PORTE FINDS THE AMERICA SATISFACTORY

Believes That She Will Make Possible The Forthcoming Trans-Atlantic Flight

WILL PUT HER THROUGH SERIES OF ENDURANCE TESTS

Aeroplane Will Also Be Thoroughly Tested Here Before Start Is Made

Hammondsport, N. Y., June 24.—The first successful trials yesterday of the America air craft, in which Lieut. John C. Porte, and George E. A. Hellelt plan to fly across the Atlantic ocean from Newfoundland to England, are to be followed by a series of severe tests beginning today. The aeroplane will be shipped to St. John's early next month. After being reassembled at St. John's another series of tests are to be made, and the two pilots plan to start on their perilous air voyage on or about July 15th.

Lieut. Porte to-day planned to make weight carrying tests and probably attempt an altitude flight. A distance flight also might be tried.

That the America fulfilled his every hope and made him more certain than ever that trans-Atlantic flight was to be realized, was the opinion expressed by Lieut. Porte after trials yesterday.

Tragic, Fatal Accident By Which Patk. Connors Was Killed Yesterday

Was Attempting to Board a Moving Motor Express When He Slipped And Fell Under the Wheels—Death Was Instantaneous.

Another fatal accident happened yesterday afternoon, the victim this time being Patrick Connors, 16 years old, employed at the R. N. Co.'s express department, who was instantly killed by being run over by the Co.'s motor express near the station at 4 o'clock.

Chaufeur Cofield, who drives the van, says that he had just left the station with a load of trunks. One of the boxes slipped down and he stopped the machine to fix it. In looking back he saw the form of the lad on the ground with Mr. Stewart Long bending over him.

How It Occurred Several persons saw the accident. It appears the boy attempted to jump on the side of the vehicle just as it started, but fell under it and the hind wheel went over his body.

The form with blood issuing from the mouth and nose was carried to the station and Drs. Roberts and Anderson who were summoned, were quickly in attendance and did all possible to save life, but their services

were of no avail, as death must have been instantaneous. The bones of the chest were broken and the head and face were badly gashed.

The truck weights about a ton and a half and being loaded must have been a ton heavier. Rev. Fr. Sears, of St. Patrick's Church, reached the scene a few minutes after the tragedy and administered the rites of the church. Upon the rev. gentleman devolved the sad task of acquainting the father, Mr. Michael Connors, Mundy Pond Road.

The corpse was taken to the morgue where it was coffined by Undertaker Martin, and later it was conveyed home.

Spectators say it was purely accidental and the chaufeur was not in any way responsible. The car was going slowly at the time.

The accident elicited the sympathy of all classes of citizens. The unfortunate boy was popular with the employees of the express department.

Nationalist Volunteers In England

London, June 27.—The Irish volunteer movement has spread to England, a branch having just been formed here. The majority of the recruits are Irish employees of the civil service.

Drilling practice is being conducted in a German gymnasium which flies the German flag. This fact lends some significance to the story appearing in The Nation, a Radical weekly, to the effect that a report on the military characters and arrangements of the Ulster volunteers has been prepared for the Kaiser by specially qualified officials.

WILL ABANDON C.P. COAL MINE IN THE WEST

Hosmer Mine, in the Fernie District, is to be Permanently Closed Down

MILLIONS SPENT ON IT, BUT MINE WAS NOT PAYING

Town Is Now Being Deserted and Property There Has Become Valueless

Calgary, June 27.—The coal mine at Hosmer in the Fernie District is to be permanently closed down and the town is being deserted by its population, owing to the fact that the coal mines at that point, owned and operated by the C.P.R., have been shut down for ever. The work of dismantling the machinery is under way and merchants and property owners are panic-stricken because property will be worthless without the mining industry which alone supported the town.

Already Leaving Unmarried men are already leaving Hosmer.

The mines have been a big disappointment from the start, the large sums spent on development failing to reveal coal in paying quantities, so that it has finally been decided to close the mines, as operations could only be carried on at a great loss.

Hosmer will be the second deserted town in that district. Morrissey having been abandoned for similar reasons, after millions had been spent on it.

Fogata is due to-night.

Mexico City Optimistic About Peace

People of the Capital Are Even Planning Demonstration In Honor of The Mediators.

Mexico City, June 26.—The Mexican Senate is to meet to-morrow to hear the Executive's report on the outcome of the mediation conferences at Niagara Falls. Optimism prevails generally.

The inhabitants of the capital are planning a big demonstration in honor of the South American mediators. Prominent politicians express the belief that peace will be restored in Mexico before long.

CHANGE FRENCH LAW OF MARRIAGES

Paris, June 26.—The French Senate to-day adopted, without debate, a Bill allowing brothers-in-law to marry sisters-in-law.

The measure had previously been passed by the Chamber of Deputies.

Extended Governor Davidson On His Knighthood—Resolution Of Thanks.

At this morning's session of the Methodist Conference, immediately after the adoption of the Journal, upon motion of Dr. Curtis, the members, by a standing vote and with acclamation, passed the following resolution: "RESOLVED that the Conference place on record its high appreciation of the generous hospitality and delightful entertainment extended to its members and their lady friends at Government House on Friday afternoon by His Excellency the Governor and Lady Davidson."

"RESOLVED FURTHER that the Conference embraces this opportunity of conveying to His Excellency their sincere and hearty congratulations on the new honor recently conferred upon him by His Majesty, the King, and pray that Sir Walter and Lady Davidson may long be spared to perform with such distinguished ability, grace and dignity the Vice-regal service in the dependencies of the Crown."

The football receipts last evening amounted to \$35.00.

Canadian Exchequer Court Orders The Sale Of The Collier Storstad

Montreal, June 24.—By order of Justice Dunlop, of the Admiralty Division of the Exchequer Court here, and with consent of both parties interested, the S.S. Storstad will be sold at public auction, the sale to be accomplished within a very short time. This follows the action taken by the Canadian Pacific Railway Company against the owners of the Storstad collier, and obviates the necessity of conducting the legal suit case.

This order, which was made out at 12 o'clock to-day is as follows: "The Judge, on the application of the owner of the steamship defendant, and seeing the consent of both parties, ordered that the S.S. Storstad be sold at public auction not less than five days after the last publication of a notice of such sale shall have been inserted three times during one week in the newspapers published in Montreal, Halifax and New York; the purchaser to pay immediately upon adjudication a sum equal to ten per cent. of the amount of purchase price, and the remainder of said purchase price upon taking possession, but not later

than within fifteen days thereafter; that a commission of sale issue addressed to the Marshal of this court and that after the execution of said commission of sale the Marshal pay into this court the gross proceeds of said sale with his account and vouchers; the said proceeds to take the place of said ship and to avail for all parties interested therein, costs reserved.

Upon receipt of this order Mr. W. S. Walker, Registrar of the Admiralty Court, proceeded at once to order the commission of sale.

KAISER COMMANDS BRITISH FLEET

Kiel, June 26.—The German Emperor visited the British flagship of the second battle squadron, the King George V., on which his flag as Admiral of the Fleet was hoisted. The Emperor remained an hour on board the flagship, during which time he was nominally in supreme command of the British fleet. On leaving he was saluted with the Admiral's 21 bells, instead of the Ruler's 23.

Seven Killed By Explosion

The Fatalities Occurred On Board a U. S. Government Dredge.

Sheffield, Alabama, June 26.—Seven were killed and more than a score injured last night by a dynamite explosion on the Government dredge fleet at Smithsonia, on the Tennessee River, 18 miles below this town.

10,000 MEN IDLE IN MONTREAL

Montreal, June 26.—Ten thousand able-bodied men are walking the streets of Montreal, unable to find employment. The vast majority of them are Bulgarians, Russians and Austrians, mostly new arrivals. Many are from England and Scotland also.

SYNOD PASSES RESOLUTIONS OF SYMPATHY

Dealt Yesterday With the Empress of Ireland and Newfoundland Sealing Disasters

TEMPERANCE MATTERS GET LOT OF CONSIDERATION

Great Deal of Attention Given to Missionary Problem—Report On Education

Friday afternoon the Bishop took the chair at 3.30. Present: 45 Clerical, 15 Lay Delegates. Minutes of last meeting were read and confirmed.

Hon. Robert Watson and the Rev. J. T. Richards gave notice of motions. The Rev. G. S. Chamberlain asked leave to introduce his bill referring to the appointment of Lay Delegates, amending cap. 1, section 6 of the Rules and Constitution of the Synod. He then moved the first reading, and gave notice of the second reading.

Rev. G. R. Godden moved the following resolution: "Resolution of Sympathy

"That the Synod desires to place on record an expression of its profound sympathy with the people of Canada in the loss which they have sustained through the recent disaster to the Empress of Ireland;

"And that a copy of the resolution be forwarded to His Royal Highness the Governor General of Canada."

In moving this resolution, the Rev. gentleman said: "I feel that it carries with it the sympathy of every member of this Synod. If it be true that sorrow makes us wise and that sympathy is born of sympathy, surely we as a people have learned through our own sorrow to sympathize with the distressed. When that terrible disaster occurred amongst the crews of our sealing steamers on that awful night in April, no people were more ready with messages of condolence and expressions of regret than the people of our sister Colony.

"The generosity of the Government of Canada and of the Canadian people will never be forgotten by the people of Newfoundland for it shows that we are united in one common brotherhood and by our common faith.

Fellow Feeling "Therefore, my Lord, the Synod of this Diocese, of a people who have suffered, offers to a people who in like manner have suffered with us, its heartfelt sympathy with them in their distress."

Rev. Canon Noel seconded the motion and it was carried unanimously. Canon White read the report on the Temperance Committee of the Synod, and moved its adoption.

The following members took part in the very interesting and instructive debate, which followed: Revs. Canon Bolt, Loder, Prescott, Fletcher, Clayton and Chamberlain, and Messrs. Hayward, LeMessurier and Wakeley.

The report was then received. Rev. Loder and Mr. Wakeley made a strong plea for total prohibition.

Sealing Disasters Mr. LeMessurier then moved the following: "Resolved that the Synod expresses its deepest sympathy to the bereaved

C.P.R. COUNSEL PLACES BLAME ON 'STORSTAD'

Claims Disaster Was Caused by Collier's Officer in Putting the Helm Hard Aport

ARGUES THAT THE EMPRESS WAS STOPPED WHEN STRUCK

Gives Reasons Why the Empress Foundered So Quickly After the Collision

Quebec, June 27.—Because the wheel was put to port and then, without authority from the officer in charge, put hard a port when she had steered away, Butler Aspinall, K.C., in the course of his address to the Empress of Ireland wreck Commission, contended that the Storstad was responsible for the disaster of May 28, in which 1014 people lost their lives.

Scuffed At It He further argued that to find that the Empress starboarded her helm as assumed by the Storstad legal battery would be to charge perjury against Captain Kendall, who had claimed that no alteration took place in the heading of his ship and that she was stopped like a log in the water as indicated by the signals heard on the collier.

It was only while scoffing at the idea of Captain Kendall telling a deliberate lie when he had recently faced death, did Aspinall become at all dramatic. For the rest of the time he was calm and coldly argumentative, relieving the tedium effort on the crowded court room by touches of humor or by cutting sarcasm.

Why Foundered Quickly Why did the Empress founder so quickly after collision when there was the evidence of Mr. Hillhouse who had been called, that the ship had been designed to float with two compartments flooded? Her side had been torn out and torrents of water had rushed on one side. Had the compartment been filled evenly she would have floated but this gave her a great list and the weight of the Storstad helped to drag her over. There was also a possibility that one of the boilers had been distributed.

relatives and friends of those who lost their lives in the late disaster to the sealing steamers Newfoundland and Southern Cross."

Rev. H. J. Read in seconding the motion wished to bring before the Synod the fact that there was a branch of the Shipwrecked Fishermen and Mariners' Society in Newfoundland. Channel has the only agency and it would be well if there were others. He explained the benefits which go to members.

The resolution was carried unanimously. Canon White moved the adoption of the report on the Synod's Standing Committee on Education. He was obliged to adjourn the discussion owing to the time limit.

The House adjourned.

Evening Session There were present at roll call: 48 Clergy and 36 Lay Delegates. Revs. W. R. J. Higgit and T. E. Loder gave notice of motions.

Unfinished business being taken up, the House went to Committee to continue (Continued on page 4.)

Turkish Officers In England Buying Materials Of War

London, June 24.—Turkish naval officers have arrived in England on a mission for the purchase of coal and transport vessels in preparation for a possible war between Turkey and Greece. The Graeco-Turkey situation, however, has improved. Turkey has replied in a conciliatory spirit to the Greek note demanding that the persecution of Greek residents of Asia Minor cease and reparation for injuries already inflicted, and has further invited the powers to send agents to Asia Minor to make a thorough investigation of the Greek allegations.

ed several officers responsible for the orders. The Turkish reply has not been published, but it is understood it contends that it was the forced emigration in a body of the Mussulmans of Macedonia which provoked reprisals in Asia Minor, and expresses the regrets of the Porte at these disorders.

Oh, Well It's The Season For Fish Yarns, Anyway

New York, June 24.—Suggestions that they were crazy with the heat were indignantly disputed by passengers, officers and crew of the United Fruit liner Metapan, when they reached port recently and told of an adventure in which a shark and an alarm clock figured away down in the Barbican Sea.

The shark trailed the vessel just a few hours out of Puerto Colombia, Colombia. It was a playful sort of shark and cut up various antics. Soon the whole ship's company was observing the shark. They—the passengers—began dropping things overboard, sandwiches, fruit, loaves of bread and any kind of food that could be secured.

Chief Steward Baillie, driven to desperation by the demands of the passengers for fodder for the shark, decided to get rid of the unwelcome escort. To that end he took a large alarm clock, wound it, set it to go off in 20 minutes, attached to a line and tossed it overboard.

The shark grabbed it. In just 20 minutes the shark began to perform. The alarm clock was gonging the get-up call in his interior. He leaped high out of the water, chased his own tail, turned somersaults in the air, rolled over, spun on his tail like a top and generally conducted himself in an utterly irresponsible manner. Finally he headed east with the speed of a torpedo boat.

## An Interrupted Honeymoon!

By HAROLD CARTER

It is generally worse when your wife bows to you coldly than when she cuts you. Especially is this the case when you have not seen her for a couple of years. So John Ferrand, who was neither divorced nor estranged from Mrs. John Ferrand, felt badly when he accidentally encountered her on the board walk at Atlantic City.

The meeting was accidental in that Jack had hoped to select the opportunity. But he had gone to Atlantic City to find her, immediately after his return from Nevada, where, as the discoverer and subsequently as owner of the Diamond Silver mine, he had leaped into meteoric fame.

He hurried after her, and Edith, seeing him, halted and faced him. "I beg your pardon, Mrs. Ferrand," said John, ignoring the look of anger which she gave him. "I have always meant to return this purse to you. You left it behind at the Pennsylvania terminal."

"And you have carried it for these two years?" asked Edith Ferrand scornfully.

He bowed. "You see, I didn't know your address. And it seems to contain some papers," he said.

Edith took the purse and opened it.

Two years before Horace Mills, senior partner in the law firm of Mills and Hoppner, had called John Ferrand, one of his clerks, into his private office.

"Ferrand," said the head of the firm thoughtfully, "you have been with me for five years now."

"Yes, sir," answered the clerk.

"You have not shown a great aptitude for law, I think," said Mr. Mills, smiling faintly. "Nevertheless," he added, "I know you to be a man of sterling integrity. And I want such a man just now. Ferrand, did you ever think of getting married?"

"No, sir," John Ferrand answered.

"Would you be willing to remain a bachelor for the rest of your life for—well, say for twenty thousand dollars?"

"Twenty thousand dollars! Ferrand

thought of the men he had known, struggling to maintain families on two thousand a year—all he could ever hope to rise to, after years of service. For Ferrand had not the money-making instinct.

"Yes, sir," he said.

"Come in, Miss Kent," called the lawyer briskly, and Edith Kent stepped composedly into the room from Mr. Hoppner's office.

"Now, Ferrand, the situation is this," said Mr. Mills. "Miss Kent inherits four million dollars if she marries within a certain period. That period expires to-morrow night. She, like yourself, is not inclined toward matrimony. If you will go through the form of marriage with her, you will receive not twenty, but fifty thousand dollars. Immediately after the ceremony you will depart and never see her or me again. I know I can rely on your honor. Do you agree?"

John thought of the mother whom he supported, of his little sister, destined to the drudgery of a stenographer's desk unless—

"I agree," he answered.

Love at first sight, at which we practical people scoff, is nevertheless, a not frequent phenomenon. The strangeness of that agreement, a haunting memory of Miss Kent's blue eyes, her hauteur, her superb manners, her charm—above all that indefinable and elusive thing which we suddenly see in someone of the other sex, which sets the pulses throbbing and the heart yearning—this kept John Ferrand awake all night. And when the brief ceremony in the lawyer's office was over, Ferrand realized that for the first time in his life he was in love—deeply and wildly in love with this woman, his wife, whom he was never to claim.

He choked; he could not look into her face.

"I thank you, Mr. Ferrand," she said composedly. "And now, since we shall never meet again—well, you may see me to the Pennsylvania terminal. I am going west to visit my sister. You have been paid?"

"More than paid," he stammered.

There were two hours to wait. They sat down in a restaurant to dine. Ferrand never afterward knew how it happened; he was conscious only of the misery of the impending separation. Like a man in a dream, or one delirious, he stammered out his love. He asked only a chance to win her some day, when he, too, had gone west and made a man of himself, demonstrated his right to win her. He ended by tearing his check to atoms and casting them on the floor. "All the while Edith listened gravely."

"I don't think I have the right to utter a positive refusal, Mr. Ferrand," she answered. "You were foolish to destroy that check—but I honor you the more for it, and I shall not press the money on you. But I must think—I don't know."

But afterwards in the taxicab, she relented. He held her hand and poured out the words that bubbled to his lips unchecked. When they reached the booking office he knew that she could be conquered. If only there were time! Nevada.....riches.....then to renew his suit.....

She had purchased her ticket and stood on the step of the train. Her purse was in his hand. The train moved. He wanted to leap aboard, hesitated; it moved more swiftly.... Presently he was alone on the platform, still holding the little purse.

Edith opened the purse. "Suppose you look in that envelope," she said. "They are not papers, as you seem to believe."

John Ferrand tore open the flap. Inside was neatly folded a long printed slip—a railway ticket. Then from the released folds there fluttered—a second ticket, Ferrand started at it dully.

"Good God!" he muttered. "What a fool I have been. If I had known! Edith!"

"I am staying at the Hotel Lafayette," she said softly.

Vancouver, B. C., June 24--Mayor Baxter has called a public meeting early in the week to consider the Hindu question. Counsel for the Hindus on the Comagata Maru has succeeded in getting the matter into Court by a mandamus and among officials and by the public apprehension is felt that unless something very radical is done before the Court's decision is reached the Hindus will certainly be allowed to land.

There is a very decided feeling among lawyers that flaws will be found in the regulations which will allow the Hindus to land. If this happens the feeling is that many other ship loads will come across the Pacific and cannot be kept out.

The only alternative is some drastic action to force the return of the Hindu ship to Hong Kong.

**Turkey Holds Out The Olive Branch**

Expresses Itself as Willing to Permit Expatriated Greek Subjects To Return

Constantinople, June 24--It is stated on good authority here that the Turkish Government has instructed its Minister at Athens to inform the Greek Government that Turkey was willing to permit the return of Greek subjects who had been expelled recently to leave Turkish territory. The Ottoman Government was declared to be ready to grant an indemnity for the losses sustained by those who had been forced to quit their houses during the recent anti-Greek disturbances, and who in many cases had left their entire belongings behind them.

**Friendly Settlement**

Advices from Athens state that in Greek official circles the opinion is held that the reply of the Turkish Government to the Greek note regarding the expulsion of Greek subjects from Asia Minor shows a desire from a friendly settlement of the dispute between the two countries.

Although the Ottoman reply says the Greek note can only apply to the situation of Greek refugees, the general tenor of the document and of the other communications made to Greece by Turkey is considered satisfactory as an answer to Greek demand for cessation of persecuting by immediate efficacious measures.

Greece will, however, continue to insist on the repatriation of the Greek refugees and also on the restoration of their property.

**President Wilson Looks For Great Business Revival In U.S.**

Washington, June 26--A new constitution--freedom for business--is the object of the Administration's Trust legislation programme, President Wilson declared to-day, when addressing a party of Virginian editors at the White House. He predicted that the country was on the verge of a great business revival.

**GREAT ATTRACTION AT SYDNEY MINES**

The name of Victoria the Good--the greatest sovereign who ever graced the British throne--will live long in the minds of the British race.

Pictures depicting incidents in the life of our late lamented sovereign will be shown in St. Mary's hall, Sydney Mines, on Friday and Saturday evening next, with matinee Saturday afternoon.

The Sydney papers, in referring to the famous reel said: "What is without doubt the best film ever shown in this city, is on to-day programme at the Casino theatre. The picture is depicting different scenes in the life of Queen Victoria, is splendidly staged and wonderfully enacted. The characters in both the leading and minor parts are well taken.

"The ladies playing the roles of the Queen bear a remarkable resemblance to that lady, as do also some others of the cast. Not only are different epochs in the life of Queen Victoria shown, but also some of the greatest events of her time, dating from 1837 when she ascended the throne, until her death, are given in detail. Scenes from the Crimean, South African and Sudan wars are on the film, and the pictures are more realistic, and superior to the usual war pictures seen here.

The picture is wonderful in its completeness, and is shown in seven parts. All are equally interesting and instructive. It has seldom been the fortune of Sydney audiences to have a photo play with a subject so well depicted."--N. S. Herald.

Will be shown at the Casino, all next week, every afternoon and two shows every night.

### OUR POINT OF VIEW.

#### FARMERS COMPLAIN

THE FARMERS of Freshwater Road, West End, are kicking over the employment of men from Broad Cove on that highway.

The bringing of men from Broad Cove Road to do the repairing is looked upon by the Freshwater men as an infringement.

In the respect complained of a precedent has been established. It has always been the privilege of the local men to do the work, until this year. A wrong has been done by the uncalled for invasion of what the Freshwater men regard as their right.

The Chairman, Mr. Gladney, is a rabid Morris supporter, and may be the farmers of Freshwater did not vote to his liking last Fall.

If the employment of Broad Cove Road men is an act of petty spite on the part of the Chairman, then we must say he is a very simple man, for his turn to-day, another's turn to-morrow, and the Morris party are having their last kick, and their candle has pretty well burnt out.

#### PRESIDENT COAKER

PRESIDENT COAKER is visiting Bauline, Torbay and Pouch Cove to-day, accompanied by Friend John Dwyer, M.H.A.

Many weeks ago he was invited by requisition to visit those settlements and establish F.P.U. Councils. It will be his first visit to those settlements and no doubt he will receive a hearty welcome from those hardy and industrious TOLLERS of the Sea.

Mr. Coaker will leave St. John's for another Northern cruise on Monday, July 6th, and visit all the settlements operating Union Cash Stores. He will also spend a few days at Coakerville, returning to town about August 20th.

He will be accompanied by Mr. Trenholme—the Coaker Motor Engine expert—who will attend to any troubles respecting the Coaker Engines. It would be well to wire Mr. Coaker acquainting him of any trouble with engines, or to find out the nearest port at which the F.P.U. will call and take boats to such ports in order to have engines examined.

The first port of call after leaving

St. John's will be Grate's Cove, then Port Rexton, Catalina, Greenspond, Newtown, Cat Harbor, Seldom, Coakerville, Change Islands, Herring Neck, Twillingate, Exploits, Pilley's Island, Nipper's Harbor, Shoe Cove; returning will, if possible, call at Springdale, Little Bay Islands, Leading Tickle, Moreton's Harbor, Botwood—and by train to Grand Falls, Millertown and Lewisporte—then by the F. P. U. to Campbellton, Comfort Cove, Boyd's Cove, Change Islands, Fog, Joe Batt's Arm, Tiltling, Seldom, Wadham Island, Greenspond, Keels, King's Cove, Bonavista, Catalina, Scilly Cove, Bay de Verde, St. John's.

The responsibilities shouldered by President Coaker are growing heavier week by week and it is necessary for him to take every precaution against a health break-down, and such a change as above stated will release him somewhat from some of his pressing duties and thus ensure a continuance of the splendid health he has enjoyed during his whole life.

The one important thing for the whole Union to consider now is the health of its President, and all will be delighted to learn that the President will be away from St. John's for a few of the summer weeks and instead of taking a trip away to other lands and scenes, that he prefers to visit the North, and attend to Union business and inspect the long chain of Union Stores which now cover the North from Clarke's Beach to Nipper's Hr.

Mr. Grimes, who formerly managed the Union's business in town, in the President's absence, will be leaving for England early next month to purchase goods for the Trading Co., and Mr. Halfyard with Mr. Thistle—the Accountant—will be left in charge of the business during the absence of Mr. Coaker.

### TO THE EDITOR.

#### NOTE OF THANKS

(Editor Mail and Advocate.)

Dear Sir,—Please allow me space in your paper to tender my sincere thanks to Messrs. Robert and Henry Cowan and families; also the many other kind friends, for their kindness to my wife while at St. John's.

—RICHARD ALLEN.  
Penguin Arm, June 23, 1914.

Pilley's Is., June 24.—Quite a lot of men left in their motor boats last week for the Treaty Shore where they will put up for their summer fishing.

The S.S. Prospero arrived here on the 16th. She had a large crowd of passengers and the captain refused to take any passenger from here who intended to go any further north than Little Bay. On the night before her arrival here thirty men had to stay on deck all night; her saloon and steerage were packed.

Herring are still very plentiful around here; some men did fairly well while many others had to give up catching owing to the scarcity of barrels and salt.

All the people interested in farming have been very busy here this past week setting their potatoes.

—C. RIDEOUT.

### FINISH THE ROAD

(Editor Mail and Advocate.)

Dear Sir,—Kindly permit me thru your paper to enquire what the Council of Bell Island intend to do regarding their roads.

On Sunday the Methodist Sunday School held their annual Children's Day, which was largely attended by the little ones.

The Bell Island Council started to build a road from the front to the Mines just before the elections, which passes along in front of the Methodist Church, and is nothing but a bed of rocks.

Those little children attending school have to climb over this rocky road to get there; also the people attending church have to trip over these stones.

Now, this is a disgrace to the Morris Government and the Bell Island Council to start a thing which they knew they could not finish. It would be a feather in Morris's hat if he would take the money he borrowed, and finish the work he has yet to complete.

## BIG PROBLEM TO GET HINDUS AWAY AGAIN

Would Be Settlers Are in Charge of the Ship and Are Holding Her Up

JAPAN SENDS WARSHIPS TO TAKE CHARGE OF HER

But Hindus Declare They Will Actively Resist Efforts to Send Them Away

Vancouver, June 25.—Capt. Sloan, of the Legion of Frontiersmen has announced that his company of fifty armed men have offered their services to the immigration officials to assist in the forcible deportation of the Hindus. The latter, to the number of 355, are still in practical command of affairs aboard the Komagata Maru.

The two Japanese cruisers, Asama and Adsuma, have reached Vancouver Harbor. Capt. Yamamoto, of the Komagata, intends to interview Vice-Admiral Kural immediately that officer arrives here with a view of securing aid in navigating the Hindu vessel back to Japan.

The proposal to have a guard of special police and frontiersmen placed aboard the vessel in Vancouver harbor to keep the Hindus in subjection while the ship is taken out of port. When the ship is beyond the three-mile limit the plan is to take the Japanese aboard and allow the white guard to return to Vancouver. It is not believed to be good tactics to attempt to place the Japanese guard aboard while the vessel is still in a British port.

To Avoid Fight  
As the matter stands, the officials intend to exercise the greatest care to avoid a fight. The Hindus insist that they will resist to the last ditch any attempt to move them. They will not allow any guard on board, either will they allow steam to be set up or the anchor raised, they declare.

It will require some finesse to get guard aboard to protect the crew from getting clear of the harbor, and if the Hindus get the upper hand, they might easily run the vessel on shore and get clear in the woods.

Funds for Sedition  
Indian newspapers received by the Empress of India, contain interesting accounts of the trial of a number of conspirators in Delhi, fourteen of whom were committed for trial. They had advocated wholesale poisoning and the murder of all the English in India and one man was killed in the slaying up of a gymkhana at Lahore. A large reward has been offered for the apprehension of Bose, one of the chief conspirators who escaped.

A remarkable feature of the trial was the exposure of the fact that money subscribed by Hindus in Canada and the United States had been used by the Seditionists. The latter were in close communication with far Dayal, a Hindu who was arrested recently at San Francisco for deportation, but who jumped his bond of one thousand dollars and escaped to Switzerland.

## F. G. Bradley Admitted to Bar

Presented to the Supreme Court Yesterday by Mr. Kent—Brilliant Young Lawyer

During the past week the customary examinations for law students have been held and Mr. Frederick Gordon Bradley, L.L.B., very successfully passed his final examination before our local Law Society.

This morning Mr. Bradley was duly presented before the full Bench at the Supreme Court by Mr. J. M. Kent, B.A., K.C., for admission to the Bar as Solicitor. The candidate answered most satisfactorily several questions put by Hon. Mr. Justice Emerson, as to his training, and University course, and the Chief Justice, Sir Wm. Horwood, Kt., complimented Mr. Bradley on his brilliant student career and wished him all success in the future. He then took the oath and duly signed the roll.

As is well known, Mr. Bradley obtained his early education at the Methodist College, this city, where he won many distinctions. He then studied with Mr. Kent, K.C., and later proceeded to Dalhousie University, where he graduated L.L.B. in April last after a very distinguished course of study there for three years.

Mr. Bradley starts his professional career next week in the fine new offices of the Smallwood building, Duckworth Street, and The Advocate and Mail joins with his many friends in the hope that his eminent student career may be followed by as successful and worthy a professional life.

## Synod Passes Resolutions Of Sympathy

sider the Report on the Home and Foreign Mission Fund.

The subject was thoroughly discussed, showing that the House was divided upon the mode of assisting in Foreign Mission work, but was united in its desire to see that work extended.

The following persons spoke on the subject: Canons White, Bolt, Revs. Smart, Bayly, Field, Talk Baker, Britnell and Sir J. Outerbridge and Mr. LeMessurier.

Mr. Smart then moved that the Committee rise, report progress and beg leave to sit again. Carried.

Canon White moved the Report of the Education Committee be received. He spoke very fully on the subject dealing more especially with the training of teachers.

Mr. Read also spoke, intimating his intention to add a resolution to the report.

After Canons Noel and Bolt speaking upon the report, it was moved and carried that the discussion be adjourned.

The House adjourned then till Monday evening at 7.30.

### FISHERY NEWS

June 23rd.—From T. Costello (Chimney Cove to Wood's Island)—The total catch is 500 quintals and for last week 300. Five traps are in the water and 50 dories and skiffs with 4 boats are fishing. Two bankers and two schooners from the grounds have arrived.

Prospects at present are very poor. There is herring enough for bait, but no caplin. The lobster fishery is a little better than last year, the average catch being about 4 cases. The weather has been very stormy with strong winds and rain.

On her way to Brazil she lost her mizzen topmast and a new one has not yet been put in position.

## TOBACCO QUESTION IN THE ASSEMBLY AND DEBATE ON IT

Tuesday, March 3, 1914.  
Hon. Minister Finance and Customs—There are people who make charges that they should not make. Mr. Chairman, just one or two remarks before I take my seat. I picked up to-night a paper called The Daily Mail, and in that paper I am once more brought before the public eye. I may say that the contents of this article are all new to me.

The man who wrote that article is a liar and a slanderer. That is my answer to it. I was slandered in this House before and it is not necessary for me to relate to-night how I came out of it. I come on top, and if the man who wrote that letter—I don't know whether he is in the House, but I hope not.

Mr. Coaker—Do you imagine he is?

Hon. Min. Finance—Well, did you do it?

Mr. Coaker—No, I did not write it.

Hon. Min. Finance—Did you inspire it?

Mr. Coaker—No, I know nothing about it.

Control of the Paper  
Hon. Min. Finance—Have you control of that paper? You stated in the House a few days ago that you owned that paper and controlled its utterances.

Mr. Coaker—I stated no such thing.  
Hon. Min. Finance—I beg your par-

don, you did. You rose in your place the other evening in relation to a certain statement that had appeared in The Mail and said that if you had known that it was going in you would have used your influence—in fact you said that it would not have gone in and that it would not happen again.

Mr. Coaker—I said I would remonstrate with the Editor and would probably succeed in keeping out anything I believed to be wrong.

Objected To It  
Hon. Min. Finance—Now, I would like to know how long this sort of thing is going to be permitted to go on in this country—when slanderers of that character can take away the reputation of an honest man. How many people in this Island to-night will read that article and will never see the other side of the story. How dare any man send such a statement broadcast. Why did he not first find out the particulars and then make the charge.

This letter merely shows what must be the heart of the man who wrote it, but he will have to prove that charge as far as I am concerned.

Quantity Involved  
Then, on the other hand, to read that letter to-night one would think that thousands upon thousands of pounds of tobacco had been taken out of bond within the last few days. But

even if 50,000 pounds of tobacco had been taken out of bond, what would it amount to? About four thousand odd dollars! And to read that article one would think that I had gone down to Mr. Munn and made a deal with him to take tobacco out of bond—entered into a contract with him to take out tobacco before the duties should go on.

I never saw Mr. Munn within the last three months, except with another individual. I never spoke of tobacco to him directly or indirectly.

That is my position to-night, Sir, and I will try to-morrow and put the

man who wrote that letter in his proper place.

Two of a Kind  
Are we, may I ask, going to have this kind of stuff handed out to us day after day in The Daily Mail and The Advocate.

Are we going to stand for this kind of stuff that is pushed in faces; papers in relation to individual members in this House?

I am glad that the hon. member for Bonavista states to-night that he had nothing to do with this article and that he did not write it. I had a better opinion of him. But if he inspired it or if he knew about it, then he is just as bad as the writer. That is the position.

In order to uphold the dignity of this House I know what I have got to do, but if I had the writer out of the House I know what I would do: him or to anybody else who made any such statement as that concerning me. But one cannot make a silk purse out of a sow's ear.

Gone Broad Cast  
Sir, as I said before, that statement has gone broadcast to-night, and how many who will read it will read the contradiction when it comes? What does it mean? Does it mean that I am trying to make money out of my position? Is that it? If it is, here is the position in a nutshell.

Suppose that charge were true what would I make? That is the best way to get at it. If I had taken five thousand pounds of tobacco out of bond as charged in that letter, how much money would I make? I would make about \$250.00.

That charge means that I sold myself out to Mr. Munn for \$250.00 and he went down and took 40,000 pounds of tobacco out of bond. I telephoned him to-night when I had read The Daily Mail. He said no, but that he had heard about it. I asked him how much tobacco he had taken out of bond, if he had taken any, and did I ever speak to him about tobacco or anything else? He said, no; he told me that he had taken 10,000 pounds of tobacco out of bond, that was all.

Calls For Tobacco  
He said that he had had several calls for tobacco from people around the Island, and that it had been rumored that the duty on tobacco and liquors was going up. That was his answer to me. And then I am asked to submit to this charge.

No Sir. If to-morrow dawn on me I will put the man who wrote that in his right place. I repeat again that the man who wrote it and the man who inspired it are liars and cowards and if I had them where I would like to have them I would know what to do with them.

Mr. Coaker—I am delighted to hear the explanation of the Minister of Finance with regard to this matter of tobacco, but I would be very much more delighted if he would tell the truth about it. He simply denies one or two statements, but he does not say whether he got any tobacco or not.

Hon. Minister of Finance—I told you that the statement was a lie.

Straight Demand  
Mr. Coaker—Answer my question. Did you get any tobacco or not?

Hon. Minister of Finance—I have told you that that statement is wrong. I am not here to be questioned by you.

Mr. Coaker—And I am not here to be questioned by you. I asked you the question because I want to find out whether the story is true or not.

On Monday last, Mr. Chairman, the Manager of the Tobacco Factory came to me and asked me if I would not buy

He said, no; he told me that he had taken 10,000 pounds of tobacco out of bond, that was all.

Calls For Tobacco  
He said that he had had several calls for tobacco from people around the Island, and that it had been rumored that the duty on tobacco and liquors was going up. That was his answer to me. And then I am asked to submit to this charge.

No Sir. If to-morrow dawn on me I will put the man who wrote that in his right place. I repeat again that the man who wrote it and the man who inspired it are liars and cowards and if I had them where I would like to have them I would know what to do with them.

Mr. Coaker—I am delighted to hear the explanation of the Minister of Finance with regard to this matter of tobacco, but I would be very much more delighted if he would tell the truth about it. He simply denies one or two statements, but he does not say whether he got any tobacco or not.

Hon. Minister of Finance—I told you that the statement was a lie.

Straight Demand  
Mr. Coaker—Answer my question. Did you get any tobacco or not?

Hon. Minister of Finance—I have told you that that statement is wrong. I am not here to be questioned by you.

Mr. Coaker—And I am not here to be questioned by you. I asked you the question because I want to find out whether the story is true or not.

On Monday last, Mr. Chairman, the Manager of the Tobacco Factory came to me and asked me if I would not buy

Mr. Coaker—I made no such statement.

What Was Said  
Hon. Minister of Finance—In reply to Sir Edward Morris you stated that if you had known that a certain article was going in the paper you would not have allowed it to go in.

Mr. Coaker—I beg your pardon. I did not say anything of the sort. If I knew that anything was going in the paper that I did not like I would go to the editor and try to get him to keep it out, and he probably would keep it out. I rarely go into his office. I have not the time to go there, and I do not know anything about what is done there.

Hon. Minister of Finance—I would like to ask you if you think it is right to make a statement like that about a man on the strength of a rumor.

Mr. Coaker—If the article had been shown to me before it appeared in the paper, I would have said: Go and investigate the matter, and if you find that the Minister of Finance has really taken tobacco out of bond and you are sure of your facts then go ahead and then make your charge; but you must have sufficient proof. That is what I would say to the editor.

tobacco. He had approached the office on the previous Saturday and did not get any information, and came in person and saw me on Monday morning.

He wanted to know whether I would not buy a certain amount of tobacco—5,000 pounds. I said, no, we did not want any tobacco. Well, he said, tobacco is going up. They are going to put duty on it, and they are all buying large stocks.

Didn't Believe It  
Well, I said, I don't believe it. I don't believe that any Government is foolish enough to put a duty on tobacco, and in any case I don't want the tobacco.

Now, the 5,000 pounds of tobacco that he referred to was made up in the factory for the F.P.U. It was not up to the standard that we expected, and we refused to take it. It had been lying there from month to month, and on Monday he came to me and said that the duty was going on, and if I wanted to get it now was the time.

A member of the Board of Trade came in to me on Thursday and said did you hear what is going around town in the Board of Trade to-day? I said, no, I did not hear anything. Well, he said, it is said down there that a Minister of the Crown is buying a large quantity of tobacco.

Hon. Minister of Finance—Name him.

A Refusal  
Mr. Coaker—No, I won't name him. But he said that it was stated down in the Board of Trade Rooms that "Cashin had got tobacco out of Bond and they know the exact amount."

As far as the article in The Daily Mail is concerned, I did not see the article; did not know anything about it, until I read it here to-day. I did not write it or inspire it.

Further, I did not state in this House that I owned the paper. Within the last two or three days we have been told by a section of the press of the trouble between the editor of The Daily Mail and myself, because, it was said, I wanted to support the Mor-

ris Party and the editor would not have it and resigned. Did you not hear this report?

Would Get Out  
Hon. Minister of Finance—I may tell you that if you did support the Morris Party it would have one member less than it has now.

Mr. Coaker—I hope you did not take any tobacco out of bond. No one will be more delighted than I to know that you did not.

Hon. Minister of Finance—Does that justify you if, when you hear an old woman's story—

Mr. Coaker—I did not write the article.

Hon. Minister of Finance—Well, you are trying to justify the man who did write it.

Mr. Coaker—I am not. I want to find out the truth.

Hon. Minister of Finance—You stated here that you controlled that paper.

Important Notice!

The Fraser Machine & Motor Co. for the purpose of reorganizing and enlarging their plant, lately went into voluntary liquidation; the organization is now complete, much more capital has been subscribed to meet the growing demands of the business, and this year double as many FRASER engines will be built as last year. There is no other engine so popular in Newfoundland or Canada as the FRASER, and with the new Company we can promise better service and deliveries than in the past, when we had to wait for their engines, as many could not get them from the factory fast enough. All orders now booked can ship at a moment's notice.

## O'BRIEN MAKES A SUGGESTION FOR A WAY OUT

Wants a Conference Called Of All The Parties Interested In Home Rule

SAYS PRESENT PROCEDURE IS ENTIRELY OBNOXIOUS

Any Amendments to the Home Rule Bill Likely to be Detested By the Irish

London, June 25.—William O'Brien, in a letter to the Morning Post, addresses a earnest warning to British politicians, Liberals or Unionists, who think they see any compromise under the Amending Bill, or any hope of peace.

He says the Amending Bill starts hopelessly on the wrong track, and kills Home Rule under the perfidious pretence of enacting it. Even Pitt's Act of Union left Ireland as a sacred entity, around which centred unconquerable hopes. It remained for a Home Rule government to rend her by Statute into two separate Irelands.

He affirms that any compromise to which the Bill is susceptible will be viewed by the Irish with detestation, no less ineffaceable than that with which France thinks of Alsace, or with which Englishmen would receive a proposal, under German dreadnoughts to cede Kent and Sussex. He says that a peace conference, though a desperate remedy, is the only escape from a still more desperate calamity. Let the House of Lords, instead of consummating the partition of Ireland through the Bill, propose an all-party convention, and adjourn consideration of the Home Rule Bill and repealing Bill for three months, pending report from such conference.

Editorially the Post disagrees with the suggestion, declaring that the Unionists cannot consider any compromise with a policy striking both directly and indirectly at the United Kingdom. There would be no settlement until the issue were submitted to the judgment of the people.

## ANTI-SUFFRAGE MOVEMENT GROWS

Wild Acts of the Militants Have Set Public Sentiment Against Them and There Are Now Fifty-Eight Thousand Members in the Anti-Suffrage League.

London, June 27.—The effect of militancy on public sentiment may be seen by the fact that over 58,000 adherents were reported at yesterday's meeting of the National Anti-Suffrage League.

Earl Curzon, who presided, claimed that the anti-suffrage cause stood in a stronger position to-day than it has for the past twenty years.

If outrages continued, he said, he was sure public opinion would demand that convicted women pay the full penalty for their crimes.

## Another Load Hindus Coming

Intimation to This Effect Received In Ottawa by Mail From India

Ottawa, June 25.—It is understood here that intimation has been received by an Empress liner that another ship's party of Hindus is being organized to cross the Pacific. It is said that the new enterprise was organized by a wealthy woman of Calcutta, who was guaranteeing the proposed immigrants a dollar a day for two years after they arrived in America.

The Komagata Maru party was organized to go to Vancouver, but it is said that the second party will go to "some port in Canada or the United States."

The second party is sailing direct from Calcutta, but was said to be due to call at Shanghai on the way over. The Department thinks that the arrangements may have fallen through when the difficulties of the Komagata Maru in Vancouver became known in the Orient, but there is no definite news on this point.

Peculiar Experience Of a Diver Engaged At Salvage Operations In Cherbourg Hr.

Cherbourg, June 24.—While a diver was engaged in recovering a torpedo buried in the mud of the harbor, the mechanism suddenly started and the propper severed the air pipe of the diving apparatus.

The diver, with great presence of mind, clung to the torpedo which bore him to the surface. He was dragged into the boat by his astonished comrades, in an almost asphyxiated condition. After an hour or two he was revived.

Every well conducted office or store in the world finds that simple and effective filing systems are an absolute necessity. No employer will waste his own time or allow waste with his staff

by using old fashioned methods. The benefits derived from the time and money-saving system which "Globe-Werriacke" devices encourage are self-evident. Not a paper can go astray when the "Safeguard" method of this Company is used. And no matter how complicated your filing problem, no matter how peculiar, no matter how small or how large, the "Globe-Werriacke" can provide you with the equipment that will place every record at your finger tips. ### FOXES.

"The Sovereign Silver Black Fox Company, Limited" will have on the first day of September, A.D. 1914, at least fifteen pairs of Pure Bred Island Silver Black Foxes and all will be registered in the highest grade or Class "A." This will include four pairs of foxes that were purchased from the St. Louis Silver Black Fox Company. The St. Louis Silver Black Fox Company in 1913, paid a dividend of 400 per cent. All the foxes of the Sovereign Silver Black Fox Company will be certified as to quality by the Hon. Charles Dalton before they will become the property of the Company. This alone will be a guarantee to the investors that nothing but the very highest grade stock will be allowed in the ranch both for their breeding qualities as well as for their pelt value and fecundity. As an illustration of this the Company now has the offspring of the most prolific fox in the world. This female produced forty-five pups in seven years, and they will also have the direct descendants of a full brother of the fox whose pelt brought the highest price ever obtained for a single pelt. Read what Mr. Dalton says of the stock purchased from the St. Louis Silver Black Fox Company.

### Tignish, P.E.I.

August 12th, 1913.  
"This is to certify that in the year of 1912 I sold to W. P. Callaghan of St. Louis, one pair of Pure Bred Black Foxes. These came from my very best stock and were as good foxes as I ever bred in my ranch and they produced a litter of four this last spring. I have also sold him one Pure Black Male of best quality and a tested breeder that I know have produced three litters. This male is now three years old and the first mentioned pair are one year old. These three foxes have in their ears aluminum buttons with my name and address on each one which I do not attach to any only the best stock."  
"(Sgd.) CHARLES DALTON."

Of the litters born next spring 1914 of the four pairs purchased from the St. Louis Silver Black Fox Company, all with the exception of two pairs will be sold and the proceeds applied to pay a dividend on the capital stock issue of the Company not later than October 1914, and the Company guarantees that said dividend shall not be less than fifteen per cent. Included in our fifteen pairs will be three pairs of descendants of the celebrated Oulter three legged Vixen and three pairs of Dalton, James Rayner Stock which will be just as good as the pair they sold in 1913 before they were eight months old for \$18,000.00 the highest price ever obtained for a young pair of foxes.

### RANCH.

The Ranch will be constructed under the personal supervision of the Board of Directors in one of the very best localities for fox ranching. It will be constructed along modern lines and of the very best material.

### MANAGEMENT

The ranch will be under the personal management of W. P. Callaghan who was the manager of the St. Louis Silver Black Fox Company. Mr. Callaghan during his experience in the fox ranching has never lost a single fox, in fact he never had a sick fox in his adaptability to the business of Fox Ranching and also to the advice he received from the Hon. Charles Dalton.

### COST OF RANCHING.

The cost to be paid out of the profits will be the actual cost of ranching. This should not exceed five per cent., and with ordinary success will not exceed two per cent. of the annual profit.

### REASONS WHY YOU SHOULD BECOME A SHAREHOLDER IN THE SOVEREIGN SILVER BLACK FOX COMPANY, LTD.

- (1) Because we guarantee a dividend in fall of 1914 of at least 10 per cent. from offspring of four pairs now owned.
- (2) Because our Company started with fifteen pairs of foxes and our authorized capital being the largest of any Company at this date. The number of foxes can be doubled at any time and we will then have one of the largest ranches known.
- (3) Because the Pioneer Fox Rancher, The Hon. Charles Dalton, the man who demonstrated to the world that the precious Silver Black Fox could be raised in captivity is largely interested in our Company and his son is Chairman of the Board of directors.
- (4) Because all of our thirty foxes are bred in the purple and eligible for the highest class of registration.
- (5) Because the ranching will be done at actual cost and will be between two and five per cent. of the value of the increase. Some Companies are now charging their shareholders as high as 33 per cent. for ranching.
- (6) Because by investing in a large Company with a greater number of foxes the average returns will be greater than in a smaller Company.
- (7) Because the small shareholders have the same rights and privileges as the large ones.
- (8) Because the officers and directors of the Company are largely interested and in safeguarding their own interests will safeguard the shareholders.
- (9) Because at a conservative estimate the fifteen pairs will produce forty-five pups in the season of 1915, and if present prices of \$12,000.00 per pair is maintained and we have reason to believe that they will still advance higher, it will give at this value a dividend of \$240,000.00. N.B. our estimate is made much below those prices.
- (10) Because our ranch is under tried and expert management.
- (11) Because the investments in the fox business are safe and can never be tied up as in real estate.
- (12) Because at a pelt value, our foxes being of the highest grade in the world will pay the largest dividend.
- (13) Because none of the foxes will be over four years old in 1914.
- (14) Because the St. Louis Fox Company in 1913 paid 400 per cent., and by becoming a shareholder you own part of the stock.
- (15) Because the only fox pelt of the Dalton strain put on the London Market in 1912 was from a young fox six months old that died in October and sold for £410 or about \$2,000.00, this was shipped by Hon. Chas. Dalton. It is obvious to a fur man that had the pelt been prime it would have brought fully one third more.
- (16) Because the capitalization per pair is moderate when the high quality of the pedigreed stock is taken into consideration.

## SAINTS--C.E.I. FAST GAME ENDS WITH A DRAW

Saints Ended Up at Half Time With Good Lead of Three Goals To None

BUT THE C.E.I. BEGAN TO CATCH UP AFTER INTERVAL

And Soon Made the Scoring Even—Both Teams in Excellent Trim, Played Well

The footer match last evening between the Saints and C.E.I. resulted in a draw, each team scoring three goals.

Line-Up

Saints—Ross, goal; Dick, A. Barnes Backs; Burns, Stevenson, Innis, halves; Robertson, Kerr, Irvine, Ewing, Evans, forwards.

C.E.I.—Marshall, goal; Hussey, L. Stick, backs; Drover, Fox, R. Stick, halves; Churchill, Jupp, Hunt, Heartly, Auckinleck, forwards.

Referee—Mr. E. S. Pinesent.

Lineamen—Lidstone (C.E.I.), McCindale (Saints).

The Game

At 7.05 the ball was put in motion the Saints defending the western goal, winning the toss and taking advantage of a good breeze of wind. Play opened with the C.E.I. making an attack on Ross and securing a corner against them.

The Saints worked the ball east and a lively scene was witnessed near the C.E.I. goal, their back line playing a marvellous game.

Two Corners

Two corners were given against the C.E.I.; one was placed back and the other landed in the mouth of the goal. A foul occurred in side the back line, which meant a penalty kick, the first for the season. Dick took the 'kick' and succeeded in landing it between the posts.

The game now began to work evenly, the C.E.I. putting up a splendid show and worked hard to score. The Saints were in the pink of condition and played harder and with vigor, combination being their strong point. Irvine broke away and made an attack on Marshall, sent a 'hot one' which the goaler failed to save, thus giving the Saints number two.

Exciting Moments

The game now became very exciting and it looked doubtful for the C.E.I., though the backs were playing the game of their lives. The Saints pressed harder east and Kerr tried his skill, and was rewarded for his work, as he beat Marshall the third time.

The half-time sounded before any more scoring was done, giving the Saints a good lead of three goals.

Second Half

The second half opened brighter for the C.E.I. and they lost no time bringing the ball east. A goal was scored but was not given as Auckinleck was off-side. This warmed the C.E.I. up somewhat and they were bent on scoring and kept the ball well on the Saints goal, until Drover tried his luck and sent a beauty to Ross, who failed to save it, scoring No. 1 for his team.

Saints, 3; C.E.I., 1.

The C.E.I. now played a dashing game, full of vigor and pluck and seemed to be getting the best part of the play, when Hunt beat Ross once more.

Saints, 3; C.E.I., 2.

The Saints now seemed to lag and the C.E.I. sent the ball once again to their goal and secured two corners, but the ball failed to equalize until Jupp from a pass from Churchill headed in the equalizer.

Remainder of the play was at mid-field and the final whistle sounded, leaving both teams with three goals each.

Notes on the Game

The Saints show a big improvement over their last match. The penalty kick saved them from going down to defeat.

Both teams have improved considerably since their last game.

The table now stands:

Teams	P	W	L	D	F	A	Pt.
Collegians	3	2	0	1	5	1	5

## HAPPENINGS IN THE VALLEY OF THE EXPLOITS

Company at Bishop's Falls Now Busy Send Shipments of Pulp Out To Botwood

THREE STEAMERS NOW AT THE PIERS AT BOTWOOD

General Business Affairs Bustling at Bishop's Falls, Botwood And Lewisporte

Botwood, June 25—Having occasion to go to Bishop's Falls, your correspondent continued his trip on to Botwood and Lewisporte.

At Bishop's Falls the A. E. Reed Co. were certainly doing some bustling shipping pulp to Botwood for shipment to England. The company have a large amount of pulp ready for shipment owing to the ice blockade this spring. They employ a lot of men and get out a lot of pulp. Mr. Harris, the manager, is in England. He is expected to return in July, and that he will be accompanied by Mr. Reed. There is a report going the rounds that some American capitalist have made an offer for the entire plant, but no one could nor would verify the report.

Bishop's Falls is certainly fortunate in having an hotel, presided over by Mr. W. T. Petrie. He is the right man in the right place.

Busy Business Man

We noticed our old friend, Mr. Jos. Hampton, the proprietor of the United Stores, as busy as could be. He certainly carries a fine line of goods, and he has worked up a fine business. He is very popular with the people, and they show it by patronizing his store. He has recently built a fine new store at the station, to replace the one burnt sometime ago.

The Exeter Store is certainly a model kept store, and the line of goods carried by this store is equal to any outport store in the country. The manager, Mr. Taylor, knows how to run a store and his assistants are all very obliging. The store does a large business.

Mr. Albert Kelly, who formerly kept the hotel at the station that was burnt out last fall, and who went to Winnipeg, has returned. It is reported that he will rebuild.

Run Frequently

Trains run very frequently over the A. N. D. Co.'s line now that the steamers are in port loading paper and pulp for England. The train hands are kept busy early and late.

Two fox farms in this vicinity are reported to have done well the past year. There is some talk of still another farm in this vicinity. The present ones are reported to have some fine puppies.

Your correspondent went to Botwood from Bishop's Falls on the A. N. D. Co.'s train. There were ten cars of paper and eight cars of pulp on the train. It certainly was a tremendous load for so small an engine to haul.

Everything Hustling

Everything was hustling at Botwood with the three steamers loading and unloading. Every one was busy. It was reported that there were over 300 men at work. In my estimation there was a great many more.

Botwood is a pretty place, and it will repay one for making a visit. There are some fine motor boats there. Messrs. Park and Storm have two beauties.

Every available space under cover is at present utilized for storing paper, which has accumulated during the winter. Was told there was enough pulp and paper to load 15 steamers. It does seem as though the Government should put on an export duty or get the companies to pay so much into the Treasury of the country the same as the Bell Island companies do.

Supply Business

Messrs. Antle do quite a business here supplying the steamers. The senior partner recently made a trip to Prince Edward Island and bought a car load of fat cattle for butchering purposes to supply fresh meat for the steamers and local consumption.

Mr. A. J. Harvey has bought a property near the company's offices and has opened a restaurant and general store, which is well supplied.

Mr. W. G. Adams, who was formerly in business at Tilt Cove, and who went to Canada, returned and opened a general store here and is doing a fine business. Mr. Adams is a very obliging young man, who knows the

The speeches were lengthy and very interesting, some past recollections of old college days being spoken of by the different speakers.

The songs were beautifully rendered and the performers had to respond to encores several times. Mr. C. B. Clift arranged the musical programme and is to be congratulated on making it so enjoyable.

Mr. Webster who is here on a visit was a guest during the evening and he spoke a few words of praise to the Club, congratulating them on their enjoyable and successful dinner.

Mr. Robinson is to be complimented for his splendid table and arrangements in making the tenth annual dinner such a splendid success. The dining room was neatly decorated and the dinner tables were arranged with the Felldian colors.

Mr. W. W. Blackall acted as accompanist for the musical part of the programme and did it in a manner which delighted all.

At 1.30 this morning the singing of "Auld Lang Syne" and "God Save the King" brought the most enjoyable dinner the Felldians ever held to a close.

wants of the people and he tries to keep the goods the people want, and it is quite evident he has succeeded judging by the amount of trade he is doing. He says those who want Canada can have it, old Terra Nova is good enough for him.

Finishing a Hotel

R. Campbell is finishing his hotel which he started to build some time ago. He has moved his family and furniture here and will rush it to completion.

Mr. H. S. Crowe has moved from adger here and in future will make this place headquarters.

The Masonic brethren will unite with Grand Falls' Masons in extending His Royal Highness the Duke of Connaught a hearty welcome on his arrival at this port. The Masonic Temple here is named after him. The organization is to be congratulated on having such a nice hall. It is a credit to the Order.

Good Effect on Trade

Since the arrival of the four steamers to load for England the merchants report better business. Some of the stocks of goods carried in this place equal stocks carried in any part of the country.

Mr. Arthur Miller, representing Marshall Brothers, arrived from Norris' Arm a few days ago. Mr. Miller reports business as extra good for this time of the year.

Herring were very plentiful here last week; some good hauls were made. Very few salmon yet and no codfish.

The fox ranch here is considered one of the best in the country. There is a report that the proprietors are considering an offer of a large sum from Montreal parties. Experts who have seen the ranch and foxes, say it is away ahead of any in the Island.

The representative of Davis and Lawrence was calling on the trade a few days ago. This is his first visit to Newfoundland and he says it is a great country for patent medicines.

SCHR. AT BONNE BAY

The Deputy Minister of Customs have received word that the schooner Gipsie Smith, Fudge, master, has arrived at Bonne Bay from the Gulf with 225 qts. fish.
