

SEVENTY KILLED IN FIGHTING BETWEEN POLES AND ITALIANS

Artillery Attack On Gross Strehlitz Resumed by Poles — Twice Driven Out of City by Allied Troops—German Police Reported To Have Crossed the Border—Town Evacuated by Allies Occupied by Germans.

OPPELN, Upper Silesia, May 6.—Fighting between the Italians and the Poles at Rybnik, Pless and Gross Strehlitz continued today, with the situation at Rybnik increasingly menacing to the allied forces, according to reports received this afternoon by the inter-allied commission. The Italians are known to have lost 30 men killed and 70 wounded, and in French quarters it is estimated that the allied casualties since the uprising began have been 70 killed and an unknown number wounded.

Resume Artillery Attack.
The Poles today resumed their artillery attack on Gross Strehlitz, and twice advanced into the city, but were thrown back by the troops. The Poles are being gradually reinforced by peasant recruits and fresh forces coming over the border.

The French authorities have a number of reports that the German police had crossed the German frontier. The report was discredited. Germans occupied Oberglück, which the Allies evacuated yesterday. The inter-allied commission today received a dispatch from London saying that the supreme council had postponed making public the decisions of the plebiscite commission, hoping that this would tend to delay the Polish activities when it became generally known.

German Attack on Consul.
A crowd of Germans rushed the automobile of the Polish consul here this afternoon, but a crowd of Poles quickly dispersed the crowd. Reports reaching Ottawa here say that the Italian everywhere in the region are expressing dissatisfaction over their failure to receive support in British circles the expectation is that there will be a German counteraction shortly.

JAPANESE PRINCE IS WARMLY WELCOMED IN GREAT BRITAIN

Hair-Apparent Due to Land at Portsmouth Today.

London, May 7.—The Japanese warship Katori, bringing Prince Hirohito, hair-apparent to the Japanese throne, on his visit to England, arrived at Spithead shortly after 11 o'clock this morning. The British warships in port were elaborately decorated for the occasion and salutes were exchanged between them and the Japanese battleship.

The crown prince will remain aboard the Katori over Sunday, proceeding to London Monday. London, May 7.—The Times has a leading article this morning extending a warm welcome to Prince Hirohito, hair-apparent to the throne of Japan, who is due to land in England today at the historic naval port of Portsmouth. After visiting the long duration of the Anglo-Japanese alliance, whose value was proven during the recent world war, the Times remarks that the British Government is delighted that making any statement concerning the contemplated new agreement with Japan until after the meeting of the dominion premiers, which takes place here next month. The only thing which can be taken for granted, the Times says, is that the British Government will enter into no alliance with Japan without the full and free concurrence of the overseas nations attached to the British commonwealth, for the very good reason that the issue between Britain and Japan concerns them rather than the people of the mother country.

Safety League to Offer Prizes For Ont. Pupils
Toronto, May 7.—Members of the Ontario Safety League from all over Ontario have subscribed to a special fund for cash prizes for drawings from the pupils of the schools throughout the province. Cash prizes totalling two hundred and twenty dollars are offered on various conditions.

The contest will close on June 1, 1921, and prizes will be forwarded to the winners on June 10.

Further particulars are available by letter to the provincial office, 139 Church street, Toronto.

IMPORTED BOOZE IS NOW ON WAY HERE

Big Shipments From Great Britain Will Arrive Shortly.

When the doors of Montreal were closed against the exportation of liquor, one week ago, the local exporters breathed a sigh of relief with the thought that a respite in many weeks they would have an opportunity to rest from the arduous task of handling thousands of cases a day. Today, however, soon after the last star car had trickled through, their hopes were shattered when a message arrived from the east warning them to prepare for heavy shipments of imported liquor just arrived from Great Britain. The liquor is expected in this city by the first of the week.

WILLING TO ARBITRATE.

Regina, Sask., May 27.—The employing printers of Regina, in a letter to the striking printers yesterday, announced that they were willing to arbitrate any points of difference. The Daily Post made its first appearance since the strike was called, and printed a single bulletin sheet. The Morning Leader appeared this morning as a two-page edition. The pressmen and stereotyping departments are remaining at work in the newspaper offices.

ALLEGED "GO BETWEEN" REPORTED IN CHICAGO

Chicago, May 7.—William Burns, sought as an alleged "go between" in the 1919 world's series scandal, was seen on the streets of Chicago, according to a story published here today. He was supposed to have been hiding along the Mexican border to escape service of an indictment charging him with complicity in throwing the world's series games. The story declares Burns was seen going into the office of an attorney connected with baseball officials who are seeking to push the prosecution of the indicted ball players and gamblers, and quotes President Johnson of the American League as saying he would not care to discuss the report that Burns was in Chicago.

DIES OF FRACTURED SKULL.

Cornwall, Ont., May 7.—A fractured skull, caused by a fall against a table when she was startled by the family cat attempting to jump on her lap, caused the death of Mrs. Rena G. Baldwin, aged 33 years, wife of Warren C. Baldwin of Feltsmills. Mrs. Baldwin had never been physically strong, and was in poor health. She was lacing her shoes, and was not aware of the cat being near by, and was startled when the animal attempted to jump on her lap.

GERMANS FIND IT HARD TASK TO SELECT A NEW CABINET

Members of Fehrenbach Ministry Discuss Allied Ultimatum. ARE NOT RESPONSIBLE Will Continue To Function Until New Ministers Appointed.

Berlin, May 7.—Members of the retiring Fehrenbach ministry discussed the allied ultimatum relative to reparations last night with the foreign relations committee of the Reichstag. The Reichstag party leaders held separate conferences today for the purpose of determining their attitude toward the foreign issues involved in the present crisis. It was declared that they would decide as to the extent they would support a new cabinet in its position on the allied ultimatum.

President Ebert and leading politicians have not as yet been able to agree on a parliamentary or a man who is out of public life who would be willing to undertake the formation of a new cabinet. The personnel of the incoming ministry cannot be determined, even tentatively, until the political parties interested have announced their position on the foreign issues now engaging the attention of the Reichstag.

Revolt in Upper Silesia.
The situation in Upper Silesia is attracting almost as much attention in official circles here as the allied ultimatum. The revolt there has caused a section of the German press to protest against the entente demand that Germany dismantle fortifications along her eastern frontier. The Silesian affair has delayed final decision on the appointment of a chancellor to form a new ministry.

The Fehrenbach Ministry, which is merely functioning as an acting cabinet, before meeting the foreign relations committee of the Reichstag last night. The retiring ministers will not be called upon to identify themselves with the ultimatum or protocol. Both will be passed on as a sort of legacy to the new cabinet.

FRONTIER BETWEEN GERMANY AND SILESIA WILL BE OPENED
Oppeln, Germany, May 7.—Germany's requests that the frontier between Germany and Silesia be opened, and that all political prisoners held by the Allies in Upper Silesia be released have been granted by the inter-allied commission here. Decision whether the use of German Government troops would be permitted in Silesia, and whether the Polish frontier would be closed was expected today.

An armored train was run from Breslau to Kreuzburg, about 30 miles east of here, by Germans last night, and was turned over to Allied authorities there. The Allies accepted the train in view of reports that the Poles planned to attack Kreuzburg today.

When Rosenberg was taken by the Poles, a British major who was acting as control officer there, was arrested by a Polish officer, who was formerly a police officer under the command of the major. The Polish leader ordered that the major be shot, and instructed a squad of five men to execute him.

As the squad took its place, the major said: "You do not dare to shoot." whereupon the Poles lowered their rifles and refused to fire.

Allied officials here, frankly expecting an outbreak, say they would be unable to cope with an insurgent German population. The Polish leader, however, declared yesterday that every effort was being made to hold back the Germans, but that the danger was increasing hourly.

"We had asked the Allies to increase their forces here," Prince Hatzfeld declared. "From 30,000 to 40,000 soldiers are needed, and needed badly, if the most serious situation is to be avoided."

UNITED STATES ACCEPTS THE INVITATION
WASHINGTON, May 6.—The United States administration has decided to accept the invitation to send an official representative to the supreme council and the council of ambassadors in Europe.

The decision was reached after President Harding and his cabinet had continued on page three.

HON. CHAS. MURPHY, K. C.

Who wants Lord Shaughnessy of the C. P. R. and Howard G. Kelley of the Grand Trunk to appear before the railway committee.

SIX NATIONS INDIANS WILL DISREGARD ENFRANCHISEMENT ACT UNDER CHIEFS' ORDERS

Members of Brant County Colony Pronounce the Dominion Parliament Measure As a Distinct Violation of Tribal Rights—Any Member of Tribe Who Disobeys Will Gain Displeasure of Chiefs.

Brantford, May 7.—The Six Nations council meeting at Oshkosh yesterday afternoon passed the following resolution: "The chiefs of the Six Nations, in council assembled, decide hereby to publish and proclaim to the people of the Six Nations that, whereas the Six Nations confederacy is possessed of full independence in respect to their domestic affairs on their Grand River lands, and that, whereas said right has been expressly recognized by the British crown, therefore it feels that no act of the Canadian Parliament should of itself have any force among the said Six Nations Indians for their guidance; and that, whereas the said chiefs deem the Canadian enfranchisement act to be distinctly an evasion of the tribal rights of said people, therefore the said chiefs hereby forbid any and every member of any of the said Six Nations or their dependents to accept any position calculated to aid in carrying out any of the provisions of said act on pain of the severe displeasure of said chiefs; and any member of the said Six Nations disregarding this proclamation will be liable to be considered as traitor to the Six Nations confederacy and its best interests."

BRINGS RENTAL CLAIMS HE WAS ROBBED OF \$64

Tiny Plot in Heart of Gotham Sets New High Figure, Realtors Say.

New York, May 7.—Manhattan Island, once sold by an Indian for \$24 and a few drinks of firewater, has become so valuable that a tiny plot stretching only 31 feet along Broadway recently was leased for an annual rental of about \$133 a square foot. Real estate men said this was the highest figure for which land was ever rented here.

The site is at Broadway and 34th street, and extends about 50 feet along the street. Seven years ago a department store wished to buy the corner plot, having procured the land on both sides as the site of a skyscraper. But the owner would not sell, even for \$1,000,000, and the big store had to erect its home around the small building.

Will Pay Huge Rental.
A four-story structure, housing on the ground floor a busy cigar store, still remains on the valuable corner lot on all sides lofty buildings rear their bulks of steel and stone. The new lessee, who will pay \$3,500,000 for rent, taxes and other expenses over a 21-year period, plans to erect a narrow skyscraper on the triangular plot. A candy-making corporation will occupy the building.

Twenty years ago, Robert S. Smith, who owns the property, started negotiations for a \$100,000 more a year for the land, but it was too late.

MANY ESSEX WOMEN GETTING ALLOWANCES

Pension Investigators of London District To Meet Wednesday.

Up to the present, 73 women in the county of Essex have been themselves of the pensions provided under the mothers' allowances act passed by the Ontario Government, according to the investigator of the district, Miss Helen Bapty of this city.

Miss Bapty's district comprises the counties of Lambton, Essex, Kent and Elgin. In this area there are 200 women in receipt of allowances.

Asked if the system of aid for mothers as provided by the Government was working out satisfactorily, although steps are under consideration at the present time to make it more effective in some directions.

A convention of investigators will be held here next Wednesday and Thursday, when the work accomplished up to the present time will be reviewed and recommendations to the Government as to how the system might be improved.

DOCTORS' COMPLAINTS RESULT IN REOPENING QUEBEC LIQUOR STORE

Quebec, May 7.—The complaints of physicians that liquor could not be obtained for medicinal purposes the result of closing down all liquor stores, pending the repeal of the Scott act and the coming into effect of the new liquor act in Quebec, have brought results. Today one store will be able to sell liquor and wines for medicinal and sacramental purposes.

DOCK WORKERS STRIKE ORDERED AT GLASGOW

Glasgow, May 7.—A strike of dock workers has been ordered here as a result of the ban placed on foreign coal by the transport workers' federation. The dispute came to a crisis when the steamer Kalimba, chartered for a voyage to the United States, was being loaded, the dock workers alleging that the vessel was taking a full supply, and intended to fill her bunkers abroad. Non-union labor is being employed under police protection.

GERAR DECLARES RAILWAY COMMISSION IS TOO BIG

Thousands of Dollars Could Be Saved To Country by Reducing the Size—Highway Estimates Also Under Review.

OTTAWA, May 6.—(By Canadian Press).—The highways policy of the Federal Government came under review in the House of Commons today, when the House took up a statement of Gerard, editor of the news-paper Patrie, have been arrested for publishing an article urging the abdication of King Constantine.

All the accused men are of high standing, and assume full responsibility for their action. They insist they will continue to do what they consider to be in the interest of Greece.

ARRESTED FOR URGING GRECIAN KING TO QUIT

Athens, May 7.—Alexander Papanastasiou, minister of national economy in the last Venizelos cabinet, and Demetrios Lambrakis, editor of the news-paper Patrie, have been arrested for publishing an article urging the abdication of King Constantine.

All the accused men are of high standing, and assume full responsibility for their action. They insist they will continue to do what they consider to be in the interest of Greece.

AEROPLANE MAKES SUCCESSFUL FLIGHT HERE TO OTTAWA

Photographic Machine Will Do Work Around Capital.

Ottawa, May 7.—A D. H. 4 aeroplane arrived in Ottawa, from London, yesterday after a most successful flight. The machine landed at Rockcliffe, where it will be used this summer. The pilot was Capt. G. Holland, who is in charge of the operations at Rockcliffe aerodrome. There are now four machines at Rockcliffe. The latest arrival is a photographic aeroplane, having been used extensively for this purpose during the past few weeks.

PARLIAMENT SUMMARY

TODAY IN PARLIAMENT. Ottawa, May 7.—Canadian Press.—In the House of Commons: The House will meet at 2 o'clock.

The first business scheduled is the bill on the order paper, after which the House will go into committee of supply.

The estimates of the department of customs and inland revenue, immigration and health will be taken up.

The House is expected to rise at 6 o'clock.

In the Senate: The Senate does not sit today.

YESTERDAY IN PARLIAMENT. In the Commons: The minister of justice introduced a number of amendments to the Criminal Code, including three-card monte, whipping for certain offences, intoxicated persons driving motor cars, and unmarried persons registering at hotels as married.

Bill was also introduced to amend the patent act and the statistics act.

A bill was read a first time which repeals the emergency provisions of 1919 regarding the deportation of persons guilty of sedition.

Third reading was given to bills to amend the narcotic drugs act, the prisons and reformatories act, and the animal contagious diseases act.

The bill regarding the international court of justice was read a second time.

Some progress was made on the railway estimates.

In the Senate: The Senate did not sit.

VETERAN HOTELMAN DIED THIS MORNING

Edward Morkin Had Resided in London for Seventy Years.

Edward Morkin, aged 83 for 70 years, a resident of London, and one of the oldest and best-known hotelkeepers in the Dominion, died at his home this morning. He had been in failing health for several weeks, and the end was not unexpected.

Mr. Morkin was born in Tipperary, Ireland, but came to London when a lad of 13. His first venture into the hotel business was the Park Hotel, on the site now occupied by the First Methodist Church. After selling this property he purchased what is now the Morkin House, on King street, and had conducted it for 30 years.

Mr. Morkin was widely known all over the district. He was a life-long Liberal, and a member of the C. M. B. A. Besides his wife, he is survived by two sons, Thomas and Martin, both of this city, and one daughter, Mrs. Frank Henry of London. Mr. McDonald of London is a sister. The funeral will be held on Monday morning at St. Peter's Cathedral, and interment will be made at St. Peter's Cemetery.

SYNOD OF HURON OPENS MONDAY

Committees Will Have Big Grist of Business To Report On.

The annual session of the Synod of Huron opens on Monday morning at Cronyn Hall. Several hundred clergymen from all over the Diocese of Huron will be in the city for the meeting. Holy communion will be celebrated in the cathedral by the bishop on Monday morning, after which the various committees will meet to report to the executive.

In the evening the synod service will be held in the cathedral, when the united choirs of the Anglican churches will give a musical program. Rev. Canon Fotheringham of Brantford will preach. Business session will continue on Wednesday and Thursday. On Wednesday evening a banquet is being tendered the clergy in the Masonic Temple, after which a series of motion pictures, depicting work in the Anglican missionary fields will be shown in the same place. This meeting will be open to the general public. Some prominent speakers will give addresses.

PAST AND PRESENT CHAMPIONS TO SEE JERSEY CITY BOUT
New York, May 7.—The world's championship bout at Jersey City on July 2 between Georges Carpentier and Jack Dempsey will be the occasion for a convention of all classes of ring champions, past and present.

Invitations to attend the bout have been mailed by Tex Rickard, promoter, to all present champions, and to Jim Jeffries, James J. Corbett, Tommy Burns and Jess Willard.

Would Lash Drug Peddlers

H. H. STEVENS, M. P. for Vancouver (Centre), who made a strong plea in the Commons for more drastic penalties on drug peddlers, including the lash.

PARLIAMENT SUMMARY

TODAY IN PARLIAMENT. Ottawa, May 7.—Canadian Press.—In the House of Commons: The House will meet at 2 o'clock.

FAMOUS ITALIAN ACTRESS RETURNS TO THE STAGE

Turin, May 7.—Eleanora Duse, Italy's celebrated actress, returned to the stage last night after 15 years of retirement.

She appeared in Ibsen's "Lady of the Sea" at the Balbo Theatre, which was crowded with prominent personages. The welcome extended the actress was most enthusiastic.

BUSINESSMEN LEAD DRIVE FOR WELFARE FUND

Strong Teams Will Begin Canvass of City Next Week.

Everything is in readiness for the opening of the Welfare Fund campaign. The teams entered by the various organizations are now complete and early next week they will start canvassing the business section of the city. In all the local churches on Sunday reference will be made to the campaign and in every pew there will be an attractive booklet explaining the aims and objects of the campaign. These booklets will also be distributed throughout the factories and homes.

Altogether 15 teams have been formed, canvassing the businessmen of the city. The official opening of the campaign will be held at the Keweenaw Club, which will be composed as follows:

ROTARY.
Team No. 1—Frank Ashplant (captain), Harry Hayward, A. M. Hunt, Sam Kennedy, Jim McCormick, W. O. McCormick, T. E. McCullough, D. C. MacGregor, W. E. McKewen, Henry Pocock, J. K. H. Pope, J. W. Furdson, Hugh Shuttleworth, J. M. Hunt.

Team No. 2—Bob Dowler (captain), Bill Abbott, Bill Bay, Norman Keene, George Tambling, Peter Glen, Wes Taggart, Bill Clark, James K. Cowan, Bill Boughner, Frank Torstall, W. N. Manning, John S. Moore, J. F. Sherlock, Ed Oliver.

Team No. 3—W. A. Martin (captain), Lee Barager, E. C. Bowler, Roy Cameron, Tom Fawkes, Dr. Jack Ferguson, H. W. Gibson, Jack Gunn, Ray Hurd, R. C. McKnight, Lou Sandreth, Jack Beemer.

Team No. 4—George Copeland (captain), D. Christiansen, E. S. Delwiler, Harry Bell, Floyd Marshall, Ed F. Waller, G. W. Wesley, W. L. Scandrett, R. J. Foster, J. F. Nolan, W. M. Continued on Page Three.

Seasonable Pointers For Farmers

Deadly Fungi Responsible For Destroying Forests

Dying Trees Scattered Throughout the Woods Have Come To Be Taken As A Matter of Course—But Measures May Be Taken To Eradicate These Pests.

Various tree diseases are responsible annually for enormous losses in the forests from which our supplies of timber are taken. This work of destruction goes on silently but surely and does not attract the attention that wasteful methods of lumbering or forest fires do. Dead and dying trees scattered through the forest have come to be taken as a matter of course, but, if they could all be brought together, their number would be surprising even to those most familiar with forest conditions. It is very probable that the yearly loss due to fungi, insects and fire combined constitutes a much greater amount than that utilized for commercial purposes and that the loss occasioned by the first two exceeds that caused by the latter.

The most important group of fungi which cause disease in living trees is that known as the wood-destroying fungi. These fungi attack the roots and trunks of trees, bringing about decay in the wood which either partially or completely destroy it. They are parasites, and their food consists of the chemical constituents of the wood which they are enabled to utilize by means of dissolving substances or enzymes. These are the so-called "bracket fungi," with which everyone is more or less familiar. The spores or reproductive bodies of these fungi are formed during the summer. It appears on the trunk of its host as a bracket of hard, woody substance so closely attached to the tree as to appear to form part of it. Some of these spores are very small, but others are large and are replaced by fresh bodies, while others are perennial, growing for many years. In either case the spores are discharged into the air in immense numbers through fine tubes or trunks of trees, bringing about decay in the lower surface of the fruiting body, and are carried by the wind for long distances. Of these many spores, a small number lodge in wounds on the trunks or exposed roots of trees and, if conditions are favorable, they germinate, the resulting mycelium growing into the interior of the tree, decaying the wood as it advances. After decay has progressed sufficiently to allow the fungus to accumulate a store of food, fruiting body is produced, which usually

appears at the point of original infection. During this period, from infection to sporophore production, which usually takes a number of years, there are no external symptoms of decay.

The Death of Trees. These fungi are rarely directly responsible for the death of trees, but their hosts become so weakened as a result of their attacks that they fall easy prey to insects or other fungous diseases. Also, when once a tree becomes decayed it is very liable to windthrow. When such a tree is cut in logging operations, it is given to utilize a large part of the most valuable portion of it must be culled.

There is another group of fungi which are frequently directly responsible for the death of trees. These are forms of the bark and cambium, causing cankers. The two most important diseases of this class are the chestnut blight and the larch canker. The former was brought into the United States from China on nursery stock about 1904 and since then has spread rapidly throughout the Eastern States, destroying every chestnut tree within its range. It has proved to be the most destructive and rapidly spreading tree disease yet known. So far as is known, it is not present in Canada and can never become of great economic importance here since the chestnut grows naturally only in a limited portion of Southern Ontario. Larch canker is a very serious disease in Europe, but as yet it is not known to occur in this country.

Finally, there are the rusts which attack trees. These are similar in nature to the well-known wheat rust and the most important is the white pine blister rust. This is a European disease which was brought to this country on nursery stock about 1906. In Europe it has proved very destructive to the native white pine, but whether it will attack similarly here remains to be seen. Certainly, the extremely pessimistic views which have resulted in the curtailment of the planting of white pine nursery stock, seem scarcely to be justified. W. M. McCallum, Plant Pathologist, Division of Botany.

Hints on Setting Hens And Getting Results

Natural Incubation Has Certain Advantages For Small Hatchings—By Correct Methods Chicks May Be Brought Out With Little Trouble.

Almost every person, who has tried hatching by hens knows how cranky a hen can be when she likes, and when the natural means are followed, when she is given a trying ordeal, but when some system is followed and proper arrangements made beforehand, the work is much lessened and the annoyance almost entirely done away with. In the adoption of the following method, chicks can be hatched by hens with comparatively little trouble, few eggs are broken, almost perfect control is exercised over the sitting hens, and by testing twice, the nests are kept full, the hen's capacity utilized and a great saving is made in the work, as about one-half hour of supervision once a day is all the time that is required.

When a hen is broody, dust her well with dry sulphur or insect powder and move her after dark from the nest in which she was sitting into the broody house, that is already arranged as above, but no good eggs under her until after a day or two's trial, then if she is still inclined to sit, put 13 to 15 eggs under her according to size. Always see that the nest is perfectly clean and disinfected before allowing the hen into it.

It is not a good practice to set hens in the henhouse or where other hens can get to them. Better to have all the sitting hens by themselves. A colony house makes an ideal place for this purpose, or, if such is not available, a box stall or even a part of the poultry house will answer, but the hens that are incubating should be separated from the rest of the flock. In this house or stall place fresh water, hard grain on the floor or in a hopper, green food and a dust bath for the sitters when they come off the nests.

It is a good plan to start several hens

at the same time, so that, when the testing is done and the fertile eggs removed, the eggs that remain can be doubled every seven days to fewer hens. Another doubling up should take place when the dead eggs are discarded at the second test, and when the chicks hatch they should be put with as few hens as will brood them while the other hens are put back into the laying pen or set again.

In this system, the hens are under control and the work reduced to the minimum. It is necessary to go into the house once a day when the doors to the tests are opened, all hens (except those under which the chicks are hatching) are taken off and the doors closed. There is in the house plenty of feed and drink, so that all the sitters can get what they require. They can also get a dust bath, and in from ten minutes to half an hour the doors to the nest boxes can be opened and the hens allowed to return to the nests.

It will be noticed that when a number of hens are used with this system, in all probability each hen may not go back on to the nest from which she came off, nor is it important that she should. The heat of the different hens' bodies varies so much that a change of nest insures an even general temperature than if the hens kept to their own nests throughout the entire hatch.

Some hens do not sit as well as others, and it is sometimes an advantage to let one hen off earlier than three weeks, while others are such good sitters that they can be kept hatching for four or five weeks, and in some cases if they continue to sit well and to keep in good flesh they may be kept at work even longer before they are allowed off with chicks or put back into the laying pen. While the hens are off, take a careful

look over the nests to see that there are no broken eggs. If any damage has been done take out every broken shell and if the contents have smeared the other eggs, wash them with lukewarm water, and it may be necessary to renew the litter.

THE MANAGEMENT OF TURKEYS. Turkey raising is rather difficult, and breeders are not all successful.

Farmers who have pastures on dry soil, rather poor for live stock, are well situated for rearing turkeys. It is also very desirable to have a wood lot near the pasture, provided, of course, that there are no beasts of prey in the neighborhood.

The best specimens should always be selected for breeding purposes. Birds two or three years old are the most suitable. The male turkey is not fully grown before two years. Turkey hens give fairly good results when about twelve months old. Care should always be taken to select birds whose breast bone is long and straight, as such birds will carry a large quantity of meat on the breast.

A good ration for breeding turkeys is the following: Baked oats with a little corn, oats or buckwheat distributed in sufficient quantity. Breeding birds must be in good condition, but not too fat.

Laying and incubation. The turkey begins to lay eggs about ten months of age. The laying time may be somewhat hastened by giving stimulating food such as oats, sunflower seed and mash, to which a little beef soap is added. There are usually two laying periods during the year, at spring and mid-summer. One mating is sufficient to fertilize a whole litter of eggs and one male is sufficient for ten females. At laying time, the male should be kept away from the females, at least in the morning, as he often drives them from the nest, beats them and breaks their eggs.

The turkey-hen shows that she wants to sit by remaining on her nest. The nest is prepared on the ground with straw or hay. Sitters should be placed so that they cannot see one another. Turkeys like to lay "away" when they are allowed range; they usually make their nests in some place where they are safe from the male. A good plan when laying begins, is to keep them in a dark and quiet room until noon; if they are not disturbed, after laying a few eggs they will return to the place where they were kept.

When the turkey-hen is "sitting" she should always be attended to by the same person. The visit of a stranger may spoil the chances of success. If the eggs have been removed by one as laying progresses, an artificial nest should be set up in a secluded and dry place. The number of eggs laid is generally about twenty; some turkeys lay as many as fifty or even more in a season. One female may hatch as many as 25 eggs at a time but fifteen to eighteen are as many as most hens can properly cover. The mother should be placed carefully in a safe and kept in place for a few moments. The poults hatch out after twenty-eight or thirty days; during this time if the turkeys do not leave the nest to feed, it will be necessary to remove them at regular intervals.

Swarming is a natural method by which bees increase, but is a hindrance to the best results in honey production; especially is this true of comb honey production.

The uncertainty of swarming, the reduction of the honey crop through division of the working force of the colony, the possibilities of losing swarms, and the difficulty of controlling swarming without considerable labor, all make the control of swarming the biggest problem in bee management.

Colonies do not all require the same treatment. Swarming may often be prevented by the following manipulations. The introduction of a young queen, giving ample room for brood rearing just previous to and during the early part of the clover flow. Providing plenty of super room for the storage of honey. Giving adequate ventilation during the hot weather by raising the front of the hive on small blocks to enlarge the entrance. Raising a few combs of emerging brood from the brood nest to a super to relieve congestion in the brood chamber.

The destruction of queen cells every nine or ten days requires some much labor and is not always effective. In localities where the swarming season is short, the separation of queen and brood is usually effective. All the

brood is removed from the brood chamber and placed in an empty super, and the brood chamber is then filled with empty combs. The queen and some of the bees brushed from the combs of brood are left below with the empty combs, and a queen excluder placed over them. The supers of combs are placed over the excluder, and the super containing the brood is now placed on top. All queen cells should be destroyed when the brood is placed in the super, and again eight days later.

A more effective method is to remove the queen from the colony at the time the first active queen cells are found, and to destroy the cells. Eight days later again examine the colony and destroy all the queen cells but one, or destroy all and give a ripe cell of select parentage. In this way a young queen is obtained that will not swarm. This plan, however, may cause a certain amount of loafing until the new queen starts laying. This may be overcome to a certain extent by giving a ripe cell at the time of removing the queen.

It is a good plan to keep the queen's wings clipped, for, should a swarm emerge, the queen will be unable to fly and will fall to the ground when she leaves the hive. The queen is then caged and the parent colony moved to a new site. A new hive is placed on the vacant stand and the swarm will return, when the queen can be released and allowed to run in with the swarm. The supers from the parent colony should be given to the swarm. Eight days later destroy all queen cells except one in the parent colony to prevent another swarming.—C. B. Goodenham, Apiarist.

Control of Swarming Saves Considerable Loss

Most Effective Method Is To Remove the Queen When First Queen Cells Are Found—The Cells Are Then Destroyed With the Exception of One.

Swarming is a natural method by which bees increase, but is a hindrance to the best results in honey production; especially is this true of comb honey production.

The uncertainty of swarming, the reduction of the honey crop through division of the working force of the colony, the possibilities of losing swarms, and the difficulty of controlling swarming without considerable labor, all make the control of swarming the biggest problem in bee management.

Colonies do not all require the same treatment. Swarming may often be prevented by the following manipulations. Raising a few combs of emerging brood from the brood nest to a super to relieve congestion in the brood chamber.

The destruction of queen cells every nine or ten days requires some much labor and is not always effective. In localities where the swarming season is short, the separation of queen and brood is usually effective. All the

A Useful Plant Food Is Nitrate of Soda

It Is One of the Most Valuable of the Nitrogen-Supplying Fertilizers—Good in the Orchard and Good in the Garden.

Nitrate of soda dissolves readily when brought in contact with moisture, and if applied to the surface soil it will soon be dissolved and taken up. If the rains are heavy there may be some loss by percolation; however, there are seldom rains heavy enough after early May to cause any percolation of water through the soil, unless the soil is of a very open nature. Nitrate of soda should be applied in the form of a dust, and it is a little loss of plant food from this cause.

Nitrate of soda supplies nitrogen in a readily available form and because of this is one of the most valuable of the nitrogen supplying fertilizers. In the spring nitrates in the soil may be very deficient because of their depletion by drainage from the soil, caused by fall and early spring rains. Liberation of nitrogen in the humus cannot take place until the soil warms and the nitrifying bacteria become active; hence the suitability of nitrate of soda for furnishing available nitrogen early.

Nitrate of soda may cause injury if applied in large quantities, because of the sodium chloride it contains and care in its application is necessary. The application usually should not exceed three hundred pounds per acre, or once per square yard is equal to three hundred pounds per acre. If evenly distributed and worked into the soil, this quantity will not cause injury and large amounts are generally not necessary. The application may vary from one hundred to three hundred pounds per acre. The larger the amount used the more care is necessary to secure an even distribution by mixing it well into the soil.

Nitrate in Orchards. Orchard trees are usually spaced 33 feet apart which would be 40 trees to the acre, and if the trees are planted at the rate of 50 to 100 pounds per acre when the tree is growing, should give all the nitrogen required for early, vigorous growth. This would be at the rate of a hundred pounds per acre. It may be desirable in some cases to increase this,

but annual spring applications of this amount should be sufficient to give the desired early growth. This should be applied by the middle of May and a later June or July application. A new hedge may be necessary if a heavy set of fruit is made and the soil not very fertile.

It is not a good plan to overfeed at one time, and for this reason two applications may be more conducive to well-developed growth than an excess applied at once. An even surface distribution is also desirable for, if this is not done, certain areas may have an excess and other areas none. Nitrate of soda should be put through a sieve and the lumps thoroughly pulverized before it is used, thus making possible better and more even distribution.

Many transplanted garden plants, after they have become established—such as tomatoes, cabbage, celery and the garden annual flowering plants may be stimulated into early growth by scattering a little nitrate of soda around them just before a rain. It is well to use judgment, however, as a little too much may injure the roots and kill the plant. The fertilizer should be kept from the leaves as it will cause injury.

"Pasture grasses or lawns may be started into strong growth by scattering one hundred pounds of this fertilizer per acre when the grass is dry just before a rain. Nitrate of soda is poisonous for stock and because of its salty nature they are fond of it, so care should be exercised not to leave it where stock can have access to it. Pastures where it has been used should not be grazed for a period after it is applied, in order to give ample opportunity for it to be completely dissolved.

Nitrate is usually applied at the rate of 50 to 100 pounds per acre when the tree is growing, should give all the nitrogen required for early, vigorous growth. This would be at the rate of a hundred pounds per acre. It may be desirable in some cases to increase this,

That Tired Feeling

Is Just As Much a Warning as "Stop, Look and Listen." It indicates run-down conditions and means that you must purify your blood, renew your strength, and your "power of resistance," or be in great danger of serious sickness, the grip, flu, fever, contagious and infectious diseases. Do not make light of it. It is serious. Give it attention at once. Ask your druggist for Hood's Sarsaparilla. He knows this good old family medicine is just the thing to take in spring for that tired feeling, loss of appetite, debility. It is an all-year-round medicine, wonderfully effective in the treatment of eczema, catarrh, rheumatism and run-down after-disease conditions. "My husband has taken Hood's Sarsaparilla for three years, and it always puts him in shape. He is 56 years old." Mrs. N. Campbell, Detroit, Ill. Hood's Sarsaparilla is a mild laxative, Hood's Pills.

Hood's Sarsaparilla

OVERCOMES THAT TIRED FEELING, BUILDS UP HEALTH

Sale of Marquisette Curtains Monday---100 Pairs at \$4.50 Pair

MOSQUITO NETTING

Prepare now to keep out the flies. We have secured an extra big shipment and have marked the range at money-saving prices. Fruit growers, it will pay you to get your supplies at these prices. Fly netting, in green, white and navy, 36 inches wide, at 10c yard. Red, 36 inches wide, at 12c yard. White only, 60 inches wide, at 20c yard.

Just at the time you need them, we have secured 100 pairs of these popular curtains for which there is an exceptional demand. The price will be a big surprise when you see the quality, as we never thought it would be possible this season to procure such curtains at this very low price. Don't overlook these Monday.

100 PAIRS MARQUISSETTE CURTAINS Finished with insertion and lace edge, made of good quality marquisette insertions, two and three inches wide, a splendid range of designs to offer, in ivory color only, all 2 1/2 yards. On sale Monday \$4.50 pair

SELF-COLORED MADRAS, \$1.50 YARD FINE FILET NET, \$1.00 YARD

36 inches wide, with borders on both sides, effective designs, has fine mercerized finish; colors of brown, rose or green; an ideal fabric for overdraperies. \$1.50 yard

STENCILED LINEN CHINTZ, 37c YARD

300 yards more of Stenciled Linen Chintz on natural grounds, 26 inches wide, in combinations of rose, green, blue and tan, designs in stripe and detached styles; a very serviceable material for side curtains, bedspreads, etc. Those anticipating new draperies for the summer cottage should secure their needs Monday, as this quantity will not last long. 37c yard

OIL OPAQUE WINDOW SHADES, 88c EACH

Another lot of Window Shades to offer on Monday, in green only, mounted on good spring rollers; shades are 37 inches by 70 inches long, and are slightly imperfect, but answer splendidly for kitchen and back windows; all are oil opaque and come complete with brackets and nails. On sale Monday 88c each

Genuine Swiss Organdies Direct From St. Gall, \$1.25 Yard

We have been fortunate in securing another big shipment of Genuine Swiss Organdies, one of the most popular fabrics for this season. The colors are fast (see washed sample at the counter) and the organdy irons up to its original body without starching. We have received a large range of colors, including canary, sand, sky, cadet, mauve, peach, grey, American Beauty, Nile green, apricot and maise. The quality is one of the best and will be found satisfactory for regular wear. Kindly note, some colors are limited in quantity, and we would suggest early buying if you would avoid disappointment. Mail orders filled promptly, but order early while the range of colors is complete. Genuine Swiss Organdy, 45 inches wide \$1.25 yard

Horrockses' Fine Nainsooks

A beautiful quality of Fine Nainsook, Horrockses' well-known make, just the thing for new lingerie. Soft in finish and of a fine, even weave, can recommend this material to those who require a high-grade nainsook that will give every satisfaction for regular use. Be sure and get our supply of this splendid nainsook; 40 inches wide 85c yard

Other qualities, 36 inches wide 49c and 60c yard

BIRD NOTES

(Contributed by McIlwraith Ornithological Club.)

Although April 10 was a very cold and windy day, a most interesting time was enjoyed with the birds. Mr. Mack Williams and I visited a bald eagle's nest which we had located some time ago. When we reached the lake, a heavy shore wind was blowing. As the swamps along the lake shore seem to have some connection with the lake, the water in them was raised very much, making it necessary to walk logs for a considerable distance to reach the nesting tree. From a small bluff at the edge of the swamp the nest could be seen through the trees. Both birds were on the nest, one in the centre with only its head visible, the other sitting up near the edge. It had probably just come in with a lunch for its mate. The nest was placed about six feet from the ground in a large white-barked tree. It was a massive structure of dead sticks and limbs, some of which were over two inches in diameter. The nest was over six feet wide, but had very little depression. Two eggs had hatched and the third was chipped. When half-way up to the nest the young birds could be heard peeping, much like young chickens. There were parts of the nest which had been picked in, and hanging from a sapling below the nest were the remains of an old squaw duck which had been eaten. Eagles seem to be for life; when one bird is killed the other never takes a new mate. This pair has chosen a very lonely place, and no doubt will have a number of years ahead of them yet. They evidently have nested there for a long time, the lower part of the nest is much decayed. A. A. Wood.

City Briefs

—Herb Allen of the Allen Theatrical Enterprises was in the city last night en route to Chicago, and visited the local Allen Theatre.

INSPECTED PLANT.—Mayor E. S. Little, Ald. F. E. Harley and Ald. W. A. Wilson inspected the city paving plant Friday afternoon.

SLIGHTLY IMPROVED.—Police Sergeant Thomas Noonan, who is seriously ill in St. Joseph's Hospital, is somewhat improved today. He spent a fairly good night.

SUES FOR \$1,200.—R. W. Nicholson, of this city, has issued a writ against the G. T. R. for \$1,200 for loss of a carload of soft coal, which he alleges was confiscated on or about October 18, 1920, by the company for its own use.

24 PERMITS.—Twenty-four permits, representing \$214.20 worth of building, have been issued by Building Inspector J. M. Piper this month. Friday permits representing \$3,380 worth of building were issued. J. M. Piper obtained one to build a frame dwelling on Salisbury street at a cost of \$1,000.

FAIR BOARD MEETING.—It is probable that the directors of the Western Fair Association will consider the extension of the fair grounds at the meeting this afternoon. Secretary A. M. Hunt said today that the progress of the horticultural and agricultural building will be awarded.

TORONTO TRAVELERS HERE.—The officers of Toronto Council of the United Commercial Travelers are paying a visit to the local council tonight. London Council No. 609, was instituted March 5, of this year. The progress made to date has been very creditable, and several candidates are to be admitted to the ranks.

TORONTO OFFICERS WILL CONDUCT THE INITIATION.

GIVEN WRIST WATCH.—Miss Annie Arnold was presented with a gold wrist watch from the congregation of St. Paul's Cathedral last evening. Rev. Dean Tucker made the presentation. Capt. Harry Dickenson, the new choir master, replied on behalf of Miss Arnold. During the time the cathedral was without an organist Miss Arnold had charge of the choir and organ.

MAKING GOOD PROGRESS.—Twice as much ground as last year has been done by the city engineer's department this year as during the corresponding period of 1920. This year 30,000 yards of grading has been done, and 12,000 of concrete work. Surface grading has been started one month earlier than it was last year.

DIDN'T ORDER IT.—Wm. Neno of Byron has stated that he had nothing to do with the shipment of alcohol which arrived at the G. T. R. freight sheds on Thursday consigned to him. The license inspector stated this morning that the shipment, valued at \$1,125, will be confiscated and sent to the authorities in Toronto.

EPWORTH LEAGUE RALLY.—A large attendance is expected at the annual Epworth League union rally on Monday evening in First Methodist Church. All the Methodist young people of the city gather for this meeting. Rev. A. J. Thomas, R.D., of Montreal, will be the speaker. E. D. Jordan, with a full choir, will sing at both services.

NEW DRESSING ROOMS.—Four dressing rooms will be constructed at each of the city bathing houses. E. Y. Jordan, general manager of the public utilities commission, announced today. This will provide one for men, one for women, one for boys and one for girls. Last year, there was only one for each sex on the east side, and at the north end there was only one for men and boys.

TALBOT STREET SERVICES.—The Talbot Street Baptist church will hold both their services in the Allen Theatre tomorrow. As it is Mother's Day, unusual interest attaches to the services. Mr. Roy will preach in the morning on "The Mother's Dream," and in the evening on "When Mother Goes to the Ball Game." Miss Hilda McMillen will sing at both services. In the evening she will sing in a duet with Mr. Roy, in addition to singing a solo. Talbot Baptist church will hold its service at 7:30 p.m. in the evening Allen Street will play a violin solo.

NOTHING WILFUL

Alex. Judd Satisfies Court He Had No Intention of Breaking Bylaw.

Alex. Judd, of the Gore road, appeared in police court this morning charged with passing a standing street car with his horse and rig on the afternoon of May 3. He explained that he had been talking to a friend by the name of Doble, who was also driving a fiery steed, but that he was quite sure his rig was ahead of the front step of the street car when the car came to a stop.

After much evidence had been taken Deputy Magistrate Bartlett decided that there had been "nothing wilful" in the actions of Mr. Judd, and he was allowed to proceed smilingly on his way. The charge was laid by Constable Alex. Towle.

MINUTES OF BOARD MAY BE PRINTED

In city hall circles there is a feeling that the printing of the minutes of the board of education might improve the efficiency of that body.

Minutes of the meetings of the city council and all the bodies under its control are printed. Thus an alderman who was absent from a meeting of the housing commission will, after reading a copy of the minutes, know as much about the meeting as a person attending it.

The cost entailed is not large, and the secretary of the body for which the minutes are printed can assemble all his minutes in leaflet form for his own use. Leaflet copies can be made for other members of the body or those directly interested in it.

SPECIAL SERVICES FOR MOTHERS' DAY

Both Sermons and Music Will Be Appropriate For Occasion.

Mother's Day in the churches will be celebrated by special music and sermons. At St. Andrew's Church on Sunday morning the young people will unite with the congregation for a special service, and Rev. D. C. MacGregor will preach a sermon in keeping with the day.

Mrs. May R. Thornley will speak on "Mothers," at the Empress Avenue Church. The services of the Talbot Street Baptist Church will be held in the Allen Theatre. Rev. T. S. Roy will devote both morning and evening sermons to the celebration of Mother's Day. At the morning service the subject will be "Mother's Dream," and in the evening, "When Mother Goes to the Ball Game." Special music will be given.

"Mothers' Grievs and Joys" will be the topic of Rev. A. C. Bingham's sermon at the morning service in the Egerton Street Baptist Church. A choir of mothers will provide excellent music. Worley Road and Matilda Street Baptist Churches will also have choirs composed of mothers for the musical part of the services.

SALVATION ARMY MAY TAKE MRS. NELSON

Aged Woman's Case Presents Difficulties for Local Institutions.

The case of Mrs. Sarah Nelson, an inmate in the local jail for no reason save, it is said, that she has no where else to go, presents a difficult problem to solve. Efforts have been made to get her into the Aged People's Home, the Convalescent Home, York street, 12, and the Salvation Army, but all have failed. It seems to be a case of nobody wanting her. Mrs. Currie of the Women's Christian Association Board and Mrs. Joseph Marshall are now working through Brigadier Crichon of the Salvation Army, in an effort to place her in some private home, where she will be looked after for a consideration of \$20 a month, which is deposited in the bank for her regularly.

Mrs. L. H. Ingram of the Women's Christian Association explained to The Advertiser this morning why it was impossible for that association to recommend her for admittance to the Aged People's Home.

Fearful Trouble. "She was an inmate of this home ten years ago," said Mrs. Ingram, "but in every way a menace. She insisted on having a coal-oil stove in her room continually, keeping the rest of the patients in terror lest a fire be started. Finally she ran away from the home with two months' rent unpaid, although a regular monthly deposit of \$20 was made at the Bank of Montreal for her. From London she went to Wallaceburg, remaining away from the city until last year, when she returned, taking a room at Richmond street, near Market. Here once again she kept the whole block in terror lest she start a conflagration with her coal-oil stove, which seems to have become practically a part of her existence."

Was Not Admitted. "Since her discharge from the hospital recently, efforts were made again to get her into the Aged People's Home, but at first it was decided to give her a week's trial. However, on investigation, it was found that her condition was such that she could not be admitted to the home. She is absolutely irascible, and little time can risk another fire such as it had last year. There is also no room at this home where an incontinent patient may be put, and admitting her there might result in almost anything."

Within the last few days the Convalescent Home has been tried without avail, and at the present moment the Salvation Army is trying to place the woman in some private home. What she wants is an old crony of her own type who will live with her, and then she will be happy."

EXECUTIVE RETICENT ABOUT G. W. V. A. MEETING

Although it was intimated that much important business was transacted at the executive meeting of the local branch of the Great War Veterans' Association last evening, no information could be obtained as to just what was done. However, it was stated that at the general monthly meeting next Tuesday evening, in Hyman Hall, further matters concerning the welfare of the association would be discussed.

It was stated that the members of the committee that is looking after the association rooms on Thursday, asking the police to make sure that the rig was ahead of the front step of the street car when the car came to a stop.

After much evidence had been taken Deputy Magistrate Bartlett decided that there had been "nothing wilful" in the actions of Mr. Judd, and he was allowed to proceed smilingly on his way. The charge was laid by Constable Alex. Towle.

PAID FOR THEIR LUNCH AND THEN WAS FINED

William McDowell is surely playing in hard luck. Last night, or rather early this morning, William paid the meal checks of Douglas Murray and another chap named Slat, in a local cafe, rather than have a fight, as he expected to be arrested by the police. However, he was found guilty of acting in a disorderly manner and fined \$5 and costs.

Constable Last told the court that he had been called to the cafe where the two aforementioned were scuffling in the doorway. They were using bad language, Murray and Slat vanished on sight of the blue uniform, but he had arrested McDowell, a waiter, told of the swearing and of Murray and Slat refusing to pay their bills. Finally the men went out, but blocked the entrance, which resulted in the police call and McDowell's appearance in court.

HAND SEVERELY CUT.

William Anderson, while working in the factory of L. S. Perry & Co. on Friday, had his hand severely cut in some machinery. He was attended by Dr. G. A. Ramsay and taken to Victoria Hospital, where further attention was given his injuries.

BRIDEGROOM WAS GIVEN MERRY RIDE

May Take Action Against Comrades On Return From Honeymoon.

Although joining the ranks of the Benedictines is conceded to be a ticklish proceeding, an employee of a local motor company had this fact doubly impressed upon him, when he took the fatal plunge recently. The happy groom, necessary ceremonial, had been performed at the bride's home, in company with his better half, journeyed to the railway station, preparatory to setting out on the honeymoon.

The happy pair, in company with many friends, arrived at the depot, long before their train, which was late, arrived. They were busily engaged chatting with friends and acknowledging pleasant greetings, when a party of the groom's fellow employees swooped down on the scene. Their attack was much better planned than could be accomplished by a Sinn Fein leader, and as a result, the groom, though making no effort to assist the chastised groom, who was seized by his fellow employees, who plied his arms and carried him across the platform to a waiting motor truck.

The victim was hastily bundled into the truck, no consideration being shown for his immaculate apparel, and the vehicle was driven away, with the chastised groom clinging to it. The groom, upon his return, gave appropriate signs, proclaiming the nature of the occasion. Friends of the bride, deserted less than one hour after being led to the altar attempted to solve her, but were met with misgivings for hubble's safety won out.

As the train drew into the station, and the conductor shouted "All Board," the bride was on the verge of hysterics. Meanwhile, the groom, who had been in the crowd, was being carried off by his friends, and the bride was being carried off by her friends.

DEATH OF MRS. SNYDER. Mrs. Snyder, died Friday in St. Joseph's Hospital, in her 43rd year. The funeral will be held Monday, from St. Peter's Cemetery. Requiem high mass will be sung in St. Mary's Church at 9 a.m.

FREDERICK J. EDWARDS DIES. Frederick John Edwards, 63 years old, died Friday at his home, 1000 St. George's street, in the city. He was a retired farmer, a son of the late Henry Edwards. He is survived by his wife, Mrs. Edwards, and his son, John D. Edwards, who is a sister. The funeral will be held Sunday afternoon to Melrose Cemetery.

DEATH OF MELVILLE A. SMITH. Melville Alexander Smith, 66 years old, died Friday at his home, 1000 St. George's street, in the city. He was a retired farmer, a son of the late Henry Edwards. He is survived by his wife, Mrs. Edwards, and his son, John D. Edwards, who is a sister. The funeral will be held Sunday afternoon to Melrose Cemetery.

MRS. IDA F. SMITH DIES. Mrs. Ida Florence Smith, 41 years old, wife of William Smith, died at the family residence, Lot 50, Concession B, Westminster Township, Friday afternoon. She was a daughter of the late C. B. Axford of St. Thomas.

Besides her husband, she is survived by three sons, Mr. William A. Smith, Mrs. N. Scott Wigle and Miss Ruth Axford of Byron; and by four brothers, Frank J. Axford, of Byron, Richard and Karl Axford, also of Byron.

The funeral will be held Sunday to Woodhill cemetery, and will be conducted by Rev. Mr. Topper.

VAGS ARE REMANDED

Pair Rode the Bumpers From Chatham to London.

Albert Gauthier of Winnipeg and Jules Lapinier of Montreal are pals. They started out from Windsor Friday and rode to Chatham, later boarding a G. T. R. freight. The G. T. R. cops caught them on the job, and they were remanded to jail for one week by Deputy Magistrate P. H. Bartlett and given a chance to write a fine for some cash.

Constable John Hughes of the Grand Trunk, explained to the court that the railway would sooner see men try to beat their way on the passenger trains, and grabby riders on the air couplings, often stopping the train.

The prisoners suggested that they might find work here if given an opportunity, but Chief Birrell informed them that there was no work to be found in London.

TO LATE TO CLASSIFY

COWAN.—At Seattle, Washington, on Friday, May 6, 1921, John W. Cowan was late to the late Ex-Mayor Cowan's funeral.

MORRIS.—At his late residence, Morrin House, King street, on Saturday, May 7, 1921, Edward Morrin, in his 83rd year, died.

Funeral from the above address on Monday morning at 10 o'clock, St. Peter's Cathedral at 10 o'clock. Interment St. Peter's Cemetery.

IN MEMORIAM.

CLARK.—In loving memory of Albert Thomas Clark, who died three years ago, May 7, 1918.

No one knows how we miss him. None but aching hearts can night. Earth has lost him, heaven has found him. Jesus doeth all things well.

NEWLY-MOUNTED MOOSE HEAD for sale. Apply 830 Lorine avenue. Phone 422.

EIGHT-ROOM COTTAGE, SEMI-MODERN. 615 Talbot street. Call at 100 Centre street.

WANTED—MIND AND WIFE. WITH-OUT children, for garden, etc. Near city. Apply R. G. Fisher, 74 Dundas.

WOMAN, HANDY WITH NEEDLE. few hours a week for a few weeks. Phone 3430, Sunday or Monday morning.

ALL OUR \$10 AND \$12 HATS FOR \$5.50. Adams Jackson & Co., 20 Adelaide street.

PERSONAL. estate of J. H. MADAM JACKSON & CO., 38 ADELAIDE street, are selling beautiful hats at pre-war prices.

MANY GRADUATES COMING FOR REUNION

The Western Medical School Alumni Meeting Here for a Week.

The first reunion of the Western University Medical School Alumni Association will be held in London during the week commencing May 23, and many graduates in all parts of North America are making an effort to attend. In addition to the general reorganization of the association, and the election of officers it is planned to stage a banquet during the reunion. During the same week the Western Academy of Medicine will hold a special session, at which Dr. John B. Deaver of Philadelphia will be the principal speaker. The academy is arranging special clinics at Victoria, St. Joseph's and the Ontario Hospitals, while in the laboratories of the new Medical School demonstrations in bacteriology, pathology, anatomy, physiology, pharmacology, physiological chemistry, physics and public health will be given, thus enabling Western graduates and other district medical men to profit intellectually by the reunion. This session is being arranged so that it will not conflict with the annual meeting of the Ontario Medical Association, which takes place the latter part of the same week.

As convocation week at Western University is on the same dates, the graduation exercises, annual play, convocation banquet and dance will provide further entertainment for the visitors. Members of the Alumni Association throughout Ontario, or elsewhere are requested to make suggestions for the reunion to Drs. Robert Ferguson, F. J. H. Campbell or George A. Ramsay of this city.

REMEMBER MOTHER

[By the Poet Bill.]

Bill, the well-known and justly famous poet, is always on the job to chronicle in verse the news of the day. Sunday being observed as "Mother's Day," Bill naturally could not keep a pen in his hand without a collection of words expressing his sentiments in the matter of observing the day.

We will now introduce the poem, entitled, "Mothers' Day":

REMEMBER MOTHER. Let this now another year Be a memory to Mother dear, And give her a few flowers To enjoy in her old hours.

Remember Mother. Let us not forget her now, For how we remember her when small, How she would rock us in her arms, If we happened to have a fall.

Remember Mother. Forget not the restless nights she had, The agonies to both child and dad, Sick near to death with the flu. Now it is up to both me and you.

Remember Mother. Should the flower for her be white, Though to us she is out of sight, But to her respect is given, She will look to you from heaven.

Remember Mother. If yet on earth she is here, The only friend is Mother dear; Let the flowers to her be bright, Of different hue, to her delight.

Remember Mother. We know before another year, Mother, to us now so dear, Will be counted with the blest, And taken away to her rest.

Remember Mother. Father seems to be set aside, Yet he should not forget his day; When he took Mother for his bride, To remember her till death takes her away.

Remember Mother. —BILL.

OWES HER LIFE TO "FRUIT-A-TIVES"

After Years of Suffering With Dyspepsia, This Fruit Medicine Gave Relief.

MLLE. ANTOINETTE BOUCHER.
"317 Dorion St., Montreal."

"I am writing to tell you that I owe my life to 'Fruit-a-tives' for this remedy relieved me when I had abandoned all hope of ever recovering my health. I suffered terribly with Dyspepsia. I had it for years and all the medicines I took did not do me any good."

"I read something about 'Fruit-a-tives' being good for all Stomach Troubles and Disorders of Digestion, so I tried them. After finishing a few boxes, I was entirely relieved of Dyspepsia and my general health was restored."

"I thank the great fruit medicine, 'Fruit-a-tives', for this wonderful relief."

"MLLE. ANTOINETTE BOUCHER."
Fifty cents a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting. Then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes and the calluses, without soreness or irritation.

PIMPLES ITCHED AND BURNED

Face Was Badly Disfigured.
Cuticura Soap and Ointment Healed.

"Small red pimples and black-heads began on my face and my face was badly disfigured. Some of the pimples festered while others scaled over and there were places where the pimples were in blotches. They used to itch and burn terribly. I saw an advertisement for Cuticura and I tried them. They stopped the itching and burning and I used four cakes of Soap and three boxes of Ointment which healed me." (Signed) Miss V. A. Hayne, Stormont, N. S., Dec. 26, '18.

Soap 25c. Ointment 25c. and 50c. sold throughout the Dominion. Canadian Depot: Lynne, Limited, 31 Paul St., Montreal.

for BURNS

GUIDE SAYS THE STILLMAN LETTER IS A FORGERY

"You Can Do Anything With Money," Declares Fred Beavais.

TRUTH WILL COME OUT

More Interested in American Tourists Than in the Divorce Action.

MONTREAL, May 6.—Fred Beavais, French-Canadian guide, whom James Stillman, the American banker, declares is father of Mrs. Stillman's youngest child, Guy, declared tonight that the letter to Mrs. Stillman, published today, is a forgery.

"You can do anything, if you have money," he said. Further than to say his correspondence with Mrs. Stillman was all of a business nature, and he would not object to it being published. Beavais refused to comment, saying: "The truth will come out, and it will be very different to what some newspapers suppose."

Beavais declared he was under orders from the lawyers not to talk, and said he did not think he would be called as a witness. "Why should I?" he asked. "It is not my case; let them fight it out. The truth will prevail."

He declared he was not as much interested in the Stillman case, as he is in the floating of a \$2,500,000 company to develop the Laurentians as a holiday ground for American tourists.

"Last June, July and August," he said, "250,000 American tourists entered Quebec. On an average they spent \$109 each. It will be our object to make holidaying in this province so attractive to them that they will spend on an average of \$100 each." He declared half a dozen men in Montreal had intimated willingness to put \$50,000 each in the company, and they would easily get all the American capital they wanted.

WINNIPEG STREET CAR MEN AND COY. REACH AGREEMENT

Recognition of O. B. U. by Company Was Bone of Contention.

WINNIPEG, May 6.—Demands that the Winnipeg Electric Railway Company should recognize the One Big Union in its agreement with the motormen and conductors were withdrawn following a mass meeting of the men held Thursday night, at which a resolution was passed accepting the company's offer to execute the agreement which has been in force for the past year.

This agreement was signed at noon today, according to a statement issued by John Whitsell, manager of the company, between the Winnipeg Electric and its motormen and conductors, as represented by a committee of employees.

OWNERS REJECT CONDITIONS. NEW YORK, May 6.—The executive committee of the United States Steamship Owners' Association today rejected conditions proposed as a basis for settling the nation-wide maritime strike.

MANY LOCKOUTS LIKELY. QUEBEC, May 6.—The "Telegraph" today publishes a statement denying previous reports that the strike of the pulp workers employed by Price Bros. at Jonquiere and Kenora is settled. The statement further declares that a series of lockouts against mill workmen in Canada is likely to develop during the course of next month as a result of the claim of paper manufacturers that while paper prices are dropping, wages are steadily on the increase.

TRY TO BREAK STRIKE. AKRON, May 6.—Police authorities in three cities on the Northern Ohio Light and Traction Company system were preparing for emergencies today, with the announcement by traction officials that an attempt would probably be made Sunday to operate cars, as the first step towards ending the strike of 1,100 platform men, which began yesterday to protest announced wage cuts.

OTTAWA, May 6.—The Citizen today publishes the following: "Two thousand-odd employees of the John R. Booth Company, Limited, who are engaged in the local mills and yards may shortly have the opportunity of purchasing certain lines of staple foods at absolute wholesale prices, if certain suggestions which have been made to the head officers of the company are carried into effect."

The idea is that John R. Booth will feed his own employees at wholesale rates, so long as what is considered as a wide discrepancy of prices for staple foods exists between the wholesale and retail price of these staples.

CHICAGO PRINTERS GET 44-HOUR WEEK—WAGE CUT \$4.35. CHICAGO, May 6.—The printing trades strike was ended in Chicago today, when 4,500 printers, bookbinders and press-feeders returned to work under an agreement by which the employers granted a 44-hour week and the employees accepted a wage reduction of \$4.35 a week. The wage reduction was decided on this week by an arbitration board, on which both sides were equally represented.

NO SIGN OF COMPROMISE. OTTAWA, May 6.—There has been no suggestion of a compromise by either side to the building trades dispute since the strike occurred on Monday last, and present indications are that the various unions will not budge from their determination to secure at least last year's wage scales before they return to work. On the other hand, the association of Canadian Construction Industries members are equally determined that they will not sign any agreements for the year, until the unions are prepared to accept their reduced wage schedules.

Jewish Women Give Gold And Precious Stones For Rebuilding of Palestine

Dramatic Scene in Toronto Tea Room Follows Appeal Made On Behalf of Holy Land by Mrs. Weizman.

TORONTO, May 6.—Just as in the days of Ezra, Jewish women poured out their most precious possessions for the rebuilding of the temple, so this afternoon, Jewish women of Toronto and from outside points in the province made offerings of their jewels and household treasures that Palestine may be reconstructed and once more take its place as a nation among the nations of the world.

A dramatic scene of self-sacrifice took place in a local tea room this afternoon, when, in response to a fervent appeal from Mrs. Weizman, wife of Prof. Chaim Weizman, head of the world Zionist organization, for help to make Palestine a livable country, the ladies presented valuable jewelry, as well as cash, to the Jewish cause. Scarcely had Mrs. Weizman finished speaking, when there was a movement toward the head table by ladies ready to give up their personal possessions.

The first contribution to the cause in Palestine was a gold bracelet, which a lady took from her wrist. Then came a pearl necklace, a ring with diamonds, rubies, sapphires and pearl settings, followed by gold pieces, watches and promises of silver gave her baby's ring, as well as a ring off her own finger.

The money pledges totaled about \$1,500, and the jewels presented had been estimated, would amount to several thousand dollars.

RECIPROCITY WITH NEW ZEALAND NOT YET BEFORE HOUSE

Premier Tells Hon. Charles Murphy in Reply To a Question.

EXTRADITION TREATY New Regulations Will Permit Deportation of Wife-Deserters.

OTTAWA, May 6.—(By Canadian Press.)—On the orders of the day in the House of Commons this afternoon Hon. Charles Murphy called the attention of the prime minister to the fact that Premier Massey of New Zealand had given out an interview in Victoria, B. C., in which he said that New Zealand was prepared to negotiate a reciprocity treaty with Canada, and that the constitution should be amended for the British commonwealth of nations.

Mr. Murphy asked if Premier Massey was going to confer with the Canadian Government with respect to this.

Right Hon. A. Meighen replied that no request for a conference had been received from Premier Massey, either on the question of reciprocity or any other subject.

Extradition Treaty. Hon. W. S. Fielding asked regarding the extradition treaty with Canada, which was recently passed by the United States Senate. Hon. Mr. Doherty replied that this treaty provided for extradition in case of wife desertion. The treaty would be laid before the House when it was received.

Third reading was given to a bill amending the prisons and reformatories act. One clause of the bill raises from 16 to 18 the age of young people liable to be sent to penitentiaries.

The House in committee of supply took up railway estimates totalling \$167,117,720.72, including \$8 millions for loans and 26 millions G. T. P. loan.

Lucien Cannon (Dorchester) criticized speeches recently made in the West by Hon. F. B. Carvell, chairman of the board of railway commissioners, and asked if the Government had any control in this regard.

Hon. Dr. Reid, minister of railways, replied that he understood Mr. Carvell was speaking for himself.

Six Commissioners Too Many. Duncan C. Ross (Middlesex West) said it was unnecessary to have six railway commissioners when three could do the work, and asked if the Government was considering filling the present vacancy on the board.

Dr. Reid replied that owing to pressure of work the filling of the vacancy had not been dealt with.

A vote of \$53,000 for the commissioner of highways and his staff gave rise to some discussion.

Hon. W. S. Fielding asked if A. W. Campbell, the commissioner, was not to be given the standing of a deputy minister and consequent higher salary. The minister replied in the negative.

After private bills were disposed of at the evening sitting, the House again went into committee on estimates of the department of railways and canals, continuing discussion of the item of \$53,000 for the commissioner of highways and his staff. Dr. M. Steele was one of those who expressed the opinion that the people were not satisfied that money spent on roads were economically administered. He thought it was perhaps a mistake for the Dominion Government to hand the money over to the Provincial Governments. It was difficult for the Dominion Government to see that every dollar was wisely spent. Being constructed failed to prove a permanent asset to the country.

HEARTBURN LIVER TROUBLE When the liver becomes torpid and inflamed, it cannot furnish sufficient bile to the bowels, thus causing them to become constipated. The stomach is also affected. In the case of heartburn there is a gnawing and burning pain in the stomach, attended by disturbed appetite, caused by great acidity. Whenever too much food is taken, it is liable to ferment, and become extremely sour, vomiting often occurs; and what is thrown up, is sour and sometimes bitter. Other liver trouble symptoms are pain under the right shoulder, yellowness of the skin and eyes, floating specks before the eyes, coated tongue, bad taste in the morning, foul breath, water brash, jaundice, constipation, etc. Keep your liver active by using Milburn's Laxa-Liver Pills and you will have no heartburn or other liver troubles. Being purely vegetable they do not gripe, weaken or sicken like the old-fashioned purgatives generally do. Mrs. Mary Strome, Glasnevin, Sask., writes: "I have used Milburn's Laxa-Liver Pills, and they have cleared me of heartburn and liver trouble. I don't think they can be beaten by any other medicine, and I can highly recommend them."

Price 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

TWO COW HIDES BRING SIXTEEN CENTS

TORONTO, May 6.—A special dispatch to the Telegram from Winnipeg says: "Percy Champion of Melita, recently sent the hides of two cows to Brandon for sale. John Williams, M. P. P. for Arthur, said today. After freight charges were deducted, all he received for the hides was sixteen cents in postage stamps."

BRANTFORD BRICKLAYERS OPPOSE 10 P. C. REDUCTION

Over 1,000 Men Out of Work in the Telephone City.

BRANTFORD, May 6.—Local bricklayers are out on strike as a result of an attempt by the master builders to effect a 10 per cent cut in wages. Contractors not belonging to the local builders' exchange have agreed to pay the present standard wage of \$1 an hour, but the majority of the builders have cut to 90 cents.

Descendant of Carlyle. Thomas Carlyle, direct descendant of England's great poet, and a resident of Paris road, Brant County, died at his home here this morning. He was in his 88th year.

Over 1,000 Unemployed. Unemployment troubles are still evident here, and the city was unable to place 87 applicants for civic work this week. A few of the factories are at work on a greater hour-per-week schedule than during the winter, and have taken on extra help, but the number of unemployed is still over 1,000 men.

C. P. R. EMPLOYEE PAYS \$1,120 FOR BREACHES OF C. T. A.

Sixteen Violations of Liquor Law Charged Against J. Neil Mitchell.

RECEIVED \$1,000 TIP

Accused Withheld Waybills On Liquor Consignments From License Officers.

WINDSOR, May 6.—J. Neil Mitchell, employed as a warehouseman by the Dominion Express Company at the C. P. R. station, paid fines totalling \$1,120 for sixteen violations of the liquor law. Mitchell pleaded guilty to withholding waybills on sixteen consignments from license department officers, allowing a carload containing 500 cases of whiskey, valued at \$25,000, to be delivered in Windsor without interference from provincial officers.

Got \$1,000 Tip. Mitchell voluntarily told the court that a large quantity of the liquor was billed to a man named "Morton" and Cecil Smith. The man named "Morton" he said, gave him a tip of \$1,000 to hold the bills from the license department officers. Both "Morton" and Smith went to the railway car and took the liquor away without the knowledge of any other officials of the express agency, he said.

Was Not First Tip. Mitchell also stated that it was not the first time that "Morton" had given him a "tip" for holding the liquor from the liquor officers. He said that Cecil Smith had not offered him anything, although he said Smith had talked to him on several occasions about holding up the waybills.

HOLDING HIS OWN. OTTAWA, May 6.—Sir Sam Hughes, former minister of militia, is reported to be holding his own fairly well. His physicians expect to give him a second transfusion of blood on Sunday.

TOBACCO GROWERS FACING HEAVY LOSS NO BUYERS FOR CROP

SIMCOE, May 6.—Norfolk County tobacco growers are facing heavy loss if prices of tobacco fall as indicated by the wholesale in Montreal.

The buyers for the tobacco companies have sent no pay to tobacco strippers here for the last five weeks, and as a result five of the strippers have quit work. Individual tobacco growers made complaints to the middlemen at Knusville, who told them to ship it to Knusville at their own expense to be stripped if they wished to sell it at all.

Insured For \$15,000. Norfolk County has a bumper crop of tobacco this year, and one of the biggest growers, William Oliver, has more than 40 acres, which so far he has been unable to dispose of. His crop is insured for \$15,000.

Tobacco is now being shipped by the Canadian Atlantic, although most of the crop has not been bought or the owners even approached for purchase. Tobacco travelers in Simcoe this week stated that a slump in cigarettes, cigars and pipe tobacco was expected soon, partly due to the bumper crops everywhere and the somewhat lessened demand.

RELIEF AT LAST

I want to help you if you are suffering from bleeding, itching, blind or protruding piles. I can tell you how, in your own home and without anyone's assistance, you can apply the best of all treatments.

PILES TREATED AT HOME

I promise to send you a FREE trial of the new absorption treatment, and references from your own locality if you will but write and ask. I assure you of immediate relief. Send no money, but tell others of this offer.

MRS. M. SUMMERS, Box 12, Windsor, Ont.

LUMBAGO

If you feel a touch of lumbago, you can ward off the evils of recurrent attacks, by taking Gin Pills without delay. Learn a lesson from the experience of Mr. H. A. Jukes. After suffering with lumbago for years, and being confined to the house at times, Mr. Jukes began to take Gin Pills. His letter to us reads, in part: "and much to my surprise, I at once felt a change for the better. I have been taking them at intervals, and, up to date, have had no recurrence of my old trouble; in fact, I have not felt better for years."

Don't delay. Buy a box on our money-back guarantee, or write for a free sample. National Drug & Chemical Co. of Canada, Limited, Toronto, Ont. U.S. residents should address: Na-Dru-Co, Inc., 202 Main St., Buffalo, N.Y.

TUBE FREE

—with every Economy tire purchased each tire Guaranteed 3,500 Miles.

Economy Tires, reconstructed with three plies of additional fabric wear like new, giving assurance of 3,500 miles or more. Adjustment claims are based on an average of twenty miles per day travel. Prices, including free tube:

Size	Tires	Size	Tires	Size	Tires	Size	Tires

GRAY-DORT

The New Model

Seldom has a car won such immediate and widespread popularity as the Gray-Dort with its new and wonderfully beautiful bodies.

Everyone who has viewed this body design has spoken of the Gray-Dort as the unquestioned style leader of its field. It has been instantly lifted into the class of cars costing at least \$700 more.

From a value standpoint, the new Gray-Dort has not a rival. It is the motor car sensation of 1921.

The new model is now on view. You are urged to see it at once.

THE MINISTRY OF WOMEN.

Amid the triumph and tragedy, the Cross, the God-man discloses in its historic "seven words" the infinite reaches of Redemption. In the ordeal of its consummation he bids the mother look upon her Son, and in words to John he speaks a new social order: "Behold thy mother." The observance of Mothers' Day finds the root and justification in the self of Calvary, and not in any paganism, savage or civilized. The world seems just beginning to apprehend the wide implication of that admonition to the beloved disciple, and a cautious ingratitude could sink no lower than by forgetfulness of the mother's claim upon the individual or the community.

It has been said that the nineteenth century was the century of women, and assuredly no other era is comparable with it in the advancement of her status and activities, which afford a remarkable verification of the declaration of Lord John Russell in 1858: "Everyone must have observed the new influence which is falling to the lot of women in swaying the destinies of the world." If the young generation are to be an improvement upon their fathers, if sin is to have less dominion and religion more power, if vice is to be abashed, and virtue to be honored, it is to women we must look for such a generation. Prof. Patrick Geddes, an eminent British scientist and sociologist, observed about 1904 that the fact must be faced that women do and will ask from life more than has ever been offered them by politicians or reformers, and he added that their demands are more concrete, personal and ideal. Changed conditions have drawn multitudes of women into the world's work. Were it not self-evident before, a survey of the Red Cross and patriotic achievements during the war period would convince anyone of their capacity and of their disinterested and self-sacrificing contribution. Their giving is of that priceless love element which is within. Their good cause has often won its way in the face of prejudice, ridicule, indifference, and persistent opposition. They know what they want, and how to attain it. The cynical inscription that those who are conspicuous in striving to make the world a more wholesome place to live in neglect the home will bear comparative examination. If family life suffers or wanes, the disorder traces to other sources. At a recent Toronto meeting Hon. G. H. Ferguson confessed that when Sir William Hearst decided to grant the franchise to the women of Ontario he had his doubts as to its wisdom, but now he had come to believe that the action was a blessing. Some have waxed incredulous and facetious over the advent of a woman in the British Columbia cabinet, apparently unmindful that during the most beneficent period of British history Victoria the Good wisely held the throne for over 60 years. In the Old Testament roll-call the illustrious Miriam, Deborah and Huldah exercised prophetic gifts; Anna, the prophetess, was officiating by fasting, prayer and speech at the Redeemer's advent. Space forbids more than mention of Elizabeth, the Marys, Priscilla, associated with St. Paul in missionary plans, Lydia, Doreas, Lois, and Eunice, forerunners of modern types like Florence Nightingale, Mrs. Stowe, Frances Willard, Susan B. Anthony, Clara Barton, and not forgetting recent names familiar in Canada, such as Letitia Youmans, Harriet Boomer, and many others.

If Christianity redeemed, and elevated women from servitude and lower vassalage, she is nobly and with interest repaying the debt. She is being given a place on church

boards and vestries, and the world is girdled with her associations, sisterhoods, societies, auxiliaries and literature for the furtherance of the Gospel Message, the abolition of giant evils, healing for the sick, education, restoration and cheer. The legislation and administration of many lands discloses the beneficent influence of the woman movement. The world's most strategic arena today is the Orient, and the women of Christendom are there representing the leading communion transforming its life. A group of distinguished native guests from Burma were lately entertained at the golden jubilee of the Baptist Women's American Foreign Missionary Society, and no one who met them could ever again doubt the value and success of the work. A great campaign of song and evangelism among the boys and others of Northern India is being prosecuted by women of the Episcopal Methodist Church. Mrs. Frances J. Heath, M. D., recently set sail with her mother from America to resume charge of the Sleeper Davis Union Hospital, the largest for women in Peking, China, and her support is furnished by an Episcopalian woman.

It is said that the greatest single influence in shaping the brilliant literary life-work of Thackeray was his mother's. No matter how retired and unobserved, no mother is to think lightly of her part. From her, very largely, flows the religious instinct and habit whereby the children "rise up and call her blessed." Through womanhood runs the golden strand of expectancy that finds its highest fulfillment in perpetuating what most nearly reaches the Christian ideal. Therefore, the mother's devotion is best and most divinely expressed when she sets and holds up for the child the highest standards of life and builds for a noble immortality. In his cradle song, John B. Tabb says that in the after-years all its melody will flow back to her.

"Sing it, mother, Love is strong! When the tears of manhood fall, Echoes of thy cradle song Shall its peace recall."

WILL HELP ALL AROUND.

The situation in the steel markets is generally regarded in the commercial world as the great barometer of trade. So many other lines are vitally dependent upon steel and iron, and the business is so closely related to the general prosperity of so many trades that conditions have an immediate reflection in trade circles. There is much that should interest the man in the street in the news from the large steel centres that workers are accepting wage reductions without question. They are realizing that they will be ahead in the long run, and that they will also help materially in restoring normal conditions in trade. Until recently the steel workers in one town were getting \$6 a day. There was only work for two days a week, so their envelope only contained \$12. By accepting a 20 per cent wage cut they are now working six days a week at \$4.80 per day, and at the end of the week have \$28.80 to take home. Not only this, but they are assured of more permanent work now, as their employers are enabled to go out and figure on contracts at prices within the reach of prospective buyers. This is merely a beginning, but it promises to act as a powerful stimulus to trade, and that is what is badly needed just now, speaking in a national and an international sense. Between 150,000 and 175,000 employees in one big American steel corporation will be affected by wage reductions, effective May 16. This will mean an annual saving to the company of \$120,000,000. It should mean a revival of business that will run into much larger sums, and directly stimulate other branches of trade.

SIZING UP CHARACTER.

The ability to size people up is of fundamental importance from the personal standpoint, for upon the accuracy of our judgments depends a large part of our happiness. In choosing friends or those who are to occupy an even closer relationship much depends upon first impressions. If these are unfeeling, our self-pride is humbled, our judgment is belittled, and we suffer all the heartaches of betrayed confidences and broken friendships.

On the business side, too, getting the right person for the right position has always been exceedingly difficult. There are isolated instances of men—Pericles in Greece, Julius Caesar in Rome, Lloyd George and the late Lord Kitchener in England, who have had the knack of picking able subordinates. Few have this gift, however, and for years the customary method of vocational selection has been to hire at random and "fire" the unfit. One manufacturing concern, for example, found that to keep one thousand men on the payroll it was necessary to hire eight thousand annually. The time and money spent in training the elusive seven thousand, at about \$50 a person, was an economic

waste. This is not an isolated instance; business literature is full of similar cases.

Nor is the employer the only one injured; hardship is inflicted upon the employee, for a considerable portion of his life may be wasted before he finds his true calling. Even more pathetic is the one who has spent years in preparing for a profession, possibly to maintain family traditions or to satisfy the whim of a parent, only to find eventually that he is a round peg in a square hole.

OTHERS' VIEWS

POINTING WITH PRIDE. [Toledo Blade.]

Possibly it should be a source of pride to us that a group of able scholars say we are not descended from monkeys, but that monkeys are degenerate descendants of our own race. The recent discoveries of prehistoric human remains indicate that our family is much older than we supposed. This is very nice, but the accompanying details are the usual results one finds in running up family trees. These ancestors of ours who strove so many aeons ago were impossible people socially from all accounts and we are wonderful improvements upon them in every way. Gratitude that our race may feel in being relieved of the stigma of simian ancestry is therefore not unalloyed with the unpleasant. There are no indications in scientific research that a Society of the Sons of the Dawn Men will ever be popular.

A MAN OF AFFAIRS NOW.

[Daily Chronicle.] Seven years ago the Prince of Wales was a subaltern, now he is a colonel with a string of hard-earned ribbons. He has made strides towards approaching the record of his father, who was easily the most traveled of sovereigns in this or any other period; he has become a finished public speaker, and has changed from a shy youth into a young man with an intimate knowledge of everyday affairs, immensely popular wherever he goes.

PRESS COMMENT.

[Montreal Gazette.] A discussion on the rights of the press in time of war has brought out in England the admission that the press never published anything it was requested to keep secret, and that what it printed of its own accord was helpful to the cause of the Allies. This is what was to have been expected. They were small men with big ideas of their own importance who thought the newspapers would betray the country.

REMARKABLE CONTRAST.

[Calgary Albertan.] The population of the city of Montreal is about 750,000 with other large centres of population in the vicinity. When one considers that the province of Alberta covers many thousands of square miles has to carry on provincially with a population little more than two-thirds the size of one Canadian city, one can imagine the difficulty.

OUR NEGLECTED GEOGRAPHY.

[Kitcheners Telegraph.] Geography should be the most interesting, the most altogether fascinating, of all subjects taught in the grades, richer even than history in opportunity for teacher and pupil alike. It is usually the most neglected and worst taught subject in the whole curriculum. Canada could well afford to follow Britain's imperial plan and begin to utilize the splendid possibilities of moving pictures in the teaching of geography.

THE LACK OF "THAT."

[From an Exchange.] "You remember," said Sir Squire Bancroft in a recent interview, "how Sir Joshua Reynolds was called to admire the work of a young man. His judgment was: 'It's very good—very good—there may be a future for him—but it lacks that (snapping his fingers). It's the same with the stage as with pictures, the same with music and writing. The absence of that or the presence of that makes just the difference.'"

THE MOST BEAUTIFUL GIRL.

[Sarnia Canadian Observer.] Women will be interested in the report from New York that a Canadian girl, a resident of Sherbrooke, Que., has been selected by an artist as the most beautiful girl attending the University of New York. The girl, who is a blonde, was selected, the artist said, because of her "grace, personality, magnetism and line."

There does not seem to have been much overlooked by this artist. He has failed to tell us, however, if he made test for temperament and disposition. No doubt the young lady possessed of so many other charms would stand high in all the trials. However, girls who are blondes and who have never been given a prize for beauty need not lose heart over the effusive declarations of the New York artist. Beauty is pretty much a matter of personal opinion and what might appeal to one judge as a convincing evidence of charm might not create much of an impression on another.

THE BOLSHEVIST DOGMA.

[London Press.] The Bolshevik, according to a professional faith recently issued by the central committee of the Communist party, "confesses" to negatives only. A renewal of the propaganda against religion is being carried on under orders from the Soviet. Churches are desecrated with the avowed object of undermining the Russian's inherent spirit of reverence for houses of worship. Bibles and church furnishings are being destroyed, along with books on religious subjects still remaining in libraries and schools. As the crown of Bolshevik aggression against religion, the following proclamation recently was ordered to be posted on the church doors of all towns and villages:

"There is no God. God no longer exists. God is an invention of the czars, priests and capitalists. There is no life after death. Man has no soul. He differs in nothing from the animals; once dead nothing remains of him. Man lives only on earth. He must occupy himself solely with his material existence. His duty is to ameliorate and liberate himself from all exploiters."

TWELVE-HOUR DAY.

[Calgary Albertan.] A millionaire returning to the United States from Europe says that Germany is already underselling Britain and the United States because of the loyalty of the German workman, who is working long hours as a national duty. A German newspaper refers to the German work day as likely to be 15 hours. No amount of national devotion can make a great nation based on a 12-hour day for laboring men. The long day may mean larger production for a short time, but it will mean shorter production in the long run. No man can do good

service to his employer, whether that employer be a nation or a private employee, in working twelve hours in one day. Year in and year out the man who is working eight hours can give better service than the man who is working 12 hours.

The weight of evidence is that the workman, giving eight hours a day of good, intelligent labor can give better service to his employer than the man who works ten hours. However, the eight-hour day has not been tried out for a sufficiently long time to base a definite judgment. However, the nation which bases its industrial system on a 12-hour day will soon be in decline.

EVERYTHING

WHEN APRIL HURRIES [Abigail Cresson.]

O Chloris, can you stay inside To wash, and churn, and bake, When violets have heard the call And rubbed their eyes awake?

The first wild cherry is in bloom, And somewhere on the hill A waxen spray of arbutus Is waiting for you still.

Housework's a thing for every day, But do you know, my dear, Spring will not pass this way again Until another year?

Oh, please don't wait to tidy things— There is no time to stay When April hurries by so fast To meet the first of May.

So never shake your willful head, And frown at me and pout, But doff your ugly apron, love, And say that you'll come out.

PREMATURE

[Boston Transcript.] The reluctance of some of our restaurant proprietors to cut down their prices brings to mind the story of a certain English profiteer. He had erected a grey, mediaeval pile on a mountain peak, and as he was approaching it with a friend he said: "I don't know what to call my place. What name would you advise?"

His friend stood still and surveyed the structure. "It looks like one of those Scotch castles in the Highlands," he remarked. "Why not call it 'Dunrobin'?" "Dunrobin? Dunrobin? Yes, that's a good name," said the profiteer; "only, you see, I have no intention of retiring yet."

What's In a Book?

By Kathleen K. Bowker.

Curious, isn't it, how someone will say to you, "Oh, it's a dreadful book—I wouldn't be seen reading it." Just because one scene is stressed somewhere, or because the story is—well, a story like Galsworthy's "Beyond," and this in spite of the fact that the book sounds a tragic and warning note, showing the futility, hopelessness and bitterness that come to those who transgress—no matter how bravely or beautifully they set about it?

And then suddenly one comes upon something apparently innocuous, like "Swamp Breath," by Robert Simpson (McClelland & Stewart, Toronto). Yet after all, the title should be sufficient warning, for if ever a book ran "true to name" it is this one.

"Swamp Breath," an exhalation that is slimy, dank, green, not with fresh verdure, but with crawling, squirming life—clammy, warm, fatal. The only shiny-clean thing in it is the bronze-red hair of the righteous heroine (quite a nice girl, by the way). The lurid locks of the unrighteous ditto ("who has barked her soul for a couple of sticks of type"—a cool choice) was dark as the menacing mangroves; and she had a personality that put Mongrels and Mongols in the shade (of those same sinister tresses, doubtless).

The author gives chapter and verse, and pages of indigestible description of the way in which a white man of weak fibre "roes under" from absorbing "yaka water"—of conscious intent. The manner, the agonies, the slow tortures, the racking pains and the murderous intent, in which it affects a white man of the strongest principles who imbibes it unconsciously, ignorance of the law is certainly no excuse here. Very dubiously cheerful, this example of the Freudian theory being worked out upon a man who is awake.

Add to this jolly little group that unpleasant person (with a couple of murders behind him already), Macara, by name, who does not know love from lust, and to whom abduction comes more easily than the alphabet. Then strew them all up in the African sun, and if the flavor and aroma of that "goulash" appeals to you, try it—but don't blame me if you suffer from mental indigestion.

(No, so far as I know, the author has no connection with the Toronto firm.) "Unreality," by "Barthimus," is another delightful navy-blue book, by the author of "A Tall Ship" (Cassell & Co., London, England).

Ina was a slum child, who had not been born into the life. Satisfyingly, her real parentage never appears. At 11 she is all woman, with no knowledge, but unlimited intuition, and more than her own share of good looks "in the growing." And when her mother dies suddenly, leaving her bereft of everything, she sets sail as a stowaway to look for her parent in the Golden West.

But the ship is torpedoed, and Ina is picked up, half dead, from an open boat at sea, "the sole survivor." She is rescued by the "sub" (and boat's crew) of a British cruiser, and during the two weeks before they put into port she has the entire ship's company wound around her little fingers and tied there—in sailor's knots.

At the end of that time the captain (or commander) formally adopts her and brings her home to his mother, with whom he leaves her. She grows up under their care, fulfilling all her childish promise, and turning to Brian as a sunflower turns to the sun—naturally; but not with the love of complement to complement—heart to heart.

Brian, finding her a woman grown, Paris polished, goes off on a two-year cruise, leaving his heart behind. Then follows a delightful interlude, describing Ina's visit to Somers Island, in the tropic seas, where Brian's ship is stationed. Brian's mother has told her of his love; and when Brian himself expresses it—holding himself in rigid control, lest he frighten or embarrass her—Ina, admiring him more than any man on earth, loving him with a deep devotion, and not knowing love for any other man, promises to be his.

Headache

Resulting from sluggish action of the liver and bowels is quickly relieved by the use of Dr. Chase's Kidney-Liver Pills. One pill a dose. 25c. a box, all dealers.

Dr. Chase's Kidney-Liver Pills

But it is still their secret, when Brian calls away. Then comes Stephen—the very "sub" who picked her up, a salt watered mite from the hollows of the hungry ocean.

Before she is aware that it has been planned, real love has blossomed in her heart. But she couldn't break her word to Brian—she couldn't let him know. She owes him everything in the world. And while on this voyage of discovery

So she leaves an incensed and bewildered Stephen, and marries the lord of her life. What the hand of fate does for her after that, I leave to you to find out. And while on this voyage of discovery

you will make some charming friends in the ward room, among the warrant officers, and on the mess deck. There you will find seafaring men, portrayed by one who knows them, and who loves them well.

Talk No. 9--To Women:

Cooks of extreme skill--those who regard culinary efficiency as a fine and subtle art--know that high quality flour is necessarily a vital accompaniment to high quality cooking.

With this thought in mind from the very inception of the Hunt Mills, HUNT'S DIAMOND FLOUR has been made to conform to the highest standards known.

And in advertising the superb quality of its product, Hunt's Mills shoulder much of the responsibility for success in baking.

The young housewife, therefore, uses Hunt's Diamond Flour with the assurance that she is getting a flour superior to most and inferior to none.

"Champion" on the insulator is your protection against substitution.

Sold wherever motor goods are sold.

Champion Spark Plug Co., of Canada, Limited Windsor, Ontario

Largest factory in Canada making Spark Plugs exclusively

CHAMPION AB-44, 7/8-inch Price, 95c.

For use in all Dodge cars

MUTT AND JEFF—My Word! Look Who's in Paris!

Impossible For London To See Scottish Soccer Team

Secretary Muir Says Dates Are All Filled—London and District Would Be Down On List of Applications Any-way.

It was hoped for a few days that it would be possible to bring the touring Lanarkshire Scottish Soccer team here for an exhibition charity fixture, but Secretary Muir of the O. F. A. stated last night to The Advertiser that the tourists' dates were already filled and there would be no possibility of arranging the game.

The dates were arranged by the Dominion F. A. and the allotment goes to each of the provincial associations. The Scottish team makes its first appearance in Ontario on May 21, at Ottawa and from then on will play a game every three days, which makes a strenuous journey for them. They sail for England in the middle of July.

Secretary Muir is arranging an all-Ontario tour of the Glasgow Celtic next year and this will give every association under the O. F. A. a chance to meet one of the best teams Scotland can produce. It will be a great boost for the game in this province and football fans will be glad to know when the tour is definitely arranged.

Even if there were a few open dates in the present tour, it is doubtful if London would be able to get the game staged here, as the London and District is the second last junior in the whole of Ontario and the demands of the other associations would naturally come before the local association requests for an exhibition.

GIBSON'S MEN USE UP FOUR CARD HURLERS

Cubs Break Tie With Reds in Ninth Frame With Single Sacrifice and Single.

PITTSBURGH, May 6.—Pittsburgh defeated St. Louis for the fourth successive time today, 10 to 7.

The visitors used four pitchers, all of whom were hit hard.

R.H.E.
St. Louis 002 000 400—4 11 3
Pittsburgh 021 021 110—10 16 2
Hains, Dock, North, Goodwin and Clemens, Dillhoefer, Hamilton, Fender, Zinn and Schmidt.

CUBS NOSE OUT REDS.

CHICAGO, May 6.—Chicago nosed out Cincinnati today after the Reds had tied the score, and Clayton, who had been playing the role of pinch-hitter, replaced Barber in left and started the final rally with a single, which, coupled with sacrifice and Kilmer's hit, ended the game.

The score: R.H.E.
Cincinnati 000 004 050—4 11 3
Chicago 113 101 001—16 16 1
Marquard, Napier, Coubme and Hargrave, Vaughn, Martin and Kilmer.

Brantford Lacrosse Team To Play in Sarnia On May 24

SARNIA, May 6.—Brantford's intermediate lacrosse team will likely play the Sarnia intermediates here on May 24 in the opening game of the season at the Athletic Park.

Norman Glantz, secretary of the local club, has received answers to the letter from the local club, and Brantford's proposition, however, meets with the approval of the local club more so than the Stratford suggestion and for this reason the lacrosse fans of the city will likely see the red and black-sweatered team in action here on Victoria Day.

PIMLICO RESULTS.

First race, maiden three-year-olds and up, 6 furlongs—Sunny Jim, 105 (Mooney), \$3.30, \$2.50, \$2.00; won. Sea Pirate, 117 (Sullivan), \$6.40, \$4.20, second; Whalphone, 115 (Mountain), \$3.50, third. Time 1:16 1/5. Esquire, 110, second; Brangiana, 114, third.

Second race, three-year-olds and up, 4 1/2 furlongs—Alva, 112 (Richards), \$15.30, \$8.00, \$4.20; won. Uncertainty, 115 (Mooney), \$3.30, \$2.60, second; Al 112 (Romanelli), \$4.40, third. Time 1:07 3/5. Orris, Emma W., Wilkes and Rosa Lee ran.

Third race, Baltimore Steeplechase, four-year-olds and up, 2 miles—Bronze Eagle, 147 (Bull), \$2.40, \$2.10, \$2.00; won. Butcher Boy, 117 (Brooks), \$4.50, \$2.10, second; Woodruff, 142 (Sims), \$2.70, third. Time 1:30. Lady Kathryn, Sea Ogress, Dixie Land, Violet Tip and For Mistress ran.

Fourth race, three-year-olds and up, mile—Mononque, 114 (Lancaster), \$4.30, \$2.10, \$2.00; won. Hemlock, 106 (Gordon), \$3.80, \$2.40, second; Klean Bed, 109 (Roberts), \$2.10, third. Time 1:17.

Fifth race, three-year-olds and up, handicap, mile—Mock Orange, 102 (Allen), \$5.70, \$2.70, \$2.40; won. Beavers, 104 (Lancaster), \$2.50, \$2.30, second; Tantalus, 104 (Holloway), \$2.30, third. Time 1:45 4/5. Gain De Cause and Dolly C ran.

Sixth race, three-year-olds, 6 furlongs—Quebec, 116 (Wida), \$5.30, \$2.20, \$2.10; won. Phology, 112 (Holloway), \$4.30, \$2.40, second; Antilles, 100 (Mooney), \$2.40, third. Time 1:17 2/5. Sailing R ran.

Seventh race, three-year-olds and up, mile and a sixteenth—Court Fool, 110 (Grimesen), \$5.00, \$2.40, \$2.30; won. Wide Bottom, 103 (Allen), \$2.30, \$2.40, second; Sydraya, 115 (Mountain), \$2.30, third. Time 1:54 1/5. War Phume, Uncle Sam and Private McGee ran.

PREXY OF CENTRAL LEAGUE PAYS BIG TRIBUTE TO TECS

Say London Best Balanced Minor Team He Ever Saw.

WILLIAM AT 2ND THERE

Dowling's Three Errors With Calbert's Heavy Hitting a Feature.

GRAND RAPIDS, Mich., May 6.—The London champions of the Mint League made it two straight from the Grand Rapids Central League club today, winning 4 to 2.

London is now credited with six victories out of six starts against clubs of the Central League. It will play a two-game series with the Lansing Club, beginning tomorrow.

The visitors scored a run in the first inning on two errors, a sacrifice and a double by Calbert. The locals also counted in this inning. Both teams made a run apiece in the fourth, and two runs were scored by the Mint Leaguers in the seventh on a double by Wheeler.

The Grand Rapids players outlived London, 3 to 2, and had the bases loaded at two different times, but could not deliver the winning punch.

E. W. Dickerson, president of the Central League, said tonight that the London club is one of the best and most evenly balanced teams he has ever seen in the minors, and is fortunate in having a manager such as Buzz Wetzel to direct its team.

Hams and Beavers Get Brant Players

Harry Stupp Is Back and Got Three Hits Yesterday.

BRANTFORD, May 6.—Munster, one of the Brants' fast first sackers, has been transferred to the Hamilton Tigers, and Burrill, third sacker, has been released to Kitchener. Both men left for their new teams today.

Harry Stupp, who broke his leg while playing for the Brants last season, is back with the team. He arrived in town this morning and celebrated his arrival by going into today's game with the Buffalo Bisons club and smashing out three hits, all good drives.

SCHOOL BOY TRIALS.

The trials for the track team to represent Brantford in the St. Catharines public school athletic meet were held at Agricultural Park tonight. Over 100 school boys entered, and some jumps and sprints were made. The twelve team members will not be picked until the local finals next week.

JACK WISNER GOOD AGAINST READING

Allowed But Four Hits and Drove in Two Runs.

TORONTO, May 6.—The Leafs defeated Baltimore in a pitching duel today by a score of 7 to 1. Fortune allowed only two hits, one of them a double by Bishop. Toronto's five hits were all singles.

R.H.E.
Baltimore 001 000 000—1 2 1
Toronto 101 000 002—5 5 0
Ogden and Egan: Fortune and Devine.

STARS SLUG LUSTILY.

SYRACUSE, May 6.—Lusty slugging by the entire Syracuse club enabled the Stars to trounce Newark, 15 to 3 here today.

Frank Dodson, on the hurling mound, pitched a gem, 9 to 2.

The score: R.H.E.
Newark 000 040 022—3 9 2
Syracuse 001 120 055—15 18 0
Bigbee, Tipton and Withrow: Dodson and Niebergall.

BISONS COME FROM BEHIND.

BUFFALO, May 6.—Jersey City gathered four runs in the second inning here today when they landed hard on Heilmann, but Buffalo came from behind and forged steadily ahead until at 11 to 0.

The score: R.H.E.
Jersey City 040 000 055—9 9 5
Buffalo 001 120 055—15 18 0
Worm, McEvilly, Benninger and Prentiss: Heilmann and Bengough.

WINNERS GOOD.

ROCHESTER, May 6.—Rochester made it three straight from Reading by winning today's game, 4 to 0. Wisner held the visitors to five hits and drove in the first brace of runs for Rochester, with a single in the fourth inning.

The score: R.H.E.
Reading 000 000 000—0 3 3
Rochester 000 200 114—4 7 3
Krapp and Herbst: Wisner and Ross.

'MONGST THE AMATOORS

"C" COMPANY WON.

Headquarters and "C" Company team of the R. C. F. met a scratch team from the London Box at Carling Heights last night, and won, 2 to 0.

The London Box team is entering in the City League, which will be formed next week.

WORTLEY ROAD VICTORS.

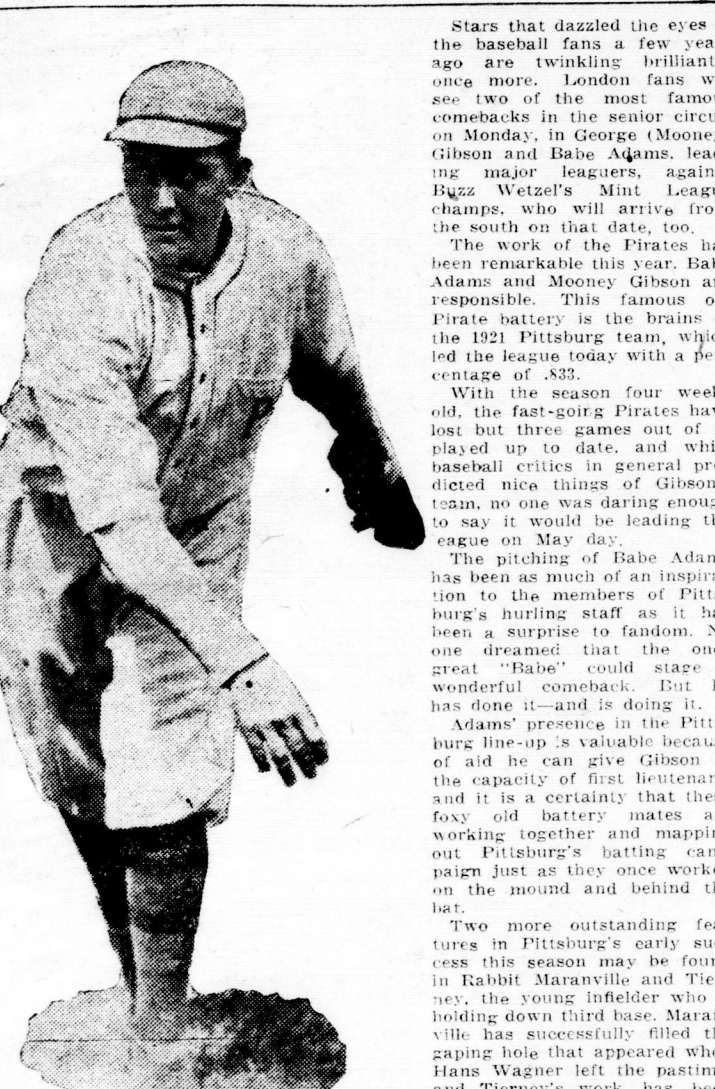

In the Public School League, Wortley Road School won a game from Aberdeen by the score of 16 to 4.

Batteries—Graham and Vollick; Singleton, Milne and Morris.

BROCK'S BEST BICYCLES

One-Piece Crank, Eddie Coaster. The Sporting Goods Store of London, 111 Dundas St., corner of Talbot.

LONDON FANS WOULD LIKE TO SEE OLD BATTERY, ADAMS AND GIBSON WORK

The Pirates are bringing 22 players, and Londoners will get a chance to look over the lot. Yellowhorse, the Indian recruit pitcher, is sure to work a couple of frames, according to advance word.

Manager Wetzel will give the fans a chance to look over his whole assortment as well. George (Lefty) Carmen will probably commence hostilities against the occupants of the big tent.

Washington 100 100 000—2 5 2
Mays and Hoffman: Erickson, Accosta, Shaw and Garrity.

UNEXPECTED STEAL.

PHILADELPHIA, May 6.—Galloway's unexpected steal of second while Russell held the ball in the eighth, upset the Boston pitcher, and Pinch-Hitter Welch's single and Dyke's home run broke up a tie game, the locals winning by a score of 10 to 6.

Meyers, Rummel and Hasty were all hit by the Sox. Home runs in the fifth and eighth by C. Walker and Perkins featured.

Score: R.H.E.
Boston 100 020 000—11 8 3
Philadelphia 012 104 010—19 11 2
Meyers, Russell and Ruel: Rummel, Hasty, Keefe, Harris and Perkins.

OLYMPIC ATHLETES IN MOVIES SHOWN TODAY

The films of the Olympic trials are being shown at the Patricia Theatre this morning for the school children of the city.

All Canada's Olympic team members will be shown in action, and features of the form of each man will be pointed out by Walter Knox, Olympic coach.

WOODSTOCK CITY LEAGUE OFF WITH PARADE AND FRILLS

Old-Time Players in Parade With Every Line of Sport will be on.

WOODSTOCK, May 6.—The City Baseball League was formally opened tonight. The opening ceremonies consisted of a parade of officials, old-time ball players, members of this year's league and the real fans. Arriving at the park, speeches were delivered by President Gagnan and Al. Graves, following this the players of 30 or 40 years ago took the field and opened the real "doings." Ed. Farrell was in the box, Joe Thompson on the receiving end, with J. Henry Brown at bat. Joseph Anderson, of the Canadian champions of 1918, and Bob Currie working in the infield. Then followed exhibitions by the four teams in the league, with the following results:

Score: R.H.E.
Eurekas 2 2 0
Hastings 2 2 0
Kelly and O'Brien: Foster and Turner.

Shaw's R.H.E.
Ramblers 0 1 0
Bains 1 5 0
Muntz and Whitehead: Giles and Henderson.

Fire Chief Plans Unique Athletic Organization

Firemen, Police, City Hall and Newsboys Will Make Up Organization.

Fire Chief John Aitken has plans under way for the formation of a Public Service Athletic Association which will enter all kinds of sports and culminate in a field day at the end of the season.

The firemen, policemen, city hall employees and newsboys will be the competing bodies in the proposed organization.

COMMANDER ROSS' STAR VOTER SECOND CHOICE IN CLASSIC

Tryster and Prudery Are First Fancy At Odds of 8 to 5.

LANSING, Ky., May 6.—Tryster and Prudery, the Harry Payne Whitney entry, tonight were the favorites with the public of the thirteen colts and two fillies carded to start tomorrow in the 4th renewal of the Kentucky Derby for 3-year-olds at 1 1/4 miles, carrying \$50,000 in added money.

They were expected to go to the post at odds of about 8 to 5. For second choice, the public would back the Ross house, having a shade on the Bradley Stables.

Post position of the entrants, weights, lockies and owners, which statements from the track were the favorites, were announced tomorrow, were given out today.

Believe Yourself was given the rail, and the odds were 10 to 1. Outside, all colts will carry 126 pounds, top weight. The fillies, Prudery and Careful, given the five pounds sex allowance, will carry 121 pounds.

While fifteen are carded to start, rules provide that any of the nominees and nominees may be entered 45 minutes before the horses leave the paddock for the track.

400 TUXIS AND TRIAL RANGERS AT BANQUET IN "Y"

Trophies Awarded and Presented To Winners On C. S. E. T. Program.

About 400 Tuxis and Trail Rangers boys attended the banquet given in the Y. M. C. A. last evening for the purpose of awarding the trophies, medals, shields and badges the boys won in the fall and winter Y. M. C. A. program for the four-fold boy life advancement.

Three Tuxis groups were tie for the Tuxis Efficiency Cup and after careful consideration all the aggregate points the members of each group made during the fiscal year, the Y. M. C. A. "Hoodoo" Club was the winner.

Rev. Clarence W. Foreman, chairman of the local boys work board, in announcing the winner said that the group won only by a fraction. Talbot Street Baptist and Dundas Centre Methodist Church boys were the other two and each won a prize went to the Talbot Street boys.

The Tuxis and Trail Rangers boys who obtained the largest number of points in the senior and junior hexathlon trials and the National C. S. E. T. athletic tests were given their ribbons.

The Tuxis and Trail Rangers boys who obtained the largest number of points in the senior and junior hexathlon trials and the National C. S. E. T. athletic tests were given their ribbons.

SEAFORTH

SEAFORTH, May 6.—A public meeting of the pupils and ex-pupils of the Seaforth Collegiate Institute interested in the scholarship and war memorial funds was held on Tuesday evening in the Carnegie Library. W. Harry provided. An alumnae association was formed with the following officers: Honorary president, Dr. McKay; president, Charles Stewart; vice-president, C. Aberhart; secretary, Miss Anna; treasurer, Miss Harry; executive

board, Mrs. K. McLean, Miss McLean, F. D. Hutchison and two representatives to be selected from among the pupils at present attending the collegiate institute. The Seaforth Collegiate has an exceptional record, having during the past 16 years secured more scholarships than any two collegiate institutes in the province. Since its inception thirty pupils have won scholarships.

LITTLE HOPE RESULTS FROM CONFERENCE

De Valera Demands Recognition of Republic—Craig Replies That Is Impossible.

LONDON, May 6.—Viscount FitzAlan, the new lord lieutenant and governor-general of Ireland, had another conference with Mr. Lloyd George today, but it is authoritatively stated that the position of the Government with regard to Ireland is unchanged; that there is no prospect for direct negotiations, and that there is no ground for supposing the prime minister will meet the leaders of the Sinn Fein.

FULL INDEPENDENCE FIRST CONDITION FOR PEACE

DUBLIN, May 6.—A spokesman for the Dail Eireann today declined to throw any further light on the Craig-De Valera meeting than that already known, and said that nothing additional would be published as yet. He directed attention to the phrase in De Valera's proclamation concerning devolution in home affairs, however, and indicated that was a basis on which the Sinn Fein was willing to accommodate Ulster's interests in negotiating a settlement of the controversy.

The spokesman informed the correspondent that the Dail Eireann's first condition for peace was "united Ireland," with full independence. Dominion home rule, he termed a misnomer—a view subscribed to by Capt. Henry Harrison, secretary of the Irish Dominion League, who said that in the league's memorial, which is to be submitted to the Government, the phrase "Dominion home rule" had been carefully excluded in favor of "a full dominion status," which, he adds, was quite another thing.

The Sinn Fein was willing, the spokesman for the Dail Eireann declared, to give Ulster the most complete autonomy in home affairs, providing, in the words of De Valera, Ireland was not divided, and was a unit with regard to other nations and states.

Visit a Private One.
The Dublin Evening Mail announced that the Earl of Derby was in Dublin, but that his visit is a private one and unofficial in character. The newspaper adds that the minister has been greatly helped in his position by the Craig-De Valera conference, and that he may probably himself see De Valera, and also go to Belfast and consult with the Unionist leaders.

Dublin Castle and other official sources disclaim knowledge of the presence of the Earl of Derby in Dublin.

**ULSTER WILL NOT
ASSENT TO AN
IRISH REPUBLIC**
BELFAST, May 6.—Speaking tonight at Holywood, a suburb of Belfast, Sir James Craig, premier designate of Ulster, in referring to his conference with Eamonn de Valera, said: "I only hope that the expectations of immediate peace may not be too high, either across the channel or here."

"The first step in a matter of this sort is always difficult, but I do not believe a big man could refuse to take the first step, or that a man is big if he refuses to take such a step when so much is at stake."

Sir James reiterated that neither he nor any Ulster loyalist would consent to a republic or any weakening of the ties between Ulster and Great Britain. Nothing had been surrendered or would be surrendered, the speaker declared, and the Sinn Fein knew it.

Decisive and Emphatic.
It has been learned from a high authority that Sir James Craig, in his conversation with Eamonn de Valera, gave De Valera to understand in unmistakable terms that under no circumstances would Ulster ever entertain the idea of assenting to, or participating in, an Irish republic. The language of Sir James on this point, it was declared, was as decisive and emphatic as anything Mr. Lloyd George has said on the same subject, and hence no progress was possible either with the premier or the people of Ulster along the lines of the Sinn Fein's present policy.

It was added that it might definitely be stated that the negotiations are at an end unless the Sinn Fein makes a new move on a different line to that adopted at yesterday's conference.

No Further Discussion.
"My conversation with Mr. de Valera having occurred, and Ulster having already by its acceptance of the provisions of the governor of Ireland act and by its undertaking toward them, reached the limit of concessions, no further discussion will be entered into. When the Parliament has been established and the council of Ireland constituted there will be the necessary constitutional link between Northern and Southern Ireland."

Sir James requested the candidates in the forthcoming elections to hurry a message to the above effect to the loyalist electors throughout the six Ulster counties. The meeting of the party lasted two hours and was attended by the Ulster members of the British Parliament and the Unionist candidates for the new Irish Parliament. It is understood any further overtures must come from the Sinn Fein.

DEATH OF JOHN HOPF.
WOODSTOCK, May 6.—John Hopf, aged 78 years, died at his home here this morning. The deceased, previous to coming to this city fifteen years ago, resided in Brantford, where he was for years an employee of the Adams Wagon Company. While here he was employed at the Whitelaw's Foundry. Mr. Hopf was a native of Germany.

Rt. Hon. Stanley Baldwin
Successful candidate in the Worcester-shire-Bewdley by-election, and recently appointed president of the British Board of Trade.

LAWRENCE O'NEIL

Lord mayor of Dublin, who arrived in the United States on the Aquitania last Saturday.

CONTRACT FOR NEW SARNIA COLLEGIATE GOES TO BRANTFORD FIRM

SARNIA, May 6.—At a meeting of the special building committee of the board of education this afternoon, contracts were signed with Brantford contractors for general construction work on the new collegiate institute and technical school. Work is expected to commence this week. The new structure will cost about \$200,000. Lambton County Masons, numbering several hundred, will convene in the Masonic temple next Wednesday afternoon, when a lodge of instruction will be held. It will be one of the most representative gatherings of Masons that have visited Sarnia in many years. Two more convictions were registered in B. C. T. A. cases in police court today, netting \$500, or a total of \$1,700. Mrs. Michael Hackman admitted selling a bottle of liquor on April 2 last, and the court imposed a penalty of \$200 and costs, \$17.30. Mrs. Trofin Lisa, 321 South Vidal street, denied a similar charge, but from the evidence adduced the magistrate found her guilty and imposed a fine of \$300, plus costs. Mrs. Lisa was unable to pay and was sentenced to three months' imprisonment. Temporary separation from a three-months-old child added a touch of pathos to her incarceration.

One of the best fowling gas wells in this district was turned in this afternoon on the farm of E. E. Jackson, about seven miles from this city. Gas was struck about 500 feet down.

MAN ACCUSED OF BITING AGAIN REMANDED

GALT, May 6.—Charles Seitz, charged with assault, causing actual bodily harm, appeared in court today, and was again remanded until May 20 on \$500 bail.

The South Waterloo Automobile Association has reorganized for 1921 with the following officers: Honorary presidents, F. S. Scott, M.P., J. G. Turnbull, A. M. Edwards, A. S. Taylor, A. E. Willard; president, W. G. McMe; vice-president, W. C. Glennie; secretary-treasurer, L. Shupe; board of directors, Dr. Wood, Ayr; Oscar Zym; Hespeler; A. Dillingham, Preston; Jos. Stauffer, C. E. A. Dowler, G. T. Hamilton, W. Vair and Dr. J. M. Deans, Galt.

GAS CONSUMERS ASSN. ADOPTS BROADER POLICY

CHATHAM, May 6.—The Municipal Gas Consumers' Association here today adopted a broadening out policy, and will now accept in membership all municipalities using natural gas for fuel. This attitude was adopted after a lengthy discussion, which most of the delegates voiced their opinion on the matter.

Mayor Briscoe of Chatham, was re-elected president, and Reeve H. H. Hallett of Tilbury was re-elected secretary-treasurer, and Mayor Wilson of Windsor, vice-president.

The morning session was marked by a splendid talk on natural gas by W. S. Weyer, a natural gas expert in the employ of the United States Government. Another interesting address was given by Col. Harkness of Toronto, the new gas commissioner, who has taken over the offices of the retiring commissioner, E. S. Estlin.

PORTER GETS TWO YEARS IN PEN FOR THEFT OF HORSE AND BUGGY

INGERSOLL, May 6.—For the theft of the horse and buggy belonging to A. N. Chenoweth, a West Zorra farmer, from St. John's Church, shed on Wednesday, Wilfrid Porter of Niagara Falls, formerly of Ingersoll, was today sentenced to two years in Kingston Penitentiary. His arrest took place in London. Porter admitted taking the outfit, giving as a reason that he wished to reach London in quest of a job. His young bride of a month will be sent to the home of her sister at Niagara Falls. The Kiwanis Club held its first luncheon today at the Ingersoll Inn. It was largely attended, and marked by keen enthusiasm. The speaker was Capt. E. I. Jenkins of Brantford.

Under the auspices of the board of education the annual commencement exercises of Ingersoll schools were held in the town hall tonight and largely attended. Prizes and trophies were presented.

CHAMBERLAIN'S

If Your Liver Is Torpid

Perhaps all you require is a few doses of Chamberlain's Tablets. They reach the seat of your ailment and quickly banish the feeling of despondency which frequently has its origin in a lazy liver. Their action is mild, gentle and soothing, yet the effect is certain.

Take a Tablet tonight.

TABLETS 25¢

MARINE NEWS

SARNIA, May 6.—The vessels passing at this port today were: Up—Peter Reiss, 8:50 a.m.; Peter White 12; McLane, 4 p.m.; John Reiss, 4:10; Phipps, 4:15; Cole, 4:50; Parney, 4:50; Mueller, 5:30; Stone, 6:30; Gary, 11:30; Morse, 8; Lakewood, 11; Morgan Jr., 11:30; Ball Bros., 11:40; Charles Hebard, 2 a.m.; Big Buzard, 2:30; Travis, 3; Banter, 2:50; Otto Reiss, 4:10; Coulter, 6; Harvey, 6:30; Sonora, 8:40; Wyandotte, 8:50; Truesdale, 9.

Down—Morse and consort, 9:50 a.m.; McCollough, 11; Ogilby and consort, 12:20 p.m.; Campbell, 2; H. Jones, 4; Emperor, 4:50; Shaughnessy, 5; Taylor, 9:20; William Reiss, 10; Dunsam, 11; Stephenson, 11:30; North Lake, 1 a.m.; Sullivan, 2; Mars, 2:10; Nye, 3; Uranus, 5; Clark, 5; W. F. White, 6; Leopold, 6; Ball Bros., 11:40; Charles Hebard, 2 a.m.; Big Buzard, 2:30; Travis, 3; 6:20; Lakeport, 7:40; Willis King, 8:20.

WILL MOVE OFFICES.

ST. THOMAS, May 6.—The hydro-electric offices will be moved from the building of the commission, St. Catharines street. It is possible that Manager Campbell will leave the service of the gas department and take charge of the hydro-electric. Mr. Campbell's duties other than building will be taken over by the department of the

city treasurer, and additional clerical help provided for Mr. Perry. The council generally favor the centralizing of all cash transactions, departmental collections and revenues had from all the city's utilities, in the treasurer's office, instead of the time-out-of-mind practice of naming a separate treasurer to receive and take care of the moneys of the individual department.

What the Press Agents Say About the Shows

AT THE GRAND.

LOCKLEAR PHOTOPLAY THRILLS.

No other aviator has taken such a hold on the popular imagination as has Lieut. Ormer Locklear. He not only won a great name, but created a visible moving record of all that he did by entering motion pictures.

"The Skywayman" is the last and finest picture Locklear made. It sums up his life-work, for into it he put the fruit of all his years of experience as a flyer. "The Skywayman" will be shown for the last time today, matinee and evening. It is a special production in every sense of the word. It abounds in excitement, and it thrills not only because of its spectacular appeal, but because of the personality of Locklear himself.

The excellence of the photography is notable. Louise Lovely, now a star in her own

right, plays opposite Locklear, and there is an excellent supporting cast.

THIS IS THE LAST DAY OF BIG FOX SPECTACLE.

"The Face at Your Window," that fine William Fox dramatic spectacle, leaves the Grand Theatre after tonight's showings. Therefore, those who have not seen it now have their last opportunity of being thrilled by its patriotic message and its enthralling story.

"SMILING BILL" HANGS ON TO TRAIN AND DOG, TOO.

"Smiling Bill" Parsons will go to any length, never counting the risk, to make thrills for Capitol Comedy lovers. The corpulent comedian hangs on to a fast train for the full length of a railroad station in his latest vehicle, "Pink Pajamas," which is now showing at the Grand.

When Bill and his wife are about to

board a Pullman car. Mrs. Bill recalls that they have left "Baby," their little dog, in the depot, and sends Bill back after it as she boards the car. Bill returns with "Baby," and as he is about to step on the first rung a beautiful woman almost pushes Bill over in her rush to get aboard. The train starts, and the conductor helps the woman on, leaving poor Bill to his fate.

With the dog in one hand, Bill can't get a firm hold on the rail, nor can he step up any farther. He speeds along with the train, holding on to the rail for dear life. The woman responsible for his plight comes to his rescue. She informs one of the trainmen, and with him she goes out to the platform and pulls Bill, exhausted, but still holding on to "Baby," into the train.

"SKIRTS," TO BE PRESENTED AT THE GRAND FIRST HALF OF COMING WEEK.

The advent of the Singer Midgets as a sensational feature of "Skirts," the six-reel Sunshine Comedy, which is to be shown at the Grand three days only, Monday, Tuesday and Wednesday, is a landmark in comedy production. The Midgets are by far the most remarkable aggregation of small people that ever stepped before an audience.

"Skirts" is built on gigantic lines, and is the most expensive comedy ever screened. Every member, including three thousand Sunshine widows, was recruited for this monster laugh-raiser. In addition, the company was enlarged by additions such as the famous Singer Midgets.

The rapid-fire comedy of the troupe of little folks runs through the whole production. What they lack in size they make up in side-splitting fun. They are loved all over the world as a refreshing, entertaining novelty.

The Singer Midgets originally came to America to fill a season's engagement at the New York Hippodrome. Their tremendous popularity here led to an extended engagement at Hammerstein's Victoria Theatre, where they

will be shown at the Grand next Thursday, Friday and Saturday, with Conway Tearle as star, contains many names of great interest to picture-going patrons.

Martha Mansfield, former Winter Garden and Ziegfeld star, plays the leading feminine role opposite Conway Tearle. Her work as leading woman for Eugene O'Brien, Montagu Love and John Barrymore has already placed her among the most popular young women of the screen.

Ida Darling, before coming into pictures, had a stage career covering a period of fifteen years. Jack McLean, who plays the part of Ned Forrester, became well known in Broadway successes before coming to the screen.

Huntley Gordon is a product of England, where he was a well-known actor before coming to America to take up picture work.

AT ALLEN'S.

"THE PASSION FLOWER," STARRING NORMA TALMADGE AT THE ALLEN MONDAY, TUESDAY, WEDNESDAY AND THURSDAY.

"The Passion Flower," which will be the feature attraction at the Allen Monday, Tuesday, Wednesday and Thursday of next week is a screen version of the Broadway hit of the same name last season. In the leading role Norma Talmadge is given her first opportunity to appear as a Spanish character in which this talented and beautiful artist is said to appear at her emotional best. In the screen version of "The Passion Flower," Norma portrays the part of the alluring daughter, Acacia, in a dramatic story of Castilian peasant life, in which a vivid plot of love, hate and tragedy is unfolded.

Harrison Ford and Courtenay Foote appear in the leading male characterizations opposite the star.

Among the extra attractions will be

"SKIRTS" WILLIAM FOX'S SIX-ACT SUNSHINE COMEDY AT THE GRAND FOR THREE DAYS NEXT MONDAY, TUESDAY AND WEDNESDAY.

has more thrills and adventures than any other episode yet shown. In this episode Akut returns to his tribe and becomes their king, taking the Big Bull Ape's place, whom they killed. In the meantime Paulvit returns to England and tries to extort a ransom from Korak's mother, Lady Greytoke, for the return of Korak. Before they pay the ransom, Lady Greytoke, accompanied by Korak's father, the original Tarzan, Paulvit make the trip to Africa in search of Korak.

"MAN-WOMAN-MARRIAGE," STARRING DOROTHY PHILLIPS, COMING TO THE ALLEN WEEK OF MAY 16.

"Man-Woman-Marrriage," which will be shown at the Allen week of May 16, is conceded by critics to be one of the greatest motion pictures of all time. This wonderful production contains a thousand scenes of drama, emotion, thrills, vast panoramas and intimate insights unparalleled in motion pictures. Thousands of players, thousands of horses, wild animals and new screen wonders.

AT LOEW'S.

PAULINE FREDERICK IN A STRONG ROLE.

In "The Mistress of Shenstone" her second special production, adapted from the novel of the same name by Florence Barclay, Pauline Frederick, popular emotional star, has a role vastly different from anything which she has ever before done for the screen. The picture will begin a run of three days at Loew's Theatre on Monday next.

Miss Frederick is supported by a cast of unusual merit, including such players as Roy Stewart, a star in his own right, in the role of Jim Alrith, the man whom Myra loves; Emmett King, well-known character actor, as Dr. Burton, Myra's friend and adviser; Helen Wright, as Mrs. O'Mara, and Arthur Clayton as Reginald Ingram.

BUSTER KEATON AND BIG JOE ROBERTS TRY TO REDUCE ON BANANAS.

Big Joe Roberts, whose three hun-

dred and fifty pounds acts as the villainous foil for the sad-faced Buster Keaton in his sparkling comedies, was treated in true villain style during the filming of "The Haunted House," the latest of Loew's Theatre Monday next.

A special setting for "The Haunted House" was prepared with a big bunch of ripe bananas hanging temptingly in the foreground. "You grab those bananas and eat as many of them as fast as you can," directed Buster. Big Joe ate and ate and ate while the camera clicked away. "Some work," he declared, looking on the wreck of the bunch.

Then they weighed him, and when Big Joe found that the scales credited him with seven and a half more pounds on a scene that both directors solemnly assured him could not be used he had no difficulty in assuming the proper villain atmosphere.

ERAVE DOROTHY GISH BATTLES FOR LIFE AGAINST CROOKS.

Delsie O'Dell is impoverished and accepts an invitation to visit with her rich uncle and aunt. So, taking along her bulldog and parrot, she finally reaches her new home while a fashionable tea party is being given to several invited guests.

The bulldog manages to get into the house first, and before Delsie is able to regain custody of him the animal has sent all the guests to climbing the furniture. When order is restored, Delsie is unwillingly received by her aunt and uncle. She meets Billie Clark, her uncle's secretary, who is attracted and takes her to a party, giving her a string of imitation pearls, the replica of a necklace worth \$75,000 belonging to her aunt.

Percy White, the aunt's secretary, who is in reality a crook, steals the real pearl necklace from the safe and in seeking to escape is pursued by the bulldog. Then follows a series of events in which the pearl necklaces are mixed pro and con. The aunt discovers her mistake, but Delsie meanwhile has followed Percy to a haunted house which is used as a rendezvous for his criminal band. After a desperate battle the crooks are captured just as they have overpowered Delsie. Billie declares his love and Delsie is happy in her love.

A Chester Comedy with "Snooky," the most popular monk, the kiddies' friend, and Loew's Screen Pictorial.

Perhaps you want a domestic in a hurry. Then use the London Advertiser classified columns and you will be quickly supplied because everybody reads The London Advertiser.

again proved their phenomenal drawing power.

Of the nineteen Midgets, the tallest is 46 inches and weighs 65 pounds. This is Peter Blenck. The others range downward to 35 inches, the height of Julius Daranyi. Only three of this big-little company have passed the age of 30. Fritz Tarnabula is the youngest, being 18. He is 27 inches in height and weighs 39 pounds. In weight the members range from 33 to 65 pounds.

A special Fox News Comedy, and special musical program by orchestra at each show. This attraction comes direct from Toronto, where they played to capacity houses.

DOUBLE PROGRAM AT THE GRAND NEXT THURSDAY, FRIDAY AND SATURDAY.

A strongly entertaining story has been provided for Shirley Mason in "Wing Toy," a five-part Fox subject, which will be shown at the Grand next Thursday, Friday and Saturday. She plays the role of a girl raised in the Chinese district of an American city by an old Chinese laundryman. The plot is one of quite obvious quality, since it develops that the girl is of American birth, and there is the usual American hero, but this does not disturb the fact that the tale gets hold of one and has strong dramatic moments.

The Chinatown settings are pleasing, and the story is unfolded in a leisurely manner, with just the right degree of increasing interest as it proceeds. Shirley Mason plays excellently in this, and the picture should be listed among her successes. She is demure, bewitching and sincere in her acting. Edward McWade plays Wong with intelligent sympathy, and Harry S. Northrup is dominating and hateful as Yen Low. None of the principals entirely look the parts of Orientals, but this is not essential to carry the illusion, and is naturally not to be expected so far as Wing Toy is concerned.

CONWAY TEARLE IN "SOCIETY SNOBS," NEXT THURSDAY, FRIDAY AND SATURDAY AT THE GRAND.

Personal Health Service
(By WILLIAM BRADY, M.D., Noted Physician and Author.)
Sore Eyes and Vision.
Ordinary acute conjunctivitis (inflammation of the members lining the eyelids and covering the eyeball) does not impair the eyesight. Even severe epidemic inflammation of the eyes (often called “pink eye”) does not seriously impair vision. Injuries of the cornea from cinders or other foreign bodies or from wounds, often leave serious impairments of vision, by reason of distortion of the cornea and the globe of the eye from scar tissue.
The severe purulent or pus-producing inflammation of the eyes of the newborn caused by gonorrheal infection, and known as ophthalmia neonatorum, if not promptly and skillfully treated by the physician or oculist, is likely to lead to blindness—this disease is the cause of the blindness in about one-fifth of all blind in public institutions—the innocent reap the punishment which the guilty parent has, for the moment, escaped.
In certain parts of the country a very contagious, chronic, slowly progressive eye inflammation is prevalent, commonly called “red sore eyes,” “granulated eyelids” and known to physicians as trachoma, which always impairs vision more or less, and sometimes terminates in total blindness. In this condition there is usually more or less pain light in the eyes, sensitive to light, sticking together, the eyelids are red, swollen and irritated of the lining of the lids.
It must not be supposed that every obtrusive inflammation in which the lids are called “granulated” is trachoma, for granulations occur in other eye inflammation which are not of serious import. But in districts where trachoma occurs, routine examination of school children by the health authorities or school physicians often reveals early or mild cases of trachoma among the children.
Sometimes trachoma begins acutely, like ordinary conjunctivitis or sore eyes, and the trouble persists even after the usual duration (a few days) of ordinary conjunctivitis, and is not amenable to the simple remedies which relieve ordinary conjunctivitis, such as cold moist compresses and frequent bathing of the eyelids with boric acid solution.
The treatment for trachoma is usually surgical, and is carried out through a considerable period, so that some sort of arrangement must be made for prolonged supervision of the patient.
The disease is probably spread through personal contact with one having trachoma, and also by the use of the same towel. It was probably brought to America by the immigrants from the poorer sections of Europe many years ago, before the present rigid eye examination of immigrants at the seaport became so efficient in detecting and excluding those who had evidences of trachoma.

Mutual Growth
Many customers who started as small depositors or borrowers in The Bank of Nova Scotia are now among the country's largest concerns.
They have grown with the bank, and the bank has grown with them. The Bank has helped them, by sound and careful service, to grow, and as their business increased so also did that of the bank.

QUESTIONS AND ANSWERS
Drugs Are Necessary.
I was glad to read your article in which you told of the uselessness of strychnine. It is refreshing to find a medical man with enough sense and honor to tell the truth about drugs. Answer—I've never asserted that strychnine is useless. I did say that it is unwise for laymen to trifle with such a drug and that it certainly doesn't add strength to the body. At the present time I am administering strychnine and other drugs to a patient who is dear to me. I am a thorough believer in the value of drugs—intelligently employed. Please do not misunderstand me when I refer only to the indiscriminate use or abuse of drugs by persons ignorant of their action or effects.
Wetting the Hair.
Is it bad for the hair to wet it with water every time one brushes it? If so, what can be used to make unruly hair lie down and behave? Answer—Yes, it is bad. A little oil, liquid petroleum is good. Or sesame oil, in each ounce of which five grains of powdered benzoin and three drops of absolute alcohol have been digested in three hours and filtered, does not still better. A few drops of such oil every day should keep the hair in manageable condition.

SHAREHOLDERS OF G. T. R. CALLED TO SPECIAL MEETING

Directors Declare Company's Case Was Ready Before Time Limit Ended.

LONDON, May 6.—By Canadian Associated Press.—The Grand Trunk Railway Company is issuing tonight a notice calling a meeting of the shareholders for May 12, at which the directors will report on the company's case before the arbitrators.

The notice states that the company's case was ready for presentation before the arbitrators on May 1, but that the directors, in the interest of the company, decided to delay the presentation until May 12, in order to give the arbitrators more time to consider the company's case.

It had been naturally expected, the directors continued, that the arbitrators would be able to complete their work by May 1, but that the company's case was not ready for presentation until May 12.

The directors' report will be presented at the meeting, and the shareholders will be asked to vote on the company's case.

WEST. ONT. MARKETS

ST. MARYS. May 6.—Butter prices here are steady at 40¢ per lb. Eggs are selling at 27¢. Other market prices include: Wheat per bu., \$1.50; oats, 40¢; barley, 40¢; bran, 25¢; shorts, 25¢; flour, \$5.50; feed, \$1.50; hogs, \$1.50; cattle, \$1.50; sheep, \$1.50.

DUTTON. May 6.—Creamery butter is selling here at 41¢ per lb. Butter at 40¢ per lb. Eggs are selling at 27¢. Other market prices include: Wheat per bu., \$1.50; oats, 40¢; barley, 40¢; bran, 25¢; shorts, 25¢; flour, \$5.50; feed, \$1.50; hogs, \$1.50; cattle, \$1.50; sheep, \$1.50.

FOREST. May 6.—Butter prices here vary from 40¢ to 45¢, with supplies plentiful, and indications that quotations will be lower. Eggs are selling at 27¢. TORONTO STOCKS IN UPWARD MOVEMENT

Number of Important Issues Share in Market's Rising Values.

TORONTO, May 6.—There was a wide upward movement in Canadian stocks today, but towards the close prices became a little less settled, and were not so convincing as on Thursday. A number of important issues shared the rising values, and after allowing for the display of uncertainty the day might be considered as contributing to the store of improved sentiment. There was some short covering, especially in Spanish River, but was clear that the public was entering the market. Expectations would be becoming more realistic to the fact, though it was understood that the elements were well advanced in the morning.

The various Riddon stocks moved up. The Riddon common, sold up to 27, and the Riddon preferred, sold up to 26. The Riddon common, after advancing to 26, and the Riddon preferred, after advancing to 25, and the Riddon common, after advancing to 26, and the Riddon preferred, after advancing to 25.

MONTREAL MARKET ISSUES SHOW GAINS

Considerable Strength Apparent in Early Part of Trading Session.

MONTREAL, May 6.—During the early trading on the local stock exchange today considerable strength was shown, the market appearance being among the strongest of the year. At the close offerings became freer, and the buying power relaxed with a consequent slackening of prices. Net changes were mostly on the higher side of the market.

Three issues out of 44 traded in closed at net losses of from 1 to 5 points. The balance of the list closed with net gains of from a fraction to 3 points. National Breweries was the most active stock, closing 1 1/2 points up at 46. Atlantic Sugar, up 1 1/2 points at 35. Spanish River, common, touched 26 1/2, and the preferred was up 1/2 point at 25. Laurentide, netted a large fraction at 50 1/2. The Riddon common, up 1/2 point at 26. The Riddon preferred, up 1/2 point at 25.

The Riddon common, after advancing to 26, and the Riddon preferred, after advancing to 25, and the Riddon common, after advancing to 26, and the Riddon preferred, after advancing to 25.

Potato Prices Slump and Sales Are Slow at 60 Cents a Bag.

An unusually active demand for butter, with only limited supplies available, was responsible for prices being somewhat firmer on the local market today. Creamery butter quotations showed a wide spread. As high as 52¢ per lb retail was asked, but this was not paid. The ruling prices ranged from 44¢ to 46¢ per lb wholesale and 46¢ to 48¢ per lb retail. Butter brought 44¢ to 46¢ wholesale and 46¢ to 48¢ retail. Market officials were of the opinion that continued quotations will probably rule all next week.

There was little demand for eggs today, and it is thought that there will be slight reduction in prices. Wholesale they sold from 27¢ to 28¢ per dozen, and retail at 32¢.

Nearly all vegetables were cheaper today. Potatoes dropped to 50¢ per bag wholesale and 60¢ to 65¢ retail. Parsnips took a decided slump, most sales being made at 35¢ and 40¢ per bushel. The former quotations were 50¢ and 55¢, and the latter 40¢ and 45¢.

WHEAT BOOSTED BY ANXIETY OVER CROP

CHICAGO, May 6.—Anxiety over the crop outlook in the Southwest and in regard to scantiness of supplies at terminal markets led to a new bulge today in the price of wheat. The close was 2¢ to 4¢ net higher, with May, \$1.43 1/2, and July, \$1.17 to \$1.17 1/2. Corn gained 1/4¢ to 3/4¢, and oats, 1/4¢ to 1/2¢. Provisions gained 10¢ to 50¢.

Dry weather in Kansas and Oklahoma added to the misgivings which had been aroused by messages from field experts saying that throughout large districts the wheat crop looked unhealthy and promised to become worse. The bullish sentiment thus engendered lifted the market to \$1.50 for May, a rise of more than 25¢ per bushel, compared with the closing of the previous day.

FURTHER ADVANCES IN WINNIPEG WHEAT

The Market Continues Strong With Gains For Both May and July.

WINNIPEG, May 6.—The local wheat market was again strong today. After the steady opening May wheat advanced to a high point of \$1.45 1/2, and July, \$1.17 1/2. The close was \$1.45 1/2 for May, and \$1.17 1/2 for July.

SUGAR SELLING AT NEW LOW LEVEL

NEW YORK, May 6.—Refined sugar today sold at the lowest level in the last four years, when the Federal and Arbuckle Sugar Refining Companies announced a further reduction of 10¢ to a basis of \$6.30 for fine granulated. The cut was made despite a more steady tone in the raw sugar market.

NEW YORK, May 6.—There were no sales in raw sugar today, although the undertone was a little steadier, and there were bids of 45¢ for centrifugals, and prices at mid-day were 9¢ to 10¢ higher on trade buying.

COMMONS DECLINE AMENDMENT MADE BY THE SENATE

Bill Amending Patent Act To Give Relief To Patentees Introduced.

OTTAWA, May 6.—By Canadian Press.—Sir George Foster introduced a bill to amend the Patent Act in the House of Commons this afternoon. The main provision of the bill gives relief to patentees and investors who, through disturbances caused by the war have lost their patents by avoidance or through failure to manufacture, non-payment of fees or failure to acquire patents within the prescribed time. Another clause makes provision for Canada getting the benefit of the reciprocal clauses of the Nolan bill recently passed at Washington.

Third reading was given the bill amending the opium and narcotic drugs act, after an amendment had been included fixing the terms of imprisonment for offenders.

Do Not Concur in Amendment.
The House declined to concur in an amendment made by the Senate to the bill amending the judges act. The original bill provided against paying traveling expenses to judges who do not live in the cities in which they are required to sit. The Senate amendment forbade judges sitting on court of inquiry commissions or arbitrations. Hon. C. J. Doherty, minister of justice, in moving non-concurrence in the Senate amendment said it opened an entirely different question. It gave no opportunity for proper discussion, although it required serious consideration.

Second and third readings were given to a bill amending the animals contagious disease act. Hon. S. F. Timine, minister of agriculture, explained that in 1918 certain sums were fixed as compensation for animals it was necessary to destroy. The act covered a period of three years and it was at present the intention to extend this period for further three years. No change was made in the amounts of compensation.

ARE MERCHANT TAILORS MANUFACTURERS?—NOW BEFORE EXCHANGE COURT

Test of Legality of Tax On Sales Being Made.

OTTAWA, May 6.—A test case, the decision in which is to determine whether or not the Government is justified in classifying merchant tailors as manufacturers and compelling them to take out a manufacturers' license and collect a two per cent tax on sales was commenced this morning before Mr. Justice Audette in the exchequer court. The case for the Government is being presented by F. D. Hogg, while T. A. Beaumont is acting for the defendants, Pedrick & Faten, Ottawa. The action is being brought under the special war revenue act to compel the defendant and all other merchant tailors who manufacture clothes for sale to the public to take out a manufacturers' license and pay a two per cent tax sales which is called for in the act. Under the act a manufacturer refusing to pay the tax is liable to a fine of \$500. The hearing is continuing this afternoon.

\$1.50 to \$10.00.

REPEAL OF EMERGENCY CLAUSES IN IMMIGRATION ACT MAY BE CONSIDERED

Would Eliminate Right of Deportation For Seditious Utterance Without Trial.

OTTAWA, May 6.—A bill to amend the immigration act was introduced in the House of Commons this week by Hon. J. A. Calder, minister of immigration. The main feature of it provides for the repeal of the emergency provisions made in 1919, for the deportation without trial by the courts of persons guilty of seditious utterances. A similar bill was introduced earlier in the session by E. Lapointe (Quebec East). The inclusion of this provision in a Government measure makes it possible to deal with it at the present session, while a measure favored by private members would have very little chance of receiving attention.

PROTOCOL BILL REPORTED.

OTTAWA, May 6.—The bill to ratify the protocol for the permanent court of international justice (created under

the Aegis of the League of Nations) was reported in the House of Commons today. It will receive final reading later.

SITUATION ENCOURAGING FOR EMPLOYING PRINTERS, DECLARES JAS. C. ACTON

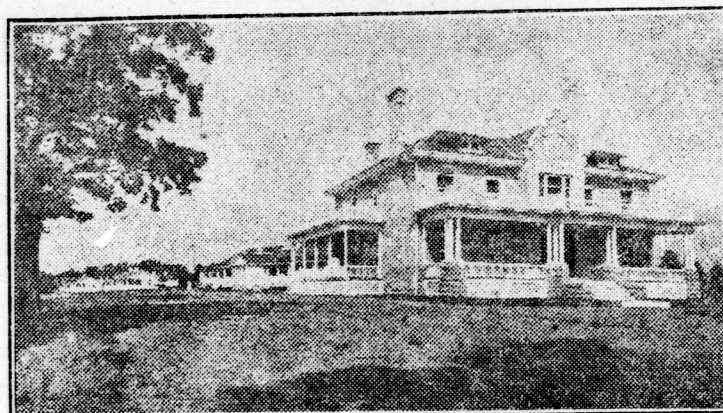

Result in Chicago Agreement a Victory For Employers, Claim.

BUFFALO, May 6.—(By Canadian Press).—James C. Acton of Toronto, district representative of the Ontario and Quebec Typographers, who has been in the United States investigating conditions regarding the printers' strike, has issued the following statement to the Canadian Press, Limited: "Twenty-two large cities, exclusive of Chicago and New York, give a total of 2,256 shops, employing 21,400 men, of which only 797 shops are affected, with 7,700 men on strike. In these pivot cities there are but 329 shops signed up for 44 hours, these shops employing but 1,589 men, indicating

that only small shops run by union men weakened. All important plants present solid fronts, large shops herebefore union now declaring for non-union shops.

Victory for Employers.
"The Chicago wage controversy, pending since February resulted in the men going back to work at \$1.55 cut in wages, in all departments. This was a decided victory for the employers," the statement goes on to say, "as the men affected were in closed shops who had agreed to 44 hours, and closed shops were competing with 216 open shops who continue to work and are running normal at 48 hours. In Buffalo the situation is very encouraging to employers. All plants are running, and after five days' strike 50 per cent of the men are at work. Baltimore printers, after arbitration, have accepted 10 per cent reduction in wages. Philadelphia messmen and feeders are at work 48 hours, and bookbinders have withdrawn demands."

Put An Iron Heel On the White Plague!

The dread white plague must not be allowed to rage unchecked.
Byron Sanatorium MUST be kept up.
Properly equipped to combat with the ravaging disease, it stands a monument to uplift in public health and public ideals. A large percentage of the cases sent for treatment to Byron are actually arrested. Each year the percentage increases.
The upkeep of Byron Sanatorium rests solely in the hands of the London Health Association.
The London Health Association depends upon their share of the 1921 budget of the United Welfare Fund Association to carry on for the next twelve months.

Keeping Bright the Lights Where Darkness Threatens

When disease—especially the dread white plague—invades a home, its effect is far-reaching. If it is the father who is stricken, wages cease coming into the house. Poverty enters. If it is the mother, the family is robbed of loving care and attention.

The poor are in no way equipped to combat the "go-with" effects of tubercular trouble.

The Women's Sanatorium Aid, a band of public-serving women, have taken upon themselves the duty of caring for the families of those stricken with tubercular trouble, as well as seeing to it that the sick are given proper treatment. The ease of mind that comes to the patient through the efforts of this society plays no small part in their recovery.

You have an opportunity to share in this work.
Part of your United Welfare Fund donation will go toward the upkeep of the Women's Sanatorium Aid.

Do You Know
what T. H. U. stands for? It means thermal heat units, and the size of your coal bill depends on the number of heat units your coal will produce per ton. When ordering your new lot of coal, just ask your dealer how many heat units he will guarantee per ton? If he cannot offer you as many as we, you know what to do. We are confident of the result.
