The President expressed ciation of the honor conferred on the old executive by the meeting in reelecting them and trusted they would have the same loyal support during the coming year that had been theirs in the past. Various arrangements were made to extend the activities of the Club, and the greatest enthusiasm was shown in connection with the plans outlined to provide the College with a recreation ground. A Committee was appointed to consider ways and means and to report at an early date to a mass meeting of Old Feildians. A Committee was also formed to take steps to erect a Memorial Tablet to those members of the College who had served during the Great War. There being no further business, the meeting adjourned at 10.30 p.m.

DELIGHTED LARGE AUDIENCES

The Archie Harrod Jubilee Concert

Party, of five colored artistes, scored

"knockout" at the Crescent Theatre

last night by their snappy and varied

programme of songs and choruses.

Several individual numbers were ren-

dered which brought forth rounds of

applause from a well pleased aud-

lence. In the choruses the singers

displayed excellent blending and har-

mony which would delight even the most discriminate musical taste. Ar-

chie Harrod himself gave a reading

which immediately gripped the inter-

est of his hearers and his original

sense of humor was indeed relish-

able. The same bill will be repeated

to-night and it is really too good to

ment is reserved as to the capabili-

win instant favour and popularity

An exhibition and concert arrang-

ed by the Lady Cub Master, Miss

Steed, of the Wolf Cubs of Spencer

College, was given in that institu-

tion last evening at 8 o'clock. Amongst

those present were the Lord Bishop

of Newfoundland, Lady Allardyce.

Mrs. White, Capt. Goodfellow, Miss

Cherrington, principal of the College,

Mrs. H. W. LeMessurier and Capt.

Hugh LeMessurier, Official Scout

Commissioner, and Miss

Baudins. The music was sup-

plied by Mr. Harry Milley on the piano

and Master Grant Rennie and Alan

Goodridge, Jr., drums and effects.

This orchestra was splendid and was

a prominent feature of the whole

programme. The programme con-

sisted of the cubs howl, signalling,

recitation by Owen Williams which

was very creditably done. A short

sketch by Gordon Williams, Lewis

Goldstone, Bert and Jeff Carnell,

Baby Feder, Fred Miller, Peter

Nicholls, Eric Snow, did the boys

credit. An exhibition of making

knots, a jungle dance and songs, and

drill was also excellent. The final

item was the formation of a Union

Jack, with the crosses of St. George,

St. Andrew and St. Patrick. There

was also a stall containing handi-

craft work, sewing and knitted twine

bags, and hand painted blotters, the

products of the Wolf Cubs. These

were offered for sale. His Lordship

formally presented the Wolf Cubs

with a picture won by one of the

sections at a recent competition.

This picture was given by Miss Cher-

rington who made an excellent speech

extolling the work of Miss Steed who

has charge of the little men and who

was responsible for the whole enter-

tainment. The idea of the Wolf Cubs

is to train boys, at an early age to be

useful and Miss Steed, the lady cub-

master has done splendid work, in

this respect. After the National An-

them the pupils were allowed to have

an hour's dancing. The music for the

dance was supplied by the musical

artistes of Felid and Spencer Col-

lege. The hall was packed with en-

thusiastic parents and supporters.

THERE is no Remedy of more universal application than a genuine true-and-tried Blood Purifier and Blood Builder. A medicinal preparation that will truly purify, revitalize and renew the blood, restores hope and pleasure, ambition and happiness, vigor and vitality. It is of inestimable value not only as a strengthener of the system, fortifying it against invasion as a strengthener of the system, forthlying it against invasion of disease, but also as a cure for Chronic Diseases which depend upon an impoverished condition of the blood. Diseases of this nature are usually caused by impurities in the blood deposited through the inactivity of the Liver and Kidneys.

These secretions if not removed from the circulation, gradually form poisons which deteriorate the condition of the blood and allow other diseases to obtain a more ready entrance to the system. In the effort of nature to throw off these impurities, frequently pimples, boils, carbuncles, etc., appear, and it is wise to respond promptly to the Warning of Nature.

THIS SARSAPARILLA

is a genuine preparation scientifically prepared from the best and purest remediator the purifying and rebuilding of the blood. It should be taken every spring, as at this season the blood is more apt to become impure and impoverished. Keep your blood in perfect condition and you will be prepared to fight life's battles with greater success.

Don't Say-"Just a Sore Throat"

N a few days, you know, "just a sore throat' may be something much more serious. For science has proved that the throat is not only the first spot reached by infectious germs, but also forms the ideal soil for them to multiply on.

Throat protection, therefore, means germ destruction and is a duty that you owe your health. It is easily achieved by the regular use of Formamint—the germ-killing throat tablet.

• Formamint (which is endorsed by over 5,000 American physicians) is the scientific way of disinfecting the mouth and the throat. Handy to have with you-pleasing in taste-it frees an efficient germicide that mixes with the saliva and so reaches where gargles cannot go.

The Godelphin was bought by Mr. Coke, of Norfolk, in Paris. He had been spending his days between the shafts of a water-cart. "Old Coke" so little realized the prize he had secured that he gave him to Mr. R. Williams, who in turn presented him to the Earl of Godelphin. It is impossible to calculate how much The Godolphin's progeny have won, but the sum must run into millions of

The celebrated Highland Laddle, was bought from the sharts of a gig for £21 14s.; and Flying Childers spent his early years carrying the post-bags of his native village. Throstle, who defeated Ladas so sensationally in the St. Leger, was. born with a thick film over her efes, and her owner, Lord Alington, so despaired of her ever being of use to him that he offered her as a gift to a friend. When the offer was refused, his lordship gave orders that she should be shot. Luckily this alternative method of getting rid of her also miscarried, and Throstle lived to become one of the greatest

It is said that Queen of the Roses, before coming into the hands of the Duke of Beaufort, twice changed owners—once in exchange for a bag of corn, and the second time for a rick of hay. In later years the Queen's daughter, Reve d'Or, won the Oaks, the City and Suburban, and other great races.

A half-share in Florence was once sold for the ridiculous sum of £6, though a little later Mr. Hamomnd was glad to get her for £1,000. And even at that figure she was an excellent bargain; for she won the Manchester Cup, Ascot Plate, and the Cambridgeshire. Peep o' Day, another great bargain, was bought for seventy-five guineas, and after winning several big races was sold to the Duke of Hamilton for nearly fifteen times that sum.

The Widow was so little thought of by her owner that he made a present of her to his bailing, who patted himself on the back when he succeeded in exchanging her for a

Salamander was hawked about to one country fair after another, until at last a purchaser was found willing to risk £35 on him. And seldom has £35 been so well invested: for the horse developed into a steeplechaser of the first rank, won the Grand National, and by his victory increased the hank-halance of Mr.

Studd, his owner, by £30,000. Plutus, who, among other racers, won the Great Eastern Railway Handicap, came into the possession of Mr. Jennings for seven guineas, the result, it is said, of the auctioneer mistaking the trainer's friendly nod for a bid.

Performance AT CONGREGATIONAL LECTURE

At the Congregational Lecture Hall ent to witness the three act dialogue, entitled "Professor Pepp," by the scholars of the Sunday School. The performance gave great pleasure to all, and the many comical situations unfolded during its many critical stages brought forth much laughter, and kept the appreciative gathering in good humor from beginning to end. The production of "Professor Pepp" was very ably presented by the talented performers, and to Miss Barbara Langmead, a great measure of the success is due. Miss Rose Carmichael made a short address during the interval, welcoming the assembly, and invited all to feel perfectly at home. Amongst those who took part were:-Misses Marguerite Ross, Barbara Langmead, Bessie Thomas, Agnes Langmead, Nancy Frost, Isobel Thomas, Elinor Raynes, Violet Frost, Isa Glendenning; Messrs. Lewis Calver. Wilfred Whiteley, Reginald Yabrle- George Cowan, Jack Cabill, G. Whiteley, V. Calver and Allen Hicks; Misses Ida Howlett, Isa Glendenning, Gadys Redstone; Messrs. R. Steele and F. Wylie, rendered delightful selections during the evening. In view of the success achieved, the performance will be repeated to-morrow night, and this fact, coupled with the worthiness of the object, should draw a good attendance. An evening with "Professor Pepp," is really worth

Babylonean Books May Tell History of Oldest Kingdom

LONDON, April 16 (A.P.)-An ancient Sumerian library of cuneiform tablets has been found by the simple expedient of throwing a brick on a spot on the side of a hill under which the library his lain hidden for centuries. The discovery was made by Professor Langdon, the Americanborn Oxford Assyriologist, who is directing the weld-Brundell expedition excavations at the ruins of the Babylonian city of Kish near Bagdad.

The discovery of the library occured just in time to stop the preparations for the suspension of the excavating work, for it was the opinion of the leaders of the expedition that the library had been destroyed with other missing sections of the

"I was convinced," said Professor Langdon in writing of the discovery. "that if still existing a certain library lay on the western side of a certain mound and I dug there vainly for weeks. The idea that the library was there disturbed my mind and even haunted my sleep. In dispair, and grasping a chance of divination, I went alone to the top of the mound and chose a brick of the age o Nebuchadnezzar which lay at my feet, and marked on it an arrow. Then, after blindfolding myself and turning round many times to lose my bearings, I threw the brick backward over my head.

"The next morning digging was recommenced at the place indicated by the arrow, and within two hours a large nest of valuable literary tablets was found.'

The library is by far the most important find the expedition has made during its three years' work. It is expected to yield literary treasures which even the libraries of the Pharaohs have not contained. Already 20 rooms of the library have been uncovered, all of which are filled with tablets, and there are 20 more rooms yet to be explored.

Kish is the oldest capital of ancient Babylon, and was founded immediately after the Flood The excavated ruins show the city to have been five miles long and four miles wide and it is here that the oldest known kings of history lived. Much is known of the history of the city from other sources, but the story of its birth and prosperity still have to be found in the ancient records.

Tashi Lama of Thibet

SEEKS REFUGE IN PERKIN MON-ASTERY.

CALCUTTA, April 1 (A.P.)-The Tashi Lama, head of the Buddhist religion in Thibit, who was recently forced to flee from his monastery at Tashilumpo, has reached Calcutta incognito and immediately embarked for China. His Holiness is now on his way to Pekin, where he hopes to find refuge in a large Buddhist monastery which sheltered the Dalai Lama who fied from Lhasa ten years

The Lama's flight was the result of his having been subjected to unbecoming indignities, supposedly through jealousy of his exalted position as the ecclesiastical head of Thibet, His property and lands are said to have been confiscated by order of the supreme council at Lhasa, which reduced him to the level of a small landholder.

"To My Dearly Beloved—"

That shows how hard it is to realize the dreams of one's youth.

An Imperial Monthly Income policy is an ideal legacy. Wars cannot affect it—business depression has no influence upon it, and as an investment it outranks most "gilt-edged" securities.

If you are improvident-if you do not care what happens to your wife and children after your death -if you are lacking in the pride of manhood that sees beyond to-day—this message is not for you.

But if you are sound in body, clean in habits and a real man, take precaution now so that - if you should die unexpectedly-your widow need not read through the blur of her tears: "To my dearly beloved wife I leave nothing."

We'll send you an interesting booklet about Imperial Monthly Income policies if you'll just send us your name and address. There is no obligation involved.
