"STRAITON" SIR WILFRID LAURIER

Promises to Help Premier Ross "See Laurier Thru" by Winning West Peterboro and Going to Senate.

Peterboro, Oct. 20.—(Staff Special.)—An immense crowd thronged the rink tonight when Sir Wilfrid Laurier spoke to the electors of West Peterboro. The arena was ablaze with colored lights and banners and flags floated from the telegraph poles along the principal streets. Three bands escorted Sir Wilfrid thru admiring crowds to the place of meeting.

GABINET CHANGES TO COME STRATTON SLATED TO QUIT

George Graham and Alex. Mackay, Two New Faces to Adorn the Treasury Benches.

The intimation from Peterboro that Mr. Stratton has promised to deliver West Peterboro to the government and that thereafter he will leave the legislature and be appointed to the senate comes as no surprise. The only surprise created in Toronto is that he did not read his prepared valedictory to the Peterboro audience last night, for it has been noised abroad in well-informed circles that the provincial secretary was prepared to make a dramatic exit from the provincial political arena. What stopped him is best known to him and may be made public in a few days.

However, the intimation from Peterboro revives rumors of coming provincial cabinet changes. A prominent Liberal politician, speaking to the World, said that it now seemed probable that Hon. E. R. Latchford, minister of public works, would grasp the first opportunity of notifying the public that he was tired of politics and that he would resume the practice of his profession in Ottawa.

The other members of the cabinet will hold fast to that which they have until further notice. There will be a shuffle, of course, and this includes the appointment of another lawyer as attorney-general, Mr. Gibson continuing to have a voice in the cabinet without the attendant duties of a portfolio. The names of the new cabinet aspirants have not been learned, but a gentleman who is well posted on provincial matters informs the World that N. W. Rowell, K.C., the one who has been urged by the premier to accept the attorney-generalship, will not at this time enter public life, as this would entail the abandonment of large private interests and practice.

BARRED WOMEN AT HIS FUNERAL

Norfolkton, Pa., Oct. 20.—In accordance with his previous expressed wish no women were allowed at Col. Boyd's funeral today.

SUPPORT THE BY-LAW

The acquisition by the city of stock in the Consumers' Gas Company is a proposal over which the ratepayers of Toronto have no reason to hesitate. Public opinion in this city is overwhelmingly in favor of municipal ownership and operation of the gas plant. If the by-law which is to be submitted to the people to-morrow does not make provision for the immediate realization of this public opinion, it is at least a step in the right direction.

The interests which contend that it is folly for the city to attempt to municipalize the gas plant by the acquisition of gas company stock are not to be accepted as authorities on such an issue. The argument that the proposal to purchase stock is an ineffective means of giving the city possession of a great public utility is as weak as the pretence that the investment would not be a good one for the city. The by-law aims directly at the supremacy of the gas company, and it carried means the open door to civic acquisition of an important public service and a valuable public asset.

If the investment was not a good one from the people's standpoint, the city would not be cautioned against it by the Consumers' Gas Company. If the by-law meant nothing more than an idle waste of public money it would not be resisted by those interests. The city has had a long experience with the Consumers' Gas Company. Every trial conclusion it has secured was won under hard pressure and expensive litigation. The city may well regard with suspicion the noble magnanimity which now causes this same company to spare it the misfortunes of an unwise investment. Ratepayers of Toronto have the best of reasons for supporting a by-law which means the beginning of the end of the corporate tyranny that has been masquerading as the "Consumers' Gas Company."

There are indications that improper methods will be used to defeat the by-law. As a means of ensuring an honest vote, the World proposes to publish the names of every man who votes on the by-law. In this way any plotting or personating attempted in connection with the by-law will be exposed.

POLICE AT WOODBRIDGE FAIR STOPPED THE "LITTLE GAME"

Fakirs Had No Chance to Get Rich—Two Fined and Much Apparatus Confiscated.

Provincial Detectives Greer and Rogers have in their possession a large quantity of fake jewellery and games of chance which they confiscated at Woodbridge fair yesterday. The fakirs on the grounds had little opportunity to play their little games, as the detectives were everywhere on the alert.

A striking out game, which the owner can stop at will at any number, was taken with all the supposed prizes in connection with it. A game of chance, a black, red and green wheel, and a pick out game were scooped in, and a Toronto man, who had money placed on spikes that the rings he handed to his customers would not go over was given summons to appear in court on Monday.

Charles Rogers of Buffalo and G. L. Perce of Niagara Falls, N.Y., were arrested when about to operate a pinch wheel. They were taken before J. J. Woodcock, J.P., and fined \$25 each, and their apparatus was confiscated.

Mr. Cook leaves a widow but no children.

HARMSWORTH'S PUT MONEY INTO MONTREAL LA PRESSE

Government and Its Friends Endeavor to Get a Sympathetic Representation on New Board of Directors.

Montreal, Oct. 20.—A. Danereau has returned from New York, and still no statement of any account appears in La Presse. The fact remains that Sir Wilfrid's name never appears in these days on the editorial page, but it is stated that "La Presse" will continue to be, as in the past, absolutely independent of political parties. On the other hand, La Patrie says the Liberal party were counting on La Presse for this campaign, just as the Conservatives were counting on the same paper in 1900.

EDITORS BAR SIR WILFRID FROM LA PRESSE EDITORIALS

Government and Its Friends Endeavor to Get a Sympathetic Representation on New Board of Directors.

Montreal, Oct. 20.—(Special.)—The capitalists believed the recent change in the proprietorship of "La Presse" of Montreal are said to be the Messrs. Harmsworth of London, Eng., who are not only owners of upwards of thirty newspapers and journals in Great Britain, but are strong imperialists and supporters of Joseph Chamberlain.

BETWEEN PEOPLE AND G.T.P. WHERE MR. BLAIR STANDS

St. John Telegraph Prints the Reason in a Despatch From Montreal.

St. John, N. B., Oct. 20.—(Special.)—Mr. Blair and the renewing of his strong protest against the Grand Trunk Pacific scheme are as much as ever the absorbing topics in local political circles. Politicians agree that the former minister's course is bound to have a great effect on the polling on Nov. 3. Nothing new locally came to light today, but The Telegraph will print in the morning a special from Montreal, stating that Mr. Blair wants nothing from the party or the corporation, but has resigned only to STAND BETWEEN THE COUNTRY AND THE GRAND TRUNK PACIFIC DEAL.

DEVELOPMENTS EXPECTED

Montreal, Que., Oct. 20.—(Special.)—The Star says: Developments about a recent big railway deal and purchase are looked for. They will prove more than interesting to persons in high places in and out of Canada.

HIGHWAYMEN AT THE MARKET

Partially Strangle Man and Get Hit and a Watch.

The thugs are doing fairly well. Last night a man named Stewart was walking thru St. Lawrence Market, one fellow put a handkerchief over his mouth and partially strangled him, while a confederate went thru the victim's pockets. The thieves got \$17 and a watch.

TO ENTER THE MINISTRY

Columbia, S.C., Oct. 20.—James H. Tillman, the former lieutenant-governor of South Carolina, who while in office killed Editor N. G. Gonzales in Columbia, has decided to enter the Methodist ministry, and has written a prominent minister here, telling him that he has applied to the Methodist conference for admission. The former lieutenant-governor is a nephew of Senator B. R. Tillman. The killing of Gonzales, and the subsequent trial of Tillman, created considerable interest throughout the South.

THE GALVIN CONFESSION

If Mr. Stratton be innocent of all complicity in the corrupt practices, the story of which has so besmirched the fair fame of the Province of Ontario, he is certainly one of the most unfortunate of public men.

But there is much more than this at stake. Mr. Ross is not only leader of a political party but premier of the province. He is the custodian of its honor. He owes a duty not to his party only but to all the citizens without distinction of party.

ANDREW, THE ANNEXATIONIST

Andrew Carnegie won't rest until he has obliterated the boundary line and made all of us, like himself, "galvanized" Americans, as they call the naturalized citizen in Detroit and Buffalo.

TO PREVENT DERAILING

In connection with the frequent railway accidents arising from the engine or carriages jumping the rails, it is worth while to call attention to some remarkable experiments conducted at Versailles, France, by Col. de Bange, a retired officer of artillery, whose inventions in that arm are known to all military experts.

All of this was made possible by the construction of the Canadian Pacific Railway. There were men who took the same view of conditions as Mr. Goldwin Smith, but those of them who are on earth to-day are usually free to acknowledge that they were wrong.

 Business Hours—Store opens daily at 9.30 a. m. and closes at 6 p. m.

Smart Ulsters for Children 6 to 12 Years Old, Saturday \$6.50.

This is a group of smart new styles in Children's Ulsters that have been selling at prices ranging up to \$12 each. The garments in every sense are attractive, and would have remained at regular prices were it not that several prices are sold out. Broken size assortments, while not lessening the intrinsic value of garments, nevertheless makes selling a more difficult task, and our usual plan when we see these odd lots accumulating is to group up, and make one price for all. Saturday's offering is composed of Children's Ulsters in tweed mixtures, cord cloths and frieze, in brown shades, blues, greens and natural, some of them with caps, fancy stitchings and braids, handsomely tailored. In the Mantle Room Saturday, at 6.50 each.

 We've been told time and again by people who know that our offerings of Tailor-made Costumes have all along been as handsome as anything shown in the best New York shops. We mention this not because we think ourselves entitled to special praise, but to emphasize what we occasionally say about this store and its splendid offerings of elegant coats, costumes and wraps. At the present time we've an exceedingly smart collection of suits, better, in fact, than was the showing a week ago, for we've received some superb new things which give a fine character to an already attractive showing. The new arrivals include suits in fine chevrons, new brown shades blues and all black. Suits in smart mannish tweeds, some of them with vests, semi-light fitting and three-quarter coats, new "peg top" sleeves, coat silk and satin linings. Prices begin at \$23 and range up to \$50. A few special models at higher prices. Second floor.

JAPS IN PORT ARTHUR CAPTURE RUSSIAN POSITIONS

Thus Curtail Fire of Russians Which Has Been Harassing The Japs.

Chefoo, Oct. 20.—The most important recent events at Port Arthur include the capture by the Japanese of further positions near Rihlung Mountain, and the severe damage of a Japanese torpedo boat destroyer by striking a floating mine.

According to Chinese advice which reached here to-day, and which are confirmed in essential points by Japanese letters from Port Dalny, the Japanese made assaults on the remaining outer works of Rihlung Mountain, and were repulsed.

The importance of these captures lies in the fact that they curtail the Russian attempt to advance on the trenches located on the slope of the Rihlung Mountain. The capture of these positions has been a surprise for the Russians, the Japanese claiming that they lost only 40 men.

At 1 o'clock on the morning of October 12, seven Russian torpedo boats destroyed emerged from the harbor of Port Arthur, and later they were followed by two more destroyers.

It is reported that the Russian force at Port Arthur now numbers 6000 men, excluding the militia, which is not engaged in fighting.

AN ARTISTIC HOME COSTING \$2000.

There is a parlor with charming window seat bay, well lighted. The dining-room has a pretty recess and two china closets with glass doors. There is a good kitchen, with pantry and porch. On the second floor are three bedrooms and a bathroom. There is a space for three rooms in the attic, all but one of which are not included in this estimate. If a hot-air furnace is used in the house, one chimney can be made to answer for it and the range, a very good way of heating it when a furnace is not desired, is to use a grate in the parlor, and this will heat the room above. A range in the kitchen, with hot-air flue, will heat one of the upper rooms. A Mayflower grate, which looks like an open fireplace in the living-room, would complete a very satisfactory and pretty heating outfit, easily managed and inexpensive to run. Cellar under whole house. Walls siding, gables and roof shingled. North Carolina pine floors and poplar finish. First story 8 feet; second story, 2 feet; width, 17 feet; depth, 46 ft. 6 in.

WAR BY NO MEANS OVER YET. So Says Prof. Mavor Addressing St. Paul's Y. M. C. A. At the inauguration meeting of the season of the Young Men's Association of St. Paul's Anglican Church last evening W. D. McPherson, K.C., was elected president. Prof. Mavor gave an address on "Some phases of Russian affairs" tracing the growth of the empire and how it became interested in Siberia. He pointed out the characteristics of the government and said there was no possibility of revolution in Russia, but that the central government may give more authority to the provincial governments. J. D. Allan, who recently made a tour thru Russia, conceded in Prof. Mavor's conclusions. He spoke of the enormous industrial and agricultural development of Russia. Whereas in western Siberia in 1890 no butter was made, last year the exports totalled many millions of pounds. Russia, he said, would be the greatest agricultural power of Canada. He spoke of the repressive public service and the wealth of the monopolies. Votes of thanks were tendered the speaker. The association meets fortnightly.

CHARLES COBORN. From JAP HEADQUARTERS. Tokyo, Oct. 20.—(6.20 p.m.)—Mannichian headquarters, telegraphing yesterday, reviews the situation at the front as follows: "Yesterday the centre column of the right army attacked and destroyed the railway station at Tanchien, but a small body of the enemy's infantry has returned that afternoon. The enemy continues to hold Fatao eminence. "On Oct. 19 two battalions of the enemy's infantry were visible near Kaokwanchia, lying to the right of the right army, and they appeared to be supporting it in the rear. The strength of the latter is under investigation. "On the afternoon of Oct. 19 the right wing of the centre column discovered two battalions and a battery of the enemy advancing in its front from Fungtao to Titi Mountain. They concealed themselves behind Titi Mountain. "One brigade of the enemy is located near Penchaphao. The enemy's guns have been firing occasionally since Oct. 19. "There is no change in front of the left column of the right army. "There has been no change in front of the centre army, except that there are occasional changes of shells. "It is quiet in front of the left army, but the enemy occasionally sends shells toward our positions. "On the night of Oct. 18 the enemy attacked the front of the left column, but he was repulsed."

GEN. KUROKI MAY BE DYING AFTER BATTLE OF SHAKHE. Capture of Lone Hill Tree Described By a Man Who Was on the Spot. Francis McCullough, writing The New York Herald from Shengking, Oct. 19, says: "For eleven days there has been continuous fighting about the village of Mukden, whose walls one can see bursting with shells. "On Sunday I rode to the deserted village of Delatop, a dozen miles south of Mukden. Fierce fighting was taking place a few miles eastward. "Shelling was heard from the village for the last half of the night, when the 11th Regiment captured at the point of the bayonet a hill crowned by a temple, which the Russians evacuated last Wednesday, when all the horses were killed and it was necessary to drag away sixteen guns by hand. "Four hundred Japanese and 200 Russian corpses were left on the hill. "This regiment also took twenty cannon. The soldiers' spirits were consequently low until the tide turned on Sunday. "Moving Further South. "I slept on Sunday night in a deserted Chinese house and rode on Monday to the village of Podyavazur, a little farther south. This village presented a terrific sight, owing to the concentration on it of Japanese batteries. A long line of percussion shells had burst near a temple south of the village raising great clouds of black, suffocating smoke. "Continued streams of wounded soldiers were being carried to Mukden. The Russian despatch, despite heavy losses, then joined Gen. Cossavich's battery, with which I advanced four versts.

Who Do Women Worry AND THEREBY EXHAUST THEIR NERVOUS SYSTEM AND RUIN HEALTH? Dr. Chase's Nerve Food. The worry habit is an unmitigated evil. It is by far the most frequent cause of nervous disease. Because of the multitude of household and family cares, and because of the nature of their employment, women are especially liable to give way to worry and anxiety. The result is wasted nerve force, weakness and disease. It may be nervous headaches, sleeplessness, irritability, indigestion, discouragement and melancholy, or weakness and irregularities peculiarly feminine. The only way to restore health and strength is by increasing the nerve force in the body, and this can best be accomplished by the use of Dr. Chase's Nerve Food. Make a test of Dr. Chase's Nerve Food by noting your increase in weight from week to week while using it. Notice the improvement in your appetite and how much better you rest and sleep. The healthful appearance of women who have used Dr. Chase's Nerve Food is the best proof of what it will do in increasing the nervous and strengthening the nerves, rousing out the form and replacing weakness and disease with new strength and vigor. Dr. Chase's Nerve Food, 50 cents a box, at all dealers or Edmondson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

YORK COUNTY AND SUBURBS MR. MACLEAN'S BIG MEETING

Finest Political Meeting Junction Ever Had—East Toronto Discusses Annexation Question.

South York Conservative Organization W. F. MACLEAN, Candidate.

Toronto Junction headquarters, 18 Dundas street, west, at junction 157. East Toronto headquarters, old Metropolitan Bank Building, Main street, north of Kingston road.

For any further information, telephone the word office, Main street. Organization meetings will be held in the following polling subdivisions this week: Oct. 23—Young Conservative Club meets, East Toronto, 8 p.m. Oct. 24—South York nomination meeting, town hall, North Toronto.

Toronto Junction, Oct. 20.—(Special.)—To the strains of inspiring music by the Toronto Junction Symphony Orchestra, with John A. Stokes as leader, the sturdy electors of the town and neighborhood, accompanied in many cases by their wives, poured into Killburn's Hall to-night in a steady stream from the moment the doors were opened at 7:30 o'clock. All were anxious to hear W. F. Maclean, Conservative candidate for South York. The audience was large, representative and enthusiastic.

On the platform were: W. J. Dalton, president of Toronto Junction Liberal-Conservative Association; John A. Macdonald of British Columbia, formerly Mayor of Toronto; Kory, Hugh; John Brown, Patron candidate for the representation of West York in the house of commons in 1888; George W. S. Sime, ex-president of South York Liberal-Conservative Association; ex-Mayor James Bond, County of York; R. Bull, Dr. Hackett, Andrew Irvine, Dr. Tremayne, Major Chisholm, W. A. Skene, Thompson Forrest and many others.

Shortly after 8 o'clock, Mr. Dalton introduced George Sime, ex-president of the meeting. Mr. Sime made one of his characteristic witty speeches and was warmly applauded. He was a member of the Highland Club, sang "Blue Bells" very acceptably. John Brown, who had been introduced as the man who "dared to do his duty" was greeted by a storm of applause. He was a member of the Highland Club, sang "Blue Bells" very acceptably. John Brown, who had been introduced as the man who "dared to do his duty" was greeted by a storm of applause.

East Toronto, Oct. 20.—It is questionable if any matter of recent years has caused in this town the intense interest which to-day centres around the question of annexation to the city. This was abundantly evidenced at the second of a series of public meetings which was held here to-night.

James Armstrong, one of the famous old stalwarts of the West, steadfast, persevering friend of the National Policy, referred to the conversion of John Brown to the principles advocated by W. F. Maclean, an ally and supporter of the annexationists. He said it was just such men as he who were the backbone of the annexationists. He said it was just such men as he who were the backbone of the annexationists.

W. St. John, M.L.A. for West York, made a ringing speech, outlining the policies of the Conservative Party with respect to the Trunk Pacific. "The policy of the Conservative Party," he said, "is to have control of the great public utilities. Mr. Brown, who had been introduced as the man who "dared to do his duty" was greeted by a storm of applause.

Why to Support Maclean. Mr. St. John gave the following reasons why the electors of South York should vote for Mr. Maclean: "Mr. Maclean represents East York and held it for over twelve years, contesting four elections. "From a minority at the start he leaves it with over 400 majority. "As a public man he has kept all his promises to the people and to the constituency. "He is a son of the National Policy and the father of the present government. "He has been a consistent friend and champion of the people's cause. "He has championed public ownership in connection with telephones, express service and state ownership of railways. "He favors reduced passenger rates and has tried to get it for the people, and he will eventually get them. "He has always taken up the cause of railroad employees and sought to improve the law for their protection and for their better treatment. "He has taken up the cause of the market gardeners and letter carriers. "He owns and controls a prominent newspaper which is entirely at the service of the people, a time when leading newspapers are passing into the ownership and control of the monopolists. "When you find a man who has the courage of his convictions, both in the press and in the parliament, and who ever ready and constant in fighting for the cause of the people, you ought to give him your vote and your warm support. Surely the corporations have enough of champions in the press and in the parliament, and it is time the people have some champions of their own. "Given an Ovation. "Mr. Maclean's speech was a genuine ovation which lasted for several minutes, at the end of which time the entire audience rose and sang "The Jolly Good Fellow." Mr. Maclean expressed his gratification at the cordial and whole-hearted reception accorded him by the audience. He started by refusing certain slanders put in circulation against

him. Mr. Anderson had asked a number of questions on his printed cards, and he would ask him, for instance, if he was in favor of public ownership of public utilities. He would also ask him why 1200 men of Toronto Junction, who had a right to vote, had been disfranchised. "And Mr. Anderson and the men up in Queen's Park are the parties who are responsible for the disfranchisement of these 1200 citizens of Toronto Junction," said Mr. Maclean, who added that he was in favor of the same system of registration of voters in Toronto Junction as obtained in Toronto. He then discussed public ownership of public utilities at some length, and showed how it would lower the cost of gas, telephones and street lighting, and thereby reduce the taxes of the town. "Wherever public ownership has been tried," said the speaker, "it has been to the advantage of the people." His experience in the house of commons showed him that the great machinery of the government was being strengthened by monopolies. The common sense way to work the waterworks and railways together and give the people cheaper transportation. There should be a national policy in regard to gas, telephones and street lighting, and Mr. Maclean's concluding remark, that he was "not afraid of the verdict of the people on Nov. 27" was received with the greatest enthusiasm.

During the night burglars broke into E. R. Rogers' hardware store, at Dundas and Keele-streets, and got away with pocket knives to the value of about \$50. They attempted to effect an entrance by the stable and got as far as the door, when they were discovered by the burglar of Rogers' hardware store, and turned out and cut out part of the pane of glass on the window north of the door facing on Keele-street, and opened the door from the inside. In an effort to find anything better, they also carried off a sample trunk containing a lawn mower, but dropped it in the rear of Sanders' furniture store. The burglars also visited the hardware store of C. M. Cutts & Co., 21 West Dundas street, effecting an entrance by a window in the rear, and got away with 15 in change, twenty-four dozen pocket knives, ten sets table cutlery, several pairs of leather mitts and gloves, ten sets silverware, including six dozen spoons and forks, a quantity of revolver cartridges and a number of razors, the total value being over \$200. It is quite evident that the burglars were thoroughly posted as to the movements of the police, especially in connection with the burglary of Rogers' hardware store, entrance to which was effected in a most conspicuous place and in the full glare of the electric lights. Policemen Harper and Peters were on duty during the night, but only one was on duty at the same time and a large district is patrolled. This is the second time within the year that Mr. Rogers' store has been entered.

Advertisement for Cook's Cotton Root Compound. Short Hauls With Gasoline. From The Brooklyn Eagle, Oct. 16. Railroad officials have been working out the problem of long and short hauls by electric traction, growing along as best they might. The question of the use of electricity on trunk lines is for practical reasons second to that for suburban uses, especially for the drawing of passenger trains. In this state experiments have been in progress for months. These experiments have been made not only with electricity, but with gas. In general it is the application of automobile traction to railroad tracks. It is declared that gasoline is cheaper than electricity, and that this, other things being equal, would decide the question for railroads. It is announced that the Union Pacific Railroad Company is to have with it in three months several gasoline motor cars between Omaha and local stations on its Nebraska line, with a carrying capacity of thirty persons each. The west has, especially in cities, been in advance of the east in adopting new enterprises of such nature. It may be that gasoline may vie with electricity in the short hauls near the Greater New York. But How Do They Know? Oh, ungallant must be the man indeed Who calls "nine women out of ten" "knock-need!" And he should not remain in peace for long. Who says the nether limbs of women are "all wrong"? Such are the arguments designed to prove That Women's ill-advised to make a Move. To mannish clothes. These arguments are such As to be of the kind that prove too much. If Women's limbs in truth unshapely foot. The fingers and toes are so much. The present style of dress just makes them so! Cook's Cotton Root Compound. Ladies Beware!
