SINGLE COPIES FIVE CENTS.

PRESENTATION OF MEC. SCIENCE PRIZES

Splendid Work Done by Pupils.—List of Prize Winners.—Social and Personal Notes.

Annapolis Royal.—The presentation of prizes for the Mechanic Science work during the year, took place at the Academy on Friday afternoon under the auspices of the I. O. D. E. A splendid collection of articles made by the pupils, was exhibited during the afternoon, and displayed the wonderful progress made under the skillful direction of Mr. Ivan H. Crowell. Both teacher and pupils are to be congratulated on the quality of workmanship, and the finished appearance of the articles, which were made in both wood and basketry. The prizes were presented by Mrs. R. P. Gorham as follows:—

Grade X, Robert Riley, exhibit—a large china cabinet and hand-carved tea tray with edge of basketry. Grade IX, Edith Goldsmith, exhibit—a tea tray and table lamp, Martha Saulnier, an artistic sewing cabinet. Grade VIII, Corinna Murray, exhibit—a stationery and book-rack, James Lewis, a medicine cabinet and hallstand, Theodore Rawling, prize donated by Mrs. Gorham for best progress during the year. Grade VII, Barbara Williams, exhibit—piano lamp, Edward Clarke, fern stand. Grade VI, Harold Robinson, exhibit—book-rack, (prize donated by Mrs. D. Owen.) Florence Cole, photo stand and small articles (prize donated by Miss Maud Binning.) Other articles worthy of special mention were a piano bench by Max Ritchie, book-shelf by Sydney Barreault, candle holder, Ruth Harris, tea-tray and medicine cabinet, Walter Harris, window-seat, Harold Barnum, book-rack, David Macintosh, fern stand, Elizabeth Morse, shaving cabinet, Melbourne Ritchie, table lamp, Billy Cronk, card table, Theodore Rawling and library table, Boyd Matthews.

Mrs. J. H. Runciman entertained at a large "Bridge" party on Friday afternoon in honor of the anniversary of her wedding day. The rooms were artistically decorated with tulips, narcissi and other spring flowers and an interesting feature of the refreshments was a large wedding cake, decorated with a bridal bouquet of lilies of the valley. The prizes were won by Mrs. J. Thompson and Mrs. E. McCormick.

Miss Harriet Spurr, who spent the winter in Boston, returned on Friday for the summer vacation. Miss Winifred Braine, B.A., Principal at Melvern Square, spent the week-end with her parents, Dr. and Mrs. L. B. Braine, accompanied by Mrs. Major Balcom and child.

Mr. and Mrs. Edgar McCormick have recently completed an attractive cabin at Lake LaRose, where, with Miss Glendene Buckler, they expect to spend part of the summer. The cabin is beautifully situated on a small hill overlooking the lake, and contains a living-room with fire-place, a kitchen, three bedrooms and a large verandah, nine feet in width.

Mrs. Charles Spurr is the guest of her sister, Mrs. Oliver Goldsmith. Mr. Frank W. Barreault, a former well-known citizen of Annapolis Royal, was the guest of his parents, Mr. and Mrs. Abner Barreault over the holiday.

Miss Nora Abriel of Halifax, is a guest at the home of Mr. and Mrs. Henry Harris.

Mrs. Henry Reese of Jamaica

Mr. Guy Gaudet of Parker's Cove, is visiting at the home of Mr. and Mrs. Henry Chute, spent the past week with his family.

Mrs. John Titus has returned from Halifax, after spending a week with friends and relatives there.

Mr. George Snow, who had the misfortune to lose his barn last fall by fire, is now rebuilding.

The salmon fishermen are beginning to feel quite encouraged, as they had a pretty good catch last week.

Mr. and Mrs. Fred Gerner and son, Ronald, of Bellefleur, spent Sunday 7th with Mr. and Mrs. Henry Alloway.

Mr. Mason (L.C.) is occupying the paragon for the summer months.

Mr. and Mrs. Fred Johnson of Bridgewater, were recent guests of his sister, Frank Covert.

Mrs. D. Outhouse and children have returned from Bridgewater, where they visited her brother, Mr. F. Johnson.

MONTHLY MEETING OF TOWN COUNCIL

Court House to be Painted.—Citizens Encouraged to Have Concrete Sidewalks Constructed.—Improvements to Water Supply.

The Town Council held its regular monthly session on Friday evening. The following bills were passed for payment:—

M. Durling, \$7.00
Weekly Monitor, \$5.00
Estate of Thomas Foster, Land Lease, \$15.00.

Union of Municipalities N. S. \$10.00.
Street Material \$30.24.
A. G. Walker, \$22.71.
Dunlop Tire and Rubber Co. (Fire Dept.) \$275.96.

Pay Roll, Water \$156.55; Streets \$216.95.
Mages and Charlton, \$122.52.

It was reported that the water supply was holding out well and thus the expenditure at the lake has been amply justified. The tender of A. R. Bishop for painting Court House for \$178.00 was accepted and work to be proceeded with at once.

The Mayor and Councilor Graves were appointed on Committee to attend and assist in providing entertainment during session of Union of Nova Scotia Municipalities which will be held at Annapolis.

The Town offers for the next three months free gravel to all who will put in concrete sidewalks in front of their premises. It was decided to have a telephone installed in the Town Clerk's office.

Mr. and Mrs. Cossman and little son, Mr. and Mrs. R. Wagner of Riverdale, spent Sunday at the home of Mrs. Cossman's father, Mr. E. L. Balcom.

Mr. Byron Chesley recently visited his cousin in St. John.

Mr. S. S. Ruggles and party motored from Halifax and were Sunday guests at the home of his mother, Mrs. J. C. Phinney.

Mrs. Alvin Starratt is visiting in Somerset, the guest of Mrs. Wood.

Miss Leola Banks, Miss Ruth Gates and friend from Hillsboro, spent Sunday at the home of Miss Banks's parents, Mr. and Mrs. G. N. Banks.

Mrs. Fred Harris of Bridgewater, is the guest of Mrs. A. Phinney.

Mr. B. Johnson of Windsor, spent a few days last week at the home of Mr. and Mrs. J. W. Spronle.

Mrs. MacDougall, teacher of the Primary Department gave a public examination of the pupils on Friday afternoon. A large number of parents and friends were present, in this way showing their interest in the school.

Mr. MacDougall's services have been engaged for another year and no doubt the good work noted by the public will be continued during the coming school year.

About thirty members of the Athletic Association enjoyed a picnic to Clementsport on June 3rd. A motorboat ride added greatly to the excitement of the day. In spite of the fact of being lost in the fog without a compass and of running out of gas, the enthusiasm of the picnicers was not dampened. The pilot heroically put for shore and returned in a short time with compass and gas and soon brought his party safely into port. In due time they arrived at their respective homes in a very sleepy condition. Some picnic!

Mrs. Jennie Goucher of Hampton, is visiting at the home of Mr. and Mrs. G. D. Covert.

Miss Alma Shaw has purchased one of this season's classy Overland cars from Mr. Avard Beasley.

Mr. Arthur Hall, also Miss Hilda Mitchell, have gone to Boston on a visit.

Mr. Harold Chute, who has been visiting his mother, Mrs. Emily Chute has returned to Montreal.

Miss Dorothy Cropley of Wolfville, is spending the summer vacation with her parents, Mr. and Mrs. Charlie Cropley.

Mr. Guy Gaudet of Parker's Cove, is visiting at the home of Mr. and Mrs. Henry Chute, spent the past week with his family.

Mrs. John Titus has returned from Halifax, after spending a week with friends and relatives there.

Mr. George Snow, who had the misfortune to lose his barn last fall by fire, is now rebuilding.

The salmon fishermen are beginning to feel quite encouraged, as they had a pretty good catch last week.

Mr. and Mrs. Fred Gerner and son, Ronald, of Bellefleur, spent Sunday 7th with Mr. and Mrs. Henry Alloway.

FIRST SHOOT FOR CANADIAN RIFLE LEAGUE.

The first shoot for the Canadian Rifle League took place Saturday afternoon at West Paradise Range.

The following are the individual scores.

M. Durling, \$7.00
Weekly Monitor, \$5.00.
Estate of Thomas Foster, Land
Lease, \$15.00.
Union of Municipalities N. S. \$19.00.
Street Material \$30.24.
A. G. Walker, \$22.71.
Dunlop Tire and Rubber Co. (Fire
Dept.) \$275.96.
Pay Roll, Water \$156.55; Streets
\$124.55.
Magno and Charlton, \$122.52.

It was reported that the water supply was holding out well and thus the expenditure at the lake has been amply justified. The tender of A. R. Bishop for painting Court House for \$178.00 was accepted and work to be proceeded with at once.

One of the nicest courtesies one can show your friends is to let them learn through this column of your visit whenever you go away. Let us know when you have visitors at your homes. The Monitor will consider a courtesy whenever you give us an item of this kind. Write or phone No. 12 or 102.

Mr. and Mrs. Simon P. Lockett and the latter's sister, Miss Lizzie Milbury, arrived last week from Pittsfield, N. H., and are visiting relatives and friends in Hampton, Bridgewater, and other places.

Mrs. W. A. Chipman of Wolfville, was a recent guest of Mrs. W. H. Warren.

Mrs. W. V. Jones has arrived home from St. John after a visit with her sister, Miss C. M. Hall, Superintendent of St. John County Hospital.

Mrs. E. J. Christie of North Sydney, is visiting her daughter, Mrs. LeMoine Ruggles.

Mrs. W. A. Moriarty of Pasadena, California, is spending the summer in Nova Scotia, and is now visiting in Annapolis but later will visit friends in Bridgewater and other places. She came east by the Panama Canal route.

Miss Dorothy Abbott left on Friday for Boston to resume her course at the New England Baptist Hospital.

Mr. Neil Walker has returned from a visit to Boston.

Rev. George C. Durkee and Mrs. Durkee were visitors last week at Inspector M. C. Foster's.

Maurice Mack has arrived home from Sheet Harbor, where he had been working in the pulp mill.

Mr. Whittney Parlier of Wolfville, and Miss Kathleen Wakeham of Kentville, were guests Sunday of Mr. and Mrs. J. Herbert Hicks.

Mrs. Anthony McIntosh and Miss Helen Collum of New Glasgow are visiting their sister, Miss Gladys Collum.

Miss Margaret L. Barnes is training at the General Public Hospital, St. John, N. B., is spending her vacation with her mother, Mrs. R. H. Barnes, Church St.

DIES FROM A HOOK BY COW

Sad Fate of Herman Banks, a Strong Sturdy Young Man.—Personal and Social Notes From Clarence.

On Friday morning last while Herman Banks, who was employed with L. F. Doering, was leading a cow to pasture, received a serious injury from the animal hooking him in the leg. The neighbors heard his cries for help and soon went to his assistance. Dr. Morse was sent for and the wound dressed. He was taken to his home at Arlington that day. Complications arose and he died on Sunday at five o'clock p.m. He was the son of Mr. and Mrs. Allister Banks and was well known here having been employed with several of the farmers at different times.

Mrs. Ada Halsey spent the week-end at W. L. Messinger's. She leaves on Tuesday for Boston, where she will remain the summer.

Mr. and Mrs. W. L. Messinger, Mr. and Mrs. Grant Messinger and Mrs. Halsey spent the 7th at Falkland Ridge, guests of Mr. and Mrs. E. H. Marshall.

Dr. S. N. Miller and wife spent Sunday with Mrs. Elizabeth Messinger.

Miss Marguerite Marshall has returned from Wolfville and will spend some time at her home here. We are pleased to have her with us again.

Miss Belle Marshall and party of friends from Bridgewater motored to the Valley on Sunday and spent the day at the home of Mr. and Mrs. Eldon Marshall.

On Wednesday last Kenneth Marshall was taken to the Memorial Hospital at Middleton and operated on for appendicitis. Evidently Kenneth had not been feeling his best for some time. Last reports he was doing nicely. His many friends wish him a speedy and complete recovery.

Yesterday being apple blossom Sunday a great many cars passed through our community. The orchards have certainly looked very beautiful. The prospect is good for a bountiful crop.

Improvements are still going on. The Anglican church here, which is in its new coat of paint, Harry Vroom is building a nice addition to its bungalow.

Mrs. Bertha Dunn of Bear River, spent the week with Mrs. Sarah Walsh at Miss Jones's bungalow.

Mrs. B. F. Clements arrived home from Boston on Friday.

John E. Rawling left here last week for Boston.

Hyram Berry left here on Wednesday of last week for Boston after a pleasant stay of three weeks with his family.

Miss Margaret Jones arrived on Friday from Boston. She was accompanied by Miss Costor of New York. They will spend the month of June here.

Mrs. A. N. Chartier of Wakefield, Mass., and Mr. and Mrs. V. C. Orde, of Greenwood, Mass., were guests of Mr. and Mrs. L. E. Sherman on Saturday.

Miss Emma Wilcox of Boston, was a recent guest of Mrs. Marguerite Poole.

Mrs. C. V. Henshaw entertained her daughter, Mrs. Lovett of New York, last week.

The Sea Breeze Hotel, at Deep Brook, which is well known and managed by R. V. Dunsmuir and Son, will open to Summer Tourists on Monday, June 15th. This popular Hotel which is filled to its capacity every year is receiving numerous enquiries regarding accommodation for the Summer.

The Proprietors have added two new cottages to their establishment this year, as well as painting the Hotel and making other improvements, which makes the Sea Breeze very attractive.

LOCAL FIRM GETS ROAD CONTRACT.

Messrs. the Orlando Brothers and Debona have secured the contract for the construction of road from Tupperville to Annapolis recently let by the Nova Scotia Highway Board. Mr. Orlando has gone to Jordan River to superintend the moving of the firm's machinery and construction work will be started in this county immediately.

NOTES AND NEWS OF LAWRENCETOWN

Town Looking at Its Best.—Number of Improvements Noted.—Social and Personal Notes of Interest.

Lawrencetown.—Mrs. F. Miller, Winnipeg, has been the guest of Mrs. (Dr.) Primrose.

Mrs. Lovet, Mrs. Wickwire, Miss Wickwire, Mr. E. Stevens and Mr. W. Price were guests of Mrs. W. Prince, Main Street.

Mrs. J. Moore, Mrs. C. Whitman were guests at the home of Mrs. C. Lowell.

Miss Hicks, Bridgetown, has been visiting friends in Lawrencetown.

Mrs. J. Patterson went to Yarmouth with her daughter, Miss Patterson has returned to New York.

Mrs. W. Palfrey is now at home. Mr. and Mrs. Henry Troop, Mrs. L. A. Walker, parents and sister of Mrs. E. Balcom, came from Granville, and spent the week-end.

Miss Harris, Aylesford, has been visiting Miss Jefferson.

Mrs. R. Mason and two daughters have returned to their home.

Mr. and Mrs. J. Hudsons are now in town. They spent the winter in Aylesford.

Phillips Porter had a merry party to celebrate her birthday. May pretty Phillips see many happy days.

Mrs. I. J. Parker is improving slowly from her painful accident.

Mrs. E. Simpson has returned from Florida. Through the wild driving of a young boy as they came to the railway crossing at Brickton, Mrs. Simpson and another lady were badly hurt.

Mr. and Mrs. L. Hanley had a pleasant time fishing at Alpena.

Mrs. S. Hannan, Delabouise, received the sad news that her sister, in Torbrook, had died suddenly.

Professor M. Bancroft and family on their way to Maine, spent a day at the home of Mrs. J. B. Hall.

Miss Elizabeth Morgan has been home for a week. She returns to Truro.

Our town looks very attractive, lawns smooth and green, houses and stores painted, gardens prepared, and plants growing. The orchards are so beautiful, the river clear and smiling, fish are enjoying themselves, just waiting to be caught.

Tourists camping on Feener Park. The Lawn Tennis Courts in prime order.

A wire fence has been put around the grounds, artistic posts nicely painted, graceful young ladies in pretty costumes, flitting about, gallant youths swing the rackets, all make one feel young and gay, just watching the game.

All are glad to hear the welcome whistle from Hanley's Mill. Small boys are around taking orders for kingly food. Reg. Stoddart and Burpee Balcom are already in the lumber business.

Dr. W. C. Archibald is away for his vacation in New York.

Mrs. W. Card, Ellershouse, spent a day with friends in town.

Mrs. I. Durling, accompanied her daughter to Boston.

A merry party of girls from Montreal, others from Bridgetown, were guests of Miss B. Prince.

The "Bridge" went off well, Mr. Randolph won a prize.

Mr. P. Hall, well known in the musical world, is not very well and may return to his native land.

DISTRICT ASSOCIATION OF REBEKAH LODGES MEETS HERE JUNE 15TH.

Autumn Leaf Rebekah Lodge is holding a District Association on June 15th. Delegates from the district Lodges, including Annapolis, Bear River, Digby and Prospect Lodges will be in attendance. A session will be held in the afternoon at 3.30 and in the evening Unity Lodge of Annapolis will confer the Rebekah Degree, after which a social hour with refreshments will be enjoyed. A full attendance of all members is requested.

PROVINCIAL ELECTION THURSDAY JUNE 25TH.

The local election is now one of the big issues. Nomination comes on June 18th, and Election June 25th. The various candidates are all working hard and all feeling optimistic.

Town Topics

Tid-bits on the Tip of Everybody's Tongue

Vol. 2, No. 48, BRIDGETOWN, JUNE 16TH, 1925. FREE.

A Record!

Recently a whole carload of Moirs 5c Bars went forward in a single shipment to Toronto. The size of the shipment is remarkable enough by itself but more astonishing still, it consisted solely of one kind of bar showing how popular this bar must be.

Hitherto the name of this bar could not be mentioned because production could not begin to cope with demand. But by increasing the plant capacity a further 2,000 boxes a day, it is now fairly safe to say that the name of this new winner is Moirs \$1,000 Puzzle Pattie.

Never has a bar met with such instant success, provoked such an avalanche of orders.

THE TROUT FRY.

The newspapers throughout the Province says the Toronto Star, "have been discussing the test made by the Biological Department of the Federal Government in regard to trout fry and fingerlings placed in certain Ontario waters. The streams and ponds were examined at intervals by competent men to discover how the small trout were faring, and it was found that they had nearly all disappeared without maturing. Some of our exchanges are therefore saying that the money spent annually on trout hatcheries is largely wasted, and the suggestion is that these expenditures might as well cease.

This, it seems to us, is not at all the lesson that ought to be drawn from the test made by the biologists. The work they have done should serve as an excellent purpose in teaching us how not to do that which needs doing. The experts found that some trout fry and fingerlings were placed in water too stagnant to meet the needs of the trout. Others were placed in waters where the food necessary to trout did not exist. Success could not, therefore, be met with in such cases. But for the most part the fry and fingerlings disappeared, because they were devoured by larger fish of other varieties, such as rock bass. In too many cases should attempt to stock streams and ponds with trout have but provided fishes for coarse and less desirable species of fish already living in these waters.

Now that experts have been called into consultation, they should be consulted fully and their knowledge made use of. Trout will not always flourish in the particular place where a man would desire to catch them. But they will flourish if advanced, wisely placed. The pike, the perch, all varieties of bass, are scaled and armoured fish, and with them the trout, which is a naked fish, cannot contend. The trout wants cold, clean water, and it wants it to itself. Old inhabitants in Grey, Dufferin and other counties where trout naturally abounded will tell you of such instances as this—when a trout pond was ruined by anglers bringing live minnows and, when through fishing, throwing the minnows into the water, with the result that perch were introduced and in a few years destroyed the trout altogether. The trout is the aristocrat among fish and cannot hold out against an invasion of the scaled barbarian.

The fact is, too, that the trout will itself eat fingerlings of its own species. It has been shown at the Caledon club and at various other clubs that trout fry and fingerlings can be raised with certainty if proper methods are adopted. The young should be placed in sparkling water where natural food exists and where it can be supplied, and they should, as they grow, be promoted from one enclosure to another, until they are a year old, when on being released into the main stream they can pretty well take care of themselves—if it is a trout stream and not infested with scaled cannibals.

The indiscriminate dumping of fry into streams and ponds merely because somebody would like trout to be in those places is a poor plan. The trout are worth a great deal more consideration than that.

MINERS OF PROVINCE PLAYING LAST CARD.

Affairs in Cape Breton have taken a new turn the past week, and also through Nova Scotia mining areas where a strong development of the hundred per cent. strike has taken place.

Loyalty to leaders is thoroughly characteristic of the miners, and they will back them up right or wrong. It is, perhaps, scarcely worth while at this late date to advert to the fact that big errors of judgment have been made by both company and men, otherwise affairs would never have come to the pass which we find existing today.

The men rushed into the strike without any preparation and without any real assurance of support from their union headquarters. They got this latter to a very limited extent later and for the first few weeks of the strike received considerable contributions from all over Canada. These of course, naturally dwindled away, and the general public believing that the U. M. W. would support the men had their attention taken up in various other calls, and in some cases did not sympathize with any marked extent with the claims of the mining population. This was to a considerable extent due to the fact that during the past few years most of the inhabitants of Nova Scotia have directly or indirectly been compelled to take a greater cut in income and wage earnings than even ten per cent.

To the average outsider, the attempt to put on a hundred per cent. strike looks absolutely like criminal folly, and the last gasp of a despairing and beaten cause. Solutions in numbers have been proposed to end the disastrous state of affairs in Cape Breton but all have failed. Had some been made earlier in the day a measure of success might have been attained. The continuation of picketing and interference will no doubt develop situations which will result in others years, in the calling in of the military. In general, thus far the men have conducted themselves admirably and with splendid restraint. As matters are going at time of writing there does not seem much possibility of the same procedure continuing, and this strike looks and has looked for a long time as one which will go down in history as a dead loss to the company, to the men and to the general public and one with no compensating or redeeming features.

WOMEN SECURE MORE INFLUENCE IN EDUCATIONAL MATTERS.

A very important and far reaching amendment was passed at the last session of the Legislature of Nova Scotia having to do with the rights and privileges of women in regard to the conduct of educational affairs, and this has been to enlarge their powers and throw upon them a larger measure of responsibility.

Women for some years have exercised the rights of franchise but the new amendment places them in absolute equality with men in election of Trustees in school sections and gives them an equal voice in every way in voting at school meetings and in the regulation in general of school affairs.

This is a decided step in advance

and will be heartily welcomed, especially by strong minded women with large interest in public matters. There is not the slightest doubt that women take a more direct interest than men in many phases of school life, and interest themselves in matters which the average man is prone to pass entirely over. Their influence in matters of health and sanitation is more active than that of the average man and in general they probably take a more intimate and detailed interest than men in most matters connected with school management. Recent changes in the education act give them wider opportunities which we feel will be exerted for the general good.

Press Comment

POLICEMAN'S LOT IS NOT A HAPPY ONE.

London Daily Express: The only wise policy for us to pursue in relation to every wasp's nest in Africa, in Europe, and in Asia is a policy of judicious isolation. We must give up the habit of being the policeman of the world. Let the dead of North Africa bury their dead. Our duty is to look after the living in Great Britain and their heritage across the seas.

CONSCIENCE AND CRIME.

New York Evening Post: Men cannot be made good by law alone. Something more than law must stiffen mental and moral fibre, keep the finger from the trigger and the hand from the knife or the poison bottle. We have been ignoring such fundamentals as the qualities of conscience, sound morals and moral responsibility. If crime is to be checked and controlled society must turn back and rebuild itself upon these foundations.

THE IRISH FREE STATE.

London Morning Post: "When we look back on the days when we were oppressed by England, it would look like Paradise if we could get the same kind of oppression now." Coming from Mr. John Dillon, the old irremovable, that is striking testimony indeed; and the bitterness of the witness' situation can hardly be abated by the reflection that it is a situation which he helped with his own hands to contrive.

WAR AND THE AUTO.

Louisville Courier Journal: In 1924, 19,000 human beings were killed and 450,000 were injured by the automobile in these United States. This casualty toll of 495,000 Americans levied by the automobile in the year 1924 is numerically 50 per cent greater than was the total casualty toll for the American armies and navies in the nineteen months while the United States was at war with Germany.

THE STRUGGLE FOR LIFE.

Louisville Courier Journal: An ornithologist recently, in no spirit of levity, made a statement that human life would disappear after five years if the untold myriads of insects were not kept down by their enemies the birds. Great businesses thrive on fighting insects, and no year passes unless some new problem is brought to light. Bugs attack not only the animate, but the inanimate necessities of life and cause losses to forest, field and home.

FINANCIAL HONOR.

Providence Journal: The fact that Great Britain never tried to argue her war loans has helped her immeasurably. The act of refunding her debt to this country enhanced her time-honored reputation for the strictest probity in all financial affairs. Neither the British Government nor the English bankers have ever lost sight of the fact that world confidence is a nation's financial integrity is the greatest asset it can possess. The gradual rise of sterling toward parity during the last few years has been coincident with an ever-deepening faith in the financial honor of the British Empire.

COUNCIL SANCTIONS SEGREGATION SCHEME.

Middleton—At the monthly meeting of the town council Tuesday evening, it was decided to replace the old flume at the electrical station with a new wood stave flume.

Rev. Canon Underwood, of Bridgetown, appeared before the Council to ask for a grant of \$150 for child welfare work. The Council was unable to grant his request at the present sitting, but have it under consideration.

Rev. Mr. Hayden, of Bridgetown, appeared before the Council to ask its sanction to a proposal for the segregation of inmates of County Homes. The proposition is to take the Homes of Annapolis, Kings and West Hants and arrange them, one as a home for respectable poor—one for feeble minded, and a third for children. Sanction was given.

The Council also voted a certain sum for the installation of electrical apparatus at the Armouries, so that the "Fish Demonstrations" of Mrs. Evelyn Spencer who is being brought here by the Women's Institute of the town, may be given.

ABLE TO DO HOUSEWORK NOW

Sick a Year. Got Great Benefit from Lydia E. Pinkham's Vegetable Compound

Bloomington, N. S.—"I took Lydia E. Pinkham's Vegetable Compound for pains and backache, also for nervousness, sick headaches and sleeplessness. I was troubled in this way for over a year, and a friend told me about the Vegetable Compound and induced me to take it. I must say I have received great benefit from it and am able to do my housework now. I recommend the Vegetable Compound myself and am willing for you to use this letter as a testimonial."—Mrs. WILLIAM MORSE, Bloomington, Annapolis County, N. S.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes." This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

Mrs. Morse is simply another case of a woman receiving great benefit.

Women suffering from the troubles so common to their sex should listen to what other women say who have experienced the same sufferings and found relief. Give this dependable medicine a chance—and at once. It is sold at all drug stores.

SWEEPING HELP.

If brooms are soaked in strong, hot salt and water before using, the splints will not break in sweeping. While sweeping, keep a pail of warm water near, frequently dip the broom in it and shake off the water, changing it as it becomes soiled. The wet broom wears the carpet less than a dry one, and the dampness keeps the dust from flying.

An excellent way to brush down dusty walls is to take a roll of cotton batting and fasten a thick pad of it on the end of a stick.

With this go over all the wall surface, burning the cotton as it becomes soiled, and renewing the pad.

FAIRLY SUCCESSFUL LOBSTER SEASON.

Digby.—The lobster season, which has closed in some parts of Digby county, has been a fairly successful one, and some of the fishermen have reaped a harvest. The same cannot be said of the cod and haddock fishery, and those engaged in that industry have found results disappointing. Reports from along Digby Neck, Caledon, and Granville are all the same. The fishermen are under a heavy expense and are hoping for a better run of cod and haddock.

HERE'S A GOOD FOX STORY.

A contributor to The Youth's Companion who knows well the fox hunting country of Virginia, especially in the neighborhood of Gravel Hill passes on to us a story that he has often heard his grandfather tell. We have heard many extraordinary stories of vulpine cleverness, but we must admit that this beats them all.

My grandfather used to tell of a fox that gave the hunters much trouble. They never had any difficulty in getting up a chase. When the dogs "jumped" the fox and he had given them a good run he invariably gave for a hollow tree which lay on the ground. The tree had an opening at both ends. By inserting a pole in one end the hunters could easily drive him out at the other. The dogs of course would give chase, but after giving them another good run the fox would come back to the hollow log, and the same manoeuvre would be repeated. After two or at most three, such runs, the dogs were completely tired out.

The next time the hunters visited that region they found that some farm hands had split the log open, for they had suspected a trick. Sure enough when the log was opened they found several foxes inside. It appears that the first fox chased entered at one end of the log and lay quiet, and the fox that issued at the other was fresh. Running thus by relays, they would have broken down all the dogs in the country.

First Aid.

In case of sprains, bruises and inflammation apply Minard's Liniment. It prevents complications, soothes and heals.

MINARD'S LINIMENT
"KING OF PAIN"

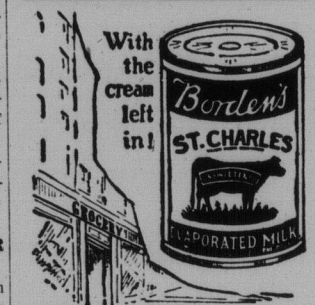

NEW BUSINESS BLOCK.

Morrison Building at Middleton will be One of Finest in Valley When Completed.

Middleton.—Work has been completed on the foundation of the new business block being erected by A. J. Morrison, and the contractors are now on the job. Messrs. J. H. Hicks and Sons of Bridgetown have the contract, and have engaged Albert Marshall, of Port Lorne, as foreman. About fifteen men are being employed at present, and the building will be rushed to completion as early as possible. The structure is to be 85 feet by 50 feet, two storeys high, built of concrete blocks. On the first floor accommodations will be had for three stores and barber shop. Each of these will be built with separating walls of concrete from the foundation up, to render the building as near fireproof as possible. The second floor will later be finished for offices or other business quarters to meet local demands. The building when completed will be one of the finest business blocks in the Valley, and a credit to the town. Mr. Morrison is to be congratulated on his enterprise in erecting such a structure.

TOWNSPEOPLE START WORK ON PARK GROUNDS.

MIDDLETON.—A number of the townsmen met at the new park grounds yesterday afternoon and commenced work. The centre mound will be planted with burbs and annuals. Walks were ploughed out, and radiate from the mound. All preliminary work will be done this year, preparatory to beautifying next season.

STATUTORY HOLIDAYS.

In reply to a correspondent, the Revised Statutes, 1923, states: "The expression, holidays, includes Sundays, New Year's Day, Good Friday, Dominion Day, Christmas Day, the birth or the day appointed for the celebration of the birth of the reigning Sovereign, Victoria Day, Labor Day and any day appointed by proclamation of the Governor-General or the Lieutenant-Governor as a general holiday, or for general fast or Thanksgiving, and whenever New Year's Day, and Christmas Day fall on Sundays, the expression "holidays," includes the day following."—Record.

PRACTICAL AID.

(Links And Pins.)

The Dominion Atlantic Railway management is giving practical aid to the starting of small industries along their line. A vegetable canning plant is being put in at Waterville Station, and at an organization meeting one gentleman present, a farmer, pledged ten acres in beans to help support the plant in that respect. A fruit canning plant is also being put in at Digby, a plant for the canning of many kinds of small fruits, and a similar plant is being put in at another point on the line.

Regarding the large tract of land the company took up near Digby for homesteading, one English farmer and his family are now placed, and they are much pleased with the outlook.

IT PAYS TO ADVERTISE.

London Daily Express: The idea that any concern can afford not to advertise is essentially wrong, and has been discovered by experience. There is not a business in this country, except that of a governor of a prison, that could not be doubled in volume by skilful advertisement. Even cemeteries have been known to advertise and prosper by it. The trend of the modern age in commercial affairs might be summed up in the dictum: "If your business is not worth advertising, advertise it for sale."

WHY MANNEQUINS ARE SAID TO MARRY.
Every Bachelor Can Find His Ideal.

London.—What is the ideal occupation for women from the point of view of matrimony? That is to say, which profession gives a girl most chances of getting married?

According to some authorities it is that of mannequin. Dress designers say that there are at least thirty distinctly different types of women in the world, and that among the girls who parade in the average mannequin show every bachelor will find his ideal.

Different frocks are worn by different types. For instance, there is the "healthy English" girl, who has a fresh, out-of-doors complexion and is the best model for tweeds and other sporting costumes. In contrast to this type there is the "exotic." This is the ideal type for displaying the full beauty of an evening dress. She has dark, mysterious eyes and a languid walk.

The "Parisienne" is chic and sparkling, while the "ethereal" has about her an air of aloofness that many find fascinating. Other outstanding types are the "Intelligent" and "demure," the "simple" and the "romantic." Employers of cloak and gown models state that one of the greatest difficulties confronting them in their business is the rapidity with which the girls leave them to go to the altar.

Where Ardent Anglers

VAL MOON BEGGING TROUT
112 FEET LONG

ON LAURENTIAN LAKE, IN QUEBEC

An army of anglers is preparing for the annual fishing expeditions to the province of Quebec, where innumerable rivers, streams, lakes and brooks, as well as lakes of every size and shape, are the habitat of many gamy fish. Once a Quebec fisherman, always a Quebec fisherman. The opening day for the pursuit of this sport is May 1st, and a week earlier sportsmen started their northward trek to be the first one to land a trophy. Brook trout are particularly desired and the fisherman who hooks a large one of this fighting species, is indeed a proud person. There are numerous waters that yield brook trout generously, especially along the 160 miles of the Mont Laurier branch of the Canadian Pacific Railway that runs northwest of Montreal into the Laurentian Mountains. Trout can be taken from the pools of streams on either side of the railway all the way from St. Jerome to Mont Laurier, at the end of steel, and if one is an adventurous sportsman, he will delve into the wild woods and waters beyond, for the natives are enthusiastic as to Lake Dumouchel, 3 species of miles to the north, famous for its two-m-

LITTLE DENMARK IS REAL LAND OF MILK AND HONEY.

Many Things That Country Can Teach Britain, Says English Writer. Infected Milk Danger, Highest Average Education in Europe Regard Farming as a Science.

Shaw Desmond writes the following trenchant article in a recent issue of the London Pictorial:

"Thousands of English children die every year from diseases contracted through infected milk. It is said that one cow in every three in England's milk cows is tuberculous. England's lack of milk control is more than a national scandal. It is a national murder."

In Denmark, where I write this, as in America, Germany and Holland, England's milk reputation is a byword amongst those who have visited her.

Let us see how Denmark gets its milk minus microbes.

In the first place, what are perhaps the people with the highest average education in Europe regard farming as a science. Nothing is left to chance. "System is the price of success!" said the former head of the Co-operative Bank of Denmark to me. But "system" means team work. Danish farmers and farm workers pull together. They work and they don't howl for spoon-fed subsidies. "We are not fools," said a Danish farmer with English experience who farms about ninety acres. "There is no 'ca' canny here."

Then there is that almost incredible cleanliness.

Last week I visited cow stalls which are cleaned out twice each day, and I have just walked out of a creamery in which clean water runs over the floors all day. I can imagine the English farmer protesting that the cost must be prohibitive.

System costs. I have been on a dairy farm in South Jutland of about 130 acres run by three men, whose united wages total £115 a year plus food. At the Ladelund Agricultural School Farm, run on strictly business lines, three men took after 38 cows, 150 pigs and 23 calves, and do the milking as well!

Electric power and machines do the rest.

Incidentally, it is maddening to see the number of American and German machines in use. Where is the English manufacturer in this?

No farmer in Denmark, no dairyman, and no butter-seller can be dirty, and, as the Americans say, "get away with it." Each farmer in Denmark has his number in his local "Co-op," which also has its own number.

Every dirken packed with butter has a ticket with its own number. For that matter, every pound of butter

Order through the Monitor.

Where Ardent Anglers Seek Quebec's Fishing

ON A LAURENTIAN LAKE IN QUEBEC

A

army of anglers is preparing

for the annual fishing expedi-

tions to the province of Quebec,

where innumerable rivers, stream-

lets and brooks, as well as lakes

of every size and shape, are the

habitat of many game fish. Once

a Quebec fisherman, always a

Quebec fisherman. The opening

for the pursuit of this sport

is May 1st, and a week earlier the

sportsmen started their northward

trek to be the first one to land a

trophy.

Brook trout are particularly de-

sired and the fisherman who

books a large one of this fighting

species, is indeed a proud person.

There are numerous waters that

yield brook trout generously, es-

pecially along the 160 miles of the

Mont Laurier branch of the Cana-

dian Pacific Railway that runs

northwest of Montreal into the

Laurentian Mountains.

Trout can be taken from the

poor of streams on either side of

the railway all the way from St.

Jerome to Mont Laurier at the

end of steel, and if one is an ad-

venturous sportsman, he will delve

into the wild woods and waters be-

yond, for the natives are enthu-

siastic as to Lake Dumouchel, 3

miles to the north, famous for its

big 14-lb. grey trout from a

Laurentian lake

clear station to Mont Tremblant,

the highest peak in the Laurenti-

ans, and the lake of the same

name, which is 10 miles long and

noted for its big fish. Gray, or

lake trout, up to 20 lbs. are com-

mon.

Several fishermen's hotels pro-

vide accommodations for visitors,

and Grey Rocks Inn maintains a

comfortable lodge for about 15

guests here. Lake Cochrane, a 15

mile walk from the shore of

Lac Mercier, opposite the station,

is noted for its fine mixed fish-

ing. Labels, at the 100 mile station,

is the centre of a maze of streams

and lakes that afford exceptional

ly good trout fishing, while 23

miles further on, is Nominique,

with its big and little lakes of the

same name. Monster pike weigh-

ing up to 50 lbs. are caught here.

At varying distances from these

lakes are located six fishing clubs.

Every step along the line pro-

vides accommodations at reason-

able rates for visiting fishermen.

each farmer's milk into tiny test

tubes, each test-tube being placed in

a holey tray under the particular far-

mer's number, whence it is taken into

the creamery laboratory.

Cleanliness First and Always.

Then heaven help the farmer if the

microbe percentage of his milk is not

well down and his "fatty content" well

up.

No man in Denmark can fall back

upon the hearky: "Oh, but it was the

other fellow's fault." The Dane is

stark individualist—but a co-opera-

tive individualist.

No worker is allowed within these

sacred precincts until he has donned

a pair of sterilized wooden shoes. The

men who milk the cows have their

hands disinfected before they are al-

lowed to begin their work.

Here is a chart before me as I

write—one of a thousand others, on

which each farmer keeps his own du-

plicate in his scrupulously kept home

register. On its stands the total

weight of milk delivered, the cream

percentage, the price per "cream-

unit," total value, and the price of

the butter made from the cream.

Everything is calculated to places of

decimals.

Along the edges of this chart runs

the legend: "Cool your milk thor-

oughly and quickly. Use lime to clean

utensils and then scald with boiling

hot water. Clean Stalls; Clean Cows;

clean and rut-free pails. First class

butter only comes from faultless

milk."

There is the Danish secret.

"But why do you tell me all this

for English readers?" I asked a

creamery manager. "You are giving

away the secrets of a lifetime of ex-

perience, are you not?"

He replied: "We like England, and

if it will save English babies we

Danes are glad to do it. And, any-

how," he added with characteristic

shrewdness in his broad Jutland Dan-

ish, "by the time England is where

we are today we shall be two or three

years ahead. We always plan years

ahead."

But why should not the English

farmers plan ahead? This man showed

me charts in his laboratory which

stated exactly how many bacilli there

should be in really pure milk, start-

ing with a basis of 1480 and run-

ning up to 6,750,000. The former re-

presents good Danish milk. The lat-

ter bad English!

I thought of the milkman I had

seen a few days ago in a London

street wife a milk can on his filthy

apron before filling it with milk.

These conditions, which, as a Danish

scientist told me the day before yes-

terday, are a splendid germ incu-

I was told, "the best butter-maker in

Denmark." In his library I found Ibs-

sen's plays as well as Dickens and

Shaw! And he had read them, too.

It is high intelligence plus "team

work" that does it.

It has driven Danish exports of

butter and milk to Kr. 500,000,000, or

about twenty millions sterling, per an-

num.

It has given her first place in

agriculture—the tiny country with

comparatively poor soil, of a total

population of three millions.

"Germany now takes a third of our

total butter export," said the man,

who is the recognized authority up-

on Danish co-operation, to me. "What

will she take tomorrow? Germany

is coming up since the war hand over

fist, and is herself developing her

own agriculture on Danish lines. But

why should not England do the same?

Why leave it all to the Germans?

Why pour out millions in soul-de-

stroying debt when these millions

could be used to build up English

creameries upon Danish lines?

"Germany can find work on the

land for every Dane who has hands

and brain—why should not England

find it?"

WHERE CANADA LEADS.

Canada leads the world in wheat

exports.

Canada has greatest railway mile-

age per capita.

Canada's Quebec bridge span is

longest of its type.

Canada has the largest forest re-

sources in the Empire.

Canada has the largest grain mills

in British Empire.

Canada has world's richest nickel

and asbestos mines.

Canada has the most extensive sea

fisheries in the world.

Canada possesses the world's large-

st pulpwood resources.

Montreal has the world's largest

grain conveying system.

Montreal is the world's largest in-

land port.

Highest hydraulic lift-lock of its

type at Peterboro.

Canada has one of the highest

tides in the world—59½ feet—in

Nova Bay, Bay of Fundy.

C. P. R. irrigation dam at Bessa-

no, Alta., is the largest individual

project of its kind on the continent.

Canada has the largest buffalo

herd (over 8,000) and the largest

elk herd (6,000-8,000) in the world.

Canada has the largest combina-

tion elevator in the world at Port

Arthur; capacity, nearly 10,000,000

bushels.

The Chippawa-Queensland Tower

Canal is world's largest engineering

work since the Panama Canal con-

struction.

Canada has one of the latest gold

mines in the world—the Hollinger,

producing at rate of \$12,930,300 a

year.

Toronto's Industrial Exhibition is

largest in world, based on annual

attendance of a million and a half

and area.

Ontario's Hydro-Electric transmis-

sion lines form one of the largest

public ownership schemes in the

world.

Canada has largest railway yards

in world operated by one concern—

C. P. R. at Winnipeg (258 miles of

track).

Canada has longest and greatest

publicly-owned railway system in the

world, Canadian National, 22,000

miles.

The Twin Cities of Port Arthur and

Port William lead the world in grain

storage.

Canada has the biggest dam in the

St. Maurice River, with a capacity

Mr. and Mrs. Henry P. Troop recently spent Sunday with their daughter, Mrs. Balcom in Lawrence town.

Capt. and Mrs. R. R. Longmire returned from St. John last week.

A number of engineers who are surveying the H. & S. W. Railway are domiciled at the home of Mr. and Mrs. LeBaron Troop.

FIRST CLASS ROAD FOR GRANVILLE.

Work is starting this week on the construction of six or more miles of road on the north side of the river from Bridgetown through Belleisle. This work will be done by the Highway Board. Another year will see this splendid part of the county provided with a first class road of easy grades and with delightful scenery along its course.

CLEMENTSPORT

—THE QUEEN OF THE BASIN—

The village has a busy appearance at almost any time, now, quantities of pulp wood, cord wood, piling and stave wood are coming in daily. Shipping has been active. Schooner "Quetay," Captain Neves, cleared on Thursday, June 4th, with pulp wood for the Lincoln Pulp Co., Bangor, Maine.

Schooner "Eskimo" Capt. Burill, cleared on 3rd inst. with cord wood for Lynn, Mass.

Schooner "Cassie Belle" Capt. Cheney, cleared on Saturday 6th with wier brush for Grand Manan.

Gas Sloop, "Eunice Darling," Capt. Pearl Morse has made two trips to Grand Manan with wier brush, clearing the last time on Monday 7th inst.

Sunday the beautiful weather and abundant bloom of the orchards attracted a large number of sightseers. A steady stream of automobiles continued from early morning till long after midnight.

Mrs. Dr. Gould of Norwood, Mass., has taken house belong to Mrs. Dittmars for the summer. Her son, Mr. Joseph Gould, of New York, will be here in about two weeks and join his mother for the summer.

Seaman Alman Cheney, who was taken off the schooner "Cassie Belle" sick with pneumonia is being cared for at Mrs. Tupper's, Miss Morton, a trained nurse, is in charge.

Capt. Robt. Rawlings' house looks well in its new coat of paint, and adds to the neat and well kept ap-

pearance of the Main Street.

Capt. Wm. Willett went to Weymouth last week and brought back with him Ermie and Greta Journey who are spending a holiday with their grandmother, Mrs. Muscels.

Mrs. Ralph Tiedford of Alston, Mass. and Mrs. Chas. Murray of Springhill, are guests of Miss Hattie Jones.

Mr. Owen Covert and party of Bridgetown, spent the week-end at their bungalow.

We are sorry to have to report a large number of spruce trees, badly infected with the bud worm and aphids. If those desiring to preserve our forests would concentrate the energy and money they are expending on the embargo issue, on the prevention of fire and disease, and on reforestation, they will later have something to place an embargo on.

Mr. Fred Morse, who has been in Boston all winter returned home on Tuesday 2nd inst. He has a new Ford car for his taxi business this summer.

Mrs. Wallace Berry, who has been in Annapolis Royal since Easter, with her daughter, Mrs. Wm. Cummings, came home on Sunday. We are glad to report her better.

Roy Roop left on the "Eskimo" for his first trip on the "briny".

Rev. R. M. Reigh went to Halifax on Saturday. He is Grand Chaplain to the Grand Lodge of A. F. & A. M. of Nova Scotia and will preach the sermon at the meeting of Grand Lodge.

BACK YARDS.

Our house front may be shining with varnish and with paint.

Our windows all may glisten with the sun.

We may sweep and dust and clean till ready 'most to faint.

And hang up brand new curtains one by one;

But if our back yards' clustered with rubbish and with dirt,

Soiled milk bottles and old tomato cans,

Our neighbors, when they look from their windows, may be hurt

By a view of broken glass and rusty pans.

A beautiful green lawn is a charming sight to see,

With robin redbreast tripping here and there,

But if the weeds are carried back and thrown down carelessly

In great untidy heaps, our neighbors stare

And make unkind remarks about the nice effect and grunt

At the way things in our back yard appear;

They care little how we beautify our property in front,

If it's full of piles of rubbish in the rear.

"Always put your best foot foremost," grandmother used to say,

And maybe to a great extent that's true;

But we ought to move the other foot as fast along the way,

With no worn spots or run down heels to view.

"Love your neighbor as yourself" is a better rule today,

For you'd like him to assist you in your plans;

But your neighbor will not love you, and will look the other way,

If your back yards' full of dirt and old tin cans.

—Ray H. Cross, in the Philadelphia Bulletin.

OBITUARY.

James Murray.

Mr. James Murray passed away at 3 o'clock Saturday afternoon at the home of Arthur Crowe, where he had lived for nearly three years. Mr. Murray was a native of Newcastle, New Brunswick, where he is survived by a sister and brother. He also lived a number of years in Toronto where he is survived by a widow, one son Norman, and four daughters, one a Sister in the Convent, one son Louis in Ohio, and one, James, with the Quaker Oats Co., Chicago. His daughter, Mrs. McIntee of Toronto, arrived Wednesday noon and was with him at the end.

The funeral took place on Wednesday afternoon with services at the Catholic church, Father Smeers of Annapolis officiating and Interment took place in the Catholic cemetery.

Edwin has been spending a few days with friends at Bear River.

Mr. Clayton Hewey, has returned from St. John.

Mr. Walter Hewey has returned from Digby where he has been spending a few weeks.

The men are again repairing the roads under the supervision of Mr. George Berry.

The ORANGE PEKOE is extra good. Try it!

I HEARD ON MY RADIO.

At what I presume was a Peace Society Meeting in Boston, a speech of the ranking Senator of the U. S. Congress, Borah, a forceful presentation of his views on this subject. I do not believe any Senator in Congress can ever go to sleep when he, Borah speaks.

Although wireless interruption was at times disturbing, I gathered from his remarks the following:—

"He is a strong opponent of the League of Nations, and the Court created by its diplomacy. We have had this diplomacy for years since the war started. It is a see saw game where one party wants all and gives little in return. Where a laboriously assembled agreement today is knocked in the head tomorrow. That is why today there has been no real progress for Peace. He advocates free and interrupted commerce between Nations as the only solution for Peace, even going so far as to recognize Russia, saying Bolshevism is a disease not a Nation. He uses the argument that Washington at the opening of his first Cabinet wrote a letter to recognize France, although the same was in Communism, the most savage and bloody of all times. I must say, I was shocked to hear such views expressed from the head of the U. S. Senate.

Washington in my opinion, had no other choice to make. He was only thinking of the great services done to the young U. S. nation by France and their late King, when Lafayette, Russia must find her own solution first. It is only the greedy corporations who see profit from Russia's vast hidden resources. We every day citizens do not want to acquire the expensive taste for caviar. As a fact what has come so far from Russia in the way of immigrants has made

us bar our doors against them. I think President Coolidge has shown us that the U. S. Policy is in safe hands.

DEADLY DRINK IN JAIL.

Housebreaker Died After Taking Shoe Polish.

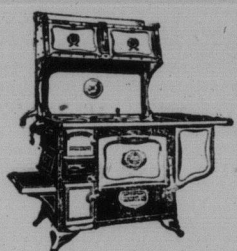

Guelph, Ont.—James Alward, of Hagersville, 52 years old, a prisoner at the Ontario reformatory here, sentenced from Hamilton for house-breaking and theft just a week ago, died at the institution last evening. He had been working in the laundry and was seen to be staggering at his work. He was rushed to the doctor's office in the place, where he stated he had taken a drink of liquid shoe polish and sugar, which, he stated, other prisoners had told him was a real drink with a good kick. The stomach pump was applied, but he died in a short time.

GUILTY OF THEFT.

Two Men And One Woman Given Two Years Each In Dorchester.

Port Hood.—Under the Speedy Trials Act, Ross Wheatley and Mary Jane Wheatley, living of late at Middle River, Victoria County, and John P. Timmons, were tried and sent to Dorchester Penitentiary, after pleading guilty to the first charge of stealing and killing a heifer, and being found guilty on a second charge of breaking and entering a store and stealing therefrom goods to the value of \$200. They were given two years each. Theodore Timmons, who was involved in the second charge, was given his freedom.

ENTERPRISE MONARCH STEEL RANGE

Enterprise Ranges are guaranteed both by us and by the makers—the Enterprise Foundry Co. Limited, of Sackville, N.B.—one of the largest foundries in Canada.

\$10 DOWN Balance in convenient monthly payments

See how easy we make it for you to own an Enterprise Monarch Steel Range. This famous range is yours for a down payment of only \$10. You can settle the balance in convenient monthly payments. Call and let us show you the different styles of Enterprise Ranges and give you particulars of our new easy payment plan.

MAGEE & CHARLTON
Bridgetown.

For Lasting Service

Two things account for the popularity of Barrett Sheathings: their uniformly high quality, and their low cost per year of service.

Barrett Tarred Sheathings are unexcelled for siding, for lining under roofs and floors—for all purposes demanding a rugged, wind-proof sheathing that is proof against rot, mildew and vermin.

Barrett Dry Sheathings are equally satisfactory for use wherever a tarred sheathing is not required.

Barrett
SHEATHINGS

We recommend Barrett Sheathings. We know that they're 100% right—always give satisfactory service. There is a Barrett Sheathing and a Barrett Roofing to meet every building requirement. Come in and talk it over.

SAYS UPLIFTERS ARE AMERICA'S CURSE.

Prefers The "Old Fashioned" Religion

Episcopal Bishop Arraigns Extreme Modernists And Others.

Syracuse, N. Y.—"I am a modernist but not an extreme modernist. I am a fundamentalist, but, I hope, a sane one. My position in the church prevents me from saying what I'd like about William Jennings Bryan, and God save us from any more constitutional amendments."

Thus did Right Rev. Dr. Charles Fiske, Episcopal Bishop of Central New York, sum up an address here Thursday night in which he arraigned extreme modernists, fundamentalists, evolutionists and prohibitionists and outlined the position of his church on those questions.

"The curse of America today," Bishop Fiske declared, "is that we think we can make people good by legislation. There are too many professional uplifters who think they can crystallize morals by putting laws on the statute books."

"I like the old fashioned religion of men who worship and serve God in their own way and don't attempt to correct others by legislation. A couple of hundred such men will do more good for the community than all the professional uplifters in the country."

TO SAVE BAD TEETH BY APPLYING IODINE.

Fluid Is Driven Through The Molar, Which Is Then Sealed.

Toronto.—The use of a new solution of iodine, electrically applied, by which treatment for the need for the extraction of abscessed teeth was abolished, formed the subject of an interesting address by Dr. Harry B. Johnston, of Atlanta, Georgia, at the opening meeting of the city-eighth annual convention of the Ontario Dental Association. The sterilization of infection and the tooth's consequent transformation from a detriment to the patient's health to a useful member of his body was declared an easy possibility by Dr. Johnston, who is professor of operative dentistry in the Atlanta Southern Dental College.

He described the new method as practically painless, taking in itself only 30 minutes, and merely consisting of driving electrified iodine through the infected tooth and surrounding tissues to effectively destroy all pathogenic bacteria. The progress of other bacteria was then stopped by a proper filling of the root canal. Cures had been effected in 95 per cent of the cases so far treated.

DESTRUCTIVE FIRE AT DUNBY

Dunby.—Fire which broke out Thursday morning in the large building of the Funeral Service Registered, of which S. A. Keen is manager, destroyed that building with its contents, entailing a loss of about \$15,000, which is partially covered by insurance.

The building was originally built for a shoe factory by George A. Hawkesworth, but has been occupied as undertaking parlors and a furniture ware room for years, and has been added to from time to time.

It was a three-story building of heavy timber full of partitions and supplies. A portion was occupied well stocked with furniture, caskets for storage and a quantity of furniture belonging to Simon Sullis, Capt. Harry Cousins and Miss Viets was also destroyed.

The fire was a very stubborn one. The alarm came in shortly before 3 o'clock and it was not until nine o'clock that the firemen left it. The remains will be torn down and a new up-to-date building will be erected. There is no clue as to the origin of the fire.

THE ONE SURE WAY TO GOOD HEALTH

Is Keeping The Blood Pure by Using Dr. Williams' Pink Pills.

Impure, weak blood is the cause of most of the troubles that afflict people. This is the cause of the wretched feeling of languor and faintness, pains in the back and side, headaches and breathlessness, that afflict women and make her daily life a torture. To get new health and strength the blood must be enriched. What Dr. Williams' Pink Pills do in cases of this kind is told by Mrs. Augusta Emery, Woodford Station, Alta., who says:—"Living on the prairie, and knowing that there are thousands of women like myself miles away from a doctor, I want to tell them what Dr. Williams' Pink Pills have done for me. After my first baby was born I seemed to have little energy. I felt weary and run-down and unable to do even the ordinary household duties. I felt I needed a tonic and as I had long seen Dr. Williams' Pink Pills advertised I decided to try them. I got a supply and carefully followed the directions and before very long the result was wonderful. Day by day I regained my former strength and energy. The pills seemed to give me a keen appetite and I gained in weight and soon was able not only to do my work about the house but to help with many chores on the farm. For this reason I would advise women, particularly those on the prairie or the farm, to keep a supply of these pills always on hand. One trial will convince you of their worth. I have recommended them to many of my friends and never have they failed to produce good results."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MAGIC BAKING POWDER

LIBERALS SWEEP SASKATCHEWAN.

Three Conservatives Out of 61 Members Elected.

Regina.—Fifty-one government candidates were returned in the provincial election.

The standing of parties is:

Liberals 51

Conservatives 3

Progressives 5

Independent 2

Defeated 2

Total 62

In the last House there were 14 Progressives and one Conservative.

Two deferred elections are expected to add two more government members. This result would give a net gain of four seats to the Liberal regime headed by Premier C. A. Dunning.

OLD POEM ON WEATHER PROGNOSTICATIONS.

An Ottawa correspondent sends the Montreal Gazette a curious old poem on "Weather Prognostication," which, while it was obviously written originally for the Old Country, still contains some hints which may be useful on this side:

The hollow winds begin to blow,
The clouds look black, the grass is low.
The soot falls down, the spaniels sleep,
And spiders from their cobwebs creep.

Last night the sun went pale to bed,
The moon in halos hid her head.
The bedding shepherd heaves a sigh,
For, see a rainbow spans the sky.

The walls are damp, the ditches smell,
Closed is the pink-eyed pimpernel.
Hard, how the chairs and tables crack;
Old Betty's joints are on the rack.

Her corns with shooting pains torment her,
And to her bed untimely sent her,
Loud quack the ducks, the peacocks cry,
The distant hills are looking nigh.

How restless are the snorting swine,
The busy flies disturb the kine.
Low o'er the grass the swallow swings,
The cricket, too, how sharp he sings.

Puss on the hearth, with velvet paws,
Sits wiping o'er her whiskered jaws;
The smoke from chimneys right ascends,
Then, spreading back to earth, it bends;

The wind unsteady veers around,
Or setting in the south is found.
Through the clear streams the fishes rise
And nimbly catch the incautious flies;

The glow-worms—numerous clear and bright—
Illumed the dewy dell last night;
At dusk the squallid toad was seen
Hopping and crawling o'er the green.

The whirling dust the wind obeys,
And in the rapid eddy plays;
The frog has changed his yellow vest,
And in a russet coat is dressed.

The sky is green, the air is still,
The merry blackbird's voice is shrill;
The dog, so altered in his taste,
Quits mutton bones, on grass to feast;

And see you rooks, how odd their flight,
They imitate the gliding kite,
And seem precipitate to fall,
As if they felt the piercing ball.

The tender colts on back do lie,
Nor heed the traveller passing by,
In fiery red the sun doth rise,
Then wades through clouds to mount the skies;

"Twill surely rain—I see with sorrow
Our jaunt must be put off tomorrow

BE A TRUE PAL.

Smile when your chum has a touch of the "blues."
And tell him you understand.
Don't turn him down as cross and dull,
But lend him a helping hand.

Smile when you're asked to do a good turn
And don't try to make excuse.
There's nought in life if you are mean
And selfish, so what's the use?

Smile, and try hard to be a good pal.
Just comfort and cheer and guide
Some other soul worse off than you—
That someone close to your side.

—G. M. Barden.

FIVE-MASTERS NOT WANTED.

There seems to be quite a good demand for three and four-masted schooners in various trades, particularly for lumber, laths, and gypsum from the Maritime Provinces, but for the five-masteders there are few characters offering, and it is doubtful if the keel for another vessel of that type will ever again be laid. This condition in the charter market also applies to the coastwise trade of the United States on both the Atlantic and Pacific.

On The Move

Like the "standing army" that "just stood," goods that remain on the shelf are expensive luxuries to any merchant.

ADVERTISING is the force that moves slow sellers from counter to customer. Every advertisement is a salesman of proven ability, reaching every class, creed and sex in the community.

The set-up of an Advertisement is as important as the dress of a salesman. In "THE WEEKLY MONITOR" special attention is given to Advertising set-up. In our columns

"An Advertisement Is An Invitation"

Many aids have been sought for the relief of monotony. Here we are concerned only with music. Now that the importance of emotion in the life of every individual is at last admitted, the logical next step is to provide a healthy outlet for it. Many believe that in music we find one of the best channels of healthy self-expression and emotional development.

In olden times the craftsman and the agricultural laborer sang as they worked; even today, in the countryside, one often sees the laborer moving to the rhythm of the music he whistles and sings. In Northern Scotland the fisher lasses often spend the livelong night cleaning a freshly-caught haul, and most of the time they sing their melodious native songs as they deftly pursue their occupation. In the East, where the simple life remains untainted by any commercial spirit, work is accompanied by rhythmic chant or song.

This love of music, natural to mankind, has not passed unnoticed by the chief captains of industry. The success of these men is due as much to their understanding of the psychology of men as to their knowledge of commerce. In America music has been warmly welcomed by many of the leaders of industry. The average reader will be as pleasantly surprised as I was to learn how wide is the field apportioned to music by many of the influential firms of Britain.

White enamel Armco Iron, strong, rigid, very handy; also suitable value. Fit snugly to sink. A real plumbing sensation. Price includes all fittings. Sold by plumbers, hardware stores, or write direct to SHEET METAL PRODUCTS CO. 1000 Commercial Toronto, Ontario, Canada M6A 1A4

PAY OF AMERICAN WAGE-EARNERS.

Is More Than Twice That Received by British Colleagues.

New York.—Statistics compiled by the National Industrial Conference Board, show that the American wage-earner, on a basis of what pay will buy for him, is paid more than twice as well as his British colleagues in London; nearly three times as well as the wage-earner in Amsterdam, Holland; more than three times better than the worker in Berlin, Germany, and nearly five times as much as the worker in Italy.

The board's report shows that clothing retail prices in April were nearly 1 per cent. lower and fuel 2.4 per cent. lower than in March, bringing the general cost of living index number down .03 per cent. for the month. Present wage rates were indicated in the report as close to the average for the last five years, 1919 to 1924 inclusive.

SEES OVERSEAS MARKET AS REMEDY FOR TRADE SLUMP.

Need Protection Against Tariff Walls of U. S., Says Harry J. Crowe.

"Solution for present depression of trade, and lack of employment in Nova Scotia, is an Overseas market, for what we are capable of producing, which should be scientifically developed instead of spending time agitating for a separate tariff, Maritime Rights, breaking away from the rest of Canada, and other fallacies that are as undesirable as they are unprofitable," declared Harry J. Crowe, of Toronto, just before leaving Halifax for Newfoundland, where he has large interests.

"Instead of seeking for a lower tariff, we need protection against the tariff walls of the United States, which are higher against us than ours are against theirs, otherwise our young men and women will continue to leave us and help build up a country under another flag, supplying us with goods we should produce ourselves," said Mr. Crowe.

Must Keep Industries.

"Nova Scotia can ill afford to lose any of her remaining industries," Mr. Crowe said. "The farmer needs protection of the tariff as well as the manufacturer and laborer. They are more complementary to each other than those who want lower tariffs admit. England has now discovered this and is rapidly breaking away from her antiquated free trade ideas. For instance, why should our tariff on eggs from the United States be 3c a dozen, while the United States duty against us is 8c? In parts of Canada they flood our markets with eggs at a season when cost to produce is at the highest to the Canadian farmer, and this applies to nearly all agricultural products.

"How can Canada expect to come into her own when she is sending 150,000,000 cash annually into the United States for coal, when we have sufficient bituminous coal to supply ourselves and the United States combined in Alberta and Nova Scotia?" he asked. "West Virginia coal is now being shipped to Pictou, twelve miles from our coal mines. The United States would not be long in protecting her mines and labor if our position were reversed. Instead of being 'hewers of wood and drawers of water' for the United States, we should develop our resources, not only to supply our own requirements, but for a large export trade. This applies particularly to Nova Scotia which has the basic materials, viz.—coal, steel, and fish, as well as the products of her forest and field for a large export business to the West Indies and South America.

Reorganization Needed.

"The large plants at Sydney should be re-organized to facilitate the manufacture of agricultural implements in a large way for Overseas markets," Mr. Crowe said. "An enormous export business in automobiles is carried on in some of the interior cities of Ontario, where they have neither the natural resources of coal or iron, and located over seven hundred miles from the coast.

"The projection of Nova Scotia into the World's trade routes for all of these purposes, is a sound proposition, and you may add to this, the prospects of the Panama Canal for purposes of Pacific and Oriental connections.

"But it is the British West Indies market in which we should be most vitally interested," he continued. "Instead of sending \$100,000,000 as we do to the United States annually for tropical products, most of this bill would be turned into Canadian manufactured and agricultural products, if these tropical products came from provinces of this Dominion to the mutual advantage of both countries. Steamers that now discharge these products from the West Indies for Canada, at United States ports, where they load up with United States goods for the West Indies, should have full cargoes both ways at Canadian ports, and because of her geographical position and open ports, Nova Scotia would reap the greatest benefit from this union.

"As is well known the West Indies produce what we require, and manufacture practically nothing, consuming what we produce from our sea, forest, mines and manufacturing industries," said Mr. Crowe.

"But what advantage is it being complementary to each other if we are unable to reap the advantages of this natural interchange of commerce which should make these countries prosperous?" he asked.

"Statesmen of Canada have tried for forty years to bring about these desired results through trade agreements, all of which have failed to realize their object. The last agreement made in 1920 was expected to revolutionize trade between these countries, but it proved more disappointing than any previous trade agreement, and was most unprofitable for all the countries concerned. Statistics show that our exports have increased in these countries but this has been made up largely by flour, in which we are able to compete with the United States and capture mar-

kets in other countries without any preference.

The General Feeling.

"In the case of Jamaica, this trade agreement has almost resulted in creating unfriendly relations with Canada. While recently in Jamaica I heard this agreement discussed in the Legislature and some of the members went so far as to declare they wanted nothing more to do with our Dominion as the result of the work out of this agreement.

"A leading paper in Trinidad, the Port-au-Spain Gazette reflects the general feeling in all of the B. W. I. with respect to this trade agreement, when the editor, in summing up the situation in connection with the recent visit of the Canadian delegation, said:

"We are willing to trade with Canada, or any other part of the empire in preference to foreign countries when possible. We were misled into accepting this agreement. We are not prepared to sacrifice revenue that we cannot afford to lose, and to jeopardize our privileges in other countries by the adoption of any principle of trading within the Empire which does not bestow upon us advantages at least equal to what we give. In a trade agreement with Canada we have sacrificed large sums annually in the shape of customs duties and it is yet to be demonstrated that we have received the slightest benefit therefrom. We must reserve to ourselves the right to take every necessary precaution regarding them, further led into sacrificing what we cannot afford to lose."

The same sentiments were expressed in Barbados in commenting upon Mr. Logan's address there, when he made pointed allusion to having been at one time an earnest advocate for political union, but during his visit to Jamaica, he said he lost all his fervor and had left it alone. The editor of this leading paper declared that it was their hope that this loss of fervor for political union would only apply to Jamaica, where the United States Fruit Trust had such great influence. British Honduras and British Guiana papers have both declared themselves in favor of Constitutional Union as well as the Trinidad West-Indian.

"Constitutional and commercial union would establish permanent inter-provincial free trade between provinces of what would then be the southern territory of Canada. Each of the parties would have the markets of the other open to it.

Citing the Banana industry, Mr. Crowe declared, that the control of this chief export of Jamaica by a foreign trust almost has reduced them to economic slavery, and has seriously interfered with Canada's trade and her purchasing power for our goods.

Price Contracts.

"While in the West Indies this winter, said Mr. Crowe, the United Fruit Company were paying the equivalent of 31 c. for the largest stem bananas produced, viz.—nine hands, when competition is threatened, the United Fruit Co. have gone up as high as 75c. and \$1.00 per bunch. While in New York the other day," he said, "I went into a fruit store near the Hotel Commodore. I asked to see their best bananas and found they were from Jamaica.

The retail price was 75c. a dozen. In Halifax, I find the wholesale price is from 8 to 10c. per lb. or from \$5.00 to \$7.00 per bunch of smaller size than I saw the United Fruit Company paying 31c. for this winter. The cost of transportation from Jamaica to New York is 50c. per bunch, and after you add all the incidental charges, depreciation, etc. you will realize what it would mean to Jamaica if she received something near the market value for the 12,000,000 to 15,000,000 bunches of bananas she produces annually. Under Constitutional union, which would give Canada a voice in her foreign affairs control of her tariff and transportation, Jamaica would be delivered from the control of this foreign trust, and her increased purchasing power resulting therefrom, would be for the benefit of Canadian goods, as well as improved living conditions for Jamaicans.

"But your West Indian Trade committee of the Halifax Board of Trade advised our not interfering with the United Fruit Company because of their strength," he said. "They also claim that the fruit trade of the West Indies would be of very little value to Canada. While Canada only now consumes about two and a half million bunches of bananas, this consumption would soon double if some of this middleman's profit went to the benefit of the consumers. Moreover Canada could deliver Jamaica bananas to Chicago and Western cities from Montreal, at a lower cost of transportation than from New York.

"England is now consuming 15,000,000 bunches of bananas annually, of which the United Fruit Company will only permit 2,000,000 to go from Jamaica because of their control of transportation," said Mr. Crowe. "They supply the balance from their plantations in Central America. There is even a greater difference in England between the producer's price and the United Fruit Company's than in Canada. The Canadian Pacific Ocean Ser-

vice could supply the transportation to handle the Canadian as well as the English business from the West Indies if they had satisfactory guarantees which only could be secured by Constitutional Union.

Profitable Market.

"The trade then of these rich, fertile regions which would be many times greater than it is today if they had a profitable market they could call their own, would be turned into British channels where it belongs.

"We would also increase our trade in tobacco, coffee, grape fruit, oranges and cocoa, early vegetables, etc., to the benefit of both countries if this southern territory became a province of our Dominion, but sugar is the staple product and from this we would benefit most.

"Allow these tropical regions to refine the sugar where the raw material is produced and ship it to our manufacturers who may receive it without paying so much for the re-handling charges, freight on moisture, refiners' profits, and duty, besides getting the benefit of the cheap West Indian labor, this great northern fruit producing country of Canada, would then become famous as an exporter of jams and jellies, confectionery and biscuits, which would be of much more value to us than the refining of sugar where comparatively little labor is required. As it is well known it was the cheap German bounty fed sugar that established this preserving industry in England, and there is not a grocer in any city in Canada that has not got their jams on his shelves. It would not only provide many industries in our fruit belts, but turn to account much fruit that is now going to waste and greatly reduce our cost of living. The Annapolis Valley would then bloom like a June Rose.

Sugar Refining.

"The sugar refinery interests will declare that it is not practical to refine sugar in tropical countries," said Mr. Crowe. "They are doing it in the Hawaiian Islands and a large plant is now being built in Cuba for this purpose. I have seen the cane going into plants in these places and coming out the finest quality of granulated sugar. The loss of revenue to our Government would be more than made up by our increased business and employment. Some arrangement could be made for protecting the Canadian investment in these refineries which might possibly be used in connection with the industries to which I refer, viz.—preserving, confectionery and biscuits. Canada must have more industries and an overseas market to provide employment, not only for our own people but for an active immigration policy which is our only hope to successfully meeting our heavy war debt and solving our transportation problem.

"Many in Canada say that political union is not feasible because of the complications resulting from a federal election, which they think would have to take place in the West Indies as in Canada, and also that representation at Ottawa would have insurmountable difficulties. These two thorny questions can be overcome in the interests of both countries.

"A plan is already being considered by those in authority which I hope to submit for publication in the near future, and also quote letters which I have received from some of the leading men in England, Canada and the West Indies, wholeheartedly supporting constitutional and commercial union.

Conference to Decide.

"The result of the Ottawa Conference which is to take place June 19th between representatives of the various colonies in the West Indies and our Federal Government, may have much to do with deciding the future destiny of the British Empire on this side of the Atlantic. If our statesmen confine their discussion to a union of commerce only, and attempt to bring about closer relations by patching up the present trade agreement, and not enlarging the scope of the discussion so as to include a broader union, which would ensure to the advantage of all the high contracting parties, we may lose an opportunity to promote the interests of the Empire, Canada and the British West Indies that may never occur again."

MEMORIAL TO LATE DONALD MCKAY.

Nova Scotia Shipbuilder, is contemplated at Boston.

New York.—A memorial to the late Donald McKay, the Nova Scotian whose clipper ships in the middle of the last century, were the most famous afloat, is contemplated at Boston and to this end, an exhibition of models, pictures and miniatures of this master shipbuilder's work at the Marine Museum, Old State House, Boston, is attracting wide attention, according to a news despatch to the New York Herald-Tribune. A picture of his greatest vessel, the Great Republic, is on view, as also is a model of his most famous clipper, the Flying Cloud.

Donald McKay was born at Shelburne, N. S., in 1810, and died at Hamilton, Mass., 1880.

My Six Little Ones Used Baby's Own Tablets

Mrs. John A. Patterson, Scotch Village, N. S., says:—"There are six children in our home, and the only medicine they get is Baby's Own Tablets, and I have not known the Tablets to fail when medicine was needed. No mother should be without the Tablets in the house." Like Mrs. Patterson thousands of other mothers are quick to praise Baby's Own Tablets for bringing health and comfort to their little ones. The Tablets are a mild but thorough laxative which regulate the stomach and bowels, thus banishing constipation and indigestion, colds and simple fevers, and making teething easy. They are guaranteed to contain no opiates and are perfectly safe for the youngest child. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ONLY A TRIVIAL ERROR.

In the course of a long and eventful life, Martin Boggs had never been known to admit that any of the failures which had besprinkled his career resulted from a mistake on his part.

If his potatoes did not turn out well in the new place he had chosen for them in the face of advice, it was because he had planted them there as a warning to his son, who had a notion to try experiments. If his children had scarlet fever because he had failed to take his wife's wishes into consideration in regard to a visit to an infected house, "he wished them to have it, and get over with it, although he hadn't thought it best to say so."

If an investment turned out badly he "had just put the money in to encourage the company, although he knew it was no use," and if a barrel "had bought them to make into cider."

When he opened the cellar door of a neighbor's house one night under the impression that it was the one which led to another room, and then stepped off into space and landed on the cellar bottom, it really seemed as if, for once, he would have to admit a mistake.

When it was ascertained that beyond some bad bruises and one or two easily remedied dislocations Martin was safe and sound, one of his old friends ventured a little mild banter. "Seems as if for once in your life you did make a mistake Martin," said this courageous person; but Mr. Boggs turned a bandaged and reproachful countenance toward him. "It isn't what I'd expect of you, Ezzy," he said, mildly, "to call a little misadventure like that a regular mistake."

FAREWELL GIFT.

Middleton.—The choir of United Church met at the home of J. D. McKenzie Tuesday evening, and at the close of rehearsal, called upon Rev. J. G. Hockin, pastor of the church, to speak. Mr. Hockin in a pleasing manner then presented Mrs. W. H. Cassidy with a wrist watch, gift of the choir. Mrs. Cassidy had been a faithful church worker and will be greatly missed in the choir. The family are leaving this week to reside in United States.

Conference to Decide.

"The result of the Ottawa Conference which is to take place June 19th between representatives of the various colonies in the West Indies and our Federal Government, may have much to do with deciding the future destiny of the British Empire on this side of the Atlantic. If our statesmen confine their discussion to a union of commerce only, and attempt to bring about closer relations by patching up the present trade agreement, and not enlarging the scope of the discussion so as to include a broader union, which would ensure to the advantage of all the high contracting parties, we may lose an opportunity to promote the interests of the Empire, Canada and the British West Indies that may never occur again."

BE SQUARE.

Be square. It may seem, on the face of it, to cost something sometimes but in the end one cannot afford to be otherwise. We may think we are sacrificing when by being square, it means loss of money or position, but in the end we will be glad we played fair, that we were on the level, that we were square.

Life is little bookkeeping, and it is a double entry affair. There are two sides to life's ledger, a credit and debit side. In the accounting every crooked deal shows up. Our acts are like homerangs. They return to us. There is always a come back. In our treatment of others we determine the conditions of final settlement for ourselves.

Nature exacts a penalty for every infraction of her laws. There are no exceptions. It's as reasonable to expect an accounting under the moral law as under that of nature. When the time comes, as come it will, when our deeds will come home to us, like chickens at night to roost, there'll be a heap of comfort for us in knowing that we have been square. Be square! It's right, and it pays! —G. M.

HE GLORIES IN HIS TAX.

The "old maid and bachelor bill" introduced in the Florida House recently has met the approval of at least one man. Harry L. Johnson of Fort Myers puts a high valuation on his single blessedness. His telegram read and ordered printed in the House Journal, follows: Noting the bill tax-ing bachelors \$5 per year, I am today sending certified check for my tax. I will be away this summer and wish to do my part. Five dollars is too little. No real free man would object to paying \$50 or even \$500."

RALPH LANE

Bridgetown, Nova Scotia
(G. O. Thies' old stand)

Personal Mention

(Continued from Page One)

Mr. and Mrs. Fred Johnson left on Tuesday for Halcyon, California, where they will remain for some months.

Mrs. B. D. Nelly has returned from Halifax, where she was a guest the past fortnight of her daughter, Mrs. Will Moir.

Rev. A. J. Prosser has returned from Yarmouth where he was a patient at the hospital with tritis. His many friends are pleased to learn that treatment has improved the condition of his eye.

Mrs. Will Moir has been a visitor at her old home here the past few days.

Mr. John L. Allison left for Five Mile River on Thursday last to spend a few days with sister, Mrs. George MacDonald.

Mrs. Frank Wheeler left on Tuesday for her home in Malden, Mass., after a short visit here with her husband's parents Mr. and Mrs. Caleb Wheeler. She was accompanied to Malden by her sister, Mrs. L. B. Phillips, who will visit her there.

Mr. Gerald Hoyt, who has been visiting his mother, Mrs. G. E. Hoyt and his grandparents, Mr. and Mrs. Elias Messenger, has returned to St. John.

Mr. and Mrs. J. Frank Crowe are now on their way from Florida and are expected here during the month.

Mr. D. Ross, Kentville, arrived on Tuesday for a visit with his parents, Mr. and Mrs. John Ross.

Miss Elizabeth Murray of New Glasgow, is visiting her friend, Miss Jean Messenger.

Rev. W. I. Morse of Lynn, Mass., has purchased the Andrew Shaw farm Paradise, from Miss Alma Shaw.

Rev. L. E. Nunn has resigned the pastorate of the Baptist church. He was an active and popular pastor and acted as Scoutmaster to the boys of the town and took a close interest in all public matters.

Mr. W. L. Hatfield, editor of the Derwick Register, accompanied by Mrs. Hatfield, spent the week-end at Belleisle, the guests of Miss Susie Troop. En route they made a pleasant call on the Editor of the Monitor.

During Mr. Hatfield's regime the Register has been greatly improved and no paper in the province is better printed and it is invariably filled with bright and newsy matters.

Mr. A. C. Kennedy of St. George, N. B., arrived in town last week and will spend some weeks here with his son, Mr. O. V. Kennedy and with Mrs. Kennedy.

Mrs. C. L. Marsh has returned from Nictaux, where she was visiting her daughter, Mrs. H. I. Munro.

Mr. Louis G. Young of Calgary, arrives this week on a visit to his mother and other relatives.

Mrs. Joseph Roop of Clementsport, is visiting Mrs. J. Ross, Granville, N. S.

Mr. James Pay arrived home on Friday from Wolfville, where he was attending as a delegate representing Dalhousie University the annual sessions of the Students Christian Association. Mr. Herbert Davidson of Middleton was another delegate present, representing Dalhousie.

Mrs. J. S. Perry accompanied her daughter, Miss Kathryn and by Mrs. Harvey Perry and son Reuben, all of Beaver River Yarmouth County, were guests at the week-end of Mrs. J. Perry's mother, Mrs. E. C. Young and sister, Mrs. Eugene Saunders.

Mr. James Young, manager of the Bank of Nova Scotia Branch at Harbor Grace, Nfld., is expected here this week with his wife and will visit the former's mother, Mrs. E. C. Young.

Dr. M. E. Armstrong and Mrs. Armstrong left for Toronto on Monday, and while there the Doctor will attend the General Council of the United Church of Canada.

Mr. Bernard White and Miss White of Young's Cove, were visitors in town on Saturday.

Dr. A. N. Marshall, of Wolfville, was a visitor in town on Tuesday.

Mr. and Mrs. James Moir of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

Mr. Frank Ruggles left on Saturday for Knap, Quebec, which has been his home since he left as a mining engineer.

Mr. Chas. Williamson of Brackton, Mass., is a guest of Mrs. A. E. Palmer of Upper Granville.

Mr. and Mrs. Wm. C. Grant of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

Mr. Chas. Williamson of Brackton, Mass., is a guest of Mrs. A. E. Palmer of Upper Granville.

Mr. and Mrs. Wm. C. Grant of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

Mr. Chas. Williamson of Brackton, Mass., is a guest of Mrs. A. E. Palmer of Upper Granville.

Mr. and Mrs. Wm. C. Grant of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

Mr. Chas. Williamson of Brackton, Mass., is a guest of Mrs. A. E. Palmer of Upper Granville.

Mr. and Mrs. Wm. C. Grant of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

Mr. Chas. Williamson of Brackton, Mass., is a guest of Mrs. A. E. Palmer of Upper Granville.

Mr. and Mrs. Wm. C. Grant of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

Mr. Chas. Williamson of Brackton, Mass., is a guest of Mrs. A. E. Palmer of Upper Granville.

Mr. and Mrs. Wm. C. Grant of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

Mr. Chas. Williamson of Brackton, Mass., is a guest of Mrs. A. E. Palmer of Upper Granville.

Mr. and Mrs. Wm. C. Grant of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

Mr. Chas. Williamson of Brackton, Mass., is a guest of Mrs. A. E. Palmer of Upper Granville.

Mr. and Mrs. Wm. C. Grant of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

Mr. Chas. Williamson of Brackton, Mass., is a guest of Mrs. A. E. Palmer of Upper Granville.

Mr. and Mrs. Wm. C. Grant of Halifax, motored here on Saturday and spent the week-end with Mr. and Mrs. Kenneth Leslie at Upper Granville.

FRANK OUELLET

LAWRENCE TOWN, N. S.

Local Happenings

A special meeting of the Women's Institute will be held Thursday afternoon at 3.30 in the Board of Trade room to hear the report of Mrs. F. E. Bath, who was a delegate to the Convention at Truro.

Dr. H. W. Kirkpatrick of 217 Barrington Street, Halifax, will be at his office in Middleton for treatment of diseases of the Eye, Ear, Nose and Throat on Tuesday, June 16th and Wednesday, June 17th. Appointments by letter. 11-11c

At time of writing no clues have been developed to lead to arrests in the recent Lawrence town burglaries. Like those of the latter part of 1924, the culprits are believed to be either local parties or persons living at no great distance away. They pretty well covered the town in their career and provided themselves with food, tobacco and money, the latter being \$17. from the Baptist parsonage.

The grounds around the D. A. R. Station here have a most attractive appearance. Tulips and shrubs and smooth lawns, make of this spot a thing of beauty. The little triangular plant on the south side of the station has also a most pleasant appearance. All these things go to beautify the town, attract favorable comment from visitors and develop aesthetic tastes in our people.

A fine Durant car owned by Vincent Gaul took fire on Thursday night in Paradise Lane and we understand is a total loss but carried a very fair amount of insurance.

The tern schooner Ronald C. Longmire has loaded a cargo of lumber at Meteghan and sailed for Boston.

In the programme given in last night a line was omitted and numbers read: 2 Solo—Step High—It's Fast Coming Down, George Evans; 3 Solo—The Rocking Horse, Louise Bishop.

At Bear River last Friday the local baseball team defeated Bear River 9 to 6, and here on Saturday the High School team defeated Berwick 8 to 7.

Greyhound, Mr. Norman, Dargie's horse was given third place at the races in Kentville on Wednesday last.

The local Quilt club are beginning to put in some practice preparatory to going to Dartmouth to engage in a contest with the crack club of that town.

H. H. Morse and J. B. Saunders of West Paradise, have been selected to compete in the Inter-Maritime Meet at Bedford Range on Thursday. The latter is waiting man.

An Apple Blossom Tea will be held on the lawn of Mrs. E. R. Orsland on Thursday afternoon at 4 o'clock. Tea 30c. Funds will be used to send members of Anglican C. G. I. T. to camp. 11-11c

Miss Edna Daniels has purchased a handsome Nash car.

A summary of sports left here on Tuesday to see the mill between Ring, Conley, light heavyweight champion of Northern New England, and Roy Mitchell, the Granville boy.

ALL PLEAD GUILTY.

Sentences Pronounced in Several Cases before Supreme Court at Kentville.

Robertson—in the Supreme Court Thursday, Fred Morine was tried for theft at Kentville, pleaded guilty, and was given a month's suspended sentence under recognizance to appear for sentence if required.

Arthur West, George Zwicker and Arnold O'Brien, implicated in receiving stolen goods all pleaded guilty and were given the same sentence.

In the King vs. Dean Patterson and Gordon Harvey, for theft at Millville, accused pleaded guilty. Sentence deferred. Both boys were under sixteen years of age.

Correspondence

Kentville, N. S.
June 26th, 1925.

Dear Editor,

I would like a small space in your valuable paper to tell how they used "Grey Bird" at Kentville Races.

Grey Bird was in the thirty class. They went out to race all being good horses. "Miller R" drew the pole, owned by Thomas in Berwick.

"Grey Bird" drew second, owned by Dargie. "Torpedo Lady" drew third owned by Armstrong. "Benjen Celiste" drew fourth owned by Thomas in Berwick. "Flashlight" fifth, owned by Allan in Grand Pre.

When they started away "Grey Bird" took pole from "Miller R" on back stretch. "Grey Bird" came in a head easy.

In the second heat, they all took their places. "Grey Bird" taking pole, came in ahead easy.

In third heat, took their places, scored up. "Grey Bird" came round to her place. Starter Mr. Marshall told Curry to keep back. Curry held back and the four horses scored in front of her. Armstrong shot in ahead and took pole with "Torpedo Lady."

I thank you,

A SPECTATOR.

NOTES OF THIRTY YEARS AGO.

The following notes from "Echo" files of thirty years ago will be of interest:

Rev. George B. Titus, of the First Baptist Church of Everett, Mass., is about to resign, being a Nova Scotian an Acadia student, he has given offence by his plainly expressed opinions on the Boer war. He is, of course, British in sympathy.

Harry Ruggles, Mayor of Bridgetown, was born in that town, a graduate of Acadia in Arts, and also of Dalhousie law school. He was Bridgetown's first Mayor at the time of incorporation in 1889, and has been regularly re-elected each year since. Mr. Ruggles married Miss Gussie Taylor, daughter of the late Wm. Taylor of Halifax.

MIDDLETON.

Middleton—Paradise Dramatic Club presented a pleasing comedy, "Always in Trouble" in Armada Theatre.

Wm. Anderson, manager of the local branch of the Canadian Bank of Commerce, is enjoying a vacation. W. Mellich, accountant, is assuming the duties of manager during Mr. Anderson's absence.

Miss Ida Armour, who recently graduated from the Rhode Island Training Hospital, Providence, is visiting her parents for a few weeks. She then returns to the institution to complete her term of training which expires in the early autumn.

Miss J. Estabrooks, of Sackville, local operator at Western Union, left Monday for Bridgewater, where she has been transferred. Her place has been filled by Miss M. Gibson, of Florenceville, N. B.

J. Kierstead, of Moncton, has joined the local staff of the Bank of Commerce. R. Matthews is resigning.

STRIKERS ROE TOWN

OF NEEDED SERVICE.

Glance Bay—A committee from New Waterford Board of Trade was in town Monday interviewing H. J. McCann, General Manager of Dominion Coal Company, with a view of obtaining water and lights for the town of New Waterford.

The Company is unable to do anything to remedy the situation since its maintenance men have been forcibly excluded from its power-house, upon which the light and water services depend. The power plant is still picketed.

GOVT. AID FOR HOME

BANK DEPOSITORS.

Ottawa—By a vote of 100 to 28, the House of Commons Monday night adopted a resolution providing \$50,000 for relief to Home Bank depositors, and subsequently gave first reading to the bill. Of the 30, only two were Liberals—F. N. McCrex, of Sherbrooke, and Roch Lanctot, of La-Petite-Nazareth. The remainder were from the ranks of Conservatives and Progressives.

Why work hard for mere existence when you can reach independence in a few weeks by learning one of the following trades: Bricklaying, Barbering, Mechanical Dentistry, Garage Work, Battery and Welding. Write for special offer, HEBBPHILL'S, 133 King St. W., Toronto.

BLOSSOM SUNDAY VISITORS

THROUGH ANAPOLIS.

Annapolis Royal—Apple Blossom Sunday dawned cool and cloudy, with brilliant sunshine during the afternoon, and all day a procession of automobiles passed through the town, which was looking its fairest, with the beautiful trees, fresh green lawns and flowering shrubs.

At Fort Anne Park a hundred and forty visitors registered at the Museum, while many more explored the grounds. The Hillsdale House, which reopened for the summer this week, entertained fifty guests from Yarmouth, and a number of parties from Halifax motored in on Saturday and spent the night there. The Queen and Annapolis Royal hotels also entertained unusually large numbers of guests.

YARMOUTH TO EXTEND

ALTOGETHER ACCOMMODATIONS

Yarmouth—The Lakeside Park property, for several years, just controlled by the Yarmouth Light and Power Co., has been disposed of to a syndicate of local men, who will immediately put the place into use as a parking ground for the travelling trade and other parties.

The buildings will be thoroughly reconstructed into a convenient restaurant and tea room, to be fitted with all conveniences, such as wash-rooms, lavatories, etc. Work in this connection commenced on Saturday.

BEES SUMMONED TO END

FIGHT IN INN; THEY DO.

Berlin—That bees may be relied upon to do the work of constables, and do it efficiently, was shown the other day at a village inn in Prolmsdorf, Prussia. When a free-for-all fight developed among the patrons, with amateur pugilists belaboring each other, the landlord, to save his tables and chairs from being smashed, rushed out and brought back a beehive.

After putting on a mask he released the bees. The industrious insects did their work swiftly and thoroughly and within a minute every one of the combatants had fled from the battlefield.

Nor was the fight resumed outdoors as the principals were too busy cooling inflamed portions of their anatomies.

HOW THE HOLIDAY WAS SPENT.

The holiday was spent quietly in town, some went on fishing parties, others on motor trip and others again remained at home and put in the fishing touches to garden planting. A baseball match was scheduled with Windsor and after the crowd waited half an hour past time scheduled to call the game, one car arrived, and one player. Later word came from Annapolis to effect that the cars containing other players had broken down. Then it began to rain. An endeavor is being made to have the game here today (Wednesday).

ONE MOMENT.
