## Canada's Immediate Duty to the Empire.

Germany is rapidly growing in population and in productivity. Her people now number over six millions. She has more national policy than any other nation. She builds her railways; she subsidizes her steamships; she organizes her education, her banking institutions, life insurance, many other things, on the lines that will help the nation most as a nation. Organization applied to the nation as a nation is the great characteristic of Germany, and her national policy has been eminently successful. Even her agriculture is organized as no other country has it. She has a scientific tariff based on careful and scientific investigation!

And now that Germany has become so great in population, so strong in organization and so strong in production, she finds herself cramped at home and above everything else largely lacking in raw material. It is not surprising, therefore, that she desires above all things to expand. Having become great, Germans see that they can only be greater by expansion and they must find additional fields for their rising energies, and their growing ambitions. Germany is becoming a tenement house and must have room, and she also wants raw material.

But not only is Germany thus highly organized and rapidly growing in wealth and in population, but she has the largest, best-trained, most highly organized army in the world. What that organized army was able to do in the war with France which destroyed the empire under Napoleon the Third is known to us all.

And Germany has the second greatest navy in the world, also based on the underlying principle of organization, of study, of observation, of thought, and an unlimited expenditure of money. Furthermore she seeks, and this is not hearsay but it is all set out in the law of the country, to make her navy at least the equal of Great Britain and to surpass it in a short time; and she hopes that with her growth of wealth and population, and above all, her national organization, there will be little difficulty in finding the money for so aggressive a policy.

And Germany has come to think for some reason or another that England opposes her development, opposes her expansion, and therefore Germany is credited with the policy of maintaining her army away above any other army and making it the first in the world, and of creating a navy that will out-match England in order that she may be first and that she may grow and have the widest access to the raw materials necessary for her existence and for the immense industries she has created.

As was stated in this column yesterday, we believe that England is bound to allow Germany to expand and to let her have knowledge to that effect.

In the meantime we have no doubt that Germany is preparing herself for a great struggle with England and inasmuch as Canada is absolutely dependent upon England for her existence, and inasmuch that, as Canadians, we desire more than anything else to be a part of the British Empire, it is incumbent upon us as a country, as a nation, as a people, to assume our full responsibilities in connection with the empire and to do our share in maintaining its defence in any struggle with Germany that may impend.

We do not believe that Germany has sufficient ground for what seems to be her belief that she can only get forward by attacking or by crushing Great Britain and her colonies; and time may be able to remove misunderstandings of this kind, and Germany may find a way with no objection from England of growing in a reasonable and in a fair direction.

But in the meantime it all comes back to this, that we must be prepared as Canadians and as members of the British Empire to join in the defence of the empire from the assault of Germans or any other direction.

And that defence consists largely of a strong navy maintained at the highest point of efficiency and costing an immense amount of money. We must find our share of that money!

While Germany is a powerful nation as we have mentioned, she is not invulnerable and has weaknesses that must give her pause before she attacks England. Germany will hardly attack England for some years at least to come. First of all, England's navy at the present moment is superior and can be made vastly superior if the whole empire turns in to that end. We can build more ships; we can enlist more sailors and we can organize our ships of commerce into accessories of the war fleets.

What restrains Germany first of all, and is probably her chief consideration to-day, is the fear of the loss of her sea-borne commerce. If she fights England and is beaten, she will be driven off the seas. She will lose her shipping, she will lose her foreign trade and for a long time she will drop down in the scale of nations. One way to keep Germany in this state of non-interference is to maintain the supremacy of the English fleet.

Next is the fear that the German emperor must have of the collapse of the feudal institutions under which he rules his country. The idea of a war lord is distasteful even to the German people and most of all are the German people coming to realize that while they are strong they are not free, that democratic institutions and democratic equality which obtain in many other countries are denied them—that one man who happens to be an aristocrat, in title or wealth, has more political influence than ten ordinary workmen or farmers. In fact the political influence of the many is so degraded and stepped-down that Germany to-day has the least popular government of any of the great nations of the world.

The emperor fears that this system cannot last and he fears if he entered on a great war with England he might be defeated, or worse still the autocratic system of which he is head would be overturned and the Germans as a people declare for a democracy, for a republic, or at the very least for constitutional and progressive government in some form or another, and that he and his family might be killed for ever.

Therefore the ruling Germans fear most of all the loss of their foreign commerce and the shipping that goes with it and the overturning of their feudal political institutions.

The main strength, therefore, of Great Britain appears to lie in the maintenance of a strong navy, in being prepared in self-defence to strike a deadly blow at the German navy and German commerce and maintaining at home the development of progressive institutions that will make the great mass of German people sympathetic and desirous of similar institutions rather than that they should seek to destroy the one country where all political liberty has its origin and where freedom is continually broadening. From their aspect the one way to beat Germany and the war lord is to maintain and promote more free institutions in England—and it is just a question whether the Conservatives in England to-

## CANADIANS HONORED BY KING GEORGE

Sir Henry Pallat, D. R. Wilkie, Mrs. Samuel Nordheimer and Others Members of Order of St. John.

LONDON, Aug. 9.—(C. A. P.)—The King has appointed Sir Henry Pallat, Lieut.-Gov. Langelier of Quebec, Major Hodgetts and Daniel Robert Wilkie, banker, Toronto, Knights of Grace, Order of St. John, and Ladies Mountsphen, Tilley, Drummond, Mrs. Samuel Nordheimer, Toronto, and Madame Besique, Ladies of Grace.

## MAY BOYCOTT PANAMA FAIR

British Columbians, Indignant Over Discrimination by United States, Talk of Making Reprisal.

VANCOUVER, Aug. 9.—(Can. Press.)—Angered by the action of the United States senate in discriminating in favor of American vessels in formulating rules for the conduct of the Panama Canal, British Columbians are talking of boycotting the Panama Pacific Exposition in San Francisco in 1915.

A. B. Ewking, president of the Vancouver Board of Trade, issued the following statement to-day: "A special meeting of the board will be called to discuss whether the people of this city and province will withdraw from participation in the San Francisco fair. I see that the British Government is considering a similar course. 'I am convinced that this is the only dignified thing to do in view of the action of the United States senate in repudiating American treaty obligations. The exposition would mean much to us locally, but the issue at stake is too big for minor selfish considerations to weigh heavily.'"

## CANADIAN SPECIE FOR ENGLAND.

MONTREAL, Aug. 9.—(Special.)—The White Star liner sailing for England to-morrow, will take specie for the Bank of England in the shape of silver ingots to the number of forty-four, and weighing 80 pounds each, the value being \$24,000.

day are not pursuing an ill-digested policy when they obstruct the progressive measures that are absolutely called for because of the social unrest and the unfair distribution of wealth and the hardened conditions of labor that prevail in England!

What England wants, therefore, is time to convince Germany that she does not antagonize her legitimate aims at expansion and to allow Germans as a people to see that England would hall more than anything else the gift of free institutions to Germany as have come to other people; and the only way to get that time for such readjustments is to maintain the British navy at the highest state of efficiency and for Canadians to do their share and at least their share, in contributing to and helping to maintain such naval strength.

If this be the true situation, and our future, as we believe it is, is subject to the attack of German aggression, then we must be prepared to pay our share and to begin paying it now and to pay it in the most liberal way.

It is nothing much for a nation of our present strength and our immediate future growth and development to make a commitment of one hundred millions of dollars without any condition other than that we recognize the situation and the danger of our country, and in a feeling of necessity of gratitude and loyalty, we are willing to assume our share of the burden.

Our first money should go to building the highest class of ships of war. For a time at least we can even afford to withhold any pressing of claims for representation in the policy of the empire in regard to war. That must come. It has come. But just how it is to be worked out we cannot at this moment say. For a long time we have believed that negotiations between the various governments of the empire is feasible, much more so than the creation of a great federal council or a great federal parliament; but something of that kind is possible and our constitution and most of all the political training of our people will find the way to work it out. But representation in the views of the empire is not the immediate thing. The immediate thing is the defence of the empire and the duty of Canada to contribute liberally thereto and to make her contribution now a contribution that has been too long delayed.

We believe, and now is the time to say it, in Canada becoming a great maritime power. We are more or less a maritime people. We have great and growing maritime interests at stake. We are building up in a surprising way fleets on the Atlantic and fleets on the Pacific and we will some day have an immense shipbuilding industry both on our western and our eastern seaboard. We have started a Canadian navy, and we give Sir Wilfrid Laurier credit for the initiation of this idea. It must be greatly strengthened.

Our idea, therefore, is one to harmonize as much as possible and not to find fault or to make exacting terms of any kind, and to take a substantial part in making the British fleet, as it ought to be, supreme over all the seas; and the thing that counts most, has the greatest moral as well as restraining effect on Germany is that our gift be large as well as spontaneous, freely given, without haggling as to terms, without present conditions, born rather of duty, of patriotism, of love for the best mother land, that any new country and nation ever had.

And Ian was the least of the brothers in a poor Celtic monastery, and worked most of his time in the byres among the cattle. And the abbot bade him carry a bag of meal to two of his brethren who were copying a gospel in the cathedral town two days off, and warning him not to touch the meal, but to beg his way.

And at evening, having delivered his charge, he came into the great church and approached an altar with three groats in his hand that had begged on the road. "These are my testimony, not so much that Our Dear Lord needs them as I confess thereby how much I need Him!" and as the coins touched the altar a holy light filled all God's house and the clergy and the people knew that a great miracle had been wrought in their midst.

## ACTING MAYOR WILL SEE C.P.R. RE NEW STATION

Left Last Night for Montreal to Arrange, if Possible, for Procedure of Work — Will Also Endeavor to Convince Railway That Suburban Services Would Pay.

## WATERFRONT CROSSINGS

Acting Mayor Church left last night for Montreal where he will meet Vice-President McNicoll of the C. P. R. to discuss the Canadian Pacific Railway's application to the Dominion Railway Commission for an injunction to prevent any work upon the viaduct. The acting mayor has been assured by the Grand Trunk that they are ready to place a large body of men and all the necessary equipment on the viaduct construction work as soon as the C. P. R.'s application is disposed of. The Canadian Pacific officials claim that the plans which have been approved of by the railway commission will result in irreparably damaging their property along the waterfront. Mr. Church stated last night that he would also discuss the question of a suburban service with the C. P. R. officials in the hope of convincing them that such a scheme would be a paying proposition. He would also, he said, bring up the question of the blocking of the crossings at Bay and Yonge streets in an effort to obtain from them an assurance that such a nuisance would be discontinued in the future. "Another purpose of his journey," he said, was to meet W. D. Lighthall, secretary of the Union of Canadian Municipalities and Quebec with reference to determining some concerted action regarding the privy council's decision to allow the Toronto and Niagara Power Company to erect poles upon the streets of North Toronto.

## MINES DEPARTMENT TO BE ESTABLISHED AT OTTAWA

Action is Expected to be Taken at Coming Session and Portfolio Will Go to a Western Member—Hon. Robert Rogers Strongly Favors Operation of New Department.

OTTAWA, Aug. 9.—(Special.)—A new minister with a new portfolio will, it is understood, be created by the government at the coming session. The new portfolio will be a department of mines, and the west will in all probability get its fourth minister in the Borden cabinet. Mining interests have been bringing strong pressure to bear on the government to have a separate department organized to deal with this particular industry, which, owing to the unprecedented growth and development of mines through the Dominion during the past few years, cannot be competently and efficiently looked after by the other ministers, who can scarcely cope with the tremendous amount of work involved in their own departments. At present the mines branch is under the supervision of the minister of the interior, but it is understood that Hon. Robert Rogers is strongly in favor of the creation of a new department of mines, which, of course, would embrace an additional minister with a separate portfolio.

## PANAMA CANAL BILL PASSED BRITAIN'S PROTEST IGNORED

American Ships Will Escape Tolls, But Vessels Under Railroad Control Are Banned Altogether—Latter Provision Was Production of Sharp Debate, But Opponents of Monopoly Gained Victory.

WASHINGTON, Aug. 9.—(Can. Press.)—The Panama Canal administration bill providing free passage to American ships, prohibiting the use of vessels from using the waterway and authorizing the establishment of a one-man government when the canal is completed, was passed by the senate to-night by a vote of 47 to 15. The provision for free tolls, which was fought out in the senate Wednesday, was endorsed again just before the passage of the measure. Attached to the bill as it passed the senate were two important amendments directed at trust or railroad control of steamship lines. The first by Senator Reed, would prohibit ships owned by an illegal industrial combination, from using the canal; and the second by Senator Bourne, would force railroads to give up water lines that might otherwise be their competitors, if it were proved that they were stifling competition. Opponents Fight Stubbornly. Opponents of the free toll provision for American ships, against which Great Britain made formal protest, carried their fight up to the last moment of the bill's consideration. Just before its passage, Senator Root moved to strike out the section giving free tolls to American coastwise vessels; Senator Hoke Smith of Georgia, moved to strike out the provision for free tolls to American ships in the foreign trade. Both of these motions were defeated by overwhelming votes. As the bill passed, it would permit American coastwise vessels to pass through the canal free, without conditions, while American foreign trade ships might pass free if the owners agreed to sell the vessels to the United States at a fair price in time of war or emergency. Railroad Ships Barred. The great fight of the day centred about the provision to prohibit railroads owned ships from using the canal. The broad terms of the original house bill, which would have required every railroad in the country to dispose of once of any steamship lines with which it might otherwise compete, were not accepted by the senate. This was modified so that railroads would be prohibited only from owning steamship lines that may operate thru the Panama Canal. The Bourne amendment, however, later adopted by a vote of 25, restored much of the vigor of the anti-railroad provisions of the house bill. It provided that if the interstate commerce commission should find that any railroad had an interest in a competitive line of steamers, and that such interest was injurious to the welfare of the public, the commission might compel the railroad to dispose of its steamship connections. Mr. Brandegee, chairman of the interstate commerce committee of the senate, made an ineffective fight on the right provision against railroad ships. After the amendments had been adopted to the house bill, he moved that the whole paragraph relating to railroad control be stricken out. A subsequent vote defeated 46 to 18. A subsequent proposal by Mr. Brandegee, to permit any ships to use the canal, giving to the interstate commerce commission power of control over them, also was defeated. Completed Canal Bill Passed. The Reed amendment against trust owned ships, was called up for a second vote before the bill passed, and was adopted on final passage by a vote of 36 to 23. The completed canal bill finally was passed by Senators Burton, Crans, Gallingier, Lodge, Root and other opponents of the free toll and anti-railroad features of it, voting against it. In the form in which it returns to the house, the bill adds to the general scheme for operating and governing the Panama Canal, provisions for the admission to American registry of any foreign built ships owned by Americans, provided they are operated wholly in the foreign trade.

## Fool Jokers Send In Ambulance Calls

Police Have Been Misled Many Times—Private Ambulances Also Butt of Jokes—Two Sent Last Night to Convey Uninjured Peter Ryan to Hospital.

Practical jokers have found a new expensive pun with which to amuse themselves, sending in false emergency calls for both private and public ambulances. "Please hurry; Peter Ryan is seriously injured." This was the phone message received by Harry Ems at his headquarters about 11 o'clock last night. The address given was 263 Major street. No time was lost in answering the call and in record time the ambulance turned into the street mentioned. "Two Are Misled. But the driver was surprised to see another ambulance leaving the street. Inquiry at No. 263 elicited the fact that the lady of the house was a sister-in-law to Mr. Ryan. He, however, was not there, and in fact, was not injured at all. The lady of the house stated that an ambulance had been there a few minutes before on the same false mission. A call had also been sent in for the police ambulance, but as it was out on a useless trip was saved. Only a few days ago the police ambulance was called to East Toronto on a "wild goose chase." This has happened several times in the past week or two. Many of the private ambulances were also summoned on futile errands. The result is that when a serious accident does occur, police and private ambulances are answering foolish calls, sent in by irresponsible jokers. Should there be a disaster some of the ambulances would not be available, no matter how pressing the need. In many cases a person's life is saved by rapid conveyance to the hospital. The police have taken up the matter, a trap has been laid and should the jokers be caught they will be rigorously prosecuted.

## Crops Nearer Ripe Than is Reported

WINNIPEG, Aug. 9.—(Special.)—"Western Canada is in splendid shape and has a magnificent crop," said John Ingals of Logan and Bryan, en route home after a general survey of the crops of Western Canada. "Another thing I'll tell you," said Mr. Ingals, "the crop is nearer ripe than reports say it is. At Moose Jaw, for example, where I was on Aug. 7, grain is filled and turning yellow. On Aug. 10 last year it was in blossom. How do I know? I was there. Western Canada is going to surprise the world in hard wheat this year."

## EXHIBITION IS PREPARED FOR MILLION GROWD

Dominion Government Building is Magnificent Acquisition to Structures—New Entrance Erected and Facilities for Handling Crowds Far Better. THOUSAND MEN WORKING

With the exhibition opening in two weeks' time every effort is being made to get the grounds and the various buildings in readiness. At the present time 1000 men are employed in putting everything into shape; 500 of these are working on the roadways and on repairs which have been undertaken by the exhibitors, who are busily engaged getting their respective stalls into shape. In all over \$300,000 has been expended on improvements since last fall, and visitors to the fair will be assured of accommodations, better roads and sidewalks and a greater variety of exhibits. Perhaps the chief attraction among the new features this year will be the new Dominion Government building, which has been erected at a cost of \$155,000. This building is a splendid acquisition to the fair grounds.

On the ground floor the Dominion Government has erected a large aquarium, in which will be deposited the different species of Canadian fish to be found in Canadian waters. The Ontario Government will possess a like exhibit and will also display different kinds of live reptiles and a variety of exhibits which will appeal to the students of natural history. In the basement a government postoffice and custom house will be placed and the W.C.T.U. restaurant will find accommodation there. Westerly of this building a camp for 1500 boy scouts will be situated. South of this will be the tents to accommodate 500 cadets who are coming from all parts of the world. The activities of these youthful soldiers will be one of the features of the fair this year.

Handle Crowds Better. Great advances have been made in the methods of handling the crowds this year. The exhibition directors have now the complete control of Dufferin street, from King-street south, and hence such objectionable features as ticket scalpers and street pedars have been eliminated. People may disembark from the trains close to the Dufferin-street entrance, and two forty feet wide big circular stairways have been erected. These lead right to the entrance, where twenty-four gates have been provided. All automobiles must enter the grounds from the Strachan-avenue entrance and go out by the Dominion-street exit.

No Rain Checks. No refunds will be made for grand stand tickets this year on account of rain. In case of wet weather, when it is impossible to hold the performance, the Scots Guard Band will be brought into the grand stand, where the entertainment will be in the form of a concert.

The opening ceremonies will be performed by the Duke of Connaught in the dairy amphitheatre, which has been entirely renovated and 1104 chairs have been installed. In view of the patronage and attendance of the Duchesses of Connaught and Princess Patricia, ladies will attend the opening banquet for the first time in the history of the exhibition.

MUNICIPAL RAILWAYS PAY. CALGARY, Alta., Aug. 9.—The municipal street railway shows a profit for the half year of \$107,250.

One Great Opportunity for Men's Hats. This Saturday is a splendid chance for you to purchase a hat to wear the balance of the season and for spring next year. Prices for straw hats and panamas will be twice that asked for them to-day at the Dineen salerooms, 146 Yonge-st. Straw saliors at \$1 and upwards, panamas, \$3.49 and upwards, all at cost price. The Dineen Company is making this last offer in order to clear out the balance of the stock. The company is also pleased to be able to announce that the first advance shipment of new fall hats for men has arrived and is now on sale. It includes the latest stiff and soft felt hats by the big firm of Christy of London, England, and by Henry Heath of the same city, who makes hats specially for His Majesty, and for whom Dineen is sole Canadian agent. Heath hats in stiff felt at \$4, and Christy's at \$3. Other makes at \$2 and \$2.50. Store open till 10 o'clock Saturday night.

TAKE YOUR TIME PLEASE HURRY

So Says Acting Mayor to T. G. Meredith—London is Looking About for His Successor.

Informing T. G. Meredith that the city council would be quite willing to allow him sufficient time to settle his business matters before undertaking his duties as corporation counsel, and at the same time telling him that his resignation would be needed by the

city with reference to the applications before the Dominion Railway Commission about September 15, Acting Mayor Church yesterday wrote a letter to the new head of the civic legal department. The letter was a follow-up to a telegram to the same effect which was received from Mr. Meredith, stating that he must have time to consider the matter before definitely accepting the position offered to him. The acting mayor, however, stated yesterday that he was quite confident Mr. Meredith would accept the post. The letter was as follows: "I have your telegram of this morning. The city council at its meeting last night was practically unanimous in selecting you to fill the vacancy of corporation counsel, and our offer is \$15,000 per annum. It is only natural that we should require a reasonable and proper time to consider the same, and we do not object to giving you ample time, in view of your many engagements and the state of your professional work in London. The board of corporation will be glad to meet you on your return here, which I understand will be at the first of the week, when we can take the whole matter up and discuss the same thoroughly. There are a large number of important legal applications coming on about September 15, but I have no doubt that matters can be satisfactorily adjusted so that you will have ample time and opportunity, if you accept our offer, to arrange your other matters, as you have, as you say, many interests to be considered. Kindly advise me when you are likely to return to the city, as we will be glad to meet you at any time that would suit your convenience."

London Considering Successor. LONDON, Ont., Aug. 9.—Considerable comment as to a possible successor to T. G. Meredith, city solicitor, who will, in all probability, accept the position of city counsel of Toronto, was heard about the city hall this morning. The board of corporation has not even considered the appointment of a man, Mr. Meredith having said nothing about accepting the Toronto position, the names of several prominent lawyers of this city have been mentioned. Alderman J. P. Moore of the firm of Fraser and Moore is prominently mentioned, and it is thought that he will not accept the position. M. D. Fraser and Thos. Purdon, K.C., were also mentioned in connection with the position.

G. Cumming, Golfer Tribute to Daddy Of Canadian Golf

Go. Cumming, professional to the Toronto Golf Club, holds a unique position in regard to Canadian golf. While still a young man he was in the ranks of the club since March, 1909. During his twelve years' service there he has seen the club's hands no less than six Canadian boys who have been considered among the premier players of the country, and are connected with prominent clubs in Ontario and Quebec.

IMPORTANT NOTICE We have received advice from MR. ISAAC WILLIAMSON stating that he has purchased in Scotland the finest lot of HIGHLAND FILLS AND COLTS ever offered by auction in Canada, excellent even those purchased by him and sold here in the past few years. They will be sold here sometime during the first week in September next. Get your name in early for a catalogue. Watch our advertisements for further particulars of this lot.

DRIVER COXVINS 3 AT PITTSBURG Does Not Start in Free-for-All Pace That Goes to Don Densmore After Dropping One Heat.

PITTSBURG, Aug. 9.—Walter R. Cox, the New Hampshire driver on the Grand Circuit, had a field day of it today, the closing day of the Pittsburgh meeting, winning every race in which he drove, which was three out of four on the card. Cox won the 2:15 trot with Arona McKinney, the 2:15 pace, with Barba A., and the 2:20 pace with Myrtle Baron, all of them in straight heats.

The free-for-all pacing championship the only one in which Cox had no entry brought out the best of the week, Evelyn W., the horse that paced 2:03 1/2 and 2:04 1/2 in Detroit July 25. Independence was first heat, Dr. Weaver and Lew Vernon McKinney and Don Densmore, all of whom met at Cleveland Aug. 3 in the opening race for Don Densmore, as Evelyn W. crowded him hard in both heats. Vernon McKinney in the first heat practically ran her off her feet for the best she could show afterwards was second and fourth.

AMATEUR BASEBALL At the Beach the regular scheduled games will be played today in the Beaches League. At Varsity stadium, Northern League—Bobcats will meet the Capitals in the 2 o'clock game, and Eatons will play St. Michaels at 4 o'clock.

SENT TO PENITENTIARY Three years in the Kingston Penitentiary was the sentence meted out to a man who was charged with entering and robbing the store of Lyman Bros. Company, on Front-st. The men were arrested on Thursday afternoon, and sentenced yesterday.

LACROSSE GOSSIP Jim Kavanagh, for years captain of the senior shamrock, who has been of late being doing considerable repute in the National Lacrosse Union matches, will do his last refereeing today in the east so far as the present season goes. He has just accepted the position of official referee for the remainder of the British Columbia lacrosse season at his salary and leaves for the coast this evening.

The World's Selections BY CENTAUR. HAMILTON. FIRST RACE—Frederick L. Leochafes, Faber Swack, 1:50. SECOND RACE—Havrock, Ondramon, Rustling, 1:50. THIRD RACE—Knights Differ, Countless, Marjorie A. BANKS INSPIRED UNFAIR ATTACKS Acting Mayor Church Resents Criticism of Mayor Geary and Treasurer Coady and Waxes Warm.

The policy of the press in attacking Mayor Geary and City Treasurer Coady for the failure of the city's debentures in London, shows a cowardly attitude, said Acting Mayor Church yesterday. "Neither of them wanted to make the trip," he said, "and they went at a great sacrifice. I think these attacks have been inspired by the banks. We have always had an open door policy regarding our loans, and it is the first time in history that we have been unsuccessful. This was entirely due to the condition of the market and to no other reason." The acting mayor went on to say that the attitude of the local banks had been "absolutely unfair. They could not give the city any reasonable rates for a loan, and yet they objected to the trip abroad to obtain the money. If we ever have to give way to the Toronto banks," he said, "God help the city."

VICTIM FORMER GALT MAN George Cowan, Killed at Saskatoon, Was Saskatchewan Pioneer. GALT, Aug. 9.—(Special.)—A telegram received by relatives announced the death of Gen. H. Cowan of White-wood, Sask., a former resident of this district. A despatch from Saskatoon states that Mr. Cowan was killed at the Saskatchewan Exhibition, at that time in view of 10,000 people, when he crossed the race track to see an aeroplane flight, and was struck by a race horse. Mr. Cowan was one of the pioneers of Saskatchewan, having left this district 25 years ago for the west. He was engaged in the cattle and horse ranching business, and became one of the best known men in Saskatchewan.

DROWNING AT ST. KITTS ST. CATHARINES, Aug. 8.—(Special.)—A sad drowning accident occurred at Twelve Mile Creek last night when Alan, the seven-year-old son of John Williams, physical instructor at Ridley College, and caretaker of the St. Catharines Rowing Club, was drowned in the creek.

16 ALDERMEN UNDER ARREST. Fresh Crop of Graft Charges in Detroit Results in a Wholesale Round-up.

DETROIT, Aug. 9.—Sixteen aldermen were arrested today as a new development of the municipal graft scandals.

It is said that the arrests to-day are based on entirely different evidence than that presented by Wm. J. Burns and his operatives a few weeks ago.

While walking along the Don River yesterday a man discovered the body of an infant wrapped in rags.

He reported the discovery in No. 4 police station and the body was removed to the morgue.

By the appearance of the body it must have been placed on the speedway just a short time before the find was made.

According to a physician it was prematurely born as the result of an abortion. The police are searching for its mother.

EATING HOUSES CLEANER NOW NEED CHANGES

Proprietors Are Evincing Disposition to Obey City's Laws, Spurred on by World's Exposures and the Medical Health Department's Warnings.

Complaints are beginning to become frequent again against the service given phone users in the Junction Exchange.

Mayor Brown, Councillors Howe, Reid, and Bell were present yesterday at an ocular demonstration of the fact that the main sewer laid along Smith-st. by Contractor J. F. Connolly, under the supervision of Consulting Engineer T. Aird Murray, is of sufficient depth to drain George Rennie's cellar.

At 7 o'clock yesterday morning, acting under the instruction of Engineer R. H. Murray, four men, under Inspector R. Agnew, ripped open the drain connection by Mr. Rennie, and also constructed a new drain from the junction of the main sewer where the connection should have been made in certain instances.

The water was dammed up in the cellar, and in the presence of the mayor and councillors the water was freed and followed in its course into the main sewer.

The mayor and councillors expressed themselves as convinced that there was absolutely no foundation for the sensational statements made as to the impracticability of the sewerage system, and stated that no notice should be taken of complaints unless they were in writing and the complainants ready to support them in a tangible manner.

At the meeting of the council later in the evening, Engineer Murray said: "I telephoned Bruce McQueen, this morning asking if he was prepared to put his statement into writing that cement mixed with clay had been used in making joints. He replied that as he had only the statement of his 10-year-old son, he was not willing to do so."

In company with T. Aird Murray, I uncovered the joints in question and found no trace of any adulteration of cement, the joints being perfect.

"It is only doing justice to Mr. Murray to say that there is absolutely no foundation for George Rennie's complaints. The connection should have been made at the proper place, and when there was a fall of eight inches the connection should not have assumed a fall of 14 inches, giving a drop of 6 inches."

Complaints were also made as to the erection of unsightly bridges by the railroads through the district, and if the residents can have their way, there will be no abutment in Stanley Park. The grievances will be fully aired on Tuesday morning.

Fine Quality of Crops. WINNIPEG, Aug. 9.—(Special)—That the western Canada crops will not exceed those last year in quantity, that they will be vastly superior in quality, that there will be a heavy pressure on northern grains on the purchasing markets, and that the needs of the world for cereal foods will be well met, tho' not over supplied, is the opinion of Oscar K. Lyle, crop expert of the E. B. Chapin Company of New York and Chicago, who has been making his annual tour of the west during the past two weeks.

Take advantage of The Toronto World's Educational Campaign and secure for yourself a copy of the New Illuminated Holy Bible, illustrated with 600 Text Pictures and numerous Colored Plates, bound in flexible real leather with overlapping edge and gold lettered, also the Douay Catholic Version in the same binding. PHONE SERVICE SLEWY POOR. Outburst of Complaint in West Toronto—Drinking Fountain Near C.P.R. Station—Sports To-day.

Complaints are beginning to become frequent again against the service given phone users in the Junction Exchange.

After the last protest a few months ago marked improvement was noticeable in the service, but long waits, inability to obtain numbers and in many cases the impossibility to get even the central number, are very common occurrences.

Indeed, many of the old subscribers say that the service given Junction phone users in the old days, when a staff of two operators the local central, was superior to that which they receive at present.

The works department will shortly install one of the new model sanitary drinking fountains and troughs at Weston-road and Dundas-st. near the C.P.R. station.

This is a much-needed improvement and marks a first step towards the formation of the breathing spot at this busy corner, which has been advocated by the Canadian Pacific Railway.

Mrs. J. Leonard Laughton and daughter of 462 Annet-st. arrived yesterday afternoon from a three months' trip to the Thirty Thousand Islands, Georgian Bay.

Dr. R. R. Hopkins, Annet-st. and Pacificave, is enjoying an extended visit at Southampton, Ont.

Several prominent members of the "Keir Klub" of West Toronto enjoyed their second annual outing and picnic yesterday afternoon in High Park.

The following ball games will be played this afternoon on the Port Avenue diamond: Claremonts v. Dominion Carriage Co., at 2 o'clock, and the granting of licenses, at 4 o'clock. The standing of the Toronto Baseball League at present is as follows:

Wm. Loon, P.C. Dominion Carriage Co. 9 7 317 Claremonts 6 5 545 Beavers 4 7 384 Russel 2 1 284

Ben Law's West Toronto Shamrocks play the Matildas in their scheduled increase fixture at Lambton athletic grounds this afternoon.

No time is being lost on the extensive alterations to the car tracks on Dundas-st. between Humber-st. and Pacificave.

The Metropolitan Railway Company are straightening their line in the vicinity of Bond Lake. Commencing at a point directly south of the power house the line will be cut down the hollows and the west part of the lake filled up with earth, the line to be run straight from the car barns to a point on Yonge-st. near Mr. Durhan's gate.

W. H. Thompson of Toronto is the contractor, and the men are working from 6 a.m. to 7 p.m. with steam shovels and teams and by September 1 the excavating will be completed.

That part of the west end of Yonge-st. will be double-tracked, and a long platform will be erected for the convenience of visitors at the park. The work promises to be expensive, necessitating the removal of several buildings, but it will greatly improve the raised edge of the park.

Two Industrial School Girls Are Captured. Constable Morecombe, having been informed by the authorities of an Alexandra Industrial School, East Toronto, that two girls had escaped and were supposed to be making east, succeeded in rounding them up after an all-night vigil, and restored them to the care of the officials.

Free Methodist Camp. The Free Methodist camp meeting for the Toronto district is in progress in Midway Park, just south of the Pickering College, and will continue until Wednesday evening next, August 12. The public services are held in a large tabernacle, which is surrounded by a number of family tents. Six services are held daily, beginning at 8.30 a.m. and closing with the night service at 10 p.m.

Rev. C. Cunningham of Peterboro, M. S. Benn of Toronto, P. F. Prior of Uxbridge, D. L. Gunter of Belhaven, C. Snyder of Holt, with the Misses E. Babcock and K. F. Clark, evangelists of Gravenhurst, are in attendance. The camp meeting is in charge of Rev. W. H. Reynolds, who travels the Toronto and Muskoka districts in the interest of the work.

Credit Auction Sale of one carload of Milch Cows, Springers and Young Cattle. The undersigned has received instructions from Mr. James Hook to sell by public auction at Bowers' Hotel, Cooksville, on Monday, August 13th, at one o'clock sharp, the following: 4 Milch cows and springers; 12 yearling calves; 12 calves consisting of Holsteins, Ayrshires and Grade Durhams. These cows are an excellent lot of fine young cattle. The calves will be sold at the sale and not before. The whole to be sold without reserve. Sale will go on rain or shine. Terms: Four months' credit on approved joint notes; six per cent. per annum off for cash. John Thomson and W. A. Russell, Auctioneers.

Kingston Boy Missing. KINGSTON, Aug. 9.—(Special)—Howard Clark, aged 14, son of Peter Clark, mysteriously disappeared two days ago, and all efforts to locate him were unsuccessful. It is feared he has been drowned.

DR. ELDERS' SANTALUM Broomstick Cure. FREE BOOKS on the Tobacco Habit and its treatment will be mailed free in plain package to all who send a stamped address to: DR. ELDERS' SANTALUM Broomstick Cure, 824 Yonge Street, Toronto, Canada.

What Tobacco Broom Will Do. A positive and quick relief. A Home Treatment. Tobacco Broom has cured me after using tobacco for 15 years. I have been a heavy smoker for 14 years. After taking your Broomstick cure, I am now a free man. I have never smoked since. I have written you a letter and would not like to be paid for what you have done for me. Colonial Heights

Situated on the east side of Don Mills Road, just north of Danforth Avenue, within the city limits—the closest subdivision. The civic car line on Danforth Avenue and the Bloor Street viaduct will give direct transportation to any part of the city.

The rapidity with which builders have purchased lots on this property proves that it fills a long felt want. July sales, with very little advertising, were the largest in the history of Colonial Heights.

All improvements are being put in as quickly as possible. Streets are wide and reasonable restrictions will make this district a choice residential area. Lots \$33 per foot upwards.

Colonial Realty & Securities Corporation, Limited 510 Lumsden Bldg. Main 1360

Sunday World Pictures

Holiday sports and other news events of first importance are dealt with pictorially in this week's Sunday World. There are many pictures of the Canadian Healey Regatta at St. Catharines, the Canadian Canoe Championships, the Queen City Yacht Club cruise, and the George Cup races.

On land World photographers covered many interesting events. We give considerable space to live pictures of the Ward Three Conservative Picnic at Queenston, and the miscellaneous views include the following: Premier Asquith and party in Ireland, Canadian Blesley team photographed with Lord Roberts, the children of the King and Queen of Spain, the King and Queen at Grimsby, remarkable photograph of a group of dock strikers awaiting the Lord Davenport might be struck dead, chairing the winner of the Queen's prize at Bisley, motor ambulance for London's sick dogs, some pictures of the polo match between Toronto and Buffalo, bicycle races at Scarborough Beach, the start of the long-distance balloon race at Hurlingham, England, Toronto-National lacrosse match, group photograph of No. 7 Co., "Lodge" volunteers, taken at Kingston in June, 1866; N. W. Rowell's party in Northern Ontario, President Taft notified of his nomination, Premier Borden at Bisley, group photograph of officers of Luther Loyal Orange Lodge.

One in Stanley Park, as Well as Detention Hospital.

An indignation meeting was held last night at the Parkdale Lawn Bowling Club for the purpose of protesting against the proposed erection of a detention hospital for the insane on Dowling-st. near the latter place.

After considerable discussion it was decided to send a deputation to the board of control and the gentlemen will attend the board of control meeting on Tuesday morning. J. J. Ward was in the chair, and the acting mayor put in an appearance during the early part of the evening.

Complaints were also made as to the erection of unsightly bridges by the railroads through the district, and if the residents can have their way, there will be no abutment in Stanley Park. The grievances will be fully aired on Tuesday morning.

FIELD CROP PRIZE WINNERS

Goose Wheat Competition. The government judge in the goose wheat competition in connection with the Markham Agricultural Society has awarded the prizes as follows: 1, J. J. Ward, 91 points; 2, Richard Arnie, Victoria-square, 90 points; 3, W. P. Boynton & Son, Dolar, 89 1/2 points; 4, Geo. Robb, Armadale, 88 points; 5, Geo. B. Little, Brown's Corners, 88 1/2 points; 6, Ed. Kirk, Unionville, 88 points; 7, R. R. Johnson, 87 points.

Largest acreage prizes—1, Alex. Donaldson, Milliken; 2, J. L. Beldson, Markham.

The judge, Mr. Wm. Scarf, Durham, Ont., reported that goose wheat was the best crop of any in the district, and that one field that he had judged was the best crop of wheat of any kind that he ever inspected.

There were 29 entries, being the largest number received by any agricultural society in the province for any kind of grain, but the judge expressed surprise that more farmers of the district did not grow this profitable crop.

The above prize winners are eligible to compete at Toronto Exhibition and Guelph and Ottawa Winter Fairs, where large prizes are given for sheaves and two-bushel bags of goose wheat.

PICKERING. Two Industrial School Girls Are Captured.

Constable Morecombe, having been informed by the authorities of an Alexandra Industrial School, East Toronto, that two girls had escaped and were supposed to be making east, succeeded in rounding them up after an all-night vigil, and restored them to the care of the officials.

Free Methodist Camp.

The Free Methodist camp meeting for the Toronto district is in progress in Midway Park, just south of the Pickering College, and will continue until Wednesday evening next, August 12. The public services are held in a large tabernacle, which is surrounded by a number of family tents. Six services are held daily, beginning at 8.30 a.m. and closing with the night service at 10 p.m.

Take advantage of The Toronto World's Educational Campaign and secure for yourself a copy of the New Illuminated Holy Bible, illustrated with 600 Text Pictures and numerous Colored Plates, bound in flexible real leather with overlapping edge and gold lettered, also the Douay Catholic Version in the same binding. The regular price for similar Bibles is \$5.00 each.

Subscribe for The Morning World and obtain a copy of this magnificent book—only six certificates and a moderate charge secures it for you.

Fill out the attached order form and hand it to our canvasser, or send it to The World Office, 40 Richmond Street West, Toronto, together with Twenty-five Cents for a trial month's subscription for The Daily World, which will be delivered before breakfast every week day.

At the Theatres

ALEXANDRA NEXT WEEK. Percy Haswell Will Present "A Country Mouse."

When Lady Sylvia married John Bowley, M.P., it was not a love match. Bowley, a wealthy brewer, required a fashionable wife and chose the daughter of an impecunious lord who was largely in the debt, and by this marriage, Bowley secured Bowley, Lady Sylvia, being a society butterfly, and her husband a staid business man, she looked for companionship to another wealthy man, another member of the aristocracy to which they all belonged. The situation had been going on for some time and had turned into a comedy when Lady Sylvia reached her point that Lady Sylvia wished him to stop with her. This is the state of affairs when Angela Mur-

Albert Brown, new leading man with the Percy Haswell players, who will be seen in "A Country Mouse" at the Alexandra Theatre next week.

comes to London from her country home to visit her cousin, Violet Annyway. Angela is, to all appearances, a demure and unambitious little country maid. When introduced into this fast London set by her cousin, Angela's innocent ways and fresh young beauty causes all the men of the set to become her ardent admirers. Not only does the Honorable Archibald Vase become one of her followers, but also the Duke of St. Kitts is smitten with her, and it is the rivalry of these two men, neither of whom had a reputation worth while, that causes the complications and the many intrigues which follow the revealing of the story of "A Country Mouse."

"A Country Mouse" is described as a society comedy, and is the work of Arthur Law. It was first produced in America at the Empire Theatre ten years ago by Miss Ethel Barrymore, and will be the attraction at the Alexandra Theatre next week. The character of Angela Mur, that of the demure little country girl, who is too clear for her city rivals and defeats their intrigues in the end, will be played by Miss Haswell. The comedy will also reintroduce to patrons of the stock exchange the attraction of the Alexandra Theatre, Mr. Albert Brown, who was a popular member of the stock company there when the theatre first opened.

EVA FAY AT SHEA'S. The news that Mrs. Eva Fay is to play at Shea's Theatre next week has been received everywhere with great pleasure, as Mrs. Fay's fame is so far spread and so renowned is she for her wonderfully clever feats in mind-reading. In fact, there has been for a long time a concerted demand for her appearances, and it is only after great efforts that Manager Shea has been able to secure her services for next week. The Maxine Brothers and Bobby are acrobats. Bobby is a dog and his master give him his share of the honors as a dog. The men are marvelous. The dog is a sensation, working with precision and showing marvelous

KILLS RATS AND MICE Without Odors. RATCORN Kills Rats and Mice No Odors or Smells No Poison

It mummifies them. No matter where they die they simply DRY UP. Positively do not smell. Will not kill cats, dogs or man. Rat Corn is a new and scientific discovery, and without a doubt the greatest rat destroyer in the world; the only one that kills rats without any of the dangerous or disagreeable effects. A trial will convince you.

25 cents, 50 cents and \$1.00 per can. Ask your dealer or sent by mail on receipt of price. Postage, Booklet "How to Destroy Rats" FREE.

Made only by The Canadian Rat Corn, Limited 193 Adelaide St. W., TORONTO, O.N.T.

strength. Frank Rea and Company are new owners at Shea's and are presenting a comedy sketch that has been a big success elsewhere. Nonette, the dainty singing violinist, will be a welcome addition to the bill. Few women play as well as Nonette, and a charm of manner and a well trained singing voice add much to her offering. Brown and Blyler call themselves "Just entertainers." They are truly entertaining and have a novel offering that is up-to-date and sure to please. Morris Brothers are wonderful Japanese acrobats and equilibristas. Their work is away from the usual Japanese acts. It is sumptuously mounted and greatly pleasing. Wilson and Pearson are new-comers at Shea's who will be favorites, for they are clever and original and have a novelty. The kinetograph closes the bill with new pictures.

THE GAYETY OPENING.

The Gayety announces its opening for Saturday, August 17, and "The College Girls" has been selected for the opening attraction. Manager Henry speaks in the most glowing terms of the new attractions for the evening year. In regard to the Gayety, Mr. Henry says that the decorators have finished their task and surprise awaits every patron. Everything is spick and span and the refreshments are in keeping with the colors and the spirit of the occasion. The rehearsal of "The College Girls" in New York and he has nothing but praise for them. The Reynolds and Dan Coleman are the comedy artists and they are supported by a long list of clever people. Beatrice, the Ractime Violinist, who was a big hit last year, has been retained.

JULIUS CAESAR PREMIERE.

William Faversham's Production Will Be a Worth While Production.

In every department preparations are being carried actively forward for William Faversham's spectacular production of Shakespeare's "Julius Caesar." With a cast of all prominent stars, including Mr. Faversham, Tyrone Power, Frank Keenan, Fuller Mielich, Julie Opp, Lionel Belmore, Arthur Elliott, Bertou Churchill and more than two hundred other stellar actors, Joseph Barker, the celebrated English artist, who is responsible for the world-famous settings in "Kismet," is working night and day in his London studio to complete seven sumptuous sets of scenery for "Julius Caesar," a task which he was willing to undertake only after having been permitted to spend six months in research work.

An artist engaged by the Philadelphia firm of costumers whom Mr. Faversham has commissioned to prepare nearly five hundred costumes for the production is at present in Rome where he is making sketches from costume designs from ancient times treasured in the Vatican library. Mr. Faversham himself is touring Italy in quest of authoritative and valuable properties and stage accessories and has already purchased many wonderful antiquities that will be displayed in the auditorium.

Hidden away in the heart of the Adirondack mountains, Mr. Faversham's musical director is arranging the musical selections and incidental music required during the presentation of "Julius Caesar" in the next few days. Mr. Lionel Belmore, the stage manager, is perusing manuscripts in the British Museum, gathering pointers regarding the former theatrical productions of "Julius Caesar."

A specially engaged railway expert is contracting with the railroads for the most advantageous movements of the company from city to city during the season.

AT THE STAR.

"The Rose Buds" the Next Good Show.

"The Rose Buds" will be the attraction at the Star next week, with a riot of color and exuberance in gowning. The musical numbers are both numerous and catchy, the kind that one whistles when leaving the theatre. The dances are lively and popular, the chorus are graceful and active, and the principals are said to be the best ever seen in the realms of burlesque and comedy. The most notable movements of the production will be presented by "The Rose Buds" is "Circus Day." The story deals with the adventures of a couple of young girls who are tired of the "simple life" and who decide to join the followers of the sawdust and tan bark. A complete circus outfit is used, including horses, bearded lady, and the thousand and one nondescripts that are found in all well regulated three-ring circuses. One of the best tramp comedians in show business, Joe Adams, will portray the character of "Rubber Ike." He will receive the able support of Gruet and Gruet, the famous Livingston Family of acrobats; Laura Houston, Clayton Frye, Mabel Hazleton, "Armadillo," the dancing violinist; Pat Maher and Miss Helen Van Buren, who is claimed to be the most shapely leading lady in America.

CONGESTION AT MIMICO

Danger at Border is Now, Says Grand Trunk Official.

W. G. Brownlee, master of transportation on the Grand Trunk, spent several hours in Toronto yesterday. He was bound for Black Rock and Port Erie with a view to investigating the coal situation there.

Mr. Brownlee was of the opinion that the danger at a serious set-up at the border had passed. There is more congestion at Mimico now than at Black Rock, if his information was correct. He thought the company was now in a position to return the sixteen hired engines which tied it over the difficulty.

WOOL BILL IS VETOED BY TAFT

Tariff Cut Proposed Would Be Ruinous to Home Industries—Other Vetoes to Follow.

WASHINGTON, Aug. 9.—(Can. Press).—For the second time within a year President Taft vetoed a bill to revise the wool tariff—schedule K of the Payne-Aldrich law.

With a message of disapproval the president returned to congress the bill evolved as a compromise between the house and senate, holding that its low rates would bring disaster to home industries. He appealed to congress, however, not to adjourn until it had enacted a measure to "substantially" remove unnecessary existing duties without destroying protection for the wool industry in the United States.

The president's disapproval of the wool bill is to be followed with similar vetoes of the steel bill and the cotton bill. "The sugar bill is likely to be vetoed, as is the excise tax bill, the latter probably on the ground that the president believes it unconstitutional."

"I shall stand by my pledges to maintain a degree of protection necessary to offset the differences in cost of production here and abroad, and will heartily approve of any bill reducing duties to this level," wrote Mr. Taft.

"Most of the rates in the submitted bill," wrote the president, "are so low in themselves that if enacted into law, the inevitable result would be irretrievable injury to the wool growing industry, the enforced idleness of much of our wool combing and spinning machinery and of thousands of looms and the consequent throwing out of employment thousands of workmen."

BILINGUALS AT YANKLEEK HILL

Residents Indignant Over Payment of Board and Expenses to Pupils in Attendance—French Get Preference.

YANKLEEK HILL, Aug. 9.—(Special).—Indignation is rife in Yankleek Hill on account of an advertisement which appeared in a local paper to the effect an English-French Model School at Yankleek Hill has been established for the preparation of candidates for third-class certificates, valid in the English-French public and separate schools.

The bone of contention on the part of the residents is that up to within a few years ago, there was a flourishing English model school there, but that was gradually legislated out of business, and now a bilingual normal school has been introduced into its place, with appropriations made for a considerable amount of pecuniary assistance to be given to French-speaking pupils.

By the advertisement, it can be seen that those taking up a course at the school will be the recipients of traveling expenses and \$3 a week to help defray the cost of board and lodgings of students in attendance.

"For the circular detailing the conditions of admission, the courses of study, the examination requirements, and the payment of board and traveling expenses, application should be made to the deputy minister of education."

WILL HAY FEVER BE NEXT "INCURABLE" DISEASE TO BE CURED?

Wonderful Results Obtained by Using Tablets Made From Fresh Fruit Juices—Lady in Cornwall Centre Tried Them.

Genuine Case of Severe Hay Fever Completely Eradicated From the System by "Fruit-a-tives," the Famous Fruit Medicine.

"I suffer tortures every year with hay fever—please tell me frankly if 'Fruit-a-tives' will do me any good?" You are saying this to yourself as you read this article. First of all, read the facts about this distressing trouble: Hay Fever is not a nervous affliction. There is probably no actual disease of the nerves. But the nerves—and, in fact, the whole system—is affected by the condition of the blood. The nerves are intensely irritated by impure blood, due to defective action of the bowels, kidneys and skin.

It is fully ninety per cent. of the cases of Hay Fever, there is chronic constipation, Weak Stomach, Indigestion and hot, dry skin. The great truth of this is shown by the fact that sprays, gargles and other local treatment do not cure. They cannot. The trouble does not lie in the nose and throat, but in the stomach, bowels, kidneys and skin. This is why "Fruit-a-tives" cured Mrs. Kemp of Hay Fever.

Corwall Centre, Ont., November 27th, 1911. "I was a martyr to Hay Fever for a long time—probably fifteen years—and I suffered terribly at times. I consulted many physicians and took their treatment—and I tried every remedy I heard of as good for Hay Fever. But nothing did me any good. Then I tried 'Fruit-a-tives' and this remedy cured me completely. I am now well, and I wish to say to every sufferer from Hay Fever—Try 'Fruit-a-tives.' This fruit medicine cured me when every treatment failed and I believe it is a perfect cure for this dreadful disease."

MRS. HENRY KEMP. Impure blood causes the itching eyes, sore throat, irritated nose, that we know as Hay Fever. As this is true, the sensible thing to do is to purify the blood by taking "Fruit-a-tives." Mrs. Kemp took "Fruit-a-tives" and is cured.

Why not let "Fruit-a-tives" regulate your bowels, kidneys and skin? Why not let "Fruit-a-tives" give you health and strength and appetite? Why not let "Fruit-a-tives" so build up the system that you won't have Hay Fever this summer? "Fruit-a-tives" is the only medicine in the world made of fruit juices. It is particularly suited to the use of women because it is pleasant to take and acts mildly and gently. 50c a box, 6 for \$2.50, trial size 25c. Dealers in all parts of Canada sell "Fruit-a-tives." But if you are unable to obtain them in your neighborhood, they will be sent you postpaid on receipt of price by Fruit-a-tives, Limited, Ottawa.

Rev. Dr. Woodworth is expected from England with about eighty young ministers to fill vacancies in Methodist mission stations in the Canadian west. He will return early next month.

SWIFT CO. MAY INVADE LONDON. LONDON, Ont., Aug. 9.—(Can. Press).—It is rumored that the Swift Mfg. Co., the large American meat corporation, are looking over several pieces of property and that they plan erecting a large new factory right away. It is stated on good authority that the company have three or four options on valuable property, the east end being regarded as the most probable location.

Girl of 11 Makes Great Progress Learning Piano By Free Lessons in Her Own Home

Tells in Simple Fashion Why She Applied for a Second Course of Lessons and Gave Up Her Teacher.

Piano, Organ, Violin, Banjo, Mandolin, Guitar, Cornet and Cello Taught.

Every year about 30,000 people all over the country learn to play by rote their favorite instruments with the aid of the Free Music Lessons given by the famous U. S. School of Music, which has been established since 1898 as a home study school. Each day brings letters which tell of the pleasure the writers derive from knowing how to play, and describing the difficulty or ease with which they learned. The one printed below says how an 11-year-old child took a course of free lessons, after which she went to a teacher, but now wants another course of lessons from the U. S. School of Music. Her only expenses will be for music and postage, while the lessons are sent every week, according to her need. This is what she says:

Pleasant Lake, N.D., U. S. School of Music, Dec. 1911. Dear Sirs: In 1908 I took a course of music from you and was very much pleased with the outcome. After I had finished your first term I took one from a teacher, but I progressed just as fast from you.

I will gladly recommend your music and method of teaching to anybody. If you will kindly answer by return mail I will make an order for your second term of music at once.

Hoping to hear from you soon, I remain as ever, (Signed) VERNIE SHIVELY. Don't pass this offer, but let us tell you how and why you can do as much. If you send to-day for booklet and free tuition offer. Address U. S. School of Music, Box 316, 225 Fifth Ave., New York. A10.24

The Great Educational Distribution by the

TORONTO WORLD

This is purely an educational campaign. To appreciate this great book one need not be a church member or a religious man or woman. It should be available for EVERYONE and often referred to all road here and there as the most interesting of all books—the book which has governed the development of the world's civilization. No matter how many Bibles you own, you need this one, as its pictures vividly tell the Bible narrative—giving it a present, living interest.

Heretofore the word "illustrated," as applied to a Bible, meant merely a few allegorical "pictures" of Biblical events taken from any source and "conveniently" placed in any part of the book, merely as embellishment inserts, but not directly alongside and explanatory of the verse intended to typify or make plain; but our publishers, at an outlay of \$50,000, prepared accurate illustrations DESCRIPTIVE of the VERSE which they accompany, and placed directly next to the verse so described—the only place it can be looked for or found quickly, the only place the illustration is a help to you—making this the FIRST and ONLY complete ILLUSTRATED Bible.

The Great Kissimmee Prairie Country in Florida is Attracting Much Attention.

There is the place to go to enjoy life—climate delightful—every day is a growing day—no coal to buy—profits great from fruit, vegetable and mixed farming—charming winter homesites—poultry raising most profitable—excellent rail and water facilities for shipping—building materials very cheap, lumber \$16.00 per M., and good Georgia pine at that. As winter approaches, you must surely think of a place like this. The Kissimmee country is REAL, not VISIONARY. Call and let us tell you all about it, or write ALF. W. LAW, Ontario Manager, 316 State Building, 123 Bay Street, Toronto.

ON "PLUGGERS" TRAIL

WELLAND, Aug. 9.—(Special.)—Samuel B. Morris of Buffalo, locked up here, charged with voting twice fraudulently on the hydro-electric bylaw on August 6, was to-day fanned until August 12, and remains locked up. Detective Greer is here securing evidence. It is claimed about ten pluggers were brought from Buffalo to vote but only one was captured and the citizens are anxious that the whole plot should be laid bare and those who brought the Buffalo men here punished. There is great excitement and interesting developments are expected.

CAUGHT 500-LB. TUNA

Duke of Connaught's Party Having Splendid Fishing Luck. HALIFAX, Aug. 9.—(Can. Press.)—A despatch from St. Ann's, C.B., says Lieut. Ramsay of the staff of the Duke of Connaught, landed a 500-pound tuna yesterday. His Royal Highness is fishing from five to six hours each day. J. K. L. Ross has only landed one tuna in three years, and the present success is remarkable. Yesterday His Royal Highness' party had splendid luck. His Royal Highness himself had some exciting sport and had a monster on his line for over an hour but lost him. The largest tuna yet caught was landed by hook last night in St. Ann's Bay by Lieut. White, commander of the Earl Grey. The fish is said to have weighed over 500 pounds and was twenty feet long.

GOOD CROP OF VEGETABLES.

LONDON, Ont., Aug. 9.—(Can. Press.)—L. B. White, Middlesex County agricultural expert, visited the vegetable owners of London and vicinity this week, and reports that this year's vegetable harvest will be an unusually large yield all around. FIVE MEN FELL 35 FEET. KINGSTON, Aug. 9.—(Special.)—Five men were seriously injured at the locomotive works at noon when a scaffold collapsed. Geo. Williamson suffered internal injuries and may not recover. Others injured are Alexander Fowler, Cornelius Donevan, James

FOREST HILL. Lots in this beautiful district at wholesale prices. This land was purchased before the rise, and is being sold retail at acreage prices for this locality. Annexation must soon come, following the example of North Toronto. Lots on Spadina Road, Waimier Road and Kendal Avenue at \$26 to \$37.50 per foot. All restricted. Compare prices. COLONIAL REALTY AND SECURITIES CORPORATION, LIMITED 510 LUMSDEN BUILDING. MAIN 1360.

Court Must Decide Before By-Election

Writ Cannot Be Issued for East Middlesex Election on Account of ex-Member's Claim of Seat.

It is understood that the writ cannot be issued yet for the election which is to take place at East Middlesex, consequent upon the death of its provincial representative, R. Sutherland. This is on account of the protest which was lodged against him by Geo. W. Neely, ex-M.P., who states that he had a legal claim to the seat. A considerable number of Liberal and Conservative alike have advised Mr. Neely to withdraw his case from the courts, but it is not known definitely what steps will be taken by the ex-member.

SAVE THE DRUNKARD

Dr. MacKay, the Famous Specialist in Alcoholism, in Toronto.

Dr. J. M. MacKay, the celebrated specialist in alcoholism, who has recently returned from Europe, will be in Toronto during the month of August for the purpose of giving consultations free to any serious cases of alcoholism or drunkards. He can be seen at his residence, No. 14 Roxborough-st., corner Avenue-road. Dr. J. M. MacKay discovered the scientific method of curing alcoholism, and which was adopted by the Government of the Province of Quebec, a number of years ago, and which is now in successful use, giving marvelous results. He is not connected with any institution, and his treatment and cure of Alcoholism requires only home care and attention. His medicines will never fall in any case with ordinary good will of the patient. No one has the right to use his name with any institution or medicine. His personal advice will be of service in difficult cases, and the provision of the doctor in Toronto affords an excellent chance of advantage to many. Alcoholism is a disease, and requires simply proper medical attention. The Leeming, Miles Company, Limited, are agents in Montreal, and E. G. West and Co., 89 George-st., will supply the medicine in Toronto.

COUNTRY HOME

ESTATE NOTICES

NOTICE is hereby given that Albert Britnell, of the City of Toronto, in the County of York, and Province of Ontario, bookkeeper, will apply to the Parliament of Canada at the next session thereof for a Bill of Divorce from his wife, Ellen Mary Britnell, formerly of the said City of Toronto, but whose present address is unknown, on the grounds of desertion and adultery.

NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, that all creditors and others having claims against the estate of the late John Jenkins Parry, who died on or about the 8th day of July, A. D. 1912, are required, on or before the 15th day of August, 1912, to send by post, prepaid, or deliver to Messrs. Mulock, Lee, Milliken & Clark, of the City of Toronto, Solicitors for the City of York, solicitors for Rev. C. B. Darling and J. C. Wedd, the executors of the last will and testament of the deceased, their Christian and surnames, addresses and descriptions, the full particulars of their claims, the nature of their securities, if any, now held by them, and further take notice that after such last mentioned date the said executors will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which the said executors have notice, and that the said executors shall not be liable for any part of the assets of the said deceased of which no claim notice shall have been received by them at the date of such distribution.

NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, that all creditors and others having claims against the estate of the late John Jenkins Parry, who died on or about the 8th day of July, A. D. 1912, are required, on or before the 15th day of August, 1912, to send by post, prepaid, or deliver to Messrs. Mulock, Lee, Milliken & Clark, of the City of Toronto, Solicitors for the City of York, solicitors for Rev. C. B. Darling and J. C. Wedd, the executors of the last will and testament of the deceased, their Christian and surnames, addresses and descriptions, the full particulars of their claims, the nature of their securities, if any, now held by them, and further take notice that after such last mentioned date the said executors will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which the said executors have notice, and that the said executors shall not be liable for any part of the assets of the said deceased of which no claim notice shall have been received by them at the date of such distribution.

# Mining Markets Given Over to Dulness--Price Trend is Firm

## SPECULATIVE ACTIVITY ABSENT FROM MARKET

Narrow Trading in Mining Stocks Permits Irregular Price Changes Only--Irregularity in Trend--Cobalts Hold Firm But Rule Inactive.

World Office, Friday Evening, Aug. 9. Speculative activity was almost entirely lacking in the mining exchanges to-day, both Porcupine and Cobalt lists coming in for extremely narrow trading. The price trend continued on a par with recent days, no definite disposition being evidenced. In some particular issues, notably Hollinger, a measure of firmness was apparent, but this was offset by an easier tone elsewhere, so that on the whole the market could only be adjudged as an irregular one.

Hollinger made a small recovery from the decline in evidence yesterday and the closing quotation at \$12.35 bid was a full ten points up from last night. Trading in the stock, however, was exceedingly narrow, the transactions being so meagre in extent that the movement in effect was not at all significant. The shares were by no means in free supply, but, on the other hand, there was no particular demand apparent, and until some change is manifest in this regard, nothing but a continuation of erratic price swings is to be anticipated.

### Erratic Price Swings.

In the cheaper list such alterations in prices as occurred were purely negligible. Dome Extension fell back from its recent gain, the shares dropping back half a point to 17-1/2. Vipond was also a shade easier, with sales around 28-1/2, resulting in a close yesterday. Foley-O'Brien released into dulness, and closed lower than last night.

### JUPITER MANAGER PASSES THRU CITY

Manager J. H. Rattray of the Jupiter Porcupine Gold Mines arrived in the city yesterday on his way from Montreal to New York to confer with officials relative to mine matters. As a prominent lawyer, a closed and confidential information relative to the work is not given out and although it is known that a large body of mining ore is in sight and that in time a mill will be built, the manager or close officials will not make statements concerning future intentions as to new plans.

### TO INTEREST ONTARIO IN IDAHO MINING

Mr. J. F. H. Usher of Usher & Co., a prominent lawyer in Chicago, left yesterday for Idaho, to inspect a placer gold claim formerly owned by Gov. Stuenkel. The property has never been worked, and is said to be very rich, and a company has been formed with a low capitalization to work the claim. Mr. Usher is in the Yukon and the placer properties in the Yukon and is making an inspection of this property for an estate which is interested in the claim. Mr. Usher & Co. will secure the balance of the stock, amounting to about 200,000 shares for Ontario clients.

### WILL GOVT. EXACT ROYALTY PAYMENTS?

Prospectors Await Information Before Laying Plans For Campaign in Gillies Limits. Will royalties be exacted from the proceeds of mines should there be any developed on lots to be staked in Gillies Limits? is a question being asked by prospectors and mine men who are anxious to go north and stake claims when the limits are thrown open on Aug. 21.

### NEW RECORD ON C.P.R.

Canadian Pacific reached a new high record in the New York market yesterday, the shares moving up to 27 1/2, a point and a half for the previous high, established on Tuesday last. The stock was decidedly active, but trading was not so brisk as in the day, and the price advanced round 27 1/2 again under profit-taking sales.

### TWIN CITY EARNINGS.

The earnings of the Twin City Rapid Transit Company for the last ten days of July were \$250,000, an increase of \$12,742.11, or 7.55 per cent.

### SILVER MARKETS.

### 400 P.C. DIVIDEND

A 400 per cent. stock dividend was the plum recently handed out by its shareholders by the Ingersoll-Rand Co., Ltd. The company did this by increasing its capital from \$250,000 to \$1,000,000. It pays 5 per cent. dividends on the new capitalization, equal to 20 per cent. on the old.

### GOOD CROP SHOWING

Chas. Head and Co. to J. E. Osbornes. The government report has been issued, and the showing made was less than some of the optimistic estimates recently published, still the crop promise large, with total wheat of 600,000,000 bushels, corn, 2,811,888,000 bushels, and oats, 1,377,000,000 bushels. The market wants to go up, but is oversold. In fact, big people have been holding it down until certain mistakes had been turned. Steel, U. P., and other leaders offer excellent chances for profits.

### DIVIDENDS ASSURED

LONDON, Aug. 9.—The Grand Trunk Railway's report shows a surplus of \$200,000, with a balance of \$600,000, making a total of \$800,000. This will admit payment in full of the dividends on the first and second preference shares and leave a balance of \$5,500 to carry forward.

## Reduced

All of our \$25.00 to \$45.00 Scotch Tweed and West of England Worsteds Suitings for quick clearance

**\$22.50**

Doesn't sound reasonable at first glance, but it's genuine. A case where we LOSE money to MAKE money. We cannot carry these suitings over—we must have fresh stock each season. They are all our regular \$25.00, \$30.00, \$36.00, \$40.00 and \$45.00 goods.

## SLUMP IN COTTON CARRIED FURTHER

## Crown Chartered Property May Change Hands—Inspection Now Under Way—Payment Due Next Week

An inspection of the Crown Chartered Porcupine Gold Mines will be made and last night John P. Heffernan, managing director, accompanied by an engineer from Rochester, sent by the New York State stockholders, left Toronto for the mines.

The second level is being developed and to date 247 feet of underground work have been done. An ore body from five to 15 feet is opened, but only the upper has been tested, and only Engineer C. B. Dyke in charge anticipates that a new shoot will be opened in the second level when the shaft is up to the first level.

## AN OVERSOLD MARKET

Wired: We had a good crop report, corn included, and after a slight pause, prices hardened and closed firm. Traders at first did not understand the report and sold stocks, important news is now out of the way and stocks should be bought on dips for higher prices. The market wants to go up, but is oversold. In fact, big people have been holding it down until certain mistakes had been turned. Steel, U. P., and other leaders offer excellent chances for profits.

## DOMESTIC OUTPUT \$4000 DAILY

Production at Big Porcupine Property Said to Equal That Figure—Development at 200 Feet.

Semi-official statements relative to the output at the Dome mines for July show that the daily average of ore in tons nearly approached the 350-ton mark, with the highest tonnage for any one day 386 tons.

Conditions under which milling is done grow better each day and it is expected that the average daily output for August will reach 375 tons.

With the adoption of coarser crushing in the rock house, the duty per ton of ore is being increased, and made considerably higher, but the coarser crushing would necessitate the limitation of the primary plates as the lumpy rock would destroy the delicate mercury-coated gold catcher, and in the absence of official information it cannot be said that the Dome will do away with the primary plates where a very high percentage of values is retained as the flow comes from the stamps.

The fact that the Dome is said to be sending out now from \$4000 to \$5000 daily with the grade ore that is being crushed and there will in the present recovery of values must be high. On the 200-foot level, a body of ore directly under the location of the big prominence quartz on the surface has been opened up in the crosscut, and this body will be connected with the main underground workings by a drift through which the ore will be taken to the crusher.

At last liquidation seemed to have run its course in the cotton market, and a brisk rally set in which carried prices rapidly back to the vicinity of the 12c level. In the early trading the low level was reached, principally 7 1/2c, and the market has since been held up by a great deal of the improvement following the Texas and Oklahoma rainfalls, and is now in a position to do better, and to anticipate any runaway advance, but do not consider a good trading proposition from this time on every day.

## BLACK LAKE AFFAIRS

Tenders for the purchase of Black Lake asbestos assets close in Montreal on Monday. The assets include a mill and a brick plant set in which carried prices rapidly back to the vicinity of the 12c level. In the early trading the low level was reached, principally 7 1/2c, and the market has since been held up by a great deal of the improvement following the Texas and Oklahoma rainfalls, and is now in a position to do better, and to anticipate any runaway advance, but do not consider a good trading proposition from this time on every day.

## Vast Possibilities of the California Industry

NEW CHANNELS OF TRADE OPEN UP FOR OIL COMPANIES OF CALIFORNIA. The vast possibilities of the oil industry are beginning to be realized, and it is safe to say that within the next few years there will be but little waste, even of the gas developed in the oil wells of California. Gas can now be conserved in receptacles for use in automobile trucks, or for use in private residences for lighting, heating and cooking, and within a short space of time it is predicted that instead of kicking at the gas company and complaining of a "racing meter," the householder will simply order one thousand feet of natural gas for the grocer or hardware man.

Practically all the companies in the Coalinga field use gas for all purposes of the house, and this waste gas is conserved in steel receptacles at no great cost, the cost of living would be materially reduced to the householder.

The invention of new crude oil engines and burners has resulted in a large amount of expertizing in the east, and the result has been that a great avenue has been opened to the marketing of the oil fields of California. The means of transportation will be greatly facilitated by the opening of the Panama Canal, and all the California oil companies will realize a wonderful prospect from this new market.

THE COMPLETION OF THE PANAMA CANAL has a bearing on the oil fields of California which very few people have yet begun to realize. The completion of the Panama Canal places the oil fields of California and Mexico, geographically, in the MOST PROMINENT POSITION OF ALL THE KNOWN OIL FIELDS IN THE WORLD. The opening of the canal brings the companies of the Atlantic Ocean to the Coast of California, and this commerce has to travel a long distance to reach the oil fields of California.

## COBALT CENTRAL MAKING GOOD

Notorious Cobalt Property is Yielding High-Grade Silver Ore—Shipment Has Been Made.

The first carload of high-grade silver ore, to come from the Old Cobalt Central Mines, now known as the Penn-Canadian, since the stockholders and members of the board of directors entered into that disastrous "scrap" several years ago, was shipped this week, when 20 tons of the valuable mineral went to market.

Following the reorganization of the company, when the Penn-Canadian took over the holding, a few months ago, active work began. Underground work as well as stoping was carried on with the result that a property which has long remained out of the shipping lists is now producing the real high-grade stuff.

The old mill, which will treat 100 tons a day, is being refitted and prepared for active operations on a large tonnage of low-grade ore which is already on the dump. The conglomerate formation followed the slates at a point near the 300-ft. level, and at the 306-ft. level the old crosscut, begun by the old management, has been followed till a new vein was picked up. In this vein-ounce ore was found.

On the 45-foot level No. 2 vein ounces values of from 300 to 1200 ounces to the ton, with an average of 1000 ounces. The 45-foot level is from two to four inches and is decomposed matter. At the 110-foot level a vein that yields high-grade values is being worked. The 200-foot level of the vein has been followed for 100 feet and gives values over this distance of 1600 ounces to the ton. The 306-foot level is being developed now for a large milling body where the new vein has been located.

The one important feature to the general public is that a mine property so long "dead" is now returning good values, with renewed activity. The success in this instance should act as a powerful stimulant towards encouraging others to begin work on undeveloped and partially-prospected silver properties.

## RIO-SAO DEAL NOW ASSURED

It was announced last night that the depositing of Rio and Sao Paulo shares has progressed to such a point that the success of the Brazilian Tramways amalgamation is now assured. This result has been obtained chiefly through the promptness of the English and foreign shareholders depositing their shares. So far the Canadians have responded to a somewhat lesser degree. The issuing of negotiable deposit receipts in exchange for the Rio or Sao Paulo shares makes the question of trading in the securities until the Brazilian Tramway securities are issued a very simple one. With the success of the holding company assured, there should be little or no speculation in the great majority of the outstanding shares of Canadian holders.

## BROKERS ARE REAPING A BIG HARVEST

The possibility of profitable sales of Brazilian and purchases of Rio or Sao Paulo afforded in the market during the last three days has put big commissions in reach of brokers who noticed the discrepancy in time to put their clients in on the deal. There has been, of course, only limited trading in Brazilian, but nearly every sale has represented these in-and-out trading transactions. On a transaction of 100 shares of Rio and its equivalent in Brazilian, the hypothetical trade described elsewhere in these columns, the broker would make in commission \$22.50, as follows:

Commission on 25 shares Rio at 1-1/4 per cent. \$6.25  
Commission on 40 shares Brazilian 10.00  
Allowance for turning in 25 shares of Rio for exchange 6.25  
Total \$22.50

It is a long time since such big commission possibilities have been put within reach of the brokers, and it is only remarkable that the interchange transactions were so limited, thus permitting the anomaly of unequal parity to exist so long. One brokerage firm seems, in fact, to have reaped the benefit all to itself. In this particular instance the clerks have been working nights looking up the shareholders of Rio and Sao Paulo and getting them to take advantage of the opportunity. It meant sure profits for the trader, and big commissions for the broker, with no possible chance of loss for either.

## NATL. BRICK AFFAIRS ARE IN A MUDDLE

There has been a big mix-up in the affairs of the National Brick Co. in Montreal of late, and until some arrangement is consummated between the company and some of the large shareholders of the La Prairie Brick Co., things promise to continue in a muddle. It will be remembered that at the time of the merger Messrs. Gallibrer and T. A. Tremblay, who were very large shareholders of La Prairie Brick, refused to accept the terms of amalgamation, and since their terms have not been met, the stock held in their name is still outstanding.

At the time of the merger of the La Prairie and National Brick Companies, it was generally understood that the shareholders of the former concern were all bought out. Later on a basis of settlement was arranged, but the deal fell through. Tremblay and Gallibrer stood out for 50 cents on the dollar for their stock, or offered to sell the affair to an arbitrator. This proposal was conveyed to the National Brick interests, but both offers were rejected. They have now raised their price to 75 cents, and are asking anything less than par.

National Brick took a sharp advance in the stock market at the time of the merger, but on account of the internal row, has since slumped to a considerable extent. Meanwhile Montreal is wondering if there has not been a good deal of manipulation going on in the shares.
