© 1982

The copy filmed here has been reproduced thanks to the generosity of:

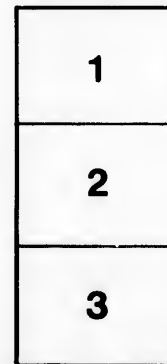

University of Saskatchewan
Saskatoon

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

University of Saskatchewan
Saskatoon

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

CENSUS

OF THE

UNITED STATES & TERRITORIES

AND OF

BRITISH AMERICA;

GIVING THE

POPULATION BY COUNTIES AND DISTRICTS,

TOGETHER WITH THE

CITIES AND PRINCIPAL TOWNS;

COPIED FROM THE LATEST OFFICIAL CENSUS OF BOTH COUNTRIES.

COMPILED BY J. DISTURNELL

NEW YORK:

PUBLISHED BY THE AMERICAN NEWS COMPANY

No. 121 NASSAU STREET.

1867.

TO THE AMERICAN PUBLIC.

THE EIGHTH CENSUS OF THE UNITED STATES, under the direction of the Secretary of the Interior, was taken during the year 1860, but not published in full until 1865,—thus consuming five years before the public was put in possession of this valuable Document.

The *first* of four quarto volumes is mainly devoted to the Population of the United States, as represented by number, sex, age, class, nativity, and occupation; the whole arranged by States, Counties, Cities, Towns, &c.

The present compilation is confined to *numbers and class*, giving the total white and colored population, all being alike free citizens. This arrangement has never before been given to the public, and will form a new era in our enumeration when the Ninth Census, of 1870 is completed.

It is deeply interesting to watch the progress of the Union, in population and wealth, as the decades occur, running through the present century. In 1800, the population of the then twenty States and Territories was 5,305,925; in 1810, the population of twenty-five States, &c., was 7,239,814; in 1820, the population of twenty-seven States, &c., was 9,638,131; in 1830, the population of twenty-eight States, &c., was 12,866,920; in 1840, the population of thirty States, &c., was 17,062,566; in 1850, the population of thirty-two States, &c., was 23,191,876; in 1860, the population of forty-two States, &c., was 31,443,321, including 3,953,760 slaves of African descent.

From the foregoing increase of population, (about three per cent per annum), the United States contained in 1865, 35,000,000 inhabitants, and in 1870 will contain 41,839,000; in 1880, 55,822,000; in 1890, 73,977,000; and in 1900, about 100,000,000 of free inhabitants.

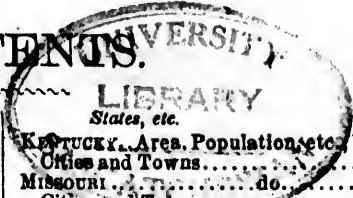

If BRITISH AMERICA, which now contains about the same population as the United States in 1790, increases in the same rapid ratio, in 1871, there will be 5,200,000 inhabitants; in 1881, 7,000,000; in 1891, 9,500,000; in 1901, 12,800,000, being about the same as the United States contained in 1830; altogether making a total of upwards of 112,000,000 of inhabitants, speaking the same language, being, no doubt, destined soon to form one great Republic.

J. D.

NEW YORK, Jan. 1867.

Entered according to Act of Congress, in the year 1867, by
JOHN DISTURNELL,
In the Clerk's Office of the District Court of the United States for the Southern District
of New York.

British North America contains nearly the same area as the United States, although not equally available for the purposes of either agriculture or commerce, the outlets to the ocean being impeded by ice during cold weather, from November to March, which is very intense in the northern portion. It is now divided into several Provinces, although the project of Confederation is proposed. The immense region known as the Hudson Bay Company's Territory, containing an estimated area of 1,800,000 square miles, is governed by the above Company's agents, while the Canadas, etc., enjoy the free institutions of Great Britain. Estimated area, 3,068,283 square miles. Population in 1861, 3,572,185.

Upper Canada. Area, 170,000 square miles.
