WIFE SUSPECTS MURDER OF FORMER NEW BRUNSWICKER

A. J. Cameron's Bloodstained Clothes Found on Kennebec River Bank

SUICIDE THEORY

Police Accept Theory of Self-Destruction, But Friends Are Skeptical — Bookbinder at Fredericton in the Seventies

Augusta, Aug. 3.—Mrs. A. J. Cameron, wife of the man, a portion of whose clothing was found on the river bank here Tuesday, does not accept the suicide theory. The clothing found consisted of a hat, shirt, double-breasted coat, a pair of trousers and an umbrella. There were no sort of valuables in his clothing, and but one cent in money. There were blood stains on the shirt. Mrs. Cameron identified the clothing as that of her husband, who returned from New York to see her Sunday.

COMMITTEES MEET

The problem of widening Mill street to cope with the increased traffic naturally expected in a short time, will be dealt with this afternoon at a meeting of the board of works. It is felt that the matter has to be grappled with at once, and that unless immediate action is taken nothing in the way of widening will be done before considerable expense will be incurred. The market committee will convene after the meeting.

NEIGHBORLY NEIGHBORS

The comic writers for the funny papers who worked overtime on the joys of those who have neighbors inclined to borrowing, and oftentimes there is room for a joke. It is questionable, however, whether or not such is the case when a kindly disposed neighbor helps himself to one's garden hose and after having it for quite a while returns it with the statement that he borrowed it, but forgot to tell the owner that it was done in Queen street the other day, and E. L. Bling who thought his hose had been stolen, was informed this morning that a neighbor had "just borrowed it."

MADAME LABADIE GIVES CLEVER PERFORMANCE. A large and appreciative audience gathered at the Opera House last night to listen to a reading by Mme. Labadie for the benefit of the St. John Association for the Prevention of Tuberculosis.

It would be difficult to explain to those who have not heard her how Madame Labadie makes it possible for even the most unimaginative in her audience to feel that the characters in the play are really there on the stage, moving and talking as though they were flesh and blood men and women, for her methods are so simple and natural that to describe them is only to supply the barest suggestion of the power of a woman who is no less a creative genius than the author whose characters she mentally projects as visualized beings and clear as though seen by the naked eye.

La MARQUISE de FONTENAY Duke of Sutherland Sails En Route to Western Canada on August 9—Lord Rendlesham Loses His Right Hand From Blood Poisoning

The Duke of Sutherland, accompanied by the Duke of Somerset, Bedford, and Westminster, are booked to sail from England for New York, on the new Cunard liner Olympic on August 8, and on reaching New York will embark on the Duke of Sutherland's steam yacht, now in American waters, under charter to Col. Robert M. Thompson, of Halifax, Nova Scotia.

There is no one more enthusiastic than the Duke of Sutherland about the future of the western provinces of Canada, and apparently he is communicating his enthusiasm to his fellow dukes, who held up to obloquy in England by the present government, as "selfish landlords," are likely to be of great service to the west.

Strictly speaking, there are two castles on the Goulet, and the one on the rocky island, connected with the mainland by an artificial causeway. Both are old, and the one on the island, the castle on land being in the infinitely better repair of the two.

The Evening Chit-Chat

YES, but that's what people always say about anyone when they can't think of anything else nice. The girl who said that had just been told that some one had remarked what a wonderfully sweet disposition she had.

Perhaps just pleasantness has not a very heroic sound, but the human heart, that knowing his own bitterness, can yet carry itself cheerfully is not without heroism. It is that human heart that does not more than hold its tongue about its own aches and pains, it has a certain moral value that the world cannot afford to lose.

Of course his testamentary dispositions created a great deal of controversy, criticism, and litigation and led to the enactment by parliament of the Thellusson act which became a law of the land in 1800, and which renders it impossible for personal property to be tied up for more than twenty years after a testator's death.

It is said that owing to the extraordinary expenses of all the sixty years of litigation, the fortune of the House of Rendlesham was only about twice the size of the wealth left by Peter Thellusson at the time of his death.

AFRAID OF THE ISSUE

Partisan politics aside, the one question before all patriotic Canadians today is whether or not reciprocity will benefit the Dominion.

If the Conservatives are right in their contention, it, as they say, our railroads will be ruined, our farmers injured, the country robbed of its natural resources.

Terrified politically by the issue of reciprocity, which they believe will ensure the defeat of their party at the polls, Conservative newspapers everywhere are branding all their energies to divert attention from the economic advantages of reciprocal trade.

The Conservatives enter this campaign beaten. They know that the day of extreme protection has gone by. They know that all over the Anglo-Saxon world there is a movement toward greater freedom of trade, and greater equality of opportunity.

Let the fishermen have their turn. "L. Perkins of Boston" tells the Standard he is opposed to reciprocity. That ought to come pretty near settling it.

Should the house of commons be in session at the time the unusual course will be adopted of submitting the treaty to the lower chamber at the same time that it goes to the United States senate.

Paris Aug. 3.—An official note issued at the foreign office after outlining the details of the ceremony of signature, points out that the treaty eliminates many restrictions from the treaty of 1898, assures a means of regulating peacefully all differences which would be impossible of settlement through the channels of diplomacy and adds:

The character of the treaty is clearly defined in the preamble thus: "The French republic and the United States of America being equally desirous of perpetuating firm and inviolable the constant peace which happily has existed between the two nations since the first days of American independence and which was rendered more sure by the close relations of friendship and commerce; affirming that no important questions remain in limitation between them, and resolved to prevent any future difference from being an occasion for hostilities or an interruption of these good relations and so forth."

deprived of their present good prices by the competition of American produce, but this is the special province of The Toronto World. This advocate of obstruction declares that "with the duty off and reciprocity will take the duty off—the Toronto live stock market would be flooded with American sheep, and prices would drop about a dollar a head!"

"During the year ending with March, 1910, the Canadian farmers sold sheep in the United States to the value of \$287,696. On these they or the people who bought them paid \$103,919 to the United States Treasury. This will be remitted by the tariff relief agreement. Some of the benefit will fall to the United States consumer and some to the Canadian sheep-raiser. The buyer will get more mutton for his money and the seller more money for his mutton—a thing which Professor Leacock, who fills a chair in political economy, thinks impossible.

"When relief is effected the men who raise live animals for the market will be in less danger of being pinched by temporary local glut in the market, and consumers will be less likely to suffer through temporary shortages. These abnormal fluctuations, now used with free alternation to warn buyers against high prices under freedom and sellers against low prices under freedom, afford opportunities for middlemen, but seldom benefit either producers or consumers. The World is now warning the farmers against abundant and cheap imports under freedom. Next day it will probably choose the other horn and warn the city people against the high prices to follow the free export of food supplies. But the people are beginning to think that they understand the buying and selling game quite as well as the obstruction builders at Ottawa or Washington."

Let the fishermen have their turn. "L. Perkins of Boston" tells the Standard he is opposed to reciprocity. That ought to come pretty near settling it.

PREAMBLE OF TREATY PUBLISHED AT PARIS

Arbitration Agreement Does Not Remove All Possible Chance of War, But Goes Long Way Towards It

London, Aug. 3.—The Anglo-American arbitration treaty to be signed late today will be given out for publication in London and Washington simultaneously.

Paris Aug. 3.—An official note issued at the foreign office after outlining the details of the ceremony of signature, points out that the treaty eliminates many restrictions from the treaty of 1898, assures a means of regulating peacefully all differences which would be impossible of settlement through the channels of diplomacy and adds:

The character of the treaty is clearly defined in the preamble thus: "The French republic and the United States of America being equally desirous of perpetuating firm and inviolable the constant peace which happily has existed between the two nations since the first days of American independence and which was rendered more sure by the close relations of friendship and commerce; affirming that no important questions remain in limitation between them, and resolved to prevent any future difference from being an occasion for hostilities or an interruption of these good relations and so forth."

The Debates regarding the treaty as a praiseworthy effort to reduce the chance of war though as it understands the text, it does not mean the absolute suppression of those chances. A mixed commission which will weigh non-justifiable difficulties will be a powerful brake on dangerous national passions but the real efficacy of the commission the paper thinks, will depend vastly upon the merits of the men composing it.

ONLY ROSES To a garden full of posies Cometh one to gather flowers, And he wanders through its bowers Toying with the wanton roses, Who, uprising from their beds Hold on high their shameless heads With their pretty lips a-spooning Never doubting—never doubting That for Cylindrical posies He would gather aught but roses!

In a nest of weeds and nettles Lay a violet, half hidden, Hoping that his glance unhidden Yet might fall upon her petals Though she lived alone, apart, Hope lay nestling at her heart, But alas! the cruel awning Set her little heart a-breaking, For he gathered for his posies Only roses—only roses!

WIFE SUSPECTS MURDER OF FORMER NEW BRUNSWICKER

(Continued from page 1.)

Mrs. Cameron states that he was in his usual cheerful frame of mind and that together they planned the usual vacation trip to Nova Scotia. He told her that he intended to go to Ellsworth where he formerly lived, for a few days, and from there to Bar Harbor and that he would spend the time intervening between now and their September trip to Nova Scotia in Ellsworth and Bar Harbor, visiting friends.

His grips were packed for the journey and he had plenty of money with him. She left him Saturday evening about 6:30 o'clock near the Augusta House. He told her he intended to take a short walk down town visiting friends of whom he had many in this city among the older Democratic politicians. He has not been seen by anyone who knows him since that time.

The police accept the suicide theory and are dragging the Kennebec river. Mr. Cameron's friends are inclined to think that he has met with foul play and are investigating along these lines.

Alexander J. Cameron was born in Aberdeen, Scotland, about sixty years ago, and was graduated from St. Andrew's college near there. He came to New Brunswick when he was young and later joined his father, who was a lawyer at New Glasgow. Afterwards Mr. Cameron came to Ellsworth and lived there for a time with his uncle. From Ellsworth he went to Fredericton, N. B., and took up the book-binding business. In the late '70s he came to Augusta and went into business with Eugene Smith, running a bindery. To this firm was allotted the state printing during Gov. Garcelon's term. The refusal of the state to pay for a portion of the state work gave rise to the Cameron claims.

In 1883 Mr. Cameron went to New York

SHIPPER MUST CHOOSE ROUTE

New York Financial Journal Says There is Little Opportunity of Developing Traffic North and South as Result of Reciprocity.

(N. Y. Journal of Commerce)

It is not expected by the officials of railroads which carry merchandise and from Canada that reciprocity will bring any sudden boom in increased transportation. No kaleidoscope change is looked for, even if all should go well, and by a practical confirmation of the agreement by the Canadian people at the forthcoming elections the interchange of commodities between the two countries should be perceptibly quickened within a few months. In due course the railways will doubtless set themselves to meet the new conditions as they become apparent. But there is not likely to be much anticipation and the routes and connecting links between the two countries are well established to allow of much innovation.

As far as two-thirds of the American border is concerned, in the northwestern territory, there is a field for the development of a north and south railway traffic, but the case is entirely different in the middle western and eastern sections of the country, where the natural barrier of the Great Lakes and St. Lawrence provides but comparatively few natural gateways. These have long been occupied and utilized. Practically the Canadian border from this side, but with the exception of the New York City which traverses Ontario by the Michigan Central and has a line from Cornwall on the St. Lawrence up to Ottawa, there is an interchange agreement with one or all three of the Canadian lines—the Canadian Pacific, the Grand Trunk or the Intercolonial. It is for the shipper, of course, to designate the route by which he intends his goods to be forwarded. Practically the Grand Trunk by its occupation of the territory is the principal route for the distribution of articles whose origin is in the United States and is delivered by Canadian carriers to the American roads, whether to the New England States, the south or the Ohio valley, through Toledo.

To what extent the railroads will benefit individually by the reciprocity agreement is impossible to estimate with any certainty. Give us a year from now, transportation men say, and perhaps we shall be able to speak more fully.

The New England manufacturing towns hope to get cheaper food and raw material and land will doubtless benefit. The Canadian with their products in exchange to a greater extent than at present. The coal that now comes to Montreal by the railroads will probably increase in volume to the benefit of the Delaware & Hudson and the Lehigh Valley companies. New York city may not itself derive any direct benefit from freight transportation that may reach the Canadian border by the great customs gateway at Niagara, but it is possible that as an entrepot of merchandise at its port of destination, communication, from New York city for express package freight may make the rail or water haul to Montreal, a more attractive. For instance, the Canadian demand for southern produce has been steadily growing in recent years. The Hungarian fruit at all seasons of the year and markets of strawberries, watermelons, lettuce and other garden produce from the Florida keys, which a few years ago were unknown out of the season shipments.

MORGAN ANXIOUS TO BUY ART TREASURES

Willing to Pay Immense Sum For Count Erdos's Valuable Magyar Antiquities

IVenna, Aug. 3.—J. Pierpont Morgan is spreading the golden net in which he is gathering up the art treasures of the world all over Europe. He is particularly anxious to buy Magyar antiquities, including the famous count Erdos's collection. Mr. Morgan made an offer to the count to purchase at a considerably larger sum than the \$100,000 which the antiquities are officially valued. As these treasures are entailed with the estate, an Erdos family council was convened, and offered to sell them for \$1,000,000.

Mr. Morgan agreed to the price, but Count Khen-Hedervay, the premier, hearing of the matter, declared that the treasures could not be separated from the entailed estate. Mr. Morgan thereupon offered to buy the whole property for many times its value, but the premier ruled that this could only be done with the consent of the Emperor, which the government would advise should be refused.

Both Mr. Morgan and the Erdos family being very anxious to complete the transaction, an attempt is now being made to get around the law by Mr. Morgan buying another Hungarian estate, and exchanging this for the Erdos property, as according to Hungarian law, entailed estates may be exchanged for unentailed properties of similar value, though they may not be sold without the Emperor's permission. The negotiations are still proceeding.

GIRL ASLEEP 105 DAYS

Chicago, Aug. 2.—Hazel Schmidt, the young woman of Vandilla, Ill., who has slept almost continuously for 105 days, arousing the interest of physicians in the Middle West, awoke for five hours Sunday and after eating three hearty meals immediately fell into a deep sleep again.

"Did, bring me a glass of water," was the first intimation that George A. Schmidt received that his daughter was awake.

A few minutes later Miss Schmidt arose and partook of a hearty meal, the first in many days.

"The meals in dreamland are not very satisfying," said the young woman as she felt the pangs of hunger an hour later, and sat down to a second meal. Another hour passed, and the girl's appetite not being satisfied she ate down to a third meal, and closed up the dishes quicker than Jack Spratt or his wife would have done.

"I'm tired," said the girl a few minutes later. "I feel fine, but I'm very sleepy and guess I'll go back to bed if you don't mind. Maybe in a few days I'll be able to keep awake all day just as I used to."

Her words trailed into a yawn and she fell back on the bed fast asleep.

H. M. Hopper, of the St. John Street Railway, said yesterday that his company has no idea of purchasing land at St. John East.

NEW YORK FIRE CHIEF TOOK EXAMINATION

John Kenlon, Formerly a Sailor, Led the List of Applicants With Average of 85.06

New York, Aug. 3.—John Kenlon, acting chief of the fire department since the retirement of Edward F. Croker, several months ago, was appointed chief of the department yesterday morning by Fire Commissioner Johnson. Mr. Kenlon's name headed the civil service list, he having a percentage of 85.06, the highest of all the ten deputy chiefs who tried the promotion examination. Only four of the candidates reached the eligible list, his nearest competitor being Joseph B. Martin, 84.75; William Guerin, 84.20 and Thomas R. Langford, 82.12. In congratulating Mr. Kenlon, Mayor Gray said that any one of these four men had proved himself capable of filling the coveted position.

Chief Kenlon was born in Ireland fifty-one years ago. After leaving school his early manhood was spent before the masts of a sailing ship. He was appointed a fireman in August, 1887, and was promoted to engineer in September, 1892. He was made an assistant fireman in December, 1903, being placed in charge of the marine division of the department. Last April the department medal was awarded to him, and on the retirement of Mr. Croker he became acting chief.

TREATED TO ICE CREAM AND CAKE

The children who are enjoying themselves to the fullest these days on the Jolly Day Club playgrounds were given an especially enjoyable hour yesterday afternoon when they were treated generously to ice cream and cake. At five o'clock the playground activities were suspended and the expectant youngsters were lined up for this pleasing feature of the programme.

The affair had been organized by the teachers, Miss Melick and Miss Turner, who were assisted by an efficient committee of ladies. The ice-cream was provided by a public spirited gentleman who does not wish his identity disclosed and the ladies supplied the rest of the refreshments. Mr. and Mrs. Gray very kindly placed their house at the disposal of the committee for convenience in serving.

The ladies who assisted during the afternoon were Mrs. A. M. Seidling, Mrs. C. Smith, Misses Allen, Barr, Develer, Lee, Wright, McBeth, Fowles, Rogers, Henderson and Hatheway. About 300 children were present.

RECORD CROWD AT WEDDING FEAST

Paris, Aug. 5.—Two farmers near Brest married two sisters. There were 1,100 guests at the double marriage, and 250 carts and carriages were utilized to take them to church.

The wedding breakfast was served in a field. The guests were seated round ten long tables, and disposed of ten barrels of wine, 4,000 bottles of lemonade, and 300 bottles of beer to say nothing of an immense quantity of food.

PARLIAMENTARY HONOR FOR WOULD-BE MURDERER

Paris, Aug. 5.—According to a Brussels telegram, the Belgian Socialists have decided to present as a candidate at the next Belgian parliamentary election Spido, the anarchist, who in 1901 fired a revolver at the late King Edward, then Prince of Wales, at a railway station while the prince was sitting in the train. Spido, who is married, is living the life of a peaceful citizen, and is a member of a Socialistic Co-Operative Society in a Brussels suburb.

TOBACCO TRUST IS STILL UNDER BAN

New York, Aug. 3.—A decree was handed down by the United States circuit court here today on the mandate of the federal supreme court enjoining the defendants in the American Tobacco Company case, their agents and servants, from doing any act which may further enlarge and extend the power of the combination by any means or device whatsoever.

The decree is understood to be directed against plans which have been outlined for the re-creation of the company.

AMUSEMENTS IN ST. JOHN. WHAT THE PLAY HOUSES OFFER

EXCELLENT WEEK END BILL AT THE THEATRE.
A war story in film form is always enjoyed by old and young and for excitement and thrill "The Daughter of the Navajo," which will be ably portrayed by the Soles Co., today and tomorrow at the Unique Theatre, would be hard to equal. Aside from this big feature the Reliance subject "The Broken Coin," bids fair to be very interesting. It is the story of a wily money lender's defeat in the stock market by a young girl. "The Time is Out of Joint" is one of those trick comedies that never fails to produce a laugh and leave a question mark. It has as its reel making a question of the sex entitled "The Diver's Honor." Miss Betty Donn will close her engagement tomorrow evening singing, "The Merry Dance." Miss Donn's departure will be regretted by a host of friends and admirers who have greatly enjoyed and appreciated her various efforts.

LYRIC BOASTS OF EXCELLENT PROGRAMME.
The Lyric Theatre entered to large audiences last evening and the big amusement banquet was keenly enjoyed. The first course was served by the Melies Company which was followed by the Melies Company which was found to be a most delightful moral containing plenty of good action and stirring scenes. Next on the bill of fare was the Latin farce "The Father Useful," and this seemed to be palatable with great relish. The Lyric Company then served their charming "For Her Brother's Sake," which created no end of favorable comment. The last number on the delicious menu was left in the hand of Harry Burger and he was found to be an excellent caterer with his clever singing impressions and comedy. This feast will be given today and tomorrow and it is too good to miss.

"STAR" SMITH END
The remaining programme for this week at the Star Theatre to take in Friday and Saturday evenings and Saturday matinee will have three high class dramas and one funny comedy.
The following programme as advertised in tonight's issue has a ring of real interest subjects "Back to the Primitive"

by the Selig Company. "Love in Madrid" by the Pallas Company. "My Prairie Flower," by the Melies Company and "The Trickster Tricked," Pathé comedy. Miss Newington in new songs for Friday and Saturday. Miss Newington who is on her sixth week at the Star closes her engagement next week. Children's matinee on Saturday afternoon.

GEN.
A number of pleasing features are announced for the week-end bill at the Unique Theatre. Owing to a delay in transmission the chief pictorial feature has not yet been announced, but will be later. It is said to be a good one, however. One of the others is a fine Vitaphone production with Leo Delaney and Florence Turpin in the leading roles. "The Stumbling Block," is its title, and it shows what a power for good or evil a dog can be when needed to decide upon a joy affair. "The Count and the Cowboys," is a delightfully refreshing western story by the Essanay Company, and is said to contain a barrel of fun. P. Louise Tufts will sing "I'm going to take the train for home," and the orchestra has some new numbers. Souvenir spoons will be given tomorrow.

NEWSPAPER AMENITIES

(Montreal Witness)
In its frantic appeal to Sir Wilfrid Laurier to abandon reciprocity, the Montreal "Star," day after day, described him as the man who can save Canada. Since dismission, the "Star" readers are being told that Mr. Borden is the man to save Canada. This does not prevent the Halifax "Chronicle" (Liberal) of yesterday, using a large picture of Sir Wilfrid, and the legend quoted above and credited to the Montreal "Star." (Conservative). On the other hand, the Halifax "Herald" of the same date, in all the glory of its red and black poster type, features Mr. Sifton—the same Mr. Sifton whom it was backing a year or two ago—as the champion of the campaign!

Ended in Dispute.
Last night's game in the Commercial League between the McEvoy and Brook & Peterson teams ended in a dispute, the latter team claiming the game because their opponents refused to continue on account of darkness. The game was stopped at the fifth inning, when the score was 4 to 4. The B. & P. team had a man on second with two men out when the McEvoy men refused to continue. According to an agreement the game was to go six innings, therefore the dry goods men claim the game. Broard and Myers pitched for the McEvoy; and Matthews served for the B. & P.'s. Freighter Truck Across Continent.
New York, N. Y., August 3.—With an escort of a dozen other commercial vehicles, which met it in Yonkers, the five-ton truck known as the "Pioneer Freighter," reached the end of its five thousand mile journey at City Hall yesterday afternoon. When it reached there, its driver, bearing a letter to Mayor Gaynor from the Mayor of San Francisco, had covered the continent between oceans, carrying throughout a load varying between three and four tons. The journey is one that would have been considered remarkable for a touring car a few years ago.

Some months ago the truck left Denver westward bound, piloted by A. L. Westgard. After a journey of continuous hardship it reached Los Angeles, and continued on to San Francisco over California's good roads. Shipped back to Denver it began the eastward section of its journey, which ended successfully yesterday.
It has been made evident, for one thing by the ocean to ocean run, that there is a field for the motor truck as successor to the horse drawn stage for transportation of both passengers and goods, and that where railways and other common carriers cannot operate profitably in sparsely settled regions, power vehicles may be the means of building up the territory.
The truck's arrival was celebrated by the Motor Truck Club at a dinner at Reineuber's last night. Mr. Westgard was the principal speaker and he told in detail the story of the arduous trip through the western wastes. The club is made up of dealers in trucks of all kinds, and every one appeared proud of the feat of the Saurer.
Athletic
Chinese to Olympic Games
A great sign of the universal spread of athletics is the fact that the Chinese are going to have a team at the Olympic games at Stockholm next year. Very little information can be gathered about the size of the team or the individual ability of the members but the official announcement from Hong Kong that a team would be sent and that China wanted to have a member of the International Olympic committee in future. This would mean that the Chinese are in the game to stay and will have representatives at all the Olympic games to come as well as a voice in the executive department. It may sound odd to most people that the Chinese, the last people in the world to adopt modern habits, should be hit with the athletic fad, but it seems that matters have been changing themselves that way for some years. year to year Chinese students who have had their education in America and England have taken home with them the athletic idea and have been telling their countrymen of the wonderful benefits of the sport. Gradually the habit grew on the natives and, helped out by the universities and those who had seen competitions abroad, the track and field events began to get popular. At Canton and several other of the large cities little clubs have sprung up and here and there meets are of frequent occurrence.
To judge by some photographs of these meetings they were rather crude but on the whole as good as the early attempts of other nations when they first took to athletics. Then it is unknown what China may develop with its wonderful population it is just as likely to develop champions as Finland or even Germany. A few years ago anybody who would say that in the near future a Finlander would cross to England and run away with the four-mile championship would be regarded as verging on lunacy, yet a Finlander did this year, and it is doubtful if he has an equal at the distance in the world today.

Wells Making a Blunder
The London announcement that Bomber Wells, the English heavyweight pugilistic champion, had signed a contract to meet "Jack" Johnson in September for a purse of \$40,000 has caused a great sensation in the sporting world. Wells has been expressed that Wells should meet the champion in a match that looks like certain defeat. Wells is a much better boxer than he is generally supposed to be. He has been drawn by men prominently connected with the sport; it is hard to see how he can get a better man than he would receive for boxing any white man in this country.

Wells had stated time and again that he could not box Johnson for a couple of years, and in face of these repeated assertions this sudden change of front is all the more surprising. Johnson is not unbeatable, but he is a long way ahead of anything in the boxing line today. While he may be beaten a great deal sooner than he is generally supposed to be, it is not likely that he will be beaten by a man in a year or two who would stand a chance of beating a fall of the line. Johnson is more than a toy in Johnson's hands. The negro has cleverness, weight, experience and generally on Wells, and it looks like a very poor match. Even the Sportsman, at whose offices the match was made, says: "Of course, many will be prepared to look upon the match as had for Wells."

St. John will be represented at the Canadian Ladies' Golf Championships this year by two local players, Miss Mabel Thomson, the former champion, and Miss Sara Harre. Both ladies are entered in all the events and it is confidently expected by those who have been watching their play lately that they will succeed in bringing home a full set of the trophies. Miss Thomson has been playing an especially fine game this year. Some days ago when the ladies were playing against the men on the local links she did nine holes in 38—a score which will keep the best of the men in the world.
The championships will be played this year on the links of the Ottawa Golf Club. Play will commence on Monday September 25th and will continue until Friday, the 29th.

Several other members of the St. John Golf Club have been talking of entering, but have not yet definitely decided to do so.

Motoring
Freighter Truck Across Continent
New York, N. Y., August 3.—With an escort of a dozen other commercial vehicles, which met it in Yonkers, the five-ton truck known as the "Pioneer Freighter," reached the end of its five thousand mile journey at City Hall yesterday afternoon. When it reached there, its driver, bearing a letter to Mayor Gaynor from the Mayor of San Francisco, had covered the continent between oceans, carrying throughout a load varying between three and four tons. The journey is one that would have been considered remarkable for a touring car a few years ago.

Some months ago the truck left Denver westward bound, piloted by A. L. Westgard. After a journey of continuous hardship it reached Los Angeles, and continued on to San Francisco over California's good roads. Shipped back to Denver it began the eastward section of its journey, which ended successfully yesterday.
It has been made evident, for one thing by the ocean to ocean run, that there is a field for the motor truck as successor to the horse drawn stage for transportation of both passengers and goods, and that where railways and other common carriers cannot operate profitably in sparsely settled regions, power vehicles may be the means of building up the territory.
The truck's arrival was celebrated by the Motor Truck Club at a dinner at Reineuber's last night. Mr. Westgard was the principal speaker and he told in detail the story of the arduous trip through the western wastes. The club is made up of dealers in trucks of all kinds, and every one appeared proud of the feat of the Saurer.
Athletic
Chinese to Olympic Games
A great sign of the universal spread of athletics is the fact that the Chinese are going to have a team at the Olympic games at Stockholm next year. Very little information can be gathered about the size of the team or the individual ability of the members but the official announcement from Hong Kong that a team would be sent and that China wanted to have a member of the International Olympic committee in future. This would mean that the Chinese are in the game to stay and will have representatives at all the Olympic games to come as well as a voice in the executive department. It may sound odd to most people that the Chinese, the last people in the world to adopt modern habits, should be hit with the athletic fad, but it seems that matters have been changing themselves that way for some years. Extra Grant Recommended by Ferry Committee This Morning—Ready for Service August 12—Increases to Employes

The ferry committee met this morning in the city building, and seemed generally disposed towards the officials, or some of them, engaged in the service, as recommendations for increase of salary were made in several cases. Other matters of interest were also dealt with including the total cost of equipping the new ferry steamer Governor Carleton, making for further sums to complete the work, and the recommendations contained in the report of the engineer.

Ald. Smith presided and those present were Ald. Potts, Elliott, and Kierstead, the common clerk, ferry superintendent, comptroller, and Mayor Prink for a short time. The report of Mr. Waring was read detailing the work already done by his department, and stating that the new boat would be ready for use by August 12. The total cost of the boat to date including the duty of \$5,000 was \$36,335 and a further grant for additional expenditure of \$2,000 was asked for. The repairs on the Western Extension had amounted to \$4,840 and the total expenditure of the department to date was reported to be \$55,612.23. Mr. Waring recommended that the request for an increase of \$2,000 be granted. The report was received, and dealt with section by section.

Regarding the recommendation for the purchase of steam steering gear, Ald. Elliott moved that it lie on the table, Ald. Potts moved in amendment that it be adopted, and after an interesting discussion in which Ald. Potts contended that the equipment was necessary his amendment carried. It will be three months before the new gear arrives from England, and in the meantime the boat will have to be operated by hand.

The comptroller advised the committee of the danger of expending the appropriation. A misunderstanding was apparent as to the original appropriation whether it was \$35,000 or \$40,000, the difference arising over the question of the \$5,000 duty. The report of the superintendent showed it to be \$35,000, the estimate being \$20,000 purchase price; \$2,000 towage, etc.; \$5,000 repairs at St. John and duty \$5,000, making a total of \$47,000. The misunderstanding perhaps arose over the supposition that the duty would be returned. A motion put by Ald. Kierstead that the common council be asked to authorize additional payment up to \$42,500 inclusive of duty was carried.

An application was presented from the ferry-collectors for an increase of \$10 a month, and on motion of Ald. Potts the request was granted. Ald. Kierstead, however, said he could not approve of the motion unless the same were also considered in the increase, as they did more work than the captains. His motion to carry the increase was also carried.

Ald. Potts spoke at considerable length on the capability of the ferry superintendent, and moved an increase of \$15 a month in his salary which was carried.

It was decided to ask the council for a grant for the maiden trip of the Governor Carleton when an excursion will be held, at which the Carleton Corps Band will furnish music. The meeting then adjourned.

EARLY CLOSING CASES POSTPONED FOR WEEK

Judge Ritchie intimates That Evidence Given Shows Smith Case is Not Clear—Did Daley Swallow Ten Dollar Bill?

In the police court this morning one drunk was fined \$8 or two months in jail and Fred McAfee, charged with being a common vagrant with no means of support, and also with begging was remanded.

Policemen Linton, and Kaste and Sergeant Kilpatrick told of the prisoner bothering people in the North end and of his loafing in the street. McAfee was remanded to his sanitarium. While in court this morning a kept mumbling to himself, and told one of the policemen that the reason he was not arrested before was because the police would let them alone.

Roy McLaren, charged with assaulting Roy McLeod in Carleton on Monday night to have appeared this morning, but failed to show up and his deposit of \$8 was forfeited.

Andrew Hamburg and Jeremiah Daley charged with fighting together in Union street were brought into court and after both had given evidence, the case was further adjourned. Daley was also charged with stealing \$10 from Hamburg but he went on the stand and denied the charge. Hamburg testified that he and Daley were drinking together on the day that they were arrested, and that Daley put his hand in his (Hamburg's) pocket and took \$12 a ten dollar bill and a two dollar bill, and stuffed them in his pocket.

The witness testified that he put his hand in Daley's mouth but was only able to get the small bill, Daley having swallowed the other one. Hamburg asked to be allowed to go and see the Russian consular and he was allowed to go on condition that he appear in court tomorrow morning.

Smith contended that the store belonged to his wife and not to him, and that the store was open for the purpose of allowing customers to go in and try on dresses. Rebecca Baxter contended that she was the only saleswoman in the store at the time of the sale, he was liable under the act.

The case against Joseph Wietel was also to have been taken up this morning, but did not come up. The report held that the Smith case was not at all a clear one, as the proprietor of the shop was not in the store at the time and that Mr. Smith was only acting as a clerk, that it would be better to let the matter stand over for one week and bring the both cases up together.

The recorder stated that the reports were made under the summary conviction act by Chamberlain D. G. Langley. "What I want to do," said the recorder, "is to get to the bottom of the matter, and to see if the provincial act in regard to the early closing is being violated, but just to have the matter settled definitely once and for all, I do not wish to have anybody fined for violating the law, but just to have the matter settled definitely once and for all, I do not wish to have the matter rest until Friday morning next, at 10 o'clock when both cases will be taken up.

JOHN FRODSHAM OUT WITH ANOTHER DEFIANT

Issues Challenge to Chinook Winners for Contest for Gregory Cup—Last Race a Close One

John Frodsam, owner of the Mona, has issued a challenge to Church Bros., owners of the Chinook, and at present holders of the Gregory Trophy, for a race to take place at Millidgeville in the near future. The Chinook defeated the Mona in a very close race some weeks ago, but Mr. Frodsam is not satisfied with the showing made by his boat in that race and wants to have another go with the Chinook.

The race will be for the Gregory trophy, donated to the R. K. Y. C. by J. Fraser Gregory for Class II. salmon boats. According to the qualifications, the owner of the boat must win the cup three years in succession before it becomes his property, but he may be challenged for the cup by any of the boats during the time he is temporarily in possession of it.

The last race between these two boats was a very interesting one, and an exciting race was looked for when they met again. The race will be run over the course from Millidgeville to the Milkish Chopps twice over.

FORMER PASTOR HERE FROM HAWAIIAN ISLANDS

Rev. Dr. Wadman, Once Pastor of Carleton Methodist Church, Home After Several Years of Mission Work in the Pacific

An interesting visitor to the city this week is Rev. John Webster Wadman, D. D., who for a number of years past has been residing in Honolulu, where he is superintendent of Hawaiian missions of the Methodist Episcopal church. Rev. Dr. Wadman was formerly pastor of Carleton Methodist church here, although it was many years ago. Since Wednesday when he arrived in St. John he has been the guest of W. Watson Allan, an old friend of his.

Although the climate in the Hawaiian islands is delightful and even throughout the year, Dr. Wadman took much pleasure in once again breathing the enjoyable and refreshing Canadian air. He is now on his way to Charlottetown, P. E. I. to visit his mother who resides there; on August 12 he will return to St. John and on the next day, Sunday, will occupy the pulpit in one of the low-land churches.

An interesting feature of Dr. Wadman's visit to St. John will be a lecture on "Picnic-ture Hawaii" which he will deliver in his old pastorate, Carleton Methodist church, accompanied by 183 stereoscopic slides, on Aug. 14.

T. O. G. T. VISITATION.

Thorne Lodge, No. 259, I. O. G. T., will meet tonight in Haymarket Square hall at 8 o'clock sharp. All members are requested to attend. Election and installation of officers will be held. No Surrender Lodge, No. 109, I. O. G. T., of Fairville, will also pay a fraternal visit to Thorne Lodge. A large number of visitors are expected and a good session is assured for both lodges.
