Guelph Evening Mercury

MONDAY EVENING, AUGUST 4, 1873

Town and County News.

Guzzler and Galt riflemen shoot a match next Friday—six a side.
CORRETT'S BLOCK looks well in its new coat of paint.
At Salem, on Friday evening Mr. Black broke the outside bone of the right leg near the ankle joint, playing base ball.

Mr. Duncan McIntyre, a Montreal merchant, has bought the brick store in Elora built by Mr. B. Taylor; price \$2,540.

The Elora Observer says Guelph is about to redeem itself from the discredit of having the most disjointed school system and school buildings in the Province.

Discriptive.—To-morrow we shall give an interesting communication just received from Mr. James Innes, giving an account of the voyage and arrival of the Guelph party of old country visitors.

THOROUGHBRED SHOWBOATS.—We have received the second edition of the catalogue of the Bow Park Herd. It is a good sized book containing full pedigrees of about 200 thorough-bred cattle for sale on the farm of the Hon. Geo. Brown. We keep it for reference.

MANITOWAG.—We notice from the Manitoba Free Press that the oldest son of Capt. Swinford, of Eramosa, has married the youngest daughter of Mr. Linklater, a late Hudson Bay Co's. official. Mr. Swinford resides in Winnipeg, and is himself in the service of the H. B. Co.

DRAGHTS.—It will be seen by our advertisement in another column that the Guelph players have challenged Whitley to play a match game of draughts during next month three or more a side, the game to be played in Toronto. The challenge arises from some unsatisfactory play last winter, and rivalry between the chequer players of the two towns.

MOUSE FOREST.—The fall wheat harvest has fairly commenced in this neighborhood, and so far as we can learn promises a very fine yield and an excellent sample. Spring wheat, oats, and peas present an encouraging appearance, and if nothing happens to retard their progress a plentiful harvest will follow.—E. Z. amier.

THE PRINCIPAL ALTERATIONS.—The new front is now in at the shop of Mr. Pringle, watchmaker. It is a very handsome one, and the glass alone will cost about \$250. The store is being divided into two; the north half will be used by Mr. Pringle, and the south half by Mr. Anderson as a gentlemen's furnishing establishment. Total cost of the alteration, \$700 or \$800.

RAILWAY ACCIDENT.—A number of men were engaged distributing telegraph poles on the Wellington, Grey & Bruce Railway line between Palmerston and Listowel. As they were returning from near Bluevale the first car ran off the track and upset, when two of it were badly hurt. One had his leg broken above the knee, and the other received some bad cuts about the head and neck.

GUELPH SEWING-MACHINE FACTORY ANNUAL PICNIC.—This annual picnic was held on Saturday last in the grove of Messrs. Miller, adjoining the town. The rain poured down in torrents in the morning, but by 1 p.m. the rain had spent itself. Mr. John Ewing's conveyances were kept busy for two hours bringing the pleasure-seekers to the grounds. There were over 150 present, all decked in their gayest attire, and all trying who should make themselves the most agreeable. The committee discharged their duties thoroughly. The provisions were ample and much praised for the excellent manner in which they were prepared. Many of the fair ones present enjoyed themselves in swinging and other games, while the stouter sex engaged in more manly sports. The various games were vigorously contested, and the entries numerous. The base ball match—captains Riddle and Fosbury—was a keen game, in which remarkably good play was made, as may be observed by the smallest of the score. Riddle's team won by a score of 10 to 4. Goose-eggs on both sides were of frequent occurrence. The following are the successful prize-takers in the games:—Men's race, 100 yards—Wm. Lowry, 2nd Robt. Congalton; boy's race—Tim Sheady, 2nd J. Stapleton; boy's race, under 14 years—M. Collins, 2nd D. Bradley; hop step and jump—W. Husband, 2nd A. Weir; sack race—A. Riddle, 2nd Wm. Winstanley; boys, under 14, sack race—W. Dyson, 2nd M. Sheady; three-legged race—A. and J. White, 2nd A. Riddle and Geo. Lowry; and for the stouter sex—George Hill ninety-nine yards, A. Weir eighty-nine yards; throwing the heavy hammer, A. Weir, 2nd W. H. Pepper. A foot race of 150 yards was substituted for the half-mile walking match, which was won by Robert McCrae and George Hill. The party broke up at dusk, much pleased with the day's enjoyment.—Com.

POLICE COURT.
Before T. W. Saunders, Esq., P. M.
Monday, August 4.

LET OFF.
Lester Specter was charged by Constable Dooley with being drunk on Macdonell street on Saturday. Defendant "got into a spree" with some others, and as it was his first offence he was discharged with a caution.

Another large rock has fallen from the bank of the Niagara river, near the spot where the Table rock fell a few years ago.

Local and Other Items.

Harvest prospects in the Maritime Provinces are reassuring.
A music hall is proposed to be built in St. Thomas.
The led Edwards, burned by coal oil at Bowmanville, is dead.
A new Brass Band is being organized at Barrie.

The Goderich Star is advocating the abolishment of market fees in that town. The "Black Crook" sensation drama is to be played in Brantford Town Hall to-day.

On Dr.—That another Conservative publishing and printing company is to be started in Stratford.

Last week considerable damage was done by lightning in the Townships of Carleton Place, and Warwick. Several houses and ous were killed.
Mr. W. DONAIRT, editor of the Goderich Star, has received an appointment in the Inland Revenue Service at Bothwell.

The affairs of Mr. Eddy, the great Ottawa lumberman, are now satisfactorily arranged, being placed in the hands of trustees.

A complimentary banquet was given by the citizens of Hamilton to Hon. F. N. Blake, late and retiring United States Consul at that port, on Friday.

The By-law to grant a bonus of \$70,000 in aid of the Norfolk Railway Company is to be voted on in the town of Brantford to-day.

A dinner was given at Brantford on Friday evening by the Board of Trade, as a mark of respect to John Taylor, Esq., of St. Louis. About sixty persons sat down.

On Sunday a man named James Harding, a lately arrived immigrant in the employ of Mr. William Robinson, Port Granby, was drowned in the mill pond at that place. Too much whiskey was the cause.

The Mail calls McKenzie a "grim-visaged talking machine." Of course that settles it. The leader of the Opposition may as well hang up the fiddle; "grim-visaged talking machine is arguable and a squibber.

A Big Splash.—A wharf at St. Catharines, upon which were 70 tons of bar iron and several men, suddenly gave way and went down, men and all, into about twelve feet of water, making a grand upheaval of the waters in the descent. Nobody hurt.

The Chinese laundry men, after a brief trial of Toronto, have made up their minds to try Buffalo. After starting business well they appear to have done work poorly, but charged high rates, and consequently soon lost customers and credit for workmanship.

A MEETING OF the ratepayers was held in Brantford last week to sanction the raising of ten thousand dollars to purchase a new site for the High School and erect premises thereon. Discussion was had upon the present and intended location of the buildings, but the meeting broke up informally without any resolution having been proposed.

The Rev. GEORGE BRIDGMAN.—The Buffalo Courier says: At a meeting of the Board of Trustees of Lima College, held in Rochester yesterday, Rev. George H. Bridgman was elected President of that institution, his duties to begin with the commencement of next term, September 1st. Rev. Mr. Bridgman was recently connected with the Conference of Canada.

A NARROW ESCAPE.—Last week Mr. Francis Little, son of, was discovered lying in a top buggy half-way down Wallace's Hill, Port Hope. The buggy was overturned, and the horse standing quietly contemplating the situation. Mr. Little, was perfectly insensible, and could not have survived long in the position in which he was found, he being in a helpless state of intoxication. The embankment over which he drove is about fifteen feet high.

The Welland Tribune says that a husband in the neighborhood of Port Robinson, becoming suspicious of his wife's fidelity, came home suddenly and unexpectedly found a neighbouring young man questionably engaged in his house. That the scene was not entirely to his liking may be inferred from the fact that he commended the intruder so severely that he has now to be nursed on the premises, being in too precarious a situation to be removed.

HINTS TO THE PROVINCIAL EXHIBITION COMMITTEE.—A correspondent of Lohdon Free Press thinks the time allowed for Provincial Exhibitions is too limited to do justice either to the exhibitors themselves or to the general public, many of whom come a considerable distance. He admits there is a difficulty in the way of providing feed for live stock; but believes it would be a great improvement if everything displayed in the Crystal Palace could be arranged on the preceding Thursday or Friday, so that the judges may finish on Saturday, and the doors be thrown open to the public on Monday morning. This arrangement would probably lessen the crushing so painfully felt Wednesday and Thursday, and besides the railways would not be so hard pressed.

The Goderich Signal defends Mr. Donnelly, who was lately fined for over-punishing one of his pupils. It says:—The fact that he is sustained by the Board of Trustees of the school and three-fourths of the people of the village is sufficient retribution to the slanderous misstatements that have been circulated respecting him. Should his health be sufficiently recovered; he will resume charge of the school at the close of the summer vacation, the trustees having declined to receive his resignation.

THIS MORNING'S DESPATCHES

Terrible Railway Accident.

Earthquake.

Cattle Plague.

Spain.

London, Aug. 2.—A dreadful accident occurred this morning, on the North-western Railway, near Wigan, to the Scotch tourist express train from London. Twelve persons were instantly killed, and thirty wounded. Among the killed is Sir John Anson. Many of the injured persons will die.
The Duchess of Inverness is dead.

Paris, Aug. 3.—Ex-President Thiers, yesterday, in the course of his reply to Madame Knochling, who presented him with a gift from the Gales of Mulhouse, declared the attitude of France towards the foreign powers should be strictly neutral. Difficulties in Spain were purely internal. If France claimed inviolability of her territory she ought to respect that Spain.

London, Aug. 3.—A meeting was held in Hyde Park to-day to protest against the grant to the Duke of Edinburgh. Bradlaugh presided. It was resolved that the Queen be petitioned to refuse her sanction.

Madrid, Aug. 3.—The Intransigent demonstration which was extensively advertised for to-day fell through because some of its promoters objected to the use of the red flag.

St. Louis, Aug. 3.—The Texas cattle plague is prevailing in North-west Missouri. It has carried off several thousand head.

Madrid, Aug. 3.—In the Cortes, to-morrow, Castelar will move adjournment of the debate on the federal constitution until the Provinces have been officially visited with regard to the division of the Republic into States or Cantons. Republican batteries have opened on the insurgent positions in Seville. The troops are only waiting for re-inforcements before making a final assault.

Madrid, Aug. 3.—An insurgent frigate entered the harbour of Malaga to-day, closely followed by a German man-of-war. She shortly afterwards sailed still pursued. It is supposed that she will be captured. The insurgents of Grenada offer to surrender.

Madrid, Aug. 2.—Many persons who joined the insurrection in the south in favour of the independence of the cantons have abandoned the cause in consequence of the excesses committed by the insurgents.

Many buildings in various quarters of Seville have been burned. Every house and store has been entered by the insurgents and plundered of the contents. The conduct of General Contreras in bombarding defenceless towns is producing an immense re-acton throughout the country in favour of the National Government.

The frigates seized by the insurgents at Cartagena are partly manned by army slaves. The commanders of the English, French, and German squadrons in Malaga held a conference with General Contreras in which they urged him to order the return of the seized war vessels to Cartagena.

All communication between Madrid and the cities in Andalusia has been interrupted by the insurrectionists.

Madrid, Aug. 2.—The Bill providing for the separation of Church and State was introduced in the Cortes to-day.

Advices from Valencia state that the Government troops attacked that city this morning, and have driven the insurgents into the Plaza de Mores, where they are besieged.

Barcelona, Aug. 2.—Dons Alfonso and Saballa, the Carlist commanders, are fortifying Prato de Lausarres, 40 miles north-west of Barcelona.

New York, Aug. 3.—Advices from Panama to the 25th ult. report the revolt in Chiriqui suppressed.

A great earthquake occurred at Valparaiso at 2:30 a.m., July 8th. Shocks were worse than those of 1837. Great damage was done to houses and churches, though nothing to be compared with the last earthquake of San Salvador. Some lives were lost by falling walls, and one lady died from fear. Prisoners tried to break out of jail but did not manage it. In Santiago the shocks were severe but no great damage was done beyond the breaking of mirrors and the rending of some walls.

A violent storm at Lima, on July 8th, unroofed many houses in that city, causing damage of half a million dollars.

New York, Aug. 4.—London correspondence says that it is officially stated that the English Govt. knew nothing of the Persian concession to Baron Reuter until it had been granted. Earl Granville first stated in the House of Commons he first heard of it from Reuter himself last September. A correspondent says Reuter regarded his concession with the eye of an Englishman, which he regards himself by residence and interest, and offered Granville the opportunity to reap political benefit of the grant for England. Granville ignored the political significance of the concession and treated it entirely as a commercial speculation which it was out of ordinary line of policy of the Government to protect.

The Carlists are increasing in numbers in the Basque provinces of Navarre and Catalonia. Vessels of foreign powers in the harbour of Cadix have interposed to prevent the insurgents from attacking the arsenal.

New York, Aug. 2.—A prize fight between Seddons and Chambers took place this morning near Prospect Park Fair Grounds, Brooklyn, and resulted after

fourteen rounds, which occupied nearly one hour, in the defeat of Seddons.

Buffalo, N. Y., August 2.—Twelve blocks have been burned in Portland, Oregon. Water supply insufficient. Twenty three blocks are a total ruin. The loss extends into the millions.

A Chinese correspondent says, in answer to the demands of European and American representatives for revision of the treaties of 1858, that the Prime Minister of China states nothing can be accomplished until the Emperor reaches his majority, and assumes complete sovereignty rule. The demands laid before the Government at Peking are the extension of trade in the interior, the opening of new ports, the navigation of rivers by steam, the construction of railroads and telegraphs, the granting to merchants and other citizens in the interior the privilege of travel to and fro, effective measures for the suppression of piracy, and important modifications in the tariff.

The Sultan of Turkey is actively reorganizing his military forces in order to keep pace with the military organizations of the other European powers.

AN ARTFUL DODGER.—About a month ago a man was engaged to work by Mr. D. B. McDonald, with the understanding that he was to remain three months. Before two weeks of the time had expired, it was seen that the fellow was using every endeavor to get away, having another offer of employment during the harvest at two dollars a day, but he did not wish to forfeit his wages. While driving the team the other day, by some means he was thrown out of the wagon on the soft sand, and was apparently severely injured. He was carried home, and after seemingly suffering the most intense agony for a day, stated his fear that he would not recover, and asked for the wages due him to send to his friends. On his demand being complied with a sudden and unaccountable change for the better took place, and he left for parts unknown.—Stratford Beacon.

A deputation from Mt. Forest visited Owen Sound on Friday, regarding railway extension from Palmerston to Owen Sound via Mt. Forest and Durham. They also brought before the meeting another scheme, being the Port Dover and Lake Huron Railway, to run from Port Dover on Lake Huron, through Woodstock, Stratford, Listowel, Palmerston and Mt. Forest to Owen Sound. Several were present from Minto and said that they would not object to the bonus, though on the extreme south of the township. A resolution was finally adopted, to act in securing railway connection from the south to Owen Sound via Palmerston and Mt. Forest, leaving open the question of which railway to suggest.

LITTELL'S LIVING AGE.—We have received this weekly magazine for August 2nd from the publishers, Littell & Gay, Boston. It contains the usual amount of entertaining reading. The contents for this week are, "French Marriages;" "The Parisians," by Lord Lytton; "Links in German Literature," by Mrs. Oliphant; "The Brontes;" "Persian Etiquette and Peculiarities," besides several pieces of poetry and miscellany. The publishers have a small number of complete sets of the Living Age, which they offer at a large reduction. These sets cannot be reprinted.

WINDSOR CAN boast of having an honest man. The Record says: "Charles Landgrave, one of Mr. Whitaker's staff at the station here, on Wednesday last picked up in one of the sleeping cars a pocket book containing nearly \$1,000, evidently belonging to John Outfille, a passenger. Promptly upon finding the book, Landgrave turned it over to his principal, who took steps to have the owner discovered by means of the telegraph."

A CURIOSITY.—The Parry Sound Lumber Company's men last week picked up a saw log of Moose Point, branded A.G., once the property of Allan Gunn, Esq., of Algoma Mills. After floating around on the waters of Lake Huron for the last four years, it at last found rest within the booms of the Parry Sound Lumber Co., 253 miles or more from the land that grew it.

We have received from the office of Routine and Records two blue books, one the report of the Minister of Agriculture for 1873, and the other on the Indians of British Columbia; also a report on the shortest route between Europe and America.

A Communist named Michael Serigne escaped from a French convict ship on the Australian coast, by swimming nearly nine miles! He rested for an hour on a ship's cable, after he had swam more than half way.

Drummondville has been excited over some of Uncle Sam's detectives making their appearance in search of evidence to bring as witnesses against certain dealers at Niagara Falls, N. Y., for selling smuggled goods.

According to a recent census taken by the police, the city of New York contains 23,460 tenements. Assuming the population to be now 1,000,000, it is something more than that now—there would, on an average, be over 38 persons crowded into one tenement.

Lawrence McGuire and Daniel Guinn were severely hurt at the new Ottawa water works on Saturday, through careless blasting.

Miss Margaret Hostetter, of Grantham, aged about fifty, left her farm near St. Catharines a few days ago, and has not been seen or heard from since.

A magnificent new hotel is shortly to be erected at Niagara Falls, or rather Clifton, commanding a full view of the great cataract, at a cost of about

ANNABEL

THE TEMPTATION

CHAPTER XXXI

THE BATTLE AT THE SETTLEMENT.

The wide clearing was lighted up by the flames of the burning settlement, the whole of which, at first sight, seemed to be ignited, though on coming nearer they observed that only one large wooden house at one corner near the palisade had been set fire to; and it was at this point that the fight most fiercely raged.

One man among them was especially conspicuous—a tall, strongly built man, bareheaded, and with long, streaming hair—who sprang backward and forward wherever the light grew thickest, wielding a woodman's axe with tremendous effect on every stroke, who came within his reach.

"You're Jerry," said Shave to Philip, as at full speed they and the Cherokees crossed the clearing to the help of the settlers.

"Ha, say you so?" responded the youth. "How heroically he defends his charge. See how yonder fellow tries to bear him down. And, as I live, it is the white man—the companion of Gomez."

"Right you air, mister," replied the trapper. "And yonder is Gomez himself, the darned skulking critter, a-trying to get a blow at Jerry from behind. It's him and no one else they mean to kill, and we can guess their reason pretty considerable. Dang it, the mean cuss will spear him in the back if his friends don't hinder it."

"Oh if we should be too late in reaching them!" groaned Philip, as, urged by this fear, he flew on still faster in the very van of the Cherokees, who tried, but in vain, to lead before. Even Thundercloud himself, who was accounted the fleetest of his tribe, could not keep abreast of him, and the only other who kept close by his side was Jim Jotis, who, roused by excitement and anxiety, was carried clean out of himself, and felt possessed by a strong impelling power to plunge into the wild conflict.

It was evident enough that, without aid, the settlers would soon be vanquished. Notwithstanding Jerry's valor and prowess, and the steadfast support he was receiving from his followers, the fewness of their numbers, as compared with the swarming hosts of the Cherokees, made the defence hopeless. They knew and felt this, but were determined to fight on to the last under the rage of despair—a rage bitter and yet wonderfully intensified at finding that their Indian assailants were aided by two white men.

Jerry was amazed to find this the case, being utterly unable to understand it, but the fact increased his wrath tenfold, and as the two men in question directed their efforts against him in particular, his indignation thereby produced in his bosom gave him what seemed to be superhuman strength, enabling him again and again to strike down or hurl back all who came against him.

Still, as we have said, the issue of the conflict was neither doubtful nor could be long delayed, for the now shattered palisade was beginning to give way, and once the Indians were able to swarm inside, their victory would be speedy.

The presence of the approaching Cherokees was not yet noticed by either party, so absorbed were they in the strife, yet in the illumination caused by the fire they might have easily been discerned bounding over the clearing with silent speed.

By their motion only, however, could they have been noticed, and not by any sound they made in their advance, for Thundercloud had enjoined the utmost silence to be observed till they were close upon their foe; then, as usual, they would start upon them with their terrific war-whoops, and obtain all the advantage of surprise.

With all the fleetness manifested by the Cherokees, they were at least ten minutes in crossing the clearing, and all the while the contest went forward with increasing fury—the Cherokees gaining ground every moment, the palisade yielding more and more at every renewed assault.

THE HARVEST IN ONTARIO.

Fall Wheat itself, taking the Province as a whole, will be fully an average crop. Out of 106 places which reported we find that 48 put fall wheat down as above the average crop, 32 said it would reach the average, and only 26 that the yield would be below the average and poor.

Judging by these returns, from the more hopeful reports of the press, and from considerable personal observations, it is certain that the crops have wonderfully improved during the past five or six weeks, and that there are now good grounds to hope that if nothing unforeseen occurs the harvest of 1873 will disappoint the fears indulged as to its unsatisfactory character.

Spring-sown grain, turnips, and grasses have recovered sufficiently from the drought to be far more abundant in yield and weight than could have been expected from their appearance early in July. It has been estimated by experienced observers that these crops have been improved 25 per cent. in yield by the late rains, which means a net gain to the country of a sum of money which will be appreciably felt in all its financing and business, public and private, for the next year.—Monetary Times.

VITAL STATISTICS.

The death rate at Quebec averages, annually, 41 per thousand of the inhabitants. That high rate argues very deficient sanitary regulations. The death rate in Quebec is far higher than in the great metropolis of the British Empire, London, which has a most dense population, numbering over three millions of souls.

MANY suffer rather than take nauseous medicines. All who suffer from coughs, colds, irritation of the bronchial tubes or tendency to consumption, will find in Dr. Wistar's Balsam of Wild Cherry a remedy as agreeable to the palate as effective in removing disease. The balsam is a pleasant remedy; it is a safe remedy; it is a powerful remedy; it is a speedy remedy; it is a remedy that cures.

GREAT REMNANT SALE!
