FEVER AND AGUE. FEVER AND AGUE, THE OXYGENATED BITTERS.

THE OXYGENATED BITTERS. This remedy is just what it purports to be,—a "remot for Dyspayia." Though containing no alcohol, yet it american its wirtues in any climate. It is highly concentrates—a teaspooliul is aid a tumbler of uncirc constituting, does. Among all the remedies ever discovered for these prevailing and obtinate complaints, there is none which core virought such great and permanent cures, or whocan produce so many and unexceptionable cartificates from the recipients of its banefits. A single does often mithystociae disease, and a permanent ours specially follows.

From a highly respected Physician in Maine.

SOUTH PARIS, Me., Dec. 12, 1866. Mesers. S. W. FOWLE & Co., — Gentlemen: Por several years past I have had a knowledge of the op-eration of the OXYGENATED BITTERS in some case, of Dyspenia and General Dibility. They have generally given satisfaction, and sometimes have offected a permanent cure where other remedies had been used without benefit. I do not hesitate to recommend them.

Respectfully yours,

WILLIAM A. RUST, M. M.

THE OXYGENATED BITTERS THE OXYGENATED BITTERS

Letter from Stearns Foster, Esq.

STODBARD, N. H , Sept. 30, 1 Mesers. SETH W. FOWLE & Co., — Genta.: I was for many years, a great sufferer from DYSPEPSIA of WATEREASH, and tried almost everything within my reach, but fo no benefit, until I was induced by the rea reach, but so no benefit, until I was induced by the recommendation of my physicism, Dr. Hazelton, to make use of the OXYGENATED BITTERS. The first bottle produced but a slight alteration in the disease, and had it not been for the urgent request of my physicism I should then have discontinued their tag, thinking these to be of no nvail; but his conflicted the tapersevere, and after using to the extent of half a few bottles, I had entirely rogained my health. I hope, all dyspeptic persons will be induced to give them a falge trial, being confident that this remedy is the most spatent, for the various forms of DTSPEPRIA, that has be produced. Yours,
