## HANDSPRINGS BY MR. ROSS

Premier Withdraws "Scrap-Iron" Act and Its Counterpoise Heavenly Twin Without a Blush.

## ASSESSMENT COMMISSION IGNORED.

Mr. Whitney Charges the Government With Being Compelled by Corporations to Do Their Will.

Premier Ross surprised the House yesterday afternoon with a grand double-backstroke without taking breath, in which he withdrew without taking breath, the "scrap-iron assessment" act, and its counterpoise heavenly twin, in order to empower municipal corporations to exempt corporations from taxation without the consent of the Assessment Commission last year by the hon. member for Hamilton, Mr. Carleton. This substitute for the Assessment Commission's bill reads:

Real property belonging to or in the possession of any person or corporation, company, and extending over more than one ward or in any city or town, shall be assessed together in any ward or in any city or town, and the assessment shall be apportioned among two or more such wards as a whole, or as an integral part of the whole.

## TRIES TO SHIFT RESPONSIBILITY.

The leader of the Government attempted to place the responsibility for this course on the Opposition for its criticism of some clauses of the commission's bill, and because it might be better to await the commission's complete report.

Mr. Fox said it was clear the government had decided to put off the bill for a year to suit the corporations, "when it may or may not be brought down."

Mr. Whitney said there was not a human being outside the House who would believe the reasons given by the Premier were the true ones. The truth was that the government had been compelled by the corporations to take this course by representative who could name, and give time and place. The government was allowed to stand until this late day as a reward to the corporations for putting up funds to buy the election, which had even then only been carried by ballot boxes. Trembling before the power, whether they had submitted themselves to a commission, whose report they had not the backbone to place on the statute books even after introducing it. The government has been threatened by the corporations.

## DOMINATED BY CORPORATIONS.

Mr. Whitney persisted, and declared that as to the bill to give municipal corporations power to exempt corporations from the assessment of the election, the government was forced to withdraw that after it was plain there were not ten men on the government side of the Cabinet who would vote for it.

The first bill was a proper expression of the judgment of the commission of experts and needed but slight amendment. The second was an outrage, and showed contemptible haste on the part of the government under the domination of the corporations. If the government thought by such vacillating tactics it could satisfy either the people or the corporations they would within a few months find their mistake when they would fall between the two stools.

Mr. Pattullo charged Mr. Whitney with having in the past advocated such principles as that in the bill which he had denounced.

Mr. Whitney in emphatic terms denounced the charge as false.

Mr. Pattullo repeated his statement, while the Opposition members called "Withdraw."

## WHAT THE DOCTOR MEANS.

Mr. Carleton dodged the Government while the gentlemen at the right of the Speaker manifested great interest. This was another instance, he said, of the Premier in his mild and pleasant way, saying, "the bill will stand over until next session." By refusing to enact the bill recommended by the commission, they were thwarting the sovereign will of the people. In this obedience to corporations, watching to see if the corporations held "thumbs up or thumbs down," no body of gentlemen ever occupied a more humiliating position. How this was regarded by the public would be seen when the honorable leader of the Opposition would be called to take the Premier's place on the right side of the House.

Mr. Wardell twitted Premier Ross with now strutting and strutting Mr. Carleton's resolution, which he and his supporters voted down two sessions ago.

Premier Ross said it might be the Opposition, but he said that the old bill only laid one every two or three years, and then it was a small one.

## TO PUBLIC-SPIRITED CITIZENS.

After further discussion, Hon. Mr. Gibson declared the Simon Pure innocence of the government of being influenced by corporations and made a pathetic plea for the "public-spirited citizens" who had established street car lines and other public services in small places where they did not pay dividends. He thought something should still be done to give the people the House had by this time been sitting for four hours, and Mr. Marter rose to ask the Government if it had not better be understood that instead of attempting to put through the legislation before Easter, the government should adjourn tomorrow evening and meet again next week.

## CHAPUIS ALARMED

A Deplorable Conflict Between Church and State Over the Deloit, Marriage Decision.

## THE VIEW OF ROMAN CATHOLICS

Is That There is No Marriage Without Sacrament—Judge Archibald Decided Otherwise.

Montreal, April 3.—(Special.)—After every word in French Canada rejoices over Hon. Judge Archibald's judgment in the Deloit case, Hon. Thomas Chapuis writes as follows in Le Courrier du Canada: "That judgment—reversible, thank God!—constitutes, in our eyes, an actual attempt against our civil and religious rights, and we would be guilty of cowardice were we not to use all our energy to resist it, to destroy it, to seek the annihilation thereof, by all the means that both law and the constitution place at our disposal. A good number of our fellow-citizens, who feel indifferent on questions of principle and doctrine, will think, perhaps, that we take a very tragic view of things, and that we are too much inclined to see the dark side. Ah, we would like to despair at the present moment the reproach of exaggerating. But, alas, a moment's reflection is sufficient to understand to what extent our painful emotion is justified. In the face of what situation are we placed on the morning of Mr. Archibald's judgment in the Deloit affair?"

## CHURCH AND STATE IN CONFLICT.

We are in the face of a deplorable conflict between the civil judicial power and the ecclesiastical judicial power between the Church and the State. The Church said:

By virtue of the holy canons and the council decrees, the Deloit marriage is null. The civil power, on the other hand, has said: By virtue of the statutes and the public law of this province the Deloit marriage is valid.

Now, as regards Catholics, marriage being essentially a sacrament, if there is no sacrament there is no marriage. Nevertheless, if Judge Archibald's judgment stands, the marriage exists in a legal point of view, whether or not there is a sacrament. The door is then wide open for civil marriage, which the Catholics, in their wisdom, thought proper to exclude from their law. There will henceforth be a number of people who shall live in concubinage, according to the Church, and according to the Catholic conscience, and who, nevertheless, shall regularly be husband and wife, according to the law. That is what Mr. Archibald's judgment leads to. It gives a fatal blow to that grand institution, marriage, in this province of Quebec. It destroys the fruitful and beneficial harmony between the two powers, upon which, up to the present date, our constitutional law rests, as upon an indestructible basis. That insupportable judgment attacks our public laws and our religious liberties; it questions the authority of our old French laws in civil matters; it disregards the letter and spirit of our code; it constitutes a denance to our jurisprudence. In a word, by itself and by its results, which may be easily foreseen, it is worse, more dangerous, more deplorable than the two famous judgments rendered in the celebrated Gauthier case. We think it will be easy for us to prove that.

## DIED AFTER A FALL.

Detective Rogers, After Investigation, Concludes Mrs. Cowan of Galt was Not Murdered.

Galt, April 3.—Provincial Detective Rogers, who has been here the past few days investigating the death of Mrs. Cowan, has come to the conclusion that the woman was not murdered. The greatest stress was laid on the fact that the coroner's inquest did not warrant the verdict of foul play. Detective Rogers will, in all probability, report to the Attorney-General that, so far as he can see, Mrs. Cowan met her death by accident and not by violence. Chief Ahern of the local police, it is understood, is also of the opinion that the woman succumbed to the effects of a fall.

## "THE GRAND DUKE" AT DINEERS.

The Yonge-street Hatters Always Get the Styles in Advance.

Over a week ago Dineers introduced "The Grand Duke" into Toronto. It is a hat that has created a furore in New York, where Prince George, or the Duke of York, is very popular.

Dineers got a small consignment of the stiff hat, and a larger one of the soft felt, or "Grand Duke tourist." This is an exact counterpart of the stiff hat, and may be worn creased or uncreased. It will sell at \$3, and as the hat appears to be to visit Canada this year it is needless to say that everything that will wear the "Grand Duke" Mr. Dineers is keeping the wires hot hurrying up new consignments for the Easter sale to-day and Saturday.

## RUSSIA HAS BEEN NOTIFIED

Chinese Government Has Formally Announced That Manchurian Convention Will Not Be Signed.

## THE ATTITUDE OF THE POWERS

Given as the Reason for the Refusal—It Being Chang the Only Chinaman to Favor Signing.

Peking, April 3.—The Chinese Government has formally notified Russia that China, owing to the attitude of the powers, is not to sign the Manchurian convention. "It is China's desire," says the formal notification, "to keep on friendly terms with all nations. At present she is going through a period which she cannot permit to be interrupted. It is necessary that she should have the friendship of all. However much she might be willing to grant any special privileges to one power, when others object it is impossible that she should make any nation friendly, and she should maintain the sympathies of all others."

## LI HUNG CHANG SAYS THAT THE LATTER SETTLES THE MATTER DEFINITELY, AND THAT RUSSIA WAS INFORMALLY NOTIFIED TO THE SAME EFFECT MARCH 29.

Prince Chang asserts that every Chinaman, except Li Hung Chang, was against signing the convention.

## ONLY INDEMNITY QUESTION REMAINS.

So soon as the generals of the powers notified the Ministers as to what disposition is desired of articles eight and nine of the protocol, everything will be practically completed except the indemnities. Only plans not ready being the British, German and Japanese. The Germans say they can be ready in two days and the Japanese assert that they can be ready at a moment's warning. Private claims, however, are to be dealt with until May 14, and this may delay the presentation to the Chinese plenipotentiaries.

A majority of the Ministers are in favor of making a general claim, so soon as the government is ready to make a general claim, also it is believed that all private claims are now filed.

## LI HUNG CHANG AND PRINCE CHING HAVE BEEN TO THE COURT FOR APPROVAL OF A RESOLUTION REGARDING THE MANCHURIAN CONVENTION.

A Concession in the Matter of Rates Which is Expected to Enlarge the Business Between Canada and the States.

This concession is regarded as more important to the money order business than any action taken since the inception of the system. The money order business between Canada now aggregates about \$2,000,000, and in the other direction a little less than that amount. The exchange of these orders is now restricted to four thousand offices in this country, but under the new arrangement will be extended to 20,000 offices in this country by this authority to issue or pay them.

Listening with deep interest, Aguinaldo finally exclaimed: "I never believed the Americans would be so fair and liberal." The conversation had ended, he had agreed to take the oath of allegiance, and this was immediately administered.

Mr. Monk Says Liberal Emissaries Were at the Bottom of the Trouble in Valleyfield.

COMPASSED BERGERON'S DEFEAT

By Promising Settlement of Trouble and Better Wages Mr. Loy Was Retained. Ottawa, April 3.—(Special.)—On motion for papers in connection with the Valleyfield strike, Mr. Monk gave the history of that trouble, tracing its inception to the organization of a Liberal union, which all workmen were asked to join, with the promise of better wages being secured for them.

EASTER CLOTHING

It is not always possible to repeat a good thing without people getting tired of hearing it—but our subject cannot be repeated too often. The class of clothing we are putting forward speaks for itself—We do not wonder that as clothing was manufactured and put on sale in the old way there was a "horror" against it—and that men shuddered at the idea of wearing it—and to tell the truth we could not blame them.

Many have advertised all sorts of clothing, but have not backed it up with the goods—which has been a disappointment to those who have been tempted to buy.

We set out to build up our business on merit—rather than take the short cut and work on the credulity of the public by bombastic advertisements. Of course this takes time—but we have had substantial returns from the common sense thinking people.

We did not arrive at perfection in workmanship in a minute—it took time and patience to educate our workpeople to the standard—and we are proud to say that we have the largest establishment of the kind on the continent.

ARMOUR C.J., ON LORD'S DAY

Enjoys Taking a Sunday Car and Seeing People Enjoy Themselves Innocently.

GLASS OF SODA PRONOUNCED GOOD.

Members of the Court of Appeal in their present act in ultra vires of Provincial Rights.

The argument in the Lord's Day case was resumed yesterday morning in the Court of Appeal. At the opening of the sitting Chief Justice Armour announced that his opinion would only be given as private citizen, and even then they were unanimous in declaring the Lord's Day Act ultra vires of the Provincial Legislature.

Mr. Peterson continued his argument from yesterday, going into an exhaustive history of the various legislative attempts to enforce the sanctity of the Sabbath.

Mr. O'Meara followed, also representing the Crown, and at the adjournment yesterday afternoon still had the floor.

During the course of the argument, the Chief Justice interrupted many anxious remarks. He piped himself on record as one who enjoyed nothing more than taking a car on a Sunday and going out to a park, there to look upon the people innocently enjoying themselves.

Mr. Justice Macdonnell yesterday refused an application made by Mr. W. D. McPherson to have the hearing of the Nipissing election petition fixed by Friday postponed. His Lordship, however, intimated that the application might be renewed on Friday at North Bay.

A Test Case. Judge McDonnell submitted a special case for the opinion of one of the justices of the Court of Appeal in the matter of the assessment of one Hugh Leach or side-walks in front of his property on the north side of College-street.

Constipation

According to the best medical authorities, fully three-fourths of the people of the civilized world suffer in some form from costiveness or irregular action of the bowels. There is no doubt that many distressing diseases are caused by constipation. Aside from creating impurity of the blood, it gives rise to headaches, piles, foul humors, fevers, debility, etc.

Dyspepsia

Full and proper nutrition depends upon the action of the stomach. If the action of the stomach be wrong, the best of food cannot properly nourish the body, while with a healthy stomach even coarse food furnishes strength and vigor to the body. With good food and good digestion the highest health is obtained, pure blood is formed and disease quickly cast off.

In Spring Time Skin Diseases

Many skin diseases, including Salt Rheum, Erysipelas, Tetter, Shingles, Eruptions, Scurf, Itching and Burning Rashes, Sores, etc., are caused by bad blood, and their cure depends upon the purification of the vital fluid by the prompt and faithful use of a powerful alterative, blood purifier and tonic like Burdock Blood Bitters.

Biliousness

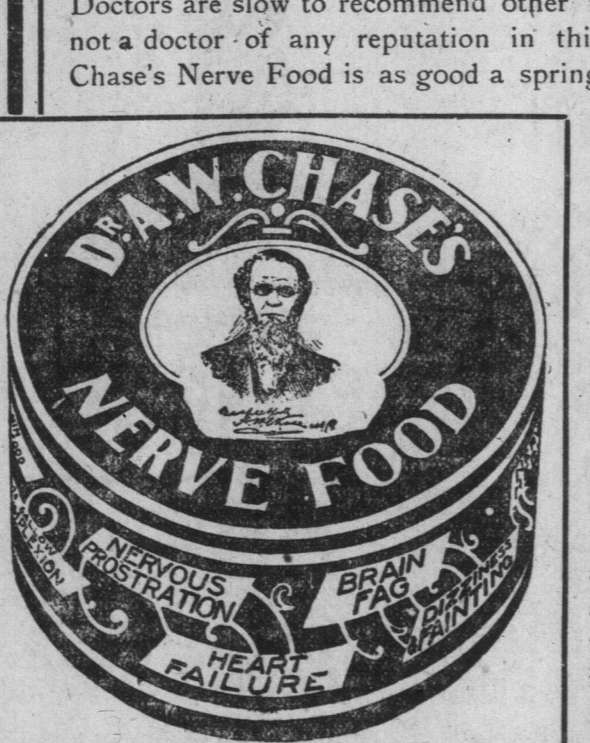

The liver secretes bile, the natural cathartic; it also filters and purifies the blood. When torpid or inactive, the bowels become costive; when too much bile is secreted, the subject becomes bilious and has diarrhoea; when the bile overflows into the blood, we have jaundice, with sallow skin and yellow eyes.
