Men's Furnishing Shoes
Webster Street, Kentville, N. S.

Rev. E. W. Kenyon, Mrs. Kenyon and son arrived at Billtown on Wednesday and are spending a week with Mrs. Kenyon's parents, Mr. and Mrs. George Whitney. Mr. Kenyon is conducting a very successful series of services at Moncton, and is wanted again at St John. Mr. Kenyon will preach in the Baptist Church at Billtown, Sunday morning next at 11 a. m.

On Tuesday evening, March 9th at 8 p. m. in College Hall Wolfville, Lieut Leon Archibald of Wolfville of the Royal Engineer attached to the Black Watch, will give an address. He will speak chiefly of the part played by the Canadians in the war giving interesting sketches of trench life and of all the engagements in which the Canadians participated up to July, 1916. There will be no admission fee but a collection will be taken, the proceeds to go to Daughters of the Empire under whose auspices Lieut Archibald is speaking.

CARD OF THANKS.

Mr Chas. Burgess and family take this opportunity to thank those who sent floral offerings, letters of sympathy, memorial cards and for all other kindnesses shown in their recent sad bereavement.

JORDAN'S Barred Plymouth Rocks

CHILDREN'S AID SOCIETY.

A public meeting in the interest of the Children's Aid Society was held on Monday evening with his Honor, Mr. Barclay Webster in the chair. Various citizens spoke of the good work done by the Society thru Mr. Herbert Stairs, who has devoted much of his time and money to its interests for so many years.

It is not generally known what the Children's Aid Society is. Its objects are to, Protect children from cruelty. Care for friendless and destitute children. Teach negligent parents their duties. Provide suitable homes for such as may require them.

It operates under the "Children's Protection Act 1912" and in conjunction with Superintendent Blois.

This society can and has accomplished much good but its work and scope has been to some extent cramped for lack of money and active support. Mr. Stairs, out of his own pockets has year by year paid most of the expenses of the local Society. It was felt by the meeting that Kentville, which has benefited considerably by his efforts, should contribute more than it has in the past. To this end the following were appointed to collect this year's dues and to bring new members into the Society:— Millbrook East, Mrs. McBride; Klondyke and Court Yard, Mrs. Morash. Millbrook to Mr. T. P. Calkins, Mrs. W. W. Rockwell.

ZAM-BUK
IS NATURE'S REMEDY

The healthiest men and women in the world are found in the uncivilized races, knowing nothing of medical science. Why? Because these people are content with nature's own "healers." They use roots and herbs, solely, for their skin diseases and injuries.

Recognizing this truth, the proprietors of Zam-Buk compounded their great balm on nature's lines. Zam-Buk contains only healing herbal essences, but instead of using them in crude form, in Zam-Buk these essences are purified and concentrated.

Take Mother Nature's finest healing extracts. Add all that modern science can do in the way of concentrating, purifying and making antiseptic these essences, and the result is Zam-Buk.

Don't you believe that roots and herbs are the healers intended for man? If you do, you get these in Zam-Buk.

Don't you believe that antiseptic treatment of a wound or sore is necessary? Zam-Buk is antiseptic.

Don't you desire to stop the pain of a wound, cut or skin disease? Zam-Buk will do this as nothing else can.

Finally, don't you believe that personal experience is worth more than hearsay? If so, cut out this article. Write across it name of this paper and mail it to Zam-Buk Co., Toronto, with 1c. stamp and we will send you a **FREE TRIAL BOX**

THREE GERMAN ATTACKS WERE SMASHED BACK BY THE BRITISH.

LONDON, March 11—The Germans continue their powerful raids of the British lines in the Ypres sector, around Armentieres, and at various points along the front. The report from Field Marshal Haig's Headquarters tonight, describing these operations says:—

"Following a heavy bombardment of our trenches in the neighborhood of Armentieres, the enemy this morning (11) raided our posts in this sector. In one locality, the raiders were driven off, in the other two localities, the enemy was repulsed with loss after fighting, as a result of which five of our men are missing; we captured a machine gun.

"This morning also the enemy attempted a raid on a large scale in the Ypres sector. Parties of hostile infantry attacked our line northwest of Passchendale on a front of a thousand yards. They were everywhere repulsed with heavy losses; we secured a few prisoners.

"During the night one of our positions south of Houtholst Forest was entered by a hostile raiding party, but was immediately recaptured. Four of our men are missing.

"The hostile artillery was active today south of St. Quentin, north of the Scarpe and along our front between Hill 70, north of Lens, and Festubert, south-east and east of Messines and east and northeast of Ypres."

PROHIBITION TO COME INTO FULL EFFECT IN CANADA ON APRIL 1ST.

"Wets" May Be "Fooled" If They Think They Can Get Around New Regulations.

OTTAWA, March 8—Prohibition regulations have been prepared by the government and, with the exception of a few technical points, are now complete. It is expected that they will be issued on Monday or Tuesday. At the same time the government has prepared regulations governing packing houses. These, likewise, will be issued shortly.

While no official announcement is yet to hand, it is anticipated that the regulations in both cases will, in the main, follow lines laid down some time ago. An official statement issued in December declar-

ed that the importation of intoxicating liquors would be prohibited after December 24, 1917, except in the case of liquor already purchased and on the way it was also announced that "the transportation of liquor into any part of Canada wherein the sale of intoxicants is illegal, will be prohibited on and after April 1, 1918."

FOR SALE—Double seated riding sleigh, practically new, apply E. Hartley Highbury, telephone 83—21 sw 3x

MAKING CORN INTO HOGS.

It takes 12 bushels of No. 2 corn to make 100 lbs. of average live hog under average farm conditions. This is the finding of the Commission appointed by the United States Food Controller to investigate the cost of hog production and to suggest plans for stimulating it. The figures given above are based on a survey of ten years' production, ending 1916. The Commission reported that to bring production back to normal, it would be necessary to pay at least the equivalent value of 13.3 bushels of corn for 100 lbs. of average hog, and recommended that a minimum emergency price of \$16 per cwt. at the Chicago market be established immediately.

ONE HUNDRED LOSE LIVES DURING A RAID ON PARIS.

Wounded Number 79—Of Killed 66 Were Largely Women and Children Who Were Suffocated During Panic—Sixty German Machines Joined in Attack—Buildings Demolished and Set on Fire.

PARIS, Mar. 12—Thirty four persons were killed and 79 others were injured in Paris and its suburbs as a result of last night's German air raid.

In addition to the bomb victims 66 persons were suffocating thru crowding in panic into a metropolitan railway entrance to take refuge from the raiders. These were for the most part women and children.

Fog, which had covered the city Monday morning, settled down again in the early evening. It was thick enough to cause the general belief that

there was little chance that the Germans would attempt an air raid. This belief, however, was shattered at 9.10 o'clock, when the warning was sounded of the approach of hostile aircraft. The raid ended shortly after midnight.

Sixty Enemy Machines.

The official report of the raid says "According to the first news, nearly sixty enemy airplanes succeeded in crossing our lines. Thanks to the curtain fire which our artillery maintained throughout the aid with great intensity a certain number of the machines failed to reach their objectives. Nevertheless numerous bombs were dropped on Paris and its suburbs. Several buildings were demolished and took fire.

Of the bomb victims twenty nine were killed and fifty injured in Paris and five killed and twenty nine injured in the suburbs.

A German airplane was hit by French anti-aircraft guns and fell north of Soissons. Three passengers two of them officers were captured.

Soissons is near the bend in the battle line northeast Paris. The machine brought down there may have been one of those taking part in the raid on the French capital.

The raiding Gotha brought down in flames fell on a spot three miles from Chateau Thierry. A German captain, who was on board and was taken prisoner with the crew, belongs to the Third Squadron of the Seventh Army.

TRING WA SNOT STRONG ENOUGH.

As a train was getting up steam to leave a certain station suddenly parted in the middle. Of course the communication cord broke, and one end of it struck an old woman, who was standing on the platform, in the face.

"Goodness me!" she gasped in astonishment. "What was that?"

"The train has broken in two, Madam," said a man who stood near her.

"And I should think so," said the old woman indignantly, as she eyed the broken cord. "Did you really think that a piece of string like that could hold a train together?"

AUTOS FOR SALE!

2 Ford Touring Cars of the year 1917, both in good condition, tires all good. Will be sold at reasonable price on reasonable terms. Also for lease small Garage with stable attached, room for four horses. Apply to **FRANK C. MOORE,** Kentville.

A "Jack Johnson" had exploded with a deafening roar, and Murphy, wiping his eyes clear of mud with his respirator, looked around to see his chum, lying very still.

"Spake to me, Terrence!" he whispered. "Are ye alive or dead?"

"Dead!" faintly murmured Clancy.

"What a liar the man is!" soliloquized Murphy, much relieved.

Then Clancy sat up.

"Ye know I must be dead, Murphy," he said, "or it isn't the llokes of you would be callin' me a liar!"—Exchange.

Sergeant—Now, then, don't you know how to hold a rifle? Recruit—I've run a splinter in me finger. Sergeant (exasperated)—Oh, you 'ave 'ave you? Bin scratchin' yer 'ead, I suppose?

He:—"Why did you fail to recognize me in the street today?" She:—"I didn't see you." He:—"That's strange. I saw you twice." She:—"Oh, that probably accounts for it. I never notice a man in that condition."

CAPT. SCOTT GIVEN UP AS LOST.

Capt. David Scott, of Hants Co., who commander the Simr. Acadien, has, with his crew been given up as lost. The steamer was caught in the terrible storm which drove the Florizel on the rocky coast of Newfoundland, and in which disaster so many lives were lost. Capt. Scott phoned a friend in Windsor a few days before he sailed asking him to locate a captain to make the trip with the Acadien to St. Pierre. A man was located but his family physician advised him not to go. The result was that Capt. Scott started on the voyage himself. This is the second death to occur in the family within a month, another brother, Capt. William having died in South America two days after the arrival of his ship. To the bereaved ones at Hantsport we extend sincere sympathy.

THE CALL TO CANADA FOR FOOD SERVICE.

During the next four or five months food conservation on this Continent and among their own people must be the sole hope of the Allied nations in Europe and of friendly neutrals. Stocks are dangerously depleted, particularly in the case of cereals and meats. The problem is to "stretch" these supplies over the interval until this year's crops are harvested to help our Allies over the next few months when starvation will be threatening them dangerously.

In Great Britain, in France in Italy, the people are alive to the situation. They know something of what the next few months will mean. Their spirit was expressed by Lord Charles Beresford the other day when he said "We are tightening our belts and we are going to win."

Canadians, too, must tighten their belts and help the Allies to win. Use should be made on this Continent of every available substitute for wheat, beef and pork. Upon our food service depends the very lives of thousands of women and children in the Allied countries.

Following is a budget for a family of five: A man and his wife at moderate work; a boy of 12 years; and two other children of 9 and 3 years respectively. This food will provide adequate nourishment for one week. According to well-known authorities, it allows sufficient material for body-building as well as energy for

the various activities of the family.

- 1. Meat and Meat Substitutes.**
4 lbs. lean meat;
2 lbs. fresh fish;
1 lb. salt fish;
1 doz. eggs;
1 lb. cheese;

40 lbs. potatoes;
14 lbs. other fresh vegetables.
- 7. Fruit.**
14 lbs. according to season.

Minard's Liasment Cures Garget in Cows

NO MORE BULBS.

Leyden, Netherlands, Feb. 28—No longer will the famous road to Haarlem present an uninterrupted vista of flowering bulbs, when spring comes. The bulb business, which has been seriously hit by the war, offers such poor prospects that many growers have partly abandoned bulb planting and have taken to vegetables raising instead. Extensive vegetables drying sheds have arisen alongside the canals where in previous years banks of multi-colored tulips and hyacinths for drying "the eye." So far, the facilities for drying vegetables, especially cabbages and carrots, are limited to about 600 tons a week.

HANTSPOBT BOY RETURNED.

Saw Nearly Two Years Service at the Front.

Signaller George W. Newcombe son of J. H. and Mrs. Newcombe, returned home Saturday evening and his many friends giving him the glad hand. George was in Halifax, 1915, a year with the C. A. D. C., went to France April, 1916, was gassed and suffering from bronchitis was sent to Dustan Military Hospital, Northampton, Eng. He has been invalided home and expects to enter a sanatorium.

George was surprised one day in France to met his father, and says he looked well. — Journal.

ICH DIEN
(I Serve.)

The motto of the Prince of Wales might be adopted as the slogan of modern business. "To Serve" is the keynote of 20th century merchandizing. The up-to-date merchant realizes that it is good business, as well as good morals, to render real service to his patrons, and he tells you about it in his advertisements.

It pays to patronize consistent advertisers. They are modern in their methods and imbued with the modern spirit of service.

Settle the Flour Question

BY USING

PURITY FLOUR

Once you know how good Purity Flour really is, you will rely on it constantly for all your baking needs. It goes farther, too, and is therefore the cheapest flour you can use.

More Bread and Better Bread---and Better Pastry, too.

HARBORVILLE.

That er old ground hog, sure did kno his bisnes, when he craleed inter his hole a few weeks ago, and pulled the hole in arter him, fur he hev sur hed sum rel winter wether fur the past two weeks, it was down Zero, and we hed lots of snow and gales besides. It was so derned cold, thet I culdnt write you nuthin at all last week, fur it tuk me all ther time to get enuf wood to keep the women frum freezin ter deth. You knefiger it out yurself, thet it must hev been sum cold, when Harborville didnt hev no dance at all, and they wus halen wood across ther old bay frum Cumberland county, es the bay wus chuck frize over, and made a il fired good sleden. I hev since herd, that the above what I hev writ abote sleden wood over ther bay wus ded rong, as it wus jest a lot of stuff in ther ice what looked like a team drawn wood, es I was at Parkes been froze up, so they aint no good. Now we hev a whul lot of millioners round here, sum uv em hev made ther money keepin store, sum made it as Sea Captains, and others hev made it Fishin fur salmon and Lobsters, and inother ways, and we hev eny amount of grate wurkers, so thet we hev nary er excuse fur not bidden one.

Uv curse, Ed Curry is bidden a little schooner all by himself, but es his Millionair uncle, what is a Cenator, and a few uther things hes not put eny munny inter it, it is taken Ed a long time to get it built, but if he lives long enuf he will get ther, fur he is a regulas cuse fur hangen on.

Our boys round here air gettin sum scared es they hev herd thet the Military officals is goin to get after all the fellers what wus exempted as farmers, and thet havent been ner a farm since apple picken time, nor dun anything else wurth mention. Sum uv em is so scared thet they wud be willin I guess to wurk fur sum farmer fur nuthin just now, jest to be safe ontar a farm befur the 15th, uv March.

A former resider uv this place Mr. Boardman Margeson who is now helpin Balcom bild ships to Margeretville wus spendin sunday here with his friends.

I here Fred Wagstaff is goin to leave Berwick, and seek his fortune sumwhere else, where his famerly ken have more of the pleasure and cumfurts of life I wus wondern what Mr. Morse whid do, es Fred is a darn good man, and they air mighty scarce round here.

Mrs. Emma Conner, what hes been spendin the winter in Boston and other places has got es fur es Waterville on her way home. Shecaught a cold ther and hes to stay a while till she gets over it.

Edson P. Wood, managed ter sch ontar a sweet old cold smewher between here and Berwick so now he hes to stay to hum and cant drive ther male.

There wus a new preacher to

town on Saturday and is stoppin up to Mr. Jacksons. He wus goin to hold er meetin on Sunday afternoon and nite, but fur sum unnone reson the Lord sent us another blizzard sunday, and s other wus no chance to hold mutch uv a meetin as ther folks wuldent cum out in the storm. I never seed a soul all day exceptin Boyd parker goin to the barn ter feed and milk his cow.

The Ruby L. wus to cum in Monday fur the first trip this yere, but I guess she will hev to be like the ground hog, and will hev to crawl in her hole fur another spell or so.

I hev been wondern why the dickens we dont build a vessel uv our own around here. Last fall they culdent find vessels enuf to haul away ther Pertaters, so thet a whul pile uv em hed to be put away in frost proof (But they wusent) cellars and now when maybe we will hev spring in a few months, they is looken them pertaters over, and they find most uv em hes been froze up, so they aint no good.

Our boys round here air gettin sum scared es they hev herd thet the Military officals is goin to get after all the fellers what wus exempted as farmers, and thet havent been ner a farm since apple picken time, nor dun anything else wurth mention. Sum uv em is so scared thet they wud be willin I guess to wurk fur sum farmer fur nuthin just now, jest to be safe ontar a farm befur the 15th, uv March.

GERMANY CALLS HER BOYS OF 16--

Despite constant assurances to the contrary on the part of German propagandists, there is proof sufficient that Germany is finding it difficult to maintain her armies at anything like full strength. From Amsterdam comes a despatch stating that Germany is planning to force boys of 16 and 17 years into the Army. In an appeal appearing in the Essen General Anzeiger, the boys are urged to join the Juvenile Corps. "This great struggle between the nations," says the newspapers "will necessitate those who are now 16 and 17 being called up at no very remote date for army service."

STOP REFRESHMENTS AT SOCIALS.

There is a decided objection by many of the citizens of Truro that the serving of refreshments at socials, connected with churches and other organizations, also afternoon teas, etc., should be promptly stopt during these war times.

It certainly does not look well to the men at the front or to the Government, when they learn that at socials, teas and other enjoyable occasions our people are eating, drinking and making merry, when the people of other countries are on rations.

Let there be less "Eats."--Truro News.

UNCLE SAM AND MISS CANADA.

Remember that time when Bill Taft with his mighty bosom swelling with tariff reciprocity, sparked Miss Canada, and got the mitten so's all the world saw it? Well, the haughty maid has relented. There's a soft glad hand at her front door and room on the parlor sofa for Uncle Sam with lights turned low.

Since April last, Miss Canada has sent into the United States over 14 million bushels of wheat duty free. On April 16, she removed her import duty on wheat and this act automatically broke down the tariff wall.

A common disease makes neighbors akin. After Uncle Sam doffs his khaki get a bath and shave and dons his old reliable boiled shirt, watch him perk up to Miss Canada once more.--Detroit Times.

DR. RAND OF HARVARD TO SPEAK IN HALIFAX.

Arrangements have been made by the Canadian Club Executive with Dr. Benjamin Rand, of Harvard University, to deliver his address, "Within the War Zone," in Halifax during next month, April. Dr. Rand has been abroad

every year since the war began has been a guest of the British Foreign Office, has visited the trenches, Grand Fleet, and hospitals. He will also lecture in St. John, N. B., as well.

TWO SOLDIERS DIED AT AMHERST.

Of Spinal Meningitis and the Barracks Has Been Placed Under Quarantine.

Canadian Press. AMHERST, March 11--Private Charles P. Knocton, of South Intervale, Guysboro Co., N. S., and Private L. Beecher Perry, of Cape Negro Island, Shelburne County, N. S., died from spinal meningitis at the Highland View Hospital yesterday. Both men are drafted under the Military Service Act and members of the Depot Battalion quartered in this town. The barracks are under strict quarantine.

Minard's Liniment Cures Dandruff.

50,000 POUNDS FROM AUSTRALIA.

OTTAWA, March 8--A cable has been received by the Minister of Trade and Commerce from the Canadian Trade Commissioner at Melbourne, Australia, Government has granted £50,000 (\$250,000), to the Halifax Relief Fund.

Heroes Of The Road

In order to give some recognition to men who have done so much to build up the fine record of efficiency, the Canadian Pacific has decided on a new policy which should attract wide interest. Hitherto on this continent railway locomotives have been identified by numbers only—a practice which has prevailed elsewhere except on certain English railways. On the Great Eastern, for instance, one famous engine was called after the chairman of the company "Claud Hamilton." On the Great Western Railway, the shield over the great driving wheel carries a distinctive name—thus the giant of the "Star" class is called "The Great Bear," there is a "Knight of the Garter" which the "Knight of the Garter" is conspicuous, while one well known engine is named "King Edward." On the London and North Western Railway one of the most powerful locomotives is named after the Greek hero "Achilles."

The late Dave Bowker.

The Canadian Pacific believes that it is not necessary to go back to ancient Greece to find the names of its heroes. They are among us today, driving through the fierce blizzards of our Canadian winter the freight trains laden with supplies for the Allies, or the lighter but speedier passenger trains on the Imperial Highway which links Atlantic with Pacific. Take for instance Bronco Wilson, one of the most popular engineers on the Western Division, who won his reputation on the old Prince Albert Branch, famous for having no water but lots of snow. Bronco is the cowpuncher of the "iron horse" and would consider it the biggest disgrace out of jail to let an engine die on the road, and if his engine was badly stalled would draw off the fire, put slabs on the top of the hot grates and in spite of the blinding steam caulk the tubes and light the engine up again. Achilles, the greatest of the heroes of ancient Greece, sat sulking in his tent because Agamemnon took one of his slaves. The lack of a maid would certainly not prevent a C. P. R. engineer from driving his locomotive to White River at 60 below zero, with the wind against him and blowing fifty miles an hour. "Romance is dead," says the pessimist. "No," says the C. P. R. with Rudyard Kipling.

"All unseen, Romance brings up the 2-16." It has, therefore, been decided to name certain of the Canadian Pacific locomotives after the engineers, who by meritorious conduct or by acts of special bravery have, in the opinion of the management, earned the right to special distinction. Some of these names may even be taken from the list—men like Ash. Kennedy, who grew up with the west and ran engines when the C. P. R. was still laying tracks across the prairies—a big man physically, mentally and morally, commanding the respect both of the men and of the big officials—the former Assistant Grand Chief of the Brotherhood. Other names may be taken from those who have passed away into the land where there is no longer need of railways—such for instance, as Dave Bowker, identified particularly with No. 320, who for thirty-four years drove his engine without a black mark against his record. There exists there a legend that Norman Wright, compelled by ill health to forsake his engine but pressed now in another service, has one day a child on the track too

late to stop his train, Norman Wright ran along the pilot and by leaning forward lifted it out of harm's way just in time. This earned the medal of the Royal Humane Society, and surely Jack earns the right to name an engine after him. There are other C. P. R. engineers who have done good work and whose names may soon be commemorated on some giant high type passenger engine. They are to be found on every division from St. Ontario, each of them steady as a clock. In Quebec there is Arthur Charlebois—known as the Snow Man—who can buck a snowdrift when no one else can. Mate to him is Harry Ledere, known as Bronze Buck, a French-Canadian worthy of his race and always on time.

Over two thousand locomotives run in the Canadian Pacific service, with over two thousand engineers. It is not the intention to name every locomotive at once, but only those in passenger service, and to keep each name as a privilege and a reward. The idea is one which should appeal to every man who knows the value of personality in good railroading. It appeals to the C. P. R. because it will make for efficiency and encourage that esprit de corps which is the keynote of the whole Canadian Pacific system. The engineer does not think of his locomotive merely as a machine. It is something almost human to him. "She's a good engine" you hear one call to a passing conductor. "Get full of hard luck." It takes an engine months to make the week's run of a new locomotive, and for that reason he is not much in love with any new engine at any rate. "As-tended" to him—an engine that he can almost call his own. Were he to know that his favorite engine would eventually bear his own name, surely he would take greater pride than ever in work well done.

far often the engineer's best record is to be never heard of, and they themselves are the last men to seek the limelight. Take, for instance, Jack Hartney, so skillful in starting that the passenger does not know the train is moving till he looks out of the window. Jack Smith, on the run between Ottawa and Montreal, is another notable character. In the days when used to race between these two cities Jack always claimed that he never raced, but at the same time that he was never left behind.

On the other side of the Continent the A. F. Solloway, a veteran who left the C. P. R. thirty years ago and knows Canada Canyon like a book. Law Patrick, the safe man of the Selkirk, who in the old days bore the name of "The Old Man of the Rockies." Pass was furnished when the C. P. R. in winter that sometimes have slides, was said to be able to snuggle side ten miles away; Willie Armstrong another mountain man with eyes that hardly needed the hood light to see through the dark canyons and Dan Murray, of the Croft, a big man in a big locality. On the prairies, besides such men as

DISEASE COMES THROUGH THE BLOOD.

To Care Common Ailments the Blood Must be Made Rich and Red.

Nearly all the common diseases that afflict mankind are caused by bad blood-weak, watery blood poisoned by impurities. Bad blood is the cause of headaches and backaches, lumbago and rheumatism, debility and indigestion, neuralgia, sciatica and other nerve troubles. It is bad blood that causes disfiguring skin diseases like eczema, and salt rheum, pimples and eruptions. The severity of the trouble indicates how impure the blood is, and it goes always from bad to worse unless steps are promptly taken to enrich and purify the blood. There is no use trying a different medicine for each disease, for they all come through the one trouble—bad blood. To cure any of these troubles you must get right down to the root of the trouble in the blood. That is just what Dr. Williams' Pink Pills do. They simply purify and enrich the blood, and the disease disappears. That is why Mrs. M. Stills, who resides near the town of Napanee says: I cannot praise Dr. Williams' Pink Pills too highly. I was very much run down in health, suffered from frequent spells of indigestion, biliousness, and sick headache. I had an almost constant pain in my head and my housework was a course of dread. In fact I felt so miserable that life held but little enjoyment. I was advised to try Dr. Williams' Pink Pills, which I did, and the result was simply marvellous, and can best be summed up by saying that they made me feel like a new woman, and fully restored my health. I would advise every woman and girl who has poor blood, or is run down in health to give these wonderful pills a trial. I am never without them in the house.

At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WIRE WIRE WIRE

Mr. Buyer Here are Four Facts For you to Consider:— 1st:— We Buy our wire by the Carload and a car carries Four Thousand Rods. 2nd:— We Guarantee Every Rod as to having full weight and being thoroughly galvanized. 2rd:— We do not fear the competition of any wire dealer in the county as to prices. 4th:— And Most Essential Fact. THE ADVERTISER.

Issued Twice a Week at Kentville.

H. G. HARRIS, Proprietor.

The Christian Endeavor Society of St. Paul's Church held a very interesting meeting on Monday evening last, the subject being, "The Jubilee of the Trinidad Mission." The Rev. R. B. Layton, at one time a missionary in Trinidad, gave a very instructive and helpful talk on the work of the Canadian Mission, showing the progress made by the East Indian people, who fifty years ago were supporting their families on a shilling a day, and who today are taking some of the highest degrees at American Colleges.

Rev. Essex W. Kenyon, well known writer and evangelist who conducted the great religious campaign during the winter of 1913 at the apple warehouse, he will speak in the Kentville Baptist Church, on Sunday evening, Mar. 18th service to begin at Seven O'clock. The large choir and its 12 piece orchestra will provide their usual attractive programme.

We feel sure that Mr. Kenyon's many friends will welcome this opportunity of hearing him.

THE OPERETTA "RED RIDING HOOD."

In the opinion of the writer it does not lesson, but rather increases, the efficiency and sound optimistic spirit of our people to have proper recreation even in war time, and such music, stage effects and acting as the combined talent of Wolfville and Kentville, gave to Operetta, at Pastime Hall, would be difficult to equal even in the large centres, and was an excellent tonic for both old and young.

It was ably directed by Mrs. Richmond, who has probably done more for the development of high class vocal music in this valley than anyone else in history. The Title Role was most pleasingly taken by Miss Helen Knowles to whose industry musical, and teaching ability the presentation of such a charming affair was principally due. The principal characters were all excellent in acting and singing the stage settings were appropriate, the choruses were good the children simply delightful and beyond criticism, and the little Blue Bells of all inimitable, of the excellent between acts features, in the writers opinion, the gems were Miss Marie Wilson contralto solo in which the rare qualities of her voice with its depth, volume, and carrying quality, combined with its purely feminine mezzo soprano like softness were demonstrated to the delight of the Audience, the duet "Joan of Arc" beautiful rendered by Mr. Mason and Mr. Pick, and Miss Ruth Yould's highland Fling which dainty gracefulness of action and precision and correctness of step, would rival most professionals, and the writer knows because he used to dance it fairly well himself.

The orchestra led by Mr. Burpee Bishop, in its quality of shading, harmony, and tone, would bear favorable comparison with many more pretentious organizations and contributed materially to the pleasure of the evening. The highest compliment that the writer can pay the performers is that he went the Hall when very tired to keep a number of promises, stood the whole evening in a crowded house and was less tired at the end than at the beginning.

MUSIC LOVER. KENTVILLE MUSIC STUDY CLUB.

A goodly number of music lovers were present at last Tuesday evening's meeting, held in St. Clair's Studio, who appreciated the fine musical treat rendered.

ered. The programme in its entirety was well mastered and much credit is due to those who participated.

The Club was fortunate in having, Mr. F. J. Quinn, of Halifax, render us his pleasing manner a number of vocal selections bearing on the topic "Oratorio."

PUBLIC AUCTION.

At the Residence of George Friend, Wickwire Hill, Main St. East Kentville, on Monday, the 25th day of March, at 1 o'clock sharp, the following household furniture and effects:—

TOWN OF KENTVILLE.

WANTED

Janitor for the Academy and School Buildings. Applications for the position, will be received by the undersigned up to and including March 22nd, 1918. Duties to begin May 1st, 1918. JOHN CARROLL, Clerk. Kentville, Mar. 11/18.

CONSTIPATED CHILDREN.

Nothing will so quickly remove children-hood constipation as will Baby's Own Tablets. They are a mild, but thorough laxative; are pleasant to take; do not gripe and never fail to regulate the stomach and bowels. Concerning them Mrs. Adolphe Noel, Petite Lameque, Que. says:—"Baby's Own Tablets are the best remedy for constipation I know of and I would strongly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

YE OLDE FIRME A Friend---Or an Acquaintance? In every woman's life under a mantle of March snows, lie hidden April buds, waiting to spring into bloom. Only in her most intimate hours is their presence felt: their fragrance caught like fleeting perfume. Music is the sunshine that melts her reserve—that brings these flowers into full beauty. She will choose her piano then as carefully as she would choose a bosom friend who was to share her confidences and voice her aspirations. The Heintzman Piano has such loveliness of line, and tone that it is fitted to become such a friend in every home it enters—not merely an acquaintance. N. H. Phinney & Co. Ltd., 47 years of Fair Dealing Kentville and elsewhere

WANTED:—A good Sturdy
man to help work a farm special
inducements given & money to
be made by an earnest worker.
A. PILCHER.
Rural Route No. 1 Canning.

Mr. M. K. Ellis went to Hal-
ifax on Wednesday to attend an
important gathering in the in-
terest of greater production.

Mr. C. L. Dodge was in Hal-
ifax on Thursday attending a
meeting of representatives of
towns, municipalities agricul-
tural societies, etc.

Word has been received from
Army Head-quarter, that Pte.
W. H. Chase, of Wolfville, who
has been suffering from Shell
gas, has been invalided to Eng-
land. He is now in the Lon-
don War Hospital, and is report-
ed much improved. W. H.
Chase went overseas with the
Dalhousie Unit in 1916, and
was doing duty as stretcher-
bearer, in the midst of explod-
ing shells, where he was over-
come by the deadly gas.

Barry H. Burgess of Sheffield
Mills, who recently graduated
from the Harvard Medical
School, Boston, has been ap-
pointed interne physician on
the medical staff of the Brook-
lyn Hospital, New York City.
Dr. Burgess graduated from
Acadia College in 1912 and has
been a student at Harvard Uni-
versity for the past six years.
He spent two years in the spe-
cial study of bacteriology and
chemistry in their relation to
Medical science, took a number
of scholarships and was award-
ed the degree of Master of Arts
by Harvard in 1914.

OBITUARY.

William O'Hearn.
On Feb. 24th William O'-
Hearn passed away at the home
of his sister, Mrs. Chas. Lom-
bard, Medford. He had been
ill but a few days.

Mr. O'Hearn was born at
St. John sixty years ago and
when only a child came to Can-
ning with his parents where he
had made his home ever since.
When he was ten years of age
he was kicked by a horse losing
the sight of one eye, and met
with another accident when
forty years old losing the sight
of his other eye. For the past
twenty years he had been total-
ly blind.

William was an upright and
honest man patient always thru-
out the many years of his afflic-
tion. He is survived by two
brothers, Patrick and Richard
of Boston, and three sisters,
Mrs. Chas McFadden of Canard,
Mrs. D. W Mahoney of Boston,
and Mrs. Chas Lomhard of
Medford.

A sad thing in connection
with William's death is that of
his brother James who died at
Boston only five weeks ago.
All of the family were present
at the funeral which took place
on Thursday at St. Joseph's
Cemetery, Kentville, the Rev.
Dr. Donohue officiating.

Baking Day in Grandmother's Kitchen

GRANDMOTHER did her baking in tin kitchens set before the fire. Sometimes she baked a sponge cake in an iron kettle, browning the top with hot coals heaped on the lid. On baking day the kitchen was filled with delicious fragrance because Grandmother made her cakes and pies with *old fashioned brown sugar*.

Gone are the cranes and bellows and tin kitchens but we still enjoy Grandmother's favorite dishes. Mince pies, plum puddings, cakes and many sweets and beverages are much better made just as she made them with soft brown sugar. It is easy to get both the recipes and the sugar with which to make them up. *Lantic Old-Fashioned*

Brown Sugars come in three kinds—Light, Brilliant and Dark Yellow—and are for sale by grocers throughout Canada. Brilliant Yellow is particularly good for baking. *Grandmother's Recipes* have been reproduced in a delightful little book which we will send to you for a 2c. stamp to cover cost of mailing.

Lantic Old Fashioned Brown Sugar

is put up only in 100-lb. bags with the well-known Lantic trademark from which your grocer will serve you any quantity you require. Our booklet tells you among other things how to keep brown sugar fresh, moist and ready for use.

Lantic Old-Fashioned Brown Sugars are made by the same firm that makes the famous Lantic "FINE" Granulated.

Atlantic Sugar Refineries Limited Montreal, Que.

GERMAN AIRSHIPS RAID THE YORKSHIRE COAST!

LONDON, Mar. 12—Hostile airships attacked the Yorkshire coast tonight according to an official statement.

Field Marshal Lord French, commander of the home forces, reports that one or two hostile airships attacked the Yorkshire coast late this evening. A few bombs are reported to have fallen a short distance inland. No reports of casualties or damage have yet been received.

A CLOSE CALL.

Had it not rained in St. John's Nfld., on the day on which the first game between King's College and the city was to have been played, undoubtedly every member of the King's College Hockey Team would have been aboard the ill-fated Florizel. The University boys can look back with a sense of deep gratitude on the weather man for having delayed the opening game. The Kingsmen returned on Monday a. m. last following a very pleasant trip.—Journal.

A PAGE OF HISTORY.

An interesting addition to the many exposures of Germany's war crimes, made by the brilliant editor of the Providence Journal, Mr. John R. Rathon, discloses that the warning notice of Germany's intention to sink the Lusitania, which von Bernstorff declared was published on his own responsibility was actually inserted in obedience to an order from Berlin. According to Mr. Rathon's story, a wireless operator in his employ tapped a code message sent via Sayville from Berlin to von Bernstorff. When finally decoded this message read: "Warn Lusitania passengers thru press not voyage across Atlantic." The code a new one was discovered by the merest chance, and publication now of the message is, like the famous Lusitania medal proof of the German government's order for this foul crime. In making his disclosure Mr. Rathon says that Von Bernstorff had a little private celebration of the murder of neutral American citizens by giving a dinner in the apartment of a friend and toasting the U-boat commander. This

revelation, like others of Germany's terribleness, must intensify those feelings which

Boyl O'Fellley in her address so plainly pointed out will make it impossible for Germans of the present generation to regain their old place in world affairs. More effective than trade barriers and national agreements will this feeling be in blocking German efforts to re-establish German relatives with the peoples taught by bitter experience that the German desire for world dominion made of the German people cruel, calculating savages.

HUNS DENOUNCE NORWAY AND SWEDEN.

LONDON, March 10—The newest and a novel display of German policy has come in the form of a sudden broadside of denunciation of the Scandinavian countries by German newspapers and publicists, like Count Reventlow, in the Tages Zeitung. From the similarity of the articles it is evident that they are directed by one mind, which mind apparently is the German Government.

RECOMMEND FREE FARM MACHINERY; PRICE FOR WHEAT.

Edmonton, March 8—The removal of the duty on all farm machinery and the fixing of a maximum price for wheat in 1919 are the recommendations that have been made to the dominion government through the federal minister of agriculture by Hon. C. A. Dunning, director of production under the Canada Food Board, who addressed the Alberta legislature this morning.

A 9-INCH LOBSTER LIMIT

OTTAWA, March 7—An important change in the lobster fishery regulations for that portion of the maritime provinces coast west of Halifax harbor has been made by order-in-council. It consists in the establishment of a size limit of nine inches for lobsters and will become effective at the end of the present fishing season. The announcement states that, while the regulation may have the effect of closing the canneries, it will, in a few years, put more money in the pockets of the fishermen, as well as conserve and build up the industry. In the past the practice has been to ship lobster nine inches long and over to the United States live lobster markets, and send the small ones to the canneries. This practice, however, has been telling on the supply of lobsters which has been declining from year to year. Lobsters do not lay eggs until they are about nine inches long, and the number of eggs produced increases rapidly with the size of the lobster.

A FARMERS VIEW.

It is reported from Halifax that the farmers of the province of Nova Scotia are agitating against the daylight saving scheme. It is said that the farmers opposed to the plan, hold that in the early morning, owing to the atmospheric conditions prevailing in the maritime provinces, the land cannot be ploughed with facility, the harrows gum up with sodden earth and it is almost impossible to work to advantage until the sun is well up. They contend that hay in cock and grain in stack cannot be spread out to dry in the early hours of the morning and this will become necessary if the hands of the clock are set forward another hour. It is not likely however that the opposition of the farmers will be so great as to kill the daylight saving every other circle in that province. St. John Telegraph.

RELIABLE GUIDES.

In herd of fourteen cows that gave an average yield last year of 6,088 lb. milk and 260 lb. fat,

the best cow was a five-year-old the second was 11 years old, and the third was only a three-year-old with a yield of 7,364 lb. milk and 305 lb. fat. The two poorest were aged six and fourteen.

So it is not always age that determines production; it is not always feed, for these 14 cows were all fed alike; but it does largely rest upon some at present unknown principal which enables one cow to make better use of the same quality of feed and out of it produce two thousand pounds of milk more than her stable mate.

With such remarkable differences in plain sight in every herd where individual milk records are kept, the owner is in no doubt as to which are the best cows to keep as foundation stock. But without such records there is no reliable guide in selection.

The best of it is that no dairyman need go to the trouble of finding suitable sheets of paper and laboriously ruling them to suit him. For on application to the Dairy Branch, Ottawa, he can obtain, free of any cost whatever, convenient ruled and printed milk record forms for taking weights either daily or on three days per month, together with feed record forms and a herd record book for the complete year's figures; write today, it will pay to use them; they are reliable guides.

C. F. W.

HALIFAX DEATH ROLL 2,000.

Total Financial Loss Estimated at \$23,500,000.

HALIFAX, Mar. 12—T. S. Rogers, K. C., chairman of the Halifax Relief Commission, tonight gave to The Canadian Press a statement as to the government's action on the commission's preliminary report recently submitted to the government. The statement shows the total material loss from the disaster, excluding government and shipping property to be estimated at fifteen million dollars.

The provision of a capital sum to provide for the dependents of those killed and take care of the injured may reach five million dollars. The relief funds, including the million pounds sterling appropriated by the imperial government, five million dollars by the Canadian government, and three million by general subscription, reach the sum of about thirteen million dollars.

The loss on the waterfront is roughly estimated at seven and a half million dollars.

The loss of life will reach 1,800 at least, and may, owing to the large number still unaccounted for, eventually reach 2,000 or more.

DANGER LURKS IN EVERY ONE OF US

We Are As Full of Deadly Poisons As A Germ Laboratory.

AUTO-INTOXICATION OR SELF-POISONING

"FRUIT-A-TIVES" Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that Auto-intoxication, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness; that chronic Rheumatism, Gout, Pain In The Back, are relieved as soon as the bowels become regular; and that Pimples, Rashes, Eczema and other Skin Affections disappear when "Fruit-a-tives" are taken to correct Constipation.

"Fruit-a-tives" will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

EXPLORER MAY DIE.

Vancouver, B. C., Mar. 12—Despatches from Dawson, Y. T., said fears were expressed for the recovery of Vilhjalm Stefansson, the Arctic explorer, now wintering at Herschel Island, in the Arctic ocean.

SUPPLY NEWSPRINT.

MONTREAL, Mar. 12—The necessary supply of newsprint to the Canadian papers will be continued for the time being, so it was decided at a meeting of representative manufacturers of news print paper.

This decision was in accordance with a request made by Commissioner Pringle, at Ottawa.

COBLENZ BOMBED.

LONDON, Mar. 12—British aviators have dropped a ton of bombs on the town of Coblenz, capital of the Rhine province of Prussia, according to an official communication issued to-night. The city has a population of 60,000.

FARM FOR LEASE.

Well situated on Main Road 15 acres in orchard besides tillage land. For particulars Apply, Box 173 New Minas via Greenwich or at Advertiser Office.

RECIPROCITY IN FISHERIES FOR WAR TIME.

New Regulations Enable Canadian Fishermen to Land Catch in United States and Vice Versa.

OTTAWA, March 8—The new International Fisheries regulations affecting a practical wartime reciprocity and pooling of interests in fish catching and marketing on the Atlantic coast, outside the three mile limit, have been agreed to by Canada and the United States and will be promulgated forthwith.

The new regulations are made as a war measure and will continue in effect until normal conditions are restored after peace is declared. They are the outcome of the International Commission which met recently in Boston and on which Canada was represented by Hon J. D. Hazen, Deputy Minister Desbarats and Superintendent of the Dominion Fisheries Department.

Under the new Modus Vivendi, Maritime Province fishermen gain the right to land their catch in American ports and clear from there directly for the fishing grounds. United States fishing vessels, line, are now to be allowed to enter Canadian ports with-whether sailing, steam or gas-out extra tonnage tax and ship

OVER 40 YEARS ON THE ROAD

The name of W. G. Reid of Hamilton, Ont., is a familiar one to thousands throughout the Dominion. For over forty years Mr. Reid has seen service as a commercial traveller. A letter recently received from him indicates how he suffered from Rheumatism, and at last found relief.

Read this letter: Hamilton, Ont. "About four years ago I wrote you of my condition from Muscular and Inflammatory Rheumatism and Kidney Trouble and my efforts through travel and change of climate to rid myself of these unwelcome guests, and how I only found relief in Gin Pills after spending a lot of time and money in foreign lands. Since then Gin Pills have been my sheet anchor. I find in advancing years a tendency of the kidneys to get out of order more easily than formerly but a few doses of Gin Pills puts them right and wards off other and more serious trouble. I feel it not only a duty but a pleasure to recommend Gin Pills for Kidney and Bladder Troubles to my thousands of personal friends throughout Canada to whom I am well known as a commercial traveller of over forty years' service."

Yours truly, (Signed) W. G. Reid. A sample of Gin Pills sent free upon request to National Drug & Chemical Co. of Canada, Limited, Toronto, or to the U. S. address—Na-Dru-Co Inc., 202 Main St., Buffalo, N.Y.

their catch in bond to American ports. They may also take on crews and supplies in Canadian ports and clear direct for the fishing grounds.

MARGARETVILLE NAMED AFTER WIFE OF SAM SLICK.

In a recent number of the St. John Daily Globe, one of the best of our Maritime exchanges, there appeared a sketch of a visit to several points taken from an old document. In this sketch reference was made to Margaretville and how that place received its name.

"Not very far from St. John as the crow flies, on the Nova Scotia side of the Bay of Fundy, is a little village, Margaretville, rich in tradition and scenery. Before its door lies the Isle of Hout, up whose one safe landing place scrambled the sailors of the first Norwegian explorer, who came in to this country. Here later Champlain's soldiers and sailors paused for a brief survey. Today its great revolving light swings ceaselessly over the wide stretch of waters, warning those who go down to the sea in ships of the dangers

that lurk in its majestic presence. Margaretville was named for the wife of Thos. Chandler Hlaburton, some time Chief Justice of Nova Scotia, and always Sam Slick, the beloved clockmaker. Here the Hlaburtons had a summer home and brought to the lovely place many friends who are now only long ago a shipyard of considerable activity and along its shores are still great piles of silver chips that mark the site of where such and such a boat was built. It has its stories of piratical happenings, as has every well accredited port-of-call, but these belong to a by-gone generation. The war has brought the loyalty of this place to the fore; its young men have enlisted and its older men have turned to the thing they knew best, and once more ships will be launched from its natural bays to join their fellows in keeping free mans ancient highway."

UNITED STATES LOANS BELTAIN \$200,000,000.

Credit of \$15,000,000 Also Extended to Cuban Government—Total Loans to Allies, \$4,949,400,000.

Washington, Mar. 12—Great Britain was today given another credit of \$200,000,000 by the United States. A credit of \$15,000,000 was also extended to the Cuban government, to assist it in war preparations. Both loans were made at the new interest rate of five per cent.

These credits raised the total of loans for the Allied governments to \$4,949,400,000, distributed as follows:—

Great Britain, \$2,520,000,000; France \$1,400,000,000; Italy \$550,000,000. Russia \$325,000,000 of which only \$137,000,000 has been paid out; Belgium \$93,400,000. Serbia \$6,000,000 and Cuba \$15,000,000.

American Red Cross Mission To Russia

American Red Cross Mission on the "Empress of Asia" en route to Russia. Dr. Frank Billings on left.

A DISTINGUISHED party of physicians, surgeons, bacteriologists, professors of food chemistry, sanitation experts and dentists, making up the first unit of the United States Red Cross mission to Russia, numbering twenty-nine in all, left Vancouver the other day on the "Empress of Asia," en route to the eastern front.

Lieut.-Col. Frank Billings, professor of medicine in the University of Chicago, is in charge of the party and is taking to Russia over \$100,000 worth of medical supplies, surgical instruments, dressings, water sterilizers and other necessary articles, including vaccine for the prevention of typhoid, smallpox, cholera, diphtheria, bubonic plague, meningitis and other diseases. A heavy task lies before them in Russia, and they are going abundantly prepared to go immediately to work.

The mission is being sent out by the United States Government, and the United States Red Cross Society will see that they are kept fully supplied in order to meet all demands for alleviating the suffering among the Russian soldiers and people. The move has been gratefully welcomed by the present Russian Government as an expression of the friendship of the people of the United States for Russia.

During the past month the United States Red Cross has raised over \$125,000, and while the work has been already begun in France, Italy, Serbia and Belgium, the present is the first of similar units to be sent to Russia. The present party will investigate and report on Russia's needs and upon this report the United States Red Cross headquarters are now being taken to get together complete equipment, even to motor ambulances.

Col. Billings and the other members of the mission are a sturdy and affable lot of men and are fitted out in uniforms very similar to those worn by the British. The colonel is exceedingly proud of his organization and the promptitude with which it was effected.

"Every man who was approached to go on this mission, Winslow of Yale and Whipple of Harvard, and all the others, at once offered their services," said Col. Billings. They got ready in four days, leaving their families behind them, to undertake this work, which is going to be of such tremendous importance to the Russian nation and to the military in particular.

These men are leaders in their professions and are the heads of the

largest universities in the United States, but they did not hesitate a moment when the call reached them.

Several of the party have already seen active service in the present war. Major M. Grov spent twenty months on the Russian Masuren front, and he has received the Military Order of Saint George for services in the Russian campaign, as well as being honored in other ways.

Major (Dr.) H. McCarthy has been in France making a survey of the prison camps in that country before the break between Germany and the United States; while Colonel Billings has been in Russia several times. Some of the members of the party took occasion to obtain several motion pictures of various points of interest, and, as they have already a large supply of film, they will be able to produce before the Russian people graphic pictures of interesting events and things on this continent.

Mr. G. M. Bosworth, Vice-President of the C. P. R., has received a letter of appreciation for the very many courtesies the delegation received en route to the Pacific Coast. It was sent at the instigation of Lt.-Col. Billings. The names of the mission are as follows:

Lieut.-Col. Frank Billings (chairman), professor medicine in the University of Chicago; Lieut.-Col. W. B. Thompson, director of the Federal Reserve Bank, New York; Major B. Thatcher, lawyer, New York; Capt. J. W. Andrews, auditor, St. Louis, Mo.; Major W. S. Thayer, professor clinical medicine, Johns Hopkins University, Baltimore; Major D. J. McCarthy, fellow of Palpa Institute, Philadelphia; Major H. C. Sherman, professor of food chemistry, Columbia University; Major H. H. Swift, of the Swift Company; Major G. C. Whipple, professor sanitary engineering, Harvard University; Major C. E. A. Winslow, professor bacteriology and hygiene, Yale Medical College; Major W. Post, assistant professor of medicine, Rush College, Chicago; Major Robins, Chicago; H. J. Horn, transportation expert, Brooklyn; Major S. Wightman, professor clinical medicine, New York Polytechnic Hospital; Capt. H. Brown, publicity; Capt. R. L. Barr, vice-president Chase Securities Company, New York; Capt. W. Cochran, Capt. A. Wardell, lawyer of New York; Capt. Grov, of the Medical Officers' Reserve Corps, Washington; Capt. Pirnie, civil engineer, New York; Lieut. C. Kelleher, attaché; Lieut. H. B. Redfield, law secretary of Brooklyn, attaché; Lieut. W. C. Nicholson, of the Swift Company, Chicago, and Lieut. H. D. Hardy, H. M. Wyckoff and N. C. Travis.

\$\$\$

A Good Impression.

First impressions are tenacious. The customer who gets an unpleasant impression on his first visit to a store, is not likely to be a permanent customer. On the contrary, a favorable first impression will insure a steady patronage.

First impressions are often obtained from a firm's advertising, even before the store is visited. A frank, straightforward statement of values and advantages, will create an impression of fair dealing, and bring the customer to the store in a receptive state of mind.

Our advice to merchants is to give careful thought to their advertising and to advertise regularly.
