The Evening Chit-Chat.

BY RUTH CAMERON.

The best of New Year's greetings, my friends. I wish I knew just what each one of you wants 1910 to bring you that I might wish it for you. But as that's impossible, I take refuge in wishing each and every one of you all you'd wish yourself.

Have you made your New Year's resolutions yet? Please don't say you are not going to make any, for it always makes me feel sad when I hear anyone say that.

I know—as doubtless you do—many people who consider that they show a kind of superiority by not making New Year's resolutions. "We know we'll break them sooner or later, so what's the use," they go about saying, with an apparent pride in their cynicism.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaints, right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

Fads and Fashions.

With black costumes there are straight garnitures of embroidered net that cover the front of the waist and then fall straight in panel or stole effect down the front of the gown. The latest necklaces brought from the Far East resemble flexible snakes. They are of antique or green gold-finished metal, and have eyes and tongue of imitation rubies, sapphires and emeralds.

Children's Colds Must be Cured

There will then be less weak lungs and consumption in later life. Did you ever think of it in this way? It is the neglected cough and cold that leads to the dreadful lung disease sooner or later. From repeated attacks the lungs are weakened and there comes pneumonia or consumption with their dreadfully fatal results.

Weak Heart, Poor Blood

Shortness of Breath a Symptom.

"It was a good thing I began taking Ferrozene when I did, for my condition would have fallen into Perniciosa Anemia, and this disease I am told is incurable," writes Mr. Samuel S. Michaud, of Pembroke. "I am thankful both for recovery and escape from a disease that surely runs its course in a brief time. The first symptoms that gave sign that my naturally great strength was falling, developed from climbing to the fourth floor in an office building in Montreal. When I got to the top, a blindness seemed to overcome my eyes. I breathed heavily and my breath was very quick and short.

"My blood had turned to water, I was told, and I needed the very best tonic obtainable to vitalize it. You can imagine how run down in quality my blood was when it seemed that I was suffering from Perniciosa Anemia. Ferrozene worked wonders. Every week I could see how my blood was making my constitution stronger. I hadn't any heart disease. The palpitation was caused by poor blood—so was the shortness of breath. Ferrozene has made a new man of me. I am as hearty, ruddy and vigorous as I was twenty years ago. I urge every man and woman in poor health to build up with Ferrozene."

No tonic is so certain as Ferrozene—just one or two tablets to take at meals. 50c. per box, six for \$2.50. All dealers or The Catarhozone Co., Kingston, Canada.

on the part of the needlewoman will result in a quite distinctive buckle. Tarquise or coral heads, quantities of them massed together, are very smart on black and white net, the coral on the black and gray net being highly effective, while rhinestones are most cleverly used where ever and whenever possible to give brilliancy or to lighten a too dark effect. Tunic effects are now so cleverly designed that they are effective for all ages. A soft, filmy overskirt of the chiffon or net is extremely pretty over a bright shade of pink or blue satin, and especially so when this diaphanous covering is caught up here and there to show the true shade of the dress.

St. John's, Newfoundland, January 4, 1910.

### The Last of Cook.

It is about time we heard the last of Dr. Cook and his pretensions. The University of Copenhagen, which appointed a committee of experts to examine the proof that Dr. Cook himself placed before them, declare that the documents afford no satisfactory evidence. Some of the experts who examined Cook's proofs have not hesitated to describe the whole of the Polar case worthless and fraudulent.

But the most clinching blow to his claim to serious consideration is the action of the Board of Governors of the Explorers' Club. The Board has not had Dr. Cook's polar claims under consideration, but quite another matter, viz. his claim that he ascended the summit of Mount McKinley in 1906.

The committee of the Club has been investigating Dr. Cook's claim of reaching the top of Mt. McKinley, and reported that it must be rejected as unworthy of credence.

The committee consisted of many distinguished men. It disregarded the evidence of his guide, who also declared Cook did not climb Mt. McKinley, and based the findings on facts which showed that no credence could be given to statements made by Cook.

Individual signed reports are submitted by Herschel C. Parker, professor of physics at Columbia, and Belmore Brown, both of whom were members of the Cook-McKinley expedition, and by Charles Sheldon, who has recently returned from a year's residence on the slope of Mount McKinley, where he went with the express purpose of studying the configuration of the mountain, with a view to the possibility of its ascent.

Prof. Parker reports that he was a partner with Dr. Cook in the McKinley expedition, both physically and financially. Dr. Cook assumed the lead, with a plan which proved unfeasible, and the party only got out with their lives, thanks to the local knowledge of Belmore Brown, one of his members.

"It was perfectly understood," says Prof. Parker, "that after this misadventure all further attempts were abandoned for the season, otherwise Prof. Parker would not have left the expedition."

Instead of this, Dr. Cook, it is charged, sidetracked all members of the expedition, until there remained only Cook, his guide Barrill, and one packer, who was subsequently got rid of also. These defections left Dr. Cook, says Prof. Parker, no instruments capable of measuring the altitudes he says he attained. Moreover, he adds, the summer's experience had shown that of all the party, Cook and Barrill were the least fitted physically for arduous mountaineering.

Belmore Brown in the main confirms Prof. Parker, and says in addition that in Dr. Cook's book there is not one date given from the time he left the Chulitna River. This makes intelligent criticism impossible, he declares. He asserts, further, that he never saw Dr. Cook make a single aneroid barometer reading during the whole trip.

Confirming a charge that has previously been made, he says, also, that Cook was known to be in serious financial straits, and would have had great difficulty in getting out of Alaska had he not reported that he had

attained the summit of Mount McKinley.

Brown revamps his charges with the declaration that Cook and Barrill had no ice-creepers, and that, though Dr. Cook later told Prof. Parker that he and Barrill were roped together for every foot of the last stages, Prof. Parker and Brown both remember that they had destroyed the climbing rope as defective before they quit the expedition. Furthermore, in none of the pictures published in Dr. Cook's book does a climbing rope show.

Brown and Sheldon also report that various photographs in Dr. Cook's book do not represent the peaks they are said to picture, and Sheldon denies that he is the author of the appendix C in the book, which Dr. Cook credited to him.

The committee as a whole therefore concludes in part that: "Dr. Cook's account of the ascent is not only such as to be unconvincing to the experienced mountaineer, but under analysis it becomes incredible."

"That he entered into a secret financial agreement with a publisher, which resulted in embarrassment to his associates."

"That he broke his agreements before his fellow club members to supply his original photographs and data upon which his book was based."

### Dirty Kidneys Cause Backache.

A few doses clean and regulate the Kidneys ending lame back and Bladder misery.

A real surprise awaits every sufferer from kidney or bladder trouble who takes several doses of Pape's Diuretic. Misery in the back, sides or loins, sick headache, nervousness, rheumatism pains, heart palpitations, dizziness, sleeplessness, inflamed or swollen eyelids, lack of energy and all symptoms of out-of-order kidneys simply vanish.

Uncontrollable urination (especially at night), smarting, offensive and discolored water and other bladder misery ends.

The moment you suspect kidney or urinary disorder, or feel any rheumatism, begin taking this harmless medicine, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

It is needless to feel miserable and worried, because this unusual preparation goes at once to the out-of-order kidneys and urinary system, distributing its cleansing, healing and strengthening influence directly upon the organs and glands affected, and completes the cure before you realize it.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Pape's Diuretic, and a few days' treatment will make any one feel fine.

Accept only Pape's Diuretic—fifty-cent treatment—any drug store—anywhere in the world.

### Feared That Schooner is Lost With All Hands.

It is feared that the schr. Lydia R. H. owned by Pafford & Sons, of North Harbor, P.E., is lost with all hands. She is a ketch of 30 tons and left there Sunday week for this port with a cargo of fish and oil valued at \$4,000, and has not been heard from since. Her skipper is Lewis Pafford. His brothers, Fred and James, are on board and the fourth man is John Baker. Mr. A. Warham is consignee for the vessel and cargo, and after making representations to the Marine and Fisheries Department, messages were sent enquiring about the schooner to St. Mary's, Trepassy and Renew, but there was no sign of her at either place. To-day messages were also sent to Baie Herby and Sound Island, but there was no news of her at either place. She was deeply laden and in the recent stormy weather it is feared she came to grief.

### Man Killed at Twillingate Dec. 24.

On Christmas Eve an awful accident occurred at Twillingate, the result of which was the death of a fine young man named Marsh, aged 18. The poor chap had been cutting wood for weeks in the country with his father for the winter's supply, and he was piling them near his home on the day mentioned. He and his father had just put up some of the heaviest sticks on top of the pile, when through some defect in the piling the whole thing gave way. The father saw it start, and yelled to his son to jump clear, but before the young man could do so, the pile came down with a rush and completely covered him. Men about the place took him out after great exertion, and he lived only a very short while. The body was terribly broken up. The poor young fellow was well known and liked.

### Declared a Dividend.

The annual meeting of the Labrador Whaling and Manufacturing Company was held in Messrs. Hearn & Co.'s office last night. Messrs. D. A. Ryan, W. D. Reid, Jas. Ryan, Jno. Henderson and Hon. Jno. Harris were elected as directors. A dividend of 5 per cent was declared. Last year a dividend of 17 1/2 per cent was declared. The Cachelot, the vessel operating for the company, having sustained an accident to her propeller, last summer caused her to lay up for repairs for two weeks. This occurred at a season when fish were plentiful, and accounts in a great measure for the comparative smallness of the dividend this year. The company are plentiful, however, with the general condition of affairs and they added \$3,000 to the reserve after working off \$2,000 for depreciation of the ship.

### His Character Cleared.

Mr. Edward Gladney is the man who was sent to Bell Island last week to appear on a charge of indecent assault, alleged to have been committed on a female of that place. Mr. Gladney today showed a telegram reporting a letter from the woman showing that he was not the man who committed the offence. Mr. Gladney says he will vindicate his character and will take an action for defamation.

### A West End Boy.

John Tapper, an old West End boy, who has been absent from St. John's for 13 years, returned to town yesterday by the express from the West Coast. He is settled in Bonaventure Bay and is doing well there. All his old friends were glad to meet him. He is surprised at the improvements in the town. He is here in connection with the Seeley fire, having taken over the property by order of the court.

### Postal Line O.K.

Mr. Geo. Veitch returned to town last night, having been out over the line since last Monday week supervising the repairing of telegraph lines blown down by the storm. Mr. Veitch got through the work with remarkable expedition. The men were put to work on the different sections between town and Tickle Harbor on Tuesday, and the line was in working order by the following Friday. Upwards of 150 poles altogether were broken off and blown down. Mr. Veitch's long experience of such work enabled him to get through it with such rapidity.

### WILL JOIN THE INVERMORE.

Capt. P. Delaney, the R. N. Co.'s Ship's Husband, will go to Port aux Basques by this evening's express to take charge of the s.s. Invermore, and relieve Capt. Drake, who will come to St. John's for a vacation. He will remain here till the s.s. Bruce repairs are completed and will then take charge of her and run to Port aux Basques to continue the service. Capt. Delaney will then return to St. John's.

### Week of Prayer

The first services of the Week of Prayer were held last night at Cochran Street and Wesley Churches, and a very encouraging spirit pervaded the meetings. At the former Church, the Rev. J. Thackeray delivered the address, and at the latter it was the Rev. Mr. Forshaw. The topic of the evening was that of thanksgiving, humiliation and confession; and the lessons which were drawn from these different subjects were very convincing and heart-searching.

For thanksgiving, there was much cause, and the nearer our lives were lived to the standard of the Gospel, the more we would see our need of gratitude. The thankful life was above fault-finding, and would see things in their best, as well as make the best of things. The fault-finding life was not becoming of anyone for our mercies are always greater than our troubles. At the same time we should be humble, for there was much in our life that called for humiliation and confession. At best we are but unprofitable servants, and fall short of what we ought to be. The holiest men and most devoted women of every age felt this same apirit, hence we find that in all their writings there is a deep spirit of penitence, humiliation, and also confession of sin. The Fifty-First Psalm, which was read at the service, was full of this spirit, and it is the most penitent of what is called in holy writ, "The Penitential Psalms."

The services will be continued throughout the week, and it is hoped that large congregations will attend them all. After the address, there was a short time devoted to singing and prayer, and at the close it was felt that a good beginning for a good week had been made.—I.C.M.

### ORDER OF SERVICE.

Tuesday, Jan. 4.—Congregational Church, Rev. F. R. Matthews, B. A.—Temperance.  
Wednesday, Jan. 5.—George St. Rev. J. K. Curtis, B. A.: "The Church Universal."  
Thursday, Jan. 6.—St. Andrew's, Rev. L. N. Burrows: "Missions."  
Friday, Jan. 7.—Gower St. Church, "Sunday Schools."  
Services begin at 8 o'clock.

### CONSTIPATION AND HEADACHE.

Mrs. R. Morrow, Bracebridge, Ont., writes: "For years I was troubled almost constantly with constipation and never got anything to do me the lasting good that has been obtained from Dr. Chase's Kidney-Liver Pills. Not only have they cured constipation but have also entirely cured the headache from which I used to suffer terribly and have improved my health in every way."

### Feildian Officers.

At the annual meeting of the Feildian Hockey Club held last night in Bishop Feild College, the following officers were elected: Captain—C. E. A. Jeffrey. Sub Captain—R. H. Tall. Secretary—E. S. Plummer. League Delegates—Dr. A. C. Tait. There was a fairly large attendance and great enthusiasm prevailed. The Feildians have a good team, and under their new officers hope to do good work on the field during the coming year. They cannot retain the championship of 1909 as the Daily News says simply because it was the Vics. who won that honour and not the Feildians.

### British Society.

The regular monthly meeting of the Newfoundland British Society took place last night. After the routine business was over votes of thanks were unanimously passed to the C. L. B. Band, Rev. J. Brinton and M. A. Learning for services rendered on New Year's Day. The Society will hold its annual meeting on Monday next when the officers will be elected.

### SIMPLE CURE FOR ITCHINESS.

The tantalizing skin itchiness that plagues men and women arises from the invasion of germs. Washing won't relieve—cleanness certainly cannot cure—only a soothing germ killer like Dr. Hamilton's Ointment can do the work. By anointing the parts with Dr. Hamilton's Ointment relief is afforded at once. The soothing balsams and healing oils in this ointment make a perfect food for the skin. You find this out in one application. 50c. at all dealers.

### Schooner Wrecked.

During last Monday's gale a schr. owned by a man named Porter burst her moorings and drove out of North Arm and into York Harbor, where she went on the rocks and was beaten in pieces by the sea. She was a vessel of 46 tons, had a half cargo of herring on board, and a lot of fishing gear. We learn the vessel and gear are uninsured, and the loss to the owner is a terrible one as it represents the savings of a life time.

Mr. T. J. Freeman is coming by the express from New York.

The west bound express arrived at Port aux Basques at 4:05 a.m. to-day. The express arrived from the west at 10:15 p.m. yesterday.  
The local arrived from Carbonara at 12:30 p.m. to-day, bringing about 80 passengers. There were 30 men going to Bell Island via the Cove.

### A Nasty Accident.

While hoisting a carcass of meat in Dooley's abattoir, on the Logy Bay Road, yesterday, Mr. John Healey narrowly escaped being killed. The rope wire round the drum of the winch slipped and the whole thing came to the ground with a rush. One of the rapidly revolving handles hit Mr. Healey square in the face and he was felled to the ground. He was unconscious for a long while; received terrible cuts and bruises, and Dr. Fraser was called and had to insert several stitches in the wounds.

### Paid Millions for the Rainbow.

Ottawa, Dec. 27.—It is understood that the sum paid by Canada to the British Admiralty for the cruiser Rainbow was in the vicinity of a million dollars. ### Placencia Notes.

The weather here the past week has been anything but agreeable. Storms from all points of the compass have raged, accompanied by both rain and snow. Huge trees that have stood the storms of the last century have been uprooted and hurled across the public streets, while wharves, fences and houses have been more or less damaged by the storms. We hope that we shall not be visited again by such severe storms for some time.

Misses L. Sinnott and B. Burke went to town by Thursday's train.

Christmas passed away very quiet. There has not been a single arrest.

## Had to Jettison Part Cargo.

Information was received in the city last week to the effect that the schr. Ideal on her voyage to Europe fish laden from Change Islands met very severe weather and put into the Azores in a bad state. The weather was terrible for a time and 500 qts. of fish had to be jettisoned. Considerable damage was done to the vessel and her sails were badly torn.

### Show Put Off.

Owing to the orchestra not having turned up, Al Marx, the strong man, had to postpone his performance last night. Mr. Marx said that the event would positively take place to-night at 8.30. Tickets dated last night will be good for to-night.

### C. E. T. S.

At the Synod Building last night a large meeting of the C. E. T. S. was convened. A fine programme was rendered. Mrs. Bell gave a piano solo, and songs were rendered by Misses L. Hall, E. Duffett, A. Morris, Rev. J. Bell and J. Hayward; Messrs. Maidment and MacDonald gave recitations. Rev. Mr. Bell delivered an interesting address, after which tea was served by the ladies. Five new members signed the pledge. The society will hold a grand sociable on the 19th inst.

### Getting Rinks Ready.

If the present frosty spurt continues for another day or so the patrons of the Prince's and Parade Rinks will be enabled to indulge in their favourite pastime of skating. Last evening and night a number of men were busy flooding the Prince's Rink, and soon it is hoped a good sheet of ice will be on it. At the Parade Rink Mr. Clouston and his aides already have a couple of inches of ice ready, and it is hoped that in a day or so this rink will open. It is not often that the rinks are not in full swing on New Year's Day, for formerly the rinks were crowded on this particular holiday. Yesterday the new Curling Rink was flooded for the first time.

### Dangerous for Pedestrians.

The streets of the city are at present in a very dangerous condition. They are partly covered with ice and the "road" of snow which fell last night made it all the more difficult for pedestrians to negotiate the steep thoroughfares. Last evening several coming down over Barter's and Carter's Hills received ugly falls, and one old woman named Barnes, at 8 o'clock last night, fell on Long's Hill, her head hit the ground with such force that she was stunned; a couple of young men passing along brought her home. She was cut about the head but not severely.

### Blustery Across Country

During the past 24 hours it has been blustery across country, and at the Cape Topalls two snow storms already have been recorded. West from Bishop's Falls winter has set in and it is now becoming frosty. In places along the line of railway the snow is so deep that the trains have been using plows the past couple of days. They are doing good work and are not impeded in their running. The weather report last night was: Port aux Basques—N.W., strong; 22 above.

Bay of Islands—N.W., strong, snowing; 16 above.  
Quarry—N.W., strong, drifting; 10 above.

Bishop's Falls—N.W., light, snowing; 18 above.  
Clareville—N. W., light, dull; 20 above.  
Whitbourne—N.W., light, dull; 20 above.

### M. C. L. I.

To-morrow night at 8 o'clock sharp the M. C. L. I. will open their session for debates. The subjects for discussion during the season will be varied and extremely interesting. The first subject to be debated will be "The Lloyd-George Budget," and this will come up for discussion to-morrow night. The leaders are: For the affirmative, Mr. C. T. C. Hall; and for the negative, Mr. Reuben Horwood. The action of the Lords in throwing out the Budget will also be discussed. There are some fine debaters in the M.C.L.I., and a very interesting time is in store for all who attend.

**POLE ON FIRE.**—One of the poles near Browning's Bridge caught fire Sunday owing to the fact that the insulation had gone from one of the large transmission wires running from Petty Harbor to the sub-station. When it was reported the current at Petty Harbor was closed off from the line until repairs were effected.

## Prison Notes.

A warder at Maidstone (Eng.) jailed with aiding a convict under his charge to forge a document which was to be used for swindling purposes.

The case had a curious parallel in one which happened at Rendsburg Prison, near Berlin, a little more than a year ago. For some time past counterfeit five mark pieces had flooded the country. The police failed utterly to discover their source until the mother-in-law of a prison warder was seen passing two of these coins.

The Police Commissary entered the prison in the guise of a convict, and watched the warder, and discovered that the coins were being manufactured by night in one of the cells by a convict. The warder had secured for him his kit of tools, and brought them into the prison. The convict, working by night, made about a score of counterfeits every twenty-four hours, and the warder took them out and passed them.

Both in the shops and in the outdoor labor gangs in English prisons, convicts communicate freely by talking without moving the lips, and many are the plots hatched for future crime or more immediate escape.

A few years ago a "lifter", who had made two attempts to suicide and two at escape, was sent from Dartmoor to Portland. There he met an old acquaintance—a thorough bad lot, whom we call by his initial "S."—and they began to make fresh plans for escape. S. got hold of some thin pieces of copper, with which the "lifter" could make keys, and they took into their confidence two other men, one of them in the blacksmith's shop. No. 3 managed to get impressions in bread-paste of the keys of the prison gates; No. 4 gave the "lifter" a couple of files, and the latter cut the skeleton keys.

No. 3 then managed to test them, and, finding they would work, hid them in a shed. But here a warder found them, and though it was impossible to prove who had made them, the "lifter" was promptly despatched back to Dartmoor.

In September, 1898, a number of Hindu anarchists were brought up for trial at Ailpur, on the evidence of an informer named Goswami. They were hardly in the dock before two of them drew revolvers and opened fire upon the informer, who fell dead, while two Europeans were badly wounded. Here was another case of a prison plot. There must have been collusion to enable the scoundrels to get revolvers smuggled into the prison.

## Placentia Notes.

The weather here the past week has been anything but agreeable. Storms from all points of the compass have raged, accompanied by both rain and snow. We hope that we shall not be visited again by such severe storms for some time.

Some fifty feet of the breastwork at blockhouse have been washed away by the sea during the past week, while a huge tree has been laying on the ground in the C. E. graveyard and also a flagpole. Another large tree has been uprooted and hurled to the ground near Z. Bindon's store. A boat belonging to Mr. D. Rose, which had been hauled up and moored for the winter, was swept from its moorings and driven to sea. It is a great loss to the owner.

Misses L. Sinnott and B. Burke went to town by Thursday's train. Christmas passed away very quiet. There has not been a single arrest.

## Portia Has Stormy Trip

The s.s. Portia, Capt. T. Fitzpatrick, arrived here from the westward at 7.10 last evening after a very stormy run. After leaving here at 10 a.m. on Christmas Eve she ran into a N.E. hurricane with a very high sea, and getting into Ferryland that night no boat could be put off from the ship to land mails and passengers, and to hold her berth in the harbor the ship had to put out a second anchor. The passengers and mails were landed at 7.30 a.m. on Christmas Day, though the storm still raged, and when the ship's boat returned the ship steamed out of port and made a good run to Placentia in spite of the weather. She left St. Lawrence at 6 p.m. Monday, and until she reached Port aux Basques she had a S. E. storm with heavy snow. She reached Bonne Bay at 5 p.m. Wednesday and left again at 4 a.m. Thursday coming this way. She left Bay of Islands at noon on that day and had it very stormy, the wind blowing from different points of the compass at intervals and kicking up a confused sea. She made Port

aux Basques at 10 a.m. Friday, and on the run down she had equally bad weather, but notwithstanding made a good run. The ship brought a small freight and the following passengers: Rev. Walsh, Rev. Middleton, Capt. Norman, Capt. Pine, J. Moss, Mrs. M. P. Cashin, Miss Cashin, Miss Ryan, Messrs. Cashin (2), Frelbairn and 20 second class.

### JACKMAN The Tailor,

THE MAIL ORDER HOUSE.

### New Curling Rink

Some fifty curriers associated themselves and formed the Newfoundland Curling Rink, Ltd. The President is Mr. W. D. Reid, and the Secretary, Mr. F. Donnelly. A committee of two, consisting of the President and Mr. C. Duder were appointed to arrange for the building of a rink. The rink was begun about the middle of October and to-day the carpenters leave it, and last night the floor was floored for the first time. It is called the Avalon Rink and is situated to the south of the Prince's Rink, with the front door abutting Factory Lane. Its outside dimensions are 178 feet by 85. The big beams across are built of spruce 2 by 9 bolted together by 75 bolts. There is a considerable number of bolts in the building, \$190 having been spent on them. Inside there are four curling rinks, and two waiting rooms, one for ladies, one for gentlemen, with lockers and lavatory accommodations. The rinks are lit by incandescent lamps, no arc lamps being in use in the building. Over each tee in each rink is suspended a bunch of 50 candle power lamps. There is a locker for each member of the curling clubs, large enough to take a pair of stones and a broom. Altogether there are 146 curlers in the two gentlemen's clubs, the Mic Mac and the Terra Nova, and 25 members in the Ladies' Club.

With a new rink, with a large and enthusiastic body of curriers, it is evident the "roaring" game is on the eve of taking on a new spin of vigorous life.

### Thanks From Olsen.

Dear Sir,—I received this morning a cable from England advising me that the wrestling championships had been definitely fixed for January 24th. As the direct sailings from here would not permit me to reach the other side in ample time to take part in the contests, I am obliged to leave this evening for Halifax, from which place I go to England by the S. S. Grampan sailing from Halifax on the 10th instant. I shall thus not be in a position to consider further about another match in this city, and so for the present will only wish my friend Otto a very happy New Year and every success in the future.

I would not like to leave the city, however, without thanking very much indeed all those who have been so kind to me. I never expect to meet people who could do more to make things pleasant for one who a few months ago came here an almost stranger. I, particular I am obliged to the members of the Avalon Athletic Club for their great assistance in every way, and to the Captain of that body and those other individual members who have been particularly anxious to make my stay enjoyable I am especially indebted. I have only to say to them that I am pleased to note that their athletics and gymnastics have improved over fifty per cent. during the past few months, and on my part I shall endeavour to uphold the honour of the club in the Old Country by entering as its representative in the tournament.

I can only hope that I shall have the privilege of being able to claim for Newfoundland the lightweight championship of England, but in any event I shall in the future try to justify the good opinion that the people of St. John's have been good enough to form of me.

With thanks also to the Press for uniform courtesy, and with every good wish to the athletes of the city.

Yours very truly,  
YOUNG OLSEN.

### Cook Again.

Editor Evening Telegram.  
NEW YORK, Jan. 3.  
Wm. L. Cook, brother of Frederick A. Cook, detained to-day that Mrs. Cook had joined her husband and that he was in communication with them. Mrs. Cook is believed to have the explorer's original records of his North Pole quest in her possession. Dr. Cook has by no means abandoned his intentions to prove despite the verdict of the Copenhagen University that he reached the North Pole, and said his brother, his detractors will have a pretty bill to pay. The talk that Mrs. Cook is estranged from the doctor and that she contemplates a suit for separation with alimony is unwarranted. Mrs. Cook is standing by her husband, and will continue to do so for the future.

### Ban Removed.

Special to Evening Telegram.  
DUBLIN, Jan. 3.  
There is much interest here in the announcement of the removal of the ban against the Ancient Order of Hibernians in Scotland. Hitherto Catholics in Scotland were forbidden to join the Order. The effect of the removal of the ban will be to strengthen the Order in Ireland.

### Hewlett's Effusion.

Special to Evening Telegram.  
LONDON, Jan. 2.  
Maurice Henry Hewlett, the novelist, has entered the election fight with the two-column manifesto addressed to the workmen of England in which, describing himself, as one of yourself, gaining my living by the work of my head and hands. He reminds the workers that they form the overwhelming majority of the electors and gain everything they want by two strokes of the pencil in the polling booth. He then proceeds to declare that he belongs to no party, but intends to vote for a Liberal or Laborite, because, first, the House of Lords is a preposterous assembly, which has become dangerous to the State and must be abolished, in favor of an election body; second, because Tariff Reform is the hopeless policy of reaction, whose advocacy by the Conservatives is due to sentimentalism and vile self interest in equal parts.

### Grand Duke's Funeral.

Special to Evening Telegram.  
ST. PETERSBURG, Jan. 3.  
In the face of a rain and snow storm to-day Emperor Nicholas followed on foot the body of his grand uncle, Grand Duke Michael, as it was borne from the railway station, a distance of three miles, to the fortress of St. Peter and St. Paul. The route of march was lined on either side by a wall of troops, which ensured the Emperor's safety from the terrorists, but the greater danger from the elements he made no attempt to avoid. When he arrived at the Cathedral within the fortress the Emperor and other members of the royalty who accompanied him were drenched to the skin. Fear was expressed that His Majesty might suffer an attack of pneumonia as a consequence of his exposure, and the Requiem Mass was delayed for an hour to permit of a complete change of clothing. The body of the Grand Duke was received at the railroad station from Cannes, France, where he died on December 18th.

### Race Riot in Havana.

Special to Evening Telegram.  
HAVANA, Jan. 3.  
Strong race feeling has been engendered by the trouble which arose last night at the Hotel Plaza and American House over the refusal of the bartender to serve drinks to two negro Congress men. This resulted in a riot, in which no one was seriously injured. To-day the clerk of the hotel was arraigned in the Correctional Court and fined seventy dollars. An enormous crowd of negroes attended the court session and demanded exemplary punishment on account of the insult to the colored race. Senator Morua Delgado, President of the Senate, and leader of the negro element, conducted the prosecution and insisted upon the extreme penalty, which is a fine of one thousand dollars and six months in jail. The decision of the Court to inflict a minor penalty was greeted with strong expressions of disapproval. The incident has caused much excitement and there are fears of a serious race clash.

**IF FOR ENGLISH RUGBY.**  
New York, Dec. 27.—Fifty colleges of approximately eighty-eight in the inter-Collegiate Athletic Association have voted for the retention of the American football game with the elimination of mass plays and other danger plays. This was made known to-night by the executive committee of the association on the eve of the meeting to be held to-morrow.

Five institutions voted that the present game is satisfactory except in minor details, seventeen favoured the English game of Rugby, seven took a midway position between the American game and Rugby and voted that either the American game should be radically changed or Rugby substituted. The executive committee, it was announced, favoured the changes proposed by the athletic committee of West Point, and would so report to the convention to-morrow.

Among the abuses of the game the West Point committee names an "excessive desire to win at any cost, which develops a tendency to semi-professional game; the practice of employing professional coaches not identified with the college and a dependence on preponderant weight and strength instead of mental acuteness and individual skill."

The forward pass and mass attack should be abolished. The forward pass is condemned as extremely dangerous because of the unexpected position of the player during the pass. Dragging and pulling of a fallen player is condemned and penalties are provided for players piling upon a man who has fallen with the ball.

### Ketchell with Johnson.

Stanley Ketchell has finally tied up with George Little, who has Jack Johnson under his wing. Since the death of William Brit, who was manager of Ketchell when Johnson sent Stanley to the mat, Ketchell has been like a ship without a rudder, but Little has won over the game Michigan and Jack Johnson and Ketchell will now be pugilistic stablemates.

Joe Gans, former lightweight champion, is to be superintendent of Jack Johnson's training camp and chief second in the ring when the champion fights Jeffries.

Owen Moran, the English lightweight, has arrived at New York from England. He predicts Johnson will win the big fight. He says:—"Jeffries has been out of the game for a number of years, and the chances are that he has lost his judgment of distance. And when a man loses that he generally loses it for good."

### In Defence of Dr. Shea.

Editor Evening Telegram.  
Dear Sir,—Doubtless unintentionally Dr. Keegan in his recent communication to the press has left the impression upon the minds of many that Dr. Shea is responsible for the recent outbreak of diphtheria in the General Hospital. In Dr. Shea's absence I this morning saw the Public Health Officer and gathered from him that there were in his opinion two defects in connection with the institution (1). Owing to constructional faults an absence of proper cross ventilation in the basement. For this Dr. Shea cannot be held responsible, he was not consulted in the matter and the responsibility must rest with the architect, Sir Aston Webb. (2). There was no proper machinery for the disposal of soiled dressings, refuse, etc. During the alterations recently made in the Hospital the refuse-destructor was removed, and despite several requisitions to the Board of Works by Dr. Shea it was not replaced, consequently refuse could not be destroyed satisfactorily. I hold that Dr. Shea cannot be held responsible for the consequences resulting from neglect of his requisits.

I am occasionally chaffed by my friends about being the author of the "Observer" letter, and lest Dr. Keegan should be under a similar delusion I beg to state I am not "Observer."

Yours very truly,  
J. RENDELL.

### "The Young Mrs. Winthrop."

This quiet intense play proved quite a success at the People's Theatre last night. The front seats were particularly well patronized and there was a very good house. The impression made on New Year's Night was deepened, and the Company proved that it is one of the best aggregations of histrionic talent which has visited St. John's for many a long year. In the title-role Miss Julia Morton displayed much power in the emotional scenes. Mr. Steadman also gave a clever presentation of a difficult character. Miss Georgia Griffin also made an excellent showing. Miss Ardis Allworth played the part of a blind girl with much skill. The other parts were all taken commendably. To-night the play will be repeated.

On Wednesday and Thursday "The Wrong Mrs. Jones" will be staged for the first time in the city. It is full of action and humour. It is much akin in fun to Charley's Aunt.

"Father Morrice's No. 10" will cure the Cough and Cure the Cold

Are you one of those who say, "It's only a little cold", and let the cough hang on, doing nothing for it? If you are, just think a minute. It is true that most colds, if left themselves, will leave you after a while—but they leave you with the delirium of throat and lungs weakened, an easy prey to the next cold. You could you neglect makes it easier to catch the next one, and harder to rid of it, and it doesn't take many colds to give you Catarrh or a serious lung trouble.

"Father Morrice's No. 10"—Cure and Lung Tonic—is a preparation of roots, herbs and essences that prevent all this. It promptly cures away the mucus, removes the irritation and inflammation that causes the coughing, and heals and strengthens delicate membranes. Besides, it tones up the whole system and gives strength to resist the next attack.

### ATLANTIC

Yesterday afternoon the Board of Trade held a general meeting into consideration information had been received to the effect was the intention of the North Atlantic Steamship Companies, at a meeting to be held in London early this month to increase the West Bound Rates by 25 per cent. The President, Mr. G. Winter, took the chair and read a communication from the latter, Sir E. P. Morris, stating the information had been conveyed, and he thought it should be brought to the notice of the Board of Trade. It developed in the course of the meeting that enquiries had been made of the Agents of the Allan Line, the Fairbairn Lines and that they had no knowledge of such intention. A discussion ensued in which G. Knowling, Mr. C. Marshall, J. Anderson, Hon. J. Harvey and G. C. Fearn took part as to the possibility of this increase. The general consensus of opinion was immediate steps should be taken to enter a protest while there was as it would be too late after the closing had met and determined on course. Mr. Harvey was strong opinion that inquiries would be made of the shipping companies. On motion of Hon. John Anderson seconded by Mr. Chas. Marshall following resolution was passed:—

**Resolved.**—That this meeting

This is the Wonderful New Flour that has made such a sensation throughout Western Canada. Made of highest grade Saskatchewan wheat, in the newest, best-equipped, largest mill on the prairies. Made with the determination to give users better flour-value, greater certainty of baking-success, fuller satisfaction with the final result, whether with biscuits, cake or bread. Housewives throughout all the West admit that Robin Hood Flour gives all this. Therefore, Madam, it is the flour for you. This flour cannot be described in an advertisement. We use this paper merely to give the introduction—to say: "Let us make you acquainted with Robin Hood Flour." It is the guaranteed flour. If you are not satisfied with it after two fair trials, ask your grocer for your money back. He will give it to you. Add more water than usual when using Robin Hood Flour. Made of such hard, dry wheat, it absorbs more moisture—producing a larger, whiter loaf. The difference between Robin Hood Flour and other flours you have to find out for yourself. That there is a difference every woman who now uses Robin Hood admits. SASKATCHEWAN FLOUR MILLS CO. LIMITED. Moose Jaw, Sask.

ATLANTIC FREIGHT RATES. Notes From Harbor Grace.

Yesterday afternoon the Board of Trade held a general meeting to take into consideration information that had been received to the effect that the intention of the North Atlantic Steamship Company, a meeting held in London early this week, was to increase the West Bound Freight rates by 25 per cent. The President, M. G. Winter, took the chair, and a communication from the President, Sir E. P. Morris, stating that this information had been conveyed to him, he thought it should be brought to the notice of the Board of Trade, developed in the course of the meeting that enquiries had been made the Agents of the Allan Lines and the Furness Lines and that they had knowledge of such intention. A discussion ensued in which Hon. Mr. Knowling, Mr. C. Marshall, Hon. Mr. Anderson, Hon. J. Harvey and Mr. C. Fearn took part as to the steps which should be taken in view of the possibility of this increase. The general consensus of opinion was that immediate steps should be taken to enter a protest while there was time, as it would be too late, after the shipping had met and determined on their course. Mr. Harvey was strongly of opinion that inquiries would elicit no information prior to the meeting of the shipping companies.

Newfoundland Board of Trade do hereby earnestly protest against the contemplated increase, and authorizes the Council of the Board of Trade to frame a suitable Resolution embodying these views and to cable the same to the Steamship Companies interested. Born at midnight on Friday, not to any particular people, but to all the world—rich and poor alike—A New Year, 1910. We welcome the stranger. His 1909 brothers are all gone, and he comes to us an unknown stranger. He has 365 days in store for some, which he will give but one at a time. These days are to be ours, to do as we desire with them. Let us all aim to live them so we can look back with pride and pleasure on each of them. Helping the poor, doing good whenever an opportunity offers, and a kind word and a smile to all are ways open to the most of us. May he hold in store for our farmers and fishermen good returns for their labors, and contentment, joy, peace and prosperity to us all. Mr. W. Noel, of the Surveyor General's department, is in town spending the Christmas vacation with his parents, Rev. Canon and Mrs. Noel.

The schr. Bonanza, owned by J. J. Morris, Esq., of Three Arms, N.D.B., put into Carboner on Thursday after a passage of 12 days from Conche, where winter weather had set in. Dr. Charles Cron, of Hermitage Cove, spent Christmas at the home of his parents here, Mr. and Mrs. James Cron. Mr. Barton Greene arrived from Cupids by Monday night's train, and returned by Saturday evening's train. Mr. John Butt, of the post office staff, accompanied him to Cupids, where he will stay a day or two. The popular theatre, "Please U," is open again, and the pictures shown are considered very good. On Saturday evening a special programme had been prepared, and the British band was present and treated the large audience to some very pretty selections. A fearful storm of wind was experienced here on Thursday night and early Friday morning. Fences were blown down in all directions and three schooners were driven from their moorings and out to sea. One of the C. E. W. A. held their Annual Christmas tea on Tuesday, the 27th ult., and although most of our men were working on the "washouts" the nice sum of \$35 (thirty-five dollars) was raised, which will be devoted towards the fund for the re-building of our Parsonage. Mr. Courage, of Queen's College, was here Christmas Day and the following Sunday to help Rev. Mr. Caldwell with the services. The day school was closed December 23rd and will re-open January 10th. The teacher, L. J. Harnum, left for his home at Heart's Delight, to spend Christmas with his father, but owing to the storm of Christmas Eve his coach did not get across the country from Carboner. He came back again Wednesday night. The Dr. Roe Medicine Co. came here Thursday last and held a concert in the Orange Lodge. Those who went to hear them were greatly disappointed, as the whole thing was purely a farce. The old year with all its joys and sorrows has passed away, and now we are entering on the New Year of 1910. That it may be a bright and happy one to the Editor, staff, and the many readers of your valuable paper is my humble wish. Jan. 2nd, 1910.

Upper Gullies Notes. BY L. J. HARNUM, UPPER GULLIES. This has been a wet and stormy Christmas so far. Year by year we find "the old order changing, giving place to new." The good old snowy and frosty Christmases of our ancestors' days are gone, and instead of them we have the rain and mud. No joyful sleigh bells can be heard, and in fact nearly all the enjoyments of Christmas-tide have passed away. The C. E. W. A. held their Annual Christmas tea on Tuesday, the 27th ult., and although most of our men were working on the "washouts" the nice sum of \$35 (thirty-five dollars) was raised, which will be devoted towards the fund for the re-building of our Parsonage. Don't Cough! It's Dangerous! "Father Morriccy's No. 10" will stop the Cough and Cure the Cold

Are you one of those who say, "O, it's only a little cold," and let the cough hang on, doing nothing for it? If you are, just think a minute. It is true that most colds, if left to themselves, will leave you after a while—but they leave you with the delicate lining of throat and lungs weakened—an easy prey to the next cold. Every cough you neglect makes it easier to catch the next one, and harder to get rid of it, and it doesn't take many such colds to give you Catarrh or some serious lung trouble. "Father Morriccy's No. 10"—Cough Cure and Lung Tonic—is a preparation of roots, herbs and Balsams that will prevent all this. It promptly clears away the mucus, removes the irritation and inflammation that causes the coughing, and heals and strengthens the delicate membranes. Besides, it tones up the whole system and gives you strength to resist the next attack. Trial bottle, 25c. Regular size, 50c. At your druggist's, or from Father Morriccy Medicine Co., Ltd., Chatham, N.B.

Installation of Officers.

The following officers were installed at the annual regular session of the Atlantic Lodge, No. 1, I. O. O. F., at their rooms in the Exchange Building last night, installed by the District Deputy Grand Master, Bro. J. C. Phillippe, P. G., assisted by Bro. Geo. H. Reynolds, P. G., of Orient Lodge, No. 10, Halifax, N. S.—E. G. Williams, N. G.; A. E. White, V. G.; E. D. Spurrell, Rec. Sec.; W. T. Quick, Per. Sec.; W. J. Long, Treas.; W. T. Udle, J. P. G.; A. Long, Warden; F. Lukins, Con.; A. White, Chap.; F. Butler, I. S. S.; D. Cook, R. S. S.; E. J. Salt, R. S. N. G.; J. Moore, L. S. N. G.; W. Maidment, R. S. V. G.; G. Geans, L. S. V. G.; H. Russell, I. G.; A. Learning, O. G. After the meeting the members then repaired to the banquet room where refreshments were served and songs, speeches, etc., were given and toasts drunk. The report for the year showed the Society to be in a prosperous condition. A Lodge has been opened at Grand Falls and is working successfully. Atlantic Lodge is now under the jurisdiction of the Grand Lodge of the Maritime Provinces, having been transferred from the Sovereign Grand. A special toast was drunk in honor of the former Lodge.

of them was well known in St. John's as well as in Harbor Grace, the little schooner Pembina, formerly owned by Capt. John Spence, and which made weekly trips between this port and St. John's for over a quarter of a century. The storm was of short duration but very severe, and there are few houses in this town that did not tremble with the force of the wind.

The wind played some curious pranks to, tearing down trees and lifting ladders from houses; but the most curious freak is that to be seen at the rear of Mr. Robert Payne's residence on Water Street. An inch board, about 20 feet long and eight inches wide, was hurled from the adjoining premises with such force that it entered the west side of the roof of his cellar, and passing right through in a straight line penetrated the other side, and about four feet of the board is now out through the east side of the roof. The shingles and rafters were quite well secured, and this will help to give an idea of the force with which that board was hurled at the cellar.

That valuable old society known as the Conception Bay British Society held its annual parade and church-going on New Year's Day. The brethren met in their fine hall at 3.30 a.m., and after opening as is the custom, with their fine hymns, Mr. J. A. Rogers, spoke a few very nice words to the assembled body. The band, under the direction of Prof. W. H. Kennedy, then came forward and played a suitable piece for the Society. The President thanked the band, and at the request of the Society he extended to Mr. Kennedy and his family the best wishes of the body for a very happy and prosperous year. Mr. Kennedy replied, thanking the body for the good wishes and extended to them all the season's compliments. The President announced that he had just received a telegram from the President of the parent society, A. H. Martin, St. John's, in which he conveyed the best wishes of the N.B.S. to the C.B.B.S. To this Mr. Rogers replied, forming in line, and headed by their fine band, which is now considered second to none in the Island, the society proceeded down Victoria Street, up Water Street to Pippy's Lane, and down Harvey Street to Christ Church, where they were treated to a most instructive address by the pastor, Rev. Chas. Carpenter. The rev. gentleman spoke on the law of heredity, and exhorted all to endeavor to stamp out disease, and so live that they would hand down to future generations healthy bodies free from disease. His remarks were very timely, and we trust, in fact we have heard, that good resolutions were made right there at that service that will result in future good. Leaving the church the society proceeded on its way down Nond Street and Water Street to Bear's Cove, and back to the hall by way of Harvey Street. The parade was a delightful one, the brethren turned out in large numbers, and with their splendid band made the parade one of the best ever held by the body here. Returning to the hall some of the brethren spoke a few words of congratulation to the very orderly manner in which the parade was held, and also made reference to the able discourse of Mr. Carpenter, thus bringing to a successful close the British parade for 1910.

CARR'S BISCUITS.

Christmas at the Methodist Orphanage.

The holiday spirit was in the air for several days previous. Every once in awhile the door bell rang and mysterious looking parcels were carried in. Snatches of "Merrily chime, yes merrily chime, Happy bells of Christmas time," or portions of carols were frequently heard floating from basement, halls, or sewing room, also from the school-room, evenings as preparations were being made for the entertainment. It was impossible for the children to keep their thoughts upon their lessons, so the previous day was given as a holiday. Every child had on her good behaviour test Santa should pass by the naughty ones. Snatches of conversation were sometimes heard, such as "I hope I get a dolly," "I hope I get hair ribbons or handkerchiefs," "I hope I get a workbook," and so on. It was late on Christmas Eve before we could say, "All through the house Not a creature was stirring— Not even a mouse." It seemed impossible to settle down to sleep with so many mysteries unsolved. In the morning the children were allowed to peep at the tree, but Santa could not come until after the morning service and dinner dishes were cleared away. We marvelled at the wonderful patience exercised. All came home from the morning service with an excellent appetite to enjoy the good things so bountifully provided. The table was decorated with roses in bloom, grown in the Orphanage, and holly sent from Vancouver by Miss Cookman, the former Superintendent. The roast geese, which the children persisted in calling "turkey," were especially enjoyed by all. After their song of thanksgiving and dinner work was finished, the 38 children and the guests assembled in the school room for the programme. Just as the children were taking their places on the platform to sing their first chorus, "It came upon the midnight clear That glorious song of old," Santa appeared looking rosy and happy in spite of the large sack he carried over his shoulder, and deposited it at the bottom of the tree which was already laden. The chorus had to be delayed owing to the excitement of welcoming Santa Claus. It was impossible to keep eyes closed during the chanting of the Lord's prayer, which followed. Santa said occasionally eyes would open to take a sly peep. But who could chide them for irreverence when Santa was "peeping" himself? After an excellent programme of choruses, solos, exer-

cises and recitations by the children and deaconesses, Santa emptied his sack on the floor, and such an exciting time followed. As the parcels were so numerous Santa had to be assisted by the deaconesses. One child sat on the floor with her lap full, unconscious of the many passing to and fro around her. Another was so taken up with her doll and its cradle that she paid no heed to her name called several times over for her bag of candies. Another girl exclaimed, "Thimble! and 3 of them. The very thing I wanted." When the thirteenth one finished taking out the contents of her bag, she said, "O, I just loves Santa Claus." After the tree was stripped of its treasures the children were left to enjoy their gifts while the deaconesses went to the sitting room to open their parcels. There were many surprises from friends in the home-land as well as from the friends they had won here. After tea came songs and games, and all felt a feeling that it had been a very happy Christmas indeed. We wish the kind donors could have heard the three cheers given by the children in honor of all who had contributed toward making Christmas such a happy one for all. The names of those to whom we extend our sincerest thanks for making this Christmas the brightest and best for the children by their generous donations of fruit, sweets, toys, fowl, cakes, money, etc., are: Messrs. James Lidstone, L. G. Ayre, Goodwin, McIntyre, Mr. and Mrs. Jas. Foote, Mr. and Mrs. Pratt, Messrs. M. A. Bastow, Geo. Neal, R. Cross, Sidney Woods, F. B. Wood, T. J. Mas de la Ville Wines.

GROWN IN FRANCE. THE GRAPE CURE AT HOME. Add to the highly nutritive qualities of grape-juice—a bottle of Mas-de-la-Ville contains from four to six ounces of grape-sugar—the laxative and regularizing virtues it owes to the gummy or mucilaginous matter it contains, and you will readily understand why the grape cure has for a long time been so popular in grape-growing countries. This cure, however could only last as long as the vintage; and men of science have for some time been trying to devise a way of preserving the grape-juice without its fermenting or losing any of its valuable and wholesome properties. Several attempts in this direction have been made in grape-growing countries, and even in Great Britain; but we do not know of any so successful as that of the Mas-de-la-Ville, where the fresh and fruity taste of the grape has been so remarkably preserved.
