MILLER'S CANADIAN FARMERS' ALMANAC

FOR THE YEAR OF OUR LORD

1872. 9.

Being Bissextile or Leap Year, and until the 20th June, the
Thirty-fifth Year of the Reign of Her Majesty Queen Vic-
toria.

Calculated for the Meridian of Montreal, in Latitude $45^{\circ} 30'$
 $26''$ North, and Longitude $73^{\circ} 24' 22''$ West, from the Royal
Observatory, Greenwich, but arranged so as to serve without
essential variation for all parts of the Dominion of Canada.

EDITION OF THIRTY THOUSAND.

Entered according to Act of Parliament of Canada in the year of our
Lord one Thousand Eight Hundred and Seventy-one, by ROBERT
MILLER, in the Office of the Registrar of the Dominion.

Montreal:

PUBLISHED BY ROBERT MILLER,

397 NOTRE DAME STREET.

PRINTED BY JOHN LOVELL, ST. NICHOLAS STREET, MONTREAL.

EXPLANATION OF CALENDAR PAGES.

The Publisher of this Almanac, with a view to increase its circulation and usefulness, has adapted its calculations for the whole country. The Moon's changes are given for five different places, viz. : Quebec, Montreal, Kingston, Toronto, and London. The rising and setting of the Sun are given for Montreal and Toronto. The rising and setting of the Moon are given with sufficient exactness for all practical purposes. The weather prognostications are again calculated according to the table of the celebrated Dr. Herschel; and for extraordinary accuracy Miller's Almanac retains its wonderful popularity.

JANUARY.—Cattle will eat all that nature requires in a good warm barn, if it is judiciously fed to them, and they can have seasonable supplies of water. But nature will require more in an open barn, and still more in a cold yard. The fuel to feed the fires within will always bear a proportion to the cold atmosphere surrounding the surface of the body without, which is to be warmed in order to keep the creature comfortable. It is like placing a stove outside of the house to warm the circumambient air instead of placing it in your snug parlour. The extra out-door appetite is caused mainly by the extra exposure demanding extra. Hence, it is not difficult to find a reason for so many cattle looking lean and miserable in the spring.

FEBRUARY.—There is much more care taken now than formerly with cattle, and especially dairy cows, and it may be well to suggest that dairymen should never undertake to keep more cows than they have sufficient food for. Twenty cows, well fed, will yield more profit than forty cows kept poorly. Every farmer should be particular to select such cows as give the richest milk and which is likely to make good yellow butter. Be it remembered that it is no more expense to keep good cows than poor ones. To have good cows and plenty of good feed, pure water, comfortable barns, where they can be kept dry and warm in winter, with good clean places in summer, are pre-requisites to success in the dairy business.

MARCH.—We dare say you have noticed the inconvenience and trouble occasioned by not having a place for everything and everything in its place. For successful farming a great many tools and implements are required. We have often seen a great many of these scattered about, and very frequently exposed to all sorts of weather during a whole winter. This is very bad policy every way. Wood will rot and iron will rust by changeful atmospheres, and much time is lost by looking-up scattered implements and getting them into working order. Time is money, and depreciated property means loss of money. It will pay to have suitable places erected for the preservation of tools and implements.

APRIL.—Now for a few words about hens, eggs and hatching, not forgetting that it is a profitable business if properly attended to. For hatching, reject imperfect eggs, whether small, thin-shelled or out of shape. Twelve or sixteen eggs may be given to a good-sized hen. Mark them with a circular ink line, so that other eggs which may get among them may be removed. Keep them in a warm place, and where they will not be disturbed by other hens or dogs. A hen that does not hatch her eggs should be discarded as incompetent. Eggs that are desired for hatching should be carefully handled. If laid in cold weather, let eggs be gathered by sunset, as their vitality will be destroyed by undue exposure.

MAY.—In reference to breeding horses, it may be well to remind you that the progeny will inherit the united qualities of their parents. The good as well as the bad qualities will descend from generation to generation. Be careful of the parentage both of the sire and the dam. Let the essential points be good on both sides. If there must be some minor defects in the one, let them be met and overcome by corresponding excellencies in the other. Breeding mares should not be in the full vigor of life. Farmers are often tempted to part with their best mares, and then to breed from creatures of an inferior quality. This is very bad policy, and introduces a lot of poor animals that never bring a good price, because of their inferiority.

JUNE.—Cucumber vines, melons, squashes, &c., are often destroyed by a bug with a striped back. The insect is not new or strange; we ended their depredations by a very simple method and without expense. When the bugs or flies made their appearance we sprinkled the vines with chamber lye, two or three mornings in succession, or as long as we perceived them about. A moderately plentiful shower will not injure the vines, but rather give them a healthy stimulus. The remedy has been invariably successful. It appears as though the vexatious creatures were vexed with the odoriferous and other qualities of the lye shower, and either die or seek a continuance of existence by other means.

JULY.—There have been frequent discussions as to the best method of having horses kept in good condition during the working season. It is said that there is no better medicine to keep working horses in good condition during summer than a bite of grass. Horses that have such slow work as ploughing are better out in the field at night, where they can get such grass as will keep them feeding half the time. They should, however, have their regular feed in the stable before being turned out, as the grass will not answer in the place of more substantial feed. Never let a work horse spend the Sunday nor holiday in the stable. Turn him out. The extra cleaning he may require by reason of rolling in the mud, will be all the better for him.

AUGUST.—It is not often that anything can be said in favor of weeds; but for the *smart weed* much may be said. It is almost a sure remedy against colic. Steep and drink the same as any other herb tea. We mention it here to say that it is worth five dollars a hundred for a stock of cattle, if it is cut and cured when in full bloom. Give an ox, cow or horse one pound per week during the time they are feeding on dry hay, and it will keep their bowels and hide loose. It is an excellent physic for horses, and they will be kept clear of bots and worms by giving them one pound a week of *smart weed*. It has been stated that horses will eat it sooner than the best of hay. As, however, we recommend it only as medicine, we prefer to give it when deemed necessary.

SEPTEMBER.—Considering the very great value of parsnips, it is surprising they should be so little cultivated. The seed is slow to vegetate and may be advantageously sown in the fall, and then in the spring they will be among the first to shoot forth. The seed is rather improved by winter burial. They should be sown wide enough apart to afford space for working the ground that will have become sodden or pressed down by snows and rains. On the island of Jersey parsnips are said to yield from thirteen to twenty-seven tons to the acre—sufficient to support twelve cows for six months. Parsnips contain six per cent. more nutriment than the carrot. Animals will grow fat thus fed. There is the advantage of leaving a part of the crop in dry ground during the winter.

OCTOBER.—We shall not charge anything extra for a piece of advice respecting balky horses. It is seldom right to whip, kick or scold a balky horse. One of the best modes is to feed him where he stands, with any accessible food such as oats, ears of corn, or even grass from the wayside, or hay from the waggon; almost any palatable thing for an emergency. Seeming to forget his whim, he will generally start without trouble. Or, do something new, but not startling, as for instance filling his mouth with dirt. He will be diverted by the effort to empty his mouth, and perhaps jog on. If one can spare the day, it is best to wait till, from weariness and hunger, the animal submits himself to you. This last is generally a complete triumph, but the other methods often effectually succeed.

NOVEMBER.—Henry Ward Beecher, writing on the subject of farming, after referring to the knowledge necessary, says: "Economy is hardly second to knowledge. A chemist who sells for ten cents a pound of articles which it costs him eleven cents to manufacture, the manufacturer who gets fifty cents for carpets which cost him fifty five at the loom, will soon shut up shop. The farmer must get his goods to market at a cost to himself much below the market price, or he will soon enjoy the luxuries and amenities of the poorhouse. It is at this point that fancy farming fails. It is not difficult to raise prodigious crops if one manure his land with dollars. But to produce large harvests cheaply, and keep the soil in good heart, requires no mean order of talent."

DECEMBER.—Mr. Beecher also properly says: "A farmer may be frugal and exceedingly careful of expenses, without being either stingy or narrow-minded. Economy is not merely a convenience, but a virtue and a duty. Not only farmers, but mechanics, young business men, and every body, should cautiously stop up all leaks. It is leakage that impoverishes the mass of men. The little spent for rum (and not a very little either), the little more for tobacco, the little more for a spree, the little more for temper, in a lawsuit; the little more for vanity and a show off; these explain a man's poverty." Mr. B. recommends frugality towards the passions, and liberality towards the higher nature. An industrious, moral man can afford to supply himself with books and papers. We have often given advice to this effect.

DOMINION OF CANADA.

SEAT OF GOVERNMENT, OTTAWA.

Governor General—The right Honorable Baron Lisgar of Lisgar and Baillieborough in the county of Cavan, Ireland, Governor General of Canada, &c., &c., &c.

A schoolmaster tells the following good story: I was once teaching in a quiet country village. The second morning of the session I had time to survey my surroundings, and among the scanty furniture I espied a three-legged stool. "Is this the dunce block?" I asked a little girl of five. The dark eyes sparkled, the curls nodded assent, and the lips rippled out, "I guess so; the teacher always sits on it."

BOTS IN HORSES.—Some fifteen or eighteen years ago, my brother and uncle opened a horse which died of the bots, and found the stomach completely honeycombed, or rather colandered; so they instituted a couple of experiments on the vermin. First they put some spirits of turpentine in the half of a clean-shell, and put one in, which made him very lively for a little while, but he soon gained his usual composure, accommodating himself to the element in which he was. Next they cut a medium-sized potato in two and put one on it, and before it could wriggle off, Mr. or Mrs. Bot was dead. You and your readers can take this for what it is worth.—*Cor. Country Gentleman.*

HINTS TO BOYS AND GIRLS.

1. Never look over another person when he is writing a letter, or reading that which does not concern you.

2. Never enter another's room. Have you special business? knock gently at the door, or ask permission to enter.

3. Never select the best articles of food at the table. Wait till you are helped. Be modest, polite, temperate.

4. Never ask trifling or foolish questions, or inquire about things with which you are already familiar. "A fool's voice is known by a multitude of words."

5. Never speak unless you have something to say—think twice before you speak once. "In the multitude of words there wanteth not sin: but he that refraineth his lips is wise."

6. Never dissemble, feign yourself sick, or asleep, or unwell, to avoid correction or some unpleasant thing. This is a species of lying, for which the Lord will not hold you guiltless. "Keep thy tongue from evil, and thy lips from speaking guile." "Put away from thee a froward mouth, and perverse lips put far from thee." "Lying lips are an abomination to the Lord."

USEFUL RECEIPTS.

To Remove Ink Spots from Linen.—Saturate the spot with lard, and expose for a day in the hot sun: then wash and boil without soap. Fruit stains should also be washed without soap.

To Wash Merino Stockings.—The same method should be pursued as for flannels and all woollen and cotton goods. Boil the soap to make a lather, wash them in this warm, and rinse them in a second lather (in white, mix a little blue). Never rinse in plain water, or use cold water.

To Drive Red Ants from the House.—Drop some quicklime on the mouth of their nest, and wash it with boiling water; or dissolve some camphor in spirits of wine, then mix water, which has been found effectual. They are averse to strong scent. Camphor will prevent their infesting a cupboard, or a sponge saturated with creosote.

Cleansing Varnished Paint.—In cleansing paint which has been varnished, there is nothing better than weak tea. All tea leaves from several drawings should be saved and boiled over early in the morning of the paint-cleansing day. If boiled in an old tin pail or pan, the tea can easily be strained off for use. Wet a flannel in it and wipe the oak-grained paint, and you will be surprised at its brightness. No soap is needed and no milk; the tea is the most capital detergent ever invented. Wipe the paint dry with a soft cloth; you will find that very little elbow grease is needed. White varnished paint is cleansed as rapidly with it as the grained.

To Cleanse Feather Beds.—When feather beds become soiled and heavy they may be made clean and light as follows: Rub them over with a stiff brush or broom, dipped in hot soap-suds. When clean, lay them on some clean boards where the rain will fall on them. When thoroughly soaked, let them dry in a hot sun for six or seven successive days, shaking them each day. They should be covered with a thick cloth during the night. If exposed to the night air, they will become damp and mildewed. This way of washing the bedticking and feathers makes them very fresh and light, and is much easier than the old-fashioned method of emptying the beds, while it answers quite as well.

MONEY ORDERS.

Every money order office in Canada issues money orders on every other money order office in Canada as well as on every money order office in the United Kingdom. Every money order office in the United Kingdom also issues money orders on every money order office in Canada.

MONEY ORDERS IN ONTARIO AND QUEBEC.

All the money order Post Offices in Ontario, Quebec and New Brunswick are authorized to draw money orders on each other for any sum up to \$100, and for as many orders of \$100 each, as the applicant may require, upon the following terms, viz., in Ontario and Quebec,

On Orders up to \$10.....	5 cents.
“ over \$10 and up to \$20..	10 “
“ over \$20 “ “	\$40.. 20 “
“ over \$40 “ “	\$60.. 30 “
“ over \$60 “ “	\$80.. 40 “
“ over \$80 “ “	\$100.. 50 “

MONEY ORDERS ON THE UNITED KINGDOM.

The money order offices throughout the Dominion also draw upon all the money order offices in England, Ireland and Scotland, and the Channel Islands, for any sum up to £10 sterling, and grant as many orders for £10 sterling each as may be needed to make up the amount to be remitted. The terms are as under :

On Orders up to £2	25 cents.
“ over £2 and up to £5..	50 “
“ over £5 “ “	£7.. 75 “
“ over £7 “ “	£10.. 1.00.

MONEY ORDERS ON THE LOWER PROVINCES.

The money order offices in Canada draw also upon all money order offices in Prince Edward Island, and Newfoundland. Orders, like those of the United Kingdom, are made payable in sterling money, and for sums up to £10 sterling. The terms are :

For orders upon the Lower Provinces the same rates of commission as upon money orders drawn by Ontario or Quebec upon offices within those provinces.

For money orders on the other provinces the terms are :

For orders up to £5, 25 cents.

“ over £5 and up to £10, 50 cents.

No half cents can be introduced into orders.

No Money order exceeding \$100 in amount can be granted in any office in Canada ; but Postmasters are at liberty to grant two or more orders for \$100 or for any lesser sum.—They cannot, however, grant two or more orders for sums of or under \$30 on the same day to the same applicant in favor of the same payee.

SAVINGS BANK DEPARTMENT.

The Postmaster-General will receive at any of the Post Office Savings Banks, deposits paid to the postmasters by persons wishing to place their money in the Government Savings Banks.

What possessed you to marry that dowdy ? said a mother to her son. Because you always told me to pick a wife like my mother ! was the dutiful reply.

and bound to any pattern by **ROBERT MILLER.**

2. The direct security of the Dominion is given by the Statute for all deposits made.

4. Any person may have a deposit account. Any deposits will be received daily, during the ordinary hours of post office business, of any number of dollars, from \$1 up to \$300, the total amount which can be received from a depositor in any one year, except in cases to be specially authorized by the Postmaster General.

5. The postmasters of the offices named will act as agents for the receipt of the money deposited for transmission to the Postmaster-General, and for the payment by the Postmaster-General of money withdrawn by depositors. They will also furnish all information with respect to the mode of depositing or withdrawing money.

6. Each depositor will be supplied with a pass-book, and the sums paid in, or withdrawn, will be entered therein by the postmaster receiving or paying the same. In addition, a direct receipt for each amount paid in, will be sent to the depositor, from the Postmaster-General, and the Postmaster-General will issue a cheque, payable at any Post Office Savings Bank desired, for any sum withdrawn.

Every depositor's account will thus be kept with the Postmaster General, and a depositor may pay into his or her account with the Post Office Savings Bank, at any of the Savings Bank Post Offices which at the time may best suit his convenience, and may exercise the same choice in drawing-out money, subject only to the obligation of producing the pass-book, in proof of identity—whenever paying in or drawing out money.

8. Interest at the rate of 4 per cent. per annum will be allowed on deposits lying in the ordinary deposit accounts, but when a depositor has \$100 deposited, he or she may request the Postmaster-General to transfer the sum to a special account, and will then receive certificate of such special \$100 deposit, bearing interest at 5 per cent. per annum.

THE STAMP ACTS.

These Acts impose a duty on every promissory note, draft, or bill of exchange, not exceeding \$25, 1 cent; not exceeding \$50, 2 cents; less than \$100, 3 cents; not less than \$100, if executed singly, 3 cents per \$100, or fraction thereof; if executed in duplicate, 2 cents per \$100, or fraction thereof, on each part if executed in more than two parts, 1 cent per \$100, or fraction thereof on each part.

Any interest payable with the note at maturity must be counted as part thereof. The duty is to be paid by *bill stamp*, on which the date is to be written. Bank notes, checks, and money orders are exempt. These Acts impose heavy penalties for violation.

PROVINCE OF ONTARIO.

COURTS.

Courts of Law and Equity.

COURT OF ERROR AND APPEAL.—Constituted for the hearing of appeals in civil cases from the Courts of Queen's Bench, Chancery and Common Pleas; and appeals in criminal cases from the Courts of Queen's Bench and Common Pleas. From the judgment of this Court, an appeal lies to Her Majesty in Privy Council, in cases over £1,000, or where annual rent, fee, or future rights of any amount, are affected. Judges—Hon. Wm. H. Draper, C.B., Chief Justice of the Court of Error and Appeal in Ontario, Hon. Wm. Buell Richards, Chief Justice of Ontario; Hon. John Godfrey Spragge, Chancellor of Ontario; Hon. John H. Hagarty, D.C.L., Chief Justice of the Court of Common Pleas; Hon. J. Curran Morrison, Judge of the Court of Queen's Bench; Hon. Adam Wilson, Judge of the Court of Queen's Bench; Hon. Oliver Mowat, Vice-Chancellor; Hon. John W. Gynne, Judge of the Court of Common Pleas; Hon. Thomas Galt, Judge of the Court of Common Pleas; Hon. Samuel H. Strong, Vice-Chancellor.

COURT OF QUEEN'S BENCH.—The jurisdiction of this Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Upper Canada, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may hear and determine all issues of law, and also with the inquest of twelve good and lawful men (except in cases otherwise provided for) try all issues of fact, and give judgment, and award execution, thereon, and also in matters which relate to the Queen's Revenue (including the condemnation of contraband or smuggled goods) as may be done by Her Majesty's Superior Courts of Law in England. Chief Justice—Hon. William Buell Richards. Puisne Judges—Hon. Joseph C. Morrison, and Hon. Adam Wilson. Clerk of the Crown and Pleas—Robert G. Dalton. Reporter—Chris. Robinson, Q.C. Senior Clerk—John Small. Junior or Docketing Clerk—William Lynes.

COURT OF CHANCERY.—This Court has the like jurisdiction as the Court of Chancery in England, in cases of fraud, accident, trusts, executors, administrators, co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, staying proceedings at law prosecuted against equity and good conscience, and may decree the issue, repeal or avoidance of letters patent, and generally the like powers which the Court of Chancery in England possesses to administer justice in all cases in which there is no adequate remedy at law. Chancellor—Hon. John G. Spragge. Vice-Chancellors—Hon. Oliver Mowat and Hon. Samuel H. Strong. Judges' Secretary—T. W. Taylor. Special Examiners—John Hector, Q.C., and James H. Esten. Registrar and Reporter—Alex. Grant. Clerk of Records and Writs—Arthur Holmsted. Registrar's Clerk—Willoughby Cummings.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, cove-

to order, printing, Manilla and Wrapping Papers.

nant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Court of Law.

SUBROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. Chief Surrogate Clerk at Toronto Sir J. L. Robinson, Bart.

COURTS OF GENERAL SESSIONS.—The County Judge in each county, holds a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the County of York, in which county said Court is held three times, commencing on the second Tuesday in March, July and December, for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempt from their jurisdiction.

Terms of the Courts.

COURT OF ERROR AND APPEAL.—This Court holds its sittings twice a year at Toronto, in the months of January and June, upon such days as it may by rule or order from time to time appoint, and may adjourn such sitting from day to day, or for any such longer period as it may deem expedient, and may also appoint days for giving judgment or for disposing of business as in its discretion it shall see fit.

LAW TERMS.—Hilary begins first Monday in February, and ends Saturday of the ensuing week; Easter begins third Monday in May, and ends Saturday of the second week thereafter; Michaelmas begins third Monday in November and ends Saturday of the second week thereafter. By the Act 29 and 30 Vic. cap. 40, Trinity Term, hitherto commencing on the Monday after the 21st August, is abolished; but the same statute gives power to the Court of Queen's Bench and Common Pleas, at their discretion, to hold sittings in banc in time of vacation (except long vacation), by virtue of a rule or order of the Court, respectively to be made in or out of term, for the hearing of such special cases or rules for new trials as shall be named in a list to be attached to any such rule or order, and for giving of judgments in cases previously argued, and for disposing of such other business as the Court in its discretion shall see fit. Notice of such rules to be given in form and manner prescribed by the Act, six clear days before the day appointed.

CHANCERY TERMS.—*Examination Terms.*—From 1st Tuesday of February to the Saturday after the 2nd Tuesday of April; and from 1st Tuesday of September to the Saturday after 1st Tuesday of November. *Hearing Terms.*—From 4th Monday in April until Saturday of the following week and from 3rd Monday in November until Saturday of the following week. The Court also sits every Tuesday (except during the regular vacations) throughout the year, for hearing motions for Decrees, motions for or to dissolve special injunctions, and appeals from the reports of the Master or Deputy Masters.
