

Members of the City Council Indulge in a Wordy Warfare and the Lie is Flung Around

Battle of the Fire Hall Was Re-fought By the Members of the City Council Last Evening

Warm Engagement While It Lasted, and the Lie Was Flung About in Promiscuous Manner—Ald. Avery Comes in For Blame For the Trouble and Resents the Insinuation.

The City Council fought the battle of the Fire Halls all over again last night and it was a snappy engagement while it lasted. The lie was flung around promiscuously and there was give and take pretty much around the council board.

The row started when Ald. Rose reported on the situation of the fire brigade and moved the council committee of the whole on it. The report was as follows:—

Under authority given to the committee by the Council at the last regular meeting in view of the threatened resignations of the members of the Fire Department, the Committee at once proceeded to take steps necessary to meet the situation.

The Committee met on the next day, the 8th inst. and having the report of the Chief that verbal notice of the resignations had been received the Committee arranged for advertisements to appear in the press for applicants for positions on the Brigade and also calling for voluntary assistance.

On the 7th inst. the Committee proceeded with its preparations and commenced to receive applications. The Great War Veterans Association were notified through their Secretary, that applications were being received and that Returned Soldiers applying would receive the preference, and the Secretary was asked to notify the members accordingly. The Committee on the same day through the Mayor received notice that the Deputy Minister of Labour at Ottawa was prepared to assist, but the Committee, being of opinion that no labor trouble or strike was impending, did not feel it necessary to call themselves of his services. The Returned Soldiers Association were also notified that ample steps were being taken to protect property and man the department.

The steps taken by the Committee resulted to them being in a position to completely man the Department with new firemen and volunteers at 12 noon on Thursday 8th inst. When the Committee were given to understand the threatened resignations were to take effect.

The written resignations of eighteen members were not received until 10 a.m. on the 8th inst., two hours before taking effect and it was fortunate that the Committee had proceeded to act meanwhile, and these arrangements themselves were entirely upset when a further conference was asked for by the Mayor and the Committee agreed to meet the local firemen only (the others) at 2 p.m., the resignations were to be suspended until 6 p.m.

The Committee attended at the Fire Hall at noon to notify these reporting on the duty of the delay, where they found that attempts were being made to picket and prevent new firemen entering the Hall.

At 2 p.m. the Committee met at the City Hall, when instead of the local firemen attending to confer, they were accompanied by a stranger, and not being in keeping with the arrangements made, no conference resulted as the local firemen refused to deal with the Committee alone. A special meeting of the Council ensued at 3 p.m. and did not conclude until 5 p.m. with the Committee only remaining an hour to make new arrangements to man the Fire Halls at 6 p.m. when the resigning firemen left.

From the time the resignations finally took effect, the Central and Lake Street Fire Halls have been completely manned by new firemen and

When Is or Isn't a Dog a Vicious Dog?

Magistrate Campbell today in police court spoke learnedly on the subject of whether or not a dog is vicious. To begin with the law allows every dog his first bite. Prior to that his reputation is unblemished. After the first bite, look out doggie!

A foreign woman in whose home there is a dog faced an accusation by a neighbor of keeping a vicious canine. It had bitten her boy. True the boy had thrown stones at the dog, but then all the children did because it chased all of them, those on roller skates being its particular

Family Feud Reaches the Police Court, Youth Accusing His Sister of Assaulting Him

Magistrate Campbell today charged his sister, Mrs. Lily Bradley with hitting him with the stove lifter. She retorted that it was only the potato masher and he deserved all he got and more, too. The father of both agreed with the daughter.

It has been a family feud. The Hutt senior, are separated, and Hutt pater, dwells with the daughter, the mother having the younger children with her.

Italian Resented Interference By His Foreman and Hit Him on Head With Shovel

Dominick Garitone of Latin origin objected this morning to interference by his foreman John J. Manly as to the manner in which he performed his duties at the In-closure Tissue Paper Mills at Thorold. So Dominick took the weapon handiest—to wit a spade—and opened Manly's head with it.

Manly was rushed off to the hospital and Dominick was rushed off to St. Catharines police headquarters by Chief Sam Moffat.

Appeal in Liquor Case From Which Some Hope Was Expected Dismissed

The appeal made by L. B. Spencer of Welland on behalf of his client Charles Hagen of Welland, against conviction of having liquor illegally in his possession at his home, has been dismissed by Justice Orde in the Court of Appeal.

Justice Orde held that the conviction of Hagen was quite according to the conditions of the law and dismissed the appeal.

SUNDAY BLIZZARD HITS HALIFAX—WINTER RETURNS

HALIFAX, April 20—Halifax today experienced an unusual storm for this season of the year. Snow began falling early in the morning and by noon the storm had reached the proportions of a blizzard. There was a gale of wind blowing, and with a decided drop in the temperature winter conditions prevailed again. The tram company's snowplow which had been stored away had to be brought out again to keep the tracks clear. The attendance at the churches was light, and the streets were practically deserted all day.

FIRST CASE OF JANITOR ACCUSED OF PROFITTEERING

WINNIPEG, April 20—When C. Smith, janitor of the Bartelle Apartments, Home street, appeared in court charged with violating the Securities Commission's Act. Yesterday, he was convicted and fined \$10 and costs.

DAYLIGHT SAVING SECOND OF MAY

The City Council last night passed a resolution that Daylight Saving be enforced Sunday night, May 2nd.

DAYLIGHT ROBBERY TO-DAY

There was a daring daylight robbery at 11 o'clock this morning. B. Mazurick, who works at the Steel & Radiation went to the bank and drew \$200.

At the corner of Church and King Streets, two men walked up to him stuck a gun into his stomach then one of them got his roll out of his trouser pocket.

The two men then disappeared along Church Street. Mazurick came to police headquarters and reported the robbery. The men were strangers he said. Evidently they knew he had drawn the money.

INSURANCE TANGLE FINALLY ADJUSTED

Court Orders Money Held for Missing Heir.

The Judge has just handed down a ruling in connection with the Strathern case, which has attracted considerable attention.

The father died at Port Colborne last summer from hydrophobia, leaving a wife and six months' old baby. Decedent was insured in a Roman Catholic institution to the extent of \$2,000 which had not been claimed by his wife and which is in the hands of the government.

The case in court was caused by the application of Strathern's mother for the \$2,000, as the whereabouts of the wife and child are unknown.

The court decided that the money must not be paid, but must be kept by the court for the child, who is the lawful heir.

THE WEATHER

TORONTO, April 20—The Atlantic coast storm has passed eastward and an extensive area of low pressure is now spreading over the Great Lakes from the southwest. Rain is falling in southwestern Ontario and in Northern Alberta, elsewhere the weather is fair.

FORECASTS: Easterly winds, becoming showery. Wednesday, unsettled and mild, with occasional rain.

New Industry For the City Will Be a Large One Committee Says

Reports Received at the Meeting of City Council Last Night—Putting New Sports Grounds in Shape—Works Committee Program—Recommendations by Finance Committee.

At the City Council meeting last night Ald. Graves in his Finance report recommended:

Your committee would report that the Trustee Board of the Children's Shelter has reported that the present advance of three hundred dollars to the treasurer of the Children's Aid Society in accordance with agreement between this city and the Council of Lincoln, is now insufficient to meet the expenses of the Children's Shelter for the period of one month and have requested that the advance be increased to Five Hundred Dollars. Your committee would recommend that the approval of the County of Lincoln be obtained in this matter and pending the receipt of the same would recommend that the city treasurer be hereby authorized to increase the advance to the treasurer of the Children's Aid Society to five hundred dollars.

The request of the Canadian Deep Waterways and Power Association for a contribution to assist the Association in the expense of carrying on its campaign for the improvement of the Great Lakes, St. Lawrence Navigation order, having been given careful consideration, your committee would recommend that a grant of one hundred and fifty dollars be hereby authorized to said association.

Board of Works

Ald. Dakers reported for the Works Committee:

We recommend that the Bell Telephone Company be and is hereby granted permission, without prejudice to the city's interests, to erect poles on the following streets.

Corner Thomas St. and Louisa St. one pole; Lake St. between Wellington St. and Welland Ave., three poles; St. Patrick St. between Kerahan St. and Geneva St., two poles; Ida St., three poles; Herrick Ave. and Buckland St., two poles.

Your committee further recommends that, pursuant to report adopted by this council at their meeting on Sept. 22nd, 1919, giving approval to the registration of the Race Course extension plan provided the district being sub-divided be restricted for residential uses and that the building line be fixed twenty feet back from the street line, that a by-law be prepared and submitted to this council putting these restrictions into effect.

Your committee further recommends that the city engineer be authorized to proceed with surveys and plans and the calling for tenders for the construction of the following sewers: Geneva St. south from Ontario St. south to Glenridge Ave; Moore St. off Catharine St; Thomas St. from N. S. & T. track to Dufferin St. Lowell Ave. from end of pavement to Thomas St.

Your committee further recommends that the report of the city engineer attached herewith re the opening of Brock Ave. from Taylor Ave. to York St. as a local improvement be and is hereby received and adopted. St. Catharines, Ont., April 19, 1920. His Worship the Mayor and Council Assembled Gentlemen.

Pursuant to your request to report on and estimate the cost of the opening of Brock Ave. from Taylor Ave. to York St., I beg to report as follows: The two lots necessary for the opening of said street may be purchased for the sum of One Thousand Dollars. I find the area to be direct-

ly benefited by the opening of this portion of street to be comprised as follows: Brock Ave. from Ontario Street to York St. save and except the corner lots facing Ontario St. and Thomas St., Brock Ave. extension from Taylor Ave. to York St. Pleasant Ave. from Lake St. to York St. save and except the corner lots facing Lake St. and York St. The rates to be levied should extend over a term of three years the annual rate per foot frontage is estimated to be eight cents.

W. P. Near, City Engineer

Schedule of Streets to be Oiled, 1920

Albert St. from Henry St. to Catharine St. Clark St. from Church St. to Welland Ave; Dufferin St. from York St. to George St; Division St. Geneva St. to Frank St; Elizabeth St. from Lake St. to George St; Edmund St. from Henry St. to Catharine St; George St. from Welland Ave. to Russell Ave; Henry St. from Welland Ave. to Russell Ave; Louisa St. from Thomas St. to Catharine St; Market St. Hellwell's Lane to James St; Market Grounds Kin St. to Church St. North St. Geneva St. to Niagara St; Raymond St. James St. to Clark St; St. Paul St. West, from Lisgar St. to Ontario St; Thorold Road from Queenston St. to Lincoln Ave; Welland Ave. from Lock 2 Hill at Mrs. Shea's lot to Ontario St.

Railway and Industrial

Ald. Riffer reported for the Railway and Industrial Committee:

We report that this committee has been successful in securing for St. Catharines a new industry known as the "Ajax Wire Wheel Corporation of America," with head offices in New York City. This is by no means a new departure as this concern's product is now well known in the Canadian market, the sales having been carried on through the Dunlop Tire Co. of Toronto.

The new industry will be located at 64 Niagara St. in a new building 200 ft. by 50 feet, of brick and concrete construction, to be erected by F. W. Wilson of the Lincoln Construction Co. of this city. The company will commence operations at once, equipped with the most modern machinery and will start a vigorous campaign for additional Canadian business which should not be difficult to obtain, owing to the immense and growing popularity of wire wheels with Canadian automobile manufacturers.

St. Catharines is extremely fortunate in securing this industry, particularly when the company received some very attractive propositions from other cities in the Niagara Peninsula. Much credit is due Mr. F. W. Wilson for his efforts in assisting the committee in inducing the industry to locate here. Mr. Wilson volunteered to build the company a building with a lease of the property and an option to purchase, thereby relieving the city from making any concessions.

Your committee would also report that the Power Specialty Co., manufacturers of Superheaters for locomotive and marine boilers, with head offices in New York City, has purchased the two acres of land on Berryman Ave. adjoining the Tudrull Electro Metals. The company will commence operations this year, with a building about 6000 feet square of floor space and will erect foundry department later. Preliminary payroll will be \$25,000 per year. This company is at present time operating plants in Dansville, N. Y., Bloomfield, N. Y., and St. Albans, Eng.

Your committee would further report that it has under consideration the matter of furnishing the northern (Continued on page four)

POTATOES AND GARDENING

What reason there has been for the extraordinary rise in the price of potatoe is not clear. The blame is laid on United States buying to help cover a shortage across the border. But potatoes are held in car-lots at many points, passing from one speculative hand to another, merely on the strength of a bill of lading, and the price is showed higher each time. Potatoes are \$6 a bag, and there is no protest from any authority in the name of the consuming public if the public complacency will endure a price six times as high as the pre-war price for a necessary that is the base of nearly all meals, then the extortion will not abate. But the high price will surely turn extra attention to back-yard gardening this year. Toronto back-yards and vacant lots produced \$100,000 worth of vegetables in the war period. If potatoes were generally grown this season, in the vacant soil and in and about the city, two months' supply might be produced locally. But the gardening fever does not seem to be epidemic, and perhaps the Colorado beetle will find his fodder rather short. During the food shortage back yard gardening was a matter of patriotism but today the food shortage is much greater than it was then. We shall see if back-yard gardening can be made a question of pocket. If potatoes at \$6 a bag are not sufficient motive, then the outlook is hopeless, and the country will have to go on until mounting food prices force partial depopulation of the congested cities and towns, and repopulation of the farms.

Mail and Empire

WHAT EXCHANGES SAY

THE RACING TAX Ottawa Journal: If the Drury Government's intention is to abolish racing in Ontario by the taxation method we think it should be frank. It is to be imagined it is not in sympathy with racing; Attorney General Raney is opposed to it, and probably the premier also. The Government is in the peculiar position of having to avoid some of the responsibilities that should fall to it, but it can surely afford to deal openly in a matter of this kind. If its policy is to prohibit racing, the taxation course may be as good as any, but it should state its policy. If it is not in favor of the prohibition of racing, it should, we think, have considered the merits of the tax before fixing it—considered whether or not the racing industry can afford it.

ONE VIEW OFF KAPUSKASING Peterboro Examiner: The present Administration, of course is not responsible for the Kapuskasing failure, but they will be responsible for injuring the prosperity of North Ontario if they do not try to counteract the effect of the condemnation of the colony made by the Commission who investigated the conditions. The blame for the failure of many of the soldier farmers to make good should not be charged against the section of the country in which they located, for settlers have been markedly successful in the same district. The trouble was that the late Government did not exercise sufficient care in selecting men for the colony who were capable of coping with the unusual conditions. As a result they failed to make good and most of them will have to be removed. But there is no reason to doubt that the Kapuskasing district possesses possibilities for men who can quickly accustom themselves to the different conditions to be found there. There is no reason to condemn Northern Ontario because a few score

badly selected men have not made a success of their venture.

BROTHERHOOD MOVEMENT

The story of the Brotherhood Movement is one of the most romantic in the social and religious world of our times.

In 1875, John Blackam of West Bromwich, England, began what were known as "Pleasant Sunday Afternoon Classes." These aimed to provide bright, interesting, religious services for the great number of men who did not usually go to church. The thing caught on and soon spread all over England.

As members of the British Brotherhood emigrated or travelled they carried the Brotherhood seed to many lands. Societies were formed and in most cases flourished. An International Congress was planned to take place by the war. It seemed that the

Brotherhood idea must perish in the struggle of 1914-18. But Brotherhood men were being scattered all over the globe. In France, Belgium, India, Egypt, and in every corner of the world they worked. Peace came and the dream of an International Congress was revived. The leaders of the Brotherhood Movement came to Canada to confer with the Canadian Brotherhoods. So great was the enthusiasm shown in the Dominion that the leaders went back to England resolved that the dream must become a fact.

In September, 1919, the World Brotherhood Congress was held. Representatives of more than twenty nations were present and addresses were given by David Lloyd George, Lord Robert Cecil, the Bishop of London, Dr. Clifford and many other eminent men. So great was the success that a similar congress is planned to take place in Washington next fall.

To interest the men of Canada in this Congress and to strive to foster Brother-feeling between England, Canada and the U.S.A., brotherhood leaders are coming from the old country and will speak in various churches throughout the Dominion.

One of the most attractive services rendered by the Brotherhood Movement is that of providing relief to the war stricken countries of Europe. For some time Belgium and France received the greater part of this help but for the past two years the war orphans of Serbia have been taken care of. A home in England was founded and a number of children cared for there. Recently it has been decided to institute educational farms in Serbia itself and this has already been begun.

OVERALLS ARE SOLD BY VENDORS IN N. Y.

THE SAME AS PAPER NEW YORK, April 20—Street vendors today appeared on downtown corners offering overalls for sale. Prices were moderate.

The overall club movement in protest against high clothing prices is spreading here. Students in many schools and colleges in New York adopted the apparel to be worn until prices come down.

Members of the Westchester county Jury announced they will wear overalls in court and residents of suburban cities organized clubs.

Woman Who Met English Princes Taken By Death

MRS. E. ANNA KING DIES AT HOME OF GRANDSON AT NIAGARA FALLS

NIAGARA FALLS, Ont., April 20—Mrs. Elizabeth Ann King, 94 years old, died at the home of her grandson A. R. Cook, No. 532 Fourth Street. Mrs. King was the daughter of Rachael Russell, the first white woman born at Queenston Heights, and she was the granddaughter of Col. Vroman, who fought under Gen. Brock at Queenston Heights. She was born near Lundy Lane on the Canadian side of the border on April 2, 1826.

When a very young girl Mrs. King who was then Elizabeth Ann Russell married Charles Cook of the 43rd Light Infantry which was stationed at Lundy's Lane. With him she went to England where a son and daughter were born to them. Cook died and she returned to this country with her children and in 1870 married John Butter Jones, a hotelman of Niagara Falls, Ont. He died in 1895 she married John King who survives her.

For many years it was Mrs. King's boast that she had been presented to Queen Victoria and that she had

danced with King Edward when he was Prince of Wales. When the present Prince of Wales visited Niagara Falls, Ont., last fall she was taken by her relatives to the public reception to the prince in Queen Victoria Park and presented to him by Mayor Harry Stephens of Niagara Falls, Ont. The prince was delighted to meet her and singled her out for especial attention during the reception.

BRITISH MISSION QUITS FIUME ADRIATIC SETTLEMENT

TRIESTE, April 20—The British mission, the last interallied delegation in the Fiume region left today. Its departure aused the impression that a solution of the Adriatic question had been reached. The D'Annunzio command declared that if this was so and the Italian troops were withdrawn, D'Annunzio would occupy the coast as far as Finanona, Istria.

How Much Is a Child Worth?

Turn for a moment, if you will, from your own cosy family circle to those 8,000 starving, ragged, helpless children in Eastern Europe. You'll have to stretch your imagination to the breaking point—and even then you will not exaggerate the grim, terrible facts.

Almost a million innocent children robbed of their birthright! Ever since their prattling baby days they have known only War. Peace to them is an utter raby.

Think of the long dreary days, with the hunger pangs ever gnawing in their vitals. Think of the rags and the dirt, of the sickness and the suffering and the heartaches of myraids of little tots "out of their own" in a world gone mad.

Here is a situation where race, creed, nationality—nothing counts except humanity. Those multitudes of children in Eastern Europe must have food. They must have clothing. They must have a decent place to live.

Shall it ever be said that for a few paltry dollars a host of little children were allowed to perish?

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

WHEAT IN SIGHT AT 4 DOLLARS

WASHINGTON, April 19—Indication of a worldwide shortage of wheat this year, and a worldwide increase in demand, was reported today by the American Agricultural Trade Commissioner at London, who said bread was selling in England at what was generally considered the highest price the workingman would tolerate without grave disorders. With Russia still in chaotic state there is little to be expected from that country in the way of wheat, exports, and Europe naturally turns to Canada, Australia, India and the United States and Argentina.

PARTURIENT PARESIS

Disease More Commonly Known as Milk Fever.

Symptoms Described and Treatment Suggested—Nothing Should Be Administered by the Mouth—How to Treat the Udder and Teats.

(Contributed by Ontario Department of Agriculture, Toronto.)

PARTURIENT PARESIS, commonly, but improperly, called "milk fever" is a disease peculiar to breeding cows, and, as the name implies, appears at or near the time of parturition. In rare cases the symptoms have been noticed shortly before the appearance of labor pains, in some cases during the act of parturition, but in most cases not for a few hours or days after the young has been born. The exact cause and nature of the trouble, and the manner in which treatment acts, are still in comparative obscurity.

We know that it appears only in milk cows, and at or about the period of parturition, that it has never been noticed at or following the birth of the first calf, and very rarely the second; that cows that are heavy milkers or in gross condition, or both, are particularly susceptible, but it is occasionally met with in a poor milker or an animal in low condition.

Symptoms.—Shortly before, at, or in a variable time (say a few hours to three days) after parturition, the cows become uneasy, neglects her calf, stamps her feet, whisks her tail, and the eyes have a glassy appearance. She sways, has not proper control of her limbs, lies or falls down, may or may not be able to rise, goes down again. This may occur a few times, until she becomes unable to rise. She usually assumes one of two positions: lies either on her side with limbs and head outstretched, or on her back, with the head thrown backwards and the muzzle resting on the flank. There are few cases in which either one or the other of these positions are not observed. The temperature is subnormal in all uncomplicated cases, hence the term "milk fever" is not correct. More or less well marked coma is noted. In many cases she is apparently dead, except that breathing can be noticed. In many cases a sonorous breathing. She is insensible to surroundings and insensitive to pain. In some cases the development of the symptoms is very quick, while in others slow, and in some cases the extreme symptoms are not noticed. She may retain a degree of power of action and sensation.

Treatment.—It has been demonstrated that a full udder tends to prevent the disease. Hence it is good practice to allow the calf to remain with the dam for at least three days, as it will nurse frequently and a full udder, never leaving the udder without considerable milk. When, for any reason this cannot be done, the milker should simulate nature as near as possible, by milking frequently, but very little at a time for three days. It is also good practice to reduce the animal's milk producing food for a few days before parturition is expected.

Curative Treatment.—We wish to particularly emphasize the fact that on no account, and under no circumstances, should any attempt be made to administer anything whatever by the mouth. Even in the very early stages of the disease, the patient loses the power to swallow; hence, if fluids be introduced into the mouth some of it will almost surely pass down the windpipe and cause death by asphyxiation in a few minutes, or set up mechanical bronchitis, which will probably cause death in a few days.

We have stated that "a full udder tends to prevent," now we say that "a distended udder tends to cure." Inflation with oxygen gas or sterilized air is easier and less liable to cause complications than distension with fluids. The use of gas demands the possession of a tank of compressed pure oxygen gas, and special apparatus. Outlets for inflating with sterilized air can be purchased from dealers in veterinary instruments for from \$2 to \$3, and where neither can be obtained an ordinary bicycle pump with a teat syphon attached may be used, but complications from the introduction of septic material are more liable than when gas or sterilized air is used.

The udder and teats must be thoroughly washed with an antiseptic such as a 5 per cent. solution of one of the coal tar antiseptics, the hands of the operator and the instruments also sterilized. All milk is drawn off, as its presence interferes more or less with inflation. The syphon is introduced into a teat, and all the gas or air that the quarter will hold is forced in, and the teat then tied tightly with tape to prevent escape of it. Each quarter is inflated and the teat tied. The udder is then well massaged every hour until the cow rises to her feet, which is usually in from one half to two hours. The tapes should be removed in at most two hours. If not on her feet in at most six hours the udder should be re-inflated. She should be given some easily digested food, or a reasonable amount of her usual food, and all the water she will take. If the weather be cold, the chill should be removed from the water and the cow kept as comfortable as possible. She should not be milked at all for 24 hours after inflation, and for the second twenty-four hours she should be milked frequently, but very little drawn at a time. Forty-eight hours after inflation she should be milked and attended to in the ordinary manner.—Dr. J. H. Reed, O. H. A. College, Guelph.

Shade is important for all classes of stock.

The Pittsburg Pirates stopped the victorious march of the Cincinnati National League team on Sunday.

"Beauty is Only Skin Deep"

but a beautiful skin is possible only when the liver and kidneys are active, and the bowels functionate properly. The secret of beauty as well as of health is to maintain perfect digestion and elimination.

BEECHAM'S PILLS

help to preserve beauty and maintain health, because they influence liver, kidneys, skin and stomach to functionate in harmony and efficiently.

Worth a Guinea a box. Sold everywhere in Canada. In boxes, 25c, 50c.

YOUR HOLIDAY THIS SUMMER

Make your reservations early for accommodation in the "Highlands of Ontario" this summer if you do not want to be disappointed. There will be a large influx of tourists from the United States this year and our cousins across the border are picking up the desirable places. Algonquin Park is one of the most attractive of these resorts and the "Highland Inn" (open all year) and Camp Minnesing and Nominigan Camp (open July and August, and probably September) offer most comfortable accommodation at reasonable rates. The hotels are owned and operated by the Grand Trunk Railway. Write N. T. Clark, Manager, Highland Inn, Algonquin Park Station, Ont., for illustrated folder telling you all about it, or apply to any Grand Trunk Agent, or C. E. Horning, D.P.A., Toronto, Ont.

WOMEN CAN FORTIFY THEIR HEALTH

With constantly aching backs, weary, dragging-down pains, dizzy and nervous headaches, women have a hard burden to carry. It is wise for every woman to fortify herself against those derangements which are present when extra demands are made upon the system by Nature's laws. No better remedy exists for woman's peculiar ailments than DR. HAMILTON'S PILLS, which possess tonics properties that act upon the proper organs at the proper time. To prevent headache, to overcome dragging weariness, backache, nervousness and pallor—to look well, sleep well, eat well and enjoy the manifold blessings of sound, regular health, every girl and woman should regulate her system by Dr. Hamilton's Pills, 25c. per box.

NOTICE TO CONTRACTORS

Pursuant to the requirements of the Canada Highways Act, separate sealed tenders marked "Tenders for water-bound macadam pavement section..." will be received by the undersigned until 12 o'clock noon on Tuesday, May 11th, 1920, for the construction of three inch water bound macadam pavement on the Provincial Highway between Stoney Creek and St. Catharines in the following sections—

- (1) From mile 5 to 9, a distance of four miles.
- (2) Between mile 9 and mile 14.5, a distance of three and one-half miles.
- (3) Between mile 25 and mile 31, a distance of three and three-quarter miles.

Tenders will also be received at the same time for the construction of a Bituminous macadam pavement on the same section of the highway.

Plans, specifications and forms of tender may be seen on and after Tuesday, April 20th, 1920, at the office of the City Engineer, St. Catharines, the office of the Resident Engineer, Beamsville and at the office of the undersigned.

A marked cheque for \$500 payable to the Minister of Public Works and Highways Ontario is to be attached to each separate tender.

A Guaranty Company's bond for ten per cent of the amount of the tender will be required when the contract is signed.

W. A. McLEAN,
Deputy Minister of Highways,
Department of Public Highways,
Toronto, April 16th, 1920.

Sunset Soap Dyes

PROMINENT PHYSICIAN SHOT

NEW YORK, April 20.—Dr. James Markoe, a well known surgeon was shot and killed Sunday while taking up the offering at the morning service in the fashionable St. George's Protestant Episcopal Church, Fifteenth street and Stuyvesant place, in the old aristocratic district of New York.

His assailant was captured after a short chase by a group of parishioners headed by William Fellowes Morgan, president of the Merchants Association of New York; Dr. George E. Brewland and J. Morgan Jones. At the East 22nd street police station the prisoner gave his name first as Thomas W. Shelly and later as Thomas W. Simpson. The police said he told them he had escaped on Thursday from the Eastern State hospital for the insane at Williams-

burg, W. Va. Morgan's Personal Physician Dr. Markoe, a wealthy vestryman of the church, was a friend and personal physician to J. Pierpont Morgan, also a parishioner there. He was 56 years old. The church was crowded with parishioners, many of them representatives of the wealthiest families in New York, when the shooting took place. Dr. Markoe was walking down the left aisle taking the collection while the choir was singing an anthem. As he reached the twelfth pew from the rear and leaned over to pass the plate, Shelly who was seated next to the aisle, whipped out a revolver and fired at the physician. The bullet struck him over the left eye and he collapsed in the aisle.

Several Women Scream Several women screamed and men rushed from their seats, some to the aid of the physician and others in pursuit of his assailant, Shelly, with the smoking revolver in his hand, leaped over the body of the physician and started to run out of the church. The choir, led by Charles Safford, continued singing in an effort to quiet the congregation. Shelly continued shooting. His second shot, directed at members of the congregation who were pursuing

him, went wild. John C. Tiedman, the sexton, dropped to the floor, in time to escape the third bullet which grazed the cheek of J. Morgan Jones. Shelly then ran from the church into Stuyvesant square. Dr. Brewer was the first man to reach him. He grabbed the man's arm, but Shelly managed to wriggle loose long enough to fire another shot which grazed the thigh of Dr. Brewer. By that time several other members of the congregation had thrown Shelly to the ground and were holding him down when a policeman arrived, handcuffed the prisoner and took him to the police station.

Dies on Way to Hospital Meanwhile, Dr. Markoe had been carried out of the church and placed in an automobile. As he was being lifted into the car he regained consciousness long enough to say, "I will be alright," and then collapsed. He was rushed to the Lying-in hospital at Eighteenth Street and Second avenue, but was dead when brought into that institution. Shelly freely admitted that he had shot Dr. Markoe, according to the police. "There are a lot more who are going to get 'it too," he is reported to have said when questioned by police detectives.

CHOOSING LUBRICANTS
Practical Advice Regarding Use of Machine Oils.

They Should Possess the Qualities of Adhesion and Cohesion—Mineral, Vegetable and Fish Oils All in Use—Planting Potatoes for Seed.

W HILE possibly every care and attention is given to the mechanism of farm machinery, few, if any, give consideration to the quality of the lubricants used.

The efficiency of any power is seriously affected by poor or improper lubrication of surfaces in frictional contact, indeed, it is estimated at about 50 per cent. of the available amount of energy in useful work.

The object of lubrication is not only to reduce friction, but also to carry away whatever excess of heat may be generated, for a certain amount of work will produce a given quantity of heat, but the carrying away of the heat is only an incidental condition, for heating of the bearing should not arise.

Oils for lubricating purposes should possess two qualities—that of cohesion and adhesion. Their cohesive properties lie in the character of their molecules to cling to each other, and their adhesive quality to stick to anything else. The union of these two properties make up what is known as viscosity, that is the body of the lubricant. This in a greater degree than any other factor determines the lubricating value of the oils. While viscosity of an oil determines its value as a lubricant, fluidity indicates its adaptability to any one particular machine. It is because of the struggle between viscosity and fluidity that the same oil will not do for the heavy engine shaft, and for light weight machinery. Each requires an oil with just sufficient "body" to carry the load without being squeezed out of the bearing. Beyond this condition the more fluid and easier moving the oil the better. A thick lubricating film of good resisting body is needed for the line shaft of an ocean liner, but a drop of the same oil would put a watch out of commission.

Practically all the lubricants now in use are of the mineral oil foundation treated to free them from acid, and to improve their suitability for special purposes. Sperm oil is especially good for high speed light machinery; for heavy bearings castor oil, but both are expensive. For great pressure at slow speed tar, tallow, and other solid lubricants are suitable. For heavy bearings castor oil, but both are expensive. For great pressure at slow speed tar, tallow, and other solid lubricants are suitable.

Vegetable oils are drying oils, that is, they oxidize rapidly, causing gumming or clogging of the bearings to which they are applied. A mineral oil does not oxidize, neither does an animal oil. But mineral oils have a low flash point; that is, they fire at a low temperature. Animal oils develop fatty acids; these corrode and pit the metal they are used to lubricate.

Adulterants of various kinds are added to oils and greases to give them "body." Gum, soap, lime, resin, tar, soda and free acids, all have their own distinct purpose to serve. Simple tests may be applied to lubricants for quality and viscosity. To test for acid saturate a bit of cotton waste with the suspected oil, and lay it open upon the surface of polished steel or brass for twenty-four hours. If steel shows even a slight corrosion or if the brass turns green, free acid is present. To test for gummy adulterants place a drop of oil upon a piece of glass inclined at such an angle as to permit it to flow gently down. If any gum, resins or other viscosity producing elements are present, they will be apparent by the color of the oil streak, as the adulterants deposit themselves upon the glass in the form of sediment.

A good quality of lubricant will not break down, when rubbed between the finger tips, as quickly, as poor one. It would be economy in three ways at least to use two different kinds of oil; economy of power, of machine wear, and of oil, and in addition there would be greater efficiency.—Jno. Evans, O. A. College, Guelph.

Planting Potatoes for Seed. This refers entirely to the production of seed potatoes; not those intended for human consumption. The growing of seed potatoes is better divided into two sections, the early and the late. For growing early potatoes of the Irish Cobbler variety the seed should be selected true to type and free as possible from any of the various diseases which affect the potato plant or tuber. These should be from 8 to 12 ounces in weight and cut up into pieces 2 ounces in weight with two eyes to the piece. They are planted about the 10th of June and are given every possible cultivation with the soil in a state of high fertility, better having been clover and well fertilized with barnyard manure to which has been added a considerable quantity of commercial fertilizer, about 800 lbs. per acre. Thorough spraying to control leaf diseases and the Colorado Beetle should be given throughout the season. For the late seed the Green Mountain or Rural New Yorker is used. The planting is generally done about June 1st to June 5th under similar conditions to the former. In all cases it is necessary to select a soil that does not dry out during the summer time, as potatoes for seed should not be subjected to a check at any time during their growing period.

An abundance of water is absolutely essential for thrift.

By defeating Albion 3 to 2 on Saturday, Kilmaronock won the Scottish Soccer Cup. Ninety-five thousand fans saw the game.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Lumbago, Stiffness, Rheumatism, Sciatica, Neuritis, and for Headache, Neuralgia, Toothache, Earache, take Aspirin tablets with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer" Tablets of Aspirin in an unbroken "Bayer" package. There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Montreal, Quebec, Canada. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

COMMISSIONER HIGGINS HERE TO CONFER ON SALVATION ARMY MATTERS

Com. W. J. Richards, head of the Salvation Army in Eastern Canada and Col. John McMillan, Chief Secretary are conferring with Commissioner Higgins, Chief of Staff and Second in Command of the Salvation Army for the work who arrived in Boston from London, England, recently. Com. Higgins came to America to discuss matters pertaining to Salvation Army affairs in Canada and the United States, with Commander Eva Booth, head of the Salvation Army in the United States and with the Canadian officials. He was for many years Chief Secretary of the United States and recently succeeded Com. Howard as Chief of Staff and Second in Command. Many matters

having any important bearing upon the future policy of the Salvation Army, and its reconstruction work are to be taken up at this meeting and it is expected that on his return Com. Richards will have something to say in regard to the questions affecting the policies to be followed in Canada.

A. F. OF L. OPPOSES INFLUX OF CAN. LABOR INTO U.S. WASHINGTON, April 19.—To prevent an influx of Canadian and Mexican laborers into this country the American Federation of Labor through Frank Mostrom, its Secretary, asked Congress yesterday to "take any necessary action" to revoke orders of the Department of Labor permitting temporary admission of Canadians and Mexicans to work this year in the beet sugar industry in Colorado and other Western States.

ADLER'S 2014-18 Main Street Niagara Falls, N. Y. ADLER'S

ADLER'S DAILY BUYING GUIDE

New Spring Hats Are Reduced

In Cellophane, in straw, in hair braid and in every medium adapted to their soft folds have these fascinating models been designed. Distinctively and attractively trimmed with lacquered wings, ribbons, fruits and flowers, raffia embroidery in bright Egyptian colorings. Just to see them is to experience an artistic treat. Hats that the followers of the truly smart in fashion will choose for their delightful distinction of style—and you'll find many of these have taken quite a drop in price, such as Hats that were formerly \$25.00 have been marked as low as \$16.50, and others that were \$19.50 are now marked as low as \$12.50. The best numbers will naturally go first, so better be early. Specially marked for Friday and Saturday.

A Special Table of Trimmed Hats at \$7.50

We could not duplicate last week's phenomenal success—the Hats that sold for less—but we came mighty close to it. At \$7.50 you'll find many of the regular stock that was formerly priced much higher in a group by itself. There are Trimmed Hats of every description, everyone of the newest of spring modes, many being shown for the first time on this table. When you see them we know you'll be delighted with this money-saving opportunity.

IMPORTANT Street Floor News

Regular \$3.50 Striped Voile Waists with neat collars and cuffs of white picque, have been reduced to \$2.98.

A new shipment of Georgette Crepe Waists. Many short sleeved models in a wide range of sizes and colorings, with beaded and embroidered fronts, are truly wonderful bargains at \$5.98. And they range upwards in price to \$7.98.

The New Psngee Waists have arrived to-day. Three styles to choose from now. Two are with collars that can button up close around the neck, being a neatly tailored model with very effective pin tucking, and the other is one of a round neck and short sleeves. The first two styles are priced at \$6.50 and the latter at \$5.98.

A corset at 98 cents is surely a whiz Bang of to-day. Hardly a price you'd expect to get a corset for to-day, but upon examination you'll surely say, "They are well worth \$1.50 at least."

Another Corset bargain is that of MILLER'S at \$1.49, a number that is made to sell at \$1.79. You'll find them in the right aisle, rear table.

Regular \$1 value in drop stitch Lisle Hose. Colors of black, navy, white and gray. Specially priced at 89 cents.

Bungalow Aprons at \$1.98. Full cut garments of striped percales and a number in plaids, bound very neatly with a white material.

Another short cut to economy

A Drop in Suit Prices

At \$34.50—a price almost unheard of for a good suit—for many months. The majority of these are serge, though there are plenty of other favorable mixtures and materials, including colorings of navy blue, gray, sand, tan and pretty combinations.

In the very latest of spring styles. Box, flare and ripple backs, with just enough silk braid and embroidery; you'll find hardly two alike.

The woman who appreciates finest in materials and workmanship will go to sleep with the happy thought, "I surely got a bargain," after she has one in her possession.

At \$27.50 there is a woolen heather Jersey, in jaunty cuts, that is another centre of attraction in the Suit Section.

And at \$47.50 there are many of the higher priced Suits of Tricotines, principally grouped at this popular price.

CANADIAN MONEY ACCEPTED AT FULL VALUE

Worthy of Your Consideration is the Display Maribous and the New Spring Neckwear

ADLER'S

Niagara Falls, N. Y. AT LOWER BRIDGE

On the second floor you'll find a very interesting showing of New Spring Skirts, in the plaid and checked ideas.

Algonquin Park is just what is need-
ed for those convalescing from influ-
enza or those who are in need of a
rest and recuperation. The Highland
Inn offers comfortable accommoda-
tion at reasonable rates. Apply any
Grand Trunk Agent for descriptive
booklet, or write Mr. N. T. Clarke,
Manager, Highland Inn, Algonquin
Park Station, Ont. A-3-516

ADVERTISE IN THE JOURNAL

DR. ARTHUR B. COBB
Dentist
Crown and bridge work are
branches of Dentistry that de-
mand a skill that can be ob-
tained in no way except by
years of actual experience and
practice.
In our offices we have four
trained specialists who devote
every bit of their time to Crown
and Bridge work.
They are artists and they achieve
such splendid results that the
mouth looks, feels and acts per-
fectly natural.
These men can save teeth that
ordinarily would be extracted.
They can make plates necessary
by the use of wonderfully
constructed bridge work, so per-
fectly fitted, and so natural in
appearance that detection is
quite impossible.
Crowns of the finest quality,
made and fitted by our experts,
cost only \$8, and Bridge work
is proportionately as reasonable
in cost.
Why not consult with us? We
make no charge for thorough
examination of the teeth.
Offices: Corner of Main and Eagle
Streets.

(Continued from page 1)
section of the city, now without
street railway facilities, with some-
means of transportation to and from
the business district of the city. It
has been suggested that electric motor
bus lines be operated and your com-
mittee is compiling data in this re-
gard and will make a report to the
council in the very near future.
Your committee to which was re-
ferred the matter of establishing a
Municipal aerodrome with a view to
promoting the development of avi-
ation throughout Canada generally
would report that the City Clerk has
written the various cities in Ontario
enquiring as to what course of ac-
tion is likely to be adopted by them.
Until this information is received
your committee will be unable to
make a definite report.
Park and Cemetery
Ald. Murphy reported for the Park
Cemetery and Civic Committee.
We report having received a de-
putation from the Industrial Athletic
Association of this city requesting the
use of the Lacrosse Grounds.
The Industrial League is composed
of twenty-two teams, from the var-
ious manufacturing plants and is
asking for the Lacrosse Grounds on
Monday night of each week during
the summer months, to take care of
a part of its schedule. Your com-
mittee would therefore recommend
that this request be and is hereby
granted and that the city clerk be
and is hereby authorized to write the
Industrial Association to that effect.
Your committee would recommend
that the city clerk be and is hereby
authorized to advertise immediately
in the local papers for applications
in writing from athletic clubs and
those desirous of using the Lacrosse
Grounds for the playing of games
during the summer in order that
your committee may be in posses-
sion of sufficient information to draw
a schedule that will be satisfactory
to all concerned.
Your committee would further re-
commend that the city clerk be au-
thorized to write the Grand Army of
Canada and the Great War Veterans
Association, as to when the privilege
of using the Park Pavilion for the
purpose of dancing was granted,
that the dancing must cease at 11
o'clock p. m., and that the privilege
of using the pavilion be from the
15th of May, 1920 to the 15th of
September, 1920.
Your committee would further re-
commend that permission be given
the Grand Army of Canada to use
Montebello Park on Victoria Day,
May 24th for the purpose of holding
a demonstration and to sell tags for
the purpose of raising funds to en-
able them to carry on their work
of caring for dependant soldiers.
Your committee further report
that they have considered the ad-
visability of having the Provincial
Highway in front of Victoria Lawn
Cemetery built as a thirty foot pave-
ment with curbs instead of a twenty
foot pavement with the usual earth
shoulders and ditches, such as is
standard construction for the Provin-
cial Highway. The building of the
wider pavement with curb will ne-
cessitate a tile drain for the drain-
age and this will take the place of
ditches. The boulevards from curb to
sidewalk may then be filled in and
beautified with grass, shrubbery or
rees and the stretch of roadway,
some two thousand feet in length,
would be a fitting decoration to Vic-
toria Lawn Cemetery, both old and
Continued on Page Eight.

SPRING FISHING
The season for speckled trout fish-
ing opens May 1st, and for salmon,
and lake trout it is now open and will
be until October 5th. It is expected
the ice will out of the lakes by the
end of April. Algonquin Park offers
attractive possibilities for the angler
and the "Highland Inn" desirable
accommodation. Ask Grand Trunk
Agents for all particulars and illus-
trated booklet or write to N. C.
Clarks, Manager, "Highland Inn",
Algonquin Park Station.
A 10, 14, 24, 28

C. Smith, a janitor of a Winnipeg
apartment house, was fined \$10 for
advertising an offer to sublet a suite
to the person giving the "best bonus
to the caretaker."

"DANDERINE"
Stops Hair Coming Out;
Doubles Its Beauty.

A few cents buys "Danderine." Af-
ter an application of "Danderine" you
can not find a fallen hair or any dan-
druff, besides every hair shows new
life, vigor, brightness, more color
and thickness.

**MAN MAY CARRY
HIS OWN LIQUOR**
The decision handed down by Mr.
Justice Middleton in Toronto Friday
by which it was ruled that a man
may act as his own common carrier
will exercise a far-reaching effect
upon the rum running industry.
The decision was made in the case
of John Kozak, a foreigner, residing
at Windsor, who brought two
suitcases of liquor from Montreal to
Windsor, ostensibly for his own use.
Kozak was arrested for a violation of
the O. T. A., his liquor confiscated
and he was fined \$500. The higher
court now rules that the fine shall be
refunded and the liquor returned to
Kozhak.
If the ruling be taken as a pre-
cedent there appears nothing to pre-
vent any number of individuals from
driving their autos to Montreal,
loading them to the guards with
"fruit of the vine" and then driving
back. They will be immune from po-
lice interference on the route and
provided they take the car to their
homes.
The only chance the whisky tra-
ffickers take now is that he might
be tempted to divert his load to
some place other than his own domi-
cile, in which event, he would be
amenable to the full force of the law.
However, as a good many men have
been doing this very thing for
months, and getting away with it,
the only difference it may make in
their modus operandi is that they
can now drive as slowly as they like
without looking over their shoulders
for the officers of the law.

PROTECTING HUMAN LIVES
The Ontario Safety League con-
tinues to place a large amount of
literature in the hands of motorists,
school children, industrial workers,
and others throughout the Province.
In the first three months of 1920 the
League has distributed an enormous
amount of safety material, including
35,000 industrial safety bulletins; 32,
400 school safety bulletins; 8,500
special bulletins; 8,500 traffic bulle-
tins; 2,700 electric railway bulletins;
150,000 motorist's safety book-marks;
10,200 health bulletins; 6,500 news
letters; 9,000 safety calendars; 12,000
leaflets to the "new man"; 125,000
gummed seals; 3,000 safety cards and
posters.
The League will hold an annual
meeting in Toronto, beginning Tues-
day, April 13th at the King Edward
Hotel.

TENDERS FOR COAL
SEALED TENDERS addressed to
the undersigned and endorsed "Tender
for Coal for the Dominion Buildings,
Ontario and Quebec," will be received
at this office until 12 o'clock noon
Thursday, April 29, 1920, for the
supply of coal for the Dominion Build-
ings throughout the provinces of On-
tario and Quebec.
Combined specifications and form of
tender can be obtained from the pur-
chasing agent, Department of Public
Works, Ottawa, or from the cartage-
ers of the different Dominion Build-
ings.
Tenders will not be considered unless
made on the forms supplied by the
Department and in accordance
with the conditions set forth thereon.
Each tender must be accompanied
by an accepted cheque on a chartered
bank payable to the order of the
Minister of Public Works, equal to
10 p.c. of the amount of the tender.
War Loan Bonds of the Dominion will
also be accepted as security, or war
bonds and cheques if required to make
up the odd amount.
By order,
R. C. DESROCHERS, Secretary,
Department of Public Works,
Ottawa, April 3, 1920.
A-10-17-34

DOCTOR WARD, The Specialist
SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION,
BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DIS-
EASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS.
The knowledge gained from many years' experience in treating diseases just like yours is of much benefit
to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that
he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient
the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered
specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION
A CONDITION AFFECTING MANY MEN—THE GREAT AM-
ERICAN DISEASE—IT IS BROUGHT ON BY OUR MAN-
NER OF LIVING—OUR WORRY AND HURRY—AMERI-
CANS EXHAUST MORE NERVOUS ENERGY THAN ANY
OTHER RACE OF PEOPLE.
There are a great many men who need treatment for their
nervous system. These men do not know what is the reason they
don't feel right—why they can't work like they used to—why they
tire so easily and why they are irritable, nervous, dependant,
weak, pale and lack ambition. These conditions require the ex-
pert knowledge and treatment of a specialist who has had many
years' experience in just such ailments. A specialist learns by
experience to know just the right treatment at the right time so
that the patient can be dismissed at the earliest possible time. Man
affected with nervous exhaustion have no endurance—no ambition
—everything they attempt is an effort. Life to them appears as a
long, gloomy future. Their appetite is poor and variable—they be-
come irritable, cross and discouraged. They have pains and aches
in various parts of the body and there is often indigestion and
pains in the stomach. Sleepless, wakeful and restless nights fol-
low.

RHEUMATIC AILMENTS
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBA-
GO, PAINS IN BACK, SWELLING, ACHING, PAINFUL
CONDITIONS IN ANY PART OF THE BODY—INFLAMED
AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY
OTHER SYMPTOMS.
Hundreds of men are suffering with some form of Rheumat-
ism. Many of these men go from day to day suffering untold ag-
onies thinking they cannot be cured. They have tried liniments, rub-
bing, massage, salts and other treatments without experiencing
any relief, and they are now going through life thinking they
are martyrs to that burden called Rheumatism. If these men could
only know how easy it is to get rid of many rheumatic conditions
I know they would not suffer another single day. Then all suf-
ferers of rheumatism would be strong and healthy if they could
get rid of the condition. Rheumatic patients are nearly all strong
and robust before being attacked by this ailment, and therefore
it is so hard for the man to understand why he should suffer the
agonies of such a condition. When a man gets rid of such a condi-
tion he feels that a heavy burden has been lifted from his life, and
he starts right out to make up for lost time both in money and
pleasure. When a man comes to my office suffering with the
above condition he is given a most careful examination, and he is
given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man
BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any
"building process" of the body and mind, of the muscle and tissue formations, of any of the various vital
organs, can be accomplished only by working direct through the blood stream.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; relaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE CENTAUR COMPANY, NEW YORK CITY

PAINT LENGTHENS LIFE OF BUILDINGS AND MACHINES

Many an old ship has stood the racket of ocean travel for years mainly on the strength of the tar or paint applied to her sides, but sailors do not wait for the ship's hull to become weather beaten before applying the first coat of paint. Farmers, on the other hand, seem much inclined to let their buildings reach a state of partial decay before making any special effort to safeguard them against the play of wind and water. As a matter of fact, nothing says better than paint applied immediately after the building is constructed, in lengthening the life of the structure. The same applies to farm machinery parts especially the wooden parts and it will always pay to paint such repairs to machinery wagons, etc., as have to

be made before the work season for these articles commences.

Good paint applied to farm buildings and machinery, not only protects the good management employed in serving them, but calls attention to running the farm, a fact that helps greatly in case the owner wishes to sell either the farm or some of its products. Many farmers have paid so much attention to the economic value of the farm that they have neglected an important side of farm life. There is no reason why the farmer and his family should not have as attractive a home as attractive as the city dweller has. The farmer's neighbors as well as the passing observer, will judge him largely by the care he takes of his stock, his machinery, and his buildings.

Painting is the easiest and least expensive way of making sure of neat clean surroundings, and is the best way of preserving the lumber in buildings, implements or machinery. With spring approaching, the time has arrived for going the rounds of the machine shed to lick out these articles that can be moved to a warm

Where You'll Find Fire Boxes

The latest revised list of the number and location of fire alarm boxes is given below. Residents are advised to clip the list and keep it for reference in case of fire:

In case of a general alarm the city bell will ring as follows: 1—12—123—twice, followed by the number of the box from where the alarm is being rung.

building for retouching with paint in addition to their annual overhaul and repair.

WONDERFUL STRENGTH FOR WEAK STOMACHS

Everyone Talking About the Cures Made by Dr. Hamilton's Pills

There are despairing men and women by the thousands in this city, whose stomachs keep them in constant misery that can be quickly restored to vigorous health by Dr. Hamilton's Pills.

We know of no other medicine that possesses such power to kindle into new life the exhausted energies of chronic stomach sufferers.

There is an extraordinary power in Dr. Hamilton's Pills that searches out the weak spots, that braces up the delicate glands and complex workings of the stomach and bowels.

There are invigorating, stimulating tonic ingredients in Dr. Hamilton's Pills which are derived from powerful juices taken from rare herbs and roots, and these are scientifically combined with other medicinal products so as to assist in a harmonious and proper of the entire system.

The ingredients of Dr. Hamilton's Pills, coming from the great store house of mother nature herself, can be relied upon to be harmless. Guaranteed results follow to all who use Dr. Hamilton's Pills for stomach weakness, Gas, Sourness, Headache, Biliousness or Constipation.

Seekers for the better health can not do better than invest 25c. in this health-bringing family remedy.

Growth Shows Desire To Extend Army Work

Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. This period takes in the "war years." The great war had been under way since August and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Red Shield Drive.

Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.

In July, 1915, Canada East was separated from Canada West, the dividing line being Port Arthur. Ever in view of this, there are now only forty one fewer officers in active service in the Eastern territory alone than there were in the combined territories five years ago.

In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,591. Harvest Festival returns have been doubled.

Shows Solid Growth. In all the various departments the record. This shows that as often as humanly possible every opportunity has been seized for the advancement of every branch of the organization. Inasmuch as every act of service means the welfare of somebody, the same rate of growth has been reposition which the Salvation Army occupies today indicates tremendously increased service to the community.

This service has been rendered under the leadership of Commissioner W. J. Richards. His five years in Canada have been five big years for the Salvation Army in Canada, and give great promise for the future.

ARE YOUR FEET CALLOUSED?

Easy to remove lumps by applying Putnam's Corn and Wart Extractor. This purely vegetable remedy acts painlessly and is guaranteed. Insist on "Putnam's" only 25c. per bottle.

The recent cold spell considerably increased the yield of maple syrup.

The Telephone Situation

What We Get For the Money!

On January 1st this year our total investment in telephone property—buildings, equipment, tools and supplies, plus what it has cost in actual cash to put this working equipment into service—was \$51,458,306. On the same date we had in operation 337,476 telephone instruments.

This means an investment of \$152 for each telephone instrument in service.

What has been provided for this investment of \$152 per telephone?

Here are some of the things:

An exchange telephone system in thousands of cities, towns and villages in Ontario and Quebec with substantial fire-proof buildings the last word in sanitation and convenience; 98,750 miles of Long Distance wire on 9,500 miles of poles; 587,000 miles of wire in underground cables; many hundreds of miles of wire providing party service to rural communities besides exchange and pole line facilities to give exchange connection to 720 local telephone organizations serving over 103,000 subscribers, mostly farmers.

It takes some 11,600 telephone workers to operate the system and their wages in 1919 totaled \$9,400,000.

This goodly band of faithful workers, with those dependent on them, are a substantial element in the community. They are intimately concerned in its welfare—concerned most of all that the telephone service shall be adequate to its needs. They appreciate, just like the rest of humanity, the kindly co-operation of the public.

The Bell Telephone Company OF CANADA

OVER sixty-one years' experience is behind the McCormick Biscuits; yet if they could be improved they would be.

Their high degree of nutrition is attained by the selection of the finest materials.

They are made in a sunlight factory where brightness penetrates to every corner.

They are properly baked for easy digestion. No wonder there is such a demand for

Do not forget to file your Income Tax Return on or before the 30th of April, 1920.

ALL persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows: 1. Every unmarried person, or widow, or widower, without dependants as defined by the Act, who during the calendar year 1919 received or earned \$1,000 or more.

Forms to be used in filing returns on or before the 30th of April, 1920.

ALL INDIVIDUALS other than farmers and ranchers must use Form T. 1. FARMERS AND RANCHERS must use Form T. 1A.

CORPORATIONS and joint stock companies must use Form T. 2.

Penalty: Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of twenty-five per centum of the amount of the tax payable.

General Instructions: Obtain Forms from the Inspectors or Assistant Inspectors of Taxation or from Postmasters. Read carefully all instructions on Form before filling it in.

Address INSPECTOR OF TAXATION, HAMILTON, ONT. R. W. BREADNER, Commissioner of Taxation.
