### Bridgetown, July, 21 '84. Bridgetown tf. MANHOOD HOW LOST, HOW RESTORED!

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent sure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediacents, or two postage stamps.

The celebrated author, in this admirable

The eelebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practise, that alarming consequences may be radically cured without the dangerous use of internal medicines or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

— A war cloud no bigger than a man's hand, is visible on the horizon of affairs between Russia and England, and France and England. Between the former powers the trouble appears to relate to the presence of a Russian armed force in camp on the Afghan frontier, about which an English commission is to meet in conference, with a Russian commission early in the ensuring year.
