ANOTHER BIG SNOWSLIDE ON C. P. R. MAINLINE

Avalanche at Glacier 1,000 Feet Long and 30 Feet Deep

General Manager's Train Isolated in the Mountains—Forty-four Bodies Recovered at Rogers' Pass.

Nelson, B. C., March 10.—This morning a snow slide took place at Glacier, more than 1,000 feet long and thirty feet deep, and is so mixed up with rocks and trees that its removal is difficult. General Manager Bury's special train is now somewhere in the mountains, entirely cut off by slides.

The main line of the C. P. R. is now completely blocked by the slides, and all trains go round by the Crow's Nest.

At Rogers' Pass, forty five bodies have been recovered. Among those taken out was a Japanese clutching a plug of tobacco and an open knife, showing the suddenness of the snowslide.

SPRING REMINDERS OF RHEUMATISM

Raw Damp Weather Starts the Pain But the Trouble Lies in the Blood.

Changeable spring weather, often raw, cold and damp, is pretty sure to bring a time of misery to people who suffer from rheumatism. But it must be borne in mind that it is not the weather that causes rheumatism, the trouble is rooted in the blood—the damp changeable weather merely starts the aches and often almost unbearable pains going. The trouble must be reached through the blood, and the poisonous rheumatic acids driven out. This is a medical truth every rheumatic sufferer should realize. Liniments, outward applications and so-called electric appliances, never did, and never can, cure rheumatism. The sufferer is only wasting valuable time and money with this sort of treatment, and all the time the trouble is becoming more firmly rooted—and harder to cure. There is just one sure way to cure rheumatism—Dr. Williams' Pink Pills.

They act directly on the impure weak acid tainted blood. They purify and strengthen it and so root out the cause of rheumatism. Mr. John Finnamore, Marysville, N. B. says:—"I was laid up with rheumatic fever for a year, and for eight months of that time I could not go about. My blood had seemed to turn to water, and the pain I endured was at times almost unendurable. Notwithstanding I was under the doctor's care I was not regaining my strength and I decided to give Dr. Williams' Pink Pills a trial. I took altogether nine boxes and they simply worked wonders in bringing back my lost strength. I still take the Pills occasionally as I am working in a saw mill where the work is pretty heavy."

Not only rheumatic sufferers, but all who have any trouble due to weak, watery blood, will find a cure through Dr. Williams' Pink Pills. It is because of their direct action on the blood that these Pills cure such troubles as anaemia, indigestion, general weakness, neuralgia, and the aches, pains and secret troubles women folk alone know. Give Dr. Williams' Pink Pills a fair trial, and they will not disappoint you. Sold by all medicine dealers or by mail at 50 cents a box or six boxes \$3.00 from The Dr. Williams' Medicine Co., Brockville, Ont.

LITTLE INFORMATION ON BANK SITUATION

Looking for Bad News When Any is Given Out.

St. Stephen, N. B., March 10.—The bank situation remains unchanged since Monday morning. Not a word has been given to the people so vitally concerned by those in authority and only surmise can be indulged in as to the actual condition, but the feeling gains ground that the management of affairs has been very slack, to call it by no other name, and that not much of comfort can be expected from the official report.

To the present time only two business concerns have been unable to continue. C. C. Whitlock, who did a grocery business in Calais, assigned with liabilities of \$45,000 assets of \$10,000. W. H. Whitlock's livery stable is out of operation, due to an attachment issued yesterday for rent due on the building occupied. Both of these are brothers of the recent cashier of the defunct bank and that institution has been carrying them for a long time.

All the other concerns have ridden the first waves of the storm successfully and, as the banks are showing a commendable desire to assist, it is believed that there will be no serious difficulties.

TEMPERANCE WON IN FREDERICTON

Elected Seven of Their Candidates in Yesterday's Election

OLD REGIME BROKEN

Fredericton, N. B., March 14.—The temperance people won a decided victory in the civic elections here today, electing seven of their candidates and reversing the verdict of one year ago. It was one of the most keenly fought out campaigns in the history of the city, and the result was a genuine surprise to many people. The fact that 1,078 votes were polled out of a total of 1,273, indicated the deep interest taken in the contest.

VISIT FROM A DEER.

FINE SPECIMEN OUT ON THE ICE IN FRONT OF THE CITY.

Fredericton, March 11.—Yesterday morning persons who were on Queen Street witnessed a sight that is most uncommon. A large deer ran across the ice to this side of the river. It was about three hundred yards from the shore and the frightened animal lost very little time in passing under the bridge and proceeding up the river. A couple of teams coming down the river passed, the deer which was becoming exhausted as it reached above a mile about the highway bridge.

CONCERNING THE ST. STEPHEN'S BANK

ST. STEPHEN, N. B., March 14.—The notice posted on the door of the Bank saying that the Bank of New Brunswick is prepared to advance to St. Stephen's Bank depositors a certain proportion of the value of their deposits, is found to mean that the Bank of New Brunswick is prepared to lend money at six per cent, interest and take a claim upon the deposits as security, but will not take them as worth more than fifty per cent. of their face value.

I. C. R. BRAKEMAN TERRIBLY CRUSHED.

Robert Geldart, of Moncton, Caught Between Cars and so FEARFULLY INJURED THAT DEATH IS EXPECTED.

Moncton, Saturday March 12.—Caught between the tender of the engine and a box car, Robert Geldart, of this city an I. C. R. brakeman, was so seriously crushed early this morning that the chances are he will pass away before the day is over. Lying on a cot in the Moncton hospital, Brakeman Geldart is suffering from a broken hip and other fearful injuries about the body. The flesh on the hips was torn badly and his stomach and abdomen were also crushed.

The accident happened at Bellefleur about half-past twelve o'clock. The locomotive had broken away from the train and Brakeman Geldart, who was on the engine at the time, jumped off and on going between the tender and car gave the signal for the driver to back up. This was done and the two couplers caught the unfortunate man by the hips. A scream from Geldart told those on the engine that he was injured and the fireman, who was the first to reach him, found him jammed between the couplers with his body hanging over the draw bar. He held a lantern in one hand and could in no way release himself from the couplers. Driver Rushton and Conductor Frank Dickson then arrived on the scene and in a few moments the man was taken from his terrible position and removed

SASKATCHEWAN MAN DIES ON SCAFFOLD FOR TRIPLE MURDER

Prince Albert, Sask., March 10.—John Mesci walked to the scaffold this morning without a quiver or sign of fear. He murdered his employer and the latter's wife and mother-in-law at Gulf Lake. He killed Mrs. Geo. Thorburn with an axe. He then killed George Thorburn, the husband, and Mrs. Mc-Niver, Thorburn's mother-in-law.

HE DIED WITHIN TWO FEET OF FRESH AVALANCHE

Another Snowslide at Field Buried Locomotive

Vancouver, B. C., March 10.—After dodging another snowslide which all but nipped them, the coroner's jury chosen to investigate the Rogers Pass slide returned to Revelstoke yesterday. The inquiry developed one pathetic feature. Foreman McDonald, one of the victims of the slide, was an exceptionally heavy and strong man, and after being buried in the slide he evidently retained enough consciousness to start to fight his way to the surface. He had gained two feet and a shell of only two feet of snow remained between him and the open air when he suffocated. There was not a bruise on his body.

An avalanche descended at Field yesterday and engulfed a switch engine. Engineer Howard McRae and Fireman Lauderman escaped and Foreman Lainprize was buried but rescued. He sustained a broken leg.

MISERABLE FOLKS could trace both state of mind and body to some one or other form of stomach disorder. Dr. Von Stan's Pineapple Tablets is a "vest pocket" remedy that nature provides and that medical science has proved a wonder in preventing and curing stomach ailments. If you've a symptom of distress in your stomach test the Pineapple curer 35 cents. Sold by A. E. SHAW'S Pharmacy.—162

NO ASSIGNMENTS AT ST. STEPHEN.

St. Stephen, March 12.—There are no new developments to-day in the Bank of Stephen failure. No further failures have taken place. It was rumored that several big business houses might have to make assignments, but it is now said that whatever financial arrangements were necessary have been made with the other banks.

WE RECOMMEND FERROVIM, the invigorating tonic, to elderly people whose strength is beginning to wane, and who suffer frequently from attacks of sudden exhaustion, chilliness, weak heart action, etc. Ferronim contains fresh lean beef, Citrate of Iron, and pure old Spanish Sherry Wine. \$100 per bottle at druggists.

FREE ROOFING SAMPLE

Since the appearance on the market of ready roofings that need no painting, there has been a very lively curiosity on the part of many people to see the goods. Accordingly the makers of Amatite, the best known of this class of roofings, have arranged to supply samples to any inquirer free of charge.

These samples show the goods complete with the mineral surface which replaces paint as a protection against the weather, and it is easy to obtain a very good idea of just what Amatite is like.

All you have to do in order to obtain the sample is to send a postal card request for same to the nearest office of The Carrington-Paterson Mfg. Co., Ltd., St. John N. B., Halifax, N. S.

HERBERT W. READ

IS HERE IN A LETTER

St. Stephen, N. B., March 11.—Herbert W. Read, who was buried at Rogers' Pass, is here in a letter from his relatives. The letter was written on Y. M. C. A. paper and asked Gordon to drop him a line, care of the Y. M. C. A. at Buenos Ayres. That the body of the letter received was written by Herbert, his mother and Gordon are positive. The envelope, however, was not in Herbert's handwriting and this fact has given rise to the surmise that he may be ill or recovering from illness. Immediately upon the receipt of the letter, Gordon Read, attempted to get in touch with his father, H. C. Read, who is supposed to be in Montreal or Ottawa. Late tonight, however, no message had been received from him.

Mrs. Read in speaking to The Telegraph representative tonight said that she was as much in the dark as anyone, but she hoped that something definite would be heard very soon.

MOST REMARKABLE CURES EVER MADE BY ANY REMEDY.

Are Daily Credited to the Wonderful Powers of "Fruit-a-tives."

Bancroft Man Thinks This Fruit Medicine Will Work Miracles.

It is the old chronic case, the stubborn case, the case that will not yield to the ordinary remedies of the physician, that "Fruit-a-tives" never fails to cure. Many of the cures made by "Fruit-a-tives" are the wonder and admiration of the doctors who cannot understand how "Fruit-a-tives" can do what they cannot.

Bancroft, Ont., October 17th.

ST. PATRICK'S DAY CONCERT 16 & 17 MARCH.

The St. Mary's Church Choir, Newcastle, will give their annual Concert at the OPERA HOUSE, Newcastle, on Thursday, The 17th March.

The well-known Drama "THE SHAMROCK AND ROSE," portraying public life such as it was in Ireland a century ago, full of dramatic fire and incident will be staged. The Public will have a rare opportunity of enjoying good Drama. The Specialists intermixed will, as usual, be a feature which will add very much to the Drama itself.

A MATINEE ON WEDNESDAY, 16th, will be given for the accommodation of children who will not be admitted on the 17th, and for those who cannot come with convenience on that day, as also because the space may be somewhat limited on Thursday night for those who patronize the Concert in large numbers.

On St. Patrick's Day the Blackville train reaching Blackville on that day on schedule time (6 P. M.) will immediately return to Newcastle carrying passengers at EXCURSION RATES, and stopping at the several Stations for the purpose of taking on passengers, returning after the Concert.

The St. Mary's Band will be in attendance, playing popular Irish airs.

The Concert Begins at 8.30 p. m. Doors Open at 7.30 p. m.

ST. MARY'S ACADEMY.

The musical kindergarten opened at St. Mary's Academy in January 1909 has proved so successful a venture that it was deemed advisable to form a new class for little children unable to keep up with kindergarten of the second year.

This new class was opened on Monday, Feb. 14th. Little boys will be admitted as well as little girls.

Lessons on Mondays and Thursdays at 3.30.

Terms—One dollar for ten lessons, payable in advance.

Parents are requested to see that the children be present at all the lessons, from the very first, as the missing of even one lesson is a drawback to the pupils' progress.

MEETING OF PRESBYTERY

Newcastle, March 9—The Presbytery of Miramichi met in St. James' Hall Tuesday. There were present: Revs. C. A. Hardy, Flatlands, moderator; J. M. McLeod, New Mills, clerk; Geo. Tattier, New Carlisle, P. Q.; D. Henderson, Geo. Wood and J. M. MacLean, Chatham; J. R. McKay, Tabusintac; A. D. Archibald, Rexton; R. H. Stavert, Harcourt; H. J. Fraser, Loggieville; F. C. Simpson, Douglasville; S. J. MacArthur, E. Mowatt, Roboan; Eiders O. J. Young, Chatham; Edgar Vye, Nelson; John B. Robertson, Newcastle; Frank Carruthers, Chatham; Joseph Henderson, Bathurst.

The following were appointed Commissioners to the General Assembly: Revs. J. M. MacLeod, F. C. Simpson, George Wood, A. H. Barker, Escuminac, P. Q. and Eiders Alex. McKinnon and Frank Carruthers, Chatham; Edgar Vye, Nelson; and Wm. Anderson, Burnt Church.

Rev. Dr. Forrest, president of Dalhousie University, Halifax, was nominated for the moderatorship of the General Assembly.

Rev. J. M. MacLean submitted a very satisfactory Home Mission report. Presbytery agreed to apply to the Home Mission Board for nine catechists to supply the Presbytery's mission fields.

Rev. Geo. P. Tattier presented a report on the Bursary fund, showing that \$120.00 has been paid up to date.

The following resolution was passed re late Rev. A. F. Carr, D. D., a highly respected and capable member of this court for over twenty years.—"Rev. Arthur F. Carr, M. A., D. D., was born in St. Eleanor's, P. E. I., some 66 years ago. He took his arts course in Dalhousie College, and his theological course in the Presbyterian college, Halifax, Princeton Theological college, U. S. In 1871 after finishing his theological course he was called to Alberton, P. E. I. where he labored faithfully and successfully for eighteen years. He was greatly beloved by his congregation and highly esteemed by his brethren in the P. E. I. Presbytery. In 1889 he was called to St. Andrew's church, Campbellton, where he labored with great acceptance and success until his death. By his faithful preaching and diligent work he built up a strong congregation in Campbellton, which occupies a foremost place in the Presbytery. After an illness of a few weeks he passed away peacefully on Feb. 15th, in the 39th year of his ministry, deeply lamented by his congregation, the presbytery and the whole church. In 1903 he was unanimously appointed Moderator of the Synod of

HER PHYSICIAN ADVISED

Taking Lydia E. Pinkham's Vegetable Compound

Columbus, Ohio.—"I have taken Lydia E. Pinkham's Vegetable Compound during change of life. My doctor told me it was good, and since taking it I feel so much better that I can do all my work again. I think Lydia E. Pinkham's Vegetable Compound is the remedy for all woman's troubles, and I never forget to tell my friends what it has done for me."

—Mrs. E. HANSON, 294 East Long St., Columbus, Ohio.

Another Woman Helped.
 Grandville, Vt.—"I was passing through the change of life and suffered from nervousness and other annoying symptoms. Lydia E. Pinkham's Vegetable Compound restored my health and strength, and proved worth its weight in gold to me. For the sake of other suffering women I am willing to see this Compound published, by letters, and should publish my letter."

—CHARLES BARRETT, R.F.D., Grandville, Vt.

Women who are passing through this critical period or who are suffering from any of these distressing symptoms to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

the maritime provinces, and in the following year his alma mater conferred upon him the degree of D. D. in recognition of his distinguished services. He was also nominated for the moderatorship of the General Assembly, a position which he could efficiently fill. Dr. Carr was an earnest and eloquent preacher, a faithful and sympathetic pastor, an eminently successful minister, who was greatly beloved by his two congregations and highly esteemed by his brethren in the ministry. His life has been a blessing to hundreds and will be an inspiration to many for years to come. He being dead, yet speaketh.

The report on statistics was presented by the clerk, showing that there are now 18 self-sustaining congregations, 4 augmented congregations, and five mission fields. There are at present 5 vacant congregations—Blackville, Black River, Millerton, Bathurst and Campbellton. Two augmented charges became self-sustaining during the year, viz., Tabusintac and Millerton. In contributions for missionary purposes, New Mills and Campbellton lead with \$1235 and \$1165 respectively. In contributions for all purposes, St. Andrews (Chatham) and Newcastle lead, with \$5,600, and \$4,872 respectively. In contributions from the W. F. M. S., New Mills, Campbellton and Restigouche lead, with \$367, \$365, and \$274 respectively. Restigouche being best in proportion to its membership. Total amount for all mission purposes (not including mission fields) was \$9,172—a gain of over \$500 from last year.

A comprehensive and encouraging report on Sabbath Schools was presented by Rev. E. E. Mowatt. Excellent reports on Young People's Societies and systematic giving were presented by Revs. H. J. Fraser and A. D. Archibald.

A call from Millerton in favor of Mr. Alex. Rennie, a graduate of Pine Hill college, Halifax, was presented by Rev. S. J. MacArthur. It will be dealt with at a later meeting.

The following were nominated as the Presbytery's representatives on the Assembly's standing committees: College board—Rev. H. J. Fraser, Home Missions—Rev. J. M. McLean; Augmentation—Rev. Geo. Wood; Foreign Missions—Rev. S. J. MacArthur; French Evangelization—Rev. Geo. P. Tattier, Sunday Schools—Rev. E. E. Mowatt; church life and work—Rev. J. H. Kirk of Dalhousie; Young People's Societies—Rev. A. H. Barker; Systematic Giving—Rev. C. A. Hardy; Moral and social Reform—Rev. F. C. Simpson.

The following were appointed a committee to visit Blackville re congregational matters—Revs. Mowatt, Wood and MacArthur.

A committee was appointed consisting of Rev. A. D. Archibald (convener) together with the convenors of the Home Mission, Foreign Mission and augmentation committees to prepare a plan to be submitted to next meeting for the visitation of all the congregations re the work of the church.

Next quarterly meeting will be held in Campbellton on the 4th Tuesday of June at 7.30 p. m.

CONSERVATIVES WANT INCREASED SESSIONAL IDENTITY

Toronto, March 10—This afternoon half a dozen Conservative members waited upon the provincial treasurer and made a formal request that the sessional identity be increased from \$1,000 to \$1,500. This would involve \$43,000 additional and the provincial treasurer is unwilling to incur the extra expense.

Amatite ROOFING

Will End Your Roofing Troubles

If you will write to-day for a free sample of "Amatite" the end of your roofing troubles is in sight. After you have submitted it to every test that you can think of, you will be prepared to order it not only for your new buildings, but for your old roofs as well. You will find that it is cheaper to cover them with Amatite than to consume painting and repairing them.

hedged around with so many provisions that it will take three lawyers to dissect them and find out what they are all about. The "sand surface" has little or no protective value. The point to remember is that all of these roofings have to be painted every year or two to keep them tight. In other words, it is the paint that protects, and not the roofing. If a man will sit down and figure out exactly what this point costs, he will find that it is more than the roofing itself. Amatite, on the other hand, has a surface of real mineral matter and we sell the goods on the broad statement that you need never coat or paint this roofing.

You can lay Amatite on a roof and then forget all about your roofing troubles. No painting, no coating, no scowry. The man who puts Amatite on his buildings is insured against leaks and trouble for many years.

Free Sample

If you have any doubts about the matter and want to investigate our claims, send for sample and booklet to-day. The sample tells its own story; the booklet is written for practical men. It hits straight from the shoulder.

Address our nearest office.

We make a strong point of our "Free Sample" offer because the smallest sample of Amatite speaks for itself. It is more convincing than yards of talk.

There are all kinds of ready roofings on the market—so-called "rubber roofings," so-called "guarantee roofings," so-called "sand surface roofings."

This "rubber" roofings are no more made of rubber than a saw is made of saw-dust. The "guarantees" that are promiscuously headed out with many brands are

L. B. McMurdo

OUR OTTAWA LETTER LOCAL LEGISLATURE

Notwithstanding the fact that the Naval Bill now before Parliament has met with obstacles and delays, so far as Ministers are concerned, yet it will undoubtedly receive a generous sanction when it reaches a vote in the Commons. A few peculiar instances can be connected with its existence. First the promoter of the bill, Mr. L. P. Brodeur, had no sooner formulated its proposals, than he was stricken with a serious illness, from which he has only recovered. Then Sir Wilfrid Laurier and Sir Frederick Borden assumed responsibility for the bill.

The Prime Minister, shortly after he had introduced the bill, also fell ill and was absent from the House for ten days. Again, unfortunately, Sir Frederick Borden, the third of the trio responsible for the measure, slipped on the street and fell, straining the muscles of his back. He had only recovered from this when he became the victim of rheumatism, and is confined to his home.

Mr. E. M. Farrell, Liverpool, N. S., formerly Speaker of the Nova Scotia Legislature and recently appointed Senator for that province, arrived in Ottawa and has been sworn in.

The naval debate drags wearily along. The discussion last week was uninteresting and devoid of sensation except that Mr. E. N. Lewis (Con.), W. Huron, kicked over his parties traces. He declared himself opposed to the spending of \$25,000,000 for Dreadnoughts. He opposed a plebiscite and was adverse to the government's programme for a Canadian navy. Yet during the course of his remarks he considered that both parties were of one mind insofar as the principle embodied in his bill was concerned. It looks as if Mr. Lewis had made his speech before deciding what he really did want.

Once more has the Commons heard from Col. Sam Hughes regarding the Ross Rifle. The Col. declared that Canadians had been freed while at Blaisy last year, to use the Lee-Enfield rifle which would be sold to them for \$16. But it was gratifying to know that they preferred to stick to the Ross at \$35 and its record had justified their choice. He said that the new regulation of the National Rifle Ass. of Great Britain, requiring samples of the rifle to be used at Blaisy next year be submitted to the N. B. A. council three months before the meet, was an undue discrimination against the official arm of Canada. This new regulation, remarked Mr. Hughes was tantamount to charging the Canadian Government with fraud and no self-respecting association should tolerate such treatment of its rifle. The Ross rifle was declared, the best in the world and the objections to it had been engineered by conspirators in Canada, possibly in the pay of the Small Arms Co. of England. He advised that not a single Canadian rifleman go to Blaisy this year, unless assured that they would be allowed to use the Ross rifle, the official arm of Canada.

While in the committee of supply on the estimates of the Public Works department, Hon. Wm. Pugsley made an interesting statement. He prophesied that before long there would be a navigable water course from the head of the Great Lakes to within 150 miles of the Rocky Mountains.

There has been a movement abroad during the past week in the form of a "round robin" to bring to the attention of the leaders on both sides of the House the desirability of getting through with the session by Easter. There is also considerable anxiety shown by the members to get rid of the almost boring debate on the naval bill. However, from the ministerial benches comes the rumor that it will be impossible to reach prorogation much before May 1st.

The Georgian Bay Canal project received another setback last week when Sir Wilfrid Laurier told minister deputation, who waited on him, urging its early start and completion that nothing could be done at present. The Prime Minister said that his only regret was not being able to say that we are going to begin work tomorrow. "But I shall be a happy man," declared he, "if during my regime as Premier of Canada, this great work is undertaken."

Mr. John McKeown, manager of the Bank of Nova Scotia, Ottawa, representing the Amherst, N. S. Board of Trade spoke from the viewpoint of an Easterner and declared that much benefit would accrue to the Maritime Provinces from the construction of the canal. If by cheapening transportation charges from Sydney to Port Arthur you could get coal at the latter place as cheaply as in Montreal, would not the Canal be a wonderful benefit? asked Mr. McKeown. The distance would be reduced 280 miles and the estimated cost of coal decreased by over \$2,000,000. Coal would then be laid down at Port Arthur, cheaper than it could be brought from the South.

Hon. Chas. Murphy, secy. of state, and Hon. Wm. Pugsley, both expressed opinions that they would like to see the work undertaken without delay. However, it was all important that the N. T. R. and Hudson Bay railway be completed without any further drain on the country's finances at present.

The usual no night session on Wednesday

FREDERICTON, Mar. 10—The debate on the budget debate concluded at 12.15 this morning.

Hon. C. H. Labllois resented the public works and charged discrimination on the part of the present government in that respect. He approved of the increased grant to agriculture, which he said was a suggestion of the opposition. Education was not receiving the attention it deserved and proposed pensions to teachers should be on a more generous scale.

Mr. Murray followed and said that all items of expenditure being criticised were assented to by them when estimates passed last year. He scored the late government for the way the accounts had been kept by which a surplus was apparent when a deficit really existed. The accounts of the present government were plain and straightforward—showed at a glance exactly how matters stood. He showed how permanent bridges had been repaired and built out of the revenue and not capital, as charged. He praised the Highway Act which was a success all over the province, except where partisan feeling refused to treat it fairly.

Mr. Tweeddale said that the Audit Act was not a safeguard against our expenditure. The present government was doing the same as had been charged against the old one in different ways. The present government had bigger revenue and was spending more extravagantly.

Mr. Sheridan congratulated the government on their policy generally, particularly agricultural. He said that the dairy market was a success. He approved of the importation of horses and blamed the late government for the deplorable state the illustration orchards were now in. At the conclusion of Mr. Sheridan's remarks, supply was carried and the items of administration of Justice and agriculture were passed.

FREDERICTON, N. B., March 11—Mr. Labllois in his speech on the budget debate charged that as a result of the investigation held at Campbellton by the provincial secretary, Mr. Joseph Boudreau of the Albion Hotel lost his license because he was a Liberal.

Monday that has hitherto been sacred to hospitality has been taken over by a debate so fine and hair-splitting that most people will fail to recognize whether such political references concern His Excellency in his public or his personal capacity.

A bill of a somewhat radical nature has been introduced in the Commons by Hon. G. P. Graham, respecting the Intercolonial Railway. As the road is government property it can only be sued by its own consent. The new measure abolishes small actions for damages exceeding the limit of \$200. The damage may be for negligence, but not under contract.

An unusual incident occurred on Parliament Hill last week. A monster deputation of over 200 delegates including merchants, business men, etc. from all over Canada, met in Canada to wait on Sir Wilfrid Laurier in an endeavor to restrain the government from passing the proposed Co-operation bill, affecting retail merchants, etc. The Prime Minister was at first confused as regards a suitable room to receive the delegation. But instantly he decided upon the floor of the Commons. This was not altogether customary, but yet not improper.

Three Conservative members of the committee investigating the Lammé charges in connection with the Transcontinental railway have resigned. They are Messrs. Crothers, Barker and Lennox. They disapproved of the appointment of Mr. Wallace Nesbitt, K. C. a Conservative in politics, to represent the public during the investigation. This is indeed a peculiar situation and one which presents a true picture of disorganization that is rampant within their ranks.

Do You Ever Make "Jelly Roll," Madam?

When we were just about so high, ours was an insatiable sweet tooth for "jelly roll" and such like. Sometimes, however, the cake wouldn't roll right, broke on the turn—mother was "unlucky" those days, and the keen critics didn't insist on the biggest piece. Mother, you see, didn't know flour—look whatever the grocer offered—also took her chances.

Do YOU ever make "jelly roll," Madam? Is it always a perfect roll, even layers of light, porous, golden crumb, without cracks or holes unrightly? Why doesn't it roll evenly and smoothly; why does it crack and break in spite of the careful fingers behind the dainty napkin? All on account of the innate "cussedness" of cheap flour.

There's an electricity, Madam, a coherence in FIVE ROSES flour responding to your every effort. The strength and fineness of FIVE ROSES hold your batter together in the long well-greased pan. Bakes evenly, giving smooth texture, soft, golden crumb, spongy, porous and yielding—no holes nor lumps to vex the soul.

ST. PATRICK'S DAY.

Before our next issue we will celebrate the 17th of March. There is not, we believe, a day, outside the Birth and Resurrection of Our Lord, that commands so wide a recognition as St. Patrick's day.

Nothing perhaps marks the advance of Christianity, the benefit of Education and the Progress of the Brotherhood of man in Our Glorious Empire more than the fact that the little Shamrock is being worn by Catholic and Protestant alike, and by Frenchmen, Scotchmen, Englishmen, Italians, Spaniards and even Chinamen, Japanese and Hindoos, and their descendants.

A few years ago when our late Queen of devoted memory, for the first time notified the gallant sons of Erin, who were defending the integrity of the Empire in Africa, that they could wear the dear little plant with which St. Patrick illustrated to the willing listeners of Ireland how it was possible to have three Persons in One God, not only the sons of Ireland, and their descendants adorned their bosoms with it, but nearly every "Soldier of the Queen" whether on the battle-field or in the barracks, put on the same little symbol of what we all adore.

Much has been said as to St. Patrick's Day. We have heard some speak of it as his birth, some as his landing in Ireland, and a few, more correctly, as his death. The latter is what it commemorates, neither of the other events are known, but the Church of Rome keeps a record of its Saints, and many years are often spent in historical research before the Church will canonize and declare who has a right to the term Saint, and the Church recognizes MARCH 17th as his time of joining those who sit on the right hand.

Most Countries celebrate their foundation, or independence or some other worldly event of their history, but the people of Ireland have always adhered to the great Evangelist St. Patrick, whose humble little three-leaved Shamrock taught the Pagan Fathers of a great race the meaning of "One God in Three Divine Persons".

Like the Lord all Christians worship, he was not a worldly Prince, nor did he sleep on soft down. A stone was his pillow and the poverty practised by "the Carpenter's Son" was his practice. And so it comes that the Sons of Erin Isle recognize the 17th of

DINNER BELL MUSIC.

The music of the dinner-bell is always welcome to the healthy man or woman—alike to the working man or woman who eats a plain meal at noonday, or to people of easier lives who enjoy a rich dinner in the evening. But to the Dyspeptic there is no music in the dinner-bell—it calls him to a trial for which he knows he is unfit. No one can enjoy a meal, or get nourishment and strength from it, knowing that pain and distress will follow after. The true course, even for healthy people, is to help the digestive system, from time to time, with that excellent tonic medicine, Mother Siegel's Syrup.

March with National Interest. St. Patrick was sent by the Great God to teach Christianity in Ireland; and when his mission was ended he was called to his reward. So great were the fruits of his teachings that his people have been so powerfully instrumental in distributing Christianity over the World, and to day there is scarcely a Nation which does not celebrate him. And several Nations as well as several Christian sects claim him.

History points his birth place to Wales, Scotland and Brittany in France. We are inclined to believe the latter is correct. When he came to Ireland, Christianity, although existing in Wales, and Scotland, was obliged to keep under cover; and from manuscripts in the British Museum, as well as those in Rome, prepared by his immediate disciples, we learn that he returned from his slavery in Ireland, and at once commenced study for the Priesthood which he could not do at that time in Wales or Scotland.

Wherever he was born, the Irish race only claim him as their teacher, Saint, Evangelist, who taught them the truths of Christianity, That Faith they have adhered to almost as a unit.

It has been the greatest power of their unity. When the night of dark despair, famine, and sickness hung its ebon curtains closely round their devoted heads, that faith was the loan star that flickered up to Heaven through the night of their clouded existence, bidding them still strive on.

Today, thanks to the World's progress, the old strife has practically disappeared. In the language of One of Her great Teachers—

"Races and Sects were to Him a profanity, "Hindoo and Negro and Kilt were as One, "Large as Man-kind was his splendid humanity "Large in its record the work he has done."

A great Teacher has written "Great men grow greater by the lapse of time." A modern scribe has said "Good men are known after they are dead". The history of St. Patrick seems to prove the latter Doctrine, and add to it the former, there is nothing, we believe, in the history of our progress that has done so much for the advancement of the brotherhood of man, as the celebration of the 17th of March. And we hope that all desire to increase to increase its growth and strength, and will wear next Thursday "The dear little sweet little SHAMROCK of Ireland".

It has ceased to be a day of strife now; and all dependants of Ireland, as well as those of England, Wales, Scotland and France, who claim St. Patrick as their son, regardless of religion, join hands on his anniversary.

It might not be out of place here to add a little bit of Irish history, which owing to several reasons has been little studied. From the scraps of Irish history preserved in the Archives of several historical institutions it is known that Ireland's educational and civilizing influence were known to Eastern Europe when the civilization of Greece was being nursed in its cradle.

In the reign of Ollan Fola, who reigned 900 years B. C., a parliament was organized (on the basis which was adapted in the 13th century by England,) and under that same Parliament and same King were founded schools of history, medicine, philosophy, Poetry and Astronomy, which we have records of down to 450 B. C., and again in 300 B. C., and line marks of which are referred to by Henty in some of his excellent historical novels.

This same Irish Parliament during the century 900 B. C., and under the same King, formulated and enacted the most ancient known code of laws of our present system of codification. It is believed by modern students of Celtic History that the great Justinian code was borrowed from it, as in system and many other respects it is identical with it, and the great code Napoleon is the result, largely, of the study of the Justinian code; and so we go on borrowing down through the ages.

This "Senchus More" or The Great Law, known to Celtic scholars as "Brehon Law," has been

INJURIES & SKIN SORES—QUICK CURE.

A little child ran crying to her mother the other day with a nasty flesh wound and asked for Zam-Buk.

There lies a more powerful argument for Zam-Buk than even the scientists can bring. The child had had Zam-Buk before, and knew it eased pain and healed.

Zam-Buk works in two directions. Prevents worse results from a skin injury or skin disease (such as festering and blood poisoning) while it repairs the damage already done. Zam-Buk is entirely herbal, is pure, contains no trace of animal fat or mineral coloring. Surest and quickest known healer.

FATHER AND SON BENEFIT FROM USE OF THIS CALM.

Mr. Walter Adams, 177 Railway Ave., Seattle, says: "My son, William, while playing baseball about the back yard, cut his little toe on the sharp edge of a piece of tin. The toe was cut at the first joint, and almost severed from the foot. My wife hurriedly bathed it with warm water, afterwards applying some liniment thickly spread with Zam-Buk. The healing balm quickly checked the flow of blood, eased and soothed the pain, and prevented inflammation and more serious results. In a few weeks Zam-Buk healed the wound so nicely that my son was able once more to go about, and also to wear his shoes without the slightest inconvenience. Not only is Zam-Buk valuable for wounds and lacerations, but as an embalmment, I have also found it effective for rheumatic pains."

Zam-Buk cures cuts, burns, scalds, ringworm, ulcers, cold cracks, and all skin diseases. It is pure and safe, and is sold free from Zam-Buk Co., Tor. No. 10, for price.

Newcastle Division, No. 45 Sons of Temperance, entertained the members of Caledonia Division of Douglstown, the W. C. T. U. of Newcastle, and others, in the Temperance Hall Thursday evening, 10th instant.

It is therefore little wonder that France, England, Wales, Scotland and Ireland and all their descendants, extend the hand of good fellowship on the 17th of March.

WORN OUT SLANDER

As we predicted in our editorial last week, the newspaper man up-town went down into the slums again after new names, but, owing no doubt to the educating influence of our criticism, has improved on the names. He now says "professional editorial writer," but he has resurrected from the same source of his education and information another worn out slander, that never dared raise its head high enough to be recognized, and which was started, as we have reason to believe, by an individual who would not hesitate to eat the lunch from an orphan girl's basket and undertake to justify himself by saying she should have kept it locked up, or in other words, build a wall round it which he could not tear down or get over.

We are not surprised that a man whose newspaper education was gleaned where his was, and is used for the same purpose, should delve into the resources of slander mongers to find something to reply, WHEN HE CANNOT ANSWER FACTS; and we are not surprised, either, that the instinct of the mafia and Black Hand, who strike their stiletto or throw their bombs in the darkness where their malicious acts and more malicious visage cannot be discovered, shows itself.

H. H. Stuart noted with satisfaction the combination of Catholic and Protestant temperance societies for more effective work in Montreal and the steady growth of temperance sentiment in many districts and countries; and declared that it was high time to abolish the illegal sale of intoxicants in Newcastle.

James Falconer ridiculed the allegation of Newcastle liquor men that country trade was leaving Newcastle for Chatham because liquor was more easily obtained in Chatham.

R. H. Jessamin thought that if any farmers were avoiding Newcastle it was not because of the liquor question but because the Newcastle Town Council were so heavily taxing any outsiders who wished to sell meat, etc., in Newcastle. Being debarred by New-

TOWN COUNCIL

Town Council met in special session last night jointly with Board of Trade executive. There were present:

Council—Mayor Miller and Aids. Morrison, Thos. Russell, S. A. Russell, and Sargeant. Absent—Aids. Belyea, Doyle, McMurdo and Ritchie.

Board of Trade—J. D. Creaghan, John Ferguson, P. Hennessy, E. A. McCurdy, John Russell, H. H. Stuart, and H. Williston.

Others—A. A. Davidson, acting as legal advisor of the Town, and Dr. Nicholson representing John Russell Navigation Co.

Reports were read from the joint meeting of Council of Board of Trade held March 7th. The Drummond Company had asked the that town guarantee bonds to the extent of \$125,000, extend water to their works at cost of some \$5,000, and permanently assess the real and personal property of their industry at \$10,000 for all taxes except school taxes. The meeting had agreed to the Assessment proposition for this year, but had no power to make it permanent, and had no power to extend waterworks, and could not guarantee bonds. A bill had been prepared to enable the Town Council to borrow \$20,000 to assist any industry, either by loan or bonus to or by taking shares in stock of any Company establishing itself here, on terms approved by Council, provided however that the question of such expediency and the amount and nature of such assistance shall be in each case first submitted to the ratepayers who are entitled to vote at Town elections, and approved by a majority of them. In case such vote be taken between May 1 and Sept. 1 in any year, the voting lists to be same as used in the April Town elections. Bonds shall not bear greater interest than 5 per cent, and run not longer than 30 years. Said debentures to be known as Newcastle Industrial debentures, second series. No bonus or loan to be paid to any such industry until the plant and machinery for which the money was voted is set up and ready for operation. Sec. 7 authorizes Town Council, on approval of ratepayers, to extend water system beyond present limits and borrow \$6,000 for said purpose. One per cent. of sums borrowed shall be set aside as a sinking fund. Sec. 10 provides that the Town Council is authorized by resolution to fix the valuation of the real and personal property and income of any industry or industries to be hereafter established in the said town at such amount and for such periods, not exceeding twenty years, as may seem expedient, for all purposes except school taxes.

J. D. Creaghan agreed with bill except that he thought voters without property should have no vote on questions involving borrowing and expenditure of money. Exemptions for taxation purposes should not be greater than 75 per cent.

Ald. Morrison agreed that floating population should not have power to mortgage real estate of the town.

P. Hennessy agreed with bill. Ratepayers were benefitted by new industries. The Anderson factory, which he would like to see the town assist in restarting, had been a blessing.

Ald. Thos. Russell thought the people could safely be trusted in money matters.

H. Williston, with whose views the bill was amended, suggested time limit to exemptions. It was made 20 years.

H. H. Stuart protested against Council having anything to do with housing corporations. The assessors should be required to assess all property, whether railways, shipping plants, banks, factories, mills or dwellings, at full value, thus apportioning the taxation fairly. The principle of giving public money to private companies or of exempting certain parties from their fair taxation was wrong.

The bill was endorsed by the majority and approved by the Council.

Re the running of the John Russell Company's boats, J. D. Creaghan and E. A. McCurdy reported that they had failed to get from Chief Commissioner promise

of larger subsidies than \$800 for the up-river service and \$500 for the ferry boat. Former under late government was \$1,000 a year. Boats were not paying and had been advertised for sale. Re ferry John Russell promised to submit final proposition next Thursday. Other boats were out of his hands. Adjourned. Next meeting on the 17th.

NEW DRUG STORE

The corner of Castle street and the Public wharf will shortly be enlivened by the new Drug store to be opened by two of Newcastles enterprising young men.

Messrs. Dickison and Troy, Chemists, Druggists and Opticians, will open their new drug-store and Opticians office on the 24th inst.

Both Gentlemen are well known in Newcastle Mr. Dickison, better known as Charley, is a skillful Optician of long experience, holding a high grade diploma, being a chemist and druggist of long standing. He served 12 years in the pharmacy of Col. MacKenzie of Chatham, where most of the prescriptions of the late Father Morrissy were put up in his lifetime; and has had over 12 years of service in the Newcastle pharmacy, presently managed by Mr. Shaw.

Mr. Troy is a native of Newcastle, and a son of our Postmaster and served for some time as a drug clerk with Mr. Shaw. Then he attended the Ontario College of Pharmacy, from which he graduated last year.

We welcome the firm and wish them and their business every success, and from our knowledge of them, and their courtesy and attendance to customers, while in the employment of others, and their knowledge of their business, we can assure the public that they will have an up-to-date establishment.

CONGRATULATIONS

SIX SUCCESSFUL FLIGHTS AT BADDECK

BADDECK, N. S. Mar. 14—Major Mansell of Ottawa, has been successful in the flight over the ice at Baddeck today in the aerodrome Baddeck No. 1. One of the new creations from the designer Graham Bell's laboratory at Baddeck, Brough.

LITTLE INFORMATION ON BANK SITUATION

ST. STEPHEN, Mar. 14—The bank situation remains unchanged since Monday morning. Not a word has been given to the people so vitally concerned by those in authority and only surmise can be indulged in as to the actual condition, but the feeling grows around that the management of affairs has been very slack, to call it by no other name, and that not much of comfort can be expected from the official report.

COUNTRY STARTLED BY GHASTLY STORY

Reported that Disembodied Body of Man Had Been Left in Trunk at Harvey Station. A ghastly story obtained great circulation over the eastern part of the continent yesterday. It was to the effect that the disembodied body of a murdered man had been found in a trunk at Harvey Station, N. B. Newspapers in American cities heard of it, and one Boston paper wired the St. John correspondent to 'rush the story at once.'

Convince yourself that it is worth the price

THE secret of the greater flavor and body of Union Blend Tea—the choice rose aroma,—lies in the fact that there is not a single full-grown tea leaf in it. I use nothing but the tender, young sprouts hill grown in Ceylon and India, and I get the pick of the crops every year. This ensures quality. In my thirty years I have gathered together a staff of expert blenders who devote their entire time to make Union Blend

UNION BLEND TEA the Tea that satisfies

I HAVE no doubt you wonder why I use my picture in advertising a tea. Let me explain—it is for your protection. When you buy, look for this picture on the end of the packet; it is your guarantee that the packet contains Union Blend—the tea that satisfies. I firmly believe that you are going to like Union Blend Tea when once you try it—grocers tell me that of all who once start using it, ninety-five per cent. continue to buy it. Remember, also, that you have only to buy one, single, half pound packet to convince yourself of the truth of my claim—will you give me the chance to prove my words? I shall be perfectly satisfied to accept Harry W. Donohue your decision.

CHILDREN

In disorders and diseases of children drugs seldom do good and often do harm. Careful feeding and bathing are the babies' remedies. Scott's Emulsion is the food-medicine that not only nourishes them most, but also regulates their digestion. It is a wonderful tonic for children of all ages. They rapidly gain weight and health on small doses.

AN ONTARIO HALLUCINATION

A lot of hysterical old women in masculine costume recently succeeded in working up a mad dog scare in Ontario. The consequence was that every animal of the canine species in the province became an object of suspicion and dread. It was chased and hounded until its life became a burden, a dog's life literally. The poor persecuted brute naturally took to snarling and snapping at every man, woman or child who crossed its path. Hysteria placed enmity between it and the sons and daughters of men, whereas the nature of the one is to be 'ever the best of friends' with the others. The spectre of hydrophobia stalked abroad. Scores of cattle alleged to have been affected with the terrible disease were slaughtered, after learned veterinaries had gazed upon the symptoms said to have been developed, looked wise and pronounced judgment. Dozens of frightened human creatures who said or dreamed they had been bitten by mad dogs which 'frothed at the mouth and looked ferocious' were consigned to the Pasteur Institute at New York to be treated for rabies.

WESTINGHOUSE PLANT DAMAGED BY FIRE

PITTSBURGH, Mar. 14—Fire caused by crossed electric wires early this morning destroyed the storage battery department of the Westinghouse Machine Company plant at West Pittsburgh causing a loss of \$75,000. Besides the buildings several engines, a large number of storage batteries and many motors were destroyed.

CANADA FIRST

Despite all the assertions which have been published in the press, both in Canada and in the States, it seems desirable that it should be distinctly emphasized, once for all, that in all the negotiations which have taken place between the representatives of Canada and the United States, the guiding principle has been Canadian rights above and first of all. While this can be confidently asserted, it can also be stated that there has been no serious difference of opinion between the conferees as to the changed conditions of the two countries within the past double decade. There were days when Canada was a supplicant to Washington. These days happened under both Conservative and Liberal rule; and there was justification in those days, when population was stagnant, when trade, did not prosper.

FIFTY SIX KNOWN DEAD IN DISASTER

VANCOUVER, Mar. 9—The latest revised lists show the names of fifty six men who went down before the sweep of the avalanche of snow and rock at Rogers Pass Friday night. Every white man who lost his life has been placed on the roll and the only unfortunate still to be named are five Japanese. Up to the time the rescue gangs quit work Monday afternoon, twenty-one bodies had been recovered.

John G. Adams, of Cross Point, died this morning of pneumonia aged thirty-eight years. The deceased was in Campbellton on Wednesday, but took leave yesterday and arrived early this morning. He is survived by a wife one son and three daughters, the youngest two years old, the eldest eleven. Mr. McDonald was born at Matapeia, was captain of Sowerby's boat for a number of years and has been an engineer of the steam ferry between Campbellton and Cross Point for the past eighteen years. DRUNKENNESS SHOULD BE TREATED AS A DISEASE

MONCTON, Mar. 14—Some interesting suggestion for treatment of criminals were advanced by Dr. O. J. McCully, formerly of St. John, in a lecture here on Sunday afternoon on the treatment of criminals. Dr. McCully advocated treatment the same as for physical infirmities and opposed the present court and prison system. He favored the police taking drunks home instead of arresting them, and spoke against the present system of medical expert testimony in courts and the indeterminate mixing of convicts in prison.

DIED WITHIN TWO FEET OF FRESH AIR

After the snowslide at Field Buries Locomotive

ANGLOUVER, B. C. Mar. 10.—After another snowslide which all killed them, the coroner's jury has returned to Revelstoke yesterday. Inquiry developed one pathetic case. Foreman McDonald, one of the victims of the slide, was an exceptionally heavy and strong man and he being buried in the slide he evidently retained enough consciousness to

start to fight his way to the surface. He had gained two feet and a small of only two feet of snow remained between him and the open air when he suffocated. There was not a bruise on his body.

An avalanche descended at Field Buries and engulfed a switch engine. Engineer Howard McRae and Fireman Landerman escaped and Foreman Laimprize was buried but rescued. He sustained a broken leg.

It is stated that the rise in Britain in provisions is due to manipulation in the markets of the colonies and Denmark, assisted by perfection of refrigerating plants.

BRITISH PORT FOR CANADIAN NORTHERN S. S. CO.

LONDON, Mar. 9.—It has been decided to make Bristol the British port for the new Canadian Northern Railway steamship service. It was thought at one time that Southampton would be the terminus port of this side of the water.

The interesting election for representatives from among the employees of the Intercolonial on the board of the Provident Fund maintained by the government was concluded yesterday with the counting of the votes at Moncton. Of the two members elected, one is a new man, and one an old, but the new man had a lead over the second of over 400.

Hutchinson, train dispatcher at Truro, led the poll with 1356 votes; M. J. Chene, of Moncton, second with 1301. Nairn, who aroused a great deal of opposition through his failure to support the demands of the men when on lay-off last year, was not re-elected, although he polled the third largest vote.

The work of voting has occupied over a month, commencing on February 1st. During that time a special polling car in charge of John B. MacLaren, has travelled all over the system. Almost every man in the road's employ voted, the total number polled being 7325. The votes were counted in Moncton yesterday by a committee composed of Wm. Crockett, Moncton; S. C. Charters, Pt. St. Chene; Thos. Sands, Moncton; J. W. Hamilton, Moncton; J. T. Hennessy, Truro, and L. R. Ross, St. John.

Following is the proportion in which the six candidates were supported:—

Hutchinson	1356
Thompson	1501
Nairn	1462
Fraser	1370
Beggs	1116
Cochrane	881

Toronto reports are that Dr. Gordon will shortly resign as principal of Queen's College.

More bread and Better bread —And the Reason for it

A STRONG FLOUR can only be made from strong wheat. Manitoba hard wheat is acknowledged the strongest in the world—and that is the kind used for Purity Flour.

But that's not all. Every grain of this wheat contains both high-grade and low-grade properties. In separating the high-grade parts from the low-grade the Western Canada Flour Mills put the hard wheat through a process so exacting that not a single low-grade part has the remotest chance of getting in with the high-grade.

Of course this special process is more expensive to operate but it means a lot to Purity flour users—that's why we use it.

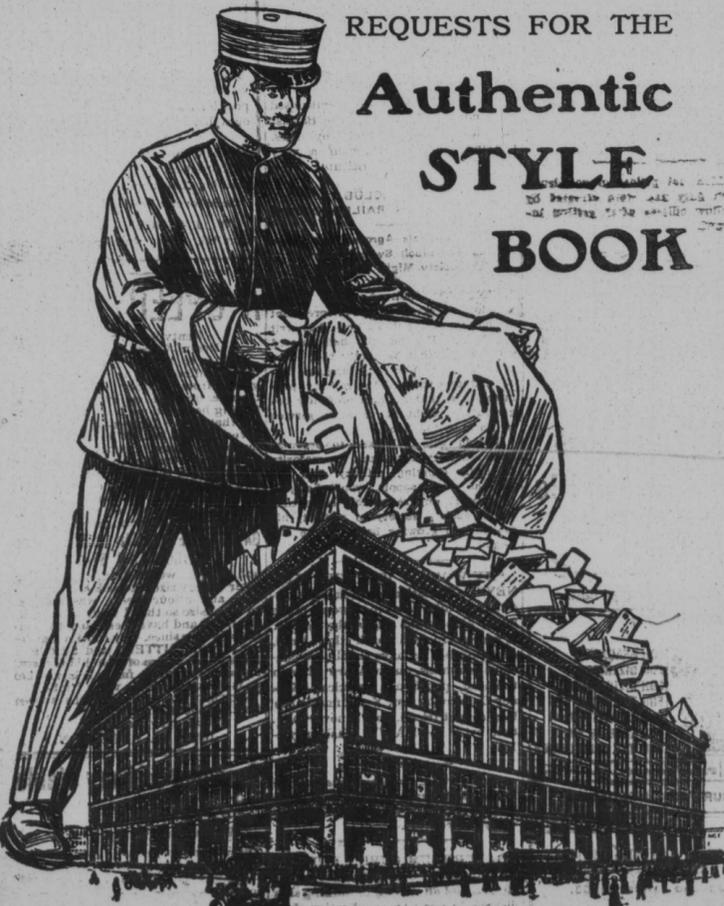

It means that Purity Flour is made entirely of the highest-grade flour parts of the strongest wheat in the world.

It means a high-class, strong flour and therefore yields "more bread and better bread."

Purity may cost a little more than some flours, but results prove it the cheapest and most economical after all.

ANTI-PROFANITY CLUB FOR RAILROAD MEN

G. T. R. Officials Agree That There is Too Much Swearing, and Society Might do Good

KINGSTON, Mar. 9.—R. S. Logan, assistant to the second vice-president of the Grand Trunk Railway, has written George Buskin, who had entered a complaint, that he agrees that there is entirely too much bad language used and especially about railway premises, and that an anti-profanity organization might be of some service in limiting the habit.

"If you will undertake to organize such a society, I am sure the majority of right-thinking railway men, as well as other people, would be glad to support any reasonable steps taken by such a society to restrict this foolish and growing habit," wrote Mr. Logan.

A SPEEDY CURE

Kentville, N. S., Jan. 1st, 1910
Messrs. C. Gates, Son & Co.

This is to inform you that I have been a sufferer for the last fourteen years from Kidney and Stomach trouble, brought on by severe colds, having been laid up every winter during that time. Last year I was laid up seven months so that I could not go out of the house. Dropsy set in and my stomach swelled so that I was six inches larger than my usual size, had two doctors in attendance but I grew worse and they were going to tap me, my friends despaired of my life. At this time I was recommended to use **GATES' LIFE OF MAN BITTERS and INVIGORATING SYRUP**

and in one week after commencing their use my size was reduced two inches, and in four weeks, was reduced to usual size so that I went to work in my mill, and have been able to continue it ever since. By continuing the use of your BITTERS and SYRUP I hope to get a cure of the kidney and stomach trouble so far as it is possible as it always helps me when I take it. You may make these truths known for the benefit of sufferers.
Yours very gratefully,
JOHN W. MARGESON.
