**ALLIES MAY BE SURVEY TO TAKE STEPS IN CHINA**

Deposed President and Staff Find Refuge in Japanese Legation.

**CIVIL WAR STARTING**

Japan Refuses to Support Movement for Restoration of Monarchy.

Tientsin, July 4.—Tuan Chi-Jui, the former premier, accompanied by Liang Chi-Chiao, former minister of justice, and Tang Mau-Lung, former speaker of the Chinese assembly, left for Manchuria in Chihli province last night. Large forces of troops have been assembled there, and Tuan Chi-Jui will take command of all the forces for the overthrow of the Manchus.

Ni Su-Chung from the south and Chang Jui-Chi from Shantung province are expected to attack Su-chowfu, Kiangsu province, Chang Hsun's headquarters, immediately.

London, July 4.—A despatch from Tientsin, China, under today's date, says:

Li Yuan Hung, the Chinese president, with two attendants, escaped from the palace at 9 o'clock last night and sought refuge in the Japanese legation. The Japanese, considering the urgency of the case, granted him refuge.

No one is allowed to interview the president in his place of refuge.

A delayed despatch of Tuesday's date reads:

Gen Chang Hsun, says a despatch from Peking, signed Baron Hayashi, the Japanese minister, that either Japan would support a movement for the restoration of the monarchy in China. Baron Hayashi replied that Japan would adhere to its policy of non-interference.

Should the restoration appear to succeed, it is believed here that it may precipitate a decisive struggle between the northern and southern provinces. The opinion has been expressed here that, should serious disorders arise, Japan and the Chinese might be forced to take protective action.

Clash is imminent.

A Renter despatch from Shanghai today quoted Vice-President Feng Kwang-chang as indignantly denying the allegation of the Peking edict that he is a pro-monarchist, and as declaring, on the other hand, his intention of taking action at the earliest possible moment against the new Peking government.

"The military and military commanders at Shanghai who are strongly represented here have been bidden to make immediate preparation for such action," adds the despatch. "It is anticipated that Tuan Chi-Jui, the former premier, will lead the representation forces against the capital.

"All is quiet in this district. Although the Chinese display some nervousness. The piece goods auctions have been temporarily suspended."

A despatch from Amoy, in Fukien Province says: Troops of Kwangtung Province are reported to be concentrating on the Fukien Province border.

**IN CIVIL WAR THROES.**

San Francisco, July 4.—China is in the throes of civil war and a battle is being fought today between troops of the southern provinces fighting for the preservation of the republic, and the northern forces of the young emperor, according to cable advices received here today by the Chinese Nationalist League. The first clash was announced as having occurred yesterday by officials of the league, who claim the source of its information is unquestionable.

The advices today state that President Li Yuan Hung is safe in Peking and Vice-President Feng Kwang Jung is directing troop movements in Nanking.

According to the despatches the soldiers of President Li in the Chinese capital are steadily gaining ground.

**ARGENTINA DEMANDS SAFETY FOR VESSELS**

Buenos Aires Government Asks German Indemnity for Piracy.

Buenos Ayres, July 4.—The note which the Argentine Government has sent to Germany on the subject of the sinking of the Argentine vessels Oriana and Toro, it is confirmed, demands indemnity, satisfaction, and assurance that no more Argentine vessels will be attacked.

**Old British Destroyer Sunk By Mine in the North Sea**

London, July 4.—An old type of British torpedo boat destroyer has struck a mine and sunk in the North Sea, it was officially announced this evening. There were six survivors from the sunken craft.

King George V watching flight of a military aviator over the aviation field at Heaton, England. He had before the war was a great aviation exhibition ground. Now it is serving as a school for British airmen.

### MESOPOTAMIA SUMMER STOPS BRITISH ATTACK

**Dispositions Taken Render Life Bearable for Troops—Sickness Falls Off—Turk Attack on Convoy Fails.**

London, July 4.—An official statement relating to the campaign in Mesopotamia was issued tonight, as follows:

"On June 23 a convoy proceeding from Bakuba was attacked by Turkish irregulars, but the enemy was driven off with loss.

"June, July and August being the hottest months of the year, no effort has been spared to render life in the Tigris Valley as bearable as circumstances permit. All reports indicate a great improvement in the comfort and health of the troops. The weekly returns of the sick continue to show a decided improvement over the corresponding figures of last year. Some a decided improvement from the northwest wind which usually blows throughout part of July and August."

### DESTROY HUN PLANES AFTER HARWICH RAID

**British Naval Aircraft Bring Down Two Enemy Machines and Damage Another—Eleven Killed By Bombs at Harwich.**

London, July 4.—Two of the German machines that took part in the air raid on Harwich were brought down by British naval aircraft and a third machine was damaged, it is officially announced.

All our machines returned safely from their flights. The official statement announcing this result reads:

"The vice-admiral at Dover reports that naval aircraft from Dunkirk intercepted the hostile squadron returning from England after the attack on Harwich this morning. An engagement ensued at a considerable distance from the Belgian coast. Two hostile machines were brought down in flames and a third was seen to have been damaged.

"Several other machines were attacked with indecisive results.

"All our machines returned safely from their flights. The official report places the casualties in an air raid on Harwich at eight killed, 22 injured, a later report states that the killed number eleven and the injured thirty-six.

Many Bombs Dropped.

"The first official statement follows: 'A squadron of some twelve to fourteen enemy airplanes attacked Harwich, (Essex coast), from a northeasterly direction about 7.05 o'clock (Continued on Page 2, Col. 5).

### DENY BIG U. S. FORCE HAS REACHED FRANCE

**Germans Minimize American Army to Allay Uneasiness.**

Amsterdam, July 4.—A Berlin despatch to the Dusseldorf General Anzeiger says that leading circles there "are fully convinced that there is little or no truth in the reports of the landing of large American forces in France."

The message says that only a small American contingent has landed and is now "being taken around there for purposes to revive 'French courage,'" and declares that the reports regarding the Americans are spread in a way intended to cause uneasiness in Germany and among her allies.

"Berlin official quarters," the despatch adds "maintain the belief that there is no American danger within measurable time."

### MORE INTEREST ON SCHOOL LAND MONIES

**Government Grants Manitoba Five Per Cent. and Other Provinces May Also Benefit.**

Winnipeg, July 4.—The Dominion Government has acceded to an application made by the Manitoba Government to pay five per cent. instead of three per cent. interest on school land monies. This announcement was made today by Hon. Edward Brown. This means, in brief, that the revenue of Manitoba is now increased approximately \$20,000 per year, an additional two per cent. being given on a four-million-dollar investment. This additional money will be put into school improvements.

It is incidentally expected that the Dominion Government will accord the same treatment to the other western provinces.

### FIFTEEN LARGE BRITISH CRAFT SUNK AT SEA

**German Submarines Show Another Big Slump in Effectiveness.**

### FIVE SMALL SINKINGS

**British Navy is Convinced U-Boat Campaign Has Failed.**

London, July 4.—The weekly shipping summary issued today shows that 15 British merchant ships of more than 1,500 tons were sunk and five vessels of less than that tonnage. Eleven fish-vessels also were lost.

The summary:

Arrivals, 2,745; sailings, 2,846.

British merchant ships sunk by mine or submarine, over 1,500 tons, fifteen; undred 1,600 tons, five.

British merchant ships unsuccessfully attacked, including five previously lost, six.

British fishing vessels sunk, eleven.

Field Marshal Von Hindenburg's prediction on his return from Austrian headquarters that Germany's enemies would be forced to make peace in the not too distant future if the Germans held their ground until the submarine had done its work, receives a prompt and convincing reply in the weekly figures of sinkings of vessels. The total is the smallest in several weeks. The conclusion has been reached that it is impossible for the submarines to maintain any average of sinkings which will have an appreciable effect on the overseas communications of the allies.

The Bolser German Heaps.

Von Hindenburg's boasting pronouncement has been read with considerable interest in advisory circles. The general view is that it was issued chiefly with a view to bolstering up German hopes.

The phrase "if we hold our ground until the submarine has done its work" has a pleasant sound to the British naval ear, for the navy is now

(Continued on Page 13, Col. 5).

### Let Yung Street Wait

"The Lanark: See here, Hok, I look on the way Yung street has been handled as a real win-out for Wee York ideas.

Hok: How so, John?

Lanark: Th' way we've held things up fur night fifty years. Them fellows what wanted th' street opened up has counted thirty years to get a pavement thru die Yorkville an' part thru Deer Park; an' it's goin' to keep them

thirty years more to pave th' tie town or North Toronto an' get two trunks put down. We don't want Wee York opened up. We want it kept crowded in th' downtown part. She's growed too fast."

Hok: But kok at the bad roadway. Ah, he counted 160 motors pass his door in half an hour, all trying to get over the street. A single track on the leading and obfest street in Ontario is a little out of date.

"The Lanark: Nos on yure life, Mister. They ain't got no rit to have them non-fogged etobles on th' streets of th' ole town—"

Hok: But they have only one-track car line.

"The Lanark: They ain't got no rit to more'n that. They'd be better on th' hoof. Besides, road jots is good fur th' liver. No, sar, my idee is that them peepul up on John Montgomery's hotel he kep on th' grid sum more. They took all McKinnis' reb; an' seein' they saw fit to giv' a franchise to th' uthar McKinnis, let them fry out fur a while longer. Three miles or doubl' track on smooth tar pavement, not much; but three miles of poor road with wun trak about balances th' account an' they ort to be satisfied. If they bruk out, ov' th' three miles, they ort to be satisfied. Let them pay two fares and take th' bumps in th'ir knees."

### TEST VOTES IN HOUSE TO BE REACHED TODAY

**Morris, Chateaugay, and Loggie, Northumberland, N. B., Declare for Conscription—Macdonald Accuses Government of Hysterical Conduct—Mondou Leaves Conservative Party.**

By a Staff Reporter.

Ottawa, July 4.—Two members of the house heretofore in the doubtful column declared themselves against the referendum and in favor of the conscription bill during the progress of today's debate. One was James Morris, Conservative member for Chateaugay, and the other was W. S. Loggie, Liberal member for Northumberland, N.B. Mr. Loggie also declared himself in favor of a coalition government and the extension of the parliamentary term. Both he and James J. Hughes, Liberal member for today's debate, suggested that the voluntary system would be greatly aided by the retirement of Sir Robert Borden and the accession of Sir Wilfrid Laurier to the premiership.

The principal speech of the day was delivered by E. M. Macdonald, Liberal member for Pictou, N.S., who supported the referendum. He denounced the government as hysterical, and pointed out that it had been converted to conscription between April 30 and May 16, 1917. He more than intimated that the bill was simply a move in the game of party politics.

Clarence Jameson, Conservative member for Digby, spoke briefly in favor of conscription, while vigorous anti-conscription speeches were delivered by Messrs. Lanctot (Conservative), Napierville, Descaerres (Jacques Cartier) and Mondou (Yamaska). Mr. Mondou not only opposed the government policy on the conscription issue, but shook from his feet the dust of the Conservative party, and followed Mr. Achim into the Liberal ranks. Mr. Lord Thomson, Liberal member for Qu'Appelle, declared himself strongly in favor of conscription, but said he would vote for the referendum, as he had always been a believer in the principle of "direct legislation."

A vote will be reached tomorrow on the Burrette amendment moving a six months' hold on the Laurier amendment proposing a referendum, and on the second reading of the bill.

Before resuming the debate, the house, by unanimous consent, voted sufficient interim supply to pay all the expenses of the government until September 1.

"That should keep the government going until the closing days of the session," said a Conservative member.

(Continued on Page 10, Col. 1).

### FOE HASTILY RETIRES IN AFRICAN THEATRE

**Germans Give Up Strongly Fortified Ground South of Ngaura River Under Pressure of British Advance.**

London, July 4.—Under the pressure of British forces advancing from Kilwa, the Germans in German East Africa have evacuated strongly-held positions south of the Ngaura River, says an official statement issued tonight. The positions extended from Kimamba Hill, on the shore of Beaver Bay, to Makanganga, and the Germans retired a distance of from seven to nine miles.

The official report indicates a general retirement of the enemy forces in other fields of operations in German East Africa.

### U-Boat Shells Port in Azores

Ponta Delgada, Azores, July 4.—A German submarine bombarded this city at dawn today. A girl was killed and several other persons were injured. The fortifications replied to the bombardment.

### RUSSIANS MAKE MANY PRISONERS

**Petrograd Reports Taking of Over Eighteen Thousand Captives—CAPTURE GUNS ALSO**

### Austrians Admit Falling Back Before Onset of Ally.

London, July 4.—In the fighting of Sunday and Monday, 300 officers, 15,000 men, 29 guns and 25 machine guns were captured by the Russians, the war office announces.

The statement reads:

"In the direction of Kovel (Volhynia) there was artillery firing.

"In the direction of Zlochoff (Galicia) our scouting parties in the region of the Village of Godoff captured 11 German machine gunners. An attack by one of our storming groups did not materialize. Enemy counter-attacks in the direction of the Village of Mieczyslaw were repulsed by our fire and machine gun fire.

"According to a preliminary estimate of superior numbers on Monday we captured 300 officers, 15,000 men, 29 guns and 25 machine guns.

"Caucasus front: During an engagement we captured the Village of the withdrawal of Austrian forces under pressure of superior numbers on limited portion of the front in Galicia is announced in today's war office statement. Russian attacks near Kontulny were repulsed and the Russians were compelled to cease their assaults at Brestany, the statement declares. The text reads:

"Eastern war theatre: On the Stokhok feebly attacks were repulsed. "South of Zboroff the enemy, with the use of superior forces succeeded in pushing back a limited portion of our front towards the prepared supporting position. In engagements involving heavy sacrifices the Austro-Hungarian troops have been retiring only step by step against the pressure of superior forces and thus have enabled the Russians to intervene here for the restoration of the situation. Further attacks were not undertaken."

### FRENCH CAPTURE STRONG SALIENT

**Ally's Troops Turn Tables on Enemy Near Cerny.**

### Forces of France Maintain Ground Against Liquid Fire.

Paris, July 4.—The official communication issued by the war office tonight reads:

"The enemy violently bombarded our lines today, particularly in the region of Pantheon, La Royer, in the neighborhood of Hurléville and on the Vaulcroix plateau.

"It is confirmed that the German attacks last night which developed along a front of about seventeen kilometers cost the enemy exceptionally heavy losses without bringing him either gain of ground or prisoners. Everywhere else we have completely maintained our positions.

"The Germans have not renewed their attempts, but on the contrary we have carried out east of Cerny a detail operation which enabled us to capture a strong salient held by the enemy.

"On the left bank of the Meuse three successive attacks, accompanied by jets of liquid flame, directed against our trenches south-west of Hill 294, were repulsed. The artillery fighting continues very spirited in this region.

"Belgian communication: There was slight activity on the part of the enemy artillery in the sector of Steensstraete-Het Sas. In the region of Ypsgale intense artillery duels occurred. Last evening an enemy airplane was brought down in an aerial combat by one of our machines and fell within the enemy lines south of Dixmude."

"Eastern theatre, July 3: There was lively action by both artilleries near Maydag, Monastir and between Lakes Ochelida and Frosba. An enemy airplane was brought down by our cannon near Lake Doiran."

### CANADIAN FIRE DISPERSES FOE RAIDING PARTY

**Artillery Activity Becomes Spasmodic on Dominion Troops' Front.**

### HUN MORALE WORSE

**No Man's Land Has Moved Thousand Yards Nearer Lens.**

(By Stewart Lyon).

Canadian Headquarters in France, Wednesday, July 4, via London.—The enemy raised one of our advanced posts in the flooded area to the south of the Souchez River last night, inflicting a few casualties among the fighters. Our artillery fire was promptly let loose upon the raiders, causing a hurried retreat.

Elsewhere in the region occupied by the Canadian corps the artillery activity has become somewhat spasmodic. At times, however, it is extremely violent, reaching drum-fire intensity. It has been noted that the enemy fires of this activity more quickly than do our gunners; and that after these outbursts his fire sinks to sub-normal proportions.

No Undamaged Houses.

In the important mining centre of Lens and Levins in the Canadian zone, it is doubtful whether there is a single undamaged house to be found. In view of the contrast between the houses and the grounds surrounding them is startling. Near Bois de Rumont yesterday the correspondent came upon a garden behind a mansion torn to tatters by the shells of both armies—in which roses still bloomed profusely, the overgrowing with their perfume the tainted atmosphere of the adjacent battlefield. Not only were the shrubs and flowers uninjured, but strawberries, raspberries and currants which had matured in this deserted garden, which was until recently out in "No Man's Land," were to be had for the picking. A week ago no one could

(Continued on Page 15, Col. 8).

### RECIPROCAL PLAN IN CUSTOMS LAWS

**Shipping Arrangements Between Canada and U. S. Are to Be Facilitated.**

### STEP WAR MEASURE

**Regulations Understood to Have Been Issued at Ottawa and Washington.**

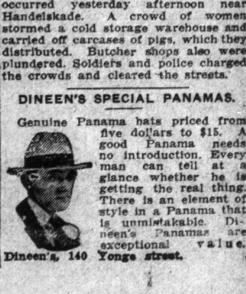

### Food Profiteers' Strongholds Stormed by Dutch Women

Amsterdam, July 4.—Further rioting occurred yesterday afternoon near Handedskade. A crowd of women stormed a cold storage warehouse and carried off cases of eggs, which they distributed. Butcher shops also were plundered. Soldiers and police charged the crowds and cleared the streets.

### DINEEN'S SPECIAL PANAMAS.

Genuine Panama hats priced from five dollars to \$15. A good Panama needs no introduction. Every man can tell at a glance whether he is getting the real thing. There is an element of style in a Panama that is unmistakable. Dineen's Panamas are exceptional value.

Dineen's, 140 Yonge street.

# COALITION TALK AGAIN SET GOING AT OTTAWA

## Prominent Western Liberals and Hartley Dewart, M. L. A., Believed to Be in Consultation With Borden.

Ottawa, July 4.—A number of prominent Liberals are here today and again busy with rumors of a coalition government. They include Hon. Arthur Sifton, premier of Alberta; Hon. J. A. Calder, minister of railroads and highways in the government of Saskatchewan; Hon. A. B. Hudson, who lately resigned as attorney-general of the North government in Manitoba, and H. Hartley Dewart, K.C., M.L.A., of Toronto. It is assumed that these gentlemen are at least in consultation with the prime minister, and that some, or all of them, may be invited to join the government. No announcement, however, is anticipated until after the division on the conscription bill.

# NIGHT OFFENSIVE OF ENEMY FAILS

## Germans Undertake Powerful Attacks on French Lines.

Paris, July 4.—This afternoon's official announcement follows: "Late yesterday the Germans undertook a powerful offensive action, which was prolonged all night, against all our positions north of Joiny as far as to the east of the Calonne plateau. On this long front they made violent attacks repeatedly with large numbers of their special assaulting troops. Their efforts were directed principally east of Froimont farm, west and southwest of Cerny, north of Ailles and also against the Calonne plateau. "The repulse of the enemy was complete, and his losses were very heavy, especially in the region of Cerny and on the Calonne plateau. His main assaults were almost entirely routed by our fire. At certain points where the Germans were able to gain a footing at the first shock, victorious counter-attacks drove them back, and they were not able to hold a single metre of our positions. "Surprise attacks against our small posts in the sectors of Saignes and Vaucouis were repulsed. The artillery was very active in the region of Hill 304 (Verdun front). "Today's German official statement says: "The French attacked east of Cerny and twice succeeded in capturing small sections of trenches, but were later driven out and considerable numbers taken prisoners."

# RUSSIAN TORPEDO BOAT IS DESTROYED BY MINE

## Accident Happens to Old Type of Craft in Black Sea.

Petrograd, July 4.—A Russian torpedo boat of an old type was blown up by a mine in the Black Sea on July 30, according to an official statement made today.

# WAR SUMMARY THE DAY'S EVENTS REVIEWED

HAVING completed one phase of their operations in eastern Galicia, the Russians are preparing for another, just as the allies do on the western front. The Austrians admit that they had to go back again on a section of their front south of Zboroff. Their version is that in engagements involving heavy sacrifices the Austro-Hungarian troops have been retiring step by step against the pressure of superior forces. The news that the Russians in their latest assault scored on the enemy at a point south of Zboroff is illuminating, for it shows a considerable penetration of the enemy's line and progress of a turning movement on Zboroff. The Russian pressure is chiefly against Brzezany in a movement to get behind the town. "The scope of the Russian offensive of necessity remains concealed. Correspondents on the eastern front send despatches asserting that the battle now joined will last for a considerable period of time and Russian army orders speak of it as an offensive to obtain a decision. It is extremely doubtful whether the enemy weakened his eastern front very much. Much has been said about the paralysis of the Russian military organization, brought about by the revolution. As a matter of fact, however, the revolution came at the best possible time to enable the allies to rush forward the Russian reorganization in time for this year's campaign. The Germans are preparing the popular German mind for the continuance of Russian attacks. "A further decline in the sinkings by submarines is shown in this week's admiralty return of the British shipping destroyed in the past week. The U-boats or the mines which they dropped sank 15 ships of over 1600 tons and five of under that burden. They also sank 11 fishing vessels. The submarines unsuccessfully attacked 16 ships. Last week 21, and the week before 27 large vessels went down before the onset of piracy. The satisfactory slump in the submarine war shows that the enemy cannot maintain his maximum spurs long enough to inflict lasting damage on the merchant fleet and it proves that whoever loses the first big encounter on the sea, as on the land, has no hope of retrieving his fortunes during the course of the war. The first big victory of the British navy was won without the firing of a gun, but it was one of the decisive events in the history of the world. "The speech of Lloyd George, hinting that the allies might consent to make peace with a democratic Germany, has already had its effect on the enemy, for the Conservatives, the hard-shell Prussian squires and nobles, have joined the Socialists in the issuing of a manifesto to the German people and government to demand reform of the franchise, as promised by the chancellor. This prompt half-compliance with the suggestion of Lloyd George shows that the German, ruling class, like the German army, see that Germany can no longer win the war and is going under. "Extension of the franchise would, however, not democratize Germany. Only the banishment of the Hohenzollerns, the material manufacturers, and the noble and ignoble lordings would suffice to convince the world that German popular repentance was real. "A German air raid on Harwich, England, yesterday caused the death of 11 persons and the injury of 36. Of the dozen or so airplanes employed by the enemy, two were destroyed in British aerial attacks and another was damaged. All the British airmen who went up to engage the enemy returned safely from the fighting. "About the only incident on the Canadian front yesterday was a raid of the Germans. The Canadian guns turned a barrage on the uninvited visitors and speedily made them scurry back to their own dugouts. The artillery fire on this front has become spasmodic and erratic and the Germans in this work show less power than the Canadians. Stewart Lyon reports that demoralization is spreading through the German army owing to the British superiority and the growing belief that Germany cannot win the war.

# U.S. ENTRY CHECKS LEAKAGE TO FOES

## Lord Milner Admits That Germany Has Imported Foodstuffs.

### NEUTRALS HELP HUNS

#### Enemy Still Obtains Some Supplies From Adjacent Countries.

London, July 4.—Discussing in the House of Lords today the question of commodities reaching enemy countries thru neutrals, Viscount Milner, member of the war cabinet, referred to America's entry into the war as considerably checking this leakage. He expressed the conviction that the importation into Germany of commodities from neutral countries, which had previously been imported into that country, had been completely stopped by the blockade and the pressure the allies had been able to exert on the neutrals. Undoubtedly, he said, the neutrals still export to Germany, but it was entirely the neutrals' own business. "While the allies were exerting all possible pressure to prevent this export, said Lord Milner, it was impossible to prevent it altogether, even if it could be made less different tomorrow, it was Germany that was commonly supposed, and would have far less effect in tightening the straits of Germany than would have been the case if reaching overseas commodities from neutral countries.

# BRUGES PORT BOMBED BY BRITISH AVIATORS

## Raiders Drop Explosives on Ammunition Depots at Lichtervelde.

London, July 4.—During Monday night and Tuesday morning bombing raids were carried out on the docks of Bruges, Belgium, and on the ammunition depots at Lichtervelde, 13 miles from Bruges, by the Royal Naval Air Service machines, according to an official statement issued today. "Several tons of bombs were dropped in all and good results observed," continues the statement, which says all machines returned safely.

# CONFERENCE ON FOOD

## Winnipeg, July 4.—Executive committee of the board of grain supervisors of Canada leave here for Washington Thursday night for conference with the American food administrator and others. From Washington they go to Toronto and Ottawa to receive evidence of bakers and labor interests.

# SOLDIERS NAME CANDIDATE.

Regina, Sask., July 4.—At a largely attended meeting of the Regina and district branch of the Great War Veterans' Association held tonight, the name of Major E. J. Aanton, of the Military Hospitals Commission was unanimously accepted to be suggested to the men overseas as one of Saskatchewan's candidates under the soldier's representation bill of last session.

# HOLLWEG TO SPEAK

## London, July 4.—Dr. Von Bethmann-Hollweg, the German imperial chancellor, will deliver an important speech in a report received at Copenhagen from Berlin by the correspondent of the Exchange Telegraph Company.

# OSHAWA BREEDER TRIUMPHS

## Calgary, Alta., July 4.—L. O. Clifford, of Oshawa, Ont., won the first and two championships at the live stock fair here. The Curtis Co., formerly of Kentucky, but recently moved into Alberta, with a large herd, captured four firsts and three championships.

# CHARGED WITH THEFT

## Hamilton, Thursday, July 5.—On a charge of stealing a bicycle Joe Rosen, 208 John street north, was arrested last night by Detectives Shirley and Smith. The complainant is Tony Denaro.

# ALLEGED MOTOR THIEF

## Hamilton, Thursday, July 5.—Alleged to have stolen a motor car Joseph Clario, 114 Victoria street north, was taken into custody last night. J. Ridge is the complainant.

# ARRESTED ON LIQUOR CHARGE

## Hamilton, Thursday, July 5.—The arrest occurred here last night of T. Derocet, proprietor of a saloon on Queen street, on a charge of having committed a violation of the Ontario Temperance Act.

# THE MEANEST MAN

"I have spotted another 'meanest man'." It was the fat plumber who spoke, as the Youngstown Telegram relates it, "Who is it this time?" the thin carpenter, "Umson." "What's Umson been doing?" "He took me to dinner with him in a swell hotel the other evening." "Do you call that mean?" "No, but I have finished his little square of cheese." "Uh huh." "Placed it on a silver dollar to get a perfect impression of it." "And then?" "I left the impression in his plate so the waiter would think he was getting a fine tip."

# RAINBOWS

The time of day or the state of weather when a rainbow appears is believed by many people to be an indication of future weather conditions. According to an old rhyme, a rainbow in the morning warns the shepherds to be prepared for rain shortly; an evening rainbow points to fine weather the next day. Sailors believe that a rainbow in the wind is a sure sign of a squall. If it comes in the opposite quarter the rain will soon stop. Again, if in fair weather a rainbow be seen foul weather will appear in foul weather fair weather will be at hand.

# MANCHU DYNASTY WILL NOT LAST THREE WEEKS

## Military Leaders and Newspapers Denounce Restoration, and Trouble is Brewing

Tientsin, July 4.—Prominent Chinese here believe that the restoration will not last three weeks. Tuan Chi Jul, the ex-premier, who is still the strongest military leader opposing the restoration, has been promised support by Vice-President General Fong Kwong-chang and the military governor of Shantung. Although the Chinese are locally displaying the imperial emblem there is no enthusiasm. All the local papers denounce the restoration. Newspapers printed in the vernacular are practically unanimous in denouncing the restoration of the Manchu dynasty. They predict it will be short-lived, saying the whole country will rise against Emperor Hsun-Tung and General Chang-Hsun.

It is generally believed that the navy will support the republicans, while the local military and civil authorities are also proclaiming the republic and opposing the monarchy, but this may be for the purpose of preserving the status quo in Shanghai. It is believed that the restoration's plans are deeply laid and that the military governors are really supporting the restoration.

# ALLIES NEED AID SOON FROM UNITED STATES

## Sir William Robertson Addresses American Society Banquet.

London, July 4.—Sir William D. Robertson, chief of the imperial staff, Lt. Hon. Arthur Balfour, and Rear-Admiral Dudley de Chair were the principal speakers at the banquet of the American Society tonight, which was the culminating event of the independence day celebration in London. General Robertson emphasized the immediate need of help from the United States. Secretary Balfour spoke respectfully of the separation of the English-speaking peoples 140 years ago today. Admiral de Chair paid tribute to the zeal, energy and helpfulness of the American navy, now in British waters.

# LIEUT. ROWAT KILLED

## Montreal, July 4.—Lieut. Thomas Alexander Rowat, of St. Lambert, Que., was killed in action on June 28, according to advices received here today. Lieut. Rowat was a native of Winchester, Ont., son of Rev. Andrew Rowat and Mrs. Mary Rowat. Previous to his enlistment he was business manager of a Cobalt concern. He left Camp Borden last November with a western unit.

# Bowes, Jamieson and Company Estate Sold Under Mortgage

Hamilton, Thursday, July 5.—For the sum of \$200,000 the estate of the late Bowes Jamieson & Company was sold under mortgage by Judge Gault yesterday. The property was sold for \$100,000, which was taken by the Queen's Bank before it was taken by the Royal Bank. The property consists of the buildings and grounds running back to King William street.

# Ten Thousand Dollars Asked for Alleged Malicious Prosecution

Hamilton, Thursday, July 5.—As the result of being acquitted by Judge Gault of a charge of theft of \$100,000, the plaintiff in the case of the late Bowes Jamieson & Company, has asked for \$10,000 for alleged malicious prosecution. In the former action the complainant claimed that the goods had been sold to the defendant.

# Motor Car Driver Goes to Trial on Charge Criminal Negligence

Hamilton, Thursday, July 5.—Harold Hammond, the driver of the motor car which was involved in the collision last week and broke his arm, appeared in court yesterday before Magistrate Jelfs and pleaded guilty to criminal negligence. His worship stated that he could not deal with the charge of criminal negligence, and a higher court had disposed of the first charge.

# Hamilton Works Department Will Exceed Legal Estimates

Hamilton, Thursday, July 5.—The appropriation of \$500,000 for the works department was made known shortly after 7 o'clock. The morning was dull and heavy, the coast being obscured by a slight mist. Shortly after the warning was given anti-aircraft guns came into action, and almost simultaneously the explosion of bombs in different areas was heard.

# Walter R. Rollo, of Hamilton, Thinks General Strike a Dream

Hamilton, Thursday, July 5.—That the plea of J. C. Walters, president of the Trades and Labor Congress of Canada, calling for a general strike thruout the country to enforce the conscription of wealth when the conscription of men is decided upon by the government is a socialistic dream that can never be realized, is the opinion of Walter R. Rollo, president of the Independent Labor Party of Ontario.

# Gradmother Brings Action to Recover Soldiers' Insurance

Hamilton, Thursday, July 5.—Claiming \$600 insurance which the plaintiff alleges was stolen from her in November, 1916, Susan Malone, thru her solicitor, has commenced action against the city. Two months were the latest the supreme sacrifice the soldier made a will leaving his personal belongings and estate, including the \$600 insurance, to his grandmother, plaintiff in action. It is also alleged by the plaintiff that the city refused to pay her claim for the \$600 when presented.

# SQUEEZE OTTAWA AND CORNWALL OUT

Ottawa, July 4.—Up to practically midnight the Ottawa Lacrosse Club executive was undecided whether or not to play the game today, a fixture in Montreal with Shamrock unless a commensurate offer of a return game is given by the Shamrock. The executive committee tonight reported an attempt was made to get in touch with Joe Lally, but up to midnight the matter was unsettled. Rumor that is in circulation here is that the Shamrock, Shamrock and Shamrock brought about the present N.L.C. crisis for the purpose of squeezing Ottawa and Cornwall from the league, because they were not big drawing cards.

Portrait of a man in a military-style hat, likely a general or official mentioned in the text.

# DINEEN'S SPECIAL PANAMAS \$5 TO \$15

Dineen's have special purchasing facilities for acquiring men's hats of every style and variety. Panama hats are in a distinct class when exceptional quality is sought. A hatter must not only know the hat, but where to get it right.

VARIETIES IN PANAMAS: Telescope with pencil brims, Flat crowns with flange brims, Alpine with pencil brims, Fedoras with flange brims

Coming from the Dineen store is, in itself, a guarantee of quality. But you have the "Genuine Panama" guarantee on every hat as well.

# DESTROY GERMAN RAIDING PLANES

## (Continued from Page 1).

This morning, a number of bombs were dropped and the latest reports state that eight persons were killed and twenty-two injured. Only slight material damage was caused. "Fire was opened from the anti-aircraft defences and the enemy's formation was broken up, although the following clouds rendered the visibility very bad. Ten raiders also were engaged by our own aircraft from a neighboring station. "After dropping their bombs the enemy's squadron turned seaward without attempting to penetrate inland. The whole raid only occupied a few minutes.

# Returned Soldiers to Be Instructors

## Preparations Under Way at Hamilton to Provide Employment After Conscription.

Hamilton, Thursday, July 5.—For the purpose of completing arrangements for conscription courses for the local militia regiments, 13th and 21st, Lieut. D. D. McLeod, of the headquarters staff, arrived in the city yesterday. Classes of members from both units will be commenced shortly under the supervision of Lieut. McLeod, who will be assisted by Sergt. F. Harminah, of the school of military instruction, Camp Borden. "Preparations are already under way to provide employment for returned soldiers as instructors, in the event of conscription, and with this object in view three officers have been visiting all the conscript homes during the past few days, interviewing the returned men to see just how many will be fit and willing to undertake the work when the time comes. This work is being carried out under the instructions of military headquarters, as General Logie has for some time been a strong advocate of employing returned men to as great an extent as possible and this appears to be the first real opening in this district to employ them in any large numbers.

# Gas Well Having Million Feet Daily-Flow Struck in Seneca

Hamilton, Thursday, July 5.—With a flow of at least 1,000,000 feet of natural gas per day a well has been struck by the National Gas Company on the farm of William Pettigrew, in Seneca Township. Officials of the company are of the opinion that this is a prospect of discovering similar wells in the same vicinity and it so the gas troubles of the citizens are practically over. About \$20,000 has been spent or will be spent in the drilling operations, and it is stated that the company believes that by fall it will be able to carry out the terms of its franchise with the city, which calls for it to supply a minimum of 2,000,000 feet of gas daily.

# Magistrate Jelfs, Hamilton, Gives Opinion on Obtaining Evidence

Hamilton, Thursday, July 5.—The Hamilton Brewing Association was in court yesterday on a charge of selling lager beer that carried a punch as high as three and one-half per cent. License inspector James Sturday was the complainant and several government men gave evidence. In dismissing the case Magistrate Jelfs stated that the government should perfect its system of obtaining evidence and that every barrel of liquor should be tested on the premises by a government employee before it could be sold over the counter.

# BOY'S BODY RECOVERED

Mitchell, July 4.—The body of the 7-year-old Riddle boy, drowned in the Thames River here last Sunday, was recovered by grapplers late last evening. It was found about 400 feet from the spot where the boy was drowned.

# SECOURS NATIONAL HAMILTON TAG DAY

## Arrangements Being Made for Big Appeal for French War Sufferers.

Hamilton, Thursday, July 5.—The Secours National yesterday afternoon completed preliminary arrangements for the holding of a tag day on July 14, the occasion of the French national holiday, and the day, chosen by the British Red Cross Society to obtain a cash testimony of the empire's regard for France. The amount raised from Hamilton will be decided upon at another meeting. "Sir John Gibson presided, and made an urgent request to those present to put forth their utmost efforts to secure funds for the relief of French war sufferers. "George C. Coppley and Russell T. Kelly were appointed to arrange for a systematic canvass. E. D. Green was appointed chairman of the publicity committee, and George E. Martin and C. W. Graham, lists committee. C. G. Caracellan and H. Marsh will assist the women.

# OFFICES CANADIAN MORTGAGE BUILDING

## Light and Air on Sides

Within 100 feet of Yonge Street, but sufficiently distant to be free of the noise of the street traffic, this Building is in the centre of the business district of Toronto. In construction, equipment and arrangement it is equal to any Office Building in the city. Apply to McArthur Building, Room 25. Or to the Company's Offices.

Square Trunks, covered with waterproof canvas, have wood slats, metal corners and metal protectors, cowhide straps, iron bottoms, fancy lining and trax. Reg. \$2.25, \$2.50, \$2.75, \$3.00, \$3.25, \$3.50, \$3.75, \$4.00. Friday, \$2.75.

—Basement.

### The "Binner" Corset and Some of Its Many Merits

Ingenuity of Designing Makes Possible the Correct Fitting of All Figures.

THE CORRECT CORSET! What does it not mean to women desirous of having a comely figure, possessed of natural poise? And in these days of scientific corsetting it is possible to have that so much in demand by all femininity.

Miss Burrell, an extremely clever corsetiere, will prove to women how simple a matter it is to be correctly corsetted—and how delightful, with the aid of the famous "Binner" corset—at any time during the day in the Women's Corset Department. It is wise to make appointments by telephone in the morning, for Miss Burrell is well-known, and her visits eagerly awaited, therefore her time is much taken up. There are many models of the "Binner" corset, something for each and every individual figure. We mention two popular styles.

For the average figure is an attractive corset for summer wear, made low, but two inches above waist-line, with sufficient fullness for bust and shoulders; long skirt, wide rubber thigh inset, patent inside bone, which extra stays the waist-line. It is made of white French coutil, bound at top with satin. Obtainable in sizes 21 to 30. Price, \$6.00.

Women of short, full figure will find a splendid model in one of dainty brocade, which has rubber front insert, which keeps corset from slipping; normal waist-line without pressure, medium skirt and low bust. Particularly dainty with its trimming of pink satin ribbon and lace. Price, \$10.00.

—Corset Department, Third Floor, Queen St.

### For Modish Summer Wear—Misses' Frocks of Fine Serge

Imported Dresses of French Serge in Charming Designs.

FASHION has provided something wonderfully practical as well as modish in the serge frock for summer-time. The many cool evenings of Canadian summers demand just such dresses as these, whether it be for wear in city, at country home or at beach. And the practical mind of the twentieth century girl immediately realizes their possibilities for general wear in early autumn.

They are such attractive affairs, too, ranging in price from \$16.50 to \$42.50.

For the former figure a swaggar model may be had of a fine French serge, with trim coat, which is bound, so far as pockets, cuffs and collar are concerned, with black silk braid. It also boasts a colored flannel overcollar, a buckle on belt and row of black bone buttons. It may be had in navy, plum and black. Price, \$16.50.

A straight-line model is similarly priced, made with shoulder yoke, from which fall flat box pleats. A loose belt is attached; the two pockets on skirt are lined with brightly-colored silk, of which a like color thread fastens the buttons and forms its overcollar. Price, \$16.50.

With the quaint little jacket so suited to slight figures a frock is made smart, the wide armholes being saddle-stitched in bright color. The cuffs and base of pleated skirt are also thus adorned, while the collar is of white satin. In navy and black. Price, \$18.50.

A smart model appears in a beige shade, which has circular collar extending in roll style across shoulders, with flimsy over-roll of white Georgette; the belt and cuffs are adorned with bright touch of embroidery, and a row of self buttons adorns either side, fastening under arm. Price, \$32.50.

A charming frock, quite suited to afternoon affairs, is one of navy French serge, combined with lustrous black satin. The skirt, which is made on flowing lines, has sides of serge and broad, full panels of satin. The bodice is adorned with a fine lace collar. Price, \$42.50.

### A Few Items From Many Splendid Bargains

#### Women's Suits

Clearance of odd and broken lines in handsome tailored suits, made from the latest materials. French serges, tricotines, Polart twills and poplins. All our high-grade suits included in this offering, comprising beautifully tailored models, belted effects; all exceptionally well made and attractively lined with crepe de Chine. Colors navy, black, brown, green and grey. Friday, \$15.00.

Imported Silk Suits, Reg. \$32.50, Friday, \$25.00.

Silk Taffeta, Gros de Londre and Satin Suits—all imported models by leading New York designers; many are copies of Paris models, and show the smart touches of the designer. Beautiful collars and fancy detailing, belted and pleated effects. Many have contrasting trimmings on collar, cuffs and belts. Too many styles to describe individually; all are lined with silk. Colors navy, black, green, beige. Reg. \$35.50. Friday, \$25.00.

—Third Floor, James St.

#### Women's Underwear

Women's Camisoles, in half a dozen styles, some having yokes in front of embroidered organdy and lace insertion, with ribbon run across the front, others have yokes back and front of lace; other styles, Sizes 34 to 42. Reg. \$3.75, \$4.00 and \$4.50. Friday, \$1.88 to \$2.25.

Women's Envelope Chemise, of fine material, in dozens of styles, some have lace in front of fine Swiss embroidery and lace insertion, others having medallions of fine embroidered organdy outlined with lace insertion; others are plainer, and have a ribbon run across the front, giving the effect of lace yokes. All sizes in the lot. Friday, many less than half price, 98c.

—Third Floor, Queen St.

#### Women's Blouses

Crepe de Chine, Chiffon or Georgette Crepe Blouses; some have hemstitching on sailor collars and open front, trimmed with bead embroidery; others have touches of contrasting color in blue and white, flesh and white, or rose and white. Chiffon blouses are lined through out, showing vest and collar of white Georgette. All sizes in the lot. Reg. \$5.00 to \$7.50. Friday, \$3.95.

—Third Floor, Yonge St.

#### Ribbons

Dresden Taffeta Ribbons, in floral patterns in color combinations for summer, shades, etc. Ground colors, white, pink, blue, maize, etc. Widths 6 to 7 inches. Reg. 50c and 75c yard. Friday, 35c.

Hat Bands of novelty ribbon, in stripes, fancy jacquard patterns, etc., in colors for outing hats. Each has a lassoed bow. Reg. 75c and 95c. Friday, 35c.

Hair Bow and Satin Ribbons, in taffeta and satin. Colors pink, sky, emerald, brown, white, etc. Widths 5 to 6 inches. For this item we cannot take phone or mail orders, the quantity being limited. Reg. 25c and 30c a yard. Friday, 15c.

Engerie Ribbons, satin finished with fancy jacquard pattern. Colors white, sky and pink. 5-8 inch wide. Friday, 7 yards, 25c.

—Main Floor, Yonge St.

### FACTORY FINISHED AND BUSY IN 20 DAYS

Chalmers' Production Now Forges Ahead in Big Temporary Building.

### FIRE SET-BACK OVERCOME

Care for Canada and Export Trade Again Being Built at Walkerville.

Walkerville, Ont.—The fine Chalmers automobile factory, recently gutted by fire, has been temporarily replaced by a new frame structure covering 21,000 square feet of floor space. Work was commenced shortly after the fire, on the new building, which was completed in twenty days, manufacturing operations being started and in full swing at the expiration of that brief interval. It is expected that with this new factory the plan for a tremendous manufacturing output scheduled for this year will be continued. The Chalmers field organization are congratulating themselves on overcoming so expeditiously the discouraging setback which the big fire caused. The new factory, while only of a temporary character, will, they anticipate, prove of great assistance to the parent organization in meeting the demand the public has been making for Chalmers cars in the past few weeks.

When interviewed concerning the

new factory, Harry S. Lee, president of the Chalmers Motor Company of Canada, whose optimism about the outlook for the Chalmers is enthusiastic, said: The worst feature about the serious setback caused by the holocaust of our fine Canadian factory was the time of its occurrence, coming as it did right in the midst of our busiest selling season. So far as the public is concerned, our difficulties are overcome with this large temporary plant. It is to be remembered that only a short interval has elapsed between the fire and the commencement of manufacturing and we have been able to continue in the meantime the Chalmers long-standing policy of prompt and thorough service to Chalmers owners, although for a time this entailed a tremendous unforeseen increase in the expense of operating the Canadian factory, due to the customs duties that had to be paid on parts manufactured in the Detroit factory. Now, however, work is in full swing and Chalmers' production for Canadian and export trade will be efficiently carried on, especially when the permanent factory, plans for which are now under way, is completed.

### TUBERCULAR HOSPITAL NEEDED.

Chatham Board of Health Feels Necessity for Good Institution in County.

Special to The Toronto World. Chatham, July 4.—That Kent County should have an up-to-date institution for the care of tubercular patients is the feeling of the Chatham Board of Health. Before a recommendation is made for the building of such a sanitarium Dr. T. L. McRitchie, local medical health officer, will compile figures relative to the number of patients who have been treated for consumption in the two local hospitals during the past five years. It is expected that the recommendation will be made.

### TRUMPET BAND FOR FLYING CORPS MEN

Training Has Commenced at Camp Borden and Good Results Are Expected.

Camp Borden, July 4.—Camp Bandmaster Lieut. John Slatter commenced this afternoon a trumpet band for the Royal Flying Corps, which promises to yield good results in a short time. The trumpeters of the army service corps are now playing harmonized calls like those played by the regular army in England and by the artillery brigade trumpeters last summer at Petawawa. The buglers and trumpeters have a delightful shady grove amid the pines and wild flowers.

The camp band is coming along well, and there is still room for two or three good cornet players. A fine trombone quartet has been formed, which plays with real artistic feeling. They performed at the Strand movie theatre this evening.

### Soldiers Are Sentenced.

Four soldiers tried by the police magistrate at Barris for absence without leave were each sentenced to six months with hard labor. They are: Pte. William Hodgkinson, 255th Battalion; Pte. Reginald Godfrey, 101st Battalion; Pte. Nathan Pife, 98th Battalion; Pte. Ben Dubson, 176th Battalion. Pte. S. Pepper, No. 2 Special Service Company, and Pte. Thomas Taylor, R.C.D., have been struck off as legally absent, and may be prosecuted as deserters. Lieut. H. H. Timmis, 230th Forestry Battalion, C.E.F., was transferred

to the forestry and railway construction depot.

Flying Corps Wins. The Royal Flying Corps beat the forestry depot at baseball this evening on the R.F.C. grounds by a score of 19 to 3.

In the scheduled outdoor indoor baseball games the Dentals won from the Army Medicals, score 9 to 5, and the sub-staff defeated the bombing school by 5 to 3.

### KITCHENER SLOWS UP.

Special to The Toronto World. Kitchener, July 4.—Building activity in this city is gradually slowing down. The total permits issued for June were 21, ten less than May. The total cost of operations for the past month is \$14,450, as compared with \$17,255 for May. The custom returns showed a marked increase over the same month for two previous years. They total \$111,618.85. This is due to a considerable increase in importations.

### CHATHAM BUILDING INCREASES.

Special to The Toronto World. Chatham, July 4.—A marked increase in building activity during the past month is shown by the report on building permits issued in the city during the past month. A total of \$150,000 is shown, or an increase of \$62,550 over the same period last year. The total amount of permits issued since January amount to \$186,445.

### ASKED TO RESIGN.

Special to The Toronto World. Brantford, July 4.—Major Gordon James Smith, second in command of the C.M.R. at Hamilton, has been asked by the Indian department at Ottawa to resign from the army to resume his work with the department as Indian superintendent here, where his services are greatly needed.

### CANADIAN CASUALTIES

Infantry. Killed in action: H. E. White, Gravenhurst, Ont.; Alfred Roussin, St. Anne, Man.; John E. Wainey, Winnipeg; John Hark, England; J. E. Thompson, Lewiston, Man.; W. J. Adair, Ireland; J. A. Rutherford, Winnipeg; Lance-Corp. Frank Daniel, Malia; Daniel Balczyk, Russia; Frank Walker, Missosauk, Sask.; Samuel Rodak, Winnipeg.

Died of wounds: Thomas Calk, Mount Dennis, Ont.; Duncan McLeod, Avonmore, Ont.; E. B. Barlow, Party Sound, Ont.

Missing: Corp. G. G. Dunne, Calgary; Lance-Corp. J. F. Watson, Calgary; T. E. Cottrell, Ottawa; Frank McManus, Sutherland, Alta.; John Monson, Mondak, Alta.; Acting Corp. G. H. Tripp, Huttonville, Ont.; Herbert Peterson, Berry Creek, Alta.; S. J. Sipe, Coar, Alta.; A. R. MacDonald, Edmonton; Wallace Roxburgh, Scotland; H. Campbell, Moupinian Park, Alta.; Norman Stenson, Fort Hope, Ont.

Wounded: R. C. Bennett, Summerland, B.C.; John Elyot, Scotland; G. O. MacLeod, Scotland; Wm. Bicket, Ireland; J. C. Morson, England; Acting Corp. J. G. Sweeney, Vancouver, 198-603; Nathan Wilkinson, 12 Berryman street, Toronto; Chas. Craigen, Deltonia, Alta.; H. G. McKinnon, Duluth, Minn.; Wm. McMorgan, Scotland; A. R. Coleman, York, Ont.; J. H. ### ARTILLERY

Wounded: Gunner T. C. Foster, England; 204 and Gunner Geo. Jolly, 228 Fairview avenue, West Toronto; 254 Bombardier Albert Jarvis, 254 Symington av. Brantford, Ontario. Previously wounded, now not wounded: Driver W. A. Costen, La. Salle, Que. He was E. J. Dunda, England.

### ENGINEERS

Wounded: Lieut. Wm. J. MacKenzie, London, England.

### TO PROVIDE CLUB HOUSE.

Special to The Toronto World. Brantford, July 4.—Brantford this week has given an opportunity of lining up behind the Great War Veterans' Association in their effort to raise sufficient funds to provide a home for the returned men. A tag day is to be held Saturday. The city council last evening voted \$600 to provide for a permanent secretary. A concert will be staged by the veterans in the armories Saturday.

### LADS GIVEN THREE MONTHS.

Special to The Toronto World. Guelph, July 4.—The three young lads who were arrested for the theft of \$210 from Miss Stout came before Magistrate Watt this morning. All three pleaded guilty to stealing the money, and his worship remarked that he hardly knew what to do with them, it being the sixth time they had been before him. He finally sentenced them to three months in the county jail at hard labor.

### Just Apply This Paste and the Hairs Vanish

(Helps to Beauty). A safe, reliable home treatment for the quick removal of superfluous hairs from your face or neck is as follows: Mix a stiff paste with some water and powdered detanate, apply to objectionable hairs and after two or three minutes rub off, wash the skin and the hairs are gone. This simple treatment is unfeeling and no pain or inconvenience attends its use, but to avoid disappointment be certain you get genuine detanate.

### WELCOMES NEW PASTOR AND MAKES PRESENTATION

Berkeley Street Methodist Church Bids Good-bye to Rev. W. F. Bowles.

Members of the congregation of Berkeley Street Methodist Church assembled in the church last night for the purpose of extending a welcome to the new pastor, Rev. Archie Wallace, and to bid farewell to Rev. Walter F. Bowles, who has occupied the pulpit during the absence of Capt. R. N. Burns who went overseas as chaplain of the "Pala" Battalion.

Judge Coatsworth presided and delivered an address of welcome to the Rev. Mr. Wallace. W. C. Wilkinson, on behalf of the board of the church, presented Mr. Bowles with a purse of gold as a mark of appreciation of his services.

Short addresses were delivered by Frank A. Bowden, Walter Duffell, John Pierson, V. Winnett, H. R. Adams, and J. D. Farquhar. A musical program and readings by Miss Emma Thompson added pleasure to the meeting. Refreshments were served by the "Busy Bees", under the direction of the president, Miss Bell Thompson.

### WHY WAIT?

When the happenings of the previous day can be learned from The Toronto Morning World, which is delivered before breakfast to any address in Toronto and suburbs or Hamilton and suburbs.

### GERMAN AGENTS FOMENT STRIKES

#### American Authorities Arrest Industrial Worker of World as Spy.

### GET MONEY FROM FOE

#### Berlin Government Thus Seeks to Check Coal Production.

Scranton, Pa., July 4.—With the arrest today of Joseph Graber, an organizer of the industrial workers of the world, charged with being a spy in the employ of the German Government, federal authorities declared their investigation had satisfied them that recent strikes and agitations of the I. W. W. in the anthracite coal regions had been stirred up by German agents. Graber, who was taken into custody by United States Marshal James S. Magee, was held without bail under the alien enemy act.

### DUTCH FIRE ON MOB

#### Killing Four Youths in Bloody Clash With Police.

Amsterdam, July 4.—Four youths were killed and nineteen persons injured when police and troops fired on a mob which was pillaging stores last night. The clash followed a parade of a large number of workmen thru the streets, contrary to police orders.

### FRANCE GLAD TO JOIN IN HONORING THE U. S.

Paris, July 4.—"The population of Paris, in saluting the American troops on July 4," says Le Temps, "will express the joyous confidence of the United States of America inspires us. Everyone will feel instinctively that victory is ours on seeing march by them these soldiers who have come so quickly from the country that sees everything on a large scale."

### STARS AND STRIPES FLYING IN LONDON

London, July 4.—By order of the King, the Stars and Stripes was flying from the Victoria Tower of the houses of parliament today, and also on all other government buildings, beside the Union Jack. Private buildings were decorated with the American flag as never before.

### GHATHAM EXTENDS CURRICULUM

Special to The Toronto World. Chatham, July 4.—The Chatham Board of Education, on the recommendation of an advisory board, has decided to inaugurate industrial day classes in the city. The classes will commence on Monday, July 9, and will be held in the central school.

### THAMES GIVES UP VICTIM

Ingersoll, July 4.—Search for the body of Miss Myrtle Petrie, the 19-year-old stenographer of Ingersoll, who was drowned from her canoe in the Thames River last Monday evening, was rewarded today when the body was found about 200 yards from the spot where she sank.

### SENTENCE BELGIANS TO DEATH

London, July 4.—A German court martial sentenced to death Mlle. Grandprez and her brother, both of Stavelot, Liege Province, Belgium, and caused them to be shot within 24 hours, says an English newspaper despatch from Amsterdam today.

### ARRESTED FOR TRESPASSING

Hamilton, Thursday, July 5.—Wasek Kudenski, who claims Windsor as his home, was arrested last night on a charge of trespassing on the Grand Trunk Railway.

### FALLS FROM LADDER

Hamilton, Thursday, July 5.—Joseph Fisher, 211 Macaulay street, an employe of the Hamilton Colton Mill, while climbing a pulley yesterday fell from a ladder and sustained injuries which necessitated his removal to the City Hospital.

### FOE TRIES TWO RAIDS AGAINST BRITISH LINES

#### German Artillery Becomes Active North of Scarpe River.

London, July 4.—The official statement from British Headquarters in France, issued tonight, reads: "Early this morning the enemy raided one of our posts south of Lens. On the one hand, as the result of another raid the enemy attempted east of Loos, four wounded prisoners were left in our hands."

### BIG ALLIED PARADE THRU RIO JANEIRO

#### American, British and French Detachments March Thru Town.

Rio Janeiro, July 4.—American, British, French and Brazilian troops marched thru the streets of Rio Janeiro today. President W. Braz, surrounded by officials, reviewed the troops, who were led by the American contingent. There were two Brazilian regiments, one British detachment and one French detachment.

### U. S. AMBASSADOR HOLDS RECEPTION IN LONDON

#### Two Thousand Persons Visit Embassy on Independence Day.

London, July 4.—Among the 2000 persons who attended the Independence Day reception at the American embassy in London today were the Marquis and Marchioness of Lansdowne, the Duke of Devonshire, the Viscountess Harcourt and the Countess of Essex. Prominent members of the American colony, members of the foreign diplomatic corps and a number of British officials and members of parliament also were present.

### AMERICAN TRANSPORT FIRES ON SUBMARINE

#### U-Boat Has to Leave Azores Port Owing to Actions.

Lisbon, July 4.—An American transport joined in the firing at the German submarine which bombarded Ponta Delgada, the Azores, today, says an official announcement by the Portuguese minister of marine.

### MONTREAL CUSTOMS INCREASE

Montreal, July 4.—Receipts from customs and inland revenue during the last three months in the Montreal district were \$14,487,876. For the same period last year the revenue was \$11,382,827.

### ANARCHIST BANDS WORRY PETROGRAD

#### Red Hundred Still Attempts to Foment Disorder in Army.

Petrograd, July 4.—Despite the incident of last Monday, when Cossack troops raided anarchist headquarters and arrested a large number of the occupants, who are now under guard in the winter palace, small bands of anarchists still continue their attempts to inflame the soldiers against the executive government and to persuade the regiments in Petrograd to march against Marinsky Palace and forcibly remove the representatives of the government.

### RAILWAYMAN INJURED AT THE DON STATION

#### Hit by Engine While Crossing Track and Had Both Legs Severed.

Peter Vanely, 15 St. Paul street, had one leg severed at the knee, the other just above the ankle, yesterday afternoon when he attempted to cross in front of a C.P.R. train at the Don Station. He was removed in the police ambulance to St. Michael's Hospital and his condition is regarded as critical.

### NAOUM ENQUIRY AGAIN ADJOURNED

#### Witnesses at Coroner's Inquest Describe Events Preceding Alleged Assault.

Four witnesses testified at the adjourned inquest at the morgue last night into the death of Taly Naoum, who died on Sunday morning at St. Michael's Hospital in a fight near all Both avenue late Saturday night. Another adjournment was made until Monday next. The feature of the evidence was that the dead man was unknown to Mrs. Alice Stocks or her daughter Gladys, and he had not made any insulting remarks to the latter.

### PLAYGROUND REQUIRES DRINKING FOUNTAIN

#### Thirsty Children Besiege Neighboring Stores and Residences From Morn Till Night.

The need for a drinking fountain for the children using the Earlscourt playground at the corner of Earlscourt and Hope avenues is increasing daily. Many complaints are being received by the members of the district ratepayers' association in this regard, and the matter has been brought to the attention of the parks department without any satisfactory result.

### FINED FOR BAD CONDUCT

#### Two Men Convicted of Disorderly Behavior in Agincourt.

County Constables Hobbs and Shadlock on Monday afternoon arrested William Morrison and Arthur Manner, two city men, charged with being drunk and disorderly on the streets of Agincourt.

### ATTRACTION FOR L.O.L. PARADE

#### Model of Famous English Manor House and Grounds.

One of the chief attractions of the forthcoming Orange parade will be a working model of an old English manor house, kindly lent by the builder, Chas. Day, Greenlaw avenue, Earlscourt.

### KIDNAPPING CHARGE AGAINST RUSSIAN

#### Mother Decamps With Roomer and Then Little Girl Disappears.

Had Felix Poltorak not been so solicitous concerning the welfare of certain personal belongings he had left at his late rooming-house, 169 Muttal street, and called into detective headquarters yesterday afternoon and lodged a complaint against Edward Roberts, he would not have been arrested on a charge of kidnaping four-year-old Georgina Roberts from her home.

### ORANGEMEN ARE ARRANGING FOR USUAL PARADE NEXT WEEK

Orangemen of Toronto will celebrate the glorious 12th with the customary parade. Secretary Wm. Lesloger, who has completed arrangements and anticipates that the celebration this year will be conducted with the usual success. The procession of members of the various lodges will start from Queen's Park at 10:30 a.m. and will proceed to the Exhibition grounds by way of Grosvenor, Yonge, Albert, James Queen and Dufferin streets.

### INJURED BY A NAIL

Seven-year-old Larney Hobburn, 96 Oxford street, met with a peculiar accident when he fell on a nail on the street near his home yesterday afternoon and tore a bad gash in his abdomen. He was removed to the Western Hospital.

### PARISH CHURCH DAMAGED

St. Jacques L'Archeveque, Que., July 4.—Fire last night did damage to an estimated total of \$50,000 in the parish church. The steeple of the church collapsed.

### STRUCK BY AUTOMOBILE

Oiga Kulhay, 233 West Richmond street, sustained injuries to the head and face last night when struck by a motor car at Queen and John streets. She was removed to the Hospital for Sick Children in the police ambulance.

### PORT CREDIT COURT RAKES N SHEKELS

#### Collects Five Hundred Dollars in Fines From Auto Speeders.

Ex-Mayor Joseph Oliver was among the 45 violators of the speed law, and yesterday fined \$5 and costs at Port Credit by Magistrate G. W. Gordon for speeding on the Toronto-Hamilton highway. The prominent Torontonians who were able to fit the coffers of the court were: A. O. Beardmore of the Bannock Belling Co., F. W. Tanner of Tanner & Gates, real estate brokers; P. L. Foy, 32 West Front street; W. E. Sterling, 24 Spadina road, and Dr. Allan Brown, 423 Avenue Road.

The fines, which aggregated almost \$500, were not all paid in court, and Magistrate Gordon threatens to show no more mercy to delinquents, and that he will issue warrants if the fines are not speedily brought in. He mentioned Hamilton citizens as being the worst offenders, and told Constable Henderson to begin on Friday and send out warrants for their arrest should they fail to pay up.

Being sued to it. Hamilton woman living at 205 Herdimer street, appeared on her fourth offence and was fined \$5 and costs.

J. F. Radigan, 183 Wentworth street, Hamilton, appeared on the second offence and was fined \$5 and costs. The law is handed out with an eye for an eye, and a demonstration when R. H. Lush of Clarkson, a member of the highway commission, was fined \$5 and costs for exceeding the 40 miles per hour limit.

For passing a car without stopping cost W. Y. Sterling \$5 and costs. He vigorously protested that he was not guilty, but the magistrate said: "I am going to appeal to a higher court," said Mr. Sterling to the magistrate.

Motorcyclists also been caught speeding on the highway. One was fined \$10 and costs. The case against R. J. Geayford, 70 Eaton avenue, charged with speeding, was referred to the court by Magistrate Clayton Peterson, John Jackson, 12 Lansdowne avenue, for reckless driving, and George H. Gooberman and Wortel, 1361 Bayview street, for exceeding the 40 miles per hour limit.

### MOTHER DECAMPS WITH ROOMER AND THEN LITTLE GIRL DISAPPEARS

Had Felix Poltorak not been so solicitous concerning the welfare of certain personal belongings he had left at his late rooming-house, 169 Muttal street, and called into detective headquarters yesterday afternoon and lodged a complaint against Edward Roberts, he would not have been arrested on a charge of kidnaping four-year-old Georgina Roberts from her home.

According to the police, Poltorak, who hails from Russia, had been rooming at the late rooming-house, 169 Muttal street, and about a week ago suddenly left for parts unknown. Mrs. Margaret Roberts disappeared about the same time. Early this week Poltorak returned to the city, visited the Roberts place, and calmly requested his possessions from Mr. Roberts. Roberts, however, refused to give them up, and asked where his wife was. Poltorak professed ignorance of Mrs. Roberts whereabouts, and said that he had just returned from Montreal. Roberts, however, did not believe his story, and informed the police of his wife's flight and his suspicions concerning Poltorak.

Enquiry of the three remaining children elicited the information that Poltorak had taken her away.

### PORT CREDIT TAX RATE

As the estimates were not tabled, the Port Credit council did not strike the tax rate at their regular session, but will hold a special meeting for that purpose. The rate will approximate that of the city.

### SOMEbody'S PIGEON

Yesterday afternoon a pigeon flying in a northerly direction struck the roof of J. Kenel's, 58 McFarlane avenue, Earlscourt, and fell to the ground dead. The inscription on a ring attached to the bird was A.E.H., 1815, 64.

### LONG BRANCH SQUADRON ADVANCED IN TRAINING

#### Capt. Sherren's Command Moving to Armour Heights With Eighteen Biplanes.

On Friday the flying squadron now at Long Branch, under Captain P. C. Sherren, C.E., will move to Armour Heights, where the new aviation camp is located. The reason for the move, Captain Sherren stated to The World, is that the squadron has reached a higher stage of training. A dozen Curtiss biplanes will be added to the squadron, making a total of eighteen flying machines.

Captain D. A. Piek, who was yesterday promoted to the rank of lieutenant, will replace Captain Sherren as C.O. of the Long Branch camp, which will still be kept as a primary training school for aviation.

Two successful flights from Long Branch to Camp Borden were yesterday made by Cadets Blakey and Davidson. They left at 8 a.m. and returned without a mishap at 2 p.m.

Captain P. C. Sherren has been notified that he will receive a bar to his Military Cross, which he won for distinguished service in the flying service in France. He is a native of Cranford, P.E.I., and joined the flying service in 1914, at the outbreak of war. In December, 1916, Capt. Sherren was wounded, and upon recovering his health entered into the aviation training school at Reading, England. He went to France with a flying squadron, and was awarded the Military Cross, was sent to Canada.

### FINED FOR BAD CONDUCT

#### Two Men Convicted of Disorderly Behavior in Agincourt.

County Constables Hobbs and Shadlock on Monday afternoon arrested William Morrison and Arthur Manner, two city men, charged with being drunk and disorderly on the streets of Agincourt. The charge against Morrison was made by Arthur Manner, who lives at 169 Muttal street, and that against Manner by J. L. Peterson. The men were arrested and brought to St. Paul's Court. Yesterday Morrison appeared before Police Magistrate Clay, who fined him \$10 and costs, \$19.45 in all. Manner came before Police Magistrate Brunton, who fined him \$10 and costs, amounting to \$14.

### ATTRACTION FOR L.O.L. PARADE

#### Model of Famous English Manor House and Grounds.

One of the chief attractions of the forthcoming Orange parade will be a working model of an old English manor house, kindly lent by the builder, Chas. Day, Greenlaw avenue, Earlscourt.

### AT WHITBY HOSPITAL

Corp. Edgar Bell, Dufferin street, Earlscourt, returned yesterday wounded from the front, is now at Whitby Convalescent Home. Corp. Bell, who is a brother of Harry Bell, boot and shoe merchant, West Clair avenue, sold his business in order to go overseas about twelve months ago.

### GOING BACK TO TRENCHES

Mrs. Hayward, West St. Clair avenue, a prominent member of St. David's Presbyterian Church, Harvie avenue, Earlscourt, has received information from her son, Pte. Hubert Hayward, who has been for some time in Eoulogne military hospital, that he is now recovered and is again on active duty.

### RIVERDALE CHURCH PICNIC

Over a thousand people yesterday attended the annual picnic of the Riverdale Presbyterian Church, at Long Branch. They journeyed by special cars on the Toronto and York Radial, leaving at 9:15 a.m., and after full program of athletic games was carried out, returned to the city at 7:30 p.m. The Ladies' Aid Society of the church was in charge of the commissariat department.

### FOR RETURNED SOLDIERS

A committee of North Riverdale and Ward One Liberals yesterday prepared a resolution in the matter of the proposed treatment of returned soldiers, which will be discussed at a non-political meeting.

### TOWNSHIP WATER SYSTEM DEVELOPS

#### Engineer Reported Excellent Progress at Council Meeting Yesterday.

Reeve Griffith and all the members of the York Township Council were present at yesterday evening's progress meeting, during the installation of the new waterworks system in the township. The engineer reported excellent progress in the work.

The city parks department applied for permission to remove a quantity of earth in the vicinity for filling in the approaches at the new floor street bridge over the Humber. About 4000 cubic yards will be required.

### WESTON METHODISTS WELCOME NEW PASTOR

#### School Board Decides to Grant Teachers Annual Increase of Fifty Dollars.

An informal reception was last night held in the Weston Methodist Church to welcome the new pastor, Rev. J. Stewart, who comes from Owen Sound. He was for the past four years the minister of Grace Church. A large number of the congregation were present to greet him, and he will deliver his first sermon on Sunday, Rev. Dr. J. Long, Riverside Methodist Church.

The board has appointed the following teachers to fill the vacancies: Miss Hazel Golding, Weston; Miss Donald Maclellan, Shelburne, and Miss Florence Dixon, Weston. It was also decided to increase the salary of the superintendent of the school from \$2000 to \$2200. The annual increase was formerly \$25.

The board has appointed the following trustees to fill the vacancies: Miss Hazel Golding, Weston; Miss Donald Maclellan, Shelburne, and Miss Florence Dixon, Weston. It was also decided to increase the salary of the superintendent of the school from \$2000 to \$2200.

### EARLSCOURT WORRIED WITH PETTY THEIVING

#### Storekeeper, With Sick Husband and Son Overseas, Victimized by Burglars.

Petty thieving has been prevalent in the Earlscourt district for some time past, and the storekeepers and residents generally have made frequent complaints to the police department. A few days ago the tobacco and fancy store occupied by Mrs. Hayward, 137 1/2 West St. Clair avenue, was entered by some person and between fifty and sixty dollars worth of goods were taken during the night. No arrests have yet been made. The case is a particularly sad one, as the woman's husband is an invalid, and their only son, who is overseas, has been wounded.

### EARLSCOURT BOYS BUSY

#### Great Activity is Noted in the Playgrounds of the District.

Foremost among the activities of Earlscourt boys is baseball, but owing to the restricted area of the grounds their activities are confined to playground ball. MacKinnon's Warriors, in the 11-1b. league, have averaged so far, but are determined to do better. They have won one, lost one, and have one to replay. The juvenile league opens on Friday with a home game, Oser vs. Earlscourt. Athletic club will run a close second in playground favor, and the supervisors are looking for good results when the postponed "Moss Park" athletic meet is held.

### MOTORIST ARRESTED

Four-year-old Genetta Baker, 29 Norton avenue, was seriously injured when knocked down by a motor car belonging to and driven by George Allan, 47 Hilton avenue, on the C.P.R. tracks at Lansdowne avenue last night. When picked up the child was bleeding from the ears, and was conveyed to her home by Mr. Allan. Allan was then taken into custody on a charge of criminal negligence. He placed the blame for the accident on the driver of the car, which, he said, were not working properly.

### OPENED KENNEDY ROAD

The improved Kennedy road, which is some twenty miles long, and passes through the townships of Uxbridge, the Elliceville, Agincourt, Uxbridge and Markham Villages, was yesterday opened at Agincourt for traffic by Controller Thomas Foster, chairman of the Toronto and York Highways Commission.

### LAMBTON ROADS IMPROVED

The new brick pavement on Dundas street has already been completed, and as soon as the road has set the Toronto Highways Commission will declare this highway open to traffic as a Scarriet road. Another road, Eaton, in Lambton, is now undergoing resurfacing with concrete and asphalt. Dundas branch, these two roads will form an excellent driveway from High Park avenue to the Lambton Golf Club.

### RAILWAY WILL ASK AT NEW FRANCHISE

#### Controller Cameron Says Street Car Company Will Fight Hard.

### CITIZENS MUST PREPARE Will Have to Put Up Strenuous Struggle to Win.

"Had not a considerable Providence intervened these men would have talked to doom," said the remark of a delegate to the failure of the lighting system put an end to a rather heated debate at the central council of the Toronto Ratepayers' Association in the city last night.

The matter proved very contentious and the complication of amendments and motions and "points of order" assumed the character of a "free-for-all" fight. It is estimated that the purchase of the Toronto Street Railway will cost the city \$1,000,000. The city was entitled to hire carters in wages were the principal matters before the council, but the matter was decided, but on the third adjournment was brought to an abrupt ending.

The matter proved very contentious and the complication of amendments and motions and "points of order" assumed the character of a "free-for-all" fight. It is estimated that the purchase of the Toronto Street Railway will cost the city \$1,000,000.

After listening to addresses by Controller Cameron and Commissioner of Public Works, the council decided to refer the matter to the central council and to the members of the council on the city council on the 12th inst.

Both controllers strongly urged the ratepayers to put up a strenuous fight. He declared that it was the most valuable franchise in the Dominion. Controller Cameron said that everything was conducted in strict privacy. Notice will be handed out unless it had the authority of the committee. "We have got to hold our own," he said.

Live Stock Market

Trading for all kinds of cattle was again very slow at the Union Stock Yard yesterday...

While more quiet over the scales than on Tuesday, the commission house found it increasingly difficult to clear up...

Crassus, butchers and huffers, and butcher cows and bulls were weak at the recent decline...

The sheep and lambs trade was steady yesterday and has advanced in the week's drop of anywhere from 75c to \$1.00...

Choice veal calves, from 14c to 15c; medium calves, 11c to 12c; grass-fed and common calves, 7c to 8c...

The hog market was higher, 25c up over Tuesday's general price, and selling at \$15.75, fed and watered...

One extra choice load of steers, weighing around 1400 lbs., were sold at \$10.00...

Over at the Union Horse Exchange the British and American horse dealers...

# KIRKLAND LAKE HAS "GOLDEN MILE"

### Producing and Near Producing Properties in Alignment on Lode.

## SECOND TO PORCUPINE

### Development at One Property Benefits Others Because of Similarity.

From World Special Correspondent, Kirkland Lake, July 4.—Telurium, in combination with gold, silver, lead, bismuth or antimony, occurs, though sparingly, in various parts of Ontario. Away back in 1880 Sylvanite, a telluride of gold and silver, and nagaycite, a telluride of lead and antimony, were found at the Huronian Mine, in the township of Moss, about 125 miles west of Porcupine. At a later period, hesite, a silver telluride, was discovered at Pine Portage Bay, in the township of the Woods, and tetradymite, a telluride of bismuth, occurs at the Mikado Mine, about 40 miles southwest of Kenora, Ont.

There is only one known occurrence of tellurides at Porcupine. Hesite, carrying also some gold, has been identified at the Powell claim, in the Township of Deloro.

The tellurides form the only stable salt of gold, none of the occurrences mentioned are of any economic importance, nor have we productive telluride gold fields in any part of the world, except Cripple Creek, Colorado, and Kalgoolie, in Western Australia, the latter with an output of about \$200,000,000, and the former \$800,000,000.

### Gold Deposition.

Apart from Kirkland Lake, the telluride found in Ontario does not seem to have in any way influenced the deposition of gold, nor have they added to its volume, nor given any distinctive character to auriferous deposits. At Kirkland Lake, however, we find very different conditions. Here several tellurides occur, as hesite, a telluride of gold, as well as arsenite and tetradymite, and this camp has many of the geological features of other productive telluride fields.

At Cripple Creek the bulk of the gold is found in the country rock and not in quartz veins, while at Kalgoolie the matrix of the gold is schistose, highly silicified country, which is impregnated with pyrite tellurides of gold and free arsenic and calaverite, a telluride of gold, as well as hesite and tetradymite, and this camp has many of the geological features of other productive telluride fields.

At Cripple Creek the bulk of the gold is found in the country rock and not in quartz veins, while at Kalgoolie the matrix of the gold is schistose, highly silicified country, which is impregnated with pyrite tellurides of gold and free arsenic and calaverite, a telluride of gold, as well as hesite and tetradymite, and this camp has many of the geological features of other productive telluride fields.

### Dumps of Ore.

A notice at these mines would never suspect that the dumps contained ore. They are largely composed of the prevailing schist of the country. But Kirkland Lake has the goods and the counterpart of Kalgoolie's "golden mile." On the principal lode in the Australian field, there is a Boulder, Ivanhoe, Golden Horseshoe, Perseverance, Croys-Brown Hill, associated and Lakeview, all mines, well and favorably known in the mining world. So Kirkland Lake has the Tough-Oakes, Wright-Hargraves, Sylvanite, Lakeshore, Teck-Hughes, Kirkland Lake, Elliot-Kirkland and United Kirkland, all disposed side by side, and the latter is well named, along the principal lode of the camp. The Tough-Oakes is at the eastern end and the United Kirkland at the western end of the camp. There is a sound geological reason for this alignment of the working mines for this "golden mile" of the golden north. There is here a well defined synclinal fold and at its base there is a contact between the Fimlamming or sedimentary rocks and the igneous rocks of the district and this is a zone of special enrichment. It is clearly defined on the geological map issued by the Ontario Bureau of Mines. Anywhere along this contact there is an excellent chance for a mine. The formation throughout the mine and the development of one mine goes far to prove the value of the adjoining ground on the same lode.

### The Golden Mile.

These stretches of clearly marked auriferous ground seem to be characteristic of telluride gold fields. They gave Kalgoolie its "golden mile" but in the Canadian camp the main lode is longer than that at Kalgoolie and in a few years more it will probably carry a string of mines six miles in length. More than half of this ground is now covered, and it is a busy scene that meets the eye of the visitor coming from the railway station, while at night the many electric lights at the various plants add a touch of beauty to the entire scene. The telluride gold fields have usually high grade ore. The Tough-Oakes, the principal producer so far, shipped 101 tons, averaged by over \$100 per ton. The run of the mine is now about \$20. This mine and the Teck-Hughes are now producing and it is expected that the Lakeshore and Elliot-Kirkland will be brought in before the end of the year. The latter is owned by the Beaver Consolidated in Cobalt and its progress is very satisfactory.

### Second in Production.

The mines of this district are not as large as those of Porcupine but in point of production Kirkland Lake ranks next to Porcupine and several properties in addition to those mentioned are now starting work in the camp. Probably the most important of these, because of its position on the main lode is the United Kirkland gold mine. It adjoins the Elliot-Kirkland on the west and is near the centre of the great lode. In this position it has an excellent chance. In fact the work already done in the same formation of adjoining mines goes far to prove the value of this ground. It is reported that the Lakeshore has lately opened out an exceptionally large body of high grade under the lake.

The E. & N. O. Railway have surveyed a spur line from the station at Swastika to the townsite, a distance of five miles. When completed this will bring the Tough-Oakes within one mile of the steel while the other mines on the lode will have adequate transportation right at their doors.

### APPARENTLY.

A drunken man threw his arms around a telegraph pole, and then began to feel the pole with his hands. Round and round he went. Finally he gave it up and muttered: "No use. Walled in."

# HARGRAVES ORE MAKES GOOD RETURN

### Satisfactory Results From Development of Ore Bodies.

The Hargraves treasury, including marketable ore on hand, has been increased since the first of the year from \$24,000 to around \$40,000. At the same time the prospects are regarded as exceptionally good for continued work in the Nos. 1 and 8 shafts, the development of the Hargraves ore to the Deloro smelter in Hastings County. There were 12 tons of ore shipped, and the aggregate in round numbers is 21,000 ounces. The preliminary return will therefore be in the neighborhood of \$25,000. The average grade of ore will fall something below 8000 ounces to the ton. Some of the highest grade shipments made out of Cobalt. In the five months ending June 1 Hargraves has produced 48,000 ounces of silver, which compares with 28,000-ounce production in 1911, the year of suspension, and 46,000 ounces produced in 1912.

Hargraves, under Manager Shaw, is going right ahead, operating in both shafts and making shipments from the dump. Another strike was added to the ore body on the 7th of November. The latest is on the 75-foot level of the No. 1 shaft, which is in the conglomerate section. This strike is made on the No. 1 Hargraves vein, and makes an exceptionally good showing. One ton of ore has been taken out which yields 4500 ounces of silver. At the No. 3 shaft, which is in the diabase, continued good results are being obtained, and sinking is going ahead to the contact.

## U. S. GOVERNMENT BUYING UP METAL

Approximately \$20,000,000 copper, lead and spelter has been purchased during the past fortnight by the United States Government through the various committees of producers. Of the total over 75 per cent. represents the purchase of 40,000,000 pounds of copper at an average price of 25 cents a pound. The other transactions were: 16,000,000 pounds of lead to be delivered in July and 28,000,000 pounds of high grade spelter. Details of these purchases follow:

| Metal         | Quantity          | Price per lb. | Total               |
|---------------|-------------------|---------------|---------------------|
| Copper        | 40,000,000        | 25            | \$10,000,000        |
| Lead          | 16,000,000        | 13            | \$2,080,000         |
| Spelter       | 28,000,000        | 13            | \$3,640,000         |
| <b>Totals</b> | <b>84,000,000</b> |               | <b>\$15,720,000</b> |

These three metals constitute the base for making ammunition, the copper and spelter being melted into brass and the lead into bullets. The constructive agent. These quantities must be largely augmented, and producers will doubtless be called upon to furnish the government's needs as requirements demand.

## A WORD OF APPRECIATION.

S. R. Clarke, c/o Toronto World.

Dear Sir: Your contributions to the mining page of 'The World' recently have been of great interest to me. In a recent number you refer to the fact of quartz porphyry dykes cutting schist to be favorably of interest to you to know that I ran across a similar statement in a government report of 1901 in referring to a district about half way between Fort William and Winnipeg, in which I became interested several years ago and where I have continued to work. This report is in part: "The formation of counter rock in the vicinity of the mines is principally felsite, but trap also exists, and the contact between this and the granite lies between three or four miles of the track. The felsite schist is intersected by numerous dykes of quartz porphyry, and it has been found in the case of the developed mines that the quartz veins occur in this felsite and side by side with the porphyry." I saw four machines working abreast in \$12.00 ore at one mine there, that was typical of the above condition—and yet it has been shut down for years.

The granite cuts off one corner of my location and from a small vein in close proximity to one of these dykes I have had assays of 16-oz. gold per ton.

Such articles as yours should have a tendency to broaden the field. I sometimes think that the prospectors of today would rather stake a mine in a popular township than look for geological conditions farther afield. There are comparatively few trail-breakers in this district.

I brought up the rearguard from this district I refer to, and incidentally came out on the hog-trail, but because of the geological conditions I still hold on. You may readily understand, therefore, how your letter appealed to me. I am,

Yours truly,  
D. C. Petrie.

### ADVERTISE IN THE WORLD

# LACK OF TRANSPORTATION FACILITIES RETARDED PROGRESS AT SHINING TREE

### Fifty Miles of Bush Presented Almost Impassable Barrier to Capital--Some Improvement Lately.

From World Special Correspondent, Porcupine, July 4.—The discovery of gold at West Shining Tree practically synchronized with that at Porcupine, but Porcupine got its big capital, and its railway without undue delay, while Shining Tree has remained largely isolated by over 50 miles of unbroken wilderness. Here the canoe and paddle the tump line and pack sack on the broad back of the stony and primitive conditions and, therefore, will become an important producer. A special feature of this district are the dikes of Olivine diabase which cut the quartz veins, and also the large veins of the camp. These diabase dikes have in some way influenced the deposition of the gold. On the Ribble claim, now owned by the Wasipika Mines, Limited, situated near the boundary of the Township of Churchill and Macourby, a dike of diabase has doubled up the vein into one great fold and several other veins, and apparently about 150 feet of the vein, equal to the width of the dike, has been thus absorbed. But the vein is so well preserved, so completely unbroken, so regular and persistent, that the crumbling up must have taken place while the whole formation was still in a plastic condition. In this state it is easy to see that the igneous intrusion aided the accumulation of gold.

### Great Ore Shoot.

In fact, rolls generally mean highly payable ore. But they are not common in gold regions. The vein on the Porcupine Crown has a tendency to roll, and it carries high grade ore. But the most notable phenomenon of this description is the Champion reef in the Kolar field, Southern India. The ore shoot of the Mysore Mine, on this reef, is 300 ft. long by 4 ft. wide. At the end of 1907, it had produced \$120,000,000, the ore averaging over 600 ounces per ton. This is stated by MacLaren to be the greatest single ore body known in the history of gold mining.

The creulations which mark this shoot, however, has been explained, but the Ribble vein are plainly referable to the intrusion of diabase. It crumpled up and pressed into great and small loops that portion of the vein which was in its path and did not amalgamate along the intrusion of this without in any way diminishing the continuity or diminishing the volume of ore, and it undoubtedly increased values.

It is generally believed that the extraordinary tenors of the Croesus ore are due to a fault or throw which cut the country, and thus facilitated the accumulation of a number of the gold laden solutions, and the value of the West Shining Tree camp to have a similar effect. They have the same tenor as the quartz porphyry at Porcupine.

The Gosselin property is the "big dog" of Shining Tree. It shows the largest veins in the western territory, and there are probably more tons of properties in other porphyry camps. It is to be hoped that large capital will soon enter the region, and if properly handled it is certain of a rich reward.

## VIGOROUS EXPLORATION AT DAVIDSON MINE

During the past two months the Davidson Gold Mines management has been carrying forward vigorous exploration work on the Porcupine property. Out of five drill holes sunk during that period three have cut ore bodies, evidently of high value and considerable extent. One of these, cut near the 500-foot level, is 32 feet in width and showed spectacular ore, with free gold in the zone. The other holes were shorter, sunk from the 300-foot level in order to explore new ground. Two of the four, sunk in various sections of the mine, pierced promising ore bodies. The cores from all drill holes are now in the hands of the company's assayers. Announcements of results from these are awaited with interest by those interested in the property.

During the past fourteen months the Davidson management have completed extensive development work on the ore bodies previously located, which are of great extent. Over half a mile of drifting and cross-cutting has been done, approximately \$1,000,000 worth of ore averaging good milling grade. Moreover, developments to date have only opened up a small portion of the indicated ore body. The Davidson mine is in the stage preparatory to a production basis.

## Has Bottom Been Reached?

For upwards of six months the market for mining stocks has had one continuous downward trend. The first thing to cause selling, especially of the gold stocks, was the greatly increased costs of milling due to the rise in the price of machinery, cyanide and other incidentals that enter into the production of the yellow metal. The livers were not affected to such an extent and moved more in market sympathy. Following the general strike, and concurrent with the liquidation of the prices of many mining stocks at which a bottom is reached, there is a point in all markets at which a bottom is reached, and it is believed that some stage conditions will be reached in the silver and gold stocks hitherto unprecedented in Canadian mining history. The beginning of the end of the war will attract attention to the world's demand for silver and gold, and more particularly to the local market of the money metal shares will be made accordingly. The local market, and it would be well if they were never allowed to become again extended, being as they are a direct invitation to traders to prey on the market for the money of the outside speculator. There are many gold and silver stocks whose present known intrinsic values are higher than their present market prices, and such should prove excellent investments for those with money to buy them outright.

# DOLLAR SILVER BEING PREDICTED

### Buoyancy of White Metal Gives Rise to Further Talk of Big Advance.

Renewed attention has been attracted to the strength of the silver market by the advance of the price of the metal during the last week to 75¢ per ounce, the highest mark of the year and the best record since the United States Government withdrew its support from the market by the repeal of the Sherman silver purchase act in 1893, says Financial America. This price compares with last year's record level of 74¢ made on May 4, 1911, and with the quotation for the metal 55¢ on January 1, 1910.

The abnormal demand for silver for coinage purposes in the countries in which silver has disappeared from circulation has caused the steady appreciation in silver's price. In France alone the aggregate amount of the metal minted in 1911 is officially estimated at 20,700,000 ozs. From this weight 154,238,814 francs were produced, an increase of 78.7 per cent above the total production of silver coins by the French republic in 1910.

The official French report, giving these figures, adds that this consideration, which is applied to replace small paper notes in circulation, should create public confidence in the use of the small notes issued by the government of commerce as an expedient in the period of the war.

The United States Government is purchasing silver at the rate of 400,000 weekly, the great demand for the metal both at home and abroad finding reflection in even higher quotations than are current in the great silver centres of New York and London. For instance, a recent Toronto despatch speaks of the sale of 104,000 ozs. of silver by the Timiskaming Mining and Smelting Co. by the Beaver Mining Co., at the extraordinarily high price of \$10 an ounce.

Silver likewise was sold recently at a premium over New York prices in Vancouver, B.C., where the Nipissing Mines Co. received 80¢ an ounce for a shipment of the metal to the far east. A great amount of silver is going to the Orient at present via the Pacific, rather than by way of London as in pre-war times. This avoidance of the submarine route results in a great saving by eliminating the necessity of war risk insurance.

The buoyancy of the market has revived the talk of dollar silver among metal producers, and while the more conservative are not inclined to commit themselves as to the probabilities of such a decided rise, they are agreed that the present price of silver in the New York market seems a certainty for the near future.

# PREPARING GOLD BRICK AT NEWRAY

### Directors Will Pay Visit to Property—Plan to Enlarge Mill.

Newray mill is running smoothly, two shifts a day, and the results are being turned up with those of the best. The Newray mill is one of the best amalgamation plants in the whole north. This was shown when by the amalgamation along the mill in the past recovered an average of 87 per cent. of the gold and the ore. The mill is running on stuff from dump and tailings, and is getting a very fair profit.

The management expects to have the first gold brick ready in a few days. It is expected that a number of the directors will visit the mines around that time, and consideration be given to the matter of enlarging the mill, the next unit being not less than 250 tons, with either stamps or ball crushers.

The manager of the drill operations says that borings in the western territory of the estate will undoubtedly establish the uniformity of the formation with that of the Hollinger and McIntyre Consolidated to the south.

## GOING AHEAD WITH MILL AT SCHUMACHER

Construction of the Schumacher mill addition is a duplication of the present plant, which will give a combined capacity of about 300 tons per day.

If labor can be secured it is proposed to start work at once on the number four, or east shaft. This shaft is now down to a depth of 200 feet, and it is proposed to continue it to the 300-foot level, where diamond drilling indicated a good body of \$14 ore.

The resumption of work on the No. 4 shaft is about 1400 feet east of the main shaft, is part of a program to prepare for the increased milling capacity. Development work is also being carried on in and near the old workings, largely following up indications of the big diamond drilling campaign carried on several months ago and during which quite a number of new veins and extensions of others were cut.

# ISBELL-PLANT MINING TALK RE CANADA

### The present week has been one memorable with anniversaries—two nations brought into juxtaposition.

### The Stock Exchanges of Toronto observed Monday as the semi-centennial anniversary of the birth and establishment of the Dominion, and on Tuesday afternoon sessions of yesterday out of deference to the national holiday—Independence—the new birth of freedom—in the States.

### As the result of the Dominion's golden wedding—her jubilee—we have been treated to voluminous historical literature, which may be classified as "Canadiana."

### We have been told how Canada's area in her first 50 years of Dominion has increased from 540,000 to 3,729,665 square miles, or 590%.

### We have been told how her population has gained from 2,400,000 to 7,600,000, or 111%; and it is a fair prophecy that, while the growth of the nation in the past 50 years has been arithmetical, the growth of the next 50 years will be geometrical. It is not too much of a vision to see Canada in the next 50 years increasing 500% in the number of her inhabitants.

### Canada has increased her school expenditure from \$2,500,000 to \$40,000,000, a gain of 1,500%. Her bank assets have gained from \$75,000,000 to \$1,000,000,000, a gain of 1,325%. The total deposits of these banks have swollen from \$33,000,000 to \$1,418,000,000, or 4,250%. The banks of Canada enjoy a world-wide reputation throughout the world. They are conducted with ability, and the average of their managerial integrity and rectitude is unusually high. Canada's foreign trade has grown from \$114,100,000 to \$1,000,000,000 annually in 50 years, an increase of 1,655%.

### Our exportable surplus of farm products in the half century has increased from \$13,000,000 to \$480,000,000, a gain expressed in percentages of 3,600%. Canada has prospered in an agricultural way. Our wheat crop has increased from 17,000,000 to 220,000,000 bushels, an expansion of 1,194%. Our barley crops have increased from 54,000,000 bushels to 584,000,000, or 981%. Dairy products have increased from 74,000,000 to 416,000,000, or 462%. Meat products have advanced from the inconsiderable total of \$3,890,000 to \$78,400,000, or 1,983%. Flour mill products 50 years ago were \$38,100,000 annually. Today they total \$112,525,000—187%. Fishery products not amount to much 50 years ago, being expressed in figures of \$5,000,000, but have grown 375% in the years which have since elapsed, amounting now to \$18,200,000 annually.

### Turning from food items we find that in manufactures Canada has advanced with seven-league boots. Fifty years ago our manufactured output was practically nil. Today it stands at \$1,300,000,000 a year. Our steel production in 1867 stood at \$2,800,000 annually, while today it stands at approximately \$50,000,000, a gain of 1,643%. Foundry products were \$7,000,000 while today they are \$36,700,000—409%.

### Paper products, now the subject of so much narrow and anxious foreboding were expressed in figures of \$1,000,000 in 1867, while in 1917 they were valued at \$29,300,000, a gain of 2,830%. Cottons 50 years ago were valued at \$30,500,000, a gain of 2,534%.

### In the matter of railways Canada's showing is especially impressive. Fifty years ago our mileage was 2,275, while today it is 35,532, a gain of 1,561%. Canada has been liberal in pledging her credit to aid the construction of railways, both local and transcontinental. Fifty years ago the freight tonnage amounted to 5,600,000 tons a year, while today it stands at 101,390,000 tons, a gain of 1,711%. Passengers 50 years ago were 5,200,000, while today they are 46,300,000 annually—700% increase. Fifty years ago there were, of course, no electric railways. Today Canada has 1,590 miles, which carry 6,000,000 passengers a year.

### Our forestry industry has been considerable throughout the half century. Confederation, for even 50 years ago it stood at \$34,100,000 a year, while today it stands at \$175,000,000 at the present time, an increase of 383%. Canada has 500,000,000 acres under forest.

### In the mineral industry the expansion has been marked, but not so remarkable as it bids fair to be in the next 50 years. In 1867 our annual mineral production stood at \$10,000,000—about that of Porcupine in 1912. It stands at \$137,000,000—probably more than an increase of 1,270% in 50 years ago Canada was but slightly regarded as a country with mineral possibilities. Today its mineral potentialities constitute one of the great assets of its destiny.

### And in smelting. Fifty years ago our ores were shipped to Swansea, Wales, then a world-smelting center, drawing shipments from all over the Western Hemisphere and from Europe. In 1867 our local smelting capacity was \$238,000, while today they treat \$52,700,000, an amazing increase of 17,584%—far and away the largest advance made in any gainful industry mentioned by Canadian statistics.

### These figures—for which we acknowledge indebtedness to the Statistical Press, of Toronto—are heartening ones. They are inspiring. They give a retrospect of 50 years past progress, but an earnest of 50 years of progress to come. It gives us pleasure to be able to publish these figures at this epochal time in space which is paid for as advertising matter, placed in connection with brief comment in compact form for filing and preservation.

### We have consistently predicted that there would be no labor strike in the north country mining camps. Today we are glad to point out that industry is propitious for fulfillment of that prophecy. Labor and capital are working in the camps of the north, and we seem about to enter upon a new era of activity in Porcupine, Kirkland Lake, Boston Creek, Cobalt, Lorrain, Gowandawa, West Shiningtree and a score of other camps and districts. Allens and agitators are being quelled. Labor is looking forward to better pay and more normal conditions of living. The prospector is being encouraged to pursue his calling. Nearly a score of inactive mines have been opened in the past six months in Cobalt. Silver is at its highest in more than a quarter of a century, and at its best altogether since it was demoted in 1873. The tide is turning. When the war stops this speeding-up movement will be further accelerated.

### We are interested in some of the leading precious metals developments in Cobalt, which has produced ore rivaling the most spectacular displays of the Carson vein and the Lawson "silver sidewalk" in Cobalt's early days. Belle-Ellon and Lorrain Consolidated, in South Lorrain, an extension of the diabase section of Cobalt; Boston Creek, one of the bonanza wonders of the north.

### Such a skimming of the cream of gold-silver investment-speculation these selections in their physical and market condition offer to traders have never seen, and we invite the correspondence of those who are looking for profitable opportunities to buy mining shares representing either silver, and representing moreover any and all the stages of development, to make such purchases most desirable and attractive for the biggest net profits and net incomes.

### Send to us for any new maps of northern Ontario mining camps you want, and for the weekly issues of the CANADIAN MINING NEWS—all mailed free.

# Simpson's Store-wide Summer Clearances Bring Many Big Savings

Featured Especially for Today's Selling

## Acknowledged and Accepted Vogues in Women's Summer Dresses

Carefully Selected Groups of the New Season's Prettiest Cool Cotton Frocks Attractive Values for Today

**\$4.95 \$5.95 \$8.50 \$10.00**

Novelty voiles in scores of styles, fashionable plaid and checked gingham, colored linens and linares, in tailored or sports styles; also dainty white voiles and muslins. Hundreds of styles and shades to choose from. Sizes 32 to 42, \$4.95, \$5.95, \$8.50 and \$10.00.

### Remarkable Values in Wash Skirts

White, Repp, Cordalines and Piques

95c, \$1.25, \$1.50, \$1.75, \$2

Smartly tailored styles, with belts, one or two pockets, full backs, open front, and many are button trimmed. The materials are dependable, and each skirt shows excellent style lines, with special attention given to finishing. Sizes bands 24 to 30.

### Women's Reliable Raincoats Priced as Low as \$6.95

English paramatta or cashmere top, made extra full, half-belted, adjustable collar and sleeves, finished with the very best English proofing; assorted shades. Sizes 34 to 42 ..... 6.95

## Advance Whispers—These New Fall Suits for Women

on Display for the First Time Today

**\$25, \$27.50, \$30 and \$35**

Several advanced styles are now on view, including these stunning ones in good quality serge; pleated, flaring or novelty tailored designs, longer in length than heretofore. Smart tailored, mannish collars (plain or braided bound), and coats slightly fitted. Attractive suits, and moderately priced. Sizes 34 to 42.

## A Timely Sale Today of Lingerie Waists

One of the most important offers of the season, in waists that are desirable and greatly needed for immediate wear; beautiful quality materials of filmy voile and sheer organdy; handsomely embroidered; fashioned, in many cases, with large, convertible collars for high or low necks; many charming examples of the famous "Fashion" brand, so distinctively made. Sizes 34 to 44. Regularly \$2.95 to \$3.95. To-day ..... 1.95

Women's Middies, Regularly \$1.48, for 98c

Well-made, roomy Middies, of firm white drill, with laced fronts, large striped collars, in red or navy and white; patch pockets and short sleeves. Sizes 34 to 42. Regularly \$1.48. Today ..... 98c

## 4 Thursday "Calls" for Miss Toronto and Her Younger Sister

**Misses' Crepe de Chine Frocks 15.00**

Those who saw these new dresses were in ecstasies over them, out we have still a few more left in all new shades. Washable crepe de Chine, with round cape-like collars of georgette to match; bordered with soutache braid and high-waisted skirts, with three rows of shirring at the top. Sizes 14 to 20 years. Today ..... 15.00

**Scotch Gingham Dresses, Misses' Imported Styles, 15.00**

Anderson's Scotch Gingham! We all know that means quality and reliability. Smartly blocked and checked designs in good colors, styled in the latest New York fashions of the season. Sizes 14 to 20 years. Today ..... 15.00

**Misses' Greatcoats of Summer Materials, 15.00**

Almost an indispensable sort of coat for outings or motor trips. Made of grey tweed with good big collars and pockets, pleated backs, belted waistline and full misses' length. Sizes 14 to 20. Very special value. On sale today ..... 15.00

**Misses' New Navy Taffeta Dresses, 25.00**

Misses will revel in the delightful tailored styles of a new shipment just in. White organdy collars and cuffs, patent belts and daintily full skirts. Come in today and see them in the Misses' Section. On sale today at ..... 25.00

## Interesting Shoe Items for Today

**Pumps for Growing Girls**  
Made of fine black dongoia kid leather, on popular growing girls' wide toe last, with neat silk bow and ankle strap, beautifully lined with white kid; soft white kid, with sock lining; sizes 2 1/2 to 7. Per pair ..... 2.50  
Similar style in patent leather. Per pair ..... 2.50  
Growing Girls' Ankle Strap Pumps, made of extra fine white duck, perfectly fitting wide toe, with silk bow, medium weight sole and low heel. Sizes 2 1/2 to 7. Today, \$3.00, 1.69
