Miramichi Advance.

CHATHAM, N. B., NOVEMBER 16, 1893. TOM'S THANKSGIVING.

When the congregation sang the grand chorus of "Praise God from whom all blessings flow" at the close of the Thanksgiving service, Farmer Ashford felt that he had very much to be thankful for. He was "warm" in this world's goods, and a big farm, sleek herds, fat granaries and money at interest made him notable among the rural folk of his native village. Yet even his wholesome piety could not withhold a deep sigh as his eyes scanned the empty places in the family pew. There were his son Will and his handsome wife, who had come home for the great feast of the year. Will had been prosperous in the great city and was all that a father's heart could wish—upright, highly honored as man and merchant, and on the road to riches. There was his adopted daughter Kate, a distant relative by blood, who made him and his wife almost forget that they had buried all their own griefs, their sorrows, their tears, their sorrows for 45 years was at home feeble from a terrible attack of illness, half blind and almost bedridden. This Thanksgiving day would be the first time she would have sat at the table for six months. The deep sore place, however, was the thought of Tom, the son, who had been away for ten years, a wanderer on the face of the earth. His soul ached, why did he ever leave a good home?

Will had been prosperous in the great city and was all that a father's heart could wish—upright, highly honored as man and merchant, and on the road to riches. The stranger looked about the table at each one, longest at the mother of the house. He was trembling like a little child. With a mighty voice struggling with its sobs he exclaimed: "Then let it be no longer empty," and tearing off the shock wig from his head, "Mother, father, Kate, Will, don't you know me? I'm home again, thank God!" "One may well drop a veil over the scene. We suspect the turkey got a little cold, but what mattered that, for there are feasts of the heart richer than any food for the body. Yet later on Father Ashford did confide to Tom: "This farm has fattened many a fine bird, but I do think I never raised so tasty a gobble before. That there turkey couldn't be a beat on the president's own table."

St. Emile. Mr. Labadie. Commissioner. We do hereby certify that we have examined the accounts of the Louisiana State Lottery Company, and find them correct and true.

MAMMOTH DRAWING. At the St. Charles Theatre, New Orleans, Tuesday, December 13th, 1893. Capital Prize, \$150,000. LOT OF PRIZES.

SEND MONEY BY EXPRESS AT OUR EXPENSE. IN SUMS NOT LESS THAN FIVE DOLLARS. On which we will pay all charges, and we pay the same on Cheques and Letters of Credit. Forwarded to correspondents.

TRAINED NURSE. Mrs. M. S. N. Co. The Miramichi, on and after Monday the 16th of Oct. will make three trips a week for points down the river.

Miramichi Advance. CHATHAM, N.B., NOVEMBER 16, 1893. Wretched Postal Management. We had occasion, last week, to refer to the inadequacy of postal facilities in Chatham, which caused a failure in the transmission of mails, especially to the offices along the line of the Canada Eastern Railway, but had not at the time exact information upon the subject.

The explanation of it is that the Post Office Department will not pay for facilities for handling the business of the Chatham office. Those acquainted with the subject know that the work of the office has been largely increased in late years. For instance, the receiving and despatching of eighteen daily mails has been added to the work of the office, with a considerably increased revenue for the department.

It would be reasonable to expect that there would be a corresponding increase in the staff—in the salary and expenses allowed the postmaster, to enable him to do the work required. Instead of that, however, there has been a decrease, for postmaster Adams, is obliged to do the work of the office for less, in salary and allowances, than the late postmaster Vondy received, when there was no daily mail to Riviere des Chaches, Church Point or Black Brook, and before the fifteen daily mails had to be made up for the Canada Eastern Railway route.

An idea of the work done in the Chatham Post Office may be had from the following statement of the bags containing mail which are sent and received daily:— Day. Sent before 8 a.m. Rec'd (p.m.) Monday, 25 30 Tuesday, 25 30 Wednesday, 25 30 Thursday, 31 42 Friday, 32 35 Saturday, 32 35

Mails are made up in the Chatham office for forty-seven country offices, and an idea of the importance of and responsibility involved in serving these offices is gained from the fact that between sixteen and seventeen hundred registered letters alone have been sent to them in the last four and a half months. The work of receiving, sorting, despatching, distributing and delivering the mails, attending to money orders and registering in a town of the size and business importance of Chatham, ought to be considered sufficient work for one good man, to say nothing of the large forwarding business done.

When the present postmaster took charge of the office of the salary, including allowances, was \$133 a month; now, with increased revenue and the addition of eighteen daily mails, fifteen of which are on the Canada Eastern Railway, he receives only \$119 a month. At the time these new daily mails were put on, Inspector Dew assured the postmaster that he would receive \$200 a year, in addition to the \$133 a month then allowed to the office. When, instead, a deduction of salary, to the extent of \$14 a month, was made, the postmaster found he was unable to pay for the increased assistance he required and, thus, the public interest had to suffer because of the penny-pinching treatment which the postmaster-general, or those acting for him, accorded to the Chatham office.

We are assured that, in order even to do the work as it is now done in the office, it is begun at 5.30 or 6 a.m. and has to be continued until 3.30 p.m. In the morning, the work of sorting and preparing for distribution and delivery of the mails by railway from North and South, and the making up of the country mails, make Chatham office the largest and most important in New Brunswick, outside of the cities. It cannot be questioned that, with the present salary and under existing circumstances, more work is done for the money it costs in this office than in any other in the country. It seems to be the policy of our Ottawa rulers to deprive Northumberland as much as possible, so far as the interests of the public are concerned. We are required to pay more than any other county or share of the fees, fines and forfeitures which go to make up the revenues of the Fisheries Department, while neither Northumberland or any other North Shore county is more work considered when Inspectors were to be appointed. We had the Inspectorship of Lighthouses taken from us a few years ago and, this year, has been given to the Indian Commissioner. And, through the cutting down of salary in the face of an increase of work, the largest and most important post office in the county is so crippled that fifteen daily mails are regularly detained for twenty-four hours longer than is necessary, simply because the Department will not pay for handling them. We submit that such a condition of things is discriminatory to the government and not calculated to inspire the people with confidence in it.

our system of local management, will give the subject careful and unbiased examination before finally making up their minds in reference to it. It is thought by many that the local public should have the whole bill before them before being asked to decide upon the question, and, to that end, it is probable that the meeting for a final vote of the people of the town for or against incorporation will be deferred until the committee shall have further time to mature the measure, and those interested to have it before them in print, so that the fullest information on the subject may be thus available and discussion be the more intelligently carried on. The ADVANCE will do its share in the interest of all parties by publishing the bill prepared by the committee, gratis, and its columns are open to anyone who may wish to discuss the subject. We hope to have, for next week's paper, a much larger instalment of the proposed measure, although the sections given this week are among the most important that it will contain. We understand that the whole bill will embrace about eighty sections, many of which will, however, deal with mere matters of routine common to all town or city charters.

We do not suppose there is anyone in Chatham who really has any objection to the management of the town's affairs being placed in the hands of persons whom the people of the town may elect, instead of those whom the municipal council may appoint, as at present the case; nor is there any reason to believe that a council elected by the ratepayers and composed of persons interested in the property and the place, will not direct its affairs economically and well—much better and more satisfactorily than they can possibly be under the present unstable and comparatively irresponsible system. The lack of the elements of stability and continuity in the management of town affairs, which is inseparable from the present system of outside control, leads to wasteful and makeshift methods, which no official, under a heavy and faithful they may be to their duties, can avoid, and it will be strange indeed if our townpeople shall prove unprepared to take the control of their local affairs in their own hands. It is not on the subject of the schools; others, less there will be a great increase of taxation, others less the Scott Act may be repealed within the town limits and others less certain persons whom they do not like may be mayor, councillors, assessors, etc.

Regarding the grading and general management of the schools, incorporation cannot have other than an improving effect upon them; and, regarding the question of certain existing districts being better off in respect of their school property than others, there is no practical difficulty whatever in the way of an equitable arrangement, under which every ratepayer in the respective districts shall have the benefit, in his assessment under incorporation, of any advantage which he may now possess in that regard. Taxation may or may not increase. It has materially increased in Chatham within the last ten years and it cannot be said that the town has been correspondingly benefited. It is fair to assume that under incorporation we would have had greater improvements to show for the increase we have had. The matter of taxation and the undertakings which lead to it, will, however, be much more under the control of the whole town, and they are now. Still it said that we are afraid to trust ourselves in these matters, and prefer to let them be controlled by councillors at Newcastle who are the representatives of the other twelve parishes!

Respecting the Scott Act, we are advised by the best legal talent here that it cannot be repealed save by the body of electors whose votes brought it into operation—that is, the electors of the whole County, so we seem to be quite safe in that regard, and this class of doubters have their fears set at rest. As to those who shall compose the town council, no objection can be reasonably made to their being the men whom the majority of those to be governed shall select by ballot. For our part, we have confidence in the people and believe in self-government. Systems, methods, organization, etc., are matters of detail, which it is the right of every ratepayer to have his say about. The interests involved, however, are among the most important, and, however strongly their prejudices, convictions, or experiences may lead individuals to lean to one side or the other, it is the duty of all to fall in with what the majority may determine to be best. It may be that our proposals will seem to them to be unwise, but we undertake the management of their own affairs; that the town of Chatham shall continue to be the largest unincorporated community in the Dominion, and that while it pays more than any other of the County's taxation, it is a meek-spirited, unenterprising and doubtful of its own ability as to go to the County Council at Newcastle and ask it to appoint those who shall govern it locally. We hope for better things, however, after those interested have read and considered the bill which is being prepared by the committee, whose work we hope to see because the charter of Chatham at the next meeting of the Legislature.

Proposed Act to Incorporate the Town of Chatham. That from and after the passing of this Act, all the inhabitants of that part of the Parish of Chatham in the County of Northumberland which is comprised within the following limits, namely:— BOUNDARIES. On the North, by the middle of the Miramichi River, on the west by the westerly side line of the Murphy grant, on the south by the rear line of the first concession of lots and on the east by the westerly line of the William Ferris lot shall be a town corporate in right and in name by the name of the Town of Chatham, and shall have perpetual succession and a common seal with power to break, renew and alter the same at any time and after the same shall be a town corporate in right and in name by the name of the Town of Chatham, and shall be capable in law of suing and being sued and purchasing and holding lands and tenements for the use of the said inhabitants and of making and executing into such contracts and agreements as may be necessary for the exercise of their corporate functions and to do and execute every other matter or thing incidental to such corporation, subject to the provisions hereinafter mentioned.

THE TOWN COUNCIL. 3. The administration of the fiscal, prudential and municipal affairs, of the whole or any part of the town, shall be vested in one principal officer, who shall be called the mayor of the Town of Chatham, and eight other persons, two of whom shall be annually elected for each year, and shall be called councillors for the Town of Chatham, all of whom shall be severally elected as herein directed; and such mayor and councillors, for the time being, shall be the Town Council for the Town of Chatham, but neither the mayor nor councillors, or any of them, shall receive any salary or remuneration for their services.

4. The mayor and councillors of the said town shall, during his or their continuance in office, be and be deemed Justices of the Peace, and shall have, in and to the said town, all the powers and authority which are now or hereafter may be conferred on Justices of the Peace for the trial of causes, except as pleases. ASSESSORS. 5. There shall be annually appointed by the Town Council three assessors for the said town, who shall be eligible to that office unless he be a resident of the said town and a qualified voter therein. QUALIFICATIONS OF MAYOR AND COUNCILLORS. 6. No person shall at any time be qualified to be elected as mayor for the said town, unless, at the time of his election, he be a British subject resident within the same of the full age of twenty-one years, and shall have been assessed on the full rate of twenty-one years or upwards and shall have paid before the time of such election all rates and taxes legally due from him within said town. 7. No person shall at any time be qualified to be elected as councillor for the said town unless at the time of his election he be a British subject resident within the same, of the full age of twenty-one years, and shall have been assessed on the full rate of twenty-one years or upwards and shall have paid before the time of such election all rates and taxes legally due from him within said town. VOTERS FOR MAYOR AND COUNCILLORS. 8. At the first election for mayor and councillors within the said town under this Act, all ratepayers residing within the district hereby incorporated shall be qualified to vote, by ballot, for the mayor and councillors, and all persons residing within the said town who are qualified for the office of mayor or councillor, as provided in sections 6 and 7 hereof, shall be eligible for election to such offices. 9. That in all elections after the first, as provided in section 8 of this act for mayor and councillors, every male person of every age and unmarried being, being British subject, who is hereby required to be qualified to vote at such election, shall be entitled to vote at such election; and the evidence of such qualification shall be a receipt from the receiver of rates, who is hereby required to furnish the same under a penalty of eight dollars for each refusal. 10. No person shall be entitled to vote at any election for mayor or councillor, unless his name appears upon the list of voters for the ward in which he claims to vote, and before he be permitted to vote, he shall, if required by the officer or person holding the list of voters, be sworn or affirmed, or a person qualified to vote at such election, make oath, or, being a Quaker, shall make affirmation before the officer or person holding such election, that he is the person named in the list of voters, and that he has paid all rates and taxes assessed upon him in the said town, and that he has not voted at such election in this ward—So help me God. Which oath or affirmation the officer or person holding such election is hereby authorized to administer, and in every case where the electors shall have been sworn or affirmed as aforesaid, the presiding officer shall write in his book that such elector was sworn or affirmed as aforesaid. [We will continue the publication of the proposed bill next week.] I. C. R. Management. Rev. Principal Grant, who has been somewhat noted for opposing the liberal conservatives only when no Dominion election is pending, has been writing to the Times in London, and in the course of which he has expressed his opinion that those who say we are to have a general election before another session of parliament is held, are wrong. Referring to Dr. Grant's arraignment of the work of the Liberal Government, an Ottawa despatch of 9th inst. to the Toronto Edition, says:— "His latest discussion of public affairs would, however, command greater respect, had he been more closely to the facts as they may be necessary for the purpose of the Empire as a whole."

effective reply on the part of S. R. A. P. Caron on the management of the Post-Office Department. "To-day Hon. Mr. Haggart, Minister of Railways and Canals, was asked what he thought of Dr. Grant's references to the management of the Post-Office Department. The Minister replied that he had read Dr. Grant's letter, and so far as the Intercolonial railway was concerned, it is true that for some years the road was operated at an annual loss of many hundreds of thousands of dollars, whereas last year the earnings sufficed to slightly more than cover the working expenses, and the indications are that in future years as favorable a showing will be made without in any degree impairing the efficiency of the service, and by continuing to maintain the road and rolling stock in its present high standard condition. It is universally admitted that those travelling over the road that it is in fine running condition, and the records go to show that the results of the operations for the first few months of the current fiscal year compare most favorably with those of the corresponding period of the years just passed."

"In view of the Principal Grant's statements it may be well to quote the official figures of expenses and earnings for the past two years:— Working expenses.....\$2,927,000 Earnings.....2,948,417 Net.....21,417 Loss.....403,010 All fair-minded people will agree with the comment of the Empire on the foregoing:— "To take hold of a business which is on the verge of bankruptcy and to manage it so skillfully as to restore it to prosperity again, is the work of a manager of high ability and power. The man who has done this in the case of the Intercolonial railway, he has converted an unprofitable concern into a paying one, and therefore he is entitled to the honor which the people pay to a faithful and diligent servant."

A Political Bonanza. Editor Ellis of St. John, who libelled Judge Tuck and failed to apologize even after serving out his term in jail, was recently elected to the House in order to carry on the war he is now carrying on. He declared that when King Lobengula granted the concession of the territory in Mashonaland to Mr. Bull, on which the British South Africa Company was founded, he was ignorant of the fact that the concession was made to King Lobengula, and that he had been misled by the British South Africa Company, which had obtained permission to move the concession to the British South Africa Company to establish a claim upon a contract engagement regarding Mashonaland. Mr. Lobengula also discussed the question of allowing the company to continue the war he is now carrying on. He declared that when King Lobengula granted the concession of the territory in Mashonaland to Mr. Bull, on which the British South Africa Company was founded, he was ignorant of the fact that the concession was made to King Lobengula, and that he had been misled by the British South Africa Company, which had obtained permission to move the concession to the British South Africa Company to establish a claim upon a contract engagement regarding Mashonaland. Mr. Lobengula also discussed the question of allowing the company to continue the war he is now carrying on.

The Mashonaland War. THE CAPTURE OF BULUWAYO. LONDON, Nov. 9.—A special despatch from Johannesburg to the Pall Mall Gazette says that the Fort Tati column, consisting of 500 Bechuanaland police and a number of King's men, under the command of Commander Raife, captured Buluwayo on November 2, the day after the column had repulsed an attack made upon it by the Mashonaland command. Lobengula's son-in-law, during which the Mashonaland police and King's men were killed. The Mashonaland police were killed with desperate fury, but they found it impossible to stand up against the machine guns which had the effect of mowing down the British. It was not until 9,000 of the Mashonaland police and King's men were killed that the remaining number of the imperial force entered and allowed their King's capital to fall into the hands of the British. This is the severest blow yet dealt to the Mashonaland, and it is believed that Lobengula will be forced to retreat for good and never return. Many of the horses of the troops were shot beneath their riders. After Buluwayo was captured the place was set on fire and burned to the ground. The magazine, containing the greater part of Lobengula's ammunition, was blown up.

It is reported that some of the Mashonaland indunas, or commanders, committed suicide after the fight at Shanganani, being impelled thereto by the cowardice shown by their men during the attack on Buluwayo. The British, along the route to Buluwayo, sent presents of cattle and mules to Dr. Jameson, administrator of the British South Africa Company, who, with the Victoria and Salisbury columns was marching upon Lobengula's kraal when the Tati column captured it. Two powerful chiefs beyond the border have joined Chief Khama in aiding the forces of the chartered company.

DEPARTURES FROM DR. JAMESON. CHATHAM, Nov. 9.—Despatches from Dr. Jameson have been received at Fort Victoria. They confirm the report that Buluwayo, Lobengula's capital, was captured by the forces of the chartered company. The columns that took the place were commanded by Dr. Jameson and Major Forbes. They had previously skirmished with the Mashonaland before the critical battle. When about 10 miles from Buluwayo on November 1 they were harassed constantly by Lobengula's war force. Several attempts were made to surround the column. At noon Dr. Jameson and Major Forbes decided to give battle, and formed their troops in a laager. The Mashonales, 7,000 strong, accepted the challenge. They attacked furiously, but were held at a safe distance by the Maxim guns. The fight lasted an hour, during which the Mashonales kept up a steady but ineffective rifle fire. They fled in disorder. Mounted men were sent in pursuit, but soon were recalled, as they were unable to do much execution. The Mashonales left 1,000 dead and wounded on the field. The forces of the chartered company lost three killed and seven wounded, all by rifle shots. During the same afternoon the column advanced some distance towards Buluwayo, and then sent two laagers. The night passed quietly. Early in the morning of November 2, the columns resumed the advance with great caution, but no Mashonales appeared. Buluwayo was reached at 10 a.m. by a few people and the white traders Fairbairn and Usher, who were supposed to have been killed by the Mashonales. The traders said they had been well treated. Buluwayo had been abandoned in connection with the expedition which was located at Vincennes, on the outskirts of Paris.

This will place the expedition on both sides of the Seine. The grounds of the palace of the Trocadero, are connected with the Champ de Mars by the Pont d'Inval. A large bridge will be constructed across the river from the Quai d'Orsay in front of the Esplanade des Invalides, connecting with the Quai de la Conference, the Cours la Reine and the Palais de l'Industrie. This will place the exposition on both sides of the Seine. The grounds of the palace of the Trocadero, are connected with the Champ de Mars by the Pont d'Inval. A large bridge will be constructed across the river from the Quai d'Orsay in front of the Esplanade des Invalides, connecting with the Quai de la Conference, the Cours la Reine and the Palais de l'Industrie.

fighting. He has organized a flying column with Mr. S. L. S. and will pursue the fugitive King. Supplies are being hurried to Buluwayo for the company's forces encamped there. THE TROUPE. A despatch from Fort Victoria says that Dr. Jameson has sent Lobengula an ultimatum, guaranteeing him safe conduct and good treatment if he will surrender, and thus avert further loss of life and destruction of the kraal. If Lobengula declines to surrender, says the ultimatum, troops will be sent to hunt Lobengula and his men until they shall be captured. NEWS FROM SIR HENRY LOCK. LONDON, Nov. 9.—In the House of Lords today the Marquis of Ripon, Secretary of State for the Colonies, read the latest telegraphic despatch from Sir Henry Lock, Governor of Cape Colony and High Commissioner in South Africa, dated today, and a despatch from Major Gault Adams, chief commander of the fort Tati column, dated November 6. These despatches showed that the Mashonales had sent delegates to the British asking for protection. The column from the east was in possession of Buluwayo. King Lobengula has fled towards the Great River which lies to the north-west of Buluwayo. Chief Gumbo, who, according to some reports, was killed in the battle preceding the capture of Buluwayo, is said by Sir Henry Lock to be alive and fleeing with his impi with Lobengula. MR. LABOUCHERE STRONGLY ATTACKS THE BRITISH SOUTH AFRICA COMPANY. LONDON, Nov. 9.—In the House of Commons today Henry Labouchere, who is bitterly opposed to government by chartered companies and to government by the British South Africa Company in particular, obtained permission to move the adjournment of the House in order to discuss the question of allowing the British South Africa Company to establish a claim upon a contract engagement regarding Mashonaland. Mr. Labouchere also discussed the question of allowing the company to continue the war he is now carrying on. He declared that when King Lobengula granted the concession of the territory in Mashonaland to Mr. Bull, on which the British South Africa Company was founded, he was ignorant of the fact that the concession was made to King Lobengula, and that he had been misled by the British South Africa Company, which had obtained permission to move the concession to the British South Africa Company to establish a claim upon a contract engagement regarding Mashonaland. Mr. Labouchere also discussed the question of allowing the company to continue the war he is now carrying on.

morning. It was the same old story of jealousy, domestic unhappiness, murder and suicide. Maggie Savages, wife of Richard Savages, horse car conductor of New York, left her husband three months ago returned to Halifax, her former home, bringing with her, her little boy Dick, three years old. She left her husband because he was jealous of her and threatened to shoot her. She has since supported herself and little boy by sewing. Her husband arrived here by the steamer from Boston yesterday, and last night visited his wife and urged her to return with him. This she refused to do, and Savage left her and put up at a hotel. He called this morning at the house where his wife and child had been wrecked, and as he looked he saw a number of them tottering to their fall as the frightened inmates, with terror pictured on their faces, sought to make their escape. In some cases the fleeing inmates had almost reached places of safety when hundreds of tons of stone and bricks came toppling upon them, and their cries of fear were suddenly hushed beneath the debris.

A MASS OF FIRE. The air was momentarily darkened with clouds of dust and then long tongues of flame ascended from the wrecked building, and in a few minutes the whole water front in the vicinity of the explosion was a mass fire. The scene that followed passed description. The houses that were left standing had every window smashed. Roof, many of them of tiles had disappeared, and little but walls of the houses were left standing. Men, women and children, frantic with fear, ran aimlessly to and fro, crying and wringing their hands helplessly in the panic, and when the people realised the full extent of the disaster that had befallen them they were paralyzed. During the night the ghouls that infect every city smacked about the ruins, stripping the dead and wounded of their clothing and valuables. The thieves entered the dismantled houses and seized and carried off furniture and everything else that they could ransack money upon.

There are few families in the city that escaped without furnishing one victim. NOT CONTAINED. The divers at work round the wreck of the Cabo Machiaco say that there are some two hundred cases of dynamite in her hold. They are very reluctant to continue the search for bodies. It has transpired to-day that the fifty tons of dynamite carried by the vessel were not unaccountably, the dynamite was twenty cases landed, the dynamite was intended for other ports than Santander. The rest of the cargo was oil and spirits and paints. Artillery is being used to demolish the tottering buildings. The Queen Elizabeth has contributed 40,000 francs to the Santander Relief fund. SANTANDER, Nov. 9.—It is stated that 600 cases of dynamite yet remain in the wreck of the steamer Cabo Machiaco, the explosion on board of which wrought such fearful destruction to life and property here on Friday last. The people of the city, particularly those who live near the water front, believe this report to be true, and fearing that another explosion may occur they are abandoning their homes and seeking residences at which they consider safe distances from the point of danger. On the other hand it is pointed out that it is scarcely probable that such an immense quantity of dynamite could have withstood the tremendous shock to which it was subjected. Experts claim that the cases are more than likely to contain harmless articles of merchandise, the fear of the divers who have been down in what remains of the steamer. It may be, however, that the divers are right in their statements, and that the dynamite cases were protected from the shock of the explosion by the masses of other freight stored around them.

A Sure Cure for Biliousness. Mr. M. Rooney, a well known Halifax merchant, writes: "I am using Hawker's Liver Pills and would recommend them as a sure cure for Biliousness." What Mr. Rooney says is endorsed by thousands who have tried these pills. Once tried they are hard to give up. The trouble recurs. They are easy to take, and their effect is their action and effective in a marked degree.

GRAND CLEARANCE SALE. \$10,000 Worth of Goods to be sold as soon as possible, or we require cash. THE STOCK COMPRISES HARDWARE OF ALL KINDS, IRON, STEEL, NAILS, GLASS, PAINTS, OILS, VALENTHINE, SILVER, PLATED WARE, CHINA, GLASSWARE, KITCHENWARE, LAMPS, ETC. The whole stock will be offered at discount ranging from 25 to 50 per cent. 50 per cent on Fancy Goods. For particulars see small bills. Terms Strictly Cash. Nov. 11/93. GEORGE BROTHERS.

Z. TINGLEY, HAIRDRESSER, ETC., HAS REMOVED. SHAVING PARLOR. Water Street, Chatham. He will also keep a first-class stock of Cigars, Tobacco, Pipes, Smokers' Goods generally. FOR SALE. This pleasantly situated house, lot and premises situated on the east side of the County of Gloucester, in the Parish of St. John, is for sale. The house is of one hundred and thirty-five feet long, and is built of brick and contains a large hall, two bedrooms, a bathroom, a kitchen, a dining room and parlor. There is also a well and a large garden. The house is in good order and repair. Also a large garden with many fruit trees and shrubs. For terms and particulars apply to K. F. BAKER & CO., BARRISTERS, N. B., or to A. McNEIL, Esq., Prince William Street, St. John, N. B. CORDILLIA A. DESBRILLAY.

There are few families in the city that escaped without furnishing one victim. NOT CONTAINED. The divers at work round the wreck of the Cabo Machiaco say that there are some two hundred cases of dynamite in her hold. They are very reluctant to continue the search for bodies. It has transpired to-day that the fifty tons of dynamite carried by the vessel were not unaccountably, the dynamite was twenty cases landed, the dynamite was intended for other ports than Santander. The rest of the cargo was oil and spirits and paints. Artillery is being used to demolish the tottering buildings. The Queen Elizabeth has contributed 40,000 francs to the Santander Relief fund. SANTANDER, Nov. 9.—It is stated that 600 cases of dynamite yet remain in the wreck of the steamer Cabo Machiaco, the explosion on board of which wrought such fearful destruction to life and property here on Friday last. The people of the city, particularly those who live near the water front, believe this report to be true, and fearing that another explosion may occur they are abandoning their homes and seeking residences at which they consider safe distances from the point of danger. On the other hand it is pointed out that it is scarcely probable that such an immense quantity of dynamite could have withstood the tremendous shock to which it was subjected. Experts claim that the cases are more than likely to contain harmless articles of merchandise, the fear of the divers who have been down in what remains of the steamer. It may be, however, that the divers are right in their statements, and that the dynamite cases were protected from the shock of the explosion by the masses of other freight stored around them.

A Sure Cure for Biliousness. Mr. M. Rooney, a well known Halifax merchant, writes: "I am using Hawker's Liver Pills and would recommend them as a sure cure for Biliousness." What Mr. Rooney says is endorsed by thousands who have tried these pills. Once tried they are hard to give up. The trouble recurs. They are easy to take, and their effect is their action and effective in a marked degree.

GRAND CLEARANCE SALE. \$10,000 Worth of Goods to be sold as soon as possible, or we require cash. THE STOCK COMPRISES HARDWARE OF ALL KINDS, IRON, STEEL, NAILS, GLASS, PAINTS, OILS, VALENTHINE, SILVER, PLATED WARE, CHINA, GLASSWARE, KITCHENWARE, LAMPS, ETC. Miramichi and the North Shore etc.

RETIRED.—Mr. J. W. Dulon of Moncton has sold his grocery business to Mr. G. Harmon Brown.

LEO BROCK.—Mr. Frank Devereux, of Bellefleur, had his leg broken by a fall one day recently.

Mrs. HARRISON COMRO.—We are requested to state that Mrs. Harrison of Sackville, is to appear in Moncton Hill, Chatham, on Tuesday evening Dec. 20th.

An Iron Bridge.—It is to be built over Mill Brook, Doukford, and the work is to be proceeded with as soon as the plans, which are to be submitted, are finished.

Saw-Mill Burned.—John E. Smith's saw mill on the north branch of the Oromocto was totally destroyed by fire on Wednesday night. The property was valued at about \$4,000, and there was \$1,500 insurance.

INSTANT DEATH.—Oscar Lawrence, a Frenchman, was killed at last week's Metis station on Monday night at Little Metis. He fell asleep, and on hearing the train he ran out and jumped between the tender and a box car and fell to his death.

A CHRISTMAS FAIR.—It is to be held this year under the auspices of the Sisters of the Holy Family of Chatham, who are now making preparations for the event. This will, we believe, be the first affair of the kind held by these devoted ladies, and will, no doubt, be well patronized.

DOUBLE-GLASS BRIDGE.—The plans for the improvement of the Miramichi bridge, which are at the office of Hon. L. J. Tweedie, Surveyor-General, here show that it will be a very neat one. The middle span will be light iron truss work, and the abutments will be masonry. The work is being done by the Montreal Bridge Company and is expected to be ready by 1st December.

IN THE INSURANCE BUSINESS.—Mr. J. E. B. McCready, lately editor of the St. John Telegraph, has gone into the insurance business. He has the Maritime province agency of the Provident Insurance Company of New York, and it is said that the position is a more remunerative one than that which he vacated. Mr. McCready is a gentleman of good address, and that, together with his experience as a journalist ought to be an excellent equipment for his new work.

A GOOD SHOWING.—The Bank of Montreal issued its half yearly statement on Tuesday. The profits for the half year ended Oct. 31, after deducting charges of management and making full provision for all bad and doubtful debts, were \$635,010-36, or a little over 55 per cent, on the capital of the bank, which was \$1,100,000. The statement is valued at over \$30,000 better than last year and is regarded as an admirable showing for Canada's leading bank.

A CHANGE OF TIME TABLE.—The St. John Nelson will run on after Monday, the 20th day of November, as follows. Leaving Chatham for points up river: 9.00 a. m. 11.00 a. m. 2.00 p. m. 5.00 p. m. Leaving Newcastle for Chatham: 10.15 a. m. 12.15 p. m. 3.45 p. m. W. T. CONNORS, Manager.

27,000 TROUT.—A Legion, out of despatch of 9th says:—"The largest shipment of trout ever made in Canada will arrive in this city to-day from Credit River, Ont. It is consigned by Charles Willmet, the noted fishery expert, to the London Gun Club. The shipment was made in a special car, containing 27,000 young trout valued at over \$1,000. The car is attached to the 2.20 p. m. train for Dorchester, where the trout were taken to the gun club's fishing resort, and deposited in the pond. The fish are from 4 1/2 inches in length, and will be ready for angling next fall.

INJURED IN THE WOODS.—A young man named Frank White, whose home is in Cocagne, was brought to Moncton Saturday morning from Bagby, Me., where he sustained very severe injuries while working in the woods. The young man's injuries were in the back and had to be removed from the parlor car on a stretcher. His limbs were completely paralyzed and he was unable to talk. The young man is now in the hospital, where he is being treated by Dr. J. H. Gifford, who went up to bring him home. He received his injuries about a month ago by a tree falling on him. He was taken through to Cocagne on the afternoon train.—(Moncton Times 12th.)

FATAL ACCIDENT.—Friday morning the body of William Dask, a native of Doukford, N. B., was discovered in a field, and partly resting upon him was a large stone. The deceased was working for Mr. John Tierney in this town, and at the time he lost his life he was excavating beneath the stone, intending to "sink it"—a way farmers have for getting rid of large stones or boulders—when the stone started and caught him before he had time to get out of the way. Dr. Boyd, of Lincoln, coroner, was summoned, viewed the body and deemed an inquest unnecessary.—Pioneer, Doukford, Me.

PERSONAL.—The many friends of Dr. J. Hayes will be pleased to learn that he has completed his studies in London and expects to leave that great centre of the world's activities for home about the first of December. Some months ago he received the diploma of the Royal College of Surgeons in England, and has now just successfully passed the examinations required by the Royal College of Physicians of London, receiving there the diploma of L. R. C. P. The examinations at this great institution are said to be getting very difficult to pass, and Dr. Hayes is, therefore, to be congratulated on his final success.

LOST AND FOUND.—Alexander Kelly, the young son of Mr. William J. Kelly, baggage master at the I. C. R. station, is an honest lad. On a walking along Prince William street Wednesday afternoon when in front of the Post Office saw a roll of money on the sidewalk. He picked it up and saw that the roll contained about \$150. The boy at once came to the Globe office, where he is engaged as a apprentice, and gave out an advertisement of his discovery. A few minutes afterwards Mr. J. A. Wallis, of Bagby, Me., came into the office to advertise his loss. The Master Kelly was called in and Mr. Wallis identified his property and it was at once handed over to him. He was pleased with the honesty of the lad and the recovery of his money that he presented Master Kelly with a crisp ten-dollar bill.—(St. John Globe.)

THAT BARTHOLOMEW POACHING CASE, to which we referred last week, appears to have been quite a peculiar one. It seems that the whole job was put up by Alex. Stewart and that he led John Wallace into it with considerable deliberation. Wallace had no idea of going on the expedition until solicited by Stewart to do so. Stewart, who was not in the habit of visiting the Wallace, went there the evening before the expedition and told how he had taken four salmon the preceding night and could have taken 25 or 30 if he had had a good assistant. John Wallace was not at home, but he met Stewart on the same night, after the latter

had been at his father's place, and at his solicitation, consented to go with him to get salmon the next evening. After they had proceeded down the river for a time, Wallace wanted to go back, but Stewart kept saying they would go a little further, which they did until they came to the place where guardian Doyle was waiting for them. Doyle and Stewart came to town together and the latter was convicted of poaching, and a fine was imposed, but not collected, it being understood that Stewart was to pay on Saturday last. It is understood that there is no disposition to show any leniency to Wallace, who believes that he was the victim of a conspiracy to get him into the scrape.

Fatal Gun Accident.

A fatal gun accident occurred at Elk River, parish of Gaspere, on Saturday last. Mr. Alexander McNaughton of that place went into the woods to get some axe handle and other similar hardware, accompanied by his son Allan, about 15 years old and another, who is a member of the same family. Mr. McNaughton, son of his brother, James McNaughton. Mr. McNaughton had a gun with him. The party had proceeded some distance, and the son, Allan, who was about 15 years old, was standing by the side of his father, who was engaged in cutting an axe handle. As they were going home Mr. McNaughton, who had left his coat where he had procured some of the wood, told his son to proceed on to a certain brook and await him there until he returned with the garment. The lad was doing this. Allan trusting along with his load, the gun being also on his shoulder, with the muzzle pointed forward. Suddenly a root caught his foot, and he stumbled and fell, the butt of his gun reverberating in the air and falling in reversed position, the muzzle pointing towards him. When the lad got up through the department's hose from the pump of the Steamer St. Nicholas, and the fire was kept breaking out, although the building was badly damaged, although the fire was not great, and only one of the furnaces. Their was no insurance on either building or contents.

Death of Wm Sullivan.

News has reached Chatham of the death of William Sullivan, a laborer of that place. Mr. Sullivan, who it appears, died worth several thousands of dollars—newspaper reports say \$6,000—was about 49 years old. He was born at Cocagne in this county and went to the United States about 25 years ago. He leaves three brothers, John, Jeremiah and Lawrence and one sister, Mrs. Mary Sullivan, who resides in Lower Newcasale; Jeremiah is a resident of Cocagne and one of the Municipal Councilors for that parish. Lawrence lives in Madawaska and the sister, Mrs. Blanche Sullivan, lives in Westmorland County. The surviving brothers and sister are making arrangements to have the body of their brother to be taken to Chatham, where it will be buried. Mr. Sullivan was a gentleman of good address, and that, together with his experience as a journalist ought to be an excellent equipment for his new work.

Restigouche County Court.

The November term of Restigouche County Court, opened with the usual proclamations and formalities on Tuesday morning. His Honor, Judge Wilkinson, presiding. There was no grand jury, and only one civil cause tried before the petit jury. The Bank of Montreal v. George Forest, entered by Messrs. Meakins and Mott. This was an action on two small bills of exchange, the value of which was \$1,000. The result was a verdict for the plaintiff, \$69.50. There were also two assessments, Samuel Hayward, vs. Michael Archibald, which was assessed at \$68.00, and James Barry, Wm. J. Dunan and Alexander McCannan, which was assessed at \$2.61.

There was also a bary case, which was not entered, but was heard before the judge at chambers. This completed all the business.

A Cold Winter.

Prof. W. H. Smith, of Montreal, in his planetary Almanac says we are approaching another cold dry winter, but not so cold as in 1892-3. The prospects for rain and snow are better. There will be more precipitations this year. The forecasts for January and February are:

January—A cold month, with considerable snow. Snows rains in northern and eastern, considerable rain in southern section. Snowfall in the Northwest about or perhaps below the average. The "January thaws" look like being a marked feature. The coldest "dips" appear most likely towards the middle and during the last few days of the month. Severe storms over the North Atlantic.

February—A cold month. Mean temperature in Canada and the Northern States below the average. Precipitation about or above the average for February. Some severe storms and rapid changes of temperature, causing alterations of floods and "freezes up". The dreaded frosts is likely to be heard from in the southwest early this month.

A Correction.

NEWCASTLE, NOV. 11, 93. DEAR ADVANCE.—The closing sentence of the Advocate's article of Nov. 8, places the police office of our town in a very wrong position, which, by your leave, I wish to correct. Respecting the truth or falsity of the highly exaggerated report I have nothing to say, and would only remind the Advocate that the effect of a reprint is lessened by the use of coarse and ungrammatical language. Our politicians and our newspapers are in question trying to effect an entrance to the Gifford House, nor was he asked to arrest him till some time afterwards when the man was in his own home behind locked doors. H. M. Gifford was not arrested, his proper course was to swear out a warrant against him, which would leave the police man no choice in the matter. We have every confidence in our officer, and have reason to know that he has as much courage as the common run; but that he may find it hard work to please all the factions that go to make up this little community, is not to be wondered at.

The Delinctor.

The December issue of the Delinctor is called the "Christmas Number," and is rich in material pertaining to the holiday season. The styles for the month are exceptionally handsome and appropriate, and the younger members of the family receive special attention in an illustrated article entitled Party Dresses for Misses and Girls. There is also an appropriate article on Fashions in Fur garments. A paper that is invaluable to all ladies is called Some Suggestions for Home-made Christmas Gifts, and the housewife is especially considered in Dainty Desserts for the Holiday Season. Christmas Legends and Folk-Lore is most interestingly treated, and as an antidote, there is a description of a very modern Kris Kringle Party. The children will be delighted with the entertainment provided for them. Besides the improvements in the model form, with neat, small, convenient pages, being enabled, by the possession of one of the most complete printing presses ever made in the province, the paper enters the press at two places, on rolls broad or narrow as required, and the newspapers come out at lightning speed, followed by the Delinctor, which is a new type, and is a remarkable improvement in typography, the type being set by the wonderful Linotype machine, which attains the speed of the press, and the cost of the paper is very low. The proprietors intend the visitors to Montreal to see these machines. The picture element has so greatly developed

in the West, that it is now fairly an illustrated paper. The streets have moved, and around the Tea Table makes us acquainted with the fashionable fashions of the season. Novelties are illustrated in the papers on Knitting, Crocheting, Tatting, etc., with full instructions for making. This number is an excellent one with which to begin a subscription, which costs One Dollar a year; Single Copies, 15 cents. Address orders to The Delinctor Publishing Co. of Toronto (Ld.), 33 Richmond St. West, Toronto, Ont.

Northeastern Poor.

It is, we think, quite safe to say that there is no county in the province—perhaps not in the Dominion—in which there is a better system of caring for the poor, than that in operation in Northumberland, which is at once humane, effective and, at the same time, very economically worked. There has, also, never been a time when the Alma House of the county was so well managed as it is at present—a fact due, no doubt, largely to the good character and standing of the gentleman who comprise the Board of Commissioners. It is, therefore, not surprising that it was not for the admirable methods of the keeper and matron, Mr. and Mrs. A. S. Templeton, who seem to perform their duties so well, and who, at the same time, are so kind, considerate and sympathetic to the poor who are entrusted to them, and an integrity which make them worthy of the highest commendation.

On Monday there was a meeting of the Board for the purpose of closing the business of the year. Hereafter the Alma House year ended on the 31st December, and there was not sufficient time between that date and the meeting of the Municipal Council—the third Tuesday in January—to get the accounts in satisfactory shape for presentation to the Board, and it was accordingly determined to hold the Alma House year ended on the 31st of October.

At Tuesday's meeting, the following commissioners were present, viz.—R. R. Call, chairman; M. MacLachlan, secretary; W. T. Connor, D. McBeath, Jas. Tweedie, Simon Simpson, A. Arsenau, P. Hennessy, Commissioners Hennessy, Simpson and Tweedie, a committee appointed to examine the provisions, clothing, and everything in connection with the institution, reported, through Mr. Hennessy, that they found the quantities of the several articles, as stated by the matron, correct, the quality good, and everything about the establishment in a most satisfactory condition.

Secretary McLaughlin and Commissioner Connor were appointed a committee to provide the requisites for extra good dinners for the inmates on Christmas and New Year's days.

It was ordered that the chairman audit and prepare a statement of the accounts of the institution to the Municipal Council hereafter, and that he be paid the usual fee for the work.

Keeper Templeton submitted several reports on the institution, and the work performed during the past year. The report was read, and the keeper was called in and the chairman expressed to him the great pleasure of the commissioners in finding everything so well managed, and that he was very pleased to be able to convey to him and Mrs. Templeton the thanks of the Board for the very satisfactory manner in which they were performing their duties as keeper and matron.

Keeper Templeton made a very neat speech in reply, on behalf of himself and Mrs. Templeton, and the commissioners accepted his invitation to proceed to his private apartments, where light refreshments were served.

We understand that among the items of property by the farm of the institution, which were 107 lb butter, while the dozen have furnished to the present. Keeper when he took charge, have been so well managed, that 50 dozen of eggs for the past season, besides killing chickens occasionally; 23 bins of potatoes and other roots and vegetables, and a ton and a quarter of hay were also among the products. The report on the farm work and products he says: "I am pleased to state that we have succeeded in eradication from the institution that pestering insect, the house fly, which was a great nuisance. It will be interesting to know whether the veteran manager, who seems to have the faculty of making the most of everything, means that having done so, he will be able to do so in his report on the farm work and products he says: "I am pleased to state that we have succeeded in eradication from the institution that pestering insect, the house fly, which was a great nuisance. A SOLDIER'S HEART.

A cold, bleak November day; a prairie trail; a horseman in uniform, riding at a gallop. A turn in the road; a bushwacker hidden in the bushes; a shot, and a fall from the saddle.

The door before the children cried out: "Uncle Daniel! Uncle Daniel! Our other Uncle Daniel has come home." The bushwacker had made his report to the nearest camp, and the sergeant had been sent to bring the prisoner in.

That was a good dinner. I like to cook. I think housework is noble if you do it in a right spirit. That pipe must be sent to before long. I'll speak to John about it.

Hotels.

Hotel New Netherland. FIFTH AVENUE, CENTRAL PARK AND 29th ST. NEW YORK. The most elegant, the safest, the strongest and most complete hotel in the city.

THE GREAT SOUTH AMERICAN NERVE TONIC AND Stomach and Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years. It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk. This wonderful Nerve Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nerve Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

IT IS A GREAT REMEDY FOR THE CURE OF Nervousness, Broken Constitution, Debility of Old Age, Nervous Headaches, Heartburn and Sour Stomach, Weight and Tenderness in Stomach, Loss of Appetite, Frigidity, Dreams, Dizziness and Ringing in the Ears, Weakness of Extremities and Fainting, Impure and Impoverished Blood, Boils and Carbuncles, Scrofula, Scrofulous Swellings and Ulcers, Nervousness of the Lungs, Catarrh of the Lungs, Bronchitis and Chronic Cough, Liver Complaint, Chronic Diarrhoea, Falling Health, Delicate and Scrofulous Children, Summer Complaint of Infants.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nerve Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion.

A SWORN CURE FOR ST. VITAS' DANCE OR CHOREA. My daughter, eleven years old, was severely affected with St. Vitus' Dance or Chorea. I gave her three and one-half bottles of South American Nerve Tonic and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigestion and Dyspepsia, and for all forms of Nervous Disorders and Falling Health, from whatever cause.

INDIGESTION AND DYSPERPSIA.

Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value which is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the cure and ONLY ONE great cure in the world for this universal destroyer. There is no case of unaligned disease of the stomach which can resist the wonderful curative powers of the South American Nerve Tonic.

Large 16 ounce Bottle, \$1.00. EVERY BOTTLE WARRANTED. SOLD BY DR. J. PALLEN & SON, CHATHAM, N. B.
