## CUSTOMS DEPARTMENT

OTTAWA, 20th December, 1883.

Honorable MACKENZIE BOWELL,

Minister of Customs.

SIR,—I have the honor to hand you the Returns of Trade and Navigation of Canada, for the fiscal year ending 30th June last, and to call your attention to the tables following, representing the Aggregate Trade, Value of Exports, and Value of Goods entered for Consumption, by Countries, each of which has been extended backwards to the year 1873, for greater convenience of reference, and I have to express regret that, owing to the fact that the Exports of foreign merchandise for the years previous to 1873 had not been specified by Countries, it is not possible to give correct tables of this description for the intervening years, between 1868 and the latter date.

In an examination of this table, it is necessary to bear in mind that the percentage is based upon the value of all goods imported, dutiable and free, and the proportion of free goods imported in one province in excess of another, will so far lessen the percentage of duty. So, also, the province importing the largest proportion of goods subject to the higher rates of duties, such as spirits and tobacco, will show a proportionately higher average percentage.

The percentages in this table are subject to the same variations, from the same causes, as those affecting table No. 7, but as the same amounts of duty, as shown in the former table, are the dividends, while the divisors are smaller, the quotient must, of necessity, show a higher percentage. In other words, the amount of duty is the same in each table, while the values are less in the latter than in the former.
