Premier Drury's Campaign in Address to Halton Electors Germany's Advance Toward Bankruptcy Reaches Critical Stage

"NEHEMIAH" DRURY BUILDS UP LEGISLATIVE JERUSALEM WITH ONE EYE ON "TOBLIAH" DEWART

Premier Opens Halton Campaign With Detailed Exposition of Farmers' Idea on Patronage, Party Politics and Education — Gives Raney Credit.

Oakville, Jan. 29.—H. H. Dewart and Howard Ferguson were likened by Premier Drury tonight to Tobiah, the Ammonite, and Sanballat, against whom Nehemiah, the builder of Jerusalem, held his weapons in hand while working. Inferentially the Farmers' government, having undertaken the erection of a legislative Jerusalem in Queen's Park, should be given a chance to proceed with the task without interference.

Mr. Drury declared himself no professional politician, but said he had undertaken to lead the legislature because government must proceed. If chaos must result, the coalition had no fear of a general election.

Elvin G. Farrow, the wealthy young local farmer, who arranged that John E. Ford, the U. F. O. member for Halton, step aside for Mr. Drury, presided and at the beginning and end of the meeting deprecated the idea of a by-election contest.

YORK COUNTY AND SUBURBS

HON. HARRY MILLS IN GRANT'S PLACE

Tells York Trustees Too Little is Spent on Education.

A surprise was in store for the York county council when it met yesterday morning...

Mr. Mills does not think that too much is spent in his department...

Reeve Jas. T. Stewart of Scarborough said that the problem of rural trustees was not financial...

W. H. Paterson, the president of the association, who occupied the chair, in dealing with the question of teachers leaving...

Trustee D. B. Hood of Fairbanks thought that the cost of maintaining the country roads should be spread out on a uniform rate over the whole county...

H. S. Clary of Markham staged a lively argument with Trustee Hood on this question and strongly advocated that the present system continue...

Trustee Clary declared that the farmer was a "self-sustaining animal," but that he should not have to support those who move out of the city to escape the high tax rate...

The result of all the discussions was the above resolution, which was almost unanimously passed.

BIG ADVANCE IN PHOTOGRAPHY

At the regular meeting of Hope Methodist Men's Club, held in the church last evening, an interesting and instructive lecture on photography was given by J. P. Quarrington...

The audience expressed their deep appreciation with a hearty vote of thanks to Mr. Quarrington. Ross Smith occupied the chair.

PLAN TO START LEAGUE JOURNAL

Ward 5 Liberty League See Need of More Publicity.

A meeting of the Citizens' Liberty League, Ward Five branch, was held in Occident Hall, corner of Bathurst and Queen streets, last night...

Thos. Smith, president, in his opening remarks pointed out that the league was not, as generally believed, a "booster" fighting crowd...

Mr. Smith reported the branch in good financial standing, with a membership of 428 on the rolls.

Considerable dissatisfaction was felt by the meeting regarding the lack of publicity given and the unsympathetic manner of the press of Toronto displayed towards the league.

R. C. Wood in a brief address said the C. L. was only commencing its work and predicted a great future of usefulness.

W. J. D. Penley, Cobalt, gave his views on the referendum from a pro-reefer's point of view.

"NEHEMIAH" DRURY BUILDS JERUSALEM

(Continued From Page 1)

Jerusalem. We have to build with one hand and carry a weapon in the other. I will not just now say who Tobiah the Ammonite and Sanballat are. But you will not fail to notice that they are both watching us." (Laughter.)

In quoting newspaper approval of the government's record up to the present, he referred to the incident of the lieutenant-governor. It had been unduly magnified in the press.

Mr. Drury referred to a number of governmental actions with commendation, among others the appointment of a special coroner to investigate the C. P. R. wreck at North Bay without a jury.

Mr. Drury repeated the part of his Woodstock speech with reference to the education system of the province. An eminent educationist in Toronto had told him Ontario was building up a polished machine and not caring a jot for the great that went thru the machine.

At the present time the children of school age are the snowed-out of city schools. Satisfactions were expressed regarding the Leaside bus service, now regularly operating between Leaside and Fairbank avenue and Yonge street.

An interesting debate was held last night in Danforth Church between Rev. Drury and Rev. Simpson.

The unsatisfactory method adopted in clearing away the snow on the Toronto-Hamilton highway by the highway commissioners has been the subject of much adverse criticism by the large number of people using the thoroughfare lately.

The lack of transportation in the outer sections of the city is daily becoming more acute owing to the increasing populations in the settled districts.

In some favored sections the motor bus has proved a great boon to the thousands of working people whose occupation in the city formerly necessitated a long walk from the T.E.R. terminals to their suburban homes at least twice daily.

word "directors" of education to "inspectors." A conference of the inspectors is being called. They will be told that the function of the schools of the province is to give the children the key to further education and the will to use it.

The government intends to do something. We will risk our political lives to do it. The wise politician would do nothing, because he knows he could not be criticized when he did nothing. We have dealt with the education policy, the roads policy and have done certain things in respect to the administration of justice.

I have been criticized for choosing the man I have selected for the portfolio of agriculture. I have been asked why I did not select one of the elected members. My answer is that I wanted to get a man who could take hold of a steering wheel and steer somewhere. The man I have chosen has already straightened out a difficult question in the Ontario Agricultural College. I believe he will carry his whole department forward to success.

At this point the premier said Ontario has a problem in degeneracy as a consequence of putting settlers on northern lands that are only fit for timber. These areas will be reforested.

I am presenting myself to you for election, he concluded. Finally I would far rather be up on my farm in Simcoe County. The work I have undertaken which I will have to fight for it or not. If the Farmer-Labor party cannot carry on the business of government I will carry it cannot understand that either of the old parties can, or even both together, because that seems impossible. I do not understand how Brother Hazley and Brother Howard, since so many passages that have occurred between them, can ever pull together or keep the stroke. But if we cannot carry on where do we look? Do we go back to chaos? Personally I do not fear a general election. My group does not fear a general election. The Farmer-Labor alliance feel that the people of this province will judge them on the policy they have announced and reward them for what they have done up to the present time. If it should turn out otherwise there is a little farm up in Simcoe County that I can return to with pleasure. I wish to say distinctly that I am not a professional politician.

Snug and Weather-Tight For Winter Driving.

That is Proof Against All Weather And Warm Enough For Winter Driving?

"But the cost," you say, "and the added weight, they are serious considerations with me."

Quite true, Mr. Motorist, and you'll find that these points have been carefully considered by the manufacturer of the

"All Weather" Top Which Is Priced at \$95.00 And Weighs Little More Than the Touring Top of a Ford

And it fits not only

All Fords but Chevrolet "490" models "A" and "B"

Overland "90's"

Gray-Dorts and 1918 Briscols

It is built strongly and of durable materials, along symmetrical lines, as the illustrations bear out.

It fits solidly on the body, metal stripping being used for connections, and it makes a snug joint, which the slightest draught is unlikely to get through. It is ribbed across and lengthwise with ash. The outer covering is of rubberized cloth. Interior is lined with cotton whipcord, in an olive shade. Has patent flexible sliding side windows that may be slid into the roof. These give any amount of ventilation, and permit full freedom for traffic signalling. Sides and end have heavy large glass windows which afford plenty of light. In fine weather the "all-weather top" can be converted into an open one by removing windows and side posts.

\$2.50 Buys The "Taplex" Motor Heater For a Ford It is a Very Efficient and Simple Heater That Fits on the Manifold

You attach one part to the manifold with a couple of bolts and nuts.

Then insert a brick of prepared fuel into the other part, which is asbestos lined; light the fuel—fit the two parts together and you have a heater that will give off a steady heat for fifteen hours—keep the manifold warm, and make starting easy. It's certainly the ideal article for a man without heat in his garage, or the man who has to leave his car standing in the cold for any length of time.

The Heater Costs \$2.50. The fuel 75c for one dozen bricks.

—Fifth Floor.

\$4.25 Buys This Electric Heater Simply Lift the Hood Off the Radiator and Place This Heater Inside

Replace hood, turn on the current (it fits any ordinary socket) and throw a blanket over the hood. A steady uniform heat will be delivered. Or hang it on the manifold! It makes easier starting.

CREW HAD ALCOHOL PLUS PRUNE JUICE

U. S. Officer Says This Concoction Was Factor in Bringing Powhatan Into Port.

Halifax, N. S., Jan. 29.—A concoction of prune juice and alcohol was the determining factor in bringing the American army transport Powhatan safely into port in the opinion of Lieut.-Col. O. S. Bourdige, of the transport service. Washington, who addressed the Commercial Club here this afternoon in the absence of Col. O. W. Griswold, who is ill at his hotel. Colonel Bourdige read telegrams from the department at Washington congratulating Captain Randall and the officers and crew of the Powhatan on their great achievement, and Captain Randall's reply, which had listed the various steamers, ocean-going tugs and destroyers as responsible for successful issue, and added:

Crew Needed Jazz. "But these ships, as wonderful as they were, did not bring the Powhatan into port. When the relief came along the day before Halifax was entered, and attempted to put a line aboard, Captain Randall realized that he was placing the last straw on the shoulders of his devoted crew, who, as cold as they were, would have to handle the twelve-inch hauser by hand. So he called for the ship's doctor, told him that some jazz would have to be put into the crew, and asked what he had in his locker. The doctor replied that the only thing he had was two gallons of alcohol. Well, this alcohol was mixed with prune juice on a fifty-fifty basis, and the concoction, issued to the crew, brought the reliever's line smoking over the sides of the Powhatan. That line brought the transport into port."

Captain Randall also addressed the gathering, which took the form of a great civic welcome to the officers and men of all the steamers involved in docking the distressed steamer.

OPENING OF LEGISLATURE. It is an early guess that the Ontario legislature may be opened on March 9.

CRITICIZES PAYMENTS OF BOND COUPONS OF REGINA

London, Jan. 29.—The Times handles rather severely a notice by the city of Regina that coupons of bonds issued in 1908 and 1910, which have hitherto been paid in Canada at par of exchange, will in future be paid only at the current rate of exchange. Although, says The Times, unfortunately in drawing up the bonds no rate of exchange was mentioned, a practice hitherto of an offer to pay if so desired, in Montreal, was warranted that par exchange was meant, and "for the sake of Canadian municipal credit it is greatly to be hoped that the Regina authorities will not take advantage of the absence of a proviso that was almost unquestionably implied."

Pulp and Paper Association Urge More Reforestation

Montreal, Jan. 29.—The necessity of reforestation and the using of all means to conserve our forest growth in the interests of the pulp and paper industry was the subject discussed at the annual meeting of the woodlands section of the Canadian Pulp and Paper Association, which met in the Windsor Hotel this morning. A general discussion was entered into on this subject, and Mr. G. Fichte, chief of the forestry service for this province, suggested that the government should bear the cost of reforestation, and that selective felling should be adopted.

TO GREET U. S. JOURNALISTS.

Moncton, N.B., Jan. 29.—The Moncton city council, board of trade and citizens will co-operate in the reception and entertainment of American journalists touring eastern Canada in the month of June. At a meeting this morning, presided over by Mayor Chapman, C.N.R. officials and leading citizens, completed arrangements.

LARGEST TRACTOR SCHOOL

Ottawa, Jan. 29.—The largest tractor school ever held in Canada will be officially opened by Mayor Fisher on Monday afternoon at 2 o'clock at Howick Hall, Lansdowne Park. It is expected that 500 farmers of the surrounding country will attend.

CIVIL SERVICE MEN INTERVIEW CABINET

Ottawa, Jan. 29.—(By Canadian Press.)—Asking that deputy ministers of various departments in the government service pass upon the proposed reclassification before it is adopted, and also that there be constituted a final court of appeal to which civil servants could take their cases, a deputation from the civic service association met members of the government this morning and presented their case. Afterwards the members of the deputation were of the opinion that they had made little headway with their demands.

SEAPLANES WITH BOMBS TO KILL PORPOISES

Brest, Jan. 29.—Such havoc has been wrought in the sardine fisheries off the coast of Brittany by shoals of porpoises that the fishermen have appealed to the French ministry of marine for relief. The ministry has been asked to station seaplanes at the fishing ports, supplied with bombs having an explosive area of 300 yards, to rid the fishing grounds of the pest.

Lift Fort Frances Co. Embargo; Newspaper Situation Satisfies

Ottawa, Jan. 29.—(By Canadian Press.)—The embargo on newspaper from the Fort Frances mills for points in the United States was lifted on Saturday last on recommendation of Paper Controller Broadner, who reports that a satisfactory adjustment had been made with the mills so that the newspapers of western Canada would receive their necessary quota. Shipments are being resumed from that point as previously to the recent trouble over allotments.

COAL STRIKE IN SAXONY.

Leipzig, Jan. 29.—The Communist miners' union has declared a strike in the Luga and Celsnitz coal mining regions, in Saxony, because the demand they had made for a six-hour day and a grant of an extra 1,000 marks had been rejected. Seventy-five per cent of the miners are reported to be striking.

JANIN AUTHORIZED KOLCHAK TO GIVE UP

Czech General's Action Has Roused Bitter Resentment Among Russians.

London, Jan. 29.—Admiral Kolchak's surrender to Siberian revolutionists was authorized by General Janin of the Czech army, who was placed in command of all allied troops west of Irkutsk on Jan. 19, by Kolchak's order, says a Harbin despatch to The Daily Mail.

A profound sensation was caused throughout the far east by the report that Kolchak had given up, says the message, which was filed at Harbin on Monday, and one Russian general has challenged General Janin to a duel, while officers under the command of General Semenov have formed a league, the slogan of which is "Have Janin's blood!" General Janin's explanation is awaited, but it is known that Czech reports on the situation at Irkutsk which have been telegraphed to General Janin at Verkhneudinsk induced him to consent to Kolchak's surrender. The Czechs claim the choice lay between surrendering one man and a conflict in which they were likely to be completely annihilated.

Japanese representatives asked the Czechs to hand Kolchak over to the Japanese, but this request was refused. Later the revolutionists rejected a similar demand and said he would not be turned over until he had been tried before a court martial. All railroad and telegraph communication between Verkhneudinsk and Vladivostok has been suspended, the despatch says.

A FEMALE STOWAWAY

New York, Jan. 29.—Stowed away in the coal bunkers of the Standard Oil tank steamship Muscogee, Emilia Gertal, 23 years old, a comely Italian girl, succeeded in reaching here today. The young woman, who said she came to visit her aunt, is being held by the immigration authorities for extradition.

LUMBER PRICES JUMP IN OTTAWA MARKET

Ottawa, Jan. 29.—A general advance ranging all the way from \$5 to \$12 or more per thousand feet has taken place in the Ottawa lumber market during the past few days, and the prospects are that prices will still go higher before the spring months. Early this week a new high price record for the Ottawa lumber market was set when the manufacturers asked \$125 per thousand feet for pine good siding, inch, inch and one-quarter and up. Two-inch also advanced \$5 per thousand.

Alberta Civic Elections May Be Held in October

Calgary, Alta., Jan. 29.—Proposals to hold the civic elections in October, instead of December, and have the aldermen take office November 1, are to be made to the provincial legislature by Calgary city council. It is claimed that the vote would be larger if held during the better weather.

Britain's Prohibition Savings Would Pay Her Debt to U. S.

Plymouth, England, Jan. 29.—Lord Leverhulme, the British manufacturer, who arrived here today on board the steamer Kaiserin Auguste Victoria from a visit of two months in the United States, declared himself to interviewers as in favor of the adoption of prohibition in Great Britain, through which, he said, enough could be saved to pay Britain's indebtedness to America within five years.

Report That Hon. J. A. Tessier Receives New Post in Quebec

Quebec, Jan. 29.—The Evènement this evening is authority for a rumor that the Hon. J. A. Tessier, minister of highways for the province of Quebec, may become president of the public utilities commission, which is soon to be reorganized. There are to be three members of the commission, the president to receive a salary of \$7000, and the other commissioners \$3400.

BIG PRICES PAID FOR CANADIAN STAMPS

London, Jan. 29.—Canadian postage stamps issued between 1850 and 1860 were features of a sale by auction yesterday. A four, ten penny issued in 1855 brought 130 pounds, while a pair of horizontal 1851 six penny of dull purple brought 23 pounds. One six penny, dull purple, fetched 23 pounds and a pair of 1859 ten cents, black and brown, on an original envelope, brought 28 pounds.

Four Wolfe Island Residents Fined \$200 Each for B.O.T.A.

Kingston, Jan. 29.—(Special.)—Before County Magistrate Hunter and Ruttan today, four residents of Wolfe Island—Samuel Hogan, Patrick McDermott, Edward Kelly and John Allison—were found guilty of having liquor for sale, and fined \$200 and costs each. The case arose over the shipment of 27 cases of liquor from Montreal to the Islanders. It is believed that the intention was to ship the liquor into the United States. Inspector McCammon seized the liquor.

Prospects Poor of Getting Relief to Magdalen Islands

Ottawa, Jan. 29.—(By Canadian Press.)—Prospects of getting relief to the Magdalen Islands seem very remote unless weather conditions moderate to a very considerable extent. The government ice-breaker, Montcalm is still stuck in the ice between the mainland and the islands, and advice received by the marine department indicates that she is making no progress. She has been in that situation for several days now.

Made Ten Dollar Bills Grow Where Nine Grew Before

Birmingham, Ala., Jan. 29.—According to charges in a warrant sworn out before the United States commissioner here, Thomas L. Chase, an engineer, took nine \$10 bills, cut them into strips, and made ten bills, by pasting the pieces together, with the result that he is in the county jail facing a charge of mutilating United States currency.

RACE-TRACK PROBE IN OTTAWA TODAY

Final Sitting—J. M. Godfrey Takes Place of W. E. Raney as "Service" Counsel.

Ottawa, Ont., Jan. 29.—(By Canadian Press.)—The final sitting of the commission which is investigating horse-racing and race tracks in Canada will open tomorrow morning in the rooms of the railway commission here. Commissioner J. G. Rutherford, who is conducting the investigation, stated this morning that the social service council, which was represented at former hearings by W. E. Raney, K.C., now attorney-general of Ontario, would be represented tomorrow by John M. Godfrey, of Toronto. D. L. McCarthy, K.C., also of Toronto, will appear for the Canadian Racing Associations, and it is possible that some of the individual race tracks throughout Ontario and Quebec will have representation. They have all been notified of the hearings.

May Conclude Today. Whether or not the proceedings will be of a lengthy nature is not yet known. All depends on whether those present have any new facts to bring before the commissioner. Following these, if any, counsel will make their argument, which should not take very long. It may be possible to conclude the hearing tomorrow. Then it will remain for the commissioner to make his report, which will be submitted to the government, probably before the house assembles.

The racing investigation was started by virtue of an order-in-council passed last August and the first sittings were held in September. It has been held up by the fact that Commissioner Rutherford has been busily engaged on railway commission work, having taken a trip with the latter body through both the eastern and western sections of Canada.

A 20-WORD advertisement, six times daily and once Sunday, in The World, will cost only \$1.40 for the week.

BRITISH MINERS MAY STRIKE SOON

Agree, However, to One Week's Postponement of Action on Demands.

London, Jan. 29.—A hint that a national strike of miners is possible within a short period was given by Frank Hodges, one of the miners' leaders in the course of the meeting held here by the Miners' Federation today,

to consider its dealings with the government. Mr. Hodges gave the hint in proposing an increase in the subscriptions of the members.

"In our progress towards the unification of the present wage system in the coal fields, and our struggle for national ownership of the collieries, with joint control by the workers, we may," he said, "become involved in a national strike. This in itself proves the necessity of increased contributions."

Compliance with Premier Lloyd George's request, that they postpone further action with reference to their recent demands, was decided upon by the miners' delegates at a conference here this morning. The delegates had asked that the government reduce immediately the price of industrial and

export coal; proceed with the limitation of coal owners' profits, the limitation to the retroactive, and take steps to reduce the price of food and clothing to a reasonable basis, the alternative being a threat by the miners to demand an immediate all-round increase in wages amounting to five shillings daily.

The postponement agreed to by the miners was for the period of one week, in order to allow the chartered accountants sufficient time to report regarding the figures of the profit on coal. Robert Smillie, the miners' leader, declared today that these amounted to £50,000,000 to £60,000,000 annually. He added that if the present profiteering continued, the Miners' Federation would use its organization in an endeavor to stop the extortion.

GERMANY TRYING TO SAVE CRIMINALS

Says, in Present Condition of Affairs, It Will Be Difficult to Extradite Them.

Berlin, Jan. 29.—Indication of the government's growing concern over the extradition of Germans accused of war offences was given in the note sent to the allies today, asking revision of clauses of the Versailles treaty. The attempted assassination of

Mathias Erzberger, minister of finance, last Monday, is viewed in official circles as a precursor of what is likely to happen on a larger scale if the government, yielding to the allies, appeals to force in arresting men on the list submitted by the entente powers. Editorial and partisan re-orientations, provoked by the attack on the finance minister, have already reached the white-hot stage.

While it has been commonly known that Wilhelmstrasse would use all its persuasive power in an effort to induce the allies to desist in their avowed purpose of demanding the surrender of Germans, the shots aimed at Herr Erzberger have made the cabinet more apprehensive than it has been at any other time relative to the enforcement of the extradition clauses.

The note to the allies, which will not be published in Germany, warns the entente powers that Germany cannot assume she is able to compel either national or local agencies of the law to lay hands on the men wanted and transfer them to German frontiers. The Associated Press is informed that even responsible officials of the foreign office have announced point blank they would refuse to execute any work connected with extradition formalities, and that they threaten to strike or indulge in "passive resistance."

Suggest Trial at Leipzig.
Suggestion is made in the note that the men wanted be tried by the supreme court at Leipzig, and in this part of the communication the cabinet has indicated its belief that the nation's highest tribunal could guar-

antee an exhaustive and impartial trial. It is pointed out that the allies are given representation on the bench of the supreme court, which should further tend to guarantee a fair trial.

The economic situation in Germany is precarious at present and this is an unsuitable period to invite trouble, the note indicates, continuing to point out that trouble, if it comes, will not be confined to any single party.

"The whole nation is likely to go on a general strike," an official declared today, while discussing the government's plight if it is coerced into even making a faint in the direction of apprehending the men wanted. It is definitely stated that no list of names of men whose extradition will be demanded has as yet been received, and that the government has no hint of when it is coming, or who is wanted.

ASTOR HOUSE
Erected in Montreal in 1758 and later occupied by John Jacob Astor, one of the pioneers in the raw fur business in Canada.

Montreal

ONCE MORE TO BE THE Great Raw Fur Market OF AMERICA

Head Office and Chief Warehouse
Canadian Fur Auction Sales Co. Limited

With Champlain came the first fur traders on this continent! Away back in 1608, when sent out from France by the great Company of Merchants, they established the first fur trading posts in Canada.

In 1628 the historical Company of One Hundred Associates received a charter from the French Government to operate as fur traders, and they laid the real foundation of the immense fur business of the New World. In the years that followed, the world-famous Hudson's Bay Company, truly the embodiment of the British spirit of adventure and enterprise, still further organized and developed the growing business.

FROM THE VERY BEGINNING ALL OF THE FURS SECURED WERE MARKETED THROUGH MONTREAL

With the establishment in Montreal of the Canadian Fur Auction Sales Company Limited, Canada once more comes into her own as the natural and logical raw fur centre of the continent. Organized and controlled by leading Canadian financiers and business men, the company will create a big, reliable World's Market IN CANADA. For all shippers of raw furs the creation of such a thoroughly satisfactory market will fill a long felt want.

GREAT AUCTION SALES of ten to fourteen days' duration will be held three or four times a year.

The Company's offerings will consist chiefly of fresh, original, unculled Canadian furs, unmixed with cheaper, inferior southern varieties. Consequently they will be so attractive to buyers from all over the world as to be irresistible.

CANADIAN DEALERS, TRAPPERS, TRADERS—

centralise your collections—concentrate your shipments at one point—**MONTREAL**. Manufacturers from ALL of the great world-distributing centres **MUST** have your furs. They will come in crowds to bid in genuine, spirited competition on YOUR lots—the best in the world.

The company is prepared to finance the entire Canadian output—and expects to do so. Furs run into big money nowadays—liberal advances will be made, gladly, to any shipper, large or small, on request.

The expense to shippers of selling in the Montreal market is less than in any other real fur centre.

Write us for further information. We will be pleased to place your name on our mailing list for market reports, quotations and other timely literature you will appreciate.

PAPER CONTROLLER RESIGNS POSITION

Ottawa, Ont., Jan. 29.—(Special).—There will be another paper controller. R. W. Bredner, income tax commissioner, who succeeded R. A. Pringle as paper controller, has returned to his former duties—Commerce Board May Control.

ASKS INVESTIGATION OF HAMILTON DAIRY

More work for A. W. Roebuck, barrister, is suggested by the following letter which H. H. Dewart, Liberal leader, yesterday addressed to the attorney-general.

ASKS INVESTIGATION OF HAMILTON DAIRY

"Hon. W. E. Raney, attorney-general. "Dear Sir—I note by the morning papers that you have decided to request the board of commerce to investigate the prices charged by the retail grocers in Hamilton, and that you have sent Mr. A. W. Roebuck to Ottawa with orders from the department.

ASKS INVESTIGATION OF HAMILTON DAIRY

ASKS INVESTIGATION OF HAMILTON DAIRY

"It is suggested to me that inquiry should be made into these capital increases to ascertain whether they were in the nature of stock bonuses given to shareholders (such as the public are quite familiar with in the case of the William Davies pork packing business) or to what extent actual capital was added at the time of each increase in capitalization.

MOONLIGHT AND MONEY

A RETURN.

CHAPTER 102.

Louise went home from Caro's that day feeling unusually sombre. After all, it seemed as though she was happy. She had been living in a thoughtless fashion for more than a year, taking life one day at a time, and never really looking ahead into the future, or planning to achieve any special goal.

"How splendid you look!" Louise said. "I'm proud of your work." Mr. Driscoll said finally, "I'm afraid, tho, that you have overdone it."

"Overdone it?" Louise questioned. "Well, yes, overworked. You seem to be well enough, but there's something about your face—perhaps it's your eyes—whatever it is, you are not as genuinely healthy as I'd like to see you."

"How observant you've become!" Louise laughed. "Are you perfectly happy, and contented?" her father asked.

"I think I'm as happy as most. No one is perfectly happy—at least," she qualified her statement, "very few. This work gives me something to do; it takes up my time, and my thoughts; it gives me an ambition. I want to control should be placed in the hands of a body having the greatest possible powers to see that its orders are carried out. That body is the board of commerce."

The board of commerce, it is pointed out, has full and complete authority, and is vested with the powers of court and has the right of punishing not only companies disobeying orders, but also directors and managers that disregard them.

The board of commerce act specifically provides that its jurisdiction may be added to by the governor-in-council, and the whole matter of newspaper supply has by the order been specifically added to that jurisdiction. In addition to this, so that the board would be clothed with the fullest possible power to deal with the situation which has arisen, all the authority which different paper controllers have had in the past are conferred upon the board, which is named specifically as paper controller.

This step, it is felt, will settle the difficulties which newspapers in both the east and west have been experiencing in regard to their supplies of newsprint.

DOHERTY TALKS OF HYDRO FOR FARMS

Ridgetown, Ont., Jan. 29.—Hon. Manning Doherty, minister of agriculture, who is seeking election in East Kent, addressed a crowded hall at the Grand Opera House this afternoon. His remarks were almost entirely along rural lines. He was out to give the farmers every convenience possible and hoped to see the rural districts all supplied with Hydro. He favored reorganizing the school system so that country pupils would have equal chance with the town people. The high cost of living was a question that was commanding much attention also and the best solution was to produce more.

Have You Taken Lunch in the Palm Room? You'll Enjoy It

Fine-Wrought Light Fixtures

Of Diversified Design and Finish To Satisfy Taste and Demand for Utility

It is the lighting fixture which sets off the whole room. Your hall may be artistically finished in sympathetic tapestry, the woodwork and setting to your taste, but what an anachronism an ugly lamp would be. And yet, could you see a particular lamp which hangs in our Electric Fixture Department, how easily and quickly your wishes would be satisfied.

It is a simple Colonial design, patterned after the old street lighter, with plate glass sides and burnished brass, like those under which one's ancestors picked their way at night. Price 37.05

Another in Common

There is another which belongs to the Italian Renaissance and unlike, yet has something in common. It, too, favors the old lantern type, with iron-rust finish on all the brasswork and heavy opaque weather-stained effects in glass. A gem for the connoisseur 91.45

The lights for the living-rooms of the home are viewed in great variety of design and finish.

Grace and Dignity

There is a polychrome (multi-colored) fixture, which in grace and dignity would assume almost any domestic environment. The shades are like well-shaped mushrooms and the brass work here is in dull rust finish. Price 57.00

One lamp is sure of arousing admiration on the part of all who see it. In shape it resembles somewhat a small French hatbox, but is distinctly antique. Thin, dull bronze straps cross and intercross the closed glass domes. A rare design. Price 63.80

The variety of lamp effects for ceiling, wall and table is so vast as to defy detailed description. A visit to the Department will prove an enjoyable experience, and your inspection is cordially invited.

Your Home

To the furnishing of a home there is no end. There are always touches that appreciation and affection inspire from year to year. Bits of art, new lighting equipment, changed color schemes, happier designs in wall paper. It is advantageous to those who love their home to keep in touch with improvement activities. In the matter of new and exclusive wall paper designs that appeal to the eye and the taste, and in refined and antique lighting fixtures and ornaments, you are invited to our Sixth Floor. Here you may inspect a wonderful assortment under ideal shopping conditions of light and quiet.

Exclusive Impressive Wall Papers

Are Now on Display on the Sixth Floor in Wonderful Color Combinations

To see these drapes of new wall papers spread shimmering before you, brings keenest pleasure to the eye. The color tones are so impressive, yet harmonious, the designs so attractive and unusual and the tout ensemble so appealing that instinctively one begins to picture how nicely this particular pattern would adorn her own hall or living-room, or that one decorate the walls of husband's den.

A Chinese Pattern

There have come to hand recently, several exclusive designs that would add grace and beauty to any interior. For example, there is a tapestry paper bearing a Chinese pattern—sky-blue, long-tailed birds against a broken background of gray sky and gray-brown foliage. The effect is rich and unusual. 30 inches wide, 5-yard roll. Strangely enough, the price of this paper is only 85

Neutralized Colors

The shadow finishes, however, stand alone in their own beauty of neutralized color combinations. Large foliage clusters, relieved by blue, green and rose patches. Primary colors, without anything clashing. These new shadow tapestries come in a variety of designs.

Bedroom papers, too, have assumed new patterns and color arrangements, bolder and even more pleasing than those of the past.

Variety and Choice

In all papers for special use you will find abundant variety and excellent choice in our Wall-paper Department.

In response to your request, our estimator will call at your home to provide advice and tender on your requirements. This service is gratis.
