Harold Bell Wright's Latest Novel,
"WHEN A MAN'S A MAN,"
 is a fine big wholesome Novel of simple sweetness and virile strength, while the pages are crowded with the thrilling incidents that belong to the adventurous life of the unfenced land depicted, one feels, always, beneath the surface of the stirring scenes, the great primitive and enduring life forces that men and women of the story portray. In the Dean, Philip Acton, Patches, Little Billy, Curly Elson, Kitty Reid and Helen Manning, the author has created real living, breathing men and women, and we are made to feel and understand that there come to everyone those times when in spite of all, above all, and at any cost, a man must be a man.

The Story of the 1st.

From a letter to Mrs. Fitzgerald from her son Jim:—

On the morning of July 1st, at 6 o'clock, the attack was opened up by our artillery. For the six days immediately preceding we had kept up an incessant fire on the enemy's trenches. It was nothing, however, to the terrific fire which now opened up, the tumult was awful. It was one continuous roar, and thus it went on for an hour and a half. The enemy's retaliation was but slight; apparently he was reserving his fire. While the bombardment is on we will consider our plan of attack.

Each line of enemy trenches consists of three trenches, firing line, support trench and reserve, all connected by communication trenches. The 86th Brigade were to go on first, their objective being the first line, the 87th were to take the 2nd line and the 88th the 3rd and last line. Two Battalions went over together, closely followed by the other two in support, the other battalion of the brigade following in the same order.

At 9.20 a.m. one of our mines consisting of 25 tons of dynamite was set off, blowing up the village of Beaumont Hamel, just behind the German 1st line.

The German machine guns opening up at 7.30 a.m. told that the 86th had started the game. The crack of the machine guns and the hiss of the bullets could be heard distinctly above the roar of our artillery which now had lifted from the 1st to the 2nd line. Soon rumors came to us that the 1st line had been taken and that the 87th had gone over. Wounded men now began to come in to our lines and these told us that the 86th had failed to achieve their object. The 87th were now to endeavor to take and hold the 1st line.

Our battalion was to be the first of the 88th to go over. The word came down the line "twenty minutes more to go"; it was quickly followed by a call for company commanders and now we learned that though some of the 86th and 87th fought their way to the enemy first line, they were not strong enough to hold it.

At 9.20 a.m. we climbed over to endeavor to get where six battalions of brave men had tried to get and failed. But as we put it ourselves we meant to go right to it, and a General has said that "what you Newfoundlanders couldn't do nobody else could," and it seems he meant it, for we were the last battalion to go over, the others being held back. However to resume, our men marched across the open as if on parade. Many were smoking cigarettes, whilst those who were lucky enough to have a piece of 'Mayos' were exercising their jaws. Some faces were drawn, tense and determined looking, while some chaps were smiling and joking. The enemy machine guns were now in full play. The air seemed full of hissing pieces of lead all bent on the same grim errand. Our comrades began to fall all round us, and now a man stood alone where before a section had stood; he did not stop, however, on he went. Those who were left standing instantly dropped. Shrapnel shells were bursting overhead, eager to claim their toll of human lives too. Just outside our own barbed wire some thing struck me and I crumpled up like a wet rag; for a time I thought it was all up, but after a while I man-

aged to get to a shell hole. The ground around was strewn with dead and dying. Many, slightly wounded were returning to our own trenches, while others harder hit were painfully drawing themselves along the ground in an endeavor to seek shelter of some kind. There was very little groaning and no shouting. The boys of Newfoundland showed that morning that they could die like men. Many of them reached the enemy barbed wire and there they fell. Some indeed got in the enemy trench and died fighting there, or held until ordered to retire. The enemy were now shelling our trenches heavily, and even those who were slightly wounded were forced to remain out for a few hours. The enemy machine guns fire had subsided somewhat. Every now and then they would open up on a wounded man whose pain caused him to make some comment. Many of us remained out all day suffering no less from the burning glare of the sun than from our wounds. Towards evening, some became delirious and began shouting and talking. The enemy answered their cries with a hail of bullets. Towards night by a supreme effort I managed to get on my feet and succeeded in reaching our trench. How I did it I do not know. For two weeks after I lay on my back unable to move and even now am not allowed to get up.

From wounded who came to the hospital a few days after I did, I learned that during the night of the 1st, the enemy had shelled between the lines; thus many a poor chap was killed, who before had not been even severely wounded.

As I mentioned before we were the last out. Seeing that it was only a useless loss of life the other battalions were held back and the attack ended for that day. Our division had failed in its object; but yet they had achieved success, for by engaging the enemy at that point we had kept him from sending reinforcements from that to more important places on the line.

Our wounded say it is only now they are beginning to enjoy the war. It's a good game, they say, and the next time they will see how much further they can get.

LARGEST MAIL YET.—The English mail which was sent by the Furness Liner Durango last night was the largest to leave here, we learn, since the beginning of the war.

Former Bay of Islands Boys

Doing Their Bit in the Canadian Club of New York.

The hearts of Canadians wherever found were stirred by Canada's ready declaration to do her part when this mighty struggle began of "Arms against Arbitration." Nowhere was this more evidenced than in the Canadian Club of New York, where the desire for participation at once put the question "What can we do to help?"

At the first meeting voluntary offerings enabled them to send \$1,000 to Ottawa as a contribution to The Canadian Patriotic Fund. Since another \$1,000 check has been contributed to this fund, and again in response to the inquiry, "What can we do to help? Where is there a real need we can care for here?" Ottawa responded, "Provide against the suffering and want among the dependent ones on your side of the line left behind by those enlisting in the Canadian Regiments, as these are outside of our jurisdiction." This work throughout the entire State of New York is now being done.

"What more can we do to help?" was again asked when Surgeon-General G. Sterling Ryerson, founder of the Canadian Red Cross Society, addressed the Canadian Club of New York last February. He replied, "Motor ambulances are needed." As a result, seven ambulances marked "Gift of the Canadian Club of New York to the Canadian Red Cross Society" are now at the front.

We have just received the Canadian Club of New York 1915-1916 Year Book and special mention of members Mr. J. W. Fisher and others, who still boast of being Bay of Islands boys. Their friends here are glad thus to hear from these sons of Bay of Islands and their efforts at doing their bit through the Canadian Club of New York. We shall watch for further evidence of activities gratifying to their Bay of Islands friends.

Dr. O'Connell Heard From.

Mr. Geo. J. Coughlan, Secretary of the T. A. and B. Society, received a letter from the society's physician, J. I. O'Connell, M.D., now at Shorncliffe, England. It will be remembered that Dr. O'Connell left here several months ago and joined the St. Francis Xavier Medical Unit for active service. On reaching England he was soon after placed in charge of the Moore Barracks Hospital, at Shorncliffe, an institution with 900 beds. Immediately on arrival the medical unit was split up and despatched to different hospitals in England and France. Miss McGrath, of St. John's, was sent to the base hospital in France. The doctor speaking of Private J. G. Higgins and other Newfoundland members of the R. M. C. and the R. A. C. says they are all doing well and in the best of health and spirits.

LABRADOR SHIPMENTS.—A couple of steamers and several schooners are now on their way to the Labrador to load fish. It is expected that the total shipment of cod, this year's cure, from the Labrador this season will be unusually large.

Keeps Children Well Makes Them Robust

HERE IS GOOD ADVICE FOR THE HEAD OF EVERY FAMILY.

Rapid growth, work at home and in the school-room, are sure to tax the strength of every child, and often prove the beginning of a chain of weakness that lasts through life. Give your sons and daughters a fighting chance! Give them good home surroundings, fortify them with education—but above all else do everything possible to insure for them perfect health in years to come.

In no way can you destroy weakness and build up health so surely as with Ferrozone. It's the concentrated nourishment in Ferrozone that enables it to do so much good. It contains the very best elements that are needed in building up bone and sinew, in vitalizing and strengthening the blood. The appetite Ferrozone brings will gladden any parent's heart, and when color, spirits, vim, and energy increase day by day then you know what grand work Ferrozone is doing. Because it makes and keeps you healthy, because it is pleasant, harmless and sure to do enormous good—your children should use Ferrozone every day. Sold by all dealers in 50c. boxes, six for \$2.50, or direct by mail from the Catarhozone Co., Kingston, Ont.

Our Volunteers.

Eleven young men presented themselves for enlistment yesterday at Recruiting Headquarters. Their names are:— Samuel H. Butt, St. George's. Chas. Baker, Burin. Fletcher Mayo, Burin. Wm. Crickard, St. John's. Nicholas Hrien, St. John's. Fred. Uille, St. John's. Augustus J. O'Neill, St. John's. John T. Murphy, St. John's. Victor Cranford, St. John's. Arch. Crocker, Sound Island, P.B. Eliza Gould, Flower's Cove.

At the City Hall.

The weekly session of the City Council was held last night. The full Board was present.

Mr. R. B. Job's request for a 3 inch water service to Rostellan was referred to the Engineer.

Permission was asked by the Reid Company to take away electric light poles in Carter's Hill.

The lighting of the city generally was then discussed and the consensus of opinion of the Board was that the lighting was not satisfactory, considering the cost. The matter was referred to the Engineer for report.

Some citizens asked that the City Impounder's hours be from 8 a.m. to 3 p.m., it being claimed that the Impounder worked late at night. A motion was put to bring the new hours into effect, but was lost on a vote.

Plans of extension of Presentation Convent, Cathedral Square, were submitted by Architect Barter and were approved.

The Colonial Secretary's communication, pointing out that a depuration of Southside residents had protested against the diversion of the road following the installation of the oil storage plants there, was referred to the Engineer.

The Colonial Secretary also wrote intimating that a loan of \$10,000 would be given for further extension of sewerage under the Small Homes' Act, on terms similar to loans already granted.

A. Burt, Bakery Road, wanted water and sewerage and was willing to pay for it. Referred to Engineer.

Plans of proposed building Leslie Street, submitted by S. J. Abbott, were approved.

The Engineer was ordered to report on Mrs. M. Lash's request to repair her house on Lime Street.

Leave was granted J. J. Mullaly to repair house on Garrison Hill.

James Brennan's plans of proposed houses at corner of Casey and New Gower Streets were not accepted, as they would not improve street line.

John Ryan asked to repair two houses on Carter's Hill. Referred to Engineer.

Permission was given F. Coleman to repair house on Cabot Street.

E. L. Carter, Solicitor, submitted opinions of the Judges of the Supreme Court re case of City vs. A. Parsons, showing that the Judges had referred the matter back to the Council. Mr. Carter, who is acting for the Council will be asked to attend a special meeting of the Board when the matter will be gone into fully. It was the opinion of the Mayor that the Solicitor's office should be in the City Hall so that he could be available when meetings are on.

One of the Sanitary staff was dismissed, reported Supervisor Dwyer. Two Councilors will investigate the trouble.

After the reading of the Engineer's report and the passing of pay rolls, etc., the meeting closed.

This 4-Ounce Tin

Holds a soluble powder for making about 50 cups of a delicious beverage that is fast taking the place of tea and coffee in thousands of homes—

"There's a Reason"

Postum, made of wheat, roasted with a bit of wholesome molasses, is a pure food-drink, brimful of the goodness of the grain, and entirely free from the troubles that often attend tea or coffee drinking.

If tea or coffee don't agree, use

POSTUM

It comes in two forms: The original Postum Cereal, which has to be boiled; and Instant Postum—soluble—made in the cup—instantly.

Made right, both are equally delightful, and the cost per cup is about the same.

The Galician Drama.

Three weeks ago the London Times, speaking of the Russian campaign in the East, said, "When we hear that he (the Austrian General Bothmer) is falling back from the Strava to the Zlota Lipa then, but not till then, we may know that this long series of conflicts south of the Priepet marshes is nearing emphatic results." Notwithstanding all that has happened since then, Bothmer has not yet fallen back to the Zlota Lipa, but the Russians have crossed it. The whole position is of the greatest interest. Despite Berlin boasting, it is pregnant with peril to Bothmer and his army, and his too tenacious stand may prove his undoing.

The disposition of the opposing forces is such that even the map, that dry skeleton of living facts, shows us how interesting it is. From Brody a Russian army is bearing down transversely, as the compass lies, upon Lemberg. Below Stanislaw another Russian army aims at it likewise and at an equal angle from the other direction. Between the points of this arc, but east of both of them, Von Bothmer holds his line, not far from Tarnopol. The threat behind him is obvious should either, or both, of the Russian armies progress much further. At present they are wide apart and the Austrians may think there is no immediate danger; but the Russians have a way of doing things rapidly. Their advance on Stanislaw has been of this nature: Chryplin, which they

every other place on the map." The Montreal Star calls this "A sample of German research." The sarcasm is undeserved. It is a bit of real humour made in Germany.

Berlin says the Bremen is surrounded by mystery. Possibly it is surrounded by something else which accounts for the mystery.

Fancy Fair Draws a Big Crowd.

IS ON AGAIN THIS AFTERNOON. The beautiful grounds surrounding Government House presented a most pleasing sight yesterday, when the Fancy Fair in aid of the C. of E. Orphanage took place. His Excellency the Governor in opening the Fair referred to its object and the necessity of helping such a worthy institution as the Orphanage, which no doubt will be called upon to meet exceptionally heavy obligations as a consequence of the great war. Included in the large number of visitors were Sir Wm. and Lady Horwood, Revs. Canons Smith, White and Bolt, Rev. Dr. Jones, Revs. Uphill, Brinton, Cracknell, Moulton, Hons. R. Watson, M. G. Winter, M. P. Cashin, S. D. Blandford; J. S. Munn, T. Cook, R. B. Job and many other prominent citizens.

The grounds, which were gaily decorated with flowers and bunting, with clean white tents pitched beneath the shady trees, and with the ever busy ladies in their old time costumes bustling the slow ones along to the tea tables, presented a scene which brought us back to the old days of "Merry England." One of the most important features of the Fair was the display of war trophies, exhibited in the billiard room of Government House and including steel helmets, 18 pound shell cases, bombs, sun helmets, worn in Egypt, the equipment carried by "Ours" in Gallipoli, and consisting of pack, water bottle, ration bag, bayonet and ammunition pouches, gas helmets, 1st field dressings, guards for hand and rifle, trench coats, parts of periscope, knives, leather coats, matches, and various other articles including several snapshots taken by Private Evans who returned recently. The different instruments of war, how they were captured and their use, were explained by Sergeants Edwards and Noonan, Lt. Corp. Crossman, Privates Gladney, D.C.M., and Evans. The little ones were amused by the swings, rides in a cart drawn by a large Newfoundland dog, or on the back of Mrs. M. W. Furlong's donkey. The boys of Mount Cashel performed their dances much to the delight of the vast throng of people who could not but admire the lads in coming forward to help, by their dancing, to swell the funds of their brother and sister orphans at another institution. The boys in blue from H.M.S. Briton added much to the success of the day. Mr. Macklin, in charge, Mr. Willard, the ventriloquist, excelled all his previous performances. The Maypole Dance under the supervision of Miss Brennan, was gracefully rendered by Misses Major, Oke, Edwards (2), Lewis, Hirst, Williams and Chate.

Through the kindness of His Excellency and Lady Davidson the sale of work and flowers took place in the Government House. Afternoon and general teas were served in the hall. The most pleasing feature of the day was the presentation of \$100 to the Orphanage by the Pansy League. Miss Pansy, a very nice cat attached to a small cart, suddenly appeared upon Mr. Macklin's variety platform, driven by Misses Diana and Daphne Davidson, accompanied by Miss Agor, who has done good work for the League. Mr. Macklin, on behalf of the League, handed the amount to Mrs. W. G. Gosling, Secretary of the Orphanage. The knitting competition for which prizes are offered will be run off this afternoon. The old English Inn, and other buildings will also be in evidence. Sir Rodger de Coverley will be an added attraction and will be equal to the Maypole Dance. Don't forget this afternoon at Government House grounds. "Come one, come all."

A Paris Chemist Has Discovered How to Grow Hair.

In Paris the ladies have entirely abandoned wearing hats, which is due entirely to this new discovery. It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-sought-for article is proven every day. The French are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale. SALVIA makes a most pleasant dressing, and is sold by your druggist. A large, generous bottle can be purchased for 50 cents.

Gallipoli and France Veteran Returns.

On the express which reached town yesterday afternoon, Private Errol Munn, who has seen service at Gallipoli and in France, returned on sick furlough and was met at the station by the W. P. A. and a large number of friends. Cheers were given for the young soldier as he left the station in his father's car. Private Munn enlisted at the beginning of the war and was with Ours in the Gallipoli campaign, and after evacuation of the Peninsula was stationed at Cairo, Egypt, whence he was later removed to France. About a week previous to the big drive, Munn in company with several others was doing some advance work in the front trenches when a shell burst over their heads, fragments of which struck the young soldier in the back, fracturing three of his ribs and wounding several of his comrades. After spending some time in hospital where he regained sufficient strength to make the journey across the Atlantic. He boarded the Royal Mail boat Grampian at Liverpool bound for Montreal, and eventually reached home yesterday.

In Memoriam

RICHARD ROACH.

Richard Roach, the popular and well-known Blacksmith and Customs Officer, died at Topsail on Sunday morning last. The deceased was born in the City of St. John's sixty-seven years ago, and when quite young was apprenticed to an apprentice to Andrew Carroll, to learn the blacksmith trade. When he had served his apprenticeship and shown himself to be a skillful and worker of vulcan his father died, and he and his brother Patrick, now of Manuels, and together in connection with the smithy carried on for some years at Outer Cove a fishing and farming business. Forty-one years ago last October he settled at Topsail and established the blacksmith business which he carried on successfully until ill-health compelled him to retire and hand over the business as a going concern to his favorite son Patrick, who now manages it. The late Mr. Roach was twice married. His first wife was Frederica, the only daughter of the late Mr. and Mrs. William Allan, proprietors of the once well and favorably known hostelry of Topsail. The late Mrs. Roach is long since dead and only three—Patrick, William and George—of the nine children of this marriage are now living. His second wife was a Miss E. Flannery, of Topsail East. But she, too, and one of the two children of the second marriage predeceased him.

For some years past Mr. Roach had been under treatment for some inward trouble, but three years ago his sickness reached the acute stage and though his case had the medical aid and skill of Drs. Chisholm, Duncan and Macpherson, they could not arrest the progress of the disease which carried him off on Sunday last. His spiritual wants were ministered to by Revs. Frs. Nangle and Kelly, who smoothed his path and prepared him well for his journey into eternity.

His funeral took place on Tuesday evening last from his late home to the Topsail R. C. Church where the burial service was recited by Rev. Fr. Kelly, who at the conclusion delivered a beautiful panegyric over the bier of his departed friend; and thence to the cemetery near where his remains enclosed in a nice coffin covered with wreaths, were interred in the family plot beside his wife Frederica and deceased children. The funeral appointments were in charge of Undertaker Allan. It was one of Topsail's big funerals, people of all denominations from the city, South Shore and head of Conception Bay attending in large numbers. The Star of the Sea Association of Holyrood, of which he was an old member and the Star of the Sea of Topsail paraded at the funeral.

In the death of Richard Roach, Topsail has lost a good citizen, the R. C. denomination a leader and the traveling public an old and tried friend. He was a big-hearted, outspoken, generous man, a good neighbor whose home was a home to the travelers far distant. A staunch Liberal and a hard fighter and hitter for his cause. In short, religiously, politically and socially Mr. Roach was a leader, and the beautiful panegyric delivered by Fr. Kelly over his bier, and the message of sympathy conveyed by him from His Grace Archbishop Roche, once Pastor of Topsail for a number of years, to the relatives, both bore eloquent testimony of the sterling qualities of their late lamented and universally respected deceased friend.

To his three sons, Patrick, William and George, his daughter, Mary, his brother, Patrick, and his daughter-in-law, Winnifred, who tenderly nursed and cared for him during his long illness, we tender our sincere sympathy and pray Almighty God to have mercy on the soul of our dead friend.—Com.

Don't Whine.

By RUTH CAMERON.

WHINING CHILD.

"Take that sentence out. I know you didn't mean it, but it sounds like a whine, and it never pays to whine in business. The rest is all right."

"That is what a business man said when I showed him a tentative copy of an important business letter I had been writing.

"I drew the blackest line my pen could make through the offending sentence.

"I felt ashamed of myself. True, I hadn't meant to whine, but I had done it unconsciously I had reason enough for shame.

People Don't Realize They Are Whining.

Most whining is unconscious. The whining child doesn't realize he is whining.

My mentor said, "It never pays to whine in business.

I agree with him and more than agree.

It never pays to whine anywhere.

Whining is one of the worst habits anyone can possibly have.

In children it is the unforgivable fault.

I can't see why mothers do not combat the habit the instant it appears, both for their children's sake and in self-defence.

Is There Anything More Wearing Than A Whining Child?

For to be in constant contact with a child in whom the whining habit has become fixed is enough to wear the strongest nerves to a frazzle.

In its inception the whining habit

can easily be overcome. I know because I have seen it done by a mother whose four children each passed through the stage when a wish is father to a whine.

She had two methods. One was to repeat the child's words in the same unlovely tones. I have seen a baby of three respond to that treatment. If that failed she simply refused to grant any wish expressed in a whine.

The definition of a whine is, "the nasal childish tone of mean complaint."

Older people do not whine in their tones so often as in the spirit of their remarks.

You Can Explain But Not Excuse A Whine.

Now and then you find a woman with a whining voice, but more often you meet the whining spirit.

Often times these people have a great many trials and troubles and they think that excuses the whining. It explains but does not excuse. No trouble is great enough (or little enough) to excuse a whine.

A fine spirit may be bowed down by the greatness of its troubles, but it will never whine.

To whine over troubles is the ultimate cowardice.

And if that is not enough, it is also short-sighted, for nothing kills sympathy and pity quicker than a whine.

From Fortune Harbour

On Friday last, August 4th, the Ladies of the F. I. Guild treated a large number of children to a very pleasant "afternoon tea" in the Union Hall. It had been decided upon to hold a picnic, but when the day arrived the weather proved unfavourable for out-door sports, and the children together with the Guild Ladies and a half-dozen other interested friends, assembled at the Hall where a most tempting repast presented itself. After tea had been served to all present, the little ones assisted by the older ones indulged in various games and romps, the principal feature being the prize contests, in which all took part. Races and feats of smartness were arranged and carried out, till each child received something as a souvenir of the day.

The object of this event was a double one, viz: that of impressing upon the growing youth the fact that as British subjects, we should act in accordance with true British sentiment, and security that we should cultivate the Divine virtue of Charity, by helping, so far as lay in our power, the great and just cause of the nation. Every child gave a donation of 5 cents and the others at least 20 cents each which brought the collection up to nearly ten dollars (\$10.00). This amount goes to the Cot Fund, and although small was freely given, while the fact that a larger sum was not raised speaks volumes, not for those who gave it, but for the number who remained away, or failed to appreciate the efforts of the willing ones.

What we ask, will it take to awaken the charity of some of the memory of our own dear boys, dying, mangled and bleeding on the battle plains of France (to save us from everything inhuman) fall to arouse it. Let us only imagine ourselves walking through those places where the very noblest and best of our boys are freely spilling their blood for us. Could we do it, and remain unchanged? If so, leave us as we are. God certainly knows the extent of our

SLAUGHTER.

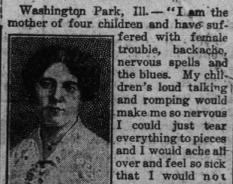

WILT MASON.

"We killed a thousand Germans," remarks the dauntless Russ; "this sort of thing determines the victory for us. We captured many rifles, a mortar and other warlike trifles, which shows we're going some." As frolicsome as kittens we marched into the fray, and slew ten thousand Britons," the fighting Germans say. Each day we read the story of death and all its works, of Frenchmen dead and gory, of desecrated graves, of the Prussian and the Roman go forth to fight each morn; perhaps they shear the foeman, and maybe they are short; the sum of all their striving, is useless, empty, vain: The warriors surviving may brag of those they've slain. Far better would be boasting of fields of oats and rye, of corn ears fit for roasting, and pumpkins ripe for pie; of orchards nobly bearing, and gardens filled with greens, and hardy vines a-wearing a wealth of Lima beans, of large green watermelons grown in the fertile mud—but kings and kindred felons are not yet tired of blood.

I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."

—Mrs. ROSE SPROL, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

Everyday Wisdom

By DON HEROLD.

ICE-CREAM.

When the women folks order us to widd up a freezer of cream, we think we would rather be sentenced to the electric chair, and we wonder why people freeze their own soap or carpets any more, or their own electricity, and why should one member of the family be killed off or crippled for life, in a perpetuation of that antiquated practice of freezing ice-cream at home, even if all the other members of the family are given great delight through the fruit of his sufferings? All for a quarter it is done! For a quarter you may purchase a whole bucket full of ice-cream at the corner drug store, but the women folks say "No." They say, "Henry, the freezer is ready to turn." There are two things at least that are hard to understand about women: one is the passion with which they prefer soft water, over hard, for washing their hair, and the other is, why don't they send their ice-cream freezing out like they do their laundry!

An ice-cream freezer is much like a broncho. If it were docile and stood still and let you freeze it, peacefully, that would not be so bad, but you have to follow it around, you have to manoeuvre it, and sit on it, and throttle it, and sit on it, and get it into a corner and clinch with it, and every time you turn it have it tend to fly out of your hand. It is as elusive as a piece of wet soap.

And the women folks "go upstairs or into the house, and you hear them singing as you suffer. Eventually, weeks later it seems, they come down with a spon and lift the lid off, careful not to get any salt in the cream, and they look and invariably say one set thing. Women are cruel, deep down at heart.

"They say: "Oh, no, it isn't half done yet!"

They say it ought to have about 350,000 more revolutions, and you are the guy that gives 'em.

AT THE CRESCENT.

This week end programme at the Crescent Picture Palace is a very fine one. Louise Vale, Gretchen Hartman and Franklin Ritchie are presented in "Between Father and Son," a strong political feature in two acts. "The Escape of Broncho Billy" an Essanay western drama featuring G. M. Anderson. "The Painted Lady" a Biograph melo-drama with a strong cast including Blanche Sweet and Joseph H. Mades. "The Missing Mummy" is a great comedy with Bud Duncan and Ethel Pearce. A new musical programme accompanies this big show. The usual big matinee on Saturday afternoon; send the young folks.

YOUR BOYS AND GIRLS.

Children like candy because of its properties of sugar, a food quickly absorbed by the human system. The purpose of the food is to supply the energy that is wasted by physical exertion. Some foods more than others contain the elements necessary to furnish this supply, and vary in the time required to feel their benefits.

Sugar is actually turned into real energy within a few minutes after it is eaten and candy gives a quick supply of the energy called for by the activities of youth. Thus the constant need of energizing force by children leads them instinctively to crave candy.

BRITISH OFFICIAL.

LONDON, Aug. 10.
An official this evening says the position is unchanged along the whole British front. Some parties of the enemy, advancing against our line, southward of Martinpuich were effectively dealt with by our trench mortars and machine guns. No hostile attack developed.

Our aeroplanes continued bombing operations against the enemy billets and other points of military importance. In the course of many aerial combats yesterday several enemy machines were driven down in hostile territory. Three of our machines have not returned.

FRENCH PROGRESS.

PARIS, Aug. 10.
Further progress for French troops north of Hem Wood in the Somme sector, is announced in an official statement issued by the French War Office to-day.

FORD ZIOTA LIPA RIVER.

PETROGRAD, Aug. 10.
Russian troops have forded the Ziota Lipa River in Galicia, east of Stanislaw, in continuation of their progress eastward, along the Monasterzyska-Nizniol Railway, says an official statement given out by the War Office this evening.

AUSTRIAN OFFICIAL.

VIENNA, Aug. 10.
An official issued from General Headquarters to-day says that owing to the situation brought about by our evacuation of Gorizia bridge head, the town has been given up after a sanguinary repulse of fresh Italian attacks on Doberdo plateau. The necessary straightening of our lines was carried out unhindered by the enemy. We have captured 4,000 Italian prisoners the past few days.

ALLIES PRESSING THE ENEMY.

NEW YORK, Aug. 10.
The Paris correspondent of the Tribune cables that the Allies are now in full tide, carrying out their great plan, that is pressing the enemy all the time, on every front, and giving no respite. The entry of the Italians into the scheme with their big offensive against Gorizia and Montefalco has completed the chain encircling the Central Empires.

FRYATT'S MURDER.

LONDON, Aug. 10.
The Foreign Office has made public a letter of Viscount Grey to the American Embassy here, requesting Ambassador Gerard in Berlin to convey to the German Government the British Government's desire to enter a most formal protest against the execution of Capt. Fryatt by the German authorities in Belgium. This execution, says Viscount Grey's letter, the British Government can only describe as the judicial murder of a British subject held as prisoner of war by the German Government, under conditions in direct violation of the law of nations and the usages of war.

APPOINTED GOVERNOR GENERAL.

LONDON, Aug. 10.
General Kuropatkin has been appointed Governor General of Turkistan, a Central News despatch from Petrograd to-day states. General Kuropatkin, who was Chief-in-Command of the Russian forces in Manchuria, at the beginning of the Russo-Japanese war, was appointed Commander-in-Chief of the Russian army on the northern front in February 28, and succeeded General Nicholai Ruzski.

BELGIANS PURSUING HUNS.

HAVRE, Aug. 10.
The northwest part of German East Africa is now completely in the hands of the Belgians who are closely pursuing the German forces, according to an official statement issued.

NUMBER OF PRISONERS CAPTURED.

ROME, Aug. 10.
About 2,000 prisoners were captured by the Italians at Gorizia, according to an official announcement. The statement says that an accurate estimate is impossible at present, as a number of prisoners are being brought in hourly.

PROPERTY REPRISALS.

LONDON, Aug. 10.
Replying in the Lords yesterday to a suggestion of Baron Berosford that the Government, in reprisal for the execution by the Germans of Captain Fryatt, should confiscate all German property in this country and intern all Germans, the Marquis of Lansdowne, Minister without portfolio, said that Baron Berosford's suggestion was very different from some which had been heard, that we should imitate the cruelty and persecution, to which the Germans have resorted, actions which would be unworthy of this country, and would be easily out-distanced by our enemies, but even such a policy as that suggested by Baron Berosford must be resorted to, the Minister continued, with the utmost care and circumspection. There were many difficult commercial questions involved, he said, and it was necessary to make certain that more harm than good was not done. The Government, he said was conferring with the highest commercial and banking authorities, but he was unable to say at the present time what course would be taken.

THE SITUATION IN PERSIA.

LONDON, Aug. 10.
The general condition of affairs in Persia recently have shown a decided improvement, said Lord Robert Cecil in the Commons to-day. The arrest and dispersal of most German parties and agents in the country, he added, gave good reason for hoping that the improvement would be maintained. Lord Robert said that he hoped that arrangements of financial and other questions would shortly be arrived at with the Persian Government. Anglo-Indian officers would be engaged in officering the gendarmes in Southern Persia.

St. John's Man Dropped Dead at New York.

Mr. John P. Grace, of the City Council, has received word that his nephew, Patrick F. Grace, had dropped dead while at work in New York. Particulars of the sad occurrence are awaited, though at present it is assumed that heart failure was the cause. Deceased was about thirty-five years old and a son of the late William J. Grace. He was well known at Signal Hill, where he resided many years before going to New York to settle down, a little over a decade ago.

Incandescent Gas Lighting.

Possibly, the feature of incandescent gas lighting most frequently noted by casual observers is the great ease with which tasks, ordinarily arduous under artificial light may be performed under the Welshbach gas mantle. The light has a peculiarly "soft" quality, difficult to describe, but which is readily recognized by those who have had experience with the gas mantle lamp.

In its general effect upon bodily health and comfort, the use of incandescent gas lighting is decidedly favorable. The currents of air set up by the burning gas improves ventilation, tending to expel the air vitiated by respiration and draw in fresh air to replace it. Harmful or dangerous disease germs are instantly destroyed in the flame. The extent to which this effect takes place may be verified by placing a gas lamp close to a ceiling without any provision for interfering with the up-rushing air currents. The charred particles which collect immediately above the lamp are the remains of dust particles which before passing through the flames were laden with germs and microbes. Actual experiments have shown that the burning of gas lamps in rooms previously containing bacteria, resulted in absolute sterilization of the air.

Contrary to the popular notion the temperature of rooms lighted by incandescent gas lamps is seldom markedly greater than under incandescent electric light, even under unfavorable conditions of ventilation, while in rooms provided with the ventilating facilities required by the demands of hygiene, the temperature in gas-lighted rooms is frequently lower.

Holidaye Went Fishing.

The largest number of tourists for the season came from New York by the Florizel yesterday. Immediately on arrival most of the holidayers went countrywards on a brief trout-fishing expedition. A party of them also went out by train at 6 p.m. to Salmonier where the speckled beauties were reported to be in abundance. They will return by the noon train to-morrow. The tourists who are visiting here for the first time, are highly delighted with our scenery even at the nearest country resorts.

Running Nose Colds Cured. Sneezing Stopped Instantly

The worst of a cold is how suddenly it comes. No time to hurry to the drug store, croup develops, the lungs are affected with pneumonia or tuberculosis and it's too late. Keep Catarrhose on hand—it kills colds instantly. Something magical about the way it cures catarrh and bronchitis. Catarrhose is the best remedy because it cures in nature's way; it heals, soothes and restores permanently. Carry a Catarrhose inhaler in your pocket, use it occasionally and you'll never catch cold—that's worth remembering.

Deciding Game.

It is not unlikely that this evening's football match between the Terra Novas and St. Andrew's will decide the championship holders for 1916. A win or a draw for the Terra Novas will give them first place, as they are now leading in the table of points. In the event of a St. Andrew's winning it would mean that the Terra Novas and B. I. S. would have to play off.

Lady Long Distance Walkers.

Three St. John's well known young ladies and long distance walkers have undertaken the task of tramping from here to Heart's Content. They started yesterday and have reached Topsail, their first stop, having made exceptionally good time. Their next "stop-over" will be Seal Cove. At the present rate of going they are likely to beat all previous local records.

CHARLIE CHAPLIN AT THE NICKEL THEATRE.

The week-end performance at the Nickel Theatre to-day is one of the best for some time. Charlie Chaplin, the greatest fun maker alive will appear in a two-act comedy entitled "In the Bank." Then the "Diamond from the Sky" will be continued, and best of all the talented orchestra of the Red Cross Limer Florizel will be present. St. John's delights to hear good music, and the gentlemen from the Florizel are well up in their profession. They will give an entirely new programme and everyone should make an effort to be present. Tomorrow there will be the big matinee for children.

TO-DAY'S Messages.

10.30 A.M.

BRITAIN'S FINANCIAL POSITION.

LONDON, To-day.
Reginald McKenna, Chancellor of the Exchequer, was subjected to criticism in the Commons to-day on the ground of over-reliance upon treasury bills, his critics arguing that the large amount of such bills outstanding constituted a danger, and that the Government ought to have issued another war loan. In the course of his reply the Chancellor claimed that Britain was able to borrow abroad on much lower terms than any other belligerent power. He estimated the nation's total indebtedness at the end of the present financial year would be £3,440,000,000. From that amount, said the Chancellor, the nation is entitled to deduct £200,000,000 lent to its Allies and to the Dominions of the Empire, the sum left being a burden it could well sustain, as it was practically balanced by the present national income.

STEAMER SUNK.

LONDON, To-day.
The British steamer Sphère was sunk by a German submarine on August 3rd, according to an announcement made this evening by Lloyd's Shipping Agency. The vessel was 411 tons gross and owned in Sydney, N. S. W.

RUSSIAN SUCCESSES IN GALICIA.

PETROGRAD, To-day.
The town of Stanislau in Galicia is already within range of the Russian guns. The Russian General Letchitzky, losing no time to follow up the victory of Tysmenitza, has pushed westward along the railroad and northward along the wagon road, and in the latter direction has approached to within six miles of Stanislau. Simultaneously he has commenced a drive across the Koprivka River and the formation of a new line of advance north of the Dniester. Hitherto General Count Von Bothmer had enjoyed more or less protection for his right wing in the Tarnopol position from the flooded Dniester. The appearance of the offensive north of the Dniester, which has already carried the Russians as far west as the crossing of the railroad at Niznief, twenty miles east of

Stanislau, injects an entirely new element into the situation. With Monasterzyska seriously flanked, General Von Bothmer finds himself with General Letchitzky in the rear of his advanced position along the Stripa and in close touch. The Austrians are vainly striving to stem the new advance by desperate counter attacks in which the troops are engaged in hand to hand encounters, but apparently with the net results always favoring the Russians. The total of General Letchitzky's prisoners during the ten days' operations shows that he has taken upwards of 15,000, and it is estimated that 10,000 more men were put out of commission. This would bring the grand total of prisoners to General Brusiloff's credit since early June to 402,000.

A DESERVED HONOR.

LONDON, To-day.
The Russian Emperor has presented General Brussiloff with a sword of honor, ornamented with diamonds, for his victories over the Austrians and Germans in Galicia and Volhynia, says a Reuter despatch from Petrograd.

THE DANISH WEST INDIES.

COPENHAGEN, To-day.
The first reading of the bill providing for the sale of the Danish West Indies to the United States was taken up in the Folkething, the lower house of the Reichstag, to-day and will be continued to-morrow. It is believed the Folkething will adopt the measure owing to the fact that the Radical and Socialist parties have a majority in favor of the sale. On the other hand the Landsting, or Upper House, it is thought, opposed the measure, the party having joined the Conservatives, who desire to postpone the consideration. To-day there was much excitement in the House; some women among the spectators shouted "We will not sell."

DEMAND INCREASE.

LONDON, To-day.
The British Railway Unions have decided to ask the Companies for an increase of ten shillings weekly in the wages of all employees. The increase is declared necessary to meet the highest cost of living.

RUSSIAN AND ITALIAN PROGRESS.

LONDON, To-day.
Although bad weather is hampering the British and French maneuvers in the west, both the Italians and Russians are keeping up their strong offensive against the Teutonic Allies, in Austria and Galicia, respectively. In the last reports both have made additional important gains. On the Isonzo front the Italians have con-

tinued to throw their forces across the River and have fought their way east of the captured city of Gorizia. In addition, southwest of Gorizia they have taken strong Austrian entrenchments near Monte San Michele and Monte San Martino, and also occupied the town of Boschini, giving them a freer hand for their operations in the region of the Dobersdo plateau and southward toward the Monfalcone sector. A large number of prisoners were taken in the fighting, Vienna admitting the loss of Gorizia says the evacuation followed the repulse of the Italian attacks on the Dobersdo plateau. The straightening of the Austrian lines made necessary by the operation, was carried out without molestation from the Italians. Vienna also reports 4,100 Italians have been made prisoners in the recent fighting in this region. In Galicia the sectors of Stanislau and Halicz, the Russians have driven their forces farther westward in their endeavor to capture the central portion of the railroad running from Kolomea to Lemberg. Passing across the Monasterzyska-Niznief railway, they have forded the Zlota Lipa River, southeast of Halicz, and south of Stanislau they have captured the town of Kryplin, on the Stanislau-Nadavizovoff railroad.

Berlin says that along the front of the Archduke Charles Francis, in Galicia, southwest of Walestein and south of the Dniester new positions have been occupied by the Teutonic Allies, in accordance with previously arranged plans. Russian attacks along the Strumen and Stokhod Rivers were repulsed with sanguinary losses to the Russians. Another big battle has started near Brody in Northern Galicia. Owing to the inclement weather in France military activity has been confined principally to bombardments, which were somewhat heavy north of the Somme and in the Thiaumont sector, near Verdun. An attempted German advance against the British line south of Martintpuich was put down by the fire of trench mortars and machine guns. According to London, fierce fighting is still going on between the Turks and Russians on the Mush-Bittis front in Turkish Armenia.

LANSDOWNE TO RESIGN.

LONDON, To-day.
The Daily Chronicle says this morning there is reason to believe that Mr. Lansdowne is about to resign. His resignation is of no political significance, being due solely to failing health. The Marquis of Lansdowne is a member of the Cabinet without portfolio.

COST OF LIVING TOO HIGH.

LONDON, To-day.
The decision by the railway men to demand an increase caused some surprise in view of the agreement entered into last October when a small wage increase was granted the men on condition that they would make no further demands during the war. The announcement of the Unions to-day gets around this difficulty by asserting that the duration has extended beyond the period contemplated by the October agreement. The Government has taken no effective steps to control the prices of necessities, and the cost of commodities has risen to such a figure that the earnings are in many cases insufficient to maintain a decent existence.

"GAMBLING IN BREAD."

LONDON, To-day.
Under the heading "Gambling in Bread," the Daily Express to-day explains to its readers the new rise in the price of bread which goes into effect next Monday. The manipulations of Chicago "Circumstances," says the Daily Express, appear to have been conspired to enable the Chicago wheat market to indulge in one of its periodic gambles for the purpose of putting up the price against bread later. While it is not believed that Chicago can create anything like a corner in wheat, there is a strong impression that the operations of the Chicago pit are forcing the prices as high as the market will let them go. Meanwhile supplies rotting on the wharves in Australia have been used as fuel. Large quantities are being held up in the Argentine for lack of ships.

THE MYSTERIOUS BREMEN.

BERLIN, To-day.
Great mystery surrounds the submarine Bremen. Even official circles profess ignorance as to whether the vessel put to sea, or if she has, on what date she sailed.

AUSTRIANS REINFORCED BY TURKS.

LONDON, To-day.
A despatch to the Daily Telegraph from Rotterdam says, the Austrians and around Lemberg have been reinforced by 150,000 Turks, who include nearly all the Ottoman troops recently concentrated in Macedonia. The correspondent adds that Field Marshal Von Hindenburg visited Lemberg on August 1st and inspected the Turkish troops.

FRENCH RESUME BOMBARDMENT.

PARIS, To-day.
The French have opened a heavy bombardment of the German positions north of the Somme, according to an official statement to-day.

AT VERDUN.

PARIS, To-day.
On the left bank of the Meuse, the French took some prisoners, in a raid on German trenches east of Hill 304. On the right bank of the Meuse there was skirmishing with grenades about the Thiaumont works.

ITALIANS JUSTIFIABLE PRIDE.

LONDON, To-day.
The Daily Chronicle's despatch from Milan says "the army that succeeds in battering down the defences of the Isonzo will be justly able to boast itself the first army in the world." This judgment attributed to the late Lord Kitchener during his first visit to the Italian front, is cited with proud satisfaction in the Italian press to-day.

INTERRED STEAMER ESCAPED.

NEW YORK, To-day.
Wireless observers at shore stations near New York were puzzled early to-day by signals received from an unidentified vessel apparently somewhere off Sandyhook, which was calling the wireless station in the city. The fact that the stranger refused to disclose the identity of the vessel led some of the wireless operators to believe that they were at last in communication with the long expected German submarine Bremen. While in communication with the shore stations a few hours earlier the stranger reported herself as a collier and the operator on board signed his calls DRE, which is the private wireless signal of the north German-Lloyd steamer Braslau, last reported as tied up in New Orleans for the period of the war.

Leaking and Short of Supplies.

The American yacht Sagamore, Capt. Hansen, put into this port this morning in a leaky condition and short of supplies. She was bound from Boston to Iceland to go herring fishing. Leaving the American port on August 4th, heavy weather was met during the passage and the ship, which was slightly damaged and sprang a leak, was forced to harbor at Bay Bulls for shelter where she remained until conditions became civil. The Sagamore carries a crew of 25 men, practically all Dutchmen, and wants salt, empty barrels, provisions and other supplies for at least three months for the herring fishery. The yacht's requirements are being attended to by Bowring Bros., Ltd.

Police Court.

(Before Mr. J. McCarthy, J.P.)
A young man was charged with drunk and disorderly conduct. The case was postponed.
Several civil cases were disposed of.

Household Notes.

Let the window curtains reach from top to bottom only of the window, and a lot of work is saved.
Where there is a bottle-fed baby, a tiny refrigerator devoted to his milk, etc., alone is a great luxury.
Gradually you can be kept in good condition if it is boiled in soda water for five or ten minutes twice a week.
Paper napkins at breakfast are not only economical, but they add to the gaiety of the breakfast table.
It is great economy to have only the clothes you actually require and wear them while they are in fashion.
Currants are not usually liked in their raw state, but try mixing a few with raspberries or other fresh fruit.
Two or three dozen dollops, are much easier to handle in the wash than two or three large table cloths.
Never try to eat too little in hot weather—it is simply weakening and depressing. But food should be well chosen.
Take pains to have your fruit dessert of perfect fruit and prettily served and you need not think of made desserts.
The best aspect for a sleeping porch is south or southeast, because all the summer winds come from these quarters.

Dutch Ship Which Called Here

Did Not Have Gasoline Cargo.
The Montreal Star, in a recent issue, published the subjoined clipping:
St. John's, Nfld., Aug. 5.—The Dutch steamship Gallia, arrived at St. John's yesterday, four days out of New York with a cargo of gasoline. She was held up in the belief that she is the mother ship with a supply of gasoline, for the German submarine Deutschland, now on her way across the Atlantic from Baltimore. Her reason for calling here is St. John's was an alleged shortage of water.
We are informed by a prominent official and the only person here who got full information of the Gallia on her arrival, that the ship did not have a gasoline cargo but that she had a cargo of cotton, seed oil and lubricating oil.

Circuit Courts.

Proclamations have been issued for the holding of Circuit Courts from Bonne Bay to Placentia, beginning at Bonne Bay at the latter end of next week. We learn, however, that no provision has been made by the Government for the accommodation of the court and its officials, either in the way of lodging or traveling. Is it possible for the ass. Fions to be utilized for this important work? Or if that is not possible cannot the Government hire some other steamer to accommodate the Circuit Court? The work is part of the country's business, and it is surely only right and proper for the Government to treat the Court with the respect which its dignity demands and in which it behooves the people to hold it. It is surely not proper to throw the Court on the chance of courtesy of some business man who may be engaged in litigation before the Court or whose connections may be so engaged. It will be surely sufficient to direct the attention of the Hon. John R. Bennett, Acting Premier, to this matter to have this grievance removed. To-day again we notice that Fogo District and Twillingate District are cut out of the Northern Circuit. Why is this? For a number of years ago Circuit Courts have been treated rather scurvily by the Government. Outport people are entitled to better treatment in the way of facilities for Court proceedings and particularly in the way of oversight which the Circuit Judge can exercise over Magistrates and J.P.'s.

Have You A Bad Sore?

If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore?
Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.
Remember that Zam-Buk is at the same time healing, soothing, and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries and diseases, and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk really is. All drug stores and stores at 50c. Use Zam-Buk Soap. Relieves sun-burn and prevents freckles. Best for baby's bath. 25c. tablet.

In this day and generation this sign:

Please shut the door!

has no place on an office door. Take it down and put up this one:

Please don't close this door.

It closes itself. It is equipped with a YALE Door Check

And we have the right size and style of Yale Door Check to make good on the new sign. Shall we send someone around to show it to you?

Hr. Grace Notes.

Mr. G. G. Christian, the energetic traveller for Archibald Bros. footwear, is at present in town for a few days before getting on the road again.

The employees of the Hr. Grace Boot and Shoe Factory will likely be given a week's holidays, commencing on Monday next. Although orders are rushing in, they are all anxious to get the week's rest, as all work and no play, is very trying, particularly to factory hands.

Mr. William Lampin, of H.M.C. St. John's, arrived by train yesterday afternoon, and will spend a week here among his old friends, all of whom are glad to see Mr. Lampin in such good health.

Mrs. Kenneth Mills, of Burlington, N.D.B., after spending a few days here left for home on Friday last.

The ladies of the Methodist Church are holding a parlor sociable in Coughlan Hall to-day.

The members of the Presbyterian choir held a very pleasant picnic in Victoria School yesterday. It was at first intended to spend the day near Rocky Pond, but as the day looked threatening the wiser course was taken. The choir and their guests thoroughly enjoyed the picnic.

The children of the R. C. Sunday School are holding their picnic to-day in the Academy Hall; this being caused by the day not being fine enough to spend the day in the country. No doubt the little ones will have a good time.

Mrs. Allan Vatcher arrived from Freshwater by this morning's train, and will spend a few days with her parents, Rev. A. A. and Mrs. Holmes at the Parsonsage. To-day is Mrs. Vatcher's birthday, and we join with other friends in wishing her many happy returns.

A large number of Methodist clergymen were in town last week to attend the District Meeting for the Circuit held here.
