### FOR SALE

Large Tract of Timber  
in Central Ontario

THE PROPERTY OF  
THE CANADIAN LAND AND IMMIGRATION  
CO. OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered  
land about 125 miles northeast of Toronto.  
There are large quantities of Cedar, Hemlock,  
Spruce, Balsam, Basswood, Cherry, Birch, Maple,  
also considerable Pine, Elm and Ash on this  
tract. It is well served by two railroads, one of  
which is about to be extended through the centre  
of the property. The Company are prepared to  
sell this timber in blocks ranging from 5,000 to  
10,000 acres, or more if desired.

There are several good mill sites on the property.  
This would be a good opportunity for  
parties who are at present cut out and looking  
for a new location.

Maps and plans and further particulars can be  
had by applying to  
W. H. LOCKHART GORDON,  
Managing Director,  
157 Bay Street, Toronto.

### CURRENT TRADE CONDITIONS.

#### ONTARIO.

The developments of the past week  
have but borne out the prediction that  
there would be a firm market for lumber  
throughout the winter months. We are  
told of the visit, even at this early date, of  
Chicago and eastern buyers to the mills in  
the Georgian Bay district for the purpose  
of picking up suitable lots of dry stock  
and of arranging for a supply for spring  
shipment. Already a large percentage of  
the white pine cut of the coming season  
has been placed under contract, and we  
have reason to believe that the prices have  
been very favorable to the seller.

The Ottawa Valley production of deals  
for the British market, which will be less  
in quantity than last year, has to a large  
extent been purchased by the middlemen.  
W. & J. Sharples have secured the Ed-  
wards and Hawkesbury cuts; Watson &  
Todd the Arnprior cut of McLachlan  
Bros.; Cox & Company the cut of McLaren  
& Company, Buckingham; The  
McArthur Export Company the cut of  
Gillies Bros., Braeside; Duncan, Ewing &  
Company the cut of McLaurin & McLaren,  
East Templeton, and Dobell, Beckett &  
Company and W. & J. Sharples the cut of  
the Three Rivers mills. The balance of  
the cuts are under negotiation and will no  
doubt be immediately contracted for. The  
price, in nearly every case, represents an  
advance on last year's figures.

In hemlock and hardwoods the market  
is steadily gaining strength and seems  
likely to reach a higher basis for the 1903  
production. Some classes of hardwood  
lumber are so scarce that dealers have  
abandoned all efforts to find a stock  
sufficiently large to handle at a profit, and  
are devoting their attention to placing  
contracts for the new cut.

#### QUEBEC AND NEW BRUNSWICK.

Quebec spruce lumber is being con-  
tracted for quite freely, a large portion of  
the deal production having already been  
purchased at an advance on last  
year's prices. On account of the in-  
creased cost of logging there seems  
little probability that the cut will be any  
larger than last year, while, by some it is  
predicted that the quantity of logs tak-  
en out for lumber will this season show a  
reduction. The increased cost of stumpage  
will also tend to sustain prices. The  
figures of the Miramichi lumber trade  
have been given out. The total ship-  
ments for the season were 122,000,000  
feet, a decrease of 7,000,000 feet as  
compared with the previous year. The

winter stock shown a reduction of approximately 15,000,000 feet.

The lumbermen regard the outlook for spruce lumber in a very favorable light. Logging operations are progressing satisfactorily and most of the mills expect to secure a full stock of logs. In some parts of Nova Scotia, however, limited operations are the rule and loggers are giving more attention to cutting pulp wood.

#### MANITOBA AND BRITISH COLUMBIA.

Lumbermen of the west are in good spirits over the successful year just closed and the prospects for a continuance of the good times. In Winnipeg alone \$2,395,000 was expended in 1902 in building operations, and at outside points there was corresponding activity, which called for a large consumption of lumber. During the current year farm building improvements promise to be an important factor in the lumber trade, and dealers are already stocking up to meet the demand. Prices remain about stationary, with a disposition to buy at present values in anticipation of an advance towards spring. In British Columbia the high price of logs overshadows every other feature of the lumber business. Record prices have recently been paid, with no prospect of an immediate change to a normal basis.

#### UNITED STATES.

The price list committee of the Mississippi Valley Lumbermen's Association at a meeting last week decided to make no advance in the price of dimension timber. One of the main objections was that the beginning of the year was no time to make such an advance, which might discourage prospective building operations. Fear of competition from yellow pine was advanced as another reason for continuing the price on the old basis. It was decided, however, to make an advance of \$1 on No. 1 4-inch fencing in all lengths and No. 2 4-inch fencing in 16-foot lengths. Eight inch selects were made the same price as 10-inch, which is equivalent to an advance of \$1. The statements given out at the meeting showed the white pine trade to be in a prosperous condition. While trade is light owing to weather conditions, there is a bright outlook for an active spring business. Box makers at Buffalo have advanced prices, in some cases equal to 10 per cent. Norway pine is scarce and other lumber is taking the place of it in many cases. Prices of hard-wood lumber are steadily growing stronger, under the lead of quarter sawed oak. The scarcity of basswood has not been relieved, and it is remarkable that prices do not advance sharply. Black ash, elm and red birch sell freely, while maple is quiet. There continues to be an excellent inquiry for spruce. Clapboards are practically out of the market and there is an improved demand for laths, which have recovered the slight weakness which prevailed a fortnight ago.

#### GREAT BRITAIN.

In respect to business for the coming season little can be said, as there have been no new developments during the week under review. The buying tendency is exceptionally dull, buyers and sellers showing no desire to come together. Importers seem to fear a retrograde movement which would render unprofitable contracts closed at present prices. Still the prospects for the new year are fairly prosperous and business is sure to become more active in the immediate future. Prices for lumber in stock are very firm; 3x9 second quality spruce is quoted at

£10 10s and third quality at £9 15s per cord. It is predicted that prices for next season will be 10 shillings in advance of 1902 contract figures. Of pine the Timber News says: Canadian pine is realizing unheard of prices, particularly the first quality broads and planks. The broad pine is unusually scarce; in fact, all pine is scarce, but the broads especially so. The last sale of a small line of 3 by 12/2 1st pine, 12/13 feet, was arranged at £33 10s per standard, but it is extremely doubtful if similar stocks could be had now even at this fancy figure. For the plank (3 by 11) £31 10s is being obtained, in small quantities, for good shipments. Second and third quality plank and deals are proportionately as dear.

#### STOCKS AND PRICES.

The city of Sherbrooke, Quebec, is asking for tenders up to January 20th for supply of 50,000 feet of lumber.

A. J. Seaman, of Port Arthur, Ont., has secured the contract to manufacture 1,600,000 feet of lumber at Nepigon, where he is setting up a portable mill.

The Ogilvie Flour Mills Company is taking tenders for the supply of 5,000 spruce, pine or tamarack piles for the construction of a flour mill and elevator at Fort William, Ont.

At North Tonawanda lath are as scarce as ever and dealers are just about cleaned out of this item. Shingles are a little more plentiful than usual, but they are held at good prices.

It is reported that Buffalo dealers will make a further advance in the price of hemlock lumber, which is now selling on the basis of \$15. The demand, especially for boards, is strong.

McArthur Bros. have contracted with the Escanaba Woodenware Co., of Escanaba, Michigan, for 40,000 cubic feet of rock elm, to be shipped to London, Eng., by vessel early next spring.

The Turner Lumber Company, of Midland, Ont., are putting in 50,000,000 feet of logs this winter, 25,000,000 of which will be manufactured at South River and 25,000,000 feet at Midland. They also are holding over 10,000,000 feet of logs to be cut at Midland the coming season.

December business at Saginaw, Mich., was fairly good in box stuff, the demand holding up active, and there is a belief that box lumber will be a scarce commodity before spring. Some orders are placed for stock to be delivered early in the year.

In Chicago pine piece stuff is selling on the basis of \$18.50 to \$19; 1-inch A select stock, \$70 to \$75; 1 1/2 to 2-inch shop, \$50; clear finish, \$80; thick uppers, \$90; No. 1 common stock boards in 8 and 10 inch widths, \$23.50 to \$24; No. 1 fencing, \$28; 2x12 in 14 and 16 foot, \$22.50; hemlock piece stuff, \$15.50 and \$16.

During the past season Buffalo received by lake 208,350,000 feet of lumber, as against 200,548,000 feet in 1902. The stock of white pine in that city is larger than one year ago, though this is not true of hardwoods. Bay City dealers report a good trade in hardwood lumber. Up the lines of railroad log run hard maple is quoted at \$13 to \$13.50, basswood at \$20 and hemlock at \$9.50.

Large quantities of pulp wood will be taken out this winter in the province of Quebec. In the St. Maurice river over 20,000 cords will be cut. The Laurentide

Pulp Company expect to get out 50,000 cords in the Grand Mere district, and the E.B. Eddy Company will secure the same amount in the Gatineau district and the Temiscaming district. The Belgo-Canadian Pulp Company is figuring on securing at least 20,000 cords, while the export to the United States will be larger than usual.

Logs are scarce in British Columbia that recently a buyer offered \$8 per thousand feet for the content of two booms which are lying at one of the up-coast inlets. Ordinarily the logs, which were fir, would not bring more than \$4.50 or \$5 per thousand, although for several months they have brought from \$6.50 to \$7 per thousand. These excessive prices are due to the labor famine. The wages of woodsmen have been higher during the past fall than for many years past. Competent men can secure almost any pay in reason.

John Kilburn, a large logging operator in Quebec, reports the outlook for the season's work to be very promising. The cut in Quebec this winter will be about up to the average. Mr. Kilburn will cut from 5,000,000 to 6,000,000 feet in Quebec, and on the American side about 1,500,000. The cut on the Allegash this winter will not be as heavy as last winter, but there will be a larger cut on Black River. John McConnell, of Marysville, will cut from 8,000,000 to 10,000,000 feet on the Black River, he being one of the heaviest operators. The output on the Tobique this season promises to be as large as last.

A. A. Scott, of McGregor, Ont., expresses the following views on the cooperage stock market: "No. 1 and sugar stock has been in good demand all season. The result is, I believe, there is little or no stock of this class in the hands of manufacturers. The price for this grade of stock has advanced from 50 cents to \$1 over last season's figures. There is, however, a large stock of No. 2 staves on hand which are being offered at a reduction of from 50 cents to \$1. The demand for hoops has been good all season, and prices have advanced

from 50 cents to \$1. I am safe in saying that we need not expect a shrinkage in prices for either hoops, heading or No. 1 staves during 1903."

**HARDWOODS AT BUFFALO.**

Of the hardwood market at Buffalo the American Lumberman says:

Demand is such that practically all dealers report a decrease of stock and no prospect of making up the deficiency right away. The scarcity of quartered oak is such that the present price, \$66 to \$68 for inch, is not considered enough. One dealer is certain that it will be \$70 inside of two weeks. Others agree that the tendency is in that direction. The scarcity of oak is equaled by that of basswood and cherry. Basswood does not go up materially, as it is used in many branches of the business that cannot afford to pay a high price. Cherry makes its own price. Every dealer has his own and if the first customer fails to pay it the second takes it. There is some white ash on the market, but it is not in much demand. Black ash and elm sell well, and red birch is wanted everywhere. There is less call for maple than formerly.

**DOORS AND MILL WORK.**

The new year starts in with bright auspices for the manufacturers and distributors of doors and mill work. Scarcely any of the distributing houses have been actively canvassing the trade during the past two weeks, but their attention has been devoted mainly to closing up the work of the old year, inventorying of stock and preparations for an active prosecution of business starting in this week through the year. Still there has been a fairly good trade, many door men pronouncing the demand the past week as being of un-

usual volume and urgency for the holiday season and the general expression having been that December was, all things considered, one of the best months of the year. Door men usually expect very little business in December, but the past month was a record-breaker and carried with it a good augury for an active trade during the rest of the winter and spring.

The attention of Canadian lumber manufacturers is directed to the announcement of William Sutcliffe, Sons & Company, of Liverpool, England, on page viii of this paper. They wish to secure the British agency for a Canadian firm at present unrepresented on the other side.

**THE BOSTON MARKET.**

The market for spruce lumber at Boston is very firm, with a small supply. The demand is light, but sufficient to prevent any accumulation. The quotations are: Ten and 12-inch dimensions, \$21 to \$22; 9-inch and under, \$19 to \$20; 10 and 12-inch random lengths, 10 feet and up, \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, \$17 to \$17.50; all other randoms, 9-inch and under, 10 feet and up, \$18 to \$18.50; 5-inch and up, merchantable boards, \$17; matched boards, \$18 to \$2; cut spruce boards, \$13; bundle surr.ing, \$17.

The demand for hemlock lumber is quiet, but prices are steady and unchanged: Boards, 12, 14 and 16 feet stock, \$14.50 to \$15 for good eastern; Pennsylvania, No. 1, \$18 to \$19; No. 2, \$15 to \$16.

Western pine lumber holds very firm, with a further advance possible should the demand for seasoned lumber absorb the supply available: Uppers, 1 to 2 in., \$8.40 to \$8.75;

2½ to 3 in., \$9.20 to \$9.75; 4-in., \$9.60 to \$100; selects, 1 in., \$7.60; 1¼ to 1½ in., \$7.60 to \$7.80; 2-in., \$7.80; 2½ to 3 in., \$8.40; 4 in., \$8.60; fine common, 1-in., \$6.75; 1¼ to 1½ in., \$6.90; 2-in., \$7.20; 2½ to 3 in., \$8.00; 4-in., \$8.20; barn boards, \$2.30 to \$3.30; coffin boards, \$2.80 to \$3.20.

There continues to be a firm market for hardwood lumber, with maple and birch flooring in demand: Quartered oak, \$6.30 to \$7.50; plain oak, \$4.20 to \$4.70; common and rejects, \$2.00 to \$2.50; red oak, plain, \$4.30; whitewood, \$4.50 to \$4.70; sap and common, \$3.00 to \$3.50; brown ash, \$4.10 to \$4.40; white ash, \$4.30 to \$4.60; maple, \$3.00 to \$3.40; end-dried white maple, \$4.20; birch, \$2.70 to \$3.00; birch, 75 per cent. red, \$4.50 to \$5.00; elm, \$2.90 to \$3.10.

Shingles are generally steady. Prices are unchanged: Extra cedar, \$3.50 to \$3.55; clear, \$3; second clear, \$2.50; extra No. 1, \$1.75 to \$2.80; British Columbia red cedar, 16-inch, five butts to 2 inches, \$3.50 to \$3.60; 18-inch, five butts to 2 inches, \$4.25; five butts to 1½ inches, \$4.50.

Spruce clapboards are steady at the advance, with the supply very light.

Extra, \$4.30 to \$4.40; clear, \$4.10 to \$4.20; second clear, \$3.75 to \$3.80; extra No. 1, \$3.50 to \$3.20.

Laths are firm and unchanged: One and five-eighths inch, \$3.40 to \$3.45; 1½ inch, \$3.25 to \$3.30.
