Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/
Couverture de couleur
- Covers damaged/
Couverture endommagée
- Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- Cover title missing/
Le titre de couverture manque
- Coloured maps/
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur
- Bound with other material/
Relié avec d'autres documents
- Tight binding may cause shadows or distortion
along interior margin/
La reliure serrée peut causer de l'ombre ou de la
distortion le long de la marge intérieure
- Blank leaves added during restoration may
appear within the text. Whenever possible, these
have been omitted from filming/
Il se peut que certaines pages blanches ajoutées
lors d'une restauration apparaissent dans le texte,
mais, lorsque cela était possible, ces pages n'ont
pas été filmées.
- Additional comments:/
Commentaires supplémentaires:

- Coloured pages/
Pages de couleur

<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>								

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

READ THE RECORD.

JONES OF HALIFAX!

The Business Failures of the Two Periods.

THE N. P. SAVES THE BUSINESS MEN.

Life and Fire Insurances—They go down Under the Old Tariff and up under the New Tariff.

VOTE FOR THE TRIED FRIENDS OF THE N. P.

When the Government adopted a High Protective Tariff, when they abandoned the Policy of a Revenue Tariff they did that which was the very worst thing that could be done in the interests of the people of this country.—Hon. D. Mills, House of Commons, 1885.

FAILURES IN CANADA.

Year.	Number.	Amount.
1873.....	994	\$12,384,000
1874.....	686	7,098,000
1875.....	1,068	28,848,000
1876.....	1,728	26,817,000
1877.....	2,869	28,529,000
1878.....	1,007	23,908,000
1879.....	1,909	29,847,000
1880.....	907	7,988,000
1881.....	935	8,731,000
1882.....	787	8,847,000
1883.....	1,379	16,872,000
1884.....	1,308	18,020,000
1885.....	1,246	8,743,000
1886.....	1,369	10,987,000

In 1878 there were 59,347 traders in Canada.
 In 1884 there were 65,998 traders in Canada.
 In 1885 there were 70,048 traders in Canada.
 In 1886 there were 72,680 traders in Canada.

The difference is, therefore, greater than represented in the above diagram, in favor of the years of the National Policy compared with the free trade period. The increase in traders in 1886, over 1878, was 80 per cent.

The highest year after the tariff of 1879 came into operation was 1884, when the amount of liabilities was five million dollars less the lowest year of the Cartwright tariff.

In the year 1879 the failures were chiefly in the early part of the year, before the new tariff was adopted. The thick lines from 1874 to 1879 show the failures under the Cartwright tariff in a most unmistakable way, while the success of the present tariff is demonstrated in an equally unmistakable manner by the lighter lines.

When it is remembered that the years 1884-86 were the years of the severest depression ever known in Germany, Great Britain and France; that in New South Wales last year was characterized by the greatest commercial depression ever experienced during a quarter of a century; that in the United States in 1884 the failures amounted to 225 million dollars, and 121 banks failed, it will be seen that the present tariff in Canada has proved a true bulwark against the old troubles caused by out-of-order making of Canada a slaughter market.

ANY SCHOOLBOY CAN TEST THE LINES IN THE DIAGRAM BY THE FIGURES, AND AT ONCE SEE THAT THE RELATIVE PROPORTIONS ARE ACCURATELY GIVEN

Vote for Prosperity and the National Policy.

No more stupid act of folly was ever committed than in insisting on imitating the Protective Policy of the United States, There never was a country less suited for that experiment than this Dominion of Canada.—Cartwright (House of Commons, 1888).

LIFE INSURANCE RECORD.

When times are bad people don't insure their lives to such an extent as in prosperous times. They drop their insurances because they have not got the money, or cannot spare it. When times are good people insure. The following is the record for Canada, showing the amount of insurances effected each year:—

Year.	Amount.
1873.....	\$21,053,868
1874.....	19,108,321
1875.....	15,074,268
1876.....	13,890,127
1877.....	13,534,007
1878.....	12,169,750
1879.....	11,584,224
1880.....	13,008,887
1881.....	17,819,011
1882.....	20,112,768
1883.....	21,672,060
1884.....	23,417,912
1885.....	27,184,988

The thick lines are the old tariff years. The lighter lines the new tariff years. Same old story. Dwindling down the moment the Cartwright tariff blighted the land. Rising steadily under the Protective tariff.

Wives and mothers have thus a deep interest in the Protective system. It gives work, helps the wage earners, aids them to provide against sickness, and assists them to make provision against death. This is woman's interest in the National Policy.

Vote for the friends of the National Policy.

I stand here to-night and attack their tariff and denounce their tariff, and fight against them and their tariff.—Mr. Paterson, House of Commons, 1888.

FIRE INSURANCE RECORD.

Fire insurance, like life insurance, is dropped when times are bad and is used more and more as times get better. In bad times the amount of insurances become less. In good times it becomes greater. The protective system shows that it is better than the free trade system in this respect. It gives the people the money and they use it to protect their houses and goods against fire.

Year.	Amount at Risk.
1874.....	\$ 808,848,919
1875.....	364,421,099
1876.....	454,608,190
1877.....	430,342,861
1878.....	409,899,701
1879.....	407,367,085
1880.....	411,583,271
1881.....	483,210,068
1882.....	528,968,478
1883.....	673,264,041
1884.....	608,607,799
1885.....	811,794,478

Increase of 1879 over 1874 (free trade period) 22 1/2 per cent.
 Increase of 1885 over 1879 (protective period) 69 per cent.

Edward Atkinson says "Progressive wealth can, perhaps, be measured as accurately by the amount of insurance against loss by fire as by any other standard." The table above shows how steady has been the increase in the amount of property protected by insurance during the protective period, and how it decreased its amount during the disastrous period of the free trade tariff.

Vote for the honest friends of the National Policy.
