ranch should be, and there is a plan for this kind of ranch. The time to learn how is before hand. "Better have him intelligently, than mourn over a lost fox." There is little satisfaction in doing the best one knows unless he has tried to do better. And so with the kindly co-operation of fellow pioneers, and the use of what knowledge they have and may acquire, the folks establishing this ranch except to be of service.

There are about seven acres of nice second growth in the place. The new cottage and the barn, ics house and work shop are about nice enough for anything. The boarding pens are 30 x 60 with eight feet of space between each of them. The twenty sale pens are across a fifteen foot road, in front of the boarding pens. Each of these are 15x30 with four feet between. The demonstration pens will have position nearer the gate nearest to ranch. Here the visitor may investigate without disturbing the rest of the ranch. There are, or will be shown the correct idea in pen for marten, mink, skunk, fisher and foxes. A visit will be worth while.

### CLAFIN. PLEDGES ALL FOR CREDITORS

Creditors meeting receives offer of real and personal property as well as his services as manager.

New York, July 24.—Harmony prevailed at the first general meeting of the creditors of the H. B. Clafin Company yesterday, when the company's business two committees were constituted to co-operate with the receivers; a statement was submitted making known the assets and liabilities of the Clafin Company on June 24, and a supplementary statement described the condition of the business since it was taken over by the receivers.

In addition to the report made by the receivers, a long statement from John Clafin was read by his personal counsel, Morgan J. O'Brien, in which Mr. Clafin pledged all his real and personal property and his personal services as manager for full payment to creditors. Calling attention to the great value of the United Dry Goods Company stock, Mr. Clafin's statement asserted that the past ten months had demonstrated the ability of the stores to earn interest on the total indebtedness, and he confidently predicted a settlement of 100 cents on the dollar.

The total assets, exclusive of notes undischarged, were \$2,576,551.11, and the total liabilities, exclusive of notes undischarged, \$4,842,253.77, according to the report of the condition of the company on June 24, made by the accountants, Marwick, Mitchell, Peat & Co., submitted at the meeting. It should be pointed out that if the capital stock of \$9,000,000 be added to the liabilities, their excess over assets would be \$6,565,896.86. As further contingent liabilities, Mr. Clafin's statement asserted that the past ten months had demonstrated the ability of the stores to earn interest on the total indebtedness, and he confidently predicted a settlement of 100 cents on the dollar.

In the period between June 24 and July 22, figures submitted by the receivers through their counsel showed that their total receipts from all sources were \$1,400,000.00, and their total payments \$322,442.47, leaving a balance of \$1,077,557.53, of which \$21,441.88 was cash on hand, the remainder being on deposit. Merchandise purchased in this time aggregated in value \$1,218,406.54, for which cash payment had been made of \$138,205.00. Merchandise sales in that time were \$1,665,635.34. According to the receivers, it is not believed that any money will have to be borrowed to continue the business as they have carried it on.

I. S. BACHE & CO. ON MARKET OUTLOOK

Nothing to boast of in sight—Crop only thing to rely upon in favorable way.

It is well to take as hopeful a view of things as possible. Some newspapers are giving prominence to an encouraging feature which comes to us here and there, and this is praise-worthy.

The crop is all we have to rely upon in a favorable way. It is a question whether that has not already been, to quite an extent, discounted in the security market.

WAR CLOUDS OVER WORLD'S MARKETS

Crisis in Serbian situation creates panicky conditions in London and the continent.

New York, July 25.—War clouds overshadowed the leading markets of the world today. The crisis in the Serbian situation again precipitated panicky conditions in London and on the continent.

London's depressed level at the close there was responsible for the extreme heaviness of our opening, Canadian Pacific losing 2 1/2, with a loss quite as great for Northern Pacific, while many of the other internationals fell one to two points.

Local banks scored an actual gain of \$3,900,000 with a further strengthening of their reserves. Bonds were heavy, in keeping with the movement in shares.

BRAZILIAN HAS LONDON GUESSING

London, July 25.—Brazilian affairs are attracting more attention in European financial centres just now than anything else. London is puzzled.

She does not like the terms of the new loan for thirty millions sterling at 5 1/2 per cent, secured on the customs, and is fighting to get it cheaper.

**CONGRATULATE MR. BAXTER ON SETTLEMENT**

**Recipient of Praise From Citizens in All Walks of Life.**

**PICTURE THROWN ON SCREEN AT IMPERIAL**

**Greeted with cheers—Public generally relieved that trouble is over—Praise for The Standard.**

After the disorders attending the street railway strike it was with a feeling of relief that the people of St. John awoke on Saturday morning to find that the strike was over and the full car service restored with the union men back on the cars. The reception given by the citizens, as they boarded the cars, to the men in charge of the cars Saturday morning was hearty. The men were complimented on the cessation of the trouble.

J. B. Baxter, to whose efforts the settlement of the strike was largely due, was the recipient of many hearty congratulations on the success of his efforts by citizens in all walks of life. At the Imperial Theatre Saturday evening, the management had a picture of Mr. Baxter thrown on the screen under the caption, "The man of the hour. He settled the strike." The picture was greeted with rousing cheers, showing that the public at large fully appreciated Mr. Baxter's services to the community in preventing the continuance of the disgraceful riots of Thursday and Friday evenings.

What the Globe Says.

Speaking of the settlement the Globe said editorially:

"So much was involved in a tie up of the street railway system and the possibilities of power and light being shut off that citizens of all classes heard with profound satisfaction of the settlement of the strike. The agreement reached is in the nature of a compromise. If there is now manifest that spirit of consideration and moderation which is essential to success in every business, no future trouble should arise. That a settlement was arrived at, is in a very great measure due to the energy of Recorder Baxter, but a fine spirit was shown by Frederick Ramsay, president of the union, in resigning when it was apparent that unless he was out of the way nothing could be accomplished. Everywhere there is satisfaction that friendly relations again exist between the company and its men, and the hope is general that St. John will never have such another strike or such another exhibition of lawlessness and disorder. Now that order has been restored and there is no longer apprehension of danger, the police authorities should devote every effort to bringing to justice any who are known to have taken part in Thursday night's disgraceful riots. Failure to deal vigorously with the misconduct of that evening will be a serious mistake."

**Praise for The Standard.**

The Montreal Star referring to the enterprise displayed by The Standard when it faced the problem of getting out a paper in spite of the shutting off of the power, said:

"One of the morning papers depending on electric power, found itself in distress in the face of the big local news story in years. When the power went off they were helpless, but they managed, with splendid resourcefulness, to get to the street this morning with an excellent account of the riots."

**MANY BURGLARIES AT SUMMER RESORTS**

Mr. Wasson's store at Grand Bay broken into, but thieves were chased away at point of revolver—Other breaks.

An epidemic of burglaries has broken out in the summer resorts in the vicinity of the city. Early Sunday morning the store of Mr. Wasson at Grand Bay was broken into by two men, and on Saturday morning three stores were broken into at Westfield Beach. Mr. Wasson, who lives over his store at Grand Bay was awakened early Sunday morning by a noise in the store. Securing a revolver he descended and saw two men in the direction of the men and heard one yell as if in pain. In the darkness the burglars escaped to the road and ran away. Mr. Wasson followed them to the door and fired two shots after them as they sped away, but apparently without effect. When Mr. Wasson made a survey of his store he only missed three boxes of cigars.

At Westfield Beach burglars on Friday night or Saturday morning entered the tea room conducted by Miss Sarah Collins and Miss Stuart, but only secured one dollar in change. The general store of S. B. Prime was broken into the same night and the cash drawer was robbed of \$20. William Corbett's general store was entered by breaking the glass in the front door, but the robbers were scared away before they secured any loot. Mr. Prime thinks three suspicious looking characters who were loitering about the beach were the guilty parties.

**Parade and Garden Party.**  
The executive of the Trades and Labor Council met yesterday and decided to organize a parade and garden party next Saturday. The idea of the parade is to attract people to the garden party.

**To Raise Dredge.**  
Another attempt will be made today to raise the dredge Leonowald which sank near Courtenay Bay some months ago. Diver Lahey, who has the operations in charge, holds out every prospect of success. The cables have been replaced about the sunken dredge and the screws and tugs will be on the spot when the tide serves today. The lifting will be watched with interest by a large number of spectators.

**For Organization.**  
A meeting of the Bricklayers and Masons Union was held yesterday at which Mr. Thornton, one of their international officers was present and delivered an address. Mr. Thornton is a native of Halifax, and is paying a visit to the various localities in the Maritime Provinces. He will devote some time to organizing the bricklayers at points where there are no organizations.

**Electric Lights in Municipal Home.**  
Electricians are busy wiring the municipal home for lights, motors and electric irons.

The wires all through the building will be enclosed in conduit and metal moulding. Even the people who sleep there will be under ground, making a most up to date installation throughout.

The Knox Electric Co. of Dock street have the contract and expect to complete the work in about eight weeks.

**On Interesting Subject.**  
In the German St. Baptist church, last evening, the pastor, Rev. Frederick Porter, gave an interesting address, based on the life and work of John Henry Newman, the English divine, who after trying to revive the Roman spirit in the Anglican Church and to effect a reconciliation between the two, finally joined the Roman Catholic Church and was made a cardinal. Mr. Porter dealt with his subject in an interesting way, and pointed out that Protestantism since Cardinal Newman's time had made great progress.

**PROVINCES COMING INTO THEIR OWN.**

That business is very good in the Maritime Provinces is the opinion of J. T. Pendock of Ottawa, who has been on a most recent trip through the provinces. "I was rather surprised at the tone of business in all the Maritime cities I visited," he said, "I did not find any signs of depression of any importance. Most business men seemed to be doing a good business, and were optimistic about the future. I have been coming down east a good many years, and think that these provinces are coming into their own."

**AUTOMOBILE ASSOCIATION WENT TO WORK**

**Cleared bushes from roadside at Spruce Lake and Lepreaux—Many members attended.**

The New Brunswick Automobile Association held their annual good roads day on Saturday and their chief work was on the roads in the vicinity of Spruce Lake and at Lepreaux. On the Lepreaux section of the road there were thirty or forty men employed with axes and bush hooks clearing away the bushes along the bends of road. The same work was being accomplished at Spruce Lake and the workers achieved good results.

Among those working at the Lake were T. P. Regan, president of the association; Percy W. Thomson, R. Downing Paterson, Mr. Barbour, J. M. Roche, Col. J. B. M. Baxter and about twenty others. The automobiles, about ten in number, were lined up on one side of the road and then the real work began. The gentlemen, devoid of coats and vests, and each armed with an axe, bush hook or sickle made an onslaught on the bushes. There was a number of bends on the road along the side of the lake that was so thickly grown with brush that the automobiles could not see an approaching car or carriage until they were close together. When the "woodsmen" finished their work, late in the afternoon, the improvement was very much noticeable. The few hours' work was the cause of clearing the bushes well from the side of the road leaving the highway in view for some distance ahead.

It was no easy task that the men were up against during the afternoon, but despite the fact that blistered hands and sore arms remind them that they worked hard, they are all satisfied that their work was not in vain. It will be much appreciated by all automobilists as well as drivers of horses.

In clearing the trees and bushes from the sides of the road it not only makes the highway clear but gives the sun a better chance to dry the roads up after a storm. This good work will be carried on every summer by the association and the members expend a large amount annually for the betterment of the highways throughout the province.

**THE DEPUTY MINISTER OF LABOR HERE**

**F. A. Acland says both parties in railway matter are satisfied with the settlement.**

F. A. Acland, deputy minister of labor, arrived in the city on Saturday, having been sent here by Hon. Mr. Crothers, at the request of Hon. J. D. Hazen, in connection with the street railway strike. Mr. Acland was on his way here when the strike was settled.

Speaking to a reporter Mr. Acland said he had seen representatives of both parties to the dispute since arriving in the city, and that both sides appeared to be satisfied with the settlement, and convinced that the future relations between them would be amicable.

Mr. Acland said the minister of labor would have come to St. John himself, but pressure of departmental and other duties prevented. "St. John is not the only place where we have serious labor troubles to deal with," he added. "There are several important industrial disputes which require the attention of the labor department."

While here the deputy minister had a conference with J. L. Squire, E. J. Tibe and other local labor men in regard to some minor matters.

**MILLION DOLLAR MYSTERY AT UNIQUE THEATRE TODAY**

Claimed to Be the Greatest Serial Photo-play Ever Produced, With a Ten Thousand Dollar Prize Offer for Best Solution of Mystery.

An epoch will surely be marked in local film circles today when the Unique Theatre will present the first episode of the much heralded and famous "Million Dollar Mystery." It will be the beginning of a photo-play series that for sensation and mystery has never yet been equalled. The entire series embrace twenty-three episodes or chapters each taking two reels or two thousand feet of film to exploit. One episode will be shown weekly at the Unique beginning today. Ten thousand dollars in cash is being offered to the one solving the mystery, and outside of this fact the story also will prove too interesting to miss. Hours for the presentation of the Million Dollar Mystery will be found in the display advertisement amusement column.

Once summoned, Drs. C. M. Pratt, A. F. Emery and M. Case being soon in attendance.

They at once saw that the skull had been fractured, but were unable to immediately ascertain the precise extent of the injury, although this will probably be known this morning.

News of the said affair has brought forth many expressions of sympathy with Mr. Collins and his family.

**Mrs. John Collins, thrown to street by horse, sustains serious injury—Much sympathy felt.**

Yesterday afternoon, a little before four o'clock, a serious accident befell the wife of I. C. R. Policeman John Collins, by which Mrs. Collins sustained a fractured skull. Mr. Collins had been out driving, with a single horse and buggy, about Courtenay Bay and the neighborhood, being accompanied by his son and daughter. They arrived home at Paradise Row at about a quarter to four and drove up to the back door. Mr. Collins and his son went up stairs leaving the daughter in charge of the horse. Just after they had arrived at the house Mr. Collins' grandchildren were returning from Sunday school in charge of their grandmother, and seeing the buggy the little ones went on ahead of Mrs. Collins and got in the vehicle, as children might not unaturally do.

One of the children apparently took hold of a rein and turned the horse round, leaving it in a cramped position which caused the animal to become a little restive. Mrs. Collins, thinking the horse might try to get away, and that the children might possibly get hurt, got to its head, and in finding so in some way fell, or was thrown, to the street, her head striking on some hard substance.

The unfortunate lady was taken into the house and professional aid was at once summoned.

**AMHERST TO HAVE MILLION DOLLAR MYSTERY**

Will Appear in Theatre There Wednesday, July 29.

To Amherst belongs the distinction of following directly after St. John in receiving the Million Dollar Mystery, and on Wednesday the service will appear in Amherst. There, as in St. John, the Daily News purposes to publish the story weekly beginning today.

St. John and Amherst will be only two of the places where the Million Dollar Mystery will be shown. It is a much noted peculiarity of Amherst that it is always well to the front in every thing of a notable nature, and this enterprise on the part of the popular motion picture house will doubtless be greatly appreciated by the motion picture lovers of Amherst.

**ENGINEER PROMOTED.**

Warren G. Foss, formerly assistant engineer on the steamer Governor Cobb has lately been promoted to the position of chief engineer of the steamer City of Rockland, now on the Boston-Kennebec route.

**SCHOONER LABELLED.**

Parsons, N. S., July 25.—The American schooner Nat Meader has been labelled at Apple River and is now in charge of the deputy sheriff at that place, the action was caused by a disagreement between the owners and C. T. White and Son regarding the terms of charter.

**VESSEL FREIGHTS DULL.**

Portland Argus: Owing to the dullness in vessel freights at the Maine stone and lumber ports, a large number of coastwise vessels have gone into the trade at the provincial ports, loading coal at New York and returning with lumber from St. John and other ports.

**SCHOONER BUILDING.**

A 50-ton schooner is being built at the Billings yard, Deer Isle, for use as a coaster, and as far as known is the only vessel of her class being built at the present time in the State of Maine. A 400-ton schooner is also in process of construction at Phillipsburg, she being designed particularly for the southern lumber trade.

**CHANGED HER FLAG.**

Portland, Me., July 24.—Another Maine built "square rigger" has changed her flag, the well known barkentine Allanville, built at Bucksport in 1888, and owned by John S. Emery & Co. of Boston, having been sold by them to R. C. Elkins of St. John, N. B. She left New York on Thursday for Summerside, P. E. I. and it is supposed will be continued in the lumber carrying trade.

**DANGERS TO NAVIGATION.**

(Reported to the Hydrographic Office.)

New York, July 25.—Referring to previous report of the iceberg sighted by the strm Caledonia on July 14 in lat 41 12, lon 45 40, the Hydrographic Office notes that this information was radiographed to the Caledonia on July 16 by strm Bohemian.

The Canadian Signal Service reported that on July 15 five icebergs were in sight of Belle Isle.

Strm Montfort (Br), reports June 29, lat 47 47, lon 47 46, passed a small iceberg and a growler; lat 47 58, lon 46 38, a large berg about 150 feet high; lat 48 34, lon 45 58, a large berg and a growler; lat 48 27, lon 45 43, two moderate sized bergs, three growlers and several small pieces of ice; and lat 48 43, lon 45 15, a small low berg.

**PORT OF ST. JOHN.**

Arrived Saturday, July 25, 1914.  
Strm Belfast, Glasgow, Robt Reford Co.  
Coastwise—Schrs Ripple, 13, Brown.

**NOTICE TO MARINERS**

Pending repairs to machinery of Peck's Point Fog Alarm, it is closed down for ten days, or until same have been completed, at end of which time the alarm will resume operations without further notice.

J. C. CHESLEY,  
Agent, Department of Marine and Fisheries.

**TO BUILDERS**

SEALED TENDERS MARKED Tender for School Building, will be received by the Board of School Trustees, 1 Hazen Ave., up to 12 o'clock noon August 3, for the erection of a new School Building, and for Grading Grounds, Bentley Street, St. John, N. B., according to plans and specifications prepared by H. Claire Mott, architect, at whose office the plans, etc., may be seen.

We certified bank check payable to the Board of School Trustees and equal to five per cent. of the amount of tender to accompany each tender. In case the parties tendering refuse to enter into contract for the work when called upon by the architect to do so, the said check is to become the property of the Board of School Trustees.

(Signed) H. CLAIRE MOTT,  
Architect, 13 Germain Street.  
The lowest and any tender not necessarily accepted.
