Forgot All About Fighting When They Surrounded a Train Loaded With Rations for the British Army.

With the British Army in France, pril 15.—Late yesterday afternoon ne Germans essayed an attack astride ne Merville-Lamotte road and made small advance. The British immetately counter-attacked and restored ne original line. Heavy casualties are inflicted on the enemy, espession of the first time in several years. They also found jam and canned meats. Prisoners who were taken were surprised that the British Tommies were still getting such good food. Captured German captain said that food conditions were bad in the big towns in Germany, but that food was still plentiful in the country districts.

The enemy also formed for an at-

Armentieres battlefront because of the wet nature of the ground, which is very low and threaded by many treams. Considerable quantities of supplies have been stuck in the mud, and the enemy has been working overtime repairing railways and highways, in the last few days they have contructed and rebuilt a network of lighways in the Bailleul-Merville secont.

The British unwittingly furnished a mail force of Germans with a feast he day the enemy broke thru the ortuguese and got round the British ight flank at Bac St. Maur. A supply rain loaded with rations was sur-counted. The enemy immediately for-bot hostilities and pounced on the rain. According to their own state-teents the Germans saw white bread

The hand of war is resting heavily on the towns and hamlets in the northern battle zone and they are nipidly going the way of the devastated places in the other sections of the front. The quaint old Town of Bailbul is already a mass of ruins. Many of the beautiful buildings have been smashed by shell fire, and the famous hot houses which supplied wonderful grapes to people in all parts of the world have been entirely demolished.

Mewburn Makes an Urgent Appeal To Canadians and Britons in U.S.

Urges All of British Blood to Obey Haig's Call to Arms and Join the Colors.

New York, April 15.—An appeal to Englishmen and Canadians in the United States to make a personal application of Field Marshal Sir Douglas Haig's special order of the day addressed to all ranks and hasten into the service, was contained in a telegram from Major-General S. C. Mewburn, minister of militia, Ottawa, to the British and Canadian recruiting mission, made public here today.

"The call from overseas is such," said the message, "that I must ask you, one and all, not merely to 'carry on,' but to do so with renewed and special vigor. Every man of military age is needed, and needed now. Faith must be kept with those who are fighting, as well as with those who have fallen.

"May every Britisher and Canadian in the United States take to himself Sir Douglas Haig's special order of the day and determine that it is his privilege and duty to seize this opportunity and join the ranks."

Labor Ministers Ask Self-Government for Ireland Before Conscription.

London, April 15.—The labor ministers of the cabinet, in an interview with Premier Lloyd George tonight, pressed the premier to grant self-government to Ireland on the basis of the majority report of the Irish convention before conscription is put into operation. It is understood that the conference had satisfactory results, and there will not be a cabinet crisis.

Seven days after the Germans launched their gigantic assault against the British lines between Lens and Ypres, the momentum of their attack has been broken and the waves of the Teutonic forces are recoiling before the rock of the British defence. While the Germans have made gains of ground and have driven a wedge into the allied lines to a considerable lepth, they seem to have failed in their attempt to break thru or take important railroad junctions.

During the last day there have been bitterly fought engagements at four places, all on the northern side of the salient to the south of Ypres. Seven assaults against the British trenches at Merville, near the apex of the triangular dent in the British line, have been hurled back by the British. Neuve Eglise, on the extreme southwestern spur of Messines Ridge, has been taken by the Germans after a struggle which will go into history as one of the greatest of the past week.

Counter Attack Coming The British, however, have not retired far, and it is probable that they will at once organize a counter-attack to force the Germans out of the might reports Wulverghem were the central points is along the of the heavy fighting today between

> It has been the German plan of campaign since March 21, when the great offensive started, to strike hard at some particular sector, and if that blow was parried, to turn power-fully against some new point. This procedure probably will be followed in the next few days by a new assauk somewhere south of Arras. An at-tack north of Ypres is hardly pos-sible, for the lowlands of Belgium are as yet too waterlogged to permit active operations. An attack on Arras would entail the hurling of troops against Vimy Ridge, the Labyrinth and other formidable mili-

Coincident with the report of the acceptance of the resignation of Count Czernin, the Austro-Hungarian premier, comes a report of a serious outbreak of the Czechs at Prague, which for many months has been reported to be seething with anti-pan-Germanism. Bohemians, or at least the Czech minority in that country, object to the creation of a German Government there, but the incident may be more significant than has so far appeared. The Slavic races of Bohemia have long been standing out against the Germanization of their country and the outbreak at Prague may be only another indication of the deep-seated opposition to the war aspirations of the central

powers.

London, April 15.—The following official supplementary despatch has been received from Reuter's correspondent at general headquarters, anent the work of the fifty-fifth division at Givenchy, April 9 to 14:

A captured divisional order issued by the general staff of this German divi-sion, dated April 6, shows that the objectives were "the ground and Brit-ish positions in the triangle formed by

The following passages in the captured order are of special interest;

"In the attack our three regiments will be opposed by at the most s.x. companies in front, and at the most two reserve battations in Festubert and Givenchy. One battation in divisional reserve is south of La Bassee Canal, in Leprecol. It will be prevented by our powerful artillery fire from taking part in the fight for Festubert and Givenchy. These troops are elements of the English 55th Division, which, being engaged on the Somme, suffered heavy losses in Flanders and at Cambrai, and is described by prisoners of March, 1918, as a division fit to hold a quiet sector, that is, below average quality."

prisoners of March, 1918, as a division fit to hold a quiet sector, that is, below average quality."

The order was distributed among all officers and under-officers of the 4th Ersatz Division, down to the platon commanders, presumably with a view to encouraging the troops prior to their attack, and in the belief that the opposition would not be very serious. If this was his expectation, the enemy was most signally disappointed. Thruout the early part of the morning of April 9 the 55th Division beat off all attacks in the forward zone and maintained the line intact. Later, when the German infantry had broken thru the Portuguese positions on its left, the division formed a defensive flank, facing northeast on the line of Givenchy, Festubert, to the neighborhood of Letouquet. This line it maintained practically unchanged until relief, thrusix days of almost continual fighting, beating off repeated German attacks with the heaviest enemy losses, and taking nearly 1000 prisoners.

Villages Regained.

During the first day of the attack the enemy forced his way into Givenchy and Festubert. Both villages were shortly afterwards regained by the 55th Division, as a result of a highly successful counter-attack in which several

English Semi-Porcelain Breakfast, Dinner and Soup Plates, in a Great Clearance, Today, Each, 10c

For this item we cannot take 'phone or mail orders, the quantity being limited. A limit of one dozen plates of a size and two salad bowls to a

Here is value indeed! A splendid offering for an early morning special, for seldom, very seldom, will you meet with plates of this quality at such a price! Green, conventional border patterns under glaze are the most prominent among the breakfast, soup plates and dinner plates, though many other designs are included. In some there are dozens of a kind, so it is a grand opportunity for those who own boardinghouses, restaurants, etc. Come early, for they are sure to go quickly. Special, each, 10c.

Salad Bowls, in blue floral patterns, and many other designs, some gold traced. Special, each, 15c.

Crocks! Crocks! Crocks! Size No. 3, Specially Priced at 60c

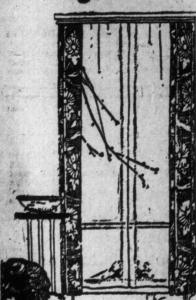

With stoneware the price it is, this is an offering extraordinary! And not only are you saving on the actual ordinary pricing of such covered crocks, but think of the economy of such a receptacle in providing "cold storage" for meats, vegetables, buttermilk, and other perishable commodities, when the weather is warm! Where there is no refrigerator or where ice is an unknown quantity, such crocks make a splendid substitute. They are 101/2 inches high, 91/2 inches in diameter, and are provided with wellfitting stoneware covers. Having nice smooth acidproof inside finish, they are excellent pickling jars, and may be easily scalded and kept sweet and clean. Their capacity is conisderable, for they will hold about 24 1bs. of butter or about 9 dozen eggs. Extraordinarily good value, crock and cover, 60c.

It was quite clear from the events now going on in the west that the object of the Germans was to overcome one fraction of the forces opposed to them in the belief that if these forces were tracked out the others must give in and

knocked out the others must give in and a German peace must be the result. It was for this reason that they had concentrated their efforts in front of the British army.

Enemy Not to Succeed.

Was that military calculation going to succeed? (Cries of "No!") There were many reasons why it should not. Perhaps the most important was because the German higher command were determined that this land struggle should come to an end before the United States could bring its forces to bear upon the western front.

BRITISH CASUALTY LIST SHOWS MANY MISSING The Germans had made many false calculations in the course of the war. One when they thought that the first

spring would bring them to Paris; but it only brought them to the Marne. Another was that they thought nothing would induce America either to break off diplomatic relations with them or en-ter the war. Another miscalculation was when they not only boasted but believed hat a few months of unrestricted submarine warfare would destroy the re-sistance of Great Britain. Suffer From Mistakes.

These were miscalculations from which the Germans were still suffering and from which they would suffer until peace came to the world.

"As the Germans have been proved hopelessly wrong in their estimates of the ideals, desires and determination of the American people," said Mr. Balfour, "so they will be proved wrong in their estimate as to the speed with which the Americans will be able to carry out their purpose and program.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness; burning, gas, bloating, mausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable syr ptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may go real harm. Try

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of lisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with an more fear of indigestion.

COUNT CZERNIN FORCED

TO RESIGN MINISTRY

Vienna, has resigned.

Emperor Charles accepted the resignation and entrusted Count Czernin with the conduct of foreign affairs until his successor is appointed. The recent publication by the French Government of the peace appear sent out by Emperor Charles of Austria-Hungary in March, 1917, and the efforts of the emperor and the Austro-Hungarian foreign office to explain this letter to the satisfaction of Germany and the German emperor probably were the most potent influence in bringing about the resignation of Count Czernia.

Since he was appointed foreign minister on Dec. 23, 1916, in succession to Baron Burian, Count Czernin has been very active in attempting to bring about peace.

FOUGHT IN FRANCE

Russo-Rumanian Granaries Prove Mirage, Lord Rhondda Declares.

London, April 15—"Victory now is a synonym for bread in Germany," declared Baron Rhondda, food con-troller, in explaining the pearing of the German food problem on the offensive in the west.

"It is a fight, not for Paris, but for food," he added. "The cry of give us bread' resounded incessantly in Hindenburg's ears and, in my judgment, that cry has set the German moving.

"The kaiser hoped to starve us into submission by the U-boat warfare. He failed. The Russian and Rumanian granaries proved to be nothing but a mirage. The despairing energies of hunger are at the heart of this fury of battle."

"What do you think or events at home?" the food controller was asked. He replied: "The old emotion and unity which we had in their first freshness in the black autumn of 1914 are back again in the hearts of all. No man can look without pride upon the temper of the country in these stirring days. Our best comes to the top in the extremity."

Demonstration of People at Prague Denounces German Domination.

Amsterdam, April 15.-Thousands of persons gathered in the streets of Prague, capital of Bohemia, on Sat-urday, denounced the Germans and since the German offensive began. On Priday night the Germans succeeded, after heavy hand-te-hand fighting, in gaiming possession of the town. They held it thru the might, but on Saturday morning the British drove forward and pushed out the enemy.

The Germans continued to fling great numbers of troops against the defences. Yesterday the British took the initiative and cleared the Germans from the slopes to the east and southeast of the town. The enemy kept on hammering, and after a might of severe fighting at close quarters, forced the entente and President with Czech members of parlia ment and party delegates, together with Slovene and Serbo-Croat delegates, met in the town hall and adopted in the streets outside the hall in support of the policy of the delegates. The principal demonstration occurred at the close of the meeting. The feeling against Count Czernin was shown by the shouts of disapproval. feeling against Count Czernin was shown by the shouts of disapproval with which his name was greeted. James Naughton, past-president of the Association of Honorably Discharged Soldiers of Canada, offered a solution of the difficulty regarding the anomy alien producer in the west. "My idea is that it would be perfectly faar to them to allow them a nominal percentage of their average profits, remove from them their title of ownership to their lands and make them seek for the government, allowing work for the government, allowing them, perhaps after the war is over, the privilege of regaining title to the lands. What they need during the ogress of the war is supervision at e hands of the government. "Touching upon the alien in the

DOMINION VETERAN SECRETARY RESIGNS

Another well-known figure in the world of veterans has sent in his resignation from office with the G.W.V. A. This is N. F. R. Knight, general secretary of the association for the Dominion. His physician has ordered a complete rest for at least six months, and these orders were imperative.

Comrade Knight has outlined plans of organization which he believes might work for much good. Hitherto he has noted considerable and unnecessary dissension and discontent among the membership, and is of the opinion that more care should be taken in the selection of members. He believes also that too much publicity has been given to the proceedings of the association by the press. Continuing his letter, he points out the need of men of the strongest calibre at the head of the affairs of the organization, and specially advocates the appoint-

WORKINGMAN NEEDS **BIG MIDDAY MEAL**

Cheaper Restaurants, Hard Hit by Food Orders, Appeal to Ottawa.

Toronto's cheaper restaurants, the ones that supply a 25-cent meal to the manual laborers of the city, are very much worried after their first week's experience with the working of the new food regulations. Thru Mrs. Mary Tracey, who owns the Spontsman's Cafe at 97 West Queen street, they have enlisted the services of Senator A. C. Macdonell to place their case before the food board at Ottawa. "We want to do everything we can

to help the boys at the front, be most of the boys who went to the front used to get their meals at our restaurants," said Mrs. Tracey yesterday. "But it seems that the orders were framed to make the workingman sacrifice the most in order that the afterrifice the most, in order that the after theatre diners would not suffer."

The chief complaint of the restaur ants is that the orders take away speef, pork and wheat products from the midday meal. Most of the manual laborers who are on the job at day-break make their noon meal the heav-iest meal of the day, and the order has

hit them worse than the people who eat a light lunch at noon and a heavy inner at night.
"We have had men get up and leave "We have had men get up and leave because we could not serve them bread to eat with their soup," said Mrs. Tracey. "In vain we show them the orders, but they are clothed in such massive legal verbiage that the men cannot understand them. To get over it we have been making oatmeal dumplings for them."

Dr. Hastings' "Come Back" May Be an Interesting Document

When Dr. Hastings hands down his reply to Controller McBride's allegations of inefficiency in the department of public health, it is expected that it will have some very strong words against the critics of the doctor's staff. Dr. Hastings has not given any intimation of the nature of his reply, but he is certainly in a fighting mood and his "come back" is expected to prove an interesting document Con-troller McBride presented three let-ters to the board of control, and it is interesting to note that in only one of them, the Tozer letter, is there any real complaint against Dr. Hastings. Another feature of the case that has not aided any to put Dr. Hastings in a more lenient mood is the fact that, altho it is five days since Controller McBride made his allegations at the meeting of the board of control he has not received a converted. trol, he has not received a copy of any of the letters yet.

to western Canada, altho there were inexhaustible stores of coal and lignite in Alberta and Saskatchewan.

This brought to his feet Mr. Cowan, Unionist member for Regina, who declared that there were billions and billions of tons of lignite is Saskatchewan—enough to supply Canada with fuel for centuries. He admitted, however, that only 200,000 tons of this lignite had been mined last year, and even proceeded to explain the reason why. Lignite, it appears, is 31 per cent. water, 12 per cent of its heat energy being consumed in getting the water out. This, therefore, makes a ton of lignite scarcely more valuable than a half ton of coal. Mr. Cowan explained that lignite could be easily dried, but when dried it was highly explosive. Moreover, after being dried it absorbs moisture from the atmosphere with such rap-katy as to soon become water-logged again. He claimed, however, that it could be briquetted and thus made into a safe and satisfactory fuel. The sible for the shortage of fuel.

LT.-COL. BLAYLOCK **GETS APPOINTMENT**

Succeeds Col. C. A. Hodgetts as Red Cross Commissioner Overseas.

At the meeting of the Canadian Red Cross Society's executive, held yester-day, Lt.-Col. Harry Blaylock was appointed commissioner overseas in place of Colonel C. A. Hodgetts, C.M.G., re-

Signed.

Colonel Blaylock has done most valuable service for the Canadian Red Cross in France during the past three ciety's supplies to the assistance of the Canadian Army Medical Corps hospitals and other units in hours of emergency in such a manner as to win for the society the grateful thanks of both the staff and patients. Colonel Blaylock has also had charge of the distribution of goods to needy French hospitals, and for this service received the decoration of Chevalier of the Le-gion of Honor. His appointment as commissioner was recommended by the London war committee (Messrs, Cas-sels, Ashe and Cambie) in consultation with Sir John Gibson, a member of the executive committee of the Canadian Red Cross Society, who is now in Lon-

Noel Marshall also informed The Toronto World that further large medical supplies were ordered as the result of yesterday's meeting. These supplies are being purchased on this side of the Atlantic, consequent upon the impossibility of purchasing further supplies in England.

TANK BATTALION

Canadian Boys Will Have Chance to Go Thru in Original Unit.

Three special reasons why the ist Canadian Tank Battalion, now being organized, will attract many recruits in Toronto military district are that the unit will be the first and original tank corps organized by Canada; that the unit will be the tank corps attached to the Canadian army at the front, and that the unit will not be broken up

after leaving Canada.

Another attraction of the tank battallon is that it offers a first-rate opcontinuity for men who have been exvice, but who will have to go overseas

Only catsgory A men are being enlisted in the tank battalion, of from 19 to 35 years of age. Men in class one under the Military Service Act are also permitted to join this unit. University men, bank clerks, school teachers and others of good education are being particularly sought for. Twenty men applied yesterday for membership in the Toronto University Company of the tank battalion. The recruits al-ready signed up include two high school teachers, some bank clerks, some officers and several men with of-ficers' qualifications. All of these have signed on to serve in the ranks of the rew tank unit.

A feature of the tank battalion is that the Toronto University Company from Toronto and district. The Toronto Company will consist of 175 privates and co. porals, 11 sergeants and

The men to be officers must be nominated by the president of the University of Toronto, confirmed by Toronto military headquarters, and appointed by the department of militia

It is announced that the work of all members of the tank battalian, including the privates, will be inside of

A training ground has not yet been selected for the local club and they may do their early stunts at the Island. Wilfrid Rutledge, the local southpaw sensation, had an interview with the president yesterday and will try for a place on the Leafs' twirling staff. Another local boy to get a trial is Tommy Bird.

Bird worked out with the Leafs last year and Larry Lajole was loud in his praise of his work. Dan Howley also looked over the youngster last year and he ordered him to report when the rest of the Leafs do their turns.

The National Commission handed the Toronto club another rude jolt yesterday. The commission ruled that all former International League players were declared free agents and that they could sign with whom they liked.

The cases up for decision yesterday were those of Bill Kelly, Micky Lalonge and Joe Schultz. Kelly signed with the St. Louis Americans and John Ganzel signed the other two for his Kanass City club of the American Association. The commission ruled that the players were quite within their rights in signing with these clubs and they will not be found with the Leafs this year. This means more hard work for Dan Howley to round up men to fill their places.

EVERS IS THRU WITH RED SOX

Boston, April 15 .- Stating that he considered his connection with the team a thing of the past, John J. Evers, coach of the Boston American League Baseball Club, left for his home in Troy tonight. Evers didn't appear in uniform today when the Red Sox opened the season with the Philadelphia Athletics, and explained that this was hy request of Manager Bar-

Athletics, and explained that this was by request of Manager Barrow. Evers has 'already communicated with one National League team in regard to a possible playing or coaching position this season, he said.

While Evers watched today's game from the grandstand, Chas. (Heinie) Wagner, the former captain and infielder of the team, made an unexpected appearance in uniform and coached at third base. Manager Barrow announced that Wagner had been acquired as coach and scout.

TIGERT'S GOOD SCORE IN BROADVIEW TANK

The Pentathlon events, an all-American competition, amongst Y.M.C.A.'s, were conducted during the last few days at Broadview Y.M.C.A.

A very gratifying number of entrants participated in these events, nearly double the number that competed last year. Taavi Tigert was the honor man, making 832 points in the five events. Will Beatty led in the 30 yard back swim with 195 points. Leslie Bartlett led in the 220 yard speed. C. W. Maitland and L. Jackson were tie, with 197 points each in the 25-yard towing events, and Taavi Tigert was the winner in the full dress swim with 510 points with Leslie Bartlett and C. W. Maitland a good second and third respectively.

A Real Malt Beverage for

Open Evenings

Waiter Cox says that the San Franciscos are the toughest family of trotters that has ever been seen on the turf. Mary Putney was in a class by herself in her three-year-old form, and last year she worked the Dover track faster than any of the horses in his stable before being shipped to Cleveland, where she died. Northspur was certainly a busy horse after lie won on the last day of the Cleveland August meeting. Between that date and the opening day of the September meeting at Columbus he was started in six races of which he won two at Poughkeepsle, where he trotted in 2092, another first at Syracuse, where he firshed second in one heat to Straight Sall in 2.014. Northspur will be a very useful horse for Cox this year. His faith in the San Francisco family, however, is founded on the stubborn battles which St. Frisco put ub during the past two years with Mabel Track and what Lo Princeton did for him last season. Cox purchased Lu Princeton early in 1916 He was eligible to the 2.13 class and had nothing to show for a turf career but a good pedigree and a victory in a seven-heat race at Rockport, Ohio, where he won a third heat in 2.1744, a sixth ocat in 2.204, and the seventh in 2.204. Lu Princeton's first trip thru the Grand Circuit was almost a blank. Out of ten starts between Kalamazoo and Atlanta he only finished second once and had one heat in 2.094 to his credit. That heat was won over Lakewood Park at Atlanta his race with Azora Axworthy. Cox also says that he would not have won it if the colored boys on the blaff near the three-quarter pole had not frightened him with their imitation rebel yells. This was the same yell that scared The Real Lady and caused her to lose a race to Mary Coburn. In other words what was poison for the Moko filly proved the making of Lu Princeton, as when Barton Pardee wanted to send him to the auctions Cox persuaded him to give the white-faced horse another chance. The returns for 1917 also show that he made good. In his first start at Cleveland in July he was unplaced to Royal M

MAIN CANADIAN ARMY WAS NOT IN BATTLE

Ottawa, April 15.—The Canadian corps as such has not yet been engaged in the terrific battle in Flanders. The cavalry and some subsidiary units have been in it, and a much heavier casualty list points to the seriousness of the fighting.

The militia department has received a cable from Sir Edward Kemp stating that the Canadian corps has been bombarded more or less, but that no determined attack has been made on it. The present stage of the big drive is centralized considerably farther north, while Canadian forces hold Vimy Ridge and territory adjacent to Lens. There is every confidence here in their ability to withstand any assault. The fact, however, that in the past two weeks there have been about eighteen hundred casualties indicates that many Canadian units have been busy, even the the main force has not been en-

MEETING TOMORROW

All Strangers Will Be Excluded During Session, Says Sir Robert Borden.

Ottawa, April 15.-Parliament meets the house this afternoon, Sir Bobert Borden, seconded by Mr. Carvell, presented a motion to this effect which was unanimously carried. In making his motion, Sir Robert said:

his motion, Sir Robert said:

"Having regard to the gravity of the position which confronts the allied nations at the present time and the desirability of informing the members of this house in a confidential way as to certain matters upon which it is desirable that they should be informed and as the confidential information could not be given, on account of military exigencies, in an ordinary session of the house, I have referred to the leader of the opposition as to the hooding of a secret session. The motion I present after conference with my colleague is that such session should be held in the immediate future. It will then be possible to explain much more in detail when that session is held the reasons on account of which I think it is desirable." The motion read, "Resolved that the sitting of Wednesday next, April 17th, chall be a secret session until the house shall then otherwise order, and that all strangers be ordered to withdraw during such secret session, provided, however, that this order shall not affect the privileges enjoyed by members of the senate of being present at debates of this house. Resolved further that a message be sent to the senate informing their honors of the terms of this resolition."

forming their monors of the terms of this resolution."
Sir Robert then referred to the secret sessions held by the British

to fall back somewhat.

The British in the course of the afternoon also pushed out several posts north of the canal between the Lawe and Clarence Rivers.

These operations indicate that the defence of entente allied troops has stiffened.

Parliament.

Speaking on the motion, Sir Wilfrid Laurier remarked that he had been consulted by the prime minister as to the advisability of a secret session. On a matter of this kind, Sir Wilfrid said, the government must take the responsibility. There could be no harm in a secret session if the government wished to impart information which it was not in the public interest to give to the public in general. Under the circumstances there could be no objection. On a matter of this kind, Sir Wilfrid said, the government must take the responsibility. The motion was then carried.

CIVIC BATHING HOUSES.

Kingston, April 15.—The parks and finance committees met today to deal with the gift of \$15,000 bequeathed by the late Capt. George T. BEAUTY CHATS

Springtime Beauty Foods

Have you ever thought how Nature provides the daily means of keeping her people beautiful, by the foods she grows? In winter, when the body needs fats and starches to produce heat in order to resist the climate, meats and potatoes and cabbages, and such, are staple diet; in summer, there are abundant foods to cool and thin the blood, greens—whose salts regulate the body, and mild acids from fruits—which are tonics.

Troubled X.—Try massaging the skin with cucumber milk, which is a bleach, or sour milk (also a bleach). Now and then a little cold cream may be used, just to make the skin fine and soft. Powder will tone down the red look; you can use pure white powder, if you have so much color. heat in order to resist the climate,

which are tonics.

Just now, the question is rather important. You must get the system in shape for summer—give it a spring housecleaning, so to speak. Here are some hints.

If you have so much color.

Anxious M.—Wash the arm pits with boric acid solution twice a day, or so. Wear thin waists with loose armholes and not tight bands on the clothing. Use talcum powder, as well.

Spinach, kale, beet tops, dandelions, are tonics, and should be eaten daily in the spring. They do away with biliousness and the accompanying lan-guor and lassitude many complain of at this season.

GERMAN NAVAL LEAGUE EXAMPLE TO CANADIANS

The Navy League of Canada has adopted four planks for its platform. They are: To conduct a thoroly organized educational campaign in mat-ters pertaining to the navy and the mercantile marine; to give lectures, to circulate literature and to place readers in he public schools on naval subjects; to raise funds for the relief of British and Canadian sailors and their dependents and for sailors' homes and hospitals; to encourage boys' volunteer naval brigades, where young men can receive practical in-

struction in seamanship. In a circular outlining the needs for uch work, the league points out that the position Australia occupies in the naval world is due entirely to the efforts of the Australian Naval Leafue. "Admiral von Tirpitz himself states that Germany's position relative to naval power was the direct outcome of the work of the German Naval League," says the statement.

time limit of five minutes had to be called after one or two of the first speakers had occupied 10 or 15 minutes in presenting their addresses.

The candidates were from several classes and the subjects chosen included "Palissy the Potter," "Queen Victoria," "Joan of Arc," "Butterflies and Moths," "Aeroplanes." "A Voyage to Algiers" and many others. Some of the young aspirants to the forum brought objects to help their work, among them a beautiful model of an air machine, maps, photos and a collection of insects. The preparation involved meant a good deal of work and every boy and girl spoke well.

The prizes were awarded to: Senior fourth—First, Winifred Rose, subject, "Ancient Methods in Medicine"; second, Nora Higgins, subject, "A Ghost House." Junior fourth—First, Donald MacGregor, subject, "American Indians"; second, Crostie Lamont, subject, "Bannockburn." Junior third—First, Dermin Thompson, subject, "The Walnut Tree"; second, Archie Wood, subject, "Drake." The judges were Mrs. H. S. TRADE TOPICS

The feature of the week in Dusiness is the further advance in prices of all lines of dry goods. Even linings and threads are higher.

In wholesale dry goods there is continued activity notwithstanding difficulty in getting goods. Cotton manufacturers are most anxious to take orders, expecting prices to go higher. English houses in many lines will only accept open orders, with the understanding that they will do the best they can in prices. Oilcloths, table and floor, are advanced in price, and linings, threads and needles are higher.

In wholesale groceries, apart from limitations in sugar deliveries, there is a fair distribution, the new folaws having effect. Teas continue to rule high and molasses is scarce. In wholesale hardware sales are astisfactory, but deliveries are held up. In general hardware business is good in the country districts, but city trade is quiet. Advances have been made in glass, putty, white lead and linseed oils. Turpentine has declined, but shotguns, revolvers and game traps show a 10 per cent increase. In the provision market there are minor changes. Eggs and potatoes are lower, but butter is firm, with a tendency to advance.

While money continues plentiful with the banks, there is complaint of the workers and today prices being state of the continued heavy demand, and the volume of business was small in car lots of No. 2 Cathe to stake or of so, of No. 2 Cathe to stake or of so of No. 2 Cathe to stake or or or of the flour trade today was the stoday prices being stated to the flour trade today was the stoday manufactor of the market for rye flour. LARGER RECEIPTS SEND CORN DOWN

Favorable Weather Another Bearish Influence - Oats and Provisions Higher.

Chicago, April 15 .- Increased receipts had much to do with weakness

ceipts had much to do with weakness which today characterized the corn market. Prices closed unsettled with May at 127½ and 149% to 149% July, with the market as a whole % off to ½ advance, compared with Saturday's finish. Oats gained ½ to ½ and provisions 5 to 15c.

Notwithstanding railies due to profit taking by shorts, the corn market averaged decidedly lower the greater part of the day. In addition to the liberal supplies which crowded the sample tables, country advices of shipments appeared to indicate a continued free movement to terminal markets. The fact that Toledo was sending more corn to Chicago attracted especial notice, altho it was said the arrivals here came from all the big shipping states, and even included quantities from Colorado and Tennessee. Another bearish influence was the favorable weather which was reported to have put the soil generally in excellent state.

Buying on the part of houses that last week were thought to have made sales to the government gave strength to oats. No export bids were in evidence.

Provisions responded to the

dence.

Provisions responded to the announcement that exports for the week were the largest ever known. Big shipments of hogs only had a transient depressing influence.

Acreage of Grain Crops In Canada is Increase

Montreal, April 15.—The estim Montreal, April 15.—The estimate is made in authoritative quarters that the acreage of grain crops in Canada will be approximately 36,000,000 acres, against, about 33,000,000 in 1917.

In the west seeding operations have been carried well up to the northern parts of the provinces, and cultivating operations are getting well under way in the east.

Inspires Rise.

Montreal, April 15.—Laurentide and Shawinigan were the trading features on the exchange today. Laurentide opened up at 154%, as against Saturday's close of 154%, and worked up to 159%. Strength of Laurentide was attributed to the anticipation of an early return on the Laurentide Power stock, seven millions of which is held by the Laurentide Company. On the strength of the Laurentide movement less valuable paper stocks moved up. Spanish River rose from 13 to 14.

Brompton rose from 47½ to 48½. Shawinigan opened a half better at 111½ and remained unchanged till the fiternoon session, when it rose by fractions to 115, losing a point before the close. ASSURANCE OF VICTORY

J. P. Bickell & Co., yesterday, received the following closing New York market letter: The stock market, fulfilling its office of the most perfect barometer of world's affairs, been giving us daily notice in ams that cannot be misunderstood, at conditions are sound and that when an ultimate victory is assured, values will be materially higher. Day after day when news was anything but pleasant, the market held as the it was resting on an unbreakable foundation. Today, with the little improvement in the military news, our market regan to improve. Such market action is unraistaka. news, our market regan to impro e. Such market action is unmistaka .e. don yesterday, at 47d, and 1%c higher in New York, at 95%c.

A further rise in the official price of silver had little noticeable effect upon Cobalt stocks yesterday, probably for the reason that, with dollar silver in prospect, the day-to-day fluctuations of the white metal have lost the interest they formerly held.

Lake Shore of the Kirkland camp stood out above all issues in yesterday's mining market. Only a few days ago this stock was inactive around 40, but toward the end of last week a movement began which lifted it to 46. Yesterday Lake Shore opened two points higher, at 48, moving up to 50, at which it closed, with 52 bid for more. It is reported that an exceptionally high-grade ore body has been opened up at the 400-foot level, some of the ore, it is stated, running as high as \$60 to the ton. Kirkland Lake retained its gain of last week, selling again at 33. Thompson-Krist was heavier, dropping %, to 9, and Schumacher, at 20, was also easier. Porcupine Crown railled 1%, to 14%, and Newray, McIntyre and Dome Lake were steady.

The silver stocks as a whole showed little change. Adanac was one of the firmest issues, selling up to 9%, a gain of ½. It is understood that indications being encountered in drifting toward the Timiskaming line continue favorable. Nipissing at 8.50, Mining Corporation at 3.50, and McKinley-Darragh at 42½, showed a good tone. La Rose, which has lapsed into inactivity, was 1½ down, at 53.

TONE MORE HOPEFUL ON LONDON EXCHANGE

London, April 15.—Dealers on the stock exchange today were more hopeful regarding the outcome of the war and marked up quotations generally. In the gilt-edged sections buyers cheerfully paid the fractional advances recorded. A fair business developed during the course of the session in armament shares at firm prices. Tin mines were active and strong and Spanish bonds continued to rise with the decline in exchange. Money was plentiful and discount rates were quiet.

Reassuring Nature of Foreign dvices Results in Better Demand for Stocks.

GAIN MADE BY C.P.R.

General List is Stronger, With Sharp Advances in Some Specialties.

New York, April 15.—A perceptible quickening of trading, mostly at material advances, accompanied today's session of the stock market. The reassuring nature of foreign advices was a potent factor and domestic happenings also served to stimulate the broader demand.

Chairman Gary's reference to future dividends at the annual meeting of the United States Steel Corporation, and his statement outlining the corporation's shipbuilding activities, gave impetus to Steel common, that stock being restored to its wonted leadership at a net advance of two points.

The more extreme gains were made, however, by various speculative shares in which a large short interest is believed to exist. Distillers added 4½ points to last week's steady gain. Industrial Alcohol advanced 2¾, and Petroleums, Baldwin Locomotive, Crucible Steel and International Paper registered gross gains of 2 to 4 points.

C.P.R. is Stronger.

Rails were backward at the start, but Canadian Pacific soon rose 2½ points on comparatively few transactions, and coalers responded to the March statement of anthracite production at an advance of as much.

Shippings and motors also were hesitant at the outset, but came forward with the metal group in the active final hour, the entire list then recording maximum quotations. Sales amounted to 315,000 shares, exceeding by fully 33 per cent. any day of the past fortnight.

Conditions in the bond market were slightly mixed. Liberty issues tending toward firmness, and the foreign group showing irregularity on smaller dealings. Total sales (par value) aggregated \$4,850,000.

U.S. coupon 2's rose ½ per cent. on sales, registered 3's losing ¼ on cali.

Report of the Annual Meeting

Total Assets Over Sixty-six Millions

The Forty-sixth Annual Meeting of the Bank of Hamilton was held at Hamilton, Ontario, on Monday, 15th of April, 1918. His Henor Sir John Hendrie, K.C.M.G., C.V.O., was in the chair. The report below was submitted and adopted.

The President referred to the satisfactory progress made during the year, and emphasized the need for greater effort and economy to win the war. The Vice-President, Mr. Cyrus A. Birge, and the General Manager, Mr. J. P. Bell, also addressed the meeting. The usual motions were passed and the following Directors were re-elected:—Sir John Hendrie, Cyrus A. Birge, C. C. Dalton, Robert Hobson, W. E. Phin, I. Pitblado, K.C., J. Turnbull and W. A. Wood.

At a subsequent meeting of the Directors Sir John Hendrie, K.C.M.G., C.V.O., was re-elected President, and Mr. C. A. Birge, Vice-President.

Report of the result of the business of the Bank for the fifteen months ending February 26th, 1918:—

GENERAL STATEMENT.

> \$13,216,799.57

In accordance with the previsions of Sub-sections 19 and 20 of Section 56 of the Bank Act, we report to the Shareholders as follows:

We have examined the above Balance Sheet with the books and vouchers at Hend Office, and with the certified returns from the Branches, and we have obtained all the information and explanations we have required, and in our opinion the transactions which have come under our notice have been within the powers of the Bank.

We have checked the cash and verified the securities of the Bank at the Chief Office and at several of the principal Branches during the fifteen months covered by this statement, as well as on February 28th, 1918, and have found that they agreed with the entries in the books of the Bank with regard thereto.

In our opinion the Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs according to the best of our information and the explanations given us, and as shown by the books of the Bank.
