

Taking of Taku Forts

Reports of the Naval Officers Who Conducted the Bombardment.

Japanese and British Took a Leading Part in the Action.

Some of the Vessels of the Powers' Fleet Also Suffered.

Included in the budget of advice brought by the steamer Braemar, which arrived yesterday morning from China and Japan, was the official report to the vice-minister of the Japanese navy, Rear-Admiral Saito, of the capture of Taku forts by the allied forces on the morning of June 17. The report gives many new and interesting details of that recent historical event.

not enter the Pei-ho, it is stated that she was obliged to stay near Tong-ku, at the mouth of the river, and thus unable to take part in the operations.

The Japanese marines occupied, ahead of all others, the western fort, on the northern bank of the Pei-ho, and there hoisted their national flag, turning, at the same time, the guns of the fort they had captured against the central fort, on the northern bank. It is also stated that the central forts and others on the northern bank were occupied successively by the British, Russian and German marines.

Roberts' Bad News

The Boers Take Nitral's Nek and Carry Off Two Guns.

Squadron of Scots Greys and Ninety Men of Lincolns Captured

"Bobs" Making However Other Successes That Offset the Mishap.

London, July 13.—Lord Roberts' despatch reporting still another unfortunate occurrence, throws a serious light upon the state of affairs in South Africa. There has been some comment regarding the virtual absence of progress by the British army under command of Lord Roberts, but few could have been found to believe that the scattered Boers were able to inflict such a defeat so near Pretoria.

Situation In China

Press Correspondents on the Feeling at Yokohama.

Anxiety Felt in Regard Tien Tsin and Pekin.

June 25.—The frightful situation is at present absorbing every eye, and all other interests are the very intimate business and sections between the various countries of the Orient, being the battles of Tien Tsin and Pekin.

Under the date of June 25 the Jiji publishes the following report, dated June 20, which reaches the American consul at Shanghai from Lieutenant Blue.

The message just brought here from Tien Tsin by an express messenger was sent by the British consul.

The losses of the foreign guards have been heavy, our supply of ammunition and provisions is extremely scanty, and we are in great want of machine or field guns.

The Russian and Japanese forces are getting more and more serious, an outbreak being liable to take place almost any moment.

The foreigners in the settlement have organized a volunteer brigade, and are constantly on the watch. Notices have been posted all over the city, appointing places to them when alarm is given.

Although so close to Tien Tsin, that port was in communication by telegraph. Communication was mostly by steamer via Chee Foo.

It is asserted that the Buddhist priests throughout the empire are propagating the allied forces to attack the British.

News is circulating through the Yangtze valley that Gen. Ma has inflicted a crushing defeat on the Japanese.

The Shanghai correspondent of the Daily Mail says the following story: The allied forces within Pekin are in a state of confusion.

Two foreigners are said to have escaped through the gates, one with a heavy sword wound in his head.

Prince Tuan, in celebration of the victory, has ordered a banquet to be given.

Washington, July 12.—The Japanese legation has received a dispatch from Tokyo giving briefly the details of the assassination of Baron Ketteber at Pekin.

The despatch is in some way subject to great delay along the Siberian route.

Concerning the reports that the Japanese are sending 50,000 troops to China, Mr. Nabeshima, the Japanese consul here, says that there is no present evidence that the government has the slightest purpose of sending more than 22,000 men.

Major-General Von Lezzel, the commander of the twenty-eighth army division, has been appointed to command the German forces in view of the uncertainty as to the terms on which it is to undertake the mission.

It is the understanding of the Japanese officials here that the fifth army corps is now being dispatched to the port at one of the great naval stations near Hirashima.

Major-General Von Lezzel, the commander of the twenty-eighth army division, has been appointed to command the German forces in view of the uncertainty as to the terms on which it is to undertake the mission.

Tien Tsin's Grave Peril

Mail 'Advices of the Attacks on the Chinese City.

The Chinese Bombarding Have Eleven Thousand Troops and Sixty Guns.

Shanghai Panic Stricken Because of the Gathering Insurgents.

According to news received by the steamer Braemar, which arrived yesterday morning, a great panic prevailed at Shanghai when she sailed from that port.

A special to the Jiji, of Japan, under date of June 24, the day prior to the sailing of the steamer from Yokohama, says that the situation is becoming more and more serious, an outbreak being liable to take place almost any moment.

The foreigners in the settlement have organized a volunteer brigade, and are constantly on the watch. Notices have been posted all over the city, appointing places to them when alarm is given.

The Curtain Still Unlifted

Only Rumors and Foeboings for Those Who Are in Pekin.

Tales of Blood and Destruction Come But Not From There.

London, July 12.—(4:10 a.m.)—A terrible veil of silence enshrouds Pekin and there is nobody but believes that has happened. It is asked for granted that all the powder has exhausted every means to get direct news from their legations, and the fact that their efforts have been vain leaves but one interpretation.

The Chinese representative in Berlin denies the statement of the Hui-chang, that the mission, so far as yet known, was attacked on June 1. Mr. Norman and Mr. Robinson escaped from the compound and made their way outside the city walls and hid in some marshy ground; but they were discovered by the Boxers and taken to the compound.

The P. and T. Times says the death of Mr. Robinson and capture of Mr. Norman, at the mission at Yung-ching, has been more than confirmed. Inasmuch as it is now certain that the mission, so far as yet known, was attacked on June 1.

The day's news is again restricted to the usual crop of untrustworthy Shanghai rumors, and the fact that the mission, so far as yet known, was attacked on June 1.

Mistakes of The Liberals

Majority Report on the Emergency Ration a Wrong and a Blunder.

British Columbia's Interests Set Aside as Not Worthy of Consideration.

From Our Own Correspondent.

Ottawa, July 7.—The Liberal party this week got the worst black eye which it has received in the present parliament.

The emergency ration scandal may not be a new story in the country, but it is certainly a pretty live one, and it is its vitality which the present government is counted from power.

There was a party mad with itself it is the federal Liberals. They are now admitting that a big blunder was created by presenting the whitewashing report, which the Liberal majority on the investigating committee prepared.

The committee started out to try Dr. Borden and the officers of the militia department. It ended its labors by recommending Mr. Robert White, an old member of the press gallery, and Mr. Monk, a customs officer, as present collectors.

Mistakes of The Liberals

Majority Report on the Emergency Ration a Wrong and a Blunder.

British Columbia's Interests Set Aside as Not Worthy of Consideration.

From Our Own Correspondent.

Ottawa, July 7.—The Liberal party this week got the worst black eye which it has received in the present parliament.

The emergency ration scandal may not be a new story in the country, but it is certainly a pretty live one, and it is its vitality which the present government is counted from power.

There was a party mad with itself it is the federal Liberals. They are now admitting that a big blunder was created by presenting the whitewashing report, which the Liberal majority on the investigating committee prepared.

The Story of Silver Islet

A Famous Property Out of Which Millions Were Taken.

How Two Schemers Made a Pile of Money on the Stock.

From the Montreal Herald.

We had been talking of men who get rich out of mines and how they do it, selling out their stock at high prices when a pocket of rich ore has been struck and buying it back dirt cheap when they know another good thing is at hand, and when the public believe the mine to be played out. Cap. Davis, who had mined and drunk whiskey in most parts of the world where there is gold, was in charge of one of the gangs at the time—the Cap began, "and the engineers in charge were Cornishmen like myself. They were the men who were in connection with the Silver Islet mine, the great Lake Superior property, out of which three or four millions worth of silver bullion were taken before the water was allowed to get down the shafts and swamp the workings."

"There were up and down about Silver Islet just as there have been with every gold mine ever opened. We would come to a pocket of mine, and we would call them George and Bob—they were brothers, and both knew all there is to be known about mining, and the art of certain other indications, when a new pocket was about to be reached."

"The men had their canoe always at the ready to be ready to start in the middle of the night if the news happened to come them. Thunder Bay was frozen over, however, before the Old Man do but buy another, however, before the Old Man do but buy another, however, before the Old Man

Father And Daughter Dead

Particulars of the Dreadful Goldstream Tragedy on Friday Evening

Mr. McClure Dies At Jubilee Hospital After Operation—Affair Accidental

Mr. McClure and his little six-year-old daughter, cold in death, and Mrs. McClure, the widowed and doubly grief-stricken mother, seriously injured, in the work of one lone rifle bullet, accidentally sent on its deadly mission through the entirely unintentional action of the ten-year-old Charlie McClure at the family residence at Goldstream on Friday evening.

The Colonel's announcement of the particularly sad tragedy yesterday morning was somewhat erroneous in its details but this is excusable, owing to the fact that the little boy, whom a cruel fate destined to commit the awful deed, was mistaken for those who commended to the Colonel the painful news, was so excited as to render it impossible for him to give a coherent account of the affair.

The tale is a simple one. R. McClure, caretaker of the reservoir of the Goldstream Water & Power Co., occupied with his wife and two children—Charlie and Katie—a little house situated about a mile and a quarter from the reservoir. At 8 p.m. on Friday, after the evening meal had been partaken of, Charlie, the little ten-year-old, went into the bedroom, which adjoined the kitchen, and attempted to bring into the kitchen and place upon a table a tin of powder which he had taken from his father from a friend.

The little fellow pulled the gun towards his resting place and walked towards the kitchen door, which separates the two apartments, he tripped and fell, discharging the weapon with the terrible results above characterized.

By a cruel whim of fate the three unfortunate victims of the accident were standing near the stove, and the bullet, speeding quick on its terrible errand, first passed through the forehead of little Katie, killing her instantly, then struck the left arm of Mrs. McClure, and into the abdomen of Mr. McClure, and into the chest of the latter.

Realizing the awful result of the accident, Charlie ran with fear, rushed from the house, carrying the rifle in his hands, and cut himself into the waters of the reservoir, and, without a moment's delay, followed him quickly and induced him to come to them and seek assistance.

Assessing Messrs. Trip and Brown, who were on duty at the time, of the dread affair, they immediately telephoned the things to the city and went to the scene of the tragedy. The upper portion of her skull was completely torn away, and death must have been instantly mortal. Mr. McClure was evidently mortally wounded, being wounded in the abdomen and suffering intense pain. Mrs. McClure was hit in the right arm, that member being broken.

On the tidings reaching the city, Dr. Hart was notified, and he, with Dr. Hart, proceeded to the scene of the accident, where everything possible was done for the relief of the sufferers.

It was found that the premises failed to discover the rifle from which the cruel bullet had been fired. An old muzzle-loading rifle, with the cap on, and it was not until diligent search had covered where the boy had been, that it was found in his frenzy, a short distance from the house.

Returning to the city, Dr. Hart notified the Constable Hoekins, of the provincial police, of the affair, and he immediately repaired to the scene. It is to be noted that the fatal shot had been fired, a 24-calibre Winchester, and took a statement from the wounded mother, Mr. McClure had forbidden Charlie from touching the weapon, and did not take notice of the boy's movements until the accident had happened.

With the approach of morning both the wounded parents were brought to the city and taken to the Jubilee hospital. An operation was performed upon Mr. McClure in the afternoon, in the hope of locating the bullet, but without success, and he succumbed at 6 o'clock yesterday evening. It was found that the intestines had been pierced, and that the bullet had passed through the lungs, and that the wound was a serious one. Mrs. McClure is recovering as well as can be expected under the circumstances.

There is no doubt whatever that the accident was purely accidental. The rifle was not intended to be used, and the statements of the father and mother when examined by Dr. Hart and Constable Hoekins, fully substantiate this. Mr. McClure was a native of County Antrim, Ireland, and about 45 years of age. He had been married for 15 years, and was formerly engaged in farming at Goldstream.

CRUELTY TO ANIMALS. Horse's Tongue Nearly Cut In Two By Barbarous Contrivance. A bad case of cruelty to animals was brought to light yesterday by Mr. A. J. Daiton. A horse was brought to him by a local blacksmith who found it getting thinner and thinner and evidently in great distress. The S.P.C.A. officers looked over the horse and soon found that its tongue, which was greatly swollen, had been all but cut through by a rubber band fastened around the tongue. This is a trick that has been used with balky horses, and is intended to prevent the animal from balking. The former owner of the animal would have been prosecuted for this cruel and inhuman act had it not been for the fact that the horse had been parted with the animal. The sale of this guilty of a cruel and inhuman act was made by the S.P.C.A. and the animal will be kept for three months until it has recovered from its wounds. The case is in the hands of the S.P.C.A.

Do you know anything at all about the new money? I know all about it, replied the man. I worked in a quarry in Philadelphia before I joined the army.

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. That is not talk, but truth. One pill a dose. See advertisement. Small bottles.

Last Night At Mafeking

Lady Sarah Wilson's Story of That 'Thrilling Day of Suspense'

Boer and Staff Entered the Town But Not as a Conqueror

The siege of Mafeking was ended at 10 a.m. to-day, Thursday, May 17. This is the official time. The relieving force consisted of Colonel Mahon's column and Colonel Plimmer's Rhodesia regiment, and the Boer force was broken up and scattered in all directions.

It is impossible to express our feelings of relief, thankfulness and delight. The Boers are in the Stadt! Such was the ominous message that was quickly passed from mouth to mouth on Saturday morning as day was breaking.

One must have lived all these weary months in Mafeking to have frequently wondered through the labyrinth of rocks, trees and huts, to grasp the dread import of this short sentence in its entirety. I do not exaggerate when I say that in an instant a set, hard, determined expression came over the face of every man, woman and child who, but a few moments before, had been disposed to joke at the terrible foreshadowing of the Boer method of thought.

As the murmured message became a shout, it was acknowledged to be the grim truth, the most colossal realization that this was no sham onslaught such as we were accustomed to see when anything of the sort was attempted. The Boers were not to be taken lightly, and the relief force was not to be taken lightly either.

But I must hark back a little and relate what occurred before the Boer relief force entered the town. The Boers had been in the Stadt for some time, and the relief force was not yet within reach. The Boers were in the Stadt, and the relief force was not yet within reach.

The Boers were in the Stadt, and the relief force was not yet within reach. The Boers were in the Stadt, and the relief force was not yet within reach. The Boers were in the Stadt, and the relief force was not yet within reach.

Freight Is Now Moving

Blockade At Yukon Distributing Point to Be Lifted Next Wednesday

White Pass Ry. to Run Trains From Skagway to White Horse by August 15

The freight that had accumulated at White Horse and other shipping points in the North owing to the lowness of the water and the consequent inability of the steamers to carry sufficient cargo to keep the warehouses free from blockade will soon all have gone forward.

There is now little over three thousand tons stowed at White Horse there is 2,100 tons of freight waiting to go forward, 300 at Caribou and 40 tons at Bennett. There is also 700 tons en route.

With the water high now, though, and no less than twenty steamers in service on the river—fifteen running under the White Pass railway flag—it will not be long before the blockade will be lifted.

The agents of the White Pass & Yukon route are now busy in getting the freight to the Klondike capital, that is, they are now busy in getting the freight to the Klondike capital, that is, they are now busy in getting the freight to the Klondike capital.

Nearly All Canvas

City of Nome Now Extends for Five Miles Along the Beach

Tents Are Business Offices and Homes of Gold-seekers

The Nome Gold Digger of June 20 received here describes the scenes in the Northern gold camp incident to the large extent as follows: "One of the most curious transformations scenes ever witnessed in the world, and far transcending anything known in the history of any mining town in America, has taken place in the middle of the spit to the west, and even beyond, and from the vicinity of Belmont Point clear to the east line of East Nome, a distance of at least three miles, especially along the river and beach, is a solid stretch of houses and tents. Even beyond these confines, and west for a long distance, are scattered houses and tents, and beyond the farthest confines of the town of East Nome, are a few scattered houses, therefore, extends for near five miles.

The white tents, which loom up, a vast sea of canvas, and are packed in every important city and town of the Pacific Coast, and in the interior of the continent, are not enough, men have erected large tents in which is being carried on the manufacture of goods. Yesterday made a tour of the east area, and witnessed a scene, the thought of which is almost unbearable. The tents, which are scattered all over the beach, are not only a source of business, but they are also a source of amusement. The tents are not only a source of business, but they are also a source of amusement.

The tents are not only a source of business, but they are also a source of amusement. The tents are not only a source of business, but they are also a source of amusement. The tents are not only a source of business, but they are also a source of amusement.

Importance of Northern Trade

Further Increase their Facilities about a Month Hence the Railway Extension will be Completed and Trains will be Running from Skagway to White Horse

Golden River Question, L.D. Disaster Leads to Suspension of Operations—The Company to Be Reorganized

The ordinary general meeting of this company was held at Winchester House, 10, Broad Street, E.C. 4, on Monday, Mr. F. G. Vernon, chairman of the company, presided. Mr. E. A. Foster, secretary, presided over the meeting.

The chairman stated at the outset that it was intended to hold a meeting at the end of the month to discuss the question of the winding-up of the company. At the last meeting on March 15, 1929, a resolution was passed authorizing the reduction of the company's capital from £500,000 to £100,000.
