EXPLANATIONS

AND

PRINCIPAL ARTICLES & CALENDAR.

All the calculations are reduced to the nearest minute of Charlottetown mean time, with the exception of the Data for Solar observations for Time and Latitude, namely:— Equation of Time ("Sun fast or slow of clock") and Sun's Declination both of which are given for the instant of Mean Noon at Greenwich.

The Declination for Greenwich apparent Noon when required can be obtained by multiplying the hourly variation by the Equation of Time, reduced to the decimal of an hour and applying the result as directed below.

DECLINATION	INCREASING	DECLINATION	DECREASING.
Sun slow of clock Add	Sun fast of clock Subtract	Sun slow of clock Subtract	Sun fast of clock Add

Example.—To find the Sun's Declination at Apparent Noon on January 26, 1883.

Equation of Time $12^m 46.34^s =$.2123
Hourly variation of Declination			37.87
			14861
Declination at Mean Noon	$18^m 43 18.9$	Decreasing	16984
Sun slow of clock Subtract,			14861
			8.0
Declination at App Noon	$18 43 10.9$		6369
			3.039801

From the Sun's apparent Semi-diameter which is given for each day may be found the Sun's horizontal Parallax, on dividing the Semi-diameter by 107.44 (the ratio of the sun's actual diameter to that of the earth.) Thus on July 1st, (Sun in apogee) $\frac{15m. 46s. - 946}{107.44} = 8."805$. On December 31st, Sun in perigee $\frac{16m. 18.5s. - 978.2}{107.44} = 9."106$. To find the Sun's Parallax in altitude multiply the above results by the cosine of the altitude. Example: To find Sun's Parallax at 35° on December 31st, $9."106 \times .8192 = 7."46$. To find the days

length, subtract the time of sunrise from 12 hours and add the time of sunset. Thus for the 20th February the days length is found :

$$\begin{array}{r} 12\ 0 \\ 6\ 58 \\ \hline 5\ 2 \\ 5\ 28 \\ \hline 10\ 30 \end{array}$$

It is only when the Equation of time = 0 that forenoon hours equals the afternoon.

On the Right hand page of each month are the changes of the moon, its Rising, Southing, and Setting, and the time of High Water at Charlottetown, to the nearest minute of local mean time. The bearing of the Moon at the time of full and change, time of Perigee and Apogee, crossing the Equinoctial, and of reaching its greatest North and South Declination, are given for the purpose of assisting weather forecasts, it being generally found that the Lunar Equinoctials are marked by atmospheric disturbances, the stronger the more nearly the times agree with those of the moon's changes and perigee.

ECLIPSES.

During the year 1883 there will be two Eclipses of the sun and two of the moon, of which only one of the moon will be visible at Charlottetown.

I. A Partial Eclipse of the moon, April 21st. Greenwich mean time of opposition, oh. 7m. 33.1 sec.

II. A Total Eclipse of the sun, May 6th. Greenwich mean time of conjunction, 9h. 45m. 12.7 sec., to the South Pacific Ocean, partially visible in the morning, New Zealand, east of Australia and New Guinea, in the evening Peru and Central America.

III. A Partial Eclipse of the moon, October 15th. Greenwich mean time of opposition, 19h. 20m. 30.7 sec., (7.20.5 a. m., October 16.)

Phases at Charlottetown,

First contact with Penumbra Oct. 16th,	oh. 29m. 74 sec., a. m.

FORECASTING THE WEATHER.

Men have, from a very early period, studied the weather, on account of its great influence on their pursuits, in order if possible to predict its nature, and prevent those losses to the Farmer and the Sailor which result from violent storms.

The earlier students based their predictions on the phases of the moon, but an examination of the Greenwich observations for more than half a century has shown that this theory is entirely unfounded. Weather prophets like Moore, Zadkiel and Vennor claim in their Almanacs to be able to forecast the weather day by day for a whole year; but meteorological science in the British Isles, and the Signal Service of the United States, with the Weather Bureau of the Dominion, does not claim to forecast, with any certainty, the weather, for more than three or four days at the most.

If an observer could obtain, at regular and repeated intervals, readings of the Barometer at stations distributed over a large area, he would be enabled to trace the march of the storm, for it has been found that the wind always blows towards the place of the lowest barometer reading; and so, by means of the telegraph, he may warn those places the storm is approaching. Still, mistakes are often made, and the forecasts are not always infallible, so that much remains to be done before meteorology can be ranked among the exact sciences.

RATES OF POSTAGE.

RATES OF POSTAGE ON LETTERS WITHIN THE DOMINION OF CANADA, TO NEWFOUND- LAND AND THE UNITED STATES.

ON A LETTER WEIGHING	Post PREPAID.	Posted Insuffi- ciently Paid.
Not more than $\frac{1}{2}$ an oz.	3 Cents.	Double the deficient Postage.
More than $\frac{1}{2}$ an oz. but not more than 1 oz.	6 "	
More than 1 oz. but not more than $1\frac{1}{2}$ oz.	9 "	

and so on, three cents being charged for every $\frac{1}{2}$ oz., or fraction of a $\frac{1}{2}$ oz.

The rate of Postage on a letter posted within the Dominion of Canada, for transmission by Mail to any place in Canada, is three cents per half ounce weight; but the Statute provides that this rate must be prepaid by Postage Stamp at the time of posting the letter.

Any such letter posted wholly *unpaid* (or prepaid less than one full rate of *three cents*) cannot be forwarded to its destination, but will be sent to the Dead Letter Office, with the reason plainly written or marked upon it—"postage not prepaid."

Letters as aforesaid posted in Canada, and addressed to places in Canada, when weighing more than half an ounce, and liable therefore to two or more rates of Postage, will be transmitted by mail to destination, though not fully prepaid, if as much as one full rate of three cents has been prepaid thereon by postage stamps; and in such cases will be forwarded charged with double the amount of deficient postage not prepaid: Thus, if such a letter weighing more than $\frac{1}{2}$ oz., and not exceeding 1 oz. in weight, be posted prepaid

The Girls Own Paper,

A new and highly interesting Magazine, in monthly parts. Price, 15 cents, or if paid in advance, \$1.50 per Volume of 12 Parts, the first of each volume beginning with October.

There is no more pleasing and instructive literary visitor to girls published in any country. Among its more prominent features is a piece of Choice Music in each part, the work of some one of the most graceful composers of the day, and from 70 to 100 Wood Engravings. THE GIRL'S OWN PAPER is unequalled for variety of information given in the most attractive manner.

The Leisure Hour.

This Magazine enjoys a foremost place in England and Australia. Although issued monthly at 15 cents, the volume is a **Library Book of reference for years**. It is as suitable to the cottage as to the palace, and is an acquisition to either. By the year, \$1.50

The Boy's Own Paper,

A YOUTHS' MONTHLY.

Each part contains 64 pages and from 80 to 100 Wood Engravings, besides occasional Lithographs and large-sized Chromos. **Price, 15c., each part**, or by yearly subscription (for the Volume only), commencing in October, \$1.50.

This Magazine, full of fun and adventure, seeks to thoroughly instruct in all the useful things that an intelligent lad should understand.

The Sunday at Home,

A Monthly Magazine for Family Reading.

While strictly non-denominational, is replete with desirable reading for the younger as well as the adult members of a family, being not all dry, but full of the most interesting information. Once taken in hand the book has to be read through. 15 cents monthly.

Postage on either of our Magazines to any address in Canada or the States, 25c. extra.

3 cents only, it will be rated 6 cents unpaid—"more to pay"—and forwarded to its address.

On letters posted at an Office to be delivered from it, commonly known as "*drop letters*," the rate is one cent per $\frac{1}{2}$ oz. ; to be in all cases prepaid by postage stamp affixed to such letters when posted.

The charge for the Registration of a letter is 2 cents, to be prepaid by Registration stamp.

CANADA AND NEWFOUNDLAND.

Letters for Newfoundland are charged at the rate of *five* cents per half ounce, and must in all cases be *prepaid*.

The Registration fee to Newfoundland is the same as to places within the Dominion, viz., 2 cents, to be prepaid by Registration stamp.

CANADA AND THE UNITED STATES.

The rate of postage upon letters passing by mail between Canada and the United States is the same as to places within the Dominion, and must in all cases be prepaid by postage stamp.

The Registration fee to the United States is 5 cents, to be prepaid by Registration stamp.

NEWSPAPERS AND PERIODICALS

published regularly at intervals of not more than one calendar month, having a full title, the place, date of publication, and the number of the issue printed at the top of the first page, posted by the publishers in the Post Office at the place where they are printed, and addressed to regular subscribers, or newsdealers, in Canada, residing elsewhere than at the office of publication, are transmitted free of postage.

CHARLOTTETOWN BUSINESS COLLEGE,

WELSH & OWEN'S BRICK BUILDING,
REAGH & MILLER, Proprietors.

DESIGNED TO EDUCATE YOUNG MEN FOR BUSINESS.

Our system is conducted on Actual Business and Scientific Principles, and embraces all subjects necessary for a thorough COMMERCIAL Education. Our facilities for teaching these are the most complete that have ever been devised. Theory and Practice are combined, and the whole course rendered so interesting and practical that the duller student cannot fail to be largely benefitted. The course of study is short, practical, useful and reasonable: it is just what every MAN needs and will use, no matter what his profession or calling is to be.

All the Branches of a First-class Business Education

are taught, embracing Book-keeping, by single and double entry, THEORETICAL and PRACTICAL, with its application to mercantile business, Wholesale, Retail and Commission, as well as to Manufacturing, Railroading, Steamboating, Banking and other enterprises usually conducted by joint stock Companies; Arithmetic, Writing, Spelling, Business Correspondence, &c., &c. The whole combined with a systematic course of BUSINESS PRACTICE. They buy, sell, barter, ship, receive consignments, buy and sell on commission, discount, et., etc. In pursuing which they are frequently brought in contact with all kinds of Commercial Paper, such as Notes, Checks, Drafts, Bills of Exchange, Receipts, Accounts Current, Accounts of Sales, Invoices, Business Letters, etc., all the transactions must be recorded regularly in properly prepared account books. *No young man can afford to miss a course at this Institution.*

The youth commencing a business life with only industry and integrity as his capital, the clerk engaged during business hours, but desirous of evening study to repair the defects in his education, each have the advantage offered by our sessions occupying DAY and EVENING.

Diplomas granted to such as pass satisfactory examinations. Students may enter at any time. No entrance examination required. Business men and others are cordially invited to call and examine our system.

Teach your sons that which they will practice when they become men.

'Let no man think of entering into business while he is ignorant of the manner of regulating books, never let him imagine that any degree of natural ability will supply the deficiency or preserve multiplicity of affairs from inextricable confusion.

Full particulars concerning Terms, Tuition, Scholarships, &c., &c., on application to

L. B. MILLER, Principal.

Below we add one of the many testimonials we are constantly receiving, showing that the work done is all we claim it to be:—

From D. Montgomery, Superintendent of Education.

MR. L. B. MILLER,

DEAR SIR,—I have much pleasure in testifying that the work done in the Institution over which you preside is of a high order, and well calculated to fit young men for business.

I have carefully examined your system of examinations, especially in Arithmetic, and consider it highly satisfactory.

Yours, &c.,

D. MONTGOMERY.

We still continue to make STEAM ENGINES and BOILERS, Lobster Factory Supplies, Mill Gear of every description, Threshing Mills and Fanners, Ploughs, Pulverisers and Ships' work of all kinds, in Iron and Brass.

We call special attention of Ship Owners and Builders, to our IMPROVED IRON WINDLASS surpassing anything of the kind in the Dominion, and highly approved of by all who have used them.

Agents for the LEFFEL & VULCAN WATER WHEELS, the original design, combining the latest improvements of Leffel's Patent, manufactured by Paxton, Tate & Co., Ontario, which we can furnish at lowest prices and most reasonable terms.

We also furnish BURR STONES, Improved EUREKA SMUTTERS, BOLT-ING CLOTH, cut to order and ready to put on Reel, and all MILL FURNISH-INGS, cheaper than ever.

We would ask the attention of Millers to our SILVER STEEL MILL PICKS, for Burrs,—Carbon edged, and warranted.

Parties contemplating the erection of STARCH FACTORIES, would do well to give us a call, as we are in a position to supply all necessary Machinery for that purpose as well as give estimates.

PARKS'
COTTON MANUFACTURES.

ESTABLISHED 1861.

Awarded the GOLD MEDAL at the Dominion Exhibition at Montreal, 1880, and FIRST PRIZES at Toronto, London, Hamilton, Kingston and Montreal, in 1880, 1881 and 1882, for all our Manufactures, and extra Medals for the best Cotton Goods made in Canada, 1882.

COTTON YARNS,

White, Blue, Red, Orange and Green, warranted full length and weight, stronger and better than any other yarn in the market.

COTTON CARPET WARPS,

Made of No. 9's Yarn—4 ply twisted, in all the usual colors.

This article is very largely used in Ontario for making carpets, and the use of it in the Lower Provinces is increasing rapidly, as it is found to make the most serviceable and cheapest carpet for country use.

BEAM WARPS FOR WOOLEN MILLS,

In all the varieties required.

HOSIERY YARNS for Knitting Manufacturers,

PARKS' Cotton Manufactures.

ESTABLISHED 1861.

GREY COTTONS

In all the usual varieties.

FANCY SHIRTINGS AND CHECKED COTTONS.

These Goods have taken First Prizes in all the Canadian Exhibitions of 1882, and are acknowledged to be the best goods of their kind made in Canada. They will be found very durable, and are dyed in fast colors. They are fast taking the place of flannel shirtings, besides being used for many other purposes.

BALL KNITTING COTTONS.

This article has now been two years in use, and has entirely taken the place of American knitting cotton, being found to be of better quality and more carefully numbered, and dyed in brighter colors.

It is warranted to be of full weight.

Our goods are sold by us to the wholesale trade only, from whom country merchants and consumers can always obtain them, by asking specially for them.
