Addington Agricultural Society.

Extracts from the Fifth Annual Report. The Board of the Addington Agricultural Society, in making this their Fifth Annual Report, beg to submit an account of the Receipts and Expenditure for the past year, showing a very favorable state of the business of the Society.

with a balance on hand of \$563.09. With the view of purchasing a few grade bulls, the Board delegated Messrs. Dawson and Murray, in Dec. last, to visit the neighboring agricultural societies for that purpose, and after making inspection of such animals as were offered for sale, reported that no satisfactory stock of the kind required could be met with. Whereupon the Board directed your Secretary to enquire as to the practicability of purchasing a few grade Durham Bulls as required outside the County, and after considerable correspondence with prominent stock farmers in New Brunswick and the Province of Quebec, the Board came to the determination of abandoning the sub-

ject of purchasing grade stock for such purpose. A change of seed grain being desired by our farmers, the Board ordered the importation of a quantity of Black Oats from P. E. Island, White Oats and Hay seeds from Montreal, Lost Nation Wheat from W. Montgomery, Esq., grown by him in Dalhousie, and White Russian Wheat from M. Patterson, grown by him at Campbellton. These two samples of local grown Wheat were of a superior kind. All these seeds were readily disposed of at cost and charges to members, and generally distributed; the gross amount of sales has been realized with the exception of a small sum which is in course of collection, thereby doing a large amount of benefit to members of your Society without impairing the funds.

Mr. Vice-Pres't J. Mair, by appointment of the Board, attended the Provincial Sale, at St. John, of imported sheep, and purchased on account of the Society, three Border Leicester Rams and one Cumberland Sow, which after being duly advertised were sold at auction at Campbellton, payable 1st Sept. next year. They realized satisfactory prices, falling to purchasers in three different parts of our district, say to Mr. Patterson, Campbellton, Messrs. A. & R. Ferguson, Athol House, Tide Head, and to Mr. J. Dawson, Upsalquitch, thus distributing them in such way that future fleeces of flocks may be benefited by the introduction of these valuable animals. Account sales annexed. The Society held the Annual Cattle Shows, first at

Campbellton on the 12th Oct., where 98 exhibits were entered, at Flat Lands on the following day where 82 animals 2nd do. were exhibited, and prizes awarded to successful competi-

Quite a number of people assembled at both places, and evinced much interest in the welfare of the Society. It is proper to observe that a praiseworthy rivalry was manifest-Best Ewe, 2 years ed by our farmers at both these exhibitions in competing | 2nd do. for prizes, and we have reason to believe that much good will result in the introduction of imported pure stock. The Board, without drawing invidious distinctions, beg to 2nd do. remark favorably of the stock on exhibition at Flat Lands Show, and particularly to make mention of a bull calf of Mr. Nathan Moores, and a heifer calf of Mr. J. McL. Fraser, Best Boar, current year, which without exception were the best and largest animals | and do. of their kind ever exhibited at any show of your society, and do. and reflects much to the credit of these gentlemen, and the Board trust they will continue their exertions in this line as an example to their neighbors of what may be done -by

care and keep-in rearing stock. The past season for farming commenced favorably, the work of planting and sowing progressed well with little loss of time from unfavorable weather. Extreme dry and warm weather set in, however, in June and July, and continued till about the second week of August, materially retarding vegetation of all kinds, when unprecedented UNDERCLOTHING, &C., the trains will run daily (Sundays excepted) as follows:—

On and after Monday, the 21st November, the trains will run daily (Sundays excepted) as follows:—

heavy rain storms commenced, and with run daily cut continued till the last week of that month. Early cut grass was injured in being saved, but later harvesting of grass was injured in being saved, but later harvesting of grass was injured in being saved, but later harvesting of grass was injured in being saved, but later harvesting of grass was injured in being saved, but later harvesting of grass was injured in being saved, but later harvesting of grass was injured in being saved, but later harvesting of grass was injured in being saved, but later harvesting of grass was injured in being saved, but later harvesting of grass was injured in being saved, but later harvesting of grass was injured in being saved. grass was injured in being saved, but later harvesting of hay proved more favorable—the yield however was under the average. Oats and Barley, which promised well in the early part of the season, in many cases lodged from excessive rain, and were out in a green state for fodder-later sown matured better; the yield from both the P. E. Island and Quebec Oats proved satisfactory to parties that purchased these seeds from your Society. The crops from both samples of seed Wheat supplied by your Society in some instances were not successful, some from rust and excessive rain, others are reported satisfactory, and the yield under the average; the same may be reported as to Buckwheat. has withdrawn from the Society. October—the month for gathering root crops—was vari-

able in the extreme, occasional fine days, followed by heavy rains, boisterous winds, hard frost, and snow, causing much labor, and no small risk from frost in gathering them. Some fields of potatoes were injured from blight setting in early, yielding small tubers -in others the fibres grew to excess—the yield may be considered below the average.

The market demand was good, and high prices realized which in some measure remunerated the farmer for the deficiency in quantity. On the whole farmers have much reason to be grateful

to the Father of mercies from whom cometh down every good and perfect gift, and that by His blessing on the labors of the husbandman our fields have been made to yield sufficient for the wants of man and beast. Keep us ever mindful of our dependence on Thee. Increase our trust in ADAM FERGUSON,

WEDNESDAY, JANUARY 18, 1882. Minutes of yesterday's proceedings read and approved. Coun. Ryan presented a resolution respecting pound districts, dividing the Parish into three districts same as polling districts for Councillors, Carried.

Coun. Burchill called attention to the necessity, according to law, save the time of the Council, a committee of five be appointed to present three names to the Council for their approval, Coun. Cameron asked Secy.-Treas. if the appointment of Valuators

was imperative. Secv.-Treas, thought it was. Motion carried. Committee appointed were Councillors Tozer, Burchill, Scoffeld, Fish. Savov. On motion the number of committee was increased, said committee to include one Councillor from each Parish. In addition to the five already mentioned the following were appointed-Fowlie, Fitzpatrick,

Swim, McLaughlan, (Chatham,) Cameron, Robinson, Cormier, Ryan. Coun. Sullivan moved the Council adjourn till one o'clock for committee work. Carried. At one o'clock the Council reassembled and then adjourned for dinner. AFTERNOON SESSION.

Coun. Burchill from the Committee to whom was referred the matter of valuation between the Parishes of Northesk and Southesk reported as follows :-To the Warden and Municipal Council of Northumberland.

GENTLEMEN: -We, the undersigned committee to whom was referred the matter of valuation between Northesk and Southesk have attended to that duty, and beg leave to make the following report. We have examined the Valuators' list for the year 1876, and consider that the following is a fair and equitable basis for the apportionment of all taxes between the two named Parishes, viz. Northesk, 564 per cent.

On motion received. On motion the Warden left the chair and Coun. Sullivan was appointed thereto. Moved that the Report be adopted. Coun. Anthony Adams expressed in forcible terms his indignant

protest against such a wrong to h's Parish, it being unjust, and he could not see his parish defrauded as it was now proposed to do without presenting his views to the Council, in order to prevent the wrong being done, if possible. Coun. Burchill explained the manner in which the proportion of the rate was reached, and as the committee were disinterested in the

matter the charge of seeking to defraud Northesk could not stand.

Couns. Tozer, Cameron, R. B. Adams, Swim and Ryan also expressed

their views in reference to the matter, and on the motion being put

The committee beg leave to call the attention of the Council to the statement of the Alms House Commissioner, in reference to the failure of the Collector of Dog Tax to return the amounts collected by him, and would state that it would be more satisfactory to both Alms House Commissioners & Council if prompt returns were made by all parties entrusted with the collection of taxes. The Commissioner of Alms House ask for an assessment on the County for the ensuing year for the amount of \$2000.00 which is \$500 less than that asked for last year, and which your committee recommend be made according to the Commissioners' scale.

Respectfully submitted, JARED TOZER, KENNETH CAMERON, MICHAEL RYAN, J. P. BURCHILL,

Council Room, 18th January, 1882. Coun. Sullivan remarked that there were a good many persons present who were interested in the liquor business, and their presence showed and he understood that they were not sure whether licenses would be granted or not, and he wished to bring this matter up so that it might be decided. If it was legal to grant licences we could de se, if it was not then we would not. He referred to the Secy. Treas, as their legal adviser whether it was legal or not to grant li-

Sec'y,-Treas. would answer any question asked him. Coun. Cameron then asked if it was legal for this Council to grant icenses,

Secy.-Treas. replied that he thought not. Coun. Bamford moved that a Committee of three be appointed to

report on the state of the Alms House. Coun. R. B. Adams thought it was little use for the appointing of any such committee, and objected to any interference in a matter with which we had nothing to do but pass the accounts. The met ter was by Act of Assembly entirely in the hands of the Commission-

ers of Alms House. Coun. Bamford's mction was carried and Cl's McLaughlan (Blackville) Bamford, Somers were appointed. Coun. Saunders moved that two more be added to the Committee. Motion declared out of order. Coun, Burchill moved that section 1 of Bye Laws relating to Barna-1 00 by River Boom be rescinded. He explained that the Boom was owned by gentlemen operating on that river, that there was a sur plus on hand, that five cents per thousand sup. feet on logs and three cents on each ton of timber were excessive. He presented a petition from those interested, asking that the rate be lowered to three cents per M. on logs and two cents per ton on timber.

On motion Bye Law was rescinded. Coun. Burchill moved that the rate of boomage in Barnaby River Boom be three eents per thousand sup. feet on logs, and two cents per ton on timber, and that the Secy. Treas. be authorized to pre-

pare a bye law to suit the change. Carried. Coun. Ryan presented petition of some of the ratepayers of Protectionville, (Sugary,) Northesk, praying that it be attached to district No. 1 for voting, assessing and road purposes. It was explained that the proper method was to alter the boun-

daries of the district so as to include this settlement, and the petition was withdrawn. Committee work was proceeded with during the remainder of the afternoon and at 5 Council adjourned. THURSDAY, JANUARY 19. Minutes of vesterday's proceedings read and confirmed.

On motion Mr. E. P. Williston was re-appointed Auditor Coun. Cameron moved the following resolution: Resolved, That the resolution passed the 19th day of January, 1876, in this Council room, giving the County Valuators a per centage on the assessment of two per cent., be rescinded. Carried.

Coun. Cameron then moved the following :-Whereas, The resolution passed the 19th day of January, 1876, allowing Valuators two per cent. on the taxable property of the county has been rescinded, Therefore Resolved, That they each be allowed \$2.00 per day and

expenses while attending to the duties of their office. Carried Coun. Scofield presented the following resolution:-Whereas, The building of a line of railway from the I. C. R. to Fredericton via the valley of the Miramichi river, known as the Miramichi Valley Railway, would lead to the settlement of the fertile lands along said river and its tributaries, and develop our latent natural resources, which is a matter of vital interest to the inhabitants of the County of Northumberland.

Therefore Resolved, That this Council request our Local Gov't to take immediate steps to get said road constructed, and that a copy of this resolution be given to each of our local members The mover supported the resolution in a forcible speech. He said that on the eve of a local election, the Council should make known its views on the subject of the Miramichi Valley R. R. Speaking on this very important question we should give no uncertain sound. The County of Northumberland pays far more into the revenues of the province than any other County, in the form of stumpage and timber dues, and this was one good reason why we are entitled to a railway. If a large amount of money is yearly taken from our people, he contended that it should again be expended in our county and not taken and expended where we never received any benefit Coun. Burchill called attention to the necessity, according to law, for appointing three Valuators for the County, and moved, that to of the Miramichi and Nashwaak valleys but have either railways or navigable rivers. As the case new stands we are practically isolated navigable rivers. As the case now stands we are practically isolated from the rest of the province. The Miramichi Valley possesses some of the finest tracts of agricultural lands to be found in the province, and if the railroad was built they would be settled in a very short time. He had documents in his possession to prove the statement. In the spring of 1879 after considerable correspondence with parties in different parts of Ontario and Quebec about the free grant lands in the parish of Blackville, Mr. Agnew, who was deputed by a number of intending settlers from lake Megantic, Province Quebec, came down to examine and report on the lands in question. He came down to examine and report on the lands in question. He (Scofield) took him through the settlements, and he (Agnew) pronounced the land superior to any they had where he came from, but owing to lack of railway communication could not recommend his friends to come here. He (Scofield) explained to him about the proposed Valley R. R., and Mr. Agnew said if it was built he would have no hesitation in advising his friends to come, as he was very favorably impressed by what he had seen of the Country. Mr. Scofield expressed the opinion that there would be an immense traffic over this road, which would develop the coal fields and silver mines known to exist on the upper Miramichi, samples of which are now in possession of his friend Coun. Bamford. Fresh fish could be put on the Boston market twenty-four hours sooner than at present, and nsequently in a much better condition, and would accordingly

consequently in a much better condition, and would accordingly command a better price. For these and other weighty reasons he would urge upon the Government the advisability of aiding the construction of the proposed line of railway, believing that by so doing they would materially aid in the development of the section of countries. try through which the road would pass.

Council adjourned till one o'clock, to enable Councillors to attend to Committee work. AFTERNOON SESSION.

On motion resolved that a committee be appointed to fix timber drivers fees. Couns. John McLaughlan, the Secy.-Treas., and Coun. Saunders were appointed. Read a Petition of Wm. Kerr, requesting a reduction of his Auction-

eer's fees for the present year, and that he be not required to pay an additional sum of \$20 for this year, as he paid \$20 for last year and only acted as auctioneder for three months. He is desirous that he only be required to pay \$5.00 as dues for the present year. On motion prayer of petition granted. The committee to apportion amount of assessment between the Parishes of Nelson and Rogerville reported as follows: We have examined the Assessar's List for the Parish of Nelson for the year 1881, and consider that the following is a fair and equit-

able basis for the apportionment of all taxes between the two named Parishes, viz: Nelson 93 per cent., and Rogerville 7 per cent. And we further recommend that the balance to the credit of Nelson with the Alms House be divided on the above basis, J. BURCHILL, R. B. ADAMS, N. S. CORMIER,

yesterday?

Perkins. (Ans.) Justice Byron told me yen were attending a man who had consumption, and I had better go up to see him, which I did, and I left him a bottle of Dr. Wilson's British Cough Balsaw, and a wilson's Brillish Color Balesto, and a bottle of my Allewians; to bathe over the lungs; and will you be kind enough, Dr., to tell me the nature of his disease?

Dr. (Ans.) He lost his mother and two sisters in consumption and he will soon follow them, and if you can save him it will be more than I can do, as he is failing fast.

Perking (Ans.) I am happy to state that Perkins. (Ans.) I am happy to state that by the use of 4 bottles of the Balsam and 2 of Alleviators be has been restored to more than his usual health and strength, and can do as good a day's work as ever. His business is fishing, and for the past 3 years he has enjoyed tag fort health by the use of

business is fishing, and for the past 3 years he has enjoyed perfect health by the use of Dr. Wilson's British Cough Balsam.

Wm. Hay, of Chatham, will tell you biscase was similar to the one described above. Rev. J. E. Bill, of St. Martin's, will tell you that he vsiited Miss Kierstead in her sickness, after she had been attended by three dectors; that it was his onjoin she would doctors; that it was his opinion she would never go out of the house except to be carried to the grave, and who was cured by two bottles of Dr. Wilson.'s British Cough Balsam. Her trouble was Spasmodic Bronchitis. And now I ask the public will you suffer one night coughly a whom there is a remedy so night coughing when there is a remedy so near you that will positively cure you it your lungs are not wasted away, and if so, it is the best remedy known, as it softens the matter so that you can expectorate without coughing.

PERKINS'

INDIAN HERB OINTMENT Is the remedy that will cure Erysipelas. It bas been well tested for 15 years, and I challenge the world to show me a case where i was used according to directions and did not was used according to directions and did not effect a cure. And now I ask the sufferer, do you want to be cured in a few days, or are yon satisfied with the old treatment of a hundred years ago, to be painted with Iodine and use the lotion of lead, and then die as thousands de under that treatment. Space will only admit of two parties who were given up to die with Erysipelas in the head, who were treated as described above, and were cured in a few days by Perkins' Indian Herb Ointment, John Bayliss, Pictou, N. S., Patrick Lawlor, Guysboro Co., N. S. Any one desirous of obtaining further information with reference to the above gan drop. tion with reference to the above can drop me a card to St John, N. B., and I will fur-nish you hundreds of names sent to me for publication, where they had been cured of Erysipelas after they had been given up to

The above remedies are manufactured by D. H. PERKINS, ST. JOHN, N. B., who is supplying the trade throughout the Dominion. Will go to any one afflicted within reach in my travels and cure gratis those who are afflicted with Ervsipelas, as it will only take one box of the Ointment if used in time.

Neuralgia can be cured positively by using Perkins' cramp and pain alleviator. Jan 11-1m

The Highland Tartan.

Dear to each Highland soldier's heart The Tartan of his clan, Symbol of glory and of pride To every Highland man, Whether he dwell 'mid Athol's hills, Or where the wandering Tay, By Birnams glens and forest fair, To Ocean wends its way;

Or nearer to the northern star, Where snow on mountains crown, And towering over silver lakes, Stern peaks of granite frown. In every country, far or near, Where Highland men are known.

The Tartan plaid is greeted still With homage all its own, Still, to the Pibroch's stirring strains On many a foreign shore, The Highland clans press nobly on To victory as of vore. True to traditions of the past, True to their ancient fame
