### Grace Church

REV. H. J. LEAKE, M. A., Rector

Tenth Sunday after Trinity

11 a. m. The Impenitent City.  
 7 p. m. Tenderness and Power.

The W. A. meets Thursday afternoon in the Parish hall.

During the warm weather shortened services and short sermons.

### Knox Church

REV. J. F. WEDDERBURN, B. A., B. D., Minister

Mission Band meets Sunday afternoon at 3 o'clock.

Sunday School and Bible Classes at 9.45 a. m.

### Methodist Church

REV. C. L. POOLE, B. D., Pastor

Sunday School 10 a. m.

Public Services 11 a. m. and 7 p. m.

Prayer Service on Thursday Evening at 8 p. m.

All are welcome at these services

### The Bible Society

Mr. G. V. Crofoot will hold a meeting in Grace Church Parish Hall for the Bible Society on Friday evening, August 12 at 8.30.

Since the death of the president, the late Jas. E. Eager, it is necessary to re-organize. At the close of the meeting collectors will be appointed to take up the annual subscriptions for the society.

A great demand has arisen for God's Word, because of the war, from middle Europe and the far East, requiring an additional half million dollars.

The following letter was received this week by Mr. F. W. Crooker.

Brampton, July 25th  
 Postmaster, Waterdown.

Dear Sir:

I saw an article in one of your papers to the effect that the people of your town had built a swimming tank at a cost of \$104.

Some of the ladies of Brampton have been talking over the project, and would like to get all the information possible in the matter.

Can you send me the full particulars as to who undertook the work, who formed the committee, who had the tank built, the cost of various parts of the work, what arrangements have been made for dressing rooms, etc.

If you cannot supply the information I want, perhaps you will be good enough to hand this letter over to someone who can supply the facts that I want. Thanking you in advance for your kindness.

Yours very truly,

Mrs. Lina Schrag.

### Greenville

Mr. and Mrs. Hardy of Stratford are visiting their daughter, Mrs. F. Thornton.

Mr. S. Green of Toronto is spending this week with Mrs. Bamberger.

Mrs. Gilpin of Brantford spent the week end with Mrs. W. Taylor.

Mrs. J. F. Armstrong of Hamilton spent a few days this week at the home of Mr. John Surerus.

A number of our girls are camping at Puslinch Lake.

Christ Church Sunday School held their picnic at Wabasso Park on Wednesday last.

### Adams-Job Wedding

A very pretty wedding was solemnized on Saturday, July 23rd, at St. Andrew's Presbyterian Church in Guelph by Rev. Mr. Abraham when Miss H. Theodora Job, of the McDonald Hall faculty, was united in marriage to Mr. Walter C. Adams of Montreal, the bridal couple being unattended.

The bride was prettily attired in sand colored silk with gold and coral beading and bands of coral embroidered trimmings.

After the ceremony the young couple left, amid showers of congratulations, for Toronto, Montreal and other points east. Guests from outside points were from Toronto, Montreal, Hamilton, Freeman and Waterdown.

### Base Ball

In ability to hit the old pill sent the Waterdown Seniors down the lane to the cellar position in the big League by the score of 11 to 2, and Campbellville making their position more secure at the top by defeating Millgrove 14 to 3. Kilbride went down to defeat at Freelon 14 to 6.

#### LEAGUE STANDING

	Won	Lost	p. c.
Campbellville	8	1	888
Carlisle	6	3	666
Kilbride	3	5	375
Freelon	3	5	375
Millgrove	3	6	333
Waterdown	2	5	285

#### Junior League

The Juniors again halted the strong Tansley team. Arnold holding the heavy hitting Nelsonites down to seven scattered hits, while Waterdown hit both Tansley pitchers hard when hits meant runs. Foster having a perfect day at the bat, four hits for as many times up.

Flamboro Centre again demonstrated to the Carlisle team that they are the masters. This boy Baker with good support is a hard one to crack. Score 17 to 6.

#### LEAGUE STANDING

	Won	Lost	p. c.
Tansley	7	4	636
Waterdown	6	5	545
Flamboro Centre	5	6	454
Carlisle	4	7	363

Manager Fred Allen had his team of Midgets going great last Tuesday evening, defeating a strong Hamilton team by 6 to 4. Russel Allen in the box had the opposing batters at his mercy at all times. Maxwell at first and his brother behind the bat showing up in great form.

On Wednesday last the Juniors visited at Wabasso Park, the guests of the Greenville Baseball Club and took that team into camp by a score of 9 to 0. Reid pitching the best game of his career, 3 hits and no runs. The whole team put up a stellar article of ball. The Greenville battery being one of the best the boys have been up against, but our boys would not be denied and hit when runs were needed.

The last game for the Waterdown Seniors at home will be played on Saturday, July 30th against the strong Campbellville team. A good crowd is expected to see the League leaders.

### Locals

#### Waterdown Civic Holiday Friday, August 5th.

Mrs. (Dr.) Hopper is visiting in Winnipeg.

Rev. C. L. Poole is confined to his bed through illness.

Miss Irene Langford has accepted a position in Toronto.

Mrs. Jacob Smoke of Prince Rupert, B. C., is visiting in the village.

Mr. and Mrs. Wm. A. Drummond spent a few days this week at Clarkson.

Mr. and Mrs. J. F. Vance returned home today after a week's visit in Collingwood.

Miss Carrie Truesdale of Brantford is calling on a few of her friends in the village.

Mrs. Clement Walls, of Cleveland, Ohio, is the guest of Mr. and Mrs. A. Hemingway.

Mr. Wm. Bell of Montreal is in the village preparing for the apple harvest this fall.

Mrs. Rouse and two daughters of Chatham are the guests of Mr. and Mrs. E. Douglas.

Miss Leta Higgins is spending her vacation with school friends in Lansing and Bay City, Mich.

Miss Annie Fulton, of Rockwood, is visiting in the village, the guest of Mr. and Mrs. J. Kitching.

Mrs. Geo. Nicholson is recovering from the effects of a sprained ankle which she received last Friday.

Mr. A. Tudor, who has been ill the past few weeks, has recovered and has resumed his duties in Hamilton.

Miss Grace Campbell has returned from Rochester, N. Y., where she has been spending some months with friends.

Mrs. Geo. Dougherty and Miss Mary Dougherty spent the week end with relatives in Port Rowan and Forestville.

Mr. Geo. Potts and our worthy tailor, Mr. Ellis Gordon left last Saturday on a fishing trip to the Muskoka lakes.

Mr. and Mrs. W. Langton, Mrs. A. M. Slater and son Morris, and Mrs. W. Slater, Sr., spent the week end at St. Catharines and Niagara Falls.

Mr. and Mrs. Albert Hemingway, Mr. and Mrs. Joseph Tuck and Mr. and Mrs. Fred Allen and family attended the Hemingway family annual picnic at Mohawk Park on Wednesday.

Rev. C. L. Poole, being slightly indisposed, was unable to fill the pulpit at the Union services on Sunday. Mr. Thompson officiated in the morning, and Rev. J. Awde in the evening, both of Hamilton.

As we go to press one of our readers hastens in with the information that this burg contains 41 widows, 11 widowers, 39 spinsters and 26 bachelors. Thus we discover the cause of Waterdown's house famine. A little more co-operation on the part of the aforesaid would materially solve the housing problem in this village.

**Immigrants  
 Travel in State**

It is a tradition among Canadians, handed down from an earlier generation, but still virile, that one must register horror—as the movie people have it—when speaking of crossing the ocean in the steerage.

As a matter of fact, the tradition is out of date. Indeed, coming over in the steerage on a modern liner is more comfortable than coming over first-class used to be on some of the earlier steamships which plied on the ocean ferry.

Nor need the term "they came over in the steerage" longer have the force it once had as one of social opprobrium. Strong, clean-living men came over in the steerage—future Canadian farmers and business men and perhaps statesmen among them—and earnest, clean-living women, the potential mothers of future Premiers.

To many of them, intimidated with the old tales of the discomforts of steerage travel, their experience on the voyage across comes as a pleasant surprise. Indeed, steerage de luxe would be a fitting term for third-class quarters on the biggest liners. Particularly is this true if they are so fortunate as to book their passage on any of the larger ships of an old-established line. Such vessels as the Olympic and Adriatic of the White Star Line and the Lapland of the Red Star Line, and others of similar type, for example, have done a great deal toward raising the standard of steerage travel to what it is to-day.

For the information of folks ashore, who have never been in the steerage of a ship, it may be well to describe the quarters of the third-class passengers.

First in importance are the bedrooms, or staterooms as they are termed aboard ship. These as a rule contain four beds, or bunks, there being two on a side. The beds are framed in iron pipe, fitted with an elastic bottom of metal strips. The bedding consists of mattress, sheets, pillow with slip, blankets and coverlet, or bed spread. Each room has electric light, linoleum floor covering, white enameled walls, mechanically controlled ventilation, and heat when needed.

Next in importance is the steerage dining room. Some ships have two. A third-class dining-room is always large—more than 300 persons can sit down at the tables at once—and it is well lighted and well ventilated. The long tables are covered with neat cloths. Individual swivel chairs permit the passengers to sit at table in comfort, and the food is served on good crockery.

As to the food itself, it is wholesome and abundant. Here are some sample bills of fare on a recent voyage of the Adriatic, when she brought 1,250 passengers in third class:

**BREAKFAST.**  
 Rolled Oats and Milk.  
 Grilled Bacon. Fried Eggs.  
 Tea or Coffee. Marmalade.  
 Bread and Butter.

11 a.m.—Beef tea and broth as required for women and children.

**DINNER.**  
 Barley Broth.  
 Roast Ribs of Beef. Brown Gravy.  
 Dressed Cabbage. Boiled Potatoes.  
 Plum Pudding. Sweet Sauce.  
 Cheese. Biscuits.

**TEA.**  
 Vegetable Stew. Pickles.  
 Cold Meats. Beetroot and Ring Onions.  
 Bread and Butter. Jam.  
 Tea or Coffee.  
 Apples and Oranges.

**SUPPER.**  
 Gruel. Biscuits. Cheese. Cocoa.

The third-class passengers have their own kitchen, which is as clean as the proverbial pin. Every pot and pan is bright and every dresser well scrubbed.

On most large ships the third cabin also has its lounge, or public room, which cuts quite as great a figure in the daily lives of the people who use it as that of first or second class.

It is a large room, with neatly paneled walls, well made benches or settees with curved backs of polished wood, and many small tables at which games may be played or drinks served—for prohibition does not place its restraining hand on the immigrant until he reaches this side of the ocean and he may have his beer or wine at sea when he wants it.

The entertainment of the public room of the steerage usually is informal, and also usually is spontaneous and interesting. On most voy-

ages the conversation is in many tongues, and seldom lags.

The steerage has a piano of its own, and players are never wanting. There is also much volunteer music on the harmonica, mouth organ, accordion and other favorite instruments of the passengers. To such music it is easy to improvise jig or reel, or dance a quadrille; and many a vigorous measure is beat out upon the linoleum floor, or in fine weather the deck, by stamping young feet as the ship drives steadily along through the pathless deep.

On the Lapland a popular feature in the musical programs of the steerage in times past has been the playing of a band composed of members of the ship's stateroom force. A band concert on deck for the benefit of third-class passengers usually is accompanied by dancing. On such occasions the saloon passengers usually gather to see the sport, and a carnival spirit prevails. It would be an uphill task at such a time to convince anyone on board the ship that a steerage passage is a voyage of gloom.

Gypsum.

In drilling to test the commercial possibilities of the salt beds in the Fort McMurray district of the Peace River country, recently, it was found that there are nearly 100 feet of anhydrite and gypsum of commercial quality at depths ranging from 500 to 600 feet, and if a market can be found for it there is a large reserve available for development.

Gypsum is one of the important non-metallic minerals of Canada, and is found in several of the provinces, but was not known to exist in the far north. New uses are being constantly found for this adaptable material, and the revival of the building industry, in which it is used for wall plaster and plaster of paris, will doubtless result in an increased production. As a fertilizer it has the property of releasing plant food in the soil.

Chemically stated gypsum is hydrated sulphate of calcium. During the war Germany made thousands of tons of sulphuric acid from gypsum, and it is stated that the acid made in this manner is as pure as that obtained from sulphur and purer than that obtained from pyrites.

The total production of this mineral in Canada in 1920 was valued at \$1,876,595, but the value of the deposits of the ore must run into many millions.

Spanish Women Organize.

The Spanish Women's Crusade is the name of an organization formed to conduct an active campaign in Alfonso's kingdom to obtain legal equality for women.

**To Be Excused.**

At a certain club some members were talking about motor-cars.

One of them made the remark that he could tell any make at a glance.

Another member, seeking to go one better, expressed his willingness to bet that he could give the name of any car whilst he was blindfolded. He would judge solely by the starting of the engine.

The bet was soon taken, and the party adjourned to a nearby garage. Many different makes were started, and the blindfolded member named them correctly every time.

During a pause, a workman, at the top of a long ladder, knocked over a large tin box of nails. As it reached the ground, there was a terrific clatter.

Then the blindfolded man made a blunder. "You have just started up a Ford car," he proclaimed.

**I have taken over the agency for the

## Forest Fires Kill Jobs

HERE are instances of carelessness such as the Fire Rangers of Ontario are meeting all the time. Each is an actual case, as officially reported in detail to the Forestry Branch. Until each individual realizes personal responsibility and co-operates to prevent forest fires, Government Fire Rangers can hope merely to lessen the tragic consequences of such human carelessness and bad judgment.

### Save Ontario's Forests They're Yours

#### Lumbermen's Fires

May 25th, 1920—A careless river driver, by leaving his smudge fire or throwing a cigarette into slash, burned over two townships, including 7,000,000 feet of pine, a \$5,000 mill, camp buildings and equipment worth \$7,000, sawn lumber worth \$7,500, and killed several million young spruce and jack pine trees.

May 25, 1920—Fire in a rubbish heap behind a lumber company's boarding house got away and, despite prompt action, burned over 1,500 acres, including 2,000,000 feet of white pine, and a set of new camps worth \$1,000.

June 1, 1920—Two old men left to attend to the stop logs in a dam, let fire get away from either their smudge or camp fire, and burned over 9,000 acres, including 6,000,000 feet of pine, one mill, four camps, large quantities of supplies, and equipment to a total value of \$40,000.

May 4th, 1921—Lumbermen burning slash around their camps, lost control of their fire and 15,000 acres were burned before they regained it.

#### Railway Fires

June 5th, 1920—Engine No. 1368 started a forest fire which ran over 15,000 acres, burning one saw mill, three sets of lumber camps, stables, houses, and outlots. 5,000 cut logs and 1,400 piles, besides standing timber.

May 25th, 1920—Engine No. 2509 set a

fire which burned over 12,000 acres of timber worth \$20,000 on the stump, camps and logs worth \$5,750, and cost \$1,000 to fight!

June 2, 1920—A section crew left a pile of burning ties to go away to their regular work. The fire spread over 1,200 acres.

#### Fires Set Out Under Permit

June 10th, 1921—Parties burning slash under permit, lost control through bad judgment, and 1,000 acres were burned and forty buildings, including saw mill, were wiped out.

May 27th, 1920—A squatter, burning debris near his shack, fired 7,000 acres, 1,000 of which were virgin timber, and wiped out four sets of logging camps.

#### Neglected Camp Fires

July 4th, 1920—Tourists left camp fire on shore of Deer Lake. After six days' fight, rangers put fire out, but 550 acres of young pine were dead.

May 31st, 1920—A neglected camp fire, despite efforts of Chief Fire Ranger and 42 men, burned 1,200 acres of young pine.

May 7th, 1921—Indians left camp fire, which burned over 7,000 acres and took one week of fighting to control.

Be careful of fire in the forests. Be careful to put your camp fire out—lead out. Don't throw away lighted matches, cigarettes or cigar ends. Watch out, lest your fire gets away from you.

Ontario Forestry Branch — Parliament Bldgs., Toronto, Ontario

### Yank Out the Stumps

(National Crop Improvement Service.)

"Our tillable lands have gone and with a further growth and development of the world, we must utilize every wast acre. Stump pulling is a vital problem to the man who is farming a cut-over country, to the man who is paying taxes on idle stump land and to the man who is seeking a rich farm at a comparatively low price.

"The easiest, quickest and most economical way of clearing out stumps and roots, is with a stump-puller and wire rope," says Mr. R. S. Ridd, president, Canadian Steel & Wire Co.

"The use of a pulley block so designed that any number of them can be used in double, triple, or quadruple power of the machine, will conquer the most stubborn stumps without fail.

"When dynamite is used, the roots are left to be grubbed out or pulled out by hand, all of which is slow, hard work. With the stump-puller and wire rope, the job is clean and complete.

"A good stump-puller will pay for itself in the saving of man and labor on a few acres of ground, to say nothing of the value of crop values. You can use it in the wet season when you can't work at anything else. In fact, the machine works easier when the ground is wet than when it is dry."

### To the Farmer:

The purchase of a Piano or Victrola is only purchased invariably once in a lifetime. Therefore it behoves the purchaser to get the best and make sure you have the best.

I have had 25 years experience in tuning and repairing musical instruments, therefore feel quite confident I can choose the best instruments on the market.

I shall be pleased to place any instrument in your home beside any other in fair competition and let you yourself be the judge, without your feeling under any obligations absolutely. I can also save the purchaser quite a few dollars on account of my expenses being so low. I will always give you my best personal service and devote the whole of my time to supplying the country people. A postcard or telephone call will oblige.

Yours truly,

### A PICTURESQUE BARGAIN.

Canadians Have Treaty With Northern Indians.

"And this agreement shall go on forever and aye."

Thus in part runs the wording of an agreement between the Canadian Government and certain nomadic tribes of far northern Indians who live to-day much as their forefathers did hundreds of years ago. The carrying out of this treaty presents one of the most interesting sights to be viewed on the far northland, but one seldom seen by the traveler, as it occurs only once a year and in places remote.

In the far northland, says Francis Dickie, in the Western Home Monthly, though the Indians still have the same hunting and fishing privileges as their forefathers and are practically as independent as before the white man came, the Government in return for the nominal taking of the country made a treaty about half a century ago in the name of the "Great White Queen," which reads in part: "Her majesty agrees that each chief after signing the treaty shall receive a silver medal and suitable flag, and every third year thereafter he shall receive a new suit of clothes." Every common member of the tribe yearly receives \$5; the chiefs \$25; and the headmen \$15. In addition each tribesman receives as much ammunition and twine for nets as amounts to the value of a dollar. Certain places throughout the northland, generally some trading post on the bank of one of the larger rivers which flow through the region, are made the appointed meeting places. To these once a year the Government agent comes carrying in his grips tens of thousands of dollars in one and two-dollar bills. Larger denominations are never used.

Out on the open plain the agent stands surrounded by the vast concourse of red men, chiefs, headmen, aged hunters, young bucks, squaws and myriads of children. One by one the Indians come forward and receive their yearly treaty, the white man checking off each name in his book as he pays. The agent is always a man carefully chosen for his work, one with knowledge of the natives gained by years of close personal touch. Generally he speaks one or more languages.

As there is little possibility of the land ever being settled, that part of the wording of the treaty which stipulates that the Government will yearly pay out so much money per person according to their rank "forever and aye," in all likelihood will be paid forever and aye, in keeping with the original wording, which is more than can be said of many treaties made with aboriginal people by the white invaders.
