

Have Japs Taken Pt. Arthur Many Rumors of Big Battle

London Hears Fortress Has Fallen, Attacks Losing 11,000.

Russ Sources Report Assaults, But Say Enemy Was Repulsed.

Brigade Moving to Relief of Port Arthur Obligated to Retreat—Cable Connections Cut.

New York, June 8.—A dispatch from London says the Exchange Telegraph Company reports rumors of the fall of Port Arthur. The exchange's report says that the Japanese lost 11,000 men. The St. James's Gazette says the exchange that Port Arthur has fallen. St. Petersburg, June 8.—Nothing is known here of the various rumors to the effect that Port Arthur has fallen, but it is not considered possible at this time.

RUMORS OF BATTLE.
St. Petersburg, June 8.—Special dispatches from Liao Yang report Chinese as bringing news that the Japanese on June 2 attacked Port Arthur by land and sea, but were repulsed with a loss of 2,500 men and four vessels, which, judging from the dispatches given of them, were torpedo boats.

Other dispatches give rumors of a naval battle between two fleets in the Gulf of Pei Chi Li, and a definite report of a bombardment in Liao Tung, Kai, near Kai Ping, which may foreshadow a landing there for the purpose of cutting the railroad back of the Russian troops operating around Wafanien.

REPULSE FOR JAPS.
London, June 8.—A dispatch to the London Telegram Company from St. Petersburg transmits the following from Liao Yang: The Japanese on June 6, according to Chinese reports, made several sustained and stubborn attacks on Port Arthur simultaneously by land and sea. The position of the Japanese in Kwai Tung is said to be precarious.

RELIEF ARMY FALLS BACK.
London, Thursday, June 9.—The sudden interruption of the cable between Korea and Japan is considered significant of the imminence of important operations at Port Arthur, the Japanese having taken precaution, as usual, to cut the only means of communication with the outside world, and thus enable her naval and military forces to work with absolute secrecy. No attention is paid in London to rumors that the storming of the fortress has already begun, because it is known that at the battle of Kin Chou Gen, Oka had exhausted his forces, and an insufficient period has elapsed during which the stores of ammunition could be renewed and stores brought into position. It is considered likely that Admiral Togo is not adverse to Port Arthur wasting its ammunition in constant encounters with his gunboats. This may explain the rumored bombardments, while the firing on the land may be due to the preliminary operations of driving in the Russian forces.

The Shanghai correspondent of the

**DAILY SHELLING MANY DESERTIONS
FOR PT. ARTHUR FROM RUSS ARMY**
Togo Hammering Away at the Reservoirs and Regulars Get Fortified—Chinese Say Entrance Is Blocked.

Che Foo, June 9.—Noon.—Chinese arriving from Port Arthur say the entrance to that harbor is still blocked and large vessels are unable to pass in or out. Gunboats and torpedo boats can effect a passage only at high tide. The Russians have several fortified positions extended for a distance of seven miles out and under the forts of Port Arthur. The Japanese fleet is bombarding Port Arthur daily from a considerable distance offshore, fearing to attempt a close range of fire on account of danger from Russian mines. The Russians officials have notified the Chinese that officers who have been found under water about 120 yards west of San Shan Island, one of which is believed to be the cruiser Iowarin. Others sunken have been found southwest of the same island.

CLEARED OF MINES.
Tokio, June 9, 11 a.m.—Official reports show that the first section of Takuwan Bay has been completely cleared of mines. Sixty-two have been found and exploded by the force under Admiral Katsuragi. Two Russian ships were found under water about 120 yards west of San Shan Island, one of which is believed to be the cruiser Iowarin. Others sunken have been found southwest of the same island.

Ten Thousand of Republic's Troops on Tonkin Border.

Hong Kong, June 9.—The French are mobilizing 10,000 troops on the Tonkin border, Kwangsi, the Chinese viceroy, is anxious, and telegraphed to Peking for instructions. The Government at Peking replied that he was to take all possible precautions against a French invasion, but make no trouble. The French rightly claim that this concentration of troops is imperatively necessary to protect the overland trade against raids by Chinese outlaws, owing to the universal rebellion and piracy that prevails throughout South China, and which the Chinese authorities are unable to check.

Fought Waist-Deep in Sea Until Water Ran Crimson

The Osaka Men Tell of Bloody Combat at Nan Shan Hill.

Tokio, June 9.—Wounded officers, who have returned from Liao Tung Peninsula, give interesting details of the battle of Nan Shan Hill. After the first ineffectual attack on the hill, the Japanese scouts discovered that there were mines at some spot at the foot of the hill. It was determined that they could only be definitely located by the sacrifice of some men. Hundreds volunteered to go to what appeared to be certain death. They led the second advance and found that heavy rains had washed away the covering of earth

FOREIGN TOUR CRAZES SISTERS

Three Ladies Start on Journey and End in Asylum.

IMAGINE THEY ARE PURSUED
Tell Fantastic Tales of Being Pursued Across the Desert of Egypt.

Vienna, June 9.—Three young American girls, Misses Regina, Agatha, and Sarah Bondy, of New York, are detained in an insane asylum here pending the arrival of their brother from New York.

They are suffering from delusions that they are being pursued by masked men who are trying to kidnap them, and their derangement is the outcome of a foolishly adventure they undertook evidently with the sanction of their relatives.

Six months ago they left New York for Europe unattended, on one of those adventurous trips in which American women take such keen delight. They were well supplied with letters of credit and introduction. They were excellent linguists, speaking both French and German fluently, and having many useful words in other and less frequently acquired languages. They sailed over the Mediterranean and after visiting several classic lands started for the Holy Land and Syria, not, however, before they had experienced a number of unpleasant experiences which demonstrated that traveling without a chaperon or chaperons in eastern countries is quite a different thing from what it is in America.

Just what did happen to the young women whose grand tour has ended here so disastrously probably never will be known. They were in the Pyramids, went some distance up the Nile, saw Sinai, rode across the Bible countries from Jerusalem to Nazareth, and did what everyone on the tour would do. A month ago they reached Constantinople, and, fortunately for them, the state of agitation attracted the attention of a group of fellow-countrymen, who insisted that the young women, who were willing to confess they had been pursued by masked men, in strange lands, should be placed in charge of a reliable courier, who was to escort them to the Pyramids, and thence, by the shortest route, to their return voyage.

At this time, the behavior of the young women was disquieting. They told the most fantastic stories of an attempt made to kidnap them near the Pyramids, and of the way in which they had been pursued across Galilee by a band of robbers. The impression on all who came in contact with them that their nerves had been considerably shaken by their fanciful and, apparently, the arrival of the three sisters in Vienna, one and all, in an equal degree, were attacked with acute mania. The mania was the surveillance of the courier and protested that their lives were in danger and that they constantly were pursued.

Their cry was that masked men were following them day and night, flashing their swords, and that they were in the imminent danger of being killed. This went on for several days until finally the girls were restrained.

WRECKED ORGAN'S OFFICE
Armed Men Destroy Plant of Paper at Victor, Col.

Victor, Col., June 8.—Eight unknown men armed with shotguns, rifles, pistols and sledgeshammers, wrecked the office of the Record newspaper, and ordered the men to throw up their hands, broke up the machinery, and then told the men to get out of the district as fast as they could. The Record yesterday editorially advised the miners to declare the strike off.

There is no clue to the identity of the men. George Kyner, proprietor of the paper, was a lunch and Foreman Wacker Sweet was in charge of the men. They were getting out the morning paper when eight heavily-armed men opened the front door and walked back to the composing room. They aimed their guns at the startled men, who were at work, and one, evidently the leader, called out "line up now and throw up your hands quickly. The men then wrecked two linotype machines and several job presses, and all the equipment of the office and smashed the telephone and a typewriter. When their work of ruin was completed they marched the Record employees out on the sidewalk and told them to get out of town.

The printers walked north and the eight men started off toward the south. The Record has been known as the organ of the Western Federation of Miners in this section.

The printers had not decided whether to leave or not.

DO THEY MEAN IT?
Powers Tell Sultan Armenian Persecution Must Cease.

Constantinople, June 9.—Sir Nicholas O'Connor, the British ambassador here, has a long interview with the Grand Vizier Monday. He insisted upon the immediate cessation of the persecution of Armenians, and the punishing and destruction of villages in the Sanus district. The French and Russian charges d'affaires have made similar representations.

TRAVIS DROPPED OUT.
London, June 9.—Walter J. Travis, the American champion, dropped out of the open golf championship contest at Sandwich after today's round, under the rule whereby players with a score of 90 behind the leader are eliminated. Travis' score today was 88 and yesterday 82, a total of 170. Thomson (professional), yesterday's leader, is still ahead with a total of 161.

RACE AGAINST TIME FOR L.L.D.

Flyers On Three Roads Will Rush Dr. Harper to Toronto to Corral a Degree.

Chicago, June 9.—In a race against time with an L.L.D. degree as the prize, President Harper of the University of Chicago, today will start on a flying trip from Madison, Wis., to Toronto.

A special train to Chicago and the holding of a Michigan Central express address in Chicago is exactly the minute of the trip.

President Harper is in Madison attending the jubilee of the University of Wisconsin, where he will be given an L.L.D. degree today. This afternoon he will leave on a special train over the Northwestern, arriving in Chicago at 4:45 p.m. At 5:30 he will start over the Michigan Central for Toronto, Buffalo at 6:45, central time. The hour scheduled for the departure of the train for Toronto is exactly the minute of the arrival of Dr. Harper's train from Chicago. In Toronto tomorrow Dr. Harper will deliver a convocation address in the afternoon at Toronto University, receive another L.L.D. and leave for Chicago in the evening.

SAVED FROM BURIAL ALIVE
Relative Present to Attend Funeral Noted Signs of Life.

Custer, S. D., June 9.—After lying 39 hours in her coffin, Mabel Feargus, the 5-year-old daughter of C. H. Feargus, Cartwright, it came today, and old parliamentarians recognized in it the same keen grasp of public affairs, the same irresistible logic and the same wit, which have marked his career as a statesman. Sir Richard has been regarded as perhaps our greatest critic, but his hearers today heard him speak quite as effectively in support of an administration whose record was deserving of as high praise as the preceding Government was of blame. Sir Richard did not, however, neglect a quiet drive at his old opponents, and added some pregnant sentences to his previous criticisms of the stuffed census of 1901. Sir Richard's conclusion was in his happiest vein of irony, in which he referred to the Opposition as "Ye men of little faith," and poured out a stream of Biblical metaphors to the great amusement of the House. Mr. Rufus Pope replied for the Opposition, and expressed fear that the anti-dumping policy would not work out. Mr. C. B. Heyd answered most effectively and showed how the industries of Bradford had flourished under the Laurier tariff.

Sir Richard read from a report of a lecture delivered in 1891, in which Mr. Bell (Pictou) had advocated a free trade. Mr. Bell said the extract was garbled from a lecture which he delivered on speculative free trade, and that he had never been a free trader, but since 1878 a pronounced protectionist.

Sir Richard showed that the Liberals had increased revenue without increasing taxes, other countries had been suffering from serious depression, but Canada, and Canada alone, had been steadily prospering for the past few years. He said that he had no intention of handing over any of his powers to a tariff commission, he said. What was proposed was a committee of members on the Government to visit the great seats of industry and see for themselves how best to deal with industrial conditions. He could not advise the people to expect a continuance of their remarkable prosperity. The fact was, there were almost sure to be followed by lean years. It was not possible to govern a country for years without some mistakes. Even men who were in opposition might find in the future that they had said some things which they afterwards saw cause to regret and to regard as absurd.

Mr. R. L. Borden.—The honorable gentleman is talking from experience. Sir Richard Cartwright.—No, I am not. I have very little experience, unless, indeed, it may be that one time, a long time ago, and probably before the honorable gentleman had much to do with political life. I had certain affiliations and dealings with the Conservative cause (cheers)—but, unless I am entirely mistaken, there was a time when my honorable friend himself was a highly respectable young man, when he taught in the Sunday school, and took the chair for his worthy relative, the Minister of Militia (Sir Frederick Borden), and even canvassed the county for him. (Cheers.)

Continuing, he said that within the last three years 17,250,000 acres of land had passed into the hands of actual settlers. What this meant might be understood when it was stated that in Ontario the area of land which was 2,000,000 acres of which less than 4,000,000 are improved. The exodus, if not completely stopped, was at least balanced by the number of repatriated Canadians, who were re- (Continued on page 3.)

PT. ARTHUR, ONT., MURDERER CAUGHT

Salvador Pecceio Confesses to the Killing of Sereno Mezyo.

Port Arthur, June 9.—Pecceio, the man who shot and killed his companion on the Port William road on Monday afternoon, was captured at Finmark and brought back to town yesterday.

Two policemen were after him. The prisoner had confessed to the killing. A fight over a woman, the prisoner said, had led to the killing. The name of the dead man is Sereno Mezyo, and that of his companion, Salvador Pecceio. The prisoner is in jail awaiting the result of the coroner's inquest. He had walked over 28 miles.

GIVING IN TO RAISULI
Bandit Wins Important Concession From Morocco's Sultan.

Tangier, June 9.—The American consul has sent two unarmed marines to the residence of Countess de Buisseret (formerly a Miss Story, of New York), wife of the Belgian minister. The countess is living in an isolated house, and the marines were sent to her home as a precautionary measure. These are the only troops that the Sultan is at present sending to Morocco. The Sultan's troops at Tangier have received orders to proceed to Fez. The Sultan's conditions have been granted. The Sultan apparently is granting the bandit chief's demands, piece meal, so as not to unduly excite the public. The negotiations for the release of the captives are progressing slowly.

WEATHER BULLETIN.

TOMORROW—FINE AND WARM.
London, Thursday, June 9.
Sun rises, 4:38 a.m. Moon rises, 2:10 a.m.
Sun sets, 7:58 p.m. Moon sets, 2:39 p.m.
Light scattered showers have occurred today in Manitoba and Ontario, while elsewhere in Canada the weather has been fair. Temperatures have been higher from the Ottawa Valley to the Maritime Provinces.

Minimum and maximum temperatures: Victoria, 44-56; Kamloops, 44-55; Calgary, 25-43; Qu'Appelle, 45-72; Parry Sound, 56-65; Toronto, 52-62; Ottawa, 54-74; Montreal, 54-74; Quebec, 46-70; St. John, 52-61; Halifax, 46-61.

FORECASTS.
Thursday, June 9-8 a.m.
Today—Moderate winds; fair and a little warm.
Friday—Fine and moderately warm.

TEMPERATURES.
Stations 8 a.m. Min. Weather.

Toronto 52 50 Cloudy
Ottawa 54 64 Fair
Montreal 56 62 Cloudy
Quebec 46 52 Clear
Father Point 52 36 Clear

DR. WILKIE'S CASE General Assembly Retires Him From Indian Mission Field.

St. John, N. B., June 8.—This morning's session of the General Assembly was given up to a discussion of the Wilkie case. The speakers were limited to five minutes each.

Rev. James Ross moved a resolution expressing regret that any Presbyterians intend founding an independent mission in India, and requested the foreign mission board to send Dr. Wilkie back to a new mission field in India.

Many members spoke, and there were several amendments, but finally all were voted down, and the motion presented Tuesday by Dr. Wilkie is finally retired from the mission field in British India.

It is announced that his supporters will send him out independently.

SIR RICHARD IN FINE FETTER

Powerful Address On Dominion's Financial Condition.

GREAT INCREASE OF TRADE
Proves Continued Prosperity of the Country Is Due Largely to Good Government.

Ottawa, June 8.—An annual contribution to the budget debate, awaited with almost as much interest as the budget itself, the speech by Sir Richard Cartwright, it came today, and old parliamentarians recognized in it the same keen grasp of public affairs, the same irresistible logic and the same wit, which have marked his career as a statesman. Sir Richard has been regarded as perhaps our greatest critic, but his hearers today heard him speak quite as effectively in support of an administration whose record was deserving of as high praise as the preceding Government was of blame. Sir Richard did not, however, neglect a quiet drive at his old opponents, and added some pregnant sentences to his previous criticisms of the stuffed census of 1901. Sir Richard's conclusion was in his happiest vein of irony, in which he referred to the Opposition as "Ye men of little faith," and poured out a stream of Biblical metaphors to the great amusement of the House. Mr. Rufus Pope replied for the Opposition, and expressed fear that the anti-dumping policy would not work out. Mr. C. B. ASKS DUNDONALD FOR STATEMENT

Minister of Militia Inquiries of U. O. C. as to Montreal Speech.

Ottawa, June 9.—Another stage in the issue which has been raised by Lord Dundonald has been reached. Today Sir Frederick Borden forwarded to the general officer commanding a newspaper clipping purporting to give the latter's criticism of Mr. Fisher at the Montreal banquet, accompanied by a request to know whether the report of the speech and the attendant circumstances is correct. Upon that answer the subsequent action of the Minister of Militia and the Government will depend in regard to the Montreal incident. Lord Dundonald excused himself to all newspaper representatives today and would make no statement for publication. Some notice of the matter may be taken in the House when Mr. Fisher will probably have something to say. He will have an excellent reply to the charge said to have been made by Lord Dundonald, if it is true as reported. Yet he was promoted to the position of major, while men who were qualified and happened to be in the army were appointed provisional lieutenants. Dr. Pickell was appointed major as a special case, and the appointment was subject to his qualifying for the rank. Did Lord Dundonald know that Dr. Pickell wholly lacked military experience? If so, the latter's appointment is surprising and calls for explanation.

TOASTS McDONNELL'S DEATH

Joy in New York Over Death of Killing of Gambler.

New York, June 9.—An astonishing exhibition of joy has been noted among the acquaintances in Harlem of Myles B. McDonnell, over the murder of the former gambler in Albany. Along East One Hundred and Twenty-Fifth street, in the saloons and resorts, where the man was well known and feared, his death was toasted and it is even reported that some of the cronies of George Price (who was killed by McDonnell in 1900), got up a dinner in celebration of the event.

The gamblers never forgave McDonnell for shooting Price, although he was acquitted of the ground of self-defense. He had been mixed up in scores of fights, and one instance is related of his having cut an ear from the cheek of a man who was employed in his gambling house. The ear was nailed up on a wall of the room. His trial revealed the facts regarding gambling in Harlem, and caused the closing of many notorious places, much to the discomfiture of the proprietors and hangers-on. That they have lived to see themselves avenged has, therefore, caused them much joy.

BRITISH PRESS ON THE BUDGET

Continued Prosperity as Mirrored in Mr. Fielding's Speech Pleases London.

London, June 9.—The Chronicle says the Fielding budget bears out what was said at the last colonial conference about the colonies being quite able to look after themselves. Canada is determined to fight Germany on its own account. The duty increase on woollens shows how small is the real benefit Britain could hope to obtain in return for a policy of preference.

The Financial Times says Mr. Fielding had a very pleasant task to relate a story of continued prosperity. The reduction for the second year in succession of the public debt is unprecedented in the Dominion. Reformers will watch with keen interest the fight against the "dumpee," but are curious to see by what special machinery the precise amount of the special duty will be determined.

The Financial News says the prosperity of Canada is reflected in the budget. Mr. Fielding, a free trader in theory, even in practice, does homage to the doctrine. The paper commends the changes in the tariff, which should allay the fears of Britain that once a protective tariff is introduced it is impossible to increase in severity.

The Allan, Dominion and C. P. R. steamship lines have decided to cut the freight rates to Canada from 15 to 12 after Saturday.

A meeting of steamship companies will be held tomorrow at Liverpool, when the White Star Company will move a resolution that steamer rates be 13. The American Line, which cut its rates 12, is being pushed by other companies the difference between 12 and 13. The North German Lloyd are in the same position as regards the Morgan combine.

It is understood that the Hon. Mrs. Howard will launch the cruiser to be built for Canada on the 14th of June at Barrow, Vickers, Sons & Maxim constructed the cruiser.

G. T. P. ENGINEER KYLE OUT

Resigns as a Result of Letter Insulting to Canadians.

Winnipeg, June 9.—G. A. Kyle has tendered his resignation as divisional engineer on the Grand Trunk Pacific Railway, in charge of affairs at Winnipeg. Mr. Kyle said that, having expressed his instructions in writing two letters, which came before the court of inquiry regarding alien labor, he felt that he could not continue in the company. When asked as to whether he was called upon for his resignation, Mr. Kyle said: "No, but I insisted upon its acceptance, feeling that the company must not be embarrassed through my inactivity."

Mr. Kyle states that nothing was further from his intention, and that the construction which has been put upon these letters. One of the letters written by Mr. Kyle, to which exception is taken, is as follows: "To Frank L. Davis, Tacoma, Wash.: 'Dear Sir,—I beg to acknowledge receipt of your favor of the 1st inst. I am sorry to say that there is nothing I can offer you at present, but later on there may be a vacancy where I could place you, and will be glad to let you know if anything occurs. We are in the unpleasant situation where it is advisable to fill minor positions with natives, and are, therefore, rather handicapped.'"

(Signed) G. A. KYLE.
Another letter was written by Mr. Kyle to Hugh Allen, an employee of the Oregon Short Line, in Pocatello, Idaho, in reply to a request for a position, in which Mr. Kyle said: "The policy of the company is to use Canadians and English wherever we can do so consistently, but think that later on we will have to import some American brains in order to carry the thing out successfully."

KILLED BY A CHARIOT

Lacrosse, Wis., June 9.—Worn and disturbed by a three day charivari, following her marriage, Mrs. William Asselin, aged 26, died today from brain fever. She was formerly Miss Mary Lacombe, and resided in Lacrosse. She was unmarried and country girl, and it is believed the unusual scenes were the direct cause of her death.

A NEW POSTOFFICE

Ottawa, June 9.—The postoffice department has decided to open a new office in West Huron to be known as Lethbridge, with Kenneth McKenzie as postmaster. It is situated in Ashfield Township.

CIRCUS PARADE ROUTE

The Ringling Bros' circus parade will leave the show grounds at 3:30 Friday morning, and come up Rectory street to Dundas, to Richmond, to York, to Midland, to Dundas, to Richmond, to Dufferin, to Colborne, to Queen's, to Rectory, show grounds.

Opposition Caucus Decides to Hurry Budget Debate

The Special Committee Takes Hold of Mutual Reserve Association Case.

[Special to The Advertiser.]
Ottawa, Ont., June 9.—There was a conservative caucus today, Mr. Armstrong (Lambton) presiding. Changes in the tariff and the budget debate generally were under discussion. It was agreed that there should be no delay in getting the debate over. It was expected that the debate would close on Wednesday.

MUTUAL RESERVE CASE.

A meeting of the special committee appointed to inquire into the Mutual Reserve Fund Life Association of New

Some notice of the matter may be taken in the House when Mr. Fisher will probably have something to say. He will have an excellent reply to the charge said to have been made by Lord Dundonald, if it is true as reported. Yet he was promoted to the position of major,

THE YOUNG FOLK AND THE CHURCH

Presbyterian General Assembly Discusses the Work of the Sunday Schools.

St. John, N. B., June 8.—Last night's session of the General Assembly, which Presbyterian Church was taken up with receiving reports of work in Sabbath schools and young people's societies. The report on Sabbath schools showed that there had been a gratifying advance in many important directions: 320 more teachers than last year, 3,335 more scholars, 129 more elders engaged in Sabbath school work, 340 more scholars have been confirmed in communion with the church than last year. At more schools are open the whole year; the contributions for all purposes are \$9,104 more. In all, \$12,565 have been collected.

In other directions there has been a slight loss. The average attendance is not quite as good as last year. The home departments have decreased, especially in the mission district, where they are most needed. The number of teachers' meetings for the study of the lesson and for consultation and prayer is less.

A careful comparison of the Sabbath school returns with the last census returns shows that the church has 160,000 members under 20 years of age are not in our Presbyterian Sabbath schools. About 100,000 young people graduate from our Sabbath schools each year, the great majority of whom have not come into full communion with the church. The ages between 12 and 20 are the critical years. If the young are not won for Christ then it is to be feared that they will be lost forever. The question is asked, What is being done to make our schools more efficient and to reach through this agency all our young people?

Dr. W. S. McTavish presented the report on young people's societies, which was received on motion of Rev. W. J. Knox and Rev. J. G. Potter.

The report showed that the character of young people's societies is gradually changing. In the year 1888, of the 243 societies reporting to the assembly, 183 were of the "Endeavor" type, and in no less than twenty of the presbyteries the Christian Endeavor had the whole of the young people's work. But now, of the 763 societies reporting, only 400 are Christian Endeavor. While the Christian Endeavor is still pre-dominant, it is being displaced more and more by the Presbyterian Guild.

UNDER SEA TWELVE HOURS

Nine Men Make a Successful Test of Submarine at Newport.

Newport, R. I., June 8.—The submarine torpedo boat, which was sunk to the bottom of the ocean last evening for a test, remained there over twelve hours, coming up at 11:10 o'clock today. The men were on duty watches of two hours each, the remainder of the time being spent in reading, playing games and sleeping. All the members of the crew were in good condition today and appeared to have rested well. Pressed air was pumped in every four hours. Hitherto only six men had gone below for any length of time. On Fulton there were nine men, and they stayed in the boat under water ten days without coming to the surface.

SCOTCH IMMIGRANTS

Over 10,000 Sailed for Canada During Last Three Months.

London, June 8.—At a meeting of the Glasgow police committee, the clerk was asked if there were any police provisions for dealing with immigrants, as a number of the induced tradesmen and others to enter into alleged contracts for service on Canadian railways, after discharging money. The clerk declared that there were no provisions, and the matter should be referred to the sheriff.

Official reports said that 3,200 Scotch emigrants sailed for Canada during May and 10,654 during the last three months, an increase of 1,521 over the period of 1920.

Out of 50,000 bushels of apples delivered in London during the past week, Canada sent 12,000, Tasmania 30,000, Australia 6,000, and the United States 2,000. The London wholesalers say that, in case of a shortage of apples, a box of bad fruit is seldom encountered.

NEW ONTARIO OFFICIALS

Judson H. Clark Appointed Head Forester for Province.

Toronto, June 8.—Several appointments were made at yesterday's meeting of the Ontario Cabinet. Judson H. Clark was appointed provincial forester, as a preliminary step in the establishment of a department of forestry in connection with the crown lands department. Mr. Clark, who is a native of Prince Edward Island, is now engaged in the forest service at Washington. He is a graduate of Cornell University. Mr. Clark will assume his new duties on Aug. 1. The staff of forestry inspectors was completed by the appointment of Arthur W. Holmes to the vacancy caused by the departure of James R. Brown. Mr. Holmes has been a member of the executive of the International Machine Union for some years. Mrs. Jas. R. Brown was appointed a second female factory inspector to assist Miss Curdick. John Buchanan, of Hensall, was appointed a second inspector of field husbandry at the Ontario College of Agriculture. A number of minor appointments of Government officials were made.

NEW FISHERY RULES.

Toronto, June 8.—The new fishery regulations recommended by Ontario Commissioner of Fisheries Basil Johnston are confirmed by Dominion Government. They will go into effect at once. The most important change is that reducing from 12 to 8 the number of bass permitted to be caught by any angler in one day. The present limit is twelve. The size limit for pickerel is fifteen inches; for muskellunge, 30 inches. The sale and export of speckled trout, black bass and rock bass are prohibited for a period of five years, provided, however, that any person from a foreign country fishing in the waters of Ontario, who obtains an angler's license, may, upon leaving the Province, take with him the lawful catch of bass and muskellunge.

CONGREGATIONALISTS CONFERENCE.

Montreal, June 8.—The fifty-first annual conference of the Congregational Union of Ontario and Quebec opened this morning at Zion Church and will continue its session tomorrow.

GOING FOR CHAMBERLAIN'S COLIC, Cholera and Diarrhoea Remedy.

Don't put yourself in this man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use. When reduced with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not buy it now and be prepared for such an emergency? Price, 35 cents.

Afternoon—and evening until next Monday night. One of the topics of the conference will be the discussion of the timely topic of church union, which is being discussed in the annual meeting of the Ontario Conference of the United Church of Canada, which is being held at St. John's, Toronto, on Saturday, Mr. Henry O'Hara, of Toronto, is president. Other speakers will include Rev. J. N. Unsworth, Hamilton, Ont.

IN THE SENATE

Alleged Criticism of Minister by Dundonald Discussed.

Ottawa, June 8.—Upon the calling of the orders of the day in the senate yesterday, Senator Landry spoke of the newspaper statements to the effect that Lord Dundonald had charged that the political leanings of a man had much to do with the militia appointments, and that military efficiency was not considered the main thing. As a particular instance, he is said to have quoted that of Dr. P. J. Fisher, senatorial secretary, who is said to have been quoted as reported, and if it were true that Mr. Fisher had interfered.

Senator Scott declared he doubted the correctness of the report and would continue to do so until Lord Dundonald admitted it.

Senator Bowell wanted an inquiry made into the matter, and a statement would mean the retirement of the G. O. C. and he did not believe Lord Dundonald was the kind of a man to choose such a method of stepping out.

Senator Ferguson held the same view as Senator Dundonald.

Senators McMullen, Donville and Robertson also spoke along similar lines. The matter was finally dropped.

A TRANS-PACIFIC RECORD

S.S. Manuka Ahead of Her Schedule by Two Days.

Montreal, Que., June 8.—The steamship "Manuka," which was chartered by the Canadian-Australian line, arrived in Vancouver at 9 a.m. on the 6th of June, two days ahead of her scheduled arrival. She was on duty until the evening of the 9th. This was a most remarkable run, and her 282 passengers are rejoicing to think that they crossed the Pacific from Brisbane to Vancouver in less time than this journey has previously taken. The "Manuka" carried 110 first-class passengers, 112 second-class passengers, and there were 40 in the steerage.

EVERY PLACE ON THE PRAIRIES

HAS ITS CURES CREDITED TO DODD'S KIDNEY PILLS.

John White Could Get Nothing to Help His Rheumatism Till He Tried the Great Canadian Kidney Remedy.

Yellow Grass, Assa, N. W. T., June 8.—(Special).—No place on the Prairies but can furnish some proof of the efficacy of Dodd's Kidney Pills. I am doing in wiping out the kidney ailments of the west. It was near here that little Edith Harris was so wonderfully cured of Dropsy by them and now Mr. John White is giving an experience to all who are afflicted with Rheumatism for years and neither doctors nor medicines did me a bit of good till last spring I tried Dodd's Kidney Pills. They did me a great deal of good. I feel like recommending Dodd's Kidney Pills even stronger than I talk.

Dodd's Kidney Pills cure the Kidneys. Soiled kidneys strain all seeds of disease out of the blood. They tone up the body to its highest standard of health and energy.

HE GETS A RHODES.

Toronto, June 8.—Ralph V. Bellamy, of Edmonton, from McMaster University, has been selected to receive the Northwest Territories for the Rhodes scholarship. He was one of the strongest students who ever passed through McMaster, a specialist in English and moderns, who stood so high in his examinations that he was offered a fellowship, which he declined for business reasons.

A "dying-ground" of elephants, a resort where these animals go to die, was an interesting discovery by Major F. C. Cotton in Eastern Equatorial Africa.

CIVIL WAR IN THE GOLD CAMP

Fatal Battle Between the Militia and the Miners at Victor, Colorado.

Victor, Col., June 8.—A pitched battle between the military and union miners was fought at Dunsmuir, the new mining camp, thirteen miles from Victor, shortly after 3 o'clock this afternoon. John Carley, a union miner, was killed. Troops were sent to Victor at 8 p.m., bringing with them 14 captives.

Before the special train left Victor, hearing the force under General Bell, it was reported that the miners in the hills about Dunsmuir numbered about 250, and that it was their intention to march into Victor tonight in a body and attempt to liberate by force the inmates of the temporary "bull-pen" in Victor.

The train proceeded to the immediate vicinity of Dunsmuir without unusual incident. When about a quarter of a mile distant from the Dunsmuir temporary station, the officers could see the camp of the miners. It included one cabin and six or seven tents.

The officers left the train at the command of General Bell and prepared to advance upon the camp of the unionists in regular skirmish order. As they emerged from the cut in which the train had come to a stop, they were greeted with a volley fired from points of vantage surrounding the hills. The deputies returned the fire and promiscuous shooting was engaged in for ten minutes.

The shooting was very close, the character of the shooting from the hills, General Bell immediately recognized the fact that the strength of the miners had been greatly over-estimated, and that he had sufficient force under his command to make an immediate round-up of the miners, and to make a complete clean-up of all the surrounding hills.

About 300 union men and sympathizers have been arrested by the sheriff and military since Monday. Twenty-eight of these have already been deported. The remainder are imprisoned in the jails, Victor armory and the Cripple Creek Mining Exchange Hall, under military guard.

The drag-net is still out, and the "house-cleaning"—as the authorities term their proceedings—continues. It is alleged that in the office of the Altman Union were found quantities of electrical fuses and batteries to produce explosion. Talk of lynching or violence has subsided.

Fridley, the alleged murderer of Roxie McGee, has taken refuge in a cabin three miles south of Victor, across Straub Mountain. Three companions are in hiding with him. Bell has ordered Major Naylor and six mounted soldiers to capture or kill them. The fugitives are heavily armed.

How to Treat a Sprained Ankle.

A sprained ankle as usually treated will disable a man for three or four weeks. This is an unnecessary loss of time, for many cases have recovered in less than one week's time when Chamberlain's Pain Balm was promptly and freely applied. It allays the pain and soreness and quickly restores the parts to a healthy condition. For sale by all druggists.

In three months of 1922 the Kaiserling Whaling Company took 57 whales.

In 1920 the same company killed 30 in ten weeks along the Korean coast.

RESTLESS SANTO DOMINGO

British Captain Reports Another Revolution in Full Swing.

Washington, D. C., June 8.—Within three days of Admiral Sigsbee's announcement that peace had been concluded in Santo Domingo, another revolution has broken out in that country. United States Minister Powell has cabled the state department from Port-au-Prince, Haiti, that the British cruiser Indefatigable left that place yesterday, having reported that Gen. Jimenez had effected a landing at Macoris. Telegraph communication has been interrupted.

CHILDREN HAD SKIN DISEASE

ITCHING SO BAD THEY WOULD TEAR THEIR FLESH—AN EXTRAORDINARY CURE BY

DR. CHASE'S OINTMENT.

Too many children are in agony from itching, burning skin disease.

Too many mothers are worn out by anxiety and loss of sleep in watching over their little ones who are tortured by such ailments.

Dr. Chase's Ointment is a prompt and positive cure for every form of itching skin disease, and has proven its marvelous power in thousands of cases, similar to the one described below.

Mrs. Lois McKay, Tiverton, Digby County, N. S., writes: "My children were taken with an itching, burning skin disease and tore their flesh until it was sore and their shirts would sometimes be wet with blood. The doctor did not seem to know what ailed them and could give no relief, so I began using Dr. Chase's Ointment."

"Wherever it was applied it did its work well, and has entirely cured them of this horrible disease. They suffered so they could not sleep nights, and I think it had lasted much longer I would have gone crazy from the anxiety and hope other sufferers will try it."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

A Way to Enjoy Life.

If you want to get away from the stove and enjoy life, try "Clark's Lunch Tongue," or any other Clark canned meats. Wm. Clark, manufacturer, Montreal.

DROWNED IN BARREL.

Brantford, June 8.—A 5-year-old son of Mr. Hogarth, 202 Market street, disappeared at 4 o'clock on Tuesday afternoon, and at 6 his dead body was found in a rain barrel on the side yard. It is presumed he fell into the water while playing.

A Russian officer who took part in the Chinese war some years ago declares that the Chinese are not naturally cowardly, as is commonly assumed and that, under proper leadership, they make excellent soldiers.

LONDON, THURSDAY, JUNE 9.

The Preference and Its Difficulties.

The increase of 6-2-3 per cent in the duties on British woollens may not satisfy some of the Canadian woolen men and will probably be pronounced inadequate by the Opposition. It will relieve to some extent the pressure of British competition, but it will not be adequate protection in the sense in which that term is used by Mr. Borden. The British manufacturers will remain lively competitors in the Canadian market. "Adequate" protection would keep them out as effectually as any tariff could.

The position of the Government in dealing with the woolen schedule has been of considerable perplexity. The preference has been of very great value to the British woolen industry, particularly to the mills producing the cheaper grades of cloth. If the preference is to be anything but a sham it must give British manufacturers not only an advantage over foreign rivals, but a chance to compete against Canadian industries. The increase of 6-2-3 per cent on woollens cancels in some degree its advantage to the British woolen industry. Any scheme of preferential trade brings with this difficulty of reconciling the interests of British and colonial manufacturers. If Canada should adopt a policy of adequate protection, aiming at the prohibition of competition with domestic industry, preferential trade would have to be limited to non-competitive products, but as between Great Britain and Canada such an arrangement would be impossible. Great Britain is a manufacturing country, and unless the colonies afford her manufacturers a market, they can hope for no favors in the British market. In Canada the Liberal party has not subscribed to the doctrine that a domestic industry must be protected at any cost, but the case of the woolen business shows that Canadian manufacturers will not be deterred by patriotic or sentimental motives from demanding that the screws be put on their British rivals when British competition cuts into the Canadian manufacturer's preserve. The Canadian Government has met the difficulty in this instance by lowering the tariff on tableware and window glass imported from Great Britain, balancing these decreases against the increase on woollens. If there were large tableware and window glass industries in this country, the process would not have been so easy.

The Canadian woolen manufacturers will now enjoy a protection of 30 per cent against Great Britain and 55 per cent against other countries. This highly-developed British industry will still be able to hold a large share of the Canadian market, but if some of the Canadian woolen mills cannot get along under the shelter of a 30 per cent tariff they are luxuries that the country had better do without. Many Canadian mills have thrived under a protection of 23-1-3 per cent, and are producing a class of goods, of the better quality, which compare favorably with the best products of British looms.

A Fiscal Experiment.

Mr. Fielding's anti-dumping legislation is an absolutely novel experiment, and will be justified or condemned by results. It is suggested that it will not be practicable in operation because the exporter (say, an American trust) may sell goods to a Canadian purchaser at the regular price to deceive the custom officials, and give him a secret rebate, which is settled by a return check. The answer is that fraud may be attempted and sometimes practiced successfully under any tariff system. If there were no provision requiring imports to be appraised at their proper value, what could prevent exporters and importers from cheating the revenue by undervaluing their goods, except the vigilance of the customs officials? A certain amount of espionage is necessary to the enforcement of the revenue laws. Every person who crosses the boundary line with a valise in his hand is the victim of it. A contemporary says that dumping or slaughter prices cannot be ascertained, in case of collusion between the exporter and importer to defraud the customs, unless by an audit of the books of the importing firm. But why should this be called an intolerable abuse of authority? If the customs authorities suspect that they are being fleeced they owe it to the public to make a searching investigation. This right has been always exercised. It must not be assumed, however, that the standard of commercial morality is so low in Canada that deception will be the rule under the new law. The pains and penalties may be made so rigorous and official vigilance may be so sharpened that the few who would not scruple to resort to fraud will be deterred from the attempt. The new legislation is a praiseworthy effort to prevent the cut-throat competition of foreign trusts and combines without binding this country in the shackles of a fiscal system which has produced such monstrous abuses in the United States. It is a weapon with which the Canadian Government will try to fight the American trusts, instead of calling trusts into existence in this country by means of an Americanized tariff.

A Narrative of Progress.

The financial portion of Mr. Fielding's eighth budget address reads almost like a romance. His first budget, in 1897, showed receipts of \$37,829,778 and expenditures of \$38,249,759, leaving a deficit of \$419,981. For the year ending June 30 next the estimated revenue is \$71,000,000, and the expenditure \$54,500,000, leaving a surplus of \$16,500,000. In eight years the revenue has nearly doubled. Another most satisfactory exhibit is the national debt. In the past eight years the Government has undertaken and carried to a conclusion several great public works. It completed the deepening of the St. Lawrence canal. It extended the Intercolonial to Montreal. It has spent millions in improving the channel of the St. Lawrence below Montreal. The expenditure for these and other public works chargeable to capital account, have amounted to \$46,000,000 in the past eight years. The Government has been able to do this and reduce the public debt since 1896 by over a million dollars. In the past two years alone the reduction has been nearly \$15,000,000. The debt per head stood at \$50.61 in 1896, and now stands at \$46.69. Sir Richard Cartwright estimates that the debt per family has fallen in the same period from \$270 to \$215. Here is another exhibit which the Finance Minister was able to show:

Imports, Exports.
1873 \$125,011,281 \$ 83,789,922
1883 132,254,922 98,085,804
1893 129,674,268 118,564,352
1903 241,214,961 225,849,724
The Finance Minister will not always have so pleasing a story to tell. Hard times will fall upon Canada, but the only cloud on the horizon at present, as Mr. Fielding pointed out, is the depression in the United States, which has the highest tariff in the world.

Mr. Fielding's budget address was a poem of prosperity.

Dr. Chown and the London Conference will have to fight it out between them on the subject of government control of the liquor traffic.

In last night's edition it was stated that the annual consumption of refined oil and naphtha in Canada was 25,755,450 barrels. It should have read gallons.

Lord Dundonald seems to be going the way of his predecessors—good soldiers, but too apt to regard themselves as masters and not servants of the public.

Herr Bopp, the German chief consul in Canada, sat on the floor of the House of Commons during the budget speech, and had the pleasure of hearing Mr. Fielding tell how Germany had been swatted by the surlux.

Sir Gilbert Parker tells the Canadian Club, London, that while the Empire possesses men like Lord Minto, there need be no fear for it. Lord Minto has been inoffensive, but it has never struck Canadians that he was an empire saver.

HOW TO KILL DANDELIONS.

[Portland Oregonian.] In regard to the trouble owners of lawns and grass plots have in keeping them free from the pestiferous dandelion, a benevolent citizen who has experienced lots of this trouble writes to the Oregonian to say that many people bring more of this trouble on themselves by trying to exterminate dandelions by cutting the plant off just below the ground. A great deal of this is done early in the spring by people collecting young dandelions for "greens," and they being an excellent and wholesome pot herb. This, it is said, does not kill the plant, but causes each root to throw out several shoots, and thus multiplies the number of dandelions. The correspondent mentioned writes to impress his fellow-sufferers that if when they cut off the dandelion plant below the ground they will drop a pinch of salt on a teaspoonful of coal oil on the root left in the ground it will eventually kill it. This may seem a troublesome job, but to one who has been keeping his grass plot clear of dandelions it will be the end save a lot of trouble.

A SIGN OF AGE.

[Brooklyn Eagle.] In your childhood days you worried over nothing, even rain. And for nothing you worried. That some shelter you might gain. All the weather prophet's errors. Were forgotten in the rain. In the snow there were no terrors. And you rather liked the ice.

Heat or cold did not distress you, Or the changes e'er dismay. Nothing would at all impress you, Just so long as you could play. There were games for each December. There was sport in pleasant June; And all seasons, you remember, Brought to you some pleasing boon.

But, with passing years, you worry Over every trifling change. And from home to office hurry, Grumbling o'er the climate's range; Fearing heat that's due tomorrow, And dissatisfied today; Finding time to trouble borrow O'er the things to come your way.

Just remember, sir, that whether You complain of heat or cold, When you grow old the weather, You are surely getting old.

DINKELSPIELERS.

[George V. Hobart in N. Y. Journal.] A woman is a quick chumper at making up her countenances.

A fool and society was never parted. Ven a man sins around waiting for something to turn up fortune always turns him down.

Snooping vent abroad for seven weeks and learned enough to make me sick with listening for seven years. Opportunity rings der door bell and runs away if he has not right dare to grab it.

Some mens vas like a phonograph. Day talk ven you start dem, but dere vas no originalities about dem.

A hater of work will never be arrested because he has killed time.

Der best choke I ever heard sounded terrible foolish until I saw der pointed end of his tail.

Sometimes a bad actor is egged on by ambition and egged off by der audience, yet.

Some mens haf to part der hair in

A SAD CASE.

[Boston Herald.] In Chicago, a few days ago, Andrew Wernilen, 45 years old described in recommendations found among his effects as "sober, industrious and a first-class mechanical engineer," committed suicide. Wherever he applied for work he was met with the statement: "You are too old." A man of 45 should have fifteen or twenty years of good working power, re-enforced by training and experience. If for any reason he is no longer able to do any work, but now I can work as well as ever, thanks to one box of your pills. They have made a new man of me, and my advice to any person troubled as I was, is to get a box of Milburn's Heart and Nerve Pills.

Gray hairs could not be honorable unless der head of dem was underwise. No matter if a man does hide his light under a bushel der gas company sends in der bill just der same. Money talks a lot of foolishness to dem dot listen hard.

A drug of beauty is a choy forefer until ve get used to it.

Uneasy lies der head vich varies a crown tooth vich der dentist put in midnow knowing his pizness yet.

[Boston Herald.]

In Chicago, a few days ago, Andrew Wernilen, 45 years old described in recommendations found among his effects as "sober, industrious and a first-class mechanical engineer," committed suicide. Wherever he applied for work he was met with the statement: "You are too old." A man of 45 should have fifteen or twenty years of good working power, re-enforced by training and experience. If for any reason he is no longer able to do any work, but now I can work as well as ever, thanks to one box of your pills. They have made a new man of me, and my advice to any person troubled as I was, is to get a box of Milburn's Heart and Nerve Pills.

Gray hairs could not be honorable unless der head of dem was underwise. No matter if a man does hide his light under a bushel der gas company sends in der bill just der same. Money talks a lot of foolishness to dem dot listen hard.

Uneasy lies der head vich varies a crown tooth vich der dentist put in midnow knowing his pizness yet.

A SAD CASE.

Deranged Nerves

Weak Spells.

Mr. R. H. Sampson's, Sydney, N.S., Advice to all Sufferers from Nerve Trouble is

"GET A BOX OF MILBURN'S HEART AND NERVE PILLS."

He says: "I have been ailing for about a year from deranged nerves, and very often weak spells would come over me and be so bad that I sometimes thought I would be unable to survive them. I have been treated by doctors and have taken numerous preparations but none of them helped me in the least. I finally got a box of Milburn's Heart and Nerve Pills. Before taking them I did not feel able to do any work, but now I can work as well as ever, thanks to one box of your pills. They have made a new man of me, and my advice to any person troubled as I was, is to get a box of Milburn's Heart and Nerve Pills."

Price 50 cts. per box, or 3 for \$1.15, all dealers, or

CULT OF THE SHIRTLESS

"Nothing but Nature" Expert Has Come to America.

New York, June 9.—The most picturesque passenger arriving yesterday on the Kaiser Wilhelm II., from Bremen, was Herr Georg Druschel, of Lichtenfels, Bavaria, the advocate of the shirtless and no shirt.

Herr Druschel, who wears only trousers and sack coat of homespun gray, with a pair of shoes and a big cane and a large black felt hat, is bearded and long-haired. He looks as strong as a giant. The toughest four or five inches of his chest is bare, and the skin, weather and sun hardened, is as red as a pumpkin.

Herr Druschel has come over seas to introduce his cult of hardening the body, curing rheumatism, bad circulation, shortness of breath and headache by nothing, nothingness, and "Nothing but Nature," as the shirtless advocate terms his religion.

Herr Druschel says he was ill until he was 30 years old, with various doctors prescribing to no purpose, and that he did not obtain health until he shaved his head and shaved his chest, and flannel underclothing and took cold baths in the open air.

"A large and well-ventilated hall is necessary to drink beer in. Do not remain here long, but for several times leave it and go out of doors to breathe in fresh air."

"The more a person wraps himself up in his clothes, the thicker will be the veil over his brain."

"A fresh good breeze is to the human body like water; his flesh and marrow become hard and full of strength, water turns to ice."

"Many men sacrifice rather their health than their aches and pains."

"Man ought to be able to drink after beer wine and vice versa—just so far as eating and weather are concerned."

"A pine tree, green in summer as well as in winter, will, off in cold and storm, wind and rain."

"The best meal without sufficient fresh air is worse than a poorer fare."

"Eat whenever you are hungry; drink when you are thirsty; time does not matter. Pure air is for the stomach."

"While drinking beer you ought to have a glass of water and a glass of beer, and the beer should be cold."

"It is still more wholesome to drink beer in the open air, which is a general symptom of a cold or a strike, 250,000 men would be directly or indirectly involved."

Over Night at St. Louis.

For the convenience of passengers to the St. Louis Exposition, the Canadian Pacific Railway has arranged to put on a special through sleeper to the Fair. This handsome special car, which leaves here every night at 11:30, arrives in St. Louis at 2 p.m. the following afternoon, making the trip in a trifle over twelve hours, and the greater part of it while one is asleep. The arrangement makes the trip very short and pleasant.

CLEANING FEATHERS AT HOME.

Owing to the frequency with which it is turned over to the professional cleaner, a white or pale-tinted plume becomes something of a luxury.

If the feminine contingent only realized how easily these pretty ornaments can be cleaned at home, quite a little saving toward the end of the year would result.

Nothing more difficult to obtain than soap and clean water is necessary to clean an ostrich tip in a thoroughly scientific fashion. If the work is carefully done, the plume will stand an infinite number of "shampoos" without showing the least signs of wear. Here is the simple process:

Make a lather with warm water and a good white soap. Fill a bowl with this and dip the plume into it. When it is thoroughly saturated draw the tip through the fingers. Repeat a number of times if the feather is much soiled.

Now rinse thoroughly in clean water, making sure that no vestige of soap remains. Put on a white apron or cover the knees with clean towel and gently pat the plume with the hands until dry. Curl with a blunt knife.

Or steam the plume over the hot water kettle and dry it in the heat of the stove, when it will of its own accord attain a certain degree of fluffiness.

FORESAW HER FINISH.

"Fritzy" John Allen tells how a darker in Alabama, who is much given to fine attire, was "thrown down" by the woman of his choice.

It appears that the dusky maiden had politely but firmly intimated to the colored Beau Brummell that she desired none of him.

"An I to understand, Miss Jenkins," asked the downcast suitor, "from yer remarks dat de reason you decline me is because I dresses handsome?"

"Well," responded the chocolate-headed one, "dat's certly is one of de reasons. I likes good close myself and I likes de gaze upon dem, but, 'deed by de pound at Hunt & Sons, Feather Pillow and Mattress Manufacturers, 628 Richmond street north. Telephone 977.

LATEST MARKETS

STOCK MARKETS.

H. C. Becker, broker, Bank of Commerce building, received the following by private wire from Hartford, Conn., June 8:

New York, June 8.—Non-despite fair promises of the opening market, prices have not held as well as might be expected. There is no pronounced weakness, but there has been a distinct reactionary tendency. The initial prices showed substantial gains and reflected the strength of the London market. The volume of trading was disappointingly small, and the market has been stagnant. In the early trading, St. Paul, Union Pacific, Southern Pacific and Reading were active. All these stocks have acted well throughout the session. Steel, preferred, was firm during the first hour, but it has since eased off. Amalgamated Copper, preferred, showed little strength and is relatively dull. The leather stocks have been very strong throughout. The market is likely to continue dull throughout the afternoon. Sales to noon were \$1,100 shares.
