

Two British Leaders Make Appeal Official Evidence Incriminating Germany and Austria

LLOYD GEORGE AND BONAR LAW ISSUE JOINT MANIFESTO

They Ask for Continued Unity and Outline Platform; Later Includes Preferential Tariff for the Colonies and Reform of the House of Lords

By Courier Leased Wire.

LONDON, Nov. 26.—Premier Lloyd George and Chancellor Bonar Law have issued a joint manifesto to the electors of Great Britain and Ireland, appealing for support and continued unity, and outlining their policy, of which the following points amplify speeches cabled on November 16.

The conclusion of a just and lasting peace, and so establishing the foundation of a new European order that further wars may be forever averted; reducing the burden of our armaments, and the promotion of a league of nations; state acquisition of land for soldiers and sailors either for cottages with garden allotments or small holdings on a wide and large scale. Schemes for agricultural developments and extensive afforestation and reclamation schemes; comprehensive housing schemes; larger industrial opportunities; improved material conditions of employment. The manifesto continues:

"It will be the fundamental object of the coalition to promote the unity and development of our empire, and of the nations of which it is composed to preserve for them a position of influence and authority which they have gained by their sacrifices and efforts in the cause of humanity and liberty."

Other planks in the platform are: Preferential tariff for the colonies; no fresh taxes on food and raw materials; development and control in the best interests of the state of the economical production of power and light, also railways, roads, canals, improvement of consular service, removal of all existing legal inequalities between men and women, and reform of the constitution and of the House of Lords.

Punish Kaiser and His Clique

Local Board of Trade Will Demand Militarists Be Tried

At the convention of the Western Ontario Associated Boards of Trade in London on Friday of this week the following resolution will be submitted by Mr. C. Cook, of the local board:

"That in the opinion of this board, the world will never be safe for democracy, nor free from the danger of war until the mad military spirit of Germany is broken. Therefore be it resolved that it is necessary that the Kaiser and all of his gang who in 1914 deliberately plunged Europe into war to secure for themselves world dominion, be tried by an international Court and punished as befits their crimes against humanity and civilization. Geo. S. Matthews and W. F. Cockshutt will submit a resolution asking that the Government, in taxing manufacturers' profits, make allowance for a reasonable profit on money which the manufacturers or merchants may have borrowed for the purpose of investment in their business."

Has Been Ruined For all Time

So Says a German Lieutenant With Regard to the Navy

By Courier Leased Wire.

Firth of Forth, Scotland, Monday, Nov. 25.—Germany's navy has been ruined for all time in the opinion of a German lieutenant on one of the warships surrendered to the allies. He said today: "Now we have only a dishonorable record. No one will want to serve in a disgraced service." Inspection of the German vessels is proceeding. They are in a deplorable state, having been apparently neglected for a long time. The German sailors present a miserable appearance, their clothes are dirty and nondescript. On the Dürflinger there is perfect discipline, but on most of the other ships the men lounge about the decks smoking.

WILL GET FURLOUGH.

Paris, Nov. 26.—Repatriated French prisoners of war will be given furloughs equal to the time they spent in captivity, under a bill now before the Chamber of Deputies. A minimum furlough of 30 days for all prisoners of war is provided by the measure.

LEAVES VICTIMS TO CRUEL FATE

Heartless Taunt From German U-boat to Appeal of a Floating Man

London, Nov. 25.—Lieutenant Fulcher, describing the sinking of the 'Titanic' to the correspondent of The Daily Telegraph, said the German U-boat Commander left an American sailor afloat on a raft after the 'Titanic' sank, with the calm remark: "God will save him."

"The first shots from the submarine," Lieutenant Fulcher said, "badly wounded the Captain, killed the gun crew and set our ship on fire. The docks were quickly littered with dead. We managed to get the fire extinguished and to lower boats, but in the excitement and confusion most of the poor fellows aboard were drowned."

"The submarine again attacked us and we kept up our fire until we realized it was useless to continue. We then decided to surrender." Although wounded, according to the correspondent, Lieut. Fulcher took a pillow and waved it in place of a white flag. The submarine came alongside and he was taken, together with another American officer, aboard the vessel. The submarine Commander, revolver in hand, asked the lieutenant, whose chief gunner was the lieutenant, told him all the gunners were killed. It was then that a German speaking American on a raft asked for help, but the submarine Commander ignored him, except to say "God will save him," and then left the man to his fate.

GERMANY AND AUSTRIA CONSPIRED TO BRING ABOUT WAR

Publication of Official Reports Establishes This Fact; It Was For This Reason Terms to Serbia Were Made So Drastic

By Courier Leased Wire.

LONDON, Nov. 26.—British wireless service.—Publication of official reports from the Bavarian minister at Berlin to his home government confirms evidence already in the hands of the Entente that Germany and Austria conspired to bring about the war. It was for this reason that the terms of Austria's ultimatum to Serbia were made so drastic that hostilities were bound to follow. These revelations have been published in Munich after permission had been asked by the Bavarian premier and foreign minister of the German federal government. They are in the form of a report sent to Munich on July 18, 1914, by Count von Lerchenfeld, the Bavarian minister at Berlin.

According to the report the ultimatum to Serbia was delayed until after President Poincare and Premier Viviani of France had gone to St. Petersburg, which would make it difficult for the entente nations to arrive at an understanding, and take counter-measures.

Count von Lerchenfeld said that "Serbia obviously cannot accept such conditions as will be laid down, and that as a consequence there must be war." He declared that action on the part of Austria could not be long delayed for that would give Serbia, under pressure from France and Russia, an opportunity to offer satisfaction.

In a telegram to Munich from Berlin, on July 31, 1914, Count von Lerchenfeld said that Sir Edward Grey's efforts to preserve peace would "certainly not succeed in arresting the course of events." Later the same day he wired information as to ultimatums to Russia and France, forecasted their rejection by both nations, and told of plans to harry Germany's armies against France, which, he said, would be "overwhelmed in four weeks."

He said that the morale of the French army was poor, and that it was poorly armed.

On August 4, the Bavarian minister outlined Germany's intention to violate Belgian neutrality, saying:

"The chief of the general staff has declared that even British neutrality will be paid too dearly if the price is respect of Belgium. An attack on France is possible only through Belgium."

LAST SHIP TORPEDOED

By Courier Leased Wire.

Bergen, Norway, Nov. 25.—The crew of the last victim of the German U-boat warfare, the Christiania Steamer Ever, torpedoed on the evening of November 11, has arrived here. The steamer was making her maiden voyage. The crew say that the U-boat crew claimed to have sunk on the same day a British transport on the way to Archangel with 3,000 soldiers.

YANKS CONTROL TURKS

By Courier Leased Wire.

Constantinople, Monday, Nov. 26.—(By the Associated Press.)—American control of the Turkish gendarmerie and finances is being urged by a group of nine newspapers, seven Turkish and two French—in Constantinople. The group also advocates American supervision of the educational system and the separation of church and state.

A deputation will request permission to present the program to President Wilson during his visit to Paris. The program will be announced this week.

WOMAN AMBASSADOR

By Courier Leased Wire.

Berne, Monday, Nov. 25.—(By the Associated Press.)—Madame Rosita Schwimer, of Ford peace party fame, who has accepted the post of Hungarian ambassador to Switzerland, being the first woman to receive such an appointment, declared to the correspondent to-day that the food needs of Hungary were "nowhere near urgent."

However, she added, there is some danger owing to the lack of coal. The situation in Hungary is such, Madame Schwimer continued, that the government would be willing to abide by any decision of a peace conference "no matter how unfavorable," the government is helpless.

TERRACE HILL RAILWAY BY-LAW FORTHCOMING

Will be Submitted to Ratepayers in January, Ratified by Council—Cost of Construction \$100,000—Proposed Route Outlined

The by-law for the extension of the street railway to Terrace Hill will be introduced for its first two readings at the next regular meeting of the city council, Ald. English, sponsor of the by-law, made this announcement at last night's session. He explained that he had held the by-law off in order to obtain final statistics, and suggested that the members of the Street Railway Commission should be invited to be present when the by-law was read.

To this the Mayor objected, declaring that the Mayor's Commission were not in sympathy with the proposed extension. They had twice appeared before the council, and admitted they had no fixed policy. His Worship felt that the presence of the Commissioners would hamper the reading of the by-law, which he strongly supported. He suggested that the council hold an informal special session, at which Ald. English could outline the details of the by-law.

THE WHITE ELEPHANT. Philadelphia Ledger.

Little Girl Was Burned to Death

Lily Wintermute Died of Painful Injuries Yesterday

Lily, the twenty months old daughter of Mr. and Mrs. Edgar Wintermute, River Road, died in the hospital at noon yesterday, of burns received a few hours earlier, when she fell into an open grate stove in her parents' kitchen.

The child, who was just learning to walk, was left by her mother in charge of a brother, five years old, while the mother went into the yard for a moment. The little tot presumably left the chair in which she was sitting, and crossed the room to the stove, falling upon it in such a manner that her clothes instantly took fire. The little boy's screams brought the mother hurriedly to the scene, but on her arrival the infant was a mass of flames. Drs. Robinson and Stinson were hurriedly called, and the little tot was removed to the hospital, where she died some three hours later, despite all that could be done for her.

LEFT GERMAN SOIL

By Courier Leased Wire.

Copenhagen, Nov. 6.—(Bulletin)—General Ludendorff, reputed to have been long the actual directing head of Germany's military affairs, has quit German soil according to The Frankfurt Gazette. It says he has left Sassenitz, Prussia, for Sweden. His titular position in the German military system was that of first quartermaster-general.

WEATHER BULLETIN

Toronto, Nov. 26.—The depression, which was in the St. Lawrence valley yesterday, now covers Newfoundland, while pressure is decreasing again over the northern portion of the continent. With the exception of a few local snow flurries from Ontario to the Maritime Provinces, the weather has been fair and cold in Canada.

Fair and moderately cold. Wednesday—Winds becoming fresh, fair with stationary or a little higher temperature.

PERSHING FOR U.S. PRESIDENCY

Campaign to Boost Army Chief Has Been Launched in Ohio

Columbus, O., Nov. 25.—A campaign for the election of General John J. Pershing, commander-in-chief of the American Expeditionary Force in France, to the Presidency in 1920, was formally launched in Ohio to-day by the incorporation of "The Pershing Republican League."

Former United States Senator Charles Dick of Akron and fourteen other prominent Republicans of Akron and district are sponsors for the movement. Mr. Dick's name heads the list of the fifteen men who signed the articles of incorporation, which were issued by the Secretary of State to-day.

As set forth in the articles of incorporation, the purpose of the league is to crystallize the already existing sentiment for General Pershing as President of the United States in 1920 and to work for his nomination and election.

Airplanes to be Mail Carriers

Already a Daily Service Exists Between England and France

By Courier Leased Wire. London, Nov. 19.—(Correspondence of the Associated Press.)—All mails between Europe and the United States eventually will be carried by airplane, according to Lord Morris, who has championed a movement before a parliamentary committee for the establishment of a port of call for Atlantic lines on the west coast of Ireland.

Already, he says, a regular daily mail service by airplane is maintained between England and France without interruption by the weather.

Many Bombing Raids Made

By British Aviators Over German Territory

London, Nov. 28.—Statistics published relative to the work of the independent air force show that during the three months preceding the armistice the astonishing number of 709 bombing raids were made by British aviators over German territory.

There were 374 raids on large German towns; 209 on German airbases, established for the defence of the Rhine, and 126 on other military objectives. The list of large towns visited shows that 52 were bombed during the period.

A CHORUS OF TEN THOUSAND

Will Take Part in a "Victory Sing" in New York

New York, Nov. 26.—A chorus of 10,000 persons will sing patriotic songs at a "Victory Sing" in Madison Square Garden, Thursday afternoon, (Thanksgiving Day), it was announced today. The meeting will open with the singing of the Star Spangled Banner, at four o'clock, the hour at which 7,000 members of the National Council of Women and their friends throughout the country will stand and sing the anthem. In addition to the "sing" a tableau of the allies has been planned, in which 22 girls, all natives of allied countries, will take part with American soldiers, sailors and marines.

Campaign for 'Flu Victims

Only Slightly Over a Thousand Dollars Was Raised Yesterday

MUST DO MUCH BETTER

The public will have to do better than they did yesterday, if the objective will not be obtained, said one of the clergymen in charge of the campaign for the influenza sufferers, this morning. Yesterday only a little over a thousand dollars was raised. The canvassers are out and hard at work again to-day, however, and are hopeful that by to-morrow night the full sum will be on hand. There is a tendency on the part of many to cut down the size of their subscriptions, because the fund is for a smaller amount than many companies which have been conducted in the past. This is a mistake, however, the collectors declare, as it was only to make sure the objective would be attained that it was set so low.

Winter Starts in Earnest

Over the Entire Northern Front of Roumania

Archangel, Monday, Nov. 25.—(By the Associated Press.)—Winter has begun in earnest over the whole northern Russian front. All the rivers are icebound, and the Bolshevik gunboats, which have long menaced the allied forces on the Dvina have been forced to withdraw to escape being frozen in. The Bolsheviks, however, have mounted big guns along the front, south of the allied armies.

Operations are limited to spasmodic artillery exchanges, but the Bolshevik forces are reported to be receiving heavy reinforcements. The freezing up, while bringing relief on the Dvina front, increases the danger on other fronts, as the once impassable swamps are now frozen, making possible bushwhacking flank attacks by the enemy.

The correspondent has just returned from a trip along the front, where he found a general reversal of the opinion that the Bolshevik would not fight. Near Kadish a fortnight ago, a body of Bolshevik infantry maintained an advance against strong machine gun fire. A resident in talking with American soldiers regarding this attack said the Bolshevik officers threatened their men that they would be killed the next day if they failed to advance.

The cold is so intense in some sectors of the front that the allies sleep with their machine guns rolled in the blankets with them to prevent the water cooling chambers of the guns from freezing.

NORFOLK NEWS

Mrs. J. R. Gunton Dead at Simcoe

Widow of Prominent Citizen Leaves Family of Eight

OTHER SIMCOE NEWS

Simcoe, Nov. 25.—(From Our Own Correspondent.)—Miss Jarvis, widow of the late John H. Gunton and mother of Robert E. Gunton, Police Magistrate of Simcoe, died at her home, 20 Talbot street south, on Saturday evening, aged 76 years. Deceased had survived her husband by some years and had been in indifferent health of late. The family home was at Vittoria originally.

The family of eight children three reside in Simcoe, Robert E., Engineer, City R. Station, read a lengthy paper touching on the cost and financing of Simcoe's roadways for the past twenty years, and giving estimates for permanent roadways on some four or five miles of the most travelled streets. The attendance was not large, doubtless because it was generally understood that nothing would be done while the war was on.

The funeral to Oakwood Cemetery is announced for this afternoon.

The Permanent Roadway Question.—About one year ago, at a public meeting called for the purpose, Town Engineer, Guy R. Marston, read a

lengthy paper touching on the cost and financing of Simcoe's roadways for the past twenty years, and giving estimates for permanent roadways on some four or five miles of the most travelled streets. The attendance was not large, doubtless because it was generally understood that nothing would be done while the war was on.

The writer has been approached twice recently for an opinion on the advisability of holding another meeting, and it is suggested that the citizens in general will expect some permanent work to go on next year.

If any such meeting is to be held it should be brought on early in December, or as early as possible. The County Council meets during the first week and the sessions will be on during the second week, with, we believe, a rosy docket.

Something may well be said in favor of a representative meeting of ratepayers to discuss a roadway policy. The present conditions and operations have been forced upon us by the war and we believe there is a general demand for a departure therefrom at once.

What streets and what kind of roadway shall we commence to build? Concrete? or macadam? or asphalt? and where? Norfolk street or Colborne? Should Robinson from Colborne to Head be built early? and why?

A public meeting, or two of them might result in the formulation of policies upon which candidates could go before the electors. For many years past there has been no question of general concern to the town in a municipal election and Simcoe is getting along to the size when public questions should be thoroughly threshed out.

Mayor Sihler approached on this matter of the suggested meeting, thought it a problem for next year's council, but he agreed that if the question were up electors would be

May Be Home Soon

Capt. H. H. Coombs, M.C., after three months' convalescence at Oxford, is able to throw away his crutches, and at last letter expected to go to the present hospital for a short time. A letter to this effect was received by his parents a fortnight ago. Capt. Coombs may therefore soon be home.

Odd Ends of News

A heavy robe belonging to J. G. Fleming, was stolen from his carriages at the Baptist church shed on Sunday.

Mrs. Walter Durward has received from overseas for safe keeping, the Military Cross received by her husband, Capt. Walter Durward, of Buckingham Palace, in recognition of his splendid services. Capt. Durward was with the Bank of Hamilton before going overseas, and left Simcoe as a lieutenant in the 133rd.

Manager Ross, of the St. Williams jam company, has purchased two lots in the vicinity of the Simcoe plant from Mrs. J. D. Mcintosh.

Mr. J. G. Winter, at present in Brantford hospital, is improving at the rate of a mile a day, and is expected to be home in a few days.

The Young Peoples' Society of St. Paul's, was last evening the guests of the Epworth League of St. James.

The I. O. O. E. headquarters was yesterday the scene of rush work in the matter of filling the Christmas boxes for the men of the navy, and the work was not completed when labor ceased.

The Great War Veterans aspire to the organizing and maintaining of a brass band.

H. M. Ramsey is again on the bench after a fortnight's illness from "flu."

Chairman A. M. Monro, of the board of education received yesterday literature informing him that it is forbidden to use hard coal in schools, and suggesting methods of economizing fuel consumption.

ST. CATHARINES WELL.

In giving due credit to the wonderful remedial springs of Europe we are apt to lose sight of the value of the ones nearer home. About one thousand springs of various medicinal virtues exist in America. Of one of them Hare's System of Therapeutics (1891), page 523, thus speaks: "A number of Saline Springs exist in America and Europe, very strong water of this kind being the St. Catharines Well in Canada, which contains about 275 grains sodium chloride to the pint, as well as 135 grains calcium chloride. Its prototype in Europe is the celebrated Knechtsteden Springs in Prussia, which contains about 140 grains sodium chloride (Kurbunnen)." Other references are Encyclopaedia Britannica, Appleton's American Encyclopaedia, The Alhbits System of Medicine, etc. The Grand Truck

MILITANT OWNERS AFTER COMMISSION

Frazer and Griffith Would Oust Johnson, It is Reported

TALK MEANS PLAY

Plotters Hold Meeting in the East to Get Mack to Join Revolt

Militant Take One

Detroit, Nov. 25.—Bets on whether or not there will be major league baseball in 1919 closed in advance on two occurrences of the week just ended. One was the swing around his circuit, made by Ben Johnson, who included pauses in Detroit.

The other was a meeting held in Philadelphia, with Barney Dreyfuss of Pittsburg, Clark Griffith of Washington and Connie Mack of the home city in attendance. Harry Frazer of Boston was present in spirit, but not in person.

Any time that Griffith, Frazer and Dreyfuss or any two of the three foregather with malice aforethought, it means fight. And any time the managers are fighting the game is on, or is about to be a color concern as the part of big industries say. In baseball, Griffith is an anarchist and Frazer is, or was, an Ishmael. Dreyfuss is the National League's crusader and agitator by its smartest and best informed manager.

Ban Open to Reason

President Johnson's trip means that he is conferring with his club owners. And what he confers he admits by inference that he is not so sure that the country and the club owners wish the game resumed.

There is no question where the country stands. Neither there any doubt about the minds of the managers, since the armistice has assured the return of most of the men who were inducted into the army, and makes free all those who went into essential work. The latter condition assures time for baseball that workers could not, or would not, afford last summer.

In this city the ownership has not declared itself at any time. President Navin took the very proper stand, until the recent developments, that conditions were such that it was folly to try to figure on next Spring this Fall. Now he is prepared to wait for the league meetings, which is less than a month away. That, it may be said, is the time and place to settle such things. Detroit, however, is too good a baseball town for an owner to figure on anything but immediate assumption if peace follows the armistice.

Griffith Tastes Blood

Those eastern gentlemen referred to, however, figure that something before there are any meetings. Frazer is against Johnson—always has been. Griffith is said to be sympathetic as a result of a run-in that resulted in his battle at the Cleveland meeting last August. He tasted blood there, winning his fight for extension of the season past August 20. He thrives on danger. Frazer would be Johnson decapitated. Griffith is said to have joined forces.

Griffith and Dreyfuss, the story goes, were trying to swing Mack into line to give the franchise to a majority. It is claimed that they already have Comiskey, who was with Griffith in the Cleveland battle, and New York. They have no hope of getting Navin, Dunn or Ball. Mack always has been a man of peace and cannot very well turn on Johnson after the way the latter engineered the Peary affair for him. Johnson, incidentally, is as anxious to get Frazer out of the league as Frazer is to get Johnson. Guess the ultimate outcome.

Dreyfuss After Herrmann

Dreyfuss is not an American leaguer. You know that, and wondered how he figured in. The Pittsburg man is against the National Commission generally, and Chairman Herrmann specifically. So long as Johnson is president of the American league—and thus automatically a member of the commission—Garry cannot be displaced. Hence Dreyfuss wishes the American League to select a new leader. He already has one groomed to take the job that Tanager gave up, and that Tanager is holding it interim.

An entire new commission is Dreyfuss' idea. Frazer wishes it a one-man board and doesn't care to have the man either Johnson or Herrmann. Dreyfuss would stand for the Frazer scheme. The work is started in both leagues. It makes for a lot of costly, and tiresome winter meetings, and assurance that baseball will resume next Spring.

Railway System's trains run direct to St. Catharines, and further information can be obtained from their representatives. Apply to any Grand Trunk Ticket Agent, or C. E. Hornung, D.P.A., Toronto.

WHERE IGNORANCE IS BLISS

"Why the overgrown laundry ticks" queried a casual visitor in the Y. M. C. A. this morning, pointing to two long paper scrolls bearing Chinese inscriptions. "They may be cuss words for all we know," opined a clergyman who was standing near. Where ignorance is bliss, why cut your wisdom teeth?

"To-morrow"

This is the title of an interesting and instructive booklet recently received from our printers. Every man and woman who has not made a will and appointed a Trust Company as their Executor and Trustee should have a copy of it about delay. Copies mailed to any address on request.

This Company's chief function is to act as Executor and Trustee. Our officials would be glad to have you consult with them any time in the strictest confidence and without placing you under any obligation.

Dignified Rebukes

Two little girls tried to tell a story of something exciting that happened. Finally, rising to her full dignity, Mary said: "Susie! will you please let me tell this story! It isn't nice to be chipping in that way!"

To Keep Pictures Straight

Take small piece of adhesive tape, moisten one end and attach to back of picture (near the top in center), moisten other end and fasten to wall. Pictures will always hang absolutely straight after that.

Worth Remembering

We speak of our human relationship as "ties," but often we make them fetters by our unreasonable demands. "Love, the gift," is sweet, but "love the debt" may become a fretting bond.

Qualified Frazer

When four-year-old sonny, who was being served with some cauliflower, was asked how he liked it, he replied: "It is very nice, but please don't give me any more."

Economy

"Are you trying to get this?" "Yes." "Question of looks?" "No. Better chance of getting standing room in a crowded car."

Stracciari Sings "Alla Vita" From "Ballo in Maschera"

This sparkling aria might have been written specially for Stracciari—so completely does it lie in the richest range of his glorious baritone. And Stracciari, needless to say, has made the most of his opportunity.

A 77085—\$1.00

The Lure of Music

The author puts the understanding of good music within the reach of all, dispensing with technical terms and bringing the human side of the art home to the reader. On sale at all Columbia Localities.

"Song of the Chimes" and "Slumberboat" by Barbara Maurel

A most appealing personality, a voice of imitable natural beauty—long steady under such masters as Jean de Reszke and Chevalier—all these Maurel has brought to the singing of two much-loved lullabies. And the result is—well, hear them!

A 2628—\$1.00

The list of December Records comprises 2 operatic selections, 20 popular hits, 12 dance pieces, 4 Christmas specialties, 6 vocal favorites and 7 novelties and instrumental gems.

New Columbia Records on sale the 26th of every month.

Hear General Pershing's dramatic record "A Message from France"—made by Pershing himself.

will be open in
OLD POST OFFICE BLDG.,
from 9 to 12 a.m., from 1 to 5.30 p.m., from 7 to 8 p.m.
This arrangement has been made in order that all may have an opportunity to secure coal or wood. There is a good supply of pea, stove and egg coal in the city yards. It is hoped that people will realize the impossibility of supplying all with hestnut.

The American government has treated Canada very liberally, but hestnut has been used largely for war purposes, and consequently cannot be secured in large quantities.

THE WIFE

BY JANE PHELPS, AUTHOR OF "MARGARET GARRETT'S HUSBAND," AND OTHER NOTABLE STORIES.

CHAPTER LXXXIV
Mrs. Clayborne Graciously Accepts Mr. Mandel's Invitation

Ruth hovered over her aunt solicitously as she removed her wraps; then proudly led the way to the dining room. Mrs. Clayborne did not restrain an exclamation of pleased surprise and delight as she saw the artistic room with the hangings of stuff given Ruth by her employer; the dainty table appointments, and all, came in for their share of admiration.

Ruth was in the "seventh heaven." "Don't praise her too much," Mrs. Clayborne. "You'll make her impossible to live with, if you do." Brian remarked facetiously, rather pleased at the way he had done so little for this wealthy aunt of Ruth's.

He always had felt a smoldering sort of anger at Mrs. Clayborne, not only because of her objection to him, but because she had done so little for Ruth, who was the only relative she had, and so, at least he figured it that way, entitled to be given a part of what she would ultimately have.

However, could he have known that when Mrs. Clayborne found out he was not earning enough to support Ruth without working, she had changed her will which had left everything unreservedly to Ruth, and had put the money in trust for Ruth for the length of time they lived together he might not have felt so elated by her suavity.

Mrs. Clayborne had a fixed impression that Ruth would not long be contented as the wife of a poor man, so had arranged her matters with that in view.

The dinner was one of Rachel's masterpieces in the culinary line. "I show old missis that we can 'kin cook in New York," she had said to Ruth, when told to get the very best dinner she possibly could.

"I see Rachel still knows how to cook," Mrs. Clayborne said passing

her plate for an extra helping.

"Indeed she does! I think she cooks better every day," Ruth replied. "I don't know how I ever lived without her, the dear old soul. Although we had a very good woman before she came, Brian was afraid I would be sorry to let Crawford go. He thought perhaps Rachel would be lonely here all alone. But she hasn't complained at all."

"She loves you very dearly Ruth. I hope you will always take care of her. I should had she remained on the plantation."

"Of course we will; you need never worry about her as long as we have a roof over our heads." Then blushed as she thought perhaps her aunt might think the roof a dubious prospect for always.

All the next day Ruth and her aunt visited. They did not go out at all. Ruth told her of her work, her employer, his kindness; and Mrs. Clayborne listened without remark. Then told of Brian. His ambition to learn typing so that he could save and be more independent at the same time, was enlarged upon. His thoughtfulness. She quoted his sending the flowers. The day was all too short for their confidences.

After dinner they went to the theatre. The seats were in the fifth row. "Just the right distance from the stage for aunt," Ruth thought complacently.

Then, Sunday, they had another happy day. They attended church in the morning; and in the afternoon went for a walk. After dinner Mr. and Mrs. Roberts came in to pay their respects to Mrs. Clayborne; and she seemed to approve of them, which delighted Ruth.

"A very refined, pleasant couple," Mrs. Clayborne had remarked. "Mrs. Roberts did all her own work so she could get along without caught herself in time. Why bring up a

subject that would cause her aunt to say that she, too, might have remained at home, and so have helped Brian."

Monday Ruth went to work in the morning, as planned. Her aunt had said nothing when she explained: in the afternoon they did some shopping. Brian came up for dinner, but excused himself immediately after-ward because of his lesson. If Ruth had hoped he would remain at home for that one evening she did not let it be seen; and when he returned before ten o'clock she reproached herself for having the thought.

The next day her aunt promised to meet Ruth at the theatre. Ruth had said nothing of Mr. Mandel's invitation. If it came about unexpectedly, her aunt would be more likely to accept. Ruth joined her at the appointed place, then, their errand accomplished, she said:

"Will you go to the shop with me Aunt Louisa? I should love to have you see the place."

"You got the answer was grim."

Ruth introduced her to Arthur Mandel, who was most deferential. He showed them over the shop, taking special pains to point out the most expensive and exquisite objects as being of Ruth's selection. He then proffered his request that they lunch with him. Mrs. Clayborne at once accepted most graciously.

"He's in love with Ruth! I'll put nothing in the way of their being together. He's the sort of man she should have married, not an impetuous man like Brian Hancock."

she said to herself as she wrote for a cab to take them to Belmont's. "Perhaps I will stay longer than I intended to."

To be Continued

LORD HENRY CECIL, Under Secretary of State for Foreign Affairs, who has resigned, and the Premier has accepted his resignation.

On the Road to Success.
 That young man is wise who makes a plan, organizes his ambition, and makes each day contribute something toward its fulfillment. Success often seems delayed, but it is surely on the way for those who are getting ready for it. Over the desk of the boy or girl struggling with hard lessons that may seem at the present quite useless, let it be written in letters of gold: "I will study and get ready, and may be my chance will come."

Origin of "Algermon."
 The name Algermon was originally "als Gerbon," and was first applied to one of the crusading Percys. His name was William, but his fellow knights called him William als Gernon or Gernon, meaning William with the "Whiskers," or the "Whiskers for short." As Algermon the name has persisted in the family to the present time, and the tenth duke of Northumberland, who died recently, was Algermon Percy.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of Treozone." This will cost very little, but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness at once, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while free one is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let that "dis-ease" of infection or lockjaw from whitening of the corns, but slip this out and make him try it.

NEW ROUTE TO WESTERN CANADA

On your next trip to Western Canada, why not travel over a new route, using the famous train known as the National on your journey and traveling some of the most interesting territory in the Dominion? The National is a through train which leaves Toronto at 8:35 p.m. on Tuesday, Thursday and Saturday. The day of the Grand Trunk are used to North Bay, which is reached early on the morning following the departure from Toronto. A daylight run is made through the lake-land beauties of the Timiskaming and Northern Ontario to Cochrane, calling at Cobalt, with its wonderful mining activity. From Cochrane to Winnipeg your journey lies over the Canadian Government Railways, with splendid opportunities of inspecting the fertile regions of New Ontario, including the famed clay belt, where tens of thousands of settlers will make their homes in the future. The three rail-ways have combined to make the passenger service over this new route of the highest possible standard. The greatest travel comfort is assured, while there is no added expense for railroad fare as compared with any other route. For further particulars apply to any Grand Trunk Ticket Agent, or C. E. Horn- ing, D.P.A., Toronto.

RAILWAY EARNINGS

Traffic earnings of the three principal Canadian railways for the third week in November aggregated \$6,493,556, an increase over the corresponding week last year of \$743,320. The Grand Trunk's increase of 50.01 per cent. is the second largest this year, and compares with 53.40 the previous week.

Children Cry FOR FLETCHER'S CASTORIA

The Lute.

The lute has vanished. It was one of the oldest of instruments, and had a beautiful vibrant tone somewhat like that of the harp. But its size and complexity were against it. It had a long fall, and many strings, and while its size increased its power and range, it also increased its weight and made it cumbersome. The minstrel of today plays on the mandolin, the guitar or the banjo—and the lute is forgotten.

Washington Flag Etiquette.

The United States flag always is hoisted over the senate or house of representatives when in session. The flag floats from the flagstaff in the White House while the president is in Washington, and its absence indicates the absence of the president from the capital. It is displayed over the department buildings in Washington from 9 o'clock a. m. to 4:30 p. m. every work day.

To Calculate Interest.

A rule often recommended for calculating interest for short periods is as follows: To find the interest of any given sum for any number of days, multiply the principal by the number of days and divide as follows: At 5 per cent, by 72; at 6 per cent, by 60; at 7 per cent, by 52; at 8 per cent, by 45, and at 9 per cent, by 40.

Food Value of Fish.

The high worth of fish as a food is strongly upheld by the Journal of the American Medical Association, noting that fish must be better cared for than some other forms of animal food, but concluding "it is no just criticism of fish to say that they may be harmful unless properly cared for."

Goal Always to Be Sought.

The greater goal lies beyond the eyes, to be reached for but not touched, impalpable, unattainable, never despaired of, never found, always in the prospect, never in the experience, something certain for the future, something unknown to the past.—Clifford Raymond.

Origin of Honey-moon.

To the ancients honey-moon was a luscious beverage prepared with the syrupy secretion of the bees. It was the custom to drink of this diluted honey for 30 days, or a moon's age, after a wedding feast. Hence arose the term honey-moon, which is of Teutonic origin.

Barley Long Known to Man.

Barley was originally a wild grass of western Asia. It is believed to be the most ancient cultivated vegetable food of mankind. Three varieties of the grain have been found in the prehistoric lake dwellings of Switzerland, dating back to the Stone Age.

Count Your Pulse.

A new-born baby's pulse should beat from 130 to 140 times per minute; a year-old child's 115 to 130; a four-teen-year-old's 90 to 100; an adult's from 70 to 75; and an aged person's from 60 to 75.—Woman's World.

Budding Diplomat.

"Willie," said his mother, seeing him eating a piece of candy. "Did I say you could have a piece of candy?" "Willie" said Willie, "you didn't say that I couldn't."

Reason for It.

A millionaire merchant says: "My success is probably due to the fact that at night I store my mind and during the day I mind my store."

Plenty of Room to Grow.

Australia which is 25 times larger than the whole of the British Isles has a population not exceeding that of London.

Few Whites in India.

Compared with India's 334,000,000 dark-skinned natives, that country has but about 200,000 white inhabitants.

Glory for the Conqueror.

The more famous the vanquished the more famous the victor.—Don Quixote.

Optimistic Thought.

Suffer not your faith to be shaken by the epiphanies of skeptics.

Children Cry FOR FLETCHER'S CASTORIA

Getting Back Three Million Dollars

THE PAPER CONTROLLER for Canada a few weeks ago added \$12 a ton to the price of news print paper—the kind used in printing the Courier. This addition, following closely upon several previous increases authorized by the Paper Controller, has meant to Canadian newspaper publishers a total increased publishing cost, in the matter of paper alone, in the past eighteen months, of three million dollars. This very considerable sum Canadian publishers must recover from their customers, their readers and advertisers.

In connection with the earlier increases the readers of many daily newspapers have been required to pay \$1 or more per year for their newspapers, while the subscription price of very many weekly newspapers has been increased from 50 to 100 per cent. In many cases still further increases will be necessary.

But all the three million dollars increase in paper costs cannot be loaded on readers; some of this sum must come from the advertisers—this in the form of increased advertising rates. Advertising rates in Canada are, generally speaking, much lower per thousand in circulation than in the United States. Speaking on this point the editor of Marketing, a Canadian advertisers' newspaper published in Toronto, says in his last issue: "In meeting the Canadian publishers' calls for higher rates, advertising buyers should not fail to recognize that for years they have benefited by the publisher's undervaluation of his space, and should be the more willing on that account to recognize the present necessities." To all of which The Courier agrees.

WHAT OF THE FUTURE IN GERMANY?

Matters are commencing to get into a chaotic state in the Fatherland. It is the general impression on the one hand that there is only a very short step from the present condition of unrest to a state of anarchy such as that which at present obtains in Russia, and on the other hand many seem to think that the present performance has been staged with the idea that in a short while the Hohenzollern outfit can step to the fore once more. The ex-Kaiser, just across the border in Holland, is certainly within easy calling distance. As one United States paper has put it, if Germany can change from a monarchy to a republic overnight, what is to prevent her from just as easily changing back again? In this respect, it is regarded as significant in connection with the upheaval, that none of the autocrats have been impugned, and Hindenburg is still in control of military matters. It is announced that the German National Assembly that is to be called in February, and Philip Scheidemann, the leader of the majority group of Socialists, declares that although the outside world is sceptical, the new government is sincere in its determination to establish and maintain a democracy. He further affirms that soldiers and workmen's councils, as such, can only have a participating part, and cannot become dictators as in Russia. Meanwhile, German soldiers, returning to Berlin from the various fronts, are singing their war songs and the militant spirit is still manifestly very strong. In the matter of food supplies, it is affirmed that there is no warrant for any starvation stories. Under all the circumstances, it may yet transpire that the Allies, to some extent, will have to resort to forcible occupation, and in any event that troops will have to be maintained in the conquered land for quite a while.

AN INVITATION DECLINED.

On November 28th next a dinner is to take place in the King Edward Hotel, Toronto, at which Conservatives will celebrate the closing of the war and Hon. Mr. Rogers is to be the guest of honor. In declining an invitation Mr. W. F. Nickel, M.P., formerly Conservative member for Kingston and latterly Unionist member, writes:

"While I appreciate the courtesy of being remembered and rejoice with you that the great war is virtually over, yet I do not concur in your conclusion that we must expect an end, at any time, to the political truce which exists at present. In my judgment it will be most unfortunate if the political conditions that now exist in regard to the maintenance in power of a government representing both of the great political parties should not continue. The problems of the war were great and experienced demonstrates that this country could only be governed, if governed satisfactorily, by a government representing all shades of political opinion, and it is not to be disputed that the problems of reconstruction, including, in this term, demobilization, will be so complex and far-reaching that it will be absolutely essential that as far as possible we forget past party differences and unite disinterestedly for the purpose of advancing the best interests of the people at large. Any attempt to organize as distinct from the Unionist party, the Conservative Liberals who so loyally supported the Union Government last year, and those members in the House who now support it, and raise in their minds suspicions as to the honesty of purpose of that branch of the Unionist party, formerly known as Liberal-Conservatives. When the time comes that the Unionist party can no longer continue then it will be time enough to consider what steps should be taken for organizing into groups those who may hold different points of view."

PAPER WORKERS STRIKE.

By Courier Leased Wire
 Ottawa, Nov. 26.—It is understood, although no statement could be obtained from the company last night, that J. R. Booth has informed the workers who are on strike that unless they return to their duties under old conditions, he is prepared to close his paper mills indefinitely. Practically everyone of the employees of the big industry at the Chaudiere plant are now out on strike, and all work, even repairs, is now at a standstill. The committee of the strikers state that it is their intention to try and ascertain the Ottawa newspapers emergency source of newsprint supply and if it was coming from a mill operated by organized union labor to make an endeavor to have that supply to the Ottawa newspapers discontinued.

CONTRACT CANCELLED.

Portland, Ore., Nov. 26.—Cancellation of contracts for the building of 29 wooden ships representing a value of \$19,525,000 was ordered in the Oregon district today for the Emergency Fleet corporation which revoked all orders for wooden ships not already under way. One shipyard immediately discharged its working force of 200 men, and announced that it would close. Thirteen thousand men are employed in wooden shipyards in this Oregon district.

RAISE APPROVED.

Quebec, Nov. 26.—The fair price committee here has just approved the move of the milkmen in increasing the price of milk from twelve to fourteen cents a quart, and fixed the increased rate as the price at which milk may be sold in Quebec city.

HALF HOLIDAY FOR LETTER CARRIERS.

The postmen are seeking to have the Government allot them a Saturday half holiday the year around with the exception of the month of December when they realize that heavy Christmas mails do not warrant any such lay-off. It may be characterized as a reasonable request. The letter carriers have an arduous and a responsible job and one which must be pursued in all kinds of weather. No matter what the atmospheric conditions, daily rounds and collections have to be made and promptitude and faithful work have always characterized them as a class in this and other centres. Non-delivery on Saturday afternoons for eleven months in the year would not constitute any great inconvenience. Banks are closed and many other business institutions allow their help to depart at an earlier hour, while storekeepers and others who do keep open, are usually too busy to bother with correspondence in any event. There is in short no valid reason why the application of the posties should not readily be granted.

NOTES AND COMMENTS.

It is a case just now of many germs in Germany.
 And now Peru and Chile are squaring off at each other. The horrors of war evidently do not possess any lasting effect.
 Brantford City Council appointed four sets of delegates at its session last evening. In this respect the proceedings were characterized by more delegacy than on some previous occasions.
 A band of noble men and women did not hesitate to risk health and even life itself in their efforts to help combat the flu epidemic. Surely, then, it is a small thing for the rest of us to respond in a hearty manner to the appeal for \$10,000 to help worthy sufferers from that plague. Brantford citizens should see that canvassers are given a cordial welcome and fitting response.
 The calling home of Miss Perley will cause a distinct loss not alone to the teaching circles of this city, but also to the community for she possessed in a marked degree the ability to impart knowledge and to inspire ambition. It was characteristic of her devotion to duty that she should have returned to her post sooner than was advisable after an illness. There is no more noble or important calling than that in which she was engaged and it can be well said of her that she ever exemplified in thought and in action the highest and truest elements of the profession.

PAVER WORKERS STRIKE.

By Courier Leased Wire
 Ottawa, Nov. 26.—It is understood, although no statement could be obtained from the company last night, that J. R. Booth has informed the workers who are on strike that unless they return to their duties under old conditions, he is prepared to close his paper mills indefinitely. The committee of the strikers state that it is their intention to try and ascertain the Ottawa newspapers emergency source of newsprint supply and if it was coming from a mill operated by organized union labor to make an endeavor to have that supply to the Ottawa newspapers discontinued.

REPAIRS BEING CARRIED OUT.

At that time a gang of men was employed on the hill going into Paris in repairing the road. All the ballast ties there have been replaced by new ones and the worst places in the track ballasted. A statement received from the company shows that during the five weeks ending October 12th, an expenditure in maintenance on the road has been made amounting to \$850, which has been paid out of Maintenance Account. A great number of ties are piled along the line ready for replacing those which are worn out. The ties on hand are estimated at 800 Cedar and 800 Oak and their value would be over \$1,000.
 I remain, Gentlemen,
 Yours faithfully,
 T. Harry Jones,
 City Engineer.

PARIS ROADBED NEEDS REPAIRS

City Engineer Reports on Condition of Paris End of Municipal Railway

"My opinion is that the Paris end of the municipal railway line is rapidly going into junk," declared Mayor MacBride after reading the following report to the city council last night:—
 October 26th, 1918
 To the Mayor and Council of the City of Brantford,
 Gentlemen:—
 At a meeting of the Council held on July 8th, the following resolution was passed:—
 "That a qualified electrician be engaged to make a report on the Electrical and Mechanical condition of the line and that the City Engineer be instructed to report on the condition of the road bed."
 In accordance with the above I herewith submit a report on the condition of the Road Bed on the Brantford Municipal Railway between St. Paul Avenue and the Paris Station, a distance of 6.36 miles. The bonding of the rails is not included as this will be included in the electrical report.
 The examination of the road bed was made on the 20 Sept. openings being made about every 600 feet to test the depth of the ballast and notes made in reference to the Gauge, Line, Surface and Ties. A copy of these notes, consisting of three pages is attached to the report. The Stations given in the notes refer to the plan of the road bed dated June 9th, 1914 in the City Engineer's office.
 Rails.
 A 56 lb. rail is used excepting in the new cut off to run under the L. E. and N. Ry., when a 60 lb. rail is used. The rails generally are in good condition as were also the angle bars, fasteners, bolts and plates.
 Gauge.
 The Gauge of the Line is good for 96 per cent of the length and poor for 4 per cent.
 Surface.
 The surface is good for 2 per cent of the length. Fair for 59 per cent and poor for 39 per cent.
 No. 2 Cedar ties are used on the greater part of the line but on the curves Oak ties are used or Cedar interspersed with Oak. 50 per cent of the ties were found to be in fair condition and 2 per cent poor.
 Ballast (below ties)
 The average depth of the Ballast below the ties was found to be 2 1/2 inches. 50 per cent was gravel and the balance sand. In order to make 6 inches of ballast below the ties about 3000 c. yds., would be required.
 Filling Between Ties.
 There was found a shortage of filling between the ties or about 40 per cent of the length. About 800 c. yds. are required to complete the filling.
 General.
 The bridge at Sta. 258 has been reconstructed.
 A cattle pass at Sta. 125.50 needs repairs.
 The drain is required in the swamp about Sta. 278 and the drain at Sta. 332 should be extended beyond the road bed.
 At Sta. 178.50 the wire fence is down and at Sta. 238.50 a fence is required adjoining the G. T. Ry. property.
 A large quantity of portable snow fence is piled along the tracks.
 Cost of Repairs.
 I estimate that in order to bring the ballast to a uniform depth of 6 inches below the ties to make out the shortage of filling between the ties, to replace worn out ties and to place the Line and Road bed generally in a good condition that an expenditure of about \$8,000 would be required. This is based on the condition in which it was found on the 20th of September.
 Repairs Being Carried Out.
 At that time a gang of men was employed on the hill going into Paris in repairing the road. All the ballast ties there have been replaced by new ones and the worst places in the track ballasted. A statement received from the company shows that during the five weeks ending October 12th, an expenditure in maintenance on the road has been made amounting to \$850, which has been paid out of Maintenance Account. A great number of ties are piled along the line ready for replacing those which are worn out. The ties on hand are estimated at 800 Cedar and 800 Oak and their value would be over \$1,000.
 I remain, Gentlemen,
 Yours faithfully,
 T. Harry Jones,
 City Engineer.

WILSON TO SPEND MONTH IN EUROPE

By Courier Leased Wire
 Washington, Nov. 25.—About one month is the time President Wilson expects to be in Europe for the opening of the peace conference and preliminary discussions. No definite limit has been fixed, but it was authoritatively stated today that the president plans to be back on American soil within six weeks after his ship sails for the other side.
 It became known also today that the Italian ambassador, Count Celerio, as well as Ambassador Jusserand of France and the American delegation will cross in the ship with the president.
 Preparations for the President's trip are going forward rapidly at the White House, though they still are surrounded with secrecy and no one professes to know either when the start will be made or just who will make up the party. An announcement by the President himself of the personnel of the peace delegation is expected in a day or two.
 Incoming messages received from England, France and Italy, Mr. Wilson not to let unfavorable criticisms interfere with his plans, is understood to be one from Lord Northcliffe earnestly suggesting that no objections should be disregarded because the President's presence is essential.
 It was said today that there was no foundation whatever for talk of censorship over news of the peace conference and American newspaper correspondents would be given all facilities possible for transmitting their despatches.

ENCOURAGE USE OF CODFISH

Wife of Prime Minister Endorses Codfish Campaign of Canada Food Board and Helps to Inaugurate it.

The codfish from Nova Scotia arrived in excellent condition. Please accept our best thanks for them.
 It would seem to me that we Canadian women might encourage the use of this fish in our homes, as I understand about 200,000,000 pounds are landed by Canadian fishermen annually.
 In my opinion it is an excellent fish, quite as good as halibut, and I hope that we may be able to get all we require in Ottawa this winter.
 Yours sincerely,
 Laura Borden

DEMAND TRIAL FOR KAISER.
 By Courier Leased Wire
 Berlin, Monday, Nov. 25.—(By the Associated Press.)—We demand the immediate convening of a revolutionary tribunal for the purpose of passing sentence on the Hohenzollerns, father and son, and others for participation in peopling Germany with a bloody dictatorship. The Red Flag, the organ of Dr. Karl Liebknecht, in commenting on the disclosures made in Munich concerning the complexity of Germany in bringing about the war. "William II. must be commanded to return and give an account before the tribunal."
 The Spartacus organ also demands a reckoning with the Socialist leaders, Ebert, David Helfferich and others for participation in peopling Germany with a bloody dictatorship. The Red Flag, the organ of Dr. Karl Liebknecht, in commenting on the

Local News

APPLIES FOR M.H.O. JOB.

Dr. M. H. Keane of this city has made application to the City Council for the position of permanent Medical Health Officer.

TO RELIEF FUND.

The employees of the Goad, Shagley and Muir Company yesterday took up a collection which amounted to \$108.40. The sum will be given to the Epidemic Relief Fund, the campaign for which was launched yesterday.

PULP INDUSTRY.

Canadian exports of pulp, paper and pulpwod for the six months ended September 30, were valued at \$49,964,820. If the pace set in the first half of the year is maintained, the industry should reach \$100,000 mark set for the current fiscal year.

ALLOW STOCK ISSUES.

War-time restrictions have been re-examined on the issues of securities of Provincial Governments municipalities commissions and local governments, and it will be no longer necessary to secure the consent of the Finance Minister to make such issues.

GOES TO WISCONSIN.

Rev. W. E. Gilroy, of First Congregational Church, Hamilton, has accepted a call to the Plymouth Congregational Church at Fond du Lac, Wis., to succeed Rev. Robert Hopkins. Mr. Gilroy was for four years pastor of the Congregational Church here.

GET THIS.

The folly of allowing city leagues to lapse could not be better demonstrated than at Brantford, where the local circuit has been out of business for a couple of seasons. The result is that the Telephone City cannot muster enough players for one team capable of representing it in any series of the O.H.A.—London Free Press.

WOULD RAISE RATES.

The Express Traffic Association of Canada, representing all the express companies operating in the Dominion, has applied to the Board of Railway Commissioners at Ottawa for permission to increase express rates of 25 per cent. over present rates per hundred pounds west of Sudbury and by 37 per cent. over the present rates per hundred pounds east of Sudbury.

CONCERT GIVEN.

A concert in connection with the anniversary services was held at the Sydenham St. Methodist church last evening, and was well attended. The concert was a very bright and cheerful affair, and was carried through very successfully, those present enjoying themselves thoroughly. Much regret was felt that Mr. Brewster, who was invited to take the chair, was not able to be present, therefore Rev. Mr. Smythe occupied the chair in a most fitting and capable manner.

GAVE TO REL FUND.

St. Basil's council, Knights of Columbus, at their regular meeting last night voted the sum \$20 to the influenza victims. In addition, all members of the council were exhorted to make individual subscriptions.

SOLDIERS RETURN.

Four returned soldiers were received in the city yesterday by Secretary George McDonald, of the Soldiers' Aid Commission, in the persons of Corp. J. F. Scott, 10 Lawrence street, Pte. H. T. Westlake, 20 Huron street, H. Oliver, Wellington street, and H. Duke, Nelson St.

BUILDING PERMITS.

A building permit was issued yesterday at the city engineer's office to George Spang, for the brick veneering of a frame kitchen, estimated to cost \$300. J. H. Hicks also took out a permit for the erection of a brick veneered cottage to cost \$1,200.

COLLECTING TAXES.

The city clerk yesterday received a reply from T. Bradshaw, commissioner of finance and city treasurer of Toronto, in reference to the collection of the income and business tax, at the same time the assessment is being made. The letter stated that if the occasion arises, the writer will appreciate the co-operation and assistance of Mr. Leonard.

BOARD OF HEALTH.

At yesterday's meeting of the township Board of Health, a resolution was passed asking the township council to pass the by-law necessary to establish garbage collection in certain sections of the township. Accounts were also passed. Those present were Thos. M. Hargrave, chairman, Reeve A. J. McCann, Dr. C. D. Chapin, M. H. O. and J. A. Smith, secretary.

BANK DEPOSITS.

Canada has again attained a new record in savings bank deposits. Bank figures for the month of October show also an increase in assets of approximately \$14,000,000, as compared with September figures. The reserve fund shows a drop of approximately \$2,000,000 because of the absorption of the Bank of British North America by the Bank of Montreal.

HIGHWAY DELEGATION.

Brant county, being vitally interested in the movement to secure the Central route for the Provincial Highway, is sending a strong delegation to Toronto for the hearing before Premier Hearst, tomorrow. The county delegates are Warden Pitts, Reeve McCann of Brantford, A. B. Ross, chairman of the suburban roads commission, J. A. Sasse, deputy reeve of Brantford, Reeve Eddy and Deputy Reeve Smith of Burford, Reeve Douglas of Onondaga, Reeve Scott of Oakland, and A. E. Watts, County clerk.

REPORT OF M. H. O.

General health conditions in Brantford township have been good during 1918, according to the annual report of Township M. H. O. Dr. Chapin, which has been submitted to the township council. There were forty cases of measles, six of diphtheria and one of scarlet fever. Six cases of tuberculosis were reported to the M. H. O. The township suffered from an outbreak of measles the first of the year, and from the influenza the first of this month. Although the disease was not serious as in other districts, Dr. Chapin recommends the appointment of a public school nurse for the township.

STORM SEWER.

Work has been commenced on the storm sewer on Murray street, between Elgin St. and the Buck foundry.

AT THE FIRE HALL.

For the past few days all has been peace and quietness at the fire hall, though the trucks nor ambulance receiving a call.

BADGES OBTAINABLE.

Badges for local delegates attending the provincial conference in Toronto to-morrow, will be obtainable on the train leaving here at 10.15 or within the Parliament building where the delegation will assemble prior to the hearing.

THANKSGIVING SUNDAY.

Next Sunday, Dec. 1 has been officially designated by the government as a day of general thanksgiving throughout the Dominion for the success of the Allied arms. Special services will be conducted in all the churches of the city.

WINTER COMING.

Whether it was snow or hail which fell over the city yesterday afternoon is a moot point, for there was hardly enough of it to tell. It was enough, however, to show that winter is close at hand, and to form a reminder to all start Christmas shopping. The weather was milder under the influence of the bright sun to-day, but a cold wind still blew at intervals.

NO MORE CASUALTIES?

For the first time in over a week, the official casualty list to-day contained no local names to-day, and there is reason to hope that Brantford families have felt the cruel blast of war for the last time. Casualties are generally reported within two weeks at the outside, and it is two weeks ago yesterday that hostilities ceased on the West front.

LADIES HELD TEA.

The tea held at the Y. M. C. A. by the ladies' auxiliary yesterday was well attended, and a series of these teas held for the purpose of supplying the dormitories with linen from the proceeds obtained. The linen has been fully depleted, and it is the object of the ladies to supply enough for the winter weather. Tea was served by Mesdames Waterous and Agnew, while Mesdames Westaway and Ryerson received.

MILK TAKES A DROP.

Buffalo street was turned into a miniature milky way at noon to-day, when a runaway horse dashed the milk wagon which it drew against a telegraph post, to the great detriment of both wagon and contents. The driver has left the horse standing, as is the custom while delivering a supply of milk in a house, and the animal started off of its own accord. The wagon was badly smashed against the post, and practically its entire supply of the lactical fluid was lost on the roadside.

TOO MANY COOKS.

Speaking in The Courier this morning, a county official expressed the opinion that too big a delegation was being sent to Toronto on the provincial highway issue to-morrow. The speaker believed that a group of two or three influential men from each municipality concerned, paying a quiet visit to the ministers, would be productive of better results than the pilgrimage of hundreds which is to take place to-morrow. The adoption of the central highway route is practically assured, and the construction of the road is now only a matter of time.

PRESBYTERIAN CONFERENCE.

A conference in connection with the "Forward Movement" of the Presbyterian church, is being held in Zion church on Thursday of this week. Delegates from all the congregations of the Presbytery of Paris will be present, and will be the guests of local Presbyterians. The Rev. J. W. Gordon, moderator of the Presbytery, will preside. The chief speakers of the day will be the Rev. A. McGillivray, D.D., Principal Dyde of Queen's University, Rev. Dr. Donald McGillivray of Shanghai, Mr. Halliday of Chesley, and Mrs. Mitchell of Toronto, representing the Women's Missionary Society.

POLICE COURT.

At the Police Court this morning Tom J. Campbell, charged with using insulting language, was fined \$5 and the costs of the court. Mustafa Hasan charged Stephan Solomon and Joe Fastrain with assault. The magistrate dismissed the case. Peter Busnick appeared with a charge of theft against him. He was remanded till Friday. Peter Nansh was also charged with theft and had to part with \$25 and costs. Fred Williams was in court on two charges of selling liquor. He was remanded till Monday. Fred Howie was too faithful a follower of Bacchus and accordingly paid \$10 and costs for his fidelity. Frank Howie also charged Wm. Bingham with assault and the latter parted with \$10 and costs for his unpropitious tendencies.

OBITUARY.

MRS. BAKER.
Mrs. Kate Baker, beloved wife of John Baker, passed away yesterday at her residence, 2 George Ave. The funeral will take place Thursday afternoon in St. Hope cemetery. Death was due to pneumonia.

C. R. HAWTHORNE.

Mr. Charles R. Hawthorne passed away yesterday at the home of Mrs. Wallis, 17 House Avenue. The home of the deceased is in London, Ont. He had lived in this city for over four years, where he was well liked by his many friends, especially at the Massey-Harris Co., where he was employed. Besides a sorrowing father and mother, the deceased leaves to mourn the loss of two brothers, Harry R., of this city, and Walter M., of London, and four sisters, Dorothy, Etta, Elsie and Ella, all of London. The body will be taken to London for interment at 3.55 this afternoon. Death was caused by pneumonia.

PURE GAS FINALLY ENSURED

Sulphur is Almost Totally Eliminated, Says Ald. Montgomery

That relief from the obnoxious gas conditions which Brantford has experienced for the past five years, is finally at hand, was the statement made to the City Council last night. Ald. A. G. Montgomery occupied his seat at the Council for the first time in several months. During the evening he gave a verbal report on the gas situation up to and at the present time, restating the statement made in a written report at the last Council meeting, that the Tilbury gas could be and was being purified.

In the past, Brantford's gas supply had contained 460 grains of sulphur to 100 cubic feet of gas. On Nov. 10 this had been reduced to 40 grains, and to-day it had been further reduced to 10 grains, while in the near future it was hoped to eliminate even this quantity.

Ald. Hill observed that he had noted an improvement in the gas supply, and hoped that this would continue.

Mayor MacBride, on behalf of the Council, welcomed Ald. Montgomery back after his lengthy absence, paying him a tribute for his long years of service. His Worship expressed pleasure at the promise of pure gas, but admitted, with Scottish candour, that he "had his doubts." He was, however, open to conviction, and hoped that both he and all others would be convinced in the near future.

Family With Proud Record

Mr. John Cook of the Court House has received a box of interesting souvenirs from his son, Gunner Verne Cook, in France. They include a number of buttons cut from French and German uniforms as well as an old French rousset of unusual design. Mr. Cook has two sons overseas, the other, Frank, being in the R.A.F. Two of Mr. Cook's brothers, Daniel and Nelson, have seen service, as have also eight nephews, one, Lieut. Frank Pendergast, has been killed in action; two others, Ptes. Joseph Haylow and Leo Cook, have been wounded. The other six are Ptes. Tom and Fred Bridle, Gunner Will Cook, Cadet Arthur Cook and Gunner Harley Davidson; the two last of whom are still in Canada.

Demise of Miss Perley

A Valued School Principal Passes Away Suddenly

It is with great regret that The Courier records the very sudden passing away of Miss Elsie Perley, at her home on Wellington street, last evening. She had only resumed her duties as principal of Victoria School in the morning after an illness of two weeks and expired from heart failure shortly after retiring for the night. Miss Perley had been associated with the teaching staff of this city for a number of years and her efficient and conscientious work had always been deeply appreciated by the trustees. All of those who ever came under the influence of her example and tuition will for ever revere her memory. She had been earnestly interested in the F.W.O.A., and had been secretary of the district for some time. Very general sorrow will be felt over her passing and to whom she was devoted, will in particular be the sympathetic thoughts of many friends. Miss Perley was a member of a prominent Brant County family. Her father was the late Thomas Perley and Col. Perley was her grandfather.

PERSONAL

Mr. Palmer, manager of the local Wm. Davies branch, has returned to the store after an illness of more than a month.

The many friends of Miss Alice Lahey will be pleased to learn that she is recovering from her recent illness.

ELECT SCHOOL TRUSTEES BY WARD AGAIN

Mayor Prefers School Board System to Board of Education

WILL SUBMIT MOTION

At last night's session of the City Council Mayor MacBride gave notice of a motion to be submitted at the next regular meeting of the Council to provide a referendum, for submission to the public at the January elections, on the following question: "Are you in favor of reverting back to the system of electing members of the School Board by wards?" His Worship declared that he intended the motion in no way as a criticism of the Board of Education, but felt that the mass of the people would be closer to educational matters under the ward system of electing members of the School Board.

FOR SALE

Conscientious Objector is in Employ of City

Member of Plymouth Brethren Gave to Red Cross Rather Than Buy Bonds

The city has in its employ a conscientious objector of the most pronounced type; according to information submitted to the city council last night by Mayor MacBride and Ald. English. The mayor broached the subject, stating that he had heard rumors to the effect that there was a man employed by the works department, who from the beginning of the war had constantly refused to buy Victory Bonds, or to contribute to the Patriotic Fund or to other patriotic causes. He asked Ald. English to look into the matter, expressing the opinion that such a man should not be employed by the city.

Ald. Symons asked that allowance be made if the man's domestic conditions were such as to prevent his contributing. The Mayor was willing that this should be done.

Ald. English stated that he knew the man to whom the Mayor referred. He was a member of the Plymouth Brethren, a religious sect which did not countenance warfare. Few persons, Ald. English pointed out, had any sympathy for the average conscientious objector who assumed his objections in order to escape military service, but there was no suspicion of this in the present case, because the man concerned was married and over the age. He was opposed to war in any form, and hence refused to buy Victory Bonds, when approached by Ald. English's statement, but the mayor remained obstinate.

"If it can be shown that this man, without good reason, has refused to contribute to patriotic causes, then conscientious objector or no conscientious objector, he must leave the city's employ," he declared.

Is Recommended For Flying Cross

Flight-Lieut. Stanley Buck Wins Recognition for Services

Word has been received in the city that Flight Lieutenant Stanley Buck has been recommended for the Distinguished Flying Cross.

He did splendid work at close quarters through all of the fierce fighting on the Cambrai front and his heroic conduct there has evidently caused his name to be submitted.

Numerous Brantford friends will join in hearty congratulations.

Conserve Enthusiasm

Are you a boy or girl who becomes very enthusiastic about some nice thing you want to do? Be careful not to be so enthusiastic in starting a new undertaking that you have no energy left for carrying it through to completion. Enthusiasm is an important factor in success, but it must be a steady flow, and not burst forth like some of the geysers which send a spout of water skyward, and then are quiet for 24 hours.

Testing Fluency With Coins

A novel method of diagnosing pleurisy is described by P. Lereboullet in the Paris Medical Journal. The examiner applies his ear to the patient's chest, closing his other ear, while coins are clinked at the patient's back. The sound of the coins coming through a healthy, normally aerated lung seems distant and dull, while through an affected lung, through solid or homogeneous tissue—a clear, silvery metallic ring is heard.

Disillusionment

"When you see a cultured professional rise up and pick at some crinkly side whiskers of his'n and smooze down dat fancy vest you am amazed at de ponderosity of de spectacle," said old Brother Buckaroo. "But when you listens to his transplavication you finds dat when you beheld dem whiskers and dat vest you seed it all. Ain't dat 'bout so, Brudder Jordan?"

Possible Source of Traces

The other day I, with a neighbor's child, went to a hairdresser's establishment. The child has red hair. While I was buying various things the child was busy looking about. She finally discovered some false hair the color of her own and came to me with this question: "I wonder if my red hair was bought here when I was born."

FIRE PREVENTION

Provincial Fire Marshall Heaton and his deputy, George F. Lewis of Toronto, are making a meeting under the auspices of the Fire Prevention League in this city shortly.

Reduced Prices on Quality Tailored Clothes

Firth Bros., Quality Tailors, believe that by giving extraordinary values they can make more friends than by any other method of publicity. Every day you will see in our windows a special suiting greatly reduced in price. Thrifty buyers will find it pays to watch for these specials, for Firth Bros. Quality standard of cloth is such that the purchaser is assured of the highest quality at a saving of \$10 to \$12 per suit. Prized \$27.75 and up, these phenomenal values will make new customers and prove to the men of Brantford that Firth Bros. are the real value givers in Men's Quality Tailored Clothes. Watch for windows at 120 Dalhousie Street, opposite the Market.

Belgium Needs Your Help MORE THAN EVER!

As Homes are Freed from Grasp of Germans New Horrors Revealed.

Belgium! Belgium! Belgium!—the papers are full of heart-rending news-items from Belgium. Delirious with joy at being rescued from the hellish tyranny of the Germans, yet the poor Belgians are in large measure in the last stages of want. Every cent you can send to them NOW will help to feed a famished patriot or clothe one whose meagre rags will never keep out this winter's cold.

Raise Your Fund and Send It In!

Perhaps you cannot spare as much as you would wish, but go around among your friends, plead Belgium's cause, collect all you can in every possible way, and turn it in: QUICKLY to your local Committee or to Headquarters.

Picture these hungry and stricken people, of whom the Master said, "Inasmuch as ye have done it unto the least of these"

This is an imperative call for HELP!

Make cheques payable and send contributions to

Belgian Relief Fund

(Registered under the War Charities Act)

COURIER COMICS

What Would Wake Him. "Lemme see one o' dem cuckoo clocks," said Mr. Erastus. "Here you are." "Could you change the tune a little?" "What's the idea?" "I wants an alarm clock. I don't take to dese hasty an' excitable alarm clocks. If you could train one o' dese to cackle like a chicken, I could wake up spry an' hopeful every morn'."

Making His Job Easier. "Stop!" thundered the man in the barber chair, who was having his hair cut. "Why do you insist upon telling me these horrible blood curdling stories?" "I'm very sorry, sir," said the barber, "but when I tell stories like that the hair stands up on end and makes it much easier to cut, sir."

It Has Been Done. Bacon—Because of the scarcity of men on account of the war, eight girls were called on to act as ushers at a recent society wedding. Egbert—"If this thing keeps up, some day they'll get some girl to give the groom away."

On Ice. Never ask her For a kiss. Just appropriate The bliss. If the maiden Makes a row You've got the kiss cinched Anyhow.

Foch the Optimist. Attorney-General Gregory was praising the character of General Foch.

"Foch," he said, "is that fine type a cautious optimist. Foch is an optimist who prepares for the most pessimistic contingencies." "Foch, the optimist, sees nothing but sunshine, yet he is never caught abroad without raincoat and umbrella."

Not Disturbed. Mistress (about to give maid notice)—Of course you know, Mary that owing to the coal shortage, we shall practically have to live in the kitchen this winter. Mary—Lor, bless yer, mum, don't let that worry you. I shan't mind.

Two Too Much. After coming in from a twenty-mile "chase" the officers in command of a negro company said, before dismissing them, "I want all the men who are too tired to take another hike, to take two paces forward." "All stepped forward except one big husky six-footer. Noticing him the officer said, "Well, Johnson, ready for twenty miles more?" "No, no, sah," replied Johnson, "Ah'm too tired to even take dem two steps."

BEGINNING IT YOUNG. John Sasso, aged fourteen, has been convicted at Halifax on a charge of bootlegging.

DELEGATIONS TO FIVE CONVENTIONS

City Sends Representatives to Provincial Highway Hearing Tomorrow

OTHER CONFERENCES

Delegations to the provincial highway conference and to no less than four other conventions at various cities throughout Ontario within the next few days, were appointed by the city council last night.

Ald. English, Ald. Harp and Mayor MacBride were appointed to attend the provincial highway conference.

"This is a very vital question, and one which is very highly important to the city," observed His Worship Ald. Chalcraft, who attends a convention at London some months ago, stated that the farmers west of London were making a keen interest in the question.

Board of Trade Convention George Hatley, secretary of the Board of Trade, wrote asking the council to appoint a delegation to the convention of the Western Ontario Associated Boards of Trade at London on Friday of this week.

"I don't know whether this council is going to set a precedent by appointing delegates to a Board of Trade convention," observed Mayor MacBride. "However, that is up to you."

Ald. Chalcraft suggested that the Mayor be delegated. The Mayor replied that he could not attend as he must be present at the Hydro convention in Toronto the same day.

Ald. Hill suggested that Ald. Harp be appointed. The Mayor suggested that no appointment be made, but that Ald. Harp be authorized to attend if he chose. This was done.

Delegates to Chatham Ald. Montgomery asked that an appointment be made to the conference on the gas question being held at Chatham on Nov. 29.

The Mayor felt that Ald. Montgomery should represent the city. Ald. Montgomery felt that the Mayor should.

"You have been at the head of the gas question during the year," observed His Worship.

"I do not wish to act alone," declared Ald. Montgomery. He was willing to be one of the city's delegates.

Ald. Baird suggested Ald. Simpson. "I would suggest Ald. Montgomery and Ald. Baird," observed the Mayor. "The two best looking men at the council board."

The Mayor is going to insult the aldermen, I move we adjourn," protested Ald. English.

Ald. Montgomery, Baird and Simpson were appointed.

Hydro Conference The Mayor, Ald. Clement, Hill and Baird will represent the city at the Hydro conference in Toronto on Thursday of this week. The Mayor impressed on the council the importance of this convention.

Ald. English and Clement were appointed to attend the conference on reconstruction to be held in Ottawa Oct. 26, 27 and 28.

STOP BACKACHE! RUB LUMBAGO RIGHT OUT

Here's Instant Relief! No pain, soreness, stiffness after rubbing with "St. Jacobs Liniment."

Ab! Pain is gone! Quickly?—Yes! Almost instant relief from soreness, stiffness, lameness, and pain follows a gentle rubbing with "St. Jacobs Liniment."

Apply this soothing, penetrating oil directly upon the aches, and like magic, relief comes. "St. Jacobs Liniment" conquers pain. It is a stic relief, which never disappoints, cannot injure and doesn't burn or discolor the skin.

Straighten up! Stop those torturing "stitches" in a moment you will forget that you ever had a back, because it won't hurt or be stiff or lame. Don't suffer! Get a small trial bottle of "St. Jacobs Liniment" from your drug store now and get this lasting relief.

Bert Robinson, son of Wm. Robinson, of Otonabee township, was killed while walking alongside of a grain elevator, when the machine slewed and pinned him between the barn and the separator.

MAYOR EMPOWERED TO GET MORE COAL

Given Authority by Council to Obtain Further Supplies

FUEL MATTERS UP

Affairs at Wood Yard Were Aired at Considerable Length

At last night's meeting of the City Council Mayor MacBride was authorized to continue the issuing of coal orders at the local fuel office in the old Postoffice. His Worship told the Council that the city's reserve supply was nearly exhausted, and further supplies must be obtained. He was authorized to procure such supplies.

His Worship explained that early in the year he had been voted the sum of \$200 for travelling expenses in obtaining fuel.

"That money is in the city treasurer's office today," he declared, "I have not yet used it. I purchased a mileage ticket with a portion of it, but later turned back the ticket and obtained a rebate."

There is more hard coal than soft at the civic yards today, the Mayor continued, despite the fact that far more hard coal is being distributed.

Worries Re Wood. Ald. English introduced a motion to charge to the Fuel and Food Committee the months' salary paid Fred Unger as city overseer, for the month of October. Ald. English pointed out that during October Mr. Unger had been in charge of the wood cutting work at the city's Harley farm, and hence he felt that the Fuel Committee should pay the salary for that time.

Ald. English also took objection to the manner in which George Unger had been appointed to cut the wood at the civic yards, stating that he had been given assurance that the work would be let by contract. Someone, he charged, had broken faith in this regard.

It was after eleven o'clock when the subject was broached, but the session had been remarkably shy of argument or fireworks, so the Council plunged into a lengthy debate the tender system coming in for some criticism. Mayor MacBride charged that during his absence from the city three returned soldiers had been placed in the wood yard, had been dismissed, confusion ensued, and in his opinion it is a case of just a little too much Unger," declared His Worship. Mr. Fred Unger was a good man, in his proper position, but when he was moved out of his proper position, confusion ensued as existed at the present time, prevailed.

THESE MULTIPLE LIVED RUSSIANS. Korillott is not the only Russian possessing the nine lives of the cat. New York despatches now give the news that Mme. Brashkovaya "the grandmother of the Russian Revolution," who died at Moscow recently and was later executed by the Bolsheviks, is now on her way to the United States and may make a lecture tour.

Rev. (Major) David G. Doe, former parish priest of St. Anne's Church, Walkerville, has been appointed to Ridgeway parish.

WOULD VOTE IN SCHOOLS

Mayor Demands That City Have Use of Schools as Polling Booths

In view of the number of women who will be voting this year, Mayor MacBride at last night's meeting of the City Council, expressed the opinion that the schools should be used for polling booths. The Board of Education had declined to grant the use of the schools, as the Christmas vacation would be at an end, but His Worship proposed that the Council notify the board that it would require the use of the schools.

Ald. Chalcraft concurred in the suggestion. Ald. Symons felt that the Board of Education was supreme on this question, but believed that the corridors of the schools could be used as polling booths without disturbing the classes at their work.

The clerk was instructed to write the Board of Education, notifying them that the city will require the use of the schools.

Increase Salaries. The salaries for deputy returning officers, poll clerks and constables were fixed at \$7, \$2.50 and \$2.50 respectively.

FAVORED PUBLIC PHONE OWNERSHIP

Ald. Symons Gave Verbal Report on Hearing Before Ry. Board

A verbal report on the protest made by Canadian municipalities against the increase in Bell Telephone rates, was submitted to the City Council last night by Ald. Symons, who attended the hearing in Ottawa last week. The Railway Board had ordered the company to produce certain documentary evidence, and Ald. Symons expressed the opinion that the more evidence the company produced, the weaker its case became. Messrs. Butler and Agineau of Montreal were the chief spokesmen for the municipalities.

"There is only one solution," declared Ald. Symons, "and that is that the telephone should be a publicly owned concern." He admitted that Brantford was receiving a lower rate at the present time than other cities, due to the fact that the Bell Company had opposition here.

If the increase were granted, it would be for a time only, and at the end of the period fixed the municipalities would have an opportunity of again appealing to the Railway Board.

Ald. Symons and W. T. Henderson, city solicitor, both spoke at the hearing.

Mayor MacBride endorsed Ald. Symons' contention that the telephone should be a publicly owned utility. Present prices prevented the workman having a telephone in his home, a condition of affairs which he denounced.

"And a few years ago we built a memorial to all this," commented Ald. Clement.

"Not to all this," protested Ald. Symons, "but to the grand old man who invented the phone."

TO SUBMIT BY-LAW FOR NEW SCHOOL

Public Vote on Issue in January, if Council Passes By Law

The by-law for the issue of debentures to erect a new school in Ward Five will be submitted to the ratepayers at the municipal elections next January, provided the by-law passes its first two readings at tonight's special meeting of the City Council.

J. W. Shepperson, chairman of the Board of Education, waited on the Council last night, and gave information re the urgent need for the new school.

The Council was unanimous in endorsing his representations. There are some 3,500 public school pupils in the city, said Mr. Shepperson. Eighty-seven rooms are needed to accommodate this number, and there are only 31 in the city schools, so that temporary accommodation has had to be obtained elsewhere. The attendance is still on the increase.

"There is an evidence of race suicide in Brantford," commented Mr. Shepperson.

The Board of Education was required by law to provide the proper accommodation for all school children, and the time had come when temporary arrangements could no longer be sanctioned. A new school of at least ten rooms was needed; there were at least 300 pupils be-

tween Colborne street and the canal now attending Alexandra School, who could be accommodated in the new building. This would allow of a general shifting and would lessen the congestion in all the schools.

The school was a necessity, and if the by-law to be submitted to the ratepayers, to issue debentures for the sum required, were not carried, it would be obligatory to appropriate the money out of next year's taxes.

Ald. Bragg inquired if the Board of Education had any land in Ward Five, where it was proposed to build the school.

Mr. Shepperson replied that they had an option on a suitable site.

Ald. Clement expressed satisfaction that a new school was to be built in Ward Five.

Ald. Baird and Chalcraft admitted the need for a new school, and explained that the Finance Committee had not realized the urgency of the request when it came before them.

Ald. Symons gave the members of the Board of Education credit for being clever checker players, in the manner in which they were obliged to shift pupils from one school to another. He asked if any improvements were being made in the old manual training school.

Mr. Shepperson replied in the affirmative, stating that a forward step was being contemplated. He declared that if the new school were ready in September next, it could be filled at once.

Ald. Simpson expressed the opinion that King George school should have been built in Ward Five instead of on its present site. He inquired why two rooms had been taken off Alexandra School recently.

King George School was needed where it was built, declared Mr. Shepperson, and is now filled to capacity. He stated that Alexandra School now had one room more than it had before undergoing the alterations to which Ald. Simpson referred.

"One of the most important things in the city's public school education," declared the Mayor. He insisted that the new school be made large enough for all exigencies. He asked the Finance Committee to see that the by-law was prepared for tonight's meeting.

Calatrà is an excessive secretion, accompanied with chronic inflammation, from the mucous membrane. Hood's Sarsaparilla acts on the mucous membrane through the blood, reduces inflammation, establishes healthy action, and radically cures all cases of catarrh.

SPECIAL SESSION TO RATIFY CONTRACT

Storm Sewer to Cost \$22,000. to be Constructed in Holmedale

MEETING TONIGHT

The city council is holding a special meeting tonight to pass a by-law ratifying the construction of a storm sewer in the Holmedale, providing an outlet for the Landdowns Park sewers. The matter was brought up at last night's session of the council.

Board of Works

The board of works reported as follows:

1. That the assessment department be asked to report to the council as to the assessment on the property of Mrs. Sarah Clifford, No. 48 Alice street, including the local improvement tax for sewers and as to whether any reduction or remission of tax can be equitably made.

2. That a contract for the construction of a local improvement storm sewer, 2700 feet in length and 24 inches in diameter on Murray St. between Burwell St. and the Grand River be awarded to D. O. Johnson, in accordance with his attached tender dated Nov. 6th, with the following reduction:

For main sewer, 24 inch diameter per lin. ft. \$6.75, instead of \$7.50. Gully connection per lin. ft. \$2.50 instead of \$3.50, and that the city solicitor be instructed to draw contract for same in accordance with the specifications of the City Engineer.

3. That the report of the City Engineer dated Oct. 26th on road bed of municipal Ry. between Brantford and Paris be filed.

Ald. Bruce wished that the time within which the assessment department must report on the assessment of Mrs. Sarah Clifford, be specified. He felt that action should be taken

tained as soon as possible. The Mayor promised to see to this.

Sever Contract

The contract let to D. O. Johnson will involve an expenditure of \$22,000 and will provide an outlet for all the sewers in Landdowns Park, as well as for a large number of other streets in the Holmedale. Ald. English told the council.

Wants Street Closed
Ald. Baird wanted to know when the city was going to open Curtis St. for the accommodation of the residents.

"Ald. Baird should know" retorted Ald. English, "that Curtis street is not of the legal width, and cannot therefore be taken over without involving additional expense by widening the street. Such expense I do not deem advisable under present conditions."

Damage Claims
Ald. Montgomery and Kelly wished to know when the claims for damages from the spring floods were to be settled.

Ald. English replied that a special case was being made in connection with the claims which had not yet been settled. The residents of Jubilee Avenue had taken no action to bring a test case to court, therefore the city had taken no action to settle these claims. They or all of the residents of Jubilee Avenue, chose to submit a test case, a decision could then be reached.

Mayor's Comments
"I don't know whether we should vote for this contract," murmured the Mayor. "We were told at the last council meeting that there were no storm sewers to be built in the Holmedale."

Ald. English expressed surprise that such a comment had been made. He was not present at the last meeting. He declared that the continuation of the sewer in question was not a test case, but that the board of works had secured a rock bottom price for the work.

"I am not objecting," explained the Mayor. "I feel that such a sewer is necessary." He said that Ald. English had a by-law to ratify the contract.

Ald. English replied in the negative. "That will be necessary," observed

Outfit supplied the British and Canadian troops for the Siberian expedition.

WAR CLOUD IN SOUTH AMERICA

Relations Growing Decidedly Critical Between Chile and Peru

TERRITORIAL ISSUE

Crowds at Iquique Sack Peruvian Business Houses and Insult Consul

Lima, Peru, Nov. 25.—It is officially announced that Peru has withdrawn her consuls from Chile as a result of the renewal of anti-Peruvian rioting in Iquique and Antofagasta.

Peruvian newspapers call upon the Government to request a cessation of anti-Peruvian demonstrations in Chile. They declare that if the demonstrations continue, anti-Chilean outbreaks may be expected in Peru. The demonstrations grow out of the differences between Chile, on one side and Peru and Bolivia on the other concerning the border provinces of Tacna and Arica.

Found Consul Ignored Sign
Buenos Aires, Nov. 25.—The Peruvian Legation here to-day received the following despatch from the Peruvian Minister of Foreign Affairs:

"After the extraordinary outrages at Iquique Saturday, during which the property of several Peruvians was sacked, Chilean crowds on Sunday attacked the Peruvian Consul at Iquique, Simon L. Hogg, while he was on his way to the Mayor to protest against the riots.

"He was carried by force aboard a small steamer anchored in the port. The authorities and the police consented to the outrage and notified the Consul that they would not permit him to disembark.

"Upon receiving this notice the Peruvian Government has withdrawn its Consular representatives from Chile."

News despatches received here indicate that disturbances are general in Iquique, Antofagasta and Pisagua, and that several Peruvian commercial houses have been wrecked in Pisagua.

State of Agitation
A special despatch to La Razon from Santiago says:

"The Government has received despatches from Iquique confirming the reports that the entire province of Antofagasta is in a state of agitation against the Peruvians. The arrival of two steamers at the port of Antofagasta from Callao with many Chilean families aboard, who were seeking refuge from Lima, caused the report to be spread that they had been expelled from Peru. Crowds immediately organized great demonstrations against the Peruvians, and in spite of the efforts of the police, took possession of several commercial houses and Peruvian clubs.

"Apparently the disturbances still continue. The Peruvian Consul at Iquique has left for Lima.

An Alsace-Lorraine Issue
A despatch from Buenos Aires last Friday reported serious demonstrations in Antofagasta against Peruvian business houses in consequence of a false rumor that the Chilean Consul at Callao, Peru, had been assassinated by Peruvians. No reports are at hand as to the rioting at Iquique and Pisagua.

The despatch from Buenos Aires said there was great agitation throughout Chile over a speech made at La Paz by the Bolivian Minister of War, who is reported to have said that the hour had arrived to take back the Provinces of Tacna and Arica from Chile. The present unrest in Peru, Bolivia and Chile is due to a desire by Peruvians and Bolivians to settle the Tacna and Arica question under President Wilson's principle of self-determination. These border provinces constitute the Alsace-Lorraine question of South America.

The Buenos Aires despatch of Friday added that it was reliably stated that Chile had approached Argentina on the subject of Argentina remaining neutral in the event of an outbreak between Chile and Peru.

TO RECOGNIZE SERVICES OF 'FLU FIGHTERS

City Will Remember All Who Volunteered Their Services

PLAN RECOGNITION

Other Boards in City to be Invited to Co-operate

The city council last night declined to make a grant to the fund for the dependents of influenza victims.

The finance committee reported: That they had a deputation from the Ministerial Association asking for a contribution to the influenza campaign. Your finance committee have to report that they cannot see their way clear to make a grant for this purpose.

Memorial to Victims
In the matter of the Board of Trade movement to erect a memorial to those who have given their lives in fighting the influenza, Mayor MacBride expressed the opinion that the council should take no action until its hospital committee brought in a final report.

"The city council," he observed, "must recognize the services of all those who have given their services, and we cannot delegate that duty to the local Board of Trade or any other body."

He moved, seconded by Ald. Kelly, that this council invite the Board of Trade, the Trades and Labor council, the G. W. V. A., the Women's Patriotic League, and the medical association to send three representatives each to attend a meeting in the council on Dec. 11, for the purpose of conferring as to proper recognition on behalf of the city of all those who assisted the authorities in any way in combatting the influenza epidemic.

"MOTHER KNOWS"

When I feel scrappy and mean, mother never scolds. She usually finds my tongue is white, my breath bad, then she says, "Why not take a Cascaret?"

I gladly take Cascarets because they taste like candy. Next morning I wake up feeling dandy. Do you give your children Cascarets or nasty castor oil pills or calomel? Cascarets never hurt a kid.

Cascarets, candy cathartic, cost only 10 cents and mothers will find directions for children's dosage at all ages on each box. Cascarets work like a charm when the child's little stomach, liver and bowels need cleansing and regulating.

NO SHORTAGE OF CHRISTMAS CANDY

Nuts, Fruit, Maple Sugar, Being Used as Substitutes for Sugar

"No shortage of Christmas candy here." Such was the statement of an official of the Wm. Paterson & Son Co. to The Courier to-day.

Although the Government regulations still restrict the manufacturers to 50 per cent. of sugar in their production, there will be enough candy but at a higher price than last year.

During the influenza epidemic the factory was closed for over two weeks and they are now working with an allowance of sugar saved during that time, which enables them to make more candies than would otherwise be possible.

The following ingredients are being used to partly take the place of sugar: Nuts, figs, dates, raisins, currants, coconut, maple sugar, maple syrup, and corn syrup.

These substitutes allow them to use the Government allowance of sugar, and still have a large percentage of their former output.

Harmless Means of Reducing Fat

Therefore the public need not fear a shortage of Christmas candies, as is the case in Hamilton and other cities.

Extraordinary because while perfectly harmless no dieting or exercise are necessary. Marmola Prescription Tablets are made exactly in accordance with the famous Marmola Prescription. A reduction of two, three or four pounds a week is the rule. Procure them from any druggist or if you prefer send 75 cents to the Marmola Co., 864 Woodward Ave., Detroit, Mich., for a large case.

Many fat people fear ordinary means for reducing their weight.

NP SOAP

Three Years of Service with our Army

THE WORLD'S BEST

LADY'S DRESS.

This design is particularly appropriate for either a soft summer silk such as foulard or one of the lovely new cotton velvets. No. 8777 has a softly draped empire waist with a wide shawl collar as the only note of decoration. The flowing sleeves are in three-quarter length, but they may be made shorter if desired. The shoulder edges of the back extend over the front in yoke effect. The skirt has two gorges and it is gathered to the slightly raised waistline. The only trimming of the dress consists of folds of a darker color emphasized by an edging of fancy blanket stitching in a still darker tone. The edges of collar, sleeves and also on the two deep tucks in the skirt.

The lady's dress pattern No. 8777 is cut in four sizes—36 to 42 inches bust measure. Width at lower edge of skirt is two yards. As on the figure the 36 inch size requires 2 1/2 yards 30 inch with 1 1/2 yards 36 inch contrasting material.

To Obtain This Pattern Send 15c to The Courier Office, or two for 25c.

Big Trout in the Spray

TWO and three-quarter dozen fighting fish, speckled and gleaming from the ice-cold waters of the Spray River, near Bank, and none under eight ounces in weight. They were heavy on the line when they first took the hook and surged and charged and sulked and finally came in to be landed, and they grew more heavily heaver by the time they had all been caught and then carried four miles back to the buggy which we had left by the falls where the first fish on the string had lain beneath the great rocks that scored the green eddies of the roaring river and would only come forth when drawn by stout silk and trusty gut.

And the whole trip was not a long one, as fishing goes. We tied our horse at the new bridge below the falls and left him placidly munching oats while we crossed the river and took to the precariously narrow pack trail that twisted and climbed and dropped and went higher across and around the great lower ramparts of Mount Rundle. We dined at a promising eddy and drew forth three fish. We climbed three hundred feet in a half-mile walk and passed at the entrance of a steep, smooth gully of granite which led to a tremendous pool of crystal water past which the foam-flecked current dashed. In its thousands feet of length the gully would take from us the altitudinous advantage of our climb, but we slid down to the tempting water, striking to good luck and strong spikes to get us back to the trail.

A Black Ant and a Common Coachman hit the water simultaneously. A Nipigon trout, the product of transplanted roe, slid up from the bottom of eleven feet of water like a streak of silvery steel and struck the Ant with a vigorous anxiety that brought joy to the angler and agony resistance from the fish. A hungry cut-throat sliced a path from his sheltered boulder and stretched the coachman in the bone of his upper jaw, thus pleasing another fisherman who checked his whirling reel and watched the bending rod with gleeful care.

If you know how the fish lie in the waters of the mountain paradise of Banff Park you need lose little time in rain casting. The upper and lower eddies of his pools sheltered behind rocks, or it conceals itself behind some protective stone that jets into swift water from the bank and there, in the restful eddy waits and watches the current banking past, ready to dash out on any delicate morsel of food that is brought along with the flood. Success needs only fish the pools and the shoulders, and if there is not a strike after a dozen casts it is good judgment to move on for the fish have moved on.

We followed these directions and fished quite a stretch of beautiful river. We had left our horse at seven o'clock, and we had fished the two big holes in the canyon by three o'clock. At that time, morally certain that we had better quit fishing in self-respect because we had caught an honest day's fishing we counted the prizes, and found thirty-three spotted beauties. So hungry and tired and fully content we walked back the broad highway on the west side of the river and rejoined our steed four miles away. Then, in another hour we sat in the great dining room of the C. P. R. hotel and ate heartily of delicious trout fresh from the chef's hot kitchen

an extraordinary method. ordinary because while perfect...

Clear, Reachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious— merry bright alert—a good clear skin and a natural, rosy, healthy complexion are assured only by pure blood.

An inside bath is had by drinking each morning before breakfast a glass of real hot water with a teaspoonful of limestone phosphate in it.

CANDAY SCARE FALSE ALARM

Provincial Analyst Finds Bags of Sweets Harmless

Toronto, Nov. 26.—More sensations are being ruthlessly exploded daily by the Provincial Analyst, Dr. L. J. Rogers, to whom were referred last week a number of candy packages forwarded here by the police authorities of Brantford.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good even color.

Mrs. Hazel Collins, 36, who is said to have a husband in London, Ont., was taken into custody at Windsor on a bigamy charge.

Opoid Comes a Creeping... Incidentally indicates interest in beer. Irving, impressionable, infatuated, impulsively irascible.

Chinese Do It, Too... A department store was opened recently in Shanghai, China, and has been such a success that it will stay there.

Silly Waste of Time... The man or woman who is blessed with good common sense gives all signs, dreams, or other superstitious omens a wide berth.

Finish every day and be home with it. You have done what you could. Some blunders and absurdities, no doubt, crop in; forget these as soon as you can.

Whole as Food... In the nineteenth century the whole was frequently brought into regulation for gastronomic purposes.

Intended No Harm... Lucy was playing up on the lawn with her little puppy when the dog next door came up wagging his tail in a most friendly way.

South Sea "Frightfulness"... In Polynesia spears are pointed and elaborately edged with the teeth of sharks.

Sponge Industry... The best sponges come from the Levant, in the Eastern Mediterranean, and are obtained by diving.

Was Probably Right... A little child, aged five, had finished his private lesson. His mother was anxious to speak to the tutor.

Minister Doing Good Work... Experimental gardens and orchards are conducted as part of the Freshwater mission work in Africa.

Wink Spots... To remove ink from white goods, soak half an hour in vinegar, wash, and soak in solution of chloride of lime.

Often What Makes Him Black... "Sometimes," remarked the man in the car, "the black sheep of the family has more pep than the entire flock."

Optimistic Thought... A well-governed republic is the best political state in the world.

Children, Or CASTORIA

Sir John Monash of the Anzacs

GEN. MONASH, aged 53, compact and supple of body, dark complexioned, clear headed and quick in speech and action is first of all a great Australian.

This remarkable commander, whose daring and genius are written across the landscape of France from Amiens to the Hindenburg line, is what a certain citizen soldier or civilian in uniform.

Like all good generals Monash is pre-eminently positive. His whole equality and attitude of mind is that of one who believes he can do it.

And our success," said Gen. Monash, to an interviewer, "was due in large part to the devotion and skill of our junior officers. Of these 95 per cent. are from the ranks.

Many of our junior officers rose from privates having been dashing successes. Two of them have won the Distinguished Conduct Medal.

"One has heard a good deal of skepticism on the question of the discipline of Australian troops. Some thought we had too much freedom in our army, too much of the spirit of civil life and too little of the character of a machine.

"Look at that town of Peronne," he said. "See those ramparts. They seem impregnable. Yet 400 Australian light captured the place, killing many Germans and bringing out 650 prisoners.

That Gen. Monash's admiration for his officers is ample warrant, only shown by the way they rebridged the Somme canal and its adjoining swamps after the German demolition parties had done their work effectively over the whole front.

A recently patented mechanical electric fan can be made to move horizontally either vertically or horizontally.

D. J. A. McPherson, a member of the Edmonton board of health, was fined \$5 for a breach of the provincial health law in not wearing a flu mask.

INDIGESTION AND CONSTIPATION

Quickly Relieved By "Fruit-A-Tives"

"I suffered for many years with terrible indigestion and constipation. A neighbor advised me to try 'Fruit-A-Tives'.

Rippling Rhymes

I strike a match upon my boot, and light my three for five cheroot, then throw the match away.

LIEUT. HANNA, KILLED.

Toronto, Nov. 25.—Word has been received in this city of the death in Italy on either November 20 or 21 of Lieut. W. N. Hanna, son of Hon. W. J. Hanna, former Provincial Secretary of Ontario.

NOTICE

Increase in Subscription Rates Commencing Dec. 1, 1918

The subscription rates of the Brantford Daily Courier and the Brantford Daily Expositor, commencing December 1st, 1918, will be as follows:

Delivered in Brantford and Vicinity, 45c. per month By the year, Paid in Advance, \$5.00 per annum By Mail, " 4.00 per annum Single Copies, 2c.

After publication of this notice, payments in advance on subscriptions will only be accepted to December 1st at the old rate, after that at the new rate.

This advance in subscription rates has been made necessary by the tremendous increase in the cost of white paper, the price of which has recently been fixed by the Paper Controller at Ottawa.

Even at the new rates the Brantford papers are only now charging prices which have been in force for some time back on almost all the other daily newspapers published in this section of the Dominion.

(Signed) THE EXPOSITOR THE COURIER

November 1st, 1918

The Want Ad To-day is One of the Things That Tends Most to Success!

YOUR ASSETS.

Have you ever taken careful stock of your assets to see how much you had in health, wealth and modern advantages to help you climb the ladder to better things?

Many people do not take the trouble to consider just what their assets are and, indeed, are never really aware of many of them. For this reason many of their assets lie idle and they never realize on them.

But there is one asset that is common to all people, and one that no one in these days can afford to overlook; namely, the Want Ads of the newspaper.

Take the time to think of the many ways in which the Want Ads can help you in your daily living. Then use them!

Cassadaga Head.
This remarkable looking rock is known as a schist, which is weathered and crumbled into a human expression which is startling. Not only is there a distinct resemblance to a man's profile but the head is apparently dressed in a pair of the style of the last century such as the soldiers of Cornwallis wore. The rock is located on the top of a 2,000-foot hill on Seaward peninsula, Alaska, and is called by the natives the Big Head, or the Cassadaga Head. The face is about eight feet high.

Tru Meaning of "Boomerang."
Boomerang has beaten all records of words turned inside out. The term does not convey the idea of retribution, as the boomerang returns not at the thrower's peril, but to his further use. No Australian would make that blunder. Colonel Miles, the allied expeditionary forces' chief chaplain during the war, used the term right when he declared: "We are your boomerang, hung out by you to conquer a continent and now returning to your feet for another throw."

Russian Sturgeon Fisheries.
Sturgeon of various species are especially abundant in Russia, where the sturgeon fisheries are of great value. The fish is eaten when fresh, but is chiefly used in the preserved form, either smoked or salted. More than 10,000 fish are sometimes caught at a single fishing station during the upstream migration, which lasts for a fortnight. The eggs are removed in quantity from the ovaries and separately prepared as "caviare."

Habit of Horned Toads.
Horned toads are harmless, never trying to bite, even when taken into the hand. But they have a habit, perhaps as a means of defense, of spitting a little jet of blood from the eye when disturbed. One will thus eject first from one eye and then from the other a drop of blood to a distance of 12 to 15 inches, repeating this several times.

Harness Sun's Rays.
An experimenter in the Royal College of Science in Toronto claims that he has found a way to harness the sun's heat to industrial tasks of almost any nature. For instance, by his experiments with mirror combinations he has focused reflected rays so as to melt a bar of lead at a temperature below freezing to a depth of one and a half inches in 45 seconds.

How Cloves Are Cured.
In the Spice Islands the cloves are sometimes cured by being smoked over a wood fire until they assume a deep brown color, when the further drying is accomplished by the sun. Occasionally the buds are scalded before being dried. It bright sunny days prevail artificial heat may be dispensed with and the buds sun-dried from first to last. The crop loses about 50 per cent in drying.

Cassadaga Head.
This remarkable looking rock is known as a schist, which is weathered and crumbled into a human expression which is startling. Not only is there a distinct resemblance to a man's profile but the head is apparently dressed in a pair of the style of the last century such as the soldiers of Cornwallis wore. The rock is located on the top of a 2,000-foot hill on Seaward peninsula, Alaska, and is called by the natives the Big Head, or the Cassadaga Head. The face is about eight feet high.

Tru Meaning of "Boomerang."
Boomerang has beaten all records of words turned inside out. The term does not convey the idea of retribution, as the boomerang returns not at the thrower's peril, but to his further use. No Australian would make that blunder. Colonel Miles, the allied expeditionary forces' chief chaplain during the war, used the term right when he declared: "We are your boomerang, hung out by you to conquer a continent and now returning to your feet for another throw."

Russian Sturgeon Fisheries.
Sturgeon of various species are especially abundant in Russia, where the sturgeon fisheries are of great value. The fish is eaten when fresh, but is chiefly used in the preserved form, either smoked or salted. More than 10,000 fish are sometimes caught at a single fishing station during the upstream migration, which lasts for a fortnight. The eggs are removed in quantity from the ovaries and separately prepared as "caviare."

Habit of Horned Toads.
Horned toads are harmless, never trying to bite, even when taken into the hand. But they have a habit, perhaps as a means of defense, of spitting a little jet of blood from the eye when disturbed. One will thus eject first from one eye and then from the other a drop of blood to a distance of 12 to 15 inches, repeating this several times.

Harness Sun's Rays.
An experimenter in the Royal College of Science in Toronto claims that he has found a way to harness the sun's heat to industrial tasks of almost any nature. For instance, by his experiments with mirror combinations he has focused reflected rays so as to melt a bar of lead at a temperature below freezing to a depth of one and a half inches in 45 seconds.

How Cloves Are Cured.
In the Spice Islands the cloves are sometimes cured by being smoked over a wood fire until they assume a deep brown color, when the further drying is accomplished by the sun. Occasionally the buds are scalded before being dried. It bright sunny days prevail artificial heat may be dispensed with and the buds sun-dried from first to last. The crop loses about 50 per cent in drying.

Boys' Shoes
GRAND MOPS, machine finished all solid leather, sizes 11 to 5. Also shoe repairing of all kinds. W. E. Pettit. 10 South Market Street.

Consecration Restrictions.
The Nazarene, during the term of his consecration, was bound to abstain from every production of the vine and from every kind of intoxicating drink. He was forbidden to cut the hair of his head or to approach any dead body, even that of his nearest relation.

Cuckoo Superstition.
In some parts of England, when the first note of the cuckoo is heard in the woods, every village girl asks the question, "Cuckoo! Cuckoo! When shall I be married?" The bird, in answer, is supposed to sound as many notes as years will elapse before the happy event takes place.

Why Cat's Eyes Shine in Dark.
"What causes a cat's eyes to shine in the dark?" Many explanations have been offered in the past, but scientists now hold that invisible rays are transferred by some chemical action into visible rays at the instant of reflection of the eyes of the animal.

Just Her Difference.
Irene asked her playmate, Rose, why she put an apron over her doll's new dress, and Rose replied that she put it on to keep the dress clean. Irene then exclaimed, "Why, I always put an apron on my doll to hide the dirt."

Man and Money.
A Fort Scott preacher, talking about riches last Sunday, told his people that it isn't a question of the amount of money a man has, but of the amount of man the money has.

Why He Felt Good.
Daughter—"Papa went off in great good humor this morning." Mother—"Mercy! That reminds me I forgot to ask him for any money."

The Oughts and the Others.
"How you gettin on wid yonah 'ribb-metic Lou?" "Well, I done learned to add up de oughts, but de fuggers bodder me."

Quite a Scholar.
Mrs. Kawler—"I suppose, dear, you are learning grammar in your school." Bessie—"Oh, yes'm, all about nouns and preposens, verbs and proverbs."

A Man's Manners.
"Whatist one man by his manners plus me to the wall, with another I walk among the stars"

The Difference.
"Boost, don't boost. One gets ahead thing, the other doesn't."—Memphis Commercial Appeal.

Optimistic Thought.
"A man's good name is his best means of success."
