GERMAN DRIVE IN BALTIC PROVINCE CHECKED BY RUSSIANS Germany Sends Regrets for Loss of Americans on Arabic TURKISH RESISTANCE AT DAR DANIELLES IS ABOUT TO COLLAPSE Borden Confers With Kitchener—Serbia's Decision Expected Today— German Losses in a Year 1,500,000—Gen. Sam Hughes is Knighted

AUDIENCE WITH KING

Signal Honor Conferred on Militia Minister at Buckingham Palace.

By a Staff Reporter.
OTTAWA, Aug. 24.—A London cable announces that Major-General Sam Hughes, Canadian Minister of Militia, was knighted this afternoon during an audience with King George in Buckingham Palace. He is now a K.C.B. In connection with the knighthood conferred upon General Hughes it is stated that K.C.B. is a civil as well as a military title and ranks higher than K.C.M.G. The only other Canadian K.C.B. is Sir William Otter, who commanded the Canadian troops in the South African war. The only member of the cabinet who has a higher rank than General Hughes is Sir Robert Borden, who is a member of the King's Privy Council.

Ottawa Pleas.
It remains to be seen how the new knight will style himself. He was christened "Sam" and not "Samuel." It is generally supposed. He may assume the whole name of the prophet of old, altho that is unlikely.

News of the honor to Gen. Hughes was well received in Ottawa, where it had somehow become known that something of the kind awaited him in this old country. It is felt that he has done magnificent work, and that his handling of the first contingent, the rapidly with which it was mobilized and equipped and sent to England was a splendid feat.

His Career.
The new knight is 52 years of age, having been born in Darlington, Ont., Jan. 8, 1863, and is the son of the late John Hughes, County Tyrone, Ireland, who came to Canada about 70 years ago. He was educated at the Model and Normal schools, Toronto, Toronto University (honors in English, French, German and history) and Royal Military School. In early years he was a public school teacher and taught at Belleville, where it was made by him that he retired from this profession in 1885, he devoted himself to journalism and was editor and proprietor of the Sunday Worker until 1897, in which year he took part in the military display at London, England, in connection with the coronation of King Edward VII. He held a medal, an offer of the 45th Regiment for active service in any part of the world, and was promoted to the imperial government at that time. He took part in repelling the Fenian raid 1870 and in the South African war 1899-1900. He led the attack on the capture of Douglas and Orpen's Heights and Fabers' Pass, being three times mentioned in despatches. Having held the rank of assistant adjutant-general with the S.A. field forces he was promoted colonel a year after peace was proclaimed. He entered parliament in 1892 and became minister of militia under Sir Robert Borden in 1911, and had been in office but a few months when he was appointed to the present position.

Previous to her marriage to the minister of militia Lady Hughes was Miss Mary E. Burk, daughter of H. W. Burk, one time M.P. for West Durham.

You Can Save Substantially at Dinner's Today.
Just before putting on their great fall showing at Exhibition time, the Dineen Company, 140 Yonge street, are clearing stocks of hats at bewildering price reductions. Alterations in the basement also entail drastic "closing out" methods, and raincoats, motor dusters, summer overcoats and caps are selling at one-third and less off. The chances in men's hats—straws and Panamas—should surely appeal to those who insist on saving. It's easily worth while calling and looking over the articles named above.

EARLY SUCCESS IN DARDANELLES SEEMS CERTAIN

Constantinople Plunged Into Deepest Depression by Terrible Losses.

SERBIA NEAR DECISION

Reply Favorable to Allies Expected Within Next Few Days.

LONDON, Aug. 24.—Optimistic reports concerning operations on the Gallipoli Peninsula have been in circulation for the past few days and prophesies are freely made that a few weeks will see the close of the allies' most difficult task in the near east. The Turks, too, expect the Anglo-French forces to be successful, if news reaching Sofia from Constantinople is reliable.

The population of Constantinople considers the situation grave, according to information received at Sofia, Bulgaria, says a Reuter despatch. Violent fighting has been in progress on the Gallipoli Peninsula for the past week and it is declared thousands of wounded are arriving every day at Constantinople. At the same time thousands of fresh troops are being sent to the Dardanelles front. The security of the coast is said to have added to the general feeling of depression.

A Reuter despatch from Nish says that the Serbians are not expected to reply to the proposals of the entente allies until the end of the week. The government is being watched with interest, and the decision of Serbia on the proposals of the quadruple entente will be able to overcome the objections offered and agree with certain reservations. A final decision will be reached tomorrow at an extraordinary council of ministers at which King Peter will preside.

Aid Against Austria.
In fact, it is felt here that so far as the Dardanelles is concerned it is a matter of indifference to the allies whether the Balkan states lend a hand. Their assistance is wanted, however, against Austria and also to shorten Turkish resistance if the straits are opened. For these reasons negotiations with the near eastern capitals are being watched with interest, and the decision of Serbia on the proposals of the quadruple entente will be able to overcome the objections offered and agree with certain reservations. A final decision will be reached tomorrow at an extraordinary council of ministers at which King Peter will preside.

It is believed in London that Serbia's reply will prove satisfactory, and that Bulgaria's would open the way also for an active policy on the part of Roumania, who wants assurances away for two months. Sir Sam Hughes will probably be back before the prime minister.

BALKAN LEAGUE PREPARES TO FIGHT

ANTHRAX APPEARS IN WATERLOO TOWNSHIP

Discovery of Deadly Disease May Result in Closing Up Farming Territory.

Special to The Toronto World.
BERLIN, Ont., Aug. 24.—The deadly disease of anthrax has again made its appearance in Waterloo Township. Dr. A. Henchoff, V.S., health officer for the township, made the discovery today, and has made his report to the provincial health officials at Toronto. This is the second case in two months discovered on the Weber farm, near German Mills, and may result in the authorities closing up this territory for general use for farming purposes. Dr. Henchoff expressed himself as a strong advocate of the opinion that this is due to too much raw sewage floating down the creek from the Berlin tanneries, which might result in an action for damages against the city.

RUSSIANS OFFER STOUT DEFENCE AT ALL POINTS

ENEMY ENTER KOVEL

Stiff Resistance All Thru Baltic Provinces Being Made, However.

LONDON, Aug. 24.—Austro-German armies are aiming more heavy blows at Russia in the hope of putting her on the defensive indefinitely and permitting the removal of some of their own troops to other fronts, particularly Serbia and Italy, in the hope of repeating their eastern successes. The Russians are encouraged, however, by their naval victory in the Gulf of Riga, which has delayed Field Marshal von Hindenburg's great outflanking movement thru Courland and are offering very stiff resistance at almost every point in the Baltic provinces.

Earlier in the day Berlin announced that Gen. Mackensen's troops had stormed and captured the hill at Kopylov, on the southwestern front of the fortress of Brest-Litovsk.

An official report from Vienna tonight says that the Russians who have been stubbornly resisting the Austro-German advance in the district of Wierchowice and Razna, north-west of Brest-Litovsk, have been forced to retreat.

It is claimed that the number of men taken by the army of Archduke Joseph Ferdinand in the last battles was 1300 men and four officers. The statement adds:
"North-east of Vladova our allies again repulsed the enemy and gained ground. Austro-Hungarian and German cavalry, in pursuit of the enemy, entered Kovel (40 miles southeast of Brest-Litovsk) and now are advancing northward."

Early evacuation of the Cities of Vilna and Bialystok was foreshadowed in semi-official advices from Petrograd. The Russian forces in retreating will retain two trench lines and various branches sufficient to enable the

FRENCH AEROPLANES SCORE ONCE MORE

More Than Eighty Bombs Dropped on Tergnier and Noyon Stations.

MINOR ENCOUNTERS
Close Range Conflicts Reported in Champagne and Argonne.

Special Cable to The Toronto World.
PARIS, Aug. 24, 10:30 p.m.—Another successful air raid is reported in tonight's official statement. It is stated that a squadron of seven aeroplanes, on the night of Aug. 23-24, shelled the stations of Tergnier and Noyon, dropping more than 80 bombs. Several fires were started, one in the Tergnier station. Every aeroplane returned in safety.

There has been furious fighting on the Perthes-Beauselour front in Champagne, and also in the Argonne, grenades and bombs playing a large part. Marked artillery activity is being shown in Belgium, in the region of Bosingat, and in France in Artois, the sector to the northeast of Arras, and between the Somme and the Oise. The enemy dropped a few shells on Mondidier, but French batteries soon silenced the German guns.

GERMANY EXPRESSES REGRET OVER ARABIC, ASKS FOR DELAY

Wants U. S. To Take No Definite Stand in Regard to the Affair Until German Side is Heard.

WASHINGTON, Aug. 24.—Count von Bernstorff, the German ambassador, communicated to the state department today instructions from his government, expressing regret and sympathy if Americans lost their lives in the sinking of the liner Arabic, and asking that the United States delay taking a definite stand in regard to the affair until Germany could be heard from.

This was the first word from an official German source concerning the Arabic, on which the American perishes. Its receipt was followed by an evident relaxation of the tension which had been growing here as days passed with no indication of a desire on Germany's part to disclaim an intention of committing an act "deliberately unfriendly" toward the United States. No attempt was made either at the state department or the White House to interpret the ambassador's communication. Officials merely said that of course the American Government would await the German explanation of the action of the submarine commander in sinking the liner.

BORDEN IN CONFERENCE WITH EARL KITCHENER

Sir Robert Also in Consultation With Gen. Von Donop, Gen. Coldwell, Earl Grey, Lloyd George and Bonar Law.

Particular attention was attracted here by the assertion in the German communication that in the opinion of the imperial government the accounts of the sinking of the Arabic, which have come from England, could not correspond with fact. These accounts, in affidavits by the captain of the ship and American survivors, have agreed that the Arabic, an unarmed passenger vessel bound for the United States with no contraband in her cargo, was torpedoed without warning by a submarine.

It may be a week or more before Germany is heard from further. The report of the submarine commander must be awaited in Berlin, and it is known that sometimes ten days or more elapse before the underwater boats return to their bases and communicate with the admiralty.

TURK-BULGARIAN AGREEMENT MADE?

Berlin Sends Out Report That Negotiations Have Been Concluded.

CONFLICTING OPINIONS
Significance of Announcement Varies Interpreted by German Papers.

LONDON, Aug. 24.—A despatch to the Exchange Telegraph Co. from Amsterdam, says:
"A Wolff Telegraphic Bureau message from Berlin states that the Bulgarian Government has informed the Bulgarian minister at Berlin that Bulgarian negotiations with Turkey have come to an end."

The Vossische Zeitung infers from this that an agreement actually has been reached. Other papers state that if an agreement has been reached it deals only with the rectification of the frontier and contains no political clause bearing on the war.

COMMODITY PRICES DECLINED IN JULY

Chief Decreases Were in Flour, Oatmeal and Canned Goods.

DAIRY PRODUCTS RISE

War Did Not Seriously Reduce Supply of Meats and Vegetables.

By a Staff Reporter. OTTAWA, Aug. 24.—The labor department's index number showed a slight decline in July.

Prices were higher in grain, hay, eggs, milk, potatoes, turnips, rice, wool, beavercloth, knitted woolen underwear, cottons, jutes, harness leather, copper, lead, quicksilver, solder, tin, spelter, zinc, galvanized sheets, barbed wire, lead pipe, red lead, mixed paints, white lead, paris green, copper wire, anthracite coal, muskrat skins, and manilla rope.

Since the beginning of the war the principal increases have been in grains and dairy products, miscellaneous goods, textiles (woolens), metals (zinc, copper, etc.), miscellaneous building materials, paints, oils and glass, drugs and chemicals.

All food prices rose immediately on the outbreak of war and remained on levels higher than a year before, except meat, fish, fruits and vegetables.

The present increase in retail prices is shown by a budget of weekly expenditures for a family of four.

The cost of a list of some thirty foodstuffs shows a rise from \$7.42 in July, 1914, to \$7.80 in July, 1915.

Meats rose the most, and the increase was due chiefly to the rise in flour, bread, rolled oats, sugar, tea and coffee, butter and cheese.

"In the Riga district there has been no change. In the direction of Jacobstadt and Divinsk towards the west, on Monday there was fighting in places with alternate success. In the district from Kovno to Vilna, Sunday night and the following day, the enemy continued to exercise pressure on our troops, who were holding back his offensive movement."

"Between the Bobr and the Narov we have fallen back from our general positions on the left bank of the Bobr. In conformity with this movement, we evacuated Sunday evening the fortifications at Ossowetz, which forms a sector of these positions."

"During Sunday night and the following day very stubborn attacks by the enemy continued in the region to the east of Bielsk and along the sector of the front of Kleshele. The enemy's attack was repulsed with great success by our infantry, supported by cavalry. We captured some prisoners and quick-firing guns. These actions facilitated considerably our occupation of new positions on the right bank of the Bug. Sunday night we stopped an offensive in the direction of Kovel. In the Puzhka region a battle which began Monday continues."

WOODWORTH'S UNRULY WITNESS

Remount Buyer From New York Asserts He Did Buy—ing Gratis.

RESENTS "ASPERSIONS"

Sir Charles Davidson Insists on Questions Being Answered.

KENTVILLE, N.S., Aug. 24.—Starting out at the beginning of his five hours on the witness stand today by testifying that Charles Davidson, head of the war contracts commission, for showing bias in refusing to accept an explanation he offered for not previously attending to give evidence, Todd C. Woodworth, New York, remount buyer, precipitated a number of unusual incidents in the course of his explanation of his deals.

Woodworth protested vehemently against the aspersions which he claimed had been cast on his character. He stated that he did the buying gratis because he wanted the good will of the Canadian Remount Department in order to get large contracts from the British remount buyer.

Sir Charles Davidson asked Woodworth if he knew F. B. Keevor, one of the remount buyers, and upon the witness saying he did and that he saw him recently in Boston the commissioner said:

"I understand that Keevor has been subpoenaed to give evidence at Halifax on Thursday. It is of vital importance that he should be there. His evidence shows discrepancies in his accounts and the result of the mass of evidence we have taken up is quite serious and will need an explanation in some way."

Woodworth promised to do his best to get Keevor to attend.

Woodworth said that A. DeWitt Foster, ex-M.P., accompanied him to Halifax as purchaser. Mr. Foster had no part in the buying. He talked politics to the vendors. Politics and business seemed to go together in Nova Scotia.

Commissioner Thompson asked Woodworth on two occasions, if he had got any of the money paid out for horses and if Mr. Foster got any. On the second occasion the witness flushed angrily and shouted:

"I know you are an honest man, and I object to the irritating repetition of the question, as it is a re-iteration. It is in line with the way my name has been bandied around here and in the papers."

Given Sharp Rebuke. Sir Charles Davidson said: "You will answer the question, sir." Finally witness expressed regret to the commissioner and answered in the negative.

Woodworth said that when he had concluded the buying of 129 horses, he turned a statement to Foster, who he presumed, sent it to Col. North, head of the remount department. The colonel had not asked him for a report, so he rendered none.

He did not go over the buying account with Keevor, the afterwards witness compared averages. He thought that the only reason Woodworth was referred to the mention of Aid. Weir's name as most amusing, stating that Aid. Weir was the only one of the council who knows anything to expose it," said Aid. Roden.

Chairman Hodgson of the board of education refused to have anything to do with the whole matter, stating that if any member of the board had lobbied for Doughty, it was his own affair.

MAY INVESTIGATE STATEMENTS MADE

Aldermen Who Figured Prominently in Council Meeting Busy Yesterday.

EACH ONE IS ANXIOUS

Controllers Take No Action, But Others Willing for an Inquiry.

Despite the fact that the aldermen who figured prominently at Monday's council meeting were busy yesterday explaining matters, there may yet be an investigation into the charges made, as Crown Attorney Corley has requested the detective department to investigate the statements in the affidavit of George A. Hodgson, to the effect that Aid. Meredith had offered to vote for Col. Langton if he could get the latter's position.

Crown Attorney Corley would say nothing in regard to the matter except to read the report of the report of the council meeting and that he had written Inspector Kennedy, asking him to put a detective on the case and submit a report.

The board of control took no action in regard to the affidavit at its meeting yesterday. Mayor Church was for letting the whole matter drop, but an alleged conversation between one Hodgson and one Meredith was not mentioned.

Ald. Meredith repeated his denial of the charges, and had an affidavit denying the same. He maintained his statement that he had been canvassed to vote for Doughty by several men, but that he had refused to do so.

Ald. Roden, who presented the affidavit regarding Aid. Meredith, stated that the only reason Hodgson could have had in giving it to him was that he was a strong supporter of Langton.

He denied the charge of Aid. Meredith in regard to the winning and dining of Langton's supporters. He referred to the mention of Aid. Weir's name as most amusing, stating that Aid. Weir was the only one of the council who knows anything to expose it," said Aid. Roden.

Chairman Hodgson of the board of education refused to have anything to do with the whole matter, stating that if any member of the board had lobbied for Doughty, it was his own affair.

Dr. W. E. Struthers, formerly chief medical officer of the board of education, refused to have anything to do with the whole matter, stating that if any member of the board had lobbied for Doughty, it was his own affair.

REDINGOTE THE COAT OF THE DAY

Handsome Silks, Soft and Pliable, Effectively Used.

TRIMMINGS ARE NOVEL

Many New Designs in Collars, Cuffs and Belts Are Noticed.

Soft silks that have also a suggestion of ribbed or corded weaves are employed in developing the most popular of fall wraps—the redingote. Paris, where the fashions of the world are still dictated, has given the redingote much favor during late summer weeks, and authorities on this side of the water promise it an unrivaled popularity this autumn.

Materials which will drape, shirr and cord successfully are a necessity for the present modes, hence the continued demand for silks and soft worsteds. The taffeta "craze" has been followed by one of surah, of gros grain and of ribbed silk. Plain colors are for the most part in evidence, although a few very rich brocades in indirect effects are shown in the more elaborate models.

The redingote may be fashioned on severely straight tailored lines or it may be carried to more extreme styles in which figure ripple, side sections, huge rolling ruffs, Louis XVI waistcoats and flaring cuffs. Belts are displayed on some of the newest models.

Sometimes the redingote is made of dozens of buttons applied in rows on sleeves, lapels, pockets and revers. Sometimes the redingote is made of striped or figured silk as introduced, one particularly stunning coat in navy blue surah having a smart vestee and collar of black and white stripes.

The following resolution was unanimously passed by the executive committee of the Toronto Women's Patriotic League and has been forwarded to the acting premier:

Whereas there is an immediate need for some institution for those brave soldiers who are being sent back from the front as medically unfit, for further service; and

Whereas many of those soldiers require special medical or surgical treatment in order to have them on permanent disability; and

Whereas in cases where, owing to physical disability, these men can never resume their former vocation, it is essential that they be given such technical training as may enable them to become at least in a measure, self-supporting;

Therefore be it resolved that the Toronto Women's Patriotic League respectfully petition the Ontario Legislature to take this matter into their serious consideration and if possible arrange for the establishment of such an institution with as little delay as possible.

Mrs. Van Koughnet, convener of the soldiers' comforts committee, reports that a request has been received from the necessary equipment for the Red Cross work at Niagara camp. The league has asked the many athletic clubs in Toronto to help them supply this very pressing need.

OWNERS OF ARABIC MAKE FACTS CLEAR

Many Untrue and Misleading Reports Current Regarding Disasters.

CANNOT BEFOG ISSUE

German Attempts to Dodge Blame Absurd in Light of Evidence.

LONDON, Aug. 24.—The managers of the White Star Line at Liverpool gave out to the newspapers today the following:

"At the time of the Lusitania torpedoing many misleading and untrue statements appeared regarding the vessel. Similar statements are beginning to be hinted at in connection with the Arabic, which are equally untrue. For this reason we thought you would like to have one or two definite facts that had better be published at once in order to prevent people from hazarding opinions and finding excuses for the torpedoing."

Facts Are Clear.

"There is no doubt the Arabic was struck by a torpedo. Capt. Finch did not see the submarine, but undoubtedly saw the torpedo."

"There is no question of the Arabic having tried to ram the submarine because it was not seen from the bridge."

"There is no question of the Arabic having tried to escape, except the very proper precaution of having put the helm hard over when they saw the torpedo."

"The Arabic was undoubtedly sunk without warning. She was in peaceful trading, with various nationalities aboard. She was outward bound, so there is no question of munitions, and she was not disguised in any way, nor had she any guns mounted."

"The statement has appeared in the press that she was off the south coast of Ireland, which leads some people to think she was near the coast. As a matter of fact, she was over sixty miles south of Ireland."

Thoro Precautions.

"With respect to precautions taken, these were very thoro and very proper, having regard to all that has taken place in the danger zone. The captain had life jackets on hand for everybody. Rafts were unlashd and deck lifeboats opened up, and both rafts and deck lifeboats played an important part in life-saving, as well as the regular lifeboats."

An Exchange Telegraph despatch from Amsterdam states that the German admiralty in Berlin announced this morning that it has not received any report from the commanders of its submarines that the White Star liner Arabic was sunk."

BRITAIN THINKS U. S. MAY GO TO WAR

LONDON, Aug. 24.—Impressed with the activity of the German-American situation, as reported by the English press, insurance underwriters today were offering odds averaging only \$7 to \$8 that the two countries will not go to war. Thus far, there have been no takers.

GERMANY ASKS U.S. TO SHOW PATIENCE

Berlin Promises to Give Its Version of Sinking of Arabic.

PROFESSES SYMPATHY

German Government Says Desire is to Spare Lives of Americans.

NEW YORK, Aug. 24.—Count von Bernstorff, the German ambassador, today received the following instructions from Berlin, which he communicated to the department of state:

"So far no official information is available concerning the sinking of the Arabic. The German Government trusts that the American Government will not take a definite stand at hearing only the version of one side, which, in the opinion of the imperial government, cannot correspond with the facts, but that a chance will be given Germany to be heard equally."

"Altho the imperial government does not doubt the good faith of the witnesses whose statements are reported by the newspapers in Europe, it should be borne in mind that these statements are naturally made under excitement which might easily produce wrong impressions."

"If Americans should actually have lost their lives this would naturally be contrary to our intentions. The German Government would deeply regret the fact, and begs to tender sincerest sympathies to the American Government."

The ambassador made no comment upon the statement, and an attaché said that the statement spoke for itself. The attaché said that the German Government would be glad to receive from Count von Bernstorff's rooms in an uptown hotel. The ambassador denied himself to all callers today."

LEO FRANK'S SLAYERS WILL EVADE JUSTICE

No Clue to Identity of Men Who Broke Into Jail.

MARIETTA, Ga., Aug. 24.—Without being able to shift from any one of eleven witnesses a single clue as to the identity of any person connected with the lynching of Leo M. Frank near this city last Tuesday morning, a coroner's jury returned a verdict that Frank came to his death by hanging at the hands of parties unknown. City and county officials testified that they had endeavored to get at the facts of the lynching, but so far their efforts had been of no avail.

RUSS DESTROYER DISCOMFITED FOE

Novik Proved Unpleasant Surprise to German Mosquito Fleet.

LOOKING FOR SLAVA

Enemy's Quest of Russian Pre-Dreadnought Led to Disaster.

LONDON, Aug. 24.—Petrograd has at last semi-officially divulged the names of two of the Russian warships which took part in the Gulf of Riga operations. It was the Russian pre-dreadnought Slava which the Germans were after, a vessel of 13,516 tons, laid down in 1902 and completed in 1905.

When, however, the Germans sent two of their best torpedo boats into the gulf to find the Slava, they found, instead, the Russian destroyer Novik, which proved too much for them. The Novik is the pride of Russia's mosquito fleet. It displaces 1262 tons, has 40,000 horsepower, has a speed of 36 knots, and carries four 4.1-inch guns as well as four machine guns.

Day Aided Germans.

Reuters carries a semi-official Petrograd statement which gives new details of the fight, which apparently began as an unequal combat between the old Russian battleship Slava and German Dreadnoughts.

"The importance of the fight," the statement says, "consisted in preventing the Germans for a certain time from forcing our position. Calm, foggy conditions favored the enemy's operations, enabling him to escape our observation and proceed more quietly with the work of mine destroying. The operations, nevertheless, cost the Germans some vessels and one cruiser, which blew up on mines."

"The night of the 17th the enemy sent into the gulf two of his best torpedo boat destroyers to attack the Slava, which had prevented his operations at dawn. These torpedo boats were unable to find the Slava, but while proceeding in the region of their squadron, encountered our torpedo boat destroyer Novik, which engaged them."

"After 20 minutes of fierce fighting the leading enemy torpedo boat had her funnel demolished and suffered severe damage, which compelled her to take to flight. The other torpedo boat, which went to the assistance of her consort, also gave up the fight and soon afterwards the more seriously damaged vessel apparently sank."

Transports Lured On.

From details of the attempted German landing in the Gulf of Riga in The Novoe Vremya, it appears, says a despatch from Petrograd to the Central News Agency, that three large transports filled with troops approached the shore under cover of a German squadron. The German ships were allowed to come close to land before a terrific artillery fire was opened by the Russians.

A duel between the cruisers and shore batteries continued for two hours, when the last transport was sunk. Only a few crowded boats then remained, and these were soon smashed to pieces by the Russian fire. The German squadron managed to destroy some houses with their long range guns. During the attempt to land at Pernoff, the Germans also descended on Gainsko, to the south of Pernoff. Two lighters filled with troops, on attempting to reach the beach at Gainsko, were sunk by Russian shells.

Abundant POWER all the time

What the Siege Guns Teach

THESE diagrams of a modern siege gun and the three different types of automobile engine valves in general use clearly reveal the logic of the "Valve-in-head" principle in automobile construction.

The McLaughlin "Valve-in-head" Motor is built on the same engineering principle as the siege gun—a principle as fixed and unchangeable as the laws of gravity. It develops from 15% to 20% more power than any other type of motor. That means power—plenty to use and plenty in reserve.

McLaughlin "Valve-in-head" Six Cylinder Power is smooth, steady, vibrationless, with abundance efficiency in the seven magnificent 1916 McLaughlin Models—every one a six.

Power is the life of an automobile. The motor (which generates the power) is the most expensive single factor in the construction of an automobile, representing one-quarter of the cost of the finished product, and in point of service, possibilities and general satisfaction, it represents nearly 75% of an automobile's value. Therefore—your decision of the choice of a car should be largely governed by the proven merits of its motor.

Skeeters Blanked in Both Ends of the Bill—Jersey City Team Presented Strange Appearance With Pitchers in Outfield and Outfielders Playing the Infield.

Special to The Toronto World. JERSEY CITY, N.J., Aug. 24.—With a team made up of pitchers in the outfield and outfielders in the infield; Joe Yeager's Jersey City Skeeters failed to measure up to the strength of Billy Clymer's Maple Leafs in the double bill which featured the wind-up session between these rivals for this season at West Side Park, and Jersey City was handed another double application of defeat by the Clymer squad, making it four of a kind, giving the Canadians a clean sweep. The scores were 2 to 0 in the opening tilt, and 4 to 0 in the nightcap session, which terminated by mutual agreement with the seventh inning. Five of Jersey City's regulars were on the hospital squad as the result of the battering on Sunday, and Manager Yeager had to hustle to get together enough men to fill out a team. Barry and Bases being the latest to join the bunch of cripples. In spite of their battered condition, Jersey City put up a formidable defense, and Toronto had to fight hard to force thru the winning counts. Both contests developed keen struggles on the hurling line. Luque led the attack for the Leafs and squeaked thru against Johnny Verbout by holding the locals runless, while his associates filled in a pair of tallies. Luque got out with only five wallops against him, while Toronto touched Verbout up for six. In the final exchange of shots, Herbert continued the good work of his predecessor by restricting the opposition to five singles, while Clymer boys hammered Jimmie Ring for seven. It was an even race and anybody's game up to the seventh, which proved lucky for the Leafs, as they succeeded in covering the circuit with what proved the winning counter. Daley did the trick by lifting a fly between center and right fields which just grazed Manning's fingers and was sprouted for the ball, and Daley counted a pair of pillows. Gramms hit in front of the plate, and Schwert grabbed the ball and then threw wild toward third and Daley scooped home. Luque's hit in the eighth, Williams' fielder's choice, which retired the Cuban at second, Rath's out at first and a single by Gilbert accounted for the run in the eighth.

At New York (A.L.)—Pittsburgh pitched shut-out ball yesterday, and Cincinnati made three out of four from Brooklyn by a score of 10 to 0. The Reds' pitchers, including the one-handed catcher, were the heroes. Williams got six put outs, one of which, a one-hand catch of a long drive by Myers, cut off a homer. The Dodgers used four pitchers, all of whom pitched well. A one-handed catcher of a liner by O'Mara, which ended in an unassisted double play, was the highlight of the game. Score: R. H. E. Cincinnati.....1 1 1 0 1 1 0 0 0 3 1 Brooklyn.....0 0 0 0 0 0 0 0 0 3 1 Batteries—Toney and Clarke; Dell, Appleton, Douglas, Rucker and McCarly. ATHLETICS. Le Roy Campbell, the national and inter-collegiate half-mile champion of America, has sent in his entry for the Exhibition sports on Saturday, Sept. 4, at the University of Chicago, and attends the University of Chicago, and wears the colors of that university in his races. The westerner has been somewhat of a sensation in athletic circles, and has some wonderful performances to his credit. On athletic day at the Fair he had the toughest race at the time before him. Among his opponents will be Abel Kiviat of New York, the 1000-yard record-holder of America; Ted Meredith of Philadelphia, the world's half-mile champion and record-holder; Norman S. Bob of Boston, the world's mile record-holder; and Jack Tresidder, the Canadian half-mile champion. A new record will likely be the result of the competition these stars are capable of showing.

MOTORCYCLE MARATHON. Vernon Walker, the clever motorcycle rider from Detroit, may be a starter in this year's motorcycle Marathon race at the Motorodrome on Saturday night. Walker is the rider who broke Brownie Carver's winning streak at the drama last season, and many of the fans will welcome his return to Toronto. The big program that was arranged for last Saturday night will be run off next Saturday night, and the American stars, Don and Bob Barclay of Denver and Jimmy Martinson of Boston will be on hand to meet Hamilton, of Detroit, Burchell of Atlanta, Fattison of Buffalo and Dougherty of Detroit.

CENTRAL ATHLETES ON TRACK AND FIELD

G. Gault Wins the Sprint Final and J. Fitzgerald the Standing Broad Jump.

Central athletes competed in two events last night at Varsity field. The 150-yard race was decided in three heats, with G. Gault winning the final. Harry Ridgell, from scratch, won the 100-yard race and all but caught Gault, who had a handicap of 9 yards. At the 75-yard mark the field bunch and Ridgell had to go around them, and lost by inches in 15 flat. The standing broad jump had nine entries and was won by Jack Fitzgerald. He jumped 10 ft. 2 in. V. T. Varty of the Montreal Athletic Club was second. Harry Tresidder ran two miles in 10:35 and finished with a burst of speed. Harry's record is 19 min. in Saginaw on Labor Day and is doing some strenuous work. Walter Newel got second in his heat in the 150 yards, but gave his place to Bill Orton and went the first mile with Treas, which they did in 4:59.

Open Series at Detroit With a Victory—One Hit for the Yankees.

At Detroit (American)—Fleeting of a brand almost superhuman was matched against desperate slugging yesterday afternoon and it gave Boston a 3 to 1 victory over Detroit in the whirlwind opening contest of a series which may decide the American League pennant. Three hits, two of them bunts, and wild throws by Coveleski and Stange, gave the league leaders three runs in the first inning. Only in the fifth, when Bush walked and Cobb dented the right-field screen with a triple, could Detroit score. Many balls were thrown out of the game by umpires, each team alleging the other was out of play, which is to take place next Saturday on the grounds of the Country Club of Detroit. The series has probably there would be some post-enters which would include the total up to or over 149. No foreign players will take part in this series, which is the first international character will be maintained by four Canadian competitors: George S. Lyon and J. M. Hunt.

Bob of Boston, the world's mile record-holder; and Jack Tresidder, the Canadian half-mile champion. A new record will likely be the result of the competition these stars are capable of showing.

ATHLETICS. Le Roy Campbell, the national and inter-collegiate half-mile champion of America, has sent in his entry for the Exhibition sports on Saturday, Sept. 4, at the University of Chicago, and attends the University of Chicago, and wears the colors of that university in his races. The westerner has been somewhat of a sensation in athletic circles, and has some wonderful performances to his credit. On athletic day at the Fair he had the toughest race at the time before him. Among his opponents will be Abel Kiviat of New York, the 1000-yard record-holder of America; Ted Meredith of Philadelphia, the world's half-mile champion and record-holder; Norman S. Bob of Boston, the world's mile record-holder; and Jack Tresidder, the Canadian half-mile champion. A new record will likely be the result of the competition these stars are capable of showing.

PRIZE WINNERS IN FIVEPIN LEAGUE

Steele, of Paragons, Best Average Man at Toronto Bowling Club.

The biggest array of prizes ever handed out in the bowling game in Toronto will be presented to members of the Toronto Bowling Club Fivepin League Saturday night for their work of last season. The occasion will be graced by the presence of Mayor Church and President A. J. Sam McBride and Dave Spence, with a program of amusements, in co-operation with the big annual handicap tournament, which will go on a night that will surpass all past seasons. The averages for the season follow, and will be found to be the biggest and best crop presented since the league was organized, with Bill Steele of the champion Paragons leading the field, with almost 143 average in 53 games rolled, the biggest mark ever recorded at the game. Charley Boyd, the past champion of every season, ten pins down on the leader, did wonders in the second series after a bad start in the first, to nose in for the place over "Gunboat" Simpkins. The balance of the field follow closely in order to the bottom, with "Big" Ed Ryder, who claims pouncing pins more to his liking, drawing up for the cellar honors, with nearly a 104 average in 15 games. The averages:

The "reason why" in these Suits at \$15.00

THERE'S a purpose, ambition and zeal behind these clothes at \$15.00—they're not assembled with the idea of hoping you'll like them, but on the knowledge that you will like them.

WE spent weeks in their selection instead of days—we select slowly, carefully, painstakingly—we work on a "process of elimination" that leaves no residue of commonplace.
