**MORNINGDALE MILLS, C. W.**—A small but flourishing post village, situated on the banks of the river Nith, in the township of Mornington and county of Perth, surrounded by one of the best farming districts in Canada West. Distant from Stratford, the county town, 17½ miles; from Waterloo, 18 miles, and from Berlin, 20 miles. Population about 80.

The following liberal proposition is made by Mr. John Nicklin: "To be given in fee simple together with deed free of all incumbrances for ever, to any responsible man, a first-class building, 45-4-30, with four floors, built up in the best manner with the best of materials, at a cash cost of \$1,000, together with land convenient for an extensive business in the milling line. The party must furnish the same with a 25 or 30 horse power engine and two or three runs of burr stones, with necessary machinery. There is no water power of any consequence within a circuit of 15 or 20 miles, so that steam must do the business of the locality. For further particulars address the undersigned (prepaid), Morningdale Post Office, county Perth. "JOHN NICKLIN."

**ORILLIA, C. W.**—A village situated on Lake Couchiching, in the township of Orillia and county of Simcoe, North Riding. During summer, a steamer plies daily to Bell Ewart, connecting with trains on the Northern Railway, and in winter there is a daily stage to Barrie, connecting with trains to that station. The village was first settled by the Indians, but they were subsequently removed to Rama, on the other side of the lake, about the year 1839. Orillia has a large country retail trade, and there are several lumbering establishments in the vicinity, among the largest of which is one called Washago, at the entrance to the river Severn, where there is almost unlimited water-power. Orillia is much resorted to in summer, by pleasure-seekers from Toronto. Distant from Barrie, the county town, 27 miles; and from Toronto, via Barrie, 90 miles. Mails daily, with money order office. Population about 800.

**OTTAWA, C. W.**—The notoriety which this city has received, as being fixed upon as the Seat of Government for Canada, has invested it with a significance which, otherwise, in all probability, it never would have obtained. Ottawa is the new name given to the town of Bytown, by which it has long been known as the centre of an immense lumber district on the river Ottawa. It is situated on the river where the Rideau and Gattineau rivers and the Rideau canal all meet. The streets are all wide and regularly laid out, and so far reflects great credit on the engineering skill employed. The city can boast of some as fine and magnificent buildings as any other city, either in Canada or the United States. The scenery around Ottawa is far beyond the expectation of strangers, and the view from Barrack Hill is one of surpassing grandeur and extent, combining in it a trinity of river, landscape and fall scenery, which few places can boast of. At the west end of the city are situated the celebrated Chaudière Falls, which plunge about forty feet, the spray of which can be seen a long way off ascending in the air; and immediately below the falls the river is spanned by an elegant, durable suspension bridge. Here again are Rideau Falls—"Niagara in miniature,"—and one of the prettiest little falls to be seen any where: although only thirty feet in height, they present features of interest and great beauty. As a city, Ottawa has, perhaps, the most beautiful and picturesque situation of any in the province,—built beside the magnificent Chaudière, upon a rocky elevation, commanding a fine view of the surrounding country as far as the eye can reach,—it is almost equal to Quebec itself. The fine, far-stretching campaign opened up to a great extent by hardy settlers, who have cleared for themselves a home and farm; the villages, nesting among the trees; the deep, dark forests, extending on either hand, as yet apparently untouched by the woodman's axe; and the magnificent river; all command, by turns, the delighted attention, and call forth unmingled exclamations of pleasure. The city itself is well built; and the elevations of the ground have been taken advantage of to heighten the effect. The Houses of Parliament (now in process of erection), when once complete, and the Government removes to Ottawa, will add greatly to its attractions and business. The magnificent range of buildings fitly adorn the romantic site upon which they stand. There is a daily line of steamers between Ottawa, Montreal and Kingston; and the Ottawa and Prescott railway trains run twice a-day to Prescott, where they connect with the Grand Trunk Railway. Ottawa is distant from Montreal, 126 miles; from Quebec, 206 miles; from Kingston, 95 miles; and from Toronto, 233 miles. Daily mails. Population about 15,000.

**QUEBEC, C. E.**—The principal seaport and stronghold of military power in British North America, and, the scene of much martial glory and success, as well as defeat, must at all times possess a peculiar interest to every one. On its fields, and around its battlements, some of the bravest of the sons of Great Britain and Ireland, America and France, have fallen; and around its Citadel some of the most daring exploits have taken place. It is situated on a bold and precipitous promontory, formed by the junction of the river St. Charles with the St. Lawrence, and has not inaptly been termed the "Gibraltar of America," with which the memory of the brave Wolfe, Montcalm and Montgomery must ever remain connected. The Citadel stands on what is called Cape Diamond, 350 feet above the level of the sea, and includes about forty acres of ground. The view from off the Citadel is of the most picturesque and grand character. There will be seen Point Levi opposite, the Island of Orleans below, with the majestic St. Lawrence winding gracefully about it for many miles; whilst the background of the panoramic scene is filled up by plains extending to lofty mountains in the distance. A walk around the ramparts of the Citadel will well repay the stranger, by a magnificent change of scene at every turn he takes. The city is said to have derived its name from the words "*quel bec*," the exclamation of its discoverers when first its site broke upon their astonished view. On the eastern point stands the Grand Battery, and portions of the fort, barracks and town; toward the north the Esplanade, and west the Citadel; thus giving it the appearance of a strongly fortified and ancient city. The streets are generally narrow, and in some parts very steep, in walking from Lower Town to Upper Town more particularly. Lower Town is where all the shipping business of the port is carried on—chiefly lumber in export, and every description of goods in import. The Upper Town is more open and regular, and is situated within the walls, and approached by a steep serpentine street and carriage way, with long rugged flights of winding stairs, that dip into it here and there, lessening the distance for the pedestrian. The city is well lighted with gas, and by means of very costly water works supplied with abundance of water. Throughout the Upper Town are many objects interesting to strangers—the Citadel, with its vast armory and magazines; the Roman Catholic Cathedral, with its fine old paintings; the English, Presbyterian and other Churches; Governor's Garden; the Esplanade; the Laval University; and, most interesting of all, the Monument to the memory of the two young heroes, Wolfe and Montcalm. The city is surrounded by many beautiful villas, and some six or seven miles eastward are the Montmorenci Falls, well worthy of the traveller's attention. The chief business is ship building and the lumber trade, the greater portion of the immense lumber districts of the Ottawa finding a market here; and vessels coming to Quebec in ballast and cargo, return with the logs, staves and deals of the up-country.

**THE QUEBEC GAZETTE,  
A TRI-WEEKLY LITERARY, POLITICAL AND ADVERTISING JOURNAL.**

The "GAZETTE" is the oldest newspaper in Canada, its publication having commenced in June, 1764, five years after the capture of Quebec, and uninterruptedly continued up to the present date, a period of *ONE HUNDRED YEARS*. Looking to the number of Journals that have lived and died during that period, the lengthened existence of the "GAZETTE" speaks volumes in its favour, and recommends it to the consideration of the public. As a Literary and Family Newspaper, the "GAZETTE" enjoys a great degree of popularity. In Politics, thoroughly independent of party, it can praise or censure, without fear or favour. As a Commercial paper, it contains the latest and most authentic Commercial news, Prices Current, of every description of marketable wares, securities. As an Advertising medium, its large family circulation renders it one of the most eligible for articles of family consumption, wear or interest.

**RICHMOND HILL, C. W.**—A flourishing village, situated in the townships of Markham and Vaughan, Yonge Street dividing the townships, and county of York. This is one of the healthiest situations in Canada West, and was formerly called Mount Pleasant, but in 1821 the name was changed to that of Richmond Hill, in compliment to the Duke of Richmond, then Governor-General of British North America, upon the occasion of his passing through the village when the inhabitants were assembled at the raising of the frame of the Presbyterian Church. It is in the heart of a fine agricultural country. A grammar school, in union with a common school, under L. H. Evans, B.A., assisted by two competent teachers, is in successful operation, and affords very desirable facilities for educating the youth, and preparing young men to enter our National University. It also contains a Young Ladies' Boarding and Day School, conducted by Mrs. Campbell and Daughters; also many manufactories and mills of various kinds, which give employment to a number of mechanics. Distant from Toronto, the county seat, 16 miles; and about 3½ miles from a station on the Northern Railway. Daily mail. Population about 1,000.

**SARNIA, C. W.**—An incorporated town in the township of Sarnia, county of Lambton, situated at the head of the river St. Clair, near the confluence of lake Huron. The city of Port Huron, Michigan, is immediately opposite, and is in constant communication by means of steam ferry boats. The river at this point is never obstructed by ice. Sarnia was laid out in 1838, and has steadily increased in importance from that time. There are several manufacturing establishments, and some large flouring and saw mills in successful operation in the place; and the facilities for trade and travel it possesses, both by rail and water, are unsurpassed. It is the terminus of the Sarnia branch of the Great Western Railway, which connects with the main line at Komoka, 107 miles west of London, and a station on the Grand Trunk, which connects with the Detroit branch by means of steam ferry to Port Huron. Distant from Detroit, Mich., 60 miles; and from London 60 miles. Daily mail. Population 2,100.

**STRATFORD, C. W.**—An incorporated town well situated on the river Avon, at the corner of the townships of North Easthope, South Easthope, Downe and Ellice, county of Perth, and first settled in 1832. It was at that time called Little Thames, owing to a branch of the Thames river passing through the site of the village. The name of the river was afterwards changed to Avon, and that of the village to Stratford-on-Avon, in honor to the birthplace of the immortal bard. The wards of the town have been named Avon, Hamlet, Falstaff, Romeo and Shakspeare. The Grand Trunk and Buffalo and Lake Huron Railways cross each other here, thus giving Stratford railway facilities equal to any place in the province. It is a port of entry, and being surrounded by a fine agricultural region, has an excellent trade. It is well built and is in every way a rising town. Distant from Toronto, 98 miles; Sarnia, 80 miles; London, by rail, 39 miles; and from Goderich 45 miles. Mails daily, and money order office. Population about 3500.

**THREE RIVERS, C. E.**—The capital of the district of Three Rivers, in the seigniory of Ste. Marguerite, county of St. Maurice, situated on the north shore of the River St. Lawrence, at the junction of the River St. Maurice. It is the third city in the eastern section of the Province, and carries on a very extensive trade in lumber; the improvement of the St. Maurice River, by the Government, having given great advantages to the lumbermen in obtaining an easy access to market. The River St. Maurice, and its tributaries, water a territory of over 50,000 square miles, in one of the best timbered countries in the world. Large quantities of sawn lumber are manufactured at Three Rivers, and shipped to Quebec, England, West Indies, and the United States. There are also foundries in constant operation at this point, some of which have turned out excellent railway car wheels. There is a Mechanics' Institute, a reading room, and several first class educational establishments; and it is also the seat of a Roman Catholic Bishop. The Cathedral is a stately edifice, and one of the finest buildings on the continent. The famous falls of the Shawenigan are within twenty-four miles, and those of the Grand Mère are thirteen miles further up the St. Maurice. Distant from Montreal, 90 miles; and from Quebec, 50 miles. Daily mails, with money order office. Population, by last census, 6,058.

**TORONTO, C. W.**—The chief city of Upper Canada in the township and county of York, situated in latitude 43° 39' 21" north, and longitude 79° 21' 30" west, on the north-west shore of Lake Ontario and north of the Bay, a beautiful oval sheet of water, capacious, well sheltered and accessible to the largest vessels that navigate the lakes. It was founded by Lieutenant-Governor General Simcoe, then residing at Navy Hall, Niagara, who having formed extensive plans for the improvement of the colony, resolved upon laying the foundation of a provincial capital, and caused the first survey to be made in the spring of 1793, by Bouchette of the Royal Engineers. The place was called York, and soon grew into importance, the inhabitants enjoying peace and prosperity until the war of 1812. In 1813 it was captured by the American Army under General Pike, who lost his life at the storming of the fort. It was held, however, but a few days, while in the meantime the government house, public buildings and all the stores that could not be conveniently carried away were burned. In 1834 the town was incorporated and the name changed to Toronto, and in 1837 was convulsed by the breaking out of the rebellion led by Wm. Lyon McKenzie. The ground upon which Toronto is situated is nearly level, sloping gently up from the water's edge to the rear, where from several points some fine views of the lake and bay may be had. The city is laid out in the form of a parallelogram, the streets intersecting each other at right angles, the two principal thoroughfares and those containing the largest number of shops, or stores, being King and Yonge; the former runs parallel with the Bay, and the latter intersecting it extends northward through a rich and prosperous agricultural country, for upwards of thirty miles. The public buildings of the city are numerous, and many of them very handsome. First of which is the University College, a spacious gothic structure standing amidst the retired retreats of the Queen's Park, with its beautiful avenues leading from Yonge and Queen streets. Then there are the Normal School Buildings, standing in the centre of the handsome grounds dedicated to educational uses; the Trinity College, Upper Canada College, Osgoode Hall the seat of the Superior Courts of Law and Equity of Upper Canada; the Crystal Palace built for the use of the Provincial Exhibition which is held here quadrennially; the Provincial Lunatic Asylum situated on Queen street west, near city limits, and its branch in Queen's Park; Merchants' Exchange, Warona Hall, Post Office, St. Lawrence Hall, City Hall, Mechanics' Institute, City Hospital, St. James and St. Michael's Cathedrals, Knox, Zion and many other Churches; the Bank of British North America, Bank of Montreal, Bank of Toronto, Bank of Upper Canada, Commercial Bank, Royal Insurance Buildings, Edinburgh Insurance Buildings, Western Assurance Buildings, British America Insurance and Provincial Insurance Buildings, and the Parliament Buildings, used as barracks, since the permanent removal of the seat of Government. The city is well supplied with water and lighted with gas, and has many industrial establishments, several of them extensive, including foundries, tanneries, cabinet and other factories, and large milling establishments which are thriving and rapidly extending their capacity and powers of improving their productions. Her spacious land-locked harbour affords the utmost facility for any possible extension of trade, and her connections at all seasons of the year with almost every place of importance in Canada or the United States by means of the Grand Trunk, Great Western and Northern Railways are not surpassed, and she is now reaping the fruits of her people's energy and central position in a steady prosperity which seems to be both durable and progressive. Distant from Montreal, 333 miles; Collingwood, 96 miles; London, 144 miles; Kingston, 165 miles; Hamilton, 35 miles; Boston, 693 miles; New York, 500 miles. Population about 50,000.

**NORRIS BLACK,**  
 MANUFACTURER OF  
**ARTIFICIAL LIMBS, &c.**  
 No. 18 KING STREET EAST, TORONTO.

THE ARTIFICIAL LEGS of his manufacture combine all the Latest Improvements, Self-acting Knee, Side Motion at the Ankle, and India Rubber Springs. They are so constructed that they are accessible in every part for adjustment or repairs. He has also invented a New Apparatus for the operation through the TARSUS, (Hay's or Chopart's), that moves in harmony with the natural joint, and only adds to the thickness of the foot about half an inch, and is sufficiently strong to answer all purposes. HANDS can be supplied to restore the appearance and to be quite convenient, when the amputation has been performed between the elbow and wrist.

**TESTIMONIAL FROM Dr. HODDER, PRESIDENT OF THE MEDICAL BOARD, U. C.**

"I have carefully examined the Artificial Leg constructed by Mr. NORRIS BLACK, of Toronto, and I have no hesitation in giving it as my opinion that it is better adapted to imitate the motions of the knee and ankle joints, and at the same time is a more simple and useful limb than any with which I am acquainted.

# BRYANT, STRATTON & DAY'S

## COMMERCIAL COLLEGE,

KING STREET EAST, TORONTO,

FIRST DOOR EAST OF THE WESLEYAN BOOK ROOM,

ESTABLISHED IN CONNECTION WITH

Bryant, Stratton & Co's Chain of International Commercial Colleges,

LOCATED IN FOURTEEN OF THE LARGEST CITIES OF THE STATES AND CANADA.

### THE DESIGN

The design of this Institution is to prepare young men and ladies for the practical duties of the Counting House, and also to fit them for managing and conducting their own or other parties' business with system and despatch.

### TWO DEPARTMENTS.

In this Institution two separate departments have been established for the better accommodation and more rapid advancement of the Students, also a new classification of accounts, which does away with many of the mysteries of Book-keeping, and renders the whole more attractive and easier of comprehension.

### THEORETICAL DEPARTMENT.

In this department the Student commences his course. Here he acquires a thorough knowledge of the Science of Book-keeping, and receives thorough instruction in Commercial Calculations, Commercial Law and Penmanship.

### PRACTICAL DEPARTMENT.

Here the Student enters into ACTUAL business. Each Student is furnished with the necessary amount of Cash and Merchandise to commence business. Here he buys and sells Merchandise, Stocks, Real Estate, &c., and is required to be accurate and systematic in the management of his affairs. In this department are two regularly organized Banks, with a *bona fide* cash capital, which enables the Student to effect his exchanges, make deposits, get his business paper discounted, and transact all other business incidental to a general trade.

### PREPARATORY EDUCATION.

No one need be deterred from entering on account of want of preparatory education. It will only require a longer time to complete the course.

### TIME REQUIRED.

The average time required for completing the course is about *three months*. But this depends entirely on the Student, some requiring twice as long as others.

### Address,

**BRYANT, STRATTON & DAY,**

**TORONTO.**

### EXPENSE OF COURSE.

Life Scholarship (good in any of the Colleges for full course) \$40 00  
Blank Books for the full course ..... 6 50

### TEXT BOOKS.

### READING-ROOM AND LIBRARY.

Young men and ladies purchasing a Scholarship will be presented with a Card of Admission to the Reading Room and Library of the Mechanics' Institute.

### REFEREES.

Alex. Murray, Esq., of Moffatt, Murray & Co.; A. R. McMaster, of McMaster & Nephews; Thos. C. Keefer, Esq., C. E.; Rice Lewis Esq., John McDonald & Co.; Geo. Michie & Co.; Adam Crooks, Esq.; Mon. J. H. Cameron, Durcan Bell, Esq., Toronto.

Isaac Buchanan, Esq., M.P.P.; Adam Brown, Esq., Richard Jason, Esq., Hamilton.

### SEND FOR CATALOGUE AND LETTER.

For further information send for large Catalogue containing much valuable information. If any points are not clear, write and get a letter of explanation (enclosing seven cents).

### TEACHERS.

Resident Principal and Chief Instructor in the Theory and Practice of Accounts—JAMES E. DAY.

Teacher of Spencerian Penmanship—A. W. SMITH.

Lecturers on Commercial Law—R. A. HARRISON, Esq., B.C.L., Barrister; ROBERT SULLIVAN, Esq., M.A., Barrister.

## DOCTOR DAVIS

CONTINUES TO TREAT

### Syphilis and other Diseases of a Private Nature

IN BOTH SEXES, WITH UNLIMITED SUCCESS,

At his Office, corner of Bay and Adelaide Streets, up stairs. Entrance on Adelaide Street, Toronto.

He has devoted years to the treatment of the various forms of Venereal Diseases, and by his peculiar process of healing, its worst stages are subdued in a comparatively short time.

Secondary Syphilis, pronounced by so many physicians as incurable, can be effectually cured by his infallible remedies.

Young men who have fallen victims to the dreadful effects of Onanism or Self-Abuse, can receive immediate relief by applying to Dr. DAVIS.

Patients at a distance treated by letter, and medicine sent to any part of the country on receipt of a reasonable fee.

Persons wishing to consult the Doctor can do so with the utmost secrecy, as his office is so arranged that it is impossible for patients to see each other, unless by consent.

Advice Free, when obtained at the Office—if by mail, \$1.

All letters must be addressed (post paid), A. DAVIS, M.D., Toronto, C. W., and contain a postage stamp if an answer is desired.
