Twenty-seventh Year

LET GOVERNMENT CONTROL  
POWER GENERATED AT FALLS  
MUNICIPALITIES WILL BUY

Matter of Initial Expense Is Only  
Drawback to Adoption of  
Commission Report and  
Places Interested Hope to  
Overcome This by Having the  
Government Own Plant and  
Retail the Power.

That Western Ontario municipalities  
are thirly in earnest in their quest  
for Niagara power is shown by the  
number of invitations which are daily  
being received by Hon. Adam Beck,  
asking that he address public meet-  
ings in explanation of the municipali-  
ties commission's proposals. "Inunda-  
ed" is one word which has been used  
to describe the letters received. And  
while Mr. Beck is willing to respond  
as far as he is able, his official duties,  
as well as his participation in the pre-  
paration of the hydro-electric commis-  
sion report, now under way, allow him  
to devote only the "ends" of a week to  
fulfill the popular call.

Hon. Mr. Beck has, however, ar-  
ranged to address a meeting in London  
tomorrow evening, which has been  
arranged by the city council and board  
of trade, and which will be attended  
by representatives of nearby munici-  
palities. On Saturday evening he will  
address a similar meeting at Stratford,  
and on Monday evening, under the  
auspices of the council and board of  
trade, Mr. Beck will tell residents of  
Sarnia about Niagara's wondrous possi-  
bilities.

Mayor Is Pleased.  
His Worship, Mayor Coughlin, who  
will doubtless be one of the municipal  
representatives to place the power  
matter before the Ontario government  
when the delegates from all the places  
interested will be on hand next Wed-  
nesday, says he has not had oppor-  
tunity so far to go fully into the re-  
port, but he considered the findings of  
the commissioners one of the most  
attractive propositions ever placed be-  
fore Toronto. He remarked that the  
financial recommendations of the com-  
missioners were among the best fea-  
tures of the report. The twelve mil-  
lions which the plant would cost would  
be only guaranteed by the municipali-  
ties, and for electric power would  
be served at from \$12 to \$15 per horse-  
power.

It is interesting to note that the  
City of Toronto last year spent \$44,-  
000 for coal consumed at the pumping  
stations thru a plant of about 2000  
horse-power. With power from Ni-  
agara at \$22 per horse-power a saving  
of \$20,000 would be effected in this one  
instance. At a charge of \$16 the saving  
would be \$28,000, and \$15 would  
mean a saving of \$34,000 just in the  
waterworks alone. This goes to show  
what it would mean all round.

Gait is the centre of the recent move-  
ment looking to joint action of the  
municipalities "favoring" government  
control and transmission of Niagara  
energy. From this town the process of  
unification of effort in the direction  
of enlisting the aid of the government  
to secure cheap power has been direct-  
ed, until now there are over 60 munici-  
palities proposing to join in the com-  
mon convention in Toronto, at which  
a deputation to formally interview the  
administration on Wednesday next  
will be chosen.

Stow, Hat Sure and Certain.  
"I think," said Mayor Thomson,  
when asked yesterday by The World's  
correspondent, as to his opinion on the  
report of the municipal power commis-  
sion, "that it is a tremendous scheme,  
but yet I believe it is feasible. Only  
a strong and nifty government would  
think of undertaking it. It will have  
to be undertaken on a strictly  
business principle, so that it will pay  
its way. You couldn't expect the whole  
province to approve of a ten million  
dollar expenditure in the interest of  
only a portion of the country, unless  
the financing assured the assumption  
of the cost by the municipalities in-  
terested and benefited. The govern-  
ment couldn't be asked to take on the  
basis of sufficient margin of profit  
to insure against any possible  
loss."

Let the scheme be undertaken on a  
test basis. We don't know how much  
energy is lost in transmission, and so  
we can't figure exactly on cost and  
price to be charged. There must be pro-  
vision also that in handling it no munici-  
pality will be permitted to sell com-  
petitively with another as a means of  
bidding for industries. There must be  
a fair price set for the power. Provi-  
sion must also be made for deprecia-  
tion of plant. The question is pre-  
sented with immense possibilities, and  
at the same time full of difficulties  
and dangers which will tax the pow-  
ers of the government to solve and  
overcome. Yet we all hope it will be  
taken up and fully experimented with.  
The people want this done. The govern-  
ment will be supported in taking  
hold of it courageously and yet con-  
servatively and cautiously.

A Government Enterprise.  
A. M. Fryer, president of the Gait  
Board of Trade, and chairman of the  
convention of western municipalities,  
joined to promote government develop-  
ment of Niagara power, said: "It is  
essentially and purely a government

# The Toronto World

TWELVE PAGES—THURSDAY MORNING APRIL 5 1906—TWELVE PAGES

MINERS TO MODIFY DEMANDS  
IT'S UP TO OPERATORS  
TO YIELD A BIT

Should Be Something Definite To-  
Day—Struggle Is Prepared  
for—Roosevelt Is Not  
Interfering.

New York, April 4.—It was the gen-  
eral belief tonight of those who are  
closely watching the situation about  
the anthracite miners' headquarters in  
this city that the miners definitely have  
decided to modify their demands and  
will present them to the operators prob-  
ably to-morrow. Some of the mem-  
bers of the committee privately admit-  
ted before coming to New York for the  
present negotiations that the original  
demands of the union were greater than  
the miners really expected to get, and  
that the leaders could afford to trim  
them down and still leave the workers  
enough to be satisfied. It is believed  
that if the operators will meet the  
men half way on some of the demands  
they have made such as a recon-  
ciliation board, an eight  
hour day and an increase in pay for  
some classes of labor the miners would  
seriously consider the proposition of  
renewing the strike commission, aware  
for not more than one year. The min-  
ers all along have asserted they would  
not bind themselves to any agreement  
for three years.

Working Out Well.  
Preparations for another meeting to-  
morrow between the sub-committee  
representing the anthracite operators  
and the miners kept the Shampokin soci-  
ety committee of the miners busy to-day.  
All the district leaders received re-  
sponses from the anthracite fields during  
the day and evening, and notwithstanding  
reports that more coal was mined to-  
day than yesterday or Monday they de-  
clare the situation entirely satisfac-  
tory to them.

Back to the Mines.  
In the bituminous coal field there  
were more mines in operation than on  
the previous day and many more are  
to resume within a day or two. The  
miners of the Pittsburg district, how-  
ever, were not as large as was expected. This was due,  
it is said, to the factional troubles  
within the district, which showed great  
activity. Negotiations are under way be-  
tween the miners and operators in  
several districts outside the central and  
southwestern territories, and while no  
agreements have yet been reached no  
serious trouble is anticipated.

President Mitchell, when asked to-  
night how matters stood in the bitu-  
minous coal fields, said: "Matters in these  
sections are entirely satisfactory to me.  
Everything is turning out as I expected  
and I believe the situation in the west  
will soon be cleared up."

When informed that President Roose-  
velt had declined to interfere with  
the soft coal troubles, he showed great  
interest and plainly showed he was  
much gratified at the stand the presi-  
dent had taken.

A drop of 50 cents in the f. o. b.  
price of soft coal occurred in New  
York City to-day. The dealers did not  
state the reasons for the decrease, but  
it was reported as due to the improve-  
ment in the bituminous strike situa-  
tion and the releasing of the coal now in  
storage.

ONLY 20 PER CENT. IN FAVOR  
Rest of Railway Brotherhoods Op-  
pose Lord's Day Bill.

Ottawa, April 4.—J. Harvey Hall, leg-  
islative representative of the railway  
brotherhoods, is receiving replies to the cir-  
culars sent out asking an expression of opinion  
regarding the Lord's Day act.

Mr. Hall states that a large propor-  
tion of the orders have already replied,  
and so far about twenty per cent. are  
favorable to the bill, while the others  
are opposed.

Some dogs of high degree, owned in  
Toronto, are pictured in The World  
this morning in advance of the Ken-  
nel Club Show.

Salvage Sale This Day.  
At 66-68 East King-street, Toronto,  
we will sell by auction to the highest  
bidder, regardless of any price what-  
soever, the whole of the salvage from a  
late fire, comprising paintings and  
water colors, Persian rugs, etc. The  
sale commences on Tuesday afternoon,  
April 4, at 2:30, and continues every  
morning and afternoon until all is sold  
completely. Attend this sale. Great  
bargains will be the order of the day.  
C. J. Townsend & Co., auctioneers.

For "Better Tailoring," MacLeod,  
Yonge and College Street.

Miss Fritz Is Here.  
Miss Rose L. Fritz, champion typist  
of the world, arrived yesterday. Miss  
Fritz will try and break her own world  
record at St. George's Hall on Monday  
evening, the 9th, prox. This affair is  
under the auspices of the United Typ-  
ewriter Co., who are issuing invitations  
to the typewriter-interest public.  
Good music will be provided.

P. E. ISLANDERS PROTEST  
AGAINST A REDUCED  
REPRESENTATION

Motion is Supported to Ask Im-  
perial Parliament to Restore  
Confederation Proportion  
in House.

Ottawa, April 4.—(Special.)—An in-  
teresting debate, if it can be called a  
debate, where every one speaks on the  
same side of the question, sprung up  
in support of a resolution by Mr.  
Hubbes (King's) moving, "That a  
humble address be presented to His  
Majesty King Edward VII., praying  
that he may be graciously pleased to  
cause a measure to be submitted to  
the imperial parliament, for the pur-  
pose of amending the British North  
America Act, so that no province of  
the Dominion shall at any time have  
fewer representatives in parliament  
than it was given when it entered  
confederation." The legal questions  
involved were settled by the imperial  
privy council against Prince Edward  
Island upon the redistribution of 1903.

The speakers of to-day, as a rule,  
were inclined to admit that the law  
was against them; indeed, the very  
purpose of this resolution is an act  
of the imperial parliament; yet many  
contended that the B.N.A. Act of 1867,  
if correctly construed, should be read  
in their favor. The Prince Edward Is-  
land delegation all spoke for the re-  
solution, and it was evident that the  
Nova Scotia and New Brunswick  
members were thoroughly in accord with  
them. The debate will be continued  
on Monday next.

Mr. Hughes contended that Prince  
Edward Island had refused to join the  
confederation in 1867 because at  
that time she was refused six mem-  
bers of parliament. In 1873 she had  
been united with the Dominion upon the  
"express agreement" that this point  
should be conceded. It was also un-  
derstood that this number should be  
an irreducible minimum. In 1903  
her representation had been reduced to  
four.

An Unfair Proposition.  
Mr. Martin (Con. P.E.I.) supported  
the resolution. It was true that in  
1903 Ontario's representation had been  
reduced from 86 to 80; but this was  
only the loss of six seats. Prince  
Edward Island had lost 100 seats. By  
the B.N.A. Act Quebec was always to  
have 65 members, and the other pro-  
vinces gained or lost at the decennial  
redistributions, as their growth com-  
pared with the growth of Quebec. But  
since 1867 the area of that province  
had been extended by annexing 115,  
450 square miles. This was manifest-  
ly unfair. His province could not ex-  
tend, being an island.

Mr. MacDonald (Confed.) contended  
that the fathers of confederation had  
never intended that any province  
should suffer a decrease in representa-  
tion. The act itself provided that no  
province should lose more than 10 per  
cent. unless it decreased in population  
proportionately five per cent. more than  
did Canada. In his opinion "Canada"  
meant the four provinces which formed  
the original confederation. No one  
then dreamed of the great empire of  
the west with its immigration pouring  
in from all over the world, in every  
province should be placed in the  
position of British Columbia, whose  
representation could not be reduced.

Without Notice.  
Mr. Stockton (St. John) complained  
of the vast increase in territory grant-  
ed Quebec. It had entirely upset the  
ground work of representation for the  
Maritime Provinces, that could not  
extend their boundaries.

Mr. MacLean (Queen's, P.E.I.) made  
a long speech.

Continued on Page 4.

CONDENSED STATION PROPERTY.  
Port Arthur, April 4.—(Special.)—At  
a meeting of the board of health Medical  
Health Officer Laurie recommended  
the condemnation of the C.P.R. station  
freight office buildings, because they  
are in unsanitary condition. He had  
found the station building in a filthy  
and unhealthy condition and much  
overcrowded.

Hate From England.

DELIVER DOMINION STEEL  
INTO HANDS OF U.S. TRUST

Game Which Montreal and Toronto  
Capitalists Are Said to  
Be Playing.

Montreal, April 4.—(Special.)—In spite  
of all that has been said to the con-  
trary there is a strong effort being made  
by Montreal and Toronto capitalists to  
sell the control of the Dominion Steel  
Company to the United States Steel  
Trust and it can be added that confi-  
dential details may be forthcoming in a  
few days.

It is said that a meeting of the inter-  
ested parties has been held in New  
York within the past week and that  
James J. Hill of the Great Northern is  
not by any means a stranger to the ne-  
gotiations that have been going on for  
several weeks past.

The statement is made that the pro-  
motors of the sale control already own-  
ing some 100,000 shares of the Dominion  
steel common and that the acquisition  
of twenty or twenty-five thousand ad-  
ditional shares would make the merger  
the control quite possible.

It looks as if the promoter of the  
new move will be able to secure on the  
open market as soon as they New York  
principals tell them to go ahead.

It is a fact as it next week would  
be an eventful one for the Sydney com-  
pany.

GERMANY WAS SUCCESSFUL  
IN MOROCCAN CONFERENCE

Berlin, April 4.—Chancellor Von Bul-  
low, to-day gave the following esti-  
mate of the results of the Algeiras  
conference.

"The principle of equal privileges for  
all countries in Morocco has been as-  
serted and maintained. That was the  
outcome of Germany from the begin-  
ning."

W. Harper, Customs Broker, 5 Melinda  
Yonge-street.

A blue worsted, in long roll, double-  
breasted sack, at \$15—makes a noble  
year for young men. Hoberlin's, 153

TROLLEYS HIT TWO WAGONS  
ONE DRIVER BADLY HURT

Michael Dorsey Has Concussion of  
the Brain—Three Other  
Street Accidents.

In trying to drive across in front of a  
car, Michael Dorsey, 19 in St. Michael's Hos-  
pital with concussion of the brain.

Under the influence of liquor he narrowly  
missed a car at Queen and Yonge-streets.  
At Jarvis-street, going at a rapid rate,  
he attempted to turn north, but a Broad-  
view car, driven by S. Sambo, struck the  
wagon. Dorsey and a boy named Arthur  
Spicer, of 124 Jarvis-street, were thrown  
to the pavement. The boy's leg was in-  
jured slightly and he was carried home. Dor-  
sey was unconscious for six hours.

James Grogan, a driver, had his wagon  
struck by a Queen-street car near Clare-  
mont-street. The horse stepped on the  
fender and the body of the car struck the  
wagon. Grogan was precipitated thru the  
window of the vestibule landing. He was  
only slightly scratched.

Douglas Galbraith, 69 St. Mary-street,  
fell off a bicycle yesterday on College-street  
near Huron. The horses of Percy Muir,  
430 Montrose-avenue, trampled on him and  
rendered him unconscious for a few mo-  
ments. He was carried into Grace Hos-  
pital.

The horse of William Cooper, 51 McGill-  
street, ran away on Major-street. Cooper  
was thrown out when turning a corner.  
His nose was badly broken. He was taken  
to the Emergency Hospital.

HIS SPEECH AT WOODSTOCK  
CAUSED HAULTAIN'S FINISH

Premier Scott Explains Why Rival  
Was Passed Over—An  
Offer to Resign.

Regina, April 4.—Premier Scott to-day  
continued his speech in the debate and  
enlivened proceedings with an explanation  
of why former Premier Haultain was pas-  
sed over by Mr. Scott to form a government.

It happened at Woodstock, Ont., when  
Mr. Haultain made his famous speech in  
the Oxford by-election, in which he issued  
threats against the Ottawa government and  
threatened to tear the constitution to  
pieces.

The Prime Minister election was also ven-  
tured, amidst an acrimonious debate, in  
the course of which Mr. Scott challenged  
his opponent to produce the evidence of a  
charge that members of government were  
associated with crooks, and he would im-  
mediately resign.

Going Security for Another.  
The business of going security for  
another on the bonds required by those  
in positions of trust, and the giving of  
bonds to the excise department for the  
guaranty of license holders, is the  
special mission of the London Guar-  
antee and Accident Company, Canada  
Life Building, Phone Main 1642.

AVIATOR LOST IN MARSH  
STRUGGLES END IN DEATH

Exhausted, Falls Face Downward  
in Bog, After Superhuman  
Efforts to Reach Land.

New York, April 4.—Death in the  
waters of Bass Creek on the south  
shore of Long Island, between Jones  
Beach and Amityville, ended the daring  
balloon ascension begun yesterday at-  
tempted by Paul Nocoquet, a French  
sculptor of note and an enthusiastic  
amateur aviator.

He floated to-night on the mud-bog of  
the creek where the tide had left it,  
and not a great distance from where  
Nocoquet's collapsed balloon was discov-  
ered late last night by the life savers  
of Jones' Beach.

Nocoquet evidently landed safely with  
his car, and in fighting his way out  
of the meadows in the darkness had  
crossed 12 or 14 different islands  
and had swam or waded thru the run-  
nels between them.

He stopped on the next to the last  
island, reached and removed the  
life preserver and the overcoat, and  
then resumed the preserver. He cross-  
ed the runnel and climbed into the boggy,  
rushed known as Cat's Island. He  
crossed it at a distance of perhaps 100  
feet, and apparently, as he reached the  
main shore, he must have fallen ex-  
hausted into the shallow water.

Nocoquet must have struggled the last  
mile of the two he traveled under fear-  
ful difficulties. He essayed a trip that  
a strong man could not possibly com-  
plete in daylight.

When Nocoquet started on his trip  
yesterday afternoon the wind was blow-  
ing out to sea. This meant that, un-  
less he should consent to come down  
after being up but a short time—having  
started from the Bronx—he would have  
surely blown across Long Island and  
out over the ocean.

BIRTHS.  
WALKER—On Wednesday, April 4th, 1906,  
at 75 Bay-street, to Mr. and Mrs. Jas.  
Walker, a son.

DEATHS.  
BELLINGER—On Tuesday afternoon, at  
2:06, accidentally killed by a car, young-  
est son of Mr. and Mrs. E. Bellinger,  
aged 5 years and four months.

FUNERAL Thursday at 3 p.m., from 18  
Huxley-street, to Prospect Cemetery.

BELL—On Wednesday, April 4th, at 65  
McGee-street, Walter (Wattie) Bell, aged  
80 years.

FUNERAL from the residence of his  
niece, Mrs. Elder, 65 McGee-street, Fri-  
day, at 3:30 p.m., to St. James' Cem-  
tery. Friends and acquaintances please  
accept this intimation. Thorold and St.  
Catharines papers please copy.

FRANK—At Ossington-avenue, on  
Wednesday, April 4, 1906, Martha  
Frank, dearly beloved wife of G. E.  
Frank, aged 51 years.

FUNERAL from the above address, Fri-  
day, at 2:30 p.m., to the Necropolis.  
Friends and acquaintances please accept  
this intimation.

Smoke—Taylor's Maple Leaf Cigar

## LOOK FOR COMPENSATION HOTELMEN'S LAST HOPE

The Government's Answer to Big  
Provincial Deputation Was  
Not Encouraging.

If we put as little in our \$15  
Suits as other makers do but  
suit would be the same; but  
we don't; we put more into  
them—more work in the in-  
side, and it's the work inside  
that makes a garment retain  
its shape and new appearance;  
therefore our \$15.00 Suits are  
worth more—but we have a  
reason for not charging more.

J. COOMBS, Manager.

### PUBLIC AMUSEMENTS.

Thomas E. Shea presented his new  
play, "Napoleon the Great," at the Grand  
last evening before an audience that  
taxed the capacity of the theatre. The  
play strongly portrays the humanity of  
that wonder among men and vividly  
brings before the mind's eye that  
one is impressed with the feeling that  
the little Corsican is there before him  
in flesh and blood. The drama is full of  
adventure, with its impressive and  
stunning pictures, culminating in  
that grand and thrilling picture on the  
field at Waterloo.

Guy F. Stealey, a young Chicago  
newspaper man, is the author of "The  
Grafters," which will introduce a  
star to the theatre as a lone star at  
the Grand next week with a special  
holiday matinee on Good Friday. The  
role of "Bill Grafters" is said to fit  
like a glove and he is credited with a  
decided advancement in his new depart-  
ment.

The announcement that Miss Ellis Jef-  
frey, one of the most distinguished ac-  
tresses of London, is at last coming to  
this city, ought to be particularly in-  
teresting to local society. The king has  
frequently done her the honor of calling  
her into his private box to praise her  
work upon the stage. "The fascinating  
Mr. Van der Veldt" is a comedy written  
expressly for her by Alfred Sutro. The  
advance sale for the engagement opens  
this morning.

"My Tomboy Girl" gives Miss Lottie  
Williams an opportunity to show how  
versatile she is, for she plays several  
characters that have not been seen be-  
fore. Miss Williams will appear at the  
Majestic Theatre next week.

Shea's Yonge-street Theatre has been  
filled to the doors at every performance  
this week. The "Broomstick Witches"  
from the "Isle of Spice" has proved one  
of the delectable acts of the season. Sal-  
cino is a sensation in his wonderful  
juggling and the Empire City Quartet  
are the best singing comedians seen here  
this season.

For the week of April 9, a big bill will  
be offered, including the great novelty,  
Ross's Musical Horse, Ward and Curran,  
in the Terrible Judge, George Mon-  
roe, Wilton Brothers and the Delmore  
Sisters.

That neither pains nor expense have  
been spared to ready the season when  
Sam Devre's Own Company comes to the  
Star Theatre next week. Among the  
notable artists is André Lewis, in a  
one-act sensational comedy novelty  
written by Barney Gerard and Mr. Lewis,  
entitled "The Queen of Bavaria,"  
utilizing the services of three  
others, besides Mr. Lewis.

The next musical event under the  
management of Massey Hall is the last  
event in the Popular Course, being the  
appearance of Madame Charlotte Ma-  
canda in a recital program on April  
16th.

Madame Albani has been meeting  
with great success in her concerts in  
Western Ontario. Her final appearance  
in Toronto is on Monday, April 23rd, in  
a festival production of the "Redemp-  
tion" given by the Toronto Festival  
Chorus and Orchestra. The subscrip-  
tion list is open at Massey Hall, and  
closes at the end of the week.

### DANGER NOT PAST.

Editor World: The Imperial Order  
Daughters of the Empire would like to  
draw the attention of the public to the  
rumor that the idea of demolishing  
the Old Port or some part of it has  
not been abandoned, but that proceed-  
ings are quietly under way, and the citi-  
zens will only realize when too late  
that they have allowed this interesting  
memorial to be destroyed.

Mabel Clint, Secretary.

A New York paper pictured Senator  
Smoot with three wives sitting on his  
knees, whereupon Smoot declares that  
"it is an absolutely blank lie." He  
gives it out in effect that:  
"Woman's love is like Scotch snuff,  
I've got one wife, and she's enough."

## WHY IS IT THAT OUR BIG TRUNK SALE

Is so great a success? It is because you get exactly what we advertise. Tremendous  
reductions in prices—but none in quality. Our prices are money-savers.

SEND FOR CATALOGUE.

keepers be allowed to sell ginger ale.  
They ought to be allowed to deliver  
liquor to minors over 15 on a written  
order from the parent. The hotelkeep-  
er did not deserve this privilege.

He argued for compensation. It was  
a great hardship that a hotelkeeper  
should lose his license thru no fault  
of his own. If the fee was to be in-  
creased they should be allowed to re-  
main open till midnight on week days.  
"We desire," said Mr. Haverson, in  
conclusion, "only what is fair and  
reasonable. We are paying more than  
we can keep without too great a tempta-  
tion."

The premier asked Mr. Haverson a  
question with relation to the sale in  
shops. Six or seven years ago the law  
was amended to give the shopkeeper  
the privilege of selling liquor in half-  
pint jugs. Did they desire that to  
remain and did it have any effect on  
sales?

Mr. Haverson did not know as to  
the effect on sales. The privilege had  
been greatly appreciated by the shop-  
keepers.

No Demand for Increase.  
H. M. Kitchin next spoke. He asked  
what were the reasons for the in-  
crease in license fees. The public did  
not demand it, because they knew that  
it would mean a substantial increase  
in the cost to themselves. Instead of  
reducing the evil it would increase it.

The liquor people contributed \$37,000  
a year to the taxes, and the new fees  
would increase this to about \$30,000.  
They were paying more than the cost  
of hospitals and charities, of civil gov-  
ernment or agriculture. The finances  
of the province were so buoyant that  
it could not possibly be necessary to  
add to the burden of the liquor  
people. He advocated that in  
local option communities the obliga-  
tion should be thrown on the munici-  
cipalities to furnish travelers with accommo-  
dation.

Mr. Hanna's Reply.  
The provincial secretary replied. He  
was glad to hear the better class  
of hotelmen were interested in the  
proper enforcement of the act. The  
proper enforcement of the act, he  
said, would be to limit the number  
of licenses and to limit the number  
of hotels. The government had no in-  
tention of increasing the number of  
licenses, but it was necessary to limit  
the number of hotels. The government  
was not imposing a dollar of fee on any  
particular class in the trade, from any  
standpoint. The license law was not  
designed to apply to the better class  
of hotelmen, but to the poorer class.  
The government was not increasing the  
number of licenses, but it was neces-  
sary to limit the number of hotels.

Mr. Haverson said that a reduc-  
tion of one-third of the fees all round  
would bring about right. The gov-  
ernment had not increased the fees  
in townships, because the licenses had  
not the monopoly value.

Mr. Haverson was not one of the  
states that had a notoriously large  
consumption of liquor, but the license  
fee was \$2000, and there was no limit  
to the number. In Ontario the number  
of licenses had been cut in two, and  
the temperance people claimed that  
the consumption of liquor was on the  
increase.

Stands by Clause.  
The clause in the bill re the sale of  
liquor near agricultural grounds had  
been in the act for years, but was  
put in operation only recently. The  
clause regarding the protection  
of witnesses was one the hotelmen  
should wish to see enforced. It was  
the intention of the government to  
enforce it. This was a clause the gov-  
ernment proposed to stand by.

As to the cancellation of licenses the  
clause might not result in cancel-  
lation. Mr. Hanna gave a definition of a  
"drunken man." Someone had told  
him, "When you've had enough  
whiskey, when you don't call for ear-  
saparilla." "The trouble is," returned  
Mr. Haverson, "when you've had enough  
whiskey, you can't say saparilla."

The tied-house was the outcome of  
the system of limiting the number of  
licenses. There was no thought of at-  
tempting to interfere with present ac-  
tivities, but it was proposed to restrict  
the tied-house to the extent of the  
government's power.

No 12 o'clock Closing.  
The sentiment of the province was  
against 12 o'clock closing. "Our  
only answer to that request is  
no," said Mr. Hanna, emphati-  
cally. There was no intention  
of inflicting hardship for the  
sake of doing it. His thought was to  
give a strict enforcement of the law.

"You'll be protecting your own in-  
terest by seeing that the law is en-  
forced," he concluded.

Premier Follows Duty.  
The premier said it would be un-  
gracious on his part not to say a  
word to this large deputation. It  
must be recognized that the govern-  
ment of the day followed its duty when  
it watched for manifestations of pub-  
lic opinion, and so far as public opin-  
ion pointed the way it was its duty to  
follow. He believed that the govern-  
ment of the day followed its duty when  
it watched for manifestations of pub-  
lic opinion, and so far as public opin-  
ion pointed the way it was its duty to  
follow. He believed that the govern-  
ment of the day followed its duty when  
it watched for manifestations of pub-  
lic opinion, and so far as public opin-  
ion pointed the way it was its duty to  
follow.

He agreed with many people as to  
the evil results of the liquor traffic.  
He believed that the government was  
changing, and that the hotelkeep-  
er was anxious to obey the law.  
He was entitled to the protection of  
fair play and common sense. He was sat-  
isfied that by extremists on both sides  
the government would not be appreci-  
ated.

Mr. Whitney said the government  
was always ready to receive sugges-  
tions.

tions, and he thanked the deputation.  
The deputation then withdrew.

Must Look for Compensation.  
At the convention at Victoria Hall  
in the afternoon, subjects of general  
interest were discussed by the dele-  
gates.

Frank Collins of Dundas made a  
strong plea for unity and concerted  
action on the part of the licensees of  
the province, to obtain compensation  
for the members of the association,  
who, thru the local option agitation,  
had lost their licenses.

"We must get a feasible scheme, and  
get it at once," he said. "The govern-  
ment has thrown us, and if we do not  
get some measure of compensation, I  
for one, am prepared to vote them out."

A committee was immediately named  
to wait on the government re the  
subject of compensation, as follows:  
Messrs. Collins, Dundas; Paisley; Ot-  
tawa; Reid; Ingersoll; Mulqueen, To-  
ronto.

Celebrities' Simple Tastes.  
When J. Pierpont Morgan dines at home  
he has corned beef and cabbage. John D.  
Rockefeller likes hot water, and coast.  
Uncle Russell Sage is fond of thin soup.  
Thomas Fortune Ryan would give an in-  
surance company or an elevated railroad  
for a Springfield ham 25 years cured, with  
old-fashioned corn dumplings as a garnish-  
ing. Mark Hanna was a big eater, rival-  
ling Pouter Quetter. He hoarded so much  
of this corned beef hash that half the mem-  
bers of the Republican party got to eating  
that luxury. New York Press.

A Question for Cricketers.  
Will Lord Dalmeny, M.P., captain the  
Surrey eleven this season? asks an English  
daily. If he can manage to do so he will  
be doing a real service to the county and  
its cricket. Probably there has not been a  
case of an M.P. being a county captain.  
The we have had peers like Lord Hawke  
and Lord Harris leading county teams to  
victory season after season. It is Lord  
Hawke's 25th year of Yorkshire cricket, and  
he is "game" for many a match yet.

### PROPERTIES FOR SALE.

**Elmes Henderson's List.**  
**ELMES HENDERSON, REALTY**  
and Insurance Agent, 24 Adelaide-  
street East.

—CLOSE TO BATHURST  
cars, attractive opportu-  
nity for builder or plasterer, new six roomed

hold and store furniture, old  
silver, jewelry, bric-a-brac, pictures, etc.  
Write 365 Yonge, or telephone Main 2182.

**Pop Goes the Weasel.**  
Aitchison Globe: About the first thing  
you notice in a trip around the world  
is the surprising manner in which your  
money flies. You get little for it, but it  
goes. I seem to do nothing but produce  
\$5 bills, and get nothing for them. I re-  
ceive a little insignificant change in an  
insignificant currency. The "figure" you  
go to, before you start, is all  
wrong. I don't know where my money  
goes, but I know it goes, and I know  
of no way of preventing it.

If some could, they would prevent  
roller skating by legislation until one  
has first learned how.

### HELP WANTED.

**AGENTS—WE ARE PAYING LARGE**  
commissions on any company de-  
aling in house business; we manufacture  
the highest grade of mowing powders in  
America; you can make from five to six  
dollars a day. Apply to us for particulars,  
Iwanta Manufacturing Co., Hamilton, Ont.

**MORNING ROUTE CARRIERS WANTED.**  
Apply Circulation Department,  
The World, 35 Yonge-street.

**YOUNG MEN WANTED TO LEARN**  
telegraphy and qualify for positions

# All Pure Beer Is Not Good Beer

Some Large Brewers Claim Purity and Sterilization and little else.  
We Guarantee Purity, Sterilization and Excellence of Materials.  
Superiority of Quality is the Test.

**M**OST beer, no matter by whom brewed, is clean, pure and sterilized.

These primary conditions prevail in nearly all breweries. Many pure, clean beers, however, are not good beers.

\*\*\*\*\*

Clean, pure beer may be made from almost any cereal—and may be aged and sterilized, but it will not necessarily be good beer.

**CORN OR OTHER CHEAP MATERIALS WILL NOT MAKE GOOD BEER.**

The maximum of Quality is not there.

The brewers of Corn-made beer can and do justly claim purity, cleanliness and freedom from germs.

But they cannot justly claim quality.

\*\*\*\*\*

For these reasons

## Budweiser

The King of All Beers

must and does command a higher price than any other beer, and has a greater sale than all other bottled beers.

### LIVES 25 DAYS IN MINE RESCUE BRINGS ON RIOT

Appearance of Another Survivor  
Results in Demonstration  
Against Salvage Engineers.

Lens, France, April 4.—Another living survivor of the mine disaster at Courrières, March 10, was discovered this morning and brought out of the pit. His name is Auguste Berton, and when found he was in fairly good condition, and, according to his first statements, he suffered less than the preceding rescued men.

As the news spread thru the region it caused extreme exasperation against the engineers who have been directing the salvage work. M. Leson, the state engineer, when he arrived at the pit, was surrounded by a crowd of people who cursed and swore at him, one woman going so far as to strike the engineer.

One of the party of salvage men was working in the mine this morning when he felt the touch of a hand on his shoulder and a man, who turned out to be Berton, said: "I am saved." Berton thus described his experience: "I was working with my cousin when an explosion occurred, and we became separated. Afterwards, trying to find an outlet, I first found a dead horse, but was unable to eat any of its flesh. Later, I found some lunch bags which had belonged to men who had been killed by the explosion, and I lived on the food I found in them. I suffered from the cold and took clothing and shoes from the dead. I also found three watches and 24 sous. At one time I gave up hope and tried to commit suicide by opening a vein.

I slept ten times and tried to count the days, estimating that eight days had passed since the explosion." When the engineers came to the surface at noon, they were attacked by a crowd of women-crying "Death to the murderers." They were rescued by a squadron of dragoons. The people are intensely excited. They believe that there are other men alive in the mine and serious disorders are threatened.

A thousand women are thronging about the mouth of the mine and are forcing the barriers. The troops and gendarmes are trying to control the situation.

Five search parties were sent down to explore the pit where Berton was found, but up to 1.30 p.m. they had not discovered any more survivors. Other parties are searching the mines, and the chief engineer will remain below all night.

The ministry of justice has directed the public prosecutor of Douai, Department of the Nord, to investigate the methods followed by the salvage engineers at Courrières, with the view of prosecuting them under the criminal code for negligence and manslaughter. The ministry has ordered the prosecutor to make a rigid application of the laws without respect for persons, including the state and company engineers.

**A Private Garage.**  
A number of motor enthusiasts have evolved a plan to erect a central private garage, convenient to their respective residences, to accommodate their machines, and application for letters of incorporation have been applied for and the purchase of a lot in the neighborhood of Spadina-crescent has been completed. The company will be known as "The Private Garage, Limited," and among those interested in the movement are R. A. Smith of Osler & Hammond, John A. McKee of the Dods Medicine Co., T. W. Horn and Sidney Small.

Plans for building have been prepared by H. F. Herbert, architect, and call for in many ways a unique structure 98x77 in size. It will store easily ten machines, and will be equipped with turn-tables, cleaning racks, repairing pits, special room for chauffeurs and caretaker's apartments and a modern heating plant.

### PORTIA IN HER OWN BEHALF.

Cornwall Woman Addresses Jury in a Peculiar Theft Case.

Cornwall, April 4.—(Special).—There were two acquittals at the assizes, Justice Clute presiding. Miss Josephine Smith, formerly of Merrikenville, known thruout Eastern Ontario as a collector of antiquities, and a compiler of local history, was charged with having kept and diverted to her own use an ancient Roman Catholic prayer book, printed in Paris in the sixteenth century, which was entrusted to her in September, 1904, by its owner, A. G. F. Drew of Morrisburg, to ascertain something of its value and history. As the book was not returned, Miss Smith was arrested last December at Kankleek Hill and committed for trial at the January assizes. The case was sent over to enable Miss Smith to return the book. She believes the book is packed with some household goods shipped to relatives in Philadelphia, and still in possession of the express company. She conducted her own case and addressed the jury at considerable length. A verdict of "not guilty" was returned. The judge advised Miss Smith to make every effort to recover the book.

Elma Barry, a servant employed at Chesterville, gave birth to a child on Feb. 9 and was charged with being responsible for its death by neglect. The jury said "not guilty."

**The "Diminutive" Piano.**  
Interest increases as the new diminutive piano, made by the old firm of Heintzman & Co., becomes better known. It is quite a marvel to think of a piano measuring only 5 ft. 8 in., containing all the essential qualities, and in the same degree as a concert grand piano. Yet such is a word is the story of the new diminutive piano, the latest production of the old firm of Heintzman & Co.—house that for fifty years has given Canada the choicest in pianos.

**Would Build Street Railway.**  
Winnipeg, April 4.—The Kensington Land and Development Company offer to build a street railway in Brandon, ten miles in length, at an estimated cost of \$200,000.

**Reward of \$50 Offered.**  
Provincial Detective Greer has issued a circular offering a reward of \$50 for the arrest of the woman who abandoned the child found dead in the shed of the Presbyterian church at Port Credit.

**Sunday Teacher Training.**  
Last year, up to this date, the Ontario Sunday School Association, had given four teacher training examinations. There were 25 papers sent in. This year 15 exams have been held, and the association has received applications for five more examinations, which will mean 50 additional papers.

**No Coal to Run Trains.**  
Des Moines, Ia., April 4.—The Minneapolis and St. Louis and the Iowa Central Railroads to-day announced the abandonment of six local passenger trains for Sunday, because of coal shortage due to the coal strike.

### THE NEXT AUTO SHOW.

Twelve Carloads of European Machines Arrive for Exhibition.

The British and French Motor-Car Company, Limited, head office and garage, Caledonia Rink, Mutual-street, Toronto, have been appointed sole agents for the whole of Canada for the following British cars: Daimler, Argyl and Swift, and the sole concessionaires for the whole of Canada for the Panhard, Minerva and De Dion. They are also sole agents for the Rex, Minerva and Zenith Motor Bicycles, and sole agents for Lucas and Brown Bros' accessories, Walters' motor clothing, Vandervell's electric accessories and Sampson Non-Skid Tires and Bands. The garage will be permanently equipped with trained mechanics and a full supply of spare parts. Last night a party of ten mechanics arrived with twelve carloads of autos and machinery. Anyone purchasing one of these cars may feel perfectly assured they can be kept in perfect running order at all times. Full lines of these celebrated goods will be shown at the Canada Automobile and Motor Exhibition, Toronto, April 9 to 14, and Montreal, April 21 to 23. Special dealers have been sent by the manufacturers of the above cars, who will be in attendance daily during the shows. Outside the building, for the purpose of driving intending customers. The sale of Argyl cars in Montreal will be controlled by Henry Morgan & Co.

### COBALT.

**The Rich Silver District Recently Discovered in New Ontario.**  
The eyes of the world are now turned towards Ontario, where the newest silver discoveries are creating the maddest excitement in the whole history of North America.

Cobalt is the centre of a greater mining boom than was Dawson City in its prime days. Instead of the hard trails and strenuous efforts that were necessary to reach the Klondike, the way to Cobalt is easy and can be reached direct in a Pullman sleeping car. The Grand Trunk Railway System will carry you there with all the comforts of modern travel.

A postal card to the following address will bring you a comprehensive and complete illustrated description of the new Eldorado, with maps and all information. J. D. McDonald, District Passenger Agent, Union Station, Toronto, Ont.

**Your Wisest Course**  
Is to heed a warning sign. If you are caught in the web of rheumatism, neuralgia or muscular pain, don't wait for worse troubles. Begin prompt treatment with Polson's Nerviline. It drives all traces of cold from the system, cures rheumatism, and neuralgia pain, saves you from a lay-up in bed. No 25c purchase can bring more comfort than a bottle of Polson's Nerviline; your druggist has it.

### CHINESE HAVE SMALLPOX.

Epidemic in Immigrant Party in Bond at Montreal.

Montreal, April 4.—Consternation was caused at the Windsor station this morning, when it was discovered that smallpox had broken out amongst a party of 130 Chinamen who were being transported in bond by the C.P.R. One of the Celestials became ill yesterday, and this morning his case was diagnosed as smallpox. He was immediately taken to the Isolation Hospital, while the 130 Chinese and a dozen or two other immigrants have been removed to an isolation camp at the back of the mountain, where they will be kept two or three weeks pending developments at the expense of the C.P.R.

### SAFETY.

Never in all the history of transportation has travel been safer than it is to-day. Seated in perfect comfort in any of the mile-a-minute trains of the Lake Shore Railway you are in less danger by far than was your grandfather in the lumbering six-mile-an-hour stage of a half or three-quarters of a century ago. Trains over this line are protected and guarded in a way that is but little short of marvelous. Every device that skill or money can provide is used without regard to the expenses, and in spite of the high speed—the fastest in the world—you are as safe here as in your own home. Combined with safety and high speed are luxurious comfort and punctuality, all combined to make a service unequalled the world over. See that your ticket reads "via Buffalo and the Lake Shore Railway" and write for full information to J. W. Daly, Chief Ass't G. P. A., Buffalo, N. Y.; A. J. Smith, G. P. A., Cleveland, Ohio, or W. J. Lynch, Pass'gr. Traffic Mgr., Chicago, Ill.

**Labor Conventions.**  
Several international conventions will be held among the labor bodies during this season.

Among the latest announced will be that of the Brewery Workers' Union, which will be held in Toronto on Sept. 19 to 23. About 400 delegates will be present. The annual convention of the plasterers will be held in Toronto on Sept. 24 to 28. The International Lathers will convene in the Labor Temple on Oct. 1.

**Sir Arthur's Reward.**  
London, April 4.—Sir Arthur Nicolson, the chief representative of the British mission at the Moroccan conference, will receive the order of the Knight of the Grand Cross of St. Michael and St. George for his services at Algeiras.

Two fine gas lamps have been placed in front of the Church of the Messiah at the corner of Dupont-street and Avenue-road.

### ENGINEER-SAVES LIVES.

Vigilance in Spring Open Switch Prevents Catastrophe.

Norfolk, Va., April 4.—A wreck occurred on the Norfolk and Western Railroad, between Suffolk and Norfolk to-day, when the "Cannon Ball" train, bound from Richmond to this city, ran thru an open switch at Jupiter Siding. Seven persons were injured in the wreck, and but for the vigilance of Mark Noble, engineer of the train, who was watching for just such a thing as an open switch, which caused the wreck, and who applied the brakes, probably many of the 50 or 60 passengers aboard would have been killed. The train was running at the rate of 75 or 80 miles an hour.

### RUSSIAN BANKER SUICIDES.

Made Fortune in Lotteries—Bankruptcy Probable Cause.

St. Petersburg, April 4.—Heinrich Block, a banker, hanged himself at his residence to-day. Block first introduced into Russia on a large scale the American methods of advertising. He was engaged principally in the sale of lottery bonds on the installment plan, his own fortune having been based on his luck in drawing a capital prize of \$150,000. It is intimated that Block was heavily committed on the bourse, and that the investigation into his death will develop a big bankruptcy.

### News From Canadian Sault.

The latest tells of the quick recovery of Edw. J. O'Connor. Asthma had pretty nearly finished him, but he wisely used "Catarrhazone," and writes as follows: "From my boyhood I have been a constant sufferer from Asthma and Catarrh. My nose and throat were always stopped up with mucus, and I had dropping in the throat. When asthmatic attacks came on I thought I couldn't live through the night. I would sit up and gasp for breath and endure great distress."

"Catarrhazone" was a God-send to me. It has made me entirely well and I speak of it just as I found it." A. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

**Sir Arthur's Reward.**  
London, April 4.—Sir Arthur Nicolson, the chief representative of the British mission at the Moroccan conference, will receive the order of the Knight of the Grand Cross of St. Michael and St. George for his services at Algeiras.

Two fine gas lamps have been placed in front of the Church of the Messiah at the corner of Dupont-street and Avenue-road.

### CANADIANS COMING BACK.

Planning to Leave New England Because of Greater Prospects Here.

Montreal, April 4.—(Special).—Duncan M. Stewart, vice-president and general manager of the Sovereign Bank, who has returned from the New England States, says that Canadians there are eagerly making arrangements to come back to Canada.

"There are thousands of Canadians in the New England States," said Mr. Stewart, "who have never taken out citizenship papers, and are now returning rapidly, having found that Canada now affords better prospects than the United States, because they feel that the same amount of work and energy expended in Canada will be attended by greater results during the next few years."

"I was told of a party of thirty-eight men, most of them American citizens, who left Boston last week to settle in the Canadian Northwest, and who took with them \$50,000 in cash."

### A CANADIAN HONORED.

A new department of comparative literature is being instituted in Harvard University, the head of which, Professor Henry Schofield, Ph. D., is a young Canadian, who some years ago went to Harvard for a post-graduate course, and was there appointed to a traveling fellowship and spent some years in Europe in studying in France, Denmark, Norway and Sweden, and Germany, the sources and stems of our English language. On his return he was appointed to a position on the staff of Harvard University, which he has held ever since.

### TO ENTERTAIN COLONIALS.

(Canadian Associated Press Cable.)  
London, April 4.—The conference of the United Chamber of Commerce of the empire is to be held in July, with Lord Elgin as chairman. A proposal is on foot to entertain the colonial representatives with a provincial tour after the meeting is concluded.

### General Blanco Dead.

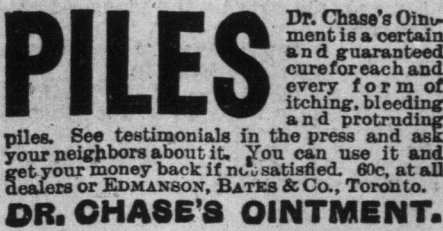

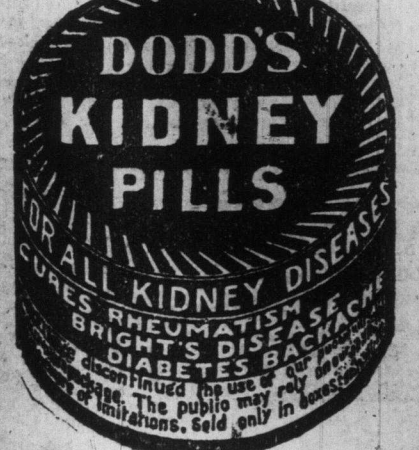

Madrid, April 4.—General Blanco died this morning. He was captain-general of Cuba immediately prior to and during the Spanish-American war.

### Caron at New York.

New York, April 4.—Sir Adolphus Caron, ex-postmaster-general of Canada, arrived here to-day on the steamer Carmania, from Liverpool.

### Cook's Cotton Root Compound.

The only safe effectual monthly medicine on which women can depend. Sold in two degrees of strength—No. 1, for ordinary cases, 45c per box. No. 2, 10c stronger for Special Cases, 95c per box. Sold by all druggists. Ask for Cook's Cotton Root Compound; take no substitutes. Windsor, Ontario, The Cook Medicine Co.

## The Toronto World

A Morning Newspaper published every day in the year.

Telephone-private exchange connecting all departments—Main 252.

**SUBSCRIPTION RATES IN ADVANCE.**

One year, Daily, Sunday included	\$5.00
Six months	2.50
Three months	1.25
One month	.45
One year, without Sunday	3.00
Six months	1.50
Three months	.75
One month	.25

These rates include postage all over Canada, United States and Great Britain.

They also include free delivery in any part of Toronto or suburbs. Local agents in almost every town and village of Ontario will include free delivery at the above rates.

Special terms to agents and wholesale rates to newsdealers on application. Advertiser rates on application. Address THE WORLD, Toronto, Canada.

Hamilton Office, Royal Corner, James Street North. Telephone No. 965.

### PROVINCIAL RAILWAYS.

Today the legislative assembly goes into committee over the railway bills. One of these is of the nature of a consolidating and amending act—the other constitutes a railway and municipal board which, subject to an appeal on points of law, will have full power to consider and determine all questions arising in connection with the provincial lines or between them and the communities immediately interested. The proposed measures are, therefore, of the highest importance to the citizens since they practically establish the general principles which will hereafter regulate the respective rights of the representative bodies of the province and the railroad companies and the relations of the latter among themselves.

It is said that the companies intend to offer a united and resolute resistance to the section which limits grants of public franchises to a period of 25 years. The report is probable and the endeavor, however obnoxious to public rights, is not surprising from the standpoint of private interests. But there must be no weakness shown by the government in dealing with this crucial issue. Perpetual franchises, whether explicit or created by means of renewal rights, statutory or conventional, are objectionable in the highest degree. Their injurious effect may be maintained by a periodical revision of terms, but it is not removed. Looking to the strong movement which has developed in favor of public ownership and the probability—almost certainty—that what are now small communities will, many of them, become populous centres, nothing should be done to fetter their freedom of action in the future.

Perpetual franchises in any form are directly contrary to public policy. Of this ample proof can be obtained by reference to the experience of those cities and towns which have been foolish enough to give them. No form of control, however stringent, can keep perpetual franchise holders from profiting by the unearned increment coming to them from the natural growth of communities and the energy and enterprise of their inhabitants. In earlier days when twentieth century developments in science and invention and in methods of administration were either unknown or in an embryonic stage, there may have been some show of plausibility in the contention that those who took an experimental risk could reasonably demand a corresponding return. That argument is now pointless. The value of public franchises has been fully demonstrated, and since it and they are the creation of the people the only true principle is to preserve them for the people.

Premier Whitney has shown himself fully alive to the incontrovertible arguments in favor of public ownership, and he will establish himself still more in popular favor by presenting a determined front against any and every attempt to perpetuate the evils inseparable from the existence of private monopolies. In the yielding of his immediate predecessor to corporate influence and the serious injury inflicted by it on the province he has an example to avoid, not to follow. Mr. Whitney has an admirable opportunity once and for all to vindicate public rights in the transportation franchises through Ontario, and to gain the people in all that is necessary to secure that end. The clear call for the premier is to insist upon the limitation of franchise grant and to preserve, as an immutable public right, the power to resume franchise grants on their expiry.

### "THIS MAN MR. BECK."

The criticisms made yesterday upon the Municipal Power Commission's report did its compilers great honor. The friendly criticism is all right; the hostile fault-finding is all right, too.

Mr. J. J. Wright, the general manager of the Toronto Electric Light Company, is thus reported:

It is very unfair and dishonorable to have a minister of the

crown traveling around the country as this man Mr. Beck is doing, addressing boards of trades and municipalities, and trying to prejudice the minds of the people against corporations doing legitimate business.

This is excellent. When you have no case, abuse the plaintiff's attorney. No one who has heard "this man Mr. Beck" discuss Niagara power, will need to be assured that it is because Mr. Beck sees that public exploitation of Niagara power is the way to make the private enterprises of the province flourish, that he has become the thoroughgoing advocate of municipalized electricity. Municipal power means great gain to innumerable private persons, what are a few corporations among so many?

Mr. Frederick Nicholls has also been interviewed upon the report. He seems to feel hurt that the commissioners did not send a copy of it to him as well as to the municipalities for whom they worked so much. Mr. Nicholls surely has not forgotten the when the commission desired information on which to base an estimate as to the cost of buying out the Toronto Electric Light Company, of which he is a director, they were refused admission to the plant.

Mr. Nicholls is obviously annoyed at the recommendations of the commission. He declined to discuss the commission's figures at all. They are so very different from those embodied in the contracts made by the Toronto Railway Company and the Toronto Electric Light Company as to beg a natural reserve in the controllers of these concerns.

Mr. Nicholls made suggestions to the effect that if the government supplied power so cheaply at Niagara Falls, the industries which are running in other parts of the province will crowd to that neighborhood, and the most awful condition of affairs will be created. Mr. Nicholls need not be alarmed, except for the fate of the supply contracts in which he is interested. His companies do not stand between Ontario businesses and death by congestion.

Of course there has not been time for the report, the substance of which was only given to the public yesterday, to be thoroughly digested by its opponents. Their more matured and more restrained criticisms may be of some use. But the report is founded on a bed-rock principle, as unshakable as the proposition that two and two make four. The corporations that have contracted to charge \$35 for what costs \$12 are in queer street.

"This man Mr. Beck" is likely to keep them there.

### ROAD TO THE BAY.

Sir Wilfrid Laurier told the house of commons on Tuesday night that he expects to live long enough to see a flourishing city at the mouth of the Churchill River, 800 miles above the southern limit of James Bay.

Said he, "We must push ahead and go as far north as colonization can go. I have great confidence that before many years we shall see around the Hudson Bay and in that district populous villages, towns and cities, where there shall be lumber industries, fishing industries, metal industries and all kinds of industries."

Sir Wilfrid's city at the mouth of the Churchill River is purely a north-western proposition. It can never be of direct utility to Ontario. If a thriving port is to be established there before Sir Wilfrid is gathered to his fathers, there is all the more reason why direct communication between Hudson Bay and the more populous parts of North America should be speedily established.

The impulsion toward railroad communication with Fort Churchill is, of course, the increasing necessity of finding a quick way to Europe for prairie-grown wheat. A similar reason does not exist for an Ontario railroad to the bay. It is a question rather of imports and summer excursions with us; which means that the line of communication to be opened must be direct and economical.

The great thing is to get communication established, and build up your commerce on a minimum of capital expenditure in a country which at present contains practically no white inhabitants. The scheme of Colonel Harvey, sketched here a few days ago, appears to meet these conditions. It involves a railway across the 250 miles from Lake Superior to Albany River, which is navigable from that point to its mouth.

The conditions of winter travel and exploitation of the wealth of the great Canadian sea are perhaps imperfectly understood. Discussion must be applied to the general capabilities of the situation. It must be ascertained whether men who are willing to back a bold effort to do what Sir Wilfrid Laurier thinks will be done within a few years—establish "lumber" industries, fishing industries, metal industries and all kinds of industries" upon the coasts which have hitherto been regarded as unprofitable to civilization.

### LAND DEALS COME BACK.

Throwing stones at governments for selling land too cheaply is sometimes a dangerous game.

It is unhappily true that all governments in Canada, at some time or other, have been far too liberal with the public domains. Territory which is thought to-day to be worthless turns out to-morrow to be valuable indeed. Sometimes

its value would not have been discovered unless somebody had been unduly prodigal with it.

It seems now to have been very foolish to sell prairie land to parties who formed the Saskatchewan Valley & Manitoba Land Co., for a dollar an acre. Mr. Foster has said in the house of commons that it was the business of the government department to know that such land, so it seemed to be an arid desert, was really capable of growing great crops of wheat. That may be so; but the fact is that it is only within the last few years that faith in the capacity of the Northwest to grow grain has become general, even in the west itself. Old westerners believed that the plains north of Regina and in other parts now prosperously settled were worthless. The raising of fall wheat in the dry belts of Southern Alberta is one of the most astonishing features of twentieth century development in the whole world, and it seems a little unnecessary to condemn deals by men who had the courage to settle townships, hitherto believed to be worthless, because they have made money on the transaction.

It appears to be true that the Q'Anipelle, Long Lake, and Saskatchewan Railway people refused to accept the land through which their lines to Prince Albert passed, because they believed it to be permanently useless. It is also an undoubted fact that the very country so condemned and neglected is full of flourishing farmers, mainly from the United States.

That is the basic fact of the situation. So long as land hunger is a natural attribute of human nature, so long will the exigencies of growing population bring to some few fortunate individuals great increase in wealth, thru increment in land values, which they personally did little or nothing to develop.

All this does not alter the case for enquiry into the connection of Mr. Turfitt and Mr. Adamson with the Davidson deals. These two members of parliament should themselves demand full elucidation of all the facts. There may be a natural reluctance to display before an admiring people the methods by which a poor storekeeper becomes first a civil servant on a salary of a few thousand dollars a year and then the reputed possessor of nearly a million dollars and of a seat in parliament, without other occupation.

The ways of land commissionerships are extremely interesting.

### YOU MAY DOCTOR YOURSELF.

The crusade in the United States against the patent medicine man has overflowed into Canada. South of the line the doctors are declared to have combined to drive out of business the maker of medicines who is not also a medical practitioner, on the ground that remedies which are widely advertised are often injurious to health, and are therefore public enemies.

The same might perhaps be said of nearly all medicines, and the wicked owner of a fortune-making formula might even suggest that doctors themselves are extremely fallible beings. That too much medicine is used is probably true. It is just as true that too many summer costumes are probably purchased in some households. Still the individual who has a certain freedom in doctoring himself. The medical profession has no vested interest in other people's ills.

Probably the medical profession admits to itself that much less medicine would be prescribed by high-minded doctors were it not that their patients are apt to think that if they are not dosed they do not get the treatment they pay for. However that may be, the doctors are said to be behind the proposed legislation in the United States and in Canada which would compel the unprofessional dispenser of household physic, which is vended as freely as soap and soda, to print upon every bottle or box of his output the formula on which it is compounded.

That, surely, is carrying the matter too far. Laid advertisement is suspected in columns sacred to more exalted purposes, we cannot refer to any particular medicine, which is not only harmless, but beneficial. There are pills and potions which have become quite institutional in some families. They are certified as harmless thru long years of experience. Very few people know, and nobody cares, exactly what they are composed of.

What may be called factory medicines are popularly imagined to be made up of very cheap constituents, on which the maker receives a large profit. But that is also the case with what comes to the sick person under the great authority of the family physician.

When the grave and dignified family physician is compelled to describe to his patient the constituents and original cost of the medicine he favors him with, it will be time to compel the doctor's rival to do the same.

It may be that some method of supervision of proprietary medicines should be devised, because at present the field is more or less open to practitioners who may have little knowledge and less scruple concerning the articles which they supply to the public. No objection should be made to patent medicine makers depositing their formulae with the government under seal of secrecy, so that from time to time the goods they put on the market might be independently analysed. This would safeguard the public health, and at the same time give to patent medicines a reasonable guarantee of harmlessness, and leave the purchaser to

discriminate as to their remedial value. That is what he pays his money for.

### POLICYHOLDER'S SUMMING UP.

Editor World: The revelations already made by the insurance commission investigation at Ottawa, into the way in which the money of policyholders have been manipulated, by investing them in various kinds of questionable foreign and local stocks, and the losses attendant thereon, has been an eye-opener to the public. Altho the enquiry has taken up but very few days, as yet, it proves the members of the commission, by their adjournment to the 17th inst., and the leisurely way in which they have already performed their work, indicate that they are in no immediate danger of seriously injuring their health by working overtime.

That Commissioner Langmuir might take a tumble to himself and step down, leaving the job to a more disinterested person.

That the belief that insurance companies are controlled by benevolent gentlemen solely in the interests of policyholders should be retired to the nursery. That investment policyholders have no rights in the management of their shareholders and directors are bound to respect.

That the already too liberal insurance law of the Dominion are not only violated, but insurance actors are shouting brazenly for more freedom in their frenzied finance.

That the 10, 15 or 20-year investment plan.

That Union Life, in synchoning their receipts and business into a company practically composed of themselves, and called the National Agency Company, with having the Union Life Company's charter for the year, and "traveling" expenses of \$6000, together with salaries of over \$21,000, must be destroyed and the shareholders therein not allowed to go unwhipped.

That the paying out by the management of an insurance company of \$17,441 to secure \$22,225 cash during the year, or \$34,000 more than it received for a year's business, is a truly wonderful feat of the mathematical timber turned out by the educational system in this province.

### A SUGGESTION.

Editor World: In view of the police court disclosures, why doesn't the liquidator of the York Loan Co. seize the bank account of Joseph Phillips and any other property he possesses?

An Unfortunate Dupe.

### OSGOODE HALL.

## INSURANCE BILLS PASS WITH LITTLE OPPOSITION

First of the Series Which Are to Regulate Business in New York State.

Albany, N.Y., April 4.—The bills proposed by the joint special legislative committee to meet the conditions disclosed in the recent investigation of life insurance are all special orders in the senate committee of the whole to-morrow. Any of them advanced by that committee to the order of third reading can be finally passed if not amended to-morrow. Five passed the assembly to-day without amendment.

They require (1) all legislative agents of companies to register with the secretary of state; (2) amend penal code as to perjury; (3) as to rebating by agents; (4) as to falsifying books or omitting entries; and (5) amending the law re the acquisition of real property by life insurance companies.

At the request of Mr. Rogers, chairman of the assembly insurance committee and head of the assembly delegation in the investigating committee, the bill prohibiting campaign contributions by corporations was put over until to-morrow, so that he might examine the measure in the light of suggestions that it would operate in ways not contemplated by the committee.

The so-called "Big Bill" generally amending the insurance law and containing most of the provisions which will cause extended debate and possibly opposition will be placed on the assembly calendar for Monday night or Tuesday.

The only opposition presented to the bills in the assembly was in relation to the one making contradictory statements presumptive evidence of perjury. The lawyers had a long technical legal debate about this.

After an extended debate the senate to-day passed the Smith bill amending the insurance law, regulating and taxing mutual fire insurance companies and to prohibit the insuring of property located in this state in unauthorized companies. The bill is aimed against the so-called New England Mutuals, organized under Massachusetts and Rhode Island laws. The proceeds of the taxation go to the volunteer firemen of the state. The bill has been lost at four or five previous sessions.

PAUPERS AMONG CLERGYMEN.

Over One Hundred in the Workhouse in Ten Years.

Some remarkable statements regarding pauperism among the clergy of the Church of England are contained in a pamphlet issued by Rev. Henry J. Swallow, honorary secretary of the Clergy Provident Union.

With the permission of the local government board, Mr. Swallow applied to 700 unions and asylums in England and Wales for particulars as to the number of pauper clergymen who had been admitted during the last ten years. The result was to show that no fewer than forty-two clergymen had been admitted into county and borough pauper asylums, and sixty-one into union workhouses.

During this period eight died in workhouses and ten in asylums, seventeen being discharged or transferred from asylums and fifteen remaining in these institutions.

Eighty-two of the clerical paupers, Mr. Swallow says, are university graduates. Among the sixty-one who have been admitted to workhouses he mentions:

Age 60.—Doctor of Divinity; formerly vicar of London parish; died of pthisis and starvation, Oct. 28, 1902.

Age 55.—Formerly a wealthy and very generous; gave large sums to various charities; in time of want forgotten by friends; died in workhouse.

Age 60.—Pembroke College, Cambridge; held several curacies and foreign chaplaincies until 1892, at which date unable to secure any appointment; died of chronic insomnia, followed by intemperance; admitted to workhouse February, 1898; still an inmate.

Mr. Swallow deprecates the fact that very few men of means will now enter the church.

Impoverished clergymen may find a sufficient livelihood as town curates, until they pass the ranks of the unemployed, or are drafted into the workhouse," he says.

"But if men of means continue to decline to enter the ranks of the village tithes, hundreds of widows will be left without resident incumbents, and the church will gradually be disendowed by the death of those priests who have the purses have maintained her services."

The annual service in connection with the Queen Victoria clergy fund was held in St. Paul's Cathedral last evening, the sermon being preached by the Bishop of Birmingham.

He did not believe there was any nobler scene of uncomplaining suffering and endurance, said the bishop, than was to be found in the silent struggle of the many of the clergy to maintain the dignity and responsibility of incumbent on the narrowest means.

Abuses and scandals figured largely in the pages of ecclesiastical history, and there were still abuses and scandals which hindered the outflow of spontaneous giving. But these must be remedied. They must not prevent the churchman from doing his duty to increase the startlingly inadequate remuneration paid to the clergymen of over 600 benefices or livings, so-called, where the stipend was under, and often very much under, £200 a year.

The collection, with donations, amounted to a total of £463.

No Kisses for Smokers.

Rev. W. Mayo of Bristol informed the annual meeting of the British Anti-Tobacco and Anti-Narcotic League at Manchester that 600 girls in his city have resolved to "have nothing to do" with boys who smoke.

This announcement was received with considerable enthusiasm, and it was remarked as singular that a city which is the home of one of the greatest tobacco firms should also be the pioneer in the girl's cigarette movement. The Bristol girls who have joined the movement range in age from 16 to 19.

Another report from Bristol indicates that the boys have taken the situation seriously, for one youngster alone has pledged 550 of his comrades not to smoke.

## T. EATON CO. LIMITED

—STORE CLOSING DAILY AT 5 P.M.—

## MEN'S BARGAINS

SPRING is here—Easter's just about a week away. It's new clothes time.

Men's and Boys' stylish wearables are listed below at bargain prices—Eaton bargains, meaning dependable goods and sure saving.

### Men's Clothes

10.00 to 12.50 Suits, 6.45

Fancy English worsteds, genuine Scotch tweeds, etc., full broad shoulders, sizes 36 to 44.

6.50 Spring Overcoats, 2.98

Medium and dark grey chevrons, medium length, sizes 34 to 37.

8.50 Topper Overcoats, 5.49

Fawn ground, plain or with striped or thread overplaid patterns, sizes 34 to 44.

1.50 Tweed Trousers, 95c.

Good patterns—mostly narrow striped—in medium and dark colors, three pockets, sizes 32 to 42.

Men's Furnishings

50c. and 75c. Undergarments, 37c.

Shirts or drawers, halbrigan and merino, silk and saten facings, pearl buttons, sizes 34 to 46.

75c. and 1.00 Shirts, 50c.

New goods, in new patterns and colors, fancy negligee fronts.

25c. and 35c. Neckties, 15c.

Fine silk four-in-hands—medium widths—mostly dark colors.

15c. and 25c. Cuffs, 10c.

Linen band and links shapes, some soiled, others with laundry imperfections, sizes 9 1/2 to 11 1/2.

### Men's Hats—Boots

1.00, 1.50, 2.00 Hats, 79c.

Derbys and fedoras, calf and Russian leather sweatbands, silk trimmings, broken sizes.

1.50 and 2.00 Boots, 1.45.

Goat skin and box calf skin, with hard-to-wear-out soles, sizes 6 to 10.

Boys' Wear

4.00 to 4.50 Suits, 3.19.

Three-piece, single and double-breasted, all-wool tweeds, new spring goods; sizes 27 to 34.

2.75 to 3.25 Suits, 2.29.

Norfolk, in dark mixed tweeds, Italian cloth linings, sizes 23 to 30.

3.50 Suits for 2.49.

Buster Brown style, of fawn hopsun tweeds, for boys 3 to 8 years.

35c. and 50c. Tam-o-Shan-ners, 23c.

Soft tops, plain or lettered bands, bow or streamers on side.

25c. and 35c. Stockings, 15c.

Heavy ribbed weight, seamless finish, stainless dyes, sizes 6 to 10.

25c. and 35c. Stockings, 17c.

Ribbed black cashmere, double heel and toe, sizes 6 to 8 1/2.

## RUSSIA AHEAD OF CANADA IN SCHOOL HEALTH LAWS

Teeth Examination Among Scholars Compulsory There, But Not in Canada.

An important feature of the bill introduced into the legislature by Major Craig, M.L.A., to amend the Public Schools Act for the inspection of school children's teeth is that petitions have

## A WITNESS AND HIS MONEY TO WHOM DOES IT BELONG?

If an Agent for Purpose of De-frauding, Mr. Burt Should Ren-der Account, Says Magistrate.

R. R. Gurney, M.L.A., has given notice of the following inquiry to be made in the legislature:

Is the government aware that Joseph Phillips, the president of the "Toronto Life," is a prisoner on the charge of misusing funds?

That two other directors of the company have discredited themselves by their evidence at the trial?

Also, that the clerk has shown an absent-mindedness and forgetfulness quite incompatible with competent work?

Has the government thought of appointing some reliable, competent person to take charge of the company's affairs?

In spite of numerous protests from J. E. Jones, the prisoner's counsel, at the Phillips investigation yesterday, Crown Attorney Curry was impervious and the magistrate, if humored, was scarcely sympathetic. Mr. Jones considered that if there was enough evidence to warrant holding Phillips without bail, there was sufficient evidence to commit him for trial. The effect was to allow Crown Attorney Curry to search the whole of creation for evidence. "He does not know what he's doing," he added.

"But, he's getting there," said the magistrate.

"I could lay the charge very soon if only witnesses would tell the truth," said the crown attorney.

Mr. Jones complained that his client was being unfairly treated. He had never seen or heard a case carried on like this.

Then Magistrate Denison made a few remarks. "I have never seen a case so complicated, so mixed up, and one with so many different methods. Never has a case so wide-reaching, never methods so secret for perpetrating fraud, ever come before me, and in the interests of justice it is absolutely necessary for me to see that there is a full and free investigation."

The opinion was growing in his mind every hour. Magistrate Denison proceeded, that there had been a deliberate scheme laid out and planned by the Toronto Life, the List Piano Co. and other parties to defraud the York Loan for the benefit of a few people that were going to make all the money out of it. It was evident the York Loan was going to be wrecked. "The York Loan was paying the expense of the Toronto Life, which was owned by Phillips and a few of his followers."

Work for the Jury.

Mr. Jones asked what the jury would try. "They will try if he would try the magistrate, if Phillips had been managed by fraud and deceit to get money for the York Loan into other companies."

The Last Washington Excursion This Season.

Lehigh Valley Railroad Friday, April 13. Tickets only \$10 for the round trip from Suspension Bridge. Stop-over allowed at Baltimore and Philadelphia on return trip. Tickets good ten days. Side trip to Atlantic City \$1.75. Just the time of year to visit Washington and Atlantic City. Call at L.V.R. office, 10 East King-street, for maps, guides and particulars. Phone Main 1588.

Goes to the Central.

Maxwell Derosie and his brother Charles were charged in the police court yesterday with entering and stealing a quantity of jewelry. Maxwell pleaded guilty and said his brother Charles was innocent. However, part of the property was found in the younger boy's possession, so a conviction was registered. Maxwell was sent to the Central for six months.

Saved by Reynard.

A poor man was walking a few days ago from the Village of Chaux-du-Milieu to La Brevine, in the canton of Neuchâtel, thru the deep snow, when he fell exhausted on the road.

Some hours later he was aroused from sleep by a tug on his shoulder, and found a fox tearing open a bag of provisions which was strapped to his back. He would have been frozen to death if he had remained undisturbed in the snow.

George Crawford, manager of the Bank of Montreal branch, Queen and Yonge-streets, produced the cheques drawn by Phillips on the List Piano Company's account in the bank. The balance was now \$30.72. All these cheques had been cashed by the York County Loan.

The examination showed that Burt had received commissions from Toronto Life amounting in all to about \$15,000. He was drawing \$20 a week as an officer of the company and also \$25 a week as an officer of the York County Loan. In answer to Mr. Curry, said he did not remember what he did with the money.

As many as 65 cheques paid to the witness were put in.

Other People's Money.

Mr. Jones protested against this question as to what the witness did with his own money.

Crown Attorney Curry contended it was not the witness' own money.

Magistrate Denison said that if this gentleman had been an agent of Mr. Phillips for the purpose of defrauding, they should be told what had been done with this money.

Witness went on to say that he had \$500 in the Toronto Life. The stock belonged to him, the not all in his own name. Then he furnished particulars as to persons who held his stock, mentioning that he held 75 shares, which she sold to Phillips.

Miss Millard of the York Loan Company gave evidence concerning a loan of \$100,000, which was made to the York Loan for the purpose of defrauding.

Phillips had only paid back \$10,000, a disbursement which led Colonel Denison to remark that Phillips had borrowed money on very easy terms.

Burt, in answer to Col. Denison, said that policyholders would not be able to withdraw, say \$24, until after the expiration of three years and a half and then 3 per cent. was paid as interest.

Today, Jos. and Mrs. Barrett of the Southern Light & Power Co. will be asked to give evidence.

## IMMIGRATION ACCOUNTS.

Probed into Before Two Parliamentary Committees.

Ottawa, April 4.—The opposition renewed their enquiries to-day in both the public accounts committee and the agricultural committee about a report on the subject of the government's contract with the North Atlantic Trading Company, which is engaged in promoting immigration to Canada from Great Britain and several other countries of continental Europe.

W. Scott, superintendent of immigration, under examination before the agricultural committee, expressed his willingness, provided his minister approved, to cable Lord Strathcona for the names of the persons forming this company. It transpired that James A. Stuart, late deputy minister of the Interior, is the North Atlantic Trading Company's chief agent in Canada, and he has been summoned to appear before the committee.

The new auditor-general, Jno. Frazer, made his first appearance before the public accounts committee and was examined by Mr. Barker of Hamilton upon the accounts of the North Atlantic Trading Company.

Mr. Leopold seemed to be the principal agent of this concern, and the accounts showed that the company was drawing something over \$100,000 yearly. Mr. Barker's examination of the accounts showed that the payments were made to the vouch-cashiers and the certificates upon which the payments were made. The certificates were signed by W. T. R. Preston, the audit department accepted the assurance of the superintendent of immigration that the company had earned its money.

The new auditor-general, Jno. Frazer, made his first appearance before the public accounts committee and was examined by Mr. Barker of Hamilton upon the accounts of the North Atlantic Trading Company.

The new auditor-general, Jno. Frazer, made his first appearance before the public accounts committee and was examined by Mr. Barker of Hamilton upon the accounts of the North Atlantic Trading Company.

Mr. Leopold seemed to be the principal agent of this concern, and the accounts showed that the company was drawing something over \$100,000 yearly. Mr. Barker's examination of the accounts showed that the payments were made to the vouch-cashiers and the certificates upon which the payments were made. The certificates were signed by W. T. R. Preston, the audit department accepted the assurance of the superintendent of immigration that the company had earned its money.

### SUITS TEMPERANCE IDEA.

Changing Hotels to Saloons is Regarded With Favor.

Regarding the attitude of the license commissioners to change hotel licenses to those of saloons, Benjamin Spence, associate editor of The Pioneer, said yesterday:

"We are not at all alarmed about the prospect of providing the aggregate number of licenses for increased. I myself would favor them all being saloons, both from the standpoint of law enforcement and of barroom abolition. A saloon is easier for a man to handle than an hotel barroom. It is easier watched. The sale of liquor is in a place of itself and by itself, and when the key is turned in the door the place is closed."

### NICOTINE POISONING NOT FROM TOBACCO.

Much tomfoolery has been written about nicotine poisoning. The fact is there is probably no subject upon which the general public has received so much misinformation. Nearly every one speaks of the dark brown substance, which has about the consistency and color of molasses and accumulates in the stems of pipes, as nicotine. Just as coal tar is distilled from coal and pine tar from pine wood, one might swallow all the tobacco that a rank clay pipe contains without serious harm, if he swallowed the same quantity of nicotine he would probably be dead inside of five minutes. It is the tar that stains the pipe, and it is the same tar that stains the cigarette smoker's fingers. It is also found inside the nostrils of one who inhales smoke, and it puts an indelible stain on his moustaches. It is true that tobacco contains more nicotine than any other known plant, but nicotine is not a plentiful article in nature. The rank Kentucky tobacco contains less than 8 per cent. of nicotine, and the finer grades of tobacco, such as Havana, have less than two per cent. One often hears cigarette smokers condemn the cause of the smoker's death, because the nicotine gets so much more nicotine than tobacco. Burning destroys it entirely. One often hears of nicotine poisoning, but it is very doubtful if there is any such thing. When one is poisoned with nicotine he dies, and he does not get poisoned by nicotine. There are plenty of good reasons why smoking should not be carried to excess, but nicotine poisoning is not one of them.

**Another Branch of Crova Bank.**  
The Crown Bank has opened a branch at Niagara Falls, which will serve the bank practically a complete service in the counties of Frontenac, Lennox and Addington; this is in accordance with the plan of strengthening themselves in the particular districts where they are represented, they already having branches at Kingston, Ottawa, and St. John's Bay. Burnett Leung is acting manager.

**Early Closing for Barber.**  
The Union Barber is attempting to enter into an agreement with their bosses for a work day to stop at 8 o'clock every evening excepting Saturday, when the union agrees to the shop keeping open until 11 o'clock. Five hundred union men are affected in this movement.

**Dr. Pierce's Favorite Prescription**  
Is a powerful, invigorating tonic, imparting health and strength in particular to the organs of the female system. The local, womanly health is so intimately related to the general health that the diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are worn-out, run-down or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless remedy because of its health-restoring and strength-giving power.

As a soothing and strengthening nerve tonic, "Favorite Prescription" is unequalled and is invaluable in allaying the subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic diseases of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapse or falling of the pelvic organs, weak back, bearing-down sensations, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from the purest and most efficient medical roots, found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendly whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggist sells the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "Golden Medical Discovery." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Buffalo, N. Y., of which he is chief consulting physician.

## ANTI-TREATING RUINED OUT-REACH OF PUBLIC SENTIMENT

Legislators Didn't Seem Anxious to Discuss It and Premier Ends the Agony.

Mr. McNaught's anti-treating bill was thrown out by the legislature yesterday after receiving rather gingerly treatment. The coup de grace was given gently but firmly by the premier, who showed sympathy with the intent of the bill, while convinced that the measure was ahead of public sentiment.

The premier commented on the manifest reluctance of the house to discuss the subject.

Mr. McNaught, in moving the second reading, said he desired to have the province brought into line with European countries, where there was practically no treating. Treating was the cause of three-quarters of the present drunkenness. The usage of society made it practically impossible for a man to take a drink without inviting his friends to join in.

He quoted the opinion of a license inspector that only one person in ten became drunk out of treating, and that an anti-treating law would do more for sobriety in one year than local option would in ten. To meet the contention that the measure would be in restraint of personal liberty, and, therefore, illegal, Mr. McNaught referred to the limitation of hours for selling liquor, and the right of a bare man to go to a saloon in a district as on the same principle.

There was rather faint applause as Mr. McNaught sat down, and an awkward pause, which nobody seemed anxious to break. Then Mr. Preston (Brant) got up to state an opinion that treating was largely responsible for the increase in liquor consumed. In Nebraska and Vermont, treating had been abolished, and in Ohio a bill had been defeated on its final reading.

Major Clark couldn't see why the measure couldn't be enforced as in the case of political candidates during a campaign. It should be a law, said times easier if a law applied to everybody. In some military messrooms treating was tabooed by general consent.

**Educate to Protect.**  
Hon. Mr. Ross believed that legislation that would protect a man against himself would be good. It might take time to educate the people as to make the law effective, but it was right to begin. Consideration of the number of convictions for drunkenness would make the house hesitate to reject the bill.

Mr. Graham considered that 40 per cent. of the young men wouldn't have learned to drink, but for treating. Hotels were made disreputable through loafers hanging about for someone to treat. The clubs of Ontario were considered disreputable with treating as a nuisance, he declared.

Premier Whitney, in giving the bill its quietus, saw good results accruing from discussion. He hoped the measure would not be dropped for ever. The evils of treating were so manifest that it was waste of time to discuss them. "If the measure is dropped," he said, "it will be within our power and rights, and could have the desired effect no one would go further than I to see it brought about," he asserted.

Mr. Whitney believed the great harm of treating was done to boys. "Leave them out and it does no great harm," he said, "but it is a bad habit, and it is a disgraceful and contemptible."

**A Passing Comparison.**  
Referring to United States legislation cited by Mr. Graham, he referred to "hysterical legislation" passed in some states that "people here wouldn't expect to see passed in lunatic asylums."

In England there was practically no treating, and yet in no other country was more drinking done.

Mr. Whitney thought public opinion might be helped to form by the organization of a "no treating" league of societies of men who pledged themselves not to treat.

In ruling the bill out of order, the premier said it practically provided only against treating in bars, and might easily be evaded, while the clause requiring a notice to be given up and a \$20 penalty was inadmissible. He hoped the question wouldn't be taboed, but discussed in a "manly, sensible and broad way."

Hon. Mr. Foy replied to a question of Mr. MacKay that the government had no intention of passing law reform legislation this session, or of appointing a committee or commission to make an enquiry.

"The question has not yet been considered by the government," was the premier's reply to Mr. MacKay's query whether legislation dealing with the licensing and regulation of hotels or public houses in municipalities where liquor licenses wouldn't be granted.

The house applauded facetiously the second reading of the bill of Mr. Smith (Fell) to give widows and spinners qualified to vote in municipal elections the right to vote in parliamentary contests. Mr. Smith explained that he wasn't asking the franchise for married women lest household dissolution should result.

The premier replied that he couldn't see why women who voted municipally should vote also in parliamentary contests. He suggested that the subject be seriously debated on Friday.

**Law and Farmers.**  
Mr. Lucas asked for a second reading of his bill respecting conditional sales of chattels. It was urged on the basis that the measure would lead to sign contracts containing a condition that any action arising out of the contract shall be tried in some particular place. The bill seeks to make such condition void. Dr. Lewis and J. S. Duff favored the bill. Many farmers signed, then without knowing the conditions.

their contracts, and entail unnecessary hardships on the honest manufacturer.

Mr. Gage spoke strongly on the measure. It was not fair to drag a farmer from the Manitoulin island to Toronto to the trial of an action arising out of a sale of agricultural implements on Manitoulin island.

There was some disposition to shut out the paper, but the farmers advocated in the house would not have it. Mr. McGarry in an effective argument in favor of the bill remarked that many of the judges moved in the same social circles as the manufacturers against whom the action was taken, and it was a hardship on the farmer to bring him from the other end of the province to Toronto or Hamilton to a trial of his action. The bill was referred to the legal committee.

Mr. Duff had a bill of the same title, which was also referred to the legal committee.

Mr. Whitney complained that members allowed private bills to stand on the order paper for weeks. This remark was prompted by Mr. Preston's observation that he wanted a bill in his name to stand over.

To Mr. Ross the premier said the adjourned debate on the budget would be continued on Thursday, and the house would go into committee on Mr. Hendrie's railway bill.

**Notice of Motions.**

Mr. Hanna: Bill respecting drainage.

Hon. Mr. Cochrane: An act respecting the water power at Fort Frances.

Mr. Auld: Enquiry of ministry: Who has the contract for the manufacture of woodenware at the Central Prison?

Mr. Dunlop: Enquiry of ministry: What steps, if any, have been taken by the government towards securing cheaper, more modern and better text books for the public and high schools of the province?

Mr. Graham: Order of the house for the license inspector of North Renfrew or any member of the board of license commissioners, or of any citizen of Pembroke, and of the government in reference to the granting of a liquor license at Petawawa.

**CANNOT INTERFERE.**

British Commons Will Not Consider the Russian Outrages.

London, April 3.—Replying to a question in the house of lords whether the government intended to lay before the house any official reports concerning the recent outrages on Jews in Russia, which it may have received, Lord Fitzmaurice, under secretary for foreign affairs, for the government, said that to do so might be regarded as an illegitimate interference in matters with which Great Britain has no concern.

The Archbishop of Canterbury endorsed the government's attitude.

**STRONGER THAN EVER.**

With its improved equipment through, including its special training office for senior students, the Central Business College of Toronto occupies a stronger position than ever before among our leading educational institutions.

It is not a staff generally known that a regular staff of twenty-four members is regularly employed in this great school and that an average attendance of more than four hundred students may be seen any day in the different departments of the college.

The appreciation of business men of the excellent work done in this school is probably best evidenced by the constant demand for the students and graduates to fill important clerical positions in the largest and best houses in the city, and the registered number of calls on record in the office for the month of March alone is almost positive evidence that no competent student or graduate of this institution need be at a loss for suitable employment at any time.

The spring and summer session, which continues without any holiday interruption other than that of Friday and Easter Monday, is now open.

**For Men Who Think.**  
Harg thinking comes easier when a "Mural" is smoked. "Mural" (plain type) Turkish Cigarettes are the latest and best achievement of Allan Ramsay, for sixteen years government expert of Turkey. During that period Mr. Ramsay's cigarettes—his alone—were the accepted brands of the dignitaries of the Turkish court. 15 cents per box.

**Disappears and Dies.**  
Port Arthur, April 4.—George Wood, a deserter from the British army, disappeared from near here about a year ago, and all efforts to trace him were futile. The mystery has now been cleared up by the receipt of news of his death in England.

**WHAT ABOUT SPRING MEDICINE?**  
This is "House-Cleaning" Time for the System, Which Needs Purifying and Refreshing.

The inside of your body requires attention just the same as the outside. A great accumulation of effete matter, poisons and wastes is clinging to the various organs, and must be moved off.

Some gentle laxative and tonic must be used.

The system must be relieved of its burden if you are to enjoy a happy, healthy summer.

Physicians who have examined the formula of Dr. Hamilton's Mandrake and Butternut Pills say no medicine could be better.

Whether ill or not, thousands rely on Dr. Hamilton's Pills, which are truly marvelous in preventing spring and summer sickness.

Begin Dr. Hamilton's Pills without delay. You'll feel better, eat heartier, digest better, sleep sounder and gain more in weight.

Mr. Ed. Maynard, an old resident of New Westminster, B. C., writes: "I don't say Dr. Hamilton's Pills will cure everything, but they made a quick job of building up my run-down system. I had biliousness and constipation and was wholly unfit for work. Pains shot thru my limbs and lodged in my back. Headaches often made me desperate. I had no appetite, an awful color and felt despondent. Sometimes I was a little rheumatic. After a few days I began to mend and kept up Dr. Hamilton's Pills till I was restored to my present top condition."

Can you afford to miss the benefit of this marvelous medicine? Think of it. All dealers sell Dr. Hamilton's Pills. 25c per box or five boxes for \$1.00. By mail from N. C. Poligon & Co., Hartford, Conn., U.S.A. and Kingston, Ont.

### A FINE RECITAL.

Mr. Edgar, the Angeli, and Mr. F. Blanchard Provide Good Program

Altho Mr. Francis Edward Edgar does not pretend to be a piano virtuoso, the results he secures are fully as good. He uses the Angeli piano player and at the second recital of the series given by Messrs. Goulay, Winter and Leeming, at the King Edward Hotel last night played a program of special interest to every musician. The assisting artist was Mr. Frank Blanchard, the violinist, who was heard in two movements of Grieg's Sonata op. 45, and in Hubay's Hejre Kati. Mr. Edgar possesses a beautiful pure tone and a facile technique, and his work was thoroughly charming. The accompaniment was played on the Angeli by Mr. Edgar with taste and discernment.

The piano program opened with Beethoven's Ideal d'Amour, very pleasing little composition and progressed to such classics as the Mendelssohn Rondo Capriccioso, which was played in excellent taste. Other selections heard were Schuetz's appealing Tendre Aveu and Liszt's Grand Galop Chromatique. The final recital of the series will be held this evening.

### PRESERVE THE FALLS.

Two Bills With That Object Pass New York Assembly.

Albany, April 4.—Bills passed by the assembly include two for the preservation of Niagara Falls; one by Mr. Cox, a concurrent resolution providing for an amendment to the constitution which would prevent the future granting of charters authorizing the diversion of the waters of Niagara River above Niagara Falls; the other by Mr. Pooler, limiting the supply of water from Niagara River taken by power companies, to the quantity now authorized to be taken.

### BEER AT 10c A GLASS.

Ottawa, April 4.—If the bill increasing the cost of an Ontario liquor license from \$50 to \$700 passes, the price at all liquor stores in Ottawa will also go up. Whiskey will sell at 15c a glass, while beer, which has cost 5c, will retail at 10c a glass.

**J. L. Hughes An Appreciation.**  
New York School Journal: James L. Hughes has been school inspector of Toronto for about thirty-five years. He is well respected and beloved, and stands near to the top as a leader among the school superintendents of all America. He combines an unusual way of the qualities which make up an ideal educator and administrator of school affairs. He is perhaps best known for his great work in the dissemination of Froebelian ideas for manual and physical training, too, he has done a very real service. He has been for many years an inspiring and uplifting force. His long life has been a life of usefulness to a third of a century he has been reckoned among the young superintendents. May he never grow old. It was a pleasure to see him step to the platform at Louisville to protest vigorously against every excuse for corporal punishment in the schools. He is a man of more than 100 years of age, and his telling history. There is a whole lecture on school management in that remark.

**The Last Washington Excursion This Season.**  
Via Lehigh Valley Railroad Friday, April 13. Tickets only \$10 for the round trip from Suspension Bridge. Stop-over allowed at Baltimore and Philadelphia on return trip. Tickets good for 14 days. Side trip to Atlantic City \$17.50. Just the time for a visit to Washington and Atlantic City. Call at L.V.R. office, 10 East King-street, for rates and particulars. Phone Main 1588.

**Advances an Alibi.**  
Sumner, for selling tobacco on Saturday afternoon to a boy under age, William Pears, of 665 West King-street, emphatically declared that not only had he not seen in his shop Frank Brown, the boy in question, but that he was not in the city on Saturday afternoon. He had been at work elsewhere, as he had been for four previous Saturdays. The case was adjourned in order that Pears might make good his defence.

**Low Rates to New York.**  
New York Central Railroad announces an excursion to New York for Easter time. Rate \$10.25 for the round trip from Suspension Bridge or Buffalo; tickets good for return in ten days. Remember the date, April 13.

For further particulars call on or write Louis Darg, Canadian passenger agent, 23 York-street, Toronto. Telephone Main 4261.

**Hotel Guest Suffocates.**  
Bangor, Maine, April 4.—John McDonald of Bangor, a guest at the Globe Hotel, was suffocated this morning in a fire which damaged the hotel. The financial loss will not exceed \$10,000.

**Lawyer's Suicide.**  
Buffalo, April 4.—Frederick G. Gatz, 43-year-old lawyer, committed suicide in his office last evening by shooting.

On Monday night Anton Heintzman of 48 Brooklyn-avenue, fell from a Broadway car. He received a severe cut in the forehead and was bruised on the left side of his face. Dr. Cleland put few stitches in.

## Who's Your Hatter?

There is more style and taste in men's hats this Easter than there has been for some seasons past.

The difference lies in the varying heights of crown and width and roll of brim. It is surprising how much real style a good hatter can put into a hat.

We import exclusive London-made hats and also exclusive New York hats.

**\$2, \$2.50, \$3**

Some particular makes cost more, but our exceptional hats cost no more than the ordinary.

**DINEEN'S**  
Cor. Yonge & Temperance Sts.

## PAY COST OF GOVERNMENT.

One Result of Taking Over Gillies Limit.

What the annual meeting of the North Toronto Liberal-Conservative Association, held last night in Odd Fellows' Hall, lacked in numbers was made up in enthusiasm. Dr. Ryerson presided, and on the platform were W. K. McNaught, M.L.A., A. C. Pratt, M.L.A., Ald. Geary and Ald. Church, Thomas Davies and M. Rawlinson.

A motion by Messrs. Rawlinson and Harris to amalgamate the offices of secretary and president was negatived. A. C. Pratt spoke briefly and was followed by Mr. McNaught, who declared that the passage by the Whitley government of the Gillies' limit measure was one of the most radical measures ever introduced in Canada. A well-known expert had estimated the value of this property at 50 millions. "But," he said, "personally," said Mr. McNaught, "I feel that it may with safety be placed at 100 millions, a sum which, invested as a sinking fund, would in ten years furnish a revenue sufficient to pay the cost of government."

Not less important was the question of cheap power. With motive power at one-third of the cost, prices, the future of the city as a manufacturing centre was assured.

The officers elected are Dr. G. Sterling Ryerson, president; J. N. McDry, H. F. Gooderham, John Harris and Dr. Clowse, vice-presidents; W. P. Goddard, treasurer, and W. H. Hall, secretary.

The executive committee is George J. Quanzner, J. B. Tremayne, E. Fitzgerald, F. J. Scott, C. Dyer, R. H. Stewart, James Doherty, Dr. Philip E. Gordon, Thomas Woodings, A. Kirkpatrick, Dr. Clarke, Thomas Davies, C. Elliott, B. Fletcher, M. Rawlinson and J. C. McArthur.

## LLOYD MURDER TRIAL.

Belleville, April 4.—(Special).—The trial of Adam Lloyd, charged with the murder of his wife, occupied the attention of the assize court to-day. The old couple lived together on a small farm. One morning Lloyd went out to the barn, and when he returned, so he says, found his wife sitting in a rocking chair, dead, with her clothes nearly all burned off. But there were no burns on her hands. A wound was found on the dead woman's head. The crown attorney's theory is that Lloyd killed his wife, poured coal oil over her and set her clothes on fire to hide the evidence of crime.

The prosecution had not been concluded when the court rose at 5.30. Lloyd avers that he pulled the burning clothes off the dead body of his wife, laying her on the bed and covering her with a buffalo robe. A witness to-day swore that, when the buffalo robe was taken off the body, it was found that a flannel sheet had been pinned around the remains.

## GOING TO BRITISH COLUMBIA.

Peterboro, April 4.—(Special).—W. J. Francis, engineer of the hydraulic lift locks on the Trent Canal, has resigned to accept an important position as manager of the large power development company in British Columbia. He had charge of the construction of the lift locks at Peterboro and Kirkfield.

An artist is a man or woman who can touch the soul.

Opportunity sometimes unmakes the man.

## COL. GIBSON FOR HAMILTON CATERACT CO. IS OBSTINATE

Col. Gibson Refuses Offer of Arbitration on Ground That Public Opinion is Prejudiced.

Hamilton, April 4.—(Special).—The finance committee and board of works met tonight to consider the Cataract Power Company's terminal station agreement. Col. J. M. Gibson said that the company insisted upon retaining its tracks on Wilson and Gore streets, and having the amount it was to pay for the radiating use of the King-street tracks at the end of 1925 fixed now on a sliding scale, according to the population of the city or the mileage of the company's tracks. He declared that unless the aldermen agreed to these two conditions the company would not go ahead with the \$200,000 station. The aldermen said that they would not fix the amount now, that the company was to pay for the use of streets 22 years from now, but they would leave it to be fixed by arbitration. Mr. Gibson replied that the company would not run chances of arbitration with public opinion in the present state with regard to corporations. In order to prevent the scheme from being blocked, a special committee of five aldermen were named to try to come to an arrangement with the company, but the chances of arriving at an agreement are not bright.

The Hamilton Health Association held its annual meeting this afternoon and elected the following permanent board of directors: Samuel Barker, M. F., the mayor, the warden of West-End, C. S. Wilson, William Southam, Col. Gibson, H. P. Coburn, W. D. Long, J. O'Brien, J. T. Greenaway, J. J. Ewel, Peter Carse, Thomas W. Watkins and J. Grafton, Dundas.

The milk dealers are starting to cut prices, and there is every prospect that the milk will be sold at five cents a quart after May 1.

Some Buffalo men are seeking options on the north side of King William-street, between James and Hugh-streets.

John Patterson and other local business men have served notice on the city that they will apply at the present session of parliament for a Dominion charter for the Hamilton, Waterloo and Guelph Railway. One line will be built from Hamilton to Elmira, passing thru Galt, Preston, Berlin and Waterloo, and another will pass thru Guelph to Elora and Pergus.

John Bertram, Dundas, head of the John Bertram & Sons, Limited, died this morning shortly after 10 o'clock, after dressing to go to his office. He was 77 years of age, and is survived by the following family: Lieut.-Col. Alex. Henry, Dr. Thomas and James Bertram, and Mrs. (Dr.) Sterling Bertram.

At today's session of the police commissioners J. W. McDonald, whose slight indisposition has kept him out of the city for the past six weeks, was within a few minutes of being treated by the police. He had been treated by the police, and had spread a story that the report of the robbery was a fake. The matter was laid over.

A complaint that five hotels refused accommodation to a colored troupe has been made to the inspector. William Bell, who will lay a charge if facts warrant it.

Captain Harry Zealand has been appointed to command the government steamer, Bayfield.

The Toronto Daily and Sunday World delivered to any address in Hamilton before 7 a.m. daily, six months, \$10.00; five per copy. Hamilton office, Royal Hotel Building, Phone 955.

Marlinas Cigars, 5 cents to-day, at Billy Carroll's Opera House Cigar Store.

## HIGH FINANCE IN OLD ROME.

Modern Spendthrifts Not a Mark to Calligula.

Scrap Book: That the accumulation of vast fortunes was as possible in ancient Rome as it is in the United States to-day is shown by the following table compiled from authoritative historical records.

While it may be true that the wealth of the great of to-day and John D. Rockefeller may exceed nearly all of these old time hoards, there can be no question of the fact that as spenders of enormous fortunes Antony and Caligula have never been surpassed.

Crassus' landed estate was valued at \$83,333,333. His house was valued at 400,000. Cæcilius Isterus, after having lost much, left 5,235,500. Demetrius, a freedman of Pompey, was worth 3,875,000. Lentulus, the augur, no less than 16,666,666. Clodius, who was slain by Milo, paid for his house 700,000. He once swallowed a pearl worth 40,000. Apicius was worth more than 5,000,000. He poisoned himself after he had spent in his kitchen and otherwise squandered immense sums to the amount of 4,160,000. The establishment belonging to M. Scæurus, and burned at Tusculum, was valued at 4,150,000. Gifts and bribes may be considered signs of great riches: Cæsar presented Servilla, the mother of Brutus, with a pearl worth 200,000. Paulus, the consul, was bribed by Cæsar with the sum of 292,000. Curio contracted debts to the amount of 2,500,000. Milo contracted one debt of 2,915,000. Antony owed at the time of his death, which he paid before the calends of April, 165,666. Seneca had a fortune of 17,500,000. Tiberius left at his death and Caligula spent in less than twelve months 113,120,000.

## ACID AND DROWNING AND HE STILL LIVES

Belleville, April 4.—A man who gave his name as David Lalonde, and his home as Trenton, was this afternoon fished out of the bay by two men. In addition to trying to drown himself, he had taken a quantity of carbolic acid.

He will be examined as to his sanity.

There is no roof like a deep blue sky. The touchy man is liable to be hit hard.

## The cut of your Spring Top Coat

The fashioners were not so severe as to say that you must wear a

Form-fitting Flare-skirted garment

To be in the fashion—but certainly they have given it first place in suggesting what's considered the most correct.

For those who will not wear the fitted coat we have the looser garments.

And no matter which way your taste directs you to select we have garments that are the ultra in character—style—fit and quality.

Overcoat prices—15.00—18.00—20.00—22.00—25.00—27.00 and 30.00.

Spring suits—15.00 to 25.00.

The style of your Spring Hat

Our own name is your guarantee that you'll get the right styles here—

And such makers as Knok—Yousmans—Stetson—Peel and Christy—your guarantee for the quality.

Soft hats—2.00 to 6.00  
Derbys—2.50 to 5.00.

Gloves—  
Dent's special—1.00  
Grey Suedes—1.50.

84-86 YONGE STREET.

## BRITAIN'S DRINK BUDGET.

Expenditure Per Head Less in 1905 Than the Previous Year.

The national drink bill in 1905, according to Dr. Dawson Burns, amounted to £164,167,941 or £4,819,224 less than in 1904. The decrease thus shown is a continuation of the trend of the past six years, which has resulted in a total decrease of £21,753,286 in the money spent on alcoholic liquors during the past six years. Should the increase of 2,509,000 in the population be taken into account, the proportionate decrease in the liquor drink bill may be placed at £24,000,000.

"Still, the annual national expenditure on strong drink is enormous," says Dr. Burns. "It is equal to £18,994,940 per family of five persons, or £3 15s. 11½d. per head."

These are averages only, for millions of people drink no alcoholic liquor, while children take but little, and their share of the average expenditure has to be added to that of those who drink heavily.

Taking the three divisions of the United Kingdom, the expenditure per head varies as follows:

England and Wales	£3 13 10
Scotland	£3 1 9
Ireland	£3 0 10

The expenditure on spirits and beer in the three divisions of the nation works out as follows:

England and Wales	£38,012,961
Scotland	2,568,787
Ireland	7,172,214

While Englishmen drink thirty-one gallons per head of beer, they only drink four-fifths of a gallon of spirits. Scotsmen drink nine gallons of beer per head and one and three-fifths gallons of spirits, and Irishmen drink twenty gallons of beer per head and one gallon of spirits.

## PETERBORO WOULD EXTEND TO TAKE IN COX PROPERTY

Peterboro, April 4.—(Special).—The city will apply to the Ontario legislature next week to extend the corporation limits south so as to take in the 33 acres of the Sugar Beet Company's property, recently purchased by Hon. George A. Cox.

The senator has expressed his willingness to hold this property for industrial purposes, providing special terms of assessment and taxation are assured.

## For Men Who Think.

Hard thinking comes easier when a "Murad" is smoked. "Murad" (plain tips) Turkish Cigarettes are the latest and best achievement of Allan Ramsay, for sixteen years government expert of Turkey. During that period Mr. Ramsay's cigarettes—his alone—were the accepted brands of the dignitaries of the Turkish court. 15 cents per box.

Necessity is the greatest of all the reformers.

## COMMISSIONERS DIVIDED CABINET WILL DECIDE

Awarding of G. T. P. Contracts is Involved, Owing to Differences in Tenders Received.

Ottawa, April 4.—(Special).—Not until Saturday will the cabinet decide upon the award of the contract for the sections of the national transcontinental railway between Winnipeg and Quebec, and it will be left to the government to decide, for the commissioners report that they have been unable to agree upon an award.

It appears that W. B. McArthur was the lowest tenderer for the section between Winnipeg and Superior Junction, and Hogan and MacDonald the lowest on the section between Quebec and La Tuque. According to report, Commissioners McIsaac and Held held out for recommending acceptance of the lowest tender in each case, but Parliament and the public maintain that the estimate of Hogan and MacDonald was so far below the estimate of the government that the "public interest" demanded it should be given. The estimate of the government engineers, who were not present at the meeting, was the lowest tender received, but the prediction freely made by well-posted contractors, that the matter would be arranged as to give the entire work to the Grand Trunk Pacific Company, who will sub-let to favorite contractors.

## QUEER INSECT.

Anti-Lion Holes In Prey and Pupa In Dry.

There is probably no man in the vicinity of Boston who has had more queer pets than Charles J. Maynard, of Newton, and his observation of these animals has served to make him more than usually well acquainted with the habits of many wild and tame creatures. The occasions of his speaking of his gatherings of facts, which from time to time form the topics of the meetings of the Boston Scientific Society, are always enjoyable ones. One time he spoke of his pet owl, which had such a range of vision that it would give its own home as far as the eye could see, and was so far from being a red speck, and at the same moment would take dainty tidbits from the habits of many wild and tame creatures. This time the pet of the anti-lion, and the occasion of the meeting was the anti-lion, and the occasion of the meeting was the anti-lion.

The anti-lion is not a formidable creature, being one of the insects which its skill is able to make a reasonably good living on ants and other small fish that come to its net, the net being a neatly excavated pit. What is known of the anti-lion is usually stated at less than a page, but the experience has shown Mr. Maynard that the text books have errors that they might correct in the light of his investigations.

His attention was first attracted to the creature by noticing a number of little pits in the sand in Florida. They all seemed to be deserted, but on dropping a bit of twig into one of them he found that there was a creature there that reached out and seized it, which was his own home. Capt. Codrington Maynard found the same kind of pits, and there in summer time he began the study of the insect, and on coming back to New York he found, fifty, which he homed in a sand garden protected by netting.

The anti-lion is the grub or larva of one of the most common flies and in this state of existence is a hairy insect. The hairs and the legs point forward, which seemed an anomaly until the investigator found that the creature always moves backward. If held in the hand this little "bug" exerted a surprising amount of strength and could jump quite readily from the hand through the gap which the little finger leaves when closed against the palm.

The anti-lion is armed with formidable jaws, but it does not bite. It has no indication of wings and on close inspection it is evident that it has no mouth. There is no aperture at all that the ant has not fallen to the bottom of the pit, the lion throws at him or other insects or other creatures. After considerable investigation, in which dissection had its part, the scientist found that the ant or horn is hollow, and have holes near the tip. These horns are plunged into the ant or other creature and the juices are drawn out by a suction pump operating within the jaws. The creature, therefore, also seemingly invulnerable, is all the while vigorously sucking the marrow from its prey.

The anti-lion excavates in the loose sand a pit which is perhaps a couple of inches in diameter, the sides sloping at an angle of 45 degrees, and the ant, stepping on the loose slopes, slips down a way. The anti-lion is always somewhere near at hand. He does not stay at the bottom of the pit, as has usually been asserted, but wanders about thru the loose sand. When the ant makes his mistake, it gives at the alarm to the anti-lion and he hurries at once to the bottom of his pit. His progress has repeatedly been noted by Mr. Maynard, who has followed it by watching the movements of the creature, and he has seen him slip down a way. The anti-lion is always somewhere near at hand. He does not stay at the bottom of the pit, as has usually been asserted, but wanders about thru the loose sand. When the ant makes his mistake, it gives at the alarm to the anti-lion and he hurries at once to the bottom of his pit. His progress has repeatedly been noted by Mr. Maynard, who has followed it by watching the movements of the creature, and he has seen him slip down a way.
