"MODEL CAR" WAS CAR MODEL

A. Hobbs, Intermediate Rep. F. Drummie, Sophomore Rep. D. Gallagher, AAA President Donald Thomson, SRC Secretary Robert Cass, SRC Treasurer

COUNCILLORS BY ACCLAMATION

Jim Bruce S.A.C. President

UNB (Special)—Jim Bruce has been made president of the Students' Activities Commission as the immediate result of last Thursday night's Students' Council Meeting. The clause that kept Jim from holding office was that the president of the SAC must be either a senior or intermediate at UNB. The clause ruled him out because he is a first year Forester. Jim had already taken over the job of the SAC at the request of the Commission. He was highly instrumental in the recent success of the Indian Bazaar sponsored by the SAC.

The Council also approved of the amendments of the Amateur Athletic Association. Committee members of the SRC recommended that the AAA be allotted not less than 50% and not more than 65% of all revenues of the SRC excepting the surplus of the preceding year. The Council on a split vote recommended the new constitution to be valid. Members of the committee were, Pete Murphy, Dave Fair, John Macraivish, Noel Gaspar, Del Gallagher and Pete Trueman.

The heated debate of the compulsory insurance plan for UNB students was not forthcoming at the meeting, as the committee on the plan had no further developments to report.

Myles Addresses Engineer's Meeting

UNB (Special)—The Engineering Society held a regular meeting on Wednesday, February 18, with President Earl Bryenton in the chair.

Mr. R. Myles of the Bridge Division of the New Brunswick Department of Public Works addressed the engineers. He gave a very interesting talk on bridge construction, dealing with the design, the preliminary survey, and the actual construction. He also commented on the bridges which have been constructed recently in New Brunswick.

Following the meeting refreshments were served in the canteen.

MacKenzie Speaks To Legionnaires

UNB (Special)—Dr. Graham S. MacKenzie of the Geology Department of the University of New Brunswick spoke before the Fredericton branch of the Canadian Legion tonight February 20, on the recent basic mineral discoveries in the Bathurst area. Dr. MacKenzie explained that recent developments in the New Brunswick mining areas were concrete examples of the university research programmes. First indication that silver, lead, and zinc ores were present in the Bathurst area were obtained through a regular research programme carried on by post-graduate students in Geology at the University of New Brunswick.

Another factor pointed out by Dr. MacKenzie was the assistance given by Sir James Dunn to postgraduate studies at UNB. Sir James Dunn, through the Algoma Ore Properties Ltd., of which he is president, has provided the university with a scholarship fund since 1947. It amounts to \$5,000,000 annually.

PLACQUE UNVEILED IN ARTS BUILDING

UNB (Special)—At an impressive ceremony in the hall of the arts building UNB, Claire MacNabb Steeves, a member of the university and a resident of Saint John, unveiled a tablet raised by the Historic Sites and Monuments Board commemorating the 125th year of the erection of the first university building in Canada.

Present were Hon. Milton F. Gregg, minister of labor and Premier Hugh John Fleming. Representing the historic sites board was Dr. Alfred G. Bailey, dean of arts at UNB. Dr. A. W. Trueman was chairman of the ceremony and receiver of the tablet.

In his remarks Mr. Gregg paid tribute to the university. Mr. Fleming stated that he felt that he was standing on hallowed ground.

The tablet bears the following words: The arts building, the oldest existing university building in Canada, built in 1828 for Kings College, New Brunswick, opened by Sir Howard Douglas, lieutenant-governor of the province, 1st January, 1879.

Syndicate To Hold Annual Dinner

UNB (Special)—The University Investment syndicate will hold its first annual banquet at the Lord Beaverbrook Hotel this coming March 4th. The banquet is being partially financed by the stock returns of the Syndicate.

Two reports will be tabled at the meeting. The first, the President's report, will be given by Bill Reddin, UIS President. Treasurer Pete Trueman will table the 1952-53 treasurer report.

The syndicate will have four guests at the banquet: Prof. G. R. McManmon of the Business Administration, Prof. W. R. Smith of Economics, and Prof. W. S. McNutt of History will be present during the evening. Mr. R. A. Lambert, Fredericton investment broker will also be guest at the banquet.

The syndicate has announced that its drive for new members next year has brought tremendous results. 15 applications have already been filed for the 25 memberships available.

Dal., St. D. U. Beat UNB Debaters

UNB (Special)—Last Saturday afternoon St. Thomas University of Chatham successfully upheld the negative of a debate with the University of New Brunswick debating team of Charlotte Lenentine and David Vine. Resolved: That compulsory Latin and Greek should be abolished from university curricula. Miss Lenentine is a post-graduate history student and Mr. Vine a senior Artsman. The St. Thomas team was made up of James Daley and Pat MacDonald.

UNB (Special)—The Dalhousie University Debating Team Monday night defeated the University of New Brunswick team as they successfully upheld the negative of "Resolved: That Canada should have a unitary form of government." Ben Dougan and Terry Jones represented Dalhousie, while the UNB team was made up of Ian Whitcomb, Senior Arts student from Saint John and Bill Reddin of Fredericton, a second year Artsman. The debate was held in the UNB Art Centre.

Following the actual debate, something new in UNB debating took place when the debaters carried on an informal discussion with the good-sized audience. During this discussion the debaters defined some of their economic and political terms.

The judges told the audience that they considered the debate a close one. provincial tax commissioner, Mr. Francis Atkinson and Mr. C. J. Hughes, Fredericton lawyers.

ART CENTRE NOTICE

This Sunday's programme will include

Schubert — Symphony No. 8

Mendelssohn — Music from Midsummer Night's Dream

UNB (Special)—"It was not a hoax," Blood Commission Chairman, Dick Ballance announced today, as he released the story that the 1952 FORDOR MODEL FORD was just what the Blood Committee said it was, a MODEL of a Ford.

The pre-blood drive ballyhoo of the Committee was based on the award of a new car to the UNB student who most accurately predicted the percentage of donations in the Blood Drive of the last two days. The campaign was so effective that the clinic was flooded with students every minute it was open. Red Cross directors stated that it was one of the greatest rushes they have ever experienced at their clinics.

The strength of the publicity induced the Brunswickian to print a special issue in the campaign for blood on the campus. UNB is enrolled in the Canadian Collegiate Corpuscle Cup race and through the advantages of Canadian University Press were able to present a coast-to-coast survey of news stories and editorials on the subject. The issue, printed in blood red ink, came out on Monday of this week

Vol. 73 FREDERICTON, N.B., FEBRUARY 26th, 1953 No. 17

POLICY CHANGE . . .

With the publication of this issue the Brunswickan undergoes one of its greatest changes of the past few years. The entire editorial, news and make-up policies of this paper are hereby conforming in the best tradition of journalism. The Brunswickan stands on the brink of an abyss. For better or worse, it shall be a bold newspaper, first, last and foremost.

Our greatest change has been in the quality of newsprint. The Book Paper used previously cost the Brunswickan \$15.00 more an issue — 20 issues meaning \$300.00 and this broken down into students' funds is a cool fifty cents per student per year wasted on "tony" appearance that is used only by two other college papers in Canada.

The editorial staff of the Brunswickan has extended its news coverage with an eye to more news stories of shorter length. The news departments now has two deadlines a week — Thursday and Sunday at seven in the evening. This is the first in the series of scheduled moves to publish the Brunswickan at least a day earlier than at present.

The make-up and layout department has also undergone a thorough remodeling to increase the versatility and to enable both the printers and editorial staffs to work in closer co-operation.

The sports department now has the services of an increased reportorial staff to further its coverage of campus sports.

So with the publication of this 17th issue of the Brunswickan the vast change has begun. Your criticism and suggestions are welcome, and although it is too late in the scholastic year for the students to plunge into a sea of journalism, we are meeting every Thursday and Sunday nights on the campus and any new faces (male or female) will be a decided asset for our expansion plans next year.

POLICY UNCHANGED

Saturday night will undoubtedly go down as the greatest lack of co-operation between city and students in the history of Fredericton. The SAC have been doing a most admirable job in their campaign for European Relief Funds. They had been planning a dance on Saturday night. They had rented the Armouries. They had paid advertising in the papers. They had spent over 20 minutes of radio time. They had posted placards.

Then the Gyros stepped in. With complete lack of thought and with great personal selfishness they insisted in running a dance in the hotel. Times are pretty tough all over when charity has to charity.

POLICY CHANGE NEEDED

Our beloved SRC spent 3 minutes on one part of "minor importance" and 30 minutes on one of "major importance" last Thursday night. Thirty minutes to decide whether or not they should delete the following words: "for the Year in which he holds office." Three minutes to allow the AAA unlimited power over 50 to 65 per cent of the student monies. The only restriction the AAA has as of last week is ARTICLE XI section 15: "No varsity sport can be eliminated or introduced without SRC consent" It was wonderful vagueness

So I now present a budget to the AAA for next year:
FOOTBALL 49% of allotment
HOCKEY 49% of allotment
THE WONDERFUL REST 2% of allotment
May the Student Council live so long.

**The Diary
of
Samuel Johnson**

Feb. 16 morning by candlelight and down to the government store to purchase ration allotted to celebrae Flounder's Day up the hill. Mulligan Stew did not pronounce politics till eleven in the Bushman's Building so to bed with hot water bottle and long straw. Stirred at three in the afternoon, waltzed up to see President of U.N. Bee Keeper's Falsiegirl palm off old penny to her maximity's Representative. Despite growls of the populace education comes pretty cheap to muster but one penny a year. Also stared in amazement at plack posted inside "Ye oldest universite building in Canada et al. Has come to mind that National Historic Site Monuments are nailed up outside for tourists to see: Will propose at next meeting of senate that main lobby of building be paved so tourists will not have to descend carriages to read plack.

Feb. 17 Woke with a start at noon horn having conveniently missed classes this past morn. Shall explain to Wimsey, Green Glass and Sheet that was up late celebrating 48th unbrithday of year. A solimne occasion. Schedule shewed afternoon off so ventured into mock parliament to see Hoot-mon Llemming mutter at disgruntled opposition. I thing that I shall rent him to sing me asleep 'twas such a ribald lecture. Have sent a letter post-haster to her monstrosity today.

Feb. 18 Saw Bailey of Capitol Cleaners sniffing around Miladies Beaver-board Sweatshop at an unholy hour this morn. Biley has the far-fetched idae that Bad Mittens will be played here this day. 'Tis a pity that Biley is so Guiley. Was, so dissolute celebrated 49th unbrithday at Phlemmings Pharmacy for the rest of the day

Feb. 19 Up betimes at the hour of seven (in the evening) and down to Students' Farcila Meeting. They spent but three minutes on monies of AAA, and argued 30 minutes over small detaille such as "for the year which he holdsoffice. "Hurragh for the Year." they are Wirried about. Sharperoute was in the chaire and his 2 IC Long Two was the greatest ever. His minutes were momentous . . . he still does not know who Bent Pinley is. I think that he shall replace Hootmon as leader of something or other. I know not what.

Feb. 20 Friday Fish Day, I shall abstain from everything but liq-u-know-what. The Ice has gone out of the harbour so will have to celebrate. Ame stille resuperating from the momentous meeting of the Regressive Consummeys. Their Campaigne funds being mostly liquid. Understande Simple Simpson has been maide Maritime Vice of Regressive Consummeys a la Junior Miss Fashione. Have it on best authority that Simple will urge at mock parliament that the Maritimes succede. He has not learned. "Our Prime Minister knows what is best for us." Sinvent, Plowwing and Tick Topheavy are sponsoring a Smeare Booke and Herringe-Choker News Gambol at soldir's provinge grounds tomorrow eve so will get in lineups for the fiasco tonight. Will be armed with time-proven cough, colde, ague, spleen, atlete's feete, head ache, bile, liver and faulty vision remedy. Mixed up well these days by the Government. Will write note to Peanut Butter to congratulate him.

Feb. 21 Off to a roaring start Today. Is the Celebration of the last Saturday of the week. Also is the celebration of the first Saturday of the new week. Is most strange. Have will to go to some 16 classes to make up for the inconvenient appointments during the week. However as usual find that professors are all home resuperating from hard 5 day period of what is commonly known as "studentitis." Have reliable reports that phenomenon last only duringe months from September to May. Will recommend to Falsiegirl that students be given 12 months holiday and annual fees of 1000 lbs. to receive degrees.

Off in high dudgeon to watch Cod-fish Cavort. Topheavy featuringe a 3 piece orchestra — piano, stool and man. I've Been Boy and Crammer Girl there in full style. Puppydogs Tail not here — Saide he must keepe fit, live cleane and save his money for past bills in Phlemmings Pharmacy. Most of the fish looked like clams so home to bede at 7 in the morn and uncorked hot water bottle upon discovery that it was not Herrings but Helicopters Ball.

SLABS AND EDGINGS

Students next year will have two organizations towards which they can direct their vehemence at the way student funds are administered. As a result of last week's SRC meeting, student funds are now being administered approximately 50-50 between the SRC and the AAA. This contentious issue has brought about the first rift in the heretofore harmonious agreement between the Sawdust Twins. A short duel with the 2H pencils at four paces has settled nothing. Slabs maintains (he thinks-Edgings) rightly that the move is of benefit to everybody while Edgings maintains equally (he thinks-Slabs) rightly, that the SRC has lost jurisdiction of over 50% of their funds. What do you think?

All woods vary in weight. Balsa wood weighs 9 to 10 lbs. per cubic foot; Lignum vital weighs 88#s/c.f. Regardless of weight, if the cell wall structure of every kind of wood in the world was thoroughly dried and pressed into a solid mass, with cells flattened and the air excluded, each wood would be identical in weight—96#s/c.f. or 1 and 54-100 times an equal volume of water.

To the melodious strains of the "Old Grey Mare, she ain't what she used to be" we might sing "Our Old Block One, she ain't what she used to be." Truly, our favourite cruising area has had a face lifting under the supervision of Prof. Doug Long and Ranger School Director, Hank Blenis. We mentioned earlier in the year that forestry students were cutting fuel wood on the area. Here's the rest of the story.

Of Block #1's 105 acres, 20 are classified as productive. Species volume by % are: Spruce 60%, Fir 30%, Hardwood 10%. The average volume per acre before thinning was 15-20 cords per acre, and the average volume marked for cutting is 5-10 cords per acre. To haul this wood out of the Block there is approximately 2 miles of horse haul road, 1/2 mile having been cut this season.

About 50 cords have been cut so far this season, and within the next 2 years #1 should yield about 100 cords. The growth rate is about 1/2 cord per acre per year for a total growth on the 90 acres of 45 cords per year.

Besides supplying cheap fuel for the University Buildings and a little extra cash for the hard working students, this initial thinning is removing defective, diseased, dead over-mature, wolf, and undesirable trees from the area. The Forestry Faculty in general and Prof. Long in particular, are to be commended for carrying out constructive forestry such as this.

Heard a description on the Dauschand the other day. They said it was two and a half dogs long, a half a dog high, and good for Scottish farmers who want a dog that all six kids can pat at the same time. Reminds me of that good old song "gait along little Daiggle."

A story of knife and fork shooting of a bull moose appeared in a daily paper recently. The antlers are part of the renowned wildlife collection of Dr. O. E. Maunhouse. The story says that a friend of his was out for game birds armed with a shotgun and the customary shot. He saw the bull moose and he retired to the world of thought at once. He took the shot out of the shell and broke off the blade of his jack knife and dropped it down the barrel of his gun. A shot from twenty yards dropped the moose but left it full of fight. A piece of an iron fork from his emergency ration kit finished the job.

For some time now we've figured that the Residence was quite beneath our dignity. By a stroke of sheer genius we find that a physical fact does irrevocably place us above the level of the Residence. If you good readers would just care to glance (don't bother to read) below you can see for yourselves. You may rest assured, though, that we won't let this obvious superiority go to our heads. Ours will continue to be the same unpretentious column it always has been.

SIGMA LAMBA BETA RHO

For the past week, life within the Residence has been somewhat uneventful. In fact, a faint rosiness of outlook born of contentment seems to have enveloped many of the fellows, reducing their desire to do notable things. Since Spring is hard by, we thought that perhaps this rosiness did not in reality exist, but was merely a fake masterpiece produced upon peering through spectacles cleverly tinted by the mischievous nymphs of spring. To settle the matter, we cast about for concrete arguments to show that the atmosphere of satisfaction was real. We uncovered some convincing facts.

The most significant fact was the high standard of meals now enjoyed in the Residence. Jerry, our cook, deserves a D.F.C. (Distinguished Frying Cross) for his efforts. All others concerned with the preparation of meals must also be congratulated. Next we loosed our analytic minds on the condition of intramural athletics with regard to Residence participants. We found that our athletes certainly have good reason to feel satisfied. Two teams (water polo and basketball) lead their respective leagues, and the bowling and hockey teams are strong championship contenders. Then of course the International All-Stars — New Brunswick Noodles Basketball Exhibition is not far away and that would make anybody happy to be alive.

(Continued on Page 6)

Brunswickan to Save SRC \$300

Red 'n Black Set Show Dates

UNB (Special)—Officials of the Red 'n Black Revue today released the dates for their show. The annual Senior Class sponsored presentation will play the Teachers' College Auditorium on March 18th, 19th and 20th. Producer Sterling Shephard also stated that the show is all set and ready to go into the final rehearsal stage of production.

Rehearsals are being held every Wednesday evening at seven o'clock and at two o'clock on Sunday afternoons. The show will feature such old favorites as Ted Cleland, "Gunsmoke" Murphy, and the Girls' Chorus Line, which this year is under the direction of Mrs. Sheila Roberts.

Freshman Forester Jim MacDonald of Timmins, Ontario, will be the Master of Ceremonies.

R. E. D. Cattley Squadron Leader

UNB (Special)—The RCAF has announced that F/Lt. R. E. D. Cattley has been promoted to Squadron Leader of the local division of the University Reserve Squadron at the University of New Brunswick. Sqn. Ldr. Cattley's appointment has taken effect as of December, 1952.

Mr. Cattley is the incumbent professor of Classics at UNB. Professor Cattley announced this week that thirty-five UNB men are enrolled in the Air Force training systems. Twenty-eight students have joined the RCAF under the University Reserve Training Plan, one student under the Reserve Officers' Training Plan, two under the subsidized systems, two are faculty members, and two are from the Permanent Force. Prof. Cattley also emphasized that three girls, the first women in the Maritimes, are enrolled in the Air Force university training scheme.

Newman Club To Hold Elections

UNB (Special)—The Newman Club tonight announced that they will hold their annual election in the near future. At a regular meeting of the club this year's executive brought down their nomination for next year's slate of officers. The contests for the positions of Secretary and Treasurer are three man affairs, while two candidates are running for the post of President. The Vice-Presidency will be awarded to the loser in the run for presidency.

John Carstairs and Frank Walton have been nominated for the presidency. Carstairs is a second year Business Administration student from Granby, P.Q., while Walton, from Moncton, is a third year Arts student.

Running for Secretary are Yvon Chatterier, a second year Mechanical Engineer from Shawinigan Falls, P.Q., Jacques Michaud, of Fredericton, a Freshman Forester; and Gerry Comeau, of Nigadoo, N.B., a Sophomore Civil Engineer.

The contest for the Treasury pits Ivan Roy, a Sophomore Forester from Pembroke, Ontario, against Gilbert Chaisson of Dugyville, N.B., a second year Mining Engineer, and Frank Bilodeau, first year Forester of Ottawa, Ontario.

"Book" Finish Unnecessary Waste

UNB (Special)—Routine investigation through the past accounts of the Brunswickan by the new editorial staff has revealed that fifteen dollars an issue has been spent to maintain the "book finish" on the paper. This amounts to three hundred dollars a year imposed on the funds of the UNB. Students' Representative Council, As of this issue, all remaining issues for the year will be printed on regular newsprint.

Spontaneous Fun at Spontaneous Varieties

UNB (Special)—The Spontaneous Varieties were held tonight, Friday, February 20, in the Memorial Building on the campus at eight o'clock. It was one of the greatest unrehearsed efforts of students and faculty presented to the undergraduates in the past few years. The programme consisted of eleven acts, all of extemporaneous nature.

Highlight of the evening came when Desmond Pacey and his Faculty Frolics presented their act, starring Frankie Toole at the piano and Davey Galloway as impersonator-in-chief.

NOTICE

If you will return the MacGregor tartan scarf (red, green and white) that you mistakenly took from the men's coat room on the second floor of the Arts Building between 9:00 and 10:00 last Saturday morning to the same place at the same time this Saturday or next Tuesday morning at the same time, I will return the MacDonald of Clanranald scarf that you left. There really isn't much difference since yours is just as warm, but MacGregor happens to be my family tartan, and the scarf has a great sentimental value. I am not a MacDonald.

It was revealed today that four years ago, when the Brunswickan was changed from newsprint to "book finish," there were two factors influencing this decision, the first of which was the desire on the part of the Brunswickan staff to win the Canadian University Press trophy for the best collegiate newspaper with a circulation under three thousand.

At that time there was small difference in the price per job lot quoted by the printers.

Today the Brunswickan is being published by a new printer in Fredericton. Through a contract with the University paper he has been forced to print the Brunswickan on the best paper available. Under a new agreement with the editorial staff the Brunswickan will be coming out once a week on regular newsprint.

Dirty Dungs at Dungaree Drag

UNB (Special)—On Friday night the Sophomore Class will hold their Annual Dungaree Drag in the Lady Beaverbrook Gymnasium. The Drag will start at nine o'clock.

Admission to the drag will be 50c per person all are requested to wear dungarees. A prize will be given to the wearer of the dirtiest dungarees. Free refreshments will be served during the evening.

Helen Howie will be in charge of refreshments, Don Shorten will be at the gate and Pete Trueman and Dave Russell are in charge of decoration.

NEW COUNCIL SLATE NAMED LAST NIGHT

UNB (Special)—The names of the new Students' Representative Council were released late Wednesday night by the returning officers. In as president is Dick Ballance by virtue of a 15 point margin over Laurie Coles. Only 62% of the campus turned out to exercise their vote.

Other members to be sworn in are Keith Waddell, Senior Rep. and Marg MacNaughton, Don Merrill, Don Shorten, and Pete Trueman as Junior Reps. In as class representatives are Bill Reddin, Junior President, Joanne Corbin, Junior Vice-President and Secretary-Treasurer Marg MacNaughton.

UNB HOOPSTERS DUMP TOMMIES

ABERNATHY POTS 25 POINTS

UNB (Special)—The University of New Brunswick's Men's Varsity Basketball Squad made its second last stand in the N.B.-P.E.I. Intercollegiate playdowns last Friday night and whipped St. Thomas of Chatham by an easy 60-47 score. It was a great outing for two men of the UNB squad. Ronan driving up and down the floor like an unleashed cyclone finally found his element and scored 13 points. Abernathy also found the range and was deadly all evening. His hook shot was good for 25 points on the Chatham floor.

The game opened very slowly as both teams traded shots through the first quarter. Chatham broke into the scoring first on a shot by O'Brien but he was soon returned the compliment by Abernathy of UNB. At the quarter UNB lead by one point, 8-7.

UNB found the range early in the second quarter as baskets by Burley and Abernathy began to salt the game away for the Red and Black. O'Brien of Chatham was spectacular during the first half matching Abernathy with 11 points.

Two quick baskets by Abernathy at the end of the second quarter put

Chatham five points behind at the whistle, 23-18.

The second half was an entirely different game for both teams. Ronan carried the mail for UNB, scoring 13 points, all in the second half, only to be topped by Abernathy with 14. Both UNB scorers carried on a scoring duel with Grant, McMullin, O'Brien and George. Aided by Gorman, UNB pulled away easily for a three quarter score of 42-35.

In the last stanza Abernathy and Ronan completely controlled the game and sewed up Chatham for a 60-47 score.

FORESTER 321's OUT OF PLAYOFFS; ENGINEERS TAKE ARTS BY 3-2

UNB (Special)—The semi-finals got under way at York arena last Sunday afternoon with all eight teams seeing action, and anyone who was there witnessed the greatest upset of the season. The unbeaten Foresters 321's went down to their first defeat of the year as the Engineers 12's nosed them right out of the playoffs with a 1-0 victory. It was a close hard game, and although the engineers gained the nod, they were definitely outplayed on many occasions by the high flying Foresters. But, the lapse in their high flying was just long enough for Ferguson to break through and put the puck behind Otto on an unassisted effort. Three minor penalties were called in the game, two to the engineers.

The steadily improving Residence crew took on the Science squad, but the latter proved to wither under their opponents' drive, and the Science team found themselves on the short end of a 3-1 count when the game was over. For the winners, Patterson blinked the red light twice, while Tompkins picked up the third counter. Needler of the Science team prevented them from a shutout as he found the range and netted the puck behind King. Three penalties were called, two going to the losers.

The Engineers 34's eked out a close one over the Artsmen by a 3-2 count and earned the right to continue on into the semi-finals next Sunday. Dee picked up two goals for the winners, and Webster counted for the other. For the losers, both tallies came off the stick of Jones. Only two penalties were called in the game, one to each team.

The Axemen went on a scoring spree today as they pumped nine goals past the bewildered St. Civil's goaltender, and the scoring was split up among seven different players. Elliott and Shearsmith each dented the twines twice, while singletons went to Hyslop.

Hatcher, Wagar, McLaurin and Trambley, the latter's coming from outside the blueline. There were only minutes remaining in the game when Donkin stepped out of the penalty box and picked up the puck and fought his way into the Axemen's zone to put the puck behind Sheppard and spoil his shutout bid.

Four minors were called during the contest, evenly split between the two teams.

In the semi-finals next Sunday, The Engineers 12's will meet the Residence team at one p.m. and at two the Engineers 34's will tangle with the Axemen.

In the consolation series, the Foresters 321's will meet the Science team at three p.m. and the final game of the afternoon will see the Artsmen against the St. Civils.

Special — Intramural Hockey. Arts team has defaulted in the consultation series and the St. Civils will draw a bye into the finals of that series.

St. Dunstons to Play UNB Varsity

UNB (Special)—This Saturday night in the Lady Beaverbrook Gym, UNB will be hosts to St. Dunstan's University from "the island." UNB will be out to avenge the 93-43 drubbing handed them by St. Dunstons the last time the two teams met. Although UNB has no chance to make the playoffs, and this is their final game of the season, the boys will be out to show St. Dunstan that they can play a much better brand of ball than was displayed before. The boys "from up the hill" have been showing a vast improvement lately, and on the strength of their win over the Tommies last week, it should be quite a game. St. Dunstons are reputed to have the best team in the Maritimes this year, and have showed some very impressive scores over the season.

Attendance has been rather poor at home games this year, and it by no means encourages the hoopsters, so how about showing the players that UNB is behind them all the way. Game time is scheduled for 8:30, with a preliminary between Woodstock High School and Fredericton High.

Co-Eds at Mt. A.

UNB (Special)—This Saturday, the high flying UNB Co-eds are visiting Mt. A and will be out to show the Garnet and Gold that they can beat them again, and this time on their own floor. The UNB girls took an impressive 37-24 win from the girls from the "marshes" last time they met, and a win for the Co-eds Saturday night will mean an NB-PEI title; something the boys have failed to do in any of this year's winter sports. If the Co-eds copy Saturday's game, they will advance to the Maritime Intercollegiate finals against the N.S. winners.

As Seen from the Bleachers

— By The Spectator —

Perhaps we are a bit late, but the very nature of this piece warrants even belated comment.

The subject of our attention this week pertains to the recent ice tussel between the Tommies from Chatham and our own Red and Black clad puck chasers. Now, we will concede to those who were present, and inform those who were not, that the game itself provided ample sources for a critical column, as neither team showed much in the way of actual hockey, but it is not in this light that we are directing our attack. To the contrary, we are completely overlooking the brand of hockey exhibited in favour of the caliber of refereeing, or rather, the complete lack of any caliber in the refereeing.

Here again, as has so often been the case in the past few years, we seem to be uncovering another of the MIAU's far too frequent short comings. As we understand it, this questionable body issues lists of qualified referees from which these for specific contests are chosen. If this be the case, then what we would like to know is, how the names of the two who officiated at the game in question ever were allowed to adorn this supposedly adequate list.

High sticking, slashing, tripping, boarding, elbowing, and all other little tricks of the trade which one could mention were the order of the day, and to a large degree were of the deliberate nature, and yet all went seemingly unnoticed by the officials. Even the malicious swinging of sticks at opponents' heads completely escaped the attention of those RECOMMENDED by the MIAU. The few infractions which were called gave one the impression of being of the conscience-relieving type, or forced by the constant uproar of the crowd. With fights breaking out more numerous than completed passes, it looked for a while as if the contest would develop into a general free-for-all, and even then the boys in white seemed entirely oblivious to the actions surrounding them. The fact that the game did simmer down in the third period and take on a closer resemblance to hockey was not the fault of the referees, but more attributable to the players themselves. All in all, the complete inefficiency of the officials was a disgrace to the game of hockey, and even more so to the MIAU.

What is the solution? Well, as I have said before, and will say again, it is about time someone did a little investigating in that the MIAU is unable to provide proper protection under such circumstances of the MIAU. They have functioned in an inadequate and totally irresponsible manner long enough.

Then, if it found that this body is actually putting out a maximum effort and still cannot meet its obligations in a competent manner, such as providing capable officials for the type of contest as we witnessed here, I would make the suggestion that UNB refrain from competition with clubs that find it necessary to play in such a manner. It is true that hockey is a fast and rough game, but the deliberate tripping of an opponent and swinging a stick with direct aim at one's head have no place in such a slam bang atmosphere. Such antics are bad enough with top referees on the ice, but when they go unnoticed and are allowed to prevail, then it becomes foolhardy to compete.

After all, it is better to withdraw from the chance of winning a trophy than to have a player lose an eye from a flying stick, or become permanently injured through unsportsmanlike conduct. If the MIAU is unable to provide proper protection under such circumstances then we should avoid such circumstances.

No, we don't mind roughness, but we hate deliberate attempts that could lead to injury and total lack of competency on the part of officials and governing bodies — and this view is not held solely by the Spectator.

UNB Curlers Tie Lawyers

Two UNB curling rinks travelled to Saint John last Friday afternoon to play against UNB Law School rinks. Making the trip were rinks skipped by Bill Cockburn and Dave Bradshaw. The Cockburn rink made up by Irvin Mitton, Ian Whitcomb and Weldon Graeser played against Don Levesque's Law School rink. The match, a thriller to the last stone, ended in a 7-7 deadlock as the siren went announcing the end of playing time.

The Bradshaw rink, consisting of Norris Carroll, Dale MacMurray and Dave Graham came out on the losing end of a 11-5 score in a game against Terry Kelly's Law School rink.

Plans are being made for UNB rinks to participate in the Maritime inter-collegiate bonspiel to be held in Halifax on March 13th and 14th. The Dalhousie University Curling Club is sponsoring the bonspiel.

The curling budget partially covering

Intramural Hoop Results

UNB (Special)—On Wednesday the 18th, the following were the results in the Intramural Basketball league. The Res. Scrappers beat out the Jr. Engineers by a 40-33 count. Webster was high point getter as he netted 16 points for the Engineers. For the Res. Scrappers, Fowler was high man with 14 points, followed closely by Cockburn with 13.

Arts and Science were the victors over the chemists as Briggs netted 15 points for the Arts and Science crew. For the losers, Manson had seven and close on his heels was Edwards with six.

On March 25th the Divisional winners will play off for the championship with a two out of three series.

the cost of intramural curling was passed at last week's S.R.C. meeting. Skips are asked to collect fees from their rink members as soon as possible.

ADVICE To A Young Man

In getting jobs — and promotions — the man who can offer the employer just a little more than the next fellow has a big advantage.

That's why personnel experts say one asset you can never neglect is your appearance. If you look like a young man on his way to the top, you have a better chance of getting there. Our job is to help you.

Mt. A. COPS BADMINTON MEET

Last Thursday the Lady Beaverbrook gym was alive to flying shuttlecocks, as the M.I.A.U. Badminton tournament took place during the day. Play got under way at nine in the morning, but was delayed for a short period when the Acadia team failed to show up and couldn't be located within the city. However, it was a very successful meet, and several exciting and very close matches were run off. During the morning, spectators by the handfuls drifted down to the gym to witness the matches, and student interest on the whole was at a very low level.

Mount A. walked off with the honours as they gathered a total of 19 points, while U.N.B. placed second with a total of 11 points.

In the morning play, all winners were declared and in the afternoon, the teams of the various colleges got together and held a mixed play meet.

In the morning tourney, the Ladies' singles crown was captured by Waverly Matcham, Mt. A. and the Men's singles was taken by John Merrit of NST.

In the doubles event, in the men's category, U.N.B. walked off with the honours as Jim Strickland and Jerry White upheld the red and black colors. Mt. A. came back again to cop the Ladies' doubles as Phyl McGowan and Catherine Logan shone on the court.

One of the best matches of the day was that between Norm Jeffreys of U.N.B. and Mills of Mt. A. Play was fast and furious and many well-played rallies were seen.

Team points in various events:

- Ladies' singles:—Mt. A. — 5.
- Dal. — 3.
- U.N.B. — 1.
- Ladies doubles:—Mt. A. — 6.
- Dal. — 3.
- U.N.B. — 0.
- Men's Singles:—Mt. A. — 2.
- N.S.T. — 6.
- U.N.B. — 1.
- Men's doubles:—U.N.B. — 9.
- Mt. A. — 6.
- N.S.T. — 1.
- St. Mary's — 2.

The G. E. Lester trophy was won by Mount Allison and the Mercer trophy was copied by John Merrit of Nova Scotia Tech for the winning singles.

Team Standings:

- Mount Allison 19
 - U.N.B. 11
 - Nova Scotia Tech. 7
 - Dalhousie 6
 - St. Mary's 2
- The University of New Brunswick was represented by Margot Roach, Joan Goodfellow, Dorothy May, Jim Strickland, Norm Jeffreys and Jerry White.

A.A.A. to Handle Own Funds

Last Thursday night the SRC amended their Constitution so as to make provision for the new schedule of managing the A.A.A. funds. A special committee decided unanimously that the present system was inadequate, and that the AAA should be responsible for the distribution of funds falling under their jurisdiction.

The recommendation is that the S.R.C. constitution be amended as follows:

ARTICLE IX.

SECTION 13—The S.R.C. shall grant to the A.A.A. a sum of money not less than 50% and not more than 65% of all revenues excepting the S.R.C. surplus of the preceding year.

SECTION 14—The S.R.C. shall decide on the exact percentage of the funds at its final budget meeting in the fall. This decision will hold for the entire school year.

SECTION 15—If deemed desirable by the SRC, the SRC may ask the A.A.A. to submit supplementary budgets during the year; the total sum paid to the A.A.A. not to exceed the 65% limit as laid down in Art. IX, Sect. 13.

SECTION 16—Any funds unspent by the A.A.A. shall remain in the A.A.A. account as a reserve for contingencies.

SECTION 17—The treasurer of the S.R.C. will handle A.A.A. accounts in a separate book.

SECTION 18—The treasurer of the S.R.C. will see that a monthly finan-

SPORT-LITES

If you have been wondering what provides the incentive for Jack Kramer and his professional tennis employees, Frank Sedgman, Ken McGregor and Pancho Segura in their World Tennis Tour matches, the boys themselves can supply you with the answer to that one.

"The almighty dollar keeps us going all out, all the time," says Promoter Kramer. "Our future success in the professional tennis business rests entirely on how well we play this tour. To win means everything; to lose means we are out looking for new jobs."

To clarify Mr. Kramer's statement, let's look into the problems of a pro tennis promoter and his hired hands.

First of all, there is an old saying which says, "to the winner go the spoils," and this is especially true of pro tennis. The winners of the present Kramer-Sedgeman matches and the Segura-McGregor contest will be the top dog in next year's tour. The public won't pay to see inferior matches, they want to see the top pros playing the previous season's best amateurs so the losers will be out of a job.

Kramer, who realizes this better than most promoters of the past says, "In this business you win or get out. If Frank beats me on this tour, he'll be the top player next year and the public will want to see him play the leading amateur who turns pro."

Promoter Jack goes on to say, "Tennis fans want to see a tour of the leading pros and the best amateurs of the previous season. That's why every match on this tour counts."

It hasn't been much of a chore for Jack to keep his hired hands going at top speed since the tour opened January 6th. The problem for him has been to slow down young Sedgman enough to keep him within striking distance of him. Sedgman so far has proved to be Kramer's master, at least during the first part of the tour. Of late, Kramer has been edging closer to his newly turned pro opponent.

Jack hasn't any trouble convincing Sedgman that the only way to play pro tennis is to play your best at all times. Frank apparently knows the value of money and he's been travelling at top speed since he stepped on a pro court for the first time a few months back.

The same holds true for Pancho Segura. The colorful, two-fisted star from Ecuador has practically run away and hid on McGregor, holding a commanding lead on the number two Aussie after the first month of play.

cial statement of the A.A.A. is given to the A.A.A.

SECTION 19—Apportioning of funds within the A.A.A. shall be under the jurisdiction of an administrative body as laid down in Article II of the AAA constitution.

SECTION 20—The A.A.A. shall present a financial report to the S.R.C. after its (the A.A.A.) budget meeting showing a breakdown of the apportioned funds.

ARTICLE XI

SECTION 15—No varsity sport can be eliminated or introduced without S.R.C. consent.

All sections of the recommended amendments were passed by the council and now are incorporated into the S.R.C. Constitution.

McGill Takes Two Canadian Crowns

McGill (CUP)—McGill is celebrating two Intercollegiate victories today. Their squash men swept their tri-ouney with Western and University of Toronto, winning nine out of ten matches played.

Ted Reid, Berie Gordon, John Leeson and Jacques Lenoir, led the collegians' fencing team to the Intercollegiate Championships for the third straight year by defeating the University of Toronto crew, 28-20.

Ted Reid copped all the individual honours of the tournament. He became the new Intercollegiate champion, winning all twelve matches that he played. Reid was awarded the trophy for outstanding style, skill and sportsmanship; he also was voted as the outstanding fencer of the match.

BALLANCE NEW S.R.C. PRESIDENT

BALLANCE ADMITS EVERYTHING

In order that students at UNB will not consider me to be the perpetrator of a terrible hoax, I feel it is necessary to give some details about the Ford that was raffled in conjunction with the Blood Drive. Since this letter is being written before the drive takes place I can only say that I sincerely hope that our promotion idea was successful; by Brunswickan publication time UNB should be the proud possessors of the "Corpuscle Cup."

About the Ford; it is exactly what it was listed as in the special edition of the Brunswickan, a MODEL Ford. At no time was official information released that stated the car was anything but a model. At no time did I DENY that the car was not a full size automobile. No one has been misinformed, but many have jumped to a wrong conclusion.

The cost to the Students' Council has been small, only the cost of a special edition of the Brunswickan. This is indeed a small price to pay for a Canadian Championship! There may be a few students who are disappointed or whose feelings are slightly hurt. Hurt feelings and disappointment are prices to pay when one considers that a life may have been saved by a donation of blood.

I ask you, therefore, to consider this not as a hoax, but as a tremendous promotional stunt — I hope that it has been a success.

Yours very truly,
DICK BALLANCE
Chairman
Blood Drive Committee

Birks to Offer Gold Leadership Medal

UNB (Special)—Henry Birks & Sons of Saint John have offered up a gold medal to the University of New Brunswick for the student up the hill who shows the greatest qualities of leadership during the year.

The proposed medal will have the following words struck on it:

"BIRKS MEDAL FOR LEADERSHIP"

The University has turned the proposal over to the Student Council of UNB. It will be brought up at Thursday's meeting.

With the proposal, the Executive of the Students' Council has added several recommendations to be discussed in council.

It is recommended that a board of seven members, composed of the Faculty Advisor of the SRC, the president of the SRC and the presidents of the classes of UNB be set up. Should any one of these persons be recommended for the medal, his position will be taken by the Vice-President of the SRC or the class affected. Similarly if the Vice-President is also recommended, the person holding the next most important position will be a member of the committee.

No Posters - No Candidates - No Voters

UNB (Special)—Next year's council will be packed with candidates winning by acclamation as one of the dreariest Council election races in years closed yesterday on the UNB campus.

Put into major posts by acclamation were Treasurer Bob Cass, 2nd year Electrical Engineering student and Secretary, Don Thornton, 2nd year Forester. One Senior class representative was acclaimed: Noreen Donahue, Civil Engineering. She will take her post immediately.

The Intermediate class was completely nominated by acclamation; Gordon Baskerville, Jack Foote, Arthur Hobbs, James Purcell. All four are Foresters.

The Sophomore class representatives were also installed into the council by the same route. These are: Jack Lister (F), Dorothy May (Sc) and Fred Drummie (Sc).

Only three nominations were received for the four Sophomore posts.

AAA Executive Del Gallagher received the presidency by acclamation. Del is an Arts Student.

Five Get Scholarships

UNB (Special)—Five UNB graduates have been awarded Beaverbrook Overseas Scholarships for 1953, Dr. A. W. Trueman, university president, announced today. The students will sail for Britain in September to do a year of postgraduate study at the University of London at the expense of Lord Beaverbrook.

Only two of the five scholars are now on the campus. They are Don McPhail, well-known postgraduate student in economics, and Ron Kelly,

who is completing his final year of his Ph.D. program in the chemistry department this year. Other winners are Donat J. Levesque, of Edmundston, a senior student at the Law School in Saint John, E. James Tarlton, of Fredericton, who is presently completing his Ph.D. in chemistry at Harvard University and Dr. Donald E. Smith, formerly of Saint John who is doing post-doctoral duty in medicine at McGill.

Each of the five winners will do advanced study in his special field at London.

Juniors Pay

The Junior Class has decided to pay a debt which they incurred in the Fall of 1951 as the Sophomore Class. In that year's Freshman Week activities, extensive damages were done to a throne chair and valuable table on the stage in Memorial Hall . . . the Sophomore Court, which has since been abolished from initiation activities by the S.R.C. At the time the university authorities decided that the responsibility to pay the damage should rest with the Sophomore Class, the organizers of the Court. However, Business Manager B. F. Macaulay left the collection of the fifty dollar reimbursement in the hands of the Sophomores themselves.

Immediately a collection campaign was undertaken by the class executive, headed by president Frank Walton. After wrangling over a period of seven months, twenty dollars was collected.

The matter was dropped until recently when Junior Class President Don Fowler called a meeting to decide what should be done with a profit of almost fifty dollars which had been made on last Fall's Junior Barn Dance. It was decided to turn thirty dollars over to the previous year's executive to make up the balance of the fifty dollar debt. A cheque for this amount will be presented to Mr. Macaulay on Friday, February 27, 1953.

The remaining twenty dollars was appropriated towards a Junior dance to be held in the future, with the proceeds to be turned over to the Students' Activities Commission for the Flood Relief Campaign.

FOUNDER'S DAY SUCCESSFUL

U.N.B. (Special)—One of the most colorful and traditional academic processions in New Brunswick took place last Monday, February 16, as the University of New Brunswick held its annual Founder's Day. The ceremonies were held in the Memorial Building on the university campus. Over fifty people, graduates and professors of the university took part in the festivities. The procession was noted for the colorful gowns which depicted all phases of academic life.

One of the highlights of the day, unprecedented in the history of U.N.B., was the meeting of three university presidents, both past and present on the dias at the ceremony. Mrs. Gregg and the Hon. Milton F. Gregg, president of the university from 1940-44, Dr. N. A. M. MacKenzie, president from 1944-47, and Dr. W. A. Trueman, all took part in the ceremonies.

The climax of the ceremonies was the annual payment of the quit rent to the crown. Dr. Trueman, on behalf of the University, paid one Canadian copper to New Brunswick's representative of the Queen, Lieut. Gov. D. L. MacLaren as full payment of the annual debt.

The exact text of the presentation was as follows: Dr. Trueman: "Your honor, on behalf of the University of New Brunswick, being the rightful

heir and successor of the governor and trustees of the college of New Brunswick, I do present to you this money which is given in commemoration of the payment of the annual quit rent of one farthing for every hundred acres granted to the said college, and payable each year at the feast of St. Michaels Day to His Majesty, King George III, his heirs and successors forever."

The acceptance speech by Hon. D. L. MacLaren was: "I do receive this money, payable according to the terms of the grant to the governor and trustees of the College of New Brunswick, pursuant to the granting of the charter to the said college on the twelfth day February in the year one thousand and eight hundred, being the fortieth year of the reign of His Majesty, King George III."

SIGMA LAMBDA BETA RHO (Cont from Page 3)

...In case you decide to enter the Residence lounge at any time, let us give you a few words of caution. You will see a few tables set up in the lounge, and gathered around them will be young men of every description. They will have in their hands rectangular pieces of pasteboard and they will be grunting spasmodically at each other, and cursing occasionally. They are not Yogis in an endurance contest, but bridge players. If you hear an answering bid of "Three no hearts," in a Polish accent, that is Sozanski trying to halt his power-happy partners. Leave quickly or you may be caught in a double finesse from the board or a half-nelson. It means ninety below the line for somebody, but it may kill you.

A meeting of the Residence Society was called last week by President Jack Cassidy. The main object of the meeting was to determine the feeling of the House members concerning financial donation to the S.A.C. Flood Relief drive. The House unanimously voted for a \$25 contribution. It was also decided to budget for a new ping-pong table as the old one has lost its liveliness, and will probably collapse on the next hard return. Floor lamps for the lounge will also be budgeted for.

Our Man of the Week award goes to Jerry White for his victory in the mens doubles event in the recent M.I.A.U. Badminton tournament held at U.N.B. Early reports have it that Jerry and his partner were magnificent.
