The council unanimously endorsed M. Hymans' view, but was equally emphatic in expressing the opinion that the attention of the powers should be drawn to the financial and economic situation in Belgium and to the necessity that the Allies assure Belgium of complete support looking to her economic restoration.

Problems incident to the disposal of the German colonies are left by the treaty to the great powers, so that if Italy does not resume her place the treaty would exclude her from participating in the disposal of the colonies either directly or as a mandatory.

**FLYING YANKEE ON ROUTE AGAIN!**

Two Boston Trains Today—As Usual at Re arrangement Time a Good Many Missed

The midday trains arrived on the summer schedule today and of course there were the usual crop of misunderstandings, mis-connections and forgetfulness which characterizes each important rearrangement of this kind.

For a long time past the only outgoing C. P. R. train in the morning was the McAdam Junction express, which served Fredericton, St. Stephen, Woodstock and other local points. It was not an American train. The hour of departure was 7:40 daylight.

Today, however, the old "Flying Yankee" or Boston express, was put on the route again to the satisfaction of the traveling public—and left at 6:45 daylight time. By actual count twenty-eight people missed this train, due to confusion of time, no doubt, and possibly some were in ignorance of the change, although it had been well advertised.

Again at noon the new schedule misad people up and the big trains rolled in with large passenger lists, though few city folk were on hand to greet them. The Boston was on time at 12:05, but the Montreal due at 12:20, was a little late. Coachmen and taxi drivers were not caught napping, however.

This evening the new schedule will send the Montreal express away at 8:50 daylight time and the Boston express (right through) at 6:40. These evening changes will readjust the big city traffic, greatly and are being welcomed on all sides.

Tonight the Boston express—which left the Hub early this forenoon—will arrive here 11:20, bringing passengers, mail matter and expressed goods. The effect this late night train will have will be to give the public an early morning start in the morning, something of American mail tomorrow, something which the business community has been suffering during the transportation conservation days of late months.

**MELITA ON WAY TO QUEBEC; ROYAL GEORGE TO HALIFAX**

London, May 5—(Canadian Associated Press)—The C. P. R. S. Melita sailed for Quebec on Saturday, carrying fifty-two officers, three cadets, twelve warrant officers and 814 men, 499 wives, 108 children and forty-six babies from Boston, and fourteen officers, three nursing sisters and forty other ranks repatriated from the imperial army. Sir Montagu Allan and Colonel Gaudet are on board.

The Royal George sailed for Halifax on Sunday with thirty-eight officers and 1,401 men from Kimmel Camp and thirty-two officers and four nurses from London. Colonel N. D. Simpson, G. Johnson, W. H. Milne, W. N. Moorehouse, S. O. Young, C. L. MacPherson and E. G. Shannon are on board.

**IS HELD IN SYDNEY ON SUSPICION OF SETTING FIRES**

Sydney, N. S., May 5—James Bussey, a Newfoundland, arrested here last night on suspicion of being an incendiary, was remanded until Wednesday. Five attempts to burn the Sydney Hotel have been made since the Sydney Hotel fire, and other buildings in the city have also been damaged. Bussey is about thirty years old and seemingly of feeble mentality.

The funeral of Mrs. Isabella Burns took place this afternoon from her residence, 72 St. James street. Service was conducted by Rev. H. H. Conroy, and interment was made in Cedar Hill.

**TRAVELER'S COMPLAINT**

A Prince Edward Island resident en route to his home on the United States today complained to the Times because he would be compelled to stay overnight either in Moncton or Sidsic due to the non-connecting of the Island steamer with the new train schedule. He said there were quite a large number of passengers for the island and there would undoubtedly be more from upper Canada via Moncton, and it was expedient to travel so far and so laboriously to have such a hold-up and stalling at one's very threshold.

**FROM MAJOR McLEOD.**

Word received yesterday afternoon by Mrs. Norman P. McLeod is that her husband, Major Norman P. McLeod, is returning with Major Barker on the Mauretania. **STYLES IN SPRING DRESSES ARE QUITE CHARMING**

This season's styles in spring dresses represent a considerable change from a year ago, so much so, in fact that even a mere man can see the difference. Although prices are somewhat advanced over last season, it is still possible to procure the very latest modes at even less than last year's prices. This opportunity is to be had at Oak Hall, where a timely sale of new, smartly designed spring dresses is now going on. These dresses were originally valued at \$29 to \$50, but an opportune purchase permits Oak Hall to offer them at the exceptionally low price of \$16.98. Although this sale has been going on for three days there are still a good number of dresses from which to make selections and these represent such unusually good values that it is really to every woman's interest to visit the Oak Hall's Women's Shop, third floor, before making her spring purchase.

**THIS YEAR'S STREET WORK.**

The decision of the common council on the matter of permanent pavements this morning would indicate with some finality that no work of this class will be done this year because of the property owners' petition for the pavements under the local improvements act, by which they would undertake to pay one-half of the cost. The only work which can be carried on will be that of repairs, for which an appropriation of \$36,000 was made. This will permit a certain amount of asphalt surfacing of the semi-permanent type, such as has been laid in some streets and charged to appropriations at various times.

**THE ROTARY CLUB**

The Rotary Club today authorized its playgrounds committee to wait upon the city council tomorrow morning when the question of playgrounds will be under discussion. Another committee will wait upon the finance committee of the municipal council in regard to the establishment of a juvenile court. Captain Corron was the speaker of the day and gave a very impressive brief address on reconstruction. J. M. Christie presided. The President Peterson presented the club with a noise-maker to use to call the club to order, and after J. King Kelley had wound it up and unwound it there was no doubt in anybody's mind about its quality. There is an unusually large attendance of members.

**KENNEDY-INNIS**

A pretty wedding took place on Saturday evening in St. John's (Stone) church when Rev. G. A. Kubring united in marriage, Miss Florence Innis, daughter of Mr. and Mrs. Innis, 118 Somerset street, and S. S. Kennedy, a returned member of No. 12 Canadian Railway troops, Miss Elna Reynolds was bridesmaid and George Innis groomsman. Among the wedding presents was a silver tea set from the staff of the Prudential Insurance Company, of whom the groom is a member. Mr. and Mrs. Kennedy, who have the good wishes of many friends, will reside at 38 Charles street.

**Manager of Royal Bank of Canada Leaves to Join Large Mercantile House**

A. S. Creighton, manager of the chief office of the Royal Bank of Canada here, has resigned his position and is to leave the service of the bank to become associated with Gordon, Grant & Company of Trinidad, B.W.I., one of the biggest mercantile companies in the West Indies, and one which is well known in Canadian importing and exporting circles.

It is something of a coincidence that Mr. Creighton's resignation was tendered on Saturday, May 3, just one year from the day he arrived in St. John to assume the management of the local branch. Mr. Creighton came to St. John from Trinidad, where he had been manager of the branch of the bank, and the flattering offer he has received from the West India Company is a fine tribute to the reputation which he made while in the south.

Mr. Creighton in St. John has not been appointed, Mr. Creighton is not yet when he will be able to leave St. John, but expects to get away about the middle of this month and will be from Halifax on May 30.

During his stay in St. John, Mr. Creighton has made many warm friends both in business and social circles, and his departure will be sincerely regretted. Speaking to The Times this morning, Mr. Creighton said that he had greatly enjoyed his stay in St. John and was sorry to leave.

**ANOTHER PAVING ATTEMPT HAS FAILED.**

(Continued from page 1)

concrete base, estimated cost \$9,800, less about \$800 to be collected from the N. B. Power Company for portion of the cost of cement foundation under the curbs, payment for the work to be made from next year's assessment.

In support of his motion, Mr. Fisher said that they had to contend with those who used the streets as well as the property owners.

Mr. Jones said he would not support granite paving for city dwelling houses on terms as per the schedule previously approved by the council, as follows—From Chiers, Dr. Peterson, for the Quinn property, Milford road; A. J. Taylor, for the Collins house, Lancaster; and R. D. Drew, for the McPherson house, Green Head road. The applications were approved.

The committee also approved of an application from the St. John Real Estate Company for the purchase, for \$350, of a lot in Gullford street, W. E., now leased by them.

An application from C. B. D'Arcy for \$6,000 under the housing loan for the construction of a two-family house in Tower street, W. E., was referred to the commissioners of public lands. There was some discussion of the principles involved in loaning money for houses, part of which would be rented.

Mr. Wilson's Charges.

Mr. Jones drew attention to a report in The Telegraph of a petition made by Rev. W. D. Wilson, chief inspector under the liquor act, reflecting on certain officers. If the statements were correct action should be taken, if they were not correct Mr. Wilson should retract.

Mr. Thornton said he had read the report and had tried to get in touch with Mr. Wilson, but so far had failed. He did not know whether the remarks applied to the St. John officials, but did believe that the enforcement of the liquor law was a farce. He thought that conditions might be improved by a closer check on the importation and sale of liquor through licensed vendors. As regards the enforcement of the law, he believed that the police force did more to enforce it than did the inspectors. He knew of no man on the force who had been convicted of violation of the law.

The mayor said that Mr. Wilson should be asked if his remarks applied to St. John officials.

**IMPORTANT TO MOVIE BUSINESS**

F. G. Spencer of this city and J. M. Franklin of Halifax left for upper Canada on Saturday. While away they will attend a conclave of motion picture exhibitors in Toronto, at which plans for the organization of a buying syndicate of exhibitors will be discussed. The idea is to form a large film distributing concern with the exhibiting or managerial fraternity as shareholding proprietors on lines similar to the present commercial film rental corporations. Such a move it is contended, would reduce the cost of picture programmes and greatly reduce the risk of unprofitable combinations of middlemen being formed. This matter has been on the carpet for several months and is yet in embryo. J. C. Brady, a veteran exhibitor in Toronto, is father of the movement, which if it materializes successfully, may change matters greatly in the movie business.

**BWARE OF TENDER,  
INFLAMED GUMS**

Pyorrhea, with a premature loss of teeth, is almost inevitable if you do not protect your gums. Here is the explanation:  
As you age, the body tissues naturally relax. You see this tissue loosening in the neck. It goes on in your gums, too. As you age, your gums shrink below the normal gum line. Through lack of care they become spongy and inflamed. Then you have Pyorrhea (Riggs' Disease). Four out of five people over forty have Pyorrhea. And many under forty, also.  
Don't let a tender gum spot develop. These tender spots breed disease germs which enter the system through tiny openings—infected the joints or tonsils—or causing other ailments. Immediately get Forhan's, which positively prevents Pyorrhea if used in time and used consistently. Forhan's tones the gums and hardens them. They in turn keep the teeth healthy. Brush your teeth with Forhan's. It cleans them scientifically—keeps them white and clean.  
If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 30c and 60c tubes. All Druggists.

**NEW C.P.R. TRAIN SERVICE ACROSS THE DOMINION**  
"The Trans-Canada Limited" To Reduce the Montreal-Vancouver Trip to Less Than Four Days  
Montreal, May 3—Travel conducting in Canada, particularly in connection with the east and west business, have proved so much since the declaration of the armistice that the C. P. R. has decided to run, commencing on June 1, a new daily limited express train, to be called the Trans-Canada Limited, connecting Montreal and Toronto with Vancouver. It will reduce the transcontinental trip to less than four days and give a full business day to passengers leaving Montreal or Toronto for Winnipeg, Calgary or Vancouver.  
In announcing the new train, C. P. R. officials in Montreal say that this is only a natural recognition of the growth of Canadian business and that this departure is in line with the aggressive policy of the company. The train will be strictly limited; that is to say, will have in addition to the ordinary sleeping cars, compartment cars will run out of both Montreal and Toronto.  
The passengers from Toronto will be able to leave that city for Winnipeg at 7:15 in the evening and be in Winnipeg at 9 a. m. on the morning of the second day. The Montreal passengers can leave at 8:30 p. m. and the Ottawa passengers at 6:30 p. m., reaching Winnipeg at the same time. Calgary is reached on the morning of the third day, and Vancouver on the morning of the fourth day.  
The trains in the reverse direction are arranged with equal convenience to the business man so that he can leave these cities east bound in the evenings. Thus a Toronto man with business to do in Winnipeg could leave Toronto on Monday evening, spend a full day in Winnipeg and be back in Toronto at 1:30 p. m. on Friday.  
The new train will be particularly convenient for tourists from the eastern reserves of the Canadian Pacific at Banff and Lake Louise, as they can now be reached by midday of the third day from Montreal or Toronto. The indications are that the volume of American travel of this nature will be considerable as Canada's part in the war attracted much attention and sympathy from our neighbors south of the line, and there is reason to get better acquainted with Canadian summer resorts. The new train will also be a great convenience for passengers to the Orient who will be able to save a full business day in connecting the Canadian Pacific Express from Vancouver.  
The time schedules of the Trans-Canada Limited show a running of ninety-two hours and fifteen minutes eastbound from Vancouver to Montreal, and ninety-three hours and thirty minutes westbound from Montreal to Vancouver.  
The new train will not interfere with the running of the old transcontinental

**SPOKE OF CHINA.**  
Rev. Dr. MacGillivray, for years a missionary in China, gave a very interesting address on that country at St. David's Presbyterian church last evening. He said that China was changing very rapidly, the people were out for reform and, although the country was now a republic, the reform stopped with changing the names of the different parts of the government. The soul of reform, he said, was the reform of the soul and that was what was necessary to be understood about China. He then told of the pressing need of missionaries in China and hoped that the young who felt they were called to foreign fields would "roll under the banner of the Prince of Peace."  
**WAGES IN ENGLAND.**  
"When things settle down labor will have gained between 50 per cent and 100 per cent in wages over pre-war days," said R. D. Blumenfeld, editor of the London Daily Express.  
"We are not anticipating any further trouble with Bolshevism. It is pretty well stamped out of the labor parties in England. The people never were so hungry as to be blindly led by the few leaders of such a fatal cult. The men who did attempt to get a following have been shamed from further efforts because of the overwhelming sentiment against it."

ENFORCE THE LAW.

Nothing would give more satisfaction to the enemies of prohibition in this province than to be able to "get" the chief inspector, Rev. W. D. Wilson. If he could be trapped and discredited they would rejoice.

The law can be enforced. The boot-licker can be put out of business. A citizen called up this paper a few days ago to complain of persons he said he knew to be boot-lickers.

There must be an end of this sort of thing. St. John can be made bone dry. The men who break the law are not one whit more clever than those who want the law enforced.

Despite the threatening weather, and light showers yesterday afternoon some hundreds of people, nearly all young people, spent hours in Rockwood Park.

More Neolin Soles

War conditions forced thousands of people to accept shoes with soles other than Neolin. We could not secure sufficient heavy steel machinery. Production was held up.

Now the war is over. Steel has been available. Our equipment has been multiplied. Our machinery is running full blast. There are enough Neolin Soles for all kinds of shoes—for men, women and children—for dress shoes, work shoes, farm shoes, school shoes. Everybody can get Neolin Soles now

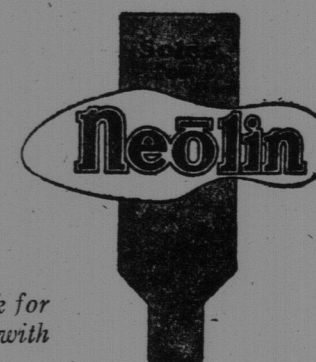

Everybody can have better shoes now. Neolin Soles were developed to make shoes better. To make them wear longer, to make them more

comfortable; to make them waterproof. Good shoes cost less, with Neolin Soles—for they wear longer. Work shoes are lighter and easier on the feet—and damp-proof. Ask your retailer to show you his wide range of models on Neolin Soles.

Neolin Soles—half-soles and full-soles—are nailed or sewn on all kinds of shoes by manufacturers, repairmen and at home.

Neolin Soles have been a great success—so they have imitators. But the methods and materials that make Neolin Soles superior are known only to Goodyear—you can be sure of Neolin Sole quality only when you see the trademark "Neolin" on the bottom of the sole.

One of the most largely attended funerals witnessed in the city for some time was that of John O'Neill which was held from his late residence, 109 Elliott Row, yesterday afternoon at 3.30 o'clock. In the funeral procession, which was a long and impressive one, there were representatives from all walks of life testifying in no small way to the esteem in which the deceased was held. The many floral offerings were a silent but eloquent tribute to the worth of the late Mr. O'Neill. The funeral service was conducted at the Cathedral by Rev. William M. Duke, rector, and burial was made in the new Catholic cemetery. Six sons of the late Mr. O'Neill acted as pallbearers.

The funeral of Gilbert Gordon Mayes took place yesterday afternoon at 3 o'clock from his late residence, 215 Winslow street, to Greenwood cemetery. The funeral was very largely attended. A quartette, the members of which were Mrs. Ferris, Mrs. Osmond, Percy Crutchebank and Mr. Rippey, sang beautifully the hymns Abide With Me and Days and Moments Quickly Fly. The floral offerings were numerous and handsome—a silent tribute to the high esteem in which the late Mr. Mayes was held by a wide circle of friends.

Dawson that at the grave in Cedar Hill cemetery. The large number of beautiful floral tributes testified to the esteem in which Mrs. Speight was held.

The funeral of Miss Jessie Reed, the services of which were conducted by the Rev. H. C. Fraser, took place yesterday afternoon at 3 o'clock from her late residence in Mount Pleasant to Fernhill cemetery.

The funeral of Mrs. Julia McAlary took place yesterday afternoon from her residence, 183 Victoria street. Service was conducted by Rev. Dr. David Hutchinson and interment was made in Cedar Hill cemetery.

Miss Anna Case visited the East St. John hospital on Saturday and greeted each of the soldier patients, but was too tired to sing for them. She was accompanied by Miss L. Anderson, Mr. and Mrs. LeLachur, Miss Blanche, Dr. Ferris, Captain Boyce and Miss Hall. A raffia bag made by one of the soldiers was presented to her. In the afternoon a reception was held in her honor at the home of Mr. and Mrs. R. H. Anderson.

**Y. M. C. A. BOYS' BANQUET.**  
The boys' banquet was held in the Y. M. C. A. Saturday evening and was a very successful event. The gymnasium, which the banquet was held, was artistically decorated and about 200 boys were present. A prize for the best decorated table was awarded to the St. Mary's Tuxis boys. A. R. Crookshank, chairman of the local advisory committee, presided. P. J. Punter gave some fine musical selections and H. Usher Miller made the presentations of the various medals and ribbons. A presentation of a handsome leather wallet, containing a sum of money, was made to A. M. Gregg, the retiring boys' work secretary. Captain S. B. Stokes then spoke of the Hed Triangle campaign to be launched this week. It was announced to the boys that the gymnasium classes for the Junior A boys and the Junior business boys would be continued until the end of May.

**LIQUOR LAW ENFORCEMENT.**  
Rev. W. D. Wilson, chief liquor inspector, preached at both services in the German street Baptist church yesterday. He spoke on the prohibition law and said that the administration of this law was confronted with three major obstacles—the discharge of men from the army, unemployment, and too few policemen. He went on to say that the principal agitators against prohibition were men who had been given liquor at the front, men who always had liquor in their homes, and those who aid and abet them, among whom are many whose sworn duty it is to enforce these laws. He claimed that another difficulty was to be encountered in dealing with railroad operatives and operations.

Wheat Crop Over Billion Bushels In United States

Great Congestion Feared and Farmers Urged to Provide Storage Facilities-Last Year's Example
Washington, May 3-With a wheat crop of over a billion bushels in prospect in the United States this season-the greatest crop the country has ever produced-the need for efforts by farmers and elevator companies to market and store the grain with the least possible loss and congestion of traffic was emphasized by officials of the bureau of markets of the United States department of agriculture. In calling attention to this great marketing problem the department of agriculture asserted that every possible measure should be taken to insure the safe storage and handling of this enormous crop. Last year, with a crop of about 900,000,000 bushels, the rushing of the grain to market immediately after harvest caused a congestion all the way from the terminal markets to the family. The wheat "backed up" after the terminal elevators were full and congested the railroads and all country elevators. The result was that embargoes were placed on further shipments until the terminals could be cleared. The winter was, fortunately, an open one, or the loss due to lack of proper storage would have been heavy. Attention was invited today to the situation that prevailed in North Dakota in the winter of 1915-16, following a crop in that state of 150,000,000 bush-

els. Owing to a congestion of elevators at country stations, due to the inability of the railroads to carry the wheat away as rapidly as the farmers hauled it in, platforms were built and hundreds of thousands of bushels of wheat piled up in the open. In addition, great quantities of wheat were stored in improvised bins. One result of this condition was that during the following summer farmers provided themselves with galvanized iron storage tanks on their farms. In Washington and Oregon, last year, and in 1917, many farmers built portable wooden storage bins to hold about 1,000 bushels each. In some parts of the country last summer, especially in Indiana, stacking was a feature of crop handling where it never had been before. Stacking is considered by the department's experts as being only a partial solution to the grain-storage problem which every farmer can apply, and farmers are being urged to consider the question of providing themselves with storage facilities, farm arrangements and portable bins.

NEARLY ALL FOR CHANNEL TUNNEL

Canvas of British M.P.'s—Some Details of the Great Project

A full presentation of the Channel tunnel, as it is designed to be, has been placed before members of the House of Commons in London. Sir Arthur Fell, who is parliamentary spokesman for the scheme, recently sent out inquiries to 800 M.P.'s (excluding Sinn Fein members), and of these 922 had already given their views on the scheme. They are: For the tunnel 810 Against 8 Neutral 4

Under the grey chalk, Sir Francis added, was a bed of gault, which was practically clay, and they could drive a tunnel through either bed. The lining of the tunnel would at first be cast-iron segments, but as they advanced they would remove them, and substitute ferro-concrete.

The debris will be brought out by high-speed endless belts, and deposited probably in a valley which will have to be bought for the purpose, unless some better use were discovered for the excavated chalk or gault.

A site in Kent, possibly ten miles inland, will be selected for the great power station which will work and ventilate the tunnel and do the pumping. As there will be no combustion of coal in the tunnel, the problem of ventilation will be simple.

There will be a water-lock which they can flood so that even a rat could not get through, and they will reserve to themselves the right to blow up some portion of the tunnel in case of an emergency.

It will be possible to run trains from London at intervals of a quarter of an

hour to all parts of Europe and eventually to Bagdad; also to Cape Town via Cairo.

It is not a national, but an international—Anglo-French—scheme.

Project To Tunnel Under St. Lawrence

Montreal, May 5.—Unanimous approval has been given by the Montreal Chamber de Commerce to a project to construct a tunnel under the St. Lawrence River, connecting Montreal with the south shore, and to have a central union railway station in Montreal.

The project as outlined, is that the tunnel would touch on the Montreal side at the very heart of the business district, and that it would permit traffic to enter from the south shore via the tunnel to a station to be constructed between St. Denis street and Victoria Square.

There is another project before the public for connecting the city of Montreal and the south shore—by building a bridge from the harbor front to St. Helen's Island and thence to Longueville.

The project was prepared by the Montreal Harbor Commission and which has had support from the authorities on the south shore. The federal government has been asked to take steps toward carrying out this latter project, but the first mentioned scheme is now finding some enthusiastic and powerful supporters.

They would drive by Greathead shields a rising gallery—the gradient would be one in a thousand—and the tubes would be large enough to take main line trains.

The tunnels would be 100 feet below the bottom of the Channel—a solid cover of chalk over the roof of the structure.

The present proposal is to have a tunnel thirty-two miles from daylight to daylight. On the English side it will start from a point between Folkestone and Dover; on the French side between Grives and Calais.

The whole of the work will be carried out with electricity, with which the tunnel will be lighted and the trains driven. Electrical trains will convey the workmen to and from their work and it is anticipated that the daily rate of progress will be such as, has never before been secured.

The debris will be brought out by high-speed endless belts, and deposited probably in a valley which will have to be bought for the purpose, unless some better use were discovered for the excavated chalk or gault.

Harden Rebukes Hun Arrogance

Recalls Bismarck's Brutal Discourtesy to French Statesmen in 1871

Zurich May 3.—(French Wireless Service)—Maximilian Harden, in the latest number of Die Zukunft, recalls the behavior of victorious Germany in 1871 and the heavy yoke that Bismarck

placed on France, in connection with the situation and the tactics of the German political leaders. "In 1871, at the time of the peace negotiations," he writes, "Jules Favre, annoyed, slightly raised his voice; Bismarck then began to speak in German, although he was perfectly aware that Favre did not know a word of German. When some wonder was manifested at his behavior, the Chancellor declared that there was no need for him to behave more politely than the French plenipotentiaries did. When asked what attitude Germany would adopt in case

of a French refusal to sign the treaty Bismarck replied: "We will continue to occupy the forts. The armistice is not likely to be prolonged, and in any case we will lock up Paris more tightly than before. Our measures will prove efficient when the French feel the pangs of hunger; in the meantime we will ask for their arms and their guns. Let them cry if they like, they would at least realize how ridiculous it is to make formidable threats, which it is impossible to carry out, to a victorious enemy."

"In 1919 the situation is the same for the Germans and the Iron Chancellor would think that we are threatening too much. From the beginning the Weimar Assembly has declared that our opponent had adopted an impudent attitude. Herr Dernburg recently made threats again in the Tageblatt. He also said according to the formula of Karolyi, that if Germany does not obtain the peace she has a right to, she will open her gates to Bolshevism. For the present, let us be content if the honorable duty opens wide to us the gates of the splendid villa he possesses at Grunewald."

Dave Mangan for twenty-seven years on the Pittsfield police force, never has lost a day on account of illness. Some startling seismograph records earthquakes, for which Prof. Kester, Kansas University could not account, were explained when the professor finally noticed some spider webs on his arm after he had been investigating the situation, and found on further investigation that a tribe of spiders had selected the glass case of the seismograph as a home for their families, and had caused the astonishing records by attaching their webs to the recording needles.

IN the mud of France and Flanders, and the dreary desolation of war stood a series of little huts where soldiers from the front line trenches used to come. Sometimes it was a dug-out, sometimes it was a shed, sometimes it was the cellar of a ruined house, sometimes it was a section of a chateau or a barn, sometimes perhaps it was a regular "hut". But always the Red Triangle over the door was the sign of welcome—the sign of hospitality and good cheer, the sign of the soldiers' club. And they called it "the Good Old Y."

Help Y.M.C.A. Maintain Red Triangle Clubs

IN eleven of the principal cities of Canada from coast to coast the Young Men's Christian Association is now operating in separate and distinct buildings Red Triangle Clubs for returned soldiers.

Canada Needs "Y" Service During Demobilization

meeting place while staying over on business connected with the adjustment of their military accounts or their civil re-establishment after their discharge from the army.

Red Triangle Clubs are self-sustaining in part, but in the main they are financed from the Red Triangle Fund. The work is increasing as demobilization proceeds. Three Red Triangle Clubs were in operation last year. This year eleven such clubs are in existence, and in addition similar service is being rendered soldiers in the regular Y.M.C.A. buildings of other cities.

Red Triangle Campaign \$1,100,000 May 5th to 9th

RED Triangle Clubs for soldiers were inaugurated in Canada in April, 1917. A committee of prominent business men in each locality undertakes business supervision, trained managers and bookkeepers are placed in charge by the Y.M.C.A., usually men with a long experience in railway Y.M.C.A.'s or similar work.

Free check rooms for soldiers' dunnage bags and parcels. Reading and writing rooms and free stationery.

Billiard rooms and other games such as checkers and chess. Information about trains, telegraph facilities, and free motor bus to and from railway stations for soldiers and their baggage.

A "Mother's Corner," where buttons are sewn on, socks darned, and little jobs of sewing and mending are done for soldiers free of charge.

An Adjustment Bureau, where soldiers' claims for back pay, war service gratuities, etc., are taken up with the proper authorities and arranged for the returned men.

Commodious shower baths with hot and cold water.

A Social Service Bureau where men are assisted to find employment.

For Soldiers' Wives and Little Ones

For the wives and children overseas, dependent upon Canadian soldiers, a sum of \$175,000 from the Red Triangle Fund will be set aside to cover the work of the Dominion Council of the Young Women's Christian Association.

For Canadian Womanhood

The Dominion Council of the Young Women's Christian Association has also the responsibility of superintending and promoting Y.W.C.A. work for Canadian Women and Girls, which is growing more widely necessary each year.

First Aid facilities for men whose injuries may require immediate attention.

Safety deposit conveniences for money and valuables.

Regular musical and entertainment programmes contributed by Y.M.C.A. workers and voluntary talent; religious services on Sunday afternoons.

For Red Triangle Clubs and service to soldiers in local Y.M.C.A.'s, Military Hospitals, Camps, etc. the National Council is apportioning the sum of \$472,069 in the budget for 1919, and to meet this appropriation a portion of the Red Triangle Campaign objective will be devoted. A sum of \$22,000 is also apportioned for possible new Red Triangle Clubs to be opened during the year.

# The Ladies' Home Journal

## Over Two Million Copies of the May Number

The Government has lifted the restrictions on paper.

Now, I can give magazines of a size I never dreamed of before.

I used to think a 100-page LADIES' HOME JOURNAL a marvel: this month it is 184 pages.

Instead of 4 stories, we are giving 8.

Instead of 40 articles, we are giving 60 and 65 in each issue.

We gave our wonderful war pictures in full colors. Now, we give not only those but the pictures to our stories have started in full colors.

Almost double in size is the magazine; yet the price is the same: 20 cents.

That's what our wounded boys in the hospitals write home. Is it true? We have the right to know the truth. And the truth is here: in an article you can believe. Every one of us who has a boy in the service who is wounded or may get sick should read this story. It is in the May LADIES' HOME JOURNAL.

**8 Short Stories and Serials!**

*Stories That Will Make You Feel Young*

**The 1-Cent-A-Week Man**

A man refused a job at the rate of 1 cent for the first week—2 cents the next—double each succeeding week. The employer then figured out how much he would have earned at the 53d week. No corporation could pay it: the United States Government couldn't. No one could. How much do you think it was? It's in the May LADIES' HOME JOURNAL.

**A Man Shaves 20 Miles**

During his lifetime. That is, he is fair-skinned. If he is dark, he shaves even more. You don't believe it? It's all figured out for every man in a little table, as the razor goes over his face, in the May LADIES' HOME JOURNAL.

**Two Millions of One Magazine**

Last month the public pushed THE LADIES' HOME JOURNAL beyond the 1,900,000 mark. Yet over 20,000 persons were disappointed because they couldn't get the magazine!

This month we not only touch the wonderful 2-million mark but go over it—a figure that no monthly magazine has ever reached; an uncharted land!

The magazine this month reaches the high mark of 184 pages: 60 pages more than any May number in its history.

That means the printing of 368 millions of pages of one issue of one magazine—an edition so gigantic as to be almost unbelievable.

It required a month of all-nights and all-days to print it

*The Curtis Publishing Company*

**Does a Wife Vote Like Her Husband?**

Thousands have said this would happen if women got the vote. Now, is it true? A woman has gotten at the facts, and she tells them, just as they are, in the May LADIES' HOME JOURNAL.

**When Paderewski Closed His Piano**

To become the Premier of Poland we saw one of the most dramatic and romantic pictures of the war. How did it come about? Why did he give up an income of \$200,000 a year? What did he say himself just before he left America? Here is the complete story from information from his own stepson. It's in the May LADIES' HOME JOURNAL.

**Now, Mother Really Would Not Behave!**

So thought her big daughter and bigger son, and they didn't know what to do! For mother would be young—she would be happy; she would push back her yellow locks of hair, smile at her big girl and boy, and then she would do something else. One day out went every old dry dusty book in the house; the next day, old pictures would go and new ones would appear. New colors ran riot over the house. Old wall papers went and new cretonnes came. Then dinner parties began. And mother would go to the games. She would go and live in the college town where her children went. But the climax came when the daughter came home to find her mother swapping chocolate peppermints with her dignified Professor of English Literature. That was too much! The daughter was in despair. The boy merely said "Cee!"

It's just pure comedy in this story—deliciously fresh, rollicking with fun. You'll feel after reading it as if you had a bath of laughter.

**Does Housework Prevent Childbirth?**

A Man Says "Yes"

Here is a startling question. A great Englishman says that all but the glass-eyed will answer "Yes." So Zona Gale went into this throbbing question, investigated it, and her article fairly sparkles with interest. It's in the May LADIES' HOME JOURNAL.

**What are We Women Going to Do?**

So busy were women in war days. But the work is over. Now, what? Hundreds of women are asking this. One woman in Washington has the answer, for she sits at a great gateway of women's industries, and thousands of women write and talk to her. She has dug deep. Read her article that points the way in the May LADIES' HOME JOURNAL.

**Want, Really, to Laugh?**

Then do read about the Professor who really didn't want to kill Germans, but killed and captured them on every hand. He just couldn't help it. The story is in the May LADIES' HOME JOURNAL.

**A Whole Spring Dinner on One Plate**

Why not save steps, plates, dish-washing? And the plates are made so that you can do it. Look, too, what you get on them and what to put on. Beautiful pictures show them to you in the May LADIES' HOME JOURNAL.

**What America Did**

**What Great Britain Did**

**What the People of France Did**

**What the King of the Belgians Did**

**When the Famous Armistice Was Signed**

The world went wild with joy. But four great outstanding events occurred, each the expression of a nation. These four great events have now been preserved in four superb full-color paintings; souvenirs to be treasured of one of the greatest days in the world's history. Thousands of dollars have been spent to make and print these remarkable paintings that you buy for a dime and a nickel.

**I Whacked Him in the Face: The First Time I Met My Future Husband**

Think of starting a courtship in that fashion: a marriage that was to last for fifty years and give to one woman the greatest experiences that could come to her. She really lived the most thrilling romance that a girl could read of or dream of in her wildest dreams. She married Buffalo Bill! And out into that trackless West she went with him. Dangers on every side. And she met them. One after another. What we formerly read in "dime novels" we now read as actually happening, and to a woman. For in the May LADIES' HOME JOURNAL Buffalo Bill's widow begins her autobiography by telling what it meant by "Being Courted by Buffalo Bill!"

**Americanization is Everywhere in the Air!**

But what do they mean by it? We ought to know. It is already a question, and it's going to be a bigger question. The man who knows more about it than anyone else is Secretary of the Interior Lane. That's why THE LADIES' HOME JOURNAL asked him to explain it. And he does in the May number. Read this brief article and you know.

**Keeping Step With Your Husband—A Wife Must in These Days**

How can she? What can she do so that her wifehood will not be a failure? Of course, it is possible—and easy. We asked a woman to find out, and she did. And she tells it in the May LADIES' HOME JOURNAL.

**On What Week-Day Was I Born?**

Thousands ask it. Or, on what week-day will such and such a day fall? There's the best perpetual calendar ever invented, given complete, so that you can cut it out, in the May LADIES' HOME JOURNAL.

**How I Wrote The Battle Hymn of the Republic**

Do you know? The story is very interesting. Not at all in the way you would think such a masterpiece might be written. Julia Ward Howe, in her own words, tells it in the May LADIES' HOME JOURNAL.

**The Two Men in Her Life**

Many a girl has to make the choice that Lillie did. But it isn't easy. And other girls don't find it easy, either. Perhaps they can get help from the story of "Lillie: of the Valley" in the May LADIES' HOME JOURNAL.

**As a Tribute to Our Boys**

What is the wise thing for a community to do? What is a good memorial? What is a wise tribute? A playground? A clock tower? A playground? A town library? Which? Here are 12 pictures of suitable ideas. They're in the May LADIES' HOME JOURNAL.

**"I Tell This Intensely Personal Story Only for One Reason"**

Says an American War Bride

"Because I may convince some girl or wife that her job is not through when her boy comes home from the war, but that it may just have begun!"—And then she tells a story that words cannot describe. Superlatives cannot do it justice. It is the most thrilling American girl's story that has come out of the war: it will stay with every girl and woman who reads it. Only an American girl could have stood up under such an experience: only an American girl could tell it as she does. It is, of itself, worth your buying the May LADIES' HOME JOURNAL.

**Uncle Sam's Bluebirds**

Do you know who they are? The Army Nurses. It's a wonderful story about them—the finest-dressed girls in the world. The bravest, too. Read about them in the May LADIES' HOME JOURNAL.

**Why Her Women's Society Went to Pieces**

Mrs. Elliott was president, and her "society" just wouldn't "go." She wanted to give it "all up." She couldn't get at the trouble. Then, all of a sudden, she did: a trouble that exists with a great many women's clubs and societies. There's a lot in this article for club women. It's in the May LADIES' HOME JOURNAL, and it reads like a story, swift and interesting.

**Want to See Your Boy Come Home?**

Wouldn't you like to go and see your boy land when he docks in New York? If you can't, let us take you there through clever Edna Ferber's pen. She tells you exactly how your boy feels, what he says and what he thinks about coming home. It's in the May LADIES' HOME JOURNAL, with striking pictures.

**Can a Woman Run Her Home as a Man Runs His Business?**

Most women say "No: It can't be done." But, is that so? At least, here is the man who has gone into this subject deeper than any other man in America. Read what he says. He shows how it can be done. It's in the May LADIES' HOME JOURNAL.

Everyone will recall the sensation that was caused when M. Bleriot flew the English Channel. That was only ten years ago, yet, today, it is quite a common thing for the British prime minister, or the chancellor of the exchequer, or Marshal Foch, or the King of Belgium, or anyone of importance who is in a hurry, to cross the Channel in an airplane.

In connection with its \$50,000 prize for the one who first flies across the Atlantic the London Daily Mail says there

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If Cross, Feverish, Constipated Give 'California Syrup of Figs'

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

Ask your druggist for a bottle of 'California Syrup of Figs.' It has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by 'California Fig Syrup Company.' Refuse any other kind with contempt.

will be a dramatic appropriateness in the making of the Atlantic flight this year—the centenary of the date when the little steamship Savannah crawled across the Atlantic in twenty-five days with her 90-horse-power engine, helped by sails.

The smallest airplane entered for the Atlantic flight has a speed of a hundred miles an hour and 285 horsepower—three times as much as that used by the first steamship to make the journey a century ago.

Thirty years after the Channel was flown the flight of the Atlantic is being attempted. Once it has been successfully done it will not take long to so perfect the method and manner of it that flying across the ocean will become an everyday occurrence.

WHAT GERMANY WOULD HAVE TAKEN

Terms Which Erzberger Was in Favor of Imposing — Would Wipe Out Neutrals

Paris, May 5.—The terms that Matthias Erzberger was in favor of imposing on the Allies if Germany had been victorious, as set forth in a memorandum written by him in 1914, are outlined by a Geneva despatch to the Journal, having been received at Geneva from the private secretary of the late Kurt Eisner, the former Bavarian premier.

"Germany, in the first place, cannot tolerate the presence on her frontiers of so-called neutral states insufficiently strong to preserve their neutrality or which do not want to remain neutral," said Erzberger. "Her second aim must be to free herself from the insupportable leading strings of England on all questions of world policy. In the third place, she must break up the Russian colossus.

"Consequently Germany must have sovereignty, not only over Belgium, but the French coast from Dunkirk to Boulogne, and possessions of the Channel Islands. She must also take the mines in France Lorraine and create an African-German empire by annexing the Belgian and French Congo, British Nigeria, Gabon and the French west coast.

"In fixing indemnities, the actual capacity of a state at the moment should not be considered. Besides, a large immediate payment, annual installments spread over a long period could be arranged. France would be helped in East Prussia; by decreasing her budget of naval and military appropriations, the reductions to be imposed in the peace treaty being such as would enable her to send substantial sums to Germany.

Indemnities should provide for the repayment of the full cost of the war and the damages of war, notably in East Prussia; the redemption of all of Germany's public debt and the creation of a fund for unemployed soldiers."

The memorandum was received by Dr. Theobald von Bethmann-Hollweg, the then Imperial chancellor, with reserve, and General Falkenhayn, in acknowledging its receipt, wrote that "the white hard nuts to crack yet," a view which was shared by General von Mohlke and Admiral von Tirpitz.

POLICE CAPTAIN DEAD RESULT OF RIOTING

Boston Official Unable to Stand Strain and Exertion—Many Prisoners Are Sentenced.

Boston, May 5.—The rioting in Roxbury May 1 day caused the death of Police Captain Hugh J. Lee as the result of the strain and exertion. Five other men were sent to the hospital the result of wounds and other injuries. The rioters arrested more than 100 persons, many of them suffering from injuries received at the hands of the police and indignant observers of a demonstration, held without authority and marked by the carrying of red flags and the absence of the flag of the United States.

Representatives of the federal department of justice were among those in the courtroom and observed the proceedings closely for the purpose of ascertaining if the rioters violated federal law. Many of the prisoners were sentenced to serve short terms in the house of correction.

JOSEPH JEFFERSON, ACTOR, DEAD

Joseph Jefferson, actor, a member of the famous Jefferson family, nearly blind, who was afflicted with cancer, died last week at his home in New York. Death was due to a cancer from which Mr. Jefferson had suffered for nearly two months ago for an operation and the surgeons discovered that he was afflicted with cancer. Mr. Jefferson was taken home, and during the past month had suffered greatly and undoubtedly death was a relief.

Joseph Jefferson was the son of a famous actor of the same name. He was born forty-nine years ago last July in New York City and went on the stage for the first time in his father's company, playing in "Rip Van Winkle," twenty-four years ago. Before becoming an actor Mr. Jefferson had fitted himself for the work by studying in London.

He played for two seasons the part of Sir Lucius O'Trigger in "The Rivals" in support of his father and later starred in "The Shadows of a Great City" and "Puddin' Head Wilson." He also played the leading part in "Playing the Game." He had appeared in the title role of "Rip Van Winkle," made famous by his father.

For five years preceding his illness Mr. Jefferson played in vaudeville theatres, his sketches being written for him by William C. DeMille.

Mr. Jefferson was married in 1891 to

THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound is Prepared For Woman's Use.

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attend the making of this great medicine for woman's ills.

Over 350,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most successful solvents are used to extract the medicinal properties from these herbs.

Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.

The Bitters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtues.

DYSPEPSIA MAN'S GREATEST ENEMY

Is Most Prevalent of All Present Day Diseases, Declares L. T. Cooper—Victims are Whimsical and Melancholy and Suffer Great Mental Depression—Disease Can be Cured, He Says.

Explaining the record-breaking purchase of Tanlac by The Ross Drug Co., F. W. Munro, National Drug & Chemical Co., and the leading wholesale and retail druggists throughout the United States and Canada, Mr. E. C. Harris, special representative of the International Distributor of Tanlac, states that the hundreds of questions now being asked all over St. John make it imperative that some explanation be made to satisfy public interest.

Speaking of Tanlac, he said: "Thousands of the most prominent people—in fact, people representing all walks of life in the larger cities of the country, where the celebrated medicine has been accomplishing such remarkable results, are even more enthusiastic over Tanlac than Mr. Cooper himself."

"In explanation of this, it should be stated that Tanlac is believed to be the first actually direct specific for catarrhal inflammation of the mucous membrane and the complications which follow them.

"Catarrh of the stomach is one of the most frequent causes of dyspepsia and catarrhal inflammation of the nose and throat, leads to inevitable complications, such as kidney and liver affections, rheumatism, etc.

"Show me a man whose eyes are inflamed, whose sense of smell and hearing is affected, and I will show you a man who is suffering from catarrh. Frequently the lungs become involved by the extension of the catarrhal inflammation or germs to the lung substance.

Specialists concede this but it has remained for Tanlac, the new formula, to provide the remedy, as has been so conclusively and convincingly proved by the hundreds of thousands who have been relieved by its use."

"At this point, Mr. Harris quoted from one of Mr. Cooper's recent lectures in which he said:

"Of all the distressing conditions that afflict humanity, catarrh of the stomach, or what is more commonly known as chronic dyspepsia, is probably the most prevalent. The most universal malady which has baffled the medical profession for years, and the most skilled specialists have been unable to cope with it successfully."

"Hours might be consumed in describing the sufferings of chronic dyspepsia and their failure to heretofore get relief. A morbid, unreal, whimsical and melancholy condition of the mind, aside from the nervousness and physical sufferings, is the usual condition of the average dyspeptic, and life seems scarcely worth the living."

"Dyspepsia, or indigestion, as the case may be, is caused by the taking of too much food, or unsuitable food, and the mucous membrane of the stomach becomes irritated, and there is set up an acute or subacute gastric catarrh con-

dition which prevents the proper digestion of the food.

"This food is apt to ferment and decompose and as a result the familiar distressing symptoms of dyspepsia may arise. In mild cases there is nothing more than an uncomfortable feeling in the stomach, with a certain amount of vomiting, headache, loss of appetite, perhaps belching of gas and occasional depression. There may be also accompanying intestinal symptoms, such as pains in the back, colic, etc. There may be only the familiar heartburn, due to the inflammation of the stomach from excessive gases of fermentation or putrefaction."

"In the most severe cases—those that last over a day or two—the symptoms enumerated may be much more intense. The distress may be marked and the general constitutional symptoms more evident. When this stage is reached, the loss of appetite, and mental depression and the general uncomfortable feeling in the stomach are much more pronounced. This is particularly true in acute gastritis.

"It frequently occurs from continued errors in diet that this condition becomes chronic and the symptoms persist for an indefinite period, the appetite is very apt to be varied, although at times very good. Heartburn is frequent, if not constant, the stomach is painful on pressure, the tongue is coated, there is a bad taste in the mouth and there are changes in the amount of salivary secretion.

"Most cases of dyspepsia can be cured if the diet is properly looked after and by the proper treatment. Proper eating and the proper amount of food are the most important features in the treatment. Most people eat too fast and too much."

"There is not a single portion of the body that is not benefited by the helpful action of Tanlac, which begins its work by stimulating the digestive organs, thereby enriching the blood and invigorating the whole system. Next, it enables a weak, worn-out stomach to thoroughly digest the food, promoting the assimilation of the nourishing products to be converted into blood, bone and muscle."

Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative.—Adv't.

Pol Perritt Joins.

The New York Times says that Pol Perritt, who was one of the Giants' most dependable pitchers last season, was to report for duty today. Fred Toney, a husky pitcher, who was bought last year from Cincinnati, is also expected to report this week, and the New York pitching staff will be greatly strengthened. The Giants' pitchers this spring have been slow in getting started and Toney is badly in need of the services of Perritt and Toney.

Last year Perritt won eighteen games for the Giants and lost thirteen. He was the best rescuer McGraw had. Pol saved many a game after it had slipped away from some of the other pitchers.

Ray Hansen Succeeding.

The Toronto Globe's heading over a London, Ont., dispatch reads: "Hansen Shows Form at London Practice; Recruit Twirler Recently Released by Leafs is Making Good." In the dispatch it is stated that "Hansen, Gilbert and Cleary pitched to the batters, and the former pair buzzed the ball over in mid-season form. Hansen, the St. John boy, has been bothered by a sore pitching finger but this is getting better."

**Is Great Scarcity Of Women Workers**  
Ontario Employment Bureau Reports Increasing Demand for Female Help (Toronto Star)

Where are the women? This is the question being asked by the Provincial Government Employment Bureau. Never was there such a scarcity of female help in all branches of labor. Even though the west, calls for help have been sent to this bureau and a similar shortage is reported there.

In the factory department an increasing demand for girls is reported. Numerous vacancies are reported in such lines as labelling, packers, operators and machine work. During the week there were forty-one girls applied for positions, forty-two employers' orders and forty-three girls placed.

Excellent opportunities were extended to girls who would like positions in the west this week. From Regina a call for a dozen or more girls was sent in to do stenography work, and fill government positions. The salaries were reported to be around \$85 a month. "There have been about seventeen university girls applying for summer work. They might like a position of this nature," said the Rev. J. A. Miller. "We really need every girl we can secure, however, for our own province." In the past week there were ninety-one girls applied for positions, thirty employers' orders and thirty-five positions filled. Fully fifty stenographers sent in their applications, but only nineteen were placed, as the demand is for experienced girls. Out of twenty-four clerical workers there were fourteen employers' orders and fourteen placed.

**Domestic Situation.**  
The domestic situation is reported more serious than ever. "We simply cannot get a hold of the girls. One would almost think they had left the country, as we have placed fewer than ever this week. There were twenty girls seeking positions as domestics, sixty-three employers' orders and only five placed. Only one cook was reported to have made her appearance at the bureau during the entire week. The totals in all lines of work including the casual workers for the week, were forty-one applications for work, 131 employers' orders and twenty-one positions filled. In the out of town districts there were nine girls asked for work, twenty-two employers' orders and one vacancy filled. Mistresses have become discouraged, and are seeking for men to do housework now," said Rev. Miller, as he told of a woman in Rosedale who secured a boy in his second year at high school, who was forced to give up his schooling. He is doing all the cooking and waiting on table for \$40 a month and board, and attends night school. "If we could get a few more lads like this one, it might ease up the situation, he said."

In the farm department, an urgent demand for 500 male workers was reported. Farmers are in a deplorable state owing to the lack of experienced help. The need for production is greater than ever this year as we have our men at home now, and they should be induced to go to the farms, concluded Rev. Mr. Miller.

**ONE OF THE MEN IN THE LIQUOR AND FALSE PRETENCE CASE RETURNED OFFICER?**  
A new development has come in the O'Hara and O'Reilly case, and that is that a letter was found by the detectives addressed to Captain J. Hamilton Catty. It is inferred from this that Catty or O'Hara was at some time an officer in the army, or else that he is using another man's name. It has been found by the detectives that the other accused is rightly named O'Reilly.  
A Fredericton despatch says:—"Returned soldiers who were with the first contingent remember C. Hamilton-Catty, who has appeared in St. John in connection with a recent prohibition case as Chas. O'Hara, as a lieutenant in the 17th N. S. Highlanders."

**Inspector Wilson Supported—The Protestant Orphanage—Wholesale Liquor Vendorships**  
A meeting of the Evangelical Alliance was held this morning in the Y. M. C. A., with Rev. Neil J. McLaughlin, second vice-president, in the chair. Mr. Campbell, of the Orange Order, on behalf of the committee appointed to look after the securing of property for the Protestant Orphanage, reported that the committee had some properties that they were investigating, but they would need the assurance of financial support. The Alliance recommended that the Protestant churches of the city be asked to make a contribution to the movement for the securing of the greatly needed additional accommodations.  
A letter was received from the Alexander Temple of Honor, asking for the appointment of a committee to work with a like committee in the Temple and also with one from the Good Templars for securing a better enforcement of the Prohibition Act. The committee consisted of Rev. Messrs. F. E. Boothroyd, G. A. Kuhring, Mr. Marshall, H. C. Fraser and Dr. Hutchinson.  
Rev. W. D. Wilson, chief inspector under the Intoxicating Liquor Act, explained to the Alliance regarding the employment of the two men who declared themselves detectives under his employ. After asking him questions and thoroughly canvassing the whole matter, the following resolution was passed:  
"That the Alliance, having heard the inspector's story of recent temperance developments, express their complete satisfaction, and rejoice that the position is occupied by a man of his capacity, honor and courage, and that we pledge him our sympathetic support."  
A motion was passed appointing a committee to wait on the premier of the province asking him to bring into effect on November 1, an Order in Council to have the wholesale liquor trade in the hands of a commission instead of through the present three wholesale houses. The committee consisted of: Revs. H. A. Goodwin, Neil J. McLaughlin, F. S. Dowling, W. H. Sampson, Canon Armstrong, J. A. MacKeigan, W. R. Robinson, Dr. Hutchinson, Mr. Appelmann, J. C. B. Appel, Mr. Pinkett, Brig. Moore and Adjutant Usaki.  
A committee was also appointed to make arrangements regarding the celebration of the signing of peace. It consisted of Revs. H. A. Goodwin, Canon Armstrong, J. A. MacKeigan, D. J. MacPherson and Mr. Appelmann.  
A resolution was made as follows:  
"That the Alliance have heard with pleasure the proposed appointment of an industrial secretary of the Y. M. C. A. at St. John, and authorize its committee to co-operate with such an appointee with a view to more effectively carrying out our programme." The meeting adjourned after a very busy session.
