ITALIAN VICTORY NEAR LAKE GARDA British Rout Turks in Battle Northwest of Bagdad LAURIER'S MANIFESTO MADE PUBLIC

PUT HUN SHIPS OUT OF ACTION IN QUICK TIME

German Auxiliary Cruiser Scarcely Got a Chance to Fire Single Shot. SUDDENLY ATTACKED British Made Very Complete Job of Destroying Enemy Naval Squadron.

Copenhagen, Nov. 4.—Captain Laurier, who commanded the German auxiliary cruiser Marie, in the naval fight in the Kattegat, in a statement to The National Tidende, said his vessel was armed with four guns, and carried a crew of 30. She was suddenly attacked, and the shells fell with such rapidity that his men were virtually unable to work the guns, and after a few shots the vessel was a mass of flames.

The British destroyers then ceased firing and rescued about 30 men. The captain, who was wounded, and fifteen men succeeded in entering a life-boat, and were picked up by a Danish steamer. The rest of the crew was killed during the fight.

The two Danish steamers that witnessed the engagement arrived last night with 21 survivors of the crew of the German commerce destroyer Crocodile. The fate of the remainder of the Crocodile's crew and of the crews of the trawlers is unknown.

One of the Danish saloons gave the following account of the incident: On Thursday night at ten o'clock torpedo boats of undetermined nationality were passed by the steamer on which the narrator was a seaman. At about 11 o'clock this morning heavy cannonading was heard. Shortly afterwards British destroyers steamed by bound westward. A little while following British destroyers were sighted firing westward at five German armed trawlers, which were burning fiercely. The two British ships were in the open sea. The second Danish steamer arrived soon after the first, with the 20 survivors from the yawl.

TRENTINO BATTLE ITALIAN VICTORY

Austro-German Repulse on Shore of Lake Garda—Attacking Forces Everywhere Held in Check by Cadorna.

London, Nov. 4.—Great Britain and France truly are rushing to the aid of Italy in her critical hour. Not alone have men and guns been sent to the battlefield along the Tagliamento River, where the Italians are holding the Teutonic allied invaders at bay, but the war brains of Great Britain and France—comprising the elements which have been so successful in operating against the foe in France and Belgium—are on their way to Italy to consult with the Italian leaders and evolve plans to change the order of things as they now stand. Premier Lloyd George and General Sir William Robertson, chief of the imperial staff at British army headquarters, are to lead the British delegation, while Premier Painleve is the chief representative of the French mission. No details of the plans of the joint mission have been announced, but undoubtedly the purpose is to give Italy what she requires in the way of material for an intensive conduct of the war and also to assure her of a great reinforcement of man power guns and ammunition. Meanwhile General Cadorna's forces are holding the invaders along the

CANADIANS ENGAGE IN FIERCE FIGHTING

Tremendous Struggle Develops Before Passchendaele, With Germans Attempting Heavy Counter-Attacks—Dominion Guns Sweep Field.

By W. A. Willison. Canadian Headquarters in France, via London, Nov. 4.—The struggle before Passchendaele has developed into a series of bitter battles in the whole history of the Canadian forces. Driven from his positions at Bellevue Farm and on Passchendaele spur in the first attack, the Canadian force moved out of Meetechee and Crest Farm in the second Canadian advance, the enemy is fighting desperately to retrieve his losses or at least maintain his position at Passchendaele itself. His faith in the protective value of the swamps and marsh which protected his advanced areas broken, his best infantry routed in hand-to-hand fighting, the Boche is throwing in fresh divisions, rushing up guns, and strengthening his defences in every possible manner. Time after time since the writing of my last despatch he has counter-attacked. His guns have never been silent. He has raked our front lines with machine gun fire, halting them with shrapnel, turned on one barrage after another, repeatedly bombarded our forward areas, searched the salient for our guns and gassed our advanced positions and rear positions repeatedly. All these things he has done, and at every turn we have beaten him. Replying to his barrage, our guns have neutralized his fire. Meeting his counter-attack, our troops have greeted his infantry with the bayonet and machine guns, and driven them back with heavy losses, while our artillery has shelled them constantly, giving our men in the front line magnificent support. The story of today, as one barrage after another, is one of continuous engagement in which the salient has known no rest. Just as the enemy was moving to the attack Saturday morning our artillery caught him on the advance, inflicting heavy losses, while on our left our infantry struggled forward to the advanced enemy strong post, where

FRENCH GAIN STRONG POSTS UPON AILETTE

Allies Occupy Every Crest in Pursuit of Retreating Germans.

By the Associated Press. On the French Front in France, Nov. 4.—The French advance in pursuit of the Germans beyond the Chemin des Dames has attained an average of a mile and a half, the southern bank of the Ailette being reached everywhere. Although the French are still in the process of clearing the territory, the progress being necessarily slow, owing to the uncertainty as to where the Germans will strike a second time. Many points in the line were bombarded by the German guns during the French advance, especially in the neighborhood of Ailette, where numerous mustard gas shells somewhat delayed the progress of the French troops. The French are displaying the greatest prudence in their movements in consequence of the frequency of the gas shells on all sides in the line. As a result of this cautious advance, while going forward, discovered a number of traps for the unwary. In Cerny a steel helmet hung on a pole was found, on examination it was found to be connected with a mine, which would explode in the event of the helmet being snatched. At the present moment the French occupy every crest and possess all the observatories above Crouane, Ailette, and Cautesson, which the Germans had made out, the Germans have established their line on the other side of the Ailette Valley, whence a shower of bullets from numerous machine guns comes on occasion. They destroyed every bridge over the Ailette as they retired. The evacuation of Cautesson was discovered on Friday by a patrol of chasseurs. During the preceding night any movement from the Germans had occupied Lassigny when the chasseurs were making a daring patrol, they found one of the German front trenches empty, and immediately gave the alarm. Other patrols advanced, followed hours afterwards, by setting infantry units in front of which the French artillery laid down a heavy barrage fire, in order to prevent surprises. The marching troops, however, found all the trenches empty, and a search of dozens of shelters and tunnels confirmed the departure of the Germans. It was evident that the German troops which occupied the front lines until the last moment received little warning of the order to retire, as half-cooked meals, still hot, were found in the sanctuaries. It is a remarkable coincidence that the same French troops which were facing the Germans on this occasion had occupied Lassigny when the Germans executed their retreat in March. The entire position, which is a perfect honeycomb of shelters, was reorganized by the French during the course of the day yesterday and thru last night. It is uncertain whether the Germans intend to retreat farther, although many movements of troops towards the north have been observed, and it is believed Leon has been evacuated by the civilian population. It is known that the Germans were busily engaged throughout the summer in establishing field works at a considerable distance in the rear of their present position.

FOUR ENEMY MACHINES WORSTED BY BRITISH

Successful Patrol Operations Carried Out by Royal Naval Air Service Machines.

London, Nov. 4.—The admiralty announced today that a number of patrols were carried out by the Royal Naval Air Service. The statement said: "One two-seater enemy machine was brought down in the sea and another two-seater was driven down damaged, and a scout was probably destroyed. A bombing raid also was carried out this evening on the Enzel air-drome bombs were seen to fall among the hangars and sheds in the air-drome. Our formations were attacked by enemy machines, two of which were driven down out of control. All our machines returned safely."

NINETEEN LIVES LOST IN AN S. A. MISSION FIRE

Ten Others Probably Fatally Injured in Leaping From Burning Building at Paterson, N.J.

Paterson, N.J., Nov. 4.—Eighteen bodies have been taken from the ruins of the Salvation Army rescue mission in this city, which was destroyed by fire early today. Ten men are in the hospitals with probably fatal injuries and many others were less seriously hurt in leaping from windows of the burning structure. There were 36 men asleep in the mission when the flames started in an old frame building adjoining the new structure used for storing magazines and newspapers. Rapid spread of the flames made use of the only fire escape on the building impossible, and the lodgers, many of them were old and crippled, were driven to windows from which they leaped before firemen could catch them in nets.

AMERICANS CUT OFF BY GERMAN RAIDERS

First United States Official Communication Tells of Minor Enemy Success.

Washington, Nov. 4.—Advancing under protection of a heavy barrage fire, a German raiding party before daylight on Nov. 3, stormed a trench held by American infantry, killing three, wounding five and capturing 12, according to despatches from Gen. Pershing received by the war department tonight. American infantry were in occupation of a small sector for instruction when cut off from the main body by heavy German artillery. Gen. Pershing reports the capture of one prisoner. Enemy losses are not known, says the despatch.

PROMISES REFERENDUM ON COMPULSORY SERVICE

Sir Wilfrid is in Wrong Sir Wilfrid's Platform Includes Removal of War Increases on Tariff, Free Agricultural Implements, Fixing of Food Prices and Confiscation of Profits.

Ottawa, Nov. 4.—Sir Wilfrid Laurier has issued his manifesto addressed "to the Canadian people" the opposition leader declares his policy and outlines his aims. On the all-important question of participation in the war, Sir Wilfrid claims that "a fundamental objection to the government's policy of conscription is that it conscripts human life only and does not attempt to conscript wealth, resources, or the services of any persons other than those who come within the age limit prescribed by the Military Service Act." The first duty of a Laurier administration would be to "find the men, money and resources necessary to ensure the fullest measure of support to our heroic soldiers at the front and to enable Canada to continue to the very end to do her splendid part to win the war." To this Sir Wilfrid adds: "As to the present Military Service Act, my policy will be not to proceed further under its provisions until the people have an opportunity to pronounce upon it by way of a referendum. I pledge myself forthwith to submit the act to the people, and with my followers to carry out the wishes of the majority of the nation as thus expressed." As remedies for an economic situation, "which is admittedly critical," Sir Wilfrid promises: "Tariff reform; control of food supplies and prices; stop to profiteering. Would Remove Tariff Increases. The two increases in the tariff, made since the beginning of the war, he would remove. These are 7 1/2 per cent. on all commodities coming into Canada from outside Great Britain, and five per cent. on goods coming from Great Britain. He also "would immediately remove the duties on agricultural implements and other essentials, as demanded by the western farmers." In connection with the high cost of living, he would take "drastic steps to bring under government control all food-producing factories, so that the food may be sold at a fixed price, under the control of the government." If satisfactory arrangements could not be made with the food-producing factories, Sir Wilfrid declares, he would not hesitate to commandeer.

RECIPROCAL RAIDS TAKE PLACE IN WEST

London Territorials In Successful Operation, While Enemy Raiders Enter British Trench.

London, Nov. 4.—The fighting in Flanders today was of a minor character, according to the report from Field Marshal Haig tonight. The text reads: "This afternoon a successful operation, in which we captured a number of prisoners and some machine guns, was carried out by London Territorials east of Gavrille. During the night the enemy entered our trenches southeast of Epehy under cover of a heavy bombardment. Two of our men are missing. A hostile attempt to raid one of our posts north of Polygon Wood was repulsed. There has been continual artillery activity during the day on both sides. The activity on our side has been more than usual in the Neuport sector."

THE LAURIER MANIFESTO.

A consultation of the people at short and regular periods is the right of a free people. The constitution provides accordingly for a general election every five years. It is undeniable that there has existed a strong desire in the community to avoid an election during the war. An impression prevails that had I accepted the invitation of the prime minister to join his government a new extension would have been possible. This impression is absolutely erroneous, the fact being that the invitation extended to me was couched with the stipulation that the coalition government would pass a conscription measure and then appeal to the country, thus making an election unavoidable. The government, as recently reconstructed, the union government so-called, is now appealing to the country for support. Six members of the Liberal party, some of them close personal friends, have consented to become members of the administration, and the program which they intend to follow has already been placed before the public, but in this program no trace is to be found that the Liberal members of the administration have succeeded in influencing their colleagues to the adoption of measures which they deemed essential, not only to win the war, but for the welfare of the country at all times. "Stale Commonplaces." Most of the articles in the government's manifesto are simply stale commonplaces extracted from the Conservative program of 1911, forgotten after the election, resurrected for a new election. Such is the promise of economy of public expenditure, and such the promise of civil service reform—two reforms which the opposition would have been happy to support in the last parliament, if the government had afforded them opportunity. One particular item is deserving of attention: "A strong and progressive policy of immigration" is promised.

THIS MAY BE, PERHAPS, THE MOST IMPORTANT QUESTION AFTER THE WAR.

The burdens which are now being accumulated and which will have to be assumed and borne by the Canadian people can be faced if the enormous resources of the country are developed. But development demands a rapid increase in the population. Hence the necessity of a strong and progressive immigration policy. It is manifest that the promised strong and progressive policy has been seriously impaired by the breach of faith with naturalized Canadians involved in the withdrawal of the political franchise from large numbers of these citizens. This must prove a serious blow to immigration, especially when the conduct of the Canadian Government is contrasted with the attitude of the United States, where no such indignity has been placed on naturalized citizens. Canadian Northern Deal. An article of the program of the government speaks of the development of transportation facilities, but in vague the rather ambitious terms. No mention is made of the acquisition of the Canadian Northern Railway, yet this subject was not exhausted by the legislation of last session, and it will be one of the most important duties of the next parliament again to review it. One feature of the act of last session is that the government becomes the owner of the stock of the company, of the nominal value of \$60,000,000. There never was a dollar paid in that stock. The experts employed by the government to appraise the value of the whole enterprise, men of acknowledged ability and experience themselves, have reported that the stock of the company has no value whatever. Yet the government have taken authority to appoint a board of arbitrators to give a value to that property, which their experts have declared absolutely without value. The opposition asked that the report of the arbitrators, whatever it might be, should be laid before parliament for approval. This motion was rejected. It

CANADIAN METHODISM LOSSES GREAT FIGURE

Rev. Dr. Carman, Former General Superintendent, Died Sunday Morning.

Canada lost a good citizen on Sunday morning by the death of Rev. Dr. Albert Carman, the grand old man of Canadian Methodism, and general superintendent of the Methodist Church from 1883 to 1914. He was born in Dundas County, near Ironopolis, on June 27, 1833, of United Empire Loyalist stock on both sides of the family. Dr. Carman lived his life in full, carrying out the ideals of his faith. He was educated at the Victoria University, then at Cobourg, receiving his degree from that institution. Later he was connected with Albert College in Belleville, which was named in his honor. There he served in all capacities on the teaching staff, and eventually, with its affiliation in Toronto University, becoming principal. He was instrumental in founding Alma Ladies' College in St. Thomas, of which school he had been chairman of the board of managers ever since. In July, 1880, he was married to Mary Sisk, Belleville, daughter of Captain James Sisk. In 1874 he was ordained bishop of the Methodist Episcopal Church, and in 1883, when the union of all the branches of Methodism was under consideration, Dr. Carman was the presiding officer of the committee which considered the feasibility of the amalgamation. Later, when it was accomplished, he was made general superintendent.

HEROISM NEEDED IN COMMONPLACES OF LIFE

Rev. Dr. Ribourg Preaches on Present-Day Call to Church.

Rev. Dr. A. E. Ribourg preached Sunday evening at St. Alban's Cathedral on "The Heroic Life," showing that heroism is the display of courage, fortitude, bravery, unselfishness, not only amid the din of arms, but in the ordinary trials of the commonplace life, where difficulties must be manfully combated, misfortunes bravely sustained; poverty nobly supported; dis-appointments courageously encountered. "The present hour calls for heroism in all life's spheres," said Dr. Ribourg. "It is by bravely facing the men and women of her own generation, pointing out to them their mistakes and by heroically taking their part when oppressed or ill-used by society, that the church can reach the heart of the world and bring about the new world which is dawning. Righteousness, poverty, unselfishness, and blood-stained world of ours will never be redeemed, purified, and saved by acts of parliament, although legislative action is most important; but by the agency of a heroic Christian church, imbued with the spirit of the Redeemer."

Executive committee of the Peel County Liberal-Conservative Association met here Saturday to consider the communication from the Liberal executive stating that Mr. Pelech, their candidate, had resigned, calling on the committee to ask Mr. Charters, the Liberal candidate, to stand by him.

It was decided to call a union mass meeting for Saturday next. The following reply was sent to the Liberal executive: J. S. Beck, secretary Liberal Association of Peel, Brantford, Ont.

Dear Sir:—The executive committee of the Liberal-Conservative Association of the county has received your letter of October 29th announcing the resignation of Mr. Pelech and asking for the resignation of Mr. Charters as a result of the resignation of Mr. Pelech.

It is not our intention of approaching this matter in a party spirit. We are not in politics, but in this special war conditions, but the facts are that a convention called after the resignation of Mr. Pelech, before Mr. Charters, was held in the presence of the delegates pledged themselves to support a win-the-war candidate who would be required to support the union government.

Mr. Charters has since held public meetings as a supporter of the union government, and has met with the warmest support of the ratepayers, including many Liberals, as a man eminently worthy to be Peel's representative in the Dominion House in support of the union government, and as such a supporter no possible objection can be made to his candidature.

MORE REPRESENTATIVE MEETING IS DESIRED

Whitby Convention Adjourns for Purpose of Confering With Other Parties.

Whitby, Nov. 3.—A union meeting was held here Saturday afternoon and adjourned for the purpose of confering with the Liberal Association of South Ontario in regard to the holding of a more representative union convention the first of the week, on the suggestion of J. M. Godfrey, Toronto, supported by William Smith, Conservative representative of the riding in the late government.

On the platform were F. L. Mason, chairman; J. H. Purdes, Peter Christie, Charles Calder, Dr. T. E. Kaiser, William Smith, Benjamin Gould and J. M. Godfrey, Toronto; Mrs. E. Starr, representing the W.C.T.U., as Dominion superintendent of militia work; Sam Jeffries and F. Howard Ames.

At the conclusion of the meeting a committee was formed, with Dr. Kaiser as chairman, to meet the Liberal association prior to its meeting on Tuesday and ask the president to urge the members to agree to a union convention.

Benjamin Gould said the people had met as win-the-war Canadians, and it was time to unite for the sole purpose of achieving glorious victory in Europe. John M. Godfrey, president of the Win-the-War League, said to the effect that the Liberal candidate, Mr. Pelech, was a necessary, he said, and he added, "Sir Robert Borden has the strongest government Canada has ever had. Union government can't last, tho, if you do not support it. What are you going to do about it?" he asked.

It was decided to call a union mass meeting for Saturday next. The following reply was sent to the Liberal executive: J. S. Beck, secretary Liberal Association of Peel, Brantford, Ont.

Dear Sir:—The executive committee of the Liberal-Conservative Association of the county has received your letter of October 29th announcing the resignation of Mr. Pelech and asking for the resignation of Mr. Charters as a result of the resignation of Mr. Pelech.

CANADIAN CONSCRIPTION BILL IS DEMOCRATIC

Hon. George P. Graham Speaks of Attitude of Sir Wilfrid Laurier.

"Well, how is the World getting along today?" was Hon. G. P. Graham's greeting to a reporter for this paper last night at the Prince George Hotel. "I meant to get The Sunday World, but I haven't been able to get hold of it yet."

"You mean how am I? I am out-and-out for Liberalism—the only means of winning the war." "But Sir Wilfrid Laurier isn't, is he?" "Listen. Sir Wilfrid is a personal friend of mine. I know him. I know how he feels. I know that he is as deeply concerned to win this war as you and I. But he happens to look at the matter thru a different lens. He respects our point of view, and we respect his. Sir Wilfrid is one of the outstanding characters in Canadian history."

"You know," continued Mr. Graham reminiscingly, "this ideal of conscription is something entirely new in our history. Britain has never stood out as the bulwark of liberty, racial and individual. We thought three years ago no military service bill would ever become necessary. But the exigencies of the war have forced the whole empire toward the inevitable, and we take up the challenge. But not conscription as Germany understands it. Our military service bill is democratic even to the base of the principle of getting every ounce of manhood into the fight for emancipation from militarism."

WENTWORTH NOMINEE ISSUES HIS MANIFESTO J. H. Dickenson Says No Party Has Claim on Him and He is for Winning the War First

Hamilton, Monday, Nov. 5.—J. H. Dickenson, Liberal nominee for Wentworth, has issued the following manifesto to the press: "No party has any claim on me, by any statement that I have ever issued. I do not intend to commit myself to any policy at the present time. While some candidates have gone ahead and committed themselves to a platform of procedure, which may lead them anywhere, I am in a position where I can act in a way which deals with the situation as it stands now."

"I am a win-the-war candidate first; I am a Liberal second. Because I am a win-the-war man does not signify that I believe in the union candidates. I want freedom to act, so that should it occur to me that the union government platform stands in the way of unity of Canada and of winning the war, I will be free to put the winning of the war first and the Liberalism second."

Hamilton, Monday, Nov. 5.—An important political conference, which eventually may be the means of settling the contest in East and West Hamilton, was held under the auspices of the local branch of the Win-the-War League in the Connaught Hotel Saturday afternoon. While nothing was decided at the time, beyond adjourning until next Saturday, when a larger representation will be present, a remarkable amount of conciliation was shown by all present, giving the impression of the possibility of an amicable agreement being arrived at in reference to both the ridings.

Cobourg, Nov. 3.—The statement which appeared today in the local Conservative press over the signature of C. A. Munson may be taken as his answer to the or of Sam Dudley, the Liberal nominee, to resign if Mr. Munson would not be taken as a candidate to be selected. Mr. Munson says in part: "I hereby announce myself as a win-the-war candidate for election to the house of commons. I have supported the Borden government in all its war legislation, and will, if elected, support the union government now being formed by Sir Robert Borden. If elected I will devote my whole energy and time to secure for the soldiers those rights to which they are entitled, as well as perform my duty to the people of Northumberland."

MET WITH DEFEAT IN SIGHT OF GOAL

Trieste in Sight When Italians Were Driven From Montafalco.

CITY WAS SPARED

Carso Conquest Incomplete and Prize Could Not Be Grasped.

Italian Headquarters in Northern Italy, Nov. 3.—(By the Associated Press.)—One of the last visits to the front permitted the correspondent by the army authorities before the retirement of the third army began gave opportunity for inspection of Montafalco, on the edge of the Adriatic, where, from a naval observatory, the City of Trieste was seen at sunset, lying only a few miles down the coast. The sunset was a notable one at any time, but was doubly so at the eventful moment, just on the eve of the issuance of an order forbidding any further visits by civilians, owing to the terrific shellfire from the Austro-German guns which had already begun. The naval observatory in Trieste was one of the strongest in the world, as it was set on the upper deck of an 18,000-ton transatlantic liner still unscathed and left to rust on the stocks by the Austrians when they were driven from Montafalco by the Italians.

The sittings of the board will be held here.

TIME FOR ACTION HERE LEADERS MUST ACT

Allies Told to Brace Up by Sunday Times—Must Visualize War. London, Nov. 4.—In an editorial on the Italian situation, The Sunday Times this morning says: "The time clearly has come for our leaders to cease talking about a common purpose and a single front, and to visualize the war as a whole. The reins of power were handed to the Allies on the assumption that they would live up to their motto of 'thoro', but the country, one fears, is by no means convinced that performances have fulfilled promise."

"May we hope that the imminence of the allied conference in Paris will suffice to brace up the Allies to the needs of the war? For the first time, it will have to face American representatives, the delegates of a nation that is free from the financial dependence under which our other allies heretofore have labored. America can have no supreme obsession for any particular front. She entered the war with the main idea of finishing it as soon as possible, and she will not care where the Germans are beaten as long as they are beaten speedily. Nor will she be content to slay them with the mouth only."

VATICAN TO ABANDON EFFORTS FOR PEACE

Union of All Italian Parties for War Greatly Influences Pope. Rome, Nov. 4.—The gravity of the situation and the fusion of all parties into one national entity determined at all odds to drive the enemy from the mother soil, apparently, according to high officials, has reached even the Vatican, where it is realized it is advisable to abandon any efforts toward peace, for the present at least. The leaders in the Catholic party have made declarations of their support to unite Italy in the supreme crisis, and it is said in official quarters that the Vatican has been informed that for the moment any attitude which might be considered to run counter to the national aspirations, would be most unwelcome.

RAILWAYMEN DEMAND CONSIDERABLE INCREASE

Representatives of Two Hundred Thousand Men To Present Claims Soon. Chicago, Nov. 4.—A demand for wage increases for the 200,000 men belonging to the Brotherhood of Railroad Trainmen and the Order of Railway Conductors, will be submitted to the railroads of the United States, it was decided today by the chief executives of both orders at the end of a week's session here. The amount of the increase asked for was not made public. It was intimated, however, that not more than 25 per cent. would be demanded.

HERTLING'S APPOINTMENT OFFICIALLY ANNOUNCED

Retiring German Chancellor Will Be Employed in Another Capacity. Coppenhagen, Nov. 3.—Count George von Hertling has been appointed imperial German Chancellor. This is announced in an official statement received here from Berlin. The Kaiser, in a receipt to Dr. Michaelis, the retiring chancellor, expresses a desire to employ him further in the imperial service. It is understood that Dr. Michaelis will take over another high imperial office for which his qualifications are admitted generally. Berlin correspondents report that Count von Hertling has succeeded in establishing satisfactory working arrangements with all parties, except the Socialists and the Conservatives. Even the Socialists, it is added, also not abandoned their attitude of reserve, can be counted upon to make no difficulties to the government unless unforeseen conditions develop.

AUSTRIAN KING FOR POLAND.

Amsterdam, Nov. 4.—The Munich Neuste Nachrichten prints a report from Vienna that Emperor Charles, on Sunday, which is his name day, will be proclaimed king of Poland and also ruler of the south Slav states, embracing especially Bosnia and Herzegovina and that part of Serbia already occupied by Austria. These states, it is added, will receive a certain measure of autonomy.

For the Many—Not the Few

PREVIOUS issues of Canadian war bonds have been purchased largely by wealthy financial and industrial institutions and regular private investors.

This time, to make the loan a success, everybody must buy Canada's Victory Bonds.

The denominations have been made as low as \$50 so that the many instead of the few may help Canada to raise the money she needs to carry on the war.

People who never before have been investors are urged to buy Victory Bonds. Their savings may be small individually, but are certainly tremendous in the aggregate.

You; your neighbour; men and women of every trade and profession; employers and employees; city people and country people; old and young; all must put shoulder to the wheel. Every little helps.

Buy all you can. Strain a point—buy to the very limit of your ability. Influence others to do the same. For not only will your savings earn large and continuous interest, with absolute security of principal, but you'll be helping to win the war and to maintain Canada's agricultural and industrial prosperity.

YORK COUNTY IS THE HOME OF CHAMPION WHEAT GROWER

Plowing Matches and Field Crop Competitions of Ontario's Agricultural Societies Have Helped to Develop the Finest Agriculturists in the World—Success of Provincial Plowing Match Discloses Opportunity for Grand Agricultural Exhibition.

Not only is York County noted all over the world for its successful live stock raising...

Those acquainted with the progress made by the various agricultural societies of Ontario under the supervision of J. Lockie Wilson will agree that the proposed exhibition is sure to be a great success from the start.

Progress of Movement. Those who will likely take a hand in the development of the proposition will be interested in the following table of estimates which illustrates the comparative importance of the agricultural societies of the province.

Table with 2 columns: Society Name, Amount. Includes Agricultural Societies Branch, Provincial Government, etc.

The photograph above constitutes the most conclusive evidence of the interest taken by farmers in the development of power farming. This picture was taken by The World photographer at the provincial plowing match held recently at Brantford, and shows a section of the crowd examining a Canadian-made tractor, the "Essex."

CONDENSED INFORMATION FARMERS AND THEIR CLUBS

PICKERING. Continual heavy rain is causing work on the farms to be greatly delayed. Very little plowing has been done so far and it is also difficult to get in the root crop.

BRUSSELS. Tuesday morning Hugh R. Elliot, Brussels South, presented The Post with a fine specimen of potatoes that weighed 3 1/2 pounds. They grew on the farm of Robert Cochrane, 14th con., Grey Township, and were part of a crop of about 150 bushels being grown on an acre of land. One feature about the potatoes was the absence of beetle fellows. We don't know the variety, H. R. said. "They were just potatoes," and we will have the pleasure of sampling them. If somebody would bring us a zettule of soil now we'd be happy for a while.

FLESHERTON. J. H. Beal has a stalk of corn which was grown in his garden and which measures 15 feet 4 inches in length.

WATFORD. Some Warwick farmers complain that the Watford price for hogs last week was far below either Karwood or Forest. It is up to the Watford buyers to explain the discrepancy. Farmers of the district prefer to bring their hogs to Watford, but cannot overlook a higher price elsewhere. —Watford Guide-Advocate.

WROXETER. Wm. Casmore of Hawick has sold his 100-acre farm to Thos. Wright, who will take possession in March.

MORRIS. Potatoes are a good crop. Quite a number of farmers are busy this week at the root crop.

QUEENSVILLE. Our older mill stands idle this fall owing to the scarcity of apples. On Wednesday morning about one and a half inches of frost stopped the farmers getting out their turnips. Owing to the bad weather there is very little fall plowing being done around here, and the early frost has made it very cold for some that have not all their potatoes out.

KINGSTON. Potatoes are selling on the market at \$1.75 per bushel and in the stores at \$1.25 per bushel, and it is the prediction of some of the dealers that before long they will be selling at \$2 per bushel and possibly higher. One great drawback is the fact that not more than 10 per cent. of the farmers in the county have gathered in their potato crop, owing to the shortage of labor.

ELMBANK. J. T. Loughhead has sold his 200-acre farm on the Centre Road below Derry West, to Mr. Anderson of Elmbank. The price paid to be \$17,000.

FARM COMPETITION IS WELL RECEIVED

Farmers Plow Their Own Farms, Whose Crops Thereby Benefit.

A farm competition was held this year for the first time in Canada in the Township of Eramosa. The underlying idea was to turn the usual plowing match into a farm competition, which would allow the competitors to improve their own farms instead of all journeying to one central farm.

The rules were that entries had to be made by a certain date and judging would be conducted between two dates announced beforehand. Those entering had to plow not less than five acres of sod and not less than ten acres of stubble, to be plowed in each case. The plowing was done on one's own farm by the farmer himself or his help. The farmers were well satisfied with the idea because the crops of those entering would get the benefit of efforts made, even if one did not win the prize.

The score card by which the work was judged was after this style: General appearance, 45 points; pointing and packing, 20 points; width, depth and evenness of furrows, 20 points; straightness, 10 points; crookedness of sod, 10 points—total, 100 points.

Several farmers who had not previously participated in plowing matches entered with enthusiasm in this new farm competition. It is understood that a similar competition has been held at Peterboro.

ARTHUR. Two real estate deals were recently put thru in Arthur Township. Thos. McGillivray, Jr., purchased from Fred Edwards his 100-acre farm on the 7th concession, and Matt Taylor of Rothsay sold his farm on the 8th concession to Alex. McIntyre.

AMARANTH. The farm in Amaranth belonging to the William Pennell estate has been purchased by W. H. Stewart of Bowling Green for \$3500.

JAMESTOWN. Noah Bowman and family, who have been tenants of the T. R. Bennett boundary farm for the past few years, will remove to Wallace Township, having bought the farm of E. Newburgh. Mr. Bowman is doing fall plowing on it now.

KETTLEBY. S. Gear sold ten pigs on Tuesday, weighing 2300 pounds, fairly good weight. Potato picking is the order of the day now.

Mr. Reid on the fourth is getting along very well with his tractor.

CALEDON. John Patterson Jr. goes a little better than Wm. Baxter, a competitor for Aubrey's prize for potatoes, turning in nine potatoes last week-end, weighing 25 pounds, one ounce. Mr. Baxter's entry was 10 potatoes, 25 pounds.

Mrs. James Cranberry picked a basket of fine ripe strawberries last week-end, and many more are ripening.

WALDEMAR. John A. Simpson, a well-known Amaranth farmer, has sold his fine 200-acre farm near Waldemar, to Reuben West, who owns the adjoining property. The purchase gives Mr. West a block of 400 acres with an additional 50 acres across the road. Twelve thousand dollars was the price paid Mr. Simpson, who retains the use of the house for the present.

GOOD POTATO YIELD. Eighty bags of potatoes from half an acre of land belonging to Mr. Elmer Long of Verulam, was the yield reported by the owner for his labor and trouble. Mr. Long grew his potatoes. It is estimated, at a cost of about 50c or 70c a bag.

To the mothers and fathers who desire to give their children the advantages of a musical education and a useful Christmas gift

Beethoven says: "Where the piano is there is the happiest home." Very few of us fully realize yet the actual value of a musical education to the child. Music is the food of the soul, and should be nourished during childhood. It will help them to grow up better, broader and more sympathetic men and women. Music will heighten the character of the child and impart grace and refinement.

Every parent should send for this "Art and Critic" album giving the autobiography of the musical great. It is just as necessary to know the life of Great Artists as the history of politicians. This book will interest every child and teach them to know the great musicians of today. Models of the famous Williams New Piano are also shown with Gold Autograph of Artists, which is placed on these "Artists' Choice Pianos."
