Some More Plain Speaking for the Plain People.

The World thinks more of the welfare of the people of Ontario than it does of any political party. It seeks the good opinion of Liberals and Conservatives. It wishes to commend Liberals when they are right; it is not afraid to denounce Conservatives when they are wrong. It is independent of any Liberal leader, any Conservative leader or any party caucus. It is for right, rather than party, but it will uphold any party trying to do right.

Having said this we wish to address a few words to the Liberals of this province, and especially to those of them who are farmers.

We wish to tell these Liberals, these farmers, that they are being betrayed by the so-called Liberal leader and opposition in the Ontario Legislature.

If The Globe is still the recognized organ of these Liberals, and if Mr. MacKay is the accepted leader of this opposition, we wish to point out that both this organ and this leader think more of corporation interests than they do of public interests, of the farmers' interests.

The Globe has for president and chief editor Senator Robert Jaffray, who is a director in the big power combine, and the park commissioner who, as editor of The Globe, tried to rush the government into doubling the water privileges of the Mackenzie-Pellatt power syndicate. Mr. Jaffray, as any farmer who reads The Globe can see, is an electric corporation man. He is not for the plain people. He employs an under editor to pose as being strong for temperance and the righteousness that exalteth a nation. That's another word for "fiddlesticks." But where is this under-editor on MacKay's misconduct as leader? And where is he on cheap power for the farmer, and for cheap light for the farmer's house and barns?

As for Mr. MacKay, he failed lamentably to protest against the "dying hour" legislation of the Whitney government giving a provincial guarantee on two and a half millions of the bonds of the Canadian Northern. The Globe has never rebuked MacKay for his silence on this occasion. We believe he had the assurance, perhaps he had the orders of Mr. Jaffray to sit quiet.

The World did then and does now denounce this act of Mr. Whitney and this equally bad act of Mr. MacKay. We believe the farmers, the Liberals, the Conservatives, also denounce both these things. But who is the Liberal farmer that is calling Mr. MacKay to time?

Let the Liberal farmers read the following from The Weekly Sun of yesterday:

When the Whitney government proposed to grant 5000 acres per mile for 115 miles to the Ontario, Hudson Bay & Western Railway, and to guarantee the bonds of the Canadian Northern to the extent of \$2,500,000, Mr. MacKay had an opportunity which comes to few men. Another opportunity of almost equal value was presented when Mr. Clarke demanded the yeas and nays on amendments to the automobile law. It was open to Mr. MacKay to speak strongly and clearly on all these points, and to compel a division of the house on each of the questions involved. He failed to seize the opportunities offered, and by that failure showed an utter lack of the genius required of one in the position he occupies.

The Weekly Sun is no hide-bound organ of any one. Neither is The World. Both The World and The Sun tell the Liberals that they'd better be busy looking for a new leader, and that they had better look to other leadership than The Globe newspaper.

A chloroformed opposition is as bad as a corrupt or misguided government.

Weekly Sun: The provincial treasurer secured authorization from the legislature in the closing week of the session to float a provincial loan of four million dollars in London. During the same week permission was obtained to use the credit of the province in guaranteeing the bonds of the Canadian Northern Railway to the extent of \$2,500,000.

When the provincial treasurer comes to float his provincial loan he will find that the existence of this guarantee will make it more difficult and more expensive to place that loan than it otherwise would be. Not only was the legislation authorizing the guarantee of the Canadian Northern bonds a violation of sound public policy, but that guarantee will involve a distinct and certain loss to the provincial treasury.

The Weekly Sun is right. And what is worse, these very men who receive this grant that impairs the credit of Ontario, have maliciously declared that if Ontario attempts to float any bonds in London other than those for their benefit they will do their best to further impair the credit of Ontario in London. We printed the threat in full yesterday. We print it again to-day. Mr. MacKay sat silent after this threat was made. We have yet to hear what Mr. Whitney thinks of it. Here it is:

The provincial treasurer of Ontario, Hon. A. J. Matheson, has secured authority for a \$4,000,000 loan, of which \$1,000,000 is to be appropriated for the Temiskaming & Northern, and the purpose of the remaining \$3,000,000 is not designated or its uses are not earmarked, to quote the provincial treasurer. The appropriation of this \$3,000,000 for a transmission line is expected. We believe that when the provincial treasurer goes to the London market it will be necessary to define the purposes for which he wants the money. If it is for a transmission line something will drop, probably the market price of Province of Ontario bonds.—Financial Post.

To-morrow we may tell the farmers of Ontario, the people of Ontario, what they must be prepared to do hereafter in view of this condition of affairs that now confronts the financial position of the province.

In connection with this threatened attack on the credit of the Province of Ontario by the organs of the electric and railway ring, isn't it time that Mr. Whitney told the people of this province something about the bulldozing that was attempted toward him in London during the past twelve months. We don't think it was quite all of Mr. Whitney's own motion that he went into conference with a number of London bankers and submitted an explanation of his power policy, but rather do we believe that an effort was made to steer him up against an organized "protest" that had for its object the ends of the electric ring, not the maintenance of the credit of this province. Things have reached a nice stage when a great and wealthy province like Ontario is told that it cannot go on the market with its bonds without having the permission of corporations that are altogether dependent on the province for their existence, and that are constant petitioners to the province for monetary assistance and other legislation to enable them to exploit the public. The Province of Ontario is bigger than any such interest, and the prime minister of Ontario is the custodian of the honor and good name of this province, and if he intends to submit to any such bulldozing as took place in London, and has taken place in Toronto within the last few days, we will be very much surprised. We will also be very much surprised to hear that Mr. Whitney has not been bulldozed by some of his own supporters, or, rather, that attempts have been made by his own supporters to bulldoze him, to intimidate him

to the advantage of certain interests in this province; and also that these bulldozing members of his caucus are much more favorable to the fore-said interests than they are to their constituents, and to the party under whose auspices and votes they got into the legislature. If Mr. Whitney does not put these men, whether they be few or many, in their places now, they will overpower him in the next legislature. He had better get his back to the wall against all such threats, and demand apologies from those who have made them up to date. The people of Ontario will be with him in this line of conduct.

FEDERAL ELECTION PREPARATIONS.

Evidence that the present federal government is conscious of its dwindling popularity is not difficult to find in the bill introduced by Mr. Aylesworth regarding the voting lists of Manitoba and British Columbia. These provinces have Conservative governments and the object of the measure is to have the provincial voters' lists revised by federal officials previous to each Dominion election. In order to excuse the exceptional treatment proposed for Manitoba and British Columbia, the chief Toronto organ of the federal government pleads that under the system now in force in Manitoba the lists are made up by provincial officials, who, it takes for granted, are partisans, and this, it says, has operated so much to the disadvantage of the Liberal party in the province that the handicap is recognized and deplored. Therefore, doubtless, the determination to place future handicapping in safe hands.

The device is too transparent for its real character to be disguised even by the most ingenious and disingenuous special pleading. As usual, the Dominion Government apologizes by suggesting tribute to public morals by suggesting, none too strongly, that an effort should be made to put the impartiality and judicialty of the revising officers beyond question. The sentiment is admirable, but looking to the past electoral record of the federal government it will follow other pious aspirations of like origin that remain unfulfilled. For it may in turn be safely taken for granted that the federal officials will invariably be partisans and nothing else can be expected from Mr. Aylesworth. A minister of justice that recently anticipated the report of Mr. Justice Cassels, the commissioner appointed to investigate the department of marine and fisheries, by announcing that it would resist in the separation of the Tory goats in the civil service from the Liberal sheep may be relied upon to see that the shepherds appointed to herd the voters of Manitoba and British Columbia will justify their selection.

"THE FINANCIAL POST" NOT MACKENZIE'S ORGAN.
Editor World: In this morning's issue referring to an editorial in "The Financial Post" you say: "The Financial Post is one of the organs of the electric ring. It is William Mackenzie all the way. . . . That threat comes directly from Mr. Mackenzie thru one of his organs." We trust that in fairness you will publish our statement, viz: That "The Financial Post" is not controlled by William Mackenzie, nor is it an electric ring, but that the paper is entirely owned and controlled by the undersigned. No outside interest has one iota of influence in the paper, nor any fraction of control either directly or indirectly. We have not received one cent for advertising from Mr. Mackenzie nor any of the companies which he controls.

The editorial you mention in "The Financial Post" in regard to the Ontario loan was in no wise a threat. It was merely a statement of the financial prospect which awaits an issue of Province of Ontario bonds if the same should be for the purpose of building an electrical power transmission line in opposition to an existing company created by an explicit agreement with the government of Ontario, the bonds of which were largely taken up by the finance houses in London relying on the reasonable belief that no government purty rights would seek to destroy those rights by its own competition.

GAS BILLS.

E. L. Purvis informs The World that there seems to be considerable discrepancy in the accounts sent out by the Consumers' Gas Company.

In his case for the quarter ending March, 1907, his bill was \$7.75, and in 1908 for the same period \$8.70. In 1907 he used a three-hole gas stove and in 1908 he used no gas stove, but for this reason, that he used less gas in 1908 than in the same period in 1907, yet his bill for the quarter ending March, 1908, was nearly \$2 more than his bill for the same period in 1907.

Mr. Purvis may be quite right, but what can he do? The Consumers' Gas Company is quite willing to listen to his complaint, but they will charge him every dollar on the bill. There is not the slightest doubt in the minds of many citizens that they are paying for gas they never use, and are paying as a body get together and form a co-operative society for the accurate inspection of gas meters the consumer of gas will be constantly at the mercy of the Consumers' Gas Company, and generally pay thru the nose.

MACHINISTS ALARMED.

James Somerville, general organizer of the International Order of Machinists, has been sent to Winnipeg to investigate the action of the C.P.R. in refusing to longer recognize their agreement with the union men employed in the shops.

Net Contemplating Refusal.

LONDON, April 15.—(C.A.P. Cable.)—In the commons Sir E. Strachey stated that the Canadian Government intended to impose restrictions on the importation of British breeding stock. The British Government had not contemplated legislation regarding the importation of Canadian cattle in order to prevent such action.

Monument to Edwin Booth.

NEW YORK, April 15.—Plans are maturing for the erection of a monument to the late Edwin Booth, one of America's greatest actors, in Gramercy Park, directly opposite the Players, the club which he founded. Members of that organization will defray the cost of rearing the monument, which will be about \$25,000.

Shacks Burned at Cobalt.

COBALT, April 15.—The shack owned and occupied by George Ross, bar-tender of Cobalt, and formerly of Toronto, was burned to the ground this morning at two o'clock, as was that of Zena Trudelle, next door, on the Nipissing property.

Died After Mumps.

ST. JOHN, April 15.—Henry W. Barker, resident of Cobalt, and formerly of Toronto, died suddenly from heart failure, following the mumps. Mr. Barker was 54 years of age.

3. Dominion Bank v. Ritchie.
Promissory Note.

A writ of summons has been issued by J. C. Seager of New York against Thomas H. Hamilton and the Heming Trust to recover the amount due on a note for \$1000.

Asks an Injunction.
The Dolly Varden Shoe Company of Montreal is asking the court for an injunction restraining Isaac Simon of the Township of Alexandria from offering for sale or selling the Dolly Varden Shoe, and also for an order that Simon vacate and remove from his shop all Dolly Varden shoe signs.

Alleges Negligence.
Suit has been brought against the Caledonia Skating and Curling Club of Toronto by Frederick Kirby, who is claiming \$2000 damages for alleged negligence.

Bank Wants Security.
The Monarch Bank applied to Master-in-Chambers Cartwright for an order directing certain parties in Halifax, N.S., who are petitioning for the winding up of the bank, to give security for costs. His lordship referred the motion to the judge in chambers sitting on the 24th inst.

Mining Claim Trouble.
E. Russell Purvis of Toronto has been made defendant in an action brought by Manchester Cobalt Mines, Limited, for a declaration that Purvis holds mining claim No. 381, Coleman, as trustee for the company, and that he be ordered to transfer the mining claim to them.

DYNAMITED DAM.

How Boston and Montana Smelter Was Saved.

HELENA, Mont., April 15.—The Black Eagle dam across the Missouri at Great Falls, was to-day blown up with dynamite in order to prevent the destruction of the Boston and Montana smelter. This materially helped and serious danger from the flood in view of the fact that a smelting workman, name unknown, died when he was being the second man to lose his life as a result of the flood.

THE JAUNT TO CUBA.

Editor World: I see that the city and provincial detective departments are at odds as to which should have the privilege of providing an officer with a holiday trip to Cuba to bring back Colin Harbottle.

In view of the fact that the city men have done all the work in the case and in view of the fact that the provincial authorities have not yet succeeded in rounding up the gang of bank burglars who have been operating in Western Ontario, it might be wise to let the provincial officers stick strictly to business until their work is properly cleaned up. The attorney-general's department has more than once complained that there is more work to be done than the staff can adequately handle.

Not Contemplating Refusal.

LONDON, April 15.—(C.A.P. Cable.)—In the commons Sir E. Strachey stated that the Canadian Government intended to impose restrictions on the importation of British breeding stock. The British Government had not contemplated legislation regarding the importation of Canadian cattle in order to prevent such action.

BOARD OF CONTROL

Would Like to Designate Style of Car Fenders.
The board of control yesterday discussed the alarming number of recent street railway fatalities, but the city engineer reported that he had no authority to prescribe the style of fenders to be used by the Ontario Railway Board having full powers. Controller Hocken said that he would be willing that the city should extend aid to litigants in damage suits in cases when the company carried litigation as far as the petty court.
City's sand pump No. 2 will start to-day filling in the streets on Centre Island west of Hallam's Bridge as the result of Controller Hocken's report to the board of control that Cherokees, Mohawk, Onglora, Pawnee and Shawnee-avenues are under water.
The local board of health failed to draw a quorum yesterday, only the chairman, Ald. Church, and Ald. J. J. Graham turning up.
Chief Justice Meredith yesterday dismissed the application of C.P. Goodson for an injunction to prevent the city from using St. Lawrence market for other than market purposes.
At St. Margaret's Church.
The three hours' service at St. Margaret's Church on Good Friday, 12 noon to 3 p.m., will be taken by Rev. Prof. Cosgrave of Trinity College.

YOUNG CANADIANS' RISE.

Rev. W. J. Campbell Called to Detroit Pastorate.

Rev. W. J. Campbell of Cambridge, Mass., has accepted the call extended to him to become assistant minister of the First Congregational Church in Detroit, will take up his duties about June 15. He will occupy the pulpit during the summer months while Dr. A. Kings is away on his vacation. Several weeks ago Mr. Campbell spoke at a dinner given by the Men's Club, and on that occasion the excellent impression he made on that occasion. He is a young man of fine presence, and is said to be a forceful preacher.

Mr. Campbell was born in Carleton, Prince Edward Island, in 1877, and from 1898 to 1900 studied in the Ohio Northern University. He then entered the Harvard Divinity School as a graduate student, receiving the degree of S.B., in 1907. In 1908 he married Miss Carrie S. Green of Bangor, Me.

Oak Hall's Easter Showing of Clothing.

For the smartest lot of nifty garments for men and boys, Oak Hall's Easter showing is the finest in Toronto. This ever progressive firm has excelled all previous efforts for the coming summer trade. New styles and ideas for boys that are exclusive with Oak Hall have been introduced and adopted, and for children the most beautiful patterns are shown in Sailor Suits, Russian, Brown Browns and others. Bloomer Pants are a strong feature with boys' suits this season, and the new bloomer shown by Oak Hall is the proper shape, cut from the newest model—"Sovereign Brand," the finest garments ever made for men are shown in the largest possible range of patterns and styles. Don't miss seeing Oak Hall's Easter display.

Detective George Kennedy returned from Woodstock last night, bringing William Clark of Stanley Barracks, who is charged with theft of a trunk of clothing from Pte. Byron Osborne.

SAM CHARTERS OPENS CAMPAIGN IN PEEL

Conservative Candidate Meets With Flattering Reception at Meeting at Port Credit.

Port Credit had a capital campaign meeting last night in the interests of Sam Charters, Conservative candidate for Peel in the local house. The hall was well filled and a large number of ladies brightened the audience. The local farmers turned out well, and if Port Credit is any indication Mr. Charters will be an M.L.A. before midsummer. Charles Elliott was in the chair, and made an engaging address. Thomas E. Champion also spoke attractively as an old friend of the candidate, and was followed by J. W. Hamilton, the spokesman of the advantage of the farming people taking counsel among themselves. He had walked down from his farm that evening to meet his candidate for the first time. He did so in the belief that there was a time when honest men should take off their coats and do a little work for honest government.

Mr. Charters referred to his former candidature when he was defeated by majorities of 123 and 25. It was recalled that a candidate twice defeated was chosen a third time. He remembered only two instances, those of Dakon McCarthy and Thomas White, and with that good example he was encouraged to hope for his own success.

Mr. Charters dwelt on various details of government administration, taxation and other matters. The country had received in 1904 \$1858, and last year \$818 or three times as much. The country had received for rural schools nothing in 1904, and \$896 in 1907. The Township of Toronto received in the same years \$694 and \$1738. Port Credit itself had only in 1904 received \$90, and in 1907 \$237.

Mr. Charters made a striking impression by exhibiting the school books as sold at the reduced prices. The monopoly had gathered \$20,000 out of the provincial pockets and would have increased that but for the reduction in prices insisted on by Whitney. Not only the people but the press and pulpit everywhere supported the government for their straightforward honest work.

Hon. Nelson Monteth was glad to be able to pay tribute to the many excellent qualities of Mr. Charters as a public man. Such men were of advantage on the floor and in the committees of the legislature, and Mr. Charters was a man of such a mouthpiece. He described the institute work and the judging classes and the valuable results. Over 200,000 had been brought together by the institutes during last year, while the membership of the Women's Institutes was 11,000.

Richard Blain, M.P., had traveled from Ottawa to be present, and he was delighted to see Mr. Charters as good for his esteemed friend, Mr. Charters. He was delighted also to welcome the Conservative party.

They had formerly had free trade and protection up for discussion over the market garden, and Mr. Charters was a firm believer in protection for the farmer, and no class needed it more. (Applause.) He wondered where the grand old tree of the Republic was. There had been a deputation recently at Ottawa asking for higher duties on different articles. At the foot of the list of those in attendance he found the name of Joseph Featherston, ex-M.P. for Peel, asking for an increase in the duty on port wine.

Mr. Blain gave an interesting account of some of the revelations in the public accounts committee respecting the Royal Shipbuilding Board and other Ottawa inquiries, and carried his audience with him all the way in sympathy with the opposition efforts.

Mr. Charters holds a meeting in Brampton on Saturday evening.

Last Day of the Great Rug Auction.

Mr. Chas. M. Henderson will sell this afternoon at 2:30 and evening at 8 o'clock at No. 40 East King-street (opposite the King Edward Hotel), a very valuable collection of high-class oriental rugs, art goods, etc. This is positively the last day of the public sale of purchasing from this large and valuable collection.

London Must Wait Turn.

LONDON, April 15.—Secretary Hunt of the Western Fair is in receipt of a letter from Hon. Sydney Fisher, minister of agriculture, stating that it will be an impossibility for London to have the Dominion Exhibition in 1909, owing to the fact that there are two provinces that must have it before it can come back to Ontario.

You Recognize Nasal Catarrh Chiefly by Dizziness, Frontal Headaches, Nose Cold and Stiffness.

Catarrh in almost every instance starts with a common cold in the head, which is added to with another cold, and because of some extra exposure or weakening of the system, it becomes chronic.

A full case of disgusting nasal and throat catarrh then develops. Unless a radical cure is effected, the disease passes rapidly to the sinuses, the bronchial tubes and finally to the lungs.

New Lung.

No man or woman can ever get new lungs, but everyone suffering with Catarrh can get a sure cure by inhaling Catarrh-oxide, and this is proved as you read further.

Quick, Lasting Cure.

After ten long years of suffering with catarrh in the throat and chest, I write to tell you that I am now completely cured with Catarrh-oxide. What a relief it was to get that buzzing, stopping, and finally to get that new lung.

John McCullough, N.S. Let Catarrh-oxide cure you, 25c, 50c and \$1.00, the latter is guaranteed.

NOTICE NO. 3

TO THE CONSUMER: How do you know if the Ale, Porter and Lager you are using has been bottled properly?

If it has not been bottled in a brewery how can you rely on its absolute purity and uniformity? Think this over.

The name "CARLING" is a guarantee of science and purity in Bottling as well as in Brewing, and all our products are BOTTLED ON OUR OWN PREMISES.

See that the name "Carling" is branded on every cork. Ask your dealer—"WHY IS IT BOTTLED?"

and it is said the neighboring vein has been encountered in both cross-cuts. Last week a small calcite vein was found. It had no value, and results of an assay have not been received.

On the Gibson lots, which consist of three claims in the north, the Keeley, a four-inch cobalt vein has been found which will pass these lots.

The Martin lot adjoins the Fornerl. Last week in trenching a cobalt vein was found on the surface of bed-rock. No more work will be done until camp buildings are erected.

The work consist of an open cut 15-12 feet deep (from bed-rock), 27 feet long and 5 feet wide. The vein matter has a width of two feet in places and a strip of solid cobalt ore runs uniformly along the west wall.

The vein is 15 degrees west of north, and the strill cries of wild beasts and the occasional intrusion of Indians, Hudson Bay Co. prospectors and miners.

The Hattleybury Silver Co. will be another shipper in the spring. This company controls a 40 acre claim, originally staked by Lord G. Mayhew of Beachport, in North Renfrew, and A. G. Brough, formerly of Peterboro.

The Temiskaming Navigation Co. is an old established line and under Management of Director Larochelle has been the north country good service in the past.

Shipping Facilities. A word as to shipping facilities. The new owner in Silver Centre will have two routes: up Lake Temiskaming to Hattleybury by boat and then on T. & N. O. cars to North Bay; or down Lake Temiskaming to Lumsden's Mills by boat and then on C.P.R. cars to Mattawa.

ATTITUDE ALTERED.

John E. Redmond on British Parliamentary Changes.

DUBLIN, April 15.—Speaking at a meeting this afternoon of the United Irish League, John E. Redmond, the Irish parliamentary leader, said the changes in the ministry resulting from the assumption of the premiership by Mr. Asquith had involved an alteration of the attitude of Ireland toward the Liberal party, and he did not think that Irish voters could support Winston Churchill in the approaching election at Manchester. Continuing, Mr. Redmond declared that the attitude of Premier Asquith and Secretary for Ireland Birrell toward home rule was a direct challenge to the people of Ireland, and he warned Mr. Asquith to remember the fate of Lord Rosebery.

Ireland herself would have to force the home rule question to the front at the next general election, but there was nothing to be gained by withdrawing the Nationalists from Westminster.

MANAGER HODGSON TENDERS RESIGNATION

In Charge of Union Stock Yards Since Inception—B. of W. Tour Town.

WEST TORONTO, April 15.—The board of works, the mayor excepted, made their annual tour of inspection this afternoon and are greatly pleased at the general progress made in the city during the past twelve months. During the official drive around the suburbs the condition of the streets was an ever-present thought, and yet, in spite of an occasional jolt and a little mud-splashing, everybody was optimistic. "The streets are in better condition this spring than they have been in several years," said Councillor Hain. "If that much-complained-of board of works, the mayor excepted, had a few more catch basins to drain away surface water and a little fixing up, especially near the Canada Cycle Works, it would be a great improvement." Mr. Hain continued. The streets on which there is considerable traffic are in need of repairs and will be attended to as soon as possible. After a rigid inspection of the Western Avenue street officials decided that its condition need cause no further worry to the C.P.R. The houses on the south side of the street are in good condition. Those with present timbers were replaced with new ones and a fresh coat of paint added to the entire structure everywhere. The iron work and gutter work are in good condition. Someone has recently taken the liberty of carting away sand from the embankment of the south side of the new lacrosse grounds, and thus has undermined some of the fence posts. The officials noted this to-day and will enquire into the matter. Those who made the trip were Aldermen Hain, Ford, Maher, Whetter and Jennings. The houses now being built for the Jewish families on Maria-street have been registered by H. Gaffney. They will cost about \$3000.

BOARDING MOVING CAR
YOUNG LAD IS KILLED

Bennett Qua Meets Instant Death Beneath Trolley Near His Own Home.
Bennett Asher Qua, aged 14, son of Samuel Qua, traveler, was killed by a King-street car which he tried to board while it was passing King-street and Gwynne-avenue yesterday morning. He was on his way from his home, 11 Gwynne-avenue, to the technical school. The car had stopped at Tyn-dal-avenue and was passing when the unfortunate lad, running across the street in front of the car, tried to get on the rear platform of the motor. He slipped and went beneath the trailer and motor and was terribly crushed. A brother was among those attracted to the scene and assisted in caring for the remains.
