RUBBERS and overshoes weather is here. Get the best grades. We can supply you at a price some charge for inferior goods.—P. J. DODDS.

"FOR God's sake, America, wake up, the world is on fire!" is the way Harry Lander put it when addressing a patriotic meeting in Detroit.

It is hoped that all the members of the Methodist church will be present at the Fellowship service next Sunday morning at 10.30 o'clock sharp.

CRUMPTON'S and Nemo Corsets.—SWIFT'S.

THERE will be morning service in Trinity church next Sunday and a celebration of the holy communion. Children's sermon by the rector.

WHAT a pitiful showing we should make in this war if our young men are as afraid to die as some of our elder men are of giving up their dollars.

TAYLOR'S have a very complete stock of the new Xmas cards and booklets.

REV. MR. SAWERS will preach in the Methodist Church next Sunday evening, owing to the absence of the pastor at Zion Sunday School anniversary.

ON Sunday morning next at 11 o'clock in the Congregational Church Rev. R. M. Stevenson will preach on the subject, "The Birth of a Universe." A welcome extended to all.

BORIS HAMBURG and his wonderful cello fill Massey Hall, Toronto. Local music lovers have a real treat next Wednesday.

THIRTY newspapers in British Columbia succumbed to the High Cost of Printing a Newspaper. Only two per cent of printing organizations survive ten years of business.

EVERYBODY big and little, old and young is invited to attend the shower for Watford soldiers in the trenches, Lyceum, evening of Dec. 12th. Full particulars of program next week.

BUY your wall paper now. We have a fine lot of patterns, good quality paper. You can buy cheaper now than later on as wall paper is going to be scarce and high.—P. J. DODDS & SON.

A WIRE was received from the Fuel Controller at Ottawa on Tuesday informing our coal dealers of the name of a Toronto firm having coal for immediate delivery. They are investigating.

HUNTERS returning from the north state that the old settlers predict an open winter. The bears, which are very numerous, have not haled yet and the woods are literally full of chipmunks.

Do not let anything prevent you from attending the Boris Hamburg concert in the Lyceum, Wednesday, Dec. 5th. It will be the finest musical treat ever produced in Watford.

In most of the surrounding towns on Thursday afternoon last the bells were ringing, the school children cheering, flags flying and other signs of rejoicing were visible for the great British victory on the Western front. No notice was taken in a public way of the glad news in Watford. Why? Do we lack patriotism?

THE December meeting of Tecumseh Chapter L. O. E. will be held at the home of Mrs. A. G. Brown on Friday, Dec. 7th, at the usual hour. Miss Marion Kelly a life-member of the chapter and Miss Mary Gardiner Kelly matron of the Gov't Hospital Indian Reserve, Brockton, Alberta, are expected to be present. Members please remember change of date.

THE Peerless Jubilee Singers gave a concert in the Lyceum on Thursday night, under the auspices of the Utopia Bible Class of the Methodist Church. There was a good attendance, and as a result of the entertainment a nice sum was realized for the Class. The entertainment was one of the poorest given here for a long time and altogether unworthy of the liberal patronage extended.

FIVE and a half per cent is looked upon as a pretty fair interest by most people, especially when the security is a Victory Bond. Wonder will the Davies Packing Co. invest a few thousand dollars in the bonds. Of course! the interest would appear rather small alongside the eighty per cent they are making in the packing business.

BOY'S SUITS, sizes 28 to 34, \$6.50 good tweeds, pinch and trench styles.—SWIFT'S.

THE Guide-Advocate does not club with any paper. We take subscriptions for some papers, however, at regular rates, including the Farmer's Weekly Sun, Montreal Herald and Weekly Star, London Advertiser and Free Press, and the Toronto papers. You can renew for any of these at regular rates when renewing for The Guide-Advocate and we will look after the matter for you.

THE enumerators for Watford have about completed their work and the Voter's Lists to be used on December 17th, will be posted up for inspection on Monday next. There will be two copies posted in each division, the post office being one of the places. All parties interested should examine the list for the division in which they reside and if any omissions occur call on the enumerator and have the error rectified. Notice will be found on the list when and where the enumerator will attend to the matter.

NEXT Sunday, Dec. 2nd, 1917, is Foreign Mission Day in the Baptist Church. The pastor, Rev. Geo. W. Conners, will preach a Foreign Mission sermon and present the report of the work of the Foreign Mission Board of the convention of Ontario and Quebec. A liberal offering for this work is greatly needed and in view of the strenuous times throughout the world we anticipate a hearty response. The public is cordially invited.

WHAT may possibly happen before the election campaign is brought to an end has been told me by a male eavesdropper, at one of the ladies' meetings the other night. Some of the husbands were waiting for their patriotic wives, when one of them remarked to the other, "Your wife used to be a great advocate of 'votes for women.'"

"Yes," replied the prominent principal in attendance, "she has been told me by a male eavesdropper, at one of the ladies' meetings the other night. Another Watford Boy to the Front

Norbert J. Roche graduated on May 31st last from Chicago College of Medicine and Surgery and medical department of Loyola University. Last week he was called upon to try an examination for State Board License of Illinois, which he passed successfully and is now a full-fledged M. D., serving as resident physician at St. Elizabeth's Hospital, Chicago, and is also a member of the United States Army. He was congratulated by the professors of the College as being one of the few students who passed through his years of college life without falling on a single subject.

Union Government Meeting

A public meeting in the interests of Union Government was held in the Lyceum, Watford, on Tuesday evening and was attended by a large crowd. Mr. J. H. Hume occupied the chair and at least fifty ladies occupied seats at the front of the hall.

One of the speakers advised, Mr. H. J. Pettipiece, was unable to present. His piece was taken by Rev. D. J. Cornish, rector of Forest.

Dr. J. P. Hubbard, of Forest, spoke first, explaining that he was a life-long Liberal and did not consider this election a political contest. It was a question whether we should win the war, and considered a union government at this time necessary, hence was supporting it.

Rev. D. J. Cornish followed. He was glad to say a word in favor of Union Government and not in support of the present, and he thought party politics should be laid aside and people should act in the interests of the whole world instead of anything that was narrow. Union Government would do away with conscription, which no party Government has yet had the courage to do.

Mr. Jos. E. Armstrong, the Union Government Candidate, reviewed his course in Parliament during the past six years, and declared himself a strong supporter of the Union Government. Said he had supported the movement from its inception, and has also consistently supported every government measure that had been introduced, including the Military Service Act and the War Time Elections Act. He said that if Canada is to maintain her place in the fight in Europe conscription is being forced upon her, and he promised to give hearty support to the Union Government in its efforts to help win the war. He referred to Sir Wilfrid Laurier's policy as one that would delay reinforcements when General Currie and his brave men in the trenches were being killed. Every elector in Canada, he said, would be compelled to explain to the men when they returned the part they took in this campaign. He closed with an earnest appeal in support of Union Government, in order that we may carry on the just and righteous war against Germany.

Mr. Fred Morris, Bracebridge, is here. Divine service will be held in St. James' church, Brooke, on Sunday afternoon at 2.30. Sunday is Advent Sunday.

Captain Barclay, of London, will preach in Christ Church, Satorville, on Sunday afternoon at three o'clock and also at 7.30 in the evening. All welcome.

The young people of Walnut will present the play "He Stoops to Conquer" on Friday December 14th, in the Walnut school in aid of Red Cross work. 30-2t

Mrs. Catharine Morris died at the home of her daughter, Mrs. W. E. Kearney, 12th line, Brooke, on Wednesday, Nov. 28th, in her 80th year. The remains will be moved to her old home, lot 12, con. 5, S.E.R., Warwick, Friday, and the funeral will be held there on Saturday at 2.30 for Watford cemetery. Service at the house at 2 o'clock.

HEAT FLASHES, DIZZY, NERVOUS

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the change of life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends."—Mrs. LENA WYNN, 2312 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound. Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness. For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

NOTE AND COMMENT

If we are to eliminate German music entirely from this country there can be no weddings. Both the Lohengrin and Mendelssohn wedding marches will be out of business.—Louisville, Ky., Times.

No Canadian homestead can be obtained by any but British subjects, or the subjects of Allied nationality. Canada's bounty in valuable lands is no longer to be given away indiscriminately.

From Switzerland comes an official German statement which confirms the report that young Alsatian girls have been dragged from their homes and forced to labor for the German army. The Government promises to return those under seventeen, who are referred to as "only 8 1/2 per cent." of the total number. Is this monster absolutely without a soul?

London Daily Telegram: Far be it from us to belittle our enemy; there is no sense in denying the skill and valor with which the Germans have fought. Some of them

may have yielded themselves easily to capture, but others have put up as sturdy a fight as ever they have done throughout the long campaign. And it is just this which makes our British credit all the greater—that we have not been forced to yield an inch of ground. On the contrary, wherever there has been a sheer trial of strength between the opposing forces, it is the British who have won.

A princess was given a sixpenny tip (about twelve cents) by a Canadian soldier in Windsor Great Park. Princess Christian, who takes a keen interest in the welfare of the Canadians, was serving refreshments when one of the soldiers upon whom she had waited, and of whose identity he was unaware, thought he would like to present a "tip" before he left camp. Approaching Princess Christian, the soldier offered her sixpence which was pleasantly declined with thanks. The man, however, was so persistent that she responded to the invitation and accepted the gratuity.

In the four years, 1912-15, seven hundred and eighty-nine people were burned to death in Canada, and 78 per cent of those were women and children. Over 350 lives were lost in burning buildings. As might be expected, the majority of the fires were caused by criminal carelessness. This is especially true in regard to the kindling of fires with kerosene and gasoline, and permitting children to play with matches. Such disregard of the safety of human life constitutes a forcible indictment of the entire Canadian attitude towards the danger of fire.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence who is infested with worms can take this preparation without a quinquina of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

Winning the War

Shall we win the war? The question is being asked with usual frequency these days, and the answer is the same as His Majesty the King gave two years ago. Premier Lloyd George gave it emphasis. It is yes. But with a condition.

Yes, if we put all our energy and resources into the effort. We have notoriously failed to put all our energies into it. Lord Northcliffe has been saying the same thing to the English people. He does not think they are working as hard as the people in the United States. This can scarcely be possible, but there is no doubt that we are putting our utmost effort into the task.

Germany is doing this, and that is why she thinks she ought to and will win. Germany spares no efforts, no pains, to achieve success; and no endeavor, small or great, is avoided or neglected if it will tend to assist the decision. A striking example of this is found in the immediate decision to put the Italian plains which have been invaded to serviceable use. Crops are to be planted immediately so as to provide vegetables at the earliest possible moment. Organization like this cannot fail to count, and when we contrast it with our own untitled realms we can understand that it is our own lack of organization that makes us weak where we are weak. Where we are strong it is where we have bent our energies to getting the most out of our opportunities.

If we are to win the war we must put our hearts into it and work at winning.

Loyal Talkers

A lot of us old fogies who are too gray to fight, sit round and smoke our stogies, and jabber day and night. We tell about the scuffling we'd do if we were young; we'd send the Prussians yapping with buckshot in his lung. We'd prod foes in the stomach with gleaming sword and lance, and pile our dead in hummocks upon the plain of France. And how we roast the stripling who does not seek the fray, who's quoting Wells or Kipling while others march away! We skin that German royal who started all the fuss; we are so doggone loyal the children stare at us. But when we're asked politely to dig up for a Bond, and keep things going rightly out yonder and beyond, when asked to give assistance we suddenly recall engagements in the distance, and

hike to beat you all. You cannot tear asunder the tightwad from his wad, the miser from his plunder, the gold brick from his god. Oh, talk is cheap and filling, we all can boost the flag but ask us for a shilling and see us wilt and sag!—Walt Mason.

Protecting Trees From Mice

The cheapest and surest method of protecting trees from mice is to wrap ordinary white building paper around the trunk of the tree. The paper is cut into strips which are the length of the breadth of the roll of paper, the width of the strips depending on the size of the tree. The strips should be just wide enough to lap over, as one thickness of paper is all that is necessary. The paper is wrapped tightly around the tree and tied in two places with twine. A little earth is heaped up about the base after the paper is tied, to cover any opening through which the mice might reach the trunk. Several thousand young trees are wrapped each year at the Experimental Farm in this way and there have been practically no cases where the mice have gnawed through the paper to get at the tree. Tar paper is also effectual but trees have been injured by using it and it is well to avoid this as building paper will do as well. A small mound of earth from eight to ten inches in height about the base of the tree will often prevent mice from injuring the trees and even snow tramped about the tree has proved quite effective but one cannot always depend upon it. Fine wire mesh wrapped around the tree or lapped so that it will expand with the growth of the tree, while more expensive at first, is very durable and will protect the trees well.

Mice may be poisoned by making a mixture of one part by weight of arsenic with three parts of corn meal and putting it in runways made by nailing two pieces of board each five or six feet in length and six inches wide to make an inverted trough, and putting about a table-spoonful of the poison on a shingle near the middle of the runs, renew-

Bearers of Sunshine

In the world where there are always people who are bearing heart-ache and sorrow, a great deal of good is done by those who go about as bearers of sunshine. Simply by being cheery we may add to the cheer of our friends and acquaintances. Even in a place where all around are strangers, a radiant personality diffuses charm, as, for instance the beauty of a young girl alighting from a ferry-boat or street car on a dull day, without her knowledge; the motherly sweetness of a benighted matron carrying a benediction, though she is unaware of it, and the win-some attractiveness of a child's fresh laughter, the dearest music in the earth. Simply being cheerful ourselves we help to make others cheerful and therefore able to bear their burdens which may be heavy enough to weigh them down if no one gives them a lift.

FIVE FUNERALS IN THREE YEARS

Family Almost Wiped Out By Consumption.

From a hovel in the rear of more pretentious buildings comes a ghastly tale, one that in this fair Province of ours seems almost incredible; yet, to those who know the ravages of consumption, it is but a typical case.

Grief stricken, the mother tells us of her five small children buried from this lowly home during the past three years, of her only remaining child, suffering from a tubercular hip, and then as though in mockery of their misery, the father, too, was stricken. He is now a patient at the Muskoka Free Hospital, where every endeavour is being made to save his life. The Muskoka Free Hospital for Consumptives is appealing for help to carry on this fight against the Great White Plague. The money you give will help them seek out these unfortunate families and give them a fighting chance for their lives.

IN CLASSIC LINES

New Parisian Coiffures Modeled After Famous Greek Statues.

Artificial Waves Out of Favor and Hairdressers Are Trying to Give Natural Effects.

Two of the newest headdresses for girls are shown in the accompanying sketch. The profile head shows the classic outline which is so much in favor with the Parisians. The unwaved hair is softly drawn back from the face and twisted into a coil at the back

New Coiffures for Girls.

of the head, after the manner of so many of the famous Greek statues, writes Idalia de Villiers, a Paris correspondent.

Then a long length of gold galon edged with black is passed round the forehead, then round the chignon, with a bow tied underneath the latter. Any one with regular features could adopt this headdress with much benefit, but pretty girls with small and uncertain noses would do better to copy the second style which shows a narrow bandeau of multicolored beads drawn round hair dressed in Julia James fashion.

In this latter headdress the hair is cut in a fringe across the forehead and loose curls over the ears. Artificial waves have completely gone out of favor and all our best hairdressers are trying to give natural effects, even when making use of the waving tongs. Kiss curls over the ears are still in favor and straight fringes are worn by every second smart one one meets.

How Coal Was Named.
 The name of coal was first applied only to fuel made of charred wood or what we call charcoal, says an exchange. When the use of mineral coal began it was called sea coal, because it was at first only found along the seashore along with seaweed and other wreckage cast up by the waves and thus supposed to be of marine origin. From its resemblance in color and burning qualities to charcoal, it finally received the simple name of coal.

Humor.
 Humor is the true sixth sense. Lacking it, one misseeth the joy of living. It lurks under the serious affairs of life as a violet lurketh under the trees of the forest and when so found is more to be prized than that which shouteth itself from the housetops.

Potatoes.
 The stem end of a potato is the end that was attached to the vine; the opposite end is the seed end. The seed end might be called the top of the potato and the stem end the bottom. The buds at the seed end swell and grow first.

His Threat.
 "He must be a perfect savage."
 "Why?"
 "He threatens his wife with his child when they have a difference."

Executive Ability.
 Little James—Father, what is executive ability? His Father—The faculty of earning your bread by the sweat of other people's brows, my son.

Tree Juice.
 Intoxicating liquors have been made from the sap of the birch, the willow, the poplar and the sycamore.

DOCTOR SAYS VINOL IS THE BEST TONIC

Honest Opinion Doctor Gave His Patient

Bedford, Ohio.—"I was in a pitiful condition, weak, nervous and run down so I could not do my housework. I had doctored for years and tried everything under the sun. A friend told me about Vinol. I asked my doctor about it, and he replied, 'It certainly is the best medicine that can be had today. I couldn't give you any better.' I took it, and today I am as well and strong as any woman could wish to be, and it was Vinol that saved me."—Mrs. Frank A. Horkey, Ash St., Bedford, Ohio.

THIS is no time to be practising False Economy. Don't imagine because you have a fire on that it is cheaper to bake your own Bread and Cakes. Remember, you must have extra heat, and you know the cost of wood and coal these days! So Save your Fuel and Buy your Bread and Cakes from **LOVELL'S**

The Bean Family

Pound for pound beans furnish one-third or one-half more nourishment than meat. There are many kinds of beans such as the red or chili bean, the black bean, the speckled black and white bean and the lima, which should find more staple use. What is more delicious than a casserole dish of red chili beans combined with a little mutton and flavored with tomato sauce? Limas and other beans may be boiled, seasoned, run through a puree strainer and used mashed instead of potatoes. All of them make good soup, especially the black bean. Dried limas are good soaked, stewed and seasoned with sausage fat. The common pea or navy bean is excellent baked or made into a nourishing soup.

If milk is cheap the housewife will find it one of her greatest food allies. It is common in some households for the adults not to use milk except with cereal. More milk dishes should be used, especially in creamed soups. These are made by combining milk with the cooked pulp of some vegetable. Eaten with bread they form most wholesome meals. More vegetables should be creamed and custards be regarded not as luxury desserts but as a substantial dish. The use of eggs, milk and cheese as in a soufflé is another excellent form. Milk toast, milk sauces and other forms can be used in place of more expensive foods.

Christmas Shopping

The early bird catches the worm. There will no doubt be some splendid Christmas bargains offered by our local merchants before the big rush takes place. Take time by the forelock and step in early and see what is doing.

Do not plan to do your Christmas shopping in Toronto or London, as that is not patriotic, and you will not save money thereby. The merchants here need your patronage to sustain their business and in return repay you by building up the town. The merchants in Watford are well-known as shrewd buyers and give you the advantage of their lengthy business experience in buying for cash at the lowest price, and knowing your requirements replenish their shelves with what you will need at the price that will please you. They are not in a position to deceive you as to the quality of the goods sold, as may be done to strangers, for you are their next door neighbors and they know if they deceive you, they will lose your trade and be compelled to take the goods back. Think these things over before making your Christmas and New Year's purchases.

NOTE AND COMMENT

Women doctors who will leave for the front shortly from New York are the first of their profession to go from the United States. "We are going over primarily to care for the women and children suffering from war's illnesses and injuries," was the statement made at the New York headquarters of the unit. "But in emergencies we will be ready to reinforce the army surgeons in their work with the wounded." This unit of women surgeons and assistants is nearly one hundred strong. The French government has accepted its services, as the United States was unable to do.

The enormous supplies required to feed an army in the field are indicated by a few figures on the requirements of the British armies in France. Nearly 2,000,000 lbs. of jam are sent across the Channel each week. It is now put in papier machie jars. The demand for tin alone requires five tons of tin plate a day for jam cans. The army consumption of cheese is about three ounces to a man per day, and so far 167,000,000 pounds of cheese have been purchased for the British armies. More than 500,000 pounds of tea are sent to France for the British soldiers each week and the Government buys it direct from the planters in India and Ceylon.

Those districts in Ontario where the Canada Temperance Act is in effect are not subject to the much more stringent regulations of the Ontario Temperance Act. In consequence guests at a standard hotel may have in their rooms or in their possession liquor intended for their own consumption, and may, without fear of penalty give liquor to another person. So long as they do not triflick in alcoholic beverages they do not break the law. Justice Masten, in a decision which he handed down at Osgoode Hall, made a ruling to this effect.

CHOP STUFF

The price of hay is advancing. Sarnia Creamery has raised the price of milk to 10 cents a quart. The McAlpine House, Glencoe, has been closed to the public. A. D. Nesbitt, Plympton townline, has sold his farm to Rich. Smith. Donald McKellar lost one of the fingers of his right hand in the machinery of the basket factory at Forest. Waterloo county farmers will ask bankers to decrease the interest on loans from 7 to 5 1/2 per cent. on condition that the money is used for the sole purpose of hog-production. Some farmers are alleged to be storing their potatoes with the object of securing higher prices in the spring. The profiteering does not seem to be all confined to the packing houses. Thedford is without hotel accommodation, the Holwell House being closed up last week. Mr. F. A. Jennings has conducted the house for 17 years and gave good accommodation to the public. Pte. Wm. Garrett, who was employed by Fred Brereton, Ist. con., Plympton, and who went overseas nearly two years ago, arrived home recently. He was in the battle of Vimy Ridge, where he was wounded in the head, causing a slight deafness.

Henry Jones whose death occurred at the home, north of Ravenswood, has been a resident there for over twenty years. His father was a minister in this section in the early 60's, a presiding Elder in the Episcopal Methodist church. For the past two months Mr. Jones has been seriously ill. He is survived by his widow, four sons and four daughters. He was 78 years old.

A meeting of the executive of the Lambton Co-operative was held in Petrolia last week, when plans and arrangements were made for the annual meeting to be held in January. Members of the executive who were present were:—D. A. McDonald, Watford, President; W. A. Brock, Petrolia, vice-president; R. R. Clark, Alvinston, Secretary; Fred McMahon, Treasurer; H. Gilroy, Alvinston, director; Anson Groh, manager.

A farmer writes:—We noticed some strange freaks of nature this season. For instance, how is it we have such a great crop of beechnuts and no squirrels to harvest them? The red squirrel is a rare sight this season and although we brand him as a thief, yet we would miss him sometimes. The farmer seems to always be in trouble. Last year he was puzzled to know what to do with his cattle for want of feed, and this year he is puzzled to know what to do with his feed for want of cattle.

Miss Ethel Topping, aged 21, daughter of George Topping, Sarnia, and an employee of the James Butler Woollen Mill, was shot in the hip with a revolver one day last week, said to have been fired by the 10-year-old grandson of Mr. Butler. It is understood that the boy was playing in the stockroom of the mill along with a number of other boys, who were ordered out by Miss Topping. The Butler lad found an old revolver in a drawer and was playing with it, not realizing that it was loaded, and when pointed in the direction of the young woman the weapon was discharged, the bullet hitting her in the hip.

In Flanders Fields

Two men were arguing. One claimed he had heard in Calgary the most stirring appeal for the Victory War Loan. The other said he had heard a better—in Sherbrooke, P. Q. A third man, taking his cigar from his mouth, said: "No, the best appeal for Victory Bonds doesn't once mention their name. Listen:" and he read from a clipping the poem by John McCrae, of Montreal:

In Flanders fields the poppies blow
Between the crosses, row on row,
That mark our place, and in the sky
The larks, still bravely singing, fly,
Scarce heard amid the guns below.
We are the dead; short days ago
We lived, felt dawn, saw sunset glow,
Loved and were loved, and now we lie
In Flanders fields.

Take up our quarrel with the foe!
To you from falling hands we throw
The torch; be yours to hold it high!
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders fields.

War Notes

A Washington despatch says the United States will have a million soldiers in France by next summer.

The American Ambassador to Russia has advised all unattached women and married men with children to leave Petrograd.

The Grand Duke Nicholas, uncle of the late Czar of Russia, is said to be at the head of a Cossack army which intends to restore the Czar.

As a part of the work of the forestry crops in Britain, Robert James aged 97, is helping to fall trees at Uffculme, Devonshire, which he helped to plant 80 years ago.

Some American officers, as part of their training on arriving at the front were stationed with Canadians in dug-outs 40 feet underground. They had the opportunity to watch Canadian trench raiding parties, and several times they had to go through German barrages.

The United States destroyer Chauncey was cut in two by the United States transport Rose while both vessels were running at night without lights. The after part of the destroyer sank at once and 21 officers and men went down with this, but the fore part remained afloat for an hour, and those on that part of the vessel escaped.

When the American transport Rochester was torpedoed, one of the boats that got away carried twelve men. Two of the occupants died of exposure of a few days after the Rochester went down, one jumped overboard in a fit, and four died just before the Irish coast was sighted. When the boat landed only five of the survivors could walk.

French cotton mill men have established a laboratory to determine the percentage of moisture or any abnormal dryness in cotton, that which is too dry being regarded as defective.

evening of last week when neighbors and
friends to the number of about fifty
dropped in on them to bid them goodbye
prior to their moving into Watford. The
ladies in the company served a tasty
lunch and Mr. and Mrs. Saunders were
presented with a handsome chair and
couch, accompanied by the following
address, which was read by Mr. Wm.
Bowie :-

MR. AND MRS. SAUNDERS.
Dear Friends:—We, your neighbors,
have gathered tonight to spend an
evening with you before your departure
from among us.

We will indeed miss your cheery help-
fulness in our neighborhood and we
regret very much your removal from our
line, but we know that our loss will be
Watford's gain. We rejoice, however,

that you are not going far from us and
we hope that you will often come back to
see us.

As a slight token of the esteem in
which you are held we ask you to accept
this chair and couch, and we hope you
will be spared many years to enjoy them.
May they ever remind you that you have
always with you the very best wishes of
your twelfth line friends.

Signed on behalf of the neighbors,
JOHN SCOTT,
FRED ATCHISON,
WILLIAM BOWIE.

Mr. Saunders made a neat reply,
thanking the donors for the gifts and the
good wishes accompanying the same,
and expressed the hope that the same
kindly feeling which has heretofore been
extended to him and Mrs. Saunders
would long be continued.

Overboard

A Labor Day Story

By John Twining

An ocean liner was coming across the Atlantic. In the main portion of the ship, fitted up with every convenience, every luxury, were millionaires and multimillionaires, some of whom had been prominent in the London social season, and not a few brought with them jewels, a fortune in themselves, that had blazed in many a ballroom in England's capital. There was one man aboard occupying a suit of apartments the price of which for a four days' trip would give a workman a comfortable home for a lifetime. These people, seemingly regardless of being suspended between the heavens above and the bottom of an ocean several miles beneath them, wore their fine clothes at dinner, and in the evening ate choice viands, drank the best wines, listened to music, flirted, even danced, while the hours glided happily away to the swish of the waves against the leviathan's side—a gayly careless lot, seemingly oblivious to the cares and sorrows of this world.

How different the underworld, which on shipboard is as far beneath the upper world as land! In the steerage was many a family packed in their narrow quarters, eating the homeliest fare, and many, though accustomed to the ordinary wine of their country, were drinking only water, and that out of tin cups. Among these steerage passengers was one Adolph Stahr, a Swede, a young man twenty-five years old, with his bride, Amelia, six years his junior. They had left their native country, their simple peasant life, to seek a home in the new world. Adolph was a mason by trade, and Amelia had worked in a factory in her native land, becoming expert at weaving. They had heard that in America the price of labor had, by the united effort of the laborers, been raised to what seemed to them a very high figure. Accustomed as they had been to living on a pittance, they believed that, receiving these wages, they could save money enough within a few years to build them a home in which they might live comfortably for the rest of their days.

And so, putting together all the money they had with something that their parents gave them, they set out on their long journey for what was to them a land of promise. Taking ship for England, they there re-embarked for America. Half their journey across the Atlantic had been accomplished when one afternoon a fog settled down over the waters. Fogs on the sea are dreaded by mariners, and, although the dressing in fine clothes, the feasting, the wine drinking, the music, went on among the passengers in the main part of the ship, many heard the constant, deep toned toot-toot of the fog whistle warning vessels that might be near. But at last all aboard the great ship except those whose duty it was to sail her were in their berths.

Suddenly there was a crash forward, the sleepers were awakened, all jarred, some thrown out of their berths. There was a mad rush to the deck, many going up in their nightclothes, where they found confusion and saw the lights of a ship drifting away from them. Fading into the fog they soon passed out of sight. The captain stood on the bridge coolly giving his orders, but few of them were obeyed. Above the babel was the wild cry for help from the wireless machine. From the first the crew realized that the liner had been hard hit, and the worst was feared. Those who were sent to examine the damage came running back to report that the foremost bulkhead was rapidly filling and that others astern of it were in danger of giving way.

An hour later when it was known that the ship was sinking the boats were lowered and the women and children put into them. The men of millions for the first time in their lives came to a position where the wife and child of an emigrant were permitted to step into a lifeboat while they themselves must remain to go down with the ship.

One parting among those who were to go and those who were to remain it is the province of this story to mention. Amelia Stahr clung to her husband and refused to leave him. Taking her in his arms, he carried her to one of the boats, put her in and before she could get out the boat was lowered and pulled away from the ship. The gray of the morning revealed the leviathan a few miles distant, half sunken, resting on the water like a dying sea monster. Slowly she settled, watched by those in the boats, nearly

ROYAL YEAST CAKES HAS BEEN CANADA'S FAVORITE YEAST FOR MORE THAN 30 YEARS MAKE PERFECT BREAD MADE IN CANADA

all of whom knew that some loved one was soon to go down to death with her. Then raising her huge stern she plunged downward, and the place where she had been was but a part of the boundless ocean. Safety came for those in the boats in the appearance of a steamer that had heard the wireless cry for succor. The boats were relieved of their burden, and those who had left the sunken ship were carried into an American port.

Amelia Stahr on reaching the land with her fellow sufferers received every attention. But for this the case would have been hard indeed. Nevertheless it did not relieve the de-

tion of coming to a new land a bride widow. As soon as it was known what labor she could do those entrusted with the work of assisting the women and children who had lost husband and father secured her a place in mills where she could ply her trade, and she became self supporting. Some time after her arrival in America a little girl was born to her, and, although there was a melancholy in not having her husband with her at the time, she welcomed the child as a memento of her husband and as a solace in her loneliness.

Amelia for awhile had a lingering hope that Adolph might be picked up and brought to land by some passing vessel, but as month after month passed and she heard nothing from him the hope gradually died away. She was well skilled in her work and received every attention and encouragement, as did all survivors of that terrible shipwreck.

And so time passed. The widow worked hard and saved that she might educate her child. Amelia was still young and comely, with the fair hair and complexion of the people of the north and a pair of melancholy blue eyes. Suitors came, but she listened to none of them. From childhood she had been Adolph Stahr's sweetheart, and there was little prospect of her ever giving herself to any other man.

Six years passed. Little Lena Stahr, who was now old enough to be amused by pageants, when a Labor day came round besought her mother to take her to see the procession. So Mrs. Stahr, putting on the child's best clothes, took her into the city and found a vacant stoop where they would be sufficiently elevated to see the marching men. There they waited. The child was wild with that excitement children of her age display at some unusual occurrence, especially a parade. When necks were craned in the direction the trades unions were expected she would shout, "Here they come!" and when disappointed would begin to look forward for the next forecast of the approach. In this way an hour passed, when a distant roll of drums was heard, followed by faint strains of martial music. Then Lena danced and clapped her hands and laughed with anticipation.

At last came the band, headed by the drum major, whose tossing of his staff was a delight to all onlooking children. Then the grand marshal, surrounded by his aids, passed by, followed by one union after another. When the masons passed suddenly a man darted from the ranks, pushed his way through the crowd that lined the sidewalk and, leaping over several small boys and disarranging the big hats of a number of women, clasped Amelia in his arms. The man was Adolph Stahr, her husband. Amelia saw him and knew him before he reached her. Almost before his arms were about her she lost consciousness. Her first act after coming to herself was to point to Lena. Adolph understood, and, taking the child in his arms, the three were united in one embrace. Stahr after parting with his wife on the sinking vessel began to think of himself. First he picked up a life preserver and put it about him. He was cool and took forethought for a possible saving of his life. He secured a bottle of water and some meat and bread. These, with a small flask of liquor he had brought with him on his journey, he stowed away as best he could in his person, then, returning to the deck, gathered what loose material he could to make a raft. The latter stood him in good stead, for, embarking upon it, he managed to paddle himself far enough away from the ship not to be drawn down with her when she sank. He was among a very few who did so, and soon after

the ship went down he became separated from that few.

He saw the steamer that came and took up those in the boats, but he had meanwhile drifted away from them too far to be seen or heard, but he rejoiced at the knowledge that those in the boats, especially his young wife, were saved. He drifted slowly on till there was nothing in sight except the sky and the ocean. The sea was comparatively calm, and his bread and meat he kept dry till they had been consumed. These, with his bottle of water, kept him alive for three days—days of horror, but not bereft of hope. Ships passed, but they were too far away to be attracted. At last he kept what remained of his strength by an occasional draft from his flask.

He was passing into semiconsciousness when he was aroused by a shout and saw a small boat pulled toward him. He was taken on board a sailing ship bound on a trading tour around the world and found no means for leaving her and making America for a long while. When he did succeed in this his Amelia had been lost track of by those who had known of her landing.

Stahr did not return to the ranks. He found something more interesting than parading—a wife and a daughter whom he had never seen, of whose existence he had had no knowledge. Between the two, the wife leaning on his arm, the daughter lovingly holding the hand of her newly found father, they went to the mother's home to lay plans for their future.

Since that fortunate meeting, that blessed reunion, the Stahr family take an unusual interest in Labor day, for it is their main anniversary. Had it not been for that parade that Mrs. Stahr and her daughter were looking at, their paths might never have joined. Stahr called their meeting a coincidence, but Mrs. Stahr, who is a devout Christian, looks upon it as a dispensation of a merciful Providence. They have prospered, the husband and father having made money as a contractor, but he never fails to join in the parade on Labor day like an ordinary workman.

Externally or Internally, It is Good.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissues few liniments do, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will cure affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Made For Concealment. Stick insects, which are so called because of their resemblance to dry sticks, have two forelegs, which they fold over their eyes when disturbed and evidently think that in so doing they are lost to view.

The eggs of these insects take over six months to hatch. They are only one-tenth of an inch in their widest part, yet an insect which at hatching is three-quarters of an inch in length is packed into them.

The stick insects destroy the weaklings soon after they are hatched by eating their legs.

Ball Money. Blackmail used to be levied on the newlyweds in England to prevent them from being mobbed upon leaving the church. This "graft" was called "ball money," because it was given ostensibly to buy a football for the village green, but it rarely went beyond the nearest public house.

Companions in Misfortune. Robbed—I do pray of you to give me my things back. My hot tempered wife will kill me if I go home without them. Robber—Sorry, I'm married myself, but what do you suppose my wife will do if I go home without anything.

Another Discovery. "Shakespeare was one of the ablest of brokers." "How do you make that out?" "By the number of stock quotations he furnished."

She Had an Idea. "I wonder where he gets all his money?" "Perhaps he works harder than you do."

More Than Some Can Do. Dick—Think I'll use this old piano for kindling wood. Dock—You ought to be able to get a few cords out of it.—Exchange

Men never fully appreciate the blessing of poverty until they break into the millionaire class.

A Simple and Cheap Medicine.—A simple, cheap and effective medicine is something to be desired. There is no medicine so effective a regulator of the digestive system as Parlee's Vegetable Pills. They are simple, they are cheap, they can be got anywhere, and their beneficial results will prove their recommendation. They are the medicine of the poor man and those who wish to escape doctor's bills will do well in giving them a trial.

MOTHERS OF CANADA

PREPARE FOR TROUBLE

When a girl becomes a woman, when a woman becomes a mother, and when a middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many thousands in this section would testify as to the following:

St. Catharines, Ont.—"Over forty years ago I was restored to health by taking Dr. Pierce's Favorite Prescription. It was after medicine and doctors had failed to help me or give relief. I had, through overwork, become all run-down in health. I was weak and finally became a nervous wreck. The 'Prescription' was recommended to me, and at the time I started to take it I had not been able to do anything for over a year. I took the 'Favorite Prescription' and the 'Golden Medical Discovery' as well. It took several bottles, but I was completely restored to good health and since that time when I have felt the need of these medicines I have taken them and always with perfect satisfaction."—MRS. WM. BAKER, 33 Page St.

Stratford, Ont.—I was all run-down, weak, nervous. I also suffered with severe pains through my back. I was very miserable when a friend advised me to try Dr. Pierce's Favorite Prescription and one bottle seemed to give renewed strength. It stopped the pain in my back, also helped my nervous condition. It is surely a good tonic for women.—MRS. FLORENCE CULLUM, 100 Milton St.

PREPARE FOR TROUBLE**

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many thousands in this section would testify as to the following:

St. Catharines, Ont.—“Over forty years ago I was restored to health by taking Dr. Pierce's Favorite Prescription. It was after medicine and doctors had failed to help me or give relief. I had, through overwork, become all run-down in health. I was weak and finally became a nervous wreck. The 'Prescription' was recommended to me, and at the time I started to take it I had not been able to do anything for over a year. I took the 'Favorite Prescription' and the 'Golden Medical Discovery' as well. It took several bottles, but I was completely restored to good health and since that time when I have felt the need of these medicines I have taken them and always with perfect satisfaction.”—Mrs. Wm. Municipalities Invest Hydro Surplus in Victory Bonds

Many rural municipalities which have benefited by hydro development are now giving their surplus prosperity to help along with the Victory Loan, as a number of communications have been received of late by the Hydro Commission from municipalities at scattered points asking the Commission if they might be permitted to invest their Hydro surplus in the bonds. Investigation by the Commission of the finances of the municipalities heard from shows that they have a surplus aggregating practically \$250,000, and the Commission is now advising that it be invested in the bonds. All the municipalities concerned are quite small, with populations around the two-hundred mark, and this, in addition to reflecting a generally healthy financial condition among the smaller centres, shows just what can be done by the Hydro.

Crimes go Home to Roost

(London Daily Mail)
Germany enjoyed "economic freedom" before the war. She had perfect access to British markets. She excluded our goods by high tariffs, while we admitted her goods free; and she laughed at us and hated us for our generosity. We admitted her shipping free to our ports; we admitted it free to the coaling stations of the Empire; and the result was Lieut. Frobenius' book—one of the deeper causes of the war—which jealously denounced us for daring to possess these ports, Germany had a privileged position. She had economically conquered the world by espionage and trickery. In the industrial and commercial sphere she was as stupendously strong as in the military field. She threw all this away when she wantonly made war for plunder. "We willed this war," said Herr Harden in 1914, when her treachery seemed to promise magnificent results. Now Germany must suffer for it. For crimes, like chickens and curses, come home to roost.

Teachers and Traps

We would like to suggest to teachers particularly those in rural sections of the country, the wisdom of getting a steel trap, bringing it into the school room, and then with the aid of some strong young man, demonstrating the cruelty made possible by this instrument of torture. Let it be seen how, when sprung, the sharp teeth grip, for example, a piece of wood. Then endeavor to induce the boys to put themselves in imagination in the places of trapped animals. Would not this object lesson end the "sport" of trapping for most boys? Due care should be taken, in springing the trap, that no one is injured.

Women in England Smoking

That nearly all the women in England smoke cigarettes was the startling statement made by Mrs. John Firstbrook, President of the North Toronto Patriotic Society, which will come as a great surprise to the many English people in this country. "The smoking among the women in England was the worse thing I saw," she said, "and we have a great campaign ahead of us to prevent this habit from spreading to this country. I suppose there are some women who do not smoke, but as I did not go much into the home life, I cannot say."

ELECTRICITY FOR EVERY FARM**

DELCO-LIGHT helps to keep the young folks on the farm. It brings City Comforts and Conveniences and Economies to the farm home.

And it pays for itself in time and labor saved. Delco-Light furnishes an abundance of clean, safe, economical electric light for house and barn.

It furnishes electric power to pump the water, wash the clothes, milk the cows, separate the cream, churn the butter, operate the electric fan and the vacuum cleaner.

Delco-Light is a simple, economical, highly efficient electric plant that requires almost no attention and that runs on kerosene, gas, or gasoline.

To Enlist Schools in Hog Campaign

Sir William Hearst is issuing a circular appeal to all the ministers and school teachers of the rural sections of the Province inviting their assistance in the educational campaign to increase hog production in Ontario. Through the churches and the schools it is hoped to stimulate interest in the campaign to a point where the local canvassers, working amongst the farmers, will meet with a ready response when they go to the farmers suggesting an increase in the number of brood sows. County conferences will be held in every county.

The Late Mrs. Henry Ormerod

(Alvinston Free Press)

On Friday, Nov. 16th, the death of Mrs. Henry Ormerod, of this village, occurred suddenly. Death was due to heart failure. Mrs. Ormerod, accompanied by Mrs. Owen McNally and her daughter, Mrs. Arthur Morcom, was walking in the cemetery to attend the funeral of the late Mrs. Tripp, of Oil Springs, when she was overcome by weakness and shortness of breath and was obliged to stop and rest. There was nothing about her condition to cause alarm.

After waiting a few minutes it was decided to return home, passing along the road. She was kindly assisted in conveying the party up-town. It was while on the way from H. A. Gilroy's farm to the office of Dr. Axford that death took place. Nothing could be done by the time medical aid was reached.

The funeral was held on Sunday afternoon from Hope Methodist Church. A large number from the community attended the service, the church being overcrowded. Rev. W. E. Donnelly preached a very impressive funeral sermon which deeply touched the audience.

The bereaved family have a large measure of sympathy from the whole community who sorrow with them.

The deceased, whose maiden name was Mary Ann Taylor, was born in the township of Ashfield, County of Huron, on April 6, 1864, being 53 years of age at the time of her death. In her youth she moved with her family to Bropp, township, near Sutorville, and it was there in 1881 that she married Henry Ormerod, who survives her. With her husband she enjoyed a happy and useful Christian life in this district, of which she has been a resident ever since her marriage.

For the past five years the family have resided in this village and during that time she had enjoyed the friendship of a large circle of friends. She was connected with the Methodist church and her life has been one of consistent Christian living which endeared her to all.

Ten children, two boys and eight girls, survive with the husband in her immediate family. The children are:—Robert, of Kelihier, Sask.; Harry, of Alvinston; Mrs. Robert Whiting, of Bridgen; Mrs. Robert Mills, of Bengough, Sask.; Mrs. Duncan Cann, Mrs. Alex. McLachlan, Mrs. James Bowie, Mrs. Arthur Morcom, Mrs. John Bowie, and Cora, who resides at home in Alvinston.

Military Medal for Corp. Blain

(Calgary News-Telegram)

Corp. P. A. Blain, who left Calgary with the 50th battalion, has been awarded the military medal for gallant service with the Fighting Tenth battalion, of which he is a member at the present time. He left Calgary two years ago.

His brother, Lance-Corp. R. W. Blain, was also in the unit, and both have been in the trenches since August 1916. Another brother, Pte. A. A. Blain, left Calgary with the 137th battalion and left with a draft to reinforce the 50th last February. Corp. P. A. Blain picked up a German bomb which fell among a group of five men, and threw it out of the trench, saving the men's lives, as the bomb burst before it reached the ground.

Corp. Blain is an old Brooke boy being the grandson of Mr. Robert Lucas, with whom he was raised. He left here for the west about eight years ago.

The hog cholera in Port Huron has been wiped out. 47 hogs were killed.

Help Victory Loan by Paying Your Bills

There are thousands of retail merchants throughout Canada, especially in the smaller towns and villages, who would subscribe, or subscribe more, for Victory Bonds, if it were not for the amount of money they are carrying on their books and the uncertainty as to when much of it will be paid. The farmers who deal with these local merchants are not the least blameable in this respect, for they are apt to let their account run until convenient to pay them, while the merchant, knowing that payment ultimately is certain, is unwilling to press them.

If anyone during the last week of the campaign would make an effort to pay his bill to the local merchant, the latter would be glad to increase his Victory Loan subscription. Thousands of farmers have received substantial sums of money for their crops and are able to pay their accounts before December 1st just as well as afterward. If you are one of them, see that you pay up during the last week in November and thus give your merchant the opportunity he no doubt desires to subscribe for all the Victory Bonds he possibly can, and do not forget to subscribe yourself to the utmost of your power. Patriotism demands it and so does self-interest, for only by a heavy over-subscription of the Victory Bond issue can the prosperity of the farmers, the retailers and all other classes of Canada's population be assured.

THE CAUSE OF BACKACHE

Every muscle in the body needs constantly a supply of rich, red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have but little rest. When the blood is thin they lack nourishment, and the result is a sensation of pain in those muscles. Some people think pain in the back means kidney trouble, but the best medical authorities agree that backache seldom or never has anything to do with the kidneys. Organic kidney disease may have progressed to a critical point without developing a pain in the back. This being the case pain in the back should always lead the sufferer to look to the condition of his blood. It will be found in most cases that the use of Dr. Williams' Pink Pills to build up the blood will stop the sensation of pain in the ill-nourished muscles of the back. How much better is it to try Dr. Williams' Pink Pills for the blood than to give way to unreasonable alarm about your kidneys. If you suspect your kidneys any doctor can make tests in ten minutes that will set your fears at rest, or tell you the worst. But in any event to be perfectly healthy you must keep the blood in good condition, and for this purpose no other medicine can equal Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

War Service Badges

The Medical Boards sitting at the following places have been instructed to examine applicants for Class "D" War Service Badge:

London, Windsor, Stratford, Sarnia, Guelph, Harriston, Warton, Chatham, Woodstock, Goderich, St.

Thomas, Kitchener.

Those who have been rejected as medically unfit or had enlisted prior to August 10th, 1917, and had been discharged under Paragraph 392 (3) K. R. & O. for the Army, or under Paragraph 322 (3) K. R. & O. for the Canadian Militia, are entitled to Class "D" Badge, provided they are at present medically unfit. They will bring proof by a medical certificate of rejection if such has been given them, or by a statutory declaration or otherwise, that they have been rejected.

If discharged they will bring their Discharge Certificate.

Application forms may be had at the Medical Boards or on application to Assistant Adjutant-General, M. D. No. 1, (War Service Badge), London, Ontario, WALTER JAMES BROWN, Lt.-Col. a/ A. A. G., M. D. No. 1.

Must Use Christian Name

(contributed)
Through thoughtlessness many enumerators have neglected to tell married women and widows that they cannot vote unless they go on the voters' list designated by their Christian name, as say:

"Mrs. Anna Jones."
If they are enrolled as "Mrs. John Jones" they will be disqualified.

Several lists have been discovered in which as many as six out of twenty women had been wrongly enrolled and would have lost their vote at the election had the error not been caught.

High School Notes

On Monday afternoon the Rev. Mr. Irwin stirred both staff and students by a very solid and unforgettable address on "The Choice of a Calling," in which he presented the Christian Ministry from the outlook of an Anglican clergyman. In the most sympathetic and telling manner Mr. Irwin presented (1) the great need of young men to fill the places of clergyman who have already paid the uttermost in life in the supreme sacrifice on the field of honor. (2) the need of youths to prepare to take the place of students for the ministry who too have given their lives on the field of battle. (3) the importance of the minister's work as a vast factor in national life in that ministers of Christ alive to their calling blaze the way in education and national greatness. The missionary is essentially a nation builder. His closing thought was the high privilege, wealth of joy and high nobility of the minister's work following in the footsteps of the prophets and priests and of Christ as prophet, Priest and King.

The session closed with the singing of the National Anthem and benediction. The students evidenced the keenest interest.

On Tuesday of this week the school flag was flown at half mast in memory of the late Roy Acton son of Mr. James Acton, who was killed in action in a recent battle.

On Friday of this week Dr. Siddall will present the life work of a physician. Both staff and students are glad to welcome citizens who may desire to listen to the splendid addresses now given weekly at the High School, Friday afternoons at 3.30.

Keno games have been wiped out in Port Huron, together with all other gambling games.
