RUSSIAN MORE HAS PROFOUND MORAL EFFECT

Eastern Offensive Falsifies German Stories of Muscovite Decrepitude.

LENS SOON TO FALL
British Artillery Prepares Way for Infantry—Gen. Maurice Speaks.

London, July 5.—Since the beginning of the war the British have captured 117,776 prisoners, exclusive of natives taken prisoner in the African campaigns, many of whom have been released, said Major-General P. S. Maurice, director of military operations, at the war office today. The British have lost the enemy, this man, including Indian and native troops. These figures take in all theatres of war.

The British have captured 739 guns during the war, and lost 135. Of the guns lost 37 were captured, and of the 96 remaining in enemy hands 84 were lost by the British on the front early in the war.

General Maurice's attention was called to a statement made in the press that the Germans were withdrawing large numbers of troops from the west in order to stem the Russian assault. He responded that there had been no such withdrawal, which is not yet over, and it is bound to have a far-reaching result morally, to say nothing of the material advantages accruing.

Referring to the recent German attack on the French at Verdun and on the Chemin des Dames, General Maurice declared the Germans had made these assaults in an attempt to gain the initiative in the west.

Dineen's popular priced hats—an imported English straw for \$2.00, or a Panama with the genuine label for \$5.00. These are the popular prices, but Dineen's selection, including exclusive hats, brings the range up to \$4.00 for straws and \$15.00 for Panamas. Dineen's, 140 Yonge St.

NEW LIBERAL PARTY TO BE BORN IN WEST

Convention to Open at Winnipeg on August Seventh Will Be Independent Wing Under Own Leader—All Progressive Elements Invited.

Ottawa, Ont., July 5.—A new Liberal party, composed of the Liberals of the provinces of Manitoba, Saskatchewan, Alberta and British Columbia is to be formed, it will appoint its own parliamentary leader and will be an independent party in the house, although it is stated tonight that it might form a coalition with the Liberals of the eastern provinces without, however, losing its identity as a party.

The official announcement of the calling of the convention to form the party was made tonight. It will convene at Winnipeg on August 7 and 8.

STRONGEST FOE ONSET RECOILS FROM FRENCH

Greatest German Effort Since Verdun Fails Completely on Eleven-Mile Front on Chemin des Dames.

By the Associated Press
French Front in France, Wednesday, July 4.—After the strongest offensive effort since Verdun the Germans found themselves today thrown back everywhere along an eleven-mile front on the Chemin des Dames, leaving the ground thickly strewn with their dead and having failed to take even one French soldier prisoner.

The French lines remained intact and the French commanding general who watched the operations throughout the front trenches was able to declare tonight that not a single yard of territory had been lost.

The German infantry appeared to have all the dash taken out of them by the French defence and made no attempt to repeat the ground lost by the French reaction. Their artillery throughout the day, however, maintained a sweeping fire, but its effects were minimized by the enemy's lack of observation posts.

FUEL CONTROLLER HAS EXPERT ADVISER IN U.S.
Magrath, After Investigating Situation From Montreal to Winnipeg, Decides Canada Must Be Represented at Once Across Border.

Ottawa, July 5.—The fuel controller, C. A. Magrath, who returned to Ottawa today from Montreal, where he has been conducting an investigation, found that the coal used in that part of Canada extending from Montreal to Winnipeg is imported from the United States, and the imports are very considerably behind the normal supply.

GERMAN DEAD LOSSES OF MILLION AND HALF

French Headquarters Make Computation—Allies Take Sixty-two Thousand Prisoners in West Since Mid-April.

Paris, July 5.—The total number of Germans killed from the beginning of the war to March, 1917, is not less than 1,500,000, according to an estimate reached by French general headquarters. This computation has been made after careful study of documents bearing on the subject.

RUSSIANS HOLD GAINS ACTIVITY IN RUMANIA

Republican Troops Promptly Check Enemy Attempts at Recovery of Lost Ground on Galician Front Near Brzezany.

London, July 5.—With the Russians holding their gains in Galicia against Austro-German attacks, the indications of stronger activity in the other war theatres are multiplying.

On the western front the British have advanced and the French artillery is active from north of the Aisne to the Meuse; the artillery activity has increased on the entire Austro-German front; there has been greater local activity in Rumania, and on the Macedonian front the Germans have taken the offensive in a small sector.

Further south along the Hungarian-Rumanian border and in Rumania, two attacks near Lipnicadolina were broken up.

Further south along the Hungarian-Rumanian border, the enemy twice attacked our positions, but was repulsed on both occasions.

MEXICO MAY WAR ON GERMANY, TOO
General Gonzales Consigns Hun Government and Kaiser to Perdition.

El Paso, Texas, July 5.—Since the pro-ally campaign in Mexico was first started by "El Universal" in Mexico City, the sentiment favoring the allies has reached northern Mexico, and, during the past 30 days, a well-defined movement favoring an open break with Germany and the alignment of Mexico on the side of the entente allies has developed.

Government Counts on the Defeat of Laurier Amendment for Referendum by Close to Fifty Votes—MacNutt of Saltcoats and Ross of West Middlesex Support Government—Doherty Denies Giving Pledge to Hierarchy.

By a Staff Reporter.
Ottawa, July 5.—Since three o'clock Thursday afternoon the house of commons has been debating the conscription bill. It was hoped the first division might be taken by 10 o'clock Thursday night, but Mr. LaFontaine (Montcalm), and Hon. C. J. Doherty, minister of justice, who were to take half an hour apiece were, between them, in possession of the house until nearly 10 o'clock. This threw the schedule all awry, and the members who followed did not speak at any great length the debate was still in full swing at two o'clock this morning.

The house will divide, however, upon the Barrele motion for the six months' hoist, Sir Wilfrid Laurier's proposal for a referendum, and the second reading of the bill before adjournment. There may also be a vote recorded upon an amendment proposing that the conscription law not take effect until after a general election. All amendments will be voted down by a substantial majority, and the second reading of the bill will probably carry by between fifty and sixty majority.

General Gonzales Consigns Hun Government and Kaiser to Perdition.

El Paso, Texas, July 5.—Since the pro-ally campaign in Mexico was first started by "El Universal" in Mexico City, the sentiment favoring the allies has reached northern Mexico, and, during the past 30 days, a well-defined movement favoring an open break with Germany and the alignment of Mexico on the side of the entente allies has developed.

At the evening sitting Judge Doherty dealt with the question of the government's conscription. Mr. LaFontaine said that he had "delivered" Archbishop Uchuichet of Montreal with respect to the policy of the government on conscription. The charge made by Mr. LaFontaine directly, and indirectly by Hon. Redolph Lemieux and Mr. Wilson of Laval in the present debate, was to the effect that Mr. Doherty, as minister of justice, had given a pledge to the archbishop that the government would not introduce conscription, and that relying on this pledge his grace had directed all the people in his diocese to sign the national service cards. Judge Doherty was understood as saying that he might find some reason for not supporting the bill.

Hon. C. J. Doherty, minister of justice, said the idea of compulsion was in itself repulsive to him, and he only supported the bill because he felt it was solely necessary for the honor of Canada. He had listened repeatedly to all the arguments advanced from the other side, hoping that he might find some reason for not supporting the bill.

No argument, however, had been produced to shake his conviction that compulsory military service was unavoidable unless Canada intended to withdraw from further participation in the war.

"Duty," said Judge Doherty, "is the subject of my address. I have every respect for those who believe that they should withdraw from the war or should not have gone into it, but I think they are right, but I think they occupy a logical position when they oppose this bill. I must say, however, that I have little patience with those who say we must win the war, but do all they can to prevent soldiers being raised for carrying on the war. The government is not proposing to raise any new forces; it merely proposes to keep the divisions already established up to strength."

Resents Attacks on Quebec.
Judge Doherty deplored the recriminations that had marred the debate. He was proud to be a citizen of Quebec. He could not see why anyone should be criticized for not enlisting. The essence of the voluntary system was to give each citizen complete liberty either to go to the war or stay at home. Why should he be criticized or reproached for exercising the liberty the state gave him? The debate did not justify argument along racial lines, and Judge Doherty deplored Mr. LaFontaine's assertion that all the Irish-Canadians in Canada were opposed to conscription. The bill was not directed against them; it was a probability that the friends of Controller O'Neill will endeavor to persuade him to enter the field as a third candidate, as he is one of the most popular members of the council and had the honor of heading the poll for the board a few years ago.

Controller Cameron first entered the council in 1914 as an alderman and was returned the following year. In 1916 he was successful in obtaining a seat on the board of control and headed the poll at the last election.

Jeffrey's Call for Men.
Marshal Joffre had few words of English at his command, but during his visit to Montreal he repeated over and over again, "Send us more men." We were told that the United States would send all the men that were needed, but had Canada no pride or self-respect? Our own boys had to be reinforced, otherwise they must serve double and triple time in the trenches and have only one half or one third of the time they required for rest. Every man at the front would be subjected to double and triple risk. As to the plea that we were invading the rights of the people, Judge Doherty said there was one thing sacred than the rights of the people, and that was their duty. The government should compel the people to do their duty. (Applause.)

MacNutt Another Belter.
Mr. MacNutt (Saltcoats) said he was reluctantly compelled to differ with his leader on the question before the house. He favored conscription; and while generally in favor of "direct legislation," felt constrained to oppose a referendum. If we have a referendum, certainly the soldiers at the front should vote, and no one after hearing.

Invest in a Farm Level and Save Time and Labor

It Makes for Efficiency in Many Phases of Everyday Farm Work.

IF UP-TO-DATE METHODS prevail on your farm, you'll want a Level—such as that shown in the illustration below. It will make for efficiency and accuracy in the proverbial hundred and one ways—such, for example, as lining up fences, grading the fall for ditches, setting out young trees in the orchard, ascertaining the height of springs and locating the position of drains. Moreover, the Level can be used without previous experience.

The Level proper is of black nickel. It is put up in a mahogany box with carrying strap, and is accompanied by trivet plate, which enables instrument to be set on the wall of a building where it is impossible to use the tripod. The latter is made of hardwood and bell metal.

Price of Farm Level, complete as described, is \$27.50. —Optical Dept. Third Floor, James St.

This is Interesting

BRIDES who wish to preserve the copper plates on which their wedding invitations or announcements were engraved may combine the practical with the sentimental by having the plates converted into card trays. The idea is proving very popular, and the stationery department has been turning out some very nice little copper salvers of this nature. The average price for making them is \$1.75.

Handsome Japanese book ends are among the unique pieces of Oriental pottery on view in the china department. Odd almond-eyed potatoes clad in rich garments and squatting in characteristic fashion on fat bags of rice are the subjects employed for the useful purpose. The price of the ends is \$7.50 a pair.

Head-linings ready to sew into a Panama or any other hat she may be trimming are a boon in the home. They are who invariably detests this flimsy, finishing touch to her task. They may be had in white or black silk for the small sum of 35 cents.

The problem of keeping linen or lace table centres from creasing when not in use is happily solved by winding them round long cardboard rolls specially designed for the purpose. These have attractive china covers, lined with satin ribbon, and may be had in the art needlework department, priced at 75 cents.

Among the new notepaper for social correspondence is a white linen lawn of superior quality, edged with pink or blue, the top fold of the sheet of paper being narrower than the under fold. A paperette consisting of one quire of paper and 24 envelopes is \$1.50.

Toronto Kilties to Stir Recruiting Enthusiasm in U. S. Cities.

AVIATION CAMPS OPEN

Two Hundred Flying Men Training at New Toronto Grounds.

At the request of Brig-General White, C.M.G., a hundred and fifty picked men of the 48th Highlanders of Toronto will, on Sunday, July 15, leave for a visit to New York city and Chicago to stir up patriotic enthusiasm among the British-born and thus swell the enlistments at the British recruiting missions in the United States.

The party of kilties to visit the United States will consist of the regiment's brass band, 50 strong, under Bandmaster Lieut. John Slater, 20 pipers, and enough picked members of the 48th's C.E.F. men at Camp Borden to bring the total up to 150. Eight or nine officers, including Lt.-Col. C. W. Darling, will be in command. The visiting kilties will have permission to enter the United States in uniform and carrying arms. They will leave Toronto on Sunday afternoon on a special train. The Highlanders will spend Monday and Tuesday in New York city, travel westward on Wednesday, and visit

Chicago on Thursday and Friday. The return trip from Chicago to Toronto will start on Saturday morning.

In New York city the Scottish Volunteers, the battalion of Scottish Volunteers, with their pipe band, and details of the United States army will take a part in welcoming the Canadian soldiers. Men Are Ready. Toronto's Royal Flying Corps aviation camps at Leaside and at Armour's Heights, in the northern part of the city, which occupy Camp Borden's great R. P. C. training grounds, have just begun operations, with 200 aviation candidates for flight-officers' certificates. There are nine airplane hangars at Leaside and six at Armour's Heights, and a vast number of mechanics employed in the buildings.

Major J. Rube has been appointed temporarily in command. He is an imperial officer, who saw service in South Africa and also in the present war. Capt. P. C. Sherran, M.C., who is leaving the Long Branch Camp to become a flight commander in charge of a squadron at Armour's Heights, has received a bar to the cross he won while at the front in France.

Yesterday's Recruits. Forty-two recruits were attested for enlistment at the Toronto Armouries yesterday, 21 of them signing up with the C. E. F. and 21 with the Royal Flying Corps. Every man who applied for enlistment in the R. F. C. was accepted. John G. Lansdown, who was working at Muselle, Mississippi, reported to the British mission at New Orleans, and was sent on to Toronto. He was attested at the Toronto mobilization centre yesterday, and joined the overseas draft of the 10th Regiment. Another recruit from the United States yesterday was L. C. Coombe, of Jamestown, N. Y. He joined the Canadian Mounted Rifles. The 21 C.E.F. recruits enrolled yesterday were attached as follows: York and Simcoe Forestry Draft, 6; 19th

Unclaimed Freight Includes Five Tons "Black Diamonds"

About one thousand lots of unclaimed and refused freight were sold by public auction at the C. P. R. freight sheds yesterday. The articles were boxed up and the condition of the contents was unknown to the spectators, but competition was keen. The list was varied, and among those articles which were sold at good prices were a box of dress patterns, 300 packages of macaroni, one Victrola, 2,000 coat hangers, 4 pairs of stock feed, 216 cans of stove polish, two Ford radiator noods, a box of face powder, bird seed, and five tons of coal.

RAISE PRICE OF ICE.

The ice dealers have been affected by the prevailing high prices of commodities, and as a result Toronto householders will be required to pay more for their ice this summer than formerly. Nine tickets will be sold for a dollar instead of ten, as before. The increased expenses of the ice dealers in wages, etc., are responsible for the advance.

HELD VERANDAH PARTY FOR MEN AT THE FRONT

Trench Battery Auxiliary Gives Novel Entertainment to Raise Funds.

One of the ideal ways in which to spend a half-hour yesterday in the full enjoyment of breezes from Lake Ontario, was the "verandah patriotic party" of the Auxiliary of the 11th Canadian Light Trench Battery, held at 1512 West King street, the home of Mrs. George Morton, secretary of the association. Mrs. W. J. Clark, the president, and a number of enthusiastic helpers, including several little girls, assisted during the afternoon and evening. Small tables for tea, together with comfortable wicker chairs, were at the service of the devotees of the tea-pot and other tables were filled with mysterious packages which might be bought for the small sum of five or ten cents. Beautiful posies made the air fragrant, and Chinese lanterns strung from the ceiling, together with a number of flags, made a gala spot among the intervals and spaces of the June trees. In the library a sale of fancy articles and home-made cakes was in progress and ice cream cones were held out from inviting baskets to the King street pedestrian. A musical program, arranged by Mrs. Conquergood, was also given. "We send boxes every week," the workers told their patrons, "and we hope to do well this afternoon for the sake of our men in the trenches." The time and taste expended on the venture deserved that the hope should be fulfilled.

RUSSIA ABOLISHES DECORATIVE ORDERS

Only Awards Given for Distinguished Service in War Will Be Allowed.

Petrograd, July 5.—The government today abolished all decorative orders except those awarded for service of distinction in war. The Petrograd Council of Workmen's and Soldiers' Deputies adopted a resolution to join with the General Congress of Workmen's and Soldiers' Deputies in sending greetings to the "brothers at the front," and congratulations on their successful advance, assuring them of support. The vote was 472 to 271. A vote of confidence in the government was adopted unanimously by the Council of Soldiers' and Workmen's Deputies on the occasion of the raid by government forces on the villa of the former revolutionists, which had been the headquarters of anarchists. The vote was taken after a speech by M. Skobeleff, minister of labor, who said no one in Russia could be arrested on account of his political ideas, but that no mercy should be shown to criminals who organized society under the name of anarchists. The report of the executive committee emphasized the fact that the revolutionary element had nothing in common with the men who occupied the Durovovo villa. It is said that grapefruit—which is a native of the East India Islands—was first introduced into Florida about the year 1890. When boiling cabbage use plenty of water and put in a spoonful of salt and one lump of sugar. Cabbage should be boiled quickly and with the lid off the saucepan.

SAXONY IS NOT LOYAL TO RULER

Sensational Statements Indicating Grave Unrest Made in Saxon Diet.

Copenhagen, July 5.—Saxon soldiers are not fighting out of loyalty to the king, but for love of the fatherland and monarchical principle. Saxony is suffering sadly from the mistakes of an incompetent bureaucracy, and conditions of this situation. Such were the disagreeable declarations which the government was forced to hear from all parties, except the Conservatives, in a debate in the Saxon Diet yesterday, a report of which has reached here. The discussion was on necessary internal reform. The occasion for the debate was a Socialist resolution demanding that the government make an effort to secure liberal reorganization in the empire. After Count Vitthur, premier of Saxony, had declared that the Saxon Government would fight any attempt to secure any franchise reform in individual states thru the Reichstag, the socialist vice-president of the house himself an ex-soldier flatly denied that loyalty to the king played any role with the people. He warned Count Vitthur against persisting in his reactionary attitude, saying that reform would come, if not from the crown, then from the mob. Count Vitthur attempted to meet the storm with the old formula, devotion to the crown, but even the National Liberals backed the socialist declaration. The people are suffering from the mistakes of an incompetent bureaucracy, and conditions of this situation. Humane Society Tag Day Gathers in Seven Thousand Dollars.

DIRECTORS PLEASSED

Express Satisfaction and Gratitude to Those Who Have Helped.

Toronto gave approximately \$7000 to the Toronto Humane Society yesterday. It is believed that when all the collections are in, the actual total will be slightly over that figure.

It was shortly after 5 o'clock yesterday afternoon that the boxes commenced to arrive at the head office on McCaul street.

Everything from pins to German coins were found in the boxes of the latter there were two—one for 10 pennings. There were milk checks, hair pins, red and blue car tickets, buttons, tobacco tags and other miscellaneous trash.

There were two large piles full of coppers, many five dollar bills, more numerous ones, and from that down to one cent piece. The highest box contained \$674, and the lowest had just one cent in it.

At five o'clock yesterday afternoon a box was held outside the munitions factory at Leslie, and in a few minutes the workers there had contributed \$4215.

Taggers Were Busy. All day yesterday the little yellow flags given in exchange for the coin or bill that found its way into the boxes of the taggers, were familiar sights on the street.

It was a busy day here beside tag day, said Secretary Craven. "First a horse had to be shot, then a dog had to be attended to that got into the park and onto the tracks at Queen and Parliament streets, a call came in about a dog that was run over at Symington and Bloor, a four-month-old puppy was

Mr. MacNutt said he was in favor of keeping in the war until we had last dollar, but he did not mean that we should conscript the men who were working on the farms or in the munition factories.

Message to Speakers' Training Camp at Chautauqua Sees No End Yet.

Chautauqua, N.Y., July 5.—There is no early end of the war in sight, Franklin K. Kane, secretary of the speakers' training camp for patriotic education, wrote in a message to the delegates today.

"The United States," Mr. Kane wrote, "will be a nation in arms for an indefinite time, and the cabinet has no delusions that the way to peace will be easy."

Washington, July 5.—T. P. O'Connor and Richard Hazleton, leaders of the Irish republican party, were presented to President Wilson today.

Austrians Claim Recapture Of Some Brzezany Positions

Vienna, via London, July 5.—The recapture of some positions at Brzezany from the Russians is announced in the official German communiqué today.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

The Galician front the Russians have again opened a heavy artillery fire between Zboroff and Brzezany, or as Berlin reports, a strong artillery duel.

As Brusiloff, who is now in supreme command of the Russian armies, is noted for his unexpected thrusts and his capacity to fool the enemy every time, it would not be surprising if he developed a strong campaign along the Danube in conjunction with the allies from Salonica.

The French passed a rather quiet time yesterday after their victory over the Germans on an eleven-mile front on the Chemin des Dames.

The British have revived the activity of artillery and aircraft in the Belgian coast region that so much alarms the enemy.

The rapid way in which the German reserves are shrinking forms the subject of a study by Reuters' correspondent at the front.

A French estimate of the number of German dead in the war till March last is 1,600,000. French general headquarters have made this computation after a study of the documents bearing on the subject.

The Italian patrols are quite active about Gorizia, probably because they perceived troop movements in the Austrian lines and have a strong suspicion that these are destined to face the Russians.

YORK COUNTY AND SUBURBS NEW TORONTO INDUSTRIAL CENTRE

Goodyear Company's Great Factory Alone Will Employ Fifteen Thousand.

Seven and a half miles from Toronto, there is rising an industrial centre known as New Toronto, which in a few years will be a thriving town.

The following reeves made the tour: Cornell, Scarborough; Padgett, Markham; Fugate, Richmond Hill; Whitmore, Vaughan; Wallace, Woodbridge; Gardiner, Brampton; Griffith, Mississauga; Loveloy, New Toronto; Silverthorn, Etobicoke, and Bryer, Mimico.

The reeves of East and West York, who yesterday completed a tour of inspection of some of the county highways will next week meet and discuss the result of the inspection and recommend to the Toronto and York Highways Commission what roads should be improved.

Another building in Swansea which is rapidly nearing completion is the new Mornington Presbyterian Church on Eglinton street, which is being constructed at a cost of about \$35,000 by the Dickie Construction Co.

PETITION OTTAWA FOR MAIL DELIVERY

Silverthorn Ratepayers Ask W. F. Maclean, M.P., to Present Their Request.

A well-attended meeting of the Silverthorn District Ratepayers' Association was held last evening in the hall of the Silverthorn school.

The chairman pointed out that the two services were in use in the district and residents were not compelled to use the hydro, but that in the interest of public ownership the ratepayers should support the Hydro-Electric Commission.

The matter was left over to the next meeting.

Considerable discussions ensued when the question of school accommodation was considered.

A member pointed out that his two children, aged six and eight years, were unable to find accommodation in the crowded in the present temporary school.

After the summer vacation the new six-room school building on Eglinton street would be ready for occupation, and he expected that all the children in the district would be accommodated.

The secretary of the picnic committee reported an amount of nearly \$50 on hand, and stated that the picnic was confident of a successful inaugural picnic under the auspices of the association.

Several members made a strong plea for the public and children in particular to be kept away from the neighborhood of the school.

The returned heroes of the Silverthorn and Mount Dennis districts were entertained at a high-class smoking concert, under the auspices of the Silverthorn District Ratepayers' Association.

Vice-President G. Bradley occupied the chair, and the musical program was supplied by local artists under the direction of Mrs. J. E. McMillan.

HUNGARIAN PREMIER SEEMS OVERCONFIDENT Says No Group of Subjects Would Dissolve Unity or Ignore Sovereignty.

Amsterdam, July 5.—Replying in the Hungarian lower house today to Count Tisza's interpellation concerning the Austrian premier's recent declaration that Austria's sovereignty was not in question, the Hungarian premier, explained that such questions were not joint affairs, but were regulated separately by Austria and Hungary.

The Austrian government, however, would ever recognize the views propagated by the entente powers that any group of Hungarians, subjects should of their own volition, or on basis of nationality or any other basis, dispose of their status by dissolving Hungarian unity or ignoring the sovereignty and constitution of the Hungarian state.

PATTERSON SAYS HE SUFFERED 20 YEARS

Life-long Resident of Toronto Now Gives Tanlac His Endorsement.

NOTHING ELSE HELPED HIM

Had to Give Up One Job on Account of Rounding Condition--Improvement is Remarkable.

The best evidence of a medicine's merits is that people who have usually taken it have to say about it, and this is especially true and beyond all doubt when such statements are made by people who have been published right in the community where each and every fact can be investigated and verified.

After hearing so much about Tanlac I decided to buy a bottle and see if it would help me, and I want to tell you that my improvement has been simply wonderful. I can now eat and enjoy things I didn't dare touch before, and my food agrees with me and does me good. I am not bothered with the gas on my stomach, another thing I didn't dare touch before, and my food agrees with me and does me good. I am not bothered with the gas on my stomach, another thing I didn't dare touch before, and my food agrees with me and does me good.

Indigestion, from which Mr. Patterson suffered, is not only one of the most distressing, but one of the most prevalent of all present day diseases. It is also one of the most difficult to treat, and has baffled the medical profession for years, some of the most skilled specialists being unable to cope with it successfully.

Tanlac, the remarkable medicine that has proven of such benefit to those suffering from this trouble, contains certain medicinal properties, which, being properly vegetable, are rapidly taken up by the system, thereby stimulating the appetite and aiding digestion by assisting the stomach in converting the food into nourishing elements that build up tissue and nerve force.

Tanlac is sold in Toronto by Tarnlyn's Drug Stores--(Advertisement).

ASKED TOO MUCH. Judgment in favor of the defendant was given by Judge Morison in the division court yesterday in the case of T. Clements, who sued Sam Caldwell for \$50 damages for running down and killing Clements' puppy dog in St. Clair Gardens in a motor truck. Clements first asked \$100 damages, then \$50 and finally told the judge to give what was fair, saying he paid \$15 for the dog.

Exhibition Shake-Up.

Reorganization of the National Exhibition is to be dealt with today. There has been a good deal of criticism, open and suppressed, going on for the last few years. A good deal of this was to be expected in connection with an enterprise of the size and importance of the annual fair.

Dr. Orr's health has been the second of another excuse for any tendency to slackness, and the proposal to give him leave of absence on salary will no doubt commend itself to the exhibition authorities. Dr. Orr has done good work in his time and has earned a rest. It is no reproach to him that new days have arrived and new conditions. These will be better faced by new men.

The exhibition has always been fortunate in eliciting the services of some of the most public-spirited men in the city. The suggestion that Mr. J. G. Kent may be persuaded to accept the honorary acting management is one that all who are familiar with the situation can only hope will be adopted. Mr. Kent has already shown self-denying energy in his connection with the big fair, and his familiarity with the huge institution and the devoted interest he has already shown in it are not the least of the recommendations that should ensure his appointment.

If Mr. Kent is to have the management of the exhibition he should be absolutely unfettered in any reorganization he may consider necessary. The mayor, no doubt, means well in his suggestion about appointments, but with all due respect to his worship, Mr. Kent knows the exhibition too well to require city hall prompting or instruction. Either he is the man for the place or he is not. If he is, as we believe he is, he should not be handicapped by any conditions that outsiders would impose upon him.

Proportional Representation. Little more than the bare fact that the British House of Commons had rejected proportional representation was cabled yesterday, but the close vote of 201 to 189, or only a majority of 32, against the measure indicates that much time cannot pass before the principle is finally adopted.

The plan seems so little understood that one newspaper has described it as representation by population. Population has very little to do with the matter, but its success is chiefly looked for in urban constituencies and the British measure did not contemplate its application to rural seats. It is, in fact, only practicable where at least three members are returnable for a constituency. In a city like Toronto where eight members are returned, the plan works admirably. In one Belgian constituency fifteen members are returned, each representing the proportional vote of his party.

voting which only recognizes two parties. Under the present system the whole of the votes of one party is always thrown away. Very frequently a candidate is elected by a minority of all the votes cast. Under proportional representation this is impossible. Every vote counts. If the third candidate be in a minority then the votes of his supporters are divided according to their second choice between his rivals, and that candidate is elected who has an absolute majority of all the votes cast.

Co-operative Charity.

Among many good gifts which Toronto owes to the bureau of municipal research not the least is the latest contribution of the bureau to the literature of charity—"A Discussion of Haphazard Versus Planned Philanthropy." There are two ways of being charitable, and the one that does the giver most good is that which takes him or her to the person to be benefited. This kind of charity is almost non-existent. The cause of real charity that comes under the attention of busy people are few and far between. A few years' experience in helping people who seek charity usually takes the edge off the most charitable disposition. In small communities only as a rule does personal charity directly administered persist. Yet it is in small communities that charity is least required.

In the great cities the need for charity is constantly in evidence. The extremes and depths of poverty, wretchedness and disease make the city the true home of charity. In the very nature of the case such charity cannot be personal and direct, but is largely vicarious and conducted through agents. The result is an immense amount of overlapping, a wasteful amount of deceit and fraud, and a general waste of effort and failure to reach those most in need of help, unless systematic arrangements are made to cover the whole area in a business-like way.

Several efforts have been made in Toronto to effect this result, but never with full success. The associated charities have been able to accomplish something, but there has been much criticism, open and concealed.

The time is ripe for such a survey of the situation as the bureau presents. "Can a community plan its giving for community purposes?" is asked, and further, "Must individuals continue to give without a knowledge of the community's needs and what resources exist to meet these needs?" These questions are answered by the bureau's report in a way that leaves nothing to be demonstrated. The whole case is set down in these 48 pages. It is a plea for co-operation in charity, a public utility of the most essential character.

"Poverty, too great wealth, oppression, parasitism, slothfulness, ignorance, indolence, cynicism, sentimentalism, brutality and crime" are factors that are mentioned as the disturbing aspects of all modern societies. These are regarded as proceeding from identical or related causes. "The tap root of them all is unenlightened selfishness. They are all symptoms and, therefore, should be regarded as symptoms and not treated as causes."

This is the keynote of the new philanthropy, and failure to recognize it is set down as waste and destruction of human material. We are only touching the fringe of the conditions, and we are not making the most of the funds and the effort at our disposal.

We purpose to return to this valuable report and place some of its material before our readers on future occasions.

Diary of a Well-Dressed Girl

By SYLVIA GERARD. Solving the Problem of a Party Costume.

There is just as much fuss being made over Cleo's graduation as there would be for her wedding. Uncle Fred and Aunt Molly have certainly "spread" themselves trying to make this event the happiest in the life of their "only chick." Dad, mother and I have followed their lead, and if Cleo isn't a "spoiled child" by the time commencement is over it won't be our fault.

Her graduation frock is the daintiest concoction of lace, hand embroidered and sheerest linen that I have ever feasted my eyes upon. Mrs. Jacqueline made it, and she is a wizard at such creations. Mrs. Mathon, with my help, just finished the prettiest lingerie frock imaginable for Cleo to wear at the garden party. This is one of the very best of the commencement affairs. The girls all wear lovely frocks and pictureque, flower-trimmed hats with drooping ribbons, wearing conventional corsage bouquets, they carry small baskets of flowers.

I wanted Cleo's frock to be particularly attractive, so Mrs. Mathon copied a French model that was priced at \$125. It is of flesh-pink French organdie and flit lace. There isn't a machine stitch in the entire frock. The flit lace is an excellent imitation, and unless examined very closely it is almost impossible to tell it from the real thing.

The front and the back of the bodice are trimmed with groups of vertical hand tuks. I made a chemise of finest white net and tucked it in horizontally. Mrs. Mathon cut the sleeves so that they were without fullness at the top but formed deep pouches below the elbow. I made a group of tiny tuks about the pouchy part of each sleeve. The sleeves are joined to the drop-

ped shoulder seams with a row of hemstitching, and the same effective trimming is used where the wristbands are fastened to the sleeves. I made the deep square collar and the flaring, turned-back cuffs of the lace. Then I added a row of small crocheted buttons to trim the chemise and the blouse was ready to be stitched to the skirt.

While I had been putting the finishing touches on the blouse Mrs. Mathon went ahead with the skirt. She made it quite full, giving the seams so that there would not be too much fullness about the top. She also made tucks at the waist-line that extend well into the skirt.

The bottom of the skirt is trimmed with a wide band of lace, with the material cut away from beneath it.

After gathering the top and sewing it to the bodice Mrs. Mathon joined the blouse to the skirt. Her final touch to the frock was to knot a sash of pale, old blue faille ribbon about the waist, tying the ends in a bow with long streamer ends at the back.

The milliner made a charming hat to correspond with Cleo's garden party frock. It is quite large, with a wide brim and a crown of white Georgette crepe, and the crown is a solid mass of pink roses in different tones. The base of the crown is banded with narrow, old blue faille ribbon to match the sash of the frock. The ends are drawn thru slashes made at the sides of the hat, and are tied in a bow with long streamer ends at the back.

"Cleo," Uncle Fred, says, "will look like a peach blossom in this outfit."

Now that our graduate is "rigged out" I must think about getting some pretty clothes together to wear to the commencement "shines," as Cleo calls them.

Some Kitchen-Covering Hints

HOUSEHOLD HELPS By ISOBEL BRANDS

When you make changes in the kitchen, there should be no durable and good to look at—no other room—but also should be installed with a view to reducing the cost of the kitchen. The most economical especially when making purchases of new furnishings.

For example, many housewives are those who do not spend time and money frequently renewing the paper or oilcloth on kitchen and pantry shelves. Very often decorative papers are used and the shelves are covered with a material that will be a smooth joining of floor and wall that is impervious to insects.

Another surface to be considered carefully is the floor. Here a good covering of linoleum—mild linoleum costing about \$1.50 per square yard—is the most economical. Cheap oilcloth for the floor is not so durable. The expense of replacing and relaying equals in the end a sturdy square of professional linoleum layer does the floor with a minimum of cost. For a little extra cost, the cork between the end of the linoleum and the wall can be covered with a material that will be a smooth joining of floor and wall that is impervious to insects.

Other Good Surfaces. If you cover the house you live in, the best floor covering—one that will be permanent—is a composition flooring that is made of a mixture of rubber, asphalt and cement and can be had in many colors. It is easy to the feet, smooth, dry, impervious to grease and water and will last as long as the kitchen. Prices vary, but you can make a rough guess at the cost of covering your kitchen floor from the estimate of a kitchen 14 x 14 with a one-foot baseboard which costs \$20.

Also, if you must cover your kitchen table again, it will pay to spend a little more on a good quality of oilcloth. Oilcloth is easily soiled and burned by hot dishes. There are metal and glass coverings for the table top and they are easier to clean and will last longer. Galvanized iron, tin and enamel are also cheap coverings. If you can afford it, plain glass, vitrified glass and porcelain are the most durable as well as more durable and sanitary.

move the stems from a pound and a half of strawberries, reserving half a pound for the table top and they rub a syrup of sugar and water, and place the berries in a few at a time, taking care they are not broken. After each few have been in the syrup, remove them to the dish of cakes and put more fruit into the syrup. When all are done pour the syrup over them and leave until cold. Whip half a pint of cream, add sugar to taste, and pour over the strawberries. Use the uncooked berries for decorating the top of the trifle.

FIVE SELECTED RECIPES

By ANN MARIE LLOYD

STUFFED TURNIPS. After peeling four white turnips, boil them in salted water until tender, then scoop out the centres and fill with a mixture composed of one tablespoonful of minced meat of any kind that may be liked, half a cupful of dried breadcrumbs, one egg, one onion, a piece of butter the size of an egg, one heaped tablespoonful of grated cheese, and salt to taste. Cook these ingredients for about ten minutes, stirring well. Stuff the turnips and pile high on a dish. Then sprinkle with grated cheese, and about 15 minutes' baking will complete the recipe.

MOCK TRIFLE. Stewed raspberries, about one pound, some slices of bread, custard, and a few cherries to decorate. Mash the fruit to a pulp, cut the bread into square pieces and spread with the mashed fruit. Dust with sugar and cover with another piece of bread. Place each sandwich as made in a glass dish, then pour the whole fruit round and the juice over the sandwiches to soak the bread. Make sufficient custard and flavor it with lemon. When cool pour over the trifle. It is usual to decorate with cherries before serving.

SUET AND JAM ROLY-POLY.

Three ounces of suet should be chopped very finely and mixed with half a pound of flour, a pinch of salt, and half a teaspoonful of baking powder. Add sufficient water to mix to a stiff dough and form into a roly-poly, spreading with jam or a pudding sauce, or put in a warm basin and tie a cloth over. Two hours are required for boiling.

BEAN SOUP.

Soak half a pound of beans in a pint of water overnight, adding a pinch of soda to the water. The next morning put the beans in a quart of water, add water, with a small piece of turnip, two onions, one piece of celery, and one ounce of butter. The beans should be boiled for about two hours until they are soft, and then press the whole mass thru a wire sieve. Rinse the pan, return the soup to it and boil for ten minutes. Add a cupful of evaporated milk. Dices of toast should be served with the soup.

STRAWBERRY TRIFLE.

In order to make this satisfactorily, line the bottom of a glass dish with stale sponge cakes, cut in slices. Re-

NURSES REQUIRED FOR HOME SERVICE

Convalescent Hospitals Now in Need of Qualified and Trained Graduates.

Camp Borden, July 5.—Need has arisen for a number of qualified nurses for a service with convalescent hospitals. Formerly there was a large working list and owing to this fact large numbers of applicants had to be turned down, so that now the list has dwindled to a point at which the supply is not equal to the demand. Applicants who should be graduates of a recognized hospital with a three years' course, should communicate with Col. Rivers, A.D. M.S., M.D., No. 2, Camp Borden.

Authority has been granted for a construction draft of 50 n.e.o.s and men, under the command of Lieut. A. W. Hughes, 12th York Rangers. This draft will be attached to the forestry and construction depot, the O.C. of which will be accounting officer for the draft.

The Y.M.C.A. made a distribution of fruit to the patients in camp hospital today. The following officers of the 208th machine gun depot have been awarded attendance certificates at the school of bayonet fighting and physical training: Lieut. A. F. Inch, H. Fleming, H. E. Rowlands, A. G. Ghent, H. W. Kaye, M. B. Boyd, S. F. Slater, H. H. Lounsbury, W. G. Martlett, M. A. Wallace, G. W. Hague.

Pte. J. Levasseur, of the cyclists, has been struck off as a deserter. Lieut. G. S. Perry, forestry depot, gets a week's leave of absence.

On Recruiting Duty. With the brass and pipe bands of the regiment, a detachment of 100 men of the 48th Highlanders, making some 200 men in all, will leave Toronto, Sunday, July 15, for a week's trip to the United States in connection with the work of the British recruiting mission in that country. Monday and Tuesday will be spent in New York city, and Wednesday the kitlies will leave for Chicago, where they will remain for Thursday and Friday. The intention is to take some of the men of the 48th, now here, the remainder being furnished in Toronto and brought to camp for a week's preliminary training.

Soccer football results: Machine Gun Depot vs. 48th Highlanders; 48th won, 2 to 0. Baseball results: A.S.C. Depot Co. vs. Mechanical Transport; Mechanical Transport won, score 25 to 5. C.M.R. vs. Special Service Co.; C.M.R. won, score 18 to 16.

NO MERCY TO CREW.

Washington, July 5.—Without giving the crew any opportunity to escape, a German U-boat sank the Danish barque Lynx on June 27. Despatches to the state department today told of the statement by the crew before a maritime court in Copenhagen.

In spite of the shells the crew succeeded in clearing the deck of the ship. They were picked up by a fishing boat and made the charges against the submarine before the court.

POOR SEA SERVICE HOLDS BACK TRADE

Thoro Reorganization is Necessary, Says Canadian Commission's Report.

WOULD STOP BOUNTIES

Allied Countries Found to Favor Preferential Tariff System.

By a Staff Reporter.

Ottawa, July 5.—That action should be taken by the government to improve the ocean transportation system between Canada and Great Britain, France and Italy and that Canadian resources should be systematically advertised abroad, were the special trade commission appointed a year ago to conduct inquiries overseas. The commissioners were: James W. Wood, former Canadian secretary, and Frank Paize of Montreal, H. E. Dure of Quebec, W. Frank Hatheway of St. John, N.B., and George W. Allen of Winnipeg, with Roy Campbell of Montreal secretary.

They made extensive investigations into trade conditions and trade opportunities in the countries mentioned, and their report was laid on the table of the commons today by Sir George Foster.

Transportation inadequate. The commissioners state that established lines have not given that service in linking up Canada with other countries which might have been expected, and freight rates have been such a character as seriously to impair their usefulness as a means of developing Canadian trade.

They assert that Canadian transportation across the ocean will have to be completely reorganized if the Dominion is to derive the fullest benefit from her natural resources and manufactured products. Imperial control, they believe, might adjust the employment of tramp ships that the different needs of the empire might be met, as requirement of the crops for the season might demand. Mr. Paize dissents from this view.

Shipbuilding program. The commissioners believe that no subsidies, bounties or concessions should be granted to steamship companies or individual vessels until the question of transportation has been thoroughly studied and the plan of moving Canada's grain and other products has been scientifically worked out. The question of the fiscal treatment of the shipping industry in Canada, and a means of securing better rates of insurance for vessels on the St. Lawrence route should be considered.

As regards the fiscal trade, they found the impression in the countries visited that a preferential tariff should be created by the allies for one another, an intermediate tariff for neutral countries and that enemy countries should be penalized as far as possible by a tariff wall in order to restrain unfair competition.

The commissioners believe that a very large trade between Canada and Great Britain can be developed, and that after the war trade with France will undoubtedly increase. Good openings will also be found in Italy and Russia.

BIG SPY SYSTEM IN UNITED STATES

Submarine Attack on Transports Result of German Espionage.

Washington, July 5.—Officials who for obvious reasons, cannot be quoted, declared today that if the government's activities against German spies in the United States could be published the news would be of great value to the world.

While not admitting it, they are convinced that the spy system was entirely responsible for the massed submarine attack on the transport of General Pershing's expeditionary force of the state, war, navy and justice departments were working in cohesion, and systematically unearthing information of immense character and of great value to the government.

It was pointed out that even with the strictest censorship of mails, cables, and press, the European allies have not been able to meet the situation to their complete satisfaction. The problem is of far greater magnitude in the country, with thousands of American immigrants border, and countless possible means of outside communication.

Elaborate censorship. The war department here is censoring news despatches from France which have already been passed by foreign censors. It defects incoming cablegrams at New York to Washington, where they are censored and urged over to representatives of the press associations and newspapers, to whose New York offices the cable messages are addressed.

LACROSSE WAIL FROM MONTREAL

Tecumseh Have Had All the Plums Before Dropping Out. Montreal, July 5.—The tangled lacrosse situation, caused in the National Lacrosse Union by the sudden dropping out of the Tecumseh club of Toronto, will be settled Saturday night at a special meeting of the league at the M. A. A. Bolton, next to continue. In the meantime the Shamrock and Ottawa clubs have decided to postpone their scheduled fixture here until the affairs of the league have been straightened out. The Ottawa club did not like paying its own expenses down here in case the league decides to suspend, but on the other hand the Shamrock club did not feel like putting up a guarantee for the Capitals to come down here, so it was finally decided to call the game off and let it later in the season should the league elect to continue. The Shamrock executive and particularly Alderman Tom O'Connell, president of the Shamrock Lacrosse Club, feel heavily the loss of the Tecumseh club. He says he would like to see twelve would live up to its agreements when admitted to the N.L.U., and the lacrosse clubs are naturally disappointed. Toronto has never done much for the game itself, having always looked at the business from the point of view, and the local clubs feel that from now on Toronto will never again be admitted to the N.L.U. From the present outlook it seems as if the league would continue with four clubs, being Ottawa, Cornwall, Shamrock and Nationals. The two out-of-town clubs are not in any too strong financial condition, but for the good of the game they are willing to finish out the season. Tecumseh have had practically all the good gates of the league so far, and by dropping out they leave the other clubs in bad shape. Three months ended June 30 of the present fiscal year show a total revenue of over \$82,000,000, as compared with \$50,000,000 for the same period last year. On the other hand, the capital expenditure of the Dominion has declined \$4,000,000, chiefly on public works, railways, and canal account. The ordinary expenditure, which includes interest upon the war debt and pensions, is practically the same as last year.

VICTORY HINGES UPON ENDURANCE

Sir William Robertson Says Staying Power Will Turn Scale.

London, July 5.—The speeches of both Sir William R. Robertson, chief of the imperial staff, and Foreign Secretary Balfour, at the banquet of the American Society last night, were distinguished by great earnestness. In his speech General Robertson said: "The achievement of the American people in entering wholeheartedly and unreservedly into the world struggle is due largely to the efforts of one man—their president. He has been called upon to display unexampled insight, patience and courage. As the result of his success, America today stands higher in the eyes of the world than ever before. "This is not a mere war of armies; this is a war of nations. Every section of the nation has a part to play. It is essential that England and America and all other work in full co-operation and without friction. "Endurance Test. "I doubt whether the British nation has yet done its whole duty in this respect. The essential things are: First, the nation must be given clear orders what to do and sufficient information to enable it to carry out the orders; second, the orders must be obeyed whether congenial or not; third, there must be mutual confidence between the classes and the industrial population as in the army and the navy. "There comes a time in warring nations when the strain is heavy. When a little extra effort will surmount victory will incline to the side that can best endure. "America's entry brings us fresh hope, fresh reserves of strength and power. Germany says that America will not count. It is our business together to show her that America will count for a great deal—and I shall be greatly surprised if America fails." Balfour's Tribute. Secretary Balfour said: "The whole world has since the declaration of independence, watched with admiration the greatest expansion in the history of any nation. We of the British nation regard this expansion with pride. "We cannot look back on the separation of England and the United States as one of our political successes. It is a great deal—and I shall be greatly surprised if America fails." Balfour's Tribute. RUSSIAN OUTLOOK IS NOT HOPEFUL

United States Senator, Born in Russia, Expresses His Opinions.

OFFENSIVE SPASMODIC

Fears That Russians Will Shortly Be Fighting Each Other.

"I am afraid that Russia will be too busy settling her internal affairs to give much aid to the allies in the present war," said Peter Jansen, state senator of Ontario, when interviewed by a reporter for The World last night at the King Edward Hotel, where he is staying after a month spent in the Canadian west. Senator Jansen does not think that Russia will make a separate peace, but the vast questions arising out of the revolution make it a high impossibility for such a nation as Russia to act as a unit in the war for some time to come. The present offensive he believes to be merely a dash in the pan; and before many weeks he fears the Russians, divided as they are by race, language and creed, will be fighting each other. The final result, unless some strong dictator arises, will not be one democracy, but several, each comprised of Russians of like ancestry, ideals and creed.

Unlike the French, who even with their unity of language, more general education among the lower classes, and similarity of creed, took a decade to form their democracy, Russia has a far greater task before it. In the north there is the blond Russian, Ukraine in the south has the dark cossack and in the east the Mohammedan holds sway. Each of these races are separated by creeds and ideals as well as language and the one cannot readily understand the other. In Ukraine where the senator was born, the Mosque, the Greek and Lutheran Churches were situated in the same square and the difficulty of securing unity among the followers of such creeds is easy to understand.

Senator Jansen has always been in close touch with the Russian situation, having returned several times to his native land and traveled through the lesser known parts extensively, and while he would not say that Russia might be able to leave the settlement of internal affairs until after the war, he finds no ground for expecting such a possibility.

A State of Chaos.

Grant is so deeply ingrained in the Russian system that he feels that the new government will not be able to get above it. The lower classes, uneducated and superstitious in life. As soon as a man becomes educated above the prevailing superstition he becomes an infidel, and now everything is in a state of chaos.

The senator and that while the Russian outlook was gloomy and added much to the responsibility of the allies he thought the United States, despite the vast handicap of distance would make up for the Russian inaction by its vast resources, organization and quality of the troops

RUSSIA WILL MAKE ALL POLAND FREE

New Government Will Give Autonomy to Finland and Ukraine.

BASED ON LIBERTY

Constitution of Country Will Rest on Consent of Governed.

Washington, July 5.—Complete independence for Poland and a wide degree of self-government for Finland, Ukraine and other subsidiary nationalities of Russia was said today by Ambassador Bakmeteff to be the object of the new Russian Government. Plans are now under way, he said, for the actual working out of the principle that government should rest on the consent of the governed and to the widest degree possible for a centralized authority.

The ambassador said that Poland had been offered complete independence and a special committee was now at work in Petrograd seeking the best means to carry this out. Poland will be given absolute control of her future destiny, both as to her form of government and such questions as tariffs and alliances. It is hoped, of course, that she will choose to gravitate towards Russia, especially as she could not live on the same economic strata as Germany, but no compulsion is to be applied.

Perhaps the most complicated phase of the question, the ambassador said, is that of how much of the cost of the present war Poland shall bear.

As Poland at the beginning of the war was part of Russia it is felt that it is only just that she should bear part of the Russian war debt, which has been expressed as an agreement to that end will be effected.

The new government has already announced its willingness to grant autonomy to Finland and the ambassador said, and to give a large measure of autonomy and self-government to the Ukraine. It does not feel, however, that it should need the complete independence, as this would seriously weaken all parts of the Russian federation. Likewise the question of the future of Manchuria and other far eastern sections have been discussed, but no decisions reached.

RUSSIAN WOMEN HAVE WAR COLORS BLESSED

"Death is Better Than Shame," Say Banners of Amazons.

Petrograd, July 5.—The colors of the first detachment of the Petrograd women's regiment were blessed in the square of St. Isaac's Cathedral today. More than two hundred women, with their hair closely cropped and in full uniform, were present, armed with rifles. Don Cossacks and sailors furnished a guard of honor.

Subsequently the women paraded thru the Nevsky Prospect and other streets, carrying banners with the inscriptions "Death is better than shame," and "Women, do not give your hands to traitors."

TAKEN INTO CUSTODY

Albert Epstein, 378 East Front street, was taken into custody last night by C.P.R. Constable Graham on a charge of stealing a quantity of shoe blacking and other articles, the property of the C.P.R. The articles were included in certain unclaimed baggage assembled for sale.

T. S. R. EMPLOYEES' WAGES

Representatives of the Street Railwaymen's Union will hold a conference today with Sir William Mackenzie, R. J. Fleming and other officials of the company in an effort to conclude an agreement between the company and the men. The present wage scale has expired and the men are asking for an increase. Several conferences have taken place between the committee and the railway officials, but no definite result was obtained.

MOTORCYCLIST INJURED

While riding his motorcycle at the corner of Logan and Langley avenues last night, Leonard Davis, 956 Logan avenue, was struck by a motor car driven by Albert Walton, 441 Broadview avenue, sustaining severe injuries to the head. He was removed to the General Hospital.

HIT BY STREET CAR

Mrs. Pagen and her daughter, Muriel, are suffering from shock and minor bruises about the face and body as the result of being struck by a Winchester car at the corner of Shuter and Victoria streets last night. They were taken to St. Michael's Hospital in the police ambulance. The car was driven by motorist 112.

Society

Conducted by Mrs. Edmund Phillips

Mrs. Alfred E. Fripp and her daughter, Miss Freda Fripp, are leaving Ottawa at the end of the week for Prince Rupert, on route to Skagway, Alaska, and will also visit Seattle. They intend remaining for a short time in Banff on their return journey, and will not be home until September.

Mr. and Mrs. Arnold Ivey and Miss Margaret Ivey leave on Monday for the Royal Muskoka.

The Rev. Robert White, Philadelphia, formerly Leith, Scotland, is visiting Mrs. Anderson, 20 West Roxborough street.

A wedding was solemnized in New York on Monday last, when Mr. Kingdon Gould, eldest son of Mr. George Jay Gould, was married to Miss Annunziata Camilla Maria Viviani Gould, the groom's youngest sister.

The ceremony took place at the rectory of St. Patrick's Cathedral. Mr. Gould's groomsmen, and the only member of the Gould family present, were Captain Carr, R.A.M.C., and Captain Smith, all of the R. A. M.C. The bride's bridesmaids were Miss Helen McGuire, who carried a bouquet of pink roses, and Miss Alice McGuire, who carried a bouquet of white flowers. The bride wore black and white chiffon, with black and white hat. She carried a bouquet of pink roses. Later Captain and Mrs. O'Sullivan left to spend the summer at Penetanguishen, the bride traveling in a navy blue taffeta frock with hat to match.

Mr. and Mrs. C. L. Angus and Miss Angus are leaving for Muskoka, where they will spend some weeks at the Royal Muskoka.

Mr. and Mrs. T. E. Menzies will also be at the hotel for three or four weeks.

Mr. and Mrs. J. W. Swainson are moving to the island at the end of the month. Mr. Swainson will spend the summer with them.

Dr. and Mrs. A. Stewart, Toronto, have gone to their country house near Hastings for the season.

Miss Hazel Sullivan, Toronto, is spending the summer at Cobourg with her sister, Mrs. A. A. Trumbull.

"TURBINA" STRANDED NEAR WESTERN GAP

Went Aground at Nine O'Clock Last Night While Returning to Toronto.

The steamer Turbina of the Canadian Steamships Line, plying between Hamilton and Toronto daily, went aground for the third time in less than a week, at 9 o'clock last night when she became stranded on the land near the western gap while returning. No one was hurt and no damage was done. No passengers were taken off while the steamer was two hours aground, and the crew went to the place in launches and boats. News of the steamer's plight reached the offices of the Steamship Lines and the tug, Geary and Emily Stewart, were sent to pull her off the sandbar. The Turbina was aground at Lewiston, Ontario, and near the Toronto filtration plant, Sunday.

ITALIANS REPULSE FOE IN BALKAN FIGHTING

Enemy Sent Two Columns Against Right Wing in Macedonia.

Paris, July 5.—The official communication issued by the war office tonight reads: "There was artillery activity north of the Aline, in the region of the Hurbosha Monastery and the northern part of the Bos de Saint Marais, in Champagne, in the region of Mont Camille, and on the bank of the Meuse in the region of Hill 24."

"Four hundred shells were fired against Rheims."

"Belgian communication: Last night and today the usual artillery actions took place along the whole front."

"Eastern theatre, July 4: The enemy, after violent bombardment, sent two strong columns against the right wing of the Italian front, but these were repulsed."

"There was moderate artillery activity on both sides along the whole front."

BRITAIN WILL PERMIT BREWING OF MORE BEER

London, July 5.—Andrew Bonar Law, chancellor of the exchequer, announced in the house of commons today that the government had decided to permit the brewing during the quarter ending September 30, next, of an additional amount of beer, not exceeding 2 1/2 per cent of the amount allowed for that quarter. This action, he said, was taken owing to the greater consumption during the summer months and the difficulties caused by shortage in large centres of population and in the counties where crops are being harvested.

LAKE SHORE RED CROSS GARDEN PARTY AND MUSICALS, on Saturday, at Ormscliffe, the residence of Mrs. A. E. Ormsby, 505 St. Lawrence Street, Lake Shore Road. PLAYS PICTURES, AND MUSIC

THE ROBINS PLAYERS.

What is described as the most charming play of the season is the comedy, "Arms and the Girl," by Grant Stewart and Robert Baka, a play which was originally produced at the Fulton Theatre, New York, by William Harris, Jr., and has just completed a run of the most successful runs ever scored by a comedy. Supposedly a war play, it is pleasant and humorous.

"THE SERENADE AT" THE GRAND.

The Walker-Stevens Company, the excellent singing organization at the Grand Opera House, are giving a delightful presentation of "The Serenade at" and music lovers commend the organization as the greatest company that has appeared in this city in many months. With Ivy Scott, soprano; James Stevens, baritone; Ralph Brainard, tenor; Corn Tracy, contralto, and Herbert Waterous, basso, it would be impossible at the present time to assemble another company of equal merit. At the popular end of prices the Grand should be taxed to capacity at every performance. A matinee will be given on Saturday.

H. B. WARNER AT STRAND.

One of the tensest dramas ever written by James Oliver Curwood will headline the bill at the Strand Theatre today and tomorrow. This is "The Danger Trail," a great realistic drama of the Canadian Northwest, with that fine actor, H. B. Warner, in the leading role. It is a drama of love and hate. Out beyond the last outpost of civilization, two men have sworn to take the life of an American mining engineer. He is imprisoned with fifty pounds of dynamite and a carefully laid fuse. Then, when it seems that the hour of his doom had struck, he is saved by the love and watchfulness of the Canadian lassie who makes capture of his heart. The program will also comprise Bennett and Sidney Drew comedies and the Pathe News.

CANADIAN NATIONAL GETS NEW MANAGER

John G. Kent, President of Board of Trade, Succeeds Dr. Orr.

HAD BEEN PRESIDENT

New Honorary Manager, for Many Years Member of Directorate.

John G. Kent, president of the board of trade, will likely be appointed honorary manager of the Canadian National Exhibition at a meeting of the board of directors to be held this afternoon.

He was president in 1912 and 1913, the two biggest years in the history of the exhibition, the million mark being reached for the first and only time in the last year of his service as president.

Dr. Orr took ill in the latter year, and in addition to his presidential duties Mr. Kent also assumed the vacant managerial chair, and several times since has been in temporary charge during the absence of Dr. Orr.

Has Public's Confidence. President Marshall when approached regarding the recent changes on the exhibition staff said: "Owing to the near approach of the exhibition and the prolonged illness of Dr. Orr we have deemed it advisable to ask Mr. Kent to take over the honorary management for the time being. There is no one more closely acquainted with exhibition affairs and we consider ourselves very fortunate in having a man of his caliber to fall back upon at this juncture."

Prospects for This Year. President Marshall declared that the arrangements for the exhibition were never more forward at this time of year. The early departure of the troops from the grounds has helped considerably and the various buildings are in excellent shape, the only drawback being a scarcity of some classes of skilled labor.

JOHN G. KENT,

DR. J. O. ORR,

president of the board of trade, who is expected to succeed Dr. J. O. Orr today as honorary manager of the Canadian National Exhibition.

whose retirement as general manager of the Canadian National Exhibition will probably be announced after today's meeting of the exhibition board.

and when they met this afternoon the matter would be thrown into.

Dr. Orr, it is understood, is compelled to take a long rest. He has been connected with the exhibition since 1912, when he joined the board as a representative of the city council, upon which he sat as an alderman for No. 6 Ward for a number of years.

Water Trips. For a delightful water trip there is nothing more desirable than the trip down the beautiful St. Lawrence.

The steamers of the Canada Steamship Line leave Toronto daily at 3.30 p.m. for Kingston, Thousand Islands, Montreal, Quebec and Saguenay.

Pamphlets, tickets and all information to be had from A. F. Webster & Son, 55 Yonge street.

CASE ADJUDGED. The case of Felix Poltorak, charged with kidnapping four-year-old Georgina Baker from her home, 160 Mutual street, was adjudged till today.

Mrs. Roberts, mother of the child, stated that after she left her husband she had gone to Kitchener, Ont.

RUSSELL EMPLOYEES BUY WAR BONDS

Total Investment Will Likely Reach Hundred Thousand Before the Fall.

Toronto has grown accustomed to the knowledge that several thousands of its citizens—men and women—are spending themselves in turning out munitions to help carry on the work of the war.

Yesterday, while viewing the operations at the great plant of the Russell motor firm at the corner of King and Dufferin, a visitor from The World heard of the big things done in the direction of war saving by the employees in this factory.

The idea was taken up some months ago no less than \$44,750 has been invested, and Mrs. Harry Etches, who has this as the special subject of her care, expects the figures to reach the \$50,000 mark before the end of the month.

"When I took over the work two months ago," said Mrs. Etches, "the plant had been pretty thoroughly sifted, and it seemed worth while to go over it again and see what might be got at a second picking, and today my books show \$23,237. And the people are all so enthusiastic. Many of those who buy are soldiers' wives, who are working hard and saving in this way so as to have something ahead when their husbands come home. They are the best set people to deal with, and the spirit thru the whole place is just fine."

Miva of Industry. In the shops where the shells are being turned out the machinery was going with electric speed, and with the rhythm which only machinery can give.

CRIMINAL NEGLIGENCE ALLEGED. George Allen, charged with criminal negligence in connection with injuries received by Gemetta Baker when struck by his motor car at Lansdowne avenue, and the C.P.R. tracks, was remanded on bail of \$2000 till July 11.

Election in Newfoundland Next Fall Seems Likely. St. John's, N.F., July 5.—The opposition party in the Newfoundland Legislature is using every possible means to block the expected proposition by the government that the parliamentary term be extended for another year because of the war. The opposition desires a general election next fall. A deadlock in the business of the legislature has resulted.

Week-End in Niagara Peninsula. The blossoms are full in the Niagara Peninsula. Spend the week-end there with the Royal Connaught Hotel, Hamilton, as headquarters.

BRAWNY GERMANS SURRENDER EASILY

Canadians Find Grenadier Guards Loth to Meet the Bayonet.

A special cable to The Toronto Telegram from Douglas S. Robertson, London correspondent, says: "A number of Canadians wounded in the capture of Avion a few days ago are now in London. According to a wounded private from Toronto, Avion was strongly defended by the Fifth German Grenadier Guards, fine big fellows, scarcely one of whom was bested in five feet and nearly all in excellent physical condition, but their morale was poor. They fought well behind machine guns, which were manned by nine being captured in one short piece of trench. But the Hun flatly faked fighting at close quarters and held up their hands."

Abundance of Food. The Canadians declare they found plenty of food in the cellars of Avion. German privates were well supplied and the officers were living luxuriously on the best tinned foods and wines. Germans also had plenty of equipment and their artillery is still very good. It is quite evident from the amount of food and material in Avion that the Germans had no idea we would take it so quickly.

One officer, who in civil life is a professor or solicitor and who was wearing an iron cross on his cap, was captured by Lieut. Bob Pollock of Owen Sound. The Hun declared the Germans wanted peace, but didn't want Germany wiped off the map, as was feared.

Major Reginald Geary, who is constantly at the front line and doing excellent work they say, was close up, if not actually in the attack. Major Geary is very popular and is making a fine soldier.

Among others back from the fight and at present in London I met Capt. Harry Strath, Toronto. All Canadians are cheerful and optimistic and looking forward to seeing Lens in British possession soon."

JAIL-BREAKER LET GO. Special to The Toronto World. Woodstock, July 5.—Jack Shotts was released in Hamilton yesterday. On June 22 he escaped from the local jail yard when he was awaiting trial on a disorderly conduct charge. Today the magistrate allowed him to go on suspended sentence. His home is in Paris.

SITUATION IN SPAIN IS REPORTED TRANQUIL

False Rumors of Internal Disturbances Published, Says Ambassador.

Washington, July 5.—The Spanish ambassador, Juan Riano, today received despatches from Spain refuting recent reports of internal disturbances published in France, on the basis of which he made this statement: "The situation in Spain is completely normal. Absolute tranquility prevails everywhere and there is no reason for supposing that there are political or social disturbances. There is, however, a manifest interest in creating an atmosphere of doubt and of alarm by means of false rumors circulated daily, which, fortunately, very soon find a contradiction in facts."

TURKS HASTILY SEEK MOUNTAIN HEIGHTS

Foe Retires Before Russian Advance in Mesopotamia.

Petrograd, July 5.—The Turkish troops that were forced out of Panjwin, on the Mesopotamian front, by the Russian occupation reported yesterday, have retired to positions on heights west and south of the town, where the Russians are attacking them, the war office announced today.

Rumanian front: Fusillades have occurred. "Caucasus front: After our occupation of Panjwin the enemy retired to the heights west and south of Panjwin, where he is offering stubborn resistance. No changes have occurred on the remainder of the front."

STRIKE SITUATION IS NOW BEYOND CONTROL. Arizona Miners Numbering Three Thousand Are Armed and Citizens Helpless.

Phoenix, Ariz., July 5.—A telephone message received today by Attorney-General Jones from County Attorney Foster at Globe stated that the strike situation was entirely beyond control, and that United States troops from Douglas, numbering 400, have been ordered out on the recommendation of Major Bundall, who is on the ground representing the government. In his message, the attorney-general said there are at least three thousand strikers with arms, and the entire armed force of citizen deputies is about 300.

ALBERTA BECOMES ALMOST "BONE DRY"

Amendments to Liquor Act Go Into Effect in Western Province.

Edmonton, July 5.—Prohibition under the amended act is in full force in Alberta today. The new amendments to the liquor act were scheduled to become effective July 1, but three days of grace were given the dealers and mail-order houses in which they might close up business. Beginning with today, the new regulations are effective in toto. Under the amended act, as now in force, it is not permissible for any person in Alberta to keep liquor, in excess of one quart of spirits and two gallons of malt. This automatically rules out everything in the way of warehouses and commission firms and the several establishments in the city that were doing business under the former system have closed their doors accordingly.

It is also a provision of the new act that there shall be no advertising of any kind of liquor. This applies not only to newspaper advertisements, but to the display of electric signs, bill posting or circularizing by mail, the law expressly stipulating that there shall be no attempt to advertise liquor within the province in any way or form.

HEAVY BOMBARDMENT AT MORONVILLIERS

French Drive Down German Aviator by Machine-Gun Fire.

Paris, July 5.—Today's official statement reports heavy artillery fighting near Moronvilliers, in the Champagne, and Hill 304 on the Verdun front. The statement follows: "There was rather pronounced activity of the artillery in the region of Moronvilliers, Prunay and Hill 304. There is nothing to report from the remainder of the front. "An enemy aviator, reached by machine gunfire, fell to earth north-west of Moronvilliers."

Sinn Fein Promises More Efforts at Irish Independence. London, July 5.—Darrall Piggie, one of the prominent Sinn Fein leaders released from prison, said in a speech at Killaloe, Ireland, that steps to achieve Irish independence were being thought out, and that the full policy would be disclosed at the proper time. Meantime, he said, the Sinn Fein would not be idle. They would appoint a constituent assembly and appeal to the peace conference.

Establishing a New Price and Quality Record for Toronto---Indeed for All Canada!

Men's Suits of Genuine Palm Beach Cloth **8.75**

Never was the demand for Palm Beach Suits so great! It is an acknowledged fact that they will become scarcer and higher in price as the season "warms up."

Notwithstanding the present outlook here's a healthy swing forward in the right direction, the result of our successes in buying, by which we have attained a leadership.

Men's Palm Beach Suits that are high-class in every respect: in cut, workmanship and material, in the season's two popular styles--pinch-back and single-breasted sacque.

Suits That Possess These Distinguished Super-features:

Coats---

Full French faced, three outside, one inside pocket, watch and change pockets.
All seams double-stitched, arm-holes neatly piped by special method which prevents the possibility of seams giving in when washing or wearing.
All buttons properly matched.
Neck piece of self goods, lined; sleeves have deep facings.

Trousers---

All trousers are made with watch and two hip pockets with buttons and button hole, two-piece curtain lining. Trimmed belt-loops and 1 1/2-inch cuff bottoms.
Crotch reinforced or inseam and cross-seat seams, absolutely preventing any opening of seams in wearing or washing.
Pocket corners are bar tacked.
All pockets serged flat to prevent curling in washing.

Materials---

All materials used in the making of these suits are genuine Palm Beach cloth and are cold water shrunk at the mill and again thoroughly shrunk by the clothing manufacturer, assuring no further shrinking in the laundering.
Furthermore, the fabrics in addition to being of unusually fine quality are also closely and evenly woven.

Styles---

Styles for young men, men and elderly gentlemen.
Pinch-back models for the younger men and for the older men who aim to keep youthful.
Stylish, good-looking plain sacque styles for young men and men with more conservative tastes. This season's latest approved styles.

Men's Waterproof Coats Today at \$12.50

The single texture silk used in their construction is of unusually high standard, thoroughly rubberized, in fawn shade. Coats designed in popular single-breasted style, with close-fitting collar and raglan shoulders. All seams sewn and taped. Tailored long and roomy, yet perfectly-fitting. Sizes 36 to 42.

Men's Light-weight Three-piece Unlined Suits, \$18.00
